DIFFICULTIES ATTENDING OUR QUARANTINE REGULATIONS.

The most serious difficulty which has confronted the Quarantine officials of New York, is one, that, with present regulations, must present itself at every seaport at which an effort is made to prevent the landing of passengers from ships in which contagious diseases are known to exist, and which no adequate arrangements have yet been made to meet. We refer to the detaining of perfectly healthy people on board diseased-infected vessels, for an indefinite period.

The idea of providing a safe and comfortable refuge for those, who, though reaching our shores in perfect health, have been so unfortunate, as to make the voyage in a vessel, in which an epidemic has developed among some of the passengers, does not seem to have entered into any of the arrangements which were so carefully made at first for the protection of New York.

That it should be left to individual effort to provide a means of escape for the imprisoned passengers, before any steps were taken to secure safe and comfortable accommodations, proves the inefficiency of our quarantine regulations and demands a radical change in the administration of this important branch of public service.

To allow state organizations, to make and enforce such regulations as seem necessary to their several localities, is a grave mistake, as was proven by the cowardly, unreasonable and inhuman conduct of the people of Long Island, a few days ago in preventing the landing on Fire Island of the refugees from the infected vessels, after the Quarantine officials had purchased the Surf Hotel (the only building on the little island) and fitted it for their accommodations.

The sufferings of the men, women and children, who were crowded so closely on the vessel sent to carry them to a place of safety, that there was barely standing room, when they were driven back from the island, by the crowd from neighboring towns who had gathered there to prevent their landing, must be the strongest protest against any quarantine regulations which are not made and enforced by the general government. The unreasoning fears, and ignorant prejudices, of the large majority of people, in time of danger or alarm, make the carrying out of measures for public protection, imperative on the part of the Government, regardless of individual prejudice or protest.

But after all, the most efficient safeguard against cholera, as well as many other diseases, must be such care of ourselves and our surroundings as shall give no encouragement to its presence, and above all to face it fearlessly. Unreasoning fear is far more dangerous when this eccentric scourge is devastating a neighborhood, than contact with those who are suffering with the disease.

Hood's SARSAPARILLA ABSOLUTELY CURES all diseases caused by impure blood and it builds up the whole system.

No Strike on the Reading.

PHILADELPHIA, Sept. 14.—For some days past there have been rumors of a general strike on the Reading railroad system, it being alleged that the management proposed to discharge all men connected with labor organizations. The case of Engineer William Schaefer, who was discharged, it was alleged, for joining the Leocomotive Engineers' Brotherhood, led to a conference yesterday between President McLeod, of the road, and Chief Arthur and others, of the engineers. The result of the conference was the reinstatement of Schaefer, and the announcement that there would be no strike, every difference having been amicably adjusted. The exact nature of the compromise is not made public, but it is pretty certain that it includes ample compensation to the men, as they seem especially well satisfied.

New Iron Hail Officers.

INDIANAPOLIS, Sept. 15.—Rapid progress was made yesterday by the Hall convention engaged in reorganizing the order. S. E. Towne, of Philadelphia, was elected supreme justice; H. L. Jones, Boston, supreme vice justice; W. E. Landers, Indianapolis, supreme accountant; Albert Cobb, Indianapolis, supreme cashier. Revised laws for the order were adopted which greatly curtail the powers of the supreme officers, particularly in regard to their control of the order's funds. The next move will be to try to take the order's funds out of the hands of the receiver. A special committee held a conference with Judge Taylor, of the superior court, looking to that end, but got little encouragement.

Pearcy Homeward Bound.

ST. JOHN'S, N. F., Sept. 15.—Lieutenant Percy and the members of the relief expedition sailed in the steamer Kite for Philadelphia direct yesterday. It has leaked out here that Percy went twenty miles farther north than the previous explorer, and said there was open water beyond the northern point of Greenland. An expedition is already on foot for next year.

The Maine Election.

AUGUSTA, Me., Sept. 13.—Joseph H. Manley telegraphed Chairman Carter as follows: "The total vote will be 12,000 less than in 1888. We elect all four congressmen, carry fourteen of the sixteen counties, have two-thirds of the legislature and elect our governor by 11,000 majority over the Democratic candidate."

Cataract Can't be Cured.

with LOCAL APPLICATIONS, as the eye cannot reach the seat of the disease. Cataract is a blood or constitutional disease, and in order to cure it you have to take internal remedies. Hall's Cataract cure is taken internally and acts directly on the blood and mucous surfaces. Hall's Cataract Cure is a quack medicine. It was prescribed by one of the best physicians in this country for years, and is a regular prescription. It is composed of the best tonics known, combined with the best blood purifiers, acting directly on the mucous surfaces. The perfect combination of the two ingredients is what produces such wonderful results in curing cataract. Send for testimonials free. F. J. CHENEY & CO., Props., Toledo, O. CHOLERA IN NEW YORK.

NEW YORK, Sept. 15.—While Dr. E. W. Jenkins, the port physician of New York, has been fighting the cholera at the quarantine station of Staten Island, the citizens of Islip and surrounding towns have been fighting him. The controversy between state and county authorities arose over the purchase of Fire Island by authority from Governor Flower. The purchase was made for the purpose of converting the Surf hotel and the island into a temporary quarantine station, where infected passengers of pest ships could be kept in comfort during their temporary imprisonment. Citizens of surrounding towns, fearing the spread of the contagion, at once wrote to the governor, and the governor, Governor Flower and Dr. Jenkins, on Monday last, when the excursion steamer Cepheus went to the island with 487 cabin passengers of the Hamburg liner Normannia, they were met by a mob of three or four hundred armed with an injunction restraining the landing, which had been granted by Judge Barnard, of Brooklyn, on the appeal of the Islip health board, and the vessel was forced to anchor in the stream. Monday night Senator McPherson, of New Jersey, a passenger by the Normannia, was rowed in shore and made an earnest appeal for permission to land the older women and the children who were suffering from cholera. Lack of food and sleeping accommodations, the crowd, acting on the advice of their counsel, Willard P. Reed, refused to heed the appeal, and the passengers passed the night amid their own sufferings. On Tuesday morning, however, the supreme court dissolved the injunction, and the passengers were landed on Fire Island, and celebrated the event with the greatest enthusiasm. They were at once placed in comfortable quarters in the hotel, and soldiers detailed by order of Governor Flower were placed on guard. The Normannia's passengers were finally set at liberty this morning.

THE SCOURGE IN NEW YORK.

Health Officials Have No Fear That the Disease Will Spread. NEW YORK, Sept. 15.—The board of health today announced five deaths from Asiatic cholera, as follows: Charles McEvoy, who died Sept. 6; Mrs. Sophia Wignam, died Sept. 10; William Wignam, husband of Sophia, died the following day; Minnie Levinger, a child, died on Saturday; Charles Beck, aged 23, died on Tuesday. The deaths occurred in different sections of the city.

All of these cases were originally reported to the health department as suspected cholera, and have been under the observation of the physicians of the department. Professor Herman Biggs, who is in charge of the division of pathology and bacteriology of the health department, has been at work on the pathological examination of the intestinal fluids taken from the bodies of these suspected cases. The professor reported to the health department yesterday afternoon the result of the examination, and announced unhesitatingly that the cases were Asiatic cholera beyond any doubt.

The medical commissioner of the health board, Dr. Bryant, says he does not think the disease will become epidemic. This, he says, is almost assured from the fact that no suspicious cases have occurred since Tuesday. "There seems to be but little danger," said Dr. Bryant, "and the public need not be alarmed. Every precaution has been taken by the board of health to crush the disease wherever it may appear."

Dr. Edson, of the bureau of contagious diseases, was also of the opinion that there will be no cholera epidemic here. WASHINGTON, Sept. 15.—Surgeon General Wainwright, in speaking of the outbreak of cholera in New York city, which resulted in five deaths, said that he was not at all surprised that the disease had gotten into New York city, but he does not feel alarmed over the situation, as the cases were scattered, and there was no indication of its spreading.

QUARANTINE, Sept. 15.—Viewed from the health officer's official residence, the cholera scare is not the pleasant picture of progress in stamping out the disease which has existed for the past few days. The report that actual cases of Asiatic cholera have existed in New York for the last week, in spite of daily official bulletins to the contrary, spreads a wet blanket over the doctors keeping the scourge from passing the ocean gateway. The flash of discouragement which spread over the face of the health officer when told of the admission made by the New York city board of health was certainly natural, while his instant exclamation: "I don't believe it got in by quarantine!" simply voiced the belief of all who had been stationed here and watched the enforcement of quarantine regulations. In discussing the subject the doctor expressed the greatest surprise and said it was the first intimation he had received of the existence of the disease in the city.

Questioning as to the effect the existence of the disease in the city would have on the severity of quarantine regulations, the health officer said there would be absolutely no change in the present restrictions.

Just as the State of Nevada, of the Altam line from Glasgow, is of especial interest, as she is the first ship to bring immigrants which left port after the publication of the treasury circular. She brings 221 cabin and fifty-five steerage passengers. Though the latter are not from an infected country, and there is no cholera aboard, Dr. Jenkins says there will have to hold them for the full twenty days, unless sooner authorized to release them by orders from Washington. The first and second cabin people will be treated according to the health officer's discretion, as in previous cases, and will therefore not be detained longer than five days.

HAMBURG'S AFFLICTION.

The Loss to Trade and Commerce Four Hundred Million Marks.

HAMBURG, Sept. 15.—There were 669 fresh cases of cholera in this city yesterday, or forty-one fewer than on Tuesday, and about a hundred fewer than the daily average for the previous two weeks. The deaths numbered 203, or twenty-four fewer than Tuesday. The international railway station, the cholera hospitals and barracks 3,191 patients are under treatment. The mortality is mostly among starved women and children from the poorest quarters of the city. Among the families of small tradesmen the mortality is almost nil, and it is believed that, in the better parts of the city proper, the infection has been practically stamped out.

The loss to trade and commerce since the beginning of the plague is estimated at 400,000,000 marks. Many small houses have been reduced to insolvency, and when business shall be generally resumed will undoubtedly declare their inability to continue. The larger houses, however, have been saved by the moderation of the banks, and will encounter no difficulties in opening again.

Massachusetts Republicans.

BOSTON, Sept. 15.—In the Republican state convention yesterday Hon. William H. Hall, of Springfield, was nominated for governor by acclamation. Hon. Nathaniel P. Banks and John D. Long were chosen for presidential electors at large, and the best of the ticket was: Lieutenant governor, Roger Wolcott; secretary of state, W. M. Oliver; attorney general, Albert E. Pillsbury; auditor, John W. Kimball; treasurer and receiver general, George A. Madden.

ALARM AT LOON LAKE.

LOON LAKE HOUSE, Sept. 15.—Drs. E. W. Jenkins and Dr. L. N. Martin, of Long Island, New York, and E. L. Trudeau, of Saratoga, had a consultation at the president's cottage in regard to the case of Mrs. Harrison, and at its close issued the following statement:

"Primary disease, pulmonary tuberculosis of the right side, associated with nervous prostration; recent complication, sub-acute pleurisy, with rapid effusion of water in the right chest, necessitating two tapplings with some relief. Present condition critical. On account of tendency to reproduction of fluid. Removal to Washington at present impossible. Prognosis as to immediate future uncertain."

The family take no encouragement from their bulletins, and make no effort to conceal their great alarm at the situation. The physicians advise them to hope for the best, but offer no real encouragement. They admit that they are mortally afraid of the result and have, so it is said, quietly intimated to the president the strong probability of a fatal result.

The president is a most faithful companion and nurse. Mrs. Harrison's bedside. In fact he really shares the nursing of the invalid with a professional attendant.

Mr. Russell Harrison and Mrs. McKee, the president's son and daughter, are also in constant attendance. The former was summoned from New York as soon as the disease took a dangerous turn.

Mrs. Dimmick and Mrs. Parker, nieces of Mrs. Harrison, and Lieutenant Parker accompanied Mrs. Harrison here and have ever since been nursing her. Her attention to her. Private Secretary Halford is still here and will remain with the president until he goes to Washington.

Unless there should be a decided improvement in Mrs. Harrison's condition within the next few days, of which there is very little prospect at present, the president will not return to Washington in time for the Grand Army encampment next week. He is dead, he is not detained here for several weeks beyond that period.

Mrs. Harrison passed a quiet and restful day yesterday. She remained conscious of her surroundings and showed a keen appreciation of the precautions of her condition; so much so that her nervousness was increased in the fear of a turn for the worse. Dr. Gardner made a careful examination of the patient late last night, and found that she had passed a comfortable day. Her respiration is less labor and she is able to take some quantities of liquid nourishment at intervals.

The doctor found that the accumulation of the watery substance in the lung cavity was not sufficient to justify any other operation for its withdrawal. These tapplings, Dr. Gardner said, are attended with some danger, on account of the weakness of Mrs. Harrison, and each time a puncture is made she suffers a shock. The first operation of this character was performed Sunday last and the accumulated water in the cavity released. The cavity filled rapidly, however, and two or four hours later another operation was performed.

The greatest danger lies in this watery accumulation, and constant watchfulness is required on the part of the doctors to prevent it from bringing about a fatal termination. "The accumulation has a tendency to smother the patient by filling the pleural cavity and thus destroying the expansive power of the lungs, and it also brings abnormal pressure on the heart," said the president, "and the members of his party and Dr. Gardner show keenly the results of their anxiety."

New Jersey's Nominees.

TRENTON, Sept. 14.—The Republican state convention yesterday was presided over by Ex-Senator Nevins as permanent chairman, and John R. Keen, Jr., E. Arnold Grubb, Franklin D. Murphy, and Frank A. Magovern were named for the gubernatorial nomination. Keen was chosen on the second ballot, and the greatest enthusiasm.

TRENTON, Sept. 15.—The Democratic state convention yesterday was presided over by Edward F. McDonald, of Hudson. The men named for the gubernatorial nomination were George T. Werts, E. F. Young, General K. A. Donnelly and Augustus W. Citter. Only one ballot was taken, and the result was an indication by a vote of 170 to 158 for Young. The Donnelly and Citter votes all went to Werts. Hudson county refused to make the nomination unanimous.

Suicides at Monte Carlo.

LONDON, Sept. 15.—Particulars have been received here of the suicide of Miss Jane Armstrong, of New York, after she had lost a fortune at Monte Carlo. She was an orphan, 36 years of age. She sailed from New York early in August, and after visiting friends in Trieste went to Ventimiglia, about twenty miles from Nice. She first went to the casino at Monte Carlo on Sept. 3. She played most of the first day and won 100,000 francs on the "twenty-four." The next day she lost \$200,000. On the third day she made good her losses, and said she would play no more. She returned, however, on the fourth day, and lost her fortune. She then shot herself in a villa at Ventimiglia. Two men, said to be Englishmen, who lost all their money at the casino, sprang into the sea on the same night.

Three Killed by Train Robbers.

FRESNO, Cal., Sept. 14.—Deputy Sheriff Witte, of Visalia, and Constable Hill, of Sanger, and several others came upon Sanger and Fresno, the train robbers, at Thompson Flat, this county, yesterday. An attempt was made to arrest them, but they escaped after killing three of the posse, shooting Hill's horse from under him and wounding Witte. The killed are Marshal McGinnis, Richard Olsen and a man named Wilson. News of the encounter was received at the sheriff's office by telephone from Constable Hill last evening, and Sheriff Hanson left for the scene with a large posse.

Death of Rear Admiral Howell.

LONDON, Sept. 14.—Rear Admiral John Cunningham Howell, of the United States navy, died at Folkestone, aged 72. He entered the navy as midshipman June 2, 1846; was passed midshipman July 1, 1849; master, Feb. 21, 1849; lieutenant, Aug. 9, 1849; commander, July 16, 1862; captain, July 25, 1866; commodore Jan. 29, 1872; chief bureau yards and docks, Sept. 22, 1874; rear admiral, April 25, 1877. He served with honor during the rebellion, and commanded the north Atlantic and European squadrons in 1878-81, and before that, 1874-78, he from time to time was acting secretary of the navy.

Fatal Railroad Accident.

STAUNTON, Va., Sept. 15.—The north bound vestibule limited train No. 6, on the Shenandoah branch of the Norfolk and Western railroad, was derailed and badly wrecked one-half mile south of Basic City yesterday. John Updegraff, the conductor, was so badly lacerated that he died soon after. Engineer William Dorrough was crushed to death beneath his engine. Fireman Martin Propps was also killed. Not a passenger was killed, and but three were injured.

Speedy Jersey Justice.

NEWARK, N. J., Sept. 15.—Tony Benule, the Italian, charged with the murder of Thomas Burns a few hours after the commission of the crime, was indicted by the grand jury twelve hours after the homicide.

MARYLAND MATTERS.

CUMBERLAND, Md., Sept. 15.—A heavily loaded freight train on the West Virginia Central railroad, near Seaymon station, broke in the center. The detached section ran into the forward portion, badly wrecking twelve or fifteen cars. Several of the crew narrowly escaped by jumping.

ROCKVILLE, Md., Sept. 10.—On Friday an early morning train killed an unknown man at Woodside, a station on the Metropolitan branch, between Silver Spring and Rockville. The body was so badly mangled that identification was impossible. It is supposed the unfortunate man had fallen asleep on the platform and was caught by an express train.

ROCKVILLE, Md., Sept. 13.—Although the Montgomery County Agricultural society went to considerable expense for the fair which was held last week and for the improvement of the grounds, receipts were sufficient to pay all obligations and make a reduction of the mortgage indebtedness. The fair was admirably managed and the sports gave pleasure to all.

CUMBERLAND, Md., Sept. 13.—Burglars entered the saloon of L. N. Martin, in South Cumberland, Sunday night and carried a 500 pound safe out of the back door to a secluded place along the Baltimore and Ohio railroad. The safe was blown open by means of powder and about \$100 secured. The robbers also stole six boxes of fine cigars and some valuable wine. No clue to the thieves.

ELLMONT CITY, Md., Sept. 13.—In the Howard county circuit court yesterday Samuel Undergarf was tried for robbing the Baltimore and Ohio station at Litchfield and was convicted. John T. Barnes pleaded guilty to wife beating and was sentenced to thirty days in jail. Thomas Barnes, colored, was convicted of horse stealing and sentenced to six months in the reformatory. A jury of inquiry adjudged William H. Harding sane.

WESTMINSTER, Md., Sept. 11.—The Democrats of Hampstead district, No. 8, organized a Cleveland, Stevenson and Tilden club Saturday night. Michael E. Walsh, of Westminster, was elected president; William H. Ruby, J. Oliver Murray, E. B. Ham and J. B. Stricklen vice presidents; John T. Basler, secretary; and John T. Abbott, corresponding secretary. Benjamin F. Crouse, chairman of the county central committee, and Mr. Walsh addressed the meeting.

LOANCONING, Md., Sept. 14.—Rev. H. M. Manning, pastor of St. Mary's Catholic church, preached his farewell sermon in Loanconing Sunday and left yesterday for Baltimore to take charge of St. Andrew's church. Rev. Mr. Manning has been in charge at Loanconing for nearly eight years, and has become acquainted with his people. During his labors he has had a convent built, a parochial school established and last year erected St. Joseph's church at Midland, a portion of the parish, and has improved his own church to a considerable extent. He has spent \$20,000 in improvements, all of which has been paid except a small debt of \$1,000. Rev. Mr. Stanton succeeds Mr. Manning.

FREDERICK, Md., Sept. 11.—At a meeting of the Republican county central committee, yesterday, Dr. S. T. Haffner was elected chairman of the campaign committee, in place of William H. Parwell, Jr., resigned, and J. Henry Lampe was chosen treasurer, vice Harriet S. De Graze, also resigned. The Republicans are expressing much confidence in their ability to carry Frederick county for Willington at the coming election, basing their hope largely upon the fuller vote which they are always able to poll in a presidential year, and again upon the dissatisfaction which they allege exists in the Democratic ranks in consequence of recent legislative enactments extending the terms of all the county officers for four years.

Belair, Md., Sept. 11.—The

Republican league club of Forest Hill, Hartford county, held the opening meeting of the campaign in the Second congressional district on Saturday afternoon and raised a pole 85 feet in length. When the pole was in position forty-four young men, dressed in white, drew the American flag and a streamer bearing the names of the Republican nominees, Harrison, Reed and Baker, to their places on the pole by means of ropes. The streamer, bearing the names of the nominees, was hoisted by the young men and waving of handkerchiefs by women and children, who had assembled in large numbers. John T. Harkins was chosen to preside, and addresses were made by George A. Baker, the Republican candidate for congress, Harry Clabaugh, chairman of the state committee; H. Clay Nail, secretary, S. A. Williams and S. W. Bradford.

EASTON, Md., Sept. 11.—Major William E. Stewart, state's attorney for Talbot county, received a letter from Judge John M. Robinson, dated Sept. 8, in regard to the conviction of an oyster tanger. Judge Robinson says: "Commodore Seth brought before me for trial a man arrested for the violation of the oyster act of 1892. He admitted, and was proved that he was found engaged in taking oysters not for private use, nor from a private bed, but in the public waters and on the public beds. His defense was that he was merely taking up oysters for the purpose of selling them after Sept. 15, and not before. So I found the traveler guilty and told the officers it was their duty to arrest every one taking oysters before the 15th if they were taken for the purpose of sale and not for private use."

The One-hoss Shay.

The peculiar feature of the "one-hoss shay" was, that it was "built in such a wonderful way" that it had no "weakest part." The "weakest part" of a woman is invariably her back, and "female weaknesses" are only too common. With the use of Dr. Pierce's Favorite Prescription, this may be avoided, and women may be comparatively as strong as their brothers. Prolapsus, inflammation, ulceration, periodical pains, leucorrhoea, dragging-down sensations, debility, nervousness, sleeplessness, despondency, are only a few of the symptoms of weakness of the female organs which the "Favorite Prescription" is warranted to remove.

For a mild cathartic and efficient tonic, use Baxter's Mandrake Bitters. Every bottle warranted. For sale by J. A. Elder.

PROF. WM. M. MARTIN, of Loy's Station, who several years ago, taught in the public school in this place, is now teaching in the High School at Mechanicstown.

THE building for the Incandescent Electric Light Plant, at Frederick, is nearing completion, and the manager says he will have everything in readiness by the first of October.

FOUND.—A gold pin bearing the inscription: "G. S. H., Adventist Regum Tuum." The person to whom it belongs can get the same by calling at this office and paying advertising charges.

It was officially announced in New York on Wednesday, that five deaths had occurred in that city from cholera, but no new cases have occurred since that date.

THE True Laxative Principle
Of the plants used in manufacturing the pleasant remedy, Syrup of Figs, has a permanently beneficial effect on the human system, while the cheap vegetable extracts and mineral solutions, usually sold as medicines, are permanently injurious. Being well-informed, you will use the true remedy only. Manufactured by the California Fig Syrup Co.

Presentation.
The Frederick News says: Rev. J. B. Manly, pastor of St. Andrew's church, Monument and Washington streets, Baltimore, has been assigned to Mt. St. Mary's College, Emmitsburg. Monday evening a delegation of the members of the church called at the parsonage, and Mr. James J. Kelly, in behalf of the congregation, presented to the priest a gold watch suitably inscribed.

A CURE FOR CHRONIC DIARRHŒA.—Mrs. E. Gleason, of Salem, Dent Co., Mo., writes as follows: "Chamberlain's Colic, Cholera and Diarrhoea Remedy cured me of chronic diarrhoea after years of standing, when it seemed I could live no longer, I was growing so weak. I had tried several doctors in this State and several in Iowa, but they could do nothing for me. I was finally induced to try a bottle of your medicine. After using three bottles of it I was entirely cured. I cannot say enough in its praise. I wish that every family knew the worth of it as I do, and I am sure they would never do without it." For sale by C. D. Eichelberger.

Lunatic Inquired.
A jury of inquisition was summoned by the Sheriff Tuesday afternoon to inquire whether or not Charles D. Gaugh, of Lewistown district, be a lunatic and insane pauper. After seeing the person and hearing the testimony of physicians and others found that the said Charles D. Gaugh is a lunatic and insane pauper.

It was ordered by the Court that the said Charles D. Gaugh be committed to the Almshouse of Frederick county, called Montevue.—Examiner.

Leg Broken.
On last Friday evening while Mr. Richard A. Offutt, was returning home on horse back, from Motter's Station, the horse shied, throwing him to the ground and breaking his left leg near the hip joint. Dr. John B. Brawner set the fractured limb and the patient is doing as well as can be expected.

Every Testimonial
In behalf of Hood's Sarsaparilla is strictly true and will bear the closest investigation. No matter where it may be from, it is as reliable and worthy your confidence as if it came from your most respected neighbor. Have you ever tried this excellent medicine?

For a general family cathartic we confidently recommend HOOD'S PILLS. They should be in every home medicine chest.

TUESDAY last was a genuine old-fashioned rainy day. The rain came down steadily accompanied by gusts of wind, which sent the dead leaves swirling through the air and kept one continually reminded of Longfellow's dreary poem, whilst it made me realize that "Behind the clouds the sun was shining," and if science had not completely exploded the old idea of equinoctial storms we should have unhesitatingly referred to the dreary weather as one of these semi-annual disturbances. From nine till eleven at night the downpour was especially terrible, the creeks and mountain streams all being filled to a level with the banks.

Second Visit.

Two men appeared in this place on Thursday and furnished our citizens with a few selections of choice music. The one man was a sort of a band all to himself, having a bag pipe, a base drum fastened to his back, on which was placed a pair of symbols and a triangle, all of which he played at the same time, while the other man passed the hat around and played a lullaby on the tub. This is the second visit these musical prodigies have made to this place during the present summer, and we expect to see them again next spring with a few more musical instruments attached to their band.

G. A. R. ENCAMPMENT.

Low Rates to Washington via B. & O. R. R.
Tickets for \$1.20 for round trip from Baltimore to Washington 13th to 20th, inclusive, good to return until October 10th, inclusive. Special trains from Camden Station at frequent intervals daily.

The G. A. R. parade will take place at Washington on the 20th. It will be the greatest and most imposing military assemblage since the grand review of 1865, following the fall of Richmond, and will be reviewed by the President, his cabinet and other distinguished personages.

Accident.

Mr. Jonathan Biser and wife met with a serious accident Tuesday afternoon on their return from Middletown. When nearly opposite the country residence of Mr. John H. Williams, the horse took fright at a man with a bicycle, became unmanageable and started to run. The buggy struck against a telephone pole, breaking the shafts of the buggy; the harness broke and the horse went free, jerking Mr. Biser forward over the dasher to the ground, severely bruising his shoulder. He was able to be out on the street this morning. Mrs. Biser was not hurt, but received a severe shaking up and was very much frightened.—Examiner.

The Hagerstown Fair.

The thirty-seventh annual exhibition of the Great Hagerstown Fair, composed of the county associations of Washington and Carroll, Md., Franklin and Adams, Pa., Berkeley and Jefferson, West Va., Baltimore and Washington Cities, will be held at Hagerstown, on Oct. 11, 12, 13, and 14. The Fairs held at Hagerstown during the past few years have gained a reputation of having the best display of live stock, poultry, farm products, textile fabrics, machinery, &c., exhibited anywhere in the State of Maryland, and the Fair which will be held on the above dates promises to excel all previous displays of Agricultural exhibitions. See adv. in another column.

Right or Wrong.

Which will ye have? It does seem as if some folks prefer to have the last condition of the liver rather than the first. They perpetually dose themselves with purgatives totally without virtue as alternative of liver trouble. Hostetter's Stomach Bitters is the successful candidate for the people's choice, and yet, popular and well known as it is, there are unfortunates who keep on trying the drastic remedies of former days. It is to the intelligent portion of the public that the well known and long tried properties of the Bitters appeal. Reason should be guided by experience in the matter of medication. "The best guide to our feet is the lamp of experience," said a great patriot of the early revolutionary period, and the exclamation is pregnant with truth. For over a century of centuries the Bitters daily has met with the endorsement of people suffering from liver complaint, malaria, constipation, rheumatism, acidity and troubles accompanied by dyspepsia. Latterly it has declared itself and been thoroughly approved as a remedy for "jaundice."

SABILLASVILLE ITEMS.

IN MEMORIAM.

Communicated.
Last Friday evening, Sept. 9th, 1892, God visited the family of Mr. James O. Harbaugh, and took his little daughter Mary, to meet her little brother at home in Heaven, aged 5 years, 6 months and 6 days. Little Mary did not suffer long here on earth, when the angels came and carried her to her beautiful home in Heaven, where she has become a star that will ever be bright, beckoning those who loved her so dearly to join her in Heaven, where parting is unknown. Little Mary was dearly loved here on earth, but as God is always wise in his callings, we must submit to them and give those who are dear to us, hoping to meet them in Heaven.

Parents, Jesus took your darling child From this world of sin and pain. In Jesus let your tears be dried, And live to meet in Heaven again.

Little Mary was the daughter of Mr. James O. Harbaugh, of near Emmitsburg. Interment was made in Reform Cemetery, at Sabillasville, on Sunday. Last Saturday Mr. Harlan Brown, who had been in an unconscious condition for several months, died at his home at Deerfield, Md. The deceased was a son of School Commissioner Joseph B. Brown, and was 23 years, 7 months and 25 days old. Interment was made in the Cemetery at Foxville, Md.

Mr. T. A. Wastler and wife were at Baltimore on Wednesday, to witness the flag raising by the Junior O. U. A. M.

Mrs. M. A. Crist is visiting her daughter, Mrs. Mary Chaney, at 222 N. Calhoun St., Baltimore, Md.

Mr. Isaac Hahn and family, of Middleburg, Md., recently spent several days at this place.

Mr. S. P. Ambrose and wife, of Waynesboro, spent Sunday with Mr. Adam Bowser.

Mrs. Nettie Koontz, of Roanoke, Va., recently visited relatives here.

Mrs. Susan Yesler of State Line, is visiting relatives at this place.

Those who are interested in the merits of the various cough medicines should read the statement of Mr. S. B. Walker, a prominent citizen and druggist, at Calumet, Iowa. It is as follows: "I have sold Chamberlain's Cough Remedy for eight years and it has given universal satisfaction to my customers. I use no other in my family, and have never called a doctor for any throat or lung trouble. We feel that we could not keep house without it." 50 cent bottles for sale by C. D. Eichelberger.

MT. ST. MARY'S ITEMS.

Mr. Edward J. Sweeney made a trip to Baltimore.

Miss Malthe Althoff is spending a few days at Motter's.

Mrs. Mary Whitney spent a few days among her relatives here.

Mrs. A. Baker and daughter, Miss Sadie, made a trip to Eyer's Valley.

Miss Kate Hobbs has returned home after spending a few days in Emmitsburg.

Mrs. Henry Warthen and Mrs. Joe. Warthen are visiting their relatives here.

Miss Mary Jordan has returned to Baltimore, after spending some time here.

"What a pity it is that his face is all pimples; He'd be very fine looking if 'twasn't for that."

Said pretty Miss Vere, with a smile at the dimples

Reflected from under the nobby spring hat—

As she looked at herself in the glass, softly sighing.

That she had for the young man a tender regard,

There wasn't the least need of denying—for every one knew it. "His beauty is marred by the frightful red blotches all over his face. I wonder if he couldn't take something to cleanse his blood, and drive them away?"

He heard what she said about his looks. It hurt his feeling, but he couldn't deny she told the truth. He remembered a friend whose face used to be as bad as his. It had become smooth and clear. He went to him and asked how the change had been brought about. "Simply by using Dr. Pierce's Golden Medical Discovery," was the reply. "Take that, and I'll warrant you to get rid of your pimples."

His face became healthy and clear, and next week he'll be married to pretty Miss Vere.

Killed by a Falling Sand-Bank.

George Ernle, of Hagerstown, aged twenty-six years, a son of Louis Ernle, was killed Monday by a falling sand-bank. He was working in the bank along the Antietam, several miles from that town, when it caved in on him. Clay Munson had been working with Ernle, had gone down the creek with a boat load of sand, and upon his return saw that the bank had fallen and began to search. He soon found Ernle's lifeless body under the dirt. About a week ago a small quantity of sand fell on Ernle, and several years ago one of his brothers was killed at the same bank in the same way.—News.

Drowned at Brunswick.

Tuesday evening the hands in charge of the lock of the C. & O. canal at Brunswick attempted to open the lock when they found that the gates of the lock were blocked by some obstacle. Upon making search they found the body of a man which was identified as that of Mr. George Wire, of Lovettsville, Virginia. It is thought that Mr. Wire came on the 6.49 train east, got off at Brunswick and in attempting to cross the Canal to get to the other side of the river, fell in the canal and was drowned. An inquest was not held as death resulted from accidental drowning. Mr. Wire carried on the blacksmithing business in Lovettsville.—News.

FAIRFIELD ITEMS.

Mr. and Mrs. Yount, of Washington, are visitors at this place.

Camp-meeting is in progress in Mr. E. W. Harbaugh's Grove.

Miss Ida Krug, of this place, is spending a few days at her home near Hanover.

Mr. Wm. Kittinger, of Fairfield, is lying very ill with typhoid-pneumonia fever.

Mr. George Sanders has bought Mr. W. Hummelbaugh's property on Main Street, Fairfield.

Mr. and Mrs. Henry Sanders and Mrs. F. Shulley are visiting Mr. and Mrs. John Butt, at Glenwood Mills.

Miss Mary Martin, of Roundville, and Mrs. Alice Brewer, of Clearspring, are visiting Mr. and Mrs. J. M. Musselman in this place.

Your correspondent expects to attend the National Encampment at Washington, consequently there will be no items next week from Fairfield.

Mr. Samuel Dubs visited among his friends at Greenridge, York county, and Mrs. S. Dubs spent a very pleasant day at Pen Mar, last week.

Mr. Peter Sanders, who works on the repairs on the railroad, went to Mr. Jos. Musselman's for a drink of water, and a pig that had gotten fast under the fence, commenced to squeal, which brought the sow to the spot, and as Mr. Sanders was climbing over the fence, the animal caught his leg and pulled him down, biting him in the arm and tearing his clothes. He called for help and if no one had come, he might have been killed. He was badly bruised as well as bitten.

Tired of Life.

Sunday morning the neighborhood of Funkstown and Beaver Creek was shocked by the intelligence that George Wallick, a prominent and highly respected farmer, residing two miles east of Funkstown on the Beaver Creek turnpike had taken his life at his own hands by a double-barreled shot gun.

The unfortunate suicide occurred about six o'clock in the morning while his wife was milking. She heard the report of the gun and hastening to the house, found her husband lying in the yard at the side of the house in a pool of blood with the gun at his feet and the top and front of his head blown off. It is supposed that the manner in which he committed the deed is as follows: He fastened a stick used for holding up a window, to the trigger of the gun, the stock of which he rested on the ground and holding his head directly over the muzzle, pressed the trigger with his foot, thus discharging the gun, the entire contents striking him in the forehead.

He had been ill for several weeks with some disease resembling typhoid fever and was not recovering as rapidly as he thought he should. For some time he had been much depressed and melancholy and it is thought his mind was impaired.

He leaves a widow and two children, a daughter and son, aged respectively three and one years. These have the deepest sympathy of the entire community, which greatly deplore the unfortunate accident. Mr. Wallick was aged about thirty years and was highly respected in the community.—Herald and Torch Light.

Reading Circle.

A movement is on foot in this place to start a home reading circle to be known as the "Chautauqua Literary and Scientific Circle." The object of this society is to combine with the regular routine of daily life, a course of reading that will be beneficial and instructive to all who become members. The amount of reading which each person is expected to do, will require about one hour's work each day. The books to be read the first year are as follows: Greek History, Greek Literature, American Diplomacy, Ancient Greek Life, Social Science, Greek Art, Religious Literature, and The Chautauquan. The course this Circle pursues embraces a period of four years' reading. A society of this kind is greatly needed in this place, and we hope that those who have the matter in hand will be successful in their efforts.

Since the above article was written a meeting was held at the residence of Mr. E. R. Zimmerman, last evening, when Rev. W. Simonton, D. D., was chosen temporary Chairman, and Mr. E. R. Zimmerman was chosen secretary to attend to the correspondence until a permanent organization has been effected. The meeting was largely attended and twenty members signed certificates of membership. Any person desiring to become a member of this society should hand in their name to the secretary any time before the first of October.

Found Dead.

"Old Don," a faithful hunting dog, belonging to Mr. John A. Horner, of this place, and known as "the hunter's friend," was found dead this morning. As "Don" seemed to belong to every person who had a gun during the hunting season, the owner extends an invitation to all of his old friends to attend the funeral. "Don" was about 18 years old.
