Mr. McCall Told He Must Order Missing Insurance Agent Home.

New York, Nov. 14.-John A. Mr. McCall was further ordered to demand an accounting from Hamilton of the moneys expended by him and of the balance which he owes the New York Life. Mr. Call denied that it was the policy of his company to have Mr. Hamilton remain abroad until after this investigation had been concluded and said that on the contrary he would very much like to have Mr. Hamilton

Other witnesses were John R. Atlantic, N. J., Nov. 13.-The famous wooden elephant, built 18 or 20 years ago in South Atlantic City by James Laferty, caught fire and was destroyed. There is no city water in South Atlantic City, and though word was sent here no apparatus was sent.

The elephant has been an odd feature of the island since it was first built. It was constructed of wood, of huge dimensions, and in the interior were rooms fitted up for a restaurant. The "eyes" were large windows, forming an observatory which commanded a fine view of the ocean.

WILD DOGS OF ASIA.

Kill Bears and Tigers.

The quality of courage possessed by hunting dogs of Asia appears in a marked difference of habit from that noticeable in all other carnivorous beasts. As a rule, each ferocious animal has its natural and favorite prey, which may vary in differ at localities, but is in each case the easiest and most profitable victim. Tigers, for instance, are cattle slayers or deer killers, just as cattle or deer happen to be most

abundant in their district. Leopards prey on goats, sheep and, when they can get them, on tame dogs; wolves on sheep and cattle, stoats or rabbits and hares, and weasels on rats. and mice. But, though the jungles which they visit abound in defenseless animals, the wild dog does not limit his attacks to these. The packs deaffording perhaps the only instance in which one carnivorous species deliberately sets itself to hunt down and detrade wind blows more strongly than stroy another.
