TERMS—\$1.00 a Year in Advance

VOL. XXIV.

EMMITSBURG, MARYLAND, FRIDAY, APRIL 24, 1903

NO. 49

CASTORIA

The Kind You Have Always Bought, and which has been in use for over 30 years, has borne the signature of and has been made under his personal supervision since its infancy. Allow no one to deceive you in this. All Counterfeits, Imitations and "Just-as-good" are but Experiments that trifle with and endanger the health of Infants and Children—Experience against Experiment.

What is CASTORIA

Castoria is a harmless substitute for Castor Oil, Paregoric, Drops and Soothing Syrups. It is Pleasant. It contains neither Opium, Morphine nor other Narcotic substance. Its age is its guarantee. It destroys Worms and allays Feverishness. It cures Diarrhoea and Wind Colic. It relieves Teething Troubles, cures Constipation and Flatulency. It assimilates the Food, regulates the Stomach and Bowels, giving healthy and natural sleep. The Children's Panacea—The Mother's Friend.

GENUINE CASTORIA ALWAYS

Bears the Signature of

Charles H. Fletcher

The Kind You Have Always Bought

In Use For Over 30 Years.

THE CENTAUR COMPANY, 37 MURRAY STREET, NEW YORK CITY.

NEW STOCK OF DOUGLAS SHOES 18 Different Styles.

NEW ASSORTMENT OF Ladies, Misses' and Children's Fine Shoes. GOOD STYLES. LOW PRICES. M. FRANK ROWE.

I. S. ANNAN,

We carry ALL KINDS OF Felt Boots AND RUBBERS. THE SNOWBOUND IS THE BEST COMBINATION IN THE MARKET. Call and Examine.

I have just received a new lot of Trunks, Suit Cases, Telescopes and Satchels. Call and examine my stock. Also a fine line of HORSE BLANKETS. Anything you desire from 75 cts. and up. Ask to see our BED BLANKETS

white gray and red. Cheap as can be bought. OVER COATS, all sizes, prices and kinds. A fine line of all kinds of Carpets, Oil Cloths and Linoleums, Hats and Caps. A full line of felt Boots. I handle the Watkinson & Co Brand of rubber and felt Boot, and Leather, Ladies over shoes, Dynamite, Fuse and Caps. And 5 per cent. off on all cash purchasers.

Anyone sending a sketch and description may quickly ascertain our opinion free whether an invention is probably patentable. Communicate strictly confidential. HANDBOOK on Patents sent free. Oldest agency for securing patents. Patents taken through Munn & Co. receive special notice, without charge, in the Scientific American. A handomely illustrated weekly. Largest circulation of any scientific journal. Terms, \$3 a year, four months, \$1. Sold by all newsdealers. MUNN & Co. 361 Broadway, New York Branch Office, 625 F St., Washington, D. C.

—CALL ON— GEO. T. EYSTER, —AND— See his splendid stock of GOLD & SILVER Key & Stem-Winding WATCHES.

SCIENCE SIFTINGS.

Lightning clouds are seldom more than 700 yards from the earth. Although Jupiter is 1,387 times bigger than the earth it is only 300 times heavier. All the blood in a man's body passes through his heart once in every two minutes. The average straight ahead motion of the stars is now put at twenty-one miles a second. The utmost distance from cloud to earth crossed by a lightning flash is about four miles. Microscopes which ordinarily magnify 1,000 times have a power increased to 16,000 diameters by immersing the lens in vaseline oil. A polished metallic surface is always positively electrified with regard to an unpolished surface. Sticky substances and those that give off dust are always positive.

Bismarck as a Court Officer. It was while a student at Berlin or a little later that Bismarck served for a few months as court officer. An old told story of that time will bear repetition here: A witness annoyed Bismarck so much that at last he lost all patience and threatened to throw the man out. Then the judge interferred. "The court will itself attend to all the throwing out that is done here," said the magistrate, and the taking of testimony proceeded. Later the witness again became obstreperous. Bismarck jumped up in a rage, but, thinking himself in time, turned his indignation into a humorous channel. "Six," he yelled, "if you don't believe yourself I shall have his honor the judge throw you out of this courtroom with his own hands!"

Cannel Coal and "Jet." Cannel coal is a variety of bituminous coal which burns with great freedom, the flame of it affording considerable light. It was called "candle coal" by the English people who first used it, as it often served as a substitute for candles. The name became corrupted to "cannel" and has so remained. It is more compact than ordinary bituminous coal, and it can be wrought in a lathe and polished. A certain variety of it found in Yorkshire, England, is manufactured into a kind of jewelry known as jet.

Still a Victim. "By the way, how is Featherly getting on with his pretty wife—the woman with the drooping eyelashes?" "Yes, Featherly ought to say he was the victim of her drooping eyelashes before they were married; now he is the drooping victim of her tongue lashes."—Kansas City Journal.

Clothes and the Man. "What a mistake it is to judge men by their clothes." "I know it. There is a self made millionaire in this town who dresses just as well and with as much taste as any of the clerks in his establishment."—Chicago Record-Herald.

For liver troubles and constipation there's nothing better in creation Than Little Early Risers, the famous little pills. That always effect a cure and save doctor bills. Little Early Risers are different from all other pills. They do not weaken the system, but act as a tonic to the tissues by arousing the secretions and festering the liver to the full performance of its functions naturally.

REMOVES YOUR TIRED FEELING. MAKES THE OLD FEEL YOUNG. PURIFIES AND RENOVATES THE LIVER AND BLOOD. CLEANSSES THE SYSTEM OF ALL INJURIOUS MATTER. IT CURES

"Blues", Nervousness, Sleeplessness, Indigestion, Dyspepsia, Constipation, Rheumatism, Malaria, Female Troubles, Etc., Etc.

Victor Liver Syrup DOES THIS.

Ida C. Shoemaker, Meyersdale, Pa., says: "During ten successive terms of teaching I had been a constant sufferer from headaches, loss of appetite, and general debility. But in a short time after I began using Victor Liver Syrup my headache left me, my appetite came back, and my languidness passed away. I became lively and strong, even to the surprise of my friends. An increasing weight and enjoy better health than for years. I owe this great change to Victor Liver Syrup and heartily recommend it to my suffering sisterhood."

LIST OF VICTOR REMEDIES. Victor Liver Syrup, 25c and \$1.00. Infant's Relief, 25c. Lung Syrup, 25c and 50c. Pain Balm, 25c and 50c. Lament, 25c and 50c. Liver Pills, 25c per box. Household Specific, 15c. Poultry Powders, 15c. Horse and Cattle Powders, 25c. For further information address VICTOR REMEDIES COMPANY, Frederick, Maryland.

FORTUNES FOR TWO.

The Way Russell Sage Paid a Doctor Who Refused a Fee. A former Baltimorean who was a close friend of a Philadelphia physician whose specialty was kidney diseases relates the following as the method by which Russell Sage paid the doctor a bill: The physician was on a visit to a friend in New York. Mr. Sage was very ill at his home from a diseased kidney. Hearing that the Philadelphia doctor was in New York, Mr. Sage requested him to call. The doctor did so, and within ten days Mr. Sage was a well man. A check, signed by Mr. Sage, with the amount left blank, was handed the doctor, who declined it, stating that he could not break his inviolable rule of not accepting a fee strictly to office work. When he visited people who were too poor or physically unable to get to his office he never accepted pay for his services. "During his visits to Mr. Sage's home the doctor was accompanied by his daughter, a winsome miss of ten years. About a month after the occurrence the doctor's little daughter received a telegram from a Wall street broker which read: "By order of Mr. Russell Sage, I have bought for your account — shares of — stock." As soon as the doctor read the dispatch he hurried to a Philadelphia friend who was a broker, and ordered him to buy — shares of the stock mentioned for his (the doctor's) account. The stock fluctuated, and when it was selling at a price which would pay a good profit the broker advised the doctor to sell, but the doctor did not take the advice. Later a dispatch came from the New York broker to the little girl. It read: "Have sold for your account — shares of — stock." The doctor immediately unloaded his holdings. These transactions were repeated several times and not only made the doctor a small fortune, but won for him a reputation as a shrewd financier. A final telegram came from New York for the little girl: "Have closed out your holdings and mail you a check for — thousands." The doctor unloaded and dropped out of the stock market as suddenly as he had entered it, much to the mystification of his broker and friends, who had heard of his successes, but never knew whether to attribute them to a "Henrietta" luck or to careful study of the stock dealt in.—Baltimore Sun.

CARRARA QUARRIES.

How the Men Set About to Lower the Fragments of Marble. As soon as a great fragment of marble detached by the blast has stopped rolling it is more or less roughly squared into a block weighing, say, forty tons. Then the men set about getting it down. Along certain lines of descent offering the least resistance to a body descending by force of gravitation a succession of stout posts has been firmly driven into the loose stones and marble waste. The men by means of crowbars and screw jacks raise the block on to a soaped skid of hard beech wood, of which they have several at hand. Before doing this they secure the block by means of three long three to five inch hempen cables, with which they take turns around the posts and pay out sufficient rope only to allow of the ponderous mass sliding over the soaped skids by its own weight and the angle of the incline, but not to allow of its gaining too much momentum. During this descent, besides the men tugging on to the ropes, two or more men are seated on the block. A man following closely in its wake hands them up the skid just passed over, which they soap and hand down to a man, who keeps just in front of the moving mass, to put down in its path and provide a continuous slipway. This last mentioned worker has the most perilous task. If one of the cables part at a critical moment or if a mistake be made in paying out or slackening them, he must inevitably be crushed. It is a fine sight to see the men at the last pinch, near the railroad, hand levering the marble over rollers on to the truck. At this stage all hands are yelling like demons at their work, but the moment their burden is safely entrained every man flings down his tool, and all bolt for the osteria, or wine-shop.—Pearson's Magazine.

Baldness Not Due to Modern Flour. The human race was afflicted with baldness and toothlessness centuries before white flour was known. It is possible that both these afflictions are less prevalent now than in the olden times. All the olden time pictures and statues of the dead races showed up a good percentage of bald heads, and tooth pulling and filling and even artificial toothmaking were practiced away back in history. Out of the ruins of Pompeii and Herculaneum are taken whole sets of false teeth along with loaves of bread.

Thrift. Every man who saves money is called a man and stingy by the letters on the street corners and pointed out with reproach by the men who idle away their time. In order to get ahead a man must save, must spend less than he makes, and, above all things, he must work. Don't be ashamed of having any one say that you are "close." Attend to your own business, and you are all right. The men who criticize the thrifty really pay them a big compliment. It is the tribute sloth pays industry.—Nortonville News.

An Easy One. "What supports the sun in the heavens?" asked the country schoolteacher. "Why, its beams, of course," replied a precocious youngster.—Kansas City Independent.

STEADY ATMOSPHERE.

A Prime Requisite For the Study of Planet Surfaces. Astronomical science is divided naturally into two parts, that pertaining to the stellar universe and that pertaining to our own immediate family of planets. The latter are the only bodies in the heavens of which we are aware that at all resemble our earth, and they are all, comparatively speaking, our near neighbors and have, therefore, a much more personal and popular interest than the stellar universe at large. The study of their relative motions was virtually completed during the last century, so that at the present time the astronomy of the planets is confined chiefly to a study of their dimensions and surface conditions. For this study there is one paramount requisite, and that is a steady atmosphere. With a good atmosphere important results may be obtained even with a small telescope of only five or six inches diameter; but without such an atmosphere the very largest telescope will be of no avail. This is not the case in other departments of astronomy for many kinds of observations on the stellar universe the quality of the atmosphere is of little account, provided only that it is cloudless and transparent; but for the planetary and lunar astronomy a steady atmosphere is the fundamental requisite. To understand what is meant by a steady atmosphere we have only to look at some object across a hot stove or along the line of a railroad track upon a summer day. There is a shimmer in the air, a wavering motion, with which we are all more or less familiar. This wavering is always present in our atmosphere, although we usually cannot see it; but when we magnify the image of a planet in a telescope 1,000 times we magnify the atmospheric tremors in the same proportion, and they are then not only conspicuous, but they interfere very seriously with our observations. In some parts of the world the atmosphere is much more steady than in others, and it is evidently a matter of the highest importance for the astronomer interested in planetary research to find where these places are situated. To illustrate the importance of this matter I may say that situated in one of these favored spots I saw night after night with a five inch and even with a four inch lens planetary markings and details that I have never seen even with the largest telescope in Cambridge.—W. H. Pickering in Century.

MEALS BY WHOLESALE.

Extensive Kitchen Arrangements of the Modern Hotel. The kitchen arrangements of the modern hotel are on the first basement floor. There is a chef, but so far as I could see he does not cook. He is simply a captain of the seventy-five other cooks, who work in three relays of twenty-five each. There is no range, but a solid bank of broilers—immense griddons, beneath which are the fires that never die. As for the 400 loaves of bread and 8,000 rolls required daily, the chef does not worry his mind over the patent cutters and mixers and ovens and staff of bakers needed to supply the simple item of bread or concern himself with the quality of the 1,100 pounds of butter that are each day required to go with it. I must not forget the item of eggs. Eighteen thousand are required every twenty-four hours. Baked eggs do not get overdone. They are boiled by clockwork. A perforated dipper containing the eggs drops down into the water. The dipper's clockwork is set to the second, and when that final second has expired the little dipper jumps up out of the water, and the eggs are ready for delivery. There are men who do nothing else but fill and watch and empty these dancing dippers, and it seemed to me great fun. On another part of this floor is the dishwashing, where great galvanized baskets lower the pieces into various solutions of potash and clean rinsing water, all so burning hot that the dishes dry instantly without wiping. Sixty-five thousand pieces of china-ware are cleaned in a day and an almost equal quantity of silver. All told, there are 300 employees in the kitchen departments of this huge living machine.—Albert Bigelow Paine in World's Work.

Écrache.

A simple harmless and infallible cure for eczema is effected by making a small funnel of stiff paper and saturating a ball of cotton the size of a hickory nut with chloroform and dropping it into the funnel; place the small end of the funnel in the ear, draw a long breath and then blow the breath into the large end of the funnel. The fumes of the chloroform are thus carried into the ear, and all pain ceases at once.

Made Him Ashamed.

The Chicago man had been talking boastfully, after the manner of his species, but the New York man took him down several pegs very neatly by observing: "My dear sir, do you know that Chicago time is actually one hour slower than New York time?" As for the Chicago man, he was covered with confusion and presently stole away.—Smart Set.

A Real Trouble.

Cordelia—I am always worried when I am buying new clothes. Cordelia—Why? Cordelia—Oh, I can't decide whether to look stylish and be uncomfortable or to be comfortable and look a freight.

Convinced.

"A great deal may be said on the subject," said the prolix person. "That," said the weary author, "is the one point on which you have convinced me."—Washington Star.

KNOWING FIRE HORSES.

How They Learn to Start With the Jigger and Get the Swing. The intelligence of fire horses is well known. A most knowing animal of this kind is described by Sewell Ford in "Horses Nine." The author says of him: Other things besides chief, however, had Silver learned. Chief of these was to start with the jigger. Sleeping or waking, lying or standing, the summons that stirred the men from snoring ease to tense, rapid action never failed to find Silver alert. As the halter shank slipped through the bit ring that same instant found Silver gathered for the rush through the long, narrow lane leading from his open stall to the poles, above which, like great couchant spiders, waited the harnesses pendent on the hanger rods. Once under the harness Silver was like a carved statue until the trip strap had been pulled, the collar fastened and the reins snapped in. Then he wanted to poke the poles through the doors, so eager was he to be off. It was no fault of Silver's that his team could not make a two second hitch. With the first strain at the traces his impatience died out. A sixty foot truck starts with more or less reluctance, but when once the traces caught the car tracks Silver knew what to expect. He and his team mates could feel Lannigan gathering in the reins as though for a full stop. Next came the whistle of the whip. It swept across their flanks so quickly that it was practically one stroke for them all. At the same moment Lannigan leaned far forward and shot out his driving arm. The reins went loose, their heads went forward and, as if moving on a pivot, the three leaped as one horse. Left to themselves, each horse would have leaped at a different instant. It was that one touch of the lash and the succeeding swing of Lannigan's bulk which gave them the measure, which set the time, which made it possible for less than 4,000 pounds of horseflesh to jump a five ton truck up the street at a four minute clip.

APHORISMS.

Contentment gives a crown where fortune hath denied it.—Ford. Constancy is the complement of all other human virtues.—Mazzini. He who will not take advice gets knowledge when trouble overtakes him.—Kaffir. The more one speaks of himself the less he likes to hear another talked of.—Lavater. Demosthenes. Character and personal force are the only investments that are worth anything.—Whitman. 'Tis not your posterity, but your actions, that will perpetuate your memory.—Hitchinson. Calumny would soon starve and die of itself if nobody took it in and gave it a lodging.—Leighton. Civility is a charm that attracts the love of all men, and too much is better than to show too little.—Bishop Horne.

Knew Papa's Limitations. She was a doctor's little girl. In her father's office she had seen a number of boxes on which was written, "This side up with care." In answer to her question her mother had said, "You see, when papa gets these boxes he doesn't know what is in them, and if it is something that might break it wouldn't be good for it to set it upside down." The little girl pondered over it for some time. A few days later she came to her mother, saying, "Mamma, when God made us did he put a sign on our left sides that says, 'This side up with care?'" "Why?" asked the mother, smiling. "Because I heard papa tell somebody that it was bad for people to lie on their left sides 'cause it wouldn't be good for their hearts, and I know papa doesn't know what is inside us."—Little Chronicle.

Then She Remembered.

Near the elevated road in Park place is a news and apple woman. She is very absentminded. Also sympathetic. A ragged street urchin ran up to her. "Say," he yelled, "your little boy has been run over by a big truck!" "Where? Where? For goodness sake, where?" shrieked the woman, rushing wildly down the street. She ran half a block and then stopped suddenly. "Lord, what an old fool I am!" she said to herself disgustedly. "I have no little boy. I've never been married." Meaning the street urchin had stolen four apples and a bunch of grapes.—New York Press.

A Wonderful Harbor.

Puget sound is one of the finest harbors in the world, if not the finest—a deep bay over a hundred miles long cut off from the ocean by the mountainous western peninsula of Washington. The waters nearly everywhere are deep, the shores abrupt, and the tide moderate. Ships may go from Tacoma half way to Alaska without passing out of this great sound and its extensions northward.—Ray Stannard Baker in Century.

By Way of a Lesson.

"One of our cars ran over another man last night," announced the superintendent of the street railway line. "Well," replied the president, "after awhile the people will learn that the only safe place is aboard the car and that 5 cents is a small price to pay for safety."—Chicago Post.

No Danger.

"Do you think there is any danger of America being dominated by Europe?" "No, sir," answered Mr. Meekton with extraordinary emphasis; "not so long as eminent Europeans continue to marry American girls."

DOES GOLD GROW?

Seems to, in Its Wild State, but Not in Its Home-Civilized. Some reasons for answering this question in the affirmative are given by "Popular Mechanics" which warns the reader, however, that he must not expect to grow gold eagles from dollars. Says the writer: "It has been found that gold nuggets under favorable conditions actually increase in size. Gold is known to have grown on mine timbers which have long been immersed in mine water. In the California State Mining Bureau museum there is a specimen of a piece of jointed cap and post taken from the Constock, where it had been under water for years, in which gold has formed in the joints and pores of the wood. Gold is constantly being formed in rocks and veins and placers. Just what it is that the baby gold formation feeds on to effect its growth is not known. If it were, a new and wonderfully lucrative industry might be born, and all other kinds of farming save the growing of gold might temporarily be abandoned. The formation and growth are due to mechanical and chemical action. As in the case of the animal or vegetable the gold has existed in some other state before assuming its present form. Water, which percolates through the earth's crust are said to contain substances from which gold is formed. Thus gold, like the animal and vegetable, must have water in order to thrive. The gold in the water is deposited when it meets the proper precipitant. The precipitant may be an earth current of electricity, some vegetable growth or chemical in the rocks. It has been claimed that the nuggets found in placers are the formations from the waters that percolate through the gravels, and are not from decomposed quartz, as generally supposed. Those who so contentedly cite the fact that in the center of nuggets can be often found a small grain of iron sand. This was the nucleus around which the earth current of electricity created or deposited in electroplating. During long ages this influence was at work causing the gold to form around the little grain of iron ore and then grow to become a bright, shining nugget of gold much larger and purer than any ever found in the veins of ore."

THE FEMININE FIB.

A Judicious Blend of Black, White, Gray and Chinese Lies. A distinguished preacher once divided lies into "black lies, white lies, gray lies and Chinese lies." The feminine fib is generally a judicious blend of the white lie and the Chinese lie. For the benefit of those who have never graduated in the special mendacity tripos it may be explained that a Chinese lie is, as a rule, purely ornamental, being of the nature of embroidery, which is intended to add beauty and color to the plain object on which it is used as trimming. The Chinese lie is prompted by the very highest and noblest of motives—namely, a desire to give pleasure to others, many a plain, dull fact being served up and made quite tasty and appetizing by a little judicious garniture of Chinese—or-embroidery. Directed into the proper channel, a Chinese liar becomes a skillful writer of fiction and turns her gift to profitable account. But the everyday feminine amateur, who has not this outlet for her tarradiddle talent, turns her attention to the afternoon tea table and adds a spice to whatever gossip is going by a gentle peppering of fibs. Unfortunately this gift of imagination is often accompanied by a defective memory, whereas to make a good—or-prevaricator nothing is so essential as a good memory. Without this the employer of the Chinese method is almost certain to get found out sooner or later—generally sooner—and then she has the mortification of finding that her little efforts to please quite fail in their effect. And not only that; but, what is more trying still, she even finds that when from lack of material for fictional purposes she does for once serve up the cold, ungarlish truth her hearers have so got in the habit of disbelieving her that her plain statement is received with incredulity. That is why any one who aims at distinction in the fibbing world must carefully cultivate a good memory and so follow the Golden Rule to avoid being found out.—Modern Society.

A Lost Fee.

Dr. Hunter, the famous English physician, invariably received very large fees for his services. On one occasion when he was asked by a lady the amount of his fee he informed her that he made an invariable practice of never fixing its amount. "Very well, sir," the patient promptly answered, "if you cannot fix it I am sure I can't." And, to the doctor's consternation, she walked out of the room without paying him a penny.

The Political Habit.

"Miss Roxley," began the young politician, "er—Maude, I love you. I—" "Oh, this is so sudden!" she exclaimed. "But surely you must have guessed. I have been calling here so much of late." "Ah, yes; but, since you are a politician, I thought your visits were without significance."—Philadelphia Press.

Provident.

The Cook—Would ye mind giving me a recommendation, ma'am? The Mistress—Why, you have only just come. "But ye may not want to give me wan when I do be leaving."—Life. The best physic: Chamberlain's Stomach and Liver Tablets. Easy to take; pleasant in effect. For sale by T. E. Zimmerman, druggist

SHUNS PAUPER'S GRAVE.

Moved by National pride, or possibly spurred to action by the universal and continued praise bestowed upon the czar now that he has actually completed the longest railroad in the world, Mr. Carnegie has actively embarked upon a rival scheme of even far greater magnitude, for his plan contemplates nothing less than carrying out James G. Blaine's life project of connecting the railway systems of the United States with those of the South American republics, says Alexander Hume Ford, in Collier's Weekly.

From its inception to its finish, the Latin Americans seem quite willing that Yankee thought and energy shall predominate in the carrying out of the great intercontinental project. It was fifty years ago that the Pan-American railroad was first mooted, a patriotic American offering a prize of \$5,000 for the best essay on the advantages to be derived from the building of a railroad binding together the countries of North and South America. The prize was awarded many years ago, and its donor, now a very old gentleman, still lives in Washington, hoping that he may yet see the idea he originated become a reality.

In 1890 the project was taken up by James G. Blaine, then Secretary of State. A Pan-American conference was held at the National capital, and until the time of his death Mr. Blaine worked indefatigably to carry the plan to success. The United States Government appropriated \$360,000 for surveys, which were made and it seemed as though actual work was about to begin; but after the death of Mr. Blaine little progress made until last year, when at the Pan-American Congress held in the city of Mexico, it was recommended that the United States take the initiative and appoint a Commissioner to carry out the recommendations made by the Congress. Secretary Hay has in consequence just appointed Mr. Charles M. Pepper as special representative to the heads of the South American republics, and Mr. Carnegie will pay the expenses of this investigation.

FISH BY THE MILLION.

In consequence of the unusual demand for fish for stocking rivers and small streams, the United States Fish Commission is preparing to make a greater distribution this year than ever before.

Two cars now lying in the commission yards are being stocked with millions of fry and fingerlings of shad, pike, perch, Atlantic salmon, and locked salmon, trout and black bass. The distribution will be made at various points throughout the United States. The different hatcheries in Maine, New Hampshire, Vermont, Virginia, Tennessee, Texas, Iowa, South Dakota, Missouri and Colorado also are now actively engaged in the spring distribution. Particular attention will be paid this year to the stocking of virgin streams with black bass, for which there have been many hundred requests.

"Better out than in"—that humor that you notice. To be sure it's out and all out, take Hood's Sarsaparilla.

It has been decided to consolidate the public schools in an around Laytonville, Montgomery county. This is the first move of the kind to be put into practical effect.

FASTED FOR FORTY DAYS

Salt Lake, Utah, April 20.—Arthur Van Meter, a prominent merchant of this city, yesterday broke a self-imposed fast begun more than forty days ago for the cure of dropsy.

During this time he has lived entirely on water. He suffered no distress after the first three days, and appeared to grow strong and healthy. The dropsical conditions have disappeared.

When he began the remarkable fast he weighed 250 pounds; he now weighs 125 pounds.

STATE OF OHIO, CITY OF TOLEDO, Lucas County.

FRANK J. CHENEY makes oath that he is the senior partner of the firm of F. J. CHENEY & Co., doing business in the City of Toledo, County and State aforesaid, and that said firm will pay the sum of ONE HUNDRED DOLLARS for each and every case of CATARRH that cannot be cured by the use of HALL'S CATARRH CURE.

FRANK J. CHENEY. Sworn to before me and subscribed in my presence, this 6th day of December, A. D., 1886.

A. W. GLEASON, Notary Public.

Hall's Catarrh Cure is taken internally, and acts directly on the blood and mucous surfaces of the system. Send for testimonials, free. Sold by all druggists, 75c.

Hall's Family Pills are the Best.

The large bridge of the Chicago, Burlington and Quincy Railroad over the Black river near Winona, Wis., was burned, causing a loss of \$100,000.

Circuit Judge Sanborn, in St. Paul, Minn., agreed to hear arguments on the petition to suspend the decree recently made against the Northern Securities Company so far as it related to the payment of dividends.

Three attempts at suicide were made in Washington, of which two were successful. They resulted in the death of Wilson G. Reed and William H. Barnest.

ALL OVER THE WORLD BY RAIL.

Pan-American Road Only a Link in a Great International Chain.

Moved by National pride, or possibly spurred to action by the universal and continued praise bestowed upon the czar now that he has actually completed the longest railroad in the world, Mr. Carnegie has actively embarked upon a rival scheme of even far greater magnitude, for his plan contemplates nothing less than carrying out James G. Blaine's life project of connecting the railway systems of the United States with those of the South American republics, says Alexander Hume Ford, in Collier's Weekly.

From its inception to its finish, the Latin Americans seem quite willing that Yankee thought and energy shall predominate in the carrying out of the great intercontinental project. It was fifty years ago that the Pan-American railroad was first mooted, a patriotic American offering a prize of \$5,000 for the best essay on the advantages to be derived from the building of a railroad binding together the countries of North and South America. The prize was awarded many years ago, and its donor, now a very old gentleman, still lives in Washington, hoping that he may yet see the idea he originated become a reality.

In 1890 the project was taken up by James G. Blaine, then Secretary of State. A Pan-American conference was held at the National capital, and until the time of his death Mr. Blaine worked indefatigably to carry the plan to success. The United States Government appropriated \$360,000 for surveys, which were made and it seemed as though actual work was about to begin; but after the death of Mr. Blaine little progress made until last year, when at the Pan-American Congress held in the city of Mexico, it was recommended that the United States take the initiative and appoint a Commissioner to carry out the recommendations made by the Congress. Secretary Hay has in consequence just appointed Mr. Charles M. Pepper as special representative to the heads of the South American republics, and Mr. Carnegie will pay the expenses of this investigation.

It is a strange coincidence that Mr. A. J. Cassatt, Chairman of the first Pan-American Congress, in 1890, is now President of the Pennsylvania Railroad, which has a mileage just equal to the distance from New York to Buenos Ayres, and annual gross earnings exactly sufficient to build the missing links of the intercontinental line. The Pennsylvania Railroad, too, will form the first section of the through route.

Although the quickest way to reach Buenos Ayres is still via Europe, the intercontinental railroad has made some progress since our surveys were made for its extension, so that it will soon be possible to travel by direct train from New York to Ayutla, on the border of Guatemala a distance of some 3,769 miles. But from Ayutla to Cuzco, in the mountains of southern Peru, there is a gap of nearly five thousand miles to be built.

The cost of the missing link will be, it is estimated, in the neighborhood of \$200,000,000, or about the amount that it cost to build the Trans-Siberian Railway. Fully ten years must elapse before we can hope to travel on through trains from New York to Buenos Ayres, and even then the time of transit will probably prove disappointing to many. At an average speed of twenty-five miles an hour, day and night, some seventeen days would be consumed making the trip.

Great as are the present projects for our intercontinental system, there is every evidence that by the time of its completion they will be greatly extended. The Argentine Republic and Chili are both building southward to Cape Horn while Canada is constructing a railway to Alaska which it is expected American capital will carry much further north, perhaps to meet the railroad already building southward from Cape Nome so that at the end of ten years America may have a cape-to-cape railway some fifteen thousand miles in length, or, if the scheme of the Denver company recently incorporated with a capitalization of \$50,000,000 is ever carried into effect, we shall be able to travel from any part of the two Americas by rail to Paris; for, for this company—encouraged by Kennan's travels across Alaska and Siberia, surveying a telegraph route, before the Atlantic cable was laid, and DeWinds' later accomplishments—hopes to put an iron gridle about the earth. The Russian engineers of the Trans-Siberian Railway express their opinion that the American-Asiatic route, though expensive, is feasible, but their energies are turned southward to connect the czar's Trans-Asian railway with the Indian system in Asia, and eventually, perhaps, with the proposed Arabian railway, which will have Cairo as a southern terminus. So that when all these projected railways are built—and there is no doubt of their eventual construction—we shall have a Cape of Good Hope to Cape Horn all-rail route, while every important city of America will have direct railroad connection with every large city on the five continents.

MONEY COINED FOR THE PHILIPPINES.

There are ready for shipment to the Philippines 2,500,000 pesos, which were coined at the Philadelphia mint in the last twenty-five working days.

On March 2 the act of congress providing for the coinage of money for the Philippine Islands became operative and orders were at once sent to the San Francisco and Philadelphia mints to prepare to hurry the work of coining the pesos.

The coinage in this case is equal to the minting of the same number of American dollars, and it thus required the handling on an average of 100,000 pesos daily for the twenty-five days. During this time the mint also added to the Philippine coinage 9,100,000 pieces of bronze, valued at \$91,000, and 3,600,000 nickels, valued at \$180,000.

Superintendent Landis said the amount of work done was remarkable when it is taken into consideration the recent depletion of the force.

SESSION ADJOURNED.

The national Lumber Manufacturers' Association completed its session at Washington Tuesday. The association urged all lumbermen to careful consideration of the efforts which are being made to preserve the future timber supply, and pledged cooperation in every practical plan for the better handling of forest properties.

The work sought to be done by the government in the Alachua districts was endorsed and President Roosevelt was commended for the interest shown by him in all questions relating to the lumber industry.

The convention also adopted a report providing for the recognition by the national association of the rules of the classification and grading now in use by the different manufacturers' associations.

SEVERE DRIVING ACCIDENT

While Mr. William T. Godfrey, of Salisbury, was driving home from Delmar on Monday night his horse plunged into a deep ditch filled with water. By the overturning of the carriage he was caught under the vehicle and sustained a fracture of his left leg, just above the ankle. He was compelled to remain for several hours exposed to the rain and chilling blasts. He succeeded in getting hold of his carriage blanket, which he wrapped about himself to keep warm. It was nearly dawn when he managed to crawl to a house some distance away and received help. The faithful horse stood by him all night.

Grip Remedies in Great Demand

When colds and grip are prevalent the quickest and surest remedies are in great demand. Mr. Joseph D. Williams, of McDuff, Va., says that he was cured of a very deep and lasting attack of a gripe by using Chamberlain's Cough Remedy after trying several other preparations without success. For sale by T. E. Zimmerman.

Solomon S. Thomas, of Boonsboro, a retired farmer of advanced years, has divided among his three sons 600 acres of farming land in the Boonsboro and Keedysville districts of Washington county.

BIG ORDERS FOR CARS

The Pullman Company, it is reported, has received a request for bids on 1000 cars for the Mexican Central railroad. The Chicago, Burlington and Quincy Railroad has ordered from the American Car and Foundry Company 2000 side dump cars. Other orders placed with the same company are: Chicago and Eastern Illinois, 1000 freight cars and 25 to 35 cabooses; Grand Trunk Railway Company, 500 coal cars and 500 box cars; the Vera Cruz and Pacific Railway Company, 70 box cars, 50 stock cars, 30 flat cars and 25 coal cars; Great Western Railroad Company of Colorado, 50 side dump cars. The Chicago Milwaukee and St. Paul Railroad Company is arranging to build a number of cars at its own shops. The St. Joseph and Grand Island has distributed orders for 200 box cars of 30,000 pounds capacity each.

Several county sheriffs and other officers surrounded James McKinney, the California outlaw, in a Chinese house at Bakersfield, Cal. In a fight to capture him the outlaw was killed, as was also Deputy Sheriff Tibbets, and a constable was fatally wounded.

OLDEST AND YOUNGEST SENATORS.

The oldest member of the United States Senate is Edmund Winston Pettus, of Alabama, who is nearly 82, and the next is Senator Morgan of the same state, who is nearly 79. Senator Morgan, at the recent extra session of the Senate, made speeches on the treaty with Columbia, regarding the proposed Panama Canal, covering many pages of the Congressional Record. The youngest member of the Senate is Joseph B. Bailey, of Texas, aged 39. Mr. Bailey served five terms, ten years in the House of Representatives, and was the Democratic floor leader for the last two terms. He is a native of Mississippi, and was an elector on the Cleveland and Hendricks ticket in 1884. In 1885 he removed to Texas and three years later was an elector at-large on the Cleveland and Thurman ticket. In 1890, at the age of 27, he was elected to Congress and re-elected four consecutive times.

The pleasant to take and harmless One Minute Cough Cure gives immediate relief in all cases of Cough, Croup and LaGrippe because it does not pass immediately into the stomach, but takes effect right at the seat of the trouble. It draws out the inflammation, heals and soothes and cures permanently by enabling the lungs to contribute pure life-giving and life-sustaining oxygen to the blood and tissues. T. E. Zimmerman.

President Roosevelt has completed his tour of the Yellowstone Park and has arrived at Fort Yellowstone.

The rail mill of the Maryland Steel Company, Sparrows Point, broke the record on Tuesday by turning out 1787 tons of rails.

The annual report of the Pennsylvania State Bureau of Mines shows that 36,911,551 tons of anthracite were mined during 1902, a decrease of 22,994,400 tons, compared with the production of 1901.

The Park store in LaCrosse, Wis., was completely destroyed by fire. Damage, \$500,000.

The iron workers declared their strike off and will return to work on the contracts of the American Bridge Company.

PIMPLES

"My wife had pimples on her face, but she has been taking CASCIARETS and they have all disappeared. I had been troubled with constipation for some time, but after taking the first Casciaret I have had no trouble with this ailment. We cannot speak too highly of Casciarets." FRED W. ALTMAN, 608 Germantown Ave., Philadelphia, Pa.

Joker Sets a Man On Fire

York, Pa., April 17.—"Pat" Morgan, a laborer employed by a firm of railway contractors, was sick yesterday and quit work during the day and went to the shanty. His boots being wet he bound his feet in newspapers and went to sleep. Another workman with peculiar ideas of humor poured hot ashes from the bowl of his pipe on the paper which incased Morgan's left foot. The newspapers were soon in a blaze and Morgan was howling in agony. The practical joker threw a pail of water on Morgan's feet, but before the flames were extinguished his feet were so badly blistered that he will be unable to wear shoes for several weeks.

Mothers! Mothers! Mothers! How many children are at this season feverish and constipated, with bad stomach and headache. Mother Gray's Sweet Powders for Children will always cure. If worms are present they will certainly remove them. At all druggists. 25 cts Sample mailed FREE. Address, Allen S. Clumsted, Le Roy, N. Y.

LOST CHILD'S SKELETON FOUND

Scranton, Pa., April 20.—The skeleton of Paul Seeda, the five year old son of Paul Seeda of West Scranton, was found yesterday in an isolated part of Bald mountain. The boy wandered away from his home last November, and the supposition is that he froze to death in the snow. Much interest was aroused in this city, as it was thought that he had been kidnapped.

Trolley Car Cut In Two James Warner, Adam Herr and Rachel Browdy, passengers on a Flushing avenue New York, trolley car, were seriously injured and many others cut and bruised early Friday morning by a collision with a Marcy avenue car at the crossing of these avenues in Brooklyn. The Flushing avenue car, containing 30 passengers, having stopped on the south side of Marcy avenue to pick up some passengers, was proceeding slowly across Marcy avenue when the other came down the heavy grade at a high rate of speed. It struck the Flushing avenue car squarely in the center, cutting it in two and throwing it completely off its trucks, which remained on the tracks.

The executive committee of the Mineworkers' Union have instructed all the men on strike or lock-out in the three anthracite districts to return to work immediately pending adjustment of differences by the board of conciliation provided for by the anthracite commission. The miners' union has appointed its representatives on the board and so informed the coal companies.

Mrs. Eliza Rallings, for many years one of the most fashionable dressmakers of New York, died suddenly, the strain of filling so many special orders for the Vanderbilt-Neilson wedding having overtaxed her strength.

FRIDAY, APRIL 24, 1903.

FREDERICK COUNTY 'PHONE 33

Mr. J. Thomas Gelwicks is having a new house built on Green Street.

Efforts are being made to establish a third-rail electric railway in Laurel Md. An overall manufacturing plant will be established in Boonsboro, Washington county.

Mr. Philip Snouffer has put a new roof on his dwelling house, on Gettysburg street.

Mr. L. Bryant Hill committed suicide at Catonsville by jumping from a second story portico.

Mrs. Susan B. Parodi, widow of John Parodi, died Sunday night at Annapolis, Md., aged 95 years.

An improvement association, composed of ladies, has been formed in Snow Hill to beautify the town.

Elmer C. Miller and Miss Katie M. Damuth, both of Thurmont, were married by Rev. C. W. Sinspring.

Forty hours devotion was held at St. Joseph's Catholic Church, this week, beginning on Sunday morning.

The Southern Maryland Telephone has about completed plans to construct a line from Point Lookout to Washington.

Hugh, aged 17 months, son of Edward Hagan, of Cumberland, was burned to death April 15 while playing with matches.

The bull frog season in Pennsylvania will not begin until July 1, instead of May 1, as heretofore, and will end November 1.

Hog cholera has broken out among the swine in Washington county. Whole herds around Funkstown have died.

A corn breeders association, with D. Columbus Kemp, president, has been formed in Frederick to improve seed corn for planting.

Protracted cold on the lungs is the prelude to Catarrh, Pneumonia, or consumption. Victor Liver Syrup and Lung Syrup banish Colds, Coughs, Etc.

Mrs. Rebecca A. O. Miller died Monday night at the home of her sister, Mrs. Katherine Rouzer, Hagerstown, aged about 40 years.

C. Harry Keller, of Hagerstown, has given to Christ's Reformed Church, Funkstown, a site for a parsonage as a memorial to his mother, who died last September.

The body of Richard Waters (colored), who disappeared on December 24, 1902, has been found in the Western branch, about a mile south of Upper Marlboro. Drowning was accidental.

Governor Smith has appointed D. James Bakstion and Robert Shriver, both of Cumberland, members of the board of directors of the Home and Infirmary of Western Maryland.

Car No.-408 of the City and Suburban Railway, Hyattsville, struck and almost instantly killed Mrs. Sarah Garrison of Brentwood at the Henry-street crossing in Brentwood, Sunday.

The Alleghany County Commissioners fixed the county tax rate at \$4.23, an increase of 13 cents on the \$100. An appropriation was made for an increase in the pay of the public school teachers.

The annual election for a Burgess and six Commissioners to manage the affairs of Emmitsburg during the ensuing year, will be held on the first Monday in May. So far no candidates have been named.

Rev. James R. Lewis, of Cheney, Kan., has been elected pastor of the Mount Pleasant Reformed church, this county, to fill the vacancy caused by the death of Rev. T. F. Hoffmeier.

The annual meeting of the Eastern District of Maryland German Baptist Brethren was held at Meadow Branch Church, Carroll county. A proposition was made to establish an old folks' home in Maryland.

Fred High, B. Sc., the versatile wit, humorist, ventriloquist, impersonator and dramatic entertainer, will give an entertainment in Opera House, in this place, on Wednesday evening, April 22, at 8:30 o'clock, for the benefit of the High School. The public is invited to attend. Admission 15 cents; reserved seats 25 cents.

The actual work of construction of the tidewater extension of the Western Maryland Railroad is to be vigorously pushed, and it is expected that trains will be able to run over the new line within several months.

The postal law now makes the taking of a newspaper and the refusal to pay for the same, theft, and any person guilty of such an action is liable to criminal proceeding, the same as if he had stolen goods to the amount of his subscription.—Gettysburg Star and Sentinel.

M. I. Irvin and George Klien, proprietor of Klein's Park, Baltimore, have leased the Frederick Athletic Park, and will run it in connection with their circuit of amusement parks in Maryland this summer. The place will be conducted as a summer garden with vaudeville attractions.

FOUND A BABY.

Genial Surprise For Montgomery County Merchant
Mr. Charles F. Windham, a merchant at Montrose, Montgomery county, was treated to a general surprise when he opened his establishment on Thursday morning of last week.

A SLIGHT FIRE.

The weatherboarding on the rear part of the house occupied by Mr. John Seabour, on East Main street, was discovered to be on fire between six and seven o'clock Tuesday evening.

NOT MURDER IN THE FIRST DEGREE

Judge John C. Motter, who heard the habeas corpus proceedings in the case of J. Walker Boyd, the young negro who shot and killed Peter Weischerke near Brunewick April 9, decided Wednesday afternoon that the killing was not a case of murder in the first degree and ordered the prisoner to be released in \$2,000 bail.

LOST HER FOOT AT GETTYSBURG

Minnie Bristol, of Lancaster, has sued the Philadelphia & Reading Railroad company to recover \$25,000 damages for the loss of a foot at Gettysburg last July. The accident happened on the Round Top siding the afternoon of the Governor's review, when a box car was accidentally started and caught Miss Bristol unawares, crushing one of her feet, making it necessary to amputate the member.—Gettysburg News.

STRUCK A DOOR IN THE DARK

Prof. Theodore B. Shank, president of the faculty of Kee-Mar College, Hagerstown, sustained a serious injury to his head by running against the edge of a half-open door in the dark. The door latch struck him on the forehead between the eyes and knocked him senseless. The occipital nerve was injured.

MUST HAVE ANOTHER ELECTION

Another election will be held at Smithsburg on May 1, to elect a Burgess and board of Commissioners. Burgess S. D. Newman, who was appointed a rural delivery mail carrier, resigned, and the three commissioners who were elected at the regular election failed to qualify within the time required in the charter.

ESLEMAN-KOONTZ

Miss Mollie Koontz, of Cearfoss, daughter of Mr. James Koontz, and Mr. Cyrus H. Esleman, of Cleveland, O., were married April 16, at the bride's home, by Rev. W. A. Lilley, of Hagerstown. The groom is an observer in the weather Bureau at Cleveland.

A BEAUTIFUL MURAL PAINTING WAS UNVEILED

At the evening service at Baker Chapel, Western Maryland College, Sunday, is a reproduction of Hofmann's "Christ and the Young Ruler." Mr. George W. Albaugh of Westminster is the donor, and Miss Fannie Louise Thomson of Washington, D. C., the artist.

BLOODED HORSES BURNED

Wellsburg, W. Va., April 16.—Two large stables belonging to Joseph B. Vanoy were destroyed by fire here today, entailing a loss of \$75,000. Thirteen of his blooded horses were burned, including his prize driving horse, Edna Cook, valued at \$5000. The fire was undoubtedly of incendiary origin. The insurance, it is thought, will almost cover the loss.

CARPENTERS' WAGES INCREASED

The builders and contractors of Hagerstown have advanced the wages of all grades of carpenters twenty-five cents a day for ten hours, beginning May 1. The union asked for twenty-five cents an hour for a nine hour day. The builders think the carpenters will accept their proposition if they are generous of working.

BARN BURNED

A barn on the farm of William Wood, near Rocky Ridge, was destroyed by fire Monday evening about 8 o'clock, with all its contents. Two horses and two cows were burned to death. The origin of the fire is unknown.

CAPT. JONATHAN B. BENNETT, POSTMASTER OF SHARPTON, IS DEAD

Capt. Jonathan B. Bennett, postmaster of Sharpton, is dead, at the age of 76 years. He served as postmaster during Harrison's Administration; was appointed again during McKinley's administration, served four years and was reappointed last year for the third term.

THERE WILL BE 112 SALOONS IN WASHINGTON COUNTY

There will be 112 saloons in Washington county after May 1, six less than last year. Of this number 59 are located in Hagerstown and 53 in the county towns. There will be three fewer saloons in Hagerstown. The time for filing applications for liquor license expired April 15, and several applicants were to late.

THE NATIONAL GEOGRAPHIC ASSOCIATION OF WASHINGTON WILL VISIT ANNAPOLIS

The National Geographic Association of Washington will visit Annapolis on May 9. The Association numbers about 400 members, and they will inspect the Naval Academy and view the historic houses and sites of Annapolis.

HAD A NARROW ESCAPE.

Thrilling Experience of Two Men in Fishing Creek.
Mr. George L. Kaufman, inspector of rural mail delivery routes, and Rural Carrier Bishop, of Walkersville, had a thrilling experience and a very narrow escape from being drowned in Fishing creek Thursday. The two men, who were in a buggy, attempted to ford the creek at a point near Devilbiss' bridge.

FIGHT IN A STORE.

Charles Dungan, Who Was Shot Three Times, Is In A Precarious Condition
Charles Moody, residing at Bloomington, was taken to Oakland Monday morning by Sheriff Moffitt and placed in the Garrett county jail on the alleged charge of having committed an assault with intent to kill Charles Dungan, of the same place, on Saturday evening, April 18.

WHIRLED AROUND A SHAFT.

Remarkable Escape from Instant Death.—Clothing Torn From His Body
Charles W. Crouse was badly injured at George R. Julius's planing mill in Littlestown last Friday morning. While putting a belt over a pulley his coat sleeve caught at either the belt or shaft. He called to the engineer, David G. Staley, who fortunately was at the engine and turned off the power.

GUARDING GRAVE.

Sentinel Watches the Eternal Place of Rev. Morgan Smith
The grave of the late Rev. S. Morgan Smith, the water wheel inventor and manufacturer of York Pa., is being closely guarded every hour of the day and night by a lone sentinel, who has reared a wedge tent at the grave side.

FOUND DEAD.

John Coss, of Beard's Church, Washington county, was found dead in bed Sunday morning. He had retired Saturday evening in his usual health, only feeling tired from his day's labor, and died about 1.30 o'clock. He was found by his wife who attempted to awaken him. He was born and raised in the immediate vicinity, following the trade of shoemaker for a livelihood.

A WAGON AFIRE

Samuel O'Neal, of near Flintstone, had an exciting experience Tuesday while driving near Cumberland. He was recently married, and, with Felix Hines, was taking home a wagon load of furniture. He had a can of coal oil in the wagon, which spilled out over the straw. In lighting a cigar O'Neal set fire to the straw and the coal oil exploded.

PERSONALS.

Mr. and Mrs. Frank P. Toppers spent a few days in McSherrystown, this week. Mr. Norman Z. Hoke went to Baltimore Tuesday. He has secured a position in an express office in that city.

LITTLE BOYS IN PERIL.

Swopt Over A Mill Dam With A Capsized Boat.
Two sons of John J. Charles, aged 5 and 9 years, respectively, made a narrow escape from drowning in the Conococheague creek, near Cedar Glen Mills, in Washington county. A skiff in which they were crossing the stream overturned. They went over the mill dam, 16 feet high. The younger boy was knocked unconscious. His brother, with one hand, held on to the boat and with the other kept his little brother from sinking until they were rescued by George Lewis.

SILK MILL TO BE ERCTED.

If the bill of trade of Littlestown raises \$25,000, the Monarch Silk Company will locate a \$60,000 silk mill in that town. The mill will employ 100 hands. Sydney H. Souter, vice president of the silk company, has conferred with the members of the board of trade, and capital is being interested. Among the Littlestown business men who favor the project are: W. R. Robinson, Dr. C. P. Gettler, George S. Kump, Hon. C. H. Dutera and S. D. Melring.

BIDS FOR CONSTRUCTION OF AN EPILEPTIC WARD AT SPRINGFIELD INSANE ASYLUM

Plans were above the appropriation, which may necessitate the preparation of new plans.
Bids for construction of an epileptic ward at Springfield Insane Asylum were above the appropriation, which may necessitate the preparation of new plans.

PEN-MAR SILVER ANNIVERSARY

The coming season will be the silver anniversary year of Pen Mar Park, that resort having been opened in 1878 and the Western Maryland Railroad Company will endeavor to make it the most attractive in the history of the park.

ASK YOUR DEALER FOR ALLEN'S FOOT-POWDER

A powder for the feet. It cures Swollen, Sore, Hot, Chapped, Aching, Sweating Feet, Corns and Bunions. At all Drugists and Shoe Stores. 25c. Ask for 457.

HIDDEN HORSE HEADS.

Five of Them Were Found Under the Floor Of The Old Kohler Homestead
Eugene Lawrence, of Irishtown, contractor, and W. O. Kohler were demolishing the old Kohler homestead at Myers' Mill, in Mountpleasant Township, Pa., last week when they were astonished beyond measure by an unexpected discovery.

FLLOATING IN THE HARBOR.

The body of an unknown white man was found floating in the water at the foot of Covington street, Baltimore, just off the garbage plant, shortly after 10 o'clock Tuesday morning by Mr. Morris Lyons, 507 Hughes street. It was sent to the morgue in the Southern district patrol. The man was evidently between 35 and 40 years of age, 5 feet 10 inches tall, weighed about 170 pounds, had dark hair and mustache, wore blue coat and vest, dark striped trousers and white shirt.

ORDINATIONS AT MT. ST. MARY'S.

The right Rev. Bishop Curtis, assisted by the Rev. Drs. O'Hara, McSweeney and Eaton, conferred subdiaconate in Mt. St. Mary's College Chapel on April 3, on James H. Gilmore, Pittsburg, Pa.; James J. Kearney, Brooklyn, N. Y.; Edward F. X. Curran, Philadelphia, Pa.; Edward M. Shea, Mobile, Ala.; and James J. Redican, Boston, Mass. The following day they received diaconate. The two latter are graduates of Georgetown University and Boston College respectively. The three former are graduates of Mt. St. Mary's College and have been at that historic institution for the past nine years.

WANTED

We would like to ask, through the columns of your paper, if there is any person who has used Green's August Flower for the cure of Indigestion, Dyspepsia, and Liver Troubles that has not been cured—and we also mean their results, such as sour stomach, fermentation of food, habitual costiveness, nervous dyspepsia, headaches, despondent feelings, sleeplessness—in fact, any trouble connected with the stomach or liver? This medicine has been sold for many years in all civilized countries, and we wish to correspond with you and send you one of our books free of cost. If you never tried August Flower, try a 25 cent bottle first. We have never known of its failing. If so, something more serious is the matter with you. The 25 cent size has just been introduced this year. Regular size 75 cents. At all drugists. G. G. Green, Woodbury, N. J.

STATE SENATOR LEWIS HAS NEW INSURANCE PLAN.

State Senator David J. Lewis, at a meeting of citizens at Loonacong, Md., to discuss insurance rates and devise means of relief from excessive premiums, said he had conceived a plan that will relieve the property owners of the excess premiums and enable them to procure insurance at a nominal cost. He will bring the matter before the Legislature in the shape of a bill which calls for a board of assessors to be appointed by the Governor, to be composed of representative business men of the county, who shall determine the value of property subject to fire and place a reasonable estimate on the risk. This will be placed in the hands of the proper officials, who will then add to the taxpayers who are property owners a certain amount to cover the amount of their insurance, and they will pay their insurance premiums as they pay their taxes. Those who do not pay will not be insured.

HELD UP AND ROBBED

Robert McDonald, of Barton, Alleghany county, was held up by three negroes in Connellsville, Pa., Monday night, and robbed of between \$14 and \$15, and a quantity of clothing. Before the robbery, the negroes beat their victim until he became unconscious; and after relieving him of his cash and clothing, placed his body on the Baltimore and Ohio track, in the path of an approaching freight train. The man on the engine of the freight witnessed the crime, and, as they neared the scene, stopped. They picked up the victim, Mr. McDonald had gone to Connellsville in search of employment. He started for the Baltimore and Ohio shops in company with the three negroes. At a lonely place he was struck on the head from behind, which rendered him unconscious. Two of the negroes, K. Amos and John Watts, of Connellsville, have been arrested.

DANGER OF COLDS AND GRIP

The greatest danger from colds and grip is their resulting in pneumonia. If reasonable care is used, however, and Chamberlain's Cough Remedy taken, all danger will be avoided. Among the tens of thousands who have used this remedy for these diseases we have yet to learn of a single case having resulted in pneumonia, which shows conclusively that it is a certain preventive of that disease. It will cure a cold or an attack of the grip in less time than any other treatment. It is pleasant and safe to take. For sale by T. E. Zimmerman.

MARRIED.

HUMBRICK—FLORENCE.—On April 22, 1903, at St. Joseph's Catholic Church, in this place, by Rev. J. McNeil, Mr. Edgar Humbrick to Miss Marie Florence, daughter of Mr. and Mrs. William Florence, all of this vicinity. The newly married couple will reside on Gettysburg street, in this place.

DIED.

TYSON.—On April 19, 1903 in Tennyson, D. C., Louis, son of Mr. and Mrs. Joseph W. Tyson, formerly of this place, aged about 2 years. The funeral services were held on Tuesday. Interment in Holy Rood Cemetery, Tennyson.

AGED MAN KILLED BY RUNAWAY

Frederick Miller, 96 years old, residing near Marburg, Pa., died Monday from injuries received in a runaway accident Sunday evening. He was visiting friends near Black Rock and was about to leave, when his horse became frightened at the tearing of the bridle and dashed the old man for a considerable distance.

CHILD TOSSED BY VICIOUS COW

The three-year-old daughter of William Thomas, who resides on Kildick Farm, the birthplace of Admiral Schley, near Harmony Grove, this county, was attacked by a vicious cow, one day last week and painfully injured. The child was caught on a horn of the cow and tossed a distance of nearly twenty feet. The little girl was in the barnyard, when attacked by the animal. One of the animal's horns entered the child's mouth, and, running along the right jaw, penetrated her cheek below the right eye. With the horn the cow tossed the child high in the air before her parents could rescue her. Besides the hole bored in the cheek by the cow's horn, the child's mouth was badly torn. Dr. T. E. R. Miller, of Lewis-town, was summoned and dressed her injuries. She is now doing very well, but will be permanently disfigured.

COBLENZ—PORTIUS

Christ Reformed Church, at Middletown was the scene of a pretty wedding at noon Wednesday, when Oscar Bechtel Coblenz, principal of the Middletown High School, and Miss Margaret Portius, daughter of the groom, John W. Portius, pastor of the church in which the wedding occurred, were united in marriage. The ceremony was performed by the father of the bride, the ring service being used. The bride was given away by Prof. H. A. Portius, president of the Woman's College, Frederick, who is an uncle of the bride. Andrew H. Krug, of Baltimore, was best man. The bridesmaids were Miss Catherine Portius, sister of the bride, and Miss Bechtel Coblenz, sister of the groom. Ruth Coblenz, little niece of the groom, was flower girl. The bride was attired in white silk, with veil of tulle, caught up with lilies-of-the-valley, and carried an ivory-bound copy of the wedding ceremony.

SEVERE ATTACK OF GRIP

When I had an attack of the grip last winter (the second one) I actually cured myself with one bottle of Chamberlain's Cough Remedy," says Frau W. Perry, Editor of the Enterprise, Shortville, N. Y. "This is the honest truth. I at times kept from coughing myself to pieces by taking a teaspoonful of this remedy, and when the coughing spell would come on at night I would take a dose and it seemed this in the briefest interval the cough would pass off and I would go to sleep peacefully free from cough and its accompanying pains. To say that the remedy acted as a most agreeable surprise is putting it mildly. I had no idea that it would or could knock out the grip simply because I had never tried it for such a purpose, but it did, and it seemed with the second attack of coughing the remedy caused it to not only be of less duration, but the pains were far less severe, and I had not used the contents of one bottle before Mr. Grid had bid me adieu." For sale by T. E. Zimmerman.

For Infants and Children. The Kind You Have Always Bought Bears the Signature of

AUTOMATIC RAILWAY SIGNAL.

Electrical Invention of a Young Colored Man of Frederick.
The electric railway signal invented by John Johnson, a colored youth employed by Mr. James Houck, in Frederick county, is attracting the attention of railway men. The inventor has received an invitation to go to Altoona, Pa., at the expense of the Pennsylvania Railway, and there give a demonstration with his apparatus. He has not yet decided whether he will accept the invitation or not. He is fearful of disclosing the details of his invention too freely, apprehending that some unfair advantage may be taken of him. His invention is designed to make it possible to exchange signals between locomotives while running on the same track and thus prevent collisions.

GEORGE J. SHIELDS.

Formerly of This County—He is the Candidate for City Treasurer of Oklahoma City.
There is no more popular man in Oklahoma City than George J. Shields, the democratic candidate for city treasurer. Mr. Shields is a Marylander by birth, having been born in historic old Frederick City in 1838. He received his education there in the public schools and in a private school in Emmitsburg, during the civil war he fought in the 15th Pennsylvania cavalry. After the war he went west, settling first in Illinois, then removing to Missouri, and after a short residence there, going still further west to Texas, where he remained twenty years. During most of that time he was in the stock business in Shackelford county, where he also acted for a number of years as government contractor for forage. Mr. Shields went to Oklahoma City at the opening, and took up a farm north of the city. Shortly after his arrival he entered the real estate business, in which he has continued since then.

FOUND DEAD.

John Coss, of Beard's Church, Washington county, was found dead in bed Sunday morning. He had retired Saturday evening in his usual health, only feeling tired from his day's labor, and died about 1.30 o'clock. He was found by his wife who attempted to awaken him. He was born and raised in the immediate vicinity, following the trade of shoemaker for a livelihood. He was 67 years of age and is survived by a widow and one son, Oscar Coss, of Polo, Ill., and one daughter, Mrs. Elmer Kesseling, of Williamsport; also two brothers—Samuel and George Coss—and two sisters—Mrs. Simon Swope and Mrs. Daniel Bachtel, of Chewsville.

A WAGON AFIRE

Samuel O'Neal, of near Flintstone, had an exciting experience Tuesday while driving near Cumberland. He was recently married, and, with Felix Hines, was taking home a wagon load of furniture. He had a can of coal oil in the wagon, which spilled out over the straw. In lighting a cigar O'Neal set fire to the straw and the coal oil exploded. The wagon and contents were soon a sheet of flame, and the men barely had time to unlatch the horses to keep them from being burned. Both men were burned. A few weeks ago Mr. O'Neal and his bride, with attendants, were washed down a swollen stream 100 yards.

PERSONALS.

Mr. and Mrs. Frank P. Toppers spent a few days in McSherrystown, this week. Mr. Norman Z. Hoke went to Baltimore Tuesday. He has secured a position in an express office in that city.

SEVERE ATTACK OF GRIP

SELECTING SEED CORN.

How to Examine Kernels and Determine Chemical Contents.

The method of making a chemical selection of ears of seed corn by a simple mechanical examination of the kernels is based upon the fact that the kernel of corn is not homogeneous in structure, but consists of several distinct and readily observable parts of markedly different chemical composition.

First.—The darker colored and rather hard and horny layer lying next to the hull, principally in the edges and toward the tip end of the kernel, where it is about three millimeters, or one-eighth of an inch, in thickness.

Second.—The white, starchy appearing part occupying the crown end of the kernel and usually also immediately surrounding the germ.

Third.—The germ itself, which occupies the central part of the kernel toward the tip end.

These different parts of the corn kernel can be readily recognized by merely dissecting a single kernel with a pocket-knife.

The horny layer, which usually constitutes about 25 per cent of the corn kernel, contains a large proportion of the total protein in the kernel.

The white, starchy part constitutes about 20 per cent of the whole kernel

and contains a small proportion of the total protein. The germ constitutes only about 10 per cent of the corn kernel, but while it is rich in protein it also contains more than 85 per cent of the total oil content of the whole kernel, the remainder of the oil being distributed in all of the other parts.

By keeping in mind that the horny layer is large in proportion and also quite rich in protein and that the germ, although rather small in proportion, is very rich in protein, so that these two parts contain a very large proportion of the total protein in the corn kernel, it will be readily seen that by selecting ears whose kernels contain more than the average proportion of germ and horny layer we are really selecting ears which are above the average in their protein content.

As more than 85 per cent of the oil in the kernel is contained in the germ, it follows that ears of corn are relatively high or low in their oil content according as their kernels have a larger or smaller proportion of germ.

If we are selecting corn for low protein content, we look for a larger proportion of white starch surrounding the germ.

Our results have shown that the white starch in this position—that is, surrounding the germ toward the tip end of the kernel—is a better index of the protein content than the starch in the crown end.

If we are selecting seed ears for high oil content, we save those ears whose kernels show a large proportion of firm and solid germ, while if seed of low oil content is desired we look for a small proportion of germ in the kernel.

It should be emphasized that it is not the absolute, but proportionate, size or quantity of germ or of white starch which serves as a guide in making these selections.—C. G. Hopkins, University of Illinois.

CASTORIA. The Kind You Have Always Bought. Signature of Chas. H. Fletcher.

AN ALL AROUND LOG SLED.

It Is Used in Lumber Camps Either With or Without Snow.

I have been getting out some lumber, and as there was little snow I have used the sled shown herewith, says an Orange Judd Farmer correspondent. It is called a snappdragon and is such as is used in the lumber camp. It can be used with or without snow. I took two yellow birch stumps about six inches through and three feet long for runners. The two bunks were about the same size and 2 feet 8 inches long. The forward bunk is put on with one bolt in each end, so it can have a good chance to work.

For the middle bunk I put two, thin iron holes through each runner, then

FOR DRAWING LOGS IN WOODS.

took a small, round birch of the size wanted, heated it hot in a fire and bent it in the shape needed to put over the middle bunk and the two ends down through the runner, then wedged them solid, but so they would be plenty of play. The nose of the runners must be made so they will not catch on every rock or stump. This can be done by putting the forward bunk at the very end of the runner. The chain is put on the log with a half hitch and drawn through a hole through both bunks. Birch is the best wood, as it wears the smoothest on frozen ground.

Early Tomatoes.

One of the southern experiment stations has made trials with tomatoes grown on plants that were started in hotbed or greenhouse and transplanted compared with those grown on plants started directly from seed in the field. The latter came out earlier in earliness. I hope my friends will not be misled into the belief that such is the rule. Much of the outcome of course depends on the management of the plants started under glass. For my part I cannot get ripe tomatoes in July or even in August unless I start plants of early varieties along in February, transplant them once or twice and give them plenty of room to make them grow stout and stocky, so that they can be transplanted without checking growth.

But if you start the seedlings in hotbed or cold frame in April and make them sprouting by inordinate crowding and then set them out in May or early June, with little root and tall, limp stalks where it will take them several weeks to recover from the shock and begin growth anew, the plants grown from seed sown in open ground in May might give ripe tomatoes in advance of the others. If we grow the Earliana and probably Nolte's Earliest and Maule's Early and other first early sorts that make comparatively little vine or foliage, we should bear in mind that they need very fertile soil and more nitrogenous food than the later sorts, which are apt to run largely to vine anyway.

Don't be afraid to use plenty of good old manure in the soil where you plant Earliana and others of that class. It is the only way to get foliage enough to make large, smooth fruit.—T. Greiner (Ohio) in Farm and Fireside.

By keeping in mind that the horny layer is large in proportion and also quite rich in protein and that the germ, although rather small in proportion, is very rich in protein, so that these two parts contain a very large proportion of the total protein in the corn kernel, it will be readily seen that by selecting ears whose kernels contain more than the average proportion of germ and horny layer we are really selecting ears which are above the average in their protein content.

As more than 85 per cent of the oil in the kernel is contained in the germ, it follows that ears of corn are relatively high or low in their oil content according as their kernels have a larger or smaller proportion of germ.

If we are selecting corn for low protein content, we look for a larger proportion of white starch surrounding the germ.

If we are selecting seed ears for high oil content, we save those ears whose kernels show a large proportion of firm and solid germ, while if seed of low oil content is desired we look for a small proportion of germ in the kernel.

It should be emphasized that it is not the absolute, but proportionate, size or quantity of germ or of white starch which serves as a guide in making these selections.—C. G. Hopkins, University of Illinois.

LIFE AT WEST POINT.

An Example of How the Cadets Are Made to Economize.

The cadets at the Military academy at West Point are not favored as are often the students in colleges and universities who have wealthy parents—that is, they are not furnished with an unlimited amount of cash to buy "extras" for rooms, clothes and luxuries. All the cadets stand on the same footing and receive \$500 a year, plus the commutation of rations amounting to \$100.50 a year. However, with proper economy this yearly allowance is sufficient for the support of a cadet.

The army cadet who goes to the Military academy with spendthrift habits soon receives a decided and severe check. As an instance, a cadet some time ago went to the superintendent for an order for four shirts, but the superintendent peremptorily refused to give his approval. The young man was sorely in need, and he attempted to convince his superior of the fact. The latter took up the cadet's account book and perusing it a couple of moments threw it back to him, saying, "I have no doubt you are in great need of these shirts or you would not present this order, but you are in debt, and there's no excuse for you." The young cadet, with tears starting in his eyes and a trembling voice, responded, "But, colonel, I am almost destitute of changes of clothing. I have only one shirt to my back, and that is a fatigue jacket." The colonel was immovable and simply said as he dismissed the cadet from his presence, "Well, Mr. —, I would advise you to wear that fatigue jacket until you get out of debt, but be careful that you can pass muster at the inspection."—New York Tribune.

"Give Him the Sack."

Two noblemen in the reign of Maximilian II.—one a German, the other a Spaniard—who had each rendered a great service to the emperor, asked the hand of his daughter in marriage. Maximilian said that, as he esteemed them both alike, it was impossible to choose between them, and therefore their own prowess must decide it; but, being unwilling to risk the loss of either by engaging them in deadly combat, he ordered a large sack brought and declared that he who should put his rival into it should have his fair Helena. And this whimsical combat was actually performed in the presence of the imperial court and lasted an hour. The unhappy Spanish nobleman was first overcome, and the German succeeded in enveloping him in the sack, took him upon his back and laid him at the emperor's feet. This comical combat is said to be the origin of the phrase "Give him the sack," so common in the literature of courting.

A Soldier's Strange Death.

I find the following singular incident in the old Atlanta Intelligencer: "After the fight near Drewry's bluff on Monday last a surgeon who was searching the field for the wounded, that he might administer to their needs, observed a man in a kneeling position, with his gun to his shoulder pointed to the front, his left eye closed and having all the appearance of life. Upon examination he was found to be dead, a ball having passed through his brain at the moment when, resting on his left knee, he had taken sight at the foe. It is very remarkable that, so rigid was the corpse, some force was required to remove the gun from his grasp. He proved to be a member of the Twenty-ninth Virginia regiment of infantry."—Atlanta Constitution.

Strenuous Society Life.

Dorothy—Six inches in one week! Did your gowns hold out? Isabel—Yes, indeed. But I hadn't any conversation for the last two days.—Luck.

In the course of a century an acre of constantly cultivated land loses no less than 12,000 pounds of alkalis.

Nasal CATARRH

In all its stages there should be cleanliness. Ely's Cream Balm cleanses, soothes and heals the diseased membrane. Restores catarrh and relieves away a cold in the head quickly. Cream Balm is placed into the nostrils, spreads over the membrane and is absorbed. Relief is immediate and a cure follows. It is not drying—does not produce sneezing. Large Size, 50 cents at Drug stores or by mail; Trial Size, 10 cents by mail. ELY BROTHERS, 56 Warren Street, New York.

One Minute Cough Cure For Coughs, Colds and Croup.

Eugene Field's Views on Ambition and Dyspepsia. "Dyspepsia," wrote Eugene Field, "often incapacitates a man for endeavor and sometimes extinguishes the fire of ambition." Thoroughly great despite his complaint Field suffered from indigestion all his life. A weak, tired stomach can't digest your food. It needs rest. You can only rest it by the use of a preparation like Kodol, which relieves it of work by digesting your food. Rest soon restores it to its normal tone. Strengthening, Satisfying, Invigorating. Prepared only by E. C. DeWitt Co., Chicago. The 81c bottle contains 2 1/2 times the 50c. size. DIRECTORY FOR FREDERICK COUNTY. Circuit Court. Chief Judge—Hon. James McSherry. Associate Judges—Hon.
