NO. 5

CONVENTION AT BALTIMORE

RESULTS OF THE WEEK

Preparations For The Big Democratic Meet

HARMON FORCES FIRST ON SCENE

Preliminary Moves Taken.—Meetings of The Subcommittees.—Each Leader Marshalls Forces For The Final Struggle.

The preparations for the Democratic National convention, to be held at Baltimore on June 25, have been gradually approaching the climax. Delegates and supporters of the several leaders have been flocking to the city during the past week, and the hotel accommodations are being taxed to the utmost. The managers and supporters of Governor Harmon's cause, were the first to arrive, and his boom is taking concrete form. The Democratic National committee held a meeting in New York where the final plans and preparations were discussed prior to arriving on the scene of action. Since Gov. Harmon's arrival, the other leaders have put in their appearance and are marshalling their forces for the final struggle.

The office of chairman of the convention has, as usual, given rise to a great deal of discussion. At the present time, however, the men in authority seem to agree that United States Senator Raynor, of Maryland, is the man best fitted to hold the office. It seems to be the consensus of opinion that Senator Raynor in his speech, as chairman, could crystallize the principles and ideals, that his party stands for, in the best possible manner.

An innovation for the coming convention has been proposed in the creation of a new office, that of a chairman of the campaign committee. If the office should be created, Senator O'Gorman of New York is the most likely man to hold it. The chairman of this committee would be an assistant to that of the National committee, but the latter would still have general charge of the campaign.

Harmon, Underwood and Wilson, it is understood, will accept nothing less than the presidential nomination. The leaders of the party realize the importance of having a strong man for Vice-President, one who is fitted for the presidency itself. National committee-man Daniels said in a recent statement that his party could take no chances in nominating a small man for the Vice-Presidency. Mr. Daniels is of the opinion that the man receiving the second largest number of votes should have the office.

The impression prevails among some prominent men of the party, that Mr. Bryan will try to force his nomination again. Every precaution has been taken to prevent this, and Mr. Bryan will doubtless be unable to carry it through. In the first place he has not enough strength in himself, and in the second place none of the candidates for the office are willing that he should be in control.

Many of the delegates and managers have visited the Armory and have pronounced the final arrangements, perfect.

No Longer Chief Of Staff.

The Senate recently accepted a bill by which General Wood will not be chief of staff after March, 1913. This is the latest development of the feud between Gen. Wood and Gen. Ainsworth and the resulting legislative attack upon Gen. Wood. It is thought that Congress will accept the bill; this leaves the President's veto as Gen. Wood's only and last hope of reinstatement. The bill states that no officer whose service in the line of the army has been less than ten years shall be eligible to hold the office. The bill is considered as an Ainsworth victory.

Brave Rescuers Are Rewarded.

The crew of the Carpathia, who played such a prominent part in the rescue of the survivors of the Titanic disaster have been rewarded for their heroism and service. The White Star Company has presented five hundred dollars to Captain Arthur H. Rostron, and two hundred and fifty dollars to the surgeon, purser and chief steward. The rest of the members of the crew received an additional month's pay. The Cunard Steamship Company, owners of the Carpathia, has declined to accept any remuneration for the salvage of the passengers of the Titanic.

The latest frost in fifty years visited Plainfield Conn., last Friday, doing damage to fruit and vegetables. The mercury dropped 32 degrees.

FORTIFICATIONS FOR THE ISTHMIAN CANAL UNDER WAY

Colonel H. W. Goethals To Be Engineer Estimate Cost of Fortifications Is \$14,000,000.

The work of fortifying the Isthmian Canal is under way. Colonel G. W. Goethals is in charge of the preparation of the sites chosen and will have charge of the building of the emplacements, which work will be done with the force he is using in construction work. The plans for the work at Flamenco did not arrive until July, 1911, work being started the following September. In that month the plans for Toro Point and Margarita Point were received and the work is now well under way. At each of the latter points there will be two 14-inch guns and eight mortars; there will also be some 6-inch guns and a battery of 6-inch guns at Colon on the waterfront. Following along the line of the canal the defenses will be land defenses to protect the rear of the coast forts and the various locks, and these defenses will consist of earthworks at some distance from the locks and forts in positions dominating them, to be occupied in case of an investment in force. There will also be defenses in the immediate vicinity of the docks and forts to provide for their coast defense. The land defenses will carry at each end of the canal ten 4.7 mortars in fixed positions, and there will also be six mortars of the same caliber, which may be moved to either end of the canal. At the Pacific entrance there will be six 14-inch guns, one 16-inch gun, and twelve mortars. There will also be some 6-inch guns on Culebra Island. It was found necessary to increase the guns on the Pacific side by adding four mortars, two 14 inch guns, and one 16-inch gun to the original estimates. The total estimate of cost covering the entire fortifications is \$14,000,000.

Last Week Showed Good Business.

It has been many months since current reports of business activity and opinion were as uniformly good as last week. There is not a section of the country where trade did not show increased activity and the general quickening is almost suggestive of a business boom. The generalization of the dispatches to the mercantile agencies, which are based on the current gossip of trade circles in the large cities, is entirely borne out by last week's record of bank exchanges, which shows large increases, particularly in mercantile centres outside New York.

The sudden upstart of trade appears to be due almost entirely to the development of the crop situation. Although the Spring was late, the tardiness of planting and early growth is being made up for by June progress. The situation in the Northwest is so encouraging that farmers say a period of drought could be encountered without a crop failure. Politics seem to be playing a weak part as a deterrent influence this year.

Experimenting With Invention.

Postmaster General Hitchcock is about to begin the experiments with the newest invention, the "mailometer" the new device for handling of first-class mail matter in the larger business houses. The new invention has met with so prompt and hearty approval that a committee of post-office experts has been appointed to test it, and to determine whether it should be adopted officially. The purpose of the machine is to save the department a great deal of work in cancellation. The letters are automatically stamped and cancelled. A meter shows just how much mail matter passes through the machine and how much postage is due.

Dowie's Widow Finds Fortune.

A half million dollars, deposited in a bank in Edinburgh, Scotland has been found. This sum was deposited by Alexander Dowie, the founder of Zion City, the existence of which he forgot while dying. Just before his death his mind became enfeebled and it is believed he forgot the money in the Scottish bank. Since the death of her husband Mrs. Dowie has been living in poverty in a sparsely furnished cottage near Mr. Dowie's grave. A letter will be sent to the bank in Scotland, and it is fully expected that the money will be recovered by the heir of the estate.

Great Demand For Wireless.

The Titanic disaster has given rise to a great demand for additional wireless operators on board ocean liners. So great has this demand been, that the school at Liverpool has been unable to meet it, and a school in London is to be opened in a short time. In the time which has elapsed since the disaster, it is estimated that over 100 ships have been supplied with relief operators.

The hay crop is larger than ever.

THIS is Flag Day, the object of which is to inculcate reverence for the flag as an emblem of the freedom and glory of our country. It was instituted by The American Flag Association, an organization formed in the council chamber of the city hall, New York, Feb. 12, 1898, with the intent of honoring the national flag and protecting it from desecration by securing the enforcement of present laws and the enactment of others for that purpose.

O say, can you see, by the dawn's early light,
What so proudly we hail'd at the twilight's last gleaming—
Whose broad stripes and bright stars, through the clouds of the fight,
O'er the ramparts we watch'd were so gallantly streaming!
And the rocket's red glare, the bombs bursting in air,
Gave proof through the night that our flag was still there;
O say, does the star-spangled banner yet wave
O'er the land of the free, and the home of the brave?

Friday.

Representing 288,000 Sunday schools with more than 28,000,000 members, the World's Central Committee met in Philadelphia and arranged plans for the world's seventh Sunday school convention to be held in Zurich, Switzerland, July 8 to 15, 1913.

Admiral von Rebeur-Pashwitz and the officers from the visiting German warships paid tribute to the memory of George Washington by laying a wreath on his tomb at Mount Vernon.

With the declaration that the Commerce Court was not to substitute for the Inter-State Commerce Commission, the Supreme Court of the United States in decision after decision, reversed the Commerce Court and upheld the Inter-State Commerce Commission. The principal decisions were announced by Chief Justice White and concurred in by the entire court.

Impeachment of Federal Judge Cornelius P. Hanford, of Seattle, for annulling the naturalization papers of Leonard Olsson, a Seattle Socialist, and alleged "habitual drunkenness," "moral and temperamental unfitness," and "unlawful and corrupt" decisions, was formally demanded of the House by Representative Victor Berger, the Wisconsin Socialist.

Thirty men were killed and torn fragments of bodies scattered all over the vicinity indicated that many more were blown to their deaths by an explosion of an ammunition factory at Mollsdorf, near Vienna.

Saturday.

A graveyard used by the twentieth Roman Legion during the occupation of Chester, England, was opened in excavating for the extension of a local hospital. Eighteen skeletons were found buried with their heads to the north.

M. A. Daugherty, a lawyer of Lancaster, Ohio, one of Ohio's delegates-at-large, will place the name of Gov. Judson Harmon in nomination at the Baltimore National Convention.

Laura Farnsworth Schenck, accused of poisoning her husband, John O. Schenck, wealthy pork packer by administering arsenic in his food and medicine, is now a free woman. In the Criminal Court, Wheeling, W. Va., Saturday, Judge Jordan dismissed the case, handing down a decision on the motion of Mrs. Schenck's counsel for its dismissal.

France lost her fourth submarine and with it the lives of 23 men of the navy, when the Vendemiare, during mimic warfare off Cherbourg Peninsula, was run down by the battleship St. Louis and disappeared in 150 feet of water.

The Cuban situation, and incidentally the Mexican troubles, came to the front in the Senate in a sensational manner.

Mr. Nelson of Minnesota, a Republican, flatly charged that insurrections in both countries were financed from the United States by persons desiring to force annexation because of their interests in the Latin countries, and he introduced a resolution directing the Committee of Foreign Relations to investigate the subject.

Sunday.

To a reporter of a Washington paper Charles W. Morse, the recently pardoned banker said: "I have three sons who have recently graduated from college and are now out in the world to make their own way. One of them graduated at Harvard, another at Yale, and the third at Princeton. I have never done anything in my life that I would not feel honored for them to do. No man can say anything stronger than this in proof of the feelings of his own conscience."

Kimmerling, one of the best-known aviators, and an engineer, Tennet, who was flying with him as a passenger, were instantly killed at Mourmelon, France, by a fall of 300 feet.

Escorted by the second division of the United States Atlantic fleet, with Rear-Admiral Winslow in command, the three visiting warships of the German Navy—the Moltke, Stettin and Bremen—arrived and anchored in the Hudson river, where, thousands viewed the companionable fighting craft, stretching along the river for more than a mile.

Legislation providing for a general parcels post throughout the United States and its possessions, except the Philippine Islands, is practically certain to be enacted by the present Congress, perhaps before the conclusion of the session now in progress, in the opinion of Postmaster-General Hitchcock.

President Gomez on being informed that American warships had been ordered to Havana declined to make any comment. Senor Ramirez, the Presidential secretary, however, said that the President had expressed neither satisfaction nor regret on the receipt of the news.

Monday.

A demonstration by striking waiters of the city outside the Waldorf-Astoria Hotel during the dinner given by Mayor Gaynor to officers of the visiting German squadron resulted in scenes of violence and rioting. Several skirmishes between police and the strikers ensued before order was restored.

President Taft gave his assent to a proposal that a committee of civil service employees appear before the resolutions committee of the Chicago convention to press for a civil service pension plank in the Republican platform. The same committee will go to the Democratic convention in Baltimore.

Pembroke W. Pitt, the grain broker, who had admitted obtaining \$250,000 from Baltimore banks on forged bills of lading and who fled to Europe when his forgeries were discovered, pleaded guilty in the Criminal Court of Baltimore on Monday.

With his flagship, the armored cruiser Washington, accompanied by the battleship Rhode Island, Rear-Admiral Osterhaus at dawn sailed from Key West to Havana following the order from Washington.

Further charges against Federal Judge Hanford of Seattle were received. (Continued on page 8.)

ANTI-SALOON LEAGUE AGAINST NOMINATION OF PRESTON

Wm. H. Anderson Says The Mayor Was Elected By The Liquor Interests and Is Opposed To Local Option.

The Superintendent of the Anti-Saloon League of Maryland, William H. Anderson, who is also legislative superintendent of the Temperance Society of the Methodist Episcopal Church and a member of the National Headquarters Committee of the Anti-Saloon League of America, made public Monday the fact that he has written to every prominent Democratic candidate for President and to some prominent Democrats who are not avowed candidates, including Messrs. Wilson, Underwood, Clark, Harmon, Hearst and Bryan, informing them of the responsibility of Mr. James H. Preston, Mayor of Baltimore, who is an active candidate for the Vice-Presidential nomination, for the defeat of the local option bill in the recent Maryland legislature. Mr. Anderson charges that the Mayor was selected to his present position with the aid of the liquor and vice element and repaid them by organizing the legislature against temperance legislation. He has twice challenged the Mayor to a public discussion of his responsibility in the premises. Some of these letters were written several weeks ago. He claims already to have replies from some of the candidates for President, and says further that he is giving this notice in time so that the Democratic party leaders will find it impossible to plead ignorance and thus escape opposition to the ticket from the church and temperance forces in case Mayor Preston is nominated.

The Olympic Team Is Picked.

A team of ninety-one men has been picked by the Selection Committee to represent America at the Olympic games which are to be held next month at Stockholm, Sweden.

These men were chosen from a list of over a thousand names and contain practically all of the stars in the country. This team will compete in the twenty-eight field events only. The representatives for the shooting, cycling and like contests bring the number up to 150 men to wear American colors. This team is expected to win the lion's share of first places with the athletes from Sweden a possible second. Of the five Olympic contests that have been held since 1896, America has won the most events in each. The Red Star Line steamship Finland has been chartered and all hotel accommodations have been engaged abroad. The team will leave in a few days.

English Girl Is Freed By Press.

Miss Malecka, who was found guilty of aiding the Polish Socialist Revolutionary Society in Russia, has been pardoned by the Czar. Miss Malecka is the daughter of a Polish exile who has later become a naturalized British subject. Her pardon, she says, was brought about by the pressure which the London Daily Chronicle brought to bear on the subject, and the calling of public attention to the matter. At her trial she denied having aided the revolutionists but frankly declared her sympathy for the working classes. She was found guilty and sentenced to four years of penal servitude. The Czar, because of the attention the affair has attracted, thought it wise to pardon her. She will be provided with a passport and taken to the English frontier, she will not, however, be permitted to enter Russian territory in the future.

Missourian Will Nominate Clark.

Senator Reed of Missouri has been selected by Champ Clark to place him in nomination at the Baltimore convention. It is understood that Ollie James, Senator-elect from Kentucky, will second the nomination. Speaker Clark also, it is understood, has decided to put his political fortunes in the hands of Senator William J. Stone of Missouri, as his manager in Baltimore.

Senator Stone has the reputation of being a pretty slick article when it comes to trading for political votes, and many of Champ Clark's friends look with favor on the choice.

Eight Murdered In Sleep.

Joseph Moore, a business man of Villasea Ia., was murdered in his sleep together with his wife, four children, and two relatives of the Moores. Their heads were smashed in, and an axe, the weapon used, was found near by. There is no clue to the murder, and, inasmuch as nothing on the premises was stolen, the deed is supposed to have been prompted by motives of revenge or to have been perpetrated by a maniac.

Alaska was visited by several earthquakes last week, and volcanic eruptions were numerous.

THE BIG RACE STARTED

BOTH ARE CONFIDENT

The Final Struggle In Chicago Is On

ROOT LIKELY TO BE CHAIRMAN

Louisiana, Missouri and Michigan Yet To Be Decided.—Temporary Control Will Probably Decide The Nomination.

Affairs in Chicago have reached the highest pitch of excitement. Both the Roosevelt and Taft forces are striving for the temporary control, for the temporary control will mean almost certain permanent control. The Roosevelt managers are doing everything in their power to block the wheels so that at the last sessions, the Committee will be obliged to rush many cases through. Practically all the delegates have arrived. Both the Roosevelt and Taft supporters are unanimous in the rejection of the compromise plan, but many delegates are heartily in favor of a compromise candidate for the good of the party. Mr. William J. Barnes, Jr., of New York, predicted with the utmost assurance that Senator Root will be the chairman and that President Taft will be renominated. Roosevelt realizes that if Root gets the chair, it will most likely be a Taft victory. Both sides say that they are confident of an overwhelming victory, and both seem to be in control. The ultimate outcome will largely depend on the generalship of the respective forces. There are many rumors about, that Roosevelt plans to confuse and stampede the convention and make the Taft supporters bolt. He intends to hold mass meetings until the last minute to denounce Taft. Each side expects, and is prepared for any tricks and subterfuges to which the other may resort, and a great deal of confusion will probably occur.

The factional trouble in the party is still much in evidence, the partisans seem to be unable to agree or to act in any unison. The cases of Louisiana, Missouri and Michigan are complicated problems of this party strife which the committee will have difficulty in settling. The Taft forces are banking on a first ballot nomination, and seem to be very confident of getting it. Some of the delegates who have been seated by the committee, have been expressing anti-Taft sentiments, and have caused no little worry to Taft men. Roosevelt Leader Flinn made the statement, that if the National Convention nominates Taft, they will have recourse to the Roosevelt men who have been selected as presidential electors by the States.

Senator Bourne, of Oregon, in a recent statement said that the convention to be held in Chicago will probably be the last held; that the present system of nomination was misrepresentative, unjust and directly opposed to American interests; that the present campaign manipulations have done a great deal to accelerate the Presidential primary movement. One thing about the convention that is assured, is the fact that the crisis comes on the first day, and that whoever acquires the temporary control will carry the convention. The Taft supporters are bending every effort to prevent Roosevelt from making any inroads on their delegates from the Southern States. The one glaring weakness in the Roosevelt ranks is the fact that no Roosevelt man has been nominated for the chairmanship of the convention as opposed to Taft's nomination of Senator Root. Mr. Houser, Senator La Follette's manager, is confident that there will be a deadlock in the convention. He stated that La Follette will make no agreement or compromise of any description with any other presidential candidate. This state of affairs would indicate that in case of a deadlock, Senator La Follette's chances for the nomination would be considerably brightened.

Spain's King Is Interested.

Alfonso granted a short audience to the Panama Pacific Exposition Commission on Monday. He seemed very much interested and there was a full discussion of all the phases of the plans. The exposition of international significance will be held at San Francisco at a future date.

Declaring that he was on his way to Washington to kill President Taft, a man giving his name as William Gotch, was taken into custody in Wisconsin.

Bernard Carter, Esq., Dead.

Bernard Carter, leader of the Baltimore Bar, died suddenly of heart failure at 8:30 o'clock yesterday morning at Narragansett Pier.

At his side when death came were his two sons, Rev. George Calvert Carter, of Bryn-Mawr, Pa., and Shirley Carter, of Baltimore, his associate in law practice, and his daughter, Mrs. Fiske.

Miss Christina Arbuckle, 72 years old, was appointed administratrix in Brooklyn of the great estate of her brother, the late John Arbuckle.

Tabulated Record of Pupils.

A plan has recently been formulated by the United States Bureau of Education whereby the record of the work done by each pupil in the city schools would be kept. The running history of the scholars' entire school career would be card-catalogued and kept permanently on file. The plan has been met with the approval of the National Education Association, and already over three hundred cities have begun to keep cards.

Every train into Baltimore brings a convention factotum.

PARAGRAPH NEWS.

(Continued from page 1.)

ed by Representative Norris from a Seattle lawyer, and these will be laid before the House Judiciary Committee. The Iowa pure food law enacted in 1907 was sustained as Constitutional by the Supreme Court of the United States. The Tacoma anti-treating ordinance is valid, the Supreme Court ruled, in upholding a conviction in a Tacoma Justice Court. It was shown that a saloon keeper had served drinks to two persons and one had paid for the liquor. The court says regulation of "treating" is not a violation of any right of an individual.

A company of United States marines, commanded by Capt. Edward B. Manwaring, engaged in guarding El Cuero Mines, was attacked by a force of insurgents, who were repulsed after considerable firing.

Senator Bacon introduced a bill regulating the conditions upon which the United States might intervene in Cuba. He declared that unrestricted intervention would cause ultimate annexation.

Tuesday. The President, Secretary Knox and Mr. Wilson, United States Ambassador to Mexico, conferred together concerning the ad judgment of the border claims arising out of the recent Orozco rebellion.

The suffragettes in Chicago delivered an ultimatum to the Republican party, support the cause of women or fight. A dispatch received from Constantinople says that Turkey is getting ready again to close the Dardanelles to traffic. Turkey decided upon this action following the receipt of news in the Turkish capital that the Italians have invested Lemnos in the Aegean Sea.

Representative Robert C. Wickliffe, was instantly killed on the railroad bridge which spans the Potomac River just south of Washington.

Two military aviators, Lieut. Hazlehurst and A. L. Welch, were dashed to the earth and killed during a flight in a bi-plane at College Park, Md. Mr. Welch was in the employ of the Wright brothers and was making a flight with Lieut. Hazlehurst as his passenger. A number of army officers, who were eyewitnesses, will testify before a board of inquiry which has already been appointed.

Judge Henderson, of the Garrett County court of Maryland, sentenced F. J. Becker to nine years in the penitentiary. Becker recently confessed to having held up and robbed the St. Louis express of the Baltimore and Ohio road, last winter.

Twenty-seven persons are reported to have been killed at different places as a result of a widely extended earthquake shock. The shock is reported heaviest in the states of Jalisco and Colima, but details are lacking. The Colima volcano which has given more or less trouble for some time, is again in eruption.

Wednesday. The California, Arizona, Michigan, Louisiana, and Mississippi contests for delegates to the Republican National Convention were decided in the President's favor. Roosevelt men charged fraud.

Roosevelt declared himself in favor of woman suffrage.

Committeeman William P. Jackson, national committeeman, cast his vote against Taft in the Fourth California District contest.

Earthquake shocks were felt throughout the South. The vibrations were particularly felt in Columbia, S. C., and Savannah, Ga.

Fifty-nine field laborers were burned to death while sleeping in a barn near Tambov, Central Russia, on a property belonging to Count Orloff Davydoff. The cause of the fire is not known.

Sailors from the German fleet rescued a mother and baby from death in a fire which occurred in Brooklyn. The sailors were returning from Coney Island, saw flames in a house and effected the rescue.

Governor Tasker L. Oddie, of Nevada, appointed George Winfield, of Reno, friend and business associate of the late Senator George S. Nixon, as United States senator until the meeting of the Nevada legislature in January, 1913. At that time the legislature will elect a successor to complete the unexpired term extending until March, 1917.

Antonio Eliva, a cook in the employ of the United States Immigration Service, was caught in the act of smuggling ammunition to the Mexican rebels and when a soldier attempted to search him he shot two American soldiers and fled into Mexico. The soldier's wounds are not serious.

Would-be burglars were chased from the roof of the Belasco Theater in New York by David Belasco, who used a stage pistol to intimidate the prowlers.

A student hall to cost \$150,000, which has been desired for a number of years by the Vassar College girls, was announced as being the gift of a person whose name is not to be divulged, but who is understood to be Miss Helen M. Gould. Announcement of the gift was made by President James Monroe Taylor at the close of the forty-seventh annual commencement program in the chapel at the college. Plans and specifications have already been completed for the building. The money is at hand and the contract will be awarded at once.

Thursday. Representative Clayton, of Alabama, expects action before the close of the present session of Congress on his resolution changing the term of the President and Vice-President to six years, with the provision that they shall not be eligible for re-election. Jail sentences for "cruel undertakers who hold bodies until funeral expenses are paid" is provided in a bill introduced in the House by Representative Towner.

The sending of the first division of the Atlantic fleet from Hampton Roads north to Narragansett Pier for summer practice drill is the outward indication of the Administration's belief that the Cuban crisis is over, at least temporarily.

The sole survivor of a quartet composed of two fathers and their sons who engaged in deadly combat with shotguns in Marietta, Miss., bound over to await the action of the grand jury on a charge of murder.

Sidney Lee's life of Edward VII continued to be the subject of much indignation on the part of the late King's friends. They are angry that his abilities to command the political situation should, as they consider, be unjustly minimized. They are, however, totally unable to disprove Mr. Lee's facts.

Four young men with three young women, all students at the Ohio State University, met with disaster when their automobile skidded while running at high speed. Frank Quigley, aged 22, of Sistersville, W. Va., is near death as a result of his injuries. The machine crashed into a telephone pole and was completely demolished. Among the injured was Louis Smith, of New Bryden, Pa., who graduated yesterday.

Chairman Clayton of the Judiciary Committee was authorized by the House to begin an investigation of the sensational allegations filed against Judge Cornelius Hanford, of Seattle, by Representative Norris, of Nebraska, and Berger, of Wisconsin. The House was unanimous, investing the Judiciary Committee with powers to begin a thorough inquiry, and, according to the committee's resolution, a subcommittee will go to Seattle to take testimony.

ODDS AND ENDS

News and Information From Here, There, and Everywhere.

Harry K. Thaw has been transferred from Matteawan to the jail at White Plains, N. Y.

Dr. Wiley will not accept the offer to be head of the Boston Health Department.

Geo. H. Primrose, the famous minstrel, is being sued for divorce.

Circassian tribesmen value maidens twice as much as widows. Bridegrooms are taxed the equivalent of \$55 for the former and only \$27.50 for the latter.

"Uncle Joe" Cannon is not going to the Chicago Convention. When asked he replied, "I'm going to stay here (Washington) and watch the fun."

The ship's dentist is said to be the latest addition to the equipment of a modern liner. The idea first occurred to a French dentist, traveling for pleasure, who booked passage for the return trip and had many clients.

The French minister of marine, whose office corresponds to that of the American secretary of the Navy, went aboard a cruiser to the spot where the submarine Vendemiaire sank, had a salute fired and addressed the crew of the ship, praising the valor of the men who navigate the ocean divers.

Four volcanoes in Southwestern Alaska, which have been lying dormant for many years, have recently sprung into action and are creating havoc in the surrounding country by terrific eruptions. It is feared that villages have been wiped out by the flow of molten lava.

Two hundred and fifty-six graduates of Princeton University received degrees. This is the largest graduating class ever turned out by that institution.

Roosevelt has lately become a suffragette.

In Georgetown, Del., they are growing apples without cores, and successfully too.

Degrees were conferred upon 155 men at the annual commencement of the Johns Hopkins University, held in the Academy of Music. Dr. W. C. Gorgas, assistant surgeon general in the United States Army, was the orator. No announcement was made as to a successor of Dr. Remsen, as president.

The sailors and officers of the German fleet are being royally entertained.

JOSEPH E. HOKE

Every Farmer

As well as every Business Man should have a Bank Account.

WHY?

BECAUSE: Your money is safer in the bank than anywhere else.

Paying your bills by check is the simplest and most convenient method.

Your check becomes a voucher for the debt it pays.

Money in the bank strengthens your credit.

A bank account teaches, helps and encourages you to save.

This bank does all the bookkeeping.

Your bank book is a record of your business.

To Those Desiring Banking Connections With an Old Established Bank, We Extend Our Services.

PUBLIC LOCAL LAWS.

[CHAPTER 25]

AN ACT to encourage the killing of wild cats, foxes, minks, weasels, hawks, owls and other destructive birds and animals in Frederick County.

Section 1. Be it enacted by the General Assembly of Maryland, That the County Commissioners of Frederick County shall pay to every person who shall kill and present the head thereof to a justice of the Peace of said County who shall certify the same to the County Commissioners of Frederick County of the following destructive birds and animals, the following sums of money, to-wit, for every wild cat, two dollars; for every fox, one dollar; for every mink, one dollar; for every weasel, fifty cents, and for each owl, and hawk, fifty cents. It shall be the duty of the justice of the Peace who shall certify the same to the said County Commissioners to so mark or destroy said heads as to effectually prevent their presentation for redemption again. The person or persons killing any of the above described animals or birds shall pay the Justice of the Peace for certifying the same to the County Commissioners.

Section 2. And be it enacted that this Act shall take effect from the date of its passage.

Approved March 13, 1912.

PHILLIPS LEE GOLDSBOROUGH, Governor.

JAMES McC. TRIPPE,

Speaker of the House of Delegates.

JESSE D. PRICE,

President of the Senate

Office of the Chief Clerk of the House.

I Hereby Certify, That the foregoing is a true copy of an Act of the General Assembly of Maryland, passed at the January Session, 1912.

ALBERT J. ALMONEY,

Chief Clerk of the House.

June 7-2ts.

CHAPTER NO. 42.

AN ACT to Regulate hunting with dog or gun on all land in Frederick County, Maryland (excepting timber land not inclosed) and to require any and all persons hunting with dog or gun on any land in Frederick County (excepting timber land not inclosed) to first obtain a written permit from owner or owners of the Land, and requiring the person or persons hunting with dog or gun to carry with them Such written permit while so hunting.

Section 1. Be it enacted by the General Assembly of Maryland that no person or persons shall have the right to hunt with dog or gun on all lands in Frederick County, Maryland, (excepting timber land not inclosed) without first having obtained from the owner or owners of the said land a written permit to hunt on the same and every person or persons so hunting Shall be required to carry the said written permit with him or them while so hunting.

Section 2. And be it enacted that this Act shall not include any uninclosed timber land.

Section 3. And be it enacted that any person or persons hunting with dog or gun upon any land in Frederick County excepting the timber land described in Section 2 of this Act without a written permit as required by Section one of this Act in his or their possession shall upon conviction thereof before a Justice of the Peace of the county aforesaid be fined not less than fifty nor more than one hundred dollars and in default of the payment of fine and cost Stand committed to the County Jail until all fines and costs are paid one half of all such fines to be paid to the informer if other than an officer of the State, and the other one half to be paid over to the County Commissioners of Frederick County in improving the public roads of said County. All person or persons hunting with dog or gun under the provision of this Act shall be required to exhibit their permit for so doing at the request of any land owner or owners upon Whose land or lands he or they May be Hunting, or by any Constable, Gamewarden, Sheriff, Deputy Sheriff or any officers having police powers in said County.

Section 4. And be it enacted that this Act shall take effect from the date of its passage.

Approved April 11, 1912.

P. L. GOLDSBOROUGH, Governor.

JESSE D. PRICE,

President of the Senate.

JAMES MCTRIPPE,

Speaker of the House of Delegates.

Office of the Secretary of the State.

I hereby Certify, That the foregoing is a true copy of an Act of the General Assembly of Maryland, passed at the January Session, 1912.

JOHN R. SULLIVAN,

June 7-2ts Secretary of the Senate.

(CHAPTER 629.)

AN ACT to authorize the Commissioners of Thurmont, in Frederick County to borrow three thousand dollars by issue of bonds or other obligations of said Commissioners of Thurmont, to repay amount heretofore borrowed to complete the purchase of the Electric Light and Power Plant of the Citizens' Electric Light and Power Company of Thurmont, as authorized by the Act of 1910, Chapter 9.

Whereas, By the Act of the General Assembly of Maryland of 1910, Chapter 9 the Commissioners of Thurmont, a municipal corporation of Frederick County, were authorized to own and operate the Electric Light and Power Plant erected by the Citizen's Electric Light and Power Company of Thurmont, and to issue bonds in the name of said municipal corporation to an amount not exceeding eighteen thousand dollars to raise money to pay for said Electric Light and Power Plant, with its properties and rights, as will fully appear by said Act of 1910, Chapter 9, it being then estimated said sum of eighteen thousand dollars would be sufficient to pay the cost of said plant and properties, and

Whereas, Said bonds were issued and the money obtained thereby was ap-

plied as in said Act directed, but it was found that said plant, when completed, cost twenty-one thousand dollars, and said Commissioners, in order to obtain a good title to said plant with its rights and properties, were compelled to borrow an additional sum of three thousand dollars, which is desired to repay; now, therefore,

SECTION 1. Be it enacted by the General Assembly of Maryland, That the action of said Commissioners of Thurmont in borrowing the sum of three thousand dollars to complete the purchase of the Electric Light and Power Plant, with the properties and rights connected therewith, from the Citizens' Electric Light and Power Company as authorized by the Act of 1910, Chapter 9, is hereby approved, and the said Commissioners of Thurmont are hereby authorized and empowered to issue additional bonds to an amount not exceeding three thousand dollars, in the denomination of one hundred dollars each, payable twenty years after date to bearer, redeemable, however, at the pleasure of said Commissioners of Thurmont at any time after the expiration of three years from their respective dates, to bear interest in the mean time at the rate of five per cent. per annum, payable semi-annually, according to the tenor of the coupons for said interest to be attached to said bonds, which said bonds shall be sealed with the corporate seal of the said corporation, and, together with said coupons, shall be signed by the President of the Board of Commissioners and countersigned by the Clerk of said Board; provided, however, that said bonds shall not be sold for less than par or the face value thereof.

SECTION 2. And be it enacted, That the proceeds of the sale of the bonds hereby authorized to be issued shall be applied to the repayment of the money heretofore borrowed to complete the payment of the purchase money for said Electric Light and Power Plant.

SECTION 3. And be it enacted, That if the said Commissioners of Thurmont should believe it to be to the interest and advantage of said municipal corporation to obtain said sum of three thousand dollars by issuing the notes of said corporation signed by the President of the Board of Commissioners, with the seal thereof attached, attested by the Clerk of said Board, in amounts of one hundred dollars, or multiples thereof, each bearing interest at the rate of five per cent. per annum, payable semi-annually, for an aggregate amount, not exceeding the sum of three thousand dollars, instead of issuing said bonds, they are hereby authorized to issue such corporate notes.

SECTION 4. And be it enacted, That the said Commissioners of Thurmont are hereby required to levy all necessary taxes upon the property within the taxable limits of Thurmont for the payment of the interest upon the bonds or notes hereby authorized to be issued as well as for the payment of the said bonds or notes at maturity, and shall create a sinking fund for that purpose and levy the necessary taxes therefor.

SECTION 5. And be it enacted, That this Act shall take effect from the date of its passage.

Approved April 11th, 1912.

PHILLIPS LEE GOLDSBOROUGH, Governor.

JAMES McC. TRIPPE,

Speaker of the House of Delegates.

JESSE D. PRICE,

President of the Senate.

Office of the Chief Clerk of the House.

I Hereby Certify, That the foregoing is a true copy of an Act of the General Assembly of Maryland, passed at the January Session, 1912.

ALBERT J. ALMONEY,

Chief Clerk of the House.

6-7-2t

EXAMINATION OF TEACHERS.

The examination of applicants for Teachers' Certificates and Free Scholarships will be held in the Frederick Girls' High School Building, East Church street on

Tuesday, Wednesday and Thursday,
June 18, 19 and 20, 1912.

This examination is only for persons who have never taught, and for those teachers now engaged in the work who have been notified by the County Superintendent to attend said examination.

Morning sessions will begin promptly at 9:30 o'clock, afternoon sessions at 1:30 o'clock.

Applicants for first Grade Certificates will be examined in Orthography, Reading, Writing, Arithmetic, Geography, United States History, English Grammar, Book-keeping, Algebra, Natural Philosophy, Physiology, Plane Geometry, (four books), General History, National and State Constitutions, Theory and Practice of Teaching, and Laws and By-Laws of the Public School System of Maryland.

Applicants for Second Grade Certificates will be examined in Orthography, Reading, Writing, Arithmetic, Geography, United States History, English Grammar, History of Maryland, Algebra (to quadratics), Constitutions, Theory and Practice of teaching, and Laws and By-Laws of the Public School System of Maryland.

Competitive examinations for scholarships at the Baltimore and Frostburg Normal Schools will be held at the same time and place.

No certificate of qualification as a teacher shall be issued to any male under nineteen years of age, or to any female under eighteen years of age.

FREDERICK COUNTY.

Frederick is next to the largest of the counties of Maryland. In population and wealth it ranks next to Baltimore county. In the fertility and productiveness of its lands it ranks among the first in the Union, and especially in the production of wheat. The area of this great county is 633 square miles. The great body of the people are of German, English and Scotch-Irish descent, the progeny mostly of the early settlers. The land is mostly of fine limestone quality, and the greater part of the county is a valley of rolling lands lying between the Linganore Hills and the Catocin Mountain. This splendid valley is drained by the Monocacy river, and is one of the best farmed and most highly improved and productive areas of the Union. The great crops are wheat and corn.—*Maryland Manual issued by Board of Public Works.*

A POINTER FOR BALTIMORE.

They manage some things very well in Switzerland. What could be more considerate than this, for instance:

"On application to the police stations citizens are supplied with tags bearing their names and addresses, with the printed request:

If I am found in a condition which renders me incapable of going home alone, kindly conduct me to above address."

There's a pointer for the Baltimore Police Commissioners. Baltimore always wants to do the proper thing, and Baltimore will have as its guests during the Convention many Southern Colonels who, in wrapping their thirsts around some of those delectable liquid mysteries for which Baltimore is famous, will no doubt fall victims to the hospitality of the occasion.

We suggest that the committee on Public Comfort cooperate with the police, distribute tags to the guests at each hotel and provide a large fleet of serviceable and commodious "night liners" for the accommodation of all who have, perchance, lingered too long with the jocund julep.

BURN THE HAMMER.

Not long ago New Brunswick, N. J., had a "Boost New Brunswick" week and as a wind up to the festivities the "Queen of Progress" applied a torch to a huge hammer, which symbolized

the spirit of "knocking," and when it was completely burned the ashes were interred in the Jersey soil.

Emmitsburg is not in need of a "boost" week—the memorable Old Home Week was its equivalent—but it must be confessed that if each individual hammer wielder were to consign his knocking weapon to the ash heap Progress would have an easier road to travel.

Here is a bit of good doctrine by Edwin L. Quarles that may well be preached to and practiced by every family in the community:

"My household shall be taught, besides the fear of God, at least one thing; the art of living for the good of this their home town; that they must seldom speak of its deficiencies, and only then at home and with the thought to set things right; that they must often speak of its advantages, and when they travel they must lose no chance to spread its name in good repute—or they shall move elsewhere to live."

Commit it to memory and then apply it; and be sure to burn the hammer.

ALL SIGNS FAIL AT TIMES.

The new primary system in its initial tryout has, to use a colloquial expression, "kept them guessing" from the very start. It has not only created an unusual amount of uncertainty in the minds of the people, but also in the respective organizations. Nor has it stopped there. The candidates, themselves, are decidedly on the anxious bench, albeit their published statements have a ring of finality about them that would create the impression that doubt has no place in their calculations.

Yet almost on the eve of the Chicago convention doubt is decidedly present and every "if" and every "in the event of" has a plan for action, formulated and ready for use the moment somebody "starts something."

What will actually be done when the gavel falls—well, there's the rub. In the meantime symptoms of a bolt, (under a more original name, however,) on the part of one of the candidates are hourly becoming more pronounced. But all signs fail at times.

THE reelection of Swepson Earle as chief engineer of the Shellfish Commission is a well deserved compliment to a most efficient State officer. Mr. Earle's ability is of a very high order and in his devotion to duty he has set up a standard worthy of being emulated by others in the service of Maryland. Mr. Earle has done more than fill his office creditably. He has the State's interest at heart and in the development and conservation of one of Maryland's greatest natural resources he has played a very important part.

THAT Emmitsburgians take a great deal of pride in their town is being demonstrated every day by the improvements they are making to their property. Each week there is a change for the better—a new building, an extensive alteration, more paint, a cement sidewalk, new gutters new roofing or repairs of some kind. All the workmen are busy and from present indications they will continue to be until cold weather comes again.

THE fact that there is decided opposition to a junketing allowance for the President is not to be wondered at. The country has had a toxic dose of presi-

dential "swinging 'round the circle." Official trips by the Nation's Executive may be necessary at times, but a monthly jaunt or one almost continuous junket is out of the question. There is no warrant for it whatever.

THE defeat of the plan for the proposed commission form of government for Frederick is of course a big blow to the supporters of a system which has accomplished much good in other municipalities. But the defeat may after all be but a temporary set-back in a campaign which is bound to be again waged in the interest of progressive government for a progressive city.

Do you give the merchant near at hand the business you ought to give him? Big stocks cannot be kept for your selection if you send your money—made at home—to the man a thousand miles away who cares nothing about you except that you pay him cash for goods that you have not seen.

MOTHER SHIPTON'S PROPHECY.

Interest in Mother Shipton's prophecy having lately been revived and exact copies of it being seemingly scarce THE CHRONICLE, through the courtesy of a subscriber, reprints herewith this famous old prediction. It is as follows: "Carriages without horses shall go. And accidents fill the world with woe. Around the world thoughts shall fly In the twinkling of an eye. Water shall yet more wonders do, Now strange, yet shall be true. The world upside down shall be, And gold be found at root of tree. Through hills men shall ride, And no horse or ass shall be at his side. Under water men shall walk, Shall ride, shall sleep, shall talk. In the air men shall be seen, In white, in black, in green. Iron in the water shall float. As easy as a wooden boat. Gold shall be found, and found In a land that's not now known. Fire and water shall wonders do, England at last shall admit a Jew. The world to an end shall come In eighteen hundred and eighty-one."

Mother Shipton was an English prophetess about whose existence there seems to be no certainty, while there is no doubt that many of the sayings attributed to her were fabricated by others, according to the Encyclopedia Americana.

S. Baker, who printed Mother Shipton's pretended prophecies in 1797, records that she was born near Knareborough, Yorkshire, England, in July, 1488 and was baptized Ursula Southiel. She died at over 70 years of age, but it was not until 1641 that a pamphlet appeared containing some of her alleged predictions.

THE THINGS THAT COUNT.

Not what we have, but what we use; Not what we see, but what we choose— These are the things that mar or bless The sum of human happiness.

The things nearby, not things afar; Not what we seem, but what we are— These are the things that make or break, That give the heart its joy or ache.

Not what seems fair, but what is true. Not what we dream, but good we do— These are the things that shine like gems, Like stars, in Fortune's diadems.

Not as we take, but as we give; Not as we pray, but as we live— These are the things that make for peace, Both now and after Time shall cease.

—CLARENCE URMY.

NOW AND NEVER.

Not all the music in the world Sung e'er so sweet and clear, With all the master's magic wrought, Can thrill the silent ear.

Not all the sunshine in the skies, Though falling tenderly With kiss like lilies' breath, can light The eye that can not see.

Not all the love the great world holds, With deepest longing said, And fraught with all that love can mean, Can reach a loved one dead.

Speak now thy word of love and cheer, Thy heart its sushine spread, Swift be thy lips their song to sing, Ere life and love have fled!

—A. W. PEACH.

WHAT IS A FAILURE?

According to Elbert Hubbard "A failure is a man who is unable to cash in his experiences."

Don't feel sorry for yourself—feel sorry for the folks who have to live with you.—*Philistine.*

STRAWBERRY DELECTATIONS.

As the strawberry season is at its height the following recipes will no doubt be interesting to the readers of THE CHRONICLE.

Strawberry Lacto.

Beat the whites and yolks of two eggs separately. Add to three cupfuls of sugar, mixed with two quarts of sour skimmed milk, one cup of strawberry juice. Stir in the eggs and put in freezer. When partially frozen add the juice of two lemons and finish freezing.

Velvet Cream Strawberries.

Dissolve one tablespoonful of gelatine in a gill of water, add to it half a pint of light sherry, the grated rind and juice of one lemon, and five tablespoonfuls of sugar. Stir over the fire until the sugar is thoroughly dissolved, then strain and cool. Before it sets beat into it a pint of thick cream. Half fill individual molds with fine strawberries pour the mixture over them and set on ice until ready to serve.

Strawberry Snow.

Dissolve two tablespoonfuls of gelatine in four tablespoonfuls of water, add a pint of boiling water, a cup of sugar, and the juice of two lemons. Strain and when cold fold in the beaten whites of two eggs. Put in a mold and set on ice. When ready to serve turn out and garnish with strawberries. Pour over this a thin boiled custard which has been chilled.

Strawberry Parfait.

Soak two tablespoonfuls of gelatine in just enough water to cover it. When soft add a gill of boiling water and a cup of sugar. Put on the range and stir until sugar is dissolved, then strain and as mixture cools, beat it into a pint of whipped cream. Then quickly beat in a heaping cup of strawberries, that have previously been mashed with half a cup of sugar. Turn into a freezer and pack down immediately in ice and salt for four hours.

Strawberry Sherbet.

Dissolve one teaspoonful of gelatine with a little water, then add six cups of boiling water, the juice of one lemon, one tablespoonful of orange flower water, and one quart of ripe strawberries, which have been washed and crushed. Set in a cool place for several hours. Then rub through a sieve, add two cups of sugar, ice to chill and serve. A little rum may be used in place of the orange flower water, if desired.

Strawberry Cup.

Mix half a cup of rich, thick strawberry syrup with a pint of good sauterne, and freeze until quite stiff and smooth. Partly fill deep-stemmed glasses with chilled strawberries, heap the frozen mixture on top, and serve.

Strawberry Frappe.

Boil one quart of water with two and a half cups of sugar for ten minutes. Add a cup and a half of strawberry juice and strain. Put in the freezer and half freeze, then open and stir in very quickly and lightly a heaping cup of whipped cream. Close the freezer and let stand an hour before serving.

Strawberry Cocktail.

Mash one pint of strawberries, add two cups of water and one cup of sugar the juice of half an orange and half a lemon. Stir well and set on the ice for two hours to chill. Just before serving strain through a jelly bag and add sherry to taste. Put sliced berries in glasses and pour over them the above dressing.

Fruit soups are a novelty in America, but are much used abroad, especially in Hungary and Scandinavia. They are deliciously cool on a hot day, and one made with strawberries is very appetizing.

Salad of Strawberries.

Remove the pulp of grapefruit, sprinkle with sherry and chill. Wash and hull some fine ripe strawberries and squeeze a very little lemon juice over them. Line a salad dish with lettuce hearts. Toss the grapefruit and berries together and place on the lettuce. Pour over them a syrup made of white wine and honey, which should be ice cold, garnish with English walnuts, and serve.

Strawberries and Romaine.

Separate a head of romaine and let it stand in ice water for an hour. Arrange on individual salad plates, and into each of the boat-shaped leaves place four or five large strawberries. The following dressing is passed with this salad. Make a French dressing by blending well one-fourth teaspoonful of pepper, one-half teaspoonful of salt, two tablespoonfuls of vinegar, and four tablespoonfuls of olive oil, with the addition of one-half teaspoonful of sugar. Add one teaspoonful of finely chopped pistachio nuts, and one-half teaspoonful of finely chopped truffles just before serving.

"I have been a follower of you and Mr. Roosevelt for many years," said Judge Lindsey to Mr. Bryan, whereupon the latter replied, "Well, you had better not follow any longer," said Mr. Bryan. "You might get cross-eyed. We are going in opposite directions."

THE FIRST STEAMBOAT TO CROSS THE ATLANTIC.

It was under the American flag that the first steam vessel crossed the Atlantic Ocean. The Savannah, built at New York by Francis Pickett, was a vessel of three hundred tons burden, and was still on the stocks when Mr. William Scarborough, a wealthy merchant of Savannah, Ga., who had conceived a fancy for trying the effect of steam navigation on the high seas, bought her as she stood. She had a fuel-storage capacity of 75 tons of coal and 25 cords of wood, and her wheels were so constructed as to be removable in rough or stormy weather. She was launched August 23d, 1818, and began her first outside voyage, a trip from New York to Savannah, on Sunday, March 28th, 1819. Stephen Vail, of Morristown, N. J., furnished her engines. Savannah was reached on Tuesday, April 6th. Scarborough and McKinnee were the consignees, and they advertised extensively for passengers and freight to make the trans-Atlantic voyage in her, to start May 20th; there were no responses; the people everywhere were enthusiastic, but few were confident enough to risk either life or property in such an undertaking. On the 20th of May she started as advertised. She did not venture upon the high seas, however, until the 25th. Her voyage thenceforward was uneventful until June 16th, when the Irish coast was sighted. On the 17th, Lieut. Bowin, of the king's cutter "Kite," boarded the "Savannah," under the impression, from the smoke rising out of her smokestack, that she was a ship on fire. On the 20th, the wheels were shipped and the sails furled, and she ran "into the river Mersey, and at 6 p. m. came to anchor off Liverpool, with the small bower anchor," according to the log. Afterward the vessel visited Copenhagen, Stockholm, Cronstadt, St. Petersburg and other foreign ports. Captain Rogers tried to dispose of the ship to the King of Sweden, but that negotiation failing, she started for home again, reaching the city of her name on Tuesday, Nov. 30th, 1819, and, although they had rough weather, Captain Rogers writes, "not a screw, bolt or rope-yarn parted." It should be added that the actual voyage out from land to land consumed twenty-two days, on only fourteen of which the engines were used. Mr. Scarborough died in 1838; it is not recorded that he ever repeated his experiment in steam navigation. Captain Rogers died at the age of forty-two, after considerable service as steamboat captain on the great Pedee River, in South Carolina.

The mastery of the way to do things is the accomplishment that counts for future work. I like the teacher who shows me not merely where he stands, but how he got there, and who encourages and equips me to find my own path through the maze of books and the tangled thickets of human opinion.—*Henry Van Dyke.*

That Columbus was a Jew, born Christoval Colon, but changed his name to avoid persecution by the Spanish Inquisition, is the assertion of Rabbi Abram Simon, of Washington, D. C.

"MODERN" DISEASES ARE OLD.

A communication made to the Academy of Sciences, Paris, shows that men of the stone age suffered from gout, dyspepsia, rheumatism and many other modern diseases. While in charge of prehistoric excavations in Lizy-sur-Ourq in the Seine-et-Marne department, Archeologist Baudoin, who is equipped with wide medical knowledge, has been examining over a hundred skeletons of the stone age, men and women, and he finds that a large proportion have deformations of the spinal column. These are stated to be certain evidence that the men of a thousand centuries ago suffered from many forms of chronic arthritis, such as are common nowadays. The results have been confirmed by other scientists, and it is now believed possible to construct a complete pathology of the stone age.

THE MOON IS OVAL.

During the recent total eclipse of the sun Prof. Castadilobo of Coimbra University, Portugal, made important observations which led him to the conclusion that the moon is not round but oval. He took cinematograph pictures of the whole of the eclipse and was rewarded in finding from the films that at the time of the maximum obscuration the moon, while completely blotting out the sun at top and bottom, did not quite cover it on the right and left. From this he concludes that the satellite, like the earth, is not a sphere. The difference between the greatest and least breadth is, however, estimated by him at less than three miles.

HISTORY OF EARLY COINS.

Dolles, sums of money given at funerals in England, Scotland, and Ireland, are supposed to hark back to the sin offerings of the Hebrews. Denarius was the chief silver coin among the ancient Romans, and was worth about 15 cents.

A ducat was any coin of gold or silver struck by a duke, and has various values. The first was coined by the Duke of Ravenna, when Justin was Emperor. Doubloon is a gold coin of Spain, Mexico and South America, worth about \$15.

Farthing means fourthing, being originally the fourth part of a penny. The shekel of silver among the ancient Jews was worth about 60 cents, and that of gold about \$10. A touch piece was a gold coin struck during the reign of Charles II, and was given to each person the King had touched to cure the King's evil.

Less illiteracy exists in Germany than in any other nation of the world, according to a bulletin by the Bureau of Education. Only three persons out of 10,000 cannot read and write in the Kaiser's kingdom, while in England the proportion is 150 out of 10,000, United States trails a bad third with 770 out of 10,000.

Women of the United States Army and Navy, it was announced will back the movement of the Woman's Titanic Memorial to erect here a great monument to the men who died on the ill-fated ship to save the women and children.

The U. S. Supreme Court will not sit again until October 14th.

STATE MISCELLANY

Bits of News About People and Events
Throughout The State.

Arrangements for policing Baltimore during Convention week already have been practically completed by Marshall Farnan and Deputy Marshal Manning. In addition to augmenting the detective force by out-of-town plain-clothes men from Boston, Philadelphia, Washington, Pittsburgh, Chicago, Cincinnati and St. Louis, 50 policemen will be detailed for plain-clothes duty. This, with the regular city detectives, will constitute a force of about 75 plain-clothes men. The plain-clothes men will be detailed to the railroad stations and steamboat wharves, to the outside of the Armory and the inside of the big building.

The first firing tests attempted by army aviators from an aeroplane were successfully accomplished at the army aviation field, College Park, Md. Capt. Charles DeF. Chandler, firing 40 shots from a distance of 250 feet in the air, blazed the target five times. He used an automatic machine gun.

There is going to be a children's float in the suffrage parade which the Just Government League is arranging to hold during the meeting of the Democratic National Convention.

William Jennings Bryan has been engaged by the Baltimore American and Star to report the two National Conventions.

Baltimore will soon have an institution similar to those recently established in London, Berlin, Paris, Heidelberg, New York, Buffalo, St. Louis and Boston. It is the Skin and Cancer Hospital of Baltimore, located on North Mount street, which will be formally dedicated next month by Mayor Preston.

Rabbi, talmudist, staunch fighter for Orthodox Judaism, Rev. Abraham C. Levinson died at his home 21 North Broadway, at 6 o'clock Saturday. Bright's disease, sequel to a stroke of apoplexy he suffered in October, 1911, was what ended the life of Baltimore's foremost divine of the ancient Hebrew faith. Doing what they could to save him were three physicians; Dr. C. W. McElfresh, S. Wolman and J. C. Josephson.

Boy Scouts will be pages at the Democratic National Convention.

Fred A. Becker, who on February 27 last held up and robbed the passengers on a Baltimore and Ohio train, appeared in court and entered a plea of guilty. He was sentenced by Judge Robert Henderson to serve nine years in the Maryland Penitentiary.

Maj. W. Stuart Symington, Confederate veteran and one of Baltimore's most widely known men, died of apoplexy Sunday night.

Kermit Roosevelt, son of Col. Theodore Roosevelt, has written to J. Rush Street, of Farmington, Hartford county, that he expects to come to this county in June to school himself in the art of horse jumping. Kermit was a guest of the Elkridge Fox Hunting Club last fall, and found that he was on one of the best fox-hunting fields in America.

Governor Goldsborough Monday announced the appointment of former Mayor E. Clay Timanus, of Baltimore, as Public Service Commissioner to succeed Mr. Benjamin T. Fendall.

Governor and Mrs. Goldsborough left Annapolis early this morning on an automobile tour as far as Springfield, Ohio. They were the guests of Mr. and Mrs. E. O. Bowman, Mr. and Mrs. Charles L. Bauer and Doctor and Mrs. Robert Rind, all of Springfield, who have been the guests of the Governor and Mrs. Goldsborough.

Former United States Senator Wellington, who was stricken three weeks ago, is improving at his home in Cumberland where he has been in the care of two trained nurses since he became ill.

Deputy Sheriff Ed Wise, of Chevy Chase, and special deputies have been rounding up Washington autoists who were operating in and about Chevy Chase without regard to the speed regulations. The officers were mounted on motorcycles and experienced no difficulty in overtaking the speeders, nineteen of whom were taken before Justice of the Peace Clarence E. Dawson, of Chevy Chase and fined amounts ranging from \$1 and costs to \$15 and costs.

A number of these arrested are members of the exclusive Chevy Chase Club some of them being Colonel W. H. Downey, M. E. Danforth, H. M. Peters, H. T. Miller, J. E. Smith, B. M. Bramhall, W. W. Shugrue and W. N. Scherrer.

Deputy Wise declares that he intends to break up speeding. Several accidents, he says, have occurred in or near Chevy Chase recently from fast driving.

Five hundred Princeton students will go to Baltimore in a special train on June 25 to root for the nomination of Gov. Woodrow Wilson. They will be reinforced by a delegation of 100 students from Harvard and 25 each from Yale and Columbia. The program for the trip was made up yesterday.

William F. McCombs, the local manager of the Wilson campaign, will establish headquarters in the ballroom of the Emerson Hotel.

J. C. Hammond, in charge of Governor Harmon's local bureau, said that arrangements are being made to carry

2,000 supporters of the Governor from the New England and Middle Western States to the convention.

Applications for seats in the press stand at the Democratic convention have been received from men in London and Berlin, who desire to write up the proceedings of the convention for Europe. Five hundred press men will be there, and the results will be known all over the civilized world.

Cumberland is experiencing an improvement boom.

Suggestions have been made for the restoration of the old Boonsboro Monument in Washington county. The date of the proposed restoration is July 4th. The plan has been heartily endorsed by many people of the vicinity who think that the historic memories of Maryland should be preserved.

Sunday, June 23rd, is to be observed as anti-cigarette day in Maryland. The movement against cigarettes has become state wide, and is to be observed by all the Sunday schools in the state.

Elmer Hastings, a 10-year old boy, was burned beyond hope of recovery, by a prank of an older companion who after pouring gasoline over his clothes applied a match.

Twelve valuable horses, three cows, barns and other buildings were destroyed in a \$15,000 blaze on the Hoen estate in Baltimore county on Wednesday.

Wesley Miles, colored, charged with criminal assault on the 14-year-old daughter of ex-Sheriff William J. Phillips, of Somerset county, was indicted at Princess Anne.

William T. Warburton, of Elkton, was the orator at the commencement exercises at the Maryland Agricultural College.

The officers of the Maryland National Guard, now in camp, gave a reception and ball in the armory, at Westminster. The Maryland State Firemen's Association is in annual convention at Hagerstown.

Commencement exercises were held at Western Maryland College on Wednesday.

THE LANGUAGE OF BUNK.

The clerk at the counter inquires of my trip and squeezes my hand as I set down my grip; the boy with the buttons takes charge of me then and says he is happy to see me again; they 'phone up to ask me if everything's nice and if I'm in need of ink, paper or ice; the waiter smiles on me and helps with my chair and says he's delighted to see me back there; the boots and the barber are smiling and tell me how they are glad I am looking so well; they make me so welcome, the lift-boy and bell, they cast o'er my coming a glamorous spell; you see, they have dreams of the forthcoming plunk, and I smile—and like it—and know it's all bunk!

My tailor, who garbs me, says I'm not too stout; my figure is better since it rounded out; he's proud of my shoulders, and says I am straight as many a youngster not half-fifty-eight; he stuffs me and pads me and winds me with tape and gives me a style and presentable shape; he says it's a pleasure to do things for me because I have taste and know how things should be; he has a swell pattern of goods that he got with me in his mind—one exclusively bought; a little too good for the average trade, but oh! such a nobby and delicate shade; and so he casts bait for the forthcoming plunk—and I smile—and I like it—and I know it's all bunk!

The candidate sees me and smiles with delight and anxiously asks if the folks are all right; he hears I'm in everything all to the good and making a winning—he knew that I would; he locks arms with me in a brotherly way and whispers important things he has to say; he sends his regards to my wife, whom he knew as the prettiest girl in a county or two; he'd like to do something for Billy, my son, and wants me to say what I'd like to have done; he's known that rare youngster since he was knee-high and watched him grow up with a fatherly eye; Bill ought to be Consul to Smyrna—he'll see, because he would like to do something for me; he leaves me in oceans of heated air sunk, and I smile—and like it—and know it's all bunk!

And then I go home to my wife, and she smiles and says she was just looking over the styles; she knows I am proud of the whole family and so she just strives to do credit to me; she says she has heard how the women all say there's no one like me in a generous way; they all seem to know that there's one man in town whose wife must be happy, and his name is Brown, and her life with me, why, she says that it seems like one long succession of silver-lined dreams; and then comes the sample, the style and the price—she knows I will get it for her—I'm so nice; she'll get the goods ready and have it all shrunk—and I smile—and like it—and know it's all bunk!

J. W. FOLEY.

The damage done to the crops by the frost which visited the entire western section of New York State last Friday night and Saturday morning is much greater than first reported. Almost every farm within a radius of fifty miles suffered.

Brigadier general W. P. Hall, after forty-five years of honorable service, went on the retired list. General Hall has seen much active service in Indian fighting and the Spanish War.

PERSONALS.

It is the aim of THE CHRONICLE to publish as many personal and social items as possible, but it frequently happens that those who have guests visiting them, and those who entertain, fail to send a list of their friends, or an account of these events, to this office. Readers who live at a distance are always interested in what is going on "at home," and for that reason, if for no other, this column should be filled every week. It is of course understood that anonymous contributions will not be published. Names of persons furnishing items will be withheld.

Misses Anna and Alice Annan were in Baltimore, Wednesday.

Miss Elizabeth Annan, of Taneytown, who has been visiting the Misses Annan, returned home Tuesday.

Mr. M. L. Fesenmeier who was in Emmitsburg Saturday returned to his home in Cumberland Monday. Mr. Fesenmeier is manager of the G. B. S. of Baltimore, and Vice-President of the Cumberland Brewing Company.

Mr. and Mrs. L. F. Byron and party, of Hagerstown, were in Emmitsburg Tuesday.

Mr. and Mrs. E. E. Bishop and daughters, Edith and Pansy, of Hanover, Pa., visited Mr. J. D. Caldwell last week.

Mr. William Rogers spent Sunday with his family.

Mrs. E. C. W. Schebel and brother-in-law, Mr. H. D. James were in Gettysburg Tuesday.

Mrs. A. A. Annan and daughter Miss Luella Annan, arrived home on Monday from an extended visit to Atlantic City.

Mrs. Joseph Caldwell and daughter, Miss Ella May, started Wednesday for Dayton, Ohio. They will stop at Harrisburg and Webster for a few days en route. Mrs. Caldwell will return in a few weeks. Miss Caldwell will remain until next fall.

Prof. P. F. Strauss left on Monday to attend the 125th anniversary of Franklin and Marshall College, also the fifth anniversary meeting of the class of 1907, of which he was Valedictorian.

Miss Ruth Shuff returned to the hospital in Baltimore Monday to receive treatment. She was accompanied by her father, Mr. M. F. Shuff.

Mr. Charles Landers, wife and sister-in-law spent a few days in Baltimore this week.

Mr. Clarence Frailey and Miss Estelle Cordori were in Gettysburg Sunday.

Miss Mary Burdener has returned from Hanover.

Mr. John Reifsnider, of Westminster, Md., was in Emmitsburg Wednesday.

Mr. and Mrs. H. R. Grimes and son, Gerald, started Wednesday evening for York Harbor, Maine, where they will stay until September. Mr. and Mrs. Grimes have been in Emmitsburg since March.

Mr. Rowe Ohler returned on Tuesday from an eight day visit to Canton, Ohio. Mr. Ohler left on the third of June to attend the 40th Reunion of the Smith family which went West in 1826. This is Mr. Ohler's first visit to Canton for 19 years.

Burgess Rowe was in Baltimore Saturday on business.

Mr. J. S. Annan was in Baltimore Wednesday.

Miss Ruth Gillelan made a business trip to Baltimore Wednesday.

Miss Marion Hoke has had the steps in front of her residence painted.

Miss Madeline Frailey is visiting in Gettysburg and Idaville.

Miss Helen J. Rowe, of Baltimore, is visiting her father Mr. Nathiel Rowe.

Mr. William Morrison and Frank Shuff spent Sunday evening in Rocky Ridge.

Mr. Thomas Gingell and Lester Topper spent Sunday evening in Loys.

Mr. H. D. James, of Washington, is spending a few days in Emmitsburg, the guest of Dr. and Mrs. Schubel.

Miss Hazel Patterson, of Mount Savage, Md., has returned to Emmitsburg for the Summer. Miss Patterson has as her guest, Miss Walls, of Baltimore.

Mr. J. M. Wingerd, of Jamaica, Long Island, spent several days here.

Mr. B. M. Kershner was here on Tuesday.

Mr. Robert Sellers, who spent a few days in Emmitsburg, has returned to Lewisburg, Pa., for the commencement exercises of Bucknell University.

Mr. Henry Reck, of Fairplay spent Sunday with Mr. J. W. Curry.

Mrs. John Cool and daughter, Mary, spent Tuesday and Wednesday with Mr. James Curry, who is still confined to her bed.

Miss Ethel Grace Patterson is spending the week in Baltimore, the guest of Mrs. August Pepler.

Mr. Fred A. Cooper, of Chicago, was here Monday.

Bishop and Mrs. John G. Murray and Miss Ether Murray were here Monday.

Prof. Bernard J. Eckenrode, of the McGill Institute, Mobile Ala., is home for his vacation.

Mr. Clarence C. Hoke is spending a week or ten days in Baltimore.

The Misses Susan, Emma and Bertha Shorb returned home on Friday after spending sometime in Waynesboro, Pa.

Mr. William Morrison was in Frederick on Wednesday.

Mr. A. Ross Hostetter, of Hanover, Pa., made a business trip to this place on Wednesday.

Mr. Charles Stokes has returned to Woodstock, Ontario, Can.

Miss Mary J. Shuff is visiting some of her friends in New York City.

Rev. Guy King, of Fairfield, Pa., was in town one day last week.

Mr. Joseph Shuff, who had been visiting his parents, Mr. and Mrs. M. F. Shuff, has returned to Philadelphia.

Mr. Charles Shorb and mother, visited in Waynesboro on Saturday. Mr. Shorb returned on Sunday. Mrs. Shorb will remain until after the Firemen's Convention in Hagerstown.

The out of town people who attended the funeral of Mr. John F. Bowman were: Mrs. William Fair and daughter, and Mrs. Isaac Gelwicks and son, of Lemoyne, Pa.; Mr. and Mrs. Theodore Classon, Mr. Harry Bowman, Mrs. Lucy Classon, Mr. and Mrs. E. Classon, daughter and son, Mr. and Mrs. E. Adelsberger, all of Taneytown; Mrs. Daniel Johnson, Mrs. Ernest Wett and two sons, Mr. and Mrs. John Seltzer and son, Mr. and Mrs. Scott Bowman and son, Mr. and Mrs. Joseph Bowman, Miss Elizabeth Bowman, Mr. and Mrs. Richard Haffner and son, and Miss Dora Haffner, all of Waynesboro.

Mrs. Mary Little has returned after spending several months in Altoona.

Mr. Albert Humerick, of Altoona, Pa., visited his parents.

Mr. and Mrs. Charles Stahley and Miss Mae Bowling, visited Mr. and Mrs. James Sanders, of Gettysburg, on Sunday.

Mr. Arthur Redding, of Philadelphia, spent Saturday at Mr. Michael Hoke's.

Big Congregation At Apple's Church.

On Sunday June 9th, 1912 the church known as Apple's Reformed Church, near Thurmont, was rededicated. This is one of the oldest congregations in this section. It was organized on April 15th, 1770. The ground for the church was donated by Mr. Peter Apple, who owned and lived on an adjoining farm. The church was built of logs. One corner of the church was called the "gun corner" because it was there that the guns were placed during service. These were necessary at that time as a protection against the Indians. Nearly a log school house. The cemetery adjoining the church is a most interesting place. There is one stone bearing the date of a birth 1696. The centennial of this church was celebrated in 1870, during the pastorate of Rev. N. E. Gilds. This centennial sermon is on record. The church, then as it is today, is 142 years old. Before the rededication the sum of \$1000 was spent on its improvement, and it is to-day a very comfortable country church.

The dedication service in the morning was preached by Rev. J. B. Shontz who is at present supplying the church. Rev. Mr. Huebner of Graceham, and Rev. Mr. Gluck of Emmitsburg spoke at the service in the afternoon. The evening service was in charge of Rev. Mr. Reineke, of Westminster, and Rev. Mr. Gluck of Emmitsburg.

Collector Gone—Accounts Short.

J. E. Wilhide, tax collector for Thurmont, has disappeared, and it is discovered that his accounts are short about \$200. The shortage was discovered by L. R. Woesche, a member of the Board of Commissioners and also its secretary. He reported the matter to Mayor William J. Freeze, who is the father-in-law of Wilhide, who notified the latter to appear at Mr. Woesche's next morning. Wilhide left Thurmont almost immediately. He is reported to have gone to Frederick, where all trace of him was lost. He has a wife and two small children.

ALBERT DOTTERER.

Mr. Albert Dotterer, of near Emmitsburg, died suddenly at the Frederick city hospital Tuesday night. He was aged 68 years. Mr. Dotterer underwent an operation about three weeks ago, and his condition seemed to improve. The funeral took place this morning at 10.30 o'clock, Rev. Dr. Charles Reinwald, officiating. The interment was in the Lutheran cemetery. The deceased is survived by his wife and two sons.

Some Berries.

Mr. J. W. Slagenhaup, of Harney, left at THE CHRONICLE office a box of strawberries that were not only delicious as to taste but prize winners for size. They were specimens of the now famous "Emmit" Strawberry, a new variety of berry, produced by Mr. Slagenhaup, noted for its fine flavor and remarkable firmness.

Last Friday evening a very enjoyable dance was given in Spangler's Opera House. The music was furnished by "Joe," the violinist, and his partner, the harpist. Although arranged for on very short notice the dance was well attended.

Dr. B. I. Jamison is having his residence painted.

Mr. Thomas Lansinger has repaired the steps in front of the Lansinger property, East Main street.

Mr. Harry Maxell has fifteen acres of clover which measures 4½ feet high.

Mr. J. T. Gelwicks is building a new house on Federal street, adjoining the property occupied by Mr. Edward F. Brown.

On Monday evening a delightful dance was given by some of the young people of Emmitsburg. Music for the occasion was furnished by the Union Bridge Orchestra. Those present were:

Misses—Louise Sebald, Lottie Hoke, Annie and Estelle Codori, Louise Beam, Helen Shuff, Ruth Patterson, Grace, Carrie, Eva, Anna, Elizabeth, Nellie and Frances Rowe; Mrs. D. E. Stone.

Messrs.—D. E. Stone, Merle Moritz, Herbert Gingell, Clarence Frailey, Clarence Hoke, Charles Eichelberger, Robert Gillelan, William Rowe, Ned Annan, Francis Rowe, Samuel Annan.

Mr. Frances E. Kreitz and neices, Mrs. David Lloyd and Mrs. Edward King, while walking in the mountain on Sunday were attacked by a large black snake, which they succeeded in killing. It measured five feet and two inches in length.

"Grant," a large collie dog owned by Messrs. Patterson Brothers, of this place, was run over and killed by an automobile owned by Mr. Hess, of Waynesboro. The accident took place on the mountain near Blue Ridge Summit. The collie was a very valuable cattle rounder and its owners feel its loss greatly.

On Monday evening several members of the Presbyterian congregation gave Rev. Mr. L. B. Hensley a surprise in honor of his birthday. Those present were: Mr. and Mrs. J. S. Annan, Mr. and Mrs. Samuel Annan, Mrs. George Cook, Misses Helen and Alice Annan.

Dr. and Mrs. E. C. W. Schubel have removed from apartments at Hotel Slagle to Frederick street.

Mr. Thomas Lansinger is repainting the Lansinger homestead on East Main street.

Mr. Harry Hopp is having the cellar of his house on East Main street cemented. Mr. Charles Rider is the contractor.

A very interesting engine, a gasoline traction, passed through Emmitsburg on its way to Waynesboro. The engine was an International, owned by Mr. Joseph Spangler, of Littlestown, who was taking it to Waynesboro to pull back a threshing machine.

Miss Travis Hensley entertained a few of her friends on Wednesday afternoon in honor of her birthday. The guests were: Misses Harriet Beam, Mildred Biggs, Margaret, Pauline and Ethel Annan, Esther Agnew, Margaret Hays, Helen Strauss; Masters Joseph Zimmerman, George and Isaac Cook.

The stone crusher began work Wednesday morning and crushed 100 tons of stone the first day. Burgess Rowe intends to have crushed 800 tons, which will be used to repair and resurface the streets.

Some alarm was caused Friday evening by the inability of some of the

NEW AND PROMISING BUSINESS

Local Company Buys Hays Patents on Acetylene Generators and Will Make Them in Large Quantities.

The Emmitsburg Generator Company, incorporated, and formed almost exclusively of local business men, has acquired the patent rights on the Hays Acetylene Generator, so long and successfully manufactured by Messrs. James T. Hays and Son. This company has made arrangements to build these machines on a large scale and already a force of men are engaged in this pursuit. The factory is under the charge of Mr. Thomas C. Hays, one of the creators of the generator, and at present is located in the Hays building on West Main street.

Ground has been purchased for the site of a large factory which will be constructed as soon as the business has been thoroughly organized, and when that time comes employment is promised for at least twenty-five men.

The directors of the company are Messrs. J. C. Rosensteel, president; J. Lewis Rhodes, vice-president; H. M. Warrenfeltz, treasurer; Thomas C. Hays, Guy K. Motter, and Sterling Galt. Mr. Hays acts as superintendent and Mr. E. L. Higbee has been appointed secretary to the company.

The Hays Acetylene Generators have been manufactured successfully for over fourteen years and their makers were among the first in the business. The machine itself is considered by experts as the best being marketed to-day. With such a long and splendid record behind it and the fact that it is to be built under the personal supervision of Mr. Hays should give this generator a wide market and the company that makes it abundant success.

RITCHIE—WANTZ.

The marriage of Miss Clara Wantz, only daughter of Mr. Robert M. Wantz, to Mr. Martin R. Ritchie, of Adams-town, Frederick County, took place on Wednesday at twelve o'clock at Cedar Hill, the home of the bride. Owing to a recent death in the family only the relatives and a few intimate friends were present. The ceremony was performed by the Rev. James Hammersley of the M. E. Church. The bride was attired in a mode silk voile trimmed in silk fringe, with gloves and shoes to match.

Immediately after the ceremony a reception was held, after which the happy couple left in an automobile for Frederick where they took the train for Washington. After a brief stay they will return to Frederick their future home. The bride received many beautiful and useful presents. The guests were: Mr. and Mrs. Edward Ritchie and son, Leonard, Mr. and Mrs. B. F. Scarff of Adamstown, Mr. and Mrs. John Deihl, Mr. and Mrs. Wilbur Mickle and daughter, of Seven Stars, Miss Virginia Caldwell, of Fairfield; Miss Florence Hammersley, of Thurmont; Mr. and Mrs. Robert Wantz, Mr. and Mrs. James G. Bishop, Miss Mary and Anna Bishop, Mr. and Mrs. John Wantz, Miss Nellie Wantz, Masters Charles and Russel Wantz, Mrs. Louise Caldwell, Misses Mina Ashbaugh, Mary Weigand, Mabel and Ruth Ashbaugh, Fannie Caldwell, Jessie Eline, Mary Adams, Rosanna Ohler, Rachael Roger, Violet Ashbaugh, Bessie Roger, Ada Ashbaugh, Messrs. Earl Adam, Herbert Roger and George Ashbaugh.

Card of Thanks.

Mr. and Mrs. John Little wish to thank all who were so kind to them during Mr. Bowman's sudden illness and death.

SPECIAL NOTICE.

Mountain View Cemetery is private property and trespassing upon it is unlawful. Information that will lead to the conviction of trespassers or those who break trees and shrubs or deface tombstones within the enclosure of the said cemetery will be paid for, and all offenders will be prosecuted.

DOTTERER.—On Tuesday, June 11, 1912, at Frederick, Albert Dotterer, of near Emmitsburg, aged 68 years. Funeral Friday, at 10.30 a. m. Rev. C. Reinwald, D. D., officiating. Interment in Lutheran cemetery.

neighbors to arouse Mrs. Catherine Hyder, who resides on East Main street. Mrs. Hyder lives alone and had left directions to be called. At first it was thought she had met with some accident, but this was later found not to be the case.

A very noticeable improvement is the relaid gutters in front of the Gillelan and Hoke properties on West Main street.

Master Charles Ridenour, pupil of School No. 6, was present every day during the school year of 1911-12.

Miss Marian Hoke has had the new steps in front of her property painted.

Prof. Bushman Makes Daring Flight In His Aero-cleave.—Dr. Glass At The Wheel.

Last Saturday night, as announced in THE CHRONICLE of Friday, Professor Wm. Bushman, accompanied by Dr. John Glass made a daring flight from Poplar Ridge in the Professor's new model aerocleave, an invention which is destined to revolutionize aerial navigation.

This new air craft is a seven cylinder bicuspid aero splitter. It was designed, according to its inventor, "to bite chunks out of space—to plow furrows through high-altitude atmosphere."

That the machine comes up to specifications is attested by the success of Saturday's death-defying dip from the highest pinnacle of Poplar Ridge and the subsequent soar of 1251½ feet into the buoyant air of a cloudless night.

The affair was pulled off without a hitch, and very quietly at that. Prof. Bushman took his place in the engineer's quarters and Dr. Glass firmly gripped the steering wheel. At a given signal the craft shot up into the air, flew low over Flat Run bridge, again ascended, circled around the Lutheran church steeple and took a S. S. W. tack towards Carrick's Knob.

It was the original intention of Prof. Bushman to include Thurmont in his flight, but as the trial was primarily for the benefit of Emmitsburg the course was changed and the exhibition confined to local territory.

After the flight Prof. Bushman in a short interview said: "My aerocleave is all that I claim for it. The engine responded beautifully, the steering gear heeded every wrist turn and I am so pleased with the outcome of to-night's trial that I am seriously thinking of crossing the Atlantic in my airship." "Dr. Glass, continued the Professor, "is a wizard with the wheel. On the up-flight, just south of the Knob, we encountered a large school of flying fish and a case of empties. Did the Dr. flinch? Not he. He went around them, ducked a covey of spring heifers and brought our craft to safety without turning a hair."

The great Democratic pilgrimage has started.

Paint Now

If your property needs it; don't wait for the price to come-down.

There are two parts of a job: the paint and the work; the work is more than the paint; and in never comes-down.

The cost of paint is about two-fifths; the work three-fifths.

Paint is up \$5 an average job, and won't come-down in a hurry; too-many jobs put-off.

Men are waiting for \$2 or \$3; they don't know it; they think they are waiting for \$20 or \$25.

Why don't men use their heads?

DISCOVERER OF AMERICA
IS FITTINGLY HONORED
Monument To Columbus Is Unveiled
At Washington By President Taft. —
Mass For Soldier and Sailor Dead.

At the unveiling of the magnificent statue of Columbus on the plaza in front of the \$5,000,000 Union Station at Washington, D. C., President Taft last Saturday pronounced the country's eulogy upon the intrepid sailor "who tore the mantle of mystery from the unknown Atlantic and revealed a continent."

Fifty thousand persons were at the dedication and on Sunday was held the second annual field mass for dead soldiers and sailors of the Spanish War, under the auspices of St. Patrick's Church and attended by Cardinal Gibbons.

As a spectacle, the gathering on the White house grounds was one to delight the eye of those who love the beautiful. As a religious ceremonial it was deeply impressive, inspiring combined reverence for one's God and country.

Knights of Columbus gathered from all sections of the country, were conspicuous in the outdoor worship. A company of uniformed Knights from New York city stood at attention immediately in front of the improvised pulpit while the impressive ceremonial proceeded.

Monsignor Russel delivered the sermon from a temporary pulpit erected some 100 feet in front of the altar.

The memorial stands on the plaza of the Union Station. A granite shaft rises forty-five feet out of the fountain, forming the background of a marble heroic statue of Columbus, wrapped in a cloak of his period. Surmounting the shaft is a globe, supported on the wings of four American eagles. The statue stands on the prow of a ship. At the feet is a graceful feminine form typifying "Discovery."

The fountain is semi-circular, 70 feet long and 65 feet wide. Ferdinand and Isabella of Spain are honored with a medallion on the rear of the shaft. The figure of an Indian on one side of the shaft, about to take an arrow from his quiver, and a patriarchal Caucasian on the other, represents the New and Old Worlds. Two lions guard the extremities of the granite balustrade in front of the fountain. The memorial was the production of the late Daniel H. Burnham, the architect, and Lorado Taft, the sculptor, of Chicago.

TIME LIMIT GIVEN THE
CUBANS TO PUT DOWN WAR
United States to Land Army in Cuba if
Gomez Does Not Crush Rebellion
Within One Week.

The note of warning sent by President Taft to President Gomez, June 6, was the last word from the United States. The next warning Cuba will receive will be an order to the United States marines now in Cuba to take the aggressive, run down the rebels and brook no interference from the Cuban administration. The sending of this order will be the signal for the starting of the army to Cuba.

If the army is ordered to Cuba the 4,000 men now ready will be but the vanguard. An army of 10,000 men will follow. Such an occupation of Cuba would be indefinite.

In one week it will be determined whether the United States will intervene in Cuba to the extent of an occupation of the island and an assumption of the duties of Cuban government.

If President Gomez shall not have crushed the rebellion within the one-week period, or demonstrated that the Government of Cuba is able to cope with the situation, the 4,000 troops of the regular army now waiting marching orders will be sent to Cuba and the United States will occupy the entire island.

Girls' Colleges Receive Gifts.

Several girls' colleges have recently received gifts and endowments amounting to many thousands of dollars. Mrs. Russell Sage has given \$75,000 to Vassar; another donor, supposed to be Miss Helen J. Gould, has given the same institution \$150,000 with which to build a students' hall. The alumnae voted \$1,200 to keep the grounds in better condition and to build a house for the secretary, while the class of 1887 is to build an iron gateway which is to be dedicated to President Taylor. At Wells College, \$39,000 in two donations was announced, Andrew Carnegie giving \$19,000 for the completion of the library, and an unknown donor \$20,000.

FOR COOPERATION AMONG
BOARDS OF TRADE
State Association Employs Mr. G. A.
Waterman, Who Will Devote His
Time to Organization.

Through the employment of G. A. Waterman as director of the Associated Boards of Trade of Maryland, this state is the first to have a man trained in commercial organization work to devote his entire time to state wide co-operation in publicity and other lines for the advancement of the material interests of the whole state and all its parts.

Mr. Waterman, who took charge on June 1, will get over the state as soon as practicable, acquainting himself with localities and conditions and rendering

G. A. WATERMAN.

whatever services he may in strengthening the local commercial organization and in bringing them into closer touch with each other for the common good.

At an early day the executive committee will issue a statement of the broad policy of the Associated Boards of Trade of Maryland, together with a prospectus of the special lines of work to be followed. Publicity of Maryland, in such ways that each section and every city and town can take advantage of the general publicity, will be the key-note of the policy. A salient feature of the publicity campaign will be the early issuance of a Maryland book.

For the fullest fostering of a co-operative spirit, the executive committee will probably create a general advisory body comprising at least one representative from each organization holding membership in the state association. The director's temporary headquarters will be in the rooms of the Greater Baltimore Committee, 763 Calvert Building, Baltimore, which, in addition to being a contributing member of the Associated Boards of Trade of Maryland, has placed its quarters and its office force at the service of Director Waterman in order to facilitate his work in behalf of all Maryland.

Safe Opened With Electric Drill.
What is said, by the police, to be a new gang of thieves and professional safe crackers have commenced operations in New York. Their method of opening safes is an innovation in the profession, an electric drill is used to burn holes in the safe door; through these holes wires are dropped, and with an attachment to the lighting fixtures, the tumblers of the safe are burned out. This method proved very successful recently, when they relieved a jeweler's safe, in New York, of \$2,500 in jewels and cash.

This gang has caused no little worry in police and detective circles; a skilled electrician is believed to be one of the operators. Experts from the Finger Print Department at Police headquarters have examined the safe, but refuse to state whether or not they got any clues.

Engineer Urges Intervention.
Edgar W. McCormick, an American planter and owner of extensive sugar plantations in Cuba, recently spoke of existing conditions in Cuba. He claims that foreign interests in the island are threatened because of unrest among the natives and the lax administration of justice. Mr. McCormick claims that the present trouble is a direct result of the last intervention of Cuba by the United States, and that we should either intervene a second time, or step aside and allow some European nation to intercede. The reports of engagements seem to be very much exaggerated, the insurgents hoping that America will recognize them as before.

Frederick Gets No Charter.
The outcome of the campaign to give Frederick a new charter embodying the commission form of government was the defeat of the project by a 635 majority. The defeat of this new charter is a severe blow to a number of the leading citizens of Frederick who were strongly in favor of it. The charter was the work of a committee of citizens named by the Frederick Board of Trade and provided for a mayor and two commissioners, the initiative, referendum and recall.

Any absent Emmitsburgian would appreciate a subscription to The Chronicle. 52 weeks \$1.00.

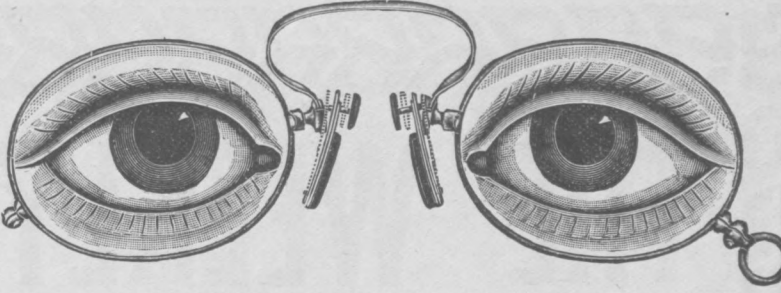

Senator Root denies that he will not serve as temporary chairman of the Republican National Convention.

EXCEPTIONAL OPPORTUNITIES
are presented in the present low prices on high-grade well-secured investment bonds. Many gilt-edge securities are now selling on a 5 per cent. to 6 per cent. basis; this opportunity should be taken while it is here.

Underlying conditions are improving and it is to be expected that the low prices now prevailing will not hold much longer. Bond prices by the middle of the year should be materially higher than they are at present, and already the investment market is strengthening up.

Make your investment purchases now, through us. Our facilities for the purchase and sale of securities are equal to those of larger city firms and more convenient to you.

PERCENTAGE OF MALE POPULATION ENTITLED TO VOTE

Statistics as Given by Census Bureau on Those Who Can Cast Their Ballots in the Coming Election.

The Census Bureau has just completed a compilation of statistics of the various classes of the male population of the United States of proper voting age.

The potential voting strength of each State and city is expressed by the number of its males twenty-one years of age and over, excluding the foreign born, who have not become naturalized. But this does not mean the actual number of voters. It represents, rather, that number of males who, from the standpoint of age alone, are eligible to vote, aside from any qualifications based upon education, length of residence, or considerations of a like nature imposed by the national or State government.

The table, as issued by the Census Bureau, shows that the twenty-five principal cities of Massachusetts have a total of 646,783 males of age, out of a total population in the whole State of 1,210,669; the twenty-one principal cities in New York have a total of 1,922,500 males of age, out of a total

population of 2,836,773. Of these, 1,433,749 are in New York city alone. Of the other large cities, Chicago has 700,590 males of voting age; Philadelphia, 468,873; St. Louis, 221,913; Boston, 208,321; Cleveland, 177,388; Pittsburgh, 166,424; Baltimore, 163,554; Cincinnati, 113,919; Minneapolis, 105,805; Milwaukee, 113,106; Atlanta, 44,510; New Orleans, 96,967.

The total of the various States is given as follows: Alabama, 513,111; Arkansas, 395,824; California, 920,397; Colorado, 271,648; Connecticut, 347,692; Delaware, 61,887; District of Columbia, 103,761; Florida, 214,195; Georgia, 620,616; Illinois, 1,743,182; Indiana, 822,434; Iowa, 666,672; Kansas, 508,529; Kentucky, 603,454; Louisiana, 414,919; Maine, 235,727; Maryland, 367,908; Massachusetts, 1,021,669; Michigan, 870,876; Minnesota, 642,669; Missouri, 973,062; Montana, 155,017; Nebraska, 353,626; New Hampshire, 136,668; New Jersey, 774,702; New York, 2,836,773; North Carolina, 506,134; Ohio, 1,484,265; Oklahoma, 447,266; Oregon, 257,118; Pennsylvania, 2,309,026; Rhode Island, 163,834; South Carolina, 335,046; Tennessee, 552,668; Texas, 1,003,357; Utah, 104,115; Virginia, 528,532; Washington, 441,294; West Virginia, 338,349; Wisconsin, 683,743.

ANCIENT CUSTOM TO BE REVIVED BY ENGLISH ROYALTY

King and Queen of England to Visit Henley Regatta in State Barge Two Hundred Years Old.

At the famous Henley Regatta which occurs the first week in July, the King of England and his Queen will be rowed down the course in the ancient State Barge.

Until the State barge was brought out for use by King Edward and Queen Alexandra at Eton in 1904 its existence had practically been forgotten. The historic craft was built by William III, in 1689. It is still a watertight, serviceable boat, some 40 feet long, built on the lines of Dutch naval architecture, and, like all the old State barges, heavy, highly ornamented, and canopied. On the stern is the royal coat-of-arms, and the carved lilies of France, quartered with the lions of England, are part of its decoration.

Next week the barge is to be taken from Virginia Water, where it now lies, to Tim's boathouse, at Staines, for thorough overhauling and redecoration. The scheme of color is to be red and gold—red being the color even of the oars. Almost as little popular certainly obtains as to the existence of a

King's bargemaster as to the existence of the craft itself. But there is a King's bargemaster—Mr. William Giles East, of the Pigeon Hotel, Richmond—and he will be in charge of the craft, with eight oarsmen under his direction. The State livery of the bargemen consists of a long scarlet coat made very ample below the waist. From the high collar to the waist extend two rows of gold buttons, bearing the royal cypher, and the space between these is almost filled with a bold outstanding design, composed of the Royal Arms, backed by the Rose, Shamrock and Thistle, with the letters "G" and "R," surmounted by the Imperial Crown. A black velvet peaked cap, like that of a jockey, red breeches, and stockings, and buckled shoes complete the outfit. The bargemaster's full dress consists of an Eton-shaped scarlet jacket, breeches, white silk stockings and cocked hat. The bargemen, it may be recollected, were in King Edward VII's Coronation procession.

The National Telephone Company of Great Britain has brought suit against the Postmaster-General for \$10,000,000, claiming that the latter's department has taken over the company's plant and business.

THE SITUATION IN CUBA IS BECOMING TENSE

The Rebels Hope to Force United States to Quick Action.—Race Riots Are Feared.

During the past week, affairs in Cuba have become more tense. The forces on both sides have been committing barbarous outrages, and as a direct result the depopulation of the interior has commenced. The rebel leader Estenoz has issued a written threat to capture and burn Guantanamo, in which city the main body of the American marine force is stationed. It is reported that they hope that in taking such an action they will force the United States to make a definite move. Men well informed say that the present revolt is a direct outcome of the one some years ago, and that the rebels hope to make America recognize their cause. Senator Nelson, of Minnesota, has recently come out with a statement in which he charges the Sugar Trust with inciting the rebellion, with the end in view of getting the United States to annex the island and thus do away with all duty on Sugar. Admiral Osterhaus, who is in charge of the fleet at the scene of the disturbance, is under orders to act as circumstances may demand. General Wood, chief of staff, is prepared to send five thousand men to the island on very short notice, if affairs should take a more serious turn.

The greatest fear, at present, in official circles, is that the situation might give rise to race rioting which would be the most serious aspect that conditions could assume. The rebels are reported to be losing ground in the engagements that have taken place in the Northern part of the province of Santiago, but in the immediate vicinity of Guantanamo, they have rendered the federal forces powerless.

Santiago, at the present time is overcrowded with fugitives and refugees, most of whom have lost all their property, and barely escaped with their lives.

An escaped lunatic recently caused much commotion in Marlborough House, Queen Alexandra's residence. He eluded guards and sentries placed in attendance and had the run of the entire house for several hours before he was discovered and taken into custody.

"I want to say that prospects of Mr. Underwood's nomination becomes brighter every day," is the way Congressman Heflin puts it.

THE WEEKLY CHRONICLE PIANO CONTEST

Would You Like a Piano

HAVE YOU SEEN THIS PIANO

Piano Retails for \$400

The Piano is War-
ranted for 10 Years

The
Weekly Chronicle
Is Giving It Away

DEAR MISS:—

With every yearly new subscriber accompanied with \$1.00 Cash 3,000 votes will be given; for two years paid in advance 7,000 votes; for three years in advance 10,000 votes. You can also get sales on Job Printing 3,000 votes for each \$1.00 worth of Printing, same for advertising. You will be surprised how easy it is to get subscribers to the Chronicle if you try. Contest Closes December 1st, 1912.

This Is The Piano We Give Away

ON DECEMBER 1st, 1912. VALUE \$400

RULES OF CONTEST

1. Name of Contestant will not be known.
2. Name of Contestant will not be published.
3. Every Contestant is credited with 2,000 votes to start with.
4. Every Contestant gets a number.
5. Standing of Contestants' numbers published weekly.
6. All votes must be brought in for recording on Saturday.
7. Votes must not be written upon.
8. Tie Votes in packages with Contestant's number and the amount on top slip only.
9. Color of Votes will change and must be recorded weekly.
10. Votes are transferable only before recording.
11. Contestant having the largest number of Votes on Dec. 1, 1912 wins the Piano.
12. Candidates not bringing in personal Votes will be dropped.

The Weekly Chronicle

IMPORTANT NOTICE

TO THE PUBLIC:

In order that no question can be raised later on we wish to announce that NO PERSON CONNECTED WITH THIS OFFICE OR ANY MEMBER of THEIR FAMILY will be allowed ONE PIANO VOTE. We positively will not sell these votes. One single Vote cannot be purchased from us at any price. We are going to give the Beautiful \$400 Claxton Parlor Grand Piano now on Exhibition at the Furniture Parlors of E. E. Zimmerman, Emmitsburg, Md., to the person presenting to us the greatest number of Piano Votes on December 1, 1912, ABSOLUTELY FREE. One vote for each cent brought in.

THE WEEKLY CHRONICLE.

Read Rules of Contest Carefully

First voting day Saturday June 15th, 1912 and every Saturday thereafter during contest. If inconvenient to bring them in person tie them as printed rule 8 and mail same.

Besides this Beautiful Piano there will be given away each week two or more SILVER PRIZES, Rogers Make, (warranted). These alone are well worth your time and trouble. These will be given to the one obtaining the largest number of votes that week, so be sure and have your votes recorded on Saturday of each week. Prizes will be awarded on the Monday following.

THE WEEKLY CHRONICLE.

DEAR MISS:—

Please do not say, Oh, this is too hard, I will not bother with it. You stand as good a chance as any one. This is an opportunity where you can win if you can get five or ten of your friends to help you now. A little later will show you how you can double your number of votes in one transaction, so easy you cannot fail. Remember no names are used, only you and your friends know your number. Watch THE CHRONICLE each week.

Yours truly,
THE WEEKLY CHRONICLE.

IMPORTANT NOTICE

Be sure and read rules of contest carefully.

First Voting Day
SATURDAY, JUNE 15, '12
And Every Saturday Thereafter.

Remember You Now Have
2,000 Votes to Your
Credit.

You can get 10,000 or 20,000 this coming week. Place your number on card enclosed in nominating letter and bring it here and receive 1,000 votes. Call for more cards.

PIANO IS ON EXHIBITION AT
