LAST Saturday, while several persons were at work at Patterson Bros' butcher shop, a weasel was seen coming across the alley and disappeared under the shop. In less than five minutes it was seen again, the little animal reappeared, carrying a young rat. The load being very heavy he was compelled to drop the rat on the ground, and while Mr. Patterson was getting his gun, the weasel returned several times from its hiding place, under Hoke's barn, to where the rat lay in the alley. When the gun arrived, the daring little weasel was soon dispatched, and an examination showed that the rat's throat had been cut as clear as though done by a knife.

Fine Flowers.

The rich display of chrysanthemums at the residence of Mr. Chas. M. McCurdy on Thursday and Friday again places lovers of the beautiful under obligations to that gentleman for the opportunity of viewing this his second exhibition of these beautiful flowers. The collection embraced fifty specimens, all of the finest varieties, and though some had been hurt by an early frost, the entire group made up a picture well worthy the strong terms of admiration expressed by all who viewed them. The gentleman's kind invitation.—Gettysburg Compiler.

Mail to P. M. in the Night.

Daniel Bowman, an aged resident of near Germantown, lost his home by fire on Monday night, together with a lot of his household goods. The fire originated from a defective flue, about 10 o'clock that night, and the aged couple barely made their escape from the burning building. The loss is about \$300 and there is no insurance. Mr. Bowman and his wife are being kindly sheltered in the home of Mr. Cyrus Keefe, whither they fled after the fire. The misfortune is a peculiarly lamentable one, and the aged couple have the sympathy of the entire neighborhood. Steps will probably be taken by neighbors and cottagers to restore the home for the unfortunate couple.—Keystone Gazette.

The Best Authorities.

Such as Dr. Dio Lewis, Prof. Gross, and others, agree that catarrh is not a local but a constitutional disease. It therefore requires a constitutional remedy like Hood's Sarsaparilla, which effectually and permanently cures catarrh. Thousands testify to it.

Hood's Pills cure liver ills, jaundice, biliousness, sick headache, constipation and all troubles of the digestive organs.

A Young Mechanic.

Messrs. Lowenstein & Wertheimer have on exhibition in their store window, a remarkable piece of handiwork, considering the age of the maker. It is a large size model of a fourteen-cylinder engine and tender, and was made by Tommie Zimmerman, the fourteen-year-old son of Mr. Geo. H. Zimmerman, this city. It is complete in all its equipments, having a bell, flags, head light and tender well filled with coal. It bears the name of "B. B. R. R." on the side of the cab, and the number, "807," on the tender and the sides of the engine. The model attracts considerable attention and reflects much credit upon its youthful builder. The engine and tender are made of wood, and the tender is made of wood and ties.—Frederick News.

Held on a Serious Charge.

On Monday of last week constable George of Huntington township reported to the court, of near Lewisville for criminal beating a seven-year-old boy, Joseph N. Diller, who had been indentured to him by the Directors of the Poor of Cumberland County. Process was awarded for him, but before the constable could bring him into court the child died. A post-mortem examination of the child was held and upon the result of this examination the verdict of the coroner's jury was based.

An inquest was held on the 11th and 12th, before Justice James B. Diller. The verdict was returned by the jury on Wednesday the 9th day of November, 1891, between the hours of twelve and one o'clock, and that he died from natural causes, superinduced, as we believe from being put at work not suitable for a boy of his size and age. We further believe that said Joseph N. Diller was not altogether treated as he should have been for a boy of his tender age by his employers. We further say that we think that the Directors of the Poor of Cumberland County who had charge of said Joseph N. Diller, were very derelict in not carefully seeing after this boy, after being notified to do so.

Liability was held in default of bail which was placed by the court at \$2,500. Hereafter he has borne a good reputation in the community.—Star and Sentinel.

MT. ST. MARY'S COLLEGE NEWS.

Death of Professor Baker.—Foot Ball.—Notes.—Gossip.

The death of Professor Andrew H. Baker, Ph. D., recently announced in the Chronicle will be sad news to all old students of the college who have known him. He was engaged at the college. The deceased was seventy-three years old. He entered Mount St. Mary's College in 1839 and was graduated in 1845. His classmates were Gen. Franklin H. Clark, S. A. Washington, D. C. Alfred C. Gower, A. M. Philadelphia, Pa.; Rev. E. O'Reilly, A. M., Brooklyn, N. Y.; Frederick A. Beelen, A. M., Pittsburgh, Pa.; Hon. Ferdinand J. McCann, A. M., Baltimore, Md.; Rev. E. J. Young, A. M., St. Joseph, Mo.; J. S. Swope, California; J. Swope, Gettysburg, Pa.

Mr. Baker was received into the Church and made his First Communion in the College Chapel and remained all through life a fervent and practical Catholic. In 1859 he established Calvert College in New Windsor, Md. Under his management this College reached a high degree of prosperity and was frequented by students from all parts of the country. When the civil war broke out the causes which had brought ruin to other educational institutions south of Mason and Dixon Line operated against the success of this and the Professor found himself, after the war, deeply involved in debt. In 1873 Mr. Baker sold the College and accepted a professorship at the Mount St. Mary's which he resigned in 1876 to give his attention to the preparation of a series of works on Higher Mathematics which he afterwards published. For some years Mr. Baker resided in retirement at Germantown, Maryland. All who knew him esteemed him highly.

Wednesday afternoon the first eleven of the College played their initial game with the eleven from Pennsylvania College. The day was perfect one for foot ball, the ground being hard and dry and the biting western wind tempered by the cheering rays of the sun. When the two elevens lined up they presented the most complete and complete of the most complete of the visitors was about 185 lbs. average weight, and averaged six feet in height, while the "Mountaineers" were of 164 lbs. average weight and 5 feet in height. All through the game the superior weight of the Pennsylvania and the way they rushed their men through the center instead of around the ends, proved that they recognized their antagonists weakness. Considering the fact that they faced experienced players, much the same in weight, height, and the science of the game, and that center rush Dillard played but once before in his position, the "Mountaineers" can certainly be heartily congratulated on their first attempt to attack the superior weight of the Pennsylvania and the way they rushed their men through the center instead of around the ends, proved that they recognized their antagonists weakness.
