

"THE PASSION PLAY" AT CHICAGO.

We copy the following from the Baltimore Sun of Thursday, as one of the best commentaries on the proposed effort to pander to the vulgar spirit of sensationalism by such a profanation of holy things as the exhibition of "The Passion Play" at Chicago, during the World's Fair, would undoubtedly be.

The thing would be an insult to the spirit of enlightened christianity throughout the world and a disgrace to the country whose advanced civilization this great Exposition is expected to display.

"The proposal to permit the opening of the World's Fair at Chicago on Sunday called forth a storm of protests that have resulted in congressional prohibition of what is regarded in some quarters as a desecration of the day. But, strange to say, little has yet been said in opposition to the proposed performance at the fair of "The Passion Play" by the peasants of Ober-Ammergau. Christians may honestly differ as to the right and propriety of keeping the fair open on Sunday, but there can be but one opinion among them in regard to the performance of "The Passion Play" at Chicago as an incident of the great exhibition. Many persons have never been able to reconcile themselves to that representation, even as given at Ober-Ammergau, where the drama is given under the sanction of religion and surrounded by all possible safeguards. If Christianity means anything, if the story of divine self-sacrifice and suffering are to be accounted as religious realities and truths, the last scenes in that sacred life cannot be approached in too profound a spirit of reverence and awe.

Viewed from the Christian standpoint, it may well be questioned whether the portrayal of this theme in dramatic form is not improper under any circumstances, and whether any mortal man can, without profanation, assume to represent the character who is the central figure of the biblical history. At all events to the Christian, the subject with which the Passion Play deals is holy ground, and should not be made the field for coarse sensationalism and irreverent exhibitions. It may be tolerated, it may even be impressive and touching as produced in the retired village where it has been presented so long, far from the workaday world, and from the thousand degrading influences that would surround it in a great city and before mixed and un sympathetic audiences in Chicago.

And now, sir, we put into your hands the mission of which we are bearers. It is the highest honor your party can bestow. It is the gravest call to duty your fellow Democrats can make. But we believe we can assure you that we are not weary of the responsibility of our party today, and that with the people's cause as our cause, we doubt not you will lead us to a victory on which the principles of our party shall glow. The country and the welfare of our country shall be mightily promoted.

The crowd, when the Democratic standard bearer stepped forward to make response, again lost control of their enthusiasm. The din was deafening and long continued. Finally Mr. Cleveland began to speak and the storm suddenly abated. He was listened to thereafter with much attention and plaudits only came when his utterances pleased his hearers. He said: "Chairman and Gentlemen—The message you deliver from the national Democracy arouses within me emotions that would be well nigh overwhelming if I did not recognize here assembled the representatives of a great party to whom I must share with me the responsibility your mission invites. I find much relief in the reflection that I have been selected merely to stand for the principles and purposes to which my party is pledged, and for the enforcement and support of which all who have any right to claim Democratic fellowship must constantly and persistently labor.

"Never has a great party, intent upon the promotion of right and justice, had better incentive for effort than is now presented to us. Turning our eyes to the plain people of the land, we see them burdened as consumers with a tariff system that unjustly and relentlessly demands from them, in the purchase of the necessities of life, an amount scarcely met by the wages of hard and steady toil while the exactions thus wrong from them build up and increase the fortunes of those for whose benefit this injustice is perpetuated. We see the farmer listening to a delusive orator that fills his mind with visions of advantage, while his pocket is robbed by the stealthy hand of high protection.

"Our workmen are still told the tale of repeated in spite of his demonstrated fact, that taxing protective tariff is a boon to them, and that under its beneficent operation their wages must increase, while as they listen scenes are enacted in the very adjoining places of high protection that make the hair of toil and attest the mendacity the workman receives from those made selfish and sordid by unjust governmental favoritism.

"Ours is not a destructive party. We are not inimical with the rights of any of our citizens. We are not recklessly heedless of any American interests, nor will we abandon our regard for them; but, invoking the love of fairness and justice which belongs to true Americanism, and upon which our constitution rests, we insist that no plan of tariff legislation shall be tolerated which has for its object and purpose a force in the contribution from the earnings and income of the mass of our citizens to swell the accumulations of a favored few; nor will we permit a pretended solicitude for American labor, or any other pretext of benevolent care for others, to blind the eyes of the people to the selfish laws to gain unearned and unreasonable advantages at the expense of their fellows.

"We have also assumed, in our covenant with those whose support we invite, the duty of opposing to the death another avowed scheme of our adversaries, which, under the guise of protecting the suffrage, covers but does not conceal a design thereby to perpetuate the power of a party afraid to trust its continuance to the untrammelled and intelligent votes of the American people.

"It only remains for me to say to you, in advance of a more formal response to my message, that I obey the command of my party, and confidently anticipate that an intelligent and earnest presentation of our cause will insure a popular endorsement of the action of the party you represent.

"Moreover, every sincere Democrat must believe that the interests of his country are deeply involved in the victory of our party in the struggle that awaits us. Thus patriotic solicitude exalts the hope of partisanship, and should intensify our determination to win success. This success can only be achieved by systematic and intelligent effort on the part of all enlisted in our cause.

"There was one more burst of concluding applause as Grover Cleveland took his seat, and then came the speech of Mr. Wilson, of Virginia, who, as secretary of the national committee, was the voice of the California orator was powerful, and every syllable was distinctly heard throughout the vast hall.

GROVER AND ADAIR

Notified of Their Selection as Democracy's Leaders.

NEW YORK, July 21.—The first decisive gun of the Democratic campaign of 1892 was touched off last night in Madison Square Garden in the presence of a vast assemblage. The auditorium was packed from pit to dome, and as the place holds 10,000 persons comfortably it is estimated that almost twice that number were present. The occasion that brought this vast throng together was the notification ceremonies of the leaders of the Democratic party—Grover Cleveland and Adlai E. Stevenson.

As early as 6 o'clock the crowd began gathering about the doors, and at 7:30, when they were finally opened, the street outside the garden was filled with a pushing, struggling, perspiring mob which flowed into the auditorium with the roaring sound of a cataract. Never had the garden held such a crowd, nor had more enthusiasm been displayed. The space round the garden was crowded to the utmost degree, the enthusiastic Democrats standing about the aisles were filled in lines so dense that breathing became difficult, while thousands were unable to gain admission.

The first batch of enthusiasm was struck at 8:15 o'clock. At this time the chief figure in the memorable meeting came upon the scene. Surrounded by a group of notable men the leader of the Democracy and of tariff reform made his way to the front of the platform. The cheering and plaudits that had gone before were as nothing compared to the ovation tendered the ex-president.

Mr. Cleveland looked impressed with the magnitude of the gathering and the warm scene it presented as each and every man and woman stood on their feet applauding in the most enthusiastic manner. He bowed his thanks again and again, but the noise continued for many minutes, and the secretary of the notification committee, Nicholas C. Beal, finally arose in despair and entreated the crowd to be silent. It was fruitless, however, as they quit to begin again. Mr. Wilson, of Virginia, approached the rostrum and Grover Cleveland rose to listen to the speech of notification.

In notifying Mr. Cleveland of his nomination Mr. Wilson said: "We bring you tonight a message from the Democratic party. We come as a committee from its national convention, representing every Democratic constituency in the country, to give you official notification that you have been chosen as its candidate for the office of president of the United States.

Mr. Wilson then spoke at length on the duty of the Democratic party and the issues of the campaign. In conclusion he said: "And now, sir, we put into your hands the mission of which we are bearers. It is the highest honor your party can bestow. It is the gravest call to duty your fellow Democrats can make. But we believe we can assure you that we are not weary of the responsibility of our party today, and that with the people's cause as our cause, we doubt not you will lead us to a victory on which the principles of our party shall glow. HOMESTED'S WAR.

PITTSBURG, July 19.—John McLuckie, boss, or chief municipal officer of Homestead, slept last night on a cot in one of the cells of the county jail.

The preliminary stages of the present proceedings were conducted with considerable secrecy. It was shortly before noon when Secretary Lovejoy, of the Carnegie company, snatched carelessly into the office of Alderman J. V. McHenry at Diamond and Grant streets, Secretary Lovejoy stated that he desired to lay information against a number of men charging the crime of murder, and the alderman drew up the papers. The preliminary stages of the present proceedings set forth in a trial in Millin township in the county of Allegheny and the state of Pennsylvania, on July 6 the defendants did of their own motion beforehand, feloniously and maliciously with force of arms and deadly weapons, to wit, shot-guns, pistols, a Pinkerton watchman and Silas Wayne, a worker at the mill.

When this document had been drawn up the alderman suggested that it would be better to have two informations, one against the defendants and the other to that of Wayne, and the second paper was accordingly made out. Secretary Lovejoy then named as the men accused Hugh O'Donnell, John McLuckie, Sylvester Ritchlow, Anthony Robert Diann and Harry, James Flannigan and Hugh Ross. In one information the name of O'Donnell stood first, while in the others it stood second.

No time was lost by Magistrate McLuckie in making out the warrants and shortly before 2 o'clock the officers were entrusted to accompany Joseph Weber, W. J. Morris and Mike J. Price, who at once left for Homestead. On their arrival they made known their business to the men in the mill, when they went to Colonel Green, in command of the provost guard. The latter detailed two companies of soldiers to accompany the constables, and the latter visited the houses of all the men wanted, but without success. When the officers returned to this city toward dusk they were surprised to find that Burgess McLuckie had got out of town while they were searching for him, and had already surrendered himself to the alderman. He was in the office in company with Attorney Brumman, of the Amalgamated Association, and several friends.

The warrant was served on him, and the magistrate said he had already sent word to the other men who were wanted to come to the city jail. The men who were arrested to those around him McLuckie said that he and O'Donnell were not leaders, but among the smallest of the strikers. He went on to say: "I might as well come with you and say that information will be laid against Frick, Carnegie and Potter. Whether we will bring anyone else into it I cannot say at present. I tell you we will make this man Frick come down on his knees and we will have the whole of his property in the farthest corner of civilization."

"Yes," put in one of those present, "and once the warrants are issued we will have Carnegie extradited in short order." Alderman McLuckie waited in his office until 8 o'clock, and then, none of the other men putting in an appearance, he committed the boss to the county jail with bail pending a preliminary examination on July 20.

For the first time since the present lockout the Carnegie company yesterday made a pretense of starting its mills here. It was plain that the company is believed to have about 150 men at work in the armor plate mills. Included among the care five steel workers believed to have been brought from the works of the company at Bradock.

Prisoner, July 21.—Burgess John McLuckie, of Homestead, was arraigned yesterday before Judge Magee, in the court of criminal jurisdiction, upon the application of his counsel to have him admitted to bail. The district attorney insisted that the prisoner be held, and that he be held in sufficient amount to cover the gravity of the charge upon which the prisoner is held. Judge Magee fixed bail at \$10,000, which was promptly secured.

July 21.—The biggest thing in Homestead yesterday was the reception that awaited Burgess McLuckie when he arrived here from Pittsburgh after his release from jail. A detachment went to Pittsburgh to escort him with fitting ceremony, and no crowned king could have received a greater ovation. On reaching Homestead a procession was formed, which paraded the streets of the town, cheering enthusiastically.

Mr. Warren D. Wentz of Geneva, N. Y.

Tells His Fearful Sufferings After Gastric Fever and His Cure by Hood's Sarsaparilla

All who know Mr. W. D. Wentz give him the best of recommendations for honesty and integrity. For many years he has worked for Mr. D. P. Wilson, the harness maker and member of the Geneva Board of Health. He says: "I was taken sick last October with gastric fever and my chance for recovery was considered almost hopeless. After 7 weeks the fever slowly left me, but I could not eat the simplest food without terrible distress. It seemed that I had recovered from the fever to Die of Starvation. I took peptic compounds, bisulph, charcoal, cod liver oil and mult until my physician confessed that his skill was about exhausted and he did not know what else to try. Everything I took seemed like pouring medical lead into my stomach. I happened to see an advertisement for Hood's Sarsaparilla that had been in the house for two or three years, that I found had benefited me previously for dyspepsia. I began taking it and soon began to feel better. I have now taken a little over two bottles and can truthfully say I feel well again and can eat anything without distressing me, even to Pie and Cheese which I have been unable to touch for years. The English language does not contain words enough to permit me to express the praise I would like to give to Hood's Sarsaparilla. W. D. WENTZ, 184 Castle St., Geneva, N. Y."

A Good Voucher "I have known Mr. Warren D. Wentz for many years and can vouch for him as a man of veracity and one well known about here. I have sold him several bottles of Hood's Sarsaparilla during the past few months." M. H. PARTRIDGE, Druggist, Geneva, N. Y.

Purify Your Blood

The importance of keeping the blood in a pure condition is universally known, and yet there are very few people who have perfectly pure blood. The taint of scrofula, salt rheum, or other foul humor is hereditary and transmitted for generations, causing untold suffering, and we also accumulate poison and germs of disease from the air we breathe, the food we eat, or we drink. There is nothing but Hood's Sarsaparilla proven to be more effective than any other medicine in the world for the cure of all these ailments.

During an epidemic of dysentery, in the summer of 1879, I sold 100 bottles of Chamberlain's Colic, Cholera and Diarrhea Remedy, and it proved satisfactory in every instance. The remedy is standard in this community.—Geo. B. DUBBAY, Druggist, Center Point, Iowa. The epidemic referred to was by far the worst that has ever occurred in Iowa. Over 400 persons died from it in a town of only 500 inhabitants; but in every case in which this remedy was used recovered. It was equally successful during the epidemic of bloody flux in Virginia, in 1837, and Michigan and southern Illinois in 1838. It has been in constant use over eighteen years, and has proved itself to be the most successful medicine yet discovered for bowel complaints. For sale by C. D. Eichelberger.

More Gold Discovered. Mr. Henry Claggett, who resides near Glen, Montgomery county, while plowing in his cornfield had his attention drawn to a shining flint stone. It required but a moment to see that the stone was thoroughly impregnated with fine gold, visible to the naked eye. Several experienced experts now prospecting in the neighborhood pronounce it a very fine specimen and exceedingly rich. The stone weighs about ten pounds.—News.

Dead Sea Fruit. They slay multitudes when they are the product of unclean disease. A "slight" cold, a fit of indigestion, biliousness or constipation each or any of these "minor ailments" advance in many cases with "long-range" destroying strides. Give them a swift, early defeat with Hostetter's Stomach Bitters and avert the danger. Afterward administered an alarming cramp to the man who informed him that he had "only a cold." "Only a cold," repeated the doctor. "What would you have—the plague?" Rheumatism and its grime are easily extinguishable at the start. Why then allow them to get up a full head of steam? Put on the steam of Hostetter's Bitters. The general warmth which this superb medicine diffuses through the system, the impetus it gives to the circulation of the blood, the cooling and strengthening effect upon the nervous system, specially recommend it to the enfeebled and sick. 'Tis the great specific for malaria.

Business is Good. Business on the Chesapeake and Ohio Canal is exceedingly good at present and is considered by the people who have been familiar with the waterway for some time, to be better than it has been for a long period. Boats are running freely and are hauling very big loads. The workmen are all busy and pleased with the excellent season.

Sudden Death of Mrs. Snyder. A very sudden death occurred in Funkstown early Sunday morning. Mrs. Snyder, the beloved wife of Rev. J. C. Snyder, pastor of the Lutheran church died from heart failure before a physician could reach her bedside. She attended a festival Saturday evening that was being held for the benefit of the church and took an active part, cheerful and in good spirits. She returned home and shortly after retiring became very ill. A messenger was sent hastily to Hagerstown for a physician, but she expired before his return.—Herald and Torch Light.

A Horse in a Sink Hole. One night last week a fine sorrel horse belonging to Mr. F. I. Lewis, of Frederick, wandered into an old sink hole in a marsh at Reids Mills, near Frederick Junction. The animal was unable to extricate himself, and when found the following morning was almost shoulder deep in the mire. On account of the murky condition of the ground a platform had to be erected before a force of hands could remove the horse from his unpleasant position.—Examiner.

A New Teacher. The Trustees of our Public School have secured the services of Prof. E. B. Fockler, of Cavetown, for the term commencing September 1st. Prof. Fockler comes very highly recommended, holding a First Grade First Class Certificate from Washington county, with eight years experience in the schools of that county and Waynesboro, Pa. He was the Principal of the school at the latter place last winter, where they have about 800 pupils and 17 assistants.

Accident. On last Sunday afternoon Mrs. Xavier Myers, daughter and a small child, who live a short distance west of town, started in a road cart to make a visit to Mr. John Jackson's who lives along the Gettysburg road. At Hartman's bridge over Tom's Creek one of the shaft irons broke, letting the occupants fall to the ground backwards. In falling one of Mrs. Myers' feet caught in the cart which held her firmly for a few minutes, when a young man came along and loosened the foot. Fortunately they were driving a very quiet horse and no one was injured.

Badly Hurt. Mr. Levi Frizell, of Shipley, Carroll county, met with a severe accident on Monday night of last week as he was returning home from Westminister with a wagon loaded with lumber. As he was descending Brightwell's hill, near Westminister, he leaned over to draw the brake, and, losing his balance he fell over the edge of the bed of the wagon upon the hook shaped lever, badly injuring the groin and hip, necessitating a painful operation. His injuries are of a very serious character. Drs. Billington and Hering rendered surgical assistance.

A Happy Combination. Of the most potent and active properties of the whole vegetable kingdom, is that which makes Dr. Pierce's Favorite Prescription so pre-eminently above every other so-called woman's restorative in the market. Don't stop short of the best! Don't experiment with worthless imitations, when the world acknowledges no superior to the original, reliable, and only guaranteed remedy for the happy restoration of suffering and debilitated woman. Costs nothing if it don't do just as recommended. See guarantee on bottle-wrapper.

FAIRFIELD ITEMS. This week will finish up harvesting and the crop is good. Mr. and Mrs. Michael Kugler, of this place, are visiting in Taneytown.

Mr. Lewis Elliot and sister, of Taneytown, are visiting Mr. and Mrs. Rine-dollar of Fairfield.

Mrs. F. Shulley and daughter Mrs. H. M. Hafer, are the guests of Mr. and Mrs. J. C. Shterzer.

Miss Dilly Hartzell, of Belmont, and Mr. Charles Bullington of Taneytown, are visiting in Fairfield.

Mr. and Mrs. Harry Sanders, of Fairfield, are visiting Mr. and Mrs. J. Jere Plank, of Gettysburg.

Mr. J. Jere Plank has the machinery on hand for his creamery and will probably start it this week.

Mr. and Mrs. Paxton Bingham, of Green Mount, are visiting their daughter, Mrs. W. J. D. Shearer.

Mrs. John Moser, of Huntington, with her daughter, is visiting her parents, Mr. and Mrs. Daniel Butt.

Mr. Samuel Smith, the mail carrier, has purchased a new three seated vehicle, and is now prepared to carry passengers to and from the station.

Mr. Wm. Culp has delicious peaches, of which he raises the best varieties. Your correspondent is indebted to him for a present of some of the other day.

James Dixon Post 83 G. A. R., will have their annual Bean Soup on the last Saturday of August, unless the weather be unfavorable when it will take place on the next Saturday.

Colored People in Maryland. The last census show that there are in the State of Maryland 215,657 colored people. Of this number 31,094 are enumerated as mulattoes, 2,078 as quadroons and 1,180 as octoroons. These figures demonstrate that nearly one sixth of the colored people have white blood in their veins, and this a proportion that will probably hold good in all the other slave States.—News.

A Regular Whopper. Last Wednesday, Daniel J. Eyer, when passing through Mr. James Delaplaine's woods, near Oak Hill church, east of Woodsboro, spied a large, spotted snake, and with some difficulty killed it. It measured nine feet in length and weighed a fraction over twelve pounds. When dead he dragged it home and skinned it, and has tanned the skin. Mr. Eyer says this is the largest snake ever killed in Frederick county.—Examiner.

Emigrants from non-Catholic lands: Denmark 142,517; Germany 3,022,892; (This number is two-thirds of the entire German immigration, because Germany is two-thirds Protestant.) Sweden 925,031; Great Britain 2,430,380; Netherlands 29,248; (One-quarter of the whole, as the Netherlands are only one-quarter Protestant.) Switzerland 102,762; (Three-fifths of the whole, as the Swiss are only three-fifths Protestant.)

British America 104,687; (One-tenth of the whole, as the immense majority coming from Canada are Catholics.) Russia and Poland 81,223; (One-quarter of the whole, as the immense majority coming from Russia are Catholics.)

These figures taken together give the total non-Catholic emigration from the chief countries as follows: 6,814,670. Let us now take Catholic countries: Austria-Hungary 434,488; France 306,340; Italy 488,538; Poland 213,669; (One-fourth of the number from Russia-Poland.) Ireland 3,481,074; Germany 1,901,376; (One-third of the whole number from Germany.) Netherlands 75,654; (Three-quarters of entire immigration.) Canada 942,183; (Nine-tenths of entire immigration.) Spain and Portugal 43,000.

Total Catholics 7,476,987. To this might be added the Catholic increase by the accession of Louisiana in 1803 and of Florida in 1821, as well as what we gained from Central and South America, the Antilles, California, New Mexico, and Texas. Neither have I taken our many converts into this calculation, nor our two per cent. colored Catholics, nor have I cared to take account the Catholics who are doubtless contained in the schedule of emigrants from Great Britain, but have let the non-Catholics have the entire number.

Contenting ourselves, however, with the figures above set down, we find that Catholic immigration has exceeded non-Catholic, and that of the forty million emigrants and their descendants in this country, 29,900,000 are, or ought to be, Catholics, and 19,500,000 cannot be claimed as such.

An acute observer like yourself, Mr. Editor, will at once remark that I have presumed the rate of increase among Catholics to be no greater than that among non-Catholics, notwithstanding the vital statistics of New England; on the other hand, it is true that poverty, intemperance, and ignorance may have caused a higher death-rate, especially in the children of a certain noble but persecuted and impoverished race. If we, however, by way of compensation, contrast the average of two and a-half or so of children which obtains in families most estranged from our holy faith with that of six and a-half, which is the pride and the hope of the Irish, German and Canadian children of the Church, it will be found that the presumption is still in favor of the mathematical conclusion that "we Catholics" number one-third of the population of these United States.

Cui bono? some one may say. Why this at least: We are beginning to celebrate the fourth centenary of the discovery of our country. Isn't it pleasant to think that we can hold up our heads in every State as we do in our beloved Maryland, and look every man, woman and child in the face, confident that of all the millions we meet every third individual is, or ought to be, a Catholic. EDWARD McSWEENEY. MOUNT ST. MARY'S, June 5, 1892.

Our Catholic Count. The Rev. Dr. McSweeney's valuable letter is called forth by the following in our April number. This important search is well worth the candle and should be kept up. We believe that these two computations of the learned Father, so different and yet so mutually confirmatory, can be supported by even official figures in the census of 1890 not yet completed. To his question, Cui bono, the answer is manifold, but this part of it shows one great good standing out prominently—convince the politicians that we are twenty millions and see how quickly will be seen the rod in pickle for the Morgans ad hoc genus omne!

The following letter of Rev. Dr. McSweeney to the New York Sun is able and suggestive as far as it goes. We hope he will follow it up, as we firmly believe in his "conclusion."

To the Editor of the Sun: Sir—The population of the United States in 1790 was 3,929,000; in 1800, 5,308,000; in 1810, 7,250,000; in 1820, 9,633,000, etc. That is, it increased at such a rate that in 1890 it would be 22,942,000. Instead of this it is 62,500,000.

In 1820 statistics of immigration began to be kept. About 16,000,000 of foreigners have arrived since then. Therefore, about 39,500,000 of our people are foreigners by birth or descent.

Supposing that only one-half the immigrants were Catholics, you have a Catholic population of about 20,000,000 from this source alone. What's the matter with this conclusion? EDWARD McSWEENEY.

MORE ST. MARY'S, February 9. "From Census: 'The population of the United States on Jan. 1, 1880, exclusive of white persons in the military territory, Districts of Alaska and Alaska, was 62,022,280; including these, it will probably reach 63,000,000.'—Bulletin, No. 16, page 5. (Editor St. Joseph's Advocate.)"

Twenty-one Millions Nearly. [The following two letters by Rev. Edward McSweeney, D. D., of Mt. St. Mary's College, on the Catholic population of this country, are taken from the July number of the St. Joseph's Advocate.]

To the Editor of St. Joseph's Advocate: Sir—You borrowed from the New York Sun, with due acknowledgment, a letter of mine, in which the Catholic population of the United States was found to be about twenty millions, supposing that only one-half the immigrants were Catholics. Following your suggestion, I pursued my researches in this interesting subject and submit these results:

I showed in the letter above referred to that out of the sixty-two and a-half millions of inhabitants in the country in 1890, almost forty millions are either foreign-born or descendants of immigrants arrived since 1820. I then said that if only one-half the immigrants were Catholics the Church must have between nineteen and twenty million children in the Republic at the close of 1890.

Examining the government records more carefully, I find that as a matter of fact, more than half of those who arrived here since 1820 were Catholics. Those who have a taste for figures may read:

Emigrants from non-Catholic lands: Denmark 142,517; Germany 3,022,892; (This number is two-thirds of the entire German immigration, because Germany is two-thirds Protestant.) Sweden 925,031; Great Britain 2,430,380; Netherlands 29,248; (One-quarter of the whole, as the Netherlands are only one-quarter Protestant.) Switzerland 102,762; (Three-fifths of the whole, as the Swiss are only three-fifths Protestant.)

Sudden Death. About 1 o'clock Sunday morning, Col. J. P. Creager, of Frederick, Md., aged 55, died at the residence of Miss Mary Scott, on Steinwehr avenue, from a stroke of apoplexy. The old veteran was spending a few days on the battlefield and, although 55, walked to Round-Top on Thursday. Saturday morning he ate a hearty breakfast, but soon after he began to complain and shortly became unconscious, remaining in that condition until death ensued. The remains were interred at Plouitz's graveyard yesterday afternoon.—Star and Sentinel.

Saved From Drowning. By the prompt and heroic action of T. J. Lemen on Sunday afternoon last, the life of Wesley Lizer, a 12-year old lad, was saved. The boy was riding a blind mule across the aqueduct when the animal stumbled, and fell over the railing into the canal, taking the rider with it. A light boat was passing through the aqueduct at the time, and in an instant was upon the boy and mule. Mr. Lemen happened to be near when the accident occurred, and without even taking off his coat plunged in and succeeded in saving his life. The mule was gotten out with little difficulty.—Williamsport Leader.

MR. THOMAS BATTER, editor of the Graphic, Texarkana, Arkansas, has found what he believes to be the best remedy in existence for the flux. His experience is well worth remembering. He says: "Last summer I had a very severe attack of flux. I tried almost every known remedy, none giving relief. Chamberlain's Colic, Cholera and Diarrhea Remedy was recommended to me. I purchased a bottle and received almost immediate relief. I continued to use the medicine and was entirely cured. I take pleasure in recommending this remedy to any person suffering with such a disease, as in my opinion it is the best medicine in existence, 25 and 50 cent bottles for sale by C. D. Eichelberger.

Accidents. On Saturday noon, as a load of hay was passing under the sign across the alley in rear of Mr. John A. Liver's warehouse, his son Charles, who was on the load, grasped the sign and the wagon passed from under him. He held on as long as possible but at length fell on the stones of the alley, about 14 feet. Although no bones were found broken, the boy suffered severely from shock together with sprains of both wrists and several cuts and bruises across the face. Dr. J. B. Scott has the case in charge.

Allen Schwartz, aged 7 years, son of Mr. Samuel Schwartz, of Mountjoy township, recently fell from his father's hay mow, fracturing the large bone in the left forearm at the wrist, which Dr. Walter O'Neal adjusted.

Last Sunday near Salem church Mr. Philip Beamer's son George received a very severe fall, breaking both bones in his arm between the elbow and wrist. Dr. Melhorn gave the case the necessary surgical attention. The boy is doing as well as can be expected.—Gettysburg Compiler.

MR. SHRIVER'S USEFUL LIFE. Arthur Shriver was the oldest son of Mr. Edwin T. Shriver, vice-president of the First National bank, and the grandson of Thomas Shriver, one of the most influential and prominent citizens of Cumberland and indeed one of its first founders.

He received a collegiate education and after he left college he seemed to be in doubt as to what profession he would pursue. Being very fond of scientific research, he had a practical mind he became a student of telegraphy, which was then not in such a state of perfection as it is to-day and his first effort was made at Monocacy Junction, near Frederick, Md.

He became a telegrapher, and for several years he had not a day in the Baltimore and Ohio system. Up until his sudden demise, he could walk into any telegraph office, and mentally read the clicking of the little instruments.

After awhile he turned his attention to journalism and for many years was connected with the Cumberland Daily News, then under the control of Col. John Johnson. Then he established the job printing plant on South Centre street and for the past four or five years he has been running it successfully.

He leaves a sister, Mrs. Webster Bruce, and a brother, Mr. Ernest Shriver, the well known musician; besides his father, who compose his original immediate family. On June 31, 1879, he married Miss Fannie Motter, of Hagerstown, the second daughter of the late Judge Motter, and she with two little daughters, Mary and Elmer, survive him.—Cumberland Allegian.

Dr. Geo. S. FOUCE, Dentist, will be at Mr. P. Lawrence's Wednesday, on his professional visit. Will remain usual time.
