Frederick county was well represented among the 3,000 delegates at the Knights of Columbus annual reunion, Pen Mar on last Thursday. Delegates from Maryland, Virginia, Pennsylvania and Washington, were present, where the day was most enjoyably spent. The day's ceremonies commenced with a parade, consisting of the representatives headed by the St. Mary's Industrial School Band, which marched to the auditorium. It was decided upon at the business session to have the reunion made an annual affair and to be held in the Pen Mar park, the third Thursday in August.

Emory L. Coblenz, Frederick, was on last Friday elected president of the Potomac Light and Power Company. At an organization meeting held in Baltimore on Thursday the company took over the properties of the Martinsburg Power Company. Railroad, Ralph Bridges, the 13-year-old son of Aubrey Bridges was crushed by a shifting freight train. Applications for new bridges almost swamp the county commissioners and lately there have been no less than three filed. Of this number, one bridge has been completed, one is now being constructed, and the third was asked for Tuesday morning. A petition was presented to the commissioners asking for the construction of an iron bridge over the stream at the residence of A. Henry Rutzahn, on the road leading from Middletown to Jefferson. The commissioners took no action.

### Fight On State Road.

In the absence of Contractor Forsythe the men, working on the section of State Road north of Thurmont struck, demanding a nine hour day and the same money. The men had been working ten hours for \$1.75. During the afternoon in the midst of a heated argument, two of the workmen got in a mixup in which one was injured.

On arrival of Mr. Forsythe at the works Wednesday morning the men were found there waiting for a reply to their demands. They were told to go home for the day, and if any of them wished to go to work Thursday morning at the same scale they had been working, to come to work. It is also reported that some of the road men and teamsters were discharged, their services no longer being desired.

### Bower—Rebhan Bout a Draw.

The bout Saturday night between Tom Bower and Johnny Rebhan drew about two hundred spectators. It was a ten round "go," and both boys were going the pace from gong to gong. Those who had imagined that the match was to be a sort of "you tap me and I'll tap you" affair were very agreeably disappointed. Both boxers extended themselves and gave the onlookers the worth of their money. Bower, who is looked upon as a local boy had lots of friends at the ringside and Rebhan, by his pluckiness and good nature instantly ingratiated himself into the good graces of the crowd. No decision was given, but the fight was looked upon as a draw, "honors even," by the devotees of the sport. James McGreevy referred the bout; Rosensteel was in Bower's corner, Cromer held the battle for Rebhan and C. M. Rider timed the rounds. It is expected that a series of bouts will be staged here in the near future.

MUSIC CAN BE TASTED.

Here comes a man—by name Robert W. Stevens, music professor at Chicago University—who says "music can be tasted."

That being the case it can readily be assumed that this "learned Prof." has during his many years of varied experience with indifferent music cooks had numerous and no doubt very serious attacks of indigestion.

Although up to the present writing we have received not more than seven scientific degrees—the degree of Doctor of Music Gastronomy not being among the number—we nevertheless agree with Prof. Stevens that "music can be tasted,"

and we are here to say that, in respect of some of it, the taste is (this in an aside) "rotten." "The music of the Oboe," to quote the l. p., is acidly arid, like a lemon or a persimmon \* \* \* the flute is crystal sugar, the cello good coffee, and the clarinet reminds one of a good grapefruit.

\* \* \* Beethoven has the taste of a tenderloin steak, and Chopin that of a fresh trout." There the l. p. stops—all too soon. Were the average man, following this merely meagre analogy, to make a full confession about the taste of some of the music dishes that have been served to him we are confident that he would be now wearing the decoration of the Imperial Order of the Ostrich.

What, for instance, of some of the late chef Richard Wagner's after-midnight repasts? Those buffet luncheons comprising "hot dog," cold welsh rarebit with bay rum, flat beer, tepid codfish balls seasoned with paprika and cloves, and topped off with mince pie and stale pop—all consumed during a severe thunder storm, the unpaid driver of the flat-tire taxi demanding his fare.

How about the tepid canned soup, bull liver, sad rolls, half-baked potatoes, rancid butter, hot lye and cottolene short cake served out of those rag-time, electrically excited, varnished boxes?

Taste it? How can one help it? People who are asking the cause of the rapid increase in the cost of drugs need go no further. The rise is the natural outcome of evident conditions; it is occasioned by the overwhelming demand for those ingredients that enter into the making of ant-acid tablets, stomach tonics, correctives and the like.

No doubt the direct cause of infantile paralysis is this taste of music. It is clearly hereditary. The American people have had their stomachs so shot up by music menus and are dying so fast that it seems strange that the Casketmakers' Union, The Pallbearers' Association and the Ancient and Honorable Order of Grave Diggers are not advertising cut rates.

No wonder Mexico has no stable government. Villa and his thugs are riding through the hills rubbing their mouths against cactus plants and rocks trying to brush the music fuzz off of their tongues. No wonder there's a war abroad! If the truth were known the Kaiser started all that cannonading, all that powder burning, all that gas business in an effort to take that taste of music out of his own mouth and the mouths of his people. Even the folks on those submarines are trying to wash the taste out of their systems.

What a chance for some chemical company—to discover and manufacture a music soda mint!

TAKE THIS PRECAUTION.

How many occupants of the average car—with the exception of the chauffeur, or owner-driver as the case may be—are familiar enough with automobile mechanism to know what to do in case the driver is disabled? A foolish question? Let's see. We will suppose that in the party are one man, several ladies and children. The person occupying the seat next the man at the wheel knows nothing about the machinery. The driver is seized with cramp, becomes dizzy or has a stroke, is hit or temporarily blinded. The power is on; other cars are approaching; there is a ditch on the right, a pole in front and the steering gear is without a guiding hand. What is the inevitable outcome?

Before he starts out with his party the driver of the car should at least explain the very simple method of cutting off the power and applying the brake. It would minimize a source of danger not often enough taken into account. Many a life has been lost because "the other occupants of the car knew nothing about the mechanism."

FIFTY years ago they started making chewing gum, and fifty million human teeth are now upon the bum, and fifty million jawbones, working facial muscles tight, have made of pretty countenances nothing but a fright.

STRIKES everywhere and in every branch of industry. Even fall costumes, we are credibly informed, will be striking.

"SQUARE parasols are in fashion."—But not as much in demand as square meals.

"HUGHES Trims His Own Whiskers."—Evidently not soliciting the barber vote.

SHOVEL the moth balls off the 5-A blankets, and get out your sleigh bells.

"NATURE paints the skin."—Nay, nay, not always.

Do your Christmas shopping early.

The Kind Emmitsburg Readers Appreciate.

To thoroughly know the virtues of a medicine you must investigate its work. Doan's Kidney Pills stand this test, and plenty of proof exists right here in this locality. People who testified years ago to relief from backache, kidney and urinary disorders, now give confirmed testimony—declare the results have lasted. Can any Emmitsburg sufferer longer doubt the evidence? Mrs. G. W. Fellers, B. St., Brunswick, Md., says: "I suffered for two months from a terrible backache and was so weak that I could hardly get about. After using three boxes of Doan's Kidney Pills, I felt like another person."

NO TROUBLE SINCE. AFTER A LAPSE OF OVER THREE YEARS, Mrs. Fellers said: "Doan's Kidney Pills have permanently cured me of backache and other kidney trouble." 50c, at all dealers. Foster-Milburn Co., Mfgs., Buffalo, N. Y. Advertisement.

Obtainable everywhere.

Many druggists recommend this remedy because they know that it is reliable. Obtainable everywhere.

OBITUARY

DR. EDWARD KERSHNER.

Dr. Edward Kershner, the last surviving brother of the late Prof. J. B. Kershner, a former resident of Emmitsburg, and a retired officer of the United States Navy, who was well known here, was stricken with paralysis of the brain while teaching his Bible Class in Zion's Reformed Church at Hagerstown, on Sunday morning, August 20, death ensuing in 20 minutes.

Born near Clearspring, Md., March 24, 1859, he spent the active years of his life as a surgeon in the Navy which he entered immediately after graduating from the medical department of the University of the City of New York in 1881. He saw such war service, being on the Cumberland at the first battle of ironclad ships at Hampton Roads in 1862. When the ship was sunk by the Confederate ironclad, Merrimack Doctor Kershner, then assistant surgeon, was rescued in an unconscious condition. He was among the last to leave the ship. He took Captain Worden, wounded on the Monitor, to Washington, carrying to the government the first detailed information of the Hampton Roads fight.

He was on the New Ironsides when the first attack was made upon Charleston, and also on the Passaic and Choctaw during the war, finishing in service with the gunboat, Aquadron on the lower Mississippi river. After the war he served on various ships of the Navy all over the world. He fought yellow fever in the South Atlantic and cholera in Asiatic waters with distinguished success. As fleet surgeon at Rio Janeiro in 1895, his was the only one of the various foreign squadrons in the harbor to escape infection. In addition to his regular duties, he was assistant photographer on the Swatara during her three-year voyage around the world with the expedition sent out to observe the transit of Venus in 1872. While on this voyage he made a natural history collection which he presented to the Smithsonian Institute, now a part of the National Museum, in Washington. He also selected the men for the Jeannette Arctic expedition.

Dr. Kershner retired from the service with the rank of commander in 1902, and had lived in Hagerstown ever since. He was a charter member of the Union League Club of New York, emeritus professor of hygiene of the New York Post-Graduate Medical School and member of the New York Medical Society and Academy of Medicine. He also belonged to the Royal Legion and the Masonic fraternity. He is survived by one sister, Miss Mary Kershner, of Hagerstown, and one son, Dr. Edward C. Kershner, of New York.

Are You Faultless?

There are none of us quite perfect, There is something wrong in the best; We're all so mortal and human, And none more so than the rest. When it's all summed up at the finish, And the Lord strikes balance that day, If we only just cry we are human, It would be about all we should say.

There is nothing so common as fault is, And mistakes and errors all make, And why should we rail at a brother? Or lift up a finger to shake. In the face of some stumbler? It's human. To take a misstep now and then; We scoff at the weakness of woman, But the weakest of all are the men.

This thing of revenge, getting even, Oh laying for some one, ah, me! What fools we all are in our weakness, What a pity it is we can't see! Stain character, smear reputation! What you throw, vengeful brother, is mud; But look where your own heart's corroded, And that stain on your hand is of blood. There are none of us faultless in this world.

So why should it be worth while To trouble our hearts with the hatred, To envy some brother a smile? We're human, so awfully human, And why should we think it would pay To go 'round, creating obstructions To place in some poor devil's way? —W. H. VAN DORAN.

IN MEMORIAM.

In memory of Karl Joseph, son of M. Roy and Bessie M. Sharrer, who was born June 9, 1915, and died Aug. 21, 1916.

Little feet that once kicked over, Though they never walked at all; Little arms that once reached for us, And embraced us at our call. Little eyes that beamed forth sunshine, Little dimples in his chin; Waxen curls around his forehead— God has found a place for him. Two cute lips that whispered Papa, Showing rows of pearly white, Filled our hearts with untold gladness.— All is still and sad to-night. For they placed him in his casket, With a lily in his hand; While his little soul was floating, To God in that promised land. Near His Mercy Seat in Heaven, God has found for him a home; And released him from his sufferings, And with Angels now he'll roam. —COMPOSED BY HIS FATHER.

When Pauline Whistles the "Mocking Bird."

When Hulda on the piano plays Our Fancy 'mid enchantment strays, And when Glendora sweetly sings, Our spirits rise on airy wings; But if we faint would climb the heights Of sparkling joy and sweet delights Our hearts will know it, when we've heard

Pauline whistle the "Mocking Bird." Then in a wildwood of delight We stray, with Beauty's halo bright, Or wander in a golden dream By nymph and dryad-haunted stream; At once the shadowy corners of day Melt in the moon's pale light away, And care and sorrow seem absurd When Pauline whistles the "Mocking Bird."

I must confess my lips have quaffed Full many a pleasure—beaded draught, And oft I've tripped the mazy dance Or sealed the turrets of Romance; But these are joys that pass away, There's only one that comes to stay, The joy by which our souls are stirred When Pauline whistles the "Mocking Bird."

FREDERIC J. HALM. CARD OF THANKS. Mr. and Mrs. M. Roy Sharrer desire to express their keen appreciation of the kindly ministrations of their friends and of the sympathy shown them during the illness and upon the death of their infant son.

**"THE OTHER SIDE" OF LOCAL OPTION FOR FREDERICK COUNTY VOTERS TO THINK ABOUT.**

It is nearly three months from now until Election Day. On November 7 next, the voters of Frederick County will decide by ballot, the question of Local Option. They will decide whether they want their home territory legally "dry," situated between a probable "wet" Baltimore City and a probable "wet" Washington County. The last Legislature solved the liquor question for you, and they gave you the chance to select what you have never had in your whole history as a County—to select what you repudiated most decisively over thirty-five years ago when you voted on it, namely, not honest, straightforward, clean cut "prohibition" but that deadly enemy to business, governmental economy, public safety and morals of any community, LOCAL OPTION. You are residents of one of the wealthiest counties in the United States. You are prosperous in many ways, even if you are heavily burdened with taxes, and therefore, you are contented and satisfied. Your general make-up as a people indicates health on all lines. You are as well behaved as any people anywhere, and therefore, you are law abiding. For your whole lifetime, YOU HAVE BEEN THE ENVY OF EVERY COUNTY IN MARYLAND. And yet in the face of this, a few fanatical agitators, whom Chafin said in Frederick four years ago on the Court House steps were the worst enemies of prohibition, and most of whom never paid a cent of taxes in their lives, want you to change your business and living clothes. Look out my voting friend on November 7th before you take that election pencil in your hands. A cramped booth and a blanket ballot puzzles a fellow sometimes. It did last year, when the tax evader so unsuspectingly got in his work, and had you repeat that provision of your State Constitution which for forty-seven years had required every citizen to pay his "proportion of public taxes for the support of the Government according to his actual worth in real or personal property." But you did it and you didn't know it. So it behooves you to think before you vote on any question relating to your welfare. To start you thinking intelligently, I want to say one thing to you to-day on the subject of Local Option. In this paid space, we will give you every week what we hope will prove to be worth thinking about things in order. Simply, plainly, and backed up by the records of money expended by your County for legitimate expenses you will be appealed to think before you act in the election booth. What is the first thing for you to think about? Why, it is whether you think the law as passed by the Legislature of 1916 is fair. The Anti-Saloon League which put it through by that very persuasive way of theirs, promised the people of Maryland, that they would only urge a Bill submitting the question of prohibition to the entire State. It was to be a State-wide measure, and every fellow would have a chance at every other fellow. They induced the candidates for the Legislature, most of whom would promise anything to be elected, to pledge themselves to submit the liquor question to all the people of the State. How did they keep their word, these great moral evangelists, with the electorate at large? They didn't keep it. They grabbed the politicians' bargain, namely, not what they promised the people they would ask for, but what was the best they could get to satisfy their great hungering and thirsting after law made righteousness. They broke their faith to get a religious nibble at the public cheese. They even went further than this. They helped to pass, a law, that showed especial favoritism to special localities. Baltimore City, Ellicott City, Havre de Grace, and Annapolis were given the exclusive privilege of voting for themselves, but Frederick, poor Frederick City, together with 3 other wet districts in Frederick County have the happy lot ahead of having twenty-two dry districts in Frederick County passing judgment on them. Aside from the fact that we will have a situation of nearly the whole of Frederick County being arrayed against tax-cursed Frederick City with its war and its railroad indebtedness why have we not the chance to help make the metropolis of the State what it ought to be and what the "Workers of the Master's vineyard" want it to be? If Baltimore City stays "wet" as it probably will, and Washington County retains its wet soil as it also probably will, won't we have a nice condition in the clustered spire town of Frederick, situated on a State Road, with the only people in it making a respectable living who happen to own an automobile garage. No my voting friend, the Legislature co-erced by the Anti-Saloon League has not acted fairly with the people of Frederick City or Frederick County, and particularly Frederick City. Local Option will kill Frederick City if it ever comes. If Baltimore on one end and Hagerstown on the other would vote "dry" then perhaps it would be alright. But who knows what they are going to do. The probabilities are all the other way. Ours are the gambler's chance. My voting friend, let us not take the risk. Let us play safe and vote "wet." ONE INTERESTED IN FREDERICK.

**WESTERN MARYLAND RY. EVERYBODY ENJOYS EVERYBODY'S DAY**

Puts it all Over on Myersville. The unbeaten Myersville team, Champions of Frederick county, got decidedly setback Tuesday when Emmitsburg, trimmed them on the local diamond by a score of 10 to 6. It was a pitcher's battle between Stokes and Hauver. Stokes fanned 12 batters, allowed four singles and did not issue a pass. Hauver weakened in the eighth and the locals hammered him for six runs. The features were the all-round playing of Stokes and the spectacular batting of Chic Rosensteel, who made five hits, two of which were slashing doubles, in five trips to the plate. Score: EMMITSBURG.

### The Johns Hopkins University ENTRANCE EXAMINATIONS

State Scholarships in Engineering Courses.

Entrance Examinations for the Department of Engineering, as well as for the College of Arts and Sciences, will be held in the Academic Building of the Johns Hopkins University, Homewood, Baltimore, September 18-21, 1916, beginning at 9 A. M. each day.

Application for Scholarships in the Department of Engineering, established in the Johns Hopkins University under the provisions of the Laws of Maryland, Chapter 90, 1912, may now be made. If there is more than one applicant for a particular scholarship, a competitive examination must be taken in the Academic Building, Homewood, on September 22, 1916, beginning at 9 A. M.

Each County of the State and each Legislative District of Baltimore City, with the exception of Charles, Harford and Queen Anne's Counties will be entitled to one or more scholarships for the year 1916-17, in addition to those which have already been assigned. In the three counties mentioned above all the available scholarships have been awarded.

Under the provisions of the Act of Assembly, the County and City scholarships in the Department of Engineering are awarded only to deserving students whose financial circumstances are such that they are unable to obtain an education in Engineering unless free tuition be granted to them. The scholarships entitle the holders to free tuition, free use of text-books, and exemption from all regular fees. The expense of attendance for those who do not receive scholarships is no greater than at other Maryland institutions.

Scholarships may be awarded to graduates of Loyola College, Maryland Agricultural College, Mt. St. Mary's College, Rock Hill College, St. John's College, Washington College, and Western Maryland College; and one scholarship will be awarded "At Large."

Applicants should address the Registrar, The Johns Hopkins University, for blank forms of application and for further information as to examinations, award of scholarships, and courses of instruction. aug 25 3ts.

PUBLICATION OF CHAPTER 30, ACTS OF 1916.

WHEREAS, The General Assembly of Maryland, at its January Session, 1916, passed an Act, known as Chapter 30 of the Acts of Maryland of said Session and being in the words and figures following:

'CHAPTER 30.

AN ACT to enable the registered and qualified voters of the City of Baltimore, Baltimore County, the First and Third Precincts of the Fifth District of Anne Arundel County, Annapolis City, Allegany County, Washington County, Frederick County, Prince George's County, Ellicott City and Havre de Grace, each as a separate political unit, to determine by ballot whether or not the sale, manufacture for sale and transportation for sale of alcoholic, spirituous, vinous, malt and intoxicating liquors for beverage purposes shall be forever prohibited in the said political units above designated, respectively, from and after May first, one thousand nine hundred and eighteen; providing for the submission of such question to the voters of each of the political units herein designated and declaring the effect of such election.

Section 1. Be it enacted by the General Assembly of Maryland, That the question whether or not the sale, manufacture for sale and transportation for sale of alcoholic, spirituous, vinous, malt and intoxicating liquors for beverage purposes shall be forever prohibited in the City of Baltimore, Baltimore County, the 1st and 3rd precincts of the Fifth District of Anne Arundel County, Annapolis City, Allegany County, Washington County, Frederick County, Prince George's County, Ellicott City and Havre de Grace, respectively, from and after May first, one thousand nine hundred and eighteen, shall be submitted to the registered and qualified voters of said political units herein designated, at the general election to be held on the first Tuesday after the first Monday in the month of November, A. D. one thousand nine hundred and sixteen; and Supervisors of Elections of Baltimore City and the Supervisors of Elections of or exercising jurisdiction over each of the political units herein designated shall have printed upon the ballots to be used at the general election held on the first Tuesday after the first Monday in November, A. D. one thousand nine hundred and sixteen, in a separate column to follow immediately after the names of candidates the following proposition, in clear, plain, bold Roman capitals, twelve-point pica type: "Shall the sale, manufacture for sale and transportation for sale of alcoholic, spirituous, vinous, malt and intoxicating liquors for beverage purposes in the (county, city, town or village, as the case may be) be prohibited from and after May first, one thousand nine hundred and eighteen; after which shall be printed on separate lines with a square or box to the right and opposite the words "for prohibition" and a corresponding square or box to the right and opposite the words "against prohibition," on the ballots printed in each of said political units, the blank above indicated shall be filled in with the name of the respective political unit so voting, as aforesaid.

The Governor of this State shall give notice by publication in two newspapers published in each of the political units herein designated, or if only one newspaper is published in any such unit, then such notice shall be published in one newspaper, or if no newspaper is published in any of such units, then in a newspaper published in the county of which such unit is a part, and three newspapers published in Baltimore City, one of which shall be printed in the German language, giving at least three months' notice that such question shall be submitted to the voters of each of the political units herein designated for their adoption or rejection; and the Secretary of State shall, not less than thirty days before the date of said election, certify the same to the Board of Supervisors of Elections of or exercising jurisdiction over each of the political units herein designated and to the Board of Supervisors of Elections of the City of Baltimore, whose duty it shall be to forthwith give notice by advertisement and otherwise of the submission of such question; provided, however, that if for any reason said notice shall not be given or not given in the manner prescribed by law, such failure of publication of said notice shall not affect the validity of this Act nor operate to prevent its taking effect.

Sec. 2. And be it enacted, That the proposition above mentioned shall be so printed as to give each voter a clear opportunity to designate by a cross (X) in a square opposite the words "for prohibition" and in a square opposite the words "against prohibition" his answer to such question; that one challenger and one watcher may be designated for each precinct of each of the political units herein designated by the chairman of the committee managing in each of such political units the interest of those conducting the campaign favoring and those opposing said proposition, the said challengers and watchers to have the same powers and duties which are conferred upon challengers and watchers at general elections held in this State by Section 64 of Article 33 of Bagby's Annotated Code of Public General Laws of Maryland, and a certificate signed by the aforesaid chairman shall be sufficient authority for such challenger and watcher to perform their duties. The name of each chairman shall be filed with the Board of Supervisors of Elections at least thirty days before said election.

The laws now in force for the conduct of general elections in each of the political units herein designated and the provisions and requirements of the Corrupt Practices Act shall apply in all particulars to the elections provided for by this Act.

Sec. 3. And be it enacted, That the Supervisors of Elections of each of the political units herein designated and of Baltimore City shall canvass these returns in like manner as other election returns, and they shall certify the number of votes cast "for prohibition" and "against prohibition" respectively, and the said Board of Election Supervisors shall file their certificates with the Clerks of the Circuit Court of the several political units herein designated or having jurisdiction over the same and with the Clerk of the Superior Court of Baltimore City, as the case may be, and shall forward at once by registered mail to the Secretary of State a duplicate copy of said certificates, and the

Secretary of State shall within thirty days from the date of said election, provide no contest has been filed, make a certificate to the Governor showing the total number of votes cast "for prohibition" and the total number of votes cast "against prohibition" in each of the political units herein designated, and upon receipt of this statement the Governor shall forthwith issue a proclamation declaring the result of the election in each of the political units herein designated and calling attention to its effects under this Act, and said proclamation shall be recorded in a well-bound book in the offices of the Clerks of the Circuit Court for the several counties or having jurisdiction over said political units herein designated and in the office of the Clerk of the Superior Court of Baltimore City and in the office of the Secretary of State, and the vote upon said proposition and such result may be proved in all courts and in all proceedings by such record or by certified copy of the proclamation under the hand and seal of the Secretary of State.

Sec. 4. And be it enacted, That if upon receipt by the Governor of a certificate from the Secretary of State showing the result of such election in each of the political units herein designated it shall appear that a majority of the voters in any such political unit qualified under the laws of the State to participate in such election voting on this question in such election, have voted "against prohibition," then the laws relating to the sale, manufacture for sale, the transportation for sale of alcoholic liquors for beverage purposes in such political units so voting against prohibition in effect at the date of this election shall continue in force and effect unless or until otherwise changed by the General Assembly of Maryland by a majority vote of the qualified electors of this State.

Sec. 5. And be it enacted, That if upon receipt by the Governor of a certificate from the Secretary of State showing the result of such elections in each of the political units herein designated it shall appear that a majority of the voters in any such political unit qualified under the laws of this State to participate in such election voting on this question in such election, have voted "for prohibition," then he shall forthwith issue his proclamation to this effect, and on and after the first day of May, one thousand nine hundred and eighteen, it shall be unlawful for any person, persons, social club, firm or corporation to manufacture for sale, sell or purchase for sale, transport for sale, dispense or otherwise dispose of any alcoholic, spirituous, vinous, fermented, distilled or malt liquors or intoxicating bitters or liquid mixtures or preparations, whether patented or not, which will produce intoxication in such political unit or units so voting for prohibition, except for medicinal, pharmaceutical, scientific, sacramental or mechanical purposes, as may be allowed under the provisions of such acts as the General Assembly of Maryland shall pass at its regular session held next after the date of such election or any subsequent session allowing such sale for such purposes only. And any person, persons, social club, firm or corporation manufacturing, selling, transporting, dispensing or disposing of any alcoholic, spirituous, vinous, fermented, distilled or malt liquors within such political unit or units so voting for prohibition shall be liable for all the penalties now or hereafter prescribed for manufacturing, selling, dispensing or disposing of alcoholic, spirituous, vinous, fermented, distilled, malt and intoxicating liquors without a license; and any place used for purposes in violation of this section, such use is hereby declared a nuisance and shall be abated as such.

Sec. 6. And be it enacted, That any qualified voter of any political unit herein designated may contest the election on this question hereby submitted to the voters of such political unit or demand a recount of the ballots cast on such questions in any election precinct or district of any such political unit, by filing a petition setting forth the grounds of such contest or recount, verified by affidavit with the Clerk of the Circuit Court for the county or the Clerk of the Superior Court for Baltimore City, as the case may be, within not more than five days from the date of the canvass of the returns by the Election Supervisors, and upon the filing of bond for the costs in the penalty to be fixed by the residing Judge or the Judge at that time presiding over the Court in which the contest is instituted, with surety or surties to be approved by him, a summons shall forthwith issue from such court addressed to the Supervisors of Election for or having jurisdiction over such political unit or for the City of Baltimore in which such contest is instituted, notifying them of the filing of such petition and directing them to appear in such court with the ballots and ballot boxes of the precinct or precincts in which irregularities are charged, at the time named in such summons, which shall be not less than five nor more than ten days from the filing of such petition. The procedure in such cases shall be the same as that provided by law for contesting any election for public office so far as the same is applicable.

In case of a contest of election in any precinct of any political unit herein designated or the City of Baltimore, as the case may be, the Board of Supervisors of Elections shall withhold the certificate of such election returns for such political unit or the City of Baltimore until the court decides such contest. Immediately following such decision of the court the Board of Supervisors of Elections shall make the returns as herein provided; such decision shall be made by the court not later than six months from the date of election.

The said court shall have final jurisdiction to hear and determine the merits of such cases, and if the said court shall discover that fraud has been committed in any precinct and the legal votes cannot be separated from the illegal votes or ballots so that the correct result can be ascertained, then the whole number of ballots cast in such precinct on such question so submitted to the voters of the political units herein designated shall be rejected by the said court and not counted and the Supervisors of Elections shall not make any returns of the votes cast in such precinct, and the rejection of such ballots shall in no wise render invalid the result of such election.

Sec. 6A. This Act shall not apply to nor prohibit the manufacture for sale of alcoholic, spirituous and vinous, malt and intoxicating liquors by persons and corporations now engaged in the manufacture thereof or the transportation thereof by said persons and

corporations where such liquors are manufactured for sale and sold only for delivery for shipment to places beyond the State or to places within the State where such sale is not now or hereafter prohibited by law.

Sec. 7. And be it enacted, That this Act shall take effect from the date of its passage.

Approved March 17, 1916.

AND WHEREAS, Section 1 of the above recited Act requires that the Governor of the State shall give notice by publication in two newspapers published in each of the political units designated in said Act, and if only one newspaper be published in such political unit then in that newspaper, and if no newspaper be published in any such political unit then in a newspaper published in the county in which such political unit is located; and in three newspapers published in the City of Baltimore, one of which shall be printed in the German language.

NOW, THEREFORE, I, EMERSON C. HARRINGTON, GOVERNOR OF MARYLAND, in compliance with the authority and direction contained in said Section 1 of said Chapter 30 of the Acts of Maryland of 1916, do hereby order and direct that a copy of this proclamation, which sets forth the complete and correct text of said Act, be so published as directed in said Section 1 of said Act, once a week for three months next preceding the day of the election at which the said Act is to be submitted to the registered voters of said political units, for their adoption or rejection.

Sub-Section A: Every appropriation bill shall be either a Budget Bill, or a Supplementary Appropriation Bill, as hereinafter mentioned.

Sub-Section B: First. Within twenty days after the convening of the General Assembly (except in the case of a newly elected Governor, and then within thirty days after his inauguration), unless such time shall be extended by the General Assembly for the session at which the Budget is to be submitted, the Governor shall submit to the General Assembly two budgets, one for each of the ensuing fiscal years. Each budget shall contain a complete plan of proposed expenditures and estimated revenues for the particular fiscal year to which it relates; and shall show the estimated surplus or deficit of revenues at the end of such year. Accompanying each budget shall be a statement showing: (1) the revenues and expenditures for each of the two fiscal years next preceding; (2) the current assets, liabilities, reserves and surplus or deficit of the State; (3) the debts and funds of the State; (4) an estimate of the State's financial condition as of the beginning and end of each of the fiscal years covered by the two budgets above provided; (5) any explanation the Governor may desire to make as to the important features of any budget and any suggestion as to methods for the reduction or increase of the State's revenue.

The Governor shall deliver to the presiding officer of each house the budgets and a bill for all the proposed appropriations of the budgets clearly itemized and classified; and the presiding officer

of each house shall promptly cause said bill to be introduced therein, and such bill shall be known as the "Budget Bill." The Governor may, before final action thereon by the General Assembly, amend or supplement either of said budgets to correct an oversight or in case of an emergency, with the consent of the General Assembly, by delivering such an amendment or supplement to the presiding officers of both houses; and such amendment or supplement shall thereby become a part of said budget bill as an addition to the items of said bill or as a modification of or a substitute for any item of said bill such amendment or supplement may affect.

The General Assembly shall not amend the budget bill so as to affect either the obligations of the State under Section 34 of Article III of the Constitution, or the provisions made by the laws of the State for the establishment and maintenance of a system of public schools, or the payment of any salaries required to be paid by the State of Maryland by the Constitution thereof; and the General Assembly may amend the bill by increasing or diminishing the items therein relating to the General Assembly, and by increasing the items therein relating to the judiciary, but except as hereinbefore specified, may not alter the said bill except to strike out or reduce items therein, provided, however, that the salary or compensation of any public officer shall not be decreased during his term of office; and such bill when and as passed by both houses shall be a law immediately without further action by the Governor.

Fourth. The Governor and such representatives of the executive departments, boards, offices and commissions of the State expending or supplying for State's money, as have been designated by the Governor for this purpose, shall have the right, and when requested by either house of the Legislature, it shall be their duty to appear and be heard with respect to any budget bill during the consideration thereof, and to answer inquiries relative thereto.

Sub-Section C: Supplementary Appropriation Bills:

Neither house shall consider other appropriations until the Budget Bill has been finally acted upon by both houses, and no such other appropriation shall be valid except in accordance with the provisions following: (1) Every such appropriation shall be embodied in a separate bill limited to some single work, object or purpose therein stated and called herein a Supplementary Appropriation Bill; (a) Each Supplementary Appropriation Bill shall provide the revenue necessary to pay the appropriation thereby made by a tax, direct or indirect, to be laid and collected as shall be directed in said Bill; (3) No Supplementary Appropriation Bill shall become a law unless it be passed in each house by a vote of a majority of the whole number of the members elected; and the yeas and nays recorded on its final passage; (4) Each Supplementary Appropriation Bill shall be presented to the Governor of the State as provided in Section 17 of Article II of the Constitution and thereafter all the provisions of said Section shall apply.

Nothing in this amendment shall be construed as preventing the Legislature from passing at any time in accordance with the provisions of Section 25 of Article III of the Constitution and subject to the Governor's power of approval as provided in Section 17 of Article II of the Constitution an appropriation bill to provide for the payment of any obligation of the State of Maryland within the protection of Section 10 of Article I of the Constitution of the United States.

Sub-Section D: General Provisions:

First. If the Budget Bill shall not have been finally acted upon by the Legislature three days before the expiration of its regular session, the Governor may, and it shall be his duty to issue a proclamation extending the session for such further period as may, in his judgment, be necessary for the passage of such Bill; but no other matter than such Bill shall be considered during such extended session except a provision for the cost thereof.

Second. The Governor for the purpose of making up his budgets shall have the power, and it shall be his duty, to require from the proper State Officials, including herein all executive departments, all executive and administrative offices, bureaus, boards, commissions and agencies expending or supervising the expenditure of, and all institutions applying for State moneys and appropriations, such itemized estimates and other information, in such form and at such times as he shall direct. The estimates for the Legislative Department, certified by the presiding officer of each house, the Judiciary, as provided by law, certified by the Comptroller, and for the public schools, as provided by law, shall be transmitted to the Governor, in such form and at such times as he shall direct, and shall be included in the budget without revision.

The Governor may provide for public hearings on all estimates and may require the attendance at such hearings of representatives of all agencies and of all institutions applying for State moneys. After such public hearings he may, in his discretion, revise all estimates except those for the legislative and judiciary departments, and for the public schools as provided by law.

Third. The Legislature may, from time to time, enact such laws, not inconsistent with this Section, as may be necessary and proper to carry out its provisions.

Fourth. In the event of any inconsistency between any of the provisions of this Section and any of the other provisions of the Constitution, the provisions of this Section shall prevail but nothing herein shall in any manner affect the provisions of Section 34 of Article III of the Constitution or of any laws heretofore or hereafter passed in pursuance thereof, or be construed as preventing the Governor from calling extraordinary sessions of the Legislature, as provided by Section 16 of Article II, or as preventing the Legislature at such extraordinary sessions from considering any emergency appropriation or appropriations.

If any item of any appropriation bill passed under the provisions of this Section shall be held invalid upon any ground, such invalidity shall not affect the legality of the Bill or of any other item of such Bill or Bills.

Section 2. And be it enacted by the authority aforesaid, That the said foregoing Section hereby proposed as an amendment to the Constitution shall at the next ensuing general election, being the Presidential and Congressional election, to be held on the Tuesday next

after the first Monday of November, nineteen hundred and sixteen, be submitted to the legal and qualified voters of the State for their adoption or rejection in conformity with the directions contained in Article XIV of the Constitution of this State, and at said election the vote on said proposed amendment to the Constitution shall be by ballot, and upon each ballot there shall be placed the following synopsis of said amendment under the caption of 'CONSTITUTION AMENDMENT PROVIDING FOR A BUDGET.'

This amendment provides that the Governor shall present to the Legislature soon after it is convened a Budget giving a complete plan of proposed expenditures and estimated revenues for the two succeeding fiscal years showing clearly any surplus or deficit in State funds. In these estimates he shall make provision for the interest and sinking funds of all State debts, for all salaries as fixed by law, and for the public schools as fixed by law. With regard to most other matters he may revise the estimates presented to him either by State Officers or State-aided institutions. The Legislature may not increase the estimates presented by the Governor or pass any additional appropriation act except by a majority vote and must make provision by tax for such increase or additional appropriation. The Legislature may not alter in an appropriation act the provision made by law for the State debt, or for the judiciary, but may reduce all other items in the Governor's estimates; and the words 'for the Constitutional Amendment' as now provided by law, and immediately after said election due returns shall be made to the Governor of the vote for and against the proposed amendment, and further proceedings had in accordance with Article XIV of the Constitution.

Approved March 28, 1916.

Now, therefore, I, Emerson C. Harrington, Governor of the State of Maryland, in pursuance of the direction contained in section 1 of Article 14 of the Constitution of Maryland, do hereby order and direct a copy of this Proclamation, containing a full, true and correct copy of the text of said Chapter 159 of the Acts of Maryland of 1916, be published in at least two newspapers in each of the counties of the State and in three newspapers published in the City of Baltimore, one of which said newspapers in the City of Baltimore to be printed in the German language, once a week for three months next preceding the General Election to be held in this State on November 7th, 1916, and at which election the said proposed amendment to the Constitution shall be submitted, in form and manner prescribed by the General Assembly, to the legal and qualified voters of the State for their adoption or rejection.
