Gladness Comes With a better understanding of the transient nature of the many physical ills, which vanish before proper efforts—gentle efforts—pleasant efforts—rightly directed. There is comfort in ease, but simply to a constipated condi-tion of the system, which the pleasant family laxative, Syrup of Figs, prompt-ly removes. That is why it is the only remedy with millions of families, and is everywhere esteemed so highly by all who value good health. Its beneficial who value good health. Its beneficial effects are due to the fact, that it is the one remedy which promotes internal cleanliness without debilitating the organs on which it acts. It is the all important, in order to get its bene-ficial effects, to note when you purchase, that you have the genuine arti-cle, which is manufactured by the California Fig Syrup Co. only and sold by all reputable druggists.

If in the enjoyment of good health, and the system is regular, laxatives or other remedies are then not needed. If afflicted with any actual disease, one may be commended to the most skillful physicians, but if in need of a laxative, one should have the best, and with the well-informed everywhere, Syrup of Figs stands highest and is most largely used and gives most general satisfaction.

The Foremost Position.

When "The Philadelphia Reord" untook nineteen years ago to demon-trate that the best of morning newspapers could be made and sold for one cent, publishers were generally skeptical. But the world of readers was not asleep. Consequently "The Record" was not long in reaching a commanding position, and, improving upon this, its circulation and influence were finally recognized among the foremost of America's great journals. Hence the compliment of imitation which is now paid to it in every city of note from the Atlantic coast to the Mississippl Valley. Every city worth mentioning now has one or more good one-cent morning dalles, though so recently as only 19 years ago Philadelphia and "The Record" stood alone is this respect.

News Concisely Published without the omission of any essential feature is still the BEST NEWS, not-withstanding the once prevalent tenden-cy to pad it and stretch it out.

The Busy Man's Paper therefore, still originates, still leads, and publishes MORE NEWS to the column than its neighbors of larger dimensions. THE DAILY AND SUNDAY

With their several inimitable and always instructive features in addition to the day's news from all the world, are now almost unrivaled in circulation as in good qualities. With an average daily circulation of over 166,000 copies, and an average of about 120,000 on Sundays, "The Record is still, regardless of all imitation, easily a leader of leading newspapers. A paper so good, with 16 to 4 pages for one cent is still very properly a favorite. Though low in price, it is never cheap, but spares no expense that will give its readers the very best and freshest information of all that's going on around them.
