AGUINALDO CAPTURED. Aguinaldo was captured March 23, in the province of Isabella, Island of Luzon, by General Funston's daring project for seizing him in his hiding place. Gen. Funston had arranged with native scouts to of fences and driving off the cattle about 65,000 men in the Philip- tion and all bilious diseases. pass themselves off as revolutionary troops who, having captured Gen. Funston and others, were taking them to Aguinaldo, and at the proper time, when before Aguinaldo, Gen. Funston was to give a signal, when the tables were to be turned and Aguinaldo was to be seized. The plan is said to have worked successfully, and that Aguinaldo is now in the hands of the

Emilio Aguinaldo y Famy though only 31 years of age, has risen to be one of the leading features in the eyes of the world. His friends say he is one of the great men of the age; and his enimies that he is at least a wonderful man.

The disposition of Aguinaldo now that he has been apprehended will be an interesting point for the Administration to determine. The possibility of his capture at any time has been kept in view and his future has been a subject of informal discussion by officials. It is not believed that any definite line of action was ever determined upon in regard to it.

The attitude of the Government for a long time has been one of comparative indifference to Aguinaldo's capture, it having been determined to crush the Revolution without regard to his whereabouts. His recent activity in directing the course of operations against the American forces probably brought about the recent change in this attitude.

As the leader of an "insurrection against the United States" Aguinaldo may be tried and executed, a lesser punishment may be meted to him by Executive clemency, or complete amnesty may be extended. While the question of punishment rests with the military authorities it is believed the President will make it one for determination primarily by the authorities.

Stonebraker, her husband, vs. Fannie Hergesheimer, John Hergesheimer, Perry Hergesheimer, Fanny Laley Clover, and Thomas Clover, her husband, Ellen Laley, Ada M. Laley, Mary J. Mindil and Charles B. Mindil, her husband, L. Kate Caldwell, and William A. Caldwell her husband, Rebecca H. Barrick and feb 22-4ts William M. Barrick, her husband, Martha D. Young, Mae A. Shurick, and Shelby C. Shurick, her husband, Gertrude A. Young, Orrin B. Young, Boulah O. Young, William H. Young and Edna

This is a Bill of Complaint filed in the above Court by the said plaintiffs against the said defendants, the object being to obtain a Decree to sell the real estate of

obtain a Decree to sell the real estate of Sophia Hergesheimer, deceased. The Bill in substance recites the following:

That Sophia Hergesheimer, wife of Joseph Hergesheimer, died, in Frederick, Maryland, December 17th, 1846, intestate, possessed of a lot of ground located on the north side of East Fourth Street in Frederick City, Frederick County, Maryland, as described in the deed from Henry Henshew et. al., to Sophia Hergesheimer, dated February 19th, 1836, and recorded in Liber H. S. No. 1, folio 569, one of the land records of Frederick County, Maryland; that at the time of her death she land; that at the time of her death left surviving her as her children and heirs at law, David Hergesheimer, Louisa Laley, Mary Young, Jane R. English and Sophia Hergesheimer; that David Hergerheimer died in the year 1899, leaving surviving him as his heirs at law, Fannie Herges-heimer, John Hergesheimer and Perry Hergesheimer, residents of West Virginia; that Louisa Laley died in 1860, leaving surviving her as her heirs at law Fanny Laley Clover, married to Thomas Clover, Ellen Laley and Ada M. Laley, residents of the State of Pennsylvania; that Mary Young died in the year 1890 leaving surviving her as her heir at law, Perry A. M. Young, who died February 1st, 1901, at Denver, Colorado, leaving surviving him a widow, Martha D. Young, Mae A. Shurick, married to Shelby C. Shurick, Controls A. Young, Ordin B. Young The County Commissioners will meet at heir office in the Court House,

ON MONDAY, APRIL 1, 1901.

Shurick, married to Sherry C. Shurick, married to Sherry C Colorado, and all infants, excepting Martha D. Young, Mae A. Shurick and Shelby C. Shurick, who are adults; and who are his heirs at law; that Jane R. English died in the year 1807, leaving surviving her as her heirs at law, the plaintiff Sophie E. Stonebraker, married to Daniel K. Stonebraker, resident of Washington City, D. C., Mary J. Mindil married to Charles B. Mindil, Rebecca H. Barrick married to William M. Barrick, and residents of the State of Pennsylvania, and L. Kate Caldwell, married to William A. Caldwell residents of Frederick county, Maryland; that Sophia Hergesheimer died unmarried in November, 1900; that said lot of ground is improved by a house, which house and lot are not susceptible of partition among the parties entitled thereto, without great loss and injury, and that it would be to the interest and advantage of all parties in interest that the same be sold by a trus-tee appointed by said Court, and the net proceeds divided among the parties en-titled thereto. titled thereto.

It is thereupon by the Circuit Court for Frederick County, sitting as a Court of Equity, on this 27th day of February, in the year 1901, ordered that the plaintiff

THE PAN-AMERICAN EXPOSITION AT BUFFALO By WILLIAM I. BUCHANAN, Director-Gene Parkers of Collier's WEEKLY.

Architectural Wongers. lines the Exposition pays the republics efforts of all former expositions. of South and Central America the has ever been presented in any country or place, while in its natural attractions and in the loveliness of its lake and forest and flower setting the Exposition as a picture will be a source of gladness and delight and a pride as well to every one who visits it. Those who have its direction and management are doing everything within their power to bring together about these central, salient points those finishing. connecting links of fountains, of bril-

tion-it is distinctly gratifying to the people of Buffalo and of the State of ing orchard and ornamental trees, New York to be able to realize, as they shrubs and evergreens, will be unquesdo, that their efforts in the work of building up and arranging the groundwork of the Exposition have been nurserymen in the country have interwarmly seconded on every hand, and ested themselves and will aim to outdo that the discouragements they have met with and the difficulties they have had to overcome have but more closely accentuated and made apparent the merit of their undertaking and brought to them the unsought praise and hearty applause of their fellow citizens of the United States, while the prominent and praiseworthy activity being shown in Mexico, Guatemála, Nicaragua, Costa Rica, Honduras, Ecuador, Peru, Chili, Bolivia, the Argentine Republic and in Cuba, in all that relates to the participation of those countries in the Exposition, is most encouraging and presages a brilliant outcome. To this there is to be added the widespread interest now manifested in the Exposition in Carada, in Jamaica, in Guadeloupe, in Porto Rico, in Hawaii and in the Philippines. With these factors to work from, there would seem to be a bright outlook ahead for a successful outcome and a realization to some degree of the sentiments underlying the Exposition. With but few exceptions the States are cordially and enthusiastically interested in the Exposition and will participate, and they are joining heartily in the efforts to make it in its success consist ent with the ideas held by those who formulated its plans and such as will State. The building will challenge the amply and fully justify the pride, faith attention and win the admiration of and confidence of the people who first every visitor to the Exposition. took up and encouraged by every means within their power the holding seemingly most appropriate place-"I cannot," he replied, "for I have Flossie as she observed the moon in its within earshot, as it is, of the world's greatest cataract, and amid the truly marvelously wonderful applications of

ELECTRIC SCIENCE.

of a Pan-American Exposition-at a Feature of Great Importance at the Pan-American.

Electricity and electrical appliances are to receive such attention as to make this one feature of the Pan-American Exposition of the greatest Importance in the history of electrical development. In addition to the spectacular uses of electricity in illuminat ing buildings, towers, courts and founforce to many new purposes. Among them will be wireless telegraphy, the tion, the improvements in the electric labor saving qualities of electricity many articles of merchandise within the past decade. This phase of employment of the electric fluid will form a most pleasant study for those who are interested in the newest of the sciences, and such a study as will only be possible at the Exposition. The de velopment of electric power will be il

FELIX AGNUS, Manager and Publisher America 1 Office,

She Knew All About It.

"I was dining out one evening among FOR FREDERICK COUNTY a notable company of people, most of whom I knew only by reputation," says George Inness, Jr., in The Home Journal. "I was assigned a seat next to a very charming and intellectual woman and did my best to entertain her. Said I: 'What can I talk about that will interest you? I have had some little experience as a cavalryman. Possibly you may care to hear something about horses in the field.'

"'Why, yes; certainly,' answered my fair companion. 'I know & little concerning army life, and I once wrote a book called "Boots and Saddles." ' And then it dawned upon my poor, dull Brain that I was talking to the widow of the great cavalry leader, General Custer, so I said no more about horses or army life."

Powerful Yeast. The veteral editor of the Golden (Colo.) Transcript, who hates a liar as he hates a delinquent subscriber, and who uses only the old reliable George Washington brand of truth in his business, fathers this strange story:

"A Larimer county farmer lost a cow in a very queer manner last week. The animal in rummaging through a summer kitchen found and swallowed an old umbrella and a cake of yeast. The yeast, fermenting in the poor beast's stomach, raised the umbrella, and she died in great agony."-Denver

It is doubtful if any other fruit could be found at once so common, cheap and delicious as dates. They are most healthful and excellent for children.

The Abyssinian warriors always honor their king by a band escort of 45 trumpets wherever he goes.

Munster, Germany, has a high school which has been in existence 1,100

Dyspepsia Cure

Digests what you eat. It artificially digests the food and aids Nature in strengthening and reconstructing the exhausted digestive organs. It is the latest discovered digestant and tonic. THE PAPER OF THE PEOPLE. FOR THE PEOPLE AND WITH THE PEOPLE.

HONEST IN MOTIVE FEARLESS IN EXPRESSION SOUND IN FRINCIPLE.

A rewspaper is an educator; there are all kinds of educators, but the man who spends money judiciously and liberally is better able to impart his knowledge than the man who has little or nothing to stend.

The Sun is the highest type of a newspaper.

The Sun's Special Correspondents throughout the United states, as well as in Europe, South Africa, China, and, in fact, all over the world, make it an up-to-nate newspaper.

The Market Reports and commercial features put the farmer, the merchant and the broker in close touch with the markets at Baltimore, Norfolk, Charleston, New York, Chicago, Philadelphia and other places which are prominent centers.

enters.
From now on the news of the world promises be more interesting than ever before and na-onal and political questions will arise, making robably the most eventful period in the country's history
This, together with the corps of editors and reporters at Baltimore, Washington and New York, make The Sun invaluable to its readers.
