YOKOHAMA BY NIGHT.

Lantern Illumination Makes the City
Ain't Fairlyland.

A row of paper lanterns in the black
shadow of a wall is the first impres-
sion the newly arrived traveler has of
Yokohama as he steps from his "sam-
pan" on to the wharf at night.

The lanterns hang low and almost
motionless, but at the word "rickshaw"
they begin to sway, and with a silent,
almost rhythmic movement they
come rushing toward him. A moment
later he discovers that each lantern is
attached to a rickshaw, which offers
for less than half a yen an hour to con-
vey him anywhere his fancy may lead
him. But go where he will the lanterns
are always there, dangling and swaying
and dimly flashing.

The lantern on the rickshaw is a
characteristic detail of the night pic-
ture of Yokohama. It is a series of
brilliant dashes of color under a cloud-
less, starlit sky, fanned by a soft
breeze which seems half of the sea and
half of the tropics, with smiling, dol-
like people gliding about everywhere.
It hardly seems real. It isn't fairland
exactly, because lanterns are not sup-
posed to be always as picturesque as
these Japanese. Certain it is that
few things anywhere in the round
world can be more beautiful than lan-
tern lighted Yokohama.

As the occidental crosses the bridge
over the canal from the foreign quar-
ter and enters the native city he sees
a bewildering maze of lights. Through-
out Yokohama gas lamp posts are few
and far between, a fact which makes
the lantern illumination all the more
conspicuous. They are not hung at reg-
ular heights or intervals, but make a
sort of tangle of soft colored lights
over the front of the buildings and
even across the street.—New York Mail
and Express.

FUEL MADE OF CLAY.

Wonderful Invention Of a Western
Engineer.

E. J. Hoffman, a Chicago and
Northwestern Railroad engineer,
who retired from his vocation be-
cause of ill health, has invented a
fuel that he asserts is composed of
clay to the extent of ninety per
cent. He says that one day while
at work in the shop there was acci-
dentally revealed to him a peculiar
action of certain chemicals and gas-
oline. Eagerly he followed up the
clue with numberless experiments,
until finally he is enabled to give to
the world a fuel, he declares,
cheaper than coal and better than
coal.

The fuel burns in a stove, grate
or furnace readily; it creates no
smoke, no cinders, and burns to
white ashes; twenty-five pounds of
the fuel producing only a quantity
of ashes that may be held in the
palm of the hand. In the combus-
tion the fire literally consumes its
own ashes, and a ton of fuel will go
further than two tons of the best
coal, producing five times the
amount of heat that coal creates.
One pound of the strange mixture
will suffice to keep the kitchen
range hot for one hour.

A recent test of Hoffman's clay
fuel in the furnace of a large boiler
developed the fact that 250 pounds
of it created 30 per cent. more
steam and lasted longer in burning
than 600 pounds of first quality
steam coal.

The invention, it is predicted, is
destined to solve the fuel problem
for the whole world, inasmuch as
the product may be manufactured
1,000 miles from an oil-producing
locality for about \$2 a ton. Near
an oil field it can be made for one-
fifth that price approximately.

For factories and manufacturing
establishments it is proposed to
have a plant at or near the furnace
doors. Dirt will be hauled, treated
in a few moments, and the fireman
shovels his fuel under the boilers.
With a draught on can be produced
a heat the like of which has never
been secured from coal, or, with all
draughts closed, one may have a
glowing fire not unlike that of an-
thraxite coal in a base burner. For
household use it is proposed to sub-
ject lumps in moulds to a pressure
of 1,600 pounds.

Two Chicago Omaha railroads
well on February 1 begin using
Hoffman's fuel for a thorough test
in the locomotives. On this date,
also the large packing house plants
of Armour, Cudahy & Swift, at
South Omaha, will test the inven-
tion.—Fred. News.

Clerk's Wise Suggestion.

with dyspepsia, belching and sour
stomach," writes M. S. Mead,

thing without suffering several

with most happy results. I have had
no more trouble and when one can
go to eating mince pie, cheese, candy

digestion must be pretty good. I

In Bed four weeks with La Grippe.

We have received the following
letter from Mr. Rey Kemp, of
Angola, Ind. "I was in bed four
weeks with la grippe and I tried
many remedies and spent con-
siderable for treatment with
physicians, but I received no relief
until I tried Foley's Honey and Tar.
Two small bottles of this medicine
cured me and I now use it exclu-
sively in my family." Take no

WHAT HAULING COSTS.

Engineer's Estimate Shows Relative Value
of Different Kinds of Roads.

It is doubtful whether those who
use roads and turnpikes have any
definite idea what it costs to travel
on the highways and byways, either
in light vehicles or in heavy con-
veyances.

Of course, those accustomed to
paying toll can figure up a snug
little sum spent in a generation for
using the road. The cost of using
roads may be estimated, not by
what is paid for tolls but the time
consumed in making trips, the
wear and tear on vehicle and
horses. The rougher the roads the
greater the wear on the conveyance
and horses. If the roads be sandy
the cost will be greater for power.

If the roads be rough and stony the
wear will be greater on the vehicles
and harder on the horses and the
drivers. An Indiana engineer re-
cently estimated that the cost to
move one ton per mile by horse
power over a dry, sandy road was
64 cents; over wet sand, 32 cents;
over an earth road and ruts, 26
cents; over an earth road that is
dry and hard, 18 cents; over a
broken stone road in good condi-
tion, 8 cents; over a compact gravel
road, 8.8 cents; over stone paving,
5.33 cents; over asphalt, 2.7
cents. If wagon transportation
could be carried on at the rate of 5
cents per mile per ton the result
would be a saving of many millions
of dollars, and would put in mo-
tion many millions of tons of mer-
chandise that cannot now be han-
dled with profit.

It will thus be seen that the bet-
ter the roads the less it will cost to
convey merchandise to people over
roads. The cost of merchandise
depends considerably upon freights
or transportations. If the freights
are low the prices are much reduc-
ed. For instance, the freight on
coal shipped from the coal regions of
Pennsylvania to towns within
the State are in cases more than
half what the coal is sold for by the
retail dealers. In some places
where coal is sold at \$6 per ton the
freight is more than \$3 per ton.

If dirt roads were made smooth a
wagon would last twice as long and
horses require less shoeing. In
fact the cost would be very much
reduced. In sections of the country
toll roads or no toll roads is a
public issue. It is argued that toll
gates retard business of the mer-
chant and the farmer and that the
highways should be brought up to
the most perfect condition that can
be obtained.

AN ARCTIC MUSK OX.

The First Live Specimen Ever brought
to This Country.

A young musk ox, caught in the
Arctic regions, was recently
brought to San Francisco by a
whaling vessel. This is the first
live specimen that ever reached
this country. The adult animals
are so fleet, and take refuge in
steeps so inaccessible, that they
cannot be captured, and the young
die, as a rule, in a temperate cli-
mate.

Musk oxen would be very valu-
able if they could be domesticated
in the cold countries, as they are a
sort of connecting link between
oxen and sheep, and under their
long hair is a thick coat of exquisi-
tely fine wool, which may be woven
into cloth softer than silk. They
are trying in Sweden to raise a herd
from five calves caught in Green-
land last year.

The musk ox inhabits the north-
ern parts of America, roaming in
small herds and feeding on grass,
twigs and moss. It wears a regu-
lar helmet, formed by its horns,
which curve downward and then
upward to the sharp tips. The
horns are so strong and so large
that the animal can generally drive
off or kill a wolf or a bear. It is
said that when they are shot at by
unseen hunters they do not run,
apparently regarding the reports as
thunder.—Phila. Record.

HAS READ THE BIBLE 117 TIMES.

Systematic Classification Of Facts By
Reader of the Holy Book.

CHESTER, Pa.—Ambrose S. Ot-
tey, known hereabouts as the Great
American Bible Student, has com-
pleted his one hundred and seven-
teenth trip through the Holy Book.
Thirty-four years ago Mr. Ottey,
who is a veteran blacksmith, began
a systematic reading of the Bible,
and has succeeded in arranging an
odd classification of its contents.

For instance, he can tell how
many times certain words and let-
ters appear; how many chapters
and verses there are; names that
spell the same both ways; peculiar
passages of scripture; the middle
book, chapter, verse and line; the
oldest men of the Bible, and other
facts which he refers to as curiosi-
ties of the Bible.

Mr. Ottey says that if you want
to read the Bible through in a year
you can do so in an interesting and
instructive manner by reading three
chapters every week day and five on
Sunday; or read two in the Old
and one in the New Testament
every week day and six in the old
and four in the New Testament
every Sabbath, and you will then
have read the Old Testament once
and the New twice in a year.

The number of verses beginning
with the various letters of the al-
phabet he has computed as follows:
a, 12,638; b, 2,207; c, 183; d, 177;
e, 207; f, 1,797; g, 209; h, 1,164;
i, 1,449; j, 158; k, 65; l, 411; m,
437; n, 901; o, 592; p, 149; q, 4;
r, 127; s, 1,038; t, 5,286; u, 83; v,
37; w, 1,396; x, none; y, 356; z,
17.

Mr. Ottey has discovered that
the following phrases, which are
commonly supposed to be in the
Bible cannot be found therein:
"Cleanliness is next to godliness,"
"God tempests the wind to the
horn lamb," "In the midst of life
we are in death." He has ascer-
tained that the Bible contains 1,189
chapters, 31,198 verses, 773,697
words and 3,566,480 letters. The
name "Jesus" occurs 700 times in
the Gospels and Acts and 69 times
in the Epistles. The words "girl"
and "boy" are found but once each
in the Bible. Both are found in
Joel iii, 3. There are 2,300 words
that occur but once, and Mr. Ottey
can tell where all can be found.—

REAL MERIT ALWAYS WINS.

When the fair minded person
meets with an article of merit he is
always ready to acknowledge it and
to tell others of his discovery. That
is why the sale of Kodol Dyspepsia
Cure is increasing so fast. People
who are cured by it tell their friend
and they are cured in turn. Real
merit is bound to win.

If everybody knew how quickly
and completely Kodol Dyspepsia
Cure cures all kinds of stomach
trouble few would be without it.
Otherwise incurable cases yield to
it at once. Those less seriously ill
are still more readily relieved. For
the occasional sufferer a dose now
and then is sufficient. The feeling
of fullness, bloating and other un-
pleasant symptoms after meals
quickly removed by Kodol Dyspep-
sia Cure. It is equally good for
children.

Nine times in ten ill health is
due to indigestion. Sick headache
is caused by it. Heart trouble often
results from pressure of gases in
the stomach. These gases are
caused by imperfect digestion. Ner-
vousness is frequently due to stom-
ach disorder. The eyesight is
sometimes affected by it. The en-
tire body is supplied from the stom-
ach. If supplies are sent out regu-
larly and in good order the body
is sound. If they are cut off or
furnished in small quantity or poor
condition, the whole body suffers.
Anything that keeps the stomach
sound is sure to strengthen and
maintain the general health. That
is what Kodol Dyspepsia
Cure is for. Equally good for chil-
dren.

All we want is to tell you about
this excellent remedy. If you knew
half as much concerning its merits
as we do you wouldn't be without
it. We simply want to bring it to
your attention. After that the
preparation will speak for itself.
Try it and further endorsement
will be unnecessary.

BIG INDIAN MOUND TO BE

Prehistoric Relic In West Virginia To Be
Demolished By Its Owner.

The prehistoric mound from
which the town of Moundsville, W.
Va., the county seat of Marshall
county, derives its name, and celeb-
rity, promises to be harshly oblit-
erated unless a sentimental appeal
touches prosaic purse strings. The
famous landmark is owned by Hon.
G. S. McFadden, a venerable gen-
tleman, who, says the Baltimore
Sun, has been its possessor for
over half a century, and being
tired of the indifference of the
State and other public bodies to in-
tervene and relieve him of what
personally is a useless antiquity he
threatens to have it razed.

The shock to the antiquarians
throughout the United States, to
all of whom the mound is familiar,
will be the greater when it is real-
ized that convict labor is to be em-
ployed, for, aside from the great
heap of earth, Moundsville enjoys
the distinction of having the West
Virginia State Penitentiary located
in its midst. An appeal to the
school children of West Virginia
was made a few years ago to save
the mound, but the response was
feeble. Mr. McFadden proposes to
cut the site into residence lots after
the earth is hauled away. The
mound takes up an entire square
in the center of the town.

Moundsville is located on the
Ohio River, 12 miles south of
Wheeling, and in a section rich in
Indian lore. The mound is the
only one on the West Virginia side
of the river and evidently was the
last of the chain extending east-
ward. It was long ago rifled out of
its precious contents, which were
deposited in the Smithsonian Insti-
tution, a few relics going to State
Institutions. Pilgrimages have
been made to it by scientists from
all countries.

Friends of Mr. McFadden admit
he has fulfilled all obligations of
sentiment toward the mound's
preservation. He has originated
movements designed to properly
care for it, but the public interest
was weak and the owner was left
to continue to pay taxes and keep
repairs without receiving a cent in
return. Physically the removal of
the mammoth earth pile will be a
gigantic task, and morally there
will be opposition, for it will be
surprising if protests from the
mound's admirers generally do not
deluge the owner.

One Minute Cough Cure
For Coughs, Colds and Croup.

The Boston Tramp's Lecture.

"I think," said the kind lady,
"that you will find work right
around the corner."

"Madam," said Sanntering Sna-
"I was born and bred in Boston.
I am sorry that your woad thras-
words. Carelessness in the use of
our sacred language is to me far
more distressing than hunger."

"What do you mean?" she
demanded with considerable spirit
for she had been a school teacher
and prided herself on her parts of
speech.

"That little word 'will,' he re-
plied. "Ah, how often it is mis-
used! Have you ever heard of
the lady who fell from the steam-
ship and called 'Help! Help!'"

"I don't remember it," she
answered.

"Well," he went on, "this poor
woman fell into the water, having
neglected to inform herself con-
cerning the proper use of the words
'will' and 'shall.' It happened that
no heroes were on deck when she
went overboard, therefore her appeals
for help were made in vain. 'Help!
Help! Help!' she shouted, and in de-
spair she cried, 'Nobody shall help
me; I will drown! What she
meant, of course, was, 'Nobody
will help me; I shall drown.' You
see what a difference the trans-
position of those two small words
makes."

"But I don't know what that has
to do with me," the lady said.

"Alas!" he almost sobbed;
"alas! alas! Why will people who
are otherwise fairly intelligent make
such woful assaults upon our be-
loved English? You said, 'I think
you will find work around the cor-
ner. Mark the misuse of the word
'will.' If you had said, 'I think
you may (or might) find work
around'—"

But she let the dog out just then,
and the lecture was off.—Chicago
Record Herald.

DEATH BY ARSENIC.

The Way This Poison Acts Upon the
Human System.

When a single dose of arsenic in suf-
ficient quantity to be felt has been tak-
en, colicky pains, bowels disorder and
perhaps nausea result. In the course
of an hour after a poisonous dose has
been taken an intense burning pain is
felt in the esophagus and stomach.
This spreads to the entire anterior por-
tion of the lower part of the trunk. A
sense of constriction at the throat and
an acid, metallic taste accompany the
pains. Then vomiting and relaxation of
the bowels begin. As the case pro-
gresses the symptoms increase in in-
tensity. Then comes a thirst that wa-
ter will not allay, although it appar-
ently increases the stomach distur-
bance. The victim groans and writhes.

Now he implores the doctor to save
him. Then he begs to be killed and put
out of pain. The extremities become
frozen. The pulse is small, feeble and fre-
quent, and the breathing is labored,
embarrassed and painful because of
abdominal tenderness. The surface of
the body becomes dark and of that
bluish color that medical men call cy-
anosed. Violent cramps add their tor-
ture, exhaustion becomes collapse, con-
vulsions or coma ensues, and death
ends the agony. This torture lasts
sometimes from five to twenty hours.

In some cases these symptoms occur,
but in a modified form, and the doctor
will apparently get the better of the
disease. The remission will be but for
a day or two. Then the abdomen will
swell, and icy coldness will pervade
the frame. Shivering will become pro-
nounced trembling, then cramps, con-
vulsions and death.

Birds Are Like Human Beings.

Carnaries, like human beings, vary
very much in character, some cocks be-
ing so indifferent and idle that they
will let the hen do all the work of
building and rearing, while they them-
selves sit and plume their feathers.
Others, again, are perfect gentlemen in
their manners, waiting on the hen with
a quiet courtesy and seeing that all she
requires is at once brought to her.
Again, the hens vary in disposition,
some being behaving in a quiet, modest
way, attending to their young ones
with regularity, while others are in a
constant state of chatter with their
husbands, pecking and arguing with
them every time they go near. Thus
we see that these little birds have their
tiffs and domestic quarrels, not unlike
ourselves.—Chambers' Journal.

To Cure the Stammerer.

It is said that stammerers rarely if
ever show any impediment of speech
when speaking in whispers. On this
fact a method of treatment has been
advocated, which is as follows: For the
first ten days speaking is prohibited.
This will allow rest to the voice and
constitutes the preliminary stage of
treatment. During the next ten days
speaking is permissible in the whisper-
ing voice, and in the course of the next
fifteen days the ordinary conversational
tone may be gradually employed.

FRIDAY, FEB. 7, 1902.

SLIGHTING PARTY.

A very fine sleighing party, composed of the elite of Emmitsburg, visited the home of Misses Annie and Ella Shriver, of near that place on the evening of the 3rd inst., and had a delightful time. The party had full sway and enjoyed themselves, playing various games until the kind hosts invited them to lunch and refreshments, which were gotten up in the most approved style and prepared especially to tempt the palate. It was a time long to be remembered by those present and the hosts were delighted at having such a fair representation of Emmitsburg's young people visit them. The Misses Shriver are two popular young ladies of near Emmitsburg and highly enjoyed company. Those present were Mr. and Mrs. Ed. Shriver, the Misses Kansas Byers, Eva Rowe, Nellie Eyster, Edith Nunemaker, Fannie and Sallie Kries, Ruth and Carrie Gillelan, Annie Belle Sholly, Alice Hoke, Ella Maxwell, Bertha Kiehlolt, and Rhoda Simons of New Jersey. Messrs. George J. Gillelan, Eugene Zimmerman, Lewis Rhodes, Clarence McCarran, Henry Hoke, John and Richard Zacharias, Kiner Musselman, Chas. Maxwell and Wm. Rowe.

THE LAST HEARD OF IT.

"My little boy took the croup one night and soon grew so bad you could hear him breathe all over the house," says F. D. Reynolds, Mansfield, O. "We feared he would die, but a few doses of One Minute Cough Cure quickly relieved him and he went to sleep. That's the last we heard of the croup. Now isn't a cough cure like that valuable?" One Minute Cough Cure is absolutely safe and acts immediately. For coughs, colds, croup, grip, bronchitis and all other throat and lung troubles it is a certain cure. Very pleasant to take. The little ones like it. T. E. Zimmerman & Co.

Mr. G. P. MILLER, president of the Allegany Orchard Company, which owns and operates more than a thousand acres of peach orchards in Berkeley, Morgan and Hampshire counties, West Virginia, states that the peaches are un injured in that section and that the prospects so far are promising for a large crop.

THERE IS ONE RATIONAL WAY to treat nasal catarrh: the medicine is applied direct to the affected membrane. The remedy is Ely's Cream Balm. It restores the inflamed tissues to a healthy state without drying all the life out of them and it gives back the lost senses of taste and smell. The sufferer who is tired of vain experiments should use Cream Balm. Druggists sell it for 50 cts. Ely Brothers, 56 Warren Street, New York, will mail it.

BARRED FROM THE CHURCH.

An unprecedented incident took place Saturday afternoon at New Market during a funeral. The body of Mrs. Robert Thompson, who had died a few days previous of consumption, was being conveyed from her late residence to the Methodist Episcopal church, near New Market, where the funeral sermon was to be preached by the pastor and the body interred in the graveyard adjoining the church. Upon their arrival at the church, after a most disagreeable ride of over two miles, Thomas Waltz, one of the church trustees, met them at the door, stoutly refused them admission, and, after all arrangements had been made for the funeral, stating that the corpse had died of a contagious disease, and that it would not be allowed to enter the edifice. After a consultation it was decided to inter the body, have the grave service, and then repair to the church, where the funeral sermon was preached. There is much bitter feeling in the matter. The relatives of the deceased claim that, under the circumstances, consumption is a non-contagious disease; that a majority of those present had been with the deceased in her illness, and that there was no more danger in the entrance of the casket than there was in the case of the persons who attended her. —*Fred. Bilious Colic.

H. Seever, a carpenter and builder of Kenton, Tenn., when suffering intensely from an attack of bilious colic, sent to a near by drug store for something to relieve him. The druggists sent him a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy, three doses of which effected a permanent cure. This is the only remedy that can be depended upon in the most severe cases of colic and cholera morbus. Most druggists know this and recommend it when such a medicine is called for. For sale by T. E. SEVENTY-FIVE ministers, representing almost every religious denomination in the country, attended the second annual conference of the National Federation of Churches and Christian Workers in Washington.

HE FEARED HE HAD LOST

When Wu Ting Fang, the famous Chinese Minister to Washington, irritable and somewhat forgetful from a severe cold, missed one day from the front of his cap the immense diamond he always wears there, he was dreadfully frightened. A friend pointed out that the statesman had inadvertently jammed his turban wrong side before, and that the diamond was safe in the rear. Had Wu Ting Fang been wearing a Benson's Porous Plaster on his chest or back to cure his cold, he never would have doubted its location. He would have felt it doing its work—warming and making flexible the torpid muscles, extracting the pain and soreness, promoting the free circulation of the blood, stimulating the skin and lungs to proper action, and so discharging and banishing the malady. Thus we perceive, beloved friends, that

THE BIG DIAMOND ON HIS HAT

while a pretty thing to look upon, was of no practical use. But Benson's Plaster are supremely useful. They relieve and cure gout, rheumatism, neuralgia, colds on the chest, lame back, etc., so quickly and completely as to make you wonder how it can be. Better now—well to narrow—that's the way they work. Get the genuine. All druggists, or we will prepare postage on any number ordered in the United States on receipt of 25c. each. THE SUNNY SOUTH

Fifty Cents a Year—Less Than a Penny a Number.

THE SOUTH'S LITERARY WEEKLY

Published at Atlanta, Ga.—Circulation Over 50,000.

The **SUNNY SOUTH** is the Great Literary Weekly of the South. It is devoted to Literature, Romance, Fact and Fiction, and gives the best of all that is current in its field. Among its contributors the most noted southern writers appear—Joel Chandler Harris, Harry Sullivan Edwards and others of growing fame. Serial stories from Anthony Hope, Maurice Thompson, Sidney R. Crockett, Mrs. George Corbett and Arthur W. Mummont have appeared, and others are in waiting from the pen of authors of national note. A short story contest brought out nearly five hundred splendid short stories, all worthy a place in **THE SUNNY SOUTH'S** readable columns. Other contests are contemplated that will successfully exploit the ripening field of talent that only needs such fostering to illustrate the wealth that is shy to assert itself.

The **SUNNY SOUTH** teems with the life of the great south. The genial sunshine warms everything into activity and the season is never cold enough to check the hand of industry. The paper comes fragrant with the breath of the magnolia and pine, and gives out the very air of the orange, palm and bay. The beauty and pathos, the romance and mystery of the land where the corn stores up the golden sunshine and the cotton white in the moonlight, will be given in the well-filled columns of this fascinating weekly.

The subscription price is **Only Fifty Cents** a year, alike to all persons, agents, newspapers, postmasters and every one else. Clubs of five, accompanied by the full \$2.50, entitle the club raiser to the paper one year gratis.

Send on a **Postal Card** the names of six of your neighbors who would appreciate the opportunity to read a copy of **The Sunny South**, and one sample will be mailed free. You can get your club of five out of these very people.

THE SUNNY SOUTH enters over 50,000 American homes now; and during 1902 is sure to be welcomed in fully as many more homes, as the great weekly teem of good things, the Southern Literary Weekly, whose columns for 1902 will be the most readable of all the papers that come to you.

1837. THE SUN. 1902. BALTIMORE, MD.

The Paper of the People, For the People and With the People.

Honest in Motive, Fearless in Expression, Sound in Principle.

While maintaining unflinching the high standards of private life and public policy which it has upheld unflinchingly for more than sixty-four years, THE SUN is also in the front rank of modern journalism in every factor which enters into the production of a great newspaper.

Its mechanical equipment is complete and up-to-date in every respect, and its facilities and arrangements for the prompt collection of news are unsurpassed. Its special correspondents throughout the United States, as well as in Europe, China, South Africa, the Philippines, Porto Rico, Cuba and in every other part of the world supplement the efforts of the general agencies by which it is also served, so that it is enabled to print all the news every day in the week.

Its Washington and New York bureaus are among the best in the United States, and give THE SUN's readers the earliest and most complete and important news in the legislative and judicial centers of the country. Its market reports and commercial columns are complete and reliable, and put the farmer, the merchant and the broker in touch with the markets of Baltimore, Norfolk, Charleston, New York, Chicago, Philadelphia and all other important points in the United States and other countries. THE SUN is the best type of a newspaper, morally and intellectually. It is an educator of the highest character, constantly stimulating to noble ideals in individual and national life, and it gives all the news all the time.

THE SUN is published on Sunday, as well as every other day of the week.

CHAINED FOR TEN YEARS

There is nothing like Asthmalene. It brings instant relief, even in the worst cases. It cures when all else fails.

The Rev. C. F. WELLS, of Villa Ridge, Ill., says: "Your trial bottle of Asthmalene received in good condition. I cannot tell you how thankful I feel for the good derived from it. I was a slave, chained with putrid sore throat and asthma for ten years. I despaired of ever being cured. I saw your advertisement for the cure of this dreadful and tormenting disease, Asthma, and thought you had over-spoken yourselves, but resolved to give it a trial. To my astonishment, the trial acted like a charm. Send me a full-size bottle."

After having been carefully analyzed, we can state that Asthmalene contains no opium, morphine, chloroform or ether. Very truly yours,

REV. DR. MORRIS WECHSLER.

Avon Springs, N. Y., Feb. 1, 1901.

DR. TAFT BROS. MEDICINE CO.

Gentlemen: I write this testimonial from a sense of duty, having tested the wonderful effect of your Asthmalene, for the cure of Asthma. My wife has been afflicted with spasmodic asthma for the past 12 years. Having exhausted my own skill as well as many others, I chanced to see your sign upon your windows on 120th Street, New York. At once obtained a bottle of Asthmalene. My wife commenced taking it about the first of November. I very soon noticed a radical improvement. After using one bottle her asthma has disappeared and she is entirely free from all symptoms. I feel that I can consistently recommend the medicine to all who are afflicted with this distressing disease. Yours respectfully,

O. D. PHELPS, M. D.

Feb. 5, 1901.

Gentlemen: I was troubled with Asthma for 22 years. I have tried numerous remedies, but they have all failed. I ran across your advertisement and started with a trial bottle. I found relief at once. I have since purchased your full-size bottle, and I am ever grateful. I have family of four children, and for six years was unable to work. I am now in the best of health and am doing business every day. This testimony you can make use of as you see fit. Home address, 235 Livingston Street.
