BASEBALL AN EDUCATOR

FACTOR IN PHILIPPINES

Has Civilizing Influence on Natives

YOUTH MORE SANE AND HEALTHY

Recent Book on the Philippine Problems Shows that the "National Sport" has Worked Wonders on the Islands.

What American occupation has already done for the Philippines is a theme for renewed admiration just now, asserts Current Opinion. Dean Worcester, who has just resigned his office in the Islands, tells of the reduction in deaths from small-pox from more than 40,000 a year to a few hundreds a year. Asiatic cholera has been eliminated, the number of lepers reduced from about 30,000 to 3,000, bubonic and pneumonic plagues have been stamped out and amebic dysentery, beriberi and malaria reduced to insignificant proportions. Some of the savage tribes who were dwelling in tree-tops when we went there are now building houses and roads and tilling farms. But the leading place, among all the civilizing elements we have introduced in the Islands, is given by Frederick Chamberlain, not to sanitation, but to education, not to industrial training, but to the introduction of athletics, and especially of baseball. Mr. Chamberlain, in his recent book on "The Philippine Problem" (Little, Brown & Co.), says: "The first game of baseball that the Islanders ever saw was between teams of our soldiers in 1898. In the few years since that time the sport has become engrafted into the Filipino taste as firmly as in that of the American schoolboy." What is the result? This, according to the same writer: "The increased self-respect and manliness shown by all who engage in these contests is very notable; and the hollow, narrow, thin, flat chest that was the mark of the more civilized Filipino boys is being replaced by the broader torso of the athlete. In 1911, the contest for championship of the Islands was fought out between 482 baseball clubs in more than 1,200 games! Other observers tell the same story. Albert Stevens Crockett, writing in the New York Times, says: "Actual measurements show that the young Filipinos are becoming more healthy and robust, and increasing in stature over their fathers. The game takes most of the youths away from cock-fighting and gambling, to which their fathers and uncles are still devoted, and it is contributing much to make the coming generation of Filipinos a sane and healthy people."

PROGRESSIVE PARTY PLANS AGGRESSIVE CAMPAIGN

Noted Speakers Will Stump Maryland In Endeavor to Elect State Ticket.—National Committee To Aid.

The Progressive party has formulated its plans for a very aggressive campaign this fall all over the state in the interest of its state-wide candidates, Ex-United States Senator George L. Wellington for the United States Senate, Joseph R. Baldwin for Comptroller, and William C. Smith for the Clerk of the Court of Appeals. The Progressive National Committee has promised to send a strong array of speakers, including, including former United States Senator Albert J. Beveridge of Indiana, Hon. Bourke Cockran of New York, Congressman, Victor Murdock, Progressive leader in Congress, and others. A very strong effort is being made by the Progressives to elect a Congressman from the Third District to succeed the late Congressman König. Their candidate is John H. Ferguson, President of the State of Maryland, District of Columbia and Baltimore City Federations of Labor. Everyone of the twenty Progressive members of Congress has promised to stump the third district for Mr. Ferguson.

Hurry Cost Thousands of Dollars.

"Never put off until tomorrow what you can do today," and "Procrastination is the thief of time" are very good theories and work out in most cases, but for adhering to them too closely Mrs. E. T. Stotesbury, of Philadelphia, paid \$14,777 on feminine finery said to have cost her \$50,000. By waiting until the next day, when the new Underwood tariff bill became effective, Mrs. Stotesbury could have saved several thousand dollars.

Col. Theodore Roosevelt sailed Saturday for his lecturing and exploring tour in South American.

PRaise AND BLAME FOR MARYLAND SCHOOLS

Bulletin Issued by United States Bureau of Education Concerns Itself with County School Conditions.

Praise and blame are alternately meted out in a bulletin on Maryland schools just issued by the United States Bureau of Education. The bulletin is an educational survey of Montgomery county but concerns itself with Maryland rural schools in general and with the whole rural-school problem throughout the United States. The Government publishes the detailed facts about this Maryland county in the belief that a study of them will aid in solving rural-educational problems elsewhere.

The chief weaknesses noted by the Bureau's report are: "Too many one-room schools and too little consolidation; defective methods of lighting, heating, ventilation, and of seating pupils; the lack of recreation facilities; the low proportion of children of school age enrolled or in regular attendance; the slight attention paid to beautifying the surroundings of the school buildings, and the absence from the curriculum of studies preparing for country life."

On the other hand, the Bureau investigators found some very important sources of strength in the Montgomery schools: "Direct and capable supervision; uniform grading, a sufficient number of buildings in good repair; a teaching staff experienced, relatively stable and efficient; a fair beginning of introducing into the curriculum those subjects most closely adapted to rural needs, and a number of high schools which in equipment and in the grade of work done are well above the average for similar communities."

The bulletin commends especially the Maryland county organization of schools, declaring that this system has proved to be the most effective machinery for the upbuilding of rural education.

STORY OF ESCAPED NUNS AGAIN GIVEN THE LIE

A Favorite Theme in Anti-Religious Works Has no Foundation in Fact.

—Inmates of Convents are Free to Leave.

Every now and then a "story" crops up of an alleged escape of a nun. Upon investigation it is always found that the story is without a semblance of fact. Any authoritative statement on the subject should set at rest such falsehoods, put into book form, in most instances, solely for the revenue from the sale of copies.

The Catholic Herald (England) observes:

"The superior of a convent has no difficulty in 'escaping' at any time she wishes to do so. Any one can see nuns constantly walking about the streets of London, who need not go back to their convents if they do not wish to do so. There is no such thing as an 'escaped nun.' There have been nuns who broke their vows and left the Church, but alleged 'escapes' are merely advertised to draw money from the pockets of credulous dupes, or fanatical bigots. If a nun wants to leave her convent she has only got to do so, the same as any daughter would leave her father's household."

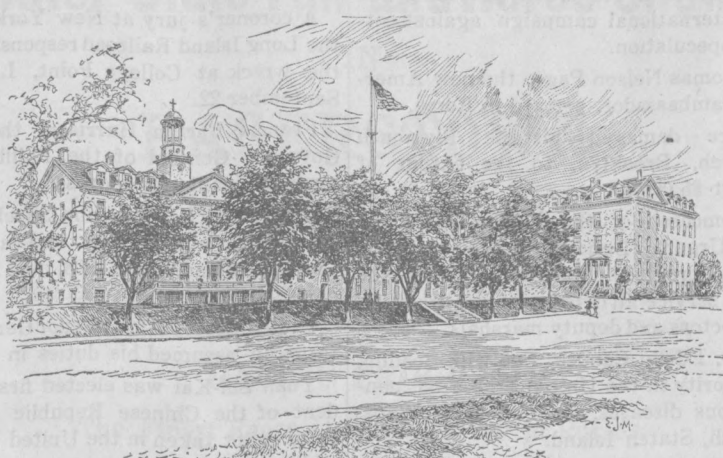

That is the short and long of it, and the truth of the matter. There are no "escaped nuns." Any nun who wants to can "escape" any time she pleases without let or hindrance. She has only to open the door and walk out and not return—which last part of the program, it may be safely assumed, would be all the better for the convent.

The Very Latest in Churches.

The public has heard a lot about advertising "short sermons and good music" as a drawing card for churches, and of some churches providing dance halls, pool rooms and refreshment booths as a means of increasing, or at least holding, their congregations. Americans are familiar with the railroad cars that are converted into chapels, and being maintained by Baptists and Catholics, are hauled from station to station by western railroads without charging either freight or passenger rates, but it remained for Rev. Father Bernard Vaughan, of London, to go the American inventors of itinerant churches one better by operating an automobile church. The novelty has worked so well in conservative England that now the question is seriously being considered of operating these gospel-carrying automobiles in those sections of New York where saloons far outnumber the churches.

The new autochurch, as seen in London this season, consists of a long structure about the size and shape of a modern car, but has no windows, except one on either side of the centre doors. It looks somewhat like a freight car, in fact.

MOUNT SAINT MARY'S COLLEGE

Terrace Talk

The Purcell Lyceum, composed of the Sophomore and Freshman English classes, organized by electing the following officers: President, Joseph Dwyer, '16; Vice-president, Emmet Haligan, '16; Treasurer, Robert Higgins, '17; Secretary, J. Millhizer, '17.

Prof. John L. Day, athletic director, has been named an instructor in one of physical science courses.

Rice, the 'varsity center who was unable to play against St. John's last Saturday on account of injury is back in his old position again. Cogan, McManus and Mahoney came out of last Saturday's game in crippled condition, but will be all right in a few days.

Eight states and one foreign country are represented in this year's graduating class which numbers nineteen. Pennsylvania, as usual, leads, with seven, Maryland is second with three, New York, and Rhode Island have two each. The States with one representative are Alabama, Massachusetts, Virginia, West Virginia. One member is from Ireland.

Mt. St. Mary's, 0; St. John's, 12.

The Mountaineers received a setback in their state championship aspirations last Saturday when they were beaten at Annapolis by St. John's, 12-0.

St. John's scored after about five minutes play. The first tally was the direct result of the poor handling of punts by the backfield. St. John's recovered a fumbled punt. Unable to advance through the line, Clark carried it over on an end run of 15 yards. The attempt at goal was missed.

From this on the Mountaineers had decidedly the better of it but after repeatedly advancing the ball by line plunging to within striking distance of the goal, St. John's recovered on a fumble or a forward pass. Near the close of third period, Mt. St. Mary's had the ball on their opponents four yard line, but a poorly executed forward pass gave the ball to St. John's and the best opportunity was lost.

In the final period, Clark, Captain of St. John's, made a splendid run of 80 yards through the whole team for the final score. During the rest of the game the ball was kept near the center of the field.

Clark was easily the individual star of the game, scoring both touchdowns and being the only one of St. John's men who could gain ground consistently.

Sheridan and McManus played their usual brilliant, aggressive game. Jno. D. Kelly and Joe McManus played a strong defensive game making many hard tackles. The line-up:

St. John's	Pos.	Mt. St. Mary's
Andrews	e.	Haltigan
Selby	t.	Kelly
Woodward	g.	J. McManus
Helman	c.	Cogan
Smith	r.	Dwyer
McNutt	t.	Carroll
Lamar	r.	Sutton
Clark (capt.)	b.	Quinn
Hauver	h.	L. McManus
Sadler	r.	Sheridan
Elliott	b.	Mahoney

Substitutions: St. John's—Phillips for Smith, Winslow for Phillips, W. Helman for Woodward, Phelps for Sadler. Mount St. Mary's—Talbot for L. McManus, J. C. Kelly for Cogan. Touchdowns—Clark (2). Referee—Mr. Reilly, Yale. Umpire—Lieutenant Howard, U. S. N. Head linesman—Professor Cusachs, U. S. N. Time of quarters—Two 12 minutes and two 10 minutes.

The squad will be driven hard next week in preparation for the Catholic University game.

Cobb, Keenan, Whittle, Crouch and Stonall have been added to the training table list.

Scrimmage work will be discontinued during the retreat and the squad will have light signal practice.

There is some fine material in the second team and some of these men will make the 'varsity players hustle for their positions.

A course was announced on Friday for the Freshman class. Many students have taken advantage of it and the new class had its first lesson on Saturday morning.

On account of field day exercises to be held on the occasion of the Alumni Reunion, no athletic events are scheduled for next Wednesday, the date observed in former years as Barbecue.

The spiritual retreat for the the students in the College commenced on Wednesday evening and will continue until Sunday morning. Rev. Christopher Sullivan, of the faculty of Loyola College, is conducting the exercises.

Arrangements are being made for a field day and track meet to be held on the day of the National Alumni Banquet at the College next month. The Senior class will present a play on the night of the same day.

Poor generalship at critical times is what spelled defeat for the 'varsity team at Annapolis last Saturday. The Mountain boys gained much more ground than their opponents, but lacked the necessary punch when a few yards meant a touchdown.

Second Team Wins.

Mt. St. Mary's second team defeated the Waynesboro High School, on the home grounds, Wednesday afternoon, 13 to 6.

The visitors outweighed the Mountain boys but were not as aggressive. The Mountaineers were weak on defense particularly on the forward pass, while on the offense they used the shift formation to great advantage. Rogers the Mountain's diminutive half-back circled the opponents for a 40-yard run. Kelly intercepted a pass from a split formation that was good for a 30-yard gain. Twice during the game the locals had the ball on the visitors' five-yard line but: Waynesboro held like a stone wall, and secured possession of the ball.

Mulhearn played great defense ball for Mt. St. Mary's while Snider excelled for the visitors. The line-up:

Mt. St. Mary's	Pos.	Waynesboro
Moran	e.	Rumberger
Kelly	t.	Wolfkill
Cobb	g.	Meyers
Mulhearn	c.	Friedley
Gilroy	r.	Rice
Kane	t.	Fisher
Hannon	r.	Fortney
Long (Capt.)	b.	Martin
Breslin	h.	(Capt.) Snider
Crouch	r.	H. J. Rumberger
Talbot	b.	Bowman

Touchdowns—Talbot, 1; Rogers, 1. Goal from touchdown—Breslin, 1. Substitution: For Mount St. Mary's—Keenan for Kelly, Kelly for Moran. Fritts for Gilroy, Rathenberger for Cobb, Rogers for Breslin, Stonell for Keenan. Time of quarters—Ten minutes. Referee—O'Leary. Umpires—Fogan and Palsen. Head linesman—Leonard.

VIEWS NOT EXACTLY POPULAR CONCERNING OUR COUNTRY

Lecturer Unmercifully Pulls Finest Feathers from the American Eagle.—United States a Monopoly.

Assertions made by Prof. T. E. Will at a recent meeting of the Study Club of Economics, at Ingram Memorial Church, Washington, would lead to the inevitable conclusion that these grand United States are going to eternal perdition.

"The United States is a monarchy in everything but name," shouted the lecturer, whose theme was "Why Democracy in America Has Failed to Safeguard Political Liberty."

Among other painful statements made by Prof. Will was the one in which he said that the declaration of independence was the work of the insurgent party of the day, and that the Constitution was the counter move of the standpatters.

"It was said in those days that the Constitution was a conspiracy against the liberties of the people," continued the professor. "Others said that the Constitution was designed to prevent the tyranny of the majority."

Speaking of the motive of the framers of the Constitution, Prof. Will said that this instrument was framed by men who had for the most part the strongest sense of the dangers of Democracy. It was the property owning class that framed and secured the Constitution. Among other statements made by the speaker was that the Senate was intended by the framers of the Constitution to be the rich man's club.

Needless to say, the audience sat up and took notice, then did everything except to applaud.

TEN COMMANDMENTS OF CIVIC RIGHTEHOUSNESS

Precepts, Which it Would Behoove Many Places to Adopt.—Aim at Sanitation and Cleanliness.

Nowadays nearly every progressive community has a civic code. The Brooklyn Bureau of Charities has issued a little card, which for want of a better name, has been called its "ten commandments." These are, as follows:

- I. Thou shalt honor thy neighborhood and keep it clean.
- II. Remember thy cleaning day and keep it wholly.
- III. Thou shalt take care of thy rubbish heap, else thy neighbor will bear witness against thee.
- IV. Thou shalt keep in order thy alley, thy back yard, thy hall and thy stairway.
- V. Thou shalt not let the wicked fly breed.
- VI. Thou shalt not kill thy neighbor by ignoring fire menaces or by poisoning the air with rubbish and garbage.
- VII. Thou shalt not keep thy windows closed day and night.
- VIII. Thou shalt covet all the air and sunshine thou canst obtain.
- IX. Because of the love thou bearest thy children, thou shalt provide clean homes for them.
- X. Thou shalt not steal thy children's right to health and happiness.

Football an Ancient Game.

Doubtless many would be surprised to learn that football is by no means a modern game. The London Chronicle finds that:

"At Derby a game of football was played as early as the third century, in commemoration of a victory over the Roman Legion at Chester. The first football used in the annual game, still played each Easter, is said to have been the head of a Danish invader. In the Isle of Purbeck, too, the free quartermen from time immemorial have perpetuated their claim to a grant of land by kicking a football across it. In the fourteenth century the game was so popular as to call forth an edict forbidding it, on the ground that it interfered with the practice of more martial exercises. In later times Shakespeare referred contemptuously to the game, but, perhaps, few would be able to turn up readily the passage in 'King Lear' describing 'a base football player.'"

It Would be a Good Thing.

How would it be if the W. M. R. R. would stop running trains for a week, and use the time in getting straightened out—giving the whole line of track careful inspection and repair. There is evidently something radically wrong with the road, and it is mighty important that this "something" be found and removed.—Carroll Record.

The Corn crop in the United States is short about 500,000 bushels over last year, while the shortage, caused by the drought, in all products used for food, including corn, hay and oats is equivalent to a billion bushels of corn.

EMMITSBURG'S ADVANCE

A YEAR OF PROGRESS

Civic Pride Manifested By Recent Improvements

NOW BIDS FAIR TO FORGE AHEAD

Era of Material Betterment for Town and District.—This a Fruit-Growing Section.—Prosperity Much in Evidence.

Visitors who have returned this summer and fall have remarked the number of improvements in Emmitsburg within the last year. Concrete crossings have been laid throughout the town, many pavements of the same material have been put down, our streets have been oiled and the dust nuisance thus abated, while painters and carpenters have been busy all the while and have engagements that will carry them into the cold weather.

Nor has the spirit of progress been confined to the town of Emmitsburg, for the district as a whole has made a great advance.

Whereas but a few years ago there were only a few orchards, at the present time many are giving their entire time and attention to the cultivation of fruit, while others are devoting more and more space to the planting of fruit trees, with the result that apples, for instance, grown in this neighborhood, have already required a reputation. Persons from other places, alive to local possibilities, have bought orchards nearby, improved them and planted more trees.

An apple culturist from Biglerville, after examining some fruit trees from a local orchard, remarked that even if it did not exceed, it equalled that well-known Pennsylvania apple-growing territory.

And apples are only one of the large variety of fruits that is cultivated. Some of the finest peaches this season were grown in this immediate neighborhood.

An air of general prosperity seems to pervade the whole community. An evidence of this is the constantly increasing number of persons who have bought automobiles. A goodly number of farmers now own machines.

COUNTRY STORE MUST KEEP ABREAST TO SURVIVE

State of Kansas Fearing Loss of Rural Institution.—Will Teach How to Properly Conduct It.

The country store will not disappear from Kansas if the educational authorities of that state can prevent it. Believing that the rural store is passing only because it is improperly managed, the Kansas state board of education will establish a course in country store management in the Kansas Agricultural College. The country will observe the experiment with interest, says the Fort Worth Record, for the rural store deserves to survive the competition of city department stores and mail order houses. It is a useful institution and its passing would be a loss to the country. Apparently there is no sound economic reason why the country store cannot meet competition, if properly conducted. It is close to the people and the owner is usually well acquainted with his neighbors. The various items of administration and upkeep are smaller than for a business of the same size in a city or town. The rural telephone reaches the cross roads store and the parcel post will make deliveries for the country storekeeper as cheaply as for his city competitor, and more quickly. But if it is to survive, the country store must keep abreast of the times. The owner must arrange and display his goods in an attractive manner—in a word, he must be up-to-date.

Lightning Fonder of Men.

It is generally conceded that women dread lightning more than men do, yet statistics go to show that men are more likely to be struck by lightning than women, more than two men being killed by it for every woman. But the London Chronicle points out that the man's occupation is more likely to take him into the open when lightning is about. It has been observed, however, that in a group equally composed of both sexes lightning seemed to prefer the men, and we may theorize at pleasure as to whether it is the comparative height that does it, or some protection afforded by the woman's dress, or a difference in conductivity between the sexes. The fact that children are seldom killed by lightning supports to a certain extent the first of these theories.

The Thaw case is again postponed.

Power of the Country Press

The country press does not need any defense from us, says the American Press. It stands on its own merits as the greatest power in the United States. It could, if organized, make or unmake a president of the United States. It is the most effective molder of public opinion in existence.

THE COUNTRY PAPERS AS A WHOLE
REACH A VASTLY GREATER PROPORTION
OF THE POPULATION OF THE UNITED
STATES THAN DO THE METROPOLITAN
DAILIES AS A WHOLE.

The country papers reach upward of 65,000,000 people, and the entire population, exclusive of the Philippines and Hawaii, is 91,000,000.

The papers reaching more than two-thirds of our population are, collectively, certainly more important than papers reaching only one-third of the population.

The National advertisers are spending hundreds of thousands of dollars in space in the country papers. They are increasing their volume each year. They have learned that the metropolitan dailies and magazines do not reach an immense mass of people of purchasing power.

PLATFORM OF PRINCIPLES.

The Progressive Party of Frederick County has adopted a platform of principles and submits the following brief extract for the careful consideration of the voters of the County, before casting their ballots on Tuesday, November 4th, 1913.

The purpose of the Progressive Party is to elevate the standard of political ideals and to establish the rule of the people.

The party pledges itself to use its utmost endeavors to eliminate the boss system, and all the evils that fall in its wake.

We believe in the initiative and referendum and recall and the achievement of reform. We believe the people should rule themselves.

We believe in nominating efficient men for state and county offices, and who shall give their whole time and personal attention to the duties of said offices.

We favor a reduction of the number of County Commissioners from five to three at a stipulated salary large enough to secure men of first-class ability.

We declare for the Road Engineer Bill as passed by the Legislature of 1912 and vetoed by the Governor. This modern system of road building has been in operation in Caroline County since 1905 and is acknowledged to be the best in the state.

We favor a law abolishing the board of Charities and corrections and transferring their duties to the Board of County Commissioners, who are directly responsible to the people.

We pledge ourselves to a just and equitable assessment and taxation of county property.

We declare for an unpaid commission of Auditors for County finances, with authority to employ an expert accountant and render annually a complete itemized statement of County finances to be published in pamphlet form, for free distribution.

We believe in home rule in County Legislation as proposed by the Maltbie Bill in the last Legislature.

We pledge ourselves to a business administration in County affairs.

Unhampered by tradition, uncorrupted by power, undismayed by the magnitude of the task, the new party offers itself as the instrument of the people, to sweep away old abuses, to build a new and nobler commonwealth. And in support of these reforms, we appeal to all Progressive Citizens of Frederick County, without regard to their past political affiliations.

The Farm Telephone

Farm life before the days of the telephone was rather a lonely proposition. The Bell telephone has changed things—has made farm life more pleasant, more profitable.

It brings the farmer news of the town and market; it brings the farmer's wife messages of cheer and neighborly good-will; it brings to the young folks social messages from their friends.

FREDERICK COUNTY.

Frederick is next to the largest of the counties of Maryland. In population and wealth it ranks next to Baltimore county. In the fertility and productiveness of its lands it ranks among the first in the Union, and especially in the production of wheat. The area of this great county is 633 square miles. The great body of the people are of German, English and Scotch-Irish descent, the progeny mostly of the early settlers. The land is mostly of fine limestone quality, and the greater part of the county is a valley of rolling lands lying between the Lingore Hills and the Catoclin Mountain. This splendid valley is drained by the Monocacy river, and is one of the best farmed and most highly improved and productive areas of the Union. The great crops are wheat and corn.—*Maryland Manual* issued by Board of Public Works.

DEMORALIZING EFFECT OF OLD REPUBLICAN TARIFF SYSTEM.

If there were any doubt that the tariff system fathered by the Republican party was intended to favor the wealthy manufacturer at the expense of the common people, the sleuth persecutions of the Custom House officials, in their search for smuggled goods, would go very far to establish the fact. The action of customs officials since the incubus of a high protective tariff was fastened upon our people, were like those of the guards at the frontiers of the various European States, who were on the lookout for the law-breaking smuggler who had no rights that the excisemen were bound to respect. In point of fact the tariff system is a legal measure and the violators of that measure are amenable to the law. Should any one, unwittingly or otherwise, introduce goods or merchandise without declaring the same, such persons violate the law and should be punished according to its provisions. But through the entire practice of the high tariff system, the people have been subjected not only to mortifying inquisition but to such suspicious investigations on the part of the officers, as to be furnished with incentives for the evasion of an irksome system of inquiry which frequently led

to demoralizing practices, on the part of the home-coming traveler. These thoughts are emphasized by the extra legal steps of the customs officials who plucked recently the aigrettes and feather ornaments off the hats of home-returning American women, under the pretence that the wearing of such ornaments, although unconcealed, was an evasion of the laws. The officers still carrying out the new tariff laws are evidently bred into the doctrine that they are not so much officers of the Government as pliant agents of home manufacturers, and instead of watching justly and equitably the fulfilment of the law, are zealous that the owners of infantile and adult industries should be protected. And the conclusion irresistibly forces itself on the mind that it is not the law but the interests that must be served.

PARCEL POST AND ITS FUTURE.

When first organized, at the beginning of the year, the parcel post feature, as most experiments, was not very enthusiastically received. But from present statements and reports, many are pinning their faith on its final brilliant success in a financial way, as it has proven a great step forward in the march of rapid delivery of parcels at greatly reduced rates. Nothing positive can be said until the close of the fiscal year, next June; the present results, however, point to the fact that the great movement in postal economics as fathered by Congressman David J. Lewis, will give a very good account of itself and most likely prove the source of a surplus in the Postoffice Department. Of course it requires many changes to meet all the requirements of so great an innovation in mail and package delivery; but when the necessary plans that are going on to meet the increasing demands of this particular service have been completed, we shall see that the postal affairs of the Government are capable of an expansion which besides parcel post and savings banks, may finally lead to the absorption of the telegraph and telephone business of the country, to the great comfort and best interests of all of the people.

Let us not forget to give due praise to the man who was practically unknown as an economist when he took the initiative in forwarding this measure. By its success the name of David J. Lewis becomes a household word throughout the country.

REDEEMING ITS PLEDGES.

Not only the Democratic party, but the people, the consumers at large, are applauding President Wilson, Representative Underwood and Senator Simmons for the final triumph of the Tariff Bill, which proves a long-fought-for victory after forty years of vain struggle by the Democracy to give the people a fair chance in their fight against the "Interests."

This new measure is the outcome of true Democratic doctrine, the greatest good to the greatest number. This triumph to-day is the first step toward the downfall of privilege, and the wise reversal of the burdensome Tariff is a debt due the Democratic party for carrying out its promise to the people in the platform adopted by the Baltimore Convention.

Editorials From Maryland Exchanges.

For Vigorous Campaigns.

With three complete State tickets in the field, the general campaign will probably open within the next two weeks and from then on a most vigorous contest will be waged throughout Maryland. Seldom in the history of Maryland politics have the prospects for Democratic victory been brighter than they are in this contest. It is declared that the Democrats have named, not only on their State ticket, but on the general legislative ticket, some of the strongest men that have ever aspired to office in this State. Many of them have excellent public records and all them are men of the highest standing in the State. From present indications, the Democrats will sweep the State. This is admitted by Republicans, as well as Progressive leaders and workers. The Republican party is divided against itself. The Progressive party has considerably diminished in numbers since the last fight. The Democratic party is more harmoniously and enthusiastically united than it has been for years. When the Democrats begin their campaign it is their intention to whoop things up in every county and in Baltimore City. Not only will local orators be called upon to take the stump, but it is expected that some members of Congress will be asked to come to Maryland to help to elect the State ticket. As a United States Senator and one Congressman are to be elected in Maryland, the Democratic members of Congress are much interested in these contests. It is expected that, during the height of the Maryland campaign, Congress will be in session, and thus it will be easy for Democratic orators to come to this State to make speeches.—*Democratic Telegram*.

The Democratic party has not departed from its traditions or its principles. Its platform advocates measures which have not heretofore been presented to the people of Maryland in its party platform, but which have been demanded by the conditions of modern life and which are thoroughly in line with the historic principles of the party.

Nobody believes in the sincerity of the Republican party. Its platform is so wide a departure from its history that it could have been adopted only to catch the Bull Moose people and it has failed to reach a great many of them. The platform of the stalwarts of the latter persuasion is so exceedingly radical, so evidently the work of idealists that it cannot commend itself to the people of Maryland.

The Democratic party really needed no platform. Its platform is its history and it is in sympathy with the people of Maryland and all their traditions. The people know it and trust it and will not hesitate to trust the destiny of the State to the party that has controlled it so long and so well. Had the opposition to the Democratic party been united, there is no reasonable doubt that the Democracy would carry the next election. With the opposition divided, there can be no doubt at all, unless the Democratic party goes to sleep.—*Cecil Democrat*.

Importance of Campaign.

The campaign just beginning is an important one. The fight will be waged to elect a United States Senator, a State comptroller, clerk of the Court of Appeals, more than half of the members of the State Senate, all of the members of the House of Delegates, sheriffs, clerks of courts and other officers.

The election of Mr. Parran as United States Senator will mean the continued pressure of a Republican in that body to give that relief for which the people of this country will be clamoring when the new tariff law shows its clause.

The election of Mr. Metzgerott will mean not only Republican management of a most important office, but it will also give control of the Board of Public Work, its important duties and patronage, to the Republican party.

The election of a Republican majority in the Senate and House of Delegates, with a Republican Governor at his post, will mean the abolition of trick ballots, the restoration of the right of suffrage to the people, the elimination of corruption at primary elections, the broadening of the home-rule principle, retrenchment in state's expenditures and other reforms for which the people of the State are clamoring. If the Democrats control the Senate and House of Delegates by majorities which they expect and on which they are counting because of the supposed Progressive strength, then good-bye to the good government of Maryland.

Because of the harmony in their own ranks, because of the strength of their ticket, because of their progressive platform, and further, because of the dissensions, differences and jealousies in the Democratic party, the Republican leaders view with favor the conditions at the outset of the campaign.—*Westminster Times*.

A Harvard kindergarten, which will receive children of the tenderest age, is to be established in Cambridge next year under the direction of Professor Paul R. Sanus of the Department of Education.

PROVISIONS OF NEW TARIFF BILL

Measure Is Expected to Yield Large Revenue.

RATES LOWERED BY SENATE

As Prepared by the House the Average Duties Were About 30 Per Cent and as Finally Adopted the Average Is About 27 Per Cent—The Payne-Aldrich Bill Carried Average Duties of 35 Per Cent—Free List Is Increased.

PROGRESS OF THE NEW TARIFF BILL.

The following shows the chronological history of the Underwood-Simmons tariff bill:

Jan. 6 to Feb. 1—Hearings, house ways and means committee.

April 7—Bill introduced by Mr. Underwood and referred to the ways and means committee.

April 22—Bill reported by Mr. Underwood after Democratic caucus had approved it.

May 8—Passed house of representatives—yeas, 231; nays, 133.

May 9—Received by the senate and referred to finance committee.

June 20—Bill completed by senate finance committee and referred to Democratic caucus.

July 11—Bill reported to senate by Chairman Simmons with recommendation that it pass.

July 21—Made unfinished business of senate.

Sept. 9—Passed by senate—yeas, 44; nays, 37.

Sept. 11—House nonconcur in senate amendments, and bill goes to conference.

Sept. 25—Conference reach final adjustment.

After being under consideration in congress for nearly six months the new tariff bill is a law, and for the first time in nearly a quarter of a century the country has a tariff law originated by the Democratic party. The bill will doubtless be known as the Underwood-Simmons bill, taking the title from Chairman Underwood of the ways and means committee of the house and Chairman Simmons of the finance committee of the senate.

The sponsors for the bill say that it will raise ample revenue. Chairman Simmons has been advised that it will yield a surplus of at least \$16,000,000 a year above current expenses. If it does not meet the expenses of running the government the expenses will be reduced.

One remarkable thing about the present tariff bill, a precedent, in fact, is that the senate cut the average rate of duty carried by the bill below that fixed by the house. Heretofore in the making of a tariff bill the house has slashed the rates, while the senate has then taken up the bill and readjusted the rates on a higher general average.

The house bill carried a general average rate slightly below 30 per cent. The senate cut a little over 4 per cent. The conference committee has raised the general average duty but slightly. The average ad valorem duty carried by the bill as perfected is about 27 per cent. The average under the present law is about 35 per cent.

Many Changes Considered.

The conference committee had to deal with 676 paragraphs on which there were disagreements. Some of these involved only the change of a word or a question of punctuation, but a majority of them represented differences in rates and a few were fundamental.

The house conferees also accepted the senate amendment fixing dates when the wool duties shall go into effect, which was one of the final stumbling blocks.

Raw wool will go on the free list on Dec. 1, and the reduced duties carried by the present bill will become effective on Jan. 1. The house bill proposed to make the wool duties effective immediately on the bill being signed by the president. The final action was an important concession to the manufacturers.

The senate won over the house also on controverted paragraphs in the schedule relating to cotton cloths and yarns. By this agreement slightly higher duties are given to certain coarser grades of cotton cloths and yarns by changing the classification.

Fur hats and frames, forms and other parts for the manufacture of such hats received a rate of 45 per cent. This matter affects the hat industry in Connecticut. The house fixed the rate at 40 per cent, the senate made it 45.

The silk schedule also was reopened, and the rate on silk partially manufactured from cocoons or wastes, not further advanced in manufacture than carded or combed silk, and silk noils, was reduced from 30 to 20 cents per pound.

The Metal Schedule.

Probably no single industry covered by the tariff bill suffered such reductions in duties as did the iron and steel industry. The house cut duties unsparingly, and then the senate followed by making still further reductions and increasing the free list.

The house, for example, placed a duty of 8 per cent on pig iron, spiegel-iron, scrap iron and scrap steel and like products and made ferro-manganese dutiable at 15 per cent. The senate free listed both of them, and the conference committee after a considerable deadlock yielded to the senate.

The senate also free listed slabs, blooms, loops and other products of iron more advanced than pig iron, which the house had made dutiable at 8 per cent. The conference agreed to this. The senate cut the duty on round iron or steel wire from 20 per cent in the house bill to 15 per cent, and the conference accepted the senate reduction.

Agricultural Schedule.

The conference committee agreed to the senate amendment, which struck out the 10 per cent duty on cattle provided by the house bill and the 10 per cent rate on sheep and transferring both to the free list. The conference committee also put wheat on the free list, where the senate had placed it, by striking out a duty of 10 cents a bushel provided by the house bill.

The house won a victory in the duty on lemons and other citrus fruit when the conference committee restored the classification based on the cubic feet of the containers in which such products are imported, which results in a slight decrease of the duty.

The senate also lost in the struggle over a proposed duty on bananas when the conference committee struck out the senate rate and restored bananas to the free list of the house bill.

Woolen Schedule.

Very few changes were made in the woolen schedule. The senate was sustained by the conference committee in its amendments fixing the dates when wool duties shall go into effect. Compromises were made by the conference committee between senate and house rates, by which wool tops will bear a duty of 10 per cent and yarns a duty of 18 per cent.

The senate sought to reduce the duty on woolen blankets and to free list blankets valued at not more than 40 cents a pound, but the conference committee rejected the amendment, and all blankets will bear duty at 25 per cent ad valorem. The house rates of 50 per cent ad valorem on carpets and rugs were adopted by the conference.

A compromise was reached on the paragraphs relating to angora goat hair, alpaca, by which the hair will pay a duty of 15 per cent; tops from such hair, 25 per cent, and plushes, velvet and other fabrics, 45 per cent.

Sundries.

The conference committee adopted the action of the senate, placing fulminates and gunpowder on the free list. There was a compromise on the paragraph relating to furs, but generally the house rates were restored.

The senate rates prevailed as to lace curtains and laces and the house won by having restored the paragraph in the house bill covering chamois skins and glove leathers, by which the former were made dutiable at 15 per cent, and the latter at 10 per cent. There was a compromise on the glove schedule between senate and house rates and the senate's action in free listing harness, saddles and saddlery parts was approved by the conference committee, although the house bill had made them dutiable at 20 per cent.

The only substantial victory won by the house in the free list was as to free art.

Here are rates of the new tariff compared with the Payne-Aldrich law:

THE INDIVIDUALITY OF
A LEHR PIANO
The Distinctive Quality
Of a LEHR PIANO—the quality that makes it so
different from other ordinary instruments—
Is Its Pure & Vibrant Tone
This tone is the object, the purpose for which the Lehr in-
strument is created. But you yourself, without assistance,
can judge the tone! Can be seen at

House of Quality.
People who in buying Groceries, make
price and cheapness the standard
instead of quality, will sooner or later,
come to a realizing sense of the false-
ness of their economy. We stand for
quality, first, last and all the time; and
while doing so, we know that we can
give you, intrinsically, better value for
your money than the man who eternally
talks cheapness. This is a House of
Quality at moderate prices.
THE BEST ALWAYS.

New Fall Coats

Are open and selling freely. More beautiful than ever before, all say. Never has so much individual style been developed in a Top Coat. Designers have excelled themselves—telling compliments have greeted them on every side. The variety of ideas as well as materials will be most pleasing to buyers. The popular cloths will be Baby Lamb, Matalasse, Fancy Vicunas, Chinchillas, Mannish Cloths, Plushes, priced from \$5.00 to \$30.00.

Stylish New Suits

That will appeal to every lady who wants a becoming costume. The graceful lines of the coat coupled with the modern characteristics of the skirt offer a combination that will spell style in capitals. And MORE, certain figures that in other seasons could not be given the fullest opportunity will have full rein this season.

W. B. and Royal Worcester

Are familiar names to Corset wearers—synonymous with style and comfort. The Fall Models are very acceptable. One dollar buys either No. 1351 or No. 47 in W. B. or 410 or 433 in ROYAL WORCESTER. The New Bon Ton No. 848 at \$3.00, is a source of pleasure to its owner.

The Famous Gossard

Is daily winning and retaining friends. Some say, "After the Hospital" a Gossard. A friendly tip—A Gossard might help to avoid the Hospital. Wear a Gossard and be happy. All styles in Brassieres. New Sport Coats in all colors.

New Matalasse Velvets, New Sweaters, Fashionable New Neckwear, New Fall Silk Hosiery.

PERSONALS.

It is the aim of THE CHRONICLE to publish as many personal and social items as possible, but it frequently happens that those who are guests visiting them, and those who are invited, fail to send a list of their friends, or an account of these events, to this office. Readers who live at a distance are always interested in what is going on "at home," and for that reason, if for no other, this column should be filled every week. It is of course understood that anonymous contributions will not be published. Names of persons furnishing items will be withheld.

Misses Rosella Burdner, Bessie, Long Maude Byers and Bertha Felix were in Thurmont on Sunday.

Mr. and Mrs. Willis Finneyfrock, of Frederick, and Mr. and Mrs. Staumbaugh were the guests on Sunday of Mr. and Mrs. Harry Finneyfrock.

Mr. J. Guy Sebold left for Johns Hopkins University, Baltimore, on Monday, where he expects to take a course in civil engineering.

Mrs. William Herman has returned to Gettysburg after spending Sunday last with Mr. and Mrs. William Florence.

DEATH OF JOSEPH L. REINEWALD.

Word has been received from Dr. Charles Reinewald, pastor of the local Lutheran Church, of the death of his father, Mr. Joseph L. Reinewald, which occurred on Monday, at Duncansville, Pa., following a stroke of paralysis received last Friday.

Mr. Reinewald was in his 79th year and in frail health for the past few years, but interested in all the events of the day. He was born in Darmstadt, Germany, Oct. 24 1834 and came to America in 1852. He lived two years in Pittsburg and 60 in Duncansville. The funeral was held on Wednesday at 10 A. M., interment being in Lutheran cemetery at Newry, Pa.

Plans For Schmidt's Trial.

In case Hans Schmidt is found to be sane, it is the plan of the prosecution to bring him to trial for the murder of Anna Amuller in the first or second week in November.

It was learned that Schmidt possesses less than \$10, and that, on this account counsel will have to be assigned to him by the court.

His Mother's Tribute.

Just at the height of proceedings impeaching William Sulzer, it is interesting to recall what his aged mother, her face beaming with happiness, said on the night of her son's election as Governor of New York. Her words were: "I am proud of William, I know he will make a good Governor, because he has made a good son. I know he has never done a mean or unworthy thing in his life, and I know he will not change his life habits now that he has been given the highest position in the gift of the people of his State. My son has always cherished the ambition of being Governor of New York State, and I encouraged him in that ambition because I thought no ambition could be finer or nobler."

LOYS AND VICINITY.

Mr. and Mrs. Edward L. Stitley, of Johnsville, spent Monday with Mr. and Mrs. William H. Long and family.

Mr. Maurice Myers, of York, Pa., is spending some time with his brother, Calvin, of this place.

Mr. Calvin C. Colbert is spending this week with his mother, Mrs. Alice Myers, of York, Pa., and attending the fair.

Mr. Charles L. Pittinger spent a few days with his father, Mr. Samuel B. Pittinger and family, of Denning's, Md. Mr. and Mrs. Herbert F. Martin and son, of Highland Mills, Md., spent Sunday with friends here.

Paint Now

If your property needs it, don't wait. There are two parts of a job: the paint and the work; the work is more than the paint; and it never comes down.

The cost of the paint is about two-fifths; the work three fifths.

Paint won't come down in a hurry; too many jobs put off.

Men are waiting for \$2 or \$3; they don't know it; they think they are waiting for \$20 or \$25.

Why don't men use their heads?

PLAYERS WHO HAVE CAPTURED NEW HONORS FOR NEW YORK

CHALLENGE FLOUR BAKING CONTEST

At the Frederick Fair, October 21st to 24th

\$60.00 in cash and 6 one-half barrels of CHALLENGE FLOUR will be given for the best bread, rolls, biscuits and cake, made from CHALLENGE, and entered at the Frederick Fair. These special premiums will be awarded as follows:

Best Loaf of Home Made Bread	\$20.00
2nd Best Loaf of Home Made Bread	\$10.00
3rd Best Loaf of Home Made Bread	½ bbl. Challenge Flour
Best Pan Home Made Rolls	\$5.00
2nd Best Pan Home Made Rolls	½ bbl. Challenge Flour
Best Dozen Single or French Rolls	\$5.00
2nd Best Dozen Single or French Rolls	½ bbl. Challenge Flour
Best Dozen Maryland Biscuits	\$5.00
2nd Best Dozen Maryland Biscuits	½ bbl. Challenge Flour
Best Dozen Baking Powder Biscuits	\$5.00
2nd Best Doz. Baking Powder Biscuits	½ bbl. Challenge Flour
Best Angel Food Cake	\$10.00
2nd Best Angel Food Cake	½ bbl. Challenge Flour

The above named articles are to be entered in the house-hold department of the Frederick County Agricultural Society on Monday, Oct. 20th, and will be governed by the same rules as other articles. The 50 cent entrance fee will entitle you to a ticket of admission for each day of the fair. When making the entry state that it is made of CHALLENGE FLOUR and is for the CHALLENGE FLOUR CONTEST. Not more than one article can be entered on the same ticket.

The judges will be appointed by the Fair Association and the premiums will be paid by the Frederick County Farmers Exchange on Saturday following the fair. Enter into this baking contest and prove that bread baking is not one of the lost arts. CHALLENGE FLOUR will make equally good bread, biscuits, rolls or cake. When making the latter remember that CHALLENGE is a very granular flour, and requires more water and longer time to thoroughly dissolve each particle than a softer flour. A failure to heed these precautions is likely to result in the cake batter being too thick or heavy.

FREDERICK COUNTY FARMERS EXCHANGE,
FREDERICK, MARYLAND.

N. B.—Three years ago when we held a similar contest at the Frederick Fair, we had positive knowledge that some loaves of bread entered were not made from CHALLENGE FLOUR. This fact however was withheld from the judges and when the nine prizes were awarded for the nine best loaves all went to those who used CHALLENGE. This baking contest will be conducted with absolute fairness on our part and in return we respectfully ask that the same consideration be extended to us.

BATTLING FOR WORLD HONORS

Eyes of the Civilized Globe on the Struggle. --- Athletics Win First and Third Games. --- New York Takes Second.

The first game of the world series played on the Polo grounds, New York, on Tuesday, resulted in a victory for the Athletics, score 6 to 4. J. Franklin Baker again proved the hero, his home-run clout in the right field grandstand in the fifth inning, sending Eddie Collins around the bases before him and winning the opening game of the series. Marquard, who opened on the mound for the Giants, lasted only five innings. He was succeeded by Crandall and by Tesreau. Myers was at New York's receiving end. Bender pitched for Philadelphia and Schang caught.

Wednesday's game resulted in a victory for the Giants. The contest was a pitchers' battle and it took an extra inning to decide it. In the tenth Plank weakened and New York got three runs across the plate. Mathewson pitched a brilliant game and got fine support.

The Athletics had a chance to win in the ninth and many thought poor generalship on the bench and coaching lines threw away the one opportunity that the fortunes of baseball cast their way.

Undaunted by the defeat on their home grounds, Connie Mack's team came back strong on Thursday and wiped up the polo grounds with the Giants to the tune of 8 to 2. Evidently the dope on Mack's young pitching staff was all wrong, and the youthful Bush held the game well in check while his teammates smashed their way to victory, as in the first game.

The batteries in the third game were: Giants—Tesreau and McLean; Athletics—Bush and Schang. On the long end of the 3 to 2 standing and with the fourth game on their home grounds, the prospects for the Athletics are unusually bright.

Looking at the box scores of the three games it is at once apparent that the Giants had all they could do to grab their victory while the Athletics took their games with comparative ease. However, the series is by no means decided and the remainder of the games will be watched closely.

A regimental army post in every State in the Union is the suggestion of a major-general who has been studying the military condition of the country.
