Chambers' Journal. FOSSIL TRACKS IN MARY-LAND.

An Important Discovery Made by Dr. Mitchell, of Mount St. Mary's Coilege. (From the Baltimore Sun.)

Dr. James A. Mitchell, professor of natural science at Mount St. Mary's College, Emmitsburg, Md., burg. has made an important discovery of fossil tracks in Frederick county, Md. During an examination of a red sandstone quarry he came across reptilian footprints. He had a slab of the stone, 4 feet 6 inches in length and 2 feet 5 inches in width, cut out and sent to the geological fossil algae and footprints. museum at .Johns Hopkins Uni-

"Those ?" responded his Honor. "Why those are sleeves. I read in yesterday's papers that large sleeves were to be the rule this winter, and I saw at once that the little ginghams that I had been wearing to keep the ink off my clothes wouldn't do. I'm not going to let anybody beat me out on the fashions."

And his -- Honor called time on the first case, which was that of a tramp who had been sleeping on the lake front.

The tramp took one look at his Honor's get-up, and then asked if this was the new woman or the bearded lady. The court fined him \$25, and didn't smile again all day .- Chicago News.

How He Caught Them.

A barber who kept a cigar store at one end of his shop found that a goodly portion of his stock disappeared during the night. He watched without avail ; as long as wanted their tin-types taken. The his eyes were upon them the cigars husband thought it well to have a were safe. As a last resort he fair understanding of the matter at bought a camera just before dark, the beginning, and so he entered focused it on the cigar stand, and so connected it electrically that when the latch of the show case was pulled a magnesium light would be flashed and a picture taken. The next day the cigars were unmolested, but in the camera there was a clearly defined picture of two boys who lived in the neighborhood, one in the act of opening the case and the other preparing to receive the booty. The flash had scared them, and they made off ; but they were at once arrested and sent to prison. An electrician has designed an apparatus by which he says he can circumvent the knavish tricks of the smartest thief, and that between the electric light and the infinite variety of electrical detective and alarm appliances now devised the crackman's occupation is virtually gone.—Popular Science News.

Frank Nolen, Capt. Myron J. Rose, Past Department Commanders : Capt. L. M. Zimmerman, Assistant Adjutant General; Gen. David L. Stanton, aides de camp, and also Major Frederick Brackett, the agent of the Baltimore Centennial Exposition for 1897, and Geo. L. Gillelan, of Post 41.

Capt. Charles Marburg, of Baitimore, the Maryland member of the Council of Administration, on the Staff of the Commander-in-Chief, sent his regrets the members of Arthur Post.

Upon the arrival of the visitors from Baltimore they were driven to Major Horner's residence, where lunch was served, and then to Arthur Post Hall, where an hour was spent very pleasantly. After the inspection, the members

of the Post were entertained by addresses and Camp reminiscences by the visiting comrades. Quite a large number of the members of Arthur Post being present, also Capt. Sefton and oth-

FREDERICK, Nov. 13 .- On Sunday afternoon, Rev. Highland Stewart, an evangelist, preached to a large audience at the City Hall. The subject of his remarks was the second coming of Christ. Though he could not fix the day nor the hour, he thought the "Millennial Dawn" was near at hand, when Christ should begin his reign of a of the post. thousand years on earth. During which period satan would be bound and holiness and righteousness prevail throughout the world. Though not eloquent, the preacher was earnest in his remarks, and disclosed his thorough acquaintance with the scriptures. He will preach again next Sunday, Nov. 17.

Now that the smoke of the recent great political battle has cleared away, thinking men of the democratic faith, have begun to consider the proper course to pursue in order to insure the success of the national democratic ticket in this State next fall. The independents, it is surmised, will hardly give ticket nominated by the same 'bosses'' who were condemned for their methods at the last election, a hearty support at the election in '96, unless some basis of compromise between the two elements can be agreed on, party men anticipate the defeat of the demoers from Post No. 83, Department of cratic electors for this State, in the presidential contest of next year, hence

their desire for reorganization on some plan that will treat none as independents or regulars, but all as democrats.
