

DANGEROUS PRACTICE

Scheme To Crush Home Rule In Frederick County.

INJUSTICE OF RECENT DEMANDS

Senator Mathias on Proposed Bill Which is to Rob Frederick Republicans of All Power and Delegate It to the Governor.

Senator Mathias makes the following comment on the proposed scheme of certain Democrats in this county to obtain control of the appointments now under the control of the Republicans:

There is a well founded report that an effort will be made by certain members of the Democratic organization to remove the control of the road system of Frederick county from the hands of the County Commissioners and give it to an appointee of the Governor, to be known as the road engineer, and that he in turn will be empowered to name his Democratic assistant road supervisors, and together they are to have entire charge of the whole county road system.

The effect of this would be to take from the chosen representatives of the people who have been intrusted by the voters with this all important work the responsibility which has been theirs for an indefinite period, and place it with those not accountable to local citizens and taxpayers, thus defeating the sovereign will of the people and striking at the heart of the principle of home rule.

For this reason the contemplated action is one of wide significance not only to the people of Frederick county but to the citizens of all the counties of the state and would establish a precedent which if followed, would ultimately remove from the people the right to determine how their own local affairs are to be conducted.

This is in violation of the most fundamental and sacred principals of Democracy, which demand that the maximum amount of local self-government consistent with the interest of the state at large be delegated to the several political units of the commonwealth.

In the recent Frederick county election, the voice of the people in no uncertain tones declared for the supremacy of the Republican party, and elected and returned to the offices in their gifts an unbroken representation.

By the scheme now in embryo those defeated at the polls seek to destroy and annul the will of the people, and would renounce the principles so often declared by them, and would by unfair and undemocratic means accomplish their end by subterfuge and misrepresentation.

This is a more than dangerous proposition, it is in substance revolutionary, for if this procedure can be established the result will be that when any party can secure control of the state government then it would be all powerful to take charge of the local affairs which had been intrusted by the sovereign people to the personal representative; thus all opposition to the party in power in the state could be crushed and annihilated.

It is obvious that if this principle were once established—of granting to the state organization—the control of the construction and repair of the roads, which is properly the function and duty of the County Commissioners, there would then be no limit to the usurpation that might be practiced in all other local affairs.

HERE AND THERE IN THIS COUNTY.

Rev. Issac M. Motter, whose appointment to serve another term as a member of the Board of School Commissioners for Frederick county was sent by Governor Crothers to the state Senate for approval, announced that he would not accept the appointment and would retire from office at the expiration of his present term on May 1.

The newly appointed Board of Charities and Correction organized by electing David Cramer, president; Edwin S. Houck, secretary, and Samuel L. Lilly, treasurer. The board re-elected Samuel W. Gregg, superintendent of Montevue Hospital, and Dr. Robert G. Tyson, physician to the hospital, also electing Dr. W. G. Bourne, a colored doctor, physician to the colored department at the hospital. J. Scott Van Fossen was re-elected clerk to the hospital.

The Democratic leaders expect to have introduced the bills that have been prepared providing for the appointment by the Governor for this county of a road engineer and a license board. These bills take out of the hands of the County Commissioners supervision over the roads of the county and the issuance of licenses.

The Frederick county grand jury in its final report to the court recommended the taking the management of Montevue Hospital, the county indigent insane asylum, out of politics. At present the hospital has 397 inmates—228 males and 169 females—219 of whom are insane.

The proposal to enlarge the powers of magistrates so that petty cases now brought before the grand jury might be disposed of with nominal cost was endorsed.

Out of a population of about 55,000 there are but 16 prisoners in the county jail.

Dreyfus' Accuser, Esterhazy, Dying

Major Ferdinand Esterhazy who, through false evidence, caused Captain Dreyfus five years of shame and imprisonment as a traitor to his country, has been found in an attic at 116 St. James Terrace, Warwick Avenue, London, where he is dying, alone and in poverty.

Keeping Up The Record.

On Monday morning the Western Maryland train for Baltimore that connects with the 7.45 from Emmitsburg, got a twist as it approached Pikesville. The front wheels of the truck on the tender tried the experiment of running on the ties instead of the track for a distance of 940 feet, with the result that the passengers had the pleasure of remaining in the cars—the latter at a standstill—for hours. This train which was due in Baltimore at 10.10 A. M., reached there a little after 1 P. M.

THE meeting of those interested in the proposed railroad from Frederick to Emmitsburg, by way of Thurmont, an account of which will be found in another column, was largely attended Tuesday night and there was much enthusiasm displayed by those who took part in the proceedings.

Up to this time it would appear that pardonable enthusiasm has overshadowed hard facts and consequently nothing of a very definite nature has been disclosed. The people have not been authoritatively informed as to the motive power to be used—whether steam or electricity; they have not been assured which power is best adapted to heavy freight hauling, nor have the promoters of the proposed road informed them what amount will be necessary to complete and operate the road by way of Thurmont and Emmitsburg.

When everything has been said that can be said in favor of the Thurmont route there will still be

one very important thing for the people of Emmitsburg to decide, namely, whether after all it is good business policy to disregard the seven miles of railroad they now have,—with the shorter connection with Frederick that would be obtained by merging it with the new road already under construction.

It has always been conceded that general news items are common property and that they may be appropriated by any and all papers. It is contrary to newspaper ethics, however, for a journal to copy, line for line, special articles and interviews without crediting the paper from which they were taken.

THE editor of the ultra-Spanish organ in Havana, the Diario Espanol, ought to take something for the disease from which he is suffering. Referring to the celebration of the tenth anniversary of the Maine the other day he wrote:

“Every one, including the large part of the Yankee nation which is honest, and which maintained that the declaration of war against Spain was a crime, believes, and will continue to believe, that the explosion was arranged in the War Department at Washington, and that it was carried out by mercenary hands among the crew, acting under orders from officers on board.”

If this gentleman's case were correctly diagnosed the chances are it would be found that he had been indulging in an overdose of Spanish needles and Peruna.

WILLIAM JENNINGS BRYAN has been in a willing mood for twelve years and although he has gone to pieces on each and every theory he has espoused he is more than anxious ever to head the Democratic ticket in the coming campaign. As a sort of side-show boost certain newspapers are telling the people what an invaluable adjunct to the administration Mrs. Bryan will be, and one or two Congressmen already see the shadow of William Jennings on the White House walls. Frightful dream isn't it?

For the Democrats, the minority party in Frederick county, to propose such drastic and avowedly partisan measures to gain control of the road system is to make a move that will not only be strenuously opposed by the Republicans, but one that will prove a bad political move, sure to react on the dominating party in the State. If they know the game of politics they are playing it very badly, at this juncture to say the least.
