## THE FOUNT OF YOUTH.

In days primeval De Leon Sought in these western wilds a boon; He wandered weary years, forsooth, But never found the Fount of Youth.

Beneath Italia's airy dome Vesuvius rears its awful form, A snowy veil enshrouds its crest, Lo,—now the sun sinks to his rest.

The amber bars of cloudland fade; Ray after ray steals through the glade, And whispers through the violet's dell, "Farewell, departing day, farewell."

But as it dips the western wave Vesuvius rises from his grave, Arrayed in gold and purple sheen, The shadow of a heavenly dream.

There in the twilight, father Time Is held entranced with the sublime, Though centuries whirl a giddy reel Fresh grandeur circling suns reveal.

The master hand who paints those peaks In burning, dazzling, blinding streaks, Invites you to this land of truth; In heaven you'll find the Fount of Youth.

—Reformed Church Messenger.

## POPULAR ERRORS.

Good old Sir Thomas Browne nearly 25 years ago published a book which he called "Pseudodoxia Epidemica." It has been more commonly known as "Browne's Vulgar Errors," a glaring misnomer for the errors of which the book treated were not Sir Thomas's at all. The author, who was a doctor of medicine, took up, one after another, many superstitions and mistakes that were common in his day and explained away each one, to his own satisfaction at least, though it must be admitted that in the light of modern science some of his explanations were nearly as erratic as the errors themselves. He showed that the phoenix was a myth and that a man had as many ribs as a woman, and by the setting forth of many more such bits of cold fact he displayed a large amount of interesting information and common sense. If the old doctor aimed simply to make a delightful book of its kind he succeeded, but if he hoped to banish error from the world his success was at best only partial, for that lively old Spenserian dragon still roams about with almost as much freedom as it did in 1646.

It is remarkable how many mistakes in regard to simple matters of fact people carry through life with them, and how universal some of these apparently quite unnecessary errors are. For example, it would seem as if some well educated people, familiar with English literature, ought to know the names of Shakespeare's plays accurately. But do they? The other day four college graduates were discussing the question whether one of the plays was called "A Winter's Tale," or "The Winter's Tale," and they decided by a vote of three to one that it was "A Winter's Tale."

Probably nine people out of ten would say that the name of the play usually printed first in editions of Shakespeare was "The Tempest," but it is not. Such little inaccuracies as these are to be expected perhaps, from the general run of mankind but one would think that, of all the people in the world those employed at theatres to do work implying a knowledge of Shakespeare ought to have that knowledge. Yet on the act drop of one of the fashionable theatres of this city there is painted a scene which, according to the inscription in large letters below it, is from "Love's Labor Lost."

Leaving the names of plays and coming to lines and passages from the text, more mistakes would naturally be expected and more will be found, the remarkable point being the unanimity with which hundreds of people constantly misquote the same familiar passage. It is common to hear many people speak of "the bear and yellow leaf;" this sounds like a quotation and is doubtless intended to be one from "Macbeth," Act V., Scene III., but there the words are: "My May of life is fall'n into the sea, the yellow leaf." One of the commonest quotations on English speaking tongues is: "The bourn from which no traveler returns;" yet this is wrong, of course, and if it were not so common it would seem hardly complimentary to the

reader to say that it should be: "The undiscovered country, from whose bourn no traveler returns." A favorite line with the Americans is "Westward the star of empire takes its way." There is a little error here; the line is from Bishop Berkeley's "Verses on the Prospect of Planting Arts and Learning in America," and the whole stanza is:

Westward the course of empire take thy way  
The four first Acts already past,  
A fifth shall close the drama of the day;  
Time's noblest offspring is the last.

But perhaps the Bishop deserves to be misquoted for using such grammar as "The four first Acts." It may grieve many to know: "First in war, first in peace, and first in the hearts of his countrymen" is a misquotation. The correct words, "First in war, first in peace, and first in the hearts of his fellow citizens," are from a set of resolutions on the death of Washington prepared by General Lee and adopted by Congress.

One of the commonest errors is the attributing of a quotation to the wrong author. A learned young man was heard to insist the other day that the lines beginning "Full many a gem of purest ray serene" were from Goldsmith's "The Traveler," and a certain college president, some time ago, in a public speech, credited "Sound the loud timbre o'er Egypt's dark sea" to Byron instead of to Moore. Ask a number of people who wrote "When lovely woman stoops to folly," and at least half of them will say Byron, while perhaps not more than a quarter of them will know that it was Goldsmith. Ask the same people who wrote "Be good, sweet maid, and let who will be clever," and a few will say Byron, strangely enough; many will guess Longfellow, but few indeed will hit on the real author, Charles Kingsley.

But the champion puzzle of all is, where are the words: "God tempers the wind to the shorn lamb," often quoted "Heaven tempers," &c.? Out of a hundred people, ninety will say that this line is from the book of Proverbs, nine will say that it is from the New Testament, one will admit that he does not know. Quote the words just as their author wrote them: "God tempers the wind," said Maria, "to the shorn lamb," and the faith of the ninety and nine will be shaken. They are from Laurence Sterne's "Sentimental Journey." And, by the way, this same little book contains another quotation that many must have heard without knowing its author, though they probably did not attribute it to the Bible. It is: "I can't get out, or 'The Winter's Tale,'" and they decided by a vote of three to one that it was "A Winter's Tale."

Yet on the act drop of one of the fashionable theatres of this city there is painted a scene which, according to the inscription in large letters below it, is from "Love's Labor Lost."

Leaving the names of plays and coming to lines and passages from the text, more mistakes would naturally be expected and more will be found, the remarkable point being the unanimity with which hundreds of people constantly misquote the same familiar passage. It is common to hear many people speak of "the bear and yellow leaf;" this sounds like a quotation and is doubtless intended to be one from "Macbeth," Act V., Scene III., but there the words are: "My May of life is fall'n into the sea, the yellow leaf." One of the commonest quotations on English speaking tongues is: "The bourn from which no traveler returns;" yet this is wrong, of course, and if it were not so common it would seem hardly complimentary to the

## THE DEAR OLD DAYS.

Scene—A rocky road in the Catskill Mountains. The passengers are descending from a stage coach, to enable the tired horses to pull it up a steep hill. Mr. Edwin Wedde is helping out his bride, Angelina. Angelina (alighting). "I vow and protest, Edwin, I shall faint with fatigue! Another of these shocking hills to climb, and my legs are so cramped that I can hardly set one foot before the other!" Edwin. "Gad, I believe you! Dey'lish hole, that back seat."

Angelina. "Don't swear, Edwin. I could endure it all if it were not for that hideous man in the blue surcoat. Fough, where are my salts? It makes me faint to think of it. What may the wretch be—a shoemaker?" Edwin. "Dem'd tanner, I fancy."

Angelina. "Don't swear, Edwin. But such people should have separate conveyances for themselves. I suppose there's no hope for that, though—we're too democratic in this country."

Edwin. "Ya-as. Too cursed democratic by half."

THE want of the canal is even felt in the public schools of this place, where, we have been reliably informed, the indigent list has increased almost fifty per cent.—Williamsport Transcript.

THE October issue of the Eclectic is full of variety and interest. The place of honor is given to "Gounod's Views on Art and Artists," full of brightness and suggestion. Canon Farrer, under the head of the "Nether World," studies low life in London. Mr. R. S. Courtney contributes a very interesting sketch of Roger Bacon. A practical article of importance is that of Dr. Behrend in "The Diseases Caught from Butchers' Meat," and a paper which appeals to the interests of the time is Mr. Paul Neumann's presentation of "The case against capital punishment." Two highly readable articles of travel will be found in "My First Visit to Zimne," and Professor Freeman's "Sicilian Travel, 1878-1889." F. Legge is the author of an entertaining paper on the new fad, the attempt to revive the ancient mysticism and natural magic of the Hindoos. Walter Pater is at his best in the quaint and poetic essay "Hippolytus Unveiled." Mr. Grant Allen contributes a very bright article called "Tropical Education," and the sketch of the "Comedie Francaise" will attract all lovers of the drama. Principal Donaldson advances news in his "Position of Women Among the Early Christians," which, if not absolutely new, will yet prove startling to the average reader. The poems and short articles of the number are of a high grade, and the whole table of contents very attractive.

Serious Fall.

On Wednesday evening as Rev. Dr. Simonton was coming out of his house, he struck his knee on one of the large stone seats at the side of the step and was thrown violently to the pavement, striking his head on the curb stone so severely as to knock him insensible. Fortunately some of the neighbors discovered him almost immediately, and carried him into the house, where he at once regained consciousness. We are glad to report that he has entirely recovered, except from the bruises received.

A Scrap of Paper Saves Her Life.

It was just an ordinary scrap of wrapping paper, but it saved her life. She was in the last stages of consumption, told by physicians that she was incurable and could live only a short time; she weighed less than seventy pounds. On a piece of wrapping paper she read of Dr. King's New Discovery, and got a sample bottle; it helped her, she bought a large bottle; it helped her more, bought another and grew better fast, continued its use and is now strong, healthy, rosy, plump, weighing 140 pounds. For fuller particulars send stamp to W. H. Cole, Druggist, Fort Smith. Trial Bottles of this wonderful Discovery Free at all Druggists.

Woman's Missionary Society.

The seventh annual session of the Woman's Home and Foreign Missionary Society of the Maryland Synod, Ev. Lutheran Church, was held at Mechanicstown this week.

The synod includes the churches in Maryland, with four outside the State, in Waynesboro', Pa., Lovettsville, Va., Harper's Ferry and Grafton, W. Va. There are in all 58 societies, with a total membership of 1,907. The delegates named by these societies number about 80, of which probably 60 were present at the opening of the session.

An excursion train was run from this place to Mechanicstown on Tuesday which conveyed over forty persons, who attended the meeting. Mrs. A. H. Maxell was the delegate from Emmitsburg. The convention adjourned on Wednesday morning. In a vote taken as to the place of holding the next meeting, Taneytown received a majority.

Excursion to Washington.

The Triennial Conclave of the Knights Templar will be held in Washington, D. C., October 8th to 11th, 1889 and will be the largest gathering of its kind ever held in this country.

Excursion tickets will be sold to Washington from all stations on the B. & O. R. R. for all trains October 5th, 6th, 7th and 8th, at rate of one fare for the round trip, valid for the return journey until October 31st, inclusive.

October is one of the pleasantest months in the year to visit Washington and inspect the magnificent public buildings, museums and monuments.

During the period of the conclave popular excursions will run by the B. & O. from Washington to Gettysburg, Harper's Ferry, Luray Caverns and other points of interest.

Passengers are landed in Washington at the B. & O. station, one block from the Capital. Guide books to Washington will be furnished upon application, by all B. & O. Agents.

The Century Magazine for October.

opens with George Kennan's description of East-Siberian Silver Mines and their working. C. Coquelin writes of the comparative merits and genius of "Moliere and Shakespeare;" "Base Ball—for the Spectator" is the subject of a very readable article by Walter Camp; "The History of Lincoln reaches 'Blair's Mexican Project; the Hampton Roads Conference, and the 13th Amendment;" W. J. Stillman in his "Italian Old Masters" writes of "Fra Filippo Lippi;" "Three Jewish Kings" is the title of a pleasantly written and admirably illustrated contribution from the pen of E. L. Wilson; Mary Halleck Foote in her pictures of the Far West, describes "The Pretty Western Girls;" the City Editor (Young E. Allison) furnishes a story called "The Longworth Mystery;" "Ben and Judas" by Maurice Thomson, is a story of the old slave days, and claims to be a veritable history of facts; Maria Mitchell's "Reminiscences of the Herschels" has more than ordinary claims on the appreciative reader from the fact of Miss Mitchell's wonderful personality; Joel Chandler Harris's story, "The Old Bascom Place" is brought to a peaceful and happy conclusion; Nicholas M. Butler writes of "The Training of the Teacher," and "Manual Training as a Factor in Modern Education," is discoursed of by Francis N. Thorpe; "The Democratic Ideal in Education;" "Topics of the Time;" "Open Letters" together with the usual collection of "Eric-a-Brac," and much other good reading matter make the October number of the Century Magazine peculiarly attractive.

Mr. CHAS. C. KRETZER purchased the property owned by Miss Lou Guthrie on East Main street, last week.

Dyspepsia.

Makes the lives of many people miserable, and often leads to self-destruction. We know of no remedy for dyspepsia more successful than Hood's Sarsaparilla. It acts gently, yet surely and efficiently tones the stomach and other organs, removes the faint feeling, creates a good appetite, cures headache, and refreshes the burdened mind. Give Hood's Sarsaparilla a fair trial. It will do you good.

Mr. DAVID McCONAUGHY, Jr., formerly of this place, and Miss Lillie P. Ruston, of Brooklyn, N. Y., were married at the latter place, on Tuesday the 24th ult. The bridal party visited Mr. McConaughy's parents in this place Thursday and Friday where they received the congratulations of many friends. They will sail for India to-morrow, (Wednesday) and make their future home in Madras. Mr. McConaughy addressed the students of the College on Thursday evening.—Star and Sentinel.

Consumption Surely Cured.

To THE EDITOR.—Please inform your readers that I have a positive remedy for the above named disease. By its timely use thousands of hopeless cases have been permanently cured. I shall be glad to send two bottles of my remedy FREE to any of your readers who have consumption if they will send me their express and post office address. Respectfully, T. A. SLOCUM, M. C., 181 Pearl st., N. Y.

Grape Juice for Sickness.

The art of cultivating the Oporto vines and fermenting the Oporto Grape into wine in this country, and of preserving the Grape Juice fresh without fermentation has been brought to a greater degree of perfection by Mr. Alfred Speer, of Passaic, N. J., than by any other person; in fact, he was the pioneer in introducing and advertising Native Wines. He has purchased hundreds of tons of grapes, besides his own vintage. Mr. Speer's success has arisen from the strict purity and valuable properties of his wines for invalids and feeble persons, and his reputation extends around the world.

Democratic Convention.

The Democratic County Convention met at Frederick last Saturday and nominated the following ticket: Sheriff, Otho J. Gaver, of Jackson. County Commissioners, Eugene L. Granville Thomas, of Frederick; Ephraim L. Boblitz, of Mechanicstown; William H. Lakin, of Jefferson; George R. Stettelmeyer, of Catoctin; Ezra Minnick, of Middletown. Surveyor, William H. Hilleary, of Frederick.

Euppey.

This is what you ought to have, in fact, you must have it, to fully enjoy life. Thousands are searching for it daily, and mourning because they find it not. Thousands upon thousands of dollars are spent annually by our people in the hope that they may attain this boon. And yet it may be had by all. We guarantee that Electric Bitters, if used according to directions and the use persisted in, will bring you Good Digestion and out the demon Dyspepsia and install instead Euppey. We recommend Electric Bitters for Dyspepsia and all diseases of Liver, Stomach and Kidneys. Sold at 50c. and \$1.00 per bottle by all Druggists.

THE NEW WAY.—Improvements and advancements are the order of the day, and in nothing more than in Clothing. Don't we all remember the way we were clothed by our mothers? How the "stuff" was bought, and the bags called trousers made? But why dwell on this? The newest way is to get your Clothing from some first-class, reliable and stylish Clothing House and appear dressed, and as well dressed as if a New York or London Tailor had served your commands. This can be done by Oehm's Acme Hall, 5 and 7 W. Baltimore Street, Baltimore, Md., whose immense establishment is richly stocked from cellar to roof with the finest stock of Best-Made Clothing and Furnishings, for Men and Boys, at prices that please everybody's pocket. A specialty of this house (see their large ad. elsewhere) is Suits and Furnishings by mail, and they give satisfaction, under guarantee, every time. We know it by experience.

Opening to-day at J. L. Hoke's.

At the opening to-day and to-morrow at J. L. Hoke's is to be seen the finest display of hats, bonnets and all sorts of Millinery goods that he has ever had. His efficient trimmer, Miss Helen Hoke has displayed more than her usual good taste in the construction and decoration of some fifty or sixty hats and bonnets, which are of exhibition there now. Among the most artistic hats are the *Lagoda* which is trimmed in a new shade of terra cotta, the *Pearles* which is unusually stylish and attractive, the *lantha* that would be charming on anyone of *spite* form, a white hat called *Romp*, that is beautiful and just suited for the dainty miss of 12. The *Melrose*, *Alma*, and *Gedwin* are equally lovely. If there were room to describe them, and the daintiest there, is a little *Green Togue*, of Paris style that is made of lace, and other pretty things, and is quite a little wonder in its way. The satins, silks, plushes, ribbons, velvets, &c., are beautiful and arranged for the opening in such an artistic manner as to reflect much credit on Miss Hoke and Miss Lawrence. Mr. Hoke has for years been engaged in the millinery business with much success, and his opening this season will doubtless increase the patronage he richly deserves.

ORDER OF PUBLICATION.

No. 5601 EQUITY. In the Circuit Court for Frederick County, sitting in Equity.

SEPTEMBER TERM, 1889.

Michael Lingg and Marjary A. V. Lingg his wife, Plaintiffs, against Richard J. O'Toole and Anna V. O'Toole his wife, Thomas E. Warthen and Louisa Warthen his wife, George Livers and Mary H. Livers his wife and Emma L. O'Toole, Defendants.

The Bill in this case is filed to procure a decree for the sale of certain Real Estate in Frederick County, of which Ann C. O'Toole and Thomas O'Toole her husband died seized and possessed, and that the proceeds of said sale may be distributed among the parties entitled thereto according to their respective rights.

The Bill states: 1. That Ann C. O'Toole, late of Frederick County, deceased, was in her lifetime and at the time of her death, seized and possessed of certain Real Estate, situated in Frederick County, which said Real Estate is described in a deed from Matthew Moran and wife to the said Ann C. O'Toole, a certified copy of which is filed with the bill marked Exhibit A.

2. That Thomas O'Toole, the husband of the said Ann C. O'Toole, late of Frederick County, deceased, was also in his lifetime and at the time of his death seized and possessed of certain other Real Estate situated in Frederick County, which said Real Estate is described in two deeds, one from William H. Dorsey and wife, the other from John T. Peardon and wife, to the said Thomas O'Toole, certified copies of which are filed with the Bill, marked respectively Exhibits B & C.

3. That the said Ann C. O'Toole died intestate some years ago and that the said Thomas O'Toole, her husband, after surviving her some years also died intestate on or about the seventeenth day of September in the year Eighteen hundred and eighty-nine.

4. That the said Ann C. O'Toole and Thomas O'Toole her husband, left surviving them at the time of their deaths, the following children and heirs-at-law: (a) The plaintiff, Marjary A. V. Lingg intermarried with the plaintiff Michael Lingg, both of whom are of full age and reside in Frederick County.

(b) The defendant Richard J. O'Toole, intermarried with the defendant Anna V. O'Toole, both of whom are of full age and reside in Frederick County.

(c) The defendant, Louisa P. Warthen intermarried with the defendant Thomas E. Warthen, both of whom are of full age and reside in Frederick County.

(d) The defendant, Emma L. O'Toole, who is an infant, unmarried and resides in the State of New York.

5. That the said Real Estate owned by the said Ann C. O'Toole and by the said Thomas O'Toole, her husband, at the times of their respective deaths, descended to their said children,

A Sarcastic Thunderbolt.

In a thunder storm recently the Jefferson Physical Laboratory of Harvard University was struck by lightning. A number of students were in the building at the time, but fortunately nobody was hurt.

The electric current passed down the chimney and through an iron door into the ground with a tremendous explosive report.

It seems strange that the home of physical science at the greatest institution of learning in the country should be so inadequately protected against lightning as to be struck by a thunderbolt.

There is a popular impression, it may be that it is erroneous, that the intelligent application of metallic conductors to the exterior of a building will prevent destruction or injury by lightning to the edifice or its inmates.

The unprecedented destructiveness of lightning this season gives exceptional interest to these inquiries. A man was killed by lightning at Fitchburg, in eastern Massachusetts, in the very storm in which the Physical Laboratory at Cambridge was struck; and only a few days earlier there was a fatal lightning accident at East Brookfield.

The possibility of protection against lightning is thus seen to be a question of contemporaneous human interest quite as important as the question whether a criminal can be put to death painlessly by passing an electric current through his body.

We wish the men of science who are competent to speak on the subject would tell us less about making electricity kill people and more about preventing it from killing them.—N. Y. Sun.

Limited Capacity.

Many persons are unaware of the significance of the word "limited," following the title of a corporation, and even those who are fully posted in regard to the liability limits of the shareholders in a corporation having that name attached to it will find the following facts of interest.

The old principle of corporations created by legislation was that the entire debts of every stockholder was liable for the whole property of every member of the general partnership is still liable for the total debts of the firm.

This system made every shareholder responsible for bad management of which he might not be guilty, and deterred wealthy men from becoming interested in the shares of the corporation. To remove this objection the principle of limited was introduced, and in order to notify the public that only the separate property of the corporation was liable for the debts of the corporation the English law requires that the word "limited" shall be used by the company.

Most American corporations are incorporated on the principle of limited liability, but few, if any, of the States enjoin the companies to append the word "limited" to the corporate titles.

HANDSOME picture frames may be made at home, by gluing cars of rye or oats, tiny shells, beans, or acorns, upon a simple wooden foundation. Then coat the frame and ornament with paint. When this is thoroughly dry, cover with metal, either gold or bronze, and if well arranged the effect will be most satisfactory.

The Tomato as an Insecticide. A Mexican journal gives the following experience of a French agriculturist:

Two peach trees of my orchard were covered with insects, just as they were about to flower. Having cut several tomato vines, the idea occurred to me to place them around the trunks and branches of the peach trees, to shelter them from the rays of the sun. What was my surprise, on the following day, to notice that all the insects had disappeared, except from the leaves beyond the influence of the tomato plant. I carefully separated these leaves and applied the tomato to them, when the insects disappeared as if by enchantment, and from that time the peach trees began to grow luxuriantly. Wishing to carry the experiment further, I put some of the tomato leaves in water and sprinkled other plants, such as the rose bush, orange tree, pear tree, etc., with the infusion, which also had the same effect of completely freeing them of insects within a few days.

A New-Fashioned Girl.

She'd a great and varied knowledge, picked up at a female college, of quadratics, hydrostatics and pneumatics very vast.

She was stuffed with erudition as you stuff a leather cushion, all the ologies of the colleges and the knowledges of the past.

She had studied the old lexicons of Peruvians and Mexicans, their theology, anthropology and geology o'er and o'er.

She knew all the forms and features of pre-historic creatures—ichthyosaurs, plesiosaurs, megalosaurs, and many, many more.

She'd describe the ancient Tuscans and the Basques and the Etruscans, their griddles and their kettles, and the victuals that they gnawed.

She'd discuss the learned charms, the theology of Brahma, and the scandals of the Vandals, and the sandals that they trod.

She knew all the mighty giants, and the master minds of science, all the learning that was turning in the burning mind of man.

But she couldn't prepare a dinner for a gaunt and hungry sinner, or get up a decent supper for her poor, voracious papa, for she was never constructed on the old domestic plan.—Lyman Union.

Regularity of Habit. One of the most difficult of all minor habits to acquire, says an able writer, is that of regularity.

It ranks with that of order. The natural inclination of most persons is to defer until the last possible moment, or to put it off to another time, where this can possibly be done. Yet habits of regularity contribute largely to the ease and comfort of life. A person can multiply his efficiency by it. We know persons who have a multitude of duties, and who perform a vast deal of work daily, who set apart certain hours for given duties, and are there at the moment and attend rigidly to what is in hand.

This done, and other engagements are met, each in order, and a vast deal accomplished, not by strained exertion, but by regularity. The mind can be so trained to this that at certain hours in the day it will turn to a particular line of duty, and at other hours to other and different labors. The very diversity is restful, when attended to in regular order. But let these run together, and the duties mixed, and what before was easy is now annoying and oppressive, and the exact difference between many is at this point. There are those who confuse and rush, and attempt to do several things at once and accomplish little, while another will quietly proceed from one duty to another, and easily accomplish a vast amount of work. The difference is not in the capacity of the two, but in the regular methods of the one, as compared with the irregular and confused habits of the other.

PUBLIC LOCAL LAW.

CHAPTER 211.

AN ACT to authorize the County Commissioners of Frederick County to subscribe to the Capital stock of Turnpike Companies in said County.

Section 1. Be it enacted by the General Assembly of Maryland, That when ever two-fifths of the capital stock of any turnpike company in Frederick County, chartered and organized from and after the date of this act, shall have been subscribed for, and taken by responsible bona fide stockholders, the County Commissioners of said county are hereby authorized and empowered to subscribe for such portion of the remaining three-fifths of the said capital stock as they, in their discretion, may deem proper, in the name and for the benefit of said county, and shall be entitled to be represented, at all meetings of the stockholders of said company, by the County Commissioners for the time being, or by such person or persons as may be duly authorized by them; provided said road or roads so subscribed to shall be graded for a width of twenty feet, fourteen of which shall be covered with stone of an average depth of nine inches; provided, also, that in accordance with the provisions of article two of section fifty-four, of the constitution, this act shall be published in the newspapers printed in said county for two months before the next election for members of the house of delegates, and shall also be approved by a majority of all the members elected to each house of the General Assembly of Maryland at its next session after said election.

Section 2. And be it enacted, That the County Commissioners of the said county are hereby authorized to issue the bonds of the county to the amount of the stock so subscribed, and to negotiate said bonds upon the most favorable terms; provided they shall not be sold for less than par. And the said County Commissioners are authorized to levy upon the assessable property of the county an amount sufficient to pay the annual interest upon said bonds and the principal at maturity.

Section 3. And be it enacted, That this act shall take effect from the date of its passage.

Approved April 4, 1888.
