The Foremost Position.

When "The Philadelphia Record" untook indeteen years ago to demon trate that the best of morning newspapers could be made and sold for one cent publishers were generally skeptical. But the world of readers was not asleep. Consequently "The Record" was not long in reaching a commanding position, and, improving upon this, its circulation and influence were finally recognized among the foreness of America's great journals. Hence the compliment of imitation which is now paid to it in every city of note from the Atlantic coast to the Mississippi Valley. Every city worth mentioning new has one or more good one cent morning dailies, though so recently as only 19 years ago Philadelphia and The Record" stood alone is this respect.
