

CASTORIA

The Kind You Have Always Bought, and which has been in use for over 30 years, has borne the signature of and has been made under his personal supervision since its infancy. Allow no one to deceive you in this. All Counterfeits, Imitations and "Just-as-good" are but experiments that trifle with and endanger the health of Infants and Children—Experience against Experiment.

What is CASTORIA

Castoria is a harmless substitute for Castor Oil, Paregoric, Drops and Soothing Syrups. It is Pleasant. It contains neither Opium, Morphine nor other Narcotic substance. Its age is its guarantee. It destroys Worms and allays Feverishness. It cures Diarrhoea and Wind Colic. It relieves Teething Troubles, cures Constipation and Flatulency. It assimilates the Food, regulates the Stomach and Bowels, giving healthy and natural sleep. The Children's Panacea—The Mother's Friend.

GENUINE CASTORIA ALWAYS

Bears the Signature of

LITTLE BARBADOS.

The Island Contains About the Proudest People on Earth.

None of the great nations of the earth is half so proud of itself as the little colony of Barbados, a mere speck in the Caribbean, which calls itself "the little England of the tropics."

Alone of all England's West Indian isles, Barbados has belonged to England ever since it was first colonized by white men. It has never been conquered by the enemy, as the others have been. This fact naturally gives the Barbadians a good conceit of themselves and indeed makes them just about the proudest people on earth.

When just before the Crimean war England was hesitating whether she should attack Russia the Barbadians sent this message to the cabinet:

"Go ahead. Don't be afraid. Barbados is behind you."

King George was offered an asylum for "little England" when Napoleon Bonaparte proposed to invade England.

"If you were driven from England," the Barbadians wrote, "come here. You will be safe with us to protect you."

When England was suffering her worst reverses in South Africa the Barbadians were not worried. They knew that if matters really reached a crisis "Barbados would go in and finish the business," as one of their newspapers seriously put it.

Nature's law being almost universal so far as the protection of the weak creature is concerned, it is not at all wonderful perhaps that the few formed insects into perfect counterparts of flowers, leaves, sticks, etc. Some of the "walking leaves," those which are natives of India, China and Japan in particular, are large, grotesque looking creatures, their resemblance being strikingly like a bundle of yellow twigs joined together with faded, macerated leaves. The limbs of this species of insect are long, slender and very twiglike, the coloring being suited to that particular species of vegetation upon which the deceptive mimicry subsists.

The "walking stick," like the walking leaf, is also very deceptive as far as looks go. The males have small, slender bodies, the legs or arms starting from it just as smaller limbs of a tree or weed start from larger ones.

The "walking thorn" of Java belongs to this curious order of insects, as do also the "devil's horse" and the mantis. The "walking thorn" looks exactly like the large compound spine of our common honey locust tree, even in color and general contour.

How Eyes Are Tested.

The theory of the optically perfect eye is that parallel rays of light entering it are brought to a focus on its retina. Any deviation from this condition constitutes an error of refraction and requires for its correction an artificial variation of the luminous rays. The generally adopted method of determining the refraction of the eye is to use test types placed at such a distance that the rays of light emanating from them may be regarded in practice as parallel, and the deviation from parallelism necessary to correct a refractive error is effected by placing a lens in front of the eye. There are many other methods of changing the course of luminous rays coming from a test object, and of these the single convex lens is the simplest and most often used in ophthalmology.

For a lazy liver try Chamberlain's Stomach and Liver Tablets.

They invigorate the liver, aid the digestion, regulate the bowels and prevent bilious attacks. For sale by T. E. Zimmerman, Druggist.

The stone was one from a common cherry, and upon it were carved the heads of 124 popes, kings, queens, emperors, saints, etc. Small as they must necessarily have been, it is announced on the authority of Professor Oliver that with a good glass the heads of the popes and kings could readily be distinguished from those of the queens and saints by their miters and crowns. The gentleman who brought this little wonder to England purchased it in Prussia, allowing the original owner \$5,000 for his treasure. Think of it—\$25,000 for a cherry seed!

A Spirit to Be Deplored.

Just where honorable industry ends and avaricious piling up of treasure begins no one can take it upon himself to say. The spirit, however, that impels a young man to sacrifice all the nobler aims of life in order to turn a liberal competence into wealth too great to be spent (and the giving away of which, unless carefully regulated, is a doubtful good) is certainly to be deplored.—Elliot Gregory in Century.

Bankrupt.

Solitor—You want to be made bankrupt, do you? Very well, I'll put it through for you. Just give me a check for \$100 on account of preliminary expenses.

Client—But I haven't got any money at all.

Solitor—Then why the dickens do you come to me? Hang it all, man, you are bankrupt!

A Universal Custom.

"Whenever I get an umbrella," said the prudent citizen, "I put my name on it."

"So do I," answered the man without a conscience. "The person who used it over it isn't so likely to identify it."—Washington Star.

The postal service is something that cannot be stamped out.—Philadelphia Bulletin.

Walking Leaves.

Nature's law being almost universal so far as the protection of the weak creature is concerned, it is not at all wonderful perhaps that the few formed insects into perfect counterparts of flowers, leaves, sticks, etc. Some of the "walking leaves," those which are natives of India, China and Japan in particular, are large, grotesque looking creatures, their resemblance being strikingly like a bundle of yellow twigs joined together with faded, macerated leaves. The limbs of this species of insect are long, slender and very twiglike, the coloring being suited to that particular species of vegetation upon which the deceptive mimicry subsists.

The "walking stick," like the walking leaf, is also very deceptive as far as looks go. The males have small, slender bodies, the legs or arms starting from it just as smaller limbs of a tree or weed start from larger ones.

AN IMPUDENT BEGGAR.

How Sir Walter Besant Was Cured of Prolificous Alms-giving.

It was one of the daily customs of Sir Walter Besant to take a walk through Hyde park, London. At the entrance to the park sat an old beggar woman whose woebegone appearance roused Sir Walter to stop one day and drop a copper penny into her outstretched hand. After a time it became a regular habit to speak a word or two to her when giving her the coin.

One day, however, the old woman handed him back the penny, saying: "Guv me siller or nawthink. The idea of a gent like you givin' a poor old woman like me a dirty penny! Guv me siller."

She came close to him and waved her arms threateningly. Sir Walter started to go, but she grabbed the lapel of his coat and screamed: "Guv me siller, you rascally rogue! Guv me what you owe me!"

This drew a crowd, and the novelist to save himself threw a handful of coin among them and during the scramble escaped.

He forgot all about the old hag till one day, chancing to enter the same gate again, he was aroused from a reverie by her shrill cackle. Pointing him out to the bystanders, she screamed: "That's 'im—the fine rogue in the long whiskers—the bloke in the 'igh 'at'!"

This was too much for the author. He broke away with extraordinary haste and thereafter was pretty thoroughly cured of prolificous alms-giving.

Watching a Spider at Work.

Watch a spider spin his web, and I shall be surprised if you ever kill a spider again. It takes him about an hour, somewhat less, for he is a marvellously quick worker, and there is something almost terrifying about the skill with which he works. There is his body, no larger than a match's head, yet, increased within that mere dot of nature, there is an intelligence which is able first to prospect the area for his web, then to plan it out like a geometrician and then to carry out his plan with workmanlike precision. Meanwhile, too, it must be remembered, he is not only doing his thinking and his weaving, but also spinning the material for it, all in that minute of a body. But perhaps the unaccountable feature of the whole thing is that the spider not merely has his plan clear in his head, but knows when he has made mistakes, and you can see him breaking off mislaid threads here and there, making taut slack lines and securing slaking connections.—Success.

An Inconvenient Piano.

Leopold de Meyer of Dresden, a brilliant and popular pianist of his day, was once summoned to play before the sultan at Constantinople. Going thither, he borrowed a grand piano from one of the Austrian secretaries of legation and had it set up in a large reception room at the palace. There he awaited the coming of the sultan, but when that intelligent monarch entered the room he started back in alarm and demanded of his attendants what that monster was standing there on three legs.

Explanations followed, but were in vain. The legs had to be taken off and the body of the instrument laid flat on the floor, and Leopold de Meyer, squatting cross legged on a mat, went through his programme as best he could in that awkward attitude and without pedals. But the commander of the faithful was delighted, and when the last piece was played gave the artist over \$5,000 as "backsheesh."

A Carved Cherry Stone.

Dr. Peter Oliver, who lived in England during the early part of the eighteenth century, tells of seeing a carved cherry stone which would be a wonder even in this age of fine tools and fine workmanship.

The stone was one from a common cherry, and upon it were carved the heads of 124 popes, kings, queens, emperors, saints, etc. Small as they must necessarily have been, it is announced on the authority of Professor Oliver that with a good glass the heads of the popes and kings could readily be distinguished from those of the queens and saints by their miters and crowns. The gentleman who brought this little wonder to England purchased it in Prussia, allowing the original owner \$5,000 for his treasure. Think of it—\$25,000 for a cherry seed!

A Spirit to Be Deplored.

Just where honorable industry ends and avaricious piling up of treasure begins no one can take it upon himself to say. TWO KINDS OF GRASS.

The Minister Finally Got the Source of His Text Correct.

At a certain revival meeting of colored folks in a church in North Carolina the minister announced from the pulpit: "My text is 'Let de woman here in silleence wid all subjection.' You will done fin' it in de secon' chapter, 'leventh vaise, ob Clover.' At this mention of an unknown episode a good brother plucked the coat tails of the minister. The latter turned round, and again faced the audience. "In spite of de interruption," he said, "I read de text 'an from de secon' chapter, 'leventh vaise, ob Clover.' Agala the coat tails were plucked, and the minister glared at the plucker, only to turn once more to the congregation. "Bredder Johnson," he said, "objects to de text 'Let woman here in silleence.' We all know dat Sister Johnson am not a silleent woman. But I done repeats dat de text 'will be found' in de secon' chapter, 'leventh vaise, ob Clover.' Here Brother Johnson rose to the minister's ear and whispered earnestly. "Oh," said the dominie. Then to the gaping people: "I asks Sister Johnson's pardon. Her husband says 'I made a mistake, he is dat triffin'. My text 'will not be found' in de secon' chapter, 'leventh vaise, ob Clover, but in de secon' chapter, 'leventh vaise, ob Timothy.' I knowed it was some kind ob grass."

Real Doctoring.

Doc Judson had never taken so much as a single course in medical study, but he was in greater demand than the regular practitioner of Crowville, who had a degree and a framed "diplomy" in his office.

"I'd rather trust to Bill Judson's doctoring than any that's learned out o' medicine books," said Old Lady Simons.

When pressed for a reason for this preference the old lady had one unflinching answer.

"When Doc was away one time I was took with rheumatism in my side, an' I had to let daughter Jane send for the diploma doctor. He give me medicines an' said the rheumatism would give way to 'em. It did give way leasle by leasle an' finally wore off, leaving me weak as a rag."

"Well, now, when I have one o' those spells an' Doc Judson 'tends me, he comes in, gives one look at me, mixes up a glass o' his herb stuff, an' in less'n twelve hours he has that rheumatism 'listin' all over me from head to feet, departing in a half dozen directions an' no chance for my mind to dwell on any one spot an' say, 'It's the wurst thar. That's what I call doctoring!'"

A Lawyer's Apology.

Some years ago there was an old judge on the bench in Berks county whose decisions, in consequence of an merous reversals, did not always command universal respect. One day in a case in which he was sitting one of the lawyers led patience at his inability to see things in a certain light and in the heat of the moment remarked that the intellect of the court was so dark a flash of lightning could not penetrate it. For this contempt the judge showed a disposition to be very severe with the offender, and it was only after much persuasion by friends of the latter that he yielded and decided to accept a public apology. The following day the lawyer, accordingly, appeared before his honor and made amends by saying:

"I regret very much that I said the intellect of the court was so dark lightning could not penetrate it. I guess it could. It is a very penetrating thing."—Philadelphia Ledger.

The Tools of the Egyptians.

The ancient Egyptians had tools for stone working equal to anything in use today. They used both solid and tubular drills and straight and circular saws. The drills were set with jewels, probably corundum, and even the tools had such cutting edges. So remarkable was the quality of the tubular drills, it is said, and the skill of the workmen that the cutting marks in the hard granite gave no indication of the wear of the tool, while a cut of a tenth part of an inch was made in the hardest rock at each revolution, and a hole through both the hardest and softest material was bored perfectly smooth and uniform throughout. Of the material and method of making the tools nothing is known.

Brony's Joke on His Publisher.

Brony once sent his friend John Murray a present of a Bible. It was placed on the bookshelf and left there for years untouched till at a dinner party the verification of a text being required, the Bible was referred to. A page had been turned down, and it was found that in the verse "Now, Barbabas was a robber" the word "publisher" had been substituted. The poor little pleasantries had lain hidden all those long years.

Politics In Epitaphs.

In a cemetery indefinitely located "on the Susquehanna river" there is a grave with this epitaph on the marble memorial slab: "Chas. Lewis, He Voted for Lincoln." A Baton Rouge (La.) gravestone bears this legend: "Here lies the body of David Jones. His last words were, 'I die a Christian and a Democrat!'"

Not What She Expected.

Clara (fishing for a compliment)—This is your fourth dance with me. Why don't you dance with some of the other girls?

Charlie—Well, the fact is I dance so badly I hate to ask them.

Do not fancy yourself a martyr of the first class solely because you have been badly bitten in a horse trade.—Dallas News.

NO STYLE ABOUT JACKSON

His Cook Was Called an Interpreter For French Diplomats.

"Although 'Old Hickory' was a blunt man in all matters of business and reached his purposes by the straightest road," said an old newspaper man, "still he was courteous in an eminent degree and had a high respect for the forms of social intercourse. While president of the United States his reception of foreign ministers and eminent citizens was distinguished by courtly etiquette and noble bearing. It is related that on one occasion a foreign minister just arrived had a day and an hour appointed by Mr. McLane, then secretary of state, to be presented to the president, and, misunderstanding the premier's French and perfectly at fault by the apparent simplicity of republican manners, the minister at the appointed time proceeded to the White House alone and rang the bell.

"Je suis venu voir M. le President," said the plenipotentiary to the Irish servant.

"An' what does that mean?" muttered Pat, and continued, "He says president, though, an' I s'pose he wishes to see the general."

"Oul, oul," said the minister, bowing.

Without further ceremony the gentleman was ushered into the green room, where the general sat, complacently smoking his cornob pipe, and on the instant he commenced a carousing harangue in French, of which "Old Hickory" did not understand one word.

"What does the man want, Patrick?" asked the general, without concealing his surprise at what he had witnessed.

"It's French that he's speakin' in, an' with your lave I'll find for the cook to find out what the gentleman wants."

In due time the presiding officer of the kitchen arrived, the mystery was explained, and, to the astonishment of the cook, the servant and the old general, an accredited minister from a foreign government was developed. Fortunately at the instant the secretary came in, a circumstantial introduction took place and all parties were soon at ease.—Washington Star.

Crushing an Actor.

A brother actor famous for his pomposity and his inordinate ambition was regaling Sir Henry Irving with a forecast of his plans for the future.

"I shall begin the season," he announced, "with such and such a part, and after that I shall appear as Hamlet."

"Em," drawled Irving. "As—eh—Hamlet, did you say?"

The other, incensed by the tone of the query, bridled up at once.

"Do you think, Sir Henry," he demanded indignantly, "that you are the only man who can play Hamlet?"

"Oh, no," rejoined Irving blandly, "but I am quite sure that you are the only man who can't."—Harper's Weekly.

The Clydesdale Horse.

The Clydesdale horse should walk at a swinging pace of not less than four miles an hour, and if he wants to trot he should move straight and close, with the points of the hoofs turned inward rather than outward. He should not be wide between the thighs nor should his fore legs be planted on the outside of his shoulders, causing him to walk like a bulldog.

The Wrong Man.

Visitor (to office boy)—Please ask the manager if he is too busy to see me.

Office Boy (a moment later)—Yes. He says he is too busy.

Visitor—Very well. Tell him that I will call again next year. I wanted to pay my subscription.

"I don't know what we're goin' to do about them two leadin' citizens," said Broncho Bob. "They're lookin' for one another with six shooters from mornin' till night!"

"Has an insult passed?"

"No; it wasn't any insult, but some doubt arises as to which was the oldest inhabitant, an' they're both determined to settle the question fur good an' all."—Washington Star.

Busy.

"Londley tells me he hasn't been so busy for years."

"Nonsense! That job he has is a cinch. He never has to work hard there."

"That's just it. He's been freed, and he's chasing around after another job now."—Exchange.

No man or woman in the state will hesitate to speak well of Chamberlain's Stomach and Liver Tablets after once trying them. They always produce a pleasant movement of the bowels, improve the appetite and strengthen the digestion. For sale by T. E. Zimmerman, Druggist.

The Belle.

"If Jack Nospud should ask you to marry him," simpered Mandie, calling up a blush, "what would you do?"

"What I have always done," said Mandie. "Send him to you."—Chicago Tribune.

Great Exercise.

"Is he fond of exercise?"

"Yes; he walks in his sleep."—Detroit Free Press.

Fire and sword are but slow enemies of destruction in comparison with the babber.—Sneece.

INVISIBLE LIGHT.

Only When It Strikes the Retina of the Eye Can It Be Seen.

What is the simplest demonstration of the fact that light is invisible? The blackness of a midnight sky demonstrates this fact most readily. We may see the planets of the moon brilliantly illuminated by the sun's rays, but the surrounding space is dark, although we know that light must be passing there.

The passage of a beam of light through a darkened room is only visible on the dust in the air, and the cone of light seen when the sun shines through a small hole in a shutter is not visible, but only light reflected from the notes in the beam. This can be easily and simply demonstrated by placing in the beam a glass vessel from which the dust has been carefully removed. The beam then may be seen before and after entering the vessel, but is invisible within. A Bunsen burner or a red-hot poker held so as to destroy the notes will also render the beam invisible at that spot.

Light is only visible when it strikes on the retina of the eye, and it can only do so when it reaches it in a direct line or is turned by a reflection or refraction into a direct line. Just as the bullets from a gun do a man no harm unless aimed or turned in their course toward his body, so light is without effect unless it is aimed or turned toward the retina.—Pearson's Weekly.

First Women on the English Stage.

It is only with the restoration drama that the annals of actresses on the English stage begin. Queen Henrietta Maria, wife of Charles I., had early made a vain attempt to introduce the French fashion of female players into her adopted country by the establishment of a French company composed only of women in London. But the experiment was premature, and the foreigners were hissed and pelted off the stage at their first performance.

AMERICA IS DOOMED.

Famous Yacht, First Cup Winner, To Be Broken Up

A calamity is about to befall the yachting world—the gallant old America, which won the America's cup in 1851, is to be broken up.

For more than half a century the brave old hulk has fought battles with the sea. She was built in 1851 by Governor Steers for John C. Stevens.

The America was sold to five men, two of which were members of Mr. Stevens' family, and they took her to England on a cruise.

A cup had been offered valued at \$500, for the winner of a race around the Isle of Wight, open to any vessel, of any rig, or any nation, without time allowance.

The America was sacrificed speed to secure the windward berth. When only three yachts remained between the Yankee boat and the lead the skipper eased the tiller and bore down upon the leader like a hawk.

Twenty minutes after the America won, the British yacht Aurora arrived at the stake boat and was awarded second prize.

After the race in 1851, the America was sold to an Englishman, and for several years was lost to public sight almost entirely.

George Steers, who modeled the America, was killed by a horse in 1853. The America is 83 feet long at the water line. She cost \$12,000.

One part of the America, says the Kansas City Star, was removed while the boat was in England before the civil war.

MYERS' CLOTHING STORE ROBBER

The clothing store of J. H. Myers, "My Tailor," North George street, York, was broken into by burglars at an early hour Friday morning and clothing taken to the amount of several hundred dollars.

The robbery was not discovered until Mr. Myers arrived to open for the day. The robbery was a bold one, as people pass the store at all hours of the night and the danger of being detected in removing the clothing by the front entrance was great.

Mr. Myers made a thorough inspection of his stock during the morning and reported to Chief Hise that 30 suits of men's clothes; 50 pair of men's trousers; and 15 suits of boy's clothes had been stolen.

A negro, believed to have been seeking revenge because the conductor of the car recently ejected him, discharged both barrels of a shotgun at the car as it past a lonely spot in the country.

The car was crowded, and the shots coming from the dark road-side, caused a wild flight among the passengers, most of whom were women. Four of the later were among the wounded. They received shots about the arms and chest.

The negro fired from a clump of bushes, and, in the excitement which ensued, made his escape.

Deafness Cannot be Cured. by local applications as they cannot reach the diseased portion of the ear.

There is only one rational way to treat deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

F. J. CHENEY & CO., Toledo, O.

Sold by Druggists, 75c. Hall's Family Pills are the best.

The American bridge company completed 27 bridges on the Uganda African Railway in 53 weeks. The British contractors had built 8 in two years previous.

Lightning struck the Presbyterian Church at Jonesville, O., killed A. H. Alexander and prostrated his daughter and the organist.

A statement prepared at the treasury shows that during the past fiscal year the total receipts of the government from all sources were \$538,887,526.

Alton Steedman and Peter Tyler, two aged men of Dennetts Mills, Pa., who had not spoken to each other since they quarreled at a dance years ago, became reconciled by an accident.

W. F. Corey, of Pittsburg, president of the Carnegie Steel Company, was made assistant to the United States Steel corporation.

The Evangelical Synod of the Lutheran Church of Missouri started a movement to unite all the Lutherans in the United States and Canada in one body.

TOT OF 10 ON 6,000-MILE TRIP.

All Alone A Little English Girl Is Traveling to Seattle.

New York, June 28.—Separated from her parents for four years, Dorothy Rice, 10 years old, from Hereford, England, came all alone on the Canard steamship Umbria, which arrived today from Liverpool.

Petted by the passengers on the trip over the ocean travel of her 6,000 mile journey was made pleasant for the little girl, and she showed no feeling of trepidation when she left the pier with a railway official to continue her tour.

Sewed tightly to her frock, a linen tag bore a legend informing all who read it that Dorothy was on her way to her father and mother in Seattle. A basket of fruit and dainties was placed in her hand before she left the ship.

Four years ago Dorothy's father started from England for the Klondike gold fields and Mrs. Rice accompanied him. They got as far as Seattle and was delayed, and the father, seeing a business opening, located in the Western city.

He prospered, and the little girl, who had been left with her grandmother in the English home, was sent for.

A Surgical Operation.

is always dangerous—do not submit to the surgeon's knife until you have tried DeWitt's Witch Hazel Salve. It will cure when everything fails—it has done that in thousands of cases.

The Butte (Mont.) Miners' Union is the strongest organization of its kind in the world. In a quarter of a century the union has never had a strike, has maintained a set scale of \$3.50 a day and has contributed in the neighborhood of \$50,000 to strikers in other sections.

A certain Cure for Chills. Shake into your shoes Allen's Foot-Ease, a powder. It cures Chills, Frostbites, Damp, Swelling, Swollen feet. At all druggists and shoe stores, 50c.

Robbers broke into a farmhouse two miles from Limestone, N. Y., on Saturday night and robbed Jas. and Patrick Quinton, who lived there alone, of \$4000.

The intruders set fire to a mass of rubbish in the yard, and when the brothers opened the door to run to the fire the robbers hit James on the head, knocking him unconscious. The other brother is a cripple.

The strong eat well, sleep well, look well. The weak don't. Hood's Sarsaparilla makes the weak strong.

FELL FIVE STORIES AND STILL ALIVE.

New York, June 30.—Lizzie Yungold, who is four-years-old, fell five stories Tuesday afternoon, and escaped with a slight bruise over the right eye, and within half an hour was on the street playing tag with other children.

How the child escaped being killed is a mystery. Shortly after 3 o'clock she went to the roof of the five-story tenement in which live her parents. She had her doll with her, and decided to take baby for a walk, and went to the roof of the house.

There the child sat down on the coping and was pointing out to "Baby" the objects in the yard below when she released her hold on the doll. Lizzie grabbed for her baby, lost her balance and fell.

The doll landed on a shed below, but Lizzie turned somersault after somersault in her decent, struck clothes lines on the third and second floors and landed on the head of Mrs. Rose Mittler, who occupies the ground floor of the house at 324 Delancey street. An ambulance was summoned from Gouverneur Hospital, but neither the child nor woman needed medical attention.

Foley's Kidney Cure makes kidneys and bladder right.

POTOMAC BRIDGES.

Taxpayers of Mineral county, West Virginia, have sued on an injunction to prevent the Commissioners of that county from increasing taxes 25 to 50 cents to pay the county's share of the expenses of building two bridges over the Potomac at Cumberland and West-ernport. This fact was made known at a joint meeting of the Mineral and Allegany County Commissioners by Attorney Fennell, of the former, who said the Mineral county authorities would have to rescind their action to help build the bridges, although at the meeting to be held Friday it might be decided to build one.

Both the present bridges have been condemned. The Allegany County Commissioners, as one party to the agreement, decided to accept the bids of the Riverside Bridge Company, Wheeling, W. Va., \$14,825 for the Cumberland bridge and \$17,900 for the West-ernport bridge.

Thirteen thousand miners in the Birmingham district quit work. The old contract expired and the new one has not been renewed. No extended strike is expected.

DIED AT THE AGE OF 104 YEARS.

Freeman Coulter, said to be the oldest man in West Virginia, died yesterday at his home, near Woodland Station, on the farm which his parents cut out of virgin forest nearly a century ago.

He was 104 years of age. He retained his faculties until a few months ago, reading without glasses, smoking habitually and working in the harvest field last summer. Fourteen children resulted from his two marriages, and his descendants number more than 200.

RECORD OF 40,000 WORDS HOURLY.

"A new invention related to rapid telegraphy is undergoing a practical test," writes Deputy Consul Mason at Berlin.

"The system is known as the Poffak-Virag rapid telegraph. It has been demonstrated that 40,000 words an hour can be transmitted under the most varying conditions. The imperial telegraph service has decided to introduce the system on the busy line between Berlin and Frankfurt.

A special writing machine, which is worked in the usual way, perforates a strip of paper which is drawn over a roller under metallic brushes with great rapidity. The interruptions of the current move the membranes of two telephones at the receiving station, which write the messages by means of a small mirror.

Three negroes were lynched in Georgia for the murder of a white man.

AN OLD ADAGE SAYS

"A light purse is a heavy curse" Sickness makes a light purse. The LIVER is the seat of nine tenths of all disease.

Tutt's Pills

go to the root of the whole matter, thoroughly, quickly safely and restore the action of the LIVER to normal condition.

Give tone to the system and solid flesh to the body. Take No Substitute.

TRUSTEE'S SALE.

By virtue of a decree of the Circuit Court for Frederick County, sitting as a Court of Equity, passed on the 6th day of April, 1903, in No. 7596 Equity, on the Equity decree of said Court, the undersigned, Trustee, named in the said decree, will sell at public sale at Hotel Spangler, in the Town of Emmitsburg, in Frederick County, Maryland,

On Saturday, the 25th day of July, 1903, at 2 o'clock P. M., the following described real estate, viz: All that valuable tract of Mountain land, situated about 1/2 mile North of Mt. St. Mary's College, in Frederick County, State of Maryland, near the Mountain road leading from said College to Emmitsburg, adjoining the lands of said Mt. St. Mary's College, N. C. Stansbury, Nicholas Baker, and others, containing

33 Acres Of Land,

more or less, and is the same land of which W. R. Sweeney, late of Frederick County, deceased, died, seized and possessed.

The said lot is well timbered with oak, chestnut and other valuable timbers, and convenient of access from public road. Terms of Sale prescribed by the Decree: One-half of the purchase money to be paid cash on the day of sale, or the ratification thereof by the Court, the residue in two equal payments, six and twelve months from day of sale, the purchaser or purchasers, giving his, her or their notes with approved security and bearing interest from day of sale, or all cash at the option of the purchaser or purchasers. All conveyancing at the expense of the purchaser.

VINCENT SEBOLD, July 24. Trustee.

ONE DOLLAR A YEAR IN ADVANCE

NOTICE.—All announcements of concerts, festivals, picnics, ice cream and cake festivals and similar enterprises, get up to make money, whether for churches, associations, or individuals, must be paid for at the rate of five cents for each line.

Entered as Second-Class Matter at the Emmitsburg Postoffice.

FRIDAY, JULY 3, 1903.

FREDERICK COUNTY 'PHONE 33

July is making up for the cool June weather.

The State Teachers Association met at Ocean City Monday.

To-morrow, the Fourth of July, will be quietly observed in this place.

To-morrow being a national holiday, THE CHRONICLE office will be closed.

The Gettysburg trolley line and electric light plant changed ownership this week.

For Sale Cheap.—2 good secondhand falling-top Eggys. Call at M. F. Shuff's.

Mr. Woodlaw Mason, of Montgomery county, was appointed to a clerkship in the War Department at \$840 a year.

Go to M. F. Shuff's for anything you need in the Furniture line. He will save you money.

An eagle, measuring 7 feet 2 inches from tip to tip of wing, was killed near Pen-Mar by Earl Rinehart.

Children's Day exercises will be held in the M. E. Church, in this place, on Sunday evening, July 5, at 7.30 o'clock.

The Episcopal Church at Brownsville, Washington county, has been improved on the interior and exterior and refurnished.

To-morrow, July 4, will be a complete holiday for the Rural Free Delivery carriers, and no mail will be delivered by the carriers on the 4th.

The new slate quarries at Hyattstown will be working to their full capacity in a few weeks. Machinery worth \$10,000 will be put in a few days.

Asa James, colored, said to be one of the oldest citizens of Montgomery county, was found dead in a stable near Forest Glen.

Rev. G. C. Harris, of Thurmont, pastor of the M. E. Church, will preach in the Old Hill Church, on Sunday, July 5, at 2.30 p. m.

A large number of candidates passed the mental and physical examinations recently held at the Naval Academy and are now midshipmen.

William Pickert, Baltimore, was instantly killed by being crushed under the wheels of an American Ice Company wagon of which he was driver.

Protracted cold on the Lungs is the prelude to Catarrh, Pneumonia, or Consumption. Victor Liver Syrup and Lung Syrup banish Colds, Coughs, Etc.

Misses Ruth Hoke and Sarah Miller have been appointed assistant teachers in Public Schools, in this place, by the Board of County School Commissioners.

Harry Smith, aged 15 years, while riding across the Western Maryland railroad tracks in Hagerstown on a bicycle, was struck by a train and badly bruised.

The berry crop in Washington county is very large and hundreds of crates of red and black raspberries are being shipped daily by express from Hagerstown.

Major Henry M. Warfield was elected colonel of the Fifth Regiment, Capt. John Hinkley was elected a major and Lieut. T. Rowland Thomas was elected captain of Company E.

Soon after midnight Wednesday morning the residence of James Brisco, in Laurel, was discovered to be on fire. It was saved by the town fire companies. The damage is covered by insurance.

The Hagerstown Metallic Bed Company has completed a large factory in the west end of the city, and have begun the manufacture of brass beds. The enterprise was started by local business men.

T. J. O'Neal, of Hanover, who is about to erect an electric power house in Littlestown, offered \$15 per thousand for brick but could secure none. This failure to secure material will delay operations.

It is reported that the remains of the woman who committed suicide in Gettysburg a few weeks ago, were exhumed and shipped to Rockville, Maryland, this week, but the identity of the suicide is still unknown.

Charles Shaffer, a miner, aged 24 years, son of Catherine Shaffer, of near Mount Savage, had his foot crushed off and his face horribly cut in attempting to board a moving freight train at Mount Savage Junction Monday afternoon.

The building of the Samuel Kirk & Sons Company, gold and silver smiths, 106 East Baltimore street, Baltimore, was burned out, the fire it is believed, having originated from gasoline, and the damage to the Kirk Company and adjoining firms being estimated at \$150,000.

Mrs. John Fear, near Friendsville, Garrett county, committed suicide Monday by drowning. She jumped into Bear creek, which was much swollen. Mrs. Fear suffered from insanity for several years and on previous occasions threatened to take her own life.

The Hagerstown Gas Company has awarded the contract to the Philadelphia United Gas and Improvement Company to put in new machinery by which the capacity of the works will be increased from 200,000 to 400,000 cubic feet per day.

Mr. and Mrs. William Houston, of Columbus, Ohio, passed through Hagerstown Saturday on a 2,000-mile tour in their automobile. They travel sometimes as many as 200 miles a day. They left for Gettysburg Battlefield and will visit Washington, Baltimore, New York and then travel homeward.

John Bradshaw, colored, 26 years old, 2223 Pennsylvania avenue, Baltimore, was fined \$51 and costs and sentenced to 30 days in jail by Justice Sauber, at the Northwestern Police Station, Baltimore, for assaulting and striking Mattie Docato, colored, 1906 Druid Hill avenue.

The exercises connected with the laying of the corner stone of the new Tom's Creek Church, which will be held on Saturday afternoon, July 11, at 2 o'clock, will be conducted by Rev. Dr. L. B. Wilson, presiding elder, assisted by Rev. W. L. Orem, formerly pastor of the church.

The heavy rains of the past few weeks has greatly delayed harvesting. Some of our farmers are cutting their grain with cradles, the ground being too wet to use the binders and reapers. Usually the wheat crop is generally stored away by the Fourth of July, but this year the Fourth will find much wheat uncut.

The Washington County Water Company's new reservoir at Edgemont is full. It contains 120,000,000 gallons. Ten million daily are pouring out of the spillway. The leak in the natural bank, which gave the contractors much concern, is subsiding. The reservoir, which was expected at first to cost \$80,000, will cost in the neighborhood of \$120,000.

CHURCH WITHOUT A PASTOR.

The Reformed Church, in this place, is now without a pastor. Rev. W. C. B. Shulenberger, who resigned a few weeks ago, preached his last sermon as pastor on Sunday morning last. Rev. Mr. Shulenberger and family will remain in this place for sometime.

PROF. KEFAUVER RESIGNS

Prof. Harry J. Kefauver, who has been principal of the Thurmont Public School for the past two years, has resigned to accept the position of vice-principal of the Frederick male High School. Claude Stottmeyer, a recent graduate of Franklin and Marshall College, has been chosen to succeed Prof. Kefauver at Thurmont.

Mrs. Bitner Hears From Her Missing Husband.

Mrs. Bitner, wife of W. O. Bitner, the missing express agent at Hagerstown, has received information that her husband was at Bedford, Pa. Her brother saw Bitner, who wore dark glasses and long hair and shabbily dressed. He was living at a hotel, her brother said, and was playing the stock market and winning. Mrs. Bitner will make no effort to see her husband. When her brother talked to Bitner the latter denied his name.—Sun.

BOY DROWNED IN PATUXENT

At Sandy Spring, Md., Roscoe Bellows, colored, 8 years old, son of Singleton Bellows lost his life in the Patuxent river Monday as a result of the high water. In company with several other boys he was engaged in catching debris as it passed under the iron bridge at Snells, when he lost his balance and fell in. The swollen stream carried him rapidly down, and though he was seen for some distance no help could be given him. His body was found some hours later lodged in a wire fence. The water was five feet deep in Haviland's mills Monday morning.

FATALLY HURT

John Davis, aged 35 years, chief dynamiter in the Western Maryland Railroad quarries at Pinesburg, Washington county, was struck by a freight train last Friday afternoon and so badly injured that he cannot recover.

Davis attempted to cross the tracks from the quarries to the shanty in which the dynamite is stored, and as he stepped from behind a box car the freight train, on another track, struck him. He was removed to the Y. M. C. A. Hospital in Hagerstown in an unconscious condition. Davis' home is at Marlow, Va.

TOOK BULL BY HORNS.

Hugh Thompson, of Upper Elk Neck, had a lively encounter with a bull on his farm during the past week.

Mr. Thompson was trying to drive the animal to his barnyard, when it made a plunge at him. In order to save himself from being gored he caught hold of its horns, when the bull gave a side toss that threw him foremost down a deep ravine. One rib, two fingers on the left hand and one on the right hand of Mr. Thompson were broken and his whole body badly bruised. It will be many weeks before he is himself again, but he considers himself lucky that he was not killed.

HOUSE HIT BY LIGHTNING.

During a severe storm Tuesday evening the residence of Henry Martin, between Williamsport and Half Way, was struck by lightning and badly damaged. The bolt descended upon the chimney, demolishing it, and following the spouting to the east end. From there the bolt passed into an upper room, which was nearly wrecked, and a large hole was torn in the floor. Passing outside, the bolt went through a barrel, tearing a large hole in it, letting the water run out. The family was stunned but no one was badly injured. The house was recently built. The storm damaged corn and potatoes in that section.

TOOK POISON AND DIED.

Mrs. Mary Beall, wife of Clinton G. Beall, of Easton, Md., committed suicide last Thursday night by taking poison. All efforts to trace the identity of the poison failed. The symptoms indicated opium poisoning.

She was alone in the house at the time and her condition was not discovered until the return of her husband at 8 o'clock P. M. Dr. Charles H. Ross, of Cordova, saw her at 9 o'clock, but the effect of the poison was too great to be overcome. It is supposed she took the fatal drug at 7 o'clock. About noon she had dressed her husband's three little children and sent them to a school picnic at Cordova.

Mrs. Beall was 29 years old. She was the daughter of Daniel Bennett, of Warrensburg, N. Y. She married Mr. Beall in February last and was his second wife.

A CAMP FOR CONSUMPTIVES.

A camp for the treatment of consumptive persons has been established at Mount Alto Park, in South Mountain not far from Pen-Mar, under the patronage of the State of Pennsylvania. It is in charge of Dr. J. T. Rothrock, State Forestry Commissioner. The Legislature appropriated \$8,000 for the purpose. A number of inexpensive cabins, furnished only with necessaries were built among the pines in the park and they were soon occupied. The patients live entirely out of doors, excepting at night. Every patient has improved and is gaining in weight, although the camp has been established but a few months.

The rule that the windows and doors must be kept open night and day, winter and summer, is rigid, and a man is employed to see that the rule is observed. Saturday the contract was awarded by the State to a Waynesboro firm for the erection inside of 45 days of six more cottages there as accommodations.

MADE HIS OWN COFFIN

Forty years ago Philip Atland, then a young man living in the village of New Salem, York county, Pa., constructed his own coffin. Monday morning Atland died at his home in the village, and was buried in the same coffin which had been waiting for him all these years. It is made of polished hardwood which he procured in Philadelphia and is of a pattern such as was in use during the Civil War. It is strangely unlike those used at the present day, being less ornamental. It shows the effects of time, though Atland frequently made repairs to it and repainted it. New Salem being at a distance from the railway, funerals have often been delayed because of difficulty in promptly securing coffins. Atland, who had at one time worked at the cabinetmaking trade, resolved to be provided for when death came.

Since the above was put in type it is reported that the desire of Mr. Atland was not carried out, and that he was buried in an elegant casket of modern design.

A JAIL DELIVERY

The Prisoners in Oakland Jail Take French Leave.

After making several attempts the prisoners confined in the Oakland jail succeeded in making their escape Monday evening at 6.30 o'clock. James Wilfong and John Covington, charged with horse stealing, and John Ours, charged with stealing a watch, were left in the corridor for exercise, and while the deputy sheriff and jailer were away for a short time they dug a hole through the brick wall into the Sheriff's bedroom, from which they made their way to the front door of the building and got away. It has become a common occurrence for prisoners to escape from this jail, as it is insecure and has been so reported a number of times by the grand jury.

PERSONALS.

Misses Ruth and Mary Molter have returned to their home in Frederick, after spending sometime with their grandparents, Mr. and Mrs. Henry Stokes.

Mr. William D. Colliflower, who had been clerking in Mr. I. S. Annan's store for a number of years, has gone to Baltimore, where he has a position with Messrs. Gilbert Brothers, as traveling salesman.

REAL ESTATE TRANSFERRED.

M. Celeste Welty and husband to James E. Welty, real estate in Emmitsburg, \$1,000.

Cameron F. Ohler and wife to John M. Stouter, 20 acres of land, \$150.

James D. Haines and wife to John M. Stouter, 28 acres of land, \$28.

Jacob Lanizer to J. Thomas Gelwicks, real estate in Emmitsburg district, \$375.

Cholera Infantum.

This has long been regarded as one of the most dangerous and fatal disease to which infants are subject. It can be cured, however, when properly treated. All that is necessary is to give Chamberlain's Colic, Cholera and Diarrhoea Remedy and castor oil, as directed with each bottle, and a cure is certain. For sale by T. E. Zimmerman, Druggist.

CARS GO INTO RIVER

At Beaver, fifty miles north of Cumberland Wednesday, on the Huntingdon and Broad Top Mountain railroad, a broken switch frog caused the engine and seventeen cars to pile up, a number rolling over the embankment into the river. Fireman John Davis was badly scalded and several other trainmen injured.

Last Saturday evening while John Knott and Charles N. Tippet, of Medleys Neck, St. Mary's county, were in the woods they were attacked by three bald eagles, one of which they killed with clubs. The dead bird measured 6 feet 7 inches from tip to tip.

SUICIDE REINTERRED.

Mysterious Woman Was Miss Catharine Gingell of Montgomery

Several weeks ago a woman committed suicide at Gettysburg, Pa. She was a stranger in that town and was known by those with whom she became acquainted as "Miss Catharine." Her remains were buried and the identity promised to remain unsolved. By a mere accident, however, it was discovered that she was Miss Catharine Gingell, daughter of the late James Gingell, who resided near Bealls Mill, Montgomery county.

Being a devout Catholic, Miss Gingell while at Gettysburg, became acquainted with the pastor of the church there, who officiated at her funeral. While on a visit to Washington a few days ago the priest happened to mention to Father Rosensteel, pastor of St. John's Catholic Church at Forest Glen, the circumstances of the death of the mysterious person. Father Rosensteel at once suspected her identity and communicated his suspicions to members of her family. Miss Maggie Sebastian, of Washington, a first cousin of Miss Gingell, left immediately for Gettysburg and had the body exhumed and found it to be that of her cousin. The remains were shipped to Rockville, where the funeral took place Wednesday morning.

It is stated that Miss Gingell's mind had been affected for some time, and that at frequent intervals she was mentally irresponsible. She was about 48 years old.—Baltimore Morning Herald.

NIECE SAVES AUNT'S LIFE.

Mrs. Annie Christine Robinson, 1116 Riverside avenue, Baltimore, was severely burned by gasoline at her home about 2.30 o'clock last Thursday afternoon, and only the presence of mind and courage displayed by her niece, Mrs. Marie Durm, saved her from death. Mrs. Robinson was badly burned on the arms and back, but not dangerously, owing to the rapidity with which Mrs. Durm stripped the ignited clothes and shoes from her.

Mrs. Robinson attempted to fill a gasolene stove in a small shed in her back yard. The fire was extinguished, but the stove was still hot enough to cause the volatile liquid to flash. Mrs. Robinson ran out into the yard away from the blaze unscathed, but Mr. George King, who lives at the house, meaning to extinguish the fire, threw out the stove, which struck the ground near where Mrs. Robinson stood, and the blazing vapor ignited her dress.

Her niece heard one of the neighbors cry out, and rushing down, pluckily tore off the blazing garments, burning her right hand severely.

EGGS FOR ACTORS.

The members of Steton's "Uncle Tom's Cabin" Company, which give a performance at Easton, Tuesday evening, met with a warm reception after the show.

There were rumors afloat all day that a number of the young men of the town were going to prevent the company from giving the show, but nothing was thought of the threats. Tuesday night after the conclusion of the performance, when a number of the company were on their way to the train, they were met with a shower of eggs. The company made an appeal to an officer nearby for protection, and also for the arrest of the guilty parties, but in the search not a person could be found who knew anything about the throwing of the eggs.

DEATH OF MRS. JULIA A. WILSON

Mrs. Julia A. Wilson, widow of the late Charles B. Wilson, died at her residence, in this place, on last Saturday, in her 70th year. She underwent treatment for several weeks at St. Agnes' Hospital, Baltimore, having returned home on Wednesday. Mrs. Wilson, before marriage, was a Miss Welty. She is survived by the following children: Charles and Lawrence Wilson, of Altoona, Pa.; Mrs. Mollie Steffy, of New Oxford, Pa.; Mrs. Adolphus Harner, Mrs. Maggie J. Mitchell, Mrs. William Spaulding, of this place, and Walter D. Wilson, of Hagerstown.

Three deaths have occurred in the house in which Mrs. Wilson died in less than one year.

The funeral services were held at St. Joseph's Catholic church on Tuesday morning, and the interment was made in the cemetery at Mt. St. Mary's College.

The Foundation of Health.

Nourishment is the foundation of health—life—strength. Kodol Dyspepsia Cure is the one great medicine that enables the stomach and digestive organs to digest, assimilate and transform all foods into the kind of blood that Kodol lays the foundation for health. Nature does the rest. Indigestion, Dyspepsia, and all disorders of the stomach and digestive organs are cured by the use of Kodol. Sold by T. E. Zimmerman, Druggist.

Fight With a Copperhead.

Harry Richardson had a thrilling experience with a copperhead snake while picking berries along the mountain, near Cavetown. The snake wrapped itself around his leg and bit him before he discovered it. William Witmer, the snake catcher, who was with Richardson, captured the snake and took it home after curing Richardson. The poison apparently did not take any effect after Witmer used his antidote.

Two Suits For Damages

Jacob D. Eovey, a farmer of Washington county, has filed two suits in court at Hagerstown against George Wassen, a neighbor, one for trespasses for \$400 damages, and one for \$3000 for assault. Eovey alleges that the defendant beat and ill-treated him on his farm, and that Wassen's cattle got into his pasture fields, destroying his wheat and rye.

TWO HEROES IN JUMPERS.

Engineer Pinned Under Locomotive For Nearly Half An Hour.

Far nearly half an hour Engineer J. T. A. Stroup lay pinned to the ground under the hand railing and the foot-board of his locomotive, which had turned over on its side, between Avalon and Relay stations, on the Baltimore and Ohio railroad, about 2.30 o'clock Thursday morning June 25, while the wheels during part of the time revolved rapidly in the unresisting air, jar of each turn causing him intense pain. Yet, notwithstanding his desperate position, suffering agony and menaced by the danger of being scalded, he neither lost his presence of mind nor forgot that unless warning was sent other lives might be placed in jeopardy and property damaged. He sent Fireman William C. T. Truitt ahead in the darkness of the night with a red lantern and waited patiently to be extricated, although the delay must have seemed an eternity.

Scarcely less commendable than the action of the engineer was the determination of Fireman Truitt, who performed prodigies of labor digging the engineer from under the locomotive with a pick used to loosen the coal in the tender. Forced to jump for his life, he had sprained an ankle when he fell, and just could hobble about. He had no shovel to clear away the dirt, which dug from under the engineer. Going down on his knees, he scraped away the earth with his bare hands until they were sore from the friction. After about 15 minutes of almost superhuman effort he had the satisfaction of being able to pull the engineer out.

The accident was caused, according to Engineer Stroup, by the breaking of an axle, but according to the fireman by a broken rail. The engine which was No. 1795, left Camden Station, Baltimore, at 2.15 o'clock, with the first freight train bound for Brunswick, Md. About halfway between the Relay and Avalon stations the accident occurred. The engine ran only about 10 feet farther before leaving the rails and toppled over on its side to the right of the road. The train had not yet reached its full speed after the stop at Relay and was going at the rate of about 15 miles an hour. Engineer Stroup had not even time to shut off the throttle, when he was hurled out of the cab window and up a steep embankment, only to roll back underneath the engine as it turned over. The boiler and its connections remained intact, and so steam escaped, and the wheels continued to spin around with increased speed.

The fireman was on the footboard when the crash came. He ran to the end of it and jumped far out, clearing the other track and rolling down a steep embankment. When he was able to pull himself together he looked into the cab for the brakeman, but this functionary was nowhere to be seen, and he then went to the front of the engine, where he found the engineer, whom he seized in his arms and tried to pull out from the engine, but without success. He then took his red lantern and went forward to warn any oncoming train and finding the brakeman on watch, returned and extricated the engineer.

The conductor at once went back to the Relay for help, but the engineer had been rescued when assistance arrived and both he and the fireman were sent to Baltimore by the next train and taken to their respective homes.—Sun.

Catarrh of the Stomach.

When the stomach is overloaded; when food is taken into it that fails to digest, it decays and inflames the mucous membrane, exposing the nerves, and causes the glands to secrete mucus, instead of the natural juices of digestion. This is called Catarrh of the Stomach. For years I suffered with Catarrh of the Stomach, caused by indigestion. Doctors and medicines failed to benefit me, until I used Kodol Dyspepsia Cure.—J. R. Rhea, Coppell, Tex. Sold by T. E. Zimmerman, Druggist.

MANY BRIDGES GONE

The county commissioners met Wednesday morning to take steps to repair the damage done to bridges and roads during the recent flood. About 9 large bridges have been reported as swept away by the flood and several small ones. The greatest damage was done along Ligonore creek, there being four bridges, 2 of which were iron ones, washed away. On Bennett's creek there were two bridges destroyed and 3 on Bush creek. The commissioners Wednesday afternoon went to measure the site of the Ligonore Hills Inn bridge near the mouth of Ligonore creek. They will be kept busy for the remainder of the week inspecting the sites of the bridges.

Y M C A MUST MOVE

A sensation was caused in Frostburg when the mayor and council Tuesday morning, at 5.15 o'clock, began to tear away two rooms occupied by the Frostburg Y. M. C. A. When the general secretary arrived to begin his daily duties, he was surprised to find the furniture removed and the rooms demolished.

Sixty days ago the Y. M. C. A. got out an injunction restraining the owners of the old Payne property adjoining from tearing down the building, one of the oldest in Frostburg, as it would weaken the walls of the Y. M. C. A. building. The Mayor and council acted as they did, because certain citizens petitioned that the rooms, which overhung the alley, be removed. The Y. M. C. A. will have to seek new quarters.

Wash day. Mother scalds her hands Baby plays with fire and gets burned. What a time. There is where Victor Liniment is needed. Excellent for Scalds and Burns.

Murder And Suicide.

John Claar, a farmer, aged 65, suddenly became insane at Baker's Summit, Pa., a few miles above Cumberland, Sunday stabbed his wife four times in the region of the heart. She will die. He tried to kill his son with an ax, but the boy wrested the weapon from him. Claar escaped to the mountains and hanged himself to a tree with a bed cord. Mrs. Claar is 72 years old.

HEAVY RAIN STORM.

Great Damage Reported From Different Sections of the County.

The rain storm of last Saturday night, Sunday and Sunday night, was the heaviest in a number of years in this section of the country. The rain fell in torrents, rapidly raising the creeks and streams to an unusual height. Some say it was the heaviest rain since the memorable flood of 1889.

It is reported the first floors of a number of houses along the creeks in the mountain west of town were flooded with water, and the occupants were compelled to seek refuge on the second floor. At some points horses stood in water knee deep in the stables. The roads were washed out to a considerable extent and some cornfields were ruined.

In The County.

On account of the heavy downpour of rain Sunday afternoon and all Sunday night, the rivers and creeks of Frederick county were converted into raging torrents, carrying destruction before them.

On account of the numerous washouts, no trains were run Monday over the Western Maryland or Baltimore and Ohio railroads from Frederick city to Baltimore. The principal washout was at New Windsor, on the Western Maryland road. On the Baltimore and Ohio railroad, near Jjamsville, nearly 200 feet of track was carried away by Bush creek. Large forces of men were put to work Monday afternoon when the road was opened at 8.30 Monday night, and the regular 10.55 train left Baltimore for Union Bridge.

The Monocacy, which raised so suddenly, was within eight feet of the high water mark of the Johnstown flood, and swept away bridges, mills, milldams, fencing and outbuildings. In many places the brush and wheat, many shocks being carried down the river. Many horses, cattle and hogs were drowned.

The greatest damage was done along Ligonore creek. The iron bridge and the milldam at New London and the covered bridge across the Ligonore, near Ligonore Hills Inn, were carried away by the flood, as was the dam at Boyer's mill. Fencing all along the creek was swept away. A horse belonging to Mrs. Horace Jacobs, near Ligonore Hills Inn, was carried off by the flood and drowned.

Much damage was also done along Bush creek, the swollen stream carrying off miles of fencing and washing out crops along its banks. A large straw stack belonging to Calvin Walker, near Monrovia, was carried off by the flood. The shed was a frame building 70x25 feet in size. The floor of Shawbaker's mill, near Monrovia, was covered to a depth of three feet.

At Woodville a bridge was swept away and a stable belonging to Mr. Brashear was carried off by the flood. A horse in the stable was drowned. A small bridge across Bennett's creek at Park Mills was swept away by the flood. The Patasco river was high. In the neighborhood of Watersville several hogs were carried away and a number of hogs drowned.

The almost incessant rain has greatly delayed harvesting, and it is feared will result in damage to the wheat. The wheat was not badly beaten down by the rain, but what has been cut will, it is feared be spoiled by the rain. Sunshine is needed to save the balance of the crop. Much corn in fields along streams was washed out.

Telephone lines were badly damaged by the storm, and it was impossible Monday to reach a number of places in the county. When communication is again established it is believed that a report of much additional damage will be received.

H. H. Hopkins, of New Market, reports that his government gauge shows that 4.94 inches of rain fell from 5 p. m., Saturday until 7 o'clock Monday morning, and that the rainfall during June has been the heaviest for any month in the thirty years during which he has kept a record, the fall amounting to over twelve inches.

BRAIN-FOOD NONSENSE.

Another ridiculous fad has been branded by the most competent authorities. They have dispelled the silly notion that one kind of food is needed for brain, another for muscles, and still another for bones. A correct diet will not only nourish a particular part of the body, but it will sustain every other part. Yet, however good your food may be, its nutriment is destroyed by indigestion or dyspepsia. You must prepare for their appearance or prevent their coming by taking regular doses of Green's August Flower, the favorite medicine of the healthy millions. A few doses aids digestion, stimulates the liver to healthy action, purifies the blood, and makes you feel buoyant and vigorous. You can get this reliable remedy at T. E. Zimmerman & Co. Price 25c and 75c.

Y M C A MUST MOVE

A sensation was caused in Frostburg when the mayor and council Tuesday morning, at 5.15 o'clock, began to tear away two rooms occupied by the Frostburg Y. M. C. A. When the general secretary arrived to begin his daily duties, he was surprised to find the furniture removed and the rooms demolished.

Sixty days ago the Y. M. C. A. got out an injunction restraining the owners of the old Payne property adjoining from tearing down the building, one of the oldest in Frostburg, as it would weaken the walls of the Y. M. C. A. building. The Mayor and council acted as they did, because certain citizens petitioned that the rooms, which overhung the alley, be removed. The Y. M. C. A. will have to seek new quarters.

Wash day. Mother scalds her hands Baby plays with fire and gets burned. What a time. There is where Victor Liniment is needed. Excellent for Scalds and Burns.

Joseph Garrish, of Williamsport, swore out a warrant for the arrest of Reuben Bowers, a canal boatman, charging him with enticing his 8-year-old son. The boy was taken from Bowers' boat at Hancock and sent home. Bowers says the boy got on the boat without his knowledge.

Castoria For Infants and Children. The Kind You Have Always Bought. Signs of Castoria.

SUICIDE AT HANOVER. Abbie Garrett, of Hanover, committed suicide by hanging at an early hour Thursday morning of last week. Mr. Garrett had been in failing health for the last six weeks. During this time he complained of rheumatism but would not go to a doctor. Wednesday evening he retired between 8 and 9 o'clock and rested well. About 3.30 o'clock he got up and left the room. His wife asked where he was going. He replied that he was going out. An hour later his son-in-law, Paul Koehler, who lives in the same house, went to the barn and found him hanging from the haymow. Justice Kohl was notified who summoned a jury and held an inquest. The jury after viewing the body decided that Garrett came to his death by his own hand. Deceased was in his 58th year and is survived by a wife and two daughters. He was a carpenter by trade.

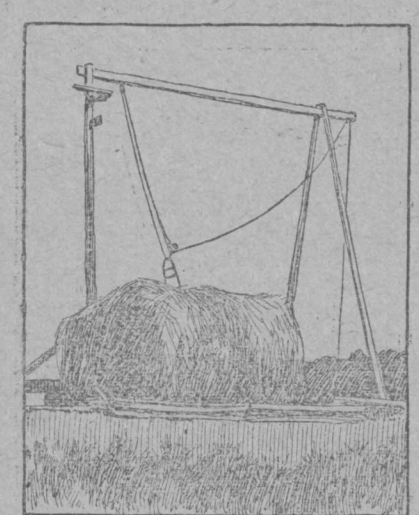

Very Remarkable Cure of Diarrhoea. About six years ago for the first time in my life I had a sudden and severe attack of diarrhoea, says Mrs. Alice Miller, of Morgan, Texas. I got temporary relief, but it came back again and again, and for six long years I have suffered more misery and agony than I can tell. It was worse than death. My husband spent hundreds of dollars for physicians' prescriptions and treatment without avail. Finally we moved to Bosque county, our present home, and one day I happened to see an advertisement of Chamberlain's Colic, Cholera and Diarrhoea Remedy with a testimonial of a man who had been cured by it. The case was so similar to my own that I concluded to try the remedy. The result was wonderful. I could hardly realize that I was well again, or believe it could be so after having suffered so long, but that one bottle

HAY STACKING.

Devices in Use on Michigan Farms Illustrated and Described.

Various parts of the country and also the large farmer and the small farmer in the same region have their different ways of handling hay.

HAY SLING AND STACKING DERRICK.

and about forty feet long. The single pole at the left is set into the ground about four feet in order to hold the derrick in position.

The two bracing poles are also set into the ground about a foot to hold them from slipping. The top piece, to which the pulleys are attached, is 2 by 8 inches by 34 feet long.

Where the gulf stream is deflected from Newfoundland toward the Azores is the Sargasso sea, the surface of which is a mass of floating seaweed.

NAPOLEON'S FOLLIES.

The Climax Came With the Senseless Invasion of Russia.

Of all Napoleon's follies, for they were nothing less, the climax was the invasion of Russia. What motive can he have had for this, saving delirious ambition, and what was also undoubtedly strong in him, sheer love of the bloody game of war?

He had consequently to decamp without having provided for retreat or subsistence. He lost almost his entire army in the wintry wastes and but for the extraordinary conduct of Kutusoff in letting him and his guard pass unopposed would himself have fallen into the hands of the enemy.

There is no sea to which the name green sea is applied in topography, but the term is used as descriptive of parts of the ocean with appropriate significance.

Where the gulf stream is deflected from Newfoundland toward the Azores is the Sargasso sea, the surface of which is a mass of floating seaweed.

A part of the Persian gulf is also known by this name on account of a remarkable strip of vividly green water which is seen along the Arabian coast.

Many other large tracts of the ocean assume this distinctive tint, which may be due either to the presence of multitudes of microscopic plants or living atoms or to the depth or density of saltness of the water itself.

Why Her Dancing Dressed. An athletic young man, with a fine, strong physique, danced with a young woman of some 200 pounds in a village not far west of Rahway, N. J.

The young man looked thoughtfully across the shining surface of the floor and threw a glance of investigation at the corner where the punch bowl stood.

"Doesn't it strike you that the floor is very sticky tonight?" she inquired. The young man gallantly denied thinking so.

"It seems so to me," the young woman observed. Then she looked down at her foot, protruding from a silken sloupee, and exclaimed:

"Why, I've got my rubbers on!" New York Post.

Taking the Cake. Concerning the expression "Take the cake," the following from Bartlett and Coyne's "Scenery and Antiquities of Ireland," describing a dance in front of a shebeen, is an interesting illustration:

The cross is a threat of death, and the Corsican who finds it drawn upon his door knows that he must look for no quarter. The vendetta neither sleeps nor knows where it may stop.

Defining a "Crab." The old story of the Frenchmen who were making a dictionary and defined crab as "a small red fish that walks backward" illustrates the need of exact knowledge.

The Mind. Unreflective minds possess thoughts only as a jinx does water, by containing them. In a disciplined mind knowledge exists like vital force in the physical frame, ready to be directed to tongue, or hand, or foot, lither, thither, anywhere, and for any use desired.

Both to Blame. John—You are always busy when I come in. Charles—Well, you always come in when I'm busy.

Remedies For Cabbage Worm. The only sure and abiding remedy for cabbage worms, says an authority, is a small handful of fine sawdust. It is cheap, sure, harmless and effectual.

His Inheritance. "Did MacMerger inherit his money?" "Indirectly. He inherited the ability to get the best of others."—Life.
