A PR TEST AGAINST ROWDYISM.

The CHRONICLE, professing as it does, to be a conservator of public morals, as well as a collector and dispenser of general news, cannot consistently with such a position remain silent with regard to the increase of drunkenness which is becoming so lamentably apparent in this community, particularly among the youths and mere boys.

The sight of boys staggering through our streets under the influence of liquor, is appalling, and every citizen has a right to protest against the outrage let the fault be whose it may. If the laws of the State are not sufficient to protect us from the demoralizing effects of youthful depravity, it is time some steps were taken to render them so.

Every parent owes it to his family, every citizen owes it to the community in which he lives and every christian owes it to his church and his God, to utter an indignant protest against this terrible evil.

The shameful exhibition of drunken rowdism last Saturday night has awakened the indignation of the entire community and should result in some effort to prevent a repetition of such disgraceful scenes.

It is time to call a halt in the do as you please spirit which is manifesting itself in opposition to law and order, and those whose evil habits cannot be controlled should be placed under such restraint as would render indulgence in such habits impossible.

FOR THEIR OWN INTERESTS.

There is a significant movement on foot in Maryland which promises important results. The farmers of the State feel aggrieved. They have repeatedly called the attention of legislators to the agricultural needs of the various counties, and as often have their requests passed unheeded. Rich and powerful corporations, influential politicians and other classes of society obtain the legislation which they desire. The farmer, however, in his credulity and helplessness, has never been able to secure the passage of even the simplest laws to benefit him or the industry which he represents.

But within a year or two farmers have been organizing throughout the State. Granges have been formed, lodges of the Farmers' Alliance have been instituted, and wherever one of these meets the situation is reviewed and counsel is taken as to the cure of present evils. In this way a deliberate purpose is forming to press matters at the ballot box and in the legislative halls at Annapolis. In a word, the farmers are demanding recognition, and that they will have it is only a question of time and methods.

From present indications, it is not at all unlikely that the next Legislature will contain several "knights" of the agricultural industry. The farmers as a class are not very skillful politicians, perhaps, but they have the votes, and the representatives who go to Annapolis two years hence, some of them, will have spent more than "two years on a farm" and will own more than the regulation four acres of land. In other words, they will be bona fide farmers, and not such men as have acquired the requisite lands and experience to entitle them to membership in the Grange or Alliance.

If their utterances amount to anything the Maryland farmers are deeply in earnest in this matter and determined to carry their point.—Baltimore Herald.

THE TIDEWATER RAILWAY.

The Baltimore Sun of last Thursday says: "The news that the Mayor had signed the Western Maryland Tidewater Railroad ordinance spread quickly through financial circles, and it was the event of the afternoon. It is an open secret that the Reading Railroad system is working with the Western Maryland to get an entrance into Baltimore by way of Harrisburg, as well as a connection through it with the Baltimore and Ohio in Washington county. These developments are promised at an early day, and the Tidewater Railway is part of the scheme."

Journalistic.

With its issue of last Friday, the Valley Register, published at Middletown, this county, by Mr. G. C. Rhoderick, entered upon its forty-seventh volume, and celebrated the event by presenting its reading matter pages set in new type. The Register is a well conducted and highly entertaining paper and in our estimation ranks second to none in the county. We wish it increased prosperity and many more years of usefulness. In calling attention to the new volume the editor says:

"Whilst The Register ranks third in age among the many papers in Frederick county, its editor can claim to be the oldest newspaper publisher in the county. There may be older printers, but none who have held the position of publisher so long. In December, 1844, when a lad of 94 years, he entered the office of this paper as a 'printer's devil.' In March, 1855, the management of the paper passed into his hands, and he has continued in this position up to the present time—a period of over thirty-five years. He has seen it grow from a circulation of less than 250 copies to 1400, and this, too, solely upon the merits of the paper, without any special effort on the part of the publisher or by means of any of the catching devices so much in vogue of late years."

MT. ST. MARY'S COLLEGE NEWS.

Ordained to the Holy Priesthood—Commencement Arrangements—Close of the Base Ball Season.

Mr. Matthew A. Smith of Mt. St. Mary's Seminary and Messrs. George L. Ott, Dominic Brown and John Sullivan formerly of the Mountain were ordained deacons on Wednesday the 18th inst., at the Cathedral in Baltimore, by Rt. Rev. Bishop Curtis of Wilmington, Del. Revs. Brown and Sullivan have been for the past year students at the Catholic University at Washington.

The Revs. Brown and Ott, and Rev. Matthew Moran also a former student of Mt. St. Mary's College, were today elevated to the holy priesthood at the Cathedral in Baltimore, by His Eminence Cardinal Gibbons. Fr. Moran is the son of Matthew Moran who resides in the neighborhood of the College, and who is well known throughout the county. Fr. Moran made his preparatory and classical studies at the Mountain where he graduated with distinction in the class of '86. The following September he entered St. Mary's Seminary in Baltimore, and there has prosecuted his theological studies, always holding a high position in his classes. Not long since his health became impaired and his physician advised a rest and change of air. Fr. Moran returned to his Mountain home, where for the past two months he has been drinking the pure life giving oxygen of this salubrious climate; and as a result, we are happy to say he has been greatly benefited. He has the congratulations and best wishes of a host of friends, whose earnest prayer is that he may be spared to see many anniversaries of his ordination and to do much good in the Vineyard of the Lord. Father Moran expects to celebrate his first Mass in the Mountain Church where he was baptized, on Sunday June 22.

COMMENCEMENT.

The graduates have finished their examinations and are now busily preparing their commencement speeches. The examinations in the other classes will close on Saturday.

An interesting feature of the commencement exercises this year will be two scientific lectures which will be delivered by two students of the College in the Cabinet on Tuesday morning, beginning at half past nine o'clock. The first speaker will be Mr. Eugene R. Grasselli of Cleveland, Ohio, who has been making a special study of Chemistry and who has prepared for the occasion an able discourse on Oxygen. The science of Natural Philosophy will be represented by Mr. Bernard F. McKenna of Wilmington, Delaware, who will lecture on Electricity, showing the rapid and marvellous strides which have been made in this field during the past century. Both gentlemen have been diligently preparing and as the examinations in the other departments will be numerous, the occasion promises to be most interesting.

The final contest for the Elocutionary Gold Medal will take place in the College study hall on Tuesday evening, commencing about 8 o'clock.

BASE BALL.

The last game of ball this season will be played as mentioned last week, on the College Diamond on Monday, June 23d, between the crack amateur team of Baltimore "The Browns" and Mt. St. Mary's College Nine. The visitors will come via. Mechanicstown, arriving at the College about 10 o'clock. The game will begin about 12 o'clock and will, we hope, be a very interesting one. The game will be on the field at that time.

AYER'S PILLS.

Are everywhere considered the most effective remedy for constipation, indigestion, and sick headache. Being sugar-coated and purely vegetable, they are without equal as a family medicine. For all derangements of the digestive and excretory organs, no other pills are so universally approved.

"For a few years I have suffered from dysentery, the best physicians in this section being unable to afford me any relief. At length we concluded to try Ayer's Pills, and three boxes were used, and I was cured."—J. B. Smith, Blue Ridge Springs, Va.

"During the past 25 years I have used Ayer's Pills in my family for all derangements of the stomach, liver, and bowels, and for colds, they have never failed to benefit."—Prof. Chauncey Herdman, A. M., Business College, Woodside, Newark, N. J.

"Ayer's Pills are the best I have ever used for headache, and they act like a charm in relieving any disagreeable sensation in the stomach after eating."—Mrs. M. J. Ferguson, Pullens, Va.

"I can never without a box of Ayer's Pills in the house."—Mrs. Edwin Bartow, 425 Bristol st., Buffalo, N. Y.

PENSIONS. PENSIONS. The subscriber hereby informs his fellow citizens of Frederick county, that he is engaged in prosecuting Pension Claims of all kinds, and gives his personal attention to the same at the Department in Washington. And having, for many years, successfully presented the above named claims, he flatters himself that he can give satisfaction in all cases. The dependent Pension bill having passed through the Conference Committee of both houses, will undoubtedly become a law.

If you have made up your mind to buy Hood's Sarsaparilla do not be induced to take any other. Hood's Sarsaparilla is a peculiar medicine, possessing, by virtue of its peculiar combination, proportion, and preparation, curative power superior to any other article, and had for some time like a person in consumption. Hood's Sarsaparilla did me so much good that I wonder at myself sometimes, and my friends frequently speak of it. Mrs. ELIZA A. GOFF, 61 Terrace Street, Boston.

To Get

"In one store where I went to buy Hood's Sarsaparilla the clerk tried to induce me to buy their own instead of Hood's; he told me their would last longer; that I might take it on ten days' trial; that if I did not like it I need not pay anything, etc. But he could not prevail on me to change. I told him I knew what Hood's Sarsaparilla was. I had taken it, was satisfied with it, and did not want any other."

Hood's

When I began taking Hood's Sarsaparilla I was feeling real miserable, suffering a great deal with dyspepsia, and so weak that at times I did not like to stand. I looked, and had for some time like a person in consumption. Hood's Sarsaparilla did me so much good that I wonder at myself sometimes, and my friends frequently speak of it. Mrs. ELIZA A. GOFF, 61 Terrace Street, Boston.

Clerk Appointed.

Tax-Collector I. M. Fisher has appointed Vincent Sebald, Esq., of this district, Clerk in the Collector's office. The appointment is a good one and should give general satisfaction. While we congratulate Mr. Sebald on receiving the appointment, we are unable to see where the "deal" comes in, as charged by the *Citizen* at the time of Mr. Fisher's appointment, as Messrs. Fisher and Sebald are warm personal friends and both democrats. According to the much-talked-of deal, it was understood that the same embraced the appointment of a republican clerk, supposed to be a friend of Commissioner Biser. Perhaps the deal has been declared off.

Acting Coroner Thomas Turner and State's Attorney E. S. Eichelberger went to Mt. Pleasant, in this county, Monday, to hold an inquest in the case of the dead female white child found in a well on the place of Thomas Dunn, Friday last. Miss Hattie Baker, daughter of Harrison Baker of Mt. Pleasant, was found to be the mother of the babe, and the evidence adduced showed that she was accountable for the child's death. She was alone in the house when the baby was born, and getting up from bed, she wrapped the infant up and threw it out the window, afterwards going down stairs and throwing its body into the well. She then returned to the house and attempted to clean up the blood marks which had been made. The woman is about twenty years old, and is now very ill. After hearing the testimony of seven witnesses, the jury rendered a verdict against Hattie Baker, pronouncing her guilty of infanticide. She was at once placed under arrest. Her brother will furnish security for her. The father of the babe is not known. Their verdict was that Hattie Baker, mother of said infant, on June 6, 1890, feloniously made away and caused the death of said infant by her own negligence of said infant.—*News*.

A Haunted House. This body of ours has been likened to a tenement. It often has a haunted apartment—the stomach. Scared by the eldritch spirit, dyspepsia, digestion flies and refuses to return. What can break the spell, what can raise the ban laid upon the unhappy organs? We answer unhesitatingly, Hostetter's Stomach Bitters, and we are warranted in the response by the recorded testimony of myriads, covering a period of over a third of a century. A course of the Bitters, begun in any stage of the affliction, and persistently followed, will terminate in cure positive, not partial. The Bitters restores tone to the enfeebled nerves, cures and purifies the juices exuding from the cellular tissue that act upon the food digestively, expels bile from the stomach and the blood, and promotes a regular habit of body. Malaria, kidney complaint, nervousness, catarrhism and neuritis give way to this medicine.

Another Maryland Monument at Gettysburg.

When the Maryland monuments were dedicated in 1888 the position of the Parnell Legion, a cavalry company, was not marked for the want of sufficient data. The last Maryland Legislature made an appropriation for them, and yesterday the State Commission was here and located their position on the cavalry battlefield near the Michigan brigade shaft. The design is about 7 feet high with the base relief figure of a cavalryman on the front, Frederick & Field contractors.—*Compiler*.

The following numbers are entitled to first grade certificates: 1, 2, 5, 6 and 15. Those of the second grade are, 3, 4, 7, 9, 11, 12, 13, 14, 16, 18, 21, 22, 23, 25, 35, 36, 43, 44, 45, 48, 50, 56, 59, 61, 63, 70, 72, 73, 76, 77, 79, 84, 86. On Wednesday and Thursday the Bitner Real Estate Agency sold at private sale 33 lots in Eyerly's Addition to Hagerstown for \$12,200.

A Life Preserver.

Thrown to you in the sea of troubles that threatens to engulf you ladies in its danger-fraught waves, so to speak, and one that will float you over their threatening crests with perfect safety, is found in Dr. Pierce's Favorite Prescription. Next Monday morning Mr. John Dukehart, of Emmitsburg, will add his skilled workmanship to the already large force now employed by I. M. Fisher & Co. Sworn in as Tax Collector.

Mr. Isaac M. Fisher, of Emmitsburg district, the new collector of State and county taxes for Frederick county, took charge of the books, and Tuesday assumed the duties of his office, relieving Mr. Charles F. Rowe, who has discharged the duties of tax collector so efficiently for the past two years. Mr. Fisher has appointed Mr. Vincent Sebald, of Emmitsburg, as his deputy, and he also entered upon his new duties yesterday. He is an affable and cautious young gentleman, and has a host of friends throughout the county who will be glad to learn of his preferment. While we consider the appointment of deputy entirely a personal affair of the Collector's, in which his own wishes and desires should largely control him, we think Mr. Fisher has been very fortunate in selecting one who gives such general satisfaction throughout the county. Mr. Sebald has been a hard-working and faithful young democrat, and his appointment cannot fail to give encouragement and hope to the younger element of the party.—*Union*.

By close application and studying the wants of its neighborhood it has made itself necessary to a large number of intelligent people, while those who have moved into distant parts look weekly for its arrival with unflagging interest.—*Democratic Advocate*, Westminster.

A Frederick Author.

The June number of the *Homemaker*, Marion Harland's new magazine, contains a novelette from the pen of Sara Andrew Shafer, the talented and accomplished wife of Hon. Carlton Shafer, of Frederick. The story—*Mamselle*—is said to be rich in interest and many a touch of local coloring skillfully woven in will add in the eyes of Frederick people to the charm of the pathetic story of the little French emigrant girl.—*Times*.

The Oldest.

In reading the *Valley Register's* notice last week of its entering upon its 47th year, we find the editor claims to be the third oldest publisher in the county, and the assertion put us to thinking and calculating where we stood in that line. As well as we can figure it out, the *Register* has placed its publisher one too low in the scale. If we are not mistaken in our calculations, he stands second and we first. We began as partnership publishers of the *Banner* in 1853, and as sole publisher in 1855, and we feel sure that not one of the present publishers of papers in this county can date their debut into journalism as far back as that.—*Banner of Liberty*.
