MR. BRYAN'S REPLY TO MR. HUGHES.—SHOWS UP DOCUMENT

Calls Attention to Governor's Recognition of Political Obligations, at Which He Did Not "Hang His Head."

"Now that you have arrived and are acquainting yourself with the situation, can you let me know what positions you have at your disposal with which to reward deserving Democrats? I do not know to what extent the knowledge of the Spanish language is necessary for employees. Let me know what is requisite, together with the salary, and when appointments are likely to be made."

The above is the letter which I wrote to Mr. Vick, the receiver of customs at San Domingo. Read it carefully. Scan every sentence, examine each word, each syllable. Mr. Hughes, once governor of New York, afterwards justice of the supreme court and now Republican candidate for president, thinks it important enough to quote in his campaign speeches. He is so indignant, so mortified, that he asks: "Should not every American hang his head in shame that such a thing should occur in our highest department of government?"

I, alone, am responsible for that letter and I am not ashamed of it. Attention is called to it that I may expose the desperation of the man who has sought to use it as a means of advancing himself politically. The letter was written to an appointive officer, whose office WAS NOT UNDER THE CIVIL SERVICE, and the inquiry was made in regard to offices which WERE NOT UNDER THE CIVIL SERVICE.

There was nothing in the letter to indicate a desire or intention to select men who were incompetent. On the contrary, inquiry is made as to "what is requisite." By what logic does Mr. Hughes reach the conclusion that "every American should hang his head in shame" because a Democratic Secretary of State expressed an interest in the ap-

FROM THE COUNTY.

Plans to keep close tab on the appropriation for school purposes during the year were given out by Superintendent of Frederick County Schools, G. Lloyd Palmer. The expenses of the office from August 1 to October 4, according to the financial report made to the school commissioners at the Wednesday meeting were \$3,383.21.

Marking the reopening of St. John's Reformed Church, of Creagerstown, Rev. P. E. Heimer, Ph. D., pastor which has been closed during the summer months for the purpose of undergoing extensive improvements, rededication services have been outlined which will extend for a week. The rededication proper took place Sunday morning. St. John's church is the oldest in this section of the State. The services, therefore, are historic events of more than usual interest to the community. The church was organized in 1747, 169 years ago, by Rev. Michael Schlatter, first Reformed Missionary to this country and was located on the banks of the Monocacy. The plan to remodel the edifice was discussed for years and finally the congregation decided to have the work done. The improvements have now been completed and the building has been made an attractive and modern one.

Among the prominent visitors who will attend the great Frederick fair next week will be Governor Emerson C. Harrington and State Treasurer John M. Dennis. They will be guests of honor on Wednesday. It is expected that Congressman David J. Lewis, the Democratic candidate for U. S. Senator, Dr. Joseph Irwin France, the Republican candidate for Senator and Frederick N. Zihlman, the Republican candidate for Congress will be among the out-of-town visitors during the week.

Complications developed Monday in the plan to abolish the four grade crossings of the Western Maryland Railroad by the construction of a five-mile road from Thurmont to Deerfield. Charles Brown, the owner of considerable property in the section through which the railroad extends, has offered a 30-foot right of way free of charge, but with the condition that he retain the title. The railroad balked at this condition. Officials of the traction company desired Brown to convey title of the property either to the railroad company or the county.

Then Brown refused, saying that he did not see that it was necessary for him to permit the title to his property to leave his estate. The railroad company contends that such a plan would be safe during Brown's lifetime but at his death complications might result. Efforts are being made to adjust the differences.

Miss Mary A. McCardell, the eldest daughter of Mr. and Mrs. A. C. McCardell, was married Monday evening at 6 o'clock at her home in the McCardell apartments, Frederick, to Raymond P. Norton, of Washington. Rev. Henri L. G. Kieffer, pastor of the Evangelical Reformed Church, Frederick, performed the ceremony.

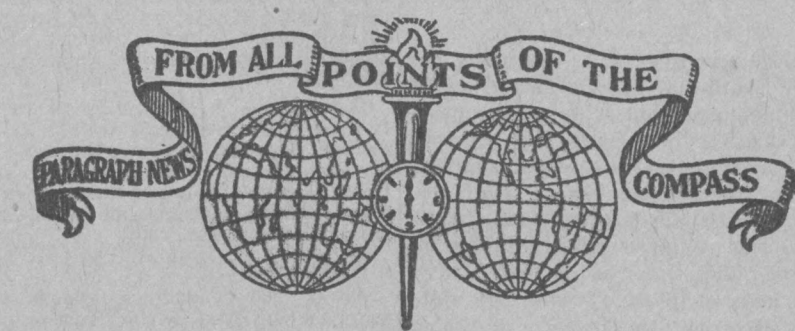

Daniel LeRoy Shook, of near Lewis town, and Miss Mary Ellen Davis, of near Thurmont, were quietly married on Thursday last at the home of the groom's aunt, Miss Hannah Shook, near the City Hospital, Frederick, by Rev. Dr. Thomas Freeman Dixon, of the Presbyterian church. Following the ceremony, Mr. and Mrs. Shook left for Lancaster, Ohio, where they will reside.

Bringing to a climax one of the greatest school controversies in the history of the public school system of Frederick county, Prof. Amon Burgee, deposed principal of the Frederick Boys' High School, has given to the press a statement of his side of the case. Since the Court has now disposed of his suit for reinstatement, Prof. Burgee states that no wrong motives can be ascribed to this public expression.

In the course of his article, the writer takes occasion to give some "hot shots" to the School Superintendent, one or two Commissioners and also a few of the teachers, for whose appointment he disclaims any credit.

Prof. Burgee expresses appreciation for all the "sympathy, loyalty and support in my persecution," and explains at the outset that while one may dislike publicity there are times when it becomes necessary to appear in print, "that the public mind, disturbed by malicious inferences and innuendoes, designedly made, may be set right, and that wrong and injustice may be exposed to public gaze and thus revert the more quickly upon the heads of those who would perpetrate them."

Candidate Hughes loosed his heaviest battery of assault on the Adamson eight-hour law at Newark, N. J., in the speech inaugurating his third campaign trip. Without using names, he ironically paraphrased "do not run away and dream that you will have courage in a future day" in referring to what he said was the Democratic administration's "capitulation" and "humiliating surrender to 'duress.'"

Maryland quarantine laws for infantile paralysis are still in force and travelers to this state from Pennsylvania who are of the opinion that the ban has been lifted, as it was in Pennsylvania, are put to considerable inconvenience through not having health certificates. It has been reported that the State authorities of Maryland will establish patrols at the various highways leading into the state, within the next few days. This would mean that the traffic over the Emmitsburg and Taneytown roads, as well as other highways from this section into Maryland would have to undergo the same inspection that was made when the Pennsylvania quarantine law was effective.

CHARGE OF SECTIONALISM IN COMMITTEES REFUTED

Two-Thirds of the Membership of The House and Senate of Present Congress Not From Southern States.

Charles E. Hughes invokes the sectional bigotry of reconstruction days by charging that Congress is controlled by the South and that its legislation is sectional.

This charge is refuted by the following facts:

Two-thirds of the members of the House and Senate committees of the present Congress are from the North, East, West and border States, and not from the South.

For example, on the House Appropriations committee (which, by the way, has a Northern chairman) the South has 7 of the 21 members; while Massachusetts and Illinois have two each.

On the House Ways and Means committee, the South has only 6 of the 22 members; Pennsylvania, Ohio and New York having two each, or as many as the 13 Southern States combined.

Of the House committee on Agriculture, the South has 6 of the 21; Iowa and Illinois having two each, and with Kansas, Minnesota, Wisconsin, and North Dakota, the upper Mississippi Valley has more members than the South.

Of the House Banking and Currency committee, the South has 6 of 20 members; Minnesota, New York and Pennsylvania having two each, or as many as the South.

Of the House committee on Foreign Affairs, the South has 7 of the 21; New York having 3, and Illinois and Pennsylvania two each.

Of the House committee on Interstate and Foreign Commerce, the South has only 5 of the 21; Michigan and New York having two each.

In the Senate, the North and West have not only a committee membership plurality but a committee chairmanship majority.

Among the chairmanships held by Northern and Western Senators are

Men who think they can't smoke a pipe or roll a cigarette can smoke and will smoke if they use Prince Albert. And smokers who have not yet given P. Because of Prohibition in West Virginia this Taxpayer's Taxes for State, County and City Increased **63 PER CENT INCREASE** From \$4,483.80 to \$7,508.00

The Prohibitionists claim that Prohibition removes the necessity of a large percentage of police protection and is an effective remedy for poverty. In Huntington---
Prohibition INCREASED Police Costs 62.6 Per Cent.
Prohibition INCREASED Maintenance of Poor 65 Per Cent.
Prohibition is inherently wrong in theory, depriving the citizen of his Personal Liberty, and is vicious in practice.

Note particularly---the **increase** in County and State Taxes---also the **increased** Police Cost and Cost for Caring for the Poor.

VOTE AGAINST PROHIBITION

---and be sure that Emmitsburg and Frederick County do not become victims of the same conditions under which Huntington is struggling.

FREDERICK COUNTY.

Frederick is next to the largest of the counties of Maryland. In population and wealth it ranks next to Baltimore county. In the fertility and productiveness of its lands it ranks among the first in the Union, and especially in the production of wheat. The area of this great county is 633 square miles. The great body of the people are of German, English and Scotch-Irish descent, the progeny mostly of the early settlers. The land is mostly of fine limestone quality, and the greater part of the county is a valley of rolling lands lying between the Lingular Hills and the Catoc-tin Mountain. This splendid valley is drained by the Monocacy river, and is one of the best farmed and most highly improved and productive areas of the Union. The great crops are wheat and corn.—*Maryland Manual issued by Board of Public Works.*

EMMITSBURG.

In all Western Maryland—the beauty spot and the garden spot of the State—there is no town more attractive than Emmitsburg.

No people are more wide-awake, more knowable, more courteous to strangers than Emmitsburgians.

The location of Emmitsburg is ideal; the surrounding scenery is unmatched; the climate is notably healthful; its water—pure mountain spring water—cannot be surpassed. It is within easy access of Baltimore, Hagerstown, Frederick; eight miles from the National Battlefield at Gettysburg, near to the Mountain Resorts, and is surrounded by fertile farms and productive orchards.

Mount Saint Mary's College and Ecclesiastical Seminary—with an enviable reputation extending over 108 years—is located here; St. Joseph's College and Academy for young ladies—equally as noted during its 107 years of splendid achievement—is also here.

There are excellent Schools—Public and Parochial—in Emmitsburg; two sound Banks, five Churches, a live Newspaper, modern Hotel accommodations, adequate Fire Department, progressive merchants, splendid physicians, good liverys, auto garages, many fraternal organizations, good railroad accommodations. There are four or five mails a day, telegraph, express and telephone service connecting all points; electric light and power, oiled streets.

There is business to be had in Emmitsburg; there are Factory Sites available. If you contemplate changing your place of residence—come to Emmitsburg, Frederick County, Md.

AVERTING THE STRIKE.

While the Eight-Hour law is being attacked by Mr. Hughes it is worth while to again consider the enormous catastrophe that would have happened had not the railway strike been averted in just the manner it was averted and just at the time.

Look at it from the viewpoint of the farmer, for instance. His position is well set forth as follows:

A nation-wide railway strike would have paralyzed every American industry and precipitated a panic, such as has never been witnessed in the history of this country.

Millions of contented and well-employed laborers would have faced enforced idleness; poverty and destitution would have come to millions of working men's homes. The working man's power to buy food products depends upon his daily wage. Stop his wage and his consuming power is limited by the bare necessities of life. Upon the working man's power to buy depends the farmer's opportunities of sale.

The farmer provides the necessities of life for America's millions and multiplied millions over-seas. A strike would have disorganized the farmer's market, destroyed and wasted the product of his toil and would have brought him face to face with an economic condition from which he could not have recovered for years.

No class of the American people stood the chance of losing so much from a strike as the farmer. A single week of inactivity in the operation of freight and express service would have paralyzed his market for a month or more. Coming at the time of marketing of perishable fall fruits and vegetables, his loss from this source alone would have run into the millions. The demoralization of his market would have opened opportunity for juggling in the grain exchanges and commission centers,—an opportunity which crafty speculators would have speedily seized,—and multiplied millions would have been taken from the hard-earned profits of the producer.

The peach crop with a value of about \$55,000,000, would have been practically a total loss, had the President not induced Congress to act.

The \$200,000,000 apple crop would have been shrunken by inability to get to storage and disorganization of the market to the tune of at least \$100,000,000.

The potato crop of a value of about \$220,000,000 would have involved a further loss of at least \$50,000,000.

The cabbage farmer of Northern Ohio, the grower of tomatoes for the canneries, and the celery grower of Michigan and Florida would have kept mournful company.

Melons from Colorado, California, Arizona and Delaware, grapes from the vine-clad hills of western New York, and the sunny slopes of Yakima and Wenatchee, prunes, pickles, poultry, butter and eggs would have gone down in the common cataclysm.

As to the effect of the strike on manufacturing enterprises—just one branch of them—Henry Ford's telegram to the President speaks for itself:

"The President: The moment it is positively known that a strike will become effective on the railroads, the Ford Motor Company will of absolute necessity shut down its factory and all of its assembly plants throughout the country, and every man of its more than 49,000 workers will have to go off the pay roll.

"Our business is so organized that the supplies and products must be kept moving constantly. We cannot move a day without railroad service. We are making 2,200 cars every day. The materials must be moved in and cars out. I sincerely hope something can be done to avert the strike. Your efforts are appreciated and should be commended by every citizen in the country.—HENRY FORD."

And here is an interesting point to consider with reference to the passage of the law to avert this strike:

Sixty-nine Republicans in the House out of 125 present and voting, voted for the Eight-Hour Law. At three separate times it might have been killed by a single objection to consideration by a Republican Senator.

A PRETTY GOOD LEADER.

The president of a nation is, by consent of the people, the nation's leader. The people look to him for initiative. He must create policies that are needed. Also he must not only detect policies that are wrong; he must attack them, and defeat them. Naturally then, he must show wherein bad policies are bad and

he must also suggest the specific remedy.

Says candidate Hughes: "Some people think I should say what I shall do to stop the practices that I am attacking. I have frankly replied that I don't know." And yet Mr. Hughes would be a leader, would be president.

Mr. Wilson specifically told what new legislation was needed and what existing practices should be stopped. He told exactly how he would accomplish this, and when he was elected he did accomplish it.

Mr. Wilson is a pretty good leader.

JUDGE Hughes, it is understood, is to make a "paramount issue" of the eight-hour law and the alleged sectionalism of the administration. If this is so he is courting an adverse verdict. The sentiment of the people is for justice to railroad employees, and against the un-American attempt to rewave the "bloody shirt."

Mr. Wilson needs no "paramount issue." He and the administration need to point only to their programme of actual performance—a real record of constructive accomplishment.

LET us ask you, Mr. Hughes have you no constructive views? Vainly have we sought to find aught constructive from your mind. Naught we gather from your song but "all that Wilson's done is wrong." When you're asked to name your plan—different from the other man—all you do non-plussed, afraid, is glibly generalize, evade.

CUST OF THOUGHTLESSNESS.

It is mere thoughtlessness on your part, of course, that you do not renew your subscription to THE WEEKLY CHRONICLE without being reminded to do so by a bill or letter from this office.

But that mere thoughtlessness means a very considerable expense to THE CHRONICLE. The postage on bills and return envelopes—sometimes it requires several reminders to one person—and on receipts, amounts to a not inconsiderable sum.

It is easy to see, if THE WEEKLY CHRONICLE could eliminate that big expense, it would never be necessary to increase the cost of the paper to the subscribers, even though the unheard-of high prices, and the unsettled situation as to the future of white paper is causing newspaper men everywhere to order big decreases in operating expenses, and big increases in the subscription price of their papers.

THE WEEKLY CHRONICLE cannot eliminate this cost without your co-operation, because it is your cost. It would be wholly unnecessary to spend one cent for reminding you to renew your paper if you would send in your renewal before the date of the expiration of your paper.

Will you not try to co-operate with us in keeping down the subscription price for everybody, by sending in your personal renewal now, regardless of when your time expires, so that THE WEEKLY CHRONICLE may know how many of its readers are willing to help in this movement. Many of them already have renewed, for which response to its suggestion for co-operation, THE WEEKLY CHRONICLE feels deeply gratified. ks.

State Sunday School Convention.

Several hundred active workers in the Sunday School are expected at the State Sunday-school Convention, to meet in the Lutheran and Methodist Protestant Church of Westminster, Monday to Wednesday, October 16-18. Mr. W. C. Pearce of Chicago will be the principal speaker, with the usual strong array of other speakers representing all phases of modern Sunday-school work. A notable feature will be the convention supper of Tuesday night with short speeches from adult class leaders. The new General Secretary, Rev. E. Morris Fergusson, D. D., will make several addresses. The Maryland Sunday School Association, Fidelity Building, Baltimore, is sending out information to the delegates. A similar convention is to meet on the Eastern Shore, at Denton, October 18-20.

New York pays its mayor a salary of \$15,000 a year.

ACROSS THE LINE

Last Thursday marked the 37th anniversary of the founding of the Carlisle Indian School. There were informal exercises at the institution including a drill by the student battalion, a band concert and literary program by the school societies were held Thursday evening.

The smallest public school in the State, having only two pupils, which is located near York Haven, Pa., is begging for the services of a teacher. The schoolhouse is located on Three-Mile Island, in the Susquehanna river, across from Cly. The island has two farms, but only one of the families have children old enough to attend school.

Dr. Henry Frantz, Waynesboro, died last Friday at the Reformed Mennonite Home, Lancaster. He practiced in Waynesboro until ill health caused him to retire.

Excitement at a baseball game proved fatal to James A. Hill, a veteran of the Civil War. He died Saturday in the York Hospital, York, Pa. Mr. Hill was an ardent fan, and the thrill of a close play on the Moose baseball diamond brought on an attack of epilepsy. Hill was 76 years old. During the Civil War he served with Gen. Benjamin F. Butler.

The Rev. John J. Hill, pastor, rededicated St. John's Lutheran Sunday school room, Littlestown, Sunday morning. The room has recently been frescoed and refurnished with hard wood floors. This service immediately followed the Rally Day exercises by the Sunday school at which time an address was delivered by Professor Roy D. Knouse, before a large audience.

Analyses by Harrisburg bacteriologists have shown that ice cream made from cream furnished by six supply houses in that city contain the dangerous colon bacilli. Of 61 samples of ice cream examined during the month only nine were found to be free from the bacilli.

Lincoln Highway travelers arriving from the West report the appearance of fine, new enameled control station signs, located in some prominent position in each of the cities and towns along the Highway. The new signs are a great aid to the motorists as they establish a definite point from which the traveler may check his mileage in going from one town to another on the Lincoln Highway.

Several thousand delegates attended the fifty fourth annual convention of the Pennsylvania State Sunday School Association, which opened in York Tuesday. The sessions were held in Biederwolf Tabernacle.

Five persons, all residents of Glen Rock, York county, were injured, when an automobile owned and driven by Howard Rohrbaugh, turned turtle along the Chambersburg pike about three miles west of Cashtown. The automobiles of Rohrbaugh and D. O. Alday, Chambersburg, figured in the accident. Rohrbaugh, claims Alday attempted to pass him on the right and forced him over to the opposite side, where he struck a stone that threw him off the road. None of the occupants were seriously injured.

Before the first of the new year York's new street lighting system will be put into operation. The new lamps are of the nitrogen filled, incandescent type. The fixtures that will contain the new lamps and a compensator or small transformer which provides for the use of a more powerful lamp in the future, should it be deemed necessary are of a new type, especially designed by the engineering department of the York lighting company and of the General Electric company.

Amy Lawrence Succumbs to Dreaded Disease.

Miss Amy Philomena Lawrence, daughter of Mr. and Mrs. Paul Lawrence, McSherrystown, who contracted infantile paralysis Friday evening, September 29th, died at noon last Thursday, aged 8 years, 11 months and 2 days. She had been ill for five days.

The little girl was the first victim of the disease recorded in Adams county. Where the child contracted the disease is unknown, as neither she nor her parents have been in any of the affected districts, nor had they been in contact with persons from any of those sections. The deceased was a grandchild of Mr. and Mrs. P. D. Lawrence, of Emmitsburg. Besides her parents she is survived by three brothers, Richard, Philip and a baby brother.

The remains were taken to Conewago Chapel, early last Friday morning, where interment was made privately.

"A Regular Visitor and a Very Welcome One Too."

From a much esteemed friend of THE CHRONICLE in Chicago comes this gracious and much appreciated letter:

"It always affords me pleasure to forward my annual subscription to the CHRONICLE, because I know it will then be a regular visitor, and a very welcome one too, for another year.

"The people of Emmitsburg are to be congratulated that they have this progressive paper back of them, for I observe that you stand always, for the progress of the town and community.

"The next best thing we could wish would be to have the CHRONICLE come semi-weekly."

TERRACE TALK.

The annual retreat for the students will begin on Wednesday next and continue until the following Sunday.

Considerable enthusiasm has been manifested the past week over the result of the world's series games with the majority of the students favoring Boston.

The first "movies" of the college year were exhibited in the gymnasium on Wednesday last and were highly appreciated by the student body.

Royer, a strong candidate for the backfield position on the football team had the misfortune to fracture one of the bones of his ankle last week. Summa, a candidate for a position on the line is also suffering from an injury to his collarbone.

The mountain team made a very impressive showing at the Hopkins game on Saturday despite the size of the score tallied against them. Bad fumbles and blocked kicks were directly responsible for three of the touchdowns made by the opponents. All these defects can be remedied in a short time and it is a safe bet to state that some lively and winning football will be shown before the end of the season by M. S. M's eleven.

Miss Margaret Shaugenessy of St. John's Academy has been appointed chairman of the credentials committee.

VALLEY ECHOES.

Last Sunday the Misses Rosa and Mary Rogers of Frederick, Md., motored to St. Joseph's remaining only for a few hours but promising to return for a more extended visit in the near future.

Rev. P. A. Coad, A. M., of Mt. St. Mary's College, will lecture to the senior class during this scholastic year, the subject as outlined on Tuesday, October tenth was The Formation of Literary Taste.

Mrs. Alice Smith Cunningham, '10 and her little son Francis are spending a few weeks within the shadows of St. Joseph's; Mrs. Cunningham is a loyal alumna and frequently returns to visit her alma mater.

One of the many delightful socials of last week was that at which Miss Concia Ruiz was hostess. Her friends spent an enjoyable evening at dancing and games after which the usual refreshments were served.

It will be gratifying to the many friends of Miss Mary Donahue, A. B., of Shamokin, Pa., to learn that she is now teaching in Marion Heights, Pa., and has already proved herself a successful pedagogue.

Rev. Heinrich Schummacher, S. T. D. of the Catholic University, Washington, D. C., celebrated the eight o'clock Mass last Sunday and delivered an eloquent sermon on the Holy Rosary; the climax of the morning still lingers in the students' minds: Happiness is the fruit of sacrifice.

Professor John W. Rauth, A. B., of Mt. St. Mary's resumed his classes at S. J. C. on the first of October. Chemistry, Physics and Biology have for many years been the center of attraction for the scientific students of the Valley—so we feel assured that the young scientists enter the laboratory this year with their usual curiosity and enthusiasm.

Last Thursday a highly artistic musical and dramatic recital was given by Miss Lydia Stirling Flintham, B. E., B. L., Reader and Miss Elizabeth Gallagher, Harp Soloist. The audience was one in affirming the afternoon the best of Miss Flintham's annual contributions to the pleasures of the Valley.

The first Sunday of October witnessed the election of officers in the societies of the Children of Mary and the Sacred Heart League. Miss Major Miller '16 was unanimously elected President of the Sodality; Miss Kathryn Gloninger '17 Vice President; the presidency of the League was bestowed upon Miss Catharine Mahoney '16 and the vice presidency upon Miss Margaret Cain, '19.

At the first meeting of the Tau Sigma Sigma held this session the following officers were elected: Miss Ruth Pattison, President; Miss Major Miller, Vice President; Miss Nan Gable, Secretary; Miss Alice Barry, Treasurer. The names of several new girls were presented for membership and the nominations ratified by the sorority. The T. S. S. was organized last year and has been a potent factor in the promoting of college spirit.

Among the names on the register during the past two weeks we read: Mrs. E. McDonald, Mrs. Thomas McDonald, the Misses Marie and Teresa McDonald, Kansas City, Mo.; Mr. Albert Linthicum, Ellicott City, Md.; Mr. Roger Smith, Miss Florence Smith, McSherrystown, Pa.; the Miss Catherine and Ethel Cole; Dr. Samuel Rigg, Mrs. John A. C.; Mrs. Hay Brown and party, Lancaster, Pa.

Madame Mabel Le Favor Angeloty, of Philadelphia, Pa., gave a highly delightful piano recital to the student body of St. Joseph's in the auditorium of the college. By her artistic rendition of the numbers of the varied program, Madam Angeloty proved herself a pianist of no small ability. Lindling's Dance Orientale and the Andante Finale de Lucia de Lammermoor; Donizetti-Leschetzky seemed more appealing than ever under Madame Angeloty's exquisite management; the superior technique and brilliant power of execution evinced in Liszt's Hungarian Rhapsody No. 11 won for the artist hearty applause.

or the payment of any salaries required
to be paid by the State of Maryland by

Article II of the Constitution an appropria-

Legislature three days before the ex-

time to time, enact such laws, not in-
consistent with this Section, as may be
necessary and proper to carry out its
provisions.Fourth. In the event of any incon-
sistency between any of the provisions
of this Section and any of the other
provisions of the Constitution, the pro-
visions of this Section shall prevail. But
nothing herein shall in any matter af-
fect the provisions of Section 34 of Ar-
ticle III of the Constitution or of any
laws heretofore or hereafter passed in
pursuance thereof, or be construed as
preventing the Governor from calling
extraordinary sessions of the Legisla-
ture, as provided by Section 16 of Ar-
ticle II, or as preventing the Legisla-
ture at such extraordinary sessions from
considering any emergency appropria-
tion or appropriations.If any item of any appropriation bill

and must make provision by tax for

How Catarrh is Contracted.

Mothers are sometimes so thoughtless as to neglect the colds which their children contract. The inflammation of the mucus membrane, at first acute, becomes chronic and the child has chronic catarrh, a disease that is seldom cured and that may prove a life's burden. Many persons who have this loathsome disease will remember having had frequent colds at the time it was contracted. A little forethought, a bottle of Chamberlain's Cough Remedy judiciously used, and all this trouble might have been avoided. Obtainable everywhere. **Advertisement. oct. 6-1mo.

Hog Cholera Breaks Out.

Hog cholera has broken out in Frederick county again and the animals of D. F. Roddy, near Mt. St. Mary's, have suffered badly as the result of the ravages of the disease. As soon as he noticed that some of his hogs were ill Mr. Roddy sent for a veterinarian, but the State has been powerless to check the cholera. Mr. Roddy has lost 42 animals by the disease, and has only a few surviving and remaining on the farm. So far as it is known the disease has not broken out in the pens of any other farmers in that vicinity.

TO THINK ABOUT.

This is a very practical time now with everybody. Every man of sense and prudence wants to know something about expenses as he goes along and items of cost of anything which comes in contact with him, are always interesting. And as this is true in the average life routine, it is likewise true and more so, when men have their attention called to the expense of government. There is as a matter of fact, no sentimental side to government. It is simply a dual proposition in this day—what it really is, and the taxpayers' expense to maintain it. My voting friend in Frederick City—because it is to you I would like to talk to, I want to emphasize what Local Option is going to mean to you in your municipality, if you vote for it on next election day. Do you not know, that it is far more important to you than to any other portion of your great County? Just for a minute, let me call your attention again to this one fact. There are twenty-six Election Districts in Frederick County. TWENTY-TWO OF THEM ARE NOW DRY AND ARE GOING TO STAY DRY, WHICHEVER WAY THE ELECTION GOES. The other four Election Districts are now wet, and have always been. One of these four is your city of Frederick. This coming election will therefore decide decisively one thing, namely, whether twenty-two dry districts which are not and cannot be involved one way or the other as far as results are concerned, shall change your course of community life and government. Or in other words, this coming election means that these twenty-two dry districts shall have an important say about you and your future, and you have no say about them. They can change you entirely—but you cannot affect them. And while they are changing you, they can change the contents of your pocketbook. Let us look at one aspect this situation presents, that directly affects you, my voting friend in Frederick City. In the first place, remember, that you in that town of yours, have two tax bills every year to pay, while your friends in the twenty-two dry districts have only ONE. In addition to your State and County Tax which you settle annually at the Court House, you have almost as large a tax bill to pay at your City Register's Office as you pay to the County Treasurer. Or to put it with still more emphasis, your folks in Frederick have to pay nearly as much again as your taxpaying voting friend in the present dry district pays. Your City tax rate is \$1.10 which with your State and County tax rate of \$1.37 makes a total of \$2.47. Now the man who only pays \$1.37 wants you to take the chance to even pay more than \$2.47. It is worth your while to stop and think before you vote, when you contrast your position in present wet Frederick City with your dry voting friends in Frederick County. Now is there a chance that your present \$2.47 rate will be increased? I say yes, and I am going to give you just one item to think about. This is the item of revenue received annually by your city from liquor licenses, and which when first brought into being, was intended to be applied to your City Streets. It is the item which amounts to nearly FIVE THOUSAND DOLLARS EVERY YEAR which if Local Option comes to Frederick City through the votes of the rural dry districts in the County will be taken out of the receipts of Frederick City. When once taken out who is going to replace it? Will your dry friends in Middletown, Brunswick or any other dry community surrounding you make it good? I think not. Will somebody have to make it good—AND THAT SOMEBODY WILL BE YOU. You, my City voting friend, have to look after your streets. You build them, repair and maintain them and all your dry County friend does is use them. He helps to wear them out, but he contributes nothing to their maintenance or repair. Now this liquor license revenue item represents six cents nearly in your City tax rate. Wipe it out, and your City Fathers will be compelled to add to your already present abnormally high City rate. Instead of your paying \$1.10 as you now do, you will pay \$1.16 when Local Option comes. Now what are you going to do about it? Sentiment is all right, but it does not nor never will pay your taxes, and in all sincerity, and with the future of your City at stake, I want to raise the danger flag against the increased tax rate train. As a City, you cannot afford to further burden yourselves. Of course, you can do it, but look out—I say look out. But this is not the worst of this matter by any means. AN INCREASED TAX RATE IN FREDERICK CITY MEANS AN INCREASED BURDEN THE POOR RENTER MUST BEAR. Many of you possibly can pay \$1.16 or \$2.16 or \$3.16

for that matter, but your many in the last analysis are few. The great majority of you cannot pay any more. And if you do, be honest with yourselves, and say that you intend to increase the rents of the property you own, on those who occupy it. You are going to make up those six cents somewhere, now aren't you? Who are you going to make it up on? Why on the fellow who pays you six, eight or ten dollars a month rent. You did it back in 1908 and 1909 when your assessments were increased. You had to pay more to the City for government than you did before, and hence, you made those who rented from you, pay more. Many of you only had your taxes increased five or six dollars on an individual property, and you raised the rent a dollar a month, and got twelve dollars increase out of the laborer and toiler. And you will do this same thing again, will you not Mr. Property Owner? Of course you will on the principle—"As I have to pay more, I must get more." Let Local Option come to Frederick City after May 1, 1913, and the rents of the poor are going up, because the City Tax rate must go up. You cannot take a large sum of five thousand dollars out of a general fund when every cent is now needed for general expenses, and especially the necessary expense of streets, and which has been coming in for a long number of years, and then say "I will do business with less money." Frederick City is as well managed a City financially as can be found anywhere. Its money is and has been sensibly expended. It must have a certain amount to do its governmental business with. Take any of it away, and the deficit must be made up. The only way this can be done, is to increase the tax rate. What do you want to do my voting friend in Frederick City, about the matter? It is worth your thinking about, and I hope you will think carefully and wisely. Frederick City's tax rate is high enough now without making it worse than it is. If you want to be as you are now vote wet on Nov. 7. If you want to increase your rents, and shrink your living income, vote dry. It is for you to decide. I trust you will decide it right.

TAX ASSESSORS GIVEN ORDERS

Clerks Instructed to Ignore Frederick County Commissioners in Reassessment. —Board Allowed by Chairman Gorman of Tax Commission to be Present at Conference.

Some 30 listing clerks appointed to carry on the general reassessment for Frederick county were told by Arthur P. Gorman, chairman of the State Tax Commission, Monday morning to ignore all instructions given them by the County Commissioners about a week ago relative to their work, and to carry out to the letter those given by the State Tax Commission.

The entire Board of County Commissioners were present when Chairman Gorman, in explaining the instruction sheets and cards sent out to the listing clerks, said he was ready to receive the resignation of any clerk who refused to obey these orders.

Joseph Martz, of Tuscarora district, who held different views relative to the valuation of property, resigned following the meeting.

Edward H. Rowe and Joseph Rosensteel have been appointed clerks in place of Enoch L. Frizzel and Charles M. Rider, who were named listing clerks by the County Commissioners for Emmitsburg and for Emmitsburg district.

Chairman Gordon instructed the listing clerks to assess all property at a conservative actual value. He said the results of their work would be turned over to Supervisor of Assessments Alfred W. Gaver, after which the county commissioners would have an opportunity to look over the list. He cautioned the clerks that under no conditions would orders from the county commissioners be tolerated.

On September 30 the county commissioners conferred with the listing clerks. Chairman Gorman was in town on that occasion, but was refused admittance to the meeting. It was during this session that the commissioners asked the listing clerks to "keep an eye open" for personal property not on the county tax books.

At Monday's conference Chairman Gorman invited the county commissioners to attend the session.

Does Prohibition Fail To Prohibit?

An audience of fifteen hundred persons including many ladies crowded the big drill shed of the armory at the opening mass meeting of the campaign last Friday night under the auspices of the United Dry Forces. Every chair, about 1200, was occupied and a large crowd stood in the aisles and rear. The gallery was also crowded.

N. F. Kendall, of Grafton, W. Va., as chief speaker quotes facts and figures from dry territory showing conditions existing there now.

Mr. Kendall stated that he did not come to Frederick to repeat what he had heard or read but that he came here to tell of his actual experience under a wet and dry administration in his native State. He branded as absolutely untrue advertisements printed in the Baltimore papers dealing with conditions under a dry administration in West Virginia. On the contrary he said every city in the state had increased its volume of business from 20 to 25 per cent. since prohibition went into effect. He told of the enormous increase in bank deposits during the past eighteen months that the State has been dry and he backed up his assertions with figures obtained after interviews with officials of the State and what he had observed in the bank in which he is cashier and the other institutions with which he is connected.

He said he had read in newspapers that a man could get all the whiskey he wanted in dry Oklahoma. "I do not drink, he said, but I tried for three weeks to get a drink of liquor there and I had

three men to assist me, but was unable to obtain a drop." He said he spent six weeks in Kansas and did not see a drunken man or a man who looked like he had ever taken a drink.

He then took up the situation in West Virginia and dealt with it from a business, labor and taxation viewpoint. He said 3,000,000 more tons of coal were mined in that State during the first dry year than the previous wet year. Miners, he declared, were now carrying home food, clothing and even luxuries where formerly they went home drunk. Sixteen thousand more arrests were made during the last year liquor was sold than the first twelve months under prohibition. In a trip through the State during the last wet year he counted and took note of eight hundred and eighteen men that were drunk. He went over the same territory during the first dry year and saw but one intoxicated man. Criminal expenses have been reduced sixty per cent. he said under prohibition. In Grafton his home town twelve regular policemen assisted at times by extra patrolmen were regularly employed to keep the peace. Since the State has gone dry but two policemen are employed.

Question of Taxes.

He dwelt to considerable length upon the question of taxes. The \$650,000 of liquor revenue was soon made up from other sources he said and the State tax rate

was reduced to 14 cents on the \$100. He has been informed he said that next year the rate will be reduced to 9 cents and that a large surplus will remain over from all expenses. He pointed out that the criminal expenses of the State for the last wet year was \$1,600,000 and he quoted figures showing enormous gains in bank deposits during the first year of prohibition. He said the tax rate in nearly every county in the State had been reduced under a dry administration.

—News Item.

The Hon. Alston G. Dayton, judge of the United States District Court for the Northern District of West Virginia says:

"That prohibition of the liquor traffic in West Virginia is being effectively enforced cannot be questioned. That it has reduced the State's liquor bill from an annual sum of more than \$15,000,000 to less than \$500,000.00 is clear. That it has reduced criminal charges generally at least 15 per cent., and arrests and fines for drunkenness and disorderly conduct fully 75 per cent. in the two years it has been in force in the State cannot be questioned."

Ask Kansas.

From the Central Christian Advocate: The paid liar of the American Liquor Dealers' Association declares that prohibition in Kansas is a failure. That must make it so. But before swallowing his bunk, it might be well to ask Kansas if she finds prohibition a failure. For example, ask the 166 bankers, the 7,000 school teachers, the 700 editors. Ask the president of the Retail Dealers' Association, the president of the State Medical Association, every senator and representative in the legislature. Ask

the 475,000 Kansas voters. Then see if the statement of the paid publicity gentlemen of the American Liquor Dealers' Association doesn't make you sick.

Read This From Georgia.

Mr. Richard H. Edmonds, editor of the Manufacturers Record of Baltimore, received the following telegram, dated Oct. 5, 1916, from the same well-thought-of Mr. White quoted so conspicuously in the liquor crowd's ad. appearing recently:

"My attention has just been called to certain telegrams received by prominent Atlanta citizens appraising them of the fact that whiskey interests in Baltimore are using as advertising matter an excerpt from an article entitled 'A Remarkable Municipal Fight in Georgia' appearing in Leslie's of September 21, as an argument against prohibition.

"As author of article in question, I desire to emphatically protest against any such misuse of it, any such distortion of its contents and misconception of my motives. For any interest seeking argument for an institution for which there is no argument to lift out only a sentence of an article such as this is not fair.

"Personally I am from sole to crown a Prohibitionist and I have observed that in Atlanta and Georgia Prohibition has worked wonders for the public good. Conditions in Atlanta described in this article are due solely, to the best of my light, to political machinations and official mismanagement, and existed to as great extent as now before Georgia went 'dry' last May. In no wise are they due to prohibition law enforcement, and my article did not say nor infer so.

MR. BRYAN'S REPLY TO MR. HUGHES—SHOWS UP DOCUMENT

(Continued from page 1.)

pointment of deserving Democrats to positions NOT UNDER THE CIVIL SERVICE, for which such Democrats were competent? Mr. Hughes had appointments to make when he was governor. Did he give those appointments to deserving Republicans or to undeserving Republicans? If to undeserving Republicans, did his action cause every citizen of New York to "hang his head in shame?" Or, is he so partisan that he regards it entirely proper and patriotic to appoint deserving Republicans and only shameful to appoint deserving Democrats?

Mr. Hughes recognizes political obligations and has shown himself quite prompt in discharging such obligations. When he was a candidate for governor he received the support of the railroads of New York and he generously paid the debt by vetoing the two-cent passenger rate bill. He does not describe that as shameful. When a candidate for governor he received the support of the New York tax dodgers, the owners of "swollen fortunes" and he paid his debt by sending a message to the legislature protesting against the income tax amendment to the federal constitution. He does not describe that as shameful. He is now being supported by the railroads of the United States and he expects to pay them back by aiding them to escape state legislation and find a haven of security in "exclusive federal control" over the railroads; he is being supported by the shipping trust, and expects to pay them back by helping them to prevent government competition; he is supported by the tariff barons and expects to be able to pay them back by enabling them to collect tribute from the consumers, through high tariff rates; he is supported by the trust magnates and expects to pay them back by shielding them from punishment for the extortion which they desire to practice; he is supported by Wall street and expects to pay them back by turning over to them our financial system; he is supported by those who are exploiting Mexico and he expects to pay them back by spending American blood and squandering money raised by taxation, in order to guarantee profits on speculative investments. And yet, with the record which he has made in paying his political obligations at the expense of the public and with the pledges his speeches contain to those who are now aiding his ambitions, he has the impudence to hold up for criticism a legitimate effort to reward competent men for the service which they have rendered in the cause of reform.

When You Take Cold.

With the average man a cold is a serious matter and should not be trifled with, as some of the most dangerous diseases start with a common cold. Take Chamberlain's Cough Remedy and get rid of your cold as quickly as possible. You are not experimenting when you use this remedy, as it has an established reputation. It contains no opium or other narcotic. Obtainable everywhere.

Should Have Enlisted Months Ago.
Benjamin C. Marsh, Executive Secretary of the committee on Real Preparedness says:

"Mr. Hughes can always see the rights of privilege, but never the rights of labor. That is why privilege nominated him at Chicago and is spending millions to deceive and delude the public. Mr. Hughes would conscript workmen to help Hearst, Perkins, Hammond and other holders of concessions in Mexico. If Mr. Hughes really believes 1 per cent. of what he says about Mexico he should have resigned from the Supreme Court six months ago to enlist in the army."

Paralysis Patient Getting Along Satisfactorily.

Miss Mary Hess, the infantile paralysis patient at Harney, has made an uninterrupted recovery from the acute stage of the disease. There has also been some slight improvement in her upper right arm. Everything has been disinfected and Miss Hess will remain out of school for six weeks from date of onset, at the expiration of which time everything will again be disinfected. The attending physician encourages her to expect improvement in the paralyzed arm, however slowly.
