Wonder if Hearst left an order for his shroud when he voted at the undertaker's Tuesday morning?

Well Colonel Pearre, you are back again as you and as we expected. You now have a chance, one last chance, to endeavor to make good, and the question is, will you do it? And by the way Colonel, now that think of yourself for writing that weak, puerile letter attacking the religious belief of your opponent? It wasn't sportsmanlike, now was it? ## SECOND PERFORMANCE.

A Repitition of Prof. Halm's Charming Operetta, "The Princess."

On Friday evening before a large and enthuiastic audience the second performance of Prof. Halm's operetta, "The Princess," was given.

The success of the first rendition was repeated. The young actresses took the audience by storm and the encores were vociferous. The little newsboys, with new verses, sang their part to the enjoyment of everyone. Miss Stella Topper was even more charming in her part than at the previous performance and her solo, "The Sword Song," was the hit of the evening. Miss Euphemia Tyson 19 @20; Maryland, Virginia and Pennsylvania shared with Miss Topper, the first honors. The difficult part of the demure, Dolorosa, taken by Miss Lillian Gelwicks, was played with rare grace and

The costumes concerning which there was much favorable comment on all sides, were made by Miss Tyson. The gown worn by the Princess was designed and made by the Misses Gertrude and Sarah Lawrence, assisted by Miss Stella Long. The public in general would like to hear a repetition of this operetta in the near future.

The principal fight in the city was made for the office of district attorney, and it was one of the bitterest in the history of the city. The leaders of the City Party, which had effected fusion with the Democrats and Prohibitionists on the local ticket. felt certain that D. Clarence Gibboney. their candidate for district attorney would win, but the figures show that Samuel P. Rotan, his Republican opponent, carried the city by 12,124. The Retrict was carried by the Republicans, publican candidates for city treasurer and register of wills were also elected by the same plurality.

The most unusual feature of the whole situation is the fact that for the first time in twenty years there has been no cry of fraud from the defeated party. All accept defeat as a token of the will of the people and are satisfied.

The Republicans lost five Congressmen in Illinois. All the defeated Republicans are in the present Congress, having been renominated.

The Legislature is undoubtedly Republican by a good majority on joint ballot. This insures the return to the Senate of United States Senator Shelby M. Cullom, who received the majority of the votes at the Republican State primaries in Illinois. The following will give the general

Dear Sir: Here's a tail with three or four tails to it.

Professor Irvine has an Academy, Mercersburg, Penn. He paints the floors in summer vacation. It used to take 90 gallons of paint. There were two paintstores there, and he used to buy (one year of one, next year of the other) 90 gallons year after year.

But Fallon has found it necessary to get a good paint to compete with Devoe. He got one of the eight honest paints. He has a big hardware store and is doing an excellent hardware business; but Boyd, of course, has the run on paint-he's a little hardware man.

We don't care how little or big a man is, if he wants good paint and is active and sound. Yours truly
