THREE ISSUES GAINING

PROHIBITION LEADS

Equal Suffrage and Socialism Next

LEGISLATURES ARE VERY ACTIVE

These Three Questions Being Agitated Through Organizations in Pulpit, and Through Medium of Magazines and Newspapers.

Although Congress has refused to act favorably upon prohibition as a national issue and has likewise failed to consider an amendment to the Constitution in support of equal suffrage, these two questions are engaging the attention of the legislatures of almost every State in the Union.

"It is a question if the people of the United States realize the rapidity with which the country is moving toward prohibition, and this notwithstanding the refusal of the national Legislature to submit the question, in the form of a proposed constitutional amendment, to the electorate at large," says the Christian Science Monitor. "In this connection it is interesting to take up a few very recent news items. By a vote of 39 to 10 the state Senate of Iowa has passed the constitutional prohibition amendment. The House is confidently expected to pass it at the present session. It must be adopted by the next Legislature before it can go to the people. The state Senate of Utah has passed the Wooten state-wide prohibition bill, 14 to 3, and the measure is considered certain to pass in the House. The Colorado Senate has passed a state-wide prohibition bill. The lower House of the Montana Legislature has passed a bill providing for state-wide prohibition. The veto of the prohibition bill by Gov. Charles Henderson of Alabama on the ground that it was unconstitutional has been overridden by the legislature and therefore is law. If all the states now working toward prohibition shall succeed in putting their measures through, the number of prohibition states in the Union, fourteen last fall, will probably be increased to twenty within the next two years."

The moral side of the question is being presented in thousands of pulpits to-day and evangelists and temperance workers, hundreds in number, are daily agitating the question. The business viewpoint is being forcefully put forth by large corporations, railroads and manufacturing plants, each of which is becoming insistent that their employees shall be temperate. This combination is hard to resist. The effect of their efforts is being felt.

That equal suffrage is moving steadily forward cannot be denied in the face of facts, according to the Monitor.

"At the present time women enjoy the right of suffrage on equal terms with men in eleven of the forty-eight states: Arizona, California, Colorado, Idaho, Kansas, Montana, Nevada, Oregon, Utah, Washington and Wyoming. Although when in 1913 the Illinois Legislature granted women the right to vote for nonconstitutional officers it was claimed that equal suffrage had at length crossed the Mississippi river, this was not actually the case. The limited suffrage enjoyed by the women of Illinois is statutory and it would be possible for an unfriendly Legislature to deprive them of the privilege at any time.

The territory of Alaska has granted suffrage to women. Women have suffrage on school questions in Connecticut, Delaware, Kentucky, Massachusetts, Michigan, Minnesota, Mississippi, Nebraska, New Hampshire, New Jersey, New Mexico, New York, North Dakota, Ohio, Oklahoma, South Dakota, Vermont and Wisconsin. The states that defeated equal suffrage last fall were Nebraska, Ohio, Missouri, North Dakota and South Dakota."

Reports from every section of the country show the gain that socialism is making. A few years ago it was laughed at, looked upon as an ephemeral cult insofar as the United States was concerned. Suddenly it "arrived," full fledged and aggressive. To-day it is making converts by the hundreds. Almost every legislative ticket has a Socialist candidate, almost every large city has its socialist paper. The Socialists are organized, their treasury is not without funds, their leaders are not without energy. The result? Statistics will show it.

Of all the publications in the world, sixty-eight out of 100 are printed in the English language.

A spreading oak sixty feet high will contain about 6,000,000 leaves.

TO ERECT A CATHOLIC SHRINE AT WASHINGTON

One Hundred Thousand Contributors Will Give Over Three Millions for Purpose.

More than 15,000 women have already enrolled in a cause that aims to erect a Catholic shrine at Washington. This shrine is to be in honor of the Immaculate Conception, in papal affairs the United States being under the patronage of the Blessed Virgin. It is proposed to continue the enrollment until it reaches 100,000. Chapters are being formed. Washington and Baltimore chapters lead in date, and New York as yet in point of membership. Catholic women of wealth are taking hold, and chapters are in process of forming in Boston, Chicago, St. Louis and San Francisco. Some preliminary work has also been done in Cincinnati, New Orleans, Minneapolis and Louisville.

The plan for this Catholic national shrine originates with Bishop Shahan, president of the Catholic University. In addition to the character mentioned it is to be the chapel of the university, and is to be located on a commanding site at Brookland, the national capital suburb already covered by houses of studies of many orders in addition to the university. The church is to be so planned as to be capable of accommodating pageants and elaborate services, as are to be features of the university.

The style of French Gothic of the fourteenth century has been decided upon for the structure, the cost of which may reach \$3,000,000 or even more. White stone is to be used, and a feature is to be a vast dome that will add to the number of imposing domes of the national capital. Many memorials are to be part of the plan, the aim being to make in reality a shrine such as obtain in many countries of Europe. Hence the large number of contributors, 100,000, that it is aimed to secure.

H. & F. ORDERS NEW CARS

Another High-Powered Passenger Coach for Thurmont Division.

The executive committee of the Hagerstown and Frederick Railway Company authorized the purchase of two new high speed inter-urban passenger cars. One is to be used on the Thurmont division and the other on the line between Frederick and Hagerstown.

These new cars will be the same size and type as No. 164, which is now in service on the Thurmont division. With another high speed car on this division, the trolley company will be able to furnish even better service on this branch. It will make more sure the meeting of Western Maryland trains, with which the line connects at Thurmont.

The committee also authorized the purchase of another "pay-as-you-enter" car for service in Hagerstown. There are now four "Paye" cars operating in Hagerstown, and the new car will enable the company to use the same class of equipment for all city service. The three new cars will be secured from the J. G. Brill Co., of Philadelphia, and are to be delivered by May 1.

It is understood that it is the desire of the trolley officials to use the "pay-as-you-enter" cars for city service in Frederick as soon as possible. The new cars have worked very satisfactorily in Hagerstown.

Six Officers Court-Martialed.

An order of the Navy Department, just made public, announces the court-martial and conviction of six officers of the Atlantic Fleet. The charges were drunkenness, conduct unbecoming an officer and overstaying of leave of absence. None of the officers were dismissed, but all received more or less severe sentences. In one instance Rear Admiral Fletcher sent back the findings with instructions to submit a different recommendation on the ground that the first recommendation was too lenient.

The officers named in the Navy Department order are Lieut. Rufus F. Zegbaum, Jr., of New York, Ensign H. A. Ward of New York, Lieut. Lindsay H. Lacy of Texas, Lieut. Jonas H. Ingram, of Indiana, Ensign J. K. Esler, of Michigan, and Ensign John T. Melvin of Oklahoma.

The first counterfeit of a federal reserve note made its appearance. It is a \$5 note of the Dallas Federal Reserve Bank, printed from poorly executed etched plates, the secret service says, on two pieces of paper, with silk threads between. The note is a quarter of an inch shorter than the genuine note, and, Chief Flynn says, is such a poor piece of work that it should be readily detected.

JUDGE MAGRUDER DIES AT ANNAPOLIS

Well Known Jurist Passes Away at Age of 80.—Ill Long Time.

Judge Daniel R. Magruder, well-known to the bench and bar of Maryland and at one time one of the most prominent lawyers in Maryland, died at his home on State circle Annapolis, Friday morning after a lengthy illness. His death was due in a great measure, to the infirmities of his advanced age. He was 80 years old.

Born in Annapolis, Judge Magruder lived for a time in Illinois with his father's family, then returned to Annapolis and later lived in Prince Frederick, Calvert county, from which place he was first elected to the bench.

When first chosen by his party for judicial honors, he was elected to the bench of the old Seventh circuit, then composed of Anne Arundel and Calvert counties. At the time of his election he was two years under the constitutional age limit for the important office, and the term of the late Judge William Hallam Tuck, who was then on the bench, was extended for this period, or until Judge Magruder could assume his duties. He was later appointed chief judge to fill the unexpired term of the late Judge Jones, but failed of renomination through a tie vote in the Democratic Judicial Convention.

Judge Magruder was twice married, his first wife having been Miss Mary Sollers of Calvert county. His second wife, who survives him, was Miss Rosalie Webster, of Cumberland. Besides his wife, he is survived by five children—Miss Mary Randall Magruder, Miss Rosalie Magruder, Rev. Daniel R. Magruder, Jr., Eugene Magruder and Calvert Magruder.

MINERS' CASUALTIES DECREASE

2,451 Coal Workers Killed in Last Year, 334 Fewer Than in 1913.

The United States Bureau of Mines has just made public the casualty list last year for the army of three-quarters of a million men employed in American coal mines, showing that a total of 2,451 miners lost their lives.

Comparing the deaths in mining operations with those for 1913, there is a decrease of 334, or one man less killed for nearly every day in the year.

"Shocking as is the violent death of 2,451 men in a year's time in a peaceful industry," said Van H. Manning, acting director of the bureau, "the men of the bureau who are engaged in the campaign to reduce this casualty list find, in comparison with other years, some facts that are rather comforting and some indications that the improvement noted in the saving of life will be further accentuated as the years pass."

"In the first place, coal mining in 1914 cost the lives of 3.3 men in every 1,000 employed, while in 1913 the death rate was 3.73. That reduction alone means a saving of more than 300 lives."

"The number of miners killed for every 1,000,000 tons of coal mined in 1914 was 4.81. In 1913 there were 4.89 miners killed for every 1,000,000 tons of coal mined. With the exception of 1912, the 1914 rate is the lowest recorded for the United States."

"When the Bureau of Mines began its work the cause of the great disasters in the coal mines of the United States was the explosion of coal dust. This phase of the problem was taken up more vigorously than any other, and it is indeed gratifying to the bureau that the explosions from coal dust in 1914 have decreased 96 per cent. from the previous year."

The committee was hurriedly called and it was decided to hold the banquet on that date.

AUSTRIA TIRED OF WAR

ALL ENTHUSIASM DEAD

Says American Observer, Back From War Zone

GLOOMY PICTURE OF CONDITION

Army Men Outspoken in Cause of Peace.—Simple Peasants Make up Troops and Officers Know Nothing of War Tactics.

An American who has just returned from Austria-Hungary says it is only necessary for one to stay there a few days to see plainly that the inhabitants are thoroughly sick and tired of the war—men, women and children, high and low, rich and poor. This observer gave an interview on condition that he remain anonymous.

"As the Austrians look back to those first days in August when, with an enthusiasm amounting to positive frenzy, they declared war on little Serbia; bands banging through the streets, orchestras on the sidewalks wildly fiddling, men yelling, boys throwing hats in air—as they look back over that turbulent scene they find in the cold, gray dawn of reality much solid food for thought," he said.

"To add to the difficulty—one which Austria never really thought seriously of—there is Roumania, which has not been at all kind of late. Last summer she served notice on her western neighbor that the price of peace was \$160,000,000. Austria protested wildly, but finally gave \$40,000,000 on account, which, however, did not make much difference, because it was borrowed from the Emperor William; but now—that is to say, during the last 10 days—Roumania has been pressing her claim for the remaining \$120,000,000 in a manner most distressing to Hungary. In short, Roumania is thinking very seriously of taking Transylvania. Great quantities of natural gas, silver, coal and petrol have lately been developed there, which may possibly have something to do with the idea; but that, of course, is a detail. Roumania nevertheless has become very annoying."

"But the perplexing feature of the whole matter from the standpoint here seems to be that the bloody piece of machinery that they were so easily able to set in motion last August will not stop running now—it keeps wildly running on."

"Every Austrian officer I have talked to has been loud and outspoken in the cause of peace. One cavalry Captain, whom I met on the train leaving Vienna, frankly admitted he had seen enough. He was then on his way to St. Moritz, where his wife had a villa, and where he expected to spend the winter. His place had been filled by a German officer, as was the case with many others."

"As to the Austrian as a soldier, it can be said that, leaving out his officers, he starts even the best European armies. His equipment is good. He wears a warm gray uniform similar to the German, only without the headgear, stout boots and short leggings. He carries on his back a first-rate kit, and his rifle is good. The bayonet, although not as good as the British, is, in my opinion, far better than the French. The Russian bayonet, on the other hand, is much too long and thin. The Austrian soldier will obey orders, but his officers, for the most part, know little concerning the art of war."

"The Hungarian peasants, on the other hand, especially those from the east, are no more fitted to be soldiers than are school children. He has not the vaguest notion concerning the simplest use of the rifle, and falls a silly victim to the most obvious tricks of the enemy."

"Time after time they have allowed hostile troops to ride close in on their outlying detachments, sometimes dressed as Austrians soldiers, carrying friendly flags, and on occasions even disguised as women. An ill-concealed machine gun, which should have fooled no one, then opens its deadly stream upon the surprised soldiers, who invariably rush into assembly, when the real carnage takes place. The Hungarian is of too trusting a nature ever to make a good warrior."

"There have been no operations against Serbia of any importance for some time, notwithstanding press dispatches to the contrary; the forces in the south have been brought north to (Continued on page 8.)

Manton, counsel for Becker, moved for a hearing on the ground of newly discovered evidence for the defense. The application was before Justice Barrow S. Weeks in the Criminal Branch of the Supreme Court.

Herbert Spencer said: "There is a principle which is bar against all information, which is proof against all argument, and which cannot fail to keep a man in everlasting ignorance; this principle is contempt prior to examination."

THE KNOCKER.

"After God had finished the rattlesnake, the toad and the vampire, He had some awful 'substance' left from which He made a knocker. A knocker is a two-legged animal with a cork-screw soul, a water-logged brain and a combination backbone made of jelly and glue. Where some other people have their hearts he carries a tumor of rotten principles. When the knocker comes down the street honest men turn their backs, the angels weep tears in Heaven and the devil shuts the gate to Hell to keep him out."—Clover.

FREDERICK COUNTY.

Frederick is next to the largest of the counties of Maryland. In population and wealth it ranks next to Baltimore county.

EMMITSBURG.

In all Western Maryland—the beauty spot and the garden spot of the State—there is no town more attractive than Emmitsburg.

No people are more wide-awake, more knowable, more courteous to strangers than Emmitsburgians.

The location of Emmitsburg is ideal; the surrounding scenery is unmatched; the climate is notably healthful; its water—pure mountain spring water—cannot be surpassed.

There are excellent Schools—Public and Parochial—in Emmitsburg; two sound Banks, five Churches, a live Newspaper, modern Hotel accommodations, adequate Fire Department, progressive merchants, splendid physicians, good livery, auto garages, many fraternal organizations, good railroad accommodations.

There is business to be had in Emmitsburg; there are Factory Sites available. If you contemplate changing your place of residence—come to Emmitsburg, Frederick County, Md.

LENTEN OBSERVANCE.

Statistics from many cities show that Lent this year is being observed by more people and with greater fervor than ever.

ous aspect of the public mind growing out of the war, and of the responsibility for the unemployed. These of course are contributing causes, but a close observer cannot fail to note that each succeeding year there is evidence tending to prove that mankind recognizes the value of Lent and the necessity for its observance.

CONFIDENCE NEEDED.

A complete resumption of business activity is naturally dependent upon a diversified and general demand. Unsettled trade conditions, due to various causes, have had a tendency to create a feeling of doubt and instability.

AN OUNCE OF PREVENTION.

Flies—do not wait until they come—keep them from breeding, keep them from coming. Disease has no more active partners than flies.

"CAN a sleeping oyster absorb typhoid germs?"—No, but a tin can.

SARAH BERNHARDT is literally on her last leg.

HUSBANDS.

A cobbler's wife once said to me; "My husband has a past, But he is good now, although he Is not too good to last."

The Women's Council of St. Louis, composed of fifty-four organizations and clubs, will erect an office building in the downtown district from which men will be barred as tenants and employees.

We take it for granted that those janitors will be baldheaded. If they are not when they apply they soon will be.

AIN'T IT TRUE?

- French heel, Banana peel, Sudden reel, Loud squeal, Sore feel, Injured nose, Some expose, Of silken hose, Torn clothes, —So it goes.

QUESTIONS for final examinations: "How many presidents has Mexico had? Name them in order."

"Aim high!"—and hit a Zeppelin.

THE DAY'S WORK.

The day's work counts— It isn't what You mean to do a week ahead; It isn't what you know you'll gain When all annoyances have fled;

TU WHIT! TU WHOO!

Ken ye the lass wi' the gowden tresses, Ken ye the lad baith big and braw? A lass as fair as the floors she presses 'Neath her hasting feet i' the e'enin' fa'?

GOVERNMENT-OWNED.

Government-owned land in the Western States and not subject to taxation by those states is as follows: Arizona, 92 per cent.; Nevada, 87.82 per cent.; Idaho, 83.80 per cent.; Utah, 80.18 per cent.; Montana, 65.80 per cent.; Wyoming, 68 per cent.; New Mexico, 62.83 per cent.; Colorado, 56.67 per cent.; California, 52.58 per cent.; Oregon, 51 per cent. and Washington 40 per cent.

DON'TS.

Don't attempt to punish all your enemies at once. You can't do a large business with a small capital. Don't say "I told you so."

THE GOOSE-STEP.

A Paris paper gives an amusing explanation of the manner in which the goose-step was introduced into the German army. Every year at the approach of Christmas, immense flocks of geese were despatched from Pomerania to Berlin.

THINK IT OVER.

The weekly newspaper promotes the interests of the town in which it is published to such an extent that it becomes impossible to place an estimate upon its worth. There is no enterprise that does so much for the corporation or the individual citizen as the paper.

SMOKE WASTE.

A competent authority calculates the direct physical loss to this country through the emission of smut smoke from chimneys at \$600,000,000 a year. If so, we must regard that as one of the greatest wastes of all our resources.

LENGTH OF STRIDE.

It has been estimated that the average length of a man's stride is 31½ inches, and that the distance an average traveler can cover at this rate is 7,158 yards an hour, or 119 yards a minute.

"What is said to some people goes in one ear and out the other—because there is nothing between to stop it."

What is a Coolie?

"Coolie" is a term used to designate an Asiatic laborer not belonging to the skilled or artisan class. It does not mean "negro." The word is almost exclusively used to designate those natives of India and China (and sometimes Japan) who leave their native country under contract of service to work as laborers elsewhere.

To Clean Walls.

An excellent wash for cleaning painted walls is made by dissolving two ounces of borax in two quarts of water. Add one teaspoonful of ammonia, use half of this mixture to a pailful of water and use no soap, says the Chicago Journal.

Timely Tips.

A good authority says that boxing and fencing are not good exercise for hard brain workers; they should select long walks, swimming or something of a similar nature where, after the movements are once learned, the direction is governed by the spinal nervous system.

HAVE NO STANDING IN LAW

Exponents of "Spirit Mediumship" Find Little Comfort in Appealing to Courts.

Subtle though the judicial mind may be, writes L. Arthur Wilder in Case and Comment, it has no place for spirit mediumship. The Michigan supreme court once had occasion to consider the case of one who advertised himself as "a modern day seer," "clairvoyant trance medium" and "clairvoyant physician."

ROYAL IN ITS MAGNIFICENCE

"Founder's Room" in Pittsburgh Carnegie Library Is a Splendid Apartment.

A recent report of the Pittsburgh Carnegie library contains a picture of the "founder's room," of which a writer in the Boston Evening Transcript says: "It seems to be a vast apartment, about fifty or sixty yards long and nearly as wide. It has indirect lighting and a flagged floor, upon which one might play hopskotch if one felt inclined."

Typhoid in War Time.

In the Franco-Prussian war in the year 1870 there were 73,000 cases of typhoid fever in the German army. Out of this number there were 7,000 deaths. In the Boer war the British army suffered from typhoid fever to the extent of 57,000 cases, of which 8,000 died.

The Doorman's Plea.

The stage doorman of a certain New York theater is a doughty Italian of sufficient brawn to guard a much larger portal. Silvestro, as he is called, has been somewhat envious of the showy uniform of the theater's carriage porter, in contrast to his own unpretentious civilian garb.

Wires Near Houses.

The sight of a man trimming a tree suddenly falling to the ground, killed by a shock from an electric wire, against which the branches were blown, leads Phillip E. Edelman to suggest in the Scientific American that not nearly enough care is taken in stringing high power wires to keep them far away from trees, barns and houses.

Sense of Fitness.

Some women seem to have no idea of the relative value of adjectives or epithets. A golden-haired, fluffy thing was looking at a picture of the wounded English soldiers in a hospital ward. "Don't they look 'dinky' in their cots?" she exclaimed. "Dinky!"—they might have been prize poms instead of men who had bled for their country.

Farmers' Wives Buy Bread.

It is no uncommon thing these days to see a farmer's wife come into town and buy a few loaves of bread to take home with her. Even the farmer's daughters are not learning to cook as they did in the good old days.—Mitchell Tribune.

NOISE AS A FACTOR IN WAR

Those Accustomed to It Make Better Soldiers Than Those Who Are Not.

There has been growing in recent years a belief that the soldier from the rural districts is not as good a campaigner as his brother-in-arms from the cities. From Europe there has just come one comment from an excellent authority bearing out in a way, so far as the British troops are concerned, this conclusion.

PLEASURES OF FILM ACTING

Man Had Been Told It Was a Bore, But on Experience Found It Far Otherwise.

"Say," said Harry Mestayer, "they told me film acting was a bore. Take it from me, it's a cinch. I went to a studio today to be photographed in a production. First, the director gave me a cigarette to smoke. Then he handed me a glass of beer. I finished four cigarettes and four glasses of beer before the scene was taken."

The Warrior's Lance.

The lance has been more or less ridiculed by military experts, on the ground that it is out of date and cumbersome, but the weapon still has its advocates, who point out its value in shock tactics and in cavalry charges.

Women in Legislatures.

It is certain that Arizona, Colorado and Oregon will have women in the legislature. Mrs. Frances Willard Munds was elected to the Arizona senate. Oregon also will have its first woman in the legislature, Miss Marian Towne of Jackson county was elected to the house, and is said to be the only Democrat in the lower branch.

Kill 2,099 Lions in Seven Years.

Two thousand and ninety-nine mountain lions have been killed in California since 1907, according to a statement by the state fish and game commission. Of this number 118 have been killed in the state for the six months ended June 30. The state pays a bounty of \$20 for each lion killed. The total cost of killing lions has been \$41,980.

Stingy Fellow.

First Maid—That rich young fellow that's courting Miss Ethel is awful stingy! Second Maid—What makes you think so? First Maid—Why, I heard him say to her: "A penny for your thoughts," and he a millionaire, mind you!

THE ONE SURE WAY

To have money is to save it. The one sure way to save it is by depositing it in a responsible bank. You will then be exempt from the annoyance of having it burn holes in your pockets, and aside from the fact that your money will be safe from theft, the habit of saving tends to the establishment of thrift, economy, discipline and a general understanding of business principals essential to your success.

To those wishing to establish relations with a safe, strong bank, we heartily extend our services.

MOUNT SAINT MARY'S COLLEGE

Terrace Talk

The same old story over again—another victory.

Leary and Rodgers sure did some caging baskets in that Gettysburg game on Tuesday evening.

The Junior class held an important business meeting on Thursday. All the members were present.

The latest addition to the register is a Philadelphian. The number of students now enrolled exceeds the number, at this time last year, by seven.

Joe Engel will leave for the Southern Training Camp of the Washington Americans on February 28.

The Susquehanna University Basketball Team met the Mountain quintet this afternoon.

"The Country Boy," which was to have been presented on Wednesday and Thursday, February 24 and 25 has been postponed until March 3 and 4.

Due to the serious set-back of baseball practice by one Jupiter Pluvius, the local aspirants for positions on the baseball squad were forced to limit their efforts to gymnasium tactics.

Joe Letters, formerly of Mt. Saint Mary's College baseball team, will be given a real try-out at the training camp of the Washington American League ball club. This club signed the player while he was performing for the Atlantic City, N. J., team last summer. Letters pitched and played the outfield, while at college. He will be tried in the outfield by the Nationals.

The Track Team accompanied by Trainer Joe Engel, Coach Day and E. S. Murphy, '15 athletic association representative, journeyed to Baltimore on Saturday, where they shared honors at the Johns Hopkins Indoor meet, with Georgetown and other educational institutions. The Mountaineers registered at the Belvedere and were joined later in the day by Rev. James G. Burke, who became an enthusiastic supporter at the Athletic events in the Fifth Regiment Armory.

Mt. St. Mary's ended third in the open events at the Johns Hopkins Fifth Regiment annual indoor meet in Baltimore Saturday night, getting a total of 7 points during the evening. The Emmitsburg institution was closely followed by Virginia and Pennsylvania, who had scores of 6 points each.

Ted Meredith, Pennsylvania's crack athlete of Olympic fame, won the 880-yard run from scratch in the most interesting of the individual performances. E. P. Gallagher, of Mount St. Mary's, and Hutton, of Johns Hopkins, pushed the famous track star for the place, but a beautiful spurt on the last half of the lap gave Meredith the race. Gallagher was second.

E. G. Hall, of Hopkins, won the 220-yard dash open handicap, with Marty McDonagh, running under the colors of the Pennsylvania West Branch Young Men's Christian Association, second. Walker, of Virginia, was disqualified for third place, and Rodgers, of Mount St. Mary's, was given the bronze medal.

\$10,000 FOR ONE HUNDRED WORDS

Stenographer Gets Small Fortune In Motion Picture Contest.

The prize-winner in "The Million Dollar Mystery" of the Thanouser Company, for the best solution of the mystery, and the final disposition of the various characters in the cast, was won by Miss Ida Damon, of St. Louis. The one-hundred word solution of the mystery, for which Miss Damon got \$10,000, is as follows:

"A physician has been summoned, and it is believed that Braine lives. Braine, Olga and Vroon are taken to the Siberian mines to end their lives. Hargreave, who has been acting as butler for Florence's protection, reveals his identity and embraces his daughter. Then he joins the hands of Florence and Norton, after which he takes them to Florence's room, where he turns the portrait of himself and presses a button on the back of the portrait opens and he places her hand on the million dollars. Thereafter follows the marriage of Florence and Norton and all is happiness."

"We are just 10 times stronger this year than we were last," says President James A. Gilmore of the Federal League.

M. S. M. 28; W. M. 17.

The Western Maryland College basketball team lost the last game of their season on Monday to Mount St. Mary's, 28 to 17. The game, played at Westminster, was fast and hotly contested from start to finish. Until the last three minutes of play the score showed first one side and then the other ahead, the first half ending 9 to 7 in favor of the Mountaineers.

The last few minutes of play were marked by rapid scoring, the Mount St. Mary's quint caging four field goals.

The visitors showed much ability, and though they were held to a close score during the greater part of the game, they had the better of the contest all the way through. The Western Maryland quint missed the absence of Arthur, who has played a good game at center.

The playing of Donovan and Rodgers for the Mountaineers was especially noticeable. For Western Maryland Garrett and Captain Numbers played a good game. The line-up:

W. M. C.	Position	M. S. M.
Collison	Forward	Donovan
Thomas	Forward	Leary (capt.)
Numbers (capt.)	Center	Haltigan
Garrett	Guard	Miller
Orrick	Harrison Guard	Lally, Rodgers
Goals—W. M. C., Collison, Thomas (2), Numbers (3), Garrett; Mt. St. M., Donovan (3) Leary (2), Haltigan (2), Miller, Lally (2), Rodgers (3), Fouis—W. M. C., Collison; Mt. St. M., Leary (2). Timekeepers—Billingslea (W. M.), Mahony (Mt. St. M.) Scorers—Baldwin (Clark), McDermott (Mt. St. M.) Referee—Thompson.		

Gettysburg Tastes Defeat.

Mount St. Mary's basketball team won its thirteenth victory Tuesday night by defeating Gettysburg College, 27 to 16. The game was fast throughout. The Mountain quint gave a rare exhibition in pass work and Gettysburg was unable to break up their strong offensive play. The whole Mount St. Mary's team played splendid, but especial credit is due to Captain Leary, whose floor work was sensational. Campbell and Captain Mahefee starred for Gettysburg. The line-up:

M. S. M.	Position	Gettysburg
Rodgers	Forward	Williams
Donovan	Forward	Mahefee
Haltigan	Center	Campbell
Miller	Center	Ikeeler
Lally	Guard	Turnbull
Substitutions—Mt. St. Mary's, Donovan for Rodgers and Rodgers for Haltigan.

Reserves Defeat Alumni.

Mount St. Mary's second basketball team gained a 27-to-15 decision over the alumni five. The reserves played a strong passing game, which bewildered their opponents.

Crilly and Kearney excelled for Mount St. Mary's second team, while Joe Engel, the baseball star, was the shining light for the old-timers. The line-up:

M. S. M. Res.	Position	Alumni
Milhisier	Forward	Letters
Kearney	Forward	Quigley
Crouch	Center	McManus
Crilly	Guard	Campbell
Whittle	Guard	Engel
Baskets—Kearney (5), Crilly (4), Milhisier (2), Crouch, Whittle, Engel (4), Campbell (2), Letters. Fouis—Milhisier, Letters. Referee—Leary. Timer—Kelley. Scorer—Schmidt. Time of periods—20 minutes.

PERSONALS.

It is the aim of THE CHRONICLE to publish as many personal and social items as possible, but it frequently happens that those who have guests visiting them, and those who are certain, fall to send a list of their friends, or an account of these events, to this office. Readers who live at a distance are always interested in what is going on "at home," and for that reason, if for no other, this column should be filled every week. It is of course understood that anonymous contributions will not be published. Names of persons furnishing items will be withheld.

Work is rapidly progressing on the residence of Mrs. Virginia Gillelan.

Electric lights have been installed in the residence of Mr. Robert Annan, occupied by Mr. Robert V. Kerrigan.

Justice Fabian Posey, of Frederick, who is a candidate in the Republican Primaries for State's Attorney, was in Emmitsburg Thursday meeting the voters of the district.

The foundation has been completed for the erection of an addition to the property of Mr. Harry C. Harner on East Main street, occupied by Mr. J. W. Breichner.

The recent extensive improvements to the property of Mr. Harry Stokes include a new plate glass window and two half glass doors.

Not Paint

The worst mistake in painting is not putting-off. That costs about 10 percent; you keep your money a year and pay 10 percent for it.

Paint would have to come-down 25 percent to make 10 percent on the job, for wages do not go down.

The worst mistake is "cheap" paint. It costs from 50 percent to 100, first cost, and another in wear.

What a liar "cheap" is! "Put-off" is bad-enough; "cheap" is ten times worse.

DEVOTE.

Active at Ninety-Eight.

Within a few years of having lived a century, and still retaining much of his youthful vigor, Joseph G. Miller, near Frederick, last Saturday quietly celebrated the ninety-eighth anniversary of his birth. The day before, Mr. Miller drove to Frederick to attend a directors meeting of a bank, on the board of which he has served many years. Mr. Miller took an active part in the discussion of the affairs of the institution. In spite of his advanced age Mr. Miller enjoys good health. He still shaves himself, using the same razor he has used for the past 40 years. He was born in Martinsburg, W. Va., and came to Frederick county at the age of 16. His wife who is 83 years old, also enjoys good health. Mr. Miller has been a staunch Republican all his life, and cast his first vote for President Harrison.

Aged Man Cleared of Murder.

Valentine Trout, 74 years old, charged with killing Moses Thompson, 76 years old was declared not guilty by a jury in the Frederick county court, Wednesday night.

The aged prisoner, bent and with grizzly beard and long white hair, was the most picturesque figure seen in the courtroom for years. On the witness stand he said Thompson came to his home near New Market and they drank some peach cider. He said Thompson cursed him and was ordered from the house. When Thompson continued to curse him, he said he picked up a gun and fired to frighten him. A number of shot took effect and Thompson fell. He died some days later. A physician testified that the gun-shot wound did not cause death.

Carroll Countian Accused of Arson.

The residence of Michael Bowman, near Louisville, Carroll county, with its contents was burned Saturday. A warrant was sworn out by Mr. Bowman for setting fire to the house. Gamber and Bowman had a quarrel Saturday and Gamber is said to have told Bowman that his house would be ashes before Monday night. After firing the house Gamber is alleged to have knocked on the door to warn Bowman. Gamber's son also asked State's Attorney Weant for a warrant for his father, charging him with assault. A dirk knife, with a blade about 8 inches long, was taken from Gamber.

Light From Private Plant.

Musselman Bros, of Orrtanna, are planning to have the towns, Orrtanna, Fairfield and Cashtown illuminated with electric lights. Work will be begun in a few weeks on installing the plant at Orrtanna. Already about 40 residents in Orrtanna have contracted to have their houses lighted with electricity from this plant and it is the intention to furnish power for house lighting in the other two towns also.

Brunswick Wants in New League.

Brunswick is making an effort to be the sixth club in the circuit to be completed at a meeting at Hagerstown on Thursday. Amos Kaplon, manager of the team, has interested a number of persons in the project and expects to have a guarantee sufficient to meet requirements.

Brunswick fans say the receipts at the games two years ago, when the town was in a circuit, averaged \$100 a game.

HARRINGTON UP FOR GOVERNOR

Formal Announcement of His Candidacy Warmly Received in Dorchester.

At a large meeting of Democrats of Dorchester county at Cambridge on Wednesday, the formal announcement of the candidacy of Comptroller Emerson C. Harrington for the Democratic nomination for Governor was launched.

The meeting adopted resolutions endorsing Mr. Harrington and commending him to the people of the State. Mr. Harrington then was summoned, and, thanking the gathering for its action, announced that he was in the fight and in to win.

The meeting was a notable tribute to Mr. Harrington from his people. He said in his speech that he had purposed not to become a candidate unless assured that his country was behind him in practical unanimity. That practical unanimity was self-evident. Men who had fought with and against Mr. Harrington in party affairs united in affirming his fitness for the Governorship and their purpose to put their shoulders to the wheel of his candidacy.

It was perfectly plain that neither Mr. Harrington nor his supporters have any doubt that he will be one of the really important candidates for the nomination. No idea of half-way fighting was in their minds. They expect to have the solid Eastern Shore behind him and with the 35 votes of the Shore as a nucleus to be able to rally the organization forces throughout the State.

Eddie Plank Married.

Just before departing for the spring training camp of the St. Louis Federals at Havana, Eddie Plank announced to some of his closest friends his marriage to Miss Anna C. Myers, of New Oxford, on January 30.

The couple slipped away to Ridge-wood, N. J., and were married, returning after a brief wedding trip.

Plank has known Miss Myers for many years. The announcement came as a complete surprise even to his immediate friends.

In leaving Eddie remarked to a friend: "Yes, I am married. I suppose you will hear all about it tomorrow, but I wanted to keep it a secret until I left for the training camp. My wife will accompany me to Havana."

Plank is 40 and his bride 26 years old.

The net debt of the federal and state governments and all minor civil divisions in the United States in 1913 was \$4,850,460,713, or \$49.97 per capita.

CATHOLIC ALUMNAE MEETING

In Baltimore Addressed by Cardinal and Other Prelates.—Interest Keen.

For the purpose of arousing enthusiasm for the organization of a Maryland State federation of Catholic Alumnae 600 Catholic women packed the ballroom of the Hotel Belvedere and listened to addresses by Cardinal Gibbons, Mgr. C. F. Thomas, Mgr. William A. Fletcher and the Rev. William J. Ennis. The aims of the organization were discussed.

Among the women were delegates from the colleges in Washington and Philadelphia and a group of organizers from the International Association of Catholic Alumnae headquarters in New York. The details of organization will be undertaken soon.

As a preliminary to the meeting of the Catholic women at the Hotel Belvedere an informal meeting was held in the Red Room of the hotel when about 200 women met with the national organizers.

The movement to organize women who have had the benefits of Catholic higher education is one that had its inception in Maryland, and it was Mrs. Frank P. Scrivener, the head of the temporary organization here, who was called upon to preside at Sunday's meeting.

Following Mrs. Scrivener's address there were speeches by Miss Clare Cogan, of Brooklyn, president of the federation in the United States and Canada; Mrs. James Sheeran, of Brooklyn, chairman of the international committee on organization and eligibility, and Miss Cecile Lorenzo, of New York, governor of the federation in New York State. The Baltimore alumnae presented Miss Cogan a bunch of American Beauty roses at the conclusion of her address. Miss Cogan, Mrs. Sheeran, Miss Lorenzo and Miss Rose Byrne, also in the New York delegation, were entertained at luncheon at Mount St. Agnes' College, Mount Washington.

Walkersville After Electricity.

Walkersville property owners are enthusiastic over the prospect of having electric lights in that town. From authoritative source it is reported that the contract for the extension of the lines of the lighting department of the Hagerstown and Frederick Railway Company into Walkersville will shortly be signed. It is likely that the lines of the railway company will be extended to Jefferson and current sold to the residents and manufacturers of that town.

The big electric plant at Security of the Hagerstown and Frederick Railway company is now furnishing current for Braddock Heights, Middletown, Frederick, Thurmont, Hagerstown, Emmitsburg, Smithburg, Funkstown and Williamsport.

 Gettysburg.
 The annual Colonial tea of the Gettysburg chapter D. A. R. was unusually successful, about 100 people being present. The affair was held in the Stall-smith building. The room was appropriately decorated in national colors, while two handsome portraits of Washington adorned the walls.
 The state board of pardons has granted a pardon to George Sheaffer, of Gettysburg, who was sentenced from this county in September, 1911.
 The pupils of the public schools of the borough contributed \$7.17 to aid in the Child Welfare work in the state. Last Wednesday was Child Welfare day in the schools and the children were asked to bring a penny or more to aid in the cause. Without an exception they responded.
 Because of the discovery of a fresh outbreak of the hoof and mouth disease in this district, the quarantine which the state livestock sanitary board placed on York and Adams counties some time ago, has been extended for 90 days. There was a belief among representatives of the state and federal inspectors, whose headquarters have been at Spring Grove since the first outbreak of the disease, that the scourge among the county cattle had been curbed.
 That Gettysburg has decided to enter the proposed five-club baseball league is a source of great satisfaction to the other towns to be represented. The consensus of opinion seems to be that Gettysburg will be a valuable addition and will draw crowds on the college diamond, where the local games will be played.

THURMONT NEWS.
 A very interesting entertainment was given at the Thurmont Town Hall on February 16th, under the auspices of the Men's Community Club, a new local organization, which judging by the interest it has aroused in things civic and the hearty co-operation it is receiving bids fair to have more than a flashing success. The entertainment was afforded and wholesome and the Glee Club brought no end of fun. Rev. Chas. Shaffer deserves credit as the director of these musicians.
 The banjo number afforded great enthusiasm and the hall rang with the hearty laughter of the audience.
 The Vocal and Instrumental selections were exceedingly well rendered and fully appreciated by a good sized audience, including the Women's Literary Club, of Thurmont, which came in a body as guests of the Men's Club.
 Much encouragement is felt that the community organization is on a sound basis and will meet with the co-operation of the town people in enlarging its scope for good work in the future.
 Following is the programme as rendered:

 The Band consisted of Messrs. L. R. Waesche, Samuel Long, Lester Birely, Dr. E. C. Kefauver, Mr. Robert Cadow, Rev. Shaffer (leader) Messrs. P. N. Hammaker, Charles Root, and Mr. Frank Weller. None of these men play (not to say can't play) but all had horns or other instruments and made a good attempt, while a Victrola concealed behind a screen furnished band music. But they all wore little white caps and the leader's arms grew to a length of four feet and encountered considerable trouble swinging around. Something at first seemed to be wrong with Dr. Kefauver's bass horn but he took some men's apparel from the bell of the instrument and then things went better.

 The Epworth League service on Sunday evening was attended by a good number of people. Mr. Keeney, of Woodsboro, was present and gave a most interesting talk on the origin of the Christian Endeavor and Epworth Leagues, and the best ways and means of promoting interest in the work. Want Bridge Over Marsh Creek.
 More than a score of residents of Cumberland and Freedom townships appealed to the county commissioners, at the meeting of the board asking for the erection of a bridge over Marsh Creek at the Bishop farm, near Natural Dam. Complaint is made that the fording at that place is in such condition, especially in bad weather, as to make it almost impossible to cross with any degree of safety and often interferes with the delivery of mail.

Sprains, Bruises Stiff Muscles
 Sloan's Liniment will save hours of suffering. For bruise or sprain it gives instant relief. It prevents inflammation and thus prevents more serious troubles developing. No need to rub it in—it acts at once, instantly relieving the pain, however severe it may be.

Here's Proof
 Charles Johnson, P. O. Box 105, Lawton's Station, N. Y., writes: "I sprained my ankle and dislocated my left hip by falling out of a third story window six months ago. I went on crutches for four months, then I started to use some of your Liniment, according to your directions, and I must say that it is helping me wonderfully. I threw my crutches away. Only used two bottles of your Liniment and now I am walking quite well with one crutch. I never will be without Sloan's Liniment."

AUSTRIA TIRED OF WAR
 (Continued from page 1.)
 strengthened Hindenburg's lines. So Serbia is practically at peace, whilst Austria is at war. And that is what hurts.
 "In this dark hour, Austria sees only one ray of hope, and, curiously enough, that ray is France! Germany has proved her undoing, and Italy is drifting farther away each day. There is no one else to turn to. This idea is not of the street, but comes from the higher places; of that I am sure. Repeatedly during my travels through Austria lately I have been sounded by not unimportant officials as to my feeling concerning the French contingent. At first I was inclined to treat the matter lightly, but find that they really consider the idea as quite possible. Austria, France and Germany side by side for the 'culture' and peace of Europe! Serbia, Russia and especially England shall perish with the unrighteous!
 "I learned in Vienna that Austria had been having much trouble over its money affairs of late. It is significant to remark that this country is the only one whose currency has greatly depreciated. It now takes 29 of their kronen or francs to purchase an English sovereign.
 "In Budapest the wounded of all countries are being well taken care of, although they arrive at the hospitals in shocking condition—half rotted away in many cases.
 "One is forced at times to marvel at the extraordinary vitality of these soldiers.
 "At a little railroad station some 40 miles south of Cracow I saw three badly wounded Russians who had been dumped there and left for two days and two nights without food or drink. They were all alive when found, although one choked to death soon after while trying to swallow a piece of bread. Their hearing had entirely left them, due to their exhausted condition."
"DON'T
 put a brake on your business by 'knowing' things you don't know.
 Look at a proposition from a 'how-can-I-use-it' rather than an 'I-can't-use-it' point of view.
 The business man who 'knows' advertising in this paper won't pay because his business 'is different' is using the brake."
