## ECCLESIASTICS TO MEET HERE

### ST. JOSEPH'S COLLEGE

#### In the Matter of Beatification of Mother Seton

#### WITNESSES WILL BE EXAMINED

Testimony Taken Under Oath.—Object of This Court.—Many More Steps in Strict Procedure.—Local Priests in Court.

On next Tuesday at St. Joseph's College and Academy the Ecclesiastical Court will convene for the final sessions in the matter of the beatification and canonization of Mother Elizabeth Ann Seton, foundress of the order of the Sisters of Charity of Saint Vincent de Paul in the United States. The specific object of the sessions of this Court will be to inquire into the "de non cultu," that is to determine whether any forbidden religious honors have been given to Mother Seton in anticipation of the rulings of the highest court in Rome.

Rev. Dr. Dyer is the Judge, Rev. Michael Riordan, the fiscal promoter, or what corresponds to prosecuting attorney in civil law; Rev. Joseph Cunnane, ecclesiastical notary and Rev. Father J. O. Hayden, pastor of St. Joseph's Church, Emmitsburg, postulator. Father James H. Neek, of Baltimore, a native of Emmitsburg, will be cursor.

Many witnesses will be examined and all their testimony will be taken under oath. The peculiarity of the Roman law is that it requires that the witnesses be bound under oath not to reveal either the testimony they have given or the questions asked by the Court. This method of procedure injures absolutely unprejudiced testimony. All witnesses are allowed to review at length and most critically their testimony, taken by the notary, and then sign the same.

It will be recalled, as published in the CHRONICLE sometime ago, that thirteen or fourteen steps may be distinguished in the process of Beatification. The bishop of the diocese first inquires as to the reputation of the person proposed for virtue and miraculous powers. Then the question of "non cultus" (about which the meeting on next Tuesday will be held) is examined. The third step will be the sending of the minutes of these two inquiries to Rome, where the process is then opened before the Congregation of Rites.

The Promoter Fidei (called in popular language the "devil's advocate") is appointed, whose duty it is to raise objections against the process and person. If a favorable report is made then begins what is called the Apostolic Process. A commission is given to the Congregation of Rites to investigate the notoriety, reality and nature of the virtues and miracles ascribed to the one to be beatified.

Three bishops are appointed to deal with the case systematically. Their findings are sent to the Congregation of Rites and examined and arguments are heard pro and contra.

A new delegation makes another and more searching inquiry if the result of the last examination is favorable. The process is again returned to the Congregation of Rites and in three successive meetings, at the last of which the Pope is present, the virtues and miracles of the subject for beatification are again discussed. Having sought to know the will of God by prayer the Pope confides his judgment to the Secretary of the Congregation.

In a new and general assembly the question is considered whether the beatification may proceed without further delay. In the event of an affirmative decision the Pope appoints a day for the ceremony, and orders a brief to be prepared setting forth the Apostolic sentence.

#### Washington Will Not Get Highway.

The Lincoln Highway, the national memorial high road from New York to San Francisco as promoted by the Lincoln Highway Association, will not come to or through Washington. The Lincoln Highway Association is opposed to any change in the original route from Philadelphia to Gettysburg direct.

This stand was authoritatively announced in a letter received at the White House by President Wilson. In this letter the highway association definitely and positively turns down the expressed wish of the president—that the road run through Washington, touching the Lincoln Memorial now in course of construction in Potomac Park.

The President is informed that it is inexpedient to accede to his wishes, despite the great and acknowledged aid he has given the highway propaganda.

## QUESTIONS ABOUT PRESENT WAR

Only the Outcome of the Crisis Will Answer the Most of Them.

Of the innumerable questions that arise when one reads the daily dispatches in regard to the present European conflict, only the outcome of the crisis can answer the majority. The leading questions have been assembled by the Saint Louis Post-Dispatch. They are as follows:

Will Holland and Belgium become subordinate kingdoms merged into the German Empire, giving Germany territorial control of the great harbor at the Rhine's mouth and eliminating Belgium as a buffer state between Germany and Great Britain just across the channel?

Will Luxemburg join Alsace and Lorraine under the German mantle?

Will Alsace and Lorraine remain under the German rule?

Will Germany's new war fleet "stand up" in action against Britons born to the sea.

Will Emperor William, as predicted recently by Mme. Thebes, the Parisian "seeress," visit Paris this year, "but not as a king?"

Will there be a Germanic Empire?

Will the Turk help the Teuton, or will he prefer to see his historic foe, the Slav, dominate the lost provinces of Turkey in Europe.

Will mere numbers prevail in a war characterized by mediocrity, or will a Napoleonic genius emerge, in France, in Germany, in England, in Russia, to command a triumph against numerical odds?

Will Italy be able to maintain her neutrality, should the battle's balance turn strongly against her allies?

Will Japan seize the occasion offered by her ally England's participation in the conflict to sweep the Germans out of China and off the islands of the Pacific?

Or will the splendid model cities of Germany be overrun by a twentieth century invasion of primitive hordes from the East?

Will the American Congress be able to get permission of the shipping trust to liberalize our shipping registry law, so that foreign merchant ships can be utilized to carry American cotton, grain, oil, iron and manufactures safely to their European markets, thus affording employment for workmen in Europe and preventing destructive losses here?

## THE WAR BRINGS FAMINE

### Nations of Europe Suffering From Shortage of Food.

The pressure of famine is already evident throughout Europe. Prices of foodstuffs have soared beyond the purses of the poor. England alone has taken no steps to prohibit the exportation of food or war supplies. She has none to export, however, and within her borders is not much more than a month's supply.

Dealers have already trebled prices. But their stocks cannot last long and commerce is already seriously hampered. The problem of feeding the people is dividing attention with the war plans in the minds of the ministers. Legitimate as well as speculative business is interfered with. Everyone is hoarding resources.

Even the countries not affected by the war preparations are suffering. Holland, Denmark, Norway, Sweden and even Switzerland are feeling the pressure. All must live on the supplies within their own borders from the moment hostilities open. Stoppage of the transcontinental expresses and the holding at their docks of steamers of the commercial lines prevent the farmers and the wholesalers sending out the usual supplies.

The suffering of non-combatants will be intense in case of a general war. The fighting nations will care for their troops in the field, but the women and children—the stay-at-homes—will feel the pressure almost from the start.

## LEWIS OUT FOR RENOMINATION

### Formally Enters Race For Congress.—Will Have No Opposition in Party.

Representative David J. Lewis has formally entered the race for renomination, having sent to the Board of Election Supervisors in each county in his district his primary assessments and formal request to place his name on the primary ticket. Mr. Lewis will have no opposition for the Democratic nomination. He will make a vigorous campaign in the general election, and judging from the assurances that have come to him from all sides in both parties he should win by a handsome majority.

## MORE DETAILS ABOUT BIG WEEK

### Boosters' Affair Promises to be a Great Event In History of Emmitsburg.—Final List of Committees Not Completed.—Everybody Helping.

Although the work of the various committees in charge of Booster Week has progressed smoothly throughout the past week and everything is being whipped into shape, the final lists of the members of the various committees for the big event will not be completed when the CHRONICLE goes to press, so their publication has been deferred until next week. By that time much additional information in regard to the affair will be given in detail.

The Secretary is in communication with those responsible for the various speakers and attractions and it is expected that within a very short time the general programme will be presented for consideration. Each issue of the CHRONICLE will therefore contain a great deal that will be of interest in connection with the occasion which cannot fail to be profitable in every way.

#### The Object.

Naturally the prime object of a Booster Week, such as Emmitsburg will have, is to advertise the town—advertise it as being composed of live and aggressive people who are doing things worth while. It will insure dignified publicity concerning the town in the leading newspapers of the entire State. But this is but one of the advantages of Booster Week. One of the most practical results will be the living together for a period of three days, in a most delightful manner, of the people of the town and the farmers of the surrounding section. Another object, and one of the most attractive is the furnishing of clean and decent entertainment, devoid of demoralizing influences, to the people of the community at a nominal cost.

There will be special features on the programme for farmers. Authorities on

various phases of agriculture have been secured and will have something of importance and interest to say to the tillers of the soil. There will be attractions and amusements for everyone present.

#### Trades' Display.

In the proposed Trades' Display an opportunity is afforded every merchant in the town as well as every manufacturer or business man in the district to be represented in a most effective way. This idea has appealed strongly to all who have been approached and it is understood that a large number of unique and ingenious floats are already under way for the big parade. All that one has to do, who wants to enter the Trades' Display, is to go ahead and have their float ready in time. Knowing this many surprising effects may be looked for.

#### As To The Tickets.

A dollar and a half season ticket admits one person to a concert and a lecture each evening, or to a total of four performances each day for three days, making a total of twelve performances, at an average cost to the Season Ticket purchaser of a little over ten cents for each event.

Further, let it be understood that the season tickets are transferable. Parents may use them at night and their children may use them in the afternoon if so desired.

The price of a ticket for a single night, including both the lecture and concert, will be 50 cents to every body, except of course, to holders of season tickets. In the afternoon the prices for concert and lecture will be 35 cents for adults and 25 cents for children. It is easily apparent that this is more economical to buy a season ticket.

## WAR MEANS DISARMAMENT

So Say Statesmen Who Predict World-Wide Peace As a Result.

The dawn of the day for world-wide disarmament will follow a general European conflict, in the opinion of Chairman James Hay of the House Military Affairs Committee and Representative Walter L. Hensley, of the House Naval Affairs Committee.

Representative Hensley, who heads the coterie of "peace advocates" in the House, said the world will stand aghast over the death and destruction of a war involving all Europe. He said the only bright ray in such a struggle would be the masses of people will rise up and say there shall be no wars. Mr. Hensley said he is in favor of a movement which will make money and credit from a neutral nation a contraband of war.

"I would make it a treasonable act," said Mr. Hensley, "for bankers, corporations or individuals to advance funds to a foreign country to finance a war. We all know that a country in these days cannot finance a great conflict within its limitation. It must call on capitalists and bankers of other nations to buy its war bonds. I believe if something could be done to prevent bankers of other nations from buying these war bonds it would go a long way toward preventing wars."

Representative David J. Lewis, of Maryland, another advocate of peace, offered the suggestion that it might be a humane act to Europe for America to say that in the event of a general European war the nations involved cannot get foodstuffs from this country. He said such action, if it could be made, might have a halting influence on the war gods of Europe.

## TREMENDOUS COST OF WAR

### Over \$55,000,000 a Day Considered a Conservative Estimate.

Scientific estimates as to the cost of war such as now involves all Europe put the cost at something over \$55,000,000.

These estimates are familiar to the military experts of Europe. What they have not taken into consideration, or, if considered, have not been able to estimate, are the losses consequent to wars—the lives sacrificed, the property destroyed, the peaceful activities and pursuits abandoned of grim necessity, the sapping of the best blood of the nations, the general and widespread impoverishment of natural resources. It is these losses that are inestimable.

While \$55,000,000 will be quite a price to pay, it will grow no smaller. On the contrary, the cost will keep on mounting. Consumption will not diminish, but production will approximate the "irreducible minimum." As usual, the law of supply and demand will proceed to assert itself, which is to say, that as supply diminishes, demand increases and those who have commodities get more for them, for the reason they themselves must pay more to get them. In other words, calculations based on prices prevailing at the beginning of the war are too conservative.

## GRAIN MARKET IS RELIEVED

### England Promises The Safety of Grain Sent to Her Ports.

Grain exporters are jubilant over England's guarantee for the safety of all grain shipped from America to any British port. For the first time since war actively began, there is hope that this country may be in a position to reap the benefit of the bumper wheat crop it has raised and which it is prepared to sell.

The wheat prices generally have advanced since this announcement and traders predict that a strong and active market will soon follow. There are enough of ships available, it is said, to carry our grain to England in spite of the tying up of the German steamship companies. It is expected that British tramp steamers will do most of the carrying.

This promise of England's means hope for the farmer. If the wheat prices continue to advance all over the country he may get a good price for his grain instead of having to dispose of it at a price below cost which would be necessary if there was no market abroad for the product.

## Date Set For State-Wide Primaries.

By an agreement between Gen. Murray Vandiver and John B. Hanna, chairman, respectively, of the Democratic and Republican State Central Committees, the State-wide primaries will be held on Tuesday, September 15. Under the agreement for primaries on September 15, the final day for filing is August 16, next Sunday. The Bull Moose Senatorial candidate will be nominated by State Convention after the other parties act.

## CAUSES BACK OF EUROPE'S WAR

### HATRED OF THE SLAV

#### Racial Make-Up of Powers Involved

#### AUTOCRACY VERSUS DEMOCRACY

Germany Ambitious for More Power and More Territory Gets in Trouble.—Long Smouldering Embers Burst Into Conflagration.

Following the war in Europe by depending on the daily dispatches is hardly reliable. Reports of victories are heralded in scare-headings one day and denied the following. All the news is colored and biased, more or less, one way or another, according to its origin and the censored channels through which it passes.

It would seem more practical and certainly more educational to inquire into the causes that gave rise to the present conflagration and to consider its probable outcome.

How did Germany get into it? What is the underlying cause of the war? These are the questions being asked concerning the great European conflict now being waged—a devastating conflict greater than the world has ever before witnessed.

The answer to the first question, by consensus of opinion, is that the German Kaiser sought war; has been eager for war for years past and has been quietly preparing for it—eagerly waiting for a pretext, no matter how flimsy. The Kaiser courted war, and rushed into it, headlong.

Why? To carry out the aim Germany to Germanize everything; to perpetuate autocracy; to prevent the advancement of political reforms; to express by the cannon's mouth its hatred of the Slavs.

Touching this phase of the question William Fletcher Johnson says:

"The strangest circumstance connected with the Austro-Serbian war, which proved the match that lit the European conflagration, is that while it is regarded as a war of Germans against Slavs, as a matter of fact Austria is herself a Slav empire. In only half a dozen of the seventeen 'lands' into which the empire is divided do the Germans form a majority, while in the whole of Austria the Slavs outnumber them nearly if not quite two to one. Thus if Austria is fighting against the Slavs, she is fighting against the two-thirds majority of her own people.

There is no other realm in the world that is so mixed and diverse a composition as Austria. That is true of its political divisions as well as of its population. It consists of seventeen States, called "lands." Of these three rank as kingdoms, namely, Bohemia, Dalmatia and Galicia and Lodomeria. The two from which the whole empire takes its name, Upper Austria and Lower Austria, are archduchies. Six are duchies, to wit, Bukovina, Carinthia, Carniola, Salzburg, Silesia and Styria. Two, Goerz-Gradiaca and Tyrol, are princely countships. Two, Moravia and Istria, are margraviates. Trieste and its environs form a special crown land, and Vorarlberg is simply a "land."

"Each of these seventeen 'lands' has its own local legislature or diet, ranging in number of members from twenty-four in Vorarlberg, to 442 in Bohemia. These bodies, elected for six years and meeting yearly, legislate like American State legislatures on all matters not specifically reserved for the imperial parliament. They control taxation, education and public works, and in Tyrol and Vorarlberg they have control also of the militia, and their consent is necessary for its employment in any other provinces of the empire.

As might be supposed, the populations of these various provinces differ

#### Prosperity on Eastern Shore.

The Federalsburg Courier is responsible for the statement that "a steady stream of gold is pouring into the Eastern Shore of Maryland and Virginia." Early crops yielded largely and prices have been the best in years. One onion crop of 8 acres cleared \$8,000, and the white potato crop has been high. Shipments of potatoes have been made at the rate of 4 trains, of 50 cars each, per hour. Banking institutions in that section are simply bulging over with money from farmers and truckers. In one institution in Accomac county over \$500,000 was deposited in two days. It is estimated by produce men that farmers and truckers from Salisbury to Cape Charles will receive over \$7,000,000 for their crops this year. Farm lands have jumped from \$29 an acre to \$200 an acre, and very little improved land can be bought even at that price.

#### Thursday.

26 lives were lost when a German dirigible was blown up by Belgian shells.

38 were killed and 25 injured in a head-on collision of two trains near Neosho, Mo.

Belgians repulsed the German invaders in a severe battle near Liege.

President Wilson requested army and navy officers of the United States to refrain from expressing opinions on the war in public.

Mrs. Woodrow Wilson, wife of the president of the United States died at the White House from a complication of diseases.

130 lives were lost when the British cruiser Amphion sank in the North Sea.

#### Friday.

The British landed 22,000 men on the French coast to go to the aid of Belgium.

Austria declined to aid Germany against England in the European wars.

C. S. Hamlin, of Massachusetts, was named by President Wilson as the Governor of the Federal Reserve Board.

In reply to another demand for aid made by Germany, Italy emphatically reaffirmed her neutrality.

Germany began the invasion of Russia with an army of 40,000 men supported by artillery and cavalry.

#### Saturday.

53,000 civilian laborers were engaged in strengthening the fortifications of Liege during the 24 hour armistice.

Cholera was reported to have broken out in both the Austrian and Serbian armies.

French troops invading Alsace-Lorraine won the first victory in a light engagement near the frontier.

A. M. Huntington, an American, was arrested as a spy in Nuremberg, Bavaria.

Six thousand Americans sailed for home from English and Belgian ports.

#### Sunday.

The report that Germany had taken Liege was officially confirmed. The loss was 24 guns, 5,000 men and one general.

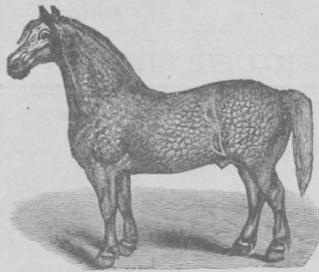

Russia began the invasion of Austria with an army of 50,000 men.

Germany officially notified the United States that all German ports had been mined.

#### New Sights at Great Hagerstown Inter-State Fair Next October.

The management of the Great Hagerstown Inter-State Fair after their successful exhibition of a year ago were met with the perplexing problem of how to secure more space for their large and growing exhibition. To buy additional land was almost out of the question as the prices asked for such as could be obtained were almost prohibitive. To re-arrange the grounds or certain portions thereof, was the course determined upon, after mature deliberation. It was found that the area within the race track, heretofore unused because of its inaccessibility, it being dangerous to cross the track while racing was in progress, contained about thirteen acres and it was felt that if this ground could be used with safety, the need for additional space would be solved for years to come. In order to obtain access to this infield, it was decided to build a subway or tunnel under the race track. This tunnel or subway is now completed and the infield or space within the race track will be used for the storage of automobiles. The automobiles will enter the ground at the Mealey Avenue gate, turn to the right, pass to the rear of the chicken house, to the extreme Southeast corner of the ground, then at right angles to the left and enter the tunnel. The tunnel will have two passage ways for automobiles, that to the right for going in and to the left for coming out. In addition to a passage way for automobiles, there is a five foot passage for pedestrians. Neither vehicles nor pedestrians will be allowed to cross the race track. The view upon emerging from the tunnel looking to the Grandstand is a sight seldom seen. The 50,000 persons on the Grandstand and hill to North and South thereof can be seen as the visitor and his automobile emerges from the mouth of the tunnel into the center of the infield, while the view from the Grandstand at the automobiles stored within the area will give an adequate conception of the great number of "Horseless carriages" used.

#### EXECUTOR'S SALE

—OF— Valuable Real Estate.

On Saturday, the 29th day of August, 1914, the undersigned, executor of the last will and testament of David P. Weikert, late of Cumberland township, Adams county, Pa., deceased, will sell at public outcry, by virtue of an order of the Orphan's Court of Adams county, the following valuable real estate.

Tract No. 1 A tract of land situate in said Cumberland township, about one-quarter mile west of Greenmount, on the road leading to McCleary's school house, and containing 155 acres, more or less. It is improved with a two-story brick house, bank barn with double floor, wagon shed and all other necessary and convenient buildings, all in good condition. The land is of good quality and in a high state of cultivation, about 130 acres are arable, the balance meadow bordering on Marsh Creek. There are a number of bearing fruit trees and some timber; never failing wells at house and barn. It is one of the most desirable farms in the vicinity.

Tract No. 2. A lot of ground in Greenmount, in said Cumberland township, containing 3 acres and 80 perches and fronting on the Emmitsburg road. It is improved with a two-story frame house, barn, wagon shed and other buildings, all in good condition; never failing well at the house.

Also at the same time and place a lot of household goods will be sold, consisting of a bed-room suite, invalid chair, chest, bedding, chairs and other articles. Sale will be held on Tract No., 1 at 1 o'clock, p. m., when terms will be made known by HARRY E. WEIKERT, Exr., Hanover, C. E. Stahle, Esq., Atty., Gettysburg.

### ALFALFA The Profitable Hay Crop

Yields Four to Six Cuttings a Year of Easily Cured and Most Nutritious Hay Wonderful Increases in Yield Each Successive Year.

#### ALFALFA "GOLD" BRAND

"Its long, branching roots penetrate far down, push and crowd the earth this way and that, and thus constitute a gigantic subsoiler. These become an immense magazine of fertility. As soon as cut, they begin to decay and liberate the vast reservoir of fertilizing matter below the plow, to be drawn upon by other crops for years to come."

Alfalfa seed sown during August or September will yield four to six cuttings next season. Frequent cuttings thicken out the stalk and makes it stool out and grow off better.

Alfalfa ranks higher than Timothy in feeding value. In fact, it might be termed both corn and hay, as it is almost a complete food. Experiment stations place the feeding value of Alfalfa hay at \$20 per ton, as against Timothy hay at \$12 per ton. This, with the fact that Alfalfa will easily yield, on good land, 6 to 12 tons of splendid hay per year, shows what a valuable crop it is. Lands in the Western States that are well set in Alfalfa sell readily at from \$100 to \$200 per acre. The acreage of Alfalfa is increasing very largely all over the Middle and Southern States; our farmers are fast beginning to realize what a valuable crop it is. Alfalfa will succeed and do well on any good loamy, well-drained soil, but the land must be well and thoroughly prepared for best results.

It should never be used for pasture; it is too valuable as a hay producer to risk injury from stock. A heavy application of lime is of decided benefit—2,000 to 5,000 pounds per acre. Alfalfa is usually sown broadcast at the rate of 20 to 30 pounds to the acre. Our Alfalfa seed is the highest grade, strong germinating seed of the best and cleanest quality possible to procure.

We offer American Dry Land Non-Irrigated Alfalfa Seed, Bolgiano's "Gold" Brand Fancy, 99.78 per cent. pure.

If you want the best field seeds of any kind, always insist on getting Bolgiano's "Gold" Brand Standard Clovers and Grasses, Cow Peas, Winter Vetch, Timothy Seed, Red Clover, Crimson Clover, Alyce, Red Top or Herd's Grass, Orchard Grass, Winter Oats, Tall Mead Oats Grass, Millet, Permanent Pasture Mixture, Dwarf Essex Rape, all varieties of Turnip Seed, including Cow Horn, Southern Seven, Top, Yellow Globe, etc.; Cabbage, Kale, Spinach, Winter Radish. If your local merchant does not sell Bolgiano's Big Crop Seeds, drop us a postal and we will tell you where you can get them.

THE WEEK AT THE COUNTY SEAT

Chronicle of Happenings at Frederick City and in the Courts.

That Governor Phillips Lee Goldsborough will come to Braddock Heights and deliver an address at a special Sunday evening service on August 23, is practically assured now that the committee in charge of the services has received word from the Chief Executive to reserve the above mentioned date for the service at which he has been asked to attend.

Company A, of Frederick, for the past few years the crack company of the Maryland National Guard, in rifle practice, left Monday morning for Saunders' Range where they will again try to wrest the championship from the other companies of the State.

Frederick's second Chautauqua will open next Tuesday on Hood College grounds, between Fourth and Fifth streets. Chairman Charles McC. Mathias announced that the board of Guarantors had about disposed of their tickets, and said that the response had been most satisfactory.

Mayor Fraley is enjoying a week's vacation from business and the cares of city management.

The board of county Commissioners decided that for the next school year Frederick county shall have compulsory school attendance, under a state law. The law enables the School Board to determine whether the law shall be enforced in their respective counties. Last year Frederick county decided to adopt the law, but made no effort at enforcement.

The Board also received bids for the construction of a 12 room school building at Thurmont, this county. For a site and building \$36,000 was appropriated, but as all bids were too high, in the opinion of the School Board, all were rejected and plans for a building to be constructed along cheaper lines will be made and bids again asked. The bids received follow: Lloyd C. Culler, Frederick, \$32,927; A. R. Warner; Waynesboro, Pa., \$36,000; J. S. Robinson Construction Company, Baltimore, \$39,150; Consolidated Engineering Co., Baltimore, \$42,500.

When Hood College opens September 15 it will have the largest enrollment in its history. In spite of the general depression throughout the country the demand for rooms at the College has been unprecedented. Work on the new buildings is being pushed as rapidly as possible. While contracts will shortly be let for additional structures.

The Mayor and Board of Alderman spent Tuesday on a trip of inspection to the water receivers of the city's supply. The trip, which is required by law is made at a most opportune time, as just now the water is at its lowest ebb. A proposal has been made by the city to the W. D. Bowers Lumber Company, of this city, to sell about 1100 acres of the watershed. The proposition is said to be looked upon with favor by the city fathers.

Teachers of Frederick county, who in September of this year will begin their school room work, will be required to attend a summer school for beginners to be held in the Girls' High School building for one week, beginning August 24. School Superintendent G. Lloyd Palmer, and the others of the School Board office will act as instructors and

those beginning teaching will be instructed in school management. Following the Beginners' Summer School, there will be a Teachers' Institute for one week, beginning August 31 and ending September 4. The public schools of the county will open on September 8.

For the first time in the history of school management in Frederick county the School Board will pay for the transportation of High School pupils from their home towns to the Frederick High Schools. The Walkersville High School was ordered closed and now the eight grade will be the highest grade taught. Pupils above this grade from Walkersville will have their railroad fare paid to Frederick by the School Board and given instructions here. Whether the High Schools at New Market, Emmitsburg, Myersville, Adams-town, and Jefferson will continue to be High Schools, or be cut back to the ninth grade, is a matter which will be determined largely by the local school commissioners for those districts and the school superintendent.

The Board of Auditors will within a few days complete the audit of the accounts of the office of the Board of County Commissioners. The audit of the county treasurer's accounts has been completed. The work of tabulating the results of the audit promises to be quite a task and will require much work.

Ray Morgan, who starred on the old Frederick Sunset League team in 1910, now an important personage in the Washington American League team, found a royal welcome when the Nationals arrived in Frederick Tuesday night for the game with Frederick. He recognized among the fans a goodly number of friends, especially the grown-ups but the younger generation for the most part had outgrown his recollections and had to make themselves known.

Mrs. Mary Steckel Burck will have charge of the combined choirs of the county, which it is planned to have at the grave of Key at noon on Key Day, September 14, and at which time the "Star Spangled Banner" will be sung. It is expected that 1,000 will sing the national anthem at the grave of the author.

Frederick's railroad facilities were greatly increased by the completion of the connection between the tracks of the Hagerstown and Frederick Railway and those of the Baltimore and Ohio lines. The connection is one for which Frederick shippers have been fighting for years, at one time seeking the aid of the State Commerce Commission to obtain it.

The School Board made the following appointments of teachers for the county: Helen Motter, Kempton; Dewitt T. Free, Creagerstown; B. Dubel, Pleasant Grove; Flora Welty, Appolds; Calvin Hoffman, Red Hill; Ellen Jones (colored), Urbana; J. R. Bruner (colored), Frederick; Ada Lewis, Lander; Ida V. Phleeger, Shookstown; Charles C. Stull, Bloomfield; Joseph W. Fry, Pleasant Hill; C. H. Crawford, Retreat; Robert J. Ridgely, Burkettsville; G. Harne, Harmony; Mazie E. Haines, Hansenville; John B. Derr, New Midway.

LAWS GOVERNING SUBSCRIPTIONS

Most readers of newspapers and many publishers are not familiar with the laws governing subscriptions. Here are the decisions of the United States court on the subject. They will be interesting to publishers and many will undoubtedly be glad of the opportunity to print them for the benefit of delinquent subscribers:

"Subscribers who do not give express notice to the contrary are considered as wishing to renew their subscriptions.

"If subscribers order a discontinuance of their publication the publisher may continue to send them until all dues are paid.

"If the subscriber refuses to take the periodical from the postoffice to which they are directed, he is responsible until he has settled his bill and ordered the paper discontinued.

"If subscribers move to other places without informing the publisher, and the papers are sent to the former address, the subscriber is held responsible.

"The courts have held that refusing to take periodicals from the postoffice, or removing and leaving them uncalled for is prima facie evidence of intention to defraud.

"If subscribers pay in advance they are bound to give notice at the end of the time if they do not wish to continue taking it, otherwise the subscriber is responsible until express notice with payment of all arrearage is sent to the publisher.

TAKE HIS ADVICE.

The highest salaried editor in the world, Arthur Brisbane, says:

"As a friend talking to another about a certain kind of goods can influence a friend more than a stranger, so a country newspaper, standing on a footing of friendship with its readers can talk to them about goods for sale or any other topic, and impress upon them more strongly than the big metropolitan newspaper, which is really a stranger."

The judgment of an authority like Brisbane amounts to something. Take his advice, then, and advertise in THE CHRONICLE, the paper that is your friend.

FESTIVAL NOTICES.

Notices of Festivals, Church Entertainments, etc., will be charged for at the rate of Five (5) Cents a line for the first insertion and Three (3) Cents a line for each additional insertion. Ten (10) cents extra for black face heading, the first insertion; Five (5) cents thereafter.

FREDERICK COUNTY.

Frederick is next to the largest of the counties of Maryland. In population and wealth it ranks next to Baltimore county.

EMMITSBURG.

In all Western Maryland—the beauty spot and the garden spot of the State—there is no town more attractive than Emmitsburg.

No people are more wide-awake, more knowable, more courteous to strangers than Emmitsburgians.

The location of Emmitsburg is ideal; the surrounding scenery is unmatched; the climate is notably healthful; its water—pure mountain spring water—cannot be surpassed.

Mount Saint Mary's College and Ecclesiastical Seminary—with an enviable reputation extending over 106 years—is located here; St. Joseph's College and Academy for young ladies—equally as noted during its 105 years of splendid achievement—is also here.

There are excellent Schools—Public and Parochial—in Emmitsburg; two sound Banks, five Churches, a live Newspaper, modern Hotel accommodations, adequate Fire Department, progressive merchants, splendid physicians, good liverys, auto garages, many fraternal organizations, good railroad accommodations.

There is business to be had in Emmitsburg; there are Factory Sites available. If you contemplate changing your place of residence—come to Emmitsburg, Frederick County, Md.

BOOSTER WEEK.

The foreword having been spoken, the introduction having been set forth, a general explanation of its scope and object having been given, it only remains for all the good people of this

town and district to hold themselves in readiness to take a hand in the Booster celebration and make the occasion more brilliant, more successful, if possible, than was that memorable Old Home Week five years ago.

Governor Warfield, who was the guest of honor then, predicted that Old Home Week would mark an era in the life of Emmitsburg. He said that in the years to come people would date every occurrence from that time.

Why not make the coming Booster Week eclipse Old Home Week? Why not let it be an occasion that will give more impetus to that spirit of advancement and development that is so characteristic of Emmitsburg people?

Truly has it been said that "when Emmitsburg does anything, it does it right." Here then is a chance to do one more thing "right"—a chance for EVERYONE in the district to boost every enterprise, every industry located here.

Take hold; help; be a booster.

MERCHANT MARINE.

Admitting foreign-built ships to American registry is one way of partly meeting the present difficulty. It is an emergency plan, but a poor make-shift, at that.

"If the United States now had a merchant marine commensurate with its importance as a world power, with the tremendous supply of foodstuffs at its command it could accomplish great things toward the amelioration of conditions likely to be wrought by war in its sister nations across the Atlantic."

The present situation may be relied on to awaken Congress to a realization that depending on a foreign merchant navy for the import and export carrying trade of our country is a decidedly doubtful policy.

DAVID J. LEWIS.

The Honorable David J. Lewis has formally entered the race for re-election. He has no opposition as nominee on the Democratic ticket, and from present indications—nowithstanding unusual Republican activity—he is as strong as ever.

highly gratifying—that this estimate obtains, not only among the voters in his own party, but among very many voters in the Republican ranks. The fact that he has received so many assurances from the latter is but another proof that David J. Lewis is the people's choice.

FARMERS and bankers are naturally more interdependent than any other two classes of men. They should therefore be the very best of friends and work for each other's interests.

THERE is no cessation of kindly comment on Emmitsburg's continued improvements. Every former resident notes the substantial progress made in recent years and every visitor congratulates the citizens of the town on their progressive spirit.

JUST at this time the fly seems to be playing second fiddle to the Dove of Peace in this "swat" business and, incidentally, (faint memories of that gent yclept Billy Patterson) whoever swatted that glorious bird on the bean "hit him a — of a crack."

RESERVE your final judgment till all the facts are at hand. Even Langley's flying machine has been proved to be capable of flight.

To the marooned American on the other side a steerage bunk on any old steamer resembles a suite de luxe on the Mauretania.

T. R. is overlooking a chance. The Kaiser could certainly use him and that Armageddon stuff of his just about now.

ISN'T there a man by the name of Carnegie?

What is a "Moratorium?"

The word "moratorium," appearing repeatedly now in discussions of international credit, has a simpler meaning than its length and verbal structure might imply.

A eminent authority has estimated that 91 per cent. of the people of Paris have the germs of tuberculosis in their blood and are capable of spreading the disease.

Great Britain's largest railroad has adopted for general use a system of automatic train signaling which produces audible signals in locomotive cabs.

FEATS WITH THE CAMERA.

Difficult to Snap Fast Moving Objects at a Given Point.

Only an expert, and he only after much practice, can take a photograph of a rapidly moving object at a predetermined point—for example, an express train with the cowcatcher just at a white chalk mark on a tie or a baseball at the instant the bat strikes it.

The reason for this is twofold: First, there is a certain appreciable time between the mental decision to do a thing and the actual doing of it; second, it takes a certain appreciable time for the impulse given by pressing the button or squeezing the bulb of a camera to travel to the shutter and open it.

CLOUD FORMATIONS.

What We Know About Them Seems to Be Mainly Guesswork.

Many scientists have told us how clouds are made. Most of the textbooks on physical geography tell all about them, but it is all guesswork.

It is held that particles of moisture are evaporated from the earth's surface by the heat of the sun. This moisture does not form into clouds immediately. Indeed, the passage of the moisture from the earth to the upper air is quite invisible.

But scientists hold that the tiny particles must have something to condense upon. They used to tell us that the moisture collected upon dust particles to form into rain drops.

Anyway, when these drops get large enough they accumulate into vapor, forming clouds. When the droplets get too large and heavy to float in the air they fall to the earth in the form of rain, and this is about all we actually know about clouds.—War Cry.

When Seals Were Food.

The gray seal used to serve Cornishmen as an article of diet. Stephen Hawker tells how he and a brother clergyman, having asked a landlady at Boscawen what she could give them for dinner, were told "Meat and tates."

Twenty Years of Pleasure.

St. Michael's church, Macclesfield, England, is noted for its beauty. In "The Manchester and Glasgow Road" Charles G. Harper tells of a curious epitaph in the churchyard upon one Mary Broomfield, who died in 1755, aged eighty.

Comfortable Disappointments.

Next to having the dentist postpone an appointment to tinker with your teeth what is the most comfortable disappointment you ever experienced?

Deduction.

"Tell me what you eat, and I will tell you what you are," boasted an amateur sage.

Knew Her Weakness.

Mrs. Cross—Are you a man or a mouse? Mr. C.—The question is superfluous, my dear. If I were a mouse you'd be on a chair screaming.—Philadelphia Ledger.

THE SUBTLE ASIATIC.

His Illustration of the Saying That "Clothes Make the Man."

Some hundreds of years ago there lived in Agshelin, a little town in Asia Minor, an imam, or village parson, the Khoja Nasr-ed-Din Effendi.

One day a camel passed along the street in which the khoja lived, and one of the khoja's neighbors who had never seen a camel before ran to ask him what this strange beast might be.

A great man once gave a feast to which, with much condescension, he caused the khoja to be bidden.

The khoja stroked the sleeve of his borrowed garment. "Answer, fur!" he said.

STUCK TO HIS FAITH.

Anyhow It Paid the Young Prussian Not to Change It.

A king of Prussia who reigned about the beginning of last century was noted for his geniality, and often in the course of his walks through the streets would enter into conversation with his subjects.

The king laughed heartily at the outspoken and unrestrained way in which he had answered him, and then gave him 30 marks.

Disraeli and Primroses. Disraeli's alleged fondness for the primrose rests upon rather flimsy evidence.

In Their Own Coin. When S. R. Crockett offered his first book to a certain firm of publishers they returned it with a curt note informing him that there was "no market for this sort of work."

Some time later, when Mr. Crockett had become famous, this same firm wrote asking him to allow them to publish his next book.

As You Like It.

Jimmy, who was no highbrow, had gone all alone to see one of those outdoor performances of Shakespeare.

Dreams.

The seven-year-old boy who told his sister that "dreams are only moving pictures in your mind" gave a better definition of the fancies of slumber than can be found in the dictionaries.

Horses.

It is estimated that the life of the average horse in bondage is twenty-five years. The wild horse's age is about thirty-eight years.

WHAT IS AMORTIZATION?

The Method of Providing For the Repayment of a Loan.

Every now and then the plain man who has saved a little money and wants to invest it so that he will get a reasonable and safe return runs against a nest of terms which are bewildering and all but meaningless.

"Amortization" means simply the method of providing for the repayment of a loan. If you lend me \$10,000, which I promise to repay in ten years, you have a right to be interested in my plans for meeting the demand for the \$10,000 which you expect to make upon me ten years hence.

Certain lenders of money on long terms insist upon the borrower's taking out a life insurance policy big enough to meet the debt in case of death before the debt becomes due.

One practice of the Navajos that promotes health among them, however regrettable it may be for us, is their disposition of the dead.

So when any one dies the only anxiety of the surviving relatives is to get rid of the body as quickly as possible.

If the death occurred in a rocky country the body will likely be taken to some crevice and thrown in it.

The Judge Who Didn't Joke. The funny sayings of a judge who never joked are found in "Arabiana," a selection of the dicta of Sergeant William Arabin, who sat as a judge at the Old Bailey in London from 1830 to 1839.

Another axiom he delivered himself of has been fathered on many other occupants of the bench:

"If ever there was a case of clearer evidence than this case, this case is that case."

Odors of London. The sense of smell which enables an engine driver to avoid a collision or a sailor to steer clear of an iceberg is the least cultivated of our senses.

A Natural Inference. "Matrimony," said the lady who had just secured her third divorce, "is, after all, an uncharted sea."

"I take it, then," her friend replied, "that you have not engaged in your various ventures for charting purposes."—Chicago Record-Herald.

HERE AND  
THERE

IN THE  
STATE

Hagerstown—Harry McC. Stouffer, Republican, was appointed tax collector of Hagerstown by Mayor J. McPherson Scott, and confirmed by the City Council by a vote of 3 to 2, one of the Democratic Councilmen voting for confirmation. The confirmation of Mr. Stouffer ends the deadlock that has existed for four months between the Republican Mayor and the Democratic majority in the Council over the appointment of tax collector, an office that pays about \$2,500 a year.

Laurel—Mr. Herbert F. Mitchell, of Philadelphia, has been appointed principal of the Laurel High School, to succeed Prof. Roger I. Manning, who has been at its head for the past 14 years and who resigned at the end of the school term in June.

Port Deposit—Farmers from a dozen counties in the state gathered Saturday at the Tome School at an all-day celebration under the Allied Farmers' Interest of Cecil county. Mr. John P. Kimble presided at the meeting. The principle speaker was A. C. Monahan, specialist on rural education of the United States Bureau of Education. His subject was the Work of Agriculture Colleges of the Country.

Ellicott City—Fire was discovered in the stable of Mr. A. Howard Linthicum, near Clarksville, last Saturday afternoon, and destroyed the stable, barn, granary, cornhouse and two large carriage houses. The origin of the fire is unknown. The only explanation that can be given is that some one dropped

a match in the stable and one of the horses stepped on it.

Hagerstown—Joseph Courtney, aged 20, and Claude Roof, aged 10, were killed and a number of other persons were stunned when a bolt of lightning struck a tree during the union picnic of the Green Spring Furnace Chapel and Shanktown Sunday School at the Green Spring Schoolhouse, about two miles west of Four Locks, Saturday afternoon. The bolt which killed the boys came without warning, the picnickers having previously sought refuge, and, believing the storm over, had returned to the picnic grounds.

Sykesville—Fire destroyed the saloon of George Linton here shortly after midnight, Saturday. The building destroyed, which was a two-story frame structure, was valued at \$5,000 with its contents. The loss was covered by insurance. The origin of the fire is a mystery.

Hagerstown—The friends of Dr. J. McPherson Scott, have been urging the prominent physician to be a candidate for the Senatorial nomination.

If Dr. Scott consents to enter the race he will have for his opponent, Col. Carrington and the contest will be an interesting one. Dr. Scott is very popular in Western Maryland and particularly in his home town, having repeatedly served as mayor, and he is now the executive of Hagerstown. He is also the secretary and treasurer of the State Medical Examining Board, a position he has filled for years. Dr. Scott has always been a constant Republican.

CAUSES BACK OF  
EUROPE'S WAR.

greatly in racial composition. The two Austrias, upper and lower, Salzburg, Tyrol, Vorarlberg, and much of Carinthia and Styria, are occupied chiefly by Germans, who are found also around the edges of Bohemia and in much of Silesia. The remainder of Silesia and the greater parts of Bohemia and Moravia are occupied by the Czechs. Western Galicia is Polish, as is also a small part of Silesia. Eastern Galicia and part of Bukovina are the home of the Ruthenians. In Carniola, Goetz-Gradisca, Istra, southern Styria and Trieste the Slovenes predominate, though the Italians and Ladini are also found there and also in Tyrol and the towns of Dalmatia. Serbs and Croats are numerous in Istria and Dalmatia, and Bukovina is largely given up to Roumanians.

"The total population of the empire in 1900 was 26,107,304, and at the present time it may be as much as 29,000,000. Estimating it at the latter figure, the Germans may be reckoned at about 9,500,000, the Slavs at 18,500,000, and the Italians and Ladini, with a few Magyars and others at 1,000,000. Thus the Slavs form a perfectly overwhelming majority. Why, then, it may be asked, do they not rule the empire instead of permitting the German minority to do so?"

The answer is found largely in the fact that the Slavs are subdivided into a number of tribes, among which there is little co-operation and not much sympathy. First of all they are divided into two great classes, the Northern and the Southern. The former comprise the Czechs of Bohemia and Moravia, the Ruthenians, the Poles and the Slovaks; the last-named, however, being almost entirely in Hungary. The Southern Slavs comprise the Serbs, the Croats and the Slovenes. Thus there are at least six distinct divisions of Slavs, and while all together they outnumber the Germans about two to one, not one of the divisions comes anywhere near to equaling the Germans. The Germans, therefore, while they are in the minority, form a strong plurality, and have been able to maintain a plurality over any permanent combination of Slav tribes.

"During the last generation the Slavs have come forward to be fully the equals of the Germans in Education and in prosperity, so that for the latter to look down upon them as inferiors has become absurd. It was a realization of these circumstances that led the late Archduke Francis Ferdinand to contemplate transforming the empire into a federation, in which the Slav States would have equal dignity and rank with the German. He realized that it would be impossible much longer for the German minority to dominate the Slav majority, and he thought to preserve harmony and the integrity of the empire by giving the Slavs the recognition which was their due. But with his death that design perished, and the empire is now under the control of those who deem it the divine right of the Germans to lord it over all others."

the International Harvester Company a trust in restraint of trade and ordered its dissolution within 90 days.

Ambassador Herrick today cabled to the State Department an urgent request on behalf of the American Hospital at Paris, for a large quantity of hospital supplies for sick and wounded French soldiers.

Request for an immediate and specific report from the German government on the imprisonment of Archer M. Huntington, president of the National Geographic Society, and his wife, today was made upon Haniel Von Heimhausen, counselor of the Germany Embassy, by Secretary Bryan.

Warnings not to enter the English Channel without exercising the greatest care to avoid all mines were flashed to the North Carolina and Tennessee by the Navy Department today.

Secretary of State Bryan admitted today that inquiries are being made in England regarding an alleged order prohibiting foreigners from landing in England.

An appeal was made to the House Agricultural Committee for federal financial aid in disposing of the 1914 bumper cotton crop, cut off from European markets by the war.

Our Cables are in Danger.

Although all the cables between the United States and Europe are protected upon the high seas by international treaties and agreements, they are entirely within the jurisdiction of European governments when they reach soundings within the three-mile limit on the other side. Within that limit they may be cut at the pleasure of the government controlling the territory at the terminal.

The fact that many of the cables are privately owned would not prevent their being cut, officials believe, although international agreements provide severe penalties. In the necessities of war, they point out a belligerent probably would cut a cable if it accrued to her advantage and pay the penalty afterward.

Should such a case arise it would be annoying in the extreme because not only would news of the war be lacking, but Americans abroad could not communicate with friends and relatives here.

How to Avoid Sunstroke.

"Our sun is not strong enough to cause sunstroke, or other symptoms of ill-health," said an army surgeon who has served in the tropics, "provided that the top of the head and back of the neck are protected. Sunshine makes for health, and the fact that few Britishers reach a really ripe old age is probably due to the many months of the year without sunshine which they have to put up with.

"To prevent sunstroke, wear a light, comfortable straw or pith hat lined with red—a color which excludes the actinic rays of the sun—and with a wide enough brim to shade the neck. Dress in white, or very light-colored clothes, which hang loosely, but to prevent summer colds which are caught while standing about at chilly corners, always wear light woolen underclothing.

PERSONALS.

It is the aim of THE CHRONICLE to publish as many personal and social items as possible, but it frequently happens that those who have guests visiting them, and those who entertain, fail to send a list of their friends, or an account of these events, to this office. Readers who live at a distance are always interested in what is going on "at home," and for that reason, if for no other, this column should be filled every week. It is of course understood that anonymous contributions will not be published. Names of persons furnishing items will be withheld.

Mr. Guy Little, of McSherrystown, was the guest of Miss Bertha Felix last week.

Misses Lillian Topper and Bertha Felix and Mr. Guy Little spent Sunday at Pen-Mar.

The following people have purchased automobiles during the past week: Messrs. Charles Putman, of Creagers-town, Ford touring car; Elmer Valentine, Ford touring car; Patterson Bros., Ford runabout; Harvey Valentine, Ford touring car and George McLaughlin, of Fairfield, Overland.

Emmitsburg fruit has a reputation second to none. Strawberries grown in this district are unusual; cherries superb; bearies of all kinds the largest and most luscious; apples—an unlimited variety—the foremost and best. Selections of peaches left at this office by Mr. M. J. Spalding and Mr. William J. Topper indicate that this fruit is keeping up to Emmitsburg's standard of excellence. The liberal samples from the orchards of both of these gentlemen were most attractive and the flavor of the fruit delicious.

CHANGES IN MARYLAND PAPERS

Westminster Times Under Different Management—Brunswick To Have Local Paper Again.

Last week's number of the Westminster Times was issued under new management, The Times Printing Co., incorporated, having succeeded Mr. George K. Mather in the publication of that paper. The Times will be continued as a Republican weekly.

The announcement has been made that Brunswick, this county, will soon have a weekly local paper. The new journal will be known as the Brunswick Times and will be published on Thursday, the first issue to appear September 3rd. For the immediate future the Times will be printed at the News office, Frederick. Brunswick, the second town in point of population in the county, has been without a paper since the discontinuance of the Herald.

MRS. MARGARET ARNOLD.

Mrs. Margaret Arnold well known throughout the community as "Aunt Maggie," died at St. Agnes' Hospital, Baltimore, Sunday evening, of paralysis where she had been removed two weeks ago.

She was the daughter of Samuel Flautt and wife of the late James Arnold who died in 1894. She is survived by one son, James Arnold, of this place, three sisters, Mrs. Marv McIntire and Mrs. Martha Delaney, of Baltimore, and Miss Jennie Flautt, of Cumberland, and one brother, Mr. Joseph Flautt, of Baltimore.

Funeral services were held in St. Joseph's Catholic Church Wednesday morning at 9 o'clock with High Requiem Mass by Rev. J. O. Hayden. Interment in the Catholic cemetery.

Lady Bikers Journey to Harney.

"We are not suffragettes but bikers" was the comment of Misses Ruth and Rhoda Gillelan on last Tuesday morning as they started for Harney on foot. It was their idea not to accept a ride, but to walk the entire distance. Strange to relate although they passed several teams going and coming they were headed in the opposite direction. The young ladies reached Harney about noon and saw what was remarkable to them a number of men pitching horse-shoes on the square. Their trip consumed four days and while away they visited "Camps Welcome and Idle While."

Card of Thanks.

Mr. James Arnold takes this opportunity to express his keen appreciation of the many kindnesses shown his mother during her last illness.

In Memoriam.

In loving remembrance of my daughter, Mary Springer:  
 One month has passed, our hearts still sore;  
 As time flies on we miss her more;  
 She sleeps—we leave her in peace to rest;  
 The parting was painful, but God knoweth best.  
 We do not know the pains she bore;  
 We did not see her die;  
 We only knew she went away  
 And never said good-bye.  
 BY HER MOTHER.

It has been stated that an elephant sleeps only five hours each day.

DIED

ARNOLD.—On Sunday, August 9, 1914, at St. Agnes' Hospital, Mrs. Margaret Arnold, aged 62 years. Funeral services were held Wednesday morning at 9 o'clock in St. Joseph's Catholic church, Rev. J. O. Hayden, officiating. Interment was made in the cemetery adjoining the church.

Frederick Nine Beaten, 6 to 5 In Ninth Inning of a Fast and Close Game.

In one of the closest games played here this season, Emmitsburg again defeated the Frederick Collegians by the score of 6 to 5. The visitors got a run in the first inning, when James attempted to steal home and in the run-down the ball was dropped. In the third they got 3 more on a single, triple and double, mixed up with two errors. Sellers was sent in to pitch in the fourth and blanked the Collegians in every inning but the seventh when on two hits they got a man across. He struck-out five of the last six batters who faced him.

Lease, whom the locals knocked from the box the Saturday before, pitched the entire game for Frederick and was effective until the sixth when a triple, a single and his wildness gave the home team four tallies. The visitors got a one-run lead in the seventh, the locals tied again in the eighth. In the ninth Kerrigan walked and as he started to steal, Sellers won his own game with a slashing double to centerfield, Kerrigan scoring.

STORM DOES MUCH DAMAGE.

Crops and Fruit Trees on Many Farms Were Ruined.—Harney Suffers Heavy Loss.

The storm that passed over Emmitsburg and the surrounding country on Saturday evening did considerable damage to crops and fruit trees on various farms.

The chimney on the local post office was struck by lightning but no serious damage was done. Many trees on the grounds of St. Joseph's Academy and Mt. St. Mary's College were blown down.

A sign on the store of Mr. R. M. Zacharias was blown off. A portion of the fence around the premises of Mr. Augustus Eckenrode, of near town, was also blown down by the heavy wind which accompanied the storm.

A cow, sheep, calf and heifer belonging to Mr. Robert McNair, of near town, were struck by lightning and instantly killed.

Among the most heavily damaged farms were those at Harney. The farms were those of Richard Hill, Judson Hill, Hiltbrecht Hill, Shoemaker Farm, Snider Farm, and Shriver Farm. The crops on these farms were completely destroyed. It is reported that hail fell in Harney to the depth of about five inches.

EMMITSBURG STILL WINNING.

Monterey Bites The Dust In a Splendid Game Here, Score 4 to 3.

In a fast and exciting game yesterday afternoon Emmitsburg defeated the Monterey Country Club, 4 to 3. The contest was hard fought and was nip and tuck all the way through.

By agreement the pitching for Emmitsburg was divided up between Stokes and Sellers. The former fanned 10 men and allowed but three hits during his five innings, while Sellers pitched steadily, only one man scoring against him.

Brown pitched a splendid game for Monterey and deserved better support. But five bingles were made off him but errors frequently gave the locals a base.

The game was fast throughout and Bower's steal of home, after pilfering second and third, and a fast double-play, Sellers to E. Annan to L. Topper added excitement to the game.

This was Emmitsburg's twenty-first game and eighteen win, the last eight being consecutive.

THOMPSON KNOWS THE GAME.

Baltimore News Settles Doubt Raised in Thurmont Game.

In Jack Carroll's sporting column of the Baltimore News the other evening appeared the following query:

Dear Jack: Runners on second and third, a double steal is started; man on third starts for home; second starts for third and stops on third base; the runner from third to home stops when home base is touched with ball. Is he out or not? J. H. C., Thurmont.

Most assuredly not. He must be touched before being declared out. The question was evidently asked to settle the doubt that may have arisen by the exception taken to Umpire Thompson's ruling in the last game at Thurmont, when Emmitsburg beat the latter 6 to 3. Sam Annan was on third and Frank Topper at second. The play was as described above and Annan, not being touched out, was declared safe by the umpire.

Paint?

There are two good reasons for painting often-enough or even too-often. One to look prosperous; two to be so. Nothing does one more credit or gives one more credit than paint, supplemented of course by what goes with it; and paint costs nothing. True, the first cost is \$5 or \$6 a gallon put-on; but it saves more than that in the property; saves it from slow going down—not always slow—it drops with a jump when water gets in on wood and iron. Dry wood and iron cost nothing, kept dry by paint. Better paint when it needs it. Paint never goes down in the sense of being more profitable next year.

Appropriation For Maryland Militia.

Out of the \$1,599,362 appropriated by Congress for the purchase of supplies and ammunition for the militia of the various states, \$25,383 is allotted to Maryland for the fiscal year 1915. The law requires that the funds shall be apportioned according to the number of Senators and Representatives to which each state is entitled in the Federal Congress. It is provided, however, that no State shall be entitled to benefit unless the number of its active militia shall be a 100 men for each Senator and Representative to which each State is entitled in Congress.

SACRIFICE SALE

OF

Pianos and Organs

The Piano and Organ business formerly conducted by the late J. M. Birely will be closed out and the Palace of Music will be vacated by October first next.

There is now on hand a large stock of medium and high grade Pianos, such as Mr. Birely sold with success for some forty years past, and in order to dispose of same within the required time, they will be sold at a sacrifice. Prices will be made so low that you will be enabled to purchase a strictly first class high grade instrument for less than the price of the lowest grade.

We need no line of commendation as to the instruments, for their names and reputations held for so many years speak for themselves.

Our stock embraces the PACKARD, LEHR, RADLE, BRINKERHOFF, LINDERMAN, YORK and BEHR BROS. Each and every instrument being beautiful in finish, rich and even in tone and durable in construction. You will find these makes in hundreds of homes through Frederick City, Frederick, Carroll, Montgomery, Howard and Washington Counties, and in the upper portion of Virginia, as well as other localities, all giving entire satisfaction and fully measuring up to their merited high reputations.

We have also a line of new Organs and a few second handed Pianos and Organs to dispose of to prompt buyers.

The musical merchandise stock, including Violins, Guitars, Mandolins, Banjos, Accordions, etc., etc., will be included in the sale and you should embrace this exceptional opportunity to save money by purchasing now.

MORE BANK TALK

Did it ever occur to you why all good business men keep a checking account with a bank? We'll tell you. It enables them to keep their funds in a more secure place than the office safe. It gives them a better standing in the business world. It enables them to pay their bills by check, the returned check being an undisputable receipt.

Individuals find a checking account very convenient and a source of saving. Money in one's pocket is often spent on the spur of the moment, while one is disposed to think twice before drawing on their balance in the bank.

The many friends of Colonel McNally in this community were greatly shocked at hearing of his sudden death on the 7th inst at his home in Washington, whence he had just returned after spending July at Massanetta Springs, Va. The Colonel and Mrs. McNally for many years have spent the summer and fall as guests at "Villa Rest," the hospitable home of Mr. Wm. Walter. The Colonel was a familiar figure on the country roads, being a tireless pedestrian. He spent most of his time in walking and enjoying the many beautiful views in which our local neighborhood abounds. The Colonel, who was a gentleman of the old school, chivalrous to the last degree, endeared himself to all whom he met by his friendly ways, and never failing courtesy. His presence will be very much missed during the coming months. Mrs. McNally has the sympathy of the community in her sad bereavement.

# FABLES IN SLANG

## GEORGE ADE

THE NEW FABLE OF THE DIVINE SPARK THAT HAD A SHORT CIRCUIT.

One Evening at a converted Rink known as the Grand Opera House, a flock of intrepid Amateurs put on a War Drama.

Lila, principal Child of the Egg and Poultry King, played a Daughter of the Southland, and her Hair shaken out and Lamp Black on her Eye-Winkers, so as to look like Maxine.

All of her Relations and the other Members of the Pocahontas Bridge Whist and Pleasure Club were in Front, and they gave her a Hand every time she stepped out from behind a Tree.

She scored what is known in the Ibsen Cult as a Knock-Out.

At 11 P. M. she was up on a lonesome Eminence, right between Sara Bernhardt and Julia Marlowe, waiting for a Telegram from C. F. to come on and tackle the Role that was too Heavy for Maude Adams.

The proud Parents awoke next Morning to discover that Lady Macbeth was boarding with them.

When she moved from one Room to another, the Portieres had to be spread the entire length of the Pole, so as to make Room for her Head.

A local Haberdasher, who had been plotting to surround her with a new Bungalow and a lot of Mission Furniture, went to call as per Usual and found her away Up Stage, trying to look like Margaret Angelin in the Big Scene.

She was too busy to Hold Hands, for she was mapping out a Career which terminated with an Electric Sign on Broadway and the Street jammed with up-town Limousines.

So the Gents' Furnisher moved down the Street to a Brick House, the unmarried inmates of which would begin burning Greek Fire and sending up Balloons every time a Live One Slammed the Front Gate.

Lila had the Bacillus Theatrical gnawing away in every part of her System.

She could see the magnificent Play House crowded from Pit to Dome, just as the Producing Manager sees it every August when the Pipe is drawing freely.

She could hear the Leading Man in the Dress Suit say, as he pointed up

it took many an Egg to have Lila properly Conservatoried.

At last she came home With a Diploma showing that she was an Actress.

After that she merely needed a Play and a Company and a lot of Scenery and a Manager and a Theater and the soft old Public buying of the Scalpers in order to realize her modest Ambition to become a Real Star.

She took her Diploma and the Local Press Notices up to New York to see what she could get on them, and found 10,000 other incipient Modjeskas hitting the worn Trail that led from one Agency to another.

Artistic Temperaments were more Abundant than Lamp Posts and getting an Audience with a Big Gun was just as easy as Opening a Time-Lock with a Hat Pin.

She had an offer at the Hippodrome to walk in front of an Elephant waving a prop Palm, but she spurned it, because she was ready to do Desdemona at a Moment's Notice.

As for the Laudatory Article written by a would-be Willie Winter of the wild and woolly West, she couldn't find any one in the neighborhood of 42nd Street who had ever heard of the Tank Town in which her Folks were so Prominent.

In order to get Experience, she signed up with a No. 4 Company, playing the Part of the deaf-and-dumb Lady who crosses the Stage and removes the Tea Things early in the Second Act.

When the Troupe went on the Rocks at Mauch Chunk, Penna., the erstwhile Favorite of the Pocahontas Club found herself sitting on a Trunk marked "Theater" standing off a Deputy Sheriff and waiting for an Answer to her Wire.

The First Old Woman, who remembered Edwin Booth, came and sat beside her.

"Do not be discouraged, Honey," said She. "Go right back and start all over, and possibly sometime Next Year you will again have the blessed Privilege of going up a neglected Alley twice a Day and changing your Clothes in a Barn. Any Girl with your Looks and Family Connections can curl up in a Four-Poster at night and then saunter to the Bath over a soft Rug in the Morning, but only a throbbing Genius can make these

The waist made with raglan sleeves which extend to the neck is one of the best liked models of the winter. This one includes a vest, which can be made from net or any similar material. The long sleeves are somewhat unusual, being slashed and plaited to a

cuff effect. Those of the three-quarter length are simply finished with attached cuffs.

In the picture brocaded silk is the material used, with a lace vest and frill. Plain silk would be pretty, with shadow lace used for the trimming portions. Marquise or chiffon is effective used in combination with either crape or satin, and a touch of fur is particularly smart.

For the medium size the blouse will require three and five-eighths yards of material twenty-seven inches wide, with one yard extra for the vest and neck frill.

This May Manton pattern is cut in sizes from 34 to 40 inches bust measure. Send 10 cents to this office, giving number, 8088, and it will be promptly forwarded to you by mail. If in haste send an additional two cent stamp for letter postage. When ordering use coupon.

Boys' suits made with straight trousers are the style this season. This suit is masculine looking, but at the same time simple and childlike. The coat being loose, the suit is easy to make. The big collar is always be-

coming to small boys, and the patch pockets are sure to please the wearer himself. Suits of the kind are made from serge and chevrot for school wear and of velvet and velveteen for best attire.

The collar can be made to match the suit or the shield or of an entirely different material. Corduroy, with collar of broadcloth in matching color and shield of white, makes an effective suit.

For the six-year-old size the suit will require three and a half yards of material twenty-seven inches wide, with five-eighths for collar and shield, and four yards of braid.

This May Manton pattern is cut in sizes for boys from four to eight years of age. Send 10 cents to this office, giving number, 8088, and it will be promptly forwarded to you by mail. If in haste send an additional two cent stamp for letter postage. When ordering use coupon.

Trying to Look Like Margaret Angelin in the Big Scene.

the Marble Stairway, "Ah, here comes the Countess Zika now." And then she would enter trippingly, wearing \$900 worth of spangled Raiment, whereupon the vast Audience would stand up and cheer.

Whilst enjoying this Trance she wore a Yellow Kimono and had her Meals sent to the Room.

Father saw that he was Hooked, so he loaded her into a Parlor Car and took her up to a School of Dramatic Art to have her searched for Talent.

The Head Crimp of this refined Shake-Down watched her do the Scene in which Ophelia goes Dotty and picks the imaginary Hollyhocks, and when it was all over and Shake-pears had been reduced to a Pulp, he slapped old Ready Money on the Back and told him his Daughter was a Phenom.

With a couple of hundred Lessons in Correct Breathing, and the Vocal Chords loosened up with a Glove-Stretcher, and a row of Scallops put on the Technique, Mary Anderson would be right back in our midst.

So Lila got ready to fill the Vacancy caused by the Retirement of Ellen Terry, while Papa went back to the little Office in one corner of the Warehouse and began to sign Checks.

Night Jumps in a Day Coach and stop at a Hotel which is operated as an Auxiliary to a first-class Saloon. It will be Hard Sledding for the first 15 or 20 years, but by the time you are 45 you may reasonably count on getting 20 weeks out of every 52, running around in front of a Kinetoscope."

Lila pulled into the Scene of her Early Triumphs with a mere suggestion of No. 4 Grease Paint still lingering behind her Ears.

As the Train rolled through the Yards, the Foreman of the Section Gang narrowly escaped being hit in the Head with a tin Make-Up Box, hurled from the rear of the Observation Car.

Next day she had a strip of Red Carpet spread for the Haberdasher and was learning to Cook in Paper Bags.

Whenever she hears of a Good Show coming to Town, she invites all of her Friends to come out to the Bungalow and Play Rhum on the Mission Furniture.

MORAL: The True Friend of Humanity is one who goes to the Home Talent Benefit for Something and Hisses all Evening.
