THE SEASON OF LENT.

The Lenten Season, having commenced, the festivities of the gay world will be tempered for awhile, if not subdued, by the solemn hush which seems to pervade the natural, social and religious atmosphere, preparatory to that awful mystery of death and burial which ushers in the glorious Easter tide.

But business does not stop because the season has begun for extra devotion to higher things, and pleasure, though modified by the prominence given to religious duties is not by any means shut out of the world's life.

As the daily work for daily bread must still go on, even so, the human heart will crave something in the way of recreation, or excitement, and where extra attention to heavenly things, fails to satisfy or occupy it, will turn to such recreations as seem most suitable to the season.

Therefore the season of Lent, though properly one of self-denial, is not allowed to depress our spirits, or make our lives less happy or hopeful.

If we indulge in fewer luxuries and attend church more frequently than at other times, we enjoy the change of habit, from the fact of its being a change, apart from its spiritual effects on our lives and consciousness, and the proper employment of the season, cannot fail to benefit us, physically, mentally and morally.

"I was deaf for a year, caused by catarrh in the head, but was perfectly cured by Hood's Sarsaparilla." H. Hicks, Rochester, N. Y.

HAWAIIAN ANNEXATION.

The President's Message Favors the Commissioners' Plan.

WASHINGTON, Feb. 16.—The president sent a message to the senate yesterday afternoon recommending the annexation of the Hawaiian islands to the United States. It is accompanied by a treaty of annexation concluded between the secretary of state and Hawaiian commissioners and a mass of correspondence relating to the question at issue. The treaty is brief, providing merely for the annexation of the islands under the present provisions of the permanent form of government, etc., to the action of congress. The correspondence is very voluminous, going back many years, and gives a complete history of the islands as far as negotiations with the United States are concerned.

Contrary to general expectation the senate in executive session declined to make a vote on the annexation bill, but decided to first have the message and documents printed for the confidential information of senators. The papers were accordingly sent down to the government printing office to be put in type for confidential uses.

FIFTY-THIRD CONGRESS.

Condensed Report of Proceedings in Senate and House.

WASHINGTON, Feb. 16.—The senate yesterday discussed the railroad automatic coupling bill, without final action. In the house the silver coin was the subject of discussion. Mr. Cullings motion setting apart yesterday and today for the consideration of the bill repealing the Sherman act, the vote being ye 4 to 4.

WASHINGTON, Feb. 16.—In the senate yesterday the day was spent in discussing the automatic railway coupling bill, without action. The house discussed the pension appropriation bill, without action. The senate yesterday discussed the pension appropriation bill, without action.

WASHINGTON, Feb. 16.—The senate yesterday discussed the bill providing a subsidy to the Nicaragua Canal company, without action. The house passed half a dozen measures of import to the District of Columbia only, it being District day.

WASHINGTON, Feb. 16.—The senate again discussed the Nicaragua canal bill yesterday for two hours, without action, and then proceeded with the sundry civil bill. In executive session the nomination of Associate Justice Jackson was not acted on. The house discussed pension bills, but the debate was without interest.

WASHINGTON, Feb. 16.—In the senate yesterday the sundry civil appropriation bills (including the World's fair items) were discussed, excepting the bill relating to river and harbor improvements. The invalid pension bill monopolized the attention of the house, but there was no definite action taken.

WHEELING'S STREET CAR STRIKE.

WHEELING, W. Va., Feb. 16.—Another turn was taken in the street car strike yesterday when a large number of the men employed by the city were instantly taken to the streets and joined the strikers. The strike has lasted nearly four weeks, and during that time from four to five cars a day have been run under police protection, which has been a constant terror to the citizens. The loss has been enormous. The strikers will make an effort to have the city nullify the charter of the company.

Seven Crushed to Death in a Quarry. RUTLAND, Vt., Feb. 16.—One of the worst disasters in the history of marble quarries occurred at West Rutland, in a quarry operated by the Vermont Marble Company. A great mass of stone fell into the quarry and seven men were instantly killed and a number of others injured. The victims were crushed so that some could not be recognized. The victims were at work channeling and taking away refuse, and were all middle-aged men.

NEW YORK, Feb. 16.—The will of the late Flora Payne Whitney, wife of ex-Secretary of the Navy William C. Whitney, was yesterday filed for probate. It leaves all of her property to her husband, and makes him sole executor. The property is valued at over three million dollars.

Seven Sailors Drowned. TONKON, Feb. 16.—A serious marine disaster is reported. The bark Catalina, owned at Bremen, has been wrecked off the Mull at Galloway, and the captain and seven of the crew drowned. Four were saved. The Catalina was commanded by Captain Schutte.

CABINET CERTAINTIES.

LAKEWOOD, N. J., Feb. 15.—Mr. Cleveland officially announced the names of four members of his cabinet for the United Press last night. They are Walter Gresham, Illinois, secretary of state; John G. Carlisle, of Kentucky, secretary of the treasury; Daniel S. Lamont, of New York, secretary of war; Wilson B. Bissell, of Buffalo, postmaster general. On making this announcement Mr. Cleveland said:

"There is no need of any mystery in regard to the cabinet, and it is useless to speculate and indulge in guesswork. I shall make no secret of the matter, but shall announce the names of the gentlemen selected to fill the positions as fast as I receive the acceptances and permission to make the matter public."

LAKEWOOD, N. J., Feb. 16.—Mr. Cleveland announced the names of the fifth member of his cabinet last evening. It is that of Hoke Smith, of Georgia, for secretary of the interior. In making the announcement Mr. Cleveland said: "I met Mr. Hoke Smith, of Georgia, in my office in New York today. He called at my request and I offered him the position of secretary of the interior, and he accepted. I wish to say that I have not written him or received any letters or other communications from him, and that today was the first time I have seen him since election."

WASHINGTON, Feb. 15.—There is little doubt felt by well informed politicians here that Senator Hill intends to oppose the confirmation of Judge Gresham when his name is sent in for secretary of state, if he can get any assurance of assistance enough from his colleagues to give any hope of success. It is said that there is strength enough in the opposition to make it worth while to defeat the nomination. Both the New York senators will join in the fight.

THE STATE TROOPS ORDERED OUT.

TOPEKA, Feb. 6.—War or a most realistic counterfeiter of war, is raging here today and armed men are to be seen, all about the capitol, while force has been used on persons and buildings by the Republicans and the governor has called out the troops. Tuesday night the Republican party, in conference with Governor Leavelle, and determined to force the issue between the rival houses by denying the Republicans an organization entrance to the hall.

To this end the governor directed Adjutant General Axt to call out a company of militia if necessary and the Populist's house officials barricaded the doors of the hall.

The Republicans had threatened that if such a course was pursued by the Populists they would batter down the doors of the representative hall and take possession of it by force. They meant what they said, and yesterday they proceeded to make their word good. They swept aside the Populist guards and breaking down the doors of the permanent form of government, etc., to the action of congress. The correspondence is very voluminous, going back many years, and gives a complete history of the islands as far as negotiations with the United States are concerned.

Contrary to general expectation the senate in executive session declined to make a vote on the annexation bill, but decided to first have the message and documents printed for the confidential information of senators. MARYLAND MATTERS.

EASTON, Feb. 12.—Hezekiah Scott was arrested Saturday on the charge of breaking open a safe in the Easton depot of the Baltimore and Eastern Shore railroad last Tuesday night.

ROCKVILLE, Feb. 14.—It is proposed to represent Montgomery county in the inauguration parade at Washington March 4 by 516 mounted men, that being the majority of the county for Cleveland Steven for McKim.

ROCKVILLE, Feb. 14.—William Buser, a workman employed in the construction of a bridge on the Baltimore and Ohio railroad near Garrett park had both legs broken by a stone falling upon him. He was removed to a hospital in Washington.

WAYNESBORO, Feb. 15.—The project of constructing an electric railway from Waynesboro to Pen-Mar is talked of by Baltimore and Waynesboro capitalists. A survey it is said, shows the nearest route to be four and a half miles long. The power house is to be located in Waynesboro.

ELKTON, Feb. 13.—A large packing firm in Washington city is arranging to establish a sweet corn packing house in Elkton. A meeting of farmers was held Saturday and the demands were given to plant as much sweet corn as the market could absorb. The price agreed to be paid was \$2.50 for a ton of 4,000 pounds.

ELKTON, Feb. 13.—Mr. William Orison, conductor on the second division, Baltimore and Ohio railroad, was struck by an engine in the Cumberland yards yesterday and badly hurt. His right leg was broken and left foot mangled. He also received other injuries about the head. His injuries will likely prove fatal.

OAKLAND, Feb. 13.—Rev. Jefferson R. Taylor, of Mountsville, Va. has accepted a call extended by the vestry of St. Mark's parish, Oakland, and will be in the city as rector of the parish on May 1 next. The parish has been without a rector since the troubles between the vestry and Rev. F. S. Hopkins, which occurred more than a year ago.

BALTIMORE, Feb. 15.—John M. Robinson, one of the most prominent citizens, died yesterday at his home in this city, aged 57. He served as colonel in the Confederate army. At the time of his death Mr. Robinson was president of the Seaboard and Roanoke railroad, Baltimore Steam Packet company, and the Chesapeake and Annapolis Railroad company.

CRISPFIELD, Feb. 10.—The vaccination has been carried out to the letter in Somerset county. All the children in the public schools have now been vaccinated. Somerset has been somewhat behind in this matter, and some of the school children have shown violent opposition, but the examiner, Mr. W. H. Dashiell, has been firm in seeing that the law was carried out.

CUMBERLAND, Feb. 14.—Dr. Chancellor, of the state board of health, arrived in this city last evening from Lonsdale, where he had been accompanied by two physicians from the state board of health, to ascertain if possible the cause of the epidemic of cerebro spinal meningitis now raging there. He was unable to make any progress owing to a heavy fall of snow, but left Dr. Fletcher and Barton there to continue the work.

EASTON, Feb. 13.—Sheriff Fairbank has in Easton jail a man who was found in a wood near Easton last night in the blood and snow storm nearly dead. He had made a fire, which attracted the attention of some one passing along the road in a car, and who found him lying there, covered with snow and nearly unconscious. He is comfortably clad, but his hands are frost bitten. He left a dredge boat and is trying to reach New York. He refuses to tell a word of his story.

FREDERICK CITY, Feb. 14.—George W. Slagle, a well known resident of Frederick county, was arrested in Frederick city this evening and committed to jail by Justice Eckstein on the charge of disturbing the peace and uttering threats against various court officials. Slagle is about 35 years of age. He claims to be a deputy commissioner to call citizens to repentance, and in this has been standing on the street corners lately and with an open Bible in hand delivering long exhortations. A jury will be summoned to inquire into his case.

FREDERICK, Feb. 10.—Ex Comptroller Baughman was formally announced as the next governor of Maryland about 2 1/2 o'clock this morning by United States Senator Blackburn, of Kentucky. The announcement was made just as the banquet of the Democratic county committee, held in Junior Hall, was drawing to a close. If Senator Blackburn had not been told in advance of the aspirations of the chairman of the committee his political astuteness and experience was quick to suggest that such a political gathering could have but one significance.

HAGERSTOWN, Feb. 10.—It is the general impression in Hagerstown that the proposed road from Cumberland to connect with the Chesapeake and Valley railroad at Port Deposit, Md., will not be built. President T. R. Kennedy, of the Chamber and Valley yesterday at Chambersburg and the new line would tap the Cumberland Valley at a point between State Line and Hagerstown. State Line only six miles from Hagerstown, and last year when the route was surveyed a point at the northern outskirts of Hagerstown was marked by the engineers as a place of connection.

PORT DEPOSIT, Md., Feb. 10.—The flood in the Susquehanna river at Port Deposit, which has been threatening the town for some days past, assumed alarming proportions yesterday. The citizens are in a high state of excitement and many have taken refuge on the hills surrounding the town.

The situation is critical and hourly threatens the destruction of both lives and property. The gorge is eight miles in length, and is not only still firm, but appears to be getting heavier. The upper and middle portions of the town are isolated. Many belongings and fences have been carried away and more are expected to follow.

The gorge at McCall's ferry, eighteen miles up the river, is reported to be giving way. In case this occurs the situation would be frightful. Travel on the Port Deposit and Columbia railroad has been suspended owing to the fact that the tracks are under several feet of water. Passengers are transferred at Rock Run through the town in wagons. People are compelled to travel about the streets on rafts and in boats.

Swept by a Hurricane. LONDON, Feb. 13.—A dispatch from Zanzibar tells of a frightful hurricane that swept over Madagascar on Jan. 23, doing immense damage in the interior and on the coast. At Tana arrived the capital of Madagascar, buildings were wrecked and lives lost, and at the port of Mananaro, on the e.s. coast, a number of vessels have been missing since the storm, and it is feared that they have gone down with all on board.

An Extra Session Certain. MILWAUKEE, Feb. 13.—Chairman Wall, of the Democratic state central committee, who has just returned from Washington, where he went to work for the repeal of the Sherman silver law, says that an extra session of congress before summer is certain. This statement, coming from one who is known to be in Mr. Cleveland's confidence in these matters, carries with it considerable weight in Democratic circles.

Hugh O'Donnell on Trial. PITTSBURGH, Feb. 13.—Hugh O'Donnell, the leader of the Homestead strike, was placed on trial here this morning for murder. It is understood that no attempt will be made to prove an alibi, as was done in the case of Crawford and Clifford, but that an entirely new line of defense has been decided upon. O'Donnell has been in jail ever since he surrendered to the authorities, bail having been refused.

Minister Stevens' Action Approved. WASHINGTON, Feb. 13.—Secretary Foster yesterday telegraphed to Minister Stevens at Honolulu approval of his action in affirmatively responding to the request of the provisional government of Hawaii for the establishment of a protectorate over the islands. Instructions for the guidance of his future action were also included in the telegram.

Carlisle's Senatorial Successor Chosen. FRANKFORT, Ky., Feb. 15.—The two houses of the legislature met in joint convention today, and chose Hon. William Lindsay as the successor of John G. Carlisle in the national senate. The vote was Lindsay (Dem.), 29; Augustus L. Wilson (Rep.), 23. The Populists voted for Lindsay.

Two Killed by Explosion. PITTSBURGH, Feb. 16.—A terrific explosion occurred at McAbee's powder mills, about twelve miles from this city, on the Allegheny Valley railroad, yesterday afternoon, by which Albert McAbee was instantly killed and William Scarborough so badly injured that he died soon after.

Six Killed by a Snowslide. VILLAGE GROVE, Colo., Feb. 13.—A snowslide occurred in one of the tunnels of the Orient mine, of the Colorado Fuel and Iron company, yesterday, killing six men and severely injuring many more. The dead are James H. Morgan, Hugh Connolly, Mike Novak, Edward Johnson, Edward Carter and P. J. Breen. Six were severely wounded.

consistency of his charge refusing to ac-
cept his resignation. They also increased
his salary.

This is Meant for You.

It has been truly said that half the
world does not know how the other
half lives. Comparatively few of us
have perfect health, owing to the im-
pure condition of our blood. But we
rub along from day to day, with scarcely
a thought, unless forced to our atten-
tion, of the thousands all about us who
are suffering from scrofula, salt rheum
and other serious blood disorders and
whose agonies can only be imagined.
The marked success of Hood's Sarsa-
parilla for these troubles, as shown in
our advertising columns frequently,
certainly seems to justify urging the
use of this excellent remedy by all who
know that their blood is disordered.
Every claim in behalf of Hood's Sarsa-
parilla is fully backed up by what the
medicine has done and is still doing,
and when its proprietors urge its merits
and its use upon all who suffer from
impure blood, in great or small degrees,
they certainly mean to include you.

are so much pleased with it that they
recommend it to their friends and
neighbors. There is nothing better for
a bad cold. It relieves the lungs, pre-
venting any tendency toward pneu-
monia. It is also a pleasant and safe
medicine for children. 50 cent bottles

An Old Advertisement.

Through the kindness of Mr. Oscar
D. Fraley, of this place, we were shown
an old advertisement on Wednesday,
of the firm of Smith & Cluts, who
kept a general store in this place, a
number of years ago. This ancient sheet
was given to Mr. Fraley a few days ago,
by Mr. Albert Colliflower, of Franklin-
ville, this county, who in turn became
the possessor of it through his father-in-
law, Mr. Charles Eyer, who sent some
things to Mr. Colliflower's wife, and
around which this sheet of paper was
wrapped. It is evident that it had been
kept by that family as a relic, and only
through a mistake was it allowed to get
out of the family archives. The sheet
of paper on which the advertisement is
printed is 26x32 1/2 inches, and is headed,
"New Firm and New Goods, at Em-
mitsburg, Maryland." It is printed in
four different colors and contains a
picture 19x7 1/2 inches, representing per-
sons going to and from the "cheap
store," carrying with them the articles
they had purchased and telling the
people they met on their way, how
cheap everything was being sold at the
store of Smith & Cluts. The first line
under the illustration reads thus: "Op-
position is the life of business." The
bill was printed in March, 1850, forty-
three years ago next March, and is in
an excellent state of preservation. The
firm of Smith & Cluts, was composed of
Messrs. Eli Smith and Eli Cluts, both
of whom passed to their reward many
years ago. Mr. Smith's wife and fam-
ily still reside in this place. Their place
of business was on the public square,
and the building they occupied was
burned during the great conflagration
in 1863. The property is now owned
by Mrs. Catharine Hyder.

His Faith Well Founded.
BISSELL, O., Nov. 29, 1892.—I desire
to say that I have great faith in Cham-
berlain's Cough Remedy for the cure of
throat and lung troubles; also for
croup.—E. W. McCOLLUM. There is
good reason why Mr. McCollum should
have confidence in this remedy. It
will cure a severe cold in less time than
any other treatment. There is nothing
that will loosen and relieve a cold so
quickly. It will not only cure croup,
but if used as soon as the first
symptoms appear it will prevent the at-
tack. 50 cent bottles for sale by C. D.

The dedication of the United Breth-
ren Church, at Mount Hope, which was
to take place on the 19th inst., has been
postponed for several weeks on account
of the illness of the pastor.

Mr. Samuel Barton has resigned his
clerkship in Mr. D. B. Martin's store.
Mr. Barton is now taking lessons from
the school marm, who teaches the Val-
ley school. We hope the lessons may
prove beneficial. The fruits of which

Nothing so good for affections of the

the last five years, and would not like
to be without it."

Death of Mr. Samuel Hoke.

Mr. Samuel Hoke, Sr., a well known
and successful farmer of this county,
died Friday morning, between the
hours of two and three o'clock, at his
residence at Ceresville. The cause of
death was general debility. Mr. Hoke
was in his eighty-third year. He leaves
3 sons, Messrs. Samuel Hoke, Jr., and
Martin Hoke, of Frederick county, and
David Hoke, of West Virginia. He
leaves also 2 daughters, Mrs. Charles
Burrier, Mrs. Morris Jones, of this
county, and a daughter in Pennsylvan-
ia. His wife died some years ago. Mr.
Hoke came to this county about 38 years
ago, from York County, Pennsylvania,
and purchased from the late Robert H.
Stokes his farm at Ceresville, upon
which he resided. This farm was
noted for its quarries of limestone and
species of marble, to the development
of which Mr. Hoke devoted his time
and energy. Mr. Hoke was a representa-
tive man of that class who emigrated
from his native state and settled in this
county. The funeral took place from the
residence of his son, Mr. Samuel
Hoke, Jr., Ceresville, last Sunday morn-
ing.—News.

ABSTAINING IN LENT.

Editor Chronicle, Sir:—Many persons
outside the Catholic Church abstain
during Lent from theatre-going,
from tobacco, from meat and from in-
toxicating liquors. They do this either
for health's sake or because they wish
to be less unlike Our Saviour in his long
fast of forty days. Catholics fast and
abstain from meat out of obedience to
the church's law as well. The mass
of us, however, are not bound to fast,
and many have to be dispensed from
abstinence too, on account of the busy
activity and excessive application to
work in our country. Hence, certain
pastors, in order that their people may
not forget the duty of imitating Christ
and become quite separated from the
traditional custom of christianity, have
begun to suggest abstinence from intox-
icating drinks as a substitute for the
other.

The first one I knew to do this was
Dr. Patrick MacSweeney, the author of
the famous Poughkeepsie Pledge Plan.
He used to exhort his parishioners who
were chiefly, if not exclusively, hard
working men and women, to practise
this kind of mortification, and his suc-
cessor, Rev. James Nilan, (they are
both Romans by ecclesiastical training)
has even gone beyond him. Of course
Rome had not then approved of the
school arrangement, (she waited nine-
teen years before doing so), neither had
she said anything about the propriety
of priests taking the pledge with their
people on Ash Wednesday morning.
However, the Poughkeepsie pastor did
this, thinking it right, and Rome spoke
at last in similar action on the part
of bishops compelled her to do so. Leo
XIII. in his letter to Archbishop Im-
molati said: "Let priests shun as models
of total abstinence!" Score one more
for Poughkeepsie.

Since then Rev. Morgan Sheedy, of
Pittsburg, has come out for the Pough-
keepsie Pledge Plan, so have the Parishes
of New York, and so have other priests.
I hope they will not keep their lights
hidden. We need you brethren.

That fearless champion of Law
and public decency, Father George
Zachler, of Buffalo, thus speaks on the
subject in the Index of 28th ulto:

"Perhaps before long the Catholic
church in America will impose on all
her children the duty to abstain from
alcoholic beverages on fasting days.
She will do this with at least as much
right as she forbids the use of meat on
certain days. Total or partial absten-
ence from alcohol as imposed on all
children imposed by the Catholic church
in America would be an eminently
proper and practical means of self-
denial. The Catholics of America are
generally a hard working people, and
as such they are not obliged to fast.
Even those among us who are not work-
ing I cannot, on account of the severity
of the climate, keep the laws of
fasting as they are kept in many other
countries. Many have tried to keep
the strict laws of fasting of other coun-
tries, but they could not do it without
injuring their health. The church never makes laws
which bring injury to her children,
and hence she has steadily relaxed the
laws of fast in America so that now
hardly any one is obliged to fast. The
law may be used instead of butter on
fasting days, and the law may be used
with two ounces of bread is said to be
allowed in the morning to those that
fast. It is therefore evident that the
church in America must sooner or
later adopt some other method to con-
trol the bodily appetite of her children
besides the abstinence from food. Al-
cohol is no food; and there is no reason
why the church should not impose total
abstinence as a duty on all her children
at least on fasting days. On the con-
trary, since she suffers more from al-
cohol than from all other vices, the law
combined, it must become obvious to
all thoughtful and unbiased minds that
total abstinence for all Catholics, at
least on fasting days, is an eminently
practical method of self-denial and an
effective barrier against intemperance.
The number of the days of fast in the
year has slowly but steadily decreased
for the last few centuries. But if ab-
stinence from alcohol were made para-
mount, superior to abstinence from
food, there is no reason why the num-
ber of fasting days in the year should
not again bring the increase."

Hoping that your widely scattered
readers may give this subject and the
views above expressed, the attention
they deserve, I remain, etc.,

EDWARD MCWENNEY.

The Advertising

Of Hood's Sarsaparilla is always within
the bonds of reason because it is true;
it always appeals to the sober, common
sense of thinking people because it is
true; and it is always fully substantiated
by endorsements which, in the finan-
cial world would be accepted without a
moment's hesitation.

For a general family cathartic we
confidently recommend Hood's PILLS.

Death of the Oldest Female Resident
of the State.

Miss Elizabeth Appleman, familiarly
known as "Aunt Betsy," who celebra-
ted her one hundredth and first birth-
day on the 11th of December last, died
in Middletown, Frederick county, at 3
o'clock Wednesday afternoon. She was
taken sick on Monday and gradually
grew worse until Wednesday when she
quietly passed away. She was, perhaps,
the oldest woman resident of Maryland
and had enjoyed remarkably good
health up to the time she reached her
one hundredth and first birth day. Since
then her mind was very much affected
at times and she began to fail physi-
cally. Miss Appleman was a daughter of
Philip and Mary Appleman, and was
the second of a family of six, all of
whom are now dead. She removed
with her parents from Washington
county, Md., to Middletown eighty-
five years ago, and died in the house
she moved into at that time. Her
brother Jacob died three years ago,
aged ninety years. The wife of Mr. D.
W. Rudy, of Baltimore, who was deputy
naval officer at the port of Baltimore
during President Hayes's administra-
tion, is a niece of Miss Appleman.—

The Societies.

The Purcell Lyceum held its second
regular meeting of this session in the
Library, Thursday evening. Debate,
Resolved, that the laws of Hawaii
be annexed to the United States." The
debaters were: On the affirmative,
Messrs. Wm. Rice, Frank Gaultier and
George Bigley; on the negative:
Messrs. Jas. Fremont, Benjamin
Licks and Wm. D. Johnson. The debate
was exceptionally good and carried on
in a spirited manner. The critic re-
served his decision until the next meet-
ing. Declarations were given by
Messrs. Anna and Stock. The Purcell
Lyceum for this session promises to do
great things. It is under the control of
excellent officers, and the members are
thoroughly interested in their work.
This is as it should be. Let the good
reputation of the Purcell be preserved.
Frost. Manly appointed Messrs. Leo
Carroll, Frank Gaultier and George
Bigley for the selection of subjects
for debates during this session. The
officers of the Purcell, in accordance
with a plan adopted by the Lyceum in
1891, have resolved to give a valuable
medal to the best debater at the end of
the year. The critic will name six de-
baters, and the decision of the medal
will depend upon the yearly as well as
the final work of each contestant. Mr.
A. Malone has been appointed censor
for this session. The work of the Ly-
ceum since Mr. McLaughlin has taken
charge of the office of critic, has been
very satisfactory. Let the good work
go on, the success of the Lyceum means
the success of every individual member.
There is a move on foot to have in ad-
dition to the regular program, a reading
from a standard author. This practice
has been introduced into the Philomathean
Society and now forms not only an
interesting but an instructive part in
the evening's work.

The Carroll Lyceum held its regular
meeting in Carroll Hall, Thursday
evening. This was the first meeting
for the second session and the following
officers were accordingly elected. Presi-
dent, Mr. Wm. Berger, '91; Vice-Presi-
dent, Mr. Thomas Saunders, '91; Sec-
retary, Mr. Frank Donohue, '91; Treas-
urer, Mr. James Malloy, '91. The elec-
tion of critic was deferred until next
meeting. The 22nd debate, "Resolved,
that capital punishment is justifi-
able." Affirmative, Messrs. Saunders,
Donohue and Divine; Negative,
Messrs. Cashman, Hunt and Malloy.
No discussion was rendered. Declara-
tions were given by Messrs. Saunders,
Divine and Malloy. The society then
adjourned.

The Band.

At length after a disbandment of over
a year, the Mountain Cornet Band has
been reorganized, with Mr. Wm. Kerri-
gan, '94, as leader. Mr. Kerrihan is an
accomplished musician and has long
doubts that under his leadership the
new band will make the old mountain
revelry with sweet sound. We are in-
debted to Prof. Ferrata and Mr. Thomas
Grassie for this revival of one of our
most cherished organizations. The
band is being organized. The follow-
ing are members of the band: Wm. A.
Kerrihan, '94 and Charles Carroll,
'94, cornets; Edw. Saunders, '94,
baritone; Peter Beaunis, '97 and A.
Malone, '95, altos; Geo. Bigley, '95,
soprano; John Waverly, '97, bass; Mar-
ion O'Laughlin, '95, piano; Leo Car-
roll, '95, clarinet; Edw. Donohue,
'95, tenor drum and Thomas Grassie,
'95, bass drum and cymbals.

The Prize Essay.

The following are the subjects upon
which prize essays are to be written by
the members of the first, second and
third collegiate classes. Beautiful gold
medals will be presented the successful
competitors. First Collegiate, "The
Genius of Wordsworth;" Second Col-
legiate, "The Genius of Sir Walter
Scott as a Poet;" Third Collegiate,
"The Genius of James Fenimore
Cooper."

In addition to these essays, Prof.
Mitchell's classes in Natural Philo-
sophy and Chemistry will also contest.
Natural Philosophy Class (Second Col-
legiate) will write on "The Electric
Motor" and the Chemistry Class (Third
Collegiate) will contest in the written
examinations at the end of the session,
the person having the best score in
each of the medals. Medals are excellent
stimulants and each member should do
his best, for even though all can not
get the medal, each one by doing what
he can, will derive the greatest possible
benefit.

Appropriate exercises will be held
Washington's Birthday in honor of the
"father of his country," an account of
which will appear in next week's
Chronicle.

It is very likely that a comic opera
after the title of the "Mikado," will
be given March 17th.

There will be no lectures given until
after February 25th. Then they will
begin in earnest.

The Science Club.

The Science Club after a lengthy ad-
journing, caused both by the Christ-
mas holidays and the holidays of the
club, held their first regular meeting of
this session in the Drawing Room, Wed-
nesday evening, Feb. 8. The officers of the
last session were re-elected. The first
paper on "Aluminum" was read by
Wm. J. Rice, '95, followed by a master-
ful paper on "Electricity and its Ap-
plications," by T. J. McElighe, Jr., '95. Both
readings were complimented by the
Reverend critic and members of the
society, after which an animated dis-
cussion was indulged in, both as to the
merits of Aluminum, and Edison with
his inventions. During the discussion
specimens of the metal were shown by
Edw. Fergusson, '95. The society in
keeping up with this age of scientific
discoveries, has a prosperous future be-
fore it.

The members of the Science Club are
glad to hear that Prof. Mitchell pro-
poses reading several papers before the
club during the session. The first paper
will be on the following subject: "The
Radiation of Heat from the Moon, the
Law of Reflection by our Atmos-
phere, and its Variation in Amount
with her Phases." Prof. Mitchell has
not as yet announced his other subjects.

The wonderful showing made by our
foot ball team last fall, and the success
of those in charge of base ball matters to
more than ordinary exertion, to place
in the field this season a team worthy
to cope with any opponent that may de-
sire to test our strength. Now concern-
ing the material on hand from which
we have to draw, well although not
"par excellence," still we can remedy
that difficulty by hard practice and good
coaching. We have three first class
players left from last year's team, name-
ly: William T. Cashman, the third
baseman, Ed. Donohue, the centre
fielder, and J. Frank Cashman, who
covered the left garden. Besides these
men we have some more promising
players in the persons of Michael J.
Cummins, T. J. McElighe, John Mun-
son, Francis Gilroy, etc. Although it
is still yet far from our eyes, although
still those aspiring for the team should
be assembled, as soon as possible, and
made to indulge daily in some kind of
light practice in the "Gym." A chal-
lenge has been received and accepted
from Westminster, for a game on the
19th of April. An advisory committee
has been appointed consisting of Chas.
Manly, C. A. Sullivan and John Mc-

Closkey, who in conjunction with the
officers of the Athletic Association, will
look after the interests of base ball.

Ash Wednesday.

The services Wednesday were very
impressive. Ashes were distributed
before the beginning of Mass. High
Mass was sung with Rev. Dr. Allen as
celebrant; Rev. Mr. Jordan, deacon;
Mr. James McLaughlin, sub-deacon; Mr.
William Ryan, master-of-ceremonies;
Messrs. Joseph Lunnard and John Cot-
ter, acolytes; Mr. Anthony Dorley,
thurifer.
