

THE STEEL STRIKE.

The points of difference between the Amalgamated Association and the steel manufacturers have been too obscure to form the basis of an intelligent public opinion upon the controversy that has now culminated in open rupture.

There is no question of wages or terms of employment involved in this strike, since practically the same scale is in force in all the mills, and the standard of wages never has been so high.

Mr. Shaffer has insisted from the first that this was to be an orderly strike, and thus far there has been no occasion for violence or intimidation, since both sides have been awaiting a possible adjustment of the dispute.

ANTHRAX AMONG CATTLE.

GREENSBORO, Md., Aug. 6.—Many farmers throughout this county who own fine herds of cattle are very much exercised over the reports of the continued spread of the epidemic anthrax in the adjoining counties of Delaware.

It is supposed the disease has been in Delaware for six years, and it is said was originally introduced into that State by the carcass of an animal which floated across the Delaware river from New Jersey and was cast upon the Delaware shore by the tide.

GREENMOUNT ITEMS.

A much needed rain visited us on Tuesday, which will greatly benefit vegetation. Corn had been suffering for the want of rain.

The festival held at McCurdy's last Saturday evening, was a grand success, financially.

There is some talk of organizing a Sunday School at McLhenny's school house. A Sunday School at that point would be appreciated by the people of that vicinity.

While one of our citizens was gathering berries recently he was horrified by the supposed bite of a snake. The fangs were plainly seen sticking in the wound and, naturally, swelling set in, but a closer observation proved only a scratch from an innocent brier.

Mr. Mervin Plank made a business trip to Taneytown, Md., last week.

One of our young ladies is preparing for housekeeping, which means another wedding in the near future.

Some of our farmers are preparing for the fall crops. However, there is some hay to make yet.

Mr. John Haugh and family, of the lower tract, visited Mrs. Haugh's parents, Mr. and Mrs. A. Herring, this week.

Potatoes seem to be scarce and are bringing one dollar and upwards a bushel in market.

READY TO EAT COMPANION.

PORT TOWNSEND, WASH. Aug. 5.—A story of death from starvation in the Agiupuk mining district was brought from Nome by passengers on the steamer Centennial, and as a result of 43 days of dire hardship George Dean, a miner, is dead, and his two companions, John Houston and Joseph T. Thiory, are very ill.

Added to this is a horrible tale that in their desperation Houston and Thiory severed the thigh of their dead companion from his body and were cooking it when help arrived and saved them from practicing cannibalism.

The men had been in the Good Hope country prospecting. On June 7 they started for Nome by way of Agiupuk river. Before they reached Teller City provisions gave out and hunger compelled them to eat grass, birds' eggs and anything they could find.

EXPLOSION IN A CHURCH.

Lynn Dawson, sexton of the Methodist Episcopal Church, at Barton, Allegany county, is in a serious condition from burns caused by the explosion of a lighted lamp, which fell from a bracket over the choir platform just as the congregation was being dismissed.

The flames rose to the ceiling and shot out of the windows, causing a panic. Some ladies were trodden upon in the rush to the street. The sexton was ablaze from head to foot. He was wrapped in strips of carpet to extinguish the flames.

Some others were more or less burned. The whole interior of the church was on fire, and it was nearly an hour before the bucket brigade had the flames under control. The organ and much of the church furniture were carried out. The damage to the building is considerable, but is fully insured.

Rev. Harry S. Boggs is pastor of the church.

A WORTHY SUCCESSOR

"Something New Under The Sun."

All Doctors have tried to cure CATARRH by the use of powders, acid gases, inhalers and drugs in paste form. Their powders dry up the mucous membranes leaving them to crack open and bleed. The powerful acids used in the inhalers have entirely eaten away the same membranes that their makers have aimed to cure, while pastes and ointments cannot reach the diseased part and experienced practitioners who have for many years made a close study and specialty of the treatment of CATARRH, has at last perfected a Treatment which when faithfully used, not only relieves at once, but permanently cures CATARRH, by removing the cause, stopping the discharges, and curing all inflammation. It is the only remedy known to science that actually reaches the afflicted parts. This wonderful remedy is known as "SNUFFLES" the GUARANTEED CATARRH CURE and is sold at the extremely low price of One Dollar, each package containing internal and external medicine sufficient for a full month's treatment and everything necessary to its perfect use.

"SNUFFLES" is the only perfect CATARRH CURE ever made and is now recognized as the only safe and positive cure for that annoying and disgusting disease. It cures all inflammation quickly, and permanently and is also wonderfully quick to relieve HAY FEVER or COLD in the HEAD.

CATARRH when neglected often leads to CONSUMPTION—"SNUFFLES" will save you if you use it at once. It is no ordinary remedy, but a complete treatment which is positively guaranteed to cure CATARRH in any form or stage if used according to the directions which accompany each package. Don't delay but send for it at once, and write full particulars as to your condition, and you will receive special advice from the discoverer of this wonderful remedy regarding your case without cost to you beyond the regular price of "SNUFFLES". "GUARANTEED CATARRH CURE."

Send prepaid to any address in the United States or Canada on receipt of One Dollar. Address Dept E 272, EDWIN B. GILES & COMPANY, 3830 and 2333 Market Street, Philadelphia.

FINE LARSE POTATOES.

Mr. J. Krise Byers, of "Pleasant Farm," near town, made the editor of THE CHRONICLE happy Tuesday evening by presenting him with about half a bushel of large, fine potatoes, of the varieties of Early Rose, Early Vermont and Early Northern. These potatoes are very large smooth, perfectly formed and of a fine quality. Mr. Byers purchased the seed of the above varieties last spring and this is the way they yielded: From half a bushel of Early Rose Mr. Byers raised 16 1/2 bushels; from half a bushel of Early Northern, 15 1/2 bushels; and from one peck of Early Vermont, 7 1/2 bushels. This is surely a good yield. When in need of seed potatoes next spring remember that Mr. Byers has just what you want—good varieties—and he will take pleasure in supplying your wants.

VILLAGE BURNED.

The little village of High Point, Harford county, seven miles from Belair, was nearly wiped out by a disastrous fire early Saturday morning. The buildings burned were a store and dwelling combined, a new warehouse, blacksmith shop and wheelwright shop, all belonging to William H. Glenn, and the public school building, which happened to be within reaching distance of the flames. Only buckets were available for throwing water, and it was found impossible to check the progress of the fire until building after building had been consumed. The store was kept by Edward J. Barron & Co., who lost nearly all the goods contained in it as well as those stored in the warehouse, and the shops in the rear of the store. All the buildings and their contents are partly covered by insurance, with the exception of the school building, which is a total loss.

GRACEHAM ITEMS.

A refreshing rain and the thermometer at 60 degrees has made it comfortable. Mr. D. A. Firor reports a yield of 25 bushels of wheat per acre, from a field of 11 acres, threshed right from the field.

On Sunday next will be held the August lovefeast and communion services. It will also be the opening of regular services after the summer vacation. Time, 10 o'clock a. m.

Former pastor, Rev. J. J. Ricksecker, of Bethlehem, Pa., is expected some time this month to spend a few days of his summer vacation here on a fishing trip. The Ladies Aid Society will have him give a lecture of his boys experience and life on the island of St. Croix, West Indies.

Many have noticed the pipe organ in our Moravian Church, but few are aware that it is over one hundred years old. It was built at Litzitz, Pa., in 1798, especially for this church, the congregation paying \$200, Maryland money, for it. It is a very pleasing toned instrument.

REPUBLICAN STATE CONVENTION.

State Candidates Nominated.—Platform Makes Many Fronties.

The Republican State Convention was held in Ford's Opera House, in Baltimore City, Tuesday.

Hon. George A. Pearre, of Cumberland, Congressman from the Sixth District, was elected chairman of the convention, which nominated the following candidates:

For Comptroller—Herman S. Platt, of Baltimore City.

For Clerk of the Court of Appeals—Thomas Parran, of Calvert county.

The platform adopted by the Convention is too lengthy to reproduce in this issue. It reaffirms the national platform adopted at Philadelphia, and praises the administration of President McKinley. The platform contains many promises as to what the Republican party will do if successful at the election this fall, among which may be mentioned the following:

To repeal the election law enacted at the special session of the legislature last spring, and "enact the bill prepared by the same association that formulated the election law of 1896, and restore manhood suffrage in Maryland."

To enact the Corrupt Practices Bill, and thereby decrease or prevent the bribery of voters.

To take out of politics the police of Baltimore City. It will pass a new police bill.

To regulate primary elections. It will adopt compulsory primary election laws.

To take the public schools from partisan politics.

To revive and replenish the oyster beds at public expense.

To handle the trust "problem with conservatism and courage."

The concluding paragraphs of the platform calls upon all good citizens to unite in placing the party in power, thereby defeating the Democratic Bosses.

ELECTRIC RAILWAY LEASE.

Sale of Bonds and Consumption of A Deal at Myersville.

After selling \$35,000 of the bonds of this road and a controlling amount of stock to Hagerstown people a majority of the old directors of the Myersville and Catoctin Electric Railway at a meeting in Myersville Saturday afternoon leased the road for a period of ten years to the Frederick and Middletown Electric Railway Company, which still has a lease on it of two years. This turn of affairs has caused considerable comment in the Middletown Valley and many fear the proposed extension from Hagerstown to Myersville will now be greatly delayed or result in failure. A gentleman from Hagerstown stated that there is now a possibility of the road being extended from Boonsboro down the National pike to Middletown instead of connecting at Myersville. The distance by the turnpike to Middletown is the same as the proposed route to Myersville, eight miles, and is through a very thickly settled country. The old lease, which expires in February, 1903, calls for the payment of \$1,300 a year and interest on the bonds. Under the new lease just made the price is increased to \$1,750.

PROHIBITION STATE TICKET.

The Prohibition State Convention was held in the auditorium of the Young Men's Christian Association Building, in Baltimore, Tuesday, and nominated candidates for State Comptroller and Clerk of the Court of Appeals as follows:

For Comptroller—Mr. William Kleinle, of Baltimore.

For Clerk of the Court of Appeals—Dr. G. Weems Petherbridge, of Charlotte Hall, St. Mary's county.

The platform adopted favors the absolute prohibition of the manufacture, sale, importation, exportation and transportation of intoxicating liquors for beverage purposes.

It condemns the calling of the extra session of the Legislature, and also condemns the census frauds in Southern Maryland, "believing same was perpetrated solely for the purpose of furthering the political aspirations of corrupt and designing politicians."

A HORRIBLE ACCIDENT.

Young Man Frightfully Mangled In A Threshing Machine.

A fearful accident occurred last Thursday morning, August 1, while Mr. John T. Dayhoff was threshing the crop of wheat raised on the farm of Mr. John Clark in Woodville District. John Martin, a young farm laborer, was assisting, and was engaged in pitching wheat from the wagon to the machine.

Having finished one load, he stepped upon a table of the machine to wait for another load to be driven up, when he slipped and his foot was caught in the rapidly revolving cylinder of the machine. He was immediately drawn in and his left leg ground off nearly to the thigh. His right foot was also badly lacerated, and but for the promptness of the engineer in stopping the machine his whole body must have been drawn in.

Dr. D. M. Devilliss, of Woodville, was hastily summoned. He decided that the best thing to do was to remove him to the Maryland University Hospital, Baltimore, which was done on the afternoon train. Martin died in the hospital the following night.

Young Martin was about 24 years of age, and came to this county about three years ago from Pennsylvania. For some time past he had been at work on the farm of Mr. Gerard Kreimer. He was pronounced an excellent farm hand and was liked by all who knew him. He was an orphan and had no relatives living, except one sister somewhere in Pennsylvania.

During one of the recent storms he was stunned by lightning and was heard to remark a number of times since that it was to serve as a warning that his time was near at hand or that he was to be the victim of some accident.—Freel News.

FATAL SHOOTING.

Result Of A Quarrel Among Negroes Over A Game Of Crap.

George Burrell, colored, from Bedford City, Va., was shot early Sunday morning and probably fatally wounded while playing crap in a workman's camp in Schindel's woods, three miles west of Hagerstown. The negro who did the shooting escaped. Both men were employed by Contractor George, who is making improvements to the Western Maryland railroad.

Justice Hoffman and Deputy Sheriff Barber drove out to the camp and inquired into the facts. As soon as they appeared on the scene the negroes ran in all directions.

Burrell is conscious, but very weak. He said they were playing crap all night, but he did not know the name of his assailant. Only one negro could be found who saw the shooting. He said he looked out of the tent and saw a negro who was known as "Will" pull a revolver and shoot Burrell and afterwards ran across the field toward Williamsport. He said he could have caught "Will" but he was afraid of the pistol.

No arrests have been made. Dr. W. J. Melvin, Hagerstown, dressed the wound. The ball, of 32 calibre, entered Burrell below his last rib and could not be located. He was still intoxicated when the physician reached him two hours after the shooting.

Burrell died from the effects of the wound on Monday.

STATE CONVENTION.

Democratic Candidates For State Offices Named.

The Democratic State Convention met in Baltimore August 1st, and nominated Dr. J. W. Hering, of Carroll county, for comptroller, and J. Frank Turner, of Talbot county, for clerk of the Court of Appeals.

Hon. J. M. Newman, of Frederick county, was made chairman of the convention. J. E. R. Wood and J. Roger McSherry represented Frederick county on the committees on resolutions and credentials, respectively.

In taking the chair Mr. Newman made a speech. "I see before me," he said, "the representatives of the intelligence and the business activity of a large majority of the white people of our State. We have arrayed against us a party two-fifths of whose membership are negroes, who vote in a body as their political masters dictate, a large number of whom have no settled abode in our midst and have no interest in and are not concerned with the welfare and prosperity of our commonwealth. Their success would result in placing the government of our State in the hands of less than one-third of the white voters of the State. Upon this grave condition trust the utterance of this convention may be in no uncertain words. I congratulate you, the representatives of the Democratic party and the State of Maryland, that we have in that distinguished Democrat, John Walter Smith, a governor fearless and astute enough to recognize the condition and by the co-operation of a Democratic legislature, called in extra session last winter, to devise the means to secure to the large majority of the white people the government of our grand old State."

"Maryland was a leader in the days which tried men's souls, in the mighty conflict with the English monarchy, which sought to reduce our fathers to a condition of vassalage. May her sons today, imbued with the spirit of their fathers, again lead in the rescue from a condition more intolerable than was sought to be imposed upon them. The Democratic party today all over the State, ignoring past differences, are joining together, standing shoulder to shoulder, preparing to make an united assault upon our Republican opponents. The development of the padded lists of the late federal census exposed the conspiracy to gain power by fraud, show the radical character of the leaders of the Republican party of Maryland, making it unwise and unsafe to trust them again with political power in our State."

The Platform.

The platform adopted reaffirms the party's allegiance to the "cardinal doctrines of the Democratic party as expounded by its illustrious founder, Thomas Jefferson," declares that it stands for "equal advantages to all, special privileges to none," speaks of the results of the recent oyster legislation and commends the calling of the extra session of the Legislature and the measures enacted by it. Concerning the public schools the platform says:

"The Democratic party of Maryland, always the advocate and supporter of a broad and liberal public school system, reaffirms its belief that the problem of popular education is amongst the most important with which the State must deal.

"The progress, comfort and happiness of the commonwealth were advanced by the education of the masses. A free people must be developed and educated by free schools. We have good reason to be proud of our admirable school system, but as the State advances and education becomes more general, the methods of administering our public schools must be improved to keep pace with public demand and to remove well-founded complaint and dissatisfaction.

Above all things they should be conducted without reference to politics, and should absolutely be free from partisan interference or dictation. Teachers should be appointed and retained for their fitness only, and should be safe from removal except for cause after reasonable opportunity to be heard in their own defense.

"We accordingly recommend the passage by the next legislature of an act providing for the appointment by the Governor of a commission of prominent citizens, selected irrespective of their political views, from amongst those who are personally interested in the improvement and efficiency of our public schools, whose duty it shall be to examine into their condition and management, and to report what amendments of our existing law are necessary to reform whatever shall be found defective in their administration and in the method of appointment and tenure of the commissioners."

"The race question is dealt with thus: "The Democratic party represents more than 40,000 majority of the white people of Maryland. They, in common with their brethren of other States into which large masses of colored voters have been injected into the body politic recognize that peace, good order, personal safety and proper development of our material interests depend upon the control of the commonwealth by its intelligent white residents. Without the aid of the 50,000 colored voters the Republican party in Maryland would be a hopeless minority.

"We, therefore, without hesitation proclaim that the success of the Democratic party will mean that while we shall stand with perfect fairness in securing all the benefits of good government and full and free opportunities for education to all classes, such action must be taken as to prevent the control of the State government from passing into the hands of those who have neither the ability nor the will to manage public affairs wisely and well.

"To secure this most desirable result, we earnestly call on all the Democrats to lay aside all their differences and to unite in an enthusiastic and patriotic effort to maintain the Democratic supremacy in Maryland."

RACE ISSUE CALLED A HUMBUNG.

The Republican Convention Replies To Democratic Resolutions.

The Republican County Convention, to select delegates to the State Convention, was held in Frederick City on Saturday last.

The convention was presided over by Mr. William W. Doub, of Middletown. Mr. Harry J. Kefauver was made secretary of the convention, and Mr. George A. Schroeder was named assistant secretary.

The following delegates were appointed to represent Frederick county at the State Convention:

Geo. H. Hickman, William McKinney, D. H. Hargett, E. Y. Goldsborough, Dr. C. E. Goodell, Hammond Urner, W. H. Hinks, G. J. Lucky, J. H. Lampe, E. A. Gittinger, J. Ed. Lutz, A. Horner, J. S. Annan, L. M. Wise, D. W. Dutrow, C. O. Peters, Alonzo Benner, J. C. Walker, Nicholas Albaugh, H. J. Liptenberger, A. H. Etzler, W. B. Cuthall, W. Z. Main, W. B. Richards, Dr. M. J. Zimmerman, J. W. Shaffer, John R. Rouzer, C. D. Eldridge, C. C. Hammond, D. M. Devilliss, L. F. Carter, C. S. Snook, W. H. Smith, A. J. Willard, P. L. Hargett, Edward Mercer.

The convention adopted the following resolutions:

"Demagoguery and humbuggery are easily unmasked, if we only take the time to do so. Sometimes they have the appearance of sincerity and even look a little truthful and often deceive the unwary. There is no field in which both of these means, closely allied to each other, are more often employed than in political conventions such as was held in this city (Frederick) on Saturday last. In the resolutions adopted on that occasion it was alleged that there are on the registration books of Frederick county 2359 fraudulent names, in other words one man in every six in Frederick county is a fraudulent voter. Can any sane and thoughtful man believe it? Such a charge is a fully false and malicious attack on the integrity of our registration and election officials, equally composed of representatives of both parties, without a scintilla of truth, and which to recklessly make to alarm the people against an election system, which ever since its enactment in 1896 by a Republican Legislature providing annual registrations in Baltimore city, annual revisions, suspect lists, appeals to courts, etc., has been a bulwark against fraud, and which, in making our elections quiet and peaceful, and enables the will of the people to prevail. As an evidence of the verity of what we say, we challenge the publication of the names of those alleged fraudulent voters, so that all the people may judge of the truth or falsity of the charge.

"Equally untrue is the statement that an effort is being made to wrest the control of the State from the Democratic party by fraudulent means, such as the importation of colored voters from the South and the padding of the registration lists to effect that end. The Republican party in Maryland has never countenanced the commission of such crimes against the people, and it has always been the exclusive privilege of the Democratic leaders to indulge in that pastime, when graveyards, stables, and out of the way places in Baltimore City furnished them with majorities to keep their party in power, and it is yet within the memory of men when an effort was made in this county to flush the registration lists by the means of fictitious transfers issued by the ring Democratic registers of Baltimore City for the purpose of swarting the will of the people. A comparison of the registration for the various years commencing back in 1882 when there were not quite four white voters to one colored in Maryland with the registration in 1900 will show about the same percentage, some years being greater or less than others, it largely depending on the activity in registration by the respective parties. Whilst in 1882 the per cent. of colored voters was more than one fourth of the entire vote of the State, in 1900 there was less than one-fourth. There were then 142,765 white voters and 37,521 colored voters. In 1900 there were 236,105 white voters or an increase of 93,440, whilst the colored vote increased only 17,763. These figures completely refute the twaddle about the colonization of the colored voters.

"An aged issue has been resurrected with a view to attract the people, and we are told there is an impending danger to the supremacy of the white race. A familiar one; we heard it back in 1895 when Governor Lowndes was a candidate, and himself and a Republican Legislature were elected to legislate for the people. There were frightful boggy pictures, the publishing of mixed schools, where white and colored children were compelled to congregate, provided over by a colored schoolmaster, and one horrible, soul-terrifying one in which a colored dominion was pictured whipping a white child, but notwithstanding all these things, the people arose in their might and cast out as unclean the very men who are again forging to the front. The Republican party took possession of the State Government, the people got an equitable assessment law, in which the farmers of Maryland for the first time in the history of the State were allowed a liberal exemption from the burdens of taxation; a fair and just election law was passed, which stripped the election books of fraudulent names, and made it possible for the voters of Maryland to have an honest count of the ballots actually cast, and every promise that was made was faithfully kept and fulfilled to the letter.

There was no negro supremacy or domination, and the boggy were laid away out of sight, we supported him all time, because none of their dire prophecies came true. But, however, they are again called forth for duty, and for the same purpose as in 1895 to direct public attention from themselves and their crimes against the people; to obscure the real issues of the campaign; to have the people forget and not remember the inquiry of the Extra Session by which a hundred thousand dollars of the money of the taxpayers of Maryland were expended to further the interest of one man, and an assault was made on the elective franchise, and the poverty of a man's parents or his own lack of opportunities was made a reason for his disfranchisement and he was pronounced unfit to take his place as a freeman of the land. Wealth, whether it be inherited or not, should have no preponderating influence in a republic, and the Republicans of Frederick county now enter their solemn protest against the attempted discrimination against the poor and the lowly, and pledge themselves if successful to again make it possible for every man who possesses the necessary constitutional qualifications to cast his ballot according to the dictates of his own conscience."

RESOLUTIONS were also adopted indorsing President McKinley's administration, and the convention expressed confidence in the vindication of Admiral Schley, and also extended "its heartfelt congratulations" to Congressman Peare, "for his loyalty to his party," etc.

FAVORING MATRIMONY.

Rev. J. F. X. Coleman, pastor of St. John's Catholic Church, Frederick, announced to his congregation Sunday night that he was going to inaugurate a matrimonial bazaar in his church. "Think of it!" said Father Coleman—"a congregation like ours, with over 1,000 members, and you seldom hear of a marriage. There certainly is something wrong, and this is what I am going to endeavor to rectify. There is no reason for this state of affairs, as there is plenty of marriageable material right here, and even much past that age, and I am going to endeavor to utilize it to advantage or know the reason why." He said he would announce his plans next Sunday evening. He had most of the young ladies giggling during his remarks, while the young men looked serious.—Sun.

Mr. JOHN A. RICHARD, a retired merchant of Williamsport, Md., died Monday evening. He had been in ill health for several years. Aged 80 years. He was senior publisher of THE TRANSCRIPT, a weekly paper until lately published in that town.
