

INJURY TO BALTIMORE TUNNEL.

The Belt Railroad Tunnel which is being cut through from one side of Baltimore to the other, is likely to make a good deal of trouble both to the company and to the city, as property owners are beginning to realize that the stability of their buildings is threatened. The injury to the City College is of itself enough to rouse people to the danger with which Baltimore is threatened by this extensive undermining.

The question, how far below the surface of the earth, individual ownership extends? would be an interesting one for the people of Baltimore to have decided, at this juncture, when one great corporation gives the right to another to dig its way under ground to a point it is interested in reaching, utterly regardless of individual rights or wrongs.

Man was intended to occupy the surface of the earth and it is hard to reconcile one's self to the idea that it is necessary for him to bore his way under mountains and rivers and city streets to get from one place to another. In olden times when Folk Lore was an important element in the life of the world, it was the general belief that gnomes and other uncanny but wonderfully gifted beings, lived and worked in the bowels of the earth, though it was never clearly understood whether their labors resulted in good or evil to mankind.

Get the Mitten Every Time.

"I can marry any girl I please," was his exclamation, but unfortunately then he did not please any; and there was a plain reason for it. He had contracted a tarrah of the worst form, and, although a wealthy, educated, attractive person every other way, he was positively repulsive to his lady friends, a number of whom rejected his offers of marriage. A friend advised him to use Dr. Sage's Catarrh Remedy. He took his advice, and now is the most popular beau in town, and he really can "marry any girl he pleases" to ask. It made his breath pure and sweet, he has no headache, no offensive discharges from the nose, is in perfect health, and all from using a few bottles of Dr. Sage's Catarrh Remedy.

NINETY LIVES LOST.

An Excursion Steamer Run Down Off Finland's Coast.

ST. PETERSBURG, Aug. 11.—The pleasure steamer reported as having been run down outside of Helsinki was named the Ajax. She was hardly seaworthy, and was only used for running along the coast. She left Helsinki Sunday with 100 excursionists on board. Her return was delayed and she arrived off Helsinki after midnight. The channel is very narrow and navigation is difficult, and was very slow. When the narrowest part of the channel was reached, the captain of the Ajax, instead of following the rule and passing the outgoing steamer to port, carried the helm to be put hard down and attempted to cross the bow of the Runeberg. Before the latter could alter her course she struck the Ajax and crashed into the latter's rotten timbers as though they were ratchets.

A fearful panic ensued. The excursionists ran hither and thither wildly shrieking for help. All discipline was lost and the crew made a rush for the boats. But there was no time to cast them to sea, for in a minute after she struck the Ajax sank. As soon as possible the engines of the Runeberg were reversed and she went ast in at full speed until she grounded a short distance from the scene of the collision. Those on board of her threw overboard lifeboats, boxes, chairs, tables—in fact, anything that would float—to help to support the struggling people in the water. Her boats were lowered away and pulled back to the scene of the accident, but the night was dark that it was almost impossible to distinguish objects half a boat's length away. The boatmen succeeded in saving a number of the passengers and crew.

The first report of the accident stated that forty-five persons were lost, but later details show that the number was much greater. Ninety persons are reported to be missing, and of this number the bodies of thirty-five have been recovered.

The Tory Ministry Will Resign.

LONDON, Aug. 11.—It is probable that the vote on the amendment of Henry Herbert Asquith, Liberal, of East Fife, Scotland, to express "no confidence in the Queen's present advisers" will result as follows: In favor of the amendment, 150; against it, 310. The motion will probably come to a vote today, and the ministry will resign tomorrow, and Mr. Gladstone will at once be summoned by the Queen to form a new cabinet.

THE SCALE SETTLED.

PITTSBURG, Aug. 11.—The western iron scale of the Amalgamated Association of Iron and Steel Workers was agreed upon last night and fixed for the coming year. The conference, commencing on Monday evening, the iron manufacturers and the Amalgamated Association. The base of the scale agreed upon remains at \$3.50 per ton for building iron, but in the finishing department a sweeping reduction of 10 per cent. was a result. The settlement was arrived at by concessions on both sides. The manufacturers conceded the \$3.50 rate for building. Their demand was for a \$4.50 rate. The Amalgamated committee conceded to the manufacturers the reduction asked in the finishing departments. The mills that have already signed the scale, except the sheet iron scale, will be affected by the agreement arrived at, as they had all signed the scale subject to the conditions of final settlement. In all about 18,000 men are affected by the agreement. The iron scale for the entire country is now settled, except the Mahoning and Shenango mills. The settlement was the result of a conference of forty-one days. Yesterday's meeting was the sixteenth session of the committee on the wage question and lasted until 9 o'clock last night.

GLASGOW, Aug. 11.—The Glasgow trades council, with but one dissenting voice, carried the following resolution: "Resolved, That the council, whilst deeply deploring the recent events near Pittsburgh and sympathizing with the strikers, do hereby tender their sincere thanks to Andrew Carnegie, and that whilst enrolling his name with the names of Judas Iscariot and James Carey, it believes that he has provided the world's workmen with the most practical lesson on the relations of capital and labor ever given." The council also requested the Ayr trades council to make a demonstration against the proposal to confer the freedom of Ayr upon Mr. Carnegie.

HEMSTEDT, Pa., Aug. 9.—The strikers at Danmore went to work yesterday and the Carnegie Steel company has scored one victory. On Saturday night Superintendent Morrison posted a notice that all men who had applied for their old jobs should report at the mill by 7 o'clock yesterday morning, as the mill would resume at that hour. Long before the time set, however, workers with dinner pails quietly stole up unfrequented streets and along the railroad tracks and entered the mill unnoticed by their fellow strikers. At 7 o'clock approached the number of men who had entered the mill yard through this means reached 400.

About sixty men who were leaders in the sympathy strike movement gathered on the road near the mill gate and watched in moody silence the men going in to work. Finally the mill whistle blew for 7 o'clock. At that a large Irishman exclaimed in a loud voice: "Well, they're all up. We had better hustle for our old places."

This was a signal for a panic, and the entire crowd ran towards the gate. A freight train was backed in front of the gate. The men did not wait for it to be opened but scrambled over and under it in their frantic haste to get inside the mill before the whistle stopped blowing. It was a complete stampede.

The men were organized into the Amalgamated Association at no little expense, and they went out on the sympathy strike movement about two weeks ago. By their surrender they are expelled from the Carnegie company but are allowed to work in the mills. Lieutenant Colonel James B. Streater was unanimously re-elected to his position in the Tenth regiment last night, his term having expired. This is a complete vindication of his course in the private lands affair by the latter's comrades. When the news reached this side of the river the three regiments gave three hearty cheers for joy. Iams, who is here, was greatly chagrined.

PITTSBURG, Aug. 10.—Yesterday afternoon the advisory board of the Amalgamated Association met and organized to consider the attitude to be adopted by the association in the present labor troubles. They have a scheme which will be presented to the committee of the company's plans. This is the idea which President Gompers, of the American Federation of Labor, has outlined. If every employer who uses Carnegie steel is bled steel and his mill closed out, the building operations all over the country will be practically paralyzed, especially railroad and government boat building. Correspondence will also be opened with the Bioherald of the United Engineers, and he will be procuring their aid. The boycott will be established by the American Federation of Labor, with its 600,000 members.

Colonel King Escapes the Gallows.

MEMPHIS, Aug. 11.—Colonel H. Clay King, who was to have been hanged on Friday for the murder of a lawyer in Boston, in connection with the scandal of Colonel King and the widow of General Pillow, has escaped the gallows. Governor Buchanan has commuted his sentence to life imprisonment. Colonel King is said to have received the news joyfully. There is great indignation over the governor's action, and it is asserted that his wealth and position alone have saved him from the consequences of his crime, as there were no extenuating circumstances. Yesterday a large crowd gathered at the corners and hanged Governor Buchanan in effigy.

Georgia's Democratic Ticket.

ATLANTA, Aug. 11.—The Democratic state convention nominated the following state ticket: For governor, W. J. Northcutt; for secretary of state, General Paul Cook; for comptroller, General W. M. Wright; for treasurer, R. A. Harlan; for commissioner of agriculture, R. T. Nesbit; for attorney general, J. M. Terrell. An electoral ticket pledged to Cleveland and Stevenson was also placed in the field. The Republican state convention is in session today.

Riggin's Body Home Again.

PHILADELPHIA, Aug. 11.—The body of Charles A. Riggin was brought to New York last night by the committee of citizens which went there to receive it from the Pacific mail steamship Columbia, which brought it from Valparaiso. Until Saturday the body will remain in charge of Undertaker Schuyler. Then it will be removed to Independence Hall, where it will lie in state for the day. On Sunday the funeral will take place and the body will be interred in Woodlands Cemetery. In the funeral procession will be a band from the First, Second and Third Pennsylvania militia, the State Fencibles, a guard of honor of sailors and marines from the League Island Navy yard, and other military bodies.

French Bombarding Dahomey.

PARIS, Aug. 11.—A dispatch from Yotouanna announces that the general command of the coast of Dahomey was begun on Tuesday by the French. The falisman is shelling Whydah, and the Opel, a stern wheeler, has gone to attack Abomey. Colonel Stephanie, with 300 troops, has captured the villages of Kotonou and Zogbo, and driven out the French, who had destroyed most of the huts. This vigorous policy will be continued until King Bedanzin shall have been driven into a tight corner.

Vaughan to be Cardinal.

LONDON, Aug. 11.—The Paris correspondent of the Daily Chronicle says that the pope has decided to elevate Archbishop Vaughan, his intention of making another American cardinal having been frustrated by the differences between Archbishop Corrigan and Archbishop Ireland.

MYSTERIOUS MURDER.

FALL RIVER, Mass., Aug. 6.—Andrew J. Borden and his wife were found dead at their home. Both had been dreadfully inflated about the head and face with an ax, cleaver or similar weapon. The bodies were inflated and immediately began an investigation. Mr. Borden was a wealthy real estate owner and mill man and was seen on the street half an hour before he was found dead. There is hardly a doubt that both were murdered. The case is shrouded in mystery, and it is broadly hinted that Borden's daughter Lizzie and his brother-in-law, John W. Morse, are implicated.

FALL RIVER, Mass., Aug. 9.—The police are very active in the Borden murder cases. Yesterday Captain Desmond, accompanied by a sergeant and two officers, went to the house and instituted another search. Places in the old-fashioned chimney were opened in a vain search for footprints which would lead over everything in the cellar, but without obtaining any tangible results. While the search was going on Miss Emma and Lizzie Borden were even more nervous than usual. They were on Saturday after the funeral. One of the searching party who came from the home states that, in conversation, Miss Emma Borden looked a person in the eye, but Miss Lizzie invariably turned her head when questioned closely.

The guard is still kept on the house, but the officers are under instructions not to molest the inmates nor interfere with their freedom in going about the city. It is said that the police are to take the city, however, arrests will follow.

HARTFORD, Aug. 9.—George B. Fish, of this city, whose wife is the sister of the murdered Mrs. Borden, of Fall River, is publishing a sensational article in the Boston Herald and John V. Morse conducted the deed and hired some one to do it. Lizzie and Emma Borden are stepdaughters of the murdered woman and have never been on good terms with her, owing to a quarrel over the division of small property left by the girl's mother to Mr. Borden, who gave it to the second wife instead of to the girls.

FALL RIVER, Mass., Aug. 11.—An officer who is very close to the head of the department, says that he has no doubt of the ultimate arrest of some one of the Borden family, but which one he would not or could not say. Dr. Handy furnishes very suggestive hints as to the probable offender of Mr. and Mrs. Borden. He says that about 10 a. m. on Thursday last he saw a man standing on Second street, a little south of the Borden residence, the man having such a terribly unusual appearance as to attract his attention. The stranger was ghastly white, and seemed very much agitated. The doctor could not identify the man he observed.

Dr. Handy is confident that the murderer was seen by Officer Hyde about the same time. The examination of Lizzie Borden was resumed yesterday behind closed doors. It is said that Miss Borden was asked some nerve shaking questions, and when the nurse from her mother's room came in she was found dead. She was very much upset. There was a great difference between her appearance before and after the examination.

A Big Haul by Mexican Brigands.

DURANGO, Mex., Aug. 11.—The mail courier from Matatlan has arrived here bringing information of a robbery committed by a band of brigands near Culiacan, in the State of Sinaloa. A train of ten burros was on the way from the Yedra mines to Culiacan, loaded with \$50,000 worth of silver ingots in boxes for export. It was guarded by twenty men and these were attacked by the bandits. Thirteen of the guards were killed and the others overpowered and bound hand and foot. The robbers droye the mules with their precious loads into the deep recesses of the Sierra Madre mountains. A company of government troops has gone in pursuit of the robbers.

Carloads of Gold.

NEW YORK, Aug. 10.—The special train which has brought \$20,000,000 in gold coin from the United States treasury at San Francisco, arrived here yesterday. The amount far exceeds any previous shipment of gold across the continent. The transfer of the gold was ordered by Secretary Foster on account of the large accumulation of specie at the San Francisco treasury. The bulk of the treasure was carried on two Union Pacific cars, which are built of wrought steel, and were constructed especially for the purpose of transporting specie. Altogether there were fifty-one persons on the train, of whom forty-five were armed guards.

For Libelling an Insurance Company.

NEW YORK, Aug. 11.—Albert G. Voigt, who was arrested on the charge of criminal libel preferred by the American Casualty, Insurance and Security company, of Baltimore, is still in Ludlow street jail, having been unable to procure \$25,000 bail. Voigt is nominally in the employ of the complainants as their agent at Chicago. He was dismissed from their employ after the said company had obtained a judgment against him for \$25,000 for "preliminary damages" in the suit for libel. The libel complained of was contained in a letter written by Voigt to John E. Searles, Jr., in which he stated that the American company was doing a very hazardous business.

Eight Were Drowned.

CHARLESTON, S. C., Aug. 10.—A ferry-boat plying between the mainland and Sullivan's Island was swamped yesterday. The captain of the vessel and seven of his passengers were drowned, four passengers were rescued. The known drowned are Henry Semore, Captain Anthony Garvin, Napoleon Ladson, David Spitzer, Caroline Gibbs, David Jernon, Jerry Hamilton and Jerry Sims. The boat's bottom sloped upward in transporting vegetables and hucksters to and from the island, which is a summer resort. The accident was caused by the boat being overloaded. Seven of the drowned were negro hucksters.

Iron Hall Officers Subpoenaed.

INDIANAPOLIS, Ind., Aug. 11.—The plaintiffs in the suit for a receiver for the Order of the Iron Hall yesterday had subpoenas served on officers and members of the committee. The defense claims that the Bank of Philadelphia, of which John S. Sweeney is an officer, has about \$725,000 of the order's money. Plaintiffs claim the bank is insolvent, and that as soon as a receiver is appointed here the first movement will be to take charge of the bank and save as much of the order's money as possible. The allegation is made that Sweeney expended large sums on state legislators without authority from any board.

Consil Ryder Confesses.

COPENHAGEN, Aug. 11.—Henry B. Ryder, the United States consul here, who is under arrest charged with having misappropriated the sum of 200,000 kroner, has confessed that he is guilty of embezzlement and forgery.

MARYLAND MATTERS.

ELICOTT CITY, Md., Aug. 8.—Otto Herrmann, a young German, employed on the farm of Henry Lutz, in Howard county, near Elicott City, was found by a jury, and perhaps fatally injured. Herrmann's home is said to be in Baltimore.

BALTIMORE, Aug. 10.—An accommodation train on the Northern Central railway dashed into a number of freight cars just outside of Calvert station in this city. Charles Ross, a brakeman, was fatally injured, and died shortly after being removed to the hospital.

HAGERSTOWN, Md., Aug. 8.—The new Reformed church at Highfield was dedicated on Sunday last. The sermon was preached by Rev. Dr. E. R. Eschbach, of Frederick. Rev. James B. Lewis, of Salisbury, will be the pastor of the new congregation. This is the fourth church that has been erected on the mountains within the past few years.

BALTIMORE, Aug. 5.—Major Richard M. Venable is strongly urged by his friends for the position of elector on the Democratic state ticket made vacant by the resignation of Judge Pere L. Wickes. The members of the state central committee, who are empowered to fill the vacancy, will be called together for the purpose by Chairman Compton in the latter part of August.

ANAPOLIS, Aug. 5.—Governor Brown has pardoned Thomas Johnson, colored, convicted in the circuit court of Howard county at the March term, 1889, of assault with intent to kill and sentenced to the penitentiary for four years. He also pardoned William Dyson, colored, convicted in the criminal court of Baltimore in September, 1890, of manslaughter and sentenced to three years in the penitentiary.

BALTIMORE, Aug. 10.—The strike spirit is prevalent about Baltimore. Eighty men employed by the Baltimore and Ohio railroad in the repair shops at St. Charles yesterday struck for better wages. Reductions in salaries have been made, it is stated, until the men rebelled. President Davis, of the Contractors' Association, says that the coal association has refused to supply the strikers with full complements of men. The strikers practically admit their defeat.

SALISBURY, Md., Aug. 8.—Superintendent C. E. Topping, of the United States Express company, of New York, was in Salisbury today gathering information regarding the robbery of the mail train, Albert Mitchell. From information at the hands of the detectives there is no doubt that Mitchell passed through this city Thursday, July 28, bound south and he has since been seen at Prince Georges. It is evident from his movements that he is making for Crisfield, where he may chance to get on an outgoing ship for some foreign port. A sharp watch is being kept to prevent such a move.

ELIKTON, Md., Aug. 8.—Some doubt being entertained as to the real cause of the death of Robert A. Jackson, the well known farmer, which occurred after a short illness, at his home, in Elikton Neck, on Friday evening last, Coroner Perry Litzberg made a post mortem examination. It was found that Mr. Jackson visited a drug store in Elikton on Wednesday and bought some morphine pills, and committed suicide by taking them. He left behind a note directing his daughter and wife as to what they should do after he had departed.

FREDERICK, Md., Aug. 8.—The Republican convention of Frederick elected delegates to the congressional nominating convention at Cumberland on the 10th inst., as follows: William H. Farnell, George R. Cress, George C. Hantz, George K. Birely, Cyrus F. Flook, Samuel M. Birely. The delegates were instructed to vote for the nomination of George L. Welington, of Allegany county. Resolutions were adopted endorsing the present national administration, commending the McKinley tariff law, deploring conflicts between capital and labor, etc.

PORT TOBACCO, Md., Aug. 5.

The people of this town were awakened about midnight by cries of fire. Mr. Austin Cook, proprietor of the Centennial hotel, had discovered flames issuing from the top of the ancient cork house, the removal of which has been the most valuable of these were got out, but a great many, which were in the top story, where the fire originated, were lost. It is thought that the fire was the work of an incendiary.

The legislature of 1890 passed an act changing the county seat from Port Tobacco to La Plata, which was promptly vetoed by Governor Jackson. Again, at the last session of the legislature, a bill submitting the matter to the voters was passed, but May 7 last the proposition was overwhelmingly defeated at a special election.

Murderous Mexican Miners.

SILVER CITY, N. M., Aug. 11.—Saturday evening a remnant of the revolutionists band who murdered the American consul here, some months ago, and who were employed at Gold Hill, forty miles from here, while on a detachment lately wounded James Patterson, their employer. Patterson returned seven of his party, but the assassins. They then took all of the best horses in the camp and fled. A posse are in pursuit. On Monday the ranch of Frank Davenport, sixteen miles south of Silver City, on the Southern Pacific railroad, was passed, but May 7 last the proposition was overwhelmingly defeated at a special election.

Conjug 1 Wisdom. "She who ne'er answers till her husband cools, Or, if she rules him, never shows she rules!"

is a type of wife happily becoming common in these days when women may have good health, cheerful dispositions, strong nerves and clear minds, simply through the use of Dr. Pierce's Favorite Prescription. Before the reputation and use of this remedy became world-wide, irritable, cross, nervous, debilitated women, suffering with displacements, hysteria, and every female disease, were the rule rather than the exception. The "Favorite Prescription" has proven to be the key to a long and happy life—the key which effectually locks out that old array of urticine disorders, periodical pains, weak back, prolapsus, inflammation, ulceration, nervous exhaustion and general debility. See printed guarantee on wrapper. Money refunded if it doesn't give satisfaction in every case.

Objected to the Bell. Rev. J. B. Gibson, pastor of the Middletown colored M. E. Church thought that it would be a good idea to place a bell in the cupola on the church, and to this end he solicited private contributions. In a short time he succeeded in collecting the required amount of money, purchased a bell and had it placed in position. Some of the colored brethren of his flock, not being on good terms with the pastor, objected to the bell, whereupon Mr. Gibson had the bell taken from the cupola and placed at one of the stores in that town, where we suppose it can be bought at a greatly reduced price. Quite a number of disputes have taken place between the pastor and members, which on several occasions came near ending in a knock-down.

THE following extract from a letter written by J. A. Starbuck, of Yorktown, Iowa, speaks for itself: "Two years ago, in harvest time, a young man came in my store and said he had been binding wheat during the forenoon, and was so bad with diarrhea and colic pains, that he would have to lay off unless he could get relief. I took a bottle of your diarrhea remedy from the shelf; gave him a dose; sold him the bottle, and told him I would give the money back if it did no good. He came in next morning and said the single dose did its work so well, that he not only kept up his place binding during the afternoon, but had worked all night, and had the price of the dose I gave him been three dollars, it would have been cheap. I will further say, keep on with your good work. You cannot recommend your medicine too highly. Chamberlain's Colic, Cholera and Diarrhea Remedy is one of the greatest medicines of the age; it cannot be beat. Wishing you much success and prosperity which you richly deserve, I remain, truly your friend." For sale by C. D. Eichelberger.

A New Kind of Fish. While fishing the other day in Mr. Samuel Strite's dam, near Leitersburg, one of our oldest and most experienced fisherman was fortunate enough to catch a fish which contained two feet, feathers, a head like a chicken and could hollow. On returning home with his precious cargo he thought it prudent to enclose it in his cloak so that his neighbors would be unable to tell what he had; but on close inspection they found one foot of a live chicken extending.—Mail.

THE Champion Eaters. Messrs. Frank Grove and Geo. Barall were eye witnesses to an eating match, recently between Charles Thompson and Harry Castle, and claim that the two gentlemen on Sunday last ate 36 cups of corn each at Monocacy Junction, and on coming home Castle drank 8 cups of coffee and ate two and a-half pounds of ginger cakes. On Wednesday the same two gentlemen ate 34 cups of corn each. These are said to be facts. These same gentlemen ate quite a large quantity of corn in eating matches last year.—News.

A Dastardly Act. The Valley Register says: Last Monday night some villain removed six of the planks from the floor of the bridge across the little Tascorara, on the Spout Springs turnpike, leaving openings into which a horse or person might step. Mr. Charles H. Hooper, of Highland, informs us that he was the first person to reach the bridge after the boards were removed, but as the night was very dark, he had a lantern on his wagon, and thus made the discovery before driving on. He replaced the plank and drove over safely.

Kidnapped. On Wednesday last a drunken man from the vicinity of Keedysville, Washington county, passed through this place on his way home with a spring wagon load of watermelons. At the west end of town he coaxed little Beatty Flair to get into the wagon with him, and then drove off. Shortly afterwards the boy's aunt, Miss Lydia Haupt, learned of the occurrence and started on foot to overtake the team. She was compelled to walk all the way to Boilivar, three miles distant, before she came up with them. Here she found both of them in Smith's store, the man buying candy for Beatty. The boy had refused to go any farther, and in order to get him to continue his journey the fellow had agreed to treat him.—Valley Register.

THE Temptation. To go out of doors in rough weather is not strong, but we are, many of us, compelled to face rough weather frequently. Diseases which arise from a chill are peculiar to the season of the year. This is true, therefore there should be in the closet of every household—a bottle of Chamberlain's Colic, Cholera and Diarrhea Remedy. It is an invigorant and an abstractive, the quality of defense against changes of weather. Bostetter's Stomach Bitters has three or four properties that no other article of its class possesses. Not only does it relieve the complaints which it eventually cures, it fortifies the system against the bad effects of changes of temperature, fatality and too often disease in the daily form of "the grippe." It produces a real change in the weakened condition of a system peculiarly liable to be attacked by it, and it tends to prevent the danger resulting from an improper regulation of the blood and a disordered state of the liver or bowels.

DEATH OF VERY REV. A. MANDINE.

Very Rev. A. Mandine, C. M., Director of the Sisters of Charity of the Province of the United States, died at the White House, at St. Joseph's Academy, near this place, at 2 o'clock on Wednesday morning, aged 60 years. Several days ago he was taken sick with an engagement of the liver and gastric fever, followed by hiccough, which was the immediate cause of his death.

Father Mandine was born in the southern part of France, near Marseilles, in 1832, where he received his first educational training. He came to this country when quite a young man, and entered St. Mary's Seminary, at Barns, Mo., where he pursued his studies for several years, finally entering the Ecclesiastical Seminary at New Orleans, as a student and teacher, where he was ordained to the priesthood in the year 1865. Shortly after his ordination he was appointed pastor of St. Stephen's Church, in New Orleans, which was at that time an old and dilapidated building, almost unfit to hold service in. By untiring zeal and energy he succeeded in having the old structure replaced with one of the finest edifices in that city. In 1877 he received the appointment of Director of the Sisters of Charity of the Province of the United States, which position he held at the time of his death, having, during the past few years, made three trips to the old country in the interest of the cause which he represented.

Father Mandine possessed a kind and charitable disposition, together with extraordinary business ability and intellectual talents of a high order, and was well known not only in this place, but throughout the entire country. In his death the Catholic church loses one of its most untiring workers.

His funeral took place at 11 o'clock this (Friday) morning, from St. Joseph's Academy church. A Solemn Requiem Mass being celebrated by Rev. H. F. White, C. M., pastor of St. Joseph's church, this place; Deacon, Rev. Fr. Likely, and Sub-Deacon, Rev. James Neck, of Brooklyn. The eulogy was pronounced by Rev. James McGill, V. C. M., of St. Vincent's Seminary, Germantown.

PARENTS who have young children will be interested in the experience of Mr. Alex. Moir, a prominent druggist at Britt, Iowa. He says: "During the summer of 1882, my little girl, two years of age, was taken seriously ill with summer complaint—so common to children of that age. After being treated by a physician and getting no better, I took from my shelves a bottle of Chamberlain's Colic, Cholera and Diarrhea Remedy. She felt relieved after the first dose, and in three days was entirely well." For sale by C. D. Eichelberger.

A Romance in a Nutsell. She went to a ball; wore too thin clothing; caught cold; was very ill for many days; a devoted admirer brought a remedy, when her life seemed to hang by a thread; she took it; recovered; and, finally, married the man who had saved her life. And the remedy he brought her was Dr. Pierce's Golden Medical Discovery, which is a certain cure for all throat and lung diseases and scrofulous complaints, of which consumption is one.

THE record of the past week has been fully up to the mark for heat and the most that people have seemed able to do, has been to inform each other that "the weather is almost unendurable." Tuesday was the hottest day and it did not improve matters to learn that the thermometer registered ten degrees higher in Baltimore than in New Orleans or Key West. Wednesday afternoon brought a heavy thunderstorm, accompanied with some hail and a great deal of wind, which made the evening exceedingly pleasant, and made a comfortable night's sleep possible.

Prominent Minister Dead. A telegram was received at Hagerstown Wednesday announcing the death of Rev. Dr. E. S. Davis in Cincinnati, Ohio, Tuesday. Mr. Davis was a prominent minister in the Reformed Church, and for several years was editor of the Reformed Messenger, an organ of that church, which is published in Philadelphia. He was a native of Washington county, and was the son of the late Elias Davis, of Boonsboro. After resigning the editorship of the Messenger, he moved to Chicago, where he has since resided. He was sixty-six years of age, and leaves a wife and one married daughter.—American.

Pure and Wholesome Quality. Commends to public approval the California liquid laxative, Syrup of Figs. It is pleasant to the taste and by acting gently on the kidneys, liver and bowels to cleanse the system effectually, it promotes the health and comfort of all who use it, and with millions it is the best and only remedy.

Died Suddenly. Sunday morning Jacob L. Motter, of Jefferson, died suddenly. He had been out driving on Thursday evening and was in comparatively good health, but was overcome by a stroke of apoplexy and died in a short time. Mr. Motter was well known and highly respected throughout the county, and is favorably known by many of our citizens. Mr. Motter was a native of Manchester, Md. He moved to Jefferson about 35 years ago. Mr. Motter at one time came with in a few votes of reaching the Democratic nomination for Sheriff of York county. A wife and one son survive him. The funeral took place Friday morning at Manchester, Md.—Hagerstown Citizen.

DEATH OF MR. JAMES A. ROWE.

In the death of Mr. James A. Rowe, noticed in the obituary column of the Chronicle of this week, Emmitsburg loses another valuable citizen, and the Lutheran congregation a zealous, conscientious member.

Mr. Rowe was an honest, God-fearing man, a good neighbor, a kind husband and father, a man of sound judgment, good business ability and earnest in his advocacy of whatever he thought would best conduce to the interests of his native town. He was a son of the late Joseph Rowe, and was born in Emmitsburg, May 27th, 1827.

About a year ago Mr. Rowe received a sunstroke and had been more or less an invalid ever since. For several months past he had suffered with a disease of the spinal cord, which gradually deprived him of the use of his limbs and finally affected his mental faculties, rendering him, toward the last, completely helpless. He had been so long a sufferer, that when the summons came, for his entrance into a world where sorrow and suffering are unknown, his friends could not feel that the change was for him a happy one.

Mr. Rowe was a shoemaker by trade and carried on business in this place for many years. In 1855 he was married to Miss Sarah Hoke, who with one daughter, Mrs. Walter W. White, and three sons, Edward H., J. Howard and M. Francis, survives him.

PERSONALS. Mr. El. Ulrich has received a position in Frederick.

FAIRFIELD ITEMS.

Miss Lizzie Smith, who is living at Highfield, is at home on a visit.

Mrs. Curtis Sowers, of Salem, is visiting her parents, Mr. and Mrs. E. W. Kittinger.

Mr. Harry Loche, of Charlestown, Va., is visiting Mr. Harry Bennett, of this place.

Mr. Clifford Bream and two sisters, of Gettysburg, are visiting Mr. J. L. Musselman.

A good day's work. Mr. A. Grove with three of his hands, scattered one hundred four-horse loads of manure in one day.

Mr. and Mrs. H. M. Hafer and brother, who have been visiting in Fairfield, and at Glennwood Mills, have returned to their home in Reading.

Rev. G. G. Shearer, of Mount Holly, who is visiting his brother, Rev. J. W. D. Shearer, of this place, preached in the Lutheran church, last Sunday night.

The G. A. R., of Fairfield, will have their annual Bean Soup on the 27th of August. Should the day be unfavorable it will be held on the first Saturday in September. There will be a camp-fire after the dinner and all are cordially invited to attend.

Your correspondent went to Pen Mar on Saturday, and whilst the cars were waiting at Highfield for the Baltimore train, Mr. John C. Harbaugh an aged man who is hard of hearing was walking on the track, near the station, and not hearing the whistle of the engine was struck and thrown a considerable distance. He was still living in the evening though he had received an ugly cut in the head.

The Work Commenced. The preliminary work on the big improvements to be made by the Baltimore & Ohio Railroad Company at Harper's Ferry has been commenced by Elmann, Jones & Thorne, the contractors, and the firm is getting together the plant necessary to build the great bridge and bore the tunnel. The hoisting apparatus, which will be supplied by the Lidgerwood Company, of New York, will include a steel cable 2 1/2 inches in diameter, with a total length of 1,400 feet, of which 900 feet will be a single span of the Potomac river 80 feet above the water. An immense traveling crane will be operated along the cable by means of subsidiary cables, for which a sixty-horse power engine will be used on each shore. The apparatus is guaranteed to carry 20 tons, and will be used to convey the stone and other materials to the pier desired. The materials will then be lowered into the immense caissons, which will have to be sunk in the river wherever a pier is to be built. Cut stone from the Gettysburg Granite Company's quarries which are owned by Messrs. Jones & Thorne, will be used in the construction. The tunnel which is to be constructed at the Maryland end of the bridge will also be excavated by the same firm. The work is all through solid rock. The boring will be done by five compressed air drills, and will be carried on day and night, as it is desired to complete the improvements in time to accommodate the travel to the World's Fair over the new route.—Brunswick Herald.

A Sad Coincidence. Mrs. Annie E. Davis, wife of the late William D. Davis, died at her late residence, 138 East Patrick street, on Saturday last at 10.40 p. m., aged 75 years, 8 months and 21 days. Mrs. Davis has been a life-long resident of this county, being born near the old Glass Works where she lived till she was 36 years old, at which time she moved to this city and has lived here ever since. October 9th, 1874, she joined the Evangelical Reformed church and has been a consistent member ever since. On July 9th, 1891, her daughter, Mrs. Lania Lindsey (with whom she made her home) died, leaving her aged mother and one daughter, Irene Lindsey, to stem the tide of life. At the time Mrs. Davis died she left one son, F. T. Davis; one daughter, Mrs. James Hooper, and eight grand children. But just four hours and fifty minutes after her death her daughter died. The funeral of Mrs. Davis took place Tuesday at 2 p. m., from her late residence, interment in Mount Olivet Cemetery.—Frederick News.

Destructive Storm. The storm on Wednesday afternoon did considerable damage in the immediate neighborhood of Emmitsburg, though in town it was not unusually severe. At Locust Grove, the residence of Rev. J. B. Kerschner, the barn was unroofed and the sheep pen torn to pieces, and every tree but one, around the dwelling, blown down. Olier's School House, a substantial brick structure, about a quarter of a mile farther up the road, was completely demolished. Mr. James Bishop's barn nearly opposite the school house, was moved about three feet from the foundation, fences destroyed and also a considerable amount of timber. The storm was not more than half a mile wide and swept from southeast to northwest.

Jeuit Changes. Among the changes recently made among the clergy of the Jesuit colleges in the Maryland province are the following: Rev. James Smith comes from Gonzaga College, Washington, to Frederick; Mr. Joseph McLoughlin comes from Georgetown College to Frederick; Father Quigley comes from Boston College to Frederick, and Revs. Pittar, Harlan and Kavanaugh come from St. John's College, Fordham, N. Y., to Frederick. Those who are sent away from Frederick to other points are: Rev. Stadelman to St. Francis Xavier's College; Messrs. Weiss and Lyons to Georgetown College; Father Nash, of Troy, N. Y., goes to Woodstock College; Father Reid, of St. Lawrence's Church, New York, goes to Boston College; Father McGinnis goes to Gonzaga College, Washington.—Banner.

Battle Snake.

On last Sunday morning just before High Mass at Mt. St. Mary's church, some young women were walking toward the grove, a short distance beyond, when suddenly there appeared just in front of them a large rattle snake. They called to some boys not far away to come to their assistance. Cecil Taney, who was the first to reach the spot, seized a large stone and at close range hurled it with all his might striking the snake about the middle and disabling it. His older brother, Raymond, coming to his aid they soon dispatched the monster. It was a very large snake measuring four feet, six inches in length, having eleven rattles and a button, indicating an age of fifteen years. When attacked it was sounding its note of anger and defiance, in blood curdling style. Just about the time the snake was in the throes of death, "the old settler" hove in sight, bearing aloft an immense limb of rotten wood, with which he dealt the expiring rattler a mighty blow, shivering his mace into many fragments, at the same time exclaiming, "begosh 'til mighty that's tie way I fix 'em."

A Large Barn Destroyed by Fire. A very severe electrical storm passed over the southern portion of the Middletown Valley, between nine and ten o'clock Thursday night.

At Jefferson the large 96 foot new barn, belonging to Mr. John C. Long, located one mile north of that place, was struck by a bolt of lightning and consumed, together with 1,400 bushels of wheat, the crop of hay, hatters, a wheat fan, scales and a small calf. A lot of stock except the latter were gotten safely out. The barn was covered with an iron roof, and the lightning came down upon it, spreading over the entire roof, and in a few seconds all parts of the barn were a burning mass. It was insured in the Grangers' Mutual Insurance Company, of Middletown, for two-thirds its value, the amount being about \$2,000. In the barn was a lot of live stock, binder and buggy, which were safely gotten out. The reflection from the burning building could be plainly seen in this city.—Herald and Torch Light.

Death of Isaac G. Hoffman. Thursday last the sudden death of an aged man, Isaac G. Hoffman, occurred at his late residence near Ringgold, Md., from the effects of a second paralytic stroke. Mr. Hoffman suffered a severe stroke of paralysis about 18 months ago and had partially recovered until on the 29th of July he received a second stroke, which was beyond his endurance and death relieved the suffering man on the day above stated. He lived to attain the advanced age, 67 years, 8 months and 22 days, and was a warm friend of the Record. He is survived by a wife, four sons and five daughters. His admirable traits made for him many warm friends, who will regret to read of his sudden demise. Funeral took place Saturday and interment was made in the burying ground at Montgomery Church, near Upton, Franklin county.—Village Record.

The Home for the Aged. We have received a copy of the Constitution and By-Laws of the "Home for the Aged" recently incorporated in Frederick City, Md., with the names of the Trustees and Officers, and congratulate the citizens of Frederick on the philanthropy and liberality of which the institution is an evidence. The names of those entrusted with the management of this noble charity, are an assurance that it will be wisely and conscientiously conducted.

Dyspepsia

Few people have suffered more severely from dyspepsia than Mr. E. A. McMahon, a well known grocer in Staunton, Va. He says: "Before 1875 I was in excellent health, weighing over 200 pounds. In that year an ailment developed into acute dyspepsia, and soon I was reduced to 125 pounds, suffering burning sensations in the stomach, palpitation of the heart, nausea, and indigestion. I could not sleep, lost all heart in my work, had fits of melancholia, and for days at a time I would have welcomed death. I became morose, silent and irritable, and for eight years life was a burden. I tried many physicians and many remedies. One day a workman employed by me suggested that I take Hood's Sarsaparilla. I had cured my wife of dyspepsia. I did so, and before taking the whole of a
