FROM THE COUNTY.

About 500 persons attended the reception and ball given by Frank C. Hargett, superintendent of Frederick's Botanical Gardens, in honor of Gov. and Mrs. Emerson C. Harrington at the Braddock Heights Hotel, Saturday evening. The hotel, terraces, grounds and walks were beautifully decorated and lighted. Patriotism was the decorative scheme in the ball room. National and Maryland colors predominated. Cut flowers were also used in trimming the ball room.

For several weeks past Mr. James T. Waesche, superintendent of the Mechanicsville Water Company, has had a force of men excavating for a water main on Summit avenue in Thurmont, a distance of about 1,500 feet. The trench has been finished and almost a thousand feet of 4-inch pipe put in and covered. Owing to delays in shipping of material the laying of the remainder of the pipe will likely be held up some time. However, water has been turned into the main, a tap made and water is being supplied Contractor Weddle for use on the walls of the new house being erected for Senator J. P. T. Mathias on the "Hill Crest" addition on the east side of Summit avenue.

Three persons were stunned and services of the Braddock Lutheran church broken up Sunday afternoon when lightning struck the steeple of the church just a few minutes before the hour of worship. Thirty-five men, women and children, gathered in the structure to attend Sunday-school and participate in the annual harvest home service, rushed to the door in an attempt to leave the building.

Two more Frederick county men have enlisted in the United States Army. They are Charles L. Walters, of Frederick, and Roy L. Hoffman, of Middletown. They joined at the local recruiting station and on last Friday left for Fort Slocum, N. Y., where they will join a cavalry regiment.

Mr. and Mrs. Joseph T. Baker, of Frederick, have issued the invitations for the marriage of their daughter, Miss Charlotte Markell Baker, to Dr. John Theodore King, Jr., son of Dr. and Mrs. John T. King, of Balto., on Thursday, September 14, at the home of Mr. and Mrs. Baker, on Church St., Frederick.

Frederick autoists who hereafter travel in York, Pa., will be required to use dimmers on their headlights, the council of that city having passed an ordinance providing for dimmers on all auto headlights in the city. The ordinance became effective on August 15.

Upwards of 1,500 Brunswick men will be thrown out of work if the threatened strike of trainmen of 245 railroads of the United States is put into effect on Labor Day, next Monday. Once the trainmen go out on a strike the railroads will be tied up and crippled for at least five days. This was the statement made last evening by a Brunswick resident who is familiar with the strike situation. He claims that it will require five days to recall the order and start the men to work.

U. S. Owns Strongest Light.

The United States has come into possession of one of the largest search lights ever manufactured as the result of the European war and the arrest of the German inventor of the searchlight in Liverpool, England in 1914. Heinrich Beck, the inventor, who has been assisting in the building of the searchlight in Schenectady, N. Y., was not allowed by the British to go to Belgium and Germany soon after the beginning of the European war. He then returned to the United States and opened negotiations which have led to the purchase of his patent rights by the government. The new searchlight has a mirror five feet in diameter and sends out a violet white shaft of light which can be discerned at a distance of 300 miles when atmospheric conditions are good.

Schwab to Move a College.

To beautify the surroundings of his new summer mansion and spacious park, Charles M. Schwab gave a commission to Henry Horstobel, the New York architect, to regroup the buildings of St. Francis College at Loretto, Pa. The college buildings overlook the steel man's grounds, but because of their disparity in size and architecture are considered by Mr. Schwab to spoil the harmonious view of the surrounding country.

The regrouping of the buildings will entail an outlay of between \$400,000 and \$500,000. Mr. Schwab has agreed to bear the expenses, as well as to aid the college in further extending its work. He has spent over \$1,000,000 on a private road and other public improvements.

The forty-eighth annual convention of the National American Woman Suffrage Association will be held September 6 to 10. The principal work of the convention will be to decide whether the association will confine its efforts in the future to Federal or State legislation, or both.

The Holy Name Societies of Baltimore, at their last quarterly meeting, decided to have a gathering of the members of all societies of the Archdiocesan Union, which embraces Baltimore, Western Maryland and Washington. The committee held a meeting recently and selected Sunday, October 15, as the time for the parade. The Holy Name Societies have a membership of about 25,000, and it is estimated that 15,000 will take part. A feature will be the singing of hymns while the members are marching.

Greatly invigorated by his sojourn at Southampton, Long Island, Cardinal Gibbons Tuesday resumed his customary daily routine in Baltimore. The Cardinal found it impossible to attend the funeral of Archbishop John Lancaster Spalding, retired bishop of Peoria, because of the length of his New York trip, which included his participation in several of the gatherings of the American Federation of Catholic Societies.

Are You Looking Old?

Old age comes quick enough without inviting it. Some look old at forty. That is because they neglect the liver and bowels. Keep your bowels regular and your liver healthy and you will not only feel younger but look younger. When troubled with constipation or biliousness take Chamberlain's Tablets. They are intended especially for these ailments and are excellent. Easy to take and most agreeable in effect. Obtainable everywhere.

"THE OTHER SIDE" OF LOCAL OPTION FOR FREDERICK COUNTY VOTERS TO THINK ABOUT.

To the Voters of Frederick County who will vote on November 7, we want you to note what some influential gentlemen in Maryland recently said concerning the liquor question. It is no small matter to suddenly change your governmental life between surs. It deserves more than a passing glance or ordinary observation. In support of this, there is given below, an open communication to the people of Baltimore, which appeared in the Baltimore Sun, June 27, 1916, as follows:

"We notice in the press that the Anti-Saloon League and other advocates of prohibition have selected a Committee of One Hundred to manage the Campaign in favor of Prohibition for Baltimore at the election to be held in November, and that the people are asked to sign pledges that they will vote for its adoption.

Certainly, the question is one that should be decided only after mature consideration of all arguments for and against, and not by hasty or emotional methods. It is not our purpose at this time to enter into a discussion of prohibition. Our appeal is to suspend final judgment one way or the other until a full and intelligent discussion can be had, and to avoid the signing of pledges and joining of prohibition committees until the matter has been thrashed out before the public. The issue is one of great social and economic import; and whatever may be our theoretical view one way or the other, our first desire should be to do what is the wisest and best and for the good of Baltimore. This involves a many-sided study of many facts and considerations, and we appeal to our fellow citizens not to reach conclusions and give pledges until both sides are heard.

A considerable experience has now been had elsewhere with prohibition and the issue is no longer an academic one. Let us analyze this experience and apply intelligent tests and cool judgments to the facts as they may apply to our own City.

We simply desire to arouse the community to the importance of the issue involved, and to appeal to them to treat it with the care and consideration it requires if we are all to do what is best and wisest and for the greatest good of the State and City."

ARTHUR B. KINSOLVING,
C. A. RUBENSTEIN,
PASTOR HOFMAN,
WILLIAM H. WELCH,
LEWELLYS F. BARKER,
WILLIAM S. HALSTEAD,
HUGH H. YOUNG

Who are these eight gentlemen who called upon the people of Baltimore to "apply intelligent tests and cool judgments to the facts" as they applied to their own City? Four of them are ministers, and the first of these four, regarded as one of the greatest and most liberal men of his time, and most of liberal men of his time. The other four of those eight are the most distinguished representatives of the medical profession in this country, and all of them heads of their Departments in Johns Hopkins University. These eight names attached to a public warning to the people of a great City, ought to be sufficient of themselves, to make the ordinary man think. They are the "stop, look and listen" sign to nearly six hundred thousand of their fellow citizens. They had the courage from the angles of morals, health and business, to raise the danger signal, and it strikes me, their thoughtful conclusions concerning the public disposition of the liquor question, are worth any man's attention before he marks his ballot. The fanatic—the religious dreamer in a practical age—the moralist—the self constituted guardian of the stock of good in the world—the nasty little fellow, these disturbers of the general community peace, tell you in one breath, that unless we have local option or prohibition if you please, we will all go to the devil; and then in the next breath, when they speak of general religious conditions in America, they say that "everybody's doing it," because there are more good people today, there are more Sunday Schools, more Churches than there ever were before. They scream in one scream that the Nation's health is being undermined, and yet it is a fact substantiated by every medical authority far and wide that the death rate is lower than it was fifty years ago, even though the United States gets more revenue from beers and liquors than ever in its history. What is the judgment of such people really worth, when the facts are charged back? Not much, if you are honest with yourself. And this is all you are asked to be. If you want to vote to make Frederick County dry when you vote next Election Day, no one objects to your doing it, BUT THINK BEFORE YOU DO IT. And then act upon conclusions drawn from your thinking. You have a perfect right to vote as you think best, and when a man objects to that right which the Constitution of your country gives you and who blackguards you with a lot of low grade religious rot and beats you into insensibility with would-be "holy hands," he is an anarchist, because he doesn't respect the liberty which your country guarantees you, and to justice, he is as blind as an eyeless bat. You voting citizens of Frederick County, you have every substantial reason for moral, commercial and governmental alarm. Take the advice of a friend who thinks he knows what he is talking about, and who hopes to clear up the haze before your eyes before his last warning is sounded, and vote to keep Frederick County as it is. You are paying over \$300,000 a year to settle your annual County debts. And ninety nine per cent. of you are paying it, not because you like to, but because you have to. It the meanest bill you have to pay. Don't be misled by a lot of paid wind-brokers who don't help you to pay your taxes. They are not worried, because the bill is not theirs—it is yours. Go to a Carroll County farmer or business man, your next door neighbors, and ask them how they like their 80 cent rate for this year. Two years ago when Carroll County was wet, information which is reliable, says the rate was 68 cents. Now that it is dry, it is 12 cents more, and for fear it will soar higher, the people of Carroll are going back to the wet system which they now regret they ever left. I say with emphasis be sure to think about Local Option for Frederick County before you vote. And when you vote—vote right. And to vote right, in my judgment, is to vote to stay "wet."

The Johns Hopkins University ENTRANCE EXAMINATIONS

State Scholarships in Engineering Courses.

Entrance Examinations for the Department of Engineering, as well as for the College of Arts and Sciences, will be held in the Academic Building of the Johns Hopkins University, Homewood, Baltimore, September 18-21, 1916, beginning at 9 A. M. each day.

Application for Scholarships in the Department of Engineering, established in the Johns Hopkins University under the provisions of the Laws of Maryland, Chapter 90, 1912, may now be made. If there is more than one applicant for a particular scholarship, a competitive examination must be taken in the Academic Building, Homewood, on September 22, 1916, beginning at 9 A. M.

Each County of the State and each Legislative District of Baltimore City, with the exception of Charles, Harford and Queen Anne's Counties will be entitled to one or more scholarships for the year 1916-17, in addition to those which have already been assigned. In the three counties mentioned above all the available scholarships have been awarded.

Under the provisions of the Act of Assembly, the County and City scholarships in the Department of Engineering are awarded only to deserving students whose financial circumstances are such that they are unable to obtain an education in Engineering unless free tuition be granted to them. The scholarships entitle the holders to free tuition, free use of text-books, and exemption from all regular fees. The expense of attendance for those who do not receive scholarships is no greater than at other Maryland institutions.

Scholarships may be awarded to graduates of Loyola College, Maryland Agricultural College, Mt. St. Mary's College, Rock Hill College, St. John's College, Washington College, and Western Maryland College; and one scholarship will be awarded "At Large."

Applicants should address the Registrar, The Johns Hopkins University, for blank forms of application and for further information as to examinations, award of scholarships, and courses of instruction. aug 25-3ts.

ARCHBISHOP JOHN LANCASTER SPALDING DIES IN PEORIA

Was Educated at Mount St. Mary's College, Emmitsburg. —One of the Arbitrators of 1902 Coal Strike.

Archbishop John Lancaster Spalding, who had been in failing health for several weeks, died at Peoria, Ill., last Friday afternoon, in his 76th year. He had been ill for a number of years, having suffered a paralytic stroke in 1906.

The Most Reverend John Lancaster Spalding was consecrated bishop of the Roman Catholic Diocese of Peoria, Ill., May 1, 1877, and resigned because of ill health, September 11, 1908. In the following May he was created titular archbishop of Scyphopolis.

He was one of the most prominent prelates of the Roman Catholic church in the Middle West States and received nation-wide notice when President Roosevelt named him as one of the arbitrators to settle the anthracite coal strike in 1902. He was the author of several books dealing with labor topics, and also wrote several works on religious questions.

Bishop Spalding was born in Lebanon Ky., June 2, 1840. He was educated at Mount St. Mary's College, Emmitsburg, Md. He then went to Louvain Belgium, where he received his degree of doctor of divinity in 1863. After being ordained he went to Rome for a special course of study in the Belgian College, and in 1865 returned to the United States prepared for his life's work.

He was assigned to the cathedral at Louisville, Ky., and in addition to his missionary duties, he acted as secretary to Bishop Laville. He remained in Louisville until 1869, when, at his own request, he was charged with founding a parish for negroes. Before he left Louisville, in 1872, he had built and paid for a church and parish home for Roman Catholic negroes. He served as an assistant priest at St. Michael's Church, New York, for several years, and while in this position was appointed Bishop of Peoria.

The funeral services were held in St. Mary's Cathedral, Peoria, Ill., Monday morning. A solemn pontifical requiem mass was celebrated by Bishop E. M. Dunne.

FREDERICK COUNTY.

Frederick is next to the largest of the counties of Maryland. In population and wealth it ranks next to Baltimore county. In the fertility and productiveness of its lands it ranks among the first in the Union, and especially in the production of wheat. The area of this great county is 633 square miles. The great body of the people are of German, English and Scotch-Irish descent, the progeny mostly of the early settlers. The land is mostly of fine limestone quality, and the greater part of the county is a valley of rolling lands lying between the Lingular Hills and the Catoclin Mountain. This splendid valley is drained by the Monocacy river, and is one of the best farmed and most highly improved and productive areas of the Union. The great crops are wheat and corn.—*Maryland Manual* issued by Board of Public Works.

EMMITSBURG.

In all Western Maryland—the beauty spot and the garden spot of the State—there is no town more attractive than Emmitsburg.

No people are more wide-awake, more knowledgeable, more courteous to strangers than Emmitsburgians.

The location of Emmitsburg is ideal; the surrounding scenery is unmatched; the climate is notably healthful; its water—pure mountain spring water—cannot be surpassed. It is within easy access of Baltimore, Hagerstown, Frederick; eight miles from the National Battlefield at Gettysburg, near to the Mountain Resorts, and is surrounded by fertile farms and productive orchards.

Mount Saint Mary's College and Ecclesiastical Seminary—with an enviable reputation extending over 108 years—is located here; St. Joseph's College and Academy for young ladies—equally as noted during its 107 years of splendid achievement—is also here.

There are excellent Schools—Public and Parochial—in Emmitsburg; two sound Banks, five Churches, a live Newspaper, modern Hotel accommodations, adequate Fire Department, progressive merchants, splendid physicians, good liverys, auto garages, many fraternal organizations, good railroad accommodations. There are four or five mails a day, telegraph, express and telephone service connecting all points; electric light and power, oiled streets.

There is business to be had in Emmitsburg; there are Factory Sites available. If you contemplate changing your place of residence—come to Emmitsburg, Frederick County, Md

IT IS WORTH WHILE.

Quite often, no doubt, after reviewing one's genuine yet feeble efforts to do some good here and there, or after some uncalled for rebuff the thought "is it worth while?" comes rushing to one's mind. Many are the setbacks one receives, numerous are the misjudgments of one's motives. The extended hand, though quickly lightened of its proffered assistance, is not as eagerly clasped in gratitude by the recipient of thoughtful aid, and forgetfulness of and indifference to the sacrifice made in another's behalf is not infrequently the lot of those who help.

But it is worth while; for if there are many who forget and a number who disregard, there are some who appreciate, (more deeply than they can show) who profit and yet remain "true blue"—ever hoping for an opportunity to reciprocate, ever willing in return to go the extra mile.

And after all, the actual recognition doesn't count. One who is truly desirous of lightening another's burden thinks nothing of reward. The one idea in the mind of the person who seeks to render service is that of being really helpful for help's sake—being hopeful that to the desire for helping there may be added still another link, so that the chain of human brotherhood may be enlarged and that the era in which one lives may be a better one than that which went before.

It is worth while to help; it is worth while to extend one's sympathy to those who need it, (sympathy means so much at times) and it is worth while to grasp another's hand and speak the word of encouragement. These are the things that make the world worth living in. And let it not be forgotten that (to quote Tom Gallon, in "The Man Who Knew Better.") "When at last a good man lays himself down to sleep his last sleep, there shall be no angels about his bed so potent and so strong to plead for him and for his imperfections as the spirits of those he has cheered and gladdened on earth while he lived. For every gentle deed that he has done to ease the way of some less fortunate brother or sister, a hundred hands shall be stretched out then, to beat a pathway for him that shall lead him to the stars."

VICTOR MANUEL AVILA.

So gracious, so engravating, so much a little prince and yet so democratic was Victor Avila, the lad who was drowned here last Friday, that, although he had been in Emmitsburg but a fortnight, his untimely death came as a personal shock to all who had met the manly, gentlemanly boy from Mexico.

When the sad news reached town there was a reverent and subdued exclamation of pity, and sympathy—pity that one as young, as promising, had all too soon received his final summons; sympathy for the parents and the brothers who had to bear the crushing blow.

It were almost presumptuous even to seem to intrude upon the sanctity of a grief like theirs, yet so genuine and kindly is the feeling that there must be some semblance of consolation to Mr. and Mrs. Avila—though it come from strangers—in the thought that the heart of a whole community goes out to them in their bereavement.

HOW 'BOUT IT, COLONEL?

Honest now, Colonel Roosevelt, how are you going to "square yourself" in those speeches for Mr. Hughes? When you wanted to be the candidate in place of him you said the only difference between Hughes and Wilson could be fixed in five minutes by a barber.

If we mistake not, Colonel, you were very outspoken when you started the Progressive (Bull Moose) Party and very insistent on that party retaining its entity.

We say again, "how are you going to square yourself?"

WHEN a journal like the Springfield Republican—"one of the most ably edited and famous newspapers in America"—announces its intention to support Mr. Wilson in the present campaign, one may be sure that in determining its policy hasty action was not indulged in. The Republican approves of the President's stand on the many perplexing questions that have confronted him; it approves his decisions, and sees uncertainty and confusion ahead should Mr. Hughes be elected.

WE call the attention of those who blame the prosperity (yes blame it) on the war to this country's bank clearings. These are indisputable indices of business conditions. "They show an increase in every city, including dozens that are entirely outside the zone of activity of those concerns that are making millions manufacturing war munitions for sale in Europe."

"DEWEY Upholds Daniels and says Navy is in Fine Shape."—The Admiral, the "top-notcher" of the United States sea forces, ought to know, and his sayso should suggest to Secretary Daniels' critics that the opinion of a specialist is of far greater value and rather more liable to be depended upon than the carping censure of a disgruntled layman.

JUDGE HUGHES' whiskers are useful after all. Although he has "blushed" for so many things this administration has done (—they have all been wrong, says he) his embarrassment has been concealed entirely behind his beard.

WHAT has become of that old-fashioned actor who used to have a cigar named after him immediately following his first success?—*Fresno (Cal.) Herald*.

There are no old fashioned actors. We now have "Matinee idols" very few of whom are worth having a cigarette named after them.

BILLY SUNDAY was down at old Asbury Park, catching sinners and suckers galore, and since he's been there not a bloom-in' old shark, has attempted to come near the shore.

"AN automobile jack has been invented that is operated by the motor of the car."—Quite different, no doubt, from the regular automobile "jack" who operates the motor.

SAYS the Philadelphia North American: "Whenever one dips into the Progressive vote a strong Wilson sentiment is found." And it is growing stronger as the campaign advances.

"It takes something more than an act of congress to raise an army or navy."—And it will take an act of Providence to make some folks see the necessity for doing it.

"PEACH Crop A Failure."—Not the same; nor the "chicken" crop, either. The gink who wrote that headline must either have poor sight or be a woman hater.

If "slang denotes growth," as Prof. Knott of the University of Chicago claims, the United States shortly will be peopled with giants.

"A CALIFORNIA man choked to death from bolting a piece of fried chicken."—Ten to one he wasn't a parson.

"DON'T Lick Stamps."—All right. Just the same we'd like to lick the guy who puts so little mucilage on them.

THE dye shortage doesn't seem to affect the supply of red tape.—*Indiana Times (Indianapolis)*.

Nor the output of the rouge factories.

A man sometimes never finds out how fast he can run until his house catches on fire.—*Salem (Ore.) Journal*.

Or until a cop chases him.

"FASHIONS for the girl of 15 are extremely simple."—So are many of the girls.

RYE fever, if the truth were told, is more prevalent than hay fever.

Who saw the first snowbird?

Cows That Never Drink.

The "wild cow" of Arabia, in reality an antelope, the *Bactria oryx*, is said never to drink, which is probably correct, for unless these animals can descend the wells they can find no drinking water for ten months in the year. There is no surface water, and rain falls but precariously during the winter. Only once during my journey did I find a pool of rainwater, caught in a hollow rock, and even this I should have passed by without knowing of its existence had not my camels sniffed it from a distance and obstinately refused to be turned from going in that direction. These antelope, however, are provided by nature with a curious food supply, especially designed as a thirst quencher. This is a parasite which grows on the roots of the desert bushes and forms a long spindle full of water and juice. The antelope dig deep holes in the sand in order to get at these.—*Wide World Magazine*.

Wouldn't Bring an Action.

There is a story told of a very eminent advocate, now no longer with us, who once while endeavoring to dissuade a friend from going to law was asked what he would himself consider a sufficient ground for resorting to litigation.

"My dear fellow," he replied, "I do not say that in no conceivable circumstances would I take proceedings against any one, but I do say that if at this moment you deliberately upset my ink on the tablecloth, chucked my wife out of the window, threw that volume of reports at the bust of Blackstone, 'made hay' with my furniture and finally tweaked my nose I should no doubt use my best endeavors to kick you downstairs. But once rid of you, either by force or persuasion, no power on earth should induce me to bring an action against you."—*London Globe*.

Who the Letts Are.

The Letts are a branch of the Lithuanian nation, a Slavonic division, and dwellers in the Baltic provinces of Russia. Lithuania was at one time a great kingdom, later a part of the Polish nation and now embodied in Russia and Prussia. The Letts, a subdivision of the Lithuanian people, at present number more than 2,000,000. They are of average height, well built, but seldom very tall. The finely cut features, fair hair, blue eyes and delicate skins are characteristics that distinguish a Lett from a Pole or a Russian.—*Philadelphia Press*.

Compulsion.

"If that bad boy insists on carrying a chip on his shoulder you shouldn't notice him."

"I didn't," replied the square jawed youngster, "so long as he kept it on his shoulder, but when he took it off and hit me in the eye with it I had to do something."—*Washington Star*.

Her Fear.

Maud—What makes you so awfully nervous, dear?

Clara—Why, Fred is to have an interview with papa this afternoon.

"Oh! And are you afraid your father will not give his consent?"

"No! I fear Fred won't show up."

A Tartar Proverb.

A Turco-Tartar proverb throws a strong light on the question of the amount of veracity to be looked for in official documents by orientals. The proverb runs as follows: "He who speaks the truth will be expelled from nine villages."

Feats of Endurance.

What is the limit of human endurance?

A bomb thrower has hurled bombs continuously for forty-one hours.

There are numerous striking and more peaceful record breaking feats. A club swinging champion once swung his clubs for forty-six hours without a moment's rest.

A young Brixton athlete once swung a blacksmith's hammer for twelve hours on end. Then this same modern Samson belabored a punching bag continuously for fifteen hours at the average rate of 145 punches a minute.

A few years ago two Frenchmen walked round and round a billiard table, playing game after game and covering sixty miles for twenty-four consecutive hours.

A band of change ringers once rang the bells of St. Martin's, Birmingham, for eight hours without pausing.

A certain Polish lady danced, with only momentary rests, for thirty-four hours, while an Italian dancer danced for fourteen hours at the rate of eighteen waltzes an hour.—*London Stray Stories*.

Devil Worship in Tibet.

The religion inculcated by Buddha had certain cardinal points—the encouragement of the ascetic life, the maintenance of virtue, the exhortation to persons of all castes and both sexes to aim at deliverance from the evils of existence and, lastly, the attainment of Nirvana.

But in Tibet Buddhism has been grafted on to the earlier devil worship of the people, and a religion has been evolved better expressed as Lamaism, or modified devil worship, so that in addition to the Buddhas and Bodhisats there have also come to be tutelary and guardian deities of a terrifying and malignant aspect, whose duty it is to defend the faith and the faithful people from external attack. These deities are depicted in grotesque and terrible forms in all the monasteries, generally in violently colored fresco paintings at the entrance.—*National Geographic Magazine*.

Paste This on the Family Tool Chest.

The idea of this cabinet is to furnish amusement to the family when they have scratched up all the furniture and done all the damage elsewhere they can think of; therefore

Do not replace or put back anything that you take out of these drawers.

Try, if possible, to select and remove from this cabinet some article or tool that is absolutely indispensable, leaving it preferably out in the back yard.

If you have anything hanging about your room that is of no earthly use you might store it in one of these drawers.

Remember that the main idea of having this cabinet on the premises is gradually to fill it with utterly useless things.

And remove from it at the same time all the useful things.

Patience! Keep at it and you are bound to succeed.—*Life*.

Sawse Sawse.

Here is the old King Richard II. way of making sausage: "Pyggs in sawse sawse," or pigs with sage sauce. "Take pyggs yskaldid (scalded) and quarter them and seeth them in water and salt; take them and let them kele (cool); take parsley (parsley), sawse (sage) and grynde it with brede and yolkes of ayren (eggs) harde ysode (boiled); temper it with vinegar somewhat thick, and lay the pyggs in a vessel and sewe onward (the sauce over them), and serve it forth." "Take pyggs" is pretty good. Size or number seems of no consequence.

Care With Mushrooms.

Mushrooms, on account of the amount of nitrogen they contain, approach nearer to animal food than many other vegetable products. An analysis shows that mushrooms contain 3.5 per cent proteins, boiled potatoes 2.5 and onions 1.6. Experts say that mushrooms should be eaten perfectly fresh and never eaten after being "warmed over."

Salary of the President.

In the second sessions of the Sixtieth congress the president's salary was fixed at \$75,000 a year, and in addition he is allowed \$25,000 for traveling expenses, which is practically extra salary, as he does not have to return any of it not used for traveling expenses.

Old Enough to Notice.

"Are your papa and mamma at home?" asked the caller.

"No," replied little Marguerite. "One of them may be here, but they never are both at home at the same time."

Character.

Character is not cut in marble—it is not something solid and unalterable. It is something living and changing and may become diseased as our bodies do.—*George Eliot*.

Words and Actions.

"Is Bilgins a patriot?"

"Yes, but he's the kind that would be more useful in a school of elocution than in a training camp."—*Washington Star*.

Chest and Leg.

First Fresh—My father has a fine cedar chest. Second Fresh—Nothing. My father is a veteran and has a hickory leg.—*Dartmouth Jack-o'-Lantern*.

A Few Words.

"Did you have many words with your wife last night?"

"No; only a few words, but they were repeated—very often."

If you would abolish avarice you must abolish the parent of it, luxury.—*Cicero*

Widows' Dolls in Serbia.

Talking of Serbia's curious marriage customs, Mrs. Gordon in her book, "A Woman in the Balkans," speaks of a queer looking doll she sometimes saw hanging up in cottage windows:

"To my astonishment and amusement I was informed that the doll was the coy evidence a widow shows when she desires to enter the bonds of matrimony again. Some of them were hideous, others of as pretty a kind as the circumstances or taste of the 'lone widow' would permit, and it was by this mute appeal intending suitors were made aware of her intentions and invited to 'inquire within.' Wreaths of corn marked the houses of a marriageable girl."

The Servians are a singing people, and the women, who are very poetical, sing as they spin during the long evenings. They sometimes compose music to the old ballads as they sing them. The country is called "the poor man's paradise," and Mrs. Gordon thinks the title appropriate, "for one rarely sees the poor or the beggar, and, though there may be smelly, there are no slums and no unemployed."

Audubon and His Hair.

Audubon, the great naturalist, early in his career wore his hair very long. He wrote in his diary one day: "I wear my hair as long as usual. I believe it does as much for me as my paintings." However, in 1827 his friends succeeded in persuading him to get his hair cut according to the prevailing fashion. On March 19 of that year he wrote in his diary: "This day my hair sacrificed and the will of God surbed by the wishes of man. As the barber clipped my locks rapidly it reminded me of the horrible times of the French revolution when the same operation was performed upon all the victims murdered by the guillotine. My heart sank low." Further to express his grief, the margin of the page on which this entry was made he painted black about three-quarters of an inch deep all around.

The Word "Pester."

When we say we have been pestered by the bill collector and the political candidate we are not indulging in American slang. We are using a word that is more ancient and aristocratic than any of our proudly displayed coats of arms. And it came from the same source as most of the world's aristocracy—from the farm! "Pester" is an abbreviation for "impester," and a pasturist, in classic Latin, was simply a pasture. There were no fences around the pasture, and to prevent the horses and cattle from straying too far in quest of lush grass their feet were shackled. You would think you were being pestered if your feet were tied—that is, impestered—so that you could not run.—*St. Louis Globe-Democrat*.

Shakespeare's Benefactors.

Of the millions who love to read Shakespeare how many have even heard of Heminge and Condell? Yet to the faithful labors of these two poor players we owe the first attempt to give the world a complete edition of Shakespeare's plays. No collected edition of the poet's work was issued in his lifetime, nor did many of the plays even find their way to print until John Heminge and Henry Condell, Shakespeare's intimate friends and fellow actors, took the task of publication in hand, disclaiming "ambition either of self profit or fame in undertaking the design," and being moved solely by desire "to keep the memory of so worthy a friend and fellow alive as was our Shakespeare."

Confession of a Contributor.

I wish I might never have to dangle my profession on a label. I am always embarrassed when I am forced blatantly to expose it—for example, to the frank questions of the doctor's secretary or of a customs official. "Profession?" they ask, and I cringe before the admission, "I am a writer." I don't feel ladylike when I say the words. On such occasions I could give my entire remuneration for an Atlantic essay to be able to say, "I am a laundress."—*Winifred Kirkland in Atlantic*.

Inquisitive Girls.

Bessie—I almost hate Carrie Dyer! She asks such impudent questions, you know. I was telling her if Frank Barnes had asked me to marry him once he had asked me twenty times, and she had the impertinence to ask me if he had asked once. Minnie—The idea! But has he, Bessie?—*Exchange*

Welcome Joy.

If you ain't got manners ter tell Joy good mawnin' when you meets him how does you expect him ter call round by de place you live at? You better be mighty keeful, fer, while he is allus in a good humor, he sho' do expect you ter meet him halfway.—*Atlanta Constitution*.

Too Much of a Good Thing.

"That man's laugh is like a tonic." "I don't deny that it has a cheerful ring," the cynic said, "but hearing the same loud laugh all day long is like taking a dose of medicine every hour—it gets to be monotonous."—*Birmingham Age-Herald*.

Wrong Font.

"She married a printer. Now she wants a divorce." "Ah, I see—she made a typographical error!"—*Florida Times-Union*.

Powers of the Fireside.

Wife—The policeman called on the cook last night. Husband—Ah! A conference of the powers.—*Baltimore Sun*.

The opportunity is often lost by deliberating.—*Symus*.

PROCLAMATION

PUBLICATION OF CHAPTER 30,
ACTS OF 1916.

WHEREAS, The General Assembly of
Maryland, at its January Session, 1916,
passed an Act, known as Chapter 30
of the Acts of Maryland of said Session
and being in the words and figures fol-
lowing:

"CHAPTER 30.

AN ACT to enable the registered and
qualified voters of the City of Bal-
timore, Baltimore County, the First and
Third Precincts of the Fifth District
of Anne Arundel County, Annapolis
City, Allegany County, Washington
County, Frederick County, Prince
George's County, Ellicott City and
Havre de Grace, each as a separate
political unit, to determine by ballot
whether or not the sale, manufacture
for sale and transportation for sale of
alcoholic, spirituous, vinous, malt and
intoxicating liquors for beverage pur-
poses shall be forever prohibited in
the said political units above designat-
ed, respectively, from and after May
first, one thousand nine hundred and
eighteen; providing for the submis-
sion of such question to the voters of
each of the political units herein desig-
nated and declaring the effect of
such election.

Section 1. *Be it enacted by the Gen-
eral Assembly of Maryland, That* the
question whether or not the sale, man-
ufacture for sale and transportation for
sale of alcoholic, spirituous, vinous, malt
and intoxicating liquors for beverage
purposes shall be forever prohibited in
the City of Baltimore, Baltimore County,
the 1st and 3rd precincts of the Fifth
District of Anne Arundel County, Annapolis
City, Allegany County, Washington
County, Frederick County, Prince
George's County, Ellicott City and
Havre de Grace, respectively, from and
after May first, one thousand nine hun-
dred and eighteen, shall be submitted
to the registered and qualified voters of
said political units herein designated, at
the general election to be held on the
first Tuesday after the first Monday in
the month of November, A. D. one
thousand nine hundred and sixteen; and
Supervisors of Elections of Baltimore
City and the Supervisors of Elections
of or exercising jurisdiction over each
of the political units herein designated
shall have printed upon the ballots to be
used at the general election held on the
first Tuesday after the first Monday in
November, A. D., one thousand nine
hundred and sixteen, in a separate col-
umn to follow immediately after the
names of candidates the following propo-
sition, in clear, plain, bold Roman
capitals, twelve-point pica type: "Shall
the sale, manufacture for sale and
transportation for sale of alcoholic,
spirituous, vinous, malt and intoxicat-
ing liquors for beverage purposes in the
..... (county, city, town or vil-
lage, as the case may be) be prohibited
from and after May first, one thousand
nine hundred and eighteen?" after which
shall be printed on separate lines with
a square or box to the right and op-
posite the words "for prohibition" and a
corresponding square or box to the
right and opposite the words "against
prohibition," on the ballots printed in
each of said political units, the blank
above indicated shall be filled in with
the name of the respective political unit
so voting, as aforesaid.

The Governor of this State shall give
notice by publication in two newspapers
published in each of the political units
herein designated, or if only one news-
paper is published in any such unit, then
such notice shall be published in one
newspaper, or if no newspaper is pub-
lished in any of such units, then in a news-
paper published in the county of which
such unit is a part, and three news-
papers published in Baltimore City, one
of which shall be printed in the German
language, giving at least three months'
notice that such question shall be sub-
mitted to the voters of each of the po-
litical units herein designated for their
adoption or rejection; and the Secretary
of State shall, not less than thirty days
before the date of said election, certify
the same to the Board of Supervisors of
Elections of or exercising jurisdiction
over each of the political units herein
designated and to the Board of Super-
visors of Elections of the City of Bal-
timore, whose duty it shall be to forth-
with give notice by advertisement and
otherwise of the submission of such
question; provided, however, that if for
any reason said notice shall not be given
or not given in the manner prescribed
by law, such failure of publication of
said notice shall not affect the validity
of this Act nor operate to prevent its
taking effect.

Sec. 2. *And be it enacted, That* the
proposition above mentioned shall be so
printed as to give each voter a clear
opportunity to designate by a cross (X)
in a square opposite the words "for
prohibition" and in a square opposite
the words "against prohibition" his an-
swer to such question; that one chal-
lenger and one watcher may be desig-
nated for each precinct of each of the
political units herein designated by the
chairman of the committee managing
in each of such political units the in-
terest of those conducting the cam-
paign favoring and those opposing said
proposition, the said challengers and
watchers to have the same powers and
duties which are conferred upon chal-
lengers and watchers at general elec-
tions held in this State by Section 64 of
Article 33 of Bagby's Annotated Code
of Public General Laws of Maryland,
and a certificate signed by the aforesaid
chairman shall be sufficient authority
for such challenger and watcher to per-
form their duties. The name of each
chairman shall be filed with the Board
of Supervisors of Elections at least
thirty days before said election.

The laws now in force for the con-
duct of general elections in each of the
political units herein designated and
the provisions and requirements of the
Corrupt Practices Act shall apply in all
particulars to the elections provided for
by this Act.

Sec. 3. *And be it enacted, That* the
Supervisors of Elections of each of the
political units herein designated and of
Baltimore City shall canvass these re-
turns in like manner as other election
returns, and they shall certify the num-
ber of votes cast "for prohibition" and
"against prohibition" respectively, and
the said Board of Election Supervisors
shall file their certificates with the
Clerks of the Circuit Court of the sev-
eral political units herein designated or
having jurisdiction over the same and
with the Clerk of the Superior Court of
Baltimore City, as the case may be,
and shall forward at once by registered
mail to the Secretary of State a dupli-
cate copy of said certificates, and the

Secretary of State shall within thirty
days from the date of said election, pro-
vided no contest has been filed, make a
certificate to the Governor showing the
total number of votes cast "for prohibi-
tion" and the total number of votes
cast "against prohibition" in each of
the political units herein designated,
and upon receipt of this statement the
Governor shall forthwith issue a pro-
clamation declaring the result of the
election in each of the political units
herein designated and calling attention
to its effects under this Act, and said
proclamation shall be recorded in a well-
bound book in the offices of the Clerk
of the Circuit Court for the several
counties or having jurisdiction over said
political units herein designated and in
the office of the Clerk of the Superior
Court of Baltimore City and in the
office of the Secretary of State, and the
vote upon said proposition and such re-
sult may be proved in all courts and in
all proceedings by such record or by a
certified copy of the proclamation under
the hand and seal of the Secretary of
State.

Sec. 4. *And be it enacted, That* if
upon receipt by the Governor of a cer-
tificate from the Secretary of State
showing the result of such election in
each of the political units herein desig-
nated it shall appear that a majority of
the voters in any such political unit
qualified under the laws of the State to
participate in such election voting on
this question in such election, have vot-
ed "against prohibition," then the laws
relating to the sale, manufacture for
sale, the transportation for sale of al-
coholic liquors for beverage purposes
in such political units so voting against
prohibition in effect at the date of this
election shall continue in force and ef-
fect unless or until otherwise changed
by the General Assembly of Maryland
or by a majority vote of the qualified
electors of this State.

Sec. 5. *And be it enacted, That* if
upon receipt by the Governor of a cer-
tificate from the Secretary of State
showing the result of such elections in
each of the political units herein desig-
nated it shall appear that a majority of
the voters in any such political unit
qualified under the laws of this State to
participate in such election voting on
this question in such election, have vot-
ed "for prohibition," then he shall
forthwith issue his proclamation to this
effect, and on and after the first day of
May, one thousand nine hundred and
eighteen, it shall be unlawful for any
person, persons, social club, firm or cor-
poration to manufacture for sale, sell or
purchase for sale, transport for sale,
dispose or otherwise dispose of any al-
coholic, spirituous, vinous, fermented,
distilled or malt liquors or intoxicat-
ing liquors without a license; and any
person, persons, social club, firm or cor-
poration manufacturing, selling, transport-
ing, dispensing or disposing of any al-
coholic, spirituous, vinous, fermented,
distilled or malt liquors within such po-
litical unit or units so voting for prohi-
bition shall be liable for all the pen-
alties now or hereafter prescribed for
manufacturing, selling, dispensing or
disposing of alcoholic, spirituous, vinous,
fermented, distilled, malt and intoxicat-
ing liquors without a license; and any
place used for purposes in violation of
this section, such use is hereby declared
a nuisance and shall be abated as such.

Sec. 6. *And be it enacted, That* any
qualified voter of any political unit here-
in designated may contest the election
on this question hereby submitted to
the voters of such political unit or de-
mand a recount of the ballots cast on
such question in any election precinct
or district of any such political unit, by
filing a petition setting forth the grounds
of such contest or recount, verified by
affidavit with the Clerk of the Circuit
Court for the county or the Clerk of the
Superior Court for Baltimore City, as
the case may be, within not more than
five days from the date of the canvass
of the returns by the Election Super-
visors, and upon the filing of bond for
the costs in the penalty to be fixed by
the residing Judge or the Judge at that
time presiding over the Court in which
the contest is instituted, with surety
or surties to be approved by him, a
summons shall forthwith issue from
such court addressed to the Supervisors
of Election for or having jurisdiction
over such political unit or for the City
of Baltimore in which such contest is
instituted, notifying them of the filing
of such petition and directing them to
appear in such court with the ballots and
ballot boxes of the precinct or precincts
in which irregularities are charged, at
the time named in such summons, which
shall be not less than five nor more than
ten days from the filing of such peti-
tion. The procedure in such cases shall
be the same as that provided by law for
contesting any election for public office
so far as the same is applicable.

In case of a contest of election in any
precinct of any political unit herein
designated or the City of Baltimore, as
the case may be, the Board of Super-
visors of Elections shall withhold the
certificate of such election returns for
such political unit or the City of Bal-
timore in which such precinct is located
until the court decides such contest.
Immediately following such decision of
the court the Board of Supervisors of
Elections shall make the returns as
herein provided; such decision shall be
made by the court not later than six
months from the date of election.

The said court shall have final juris-
diction to hear and determine the merits
of such cases, and if the said court
shall discover that fraud has been com-
mitted in any precinct and the legal
votes cannot be separated from the
illegal votes or ballots so that the cor-
rect result can be ascertained, then the
whole number of ballots cast in such
precinct on such question so submitted
to the voters of the political units here-
in designated shall be rejected by the
said court and not counted and the
Supervisors of Elections shall not make
any returns of the votes cast in such
precinct, and the rejection of such bal-
lots shall in no wise render invalid the
result of such election.

Sec. 6A. This Act shall not apply to
nor prohibit the manufacture for sale
of alcoholic, spirituous and vinous,
malt and intoxicating liquors by per-
sons and corporations now engaged in
the manufacture thereof or the trans-
portation thereof by said persons and

corporations where such liquors are
manufactured for sale and sold only for
delivery for shipment to places beyond
the State or to places within the State
where such sale is not now or hereafter
prohibited by law.

Sec. 7. *And be it enacted, That* this
Act shall take effect from the date of
its passage.

Approved March 17, 1916.

AND WHEREAS, Section 1 of the above
recited Act requires that the Governor
of the State shall give notice by pub-
lication in two newspapers published in
each of the political units designated in
said Act, and if only one newspaper be
published in any such political unit then
in that newspaper, and if no newspaper be
published in any such political unit then
in a newspaper published in the county
in which such political unit is located; and
in three newspapers published in the
City of Baltimore, one of which shall
be printed in the German language.

NOW, THEREFORE, I, EMERSON
C. HARRINGTON, GOVERNOR OF
MARYLAND, in compliance with the
authority and direction contained in
said Section 1 of said Chapter 30 of the
Acts of Maryland of 1916, do hereby
order and direct that a copy of this
proclamation, which sets forth the com-
plete and correct text of said Act, be
so published as directed in said Section
1 of said Act, once a week for three
months next preceding the day of the
election at which the said Act is to be
submitted to the registered voters of
said political units, for their adoption
or rejection.

GIVEN UNDER MY
HAND AND THE
GREAT SEAL OF
THE STATE OF
MARYLAND.

Done at the City of
Annapolis, this
twentieth day of
July, in the year
of our Lord, one thousand nine
hundred and sixteen.

EMERSON C. HARRINGTON,
By the Governor:
THOMAS W. SIMMONS,
Secretary of State.

adv. aug 4-3m

PROCLAMATION

PROPOSED AMENDMENT TO THE
CONSTITUTION OF MARYLAND
CREATING A BUDGET SYSTEM.

WHEREAS, at the January Session of
the General Assembly of Maryland,
held in the year 1916, an Act was pass-
ed, to-wit: Chapter 159 of said Acts,
being an Act to propose an amendment
to Section 52 of Article III, title
"Legislative Department," of the Con-
stitution of this State; and which said
Act is in words and figures following:

"CHAPTER 159.

AN ACT to propose an amendment to
Section 52 of Article III, title, Legis-
lative Department, of the Constitu-
tion of this State, regulating the
making of appropriations by the Gen-
eral Assembly of Maryland in regular
session, and to provide for the sub-
mission of said amendment to the
qualified voters of this State for adop-
tion or rejection.

Section 1. *Be it enacted by the Gen-
eral Assembly of Maryland (three-fifths
of all the members of each of the two
houses concurring), That* the following be
and the same is hereby proposed as an
amendment to Section 52 of Article III,
title Legislative Department, of the
Constitution of this State, the same, if
adopted by the legally qualified voters
of the State, as herein provided, to be-
come Section 52 of Article III of the
Constitution of Maryland.

Sec. 52. The General Assembly shall
not appropriate any money out of the
Treasury except in accordance with the
following provisions:

Sub-Section A:
Every appropriation bill shall be either
a Budget Bill, or a Supplementary Ap-
propriation Bill, as hereinafter men-
tioned.

Sub-Section B:
First. Within twenty days after the
convening of the General Assembly (ex-
cept in the case of a newly elected Gov-
ernor, and then within thirty days after
his inauguration), unless such time shall
be extended by the General Assembly
for the session at which the Budget is
to be submitted, the Governor shall sub-
mit to the General Assembly two bud-
gets, one for each of the ensuing fiscal
years. Each budget shall contain a
complete plan of proposed expenditures
and estimated revenues for the particu-
lar fiscal year to which it relates; and
shall show the estimated surplus or
deficit of revenues at the end of such
year. Accompanying each budget shall
be a statement showing: (1) the revenues
and expenditures for each of the two
fiscal years next preceding; (2) the
current assets, liabilities, revenues and
surplus or deficit of the State; (3) the
debts and funds of the State; (4) an
estimate of the State's financial condi-
tion as of the beginning and end of
each of the fiscal years covered by the
two budgets above provided; (5) any
explanation the Governor may desire
to make as to the important features of
any budget and any suggestion as to
methods for the reduction or increase
of the State's revenue.

Second. Each budget shall be divided
into two parts, and the first part shall
be designated "Governmental Appropria-
tions" and shall embrace an item-
ized estimate of the appropriations: (1)
for the General Assembly as certified
to the Governor in the manner hereinaf-
ter provided; (2) for the Executive
Department, as provided by law, certified
to the Governor by the Comptroller;
(3) to pay and discharge the principal
and interest of the debt of the State of
Maryland in conformity with Section
34 of Article III of the Constitution, and
all laws enacted in pursuance there-
of; (4) for the salaries payable by the
State under the Constitution and laws
of the State; (5) for the establishment
and maintenance throughout the State
of a thorough and efficient system of
public schools in conformity with Article
VIII of the Constitution and with the
laws of the State; (7) for such other
purposes as are set forth in the
Constitution of the State.

Third. The second part shall be
designated "General Appropriations,"
and shall include all other estimates of
appropriations.

The Governor shall deliver to the pre-
siding officer of each house the budgets
and a bill for all the proposed appropria-
tions of the budgets clearly itemized
and classified; and the presiding officer

of each house shall promptly cause said
bill to be introduced therein, and such
bill shall be known as the "Budget Bill."
The Governor may, before final action
thereon by the General Assembly,
amend or supplement either of said
budgets to correct an oversight or in
case of an emergency, with the con-
sent of the General Assembly by de-
livering such an amendment or supple-
ment to the presiding officers of both
houses; and such amendment or supple-
ment shall thereby become a part of
said budget bill as an addition to the
items of said bill or as a modification
of or a substitute for any item of said
bill such amendment or supplement may
affect.

The General Assembly shall not amend
the budget bill so as to affect either the
obligations of the State under Section
34 of Article III of the Constitution, or
the provisions made by the laws of the
State for the establishment and main-
tenance of a system of public schools,
or the payment of any salaries required
to be paid by the State of Maryland by
the Constitution thereof; and the Gen-
eral Assembly may amend the bill by
increasing or diminishing the items
therein relating to the General Assem-
bly, and by increasing the items there-
in relating to the judiciary, but except
as hereinbefore specified, may not alter
the said bill except to strike out or re-
duce items therein, provided, however,
that the salary or compensation of any
public officer shall not be decreased
during his term of office; and such bill
shall be and as passed by both houses
shall be a law immediately without fur-
ther action by the Governor.

Fourth. The Governor and such rep-
resentatives of the executive depart-
ments, boards, offices and commissions
of the State expending or supplying for
State's money, as have been designated
by the Governor for this purpose, shall
have the right, and when requested by
either house of the Legislature, it shall
be their duty to appear and be heard
with respect to any budget bill during
the consideration thereof, and to an-
swer inquiries relative thereto.

Sub-Section C: Supplementary Appropria-
tion Bills:

Neither house shall consider other
appropriations until the Budget Bill has
been finally acted upon by both houses,
and no such other appropriation shall
be valid except in accordance with the
provisions following: (1) Every such
appropriation shall be embodied in a
separate bill limited to some single
purpose, object or purpose therein stated
and called herein a Supplementary Ap-
propriation Bill; (a) Each Supplemen-
tary Appropriation Bill shall provide
the revenue necessary to pay the ap-
propriation thereby made by a tax, di-
rect or indirect, to be laid and collected
as shall be directed in said Bill; (3) No
Supplementary Appropriation Bill shall
become a law unless it be passed in
each house by a vote of a majority of
the whole number of the members
elected; and the yeas and nays record-
ed on its final passage; (4) Each Supple-
mentary Appropriation Bill shall be
presented to the Governor of the State
as provided in Section 17 of Article II
of the Constitution and thereafter all
the provisions of said Section shall apply.

Nothing in this amendment shall be
construed as preventing the Legislature
from passing at any time in accordance
with the provisions of Section 28 of
Article III of the Constitution and sub-
ject to the Governor's power of ap-
proval as provided in Section 17 of
Article II of the Constitution an appropria-
tion bill to provide for the payment
of any obligation of the State of Mary-
land within the protection of Section
10 of Article I of the Constitution of
the United States.

Sub-Section D: General Provisions:

First. If the Budget Bill shall not
have been finally acted upon by the
Legislature three days before the ex-
piration of its regular session, the Gov-
ernor may, and it shall be his duty to
issue a proclamation extending the ses-
sion for such further period as may, in
his judgment, be necessary for the
passage of such Bill; but no other mat-
ter than such Bill shall be considered
during such extended session except a
provision for the cost thereof.

Second. The Governor for the pur-
pose of making up his budgets shall
have the power, and it shall be his duty,
to require from the proper State Offi-
cials, including herein all executive de-
partments, all executive and administra-
tive offices, bureaus, boards, commis-
sions and agencies expending or super-
vising the expenditure of, and all
institutions applying for State mon-
eys and appropriations, such itemized
estimates and other information, in
such form and at such times as he
shall direct. The estimates for the
Legislative Department, certified by the
presiding officer of each house, of the
Judiciary, as provided by law, certified
by the Comptroller, and for the public
schools, as provided by law, shall be
transmitted to the Governor, in such
form and at such times as he shall di-
rect, and shall be included in the bud-
get, without revision.

The Governor may provide for public
hearings on all estimates and may re-
quire the attendance at such hearings of
representatives of all agencies and of
all institutions applying for State mon-
eys. After such public hearings he may,
in his discretion, revise all estimates
except those for the legislative and ju-
diciary departments, and for the public
schools as provided by law.

Third. The Legislature may, from
time to time, enact such laws, not in-
consistent with this Section, as may be
necessary and proper to carry out its
provisions.

Fourth. In the event of any incon-
sistency between any of the provisions
of this Section and any of the other
provisions of the Constitution, the pro-
visions of this Section shall prevail. But
nothing herein shall in any matter af-
fect the provisions of Section 34 of Ar-
ticle III of the Constitution or of any
laws heretofore or hereafter passed in
pursuance thereof, or be construed as
preventing the Governor from calling
extraordinary sessions of the Legisla-
ture, as provided by Section 16 of Ar-
ticle II, or as preventing the Legisla-
ture at such extraordinary sessions from
considering any emergency appropria-
tion or appropriations.

If any item of any appropriation bill
passed under the provisions of this Section
shall be held invalid upon any ground,
such invalidity shall not affect the
legality of the Bill or of any other item
of such Bill or Bills.

Section 2. *And be it enacted by the
authority aforesaid, That* the said fore-
going Section hereby proposed as an
amendment to the Constitution shall at
the next ensuing general election, be-
ing the Presidential and Congressional
election, to be held on the Tuesday next

after the first Monday of November,
nineteen hundred and sixteen, be sub-
mitted to the legal and qualified vot-
ers of the State for their adoption or
rejection in conformity with the direc-
tions contained in Article XIV of the
Constitution of this State, and at said
election the vote on said proposed
amendment to the Constitution shall be
by ballot, and upon each ballot there
shall be placed the following synopsis
of said amendment under the caption of
"CONSTITUTION AMENDMENT
PROVIDING FOR A BUDGET."

"This amendment provides that the
Governor shall present to the Legisla-
ture soon after it is convened a Bud-
get giving a complete plan of proposed
expenditures and estimated revenues
for the two succeeding fiscal years show-
ing clearly any surplus or deficit in
State funds. In these estimates he
shall make provision for the interest
and sinking funds of all State debts, for
all salaries as fixed by law, and for the
public schools as fixed by law. With
regard to most other matters he may
revise the estimates presented to him
either by State Officers or State-aided
institutions. The Legislature may not
increase the estimates presented by the
Governor or pass any additional appropria-
tion act except by a majority vote
and must make provision by tax for
such increase or additional appropria-
tion. The Legislature may not alter in
an appropriation act the provision made
by law for the State debt, or for the
judiciary, but may reduce all other
items in the Governor's estimates; and
the words 'for the Constitutional
Amendment' and 'against the Constitu-
tional Amendment' as now provided by
law, and immediately after said election
due returns shall be made to the Gov-
ernor of the vote for and against the
proposed amendment, and further pro-
ceedings had in accordance with Article
XIV of the Constitution.

Approved March 28, 1916."

Now, therefore, I, Emerson C. Har-
rington, Governor of the State of Mary-
land, in pursuance of the direction con-
tained in section 1 of Article 14 of the
Constitution of Maryland, do hereby
order and direct a copy of this Procla-
mation, containing a full, true and cor-
rect copy of the text of said Chapter
159 of the Acts of Maryland of 1916, be
published in at least two newspapers in
each of the counties of the State and in
three newspapers published in the City
of Baltimore, one of which said news-
papers in the City of Baltimore to be
printed in the German language, once a
week for three months next preceding
the General Election to be held in this
State on November 7th, 1916, and at
which election the said proposed amend-
ment to the Constitution shall be sub-
mitted, in form and manner prescribed
by the General Assembly, to the legal
and qualified voters of the State for
their adoption or rejection.

The Final Grange Meeting.

The farmers of this district are reminded of the meeting, Monday night, Sept. 4th, to formally complete the organization of Emmitsburg Grange. This meeting will be held at 7.30 in the Public School Auditorium and it is expected that a large number of farmers and their wives and daughters will be present. No individual invitations have been or will be issued. The meeting will be open to all and every farmer in the neighborhood and every adult member of his household is eligible to membership in the Grange. That membership is advantageous is proven by the existence of the vast number of similar organizations throughout the country. Farmers need organization and here is the opportunity—Monday, Sept. 4th, in the School House at 7.30 P. M.

The Rev. Mr. Craig Welcomed.

Rev. Kenneth M. Craig, formerly pastor of the Presbyterian church here, has been spending the week in Emmitsburg among his friends, of whom there are very many. Sunday night he preached in the Reformed church to a congregation made up of members from the various churches and after the service greeted the many who had come to hear his splendid sermon and to welcome him to his one time home. Mr. Craig is still intensely interested in the Eyer case and expects soon again to go before the Board of Pardons in Harrisburg in Eyer's behalf.

ting from Emmitsburg to Thurmont. The dirt road is fairly good between the two places and direct when once known, but strangers generally have to find their way and experience some trouble owing to the numerous roads branching out from the main thoroughfare.

Mahlon Stonsifer, one of the most progressive farmers in this district, raises corn that is corn. During the week there has been on exhibit in THE CHRONICLE window two beautifully developed stalks measuring 12 feet in length, each bearing large well-filled ears of grain.

John Thomas Gelwicks has been experimenting with a new species of sweet corn called the "Bungalow Brand." The peculiarity of this corn is its diminutive size, which, however, is counterbalanced by the succatash, spinach and spaghetti attachment that go with it. One ear (with the hereditaments thereunto belonging) will make a full bowl of vegetable soup or a whole dish of salad.

Mr. James Helman is having his store property on West Main street, repainted.

The maximum temperature during the week was 89° on Saturday. The minimum was 64° on Monday.

Messrs. James M. Kerrigan and Cecil Rotering, who have been fishing for several days along the Patapsco river have returned home. They were very successful in their catches which made this out-of-door visit a most delightful one.

Messrs. Joseph Rosensteel, Guy Topper and Joseph R. Hoke have returned from a fishing trip along the Chesapeake Bay. They report having caught nearly a wagon load of fish, weighing from 4 to 6 lbs.

Mrs. E. L. Annan entertained a number of her friends at Five Hundred Saturday evening. The guests were: Mrs. Carson P. Frailey, Mrs. E. L. Annan, Jr., Mrs. Clagett; Misses Belle Rowe, Annabelle Hartman, Marion Hoke, Ruth Gillelan, Madeline Frailey, M. Scott McNair, Anne and Estelle Codori.

A STORM IN TOWN LAST WEEK

Not a Severe One; on the Contrary a Very Pleasant One in the Person of John F.

Last week Emmitsburg had as a very welcome visitor John F. Storm, of St. Louis, Mo. A stranger? Not by any means. Mr. Storm was born in Emmitsburg and while in the east dropped in to see his friends and look his birthplace over once again. And by the way after an absence of eleven years, this genial former resident noted many decided improvements in the town and neighborhood. He cited the progressive spirit of the people and commented most favorably upon the business expansion noticeable throughout the district.

Mr. Storm is a baseball enthusiast and took keen interest in the fourteen inning game on Saturday. He remarked, incidentally, that he was the organizer of the first baseball nine that St. Louis ever had.

A more optimistic person than Mr. Storm could hardly be found. He is as young in spirit as he is old in years—he has passed the 70th milestone—and is in touch and in sympathy with the younger element in everything. He has lots of friends here and they were glad when he came and sorry when he left.

All who have heretofore sent articles to the Woman's Exchange will kindly prepare for the reopening on Sept. 16, adv. sept. 1-2ts.

Opening Dates of Local Institutions

St. Euphemia's parochial school will resume its studies Tuesday morning, September 5th.

St. Joseph's College and Academy will resume its studies Friday, September 8. The prospect for a large attendance is exceedingly good and it is believed will be larger than any year heretofore.

The Emmitsburg High and Public School will reopen Monday, September 11.

Studies at Mount St. Mary's College will be resumed Wednesday morning, September 13, 1916. Students return Tuesday night, September 12, 1916. The Ecclesiastical Seminary will reopen Tuesday, September 5, 1916

Paralysis Quarantine Regulations.

State Health Commissioner, Dixon, of Pennsylvania has announced that following a conference with the advisory board of the state health department, it had been decided that all schools—public, private and parochial—in Pennsylvania must remain closed until September 18th because of the outbreak of infantile paralysis. The order applies to all preparatory schools and colleges. All Sunday schools will be closed during the same period. Dr. Dixon, ordered that no children under 16 years of age may attend any picture shows between now and September 18th.

Pennsylvania children who visit Maryland towns from now on will be compelled to remain in those towns for two weeks after arriving there according to new orders issued by the Maryland State Board of Health.

OBITUARY

MRS. ELIZABETH BURDNER.

Wednesday morning at 2 o'clock, Mrs. Elizabeth Burdner, wife of Mr. Theodore Burdner died at her home on East Main street, after an illness of several weeks.

Mrs. Burdner was born near Thurmont, September 15, 1849 and was a daughter of the late Mr. and Mrs. Eiker. She lived nearly her entire life in Emmitsburg and during that time made a host of friends who extend their heartfelt sympathy to the bereaved family.

The deceased is survived by her husband, one son, Robert, and two daughters, Rosella and Mary.

The funeral services were held in St. Joseph's Catholic church this morning at 9 o'clock, Rev. J. O. Hayden officiating. Interment was made in the cemetery adjoining the church.

SOME BASEBALL GAME THIS

Accident To Rosensteel Stops Play After Fourteen Innings.—Score a Tie.

Gettysburg played Emmitsburg to a fourteen inning tie Saturday afternoon, the game ending 2 to 2. The game was a beautiful pitchers' battle between Stokes and Hartzell. The former fanned 21 of the Gettysburgians and allowed but four hits. Hartzell struck out 10 and was hit but 5 times. Stokes did not issue a pass during the fourteen innings; Hartzell gave 3.

In the fourteenth inning "Chick" Rosensteel, Emmitsburg's second baseman, suffered a slight concussion of the brain, in sliding into third base. With Hartzell holding the ball Rosensteel attempted to steal the base going into the bag head first. He struck his head violently upon the ground. It was at first thought that he was fatally injured but early Sunday morning he took a turn for the better and is now gradually improving.

A record crowd witnessed the game which was considered the best of the season.

The Woman's Exchange will reopen in the CHRONICLE OFFICE, Saturday, Sept. 16. adv. sept. 1-2t.

VICTOR MANUEL AVILA LOSES HIS LIFE WHILE SWIMMING

Was a Matriculated Student at Mt. St. Mary's College.—His Death a Shock to Community.—Sermon Delivered at Mass for the Deceased.

Victor Manuel Avila, son of Mr. and Mrs. Jose R. Avila, of Mexico City, Mexico, a matriculated student of Mt. St. Mary's College, while bathing with a number of companions lost his life in Tom's Creek, Friday August 25th.

His youthful companions, among whom was his younger brother George, heroically went to his aid but were unable to save him. The brother notified Mr. Louis Callahan, who was passing in his car, Mr. Callahan hastened to the spot and recovered the body. Physicians were summoned and began the work of resuscitation, but all in vain, as life was extinct.

The saddest feature of the event was that the parents, after sojourning in the neighborhood for a week, where they made hosts of friends by their geniality and gentility, had just bidden Victor and his two younger brothers farewell and had reached Baltimore on their way home. They were located at Hotel Belvedere, Baltimore and motored to the college immediately.

In addition to the members of the Faculty of Mt. St. Mary's College and St. Joseph's College, the Sisters of St. Francis and a large number of other friends of the bereaved were in constant attendance at the college while the body was lying in state. The floral offerings were most abundant and magnificent.

A Solemn High Mass of Requiem was celebrated in the College Church on Sunday, the 27th by Reverend James G. Burke, Vice-President of the College. Reverend P. A. Coad, professor of Moral Theology was deacon of the Mass. The Reverend Juan Salazar, of Yucatan, Mexico, sub-deacon, and the Reverend John J. O'Neill, professor of Latin, Master of ceremonies.

Present in the Sanctuary were the Reverend Doctor Philip J. Gallagher, professor of Philosophy, the Reverend Ramon Trejo, Yucatan, Mexico, and the Reverend George H. Trageser, pastor of St. Anthony's Shrine, Emmitsburg, who delivered the sermon.

The absolution at the grave was given by the Reverend James G. Burke, assisted by the attending clergy.

The music of the Mass was excellently rendered by the choir of St. Anthony's Shrine.

The sermon delivered by Father Trageser follows:

He was taken away lest wickedness should alter his understanding, or deceit beguile his soul.—For the bewitching of vanity obscureth good things, and the wandering of concupiscence overturneth the innocent mind.

Being made perfect in a short space, he fulfilled a long time.—For his soul pleased God: therefore He hastened to bring him out of the midst of iniquities: but the people see this, and understand not, nor lay up such things in their hearts.

The just that is dead, condemneth the wicked that are living, and youth soon ended, the long life of the unjust.

WIS. IV, 11-16.

These words of the inspired writer give us some insight into the motives of Divine Providence in the death of many a youth, who is suddenly torn away from the embrace of his loved ones. It was, but as yesterday when he, who is now lifeless before us, entered for the first time this college to pursue his studies and receive the Catholic Education which would enable him to fight well the battles of life. His bright, cheerful disposition gave promise of a welcome companion, and his respect for authority and his talents forebode the commendation of his superiors.

Here he met new surroundings and found himself in a strange land; far from the country where he had spent the greater portion of his life. But why should I refer to any land as strange to those of the household of the faith? The Church of which we are members recognizes only one land. "The earth is the Lord's and the fullness thereof." Ps. XXIII, 1. "Ask of Me, and I shall give Thee the gentiles for Thy inheritance, and the utmost parts of the earth for Thy possession." Ps. II, 8. Why should any land be strange to the children of the faith, all of whom recognize one another as children of God their Father, and members of Christ their head with Whom they hope to be associated in glory?

The sudden taking away of this youth has changed into deep sorrow and bitter sadness the joy and gaiety that usually pervade these walls and surroundings. God summarily requires of the family and the College a great sacrifice. The sacrifice is indeed heroic for the family, but the arm that has fallen heavily, will support bleeding hearts; and, as time passes on, loved ones will recognize that the hand which appeared to chastise, has been the bearer of precious blessings. The pagans looked upon the calamities of life as an expression of the ire of the gods; but the Christian believes that the trials and crosses of life are tokens of God's love. "For whom the Lord loveth, He chastiseth." Heb. XII, 6.

Sacrifice is the basis of all success in the material and spiritual order. This heart-rending sacrifice, that God demands, is like the seed that man deposits in the soil. Just as the seed will bring forth fruit in due time, so this great sacrifice, borne for God's love and with Christian resignation, will bring forth fruit a hundred fold in God's own time. We may well hope and pray that the fruits of this sacrifice will redound first of all in favor of those who are the most stricken by the blow, and next, in favor of the land of their birth which is now rent asunder by anarchy and irreligion. Let us hope that very soon prayer and sacrifice will bring to that persecuted land what the sword cannot give, namely temporal and spiritual prosperity. May the prayers and sacrifices of Mexico's children hasten the dawn of the brightest era in her history. And last of all let us hope that the sacrifice which this death imposes, may bring upon this well loved college a renewal of heavenly favors.

This institution was born in sacrifice, it grew and waxed strong amidst sacrifices, it continues to make rapid strides in favor of Catholic Education because this home of science and religion is made more and more fertile by sacrifices.

And now let me beg those upon whom God laid this heavy burden of sorrow to raise their heads and with the eyes of faith to behold beyond the dark clouds of sorrow, the bright rays of Him Who, in the days of his mortality, was seen going about doing good. The gospels say of Him that He gave sight to the blind, hearing to the deaf, and speech to the dumb, and that He raised the dead to life. It may seem that He is unconscious of your deep grief, and that He loves you not; but let me assure you that the same Divine, Loving Heart that witnessed and felt the sorrow of the widow of Naim at the loss of her only son, and of the sisters of Lazarus at the death of their brother, is as near to you at this moment as He was to the bereaved widow and to Mary and Martha in their sorrow, and that the Sacred Heart of the Savior loves you none the less than them. You may not hope that He will restore life to your loving boy as He did to the widow's son and to Lazarus. The two last He rose again to this mortal life of ours, which is more replete with sorrows than with joys; but you have the blessed hope that Christ will raise one day your boy to a life of everlasting bliss in His company.

Pray, dear brethren, that whether death overtakes you suddenly or after due warning, you may be well prepared to meet your God with Holy Mother Church pray for the departed:

"May the angels lead thee into Paradise, may the martyrs receive thee at thy coming and take thee to Jerusalem, the holy city, may the choirs of angels receive thee, and mayest thou, with the once poor Lazarus, have life everlasting."

Notes and Remarks Both Personal and Pertinent By "Country Contributor."

Quite a few people from nearby and far away cities are enjoying our Mountain breezes and the beautiful scenery, and in walking, driving and motoring over our roads which are exceptionally good this season. We note amongst those spending the month of August at the different hospitable homes now open for the entertainment of guests.

At "Hillside," the home of the Misses Corry, which as its name designates, is situated on a knoll at the foot of the Catocin branch of the Blue Ridge, from which a fine view can be obtained of the State Road and the lower valley of the Monocacy with Mt. St. Mary's Seminary and College within a stone's throw, are: Miss Mary Elder, of Baltimore, formerly a well known resident of the Mountain and a descendent of an old Colonial family who after years of absence has returned to the scenes of her childhood days and to renew her acquaintance with her old friends and school mates and their children who remember Miss Mary as a loved friend of themselves and of many of their parents who have passed over the river to the "Great Beyond"; also Misses Mary Schoolfield, Mamie Hammar, Margaret Hammar, Anna Donnelly, Louise Cassidy, Elizabeth Raphael Payne, Nannie Neale, Mrs. Hammar, Mrs. Edward Custy, Mr. J. William Neale, Mr. Edward Custy and Mr. Tormey, all of Baltimore.

At "Thornbrook," famous as the former residence of the Mountain poet, George H. Miles, now the home of Mr. John Franklin and family are: Mr. and Mrs. Edward Chance, Mr. and Mrs. Howard Van Order and the Misses Grace, Catherine, and Shirley Van Order and Miss Mary Storck, of Baltimore.

At "Villa Rest," embowered among its trees and shrubbery on the State Road, within easy walking distance of Mt. St. Mary's College, St. Joseph's College and Academy and Emmitsburg are: Mrs. K. McNally, Mrs. Heiskell and the Misses Stewart, of Washington, D. C. Mrs. James F. Hughes, Miss Annie Cushing, Miss Hall, Miss Lewis, Mamie Cummings, of Baltimore; Miss Seymour, of Detroit, Mich., Mrs. Ward and the Misses Ward, of Philadelphia, Pa.

Miss Emma McDonald, of Baltimore, is visiting Miss Mary Knott, of near Mt. St. Mary's.

Mrs. Augustus Reudter, of Baltimore, who lately has had a handsome cottage erected on the "Crystal Iron Spring," property purchased by her from D. Adelsberger heirs and the water from the springs on this property from which it takes its name, are justly celebrated for its icy coldness, purity and mineral properties it contains. The water from these Springs has been shipped to Baltimore, Washington and other cities, by its late owner and which carried the endorsement of the leading chemists, of Baltimore and elsewhere. Among those who spent the months of July and August enjoying the cool breezes, pure water, and beautiful scenery spread out for miles in front of this charming new home, situated high up on the mountain overlooking the convent, town, and many miles of Valley were: Mr. and Mrs. J. Gannon, Sr.

Annie Gannon, Misses Marie and Lora Gannon, of Baltimore and brother, Mr. and Mrs. J. Gannon, Jr., Mrs. Michael Gannon, of the Christian Brothers, Va., who visited his parents Mr. and Mrs. Gannon, Sr., Mrs. Butler, Mrs. Hooper, Miss Marie Hooper, Mrs. Kennedy, Miss Jeanne Kennedy, Mrs. Burke, and Mr. John Hooper, of Baltimore.

Mr. and Mrs. Warthen and children, and Miss Marie Warthen, of Laurel, Md., are visiting Mrs. Warthen's mother, Mrs. John Hoke near Mt. St. Mary's.

Miss Anne Coll, of Baltimore, is spending several weeks with Mrs. J. J. Crumlish and family.

Miss Gertrude Ryan has returned home after an extended visit to Atlantic City, where she was the guest of the Misses Margaret and Winifred Martin.

Mr. and Mrs. A. P. Jennings have returned home from a business trip to Baltimore. The Misses Kirchner, and Mary Sanders, and Mr. Allen Sanders, of Baltimore, are spending a week at "Split Rock Cottage," the home of Mr. and Mrs. A. P. Jennings. "Split Rock Cottage" derives its name from a natural curiosity nearby. An immense big boulder with a crevice in the centre of the solid granite from which issues a stream of ice cold water which flows continuously in a basin or natural cavity beneath the rock. Many of our older readers will remember this spring. The Table Rock beside it, a favorite spot for picnics in the years of our youth, and which was, and still can be reached by a scramble over the "rockiest" piece of road in Maryland, we verily believe, but like all things it is worth having. The spring is surrounded even in winter by the loveliest ferns, moss and laurel.

Miss Mildred Knodle, of Hagerstown, spent August with her aunt, Mrs. George Wagner and family, near Mt. St. Mary's.

Mrs. John Baxter, and little daughter, of Catonsville, is visiting her parents, Mr. and Mrs. Joseph Warthen, near Thurmont.

Mr. Sidney O'Donoghue has returned home after spending some time visiting friends in Altoona, Pa., and Pittsburgh, Pa.

Dr. O'Donoghue and Mr. Jere O'Donoghue, of Passaic, N. J., are visiting Mrs. O'Donoghue and family at their beautiful home "Bella Vista," near town.

Mr. and Mrs. James Kelly, of Altoona, Pa., are visiting relatives and friends at Dry Bridge, Mt. St. Mary's and Thurmont.

FRANKLINVILLE NEWS.

Miss Beulah Troxell returned home on Sunday, after spending a week with Miss Annie Pryor.

Mrs. Charles Gall spent Sunday with friends in Thurmont.

Mrs. William Dewees spent Tuesday with Mrs. Samuel Dewees.

Miss Leoda Stull who has been on the sick list is improving.

Mrs. Manahan, of Sabillasville, visited her daughter, Mrs. Joseph Fry one day last week.

Mr. Victor Pryor, of Cascade, Md., spent Wednesday night with his father, Mr. Luther Pryor.

After years of hard work railroad scientists have perfected a process to eliminate hidden flaws in steel rails.

ACROSS THE LINE

After a careful study of the infantile paralysis situation and a long conference with the Advisory Board of the Pennsylvania State Health Department State Health Commissioner Samuel G. Dixon has ordered that all schools and Sunday schools be closed until September 18, and that all "objectionable" movies be closed wherever the department deems it advisable.

Crops and other property were damaged Sunday and Saturday night by a series of hail and electrical storms. Lightning struck the large barn of the farm of Davis Bros., Seven Valleys, and it was burned. Three cows and several calves perished. Corn and tobacco in southern York county were torn to shreds by hail.

Col. Nicholson ordered the flags to be raised at all the regular points on the battlefield for the visit of the Union Veteran's Legion this week.

It has been determined that instead of poliomyelitis, the case under observation at Fairfield is neuritis. Little Evelyn, the five year old daughter of Charles Shindledecker, who has been under observation for more than two weeks is now able to walk and Dr. Trout, the attending physician has decided that it is neuritis instead of infantile paralysis as was first feared.

Dedication of the new Mohler Pipe organ in Seminary Chapel will be held September 21, according to announcement made by Dr. J. A. Singmaster. In response to a request by Mr. William Grecht, Baltimore, the donor of the pipe organ to the Seminary, the first hymn to be played on it will be, "Alas and Did My Savior Bleed." Prof. Ralph Lewars, of the Class of '01, Gettysburg College, will be the organist at the dedication.

Sunday, September 10, will be the last Sunday and last day of the season at Pen Mar. The park, will, however, remain open for weeks, only the orchestra will not be at Pen Mar. Most of the amusements will continue open until Oct. 1. The chances are that there will be some Wayne band concerts for Sunday evenings, following the leaving of the orchestra. Most of the cottagers will remain and the principal boarding houses be kept open till chestnut time in October.

Eddie Plank, the oldest pitcher in the major leagues, will celebrate his forty-first birthday next Thursday. Age does not weaken the arm of the Gettysburg outsider, for his work this year compares with the best he has done in his long and conspicuous career. In four consecutive games this season, played July 30, August 4, 8 and 12, Plank held his opponents to a total of nine hits, or an average of 2½ hits to a game. Eddie never served a minute in the minors. He went straight from Gettysburg College to Connie Mack's Athletics in 1901. He served with Mack continually until 1914. At the close of that season he jumped to the Federal League and spent the season of 1915 with the outlaws, but peace terms saw him restored to the ranks of organized baseball this year as a member of the St. Louis Browns.

Mr. and Mrs. Harry Creager and children spent Sunday with Mr. Charles Deberry, Detour.

Mrs. Samuel Boller is building a new barn.

Miss Gertrude Boone, of Baltimore, is visiting Mrs. William Cramer.

The Grubbers picnic at Apples Church on Tuesday the 19th inst. was as successful as industry and enthusiasm could make it. The cemetery was cleared root and branch of superfluous growth of all kinds.

After grubbing with scythe, mattock, and stump pullers, (mules) the men of the Congregation turned their attention and energy to grubbing in the usual picnic way, as the ladies had prepared a table laden with good things, (ice-cream recurring at frequent intervals.) The weather was ideal and the work was accomplished in a spirit of cooperation and good humor.

Let us hope that the old tradition which says that things cut down on the 29th of Aug., (the date commemorating the beheading of St. John the Baptist,) will not grow again, will not prove true; as all present there would like to look forward to another meeting next year on the same date, with the same results.

NEWS FROM THE TRACT

Miss Emma Shorb celebrated her 17th birthday last Thursday. She was given a handkerchief shower by her friends. She received sixty-one handkerchiefs. She was also the recipient of a postal shower and a sum of money.

Mrs. Edward Oden visited her mother Mrs. Ellen Welty in Baltimore last week for several days.

WOMEN GIVE OUT.

Housework is hard enough when healthy. Every woman who is having backache, blue and nervous spells, dizzy headaches or kidney or bladder troubles, should be glad to heed this woman's experience:

Mrs. Emma Harmon, Ninth & B Sts., New York Hill, Brunswick, Md., says: "My kidneys were in such bad shape that I was ordered to go to the hospital. Often, I was so dizzy that I had to have someone lead me. My back pained me, particularly at night and I felt all worn-out in the morning. I had a poor appetite. Physicians didn't give me the least relief. Doan's Kidney Pills however, restored me to good health, removing the pains and increasing my weight from 110 pounds to 165 pounds. I am now strong and well and give Doan's Kidney Pills the credit."

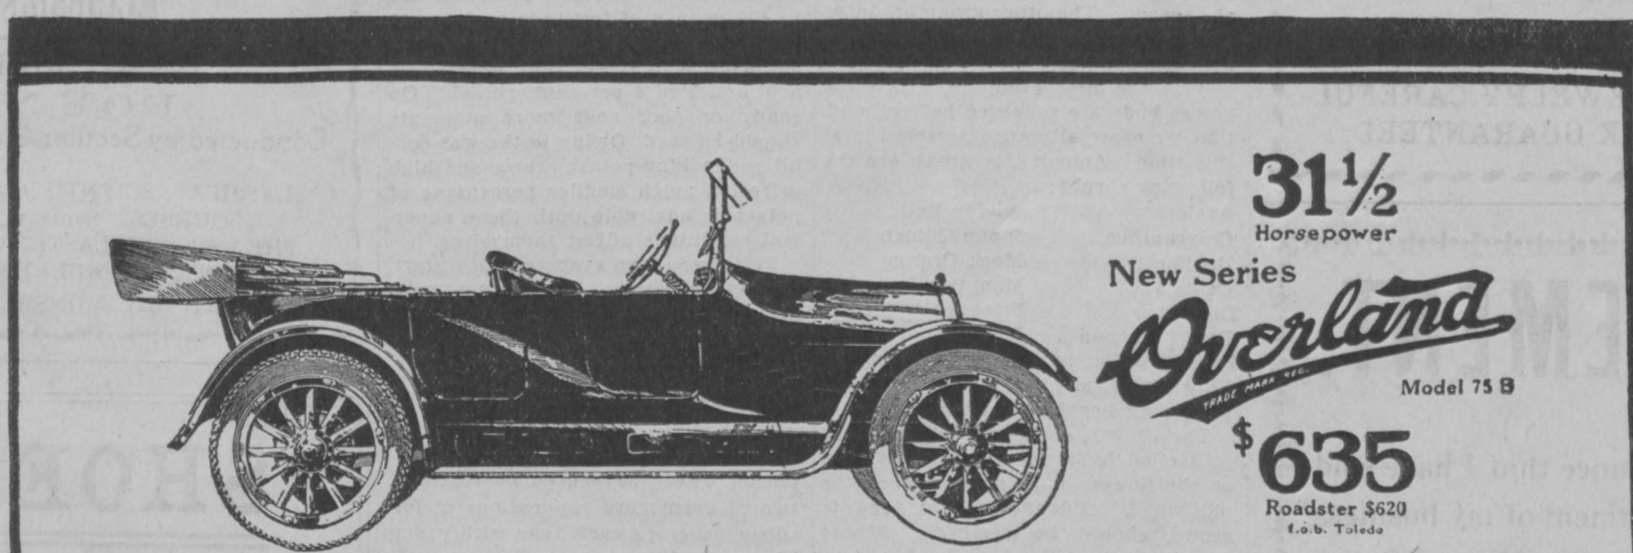

Price 50c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mrs. Harmon had. Foster-Milburn Co., Prop., Buffalo, N. Y. Advertisement.

Daniel Costello to Retire.

Word comes from Pittsburgh that Dan Costello, utility outfielder of the Pittsburgh National League Club has been released to the Toronto Club of the International League. Costello is said to have stated that he would not report to Toronto but would retire from baseball. It will be remembered that Costello was formerly one of the hard-hitting members of Mt. St. Mary's nine. He is an alumnus of the Mountain and has many friends in Emmitsburg.

**HOW TO SECURE
A GOOD STAND**
Proper Seeding Of Crimson Clover
Is Essential To Successful
Production.

NICKOLAS SCHMITZ
Maryland Agricultural Experiment
Station.

The lack of rain in late summer and early fall is responsible for many failures of crimson clover, because the young seedlings are very easily killed by lack of moisture or hot sunshine. The seedbed, then, should be firm, moist and finely pulverized. Where sown in cultivated crops, such as corn and tomatoes, the cultivation necessary for these crops is usually sufficient for the clover; where following small grain the stubble should be plowed down as soon after harvest as possible, and the land well worked-up. Then, after one or two good rains and a light surface-working, the field is ready for crimson clover seeding.

Of late years, preparing stubble land for crimson clover by disking thoroughly has been practiced, and under favorable conditions has given good results. This saves labor, but can not be recommended for hard clay soils.

Method Of Seeding.

The seed may be broadcasted by hand, or sown with one of the broadcasting machines found on the market, of which the wheel-barrow seeder is about the most satisfactory. In cultivated crops the seed may also be sown with one of the special single row horse-seeders, made for seeding intertilled crops; but, generally, the machine is best.

When sown in corn a rotary hand-seeder may be used on horse-back. This seeder should be supported a foot or so above the saddle horn, and the horse's ears covered to prevent the seed entering.

Time And Rate Of Seeding.

It is best to seed some time between the middle of July and the middle of September. Along the water-fronts in Southern Maryland and in the southern part of the Eastern Shore it may be safe to sow as late as the middle of September or a little later, but by far the best results are obtained if seeded a month or six weeks earlier. In the northern part of the Eastern Shore and in the crimson clover section of Harford, Baltimore, Howard and Montgomery counties, it should not be seeded later than September 1st, and preferably 4 or 5 weeks earlier. In Carroll county and in almost all of the lower altitudes of Frederick and Washington counties and in the Mountain Section it is seldom safe to sow after August 25th, and it may be seeded as early as July 15th.

The most common rate of seeding is 15 pounds per acre. A few use 20 pounds, while others use only 12 pounds per acre. If the weather and soil conditions are just right, 12 pounds is enough.

SHRUBS FOR HOME GROUNDS.

B. W. ANSPON

Maryland State College Of Agriculture.

According to their flowering habit, shrubs are divided into two groups. One group of shrubs produces flowers from buds that were formed the previous season. The other group produces flowers from buds that are formed on the new wood of the current season.

It is the first group in which the flower buds are prepared before hand, that we especially are interested in at this time. Among this group are the following shrubs:

Azaleas	Golden Bell
Calycanthus	Japan Quince
Daphne	Mock Orange
Deutzias	Mountain Laurel
Dogwoods	Privets
Dwarf Almond	Rhododendrons
Flowering Currant	Spiraeas (Spring)
Flowering Crab	(Flowering)
Flowering Peach	Viburnums

The growth of these shrubs can be controlled by pruning now. As soon as the flowers fade, shorten back the old wood. Old shoots that tend to crowd should be removed. Those growing out of the bounds should be cut back to conform to the general outline of the plant. By this method of pruning, strong shoots will develop, on which the flower-buds for the ensuing year will form. Where the growth of such shoots becomes too vigorous, pinch them back.

On Rhododendrons and Azaleas cut out the old flower heads as soon as they fade.

Climbing roses need little pruning save cutting off the flower clusters after they are through flowering.

Evergreen trees, to develop into good specimens, should have the lowest limbs extending the greatest distance out from the trunks. When upper limbs are allowed to grow out beyond the lower limbs, serious injury results. The longer branches will shade the lower and also throw off the rain from them. Soon the lower limbs will drop their needles or leaves and die. All upper branches that extend beyond the lower limbs should be cut back until they are shorter than the ones directly beneath them. Always cut back to a strong bud, so as to leave no stub. Pinching out the terminal bud will check growth in that direction, when the branch tends to grow in that direction.

VITAL WHEAT NEEDS WILL BRING SUCCESS

Leaving Undone Any One of Four
Necessary Steps Means
Partial Failure.

If there are four essential and necessary steps in growing a crop, and we follow three and neglect one, often we might just as well have omitted the three since a poor crop is certain to follow. Whoever uses good seed, prepares a fine, firm seed bed, uses lime, but neglects to supply wheat with available plant food in sufficient quantities will not harvest the largest number of bushels of best quality wheat.

You cannot grow strong, sturdy wheat plants from a sluggish start. The tiny plants need assistance from germination to maturity. The roots take up in solution ammonia, phosphoric acid and potash. These plant-food elements are found in the soil, being gradually available to the crop; the deficiency of plant food is supplied through fertilizers. They are carried to the growing leaves, and under the action of sunlight, are manufactured into plant cell material that makes plant growth. Ammonia is the food that helps baby plants by giving them a dark green color and producing stalk growth. Plenty of available ammonia in the fertilizer gives the young plants a running start.

Harris in Cornell University Bulletin 352 states:

"The number of kernels of wheat per pot increased with the fertilizer."

Filling the Kernels.

Wheat is grown primarily for the grain. Phosphoric acid is the plant food that is most intimately concerned with forming and filling the kernels. Late in June or early in July, the tiny wheat flowers open and become fertile and the new wheat berries begin to develop. The time between the flowers becoming fertile and the complete filling of the kernels is very short—not over ten days or two weeks in most cases. As the kernel contains 75 per cent. of the phosphoric acid of the plant, this plant food ingredient plays a very important part in filling the kernel and making the crop.

Thatcher holds that the relative protein content of grain is determined chiefly, if not wholly, by the rapidity of ripening of the kernel. Thus it is easily seen that the amount of phosphoric acid available for plant food at this time may determine the quality and yield of the crop.

Strengthening Straw.

The third essential plant food, potash, gives strength to the straw, assists in the transportation and laying down of the starch in the kernel and along with phosphoric acid plumps the grain. If the kernels are shriveled or small, the straw weak and inclined to lodge, more potash should be applied in the fertilizer. Available ammonia, phosphoric acid and potash are the three plant foods applied in fertilizers. They cause plant or stalk growth, form heavy, plump kernels, hasten maturity and make strong straw, insure good clover catches and quality wheat. Fertilizers should be selected of such an analysis as will make up for the deficiencies of the available plant food in the soil and supply the special needs of the wheat under various farm conditions. Best results will be secured by using 200 to 400 pounds of fertilizer on loam or clay soils analyzing 2 to 4 per cent. ammonia, 8 to 12 per cent. phosphoric acid and 2 to 4 per cent. potash. On sandy or poor soils more ammonia should be used. Owing to the war conditions making potash scarce and high priced, a much smaller percentage of potash is advisable until these abnormal conditions adjust themselves.

Fertilizers give crops a quick start, strengthen straw, hasten maturity, better the quality and increase yields and profits.

Feed Vegetables Several Times

For years hundreds of successful truck-growers have been making one, two or even more applications of fertilizer on crops each year with profit. The method gains favor because it is a money-maker. Sweet corn, beans, cabbage, tomatoes and a host of other crops benefit greatly by this practice. Apply with a cultivator attachment, five-hole grain drill or fertilizer bugle. If crops are slow in starting use a fertilizer containing more than 1 to 2 per cent ammonia. To hasten maturity and to improve quality, use a fertilizer containing 8 to 12 per cent phosphoric acid. If soil is muck, or if for a root crop, apply a fertilizer containing more than 2 per cent potash.

Applying Fertilizers On Wheat

1. Apply all the fertilizer through the fertilizer attachment of the grain drill at seeding time.

2. If you have no drill with fertilizer attachment apply all through broadcast lime and fertilizer distributor.

Be sure to work the fertilizer into the soil thoroughly before sowing wheat.
