## EXEMPTION IS IMPORTANT

### DON'T FORGET NUMBER

#### Superior Board Court of Last Resort

#### INDUSTRIAL EXEMPTION CRUX

All the Local Boards to Have Complete Set of Blanks For Appeals and Transfers.

All who registered for the draft should make a point of obtaining the numbers assigned them by the local exemption boards. For example, a person who registered in his home district may have been given the number twenty-one; in reviewing the list the local board may have assigned the same person the number 999—the latter number will be the one that will count when the drawing is made.

Officials in Washington are anxious that local boards make it clear everywhere that no question of exemption of any registered man for any other cause than physical disability or dependent relatives can be taken up before the local boards. The whole matter of industrial exemptions is left to the superior boards, one of which has been created in each federal judicial district.

No individual case where exemption is desired because the registrant is engaged in an industry classified as vital to the conduct of the war will be taken up until that individual has been called up for examination by his local board, found to be without dependents and physically fit for military duty, and certified to the superior board. After that application to the superior board for exemption on other grounds will be admissible. The registrant or his employer may file necessary affidavits with the superior board seeking exemption and the case will be heard promptly.

There has been much doubt as to the status of registrants absent from their registration districts. Scores of requests have come from men in this situation, asking if they will have to return to their home towns for examination.

They have been informed that if they are selected for examination each will be notified by mail by his local board and then can apply to the local board for permission to undergo examination in the town where he is located. Such action cannot be taken however, until the the registrant has actually been summoned by his local board.

The government has distributed to all local boards complete sets of blanks to cover appeals, transfers and any other matters in connection with the process. Full instructions for filling out any form of Blank and specific instructions as to the manner in which each is to be used also have been provided. Registrants may examine these at the quarters of local boards, but every effort has been made to prevent the filing of affidavits or other documents that do not apply to a case actually under consideration. Otherwise the boards would be swamped with efforts to get a decision in advance.

It was for this reason that the regulations provided that no man could come up for examination in any way before either local or superior boards until he was actually summoned for military duty.

The greatest confusion has been occasioned by "industrial exemptions." Many persons have regarded it as certain that men in munition-making or other strictly war industries would be exempted as a class. That is not the fact. What is to govern the process is the importance of the individual in such an industry. If another man could take his place without prejudice to the working of the plant, he will not be granted military exemption.

To make this policy effective, the superior, and not the local boards were assigned the task of saying whether or not a man should be retained at his desk or his bench. The bulk of exemptions will be for physical unfitness and on account of dependents, and consideration of these causes will keep the local boards fully occupied, leaving to the more deliberative superior boards the entire handling of the much more vexing questions of industrial exemption.

The largest stationary engine in the world is at the famous zinc mines at Friedensville, Pa., it is known as the "President," and there is no pumping engine in the world that can compare with the monster. The number of gallons of water raised every minute is 75,000.

There is estimated to be 195,403 square miles of coal-beds in the United States.

## GREAT ECONOMIES RESULT FROM REDUCTION OF TRAINS

Showing Over 16,000,000 Miles Have Been Eliminated to Help Solve Freight Problem.

Passenger trains representing 16,267,028 miles of train service a year have been eliminated by the railroads of the country to facilitate maximum transportation of freight for successful prosecution of the war, Fairfax Harrison, chairman of the Railroads' War Board, announced.

This was done, Mr. Harrison pointed out, to save man-power, fuel and motive power to be applied to the transportation of necessities. Cutting of this volume of passenger service, he asserted, "will make available for other purposes over 1,120,000 tons of coal."

"The railroad systems in the Eastern department," the statement added, "have cut out 8,598,696 miles of passenger train service, thus saving 716,113 tons of coal per year. The Pennsylvania system eliminated 3,300,000 miles, saving 186,876 tons of coal. The New York Central plans to save 126,000 tons of coal. The Erie has cut out 1,600,000 passenger train miles, the Baltimore and Ohio 1,168,596, the Chesapeake and Ohio 850,000.

"Roads in New England have arranged to eliminate 4,847,332 passenger train miles, with a saving of 256,724 tons of coal. The Boston and Maine cuts out 2,118,948 miles, the New Haven 1,707,004, and Maine Central 442,676.

"The Pere Marquette and the Wabash, the only roads reporting as yet from the Central department, have eliminated together 864,600 miles of service and plan to save 49,555 tons of coal.

"The Southern Railway has cut out 1,900,000 passenger train miles and will save 97,282 tons of coal."

## STATE CONDENSED.

J. Henry Miller, Incorporated, Baltimore contractor, has been awarded by the Navy Department the contract for erecting the addition to Bancroft Hall and other work at the Naval Academy, Annapolis. The contract price is about \$3,000,000.

When an engine cap blew off five men were badly scalded by escaping steam, on Thursday afternoon at the Mount Clare Shops, Baltimore.

Rear Admiral William Hemsley Emory, of Maryland, died at Newton, Sunday.

A contract calling for approximately \$400,000 worth of marine pumping machinery for installation in boats now being built to carry foodstuffs abroad has been awarded by the United States Shipping Board to Morton McI. Dukehart & Co., Baltimore, acting as agents for the McGowan Pump Company.

The first case of infantile paralysis to occur in Baltimore this week was reported to the Health Department Thursday.

Instructors at the Naval Academy, Annapolis, have completed the work of marking the 1,400 sets of papers of candidates who have just been examined mentally for admission. Something over 400 passed successfully.

Baltimore city, particularly the northwestern section was hit on Thursday afternoon by the most damaging storm of the season. A score of houses were unroofed and many were flooded, and large trees were uprooted.

One of the biggest sales of real estate was closed in Baltimore Saturday, when W. Irving Walker and Catherine Ford Walker, his wife, sold 1,855 acres of land near Chestertown, across the Chester river, to the Maryland Live Stock and Farms Products Company, corporation organized in Harrisburg, Pa. The price paid was \$150,000.

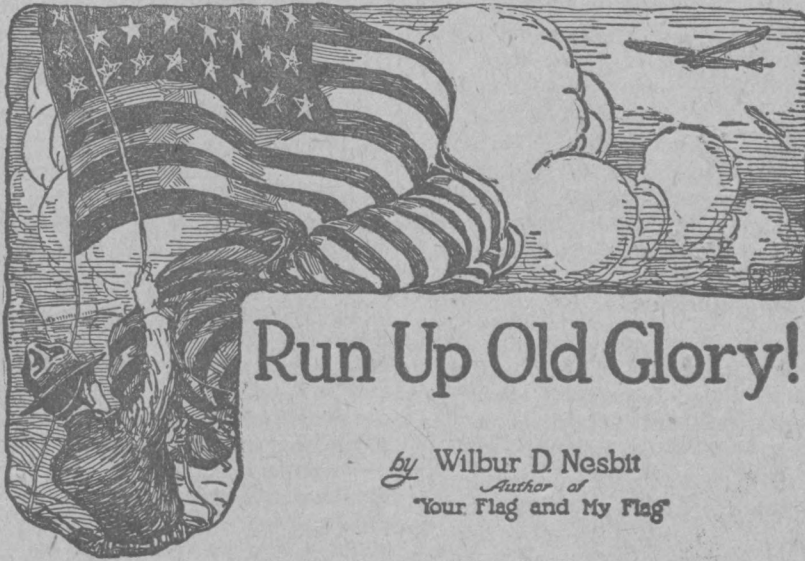

Announcement was made in New York Saturday that the Merchants-Mechanics' First National Bank, of Baltimore, is one of a group of banks that will organize the American Foreign Banking Corporation in New York city.

Lightning Friday afternoon struck the house occupied by Emory Hardesty, of Bristol, on the farm of Frank H. Darnell. The building caught fire and was destroyed with nearly all the contents.

The Baltimore and Ohio Railroad has arranged to supply 1,000 refrigerator cars, in addition to the usual quota, to carry to Eastern and Western markets the unusually large supply of peaches from the peach belt of Cumberland, shipments to begin July 27. The belt includes Cherry Run, Romney, Sleepy Creek, Paw Paw, Keyser and other nearby orchards.

The resignation of more than a score of Harford county teachers since the close of the last school year, principally because of the extreme low

(Continued on page 2.)

Run up Old Glory!

Let it blaze

In red and white against the sky  
And tell the story of the days

When hearts were stout and hopes were high.

Forget the daily fights of greed,  
Forget the struggles, the dismay

Of facing cruelty and need—  
Run up Old Glory for the day.

Run up Old Glory!

Think of all

The old flag means to you and me,  
Of how the blast of freedom's call

Shook out its folds from sea to sea;

Red with the blood that it has cost,  
White with the souls of them that died—

To-day by laughing breezes tossed  
It whispers of a nation's pride.

Run up Old Glory!

Fling it forth

And feel anew the country-call

That thrills East, West and South and North

And has its word for one and all.

Run up Old Glory—fling it far

Across the blue of heaven's dome,

And feel that every stripe and star  
Is warder of your hearth and home.

(Copyright, 1917, by W. D. Nesbit.)

## The War

### From Day to Day

### Paragraph Form

Formal announcement was made by the War Department Friday that 687,000 men will be selected from those registered on June 5 for the first national war army and to fill up vacancies in the National Guard and the regular army.

Department of Justice agents Saturday directed attention of the War Department to several big corporations which are demanding their employees to claim exemption from the draft.

President Wilson Saturday by executive proclamation stopped leaks of marine information to Germany through the German marine insurance companies and agencies that have been doing business here since the war began.

Secretary McAdoo announced Saturday that the steamer Kansan, whose sinking with the loss of four men was reported July 10, was the first American vessel lost carrying full war insurance for its officers and crew.

The War Department bill appropriating \$640,000,000 for construction of 22,000 airplanes was passed by the House without a roll call. It was amended only in minor details.

A United States torpedo boat destroyer overhauled and brought back to this port Saturday the Norwegian steamship Conrad Mohr, aboard which the Federal authorities seized 10,000 feet of copper cable, contraband of war, found secreted in an oil tank.

A million-dollar aeroplane factory will be built by the Navy, Secretary Daniels announced Saturday. It probably will be located near Detroit or in some other "automobile district."

Surgeon-General Gorgas, of the army, in a statement Sunday made it clear why the War Department had elected to train the National Guard divisions in Southern camps instead of in cantonments in sections where many of the guard organizations hail from.

The American War Department, for the first time since the Civil War, officially paid a tribute to the military genius of noted Confederate war chieftains when it announced Sunday that four of the training camps, where the selective draft army and National Guardsmen will be prepared for service in France, will be named for Gen. Robert E. Lee, Gen. Joe Wheeler, Gen. John B. Gordon and Gen. P. G. T. Beauregard.

Four of the largest and most modern German submarines were destroyed by American warships which were conveying the first installment of American troops to France, according to a report from German source as contained in a Berne dispatch to a Rome news agency and forwarded from Rome Monday by the Central News.

Two additional sections of the American Ambulance Corps left for the front Monday.

Four members of the aviation division in training were given an honorable discharge Monday in order to permit them to go to France immediately to serve in the Lafayette flying squadron.

On Tuesday the War Department ordered drafted or recruited a tenth regiment of engineers to supplement the

## DOGS DRAIN ON FOOD SUPPLY. MUST THE CHILDREN STARVE?

Maintenance of a Dog Costs as Much as Life of a Child.—Prevent Sheep Raising.

The Government takes the dog situation seriously. Also it advises the people to do the same, in the hope of bringing the people to their senses.

From every standpoint there is need for a readjustment in the attitude of the State toward the dog, says the Manufacturers Record. The upkeep of the dog is an enormous drain on the food supply of the nation. It has been estimated that it costs an average of \$35 a head per annum for the food of the dog. This totals for the year the enormous aggregate of \$875,000,000 that must go to feed American dogs—a sum sufficient to banish starvation from a large portion of the war-swept nations of the Old World. In Europe children are being saved from starvation at a cost of ten cents a day each, or \$35 a year. The maintenance of a dog is therefore costing as much per year as the life of a child.

There cannot be successful sheep raising where there is unrestricted raising of dogs, and the world necessity for food and clothing cannot be met without the unhampered production of all the fleece-bearing, mutton-yielding animals that the sheep raisers of the country can bring to market. Every sheep killed by a worthless cur may well mean the loss of a woman or child through starvation in Belgium or France. Also, the dog further operates to lessen the food supply by deterring the stockman from entering into sheep raising—either at all, or to the extent he otherwise would.

It is time to call a halt on the nonsense as to dogs—and, indeed, as to all other animal pets, continues the Record. It is time that men and women—and particularly the women, who in such large measure cast the mold of opinion of rising generations on most questions affecting the sentiments—should look at this really important question with reference to its bearing on national and international economics. There will be more food for the starving women and children of the Old World if there are fewer cur dogs in America.

## FROM THE COUNTY.

N. J. Wilson & Son, of Frederick, have received the contract for making thirty demonstrating driers for the Maryland Extension Survey, to be used by the Agricultural Department of the United States to demonstrate the drying of fruit in small quantities.

Silas Good, of Brunswick, was picked up Saturday evening by his fellow workmen cut and bruised which he received by the falling off a Baltimore and Ohio engine. After being treated at the Emergency Hospital, Good explained that he had been riding on the footboard in front of the engine.

On Saturday evening, President and Mrs. Woodrow Wilson motored into Frederick County and had lunch, picnic style, on the farm of Thomas B. Hayward, at Harmony Grove. The President's visit to Frederick was entirely unsuspected. Before leaving the city President and Mrs. Wilson went to the home of Barbara Fritchie where they paid their homage to this heroine of the Civil War.

Joseph Schelling, Frederick, and William Hahn, Brunswick, are nursing injuries received when Schelling's motorcycle collided with a cow near Petersville Sunday. Schelling sustained cuts on his arm and minor bruises on his body. Hahn escaped with a few trifling bruises and lacerations. Neither of the young men seem to have been seriously hurt. The cow sustained a broken leg.

E. T. Sanger, foreman of the B. & O. power house at Brunswick, was severely scalded when he was taking the head off the cylinder of a steam pump. The steam forced the head up, and the hot water and steam spurted out over Mr. Sanger's left arm, scalding it from wrist to shoulder.

The Hood College Club, of Southern Pennsylvania, at its second annual picnic at Eichelberger Park, Hanover, Pa., Tuesday afternoon, voted to donate \$100 to Hood College, Frederick.

Lewis F. Carter filed his nomination papers Monday with the election supervisors as a Republican candidate for Sheriff.

Suffering from apoplexy, George Washington Markey, Pleasant Walk, aged 60 years fell from his chair Saturday evening and died a few minutes later.

The Red Cross campaign for funds is still on in Frederick county. Subscriptions are also being received in Frederick and it is expected that shortly another

(Continued on page 3.)

## ANNISTON FOR THE FIRST

### VERY "LIVE WIRE" CITY

#### Prominent Citizens Are Marylanders.

#### HEALTH CONDITIONS SPLENDID

The Camp Site Covers Nearly Seventeen Thousand Acres and Extends Fully Eight Miles.

Anniston, where the members of the First Regiment will go into training is a city in Calhoun county on the Louisville and N., and Southern R. R.'s, with a population of 20,000. It is one of the most important coal and iron mining regions of the country; is a trade center for cotton and agricultural products; and is noted for its manufacturers of iron and steel, cotton goods, bricks, cordage, and other articles. Anniston is the seat of the Southern Female College and the Noble Female Institute; has three national banks, 20 churches, 10 daily and weekly periodicals and a property valuation of \$5,500,000. It was founded by the Woodstock Iron Co., in 1872.

This camp is expected to be completed and ready to receive the Maryland Guard by August 10, according to Major C. L. Dulin who has charge of the construction. If the present plans are carried out there will be 135 kitchens, 135 messhouses, 18 bathhouses, warehouses and streets and roads. The men will be housed under tents instead of wooden cantonments like those being constructed at Camp Admiral for the selective draft army.

The camp site contains 16,500 acres. It is eight miles long. On one side it is flanked by a magnificent state road, as smooth as asphalt streets, which runs from Mobile to Rome, Ga. On the other it is flanked by the mountains. The mountain forms the background for the artillery range, which the army officers have declared to be the best for training gunners in the United States. There also has been established a range for training machine gunners, and this has been praised as the best of its kind in the country.

Anniston is located on a plateau, 900 feet above sea level, between two mountain ranges. There are not 10 nights during the whole summer which are not cooled by mountain breezes. Health conditions at Anniston are among the best in the South. The pure mountain water and air are enemies to sickness, and my prediction is that the Maryland boys will thrive during their training period.

A Baltimorean, Talbot Ford, is one of the foremost citizens of Anniston, as is also John D. Lagarde, son of the late Professor Ernest Lagarde, of Emmitsburg.

The people of Anniston are very hospitable and it is certain that they will show the Maryland soldier boys a good time. Anniston also has the reputation of being one of the cleanest cities in Alabama. Whiskey has not been sold there since 1898.

#### Doped Before They Enter Trenches.

Captain David Stephen, a British army officer on leave of absence in the United States, declares that: "The German soldiers literally are forced to fight against their will. When they are ordered to 'go over' machine guns are trained on them at their backs, and at the first evidence of weakening these guns are let go. The Germans are between two fires, and they prefer the attack in front rather than the retreat to certain death behind."

The French, says this officer, permit the men to have a little courage in the form of rum just before 'going over.' Whenever it happens that rum is passed about the French know that they are about to be ordered to make an attack.

"This, however, is nothing compared with what the Germans do. They haven't rum or whiskey to stimulate their men, so they give them ether. The effect of ether, of course, is to stimulate the soldiers immediately; in fact, they really have little appreciation of what they are doing once they are doped with ether."

#### I. F. C. A. Collects Religious Articles.

The International Federation of Catholic Alumnae, through its president, Miss Clara I. Cogan, of Brooklyn, has requested all members to donate Catholic papers, books and magazines, prayer beads, medals, etc., for the use and spiritual consolation of American soldiers and sailors engaged in the present conflict. All contributions should be sent to the president, 6703 Ridge Boulevard, Brooklyn, N. Y.

ORDER NISI ON AUDIT.

NO. 9601 EQUITY.

In the Circuit Court for Frederick County, sitting in Equity.

JULY TERM, 1917.

In the matter of the Auditor's Report filed the 30th day of June 1917.

William F. Fisher, Mortgagee of Margaret A. Shank as an individual and as Executrix of the last Will and Testament of Joseph N. Lohr, dec'd. On Petition.

Ordered, That on the 21st day of July, 1917, the Court will proceed to act upon the Report of the Auditor, filed as aforesaid in the above cause, to finally ratify and confirm the same, unless cause to the contrary thereof be shown before said day; provided a copy of this order be inserted in some newspaper published in Frederick County, for two successive weeks prior to said day.

Dated 2nd day of July, 1917.

ELI G. HAUGH,

Clerk of the Circuit Court for Frederick County.

True copy—Test:

ELI G. HAUGH,

Clerk.

Albert S. Brown, Solicitor. July 6-8ts.

PUBLIC SALE.

By virtue of an order of the Circuit Court for Frederick County, sitting as a Court of Equity, passed in a cause pending therein, wherein Millard F. Shuff is the plaintiff and Fannie S. Wilmar et al. are defendants, being No. 9613 on said docket, the undersigned trustee, will sell at public sale at what is known as "The Spangler Hotel" in Emmitsburg, Frederick County, Maryland, on

Tuesday, July 31st, 1917,

at 2 o'clock, P. M., all the right, title and interest of John M. Springer, deceased, in and to the following described real estate, of which the said John M. Springer, died, seized and possessed, to-wit:—All that lot or parcel of land, situated about 2 1/2 miles West of Emmitsburg, along the public road leading from Annandale School House to Eyley's Valley, containing about one-half acre of land, improved with a two and a half story frame house and other out-buildings with a spring of water on the place, and some choice fruit, and for the title see deed to John M. Springer by George S. Springer and wife dated December 30th, 1905 and recorded in Liber S. T. H. No. 274, folio 6 etc., one of the Land Records of Frederick County.

Terms of Sale as prescribed by the decree: One half cash on the day of sale or the ratification thereof by the Court, and the balance in six months from the date of sale, the purchaser giving his, her or their notes bearing interest from day of sale, or all cash at the option of the purchaser. All conveyancing at the expense of the purchaser. A deposit of \$50.00 will be required of the purchaser on day of sale. RENO S. HARP, Trustee.

General Conservation Rules.

Herbert C. Hoover, the United States Food Commissioner suggests that people: "Buy less; serve smaller portions. Preach the 'Gospel of the Clean Plate.'"

Don't eat a fourth meal.

Don't limit the plain food of growing children.

Watch out for the wastes in the community.

Full garbage pails in America mean empty dinner pails in America and Europe.

If the more fortunate of our people will avoid waste and eat no more than they need, the high-cost-of living problem of the less fortunate will be solved."

The Star Spangled Banner will be the "Key" to the European War.

The first envelopes were used in 1839.

PUBLIC SALE

Valuable Real Estate

By virtue of a power of sale contained in a mortgage executed by Sophia G. LeFevre and Franklin T. LeFevre, her husband, to J. Stewart Annan, Guardian bearing date on the 6th day of September 1905 and recorded in Liber S. T. H. No. 273, folio 10 etc., one of the land records of Frederick County, the undersigned, assignee of said mortgage, will sell at Public Sale, on the premises in Emmitsburg, Frederick County, Maryland, on

Saturday, July 28th, at 11 A. M.

All that lot of ground and premises situated in Emmitsburg, aforesaid in what is known as "Shields' addition," on the South Side of Main Street, adjoining the lot of Helen J. Rowe on the East and being the western half of lot number Eighteen (18) in said "Shields' Addition" of which Sophia Houser dec'd seized and possessed and which was conveyed to her by Lewis D. Cook and wife, by their deed dated on the Twentieth day of August, in the year 1894, and recorded in Liber J. L. J. No. 7, folio 264, one of the land records of said Frederick County, and which was conveyed to the said Sophia G. LeFevre by Eugene L. Rowe, Trustee, by his deed dated on the Fifth day of September, in the year 1905, and recorded in Liber S. T. H. No. 271 folio 194, one of the land records aforesaid.

The improvements on this property consist of a Two-Story weather-boarded house. Excellent location for residence or business building.

Terms of Sale as Prescribed by Mortgage: Cash. Purchaser to be at expense of conveyancing, including Revenue Stamps. A deposit of one hundred dollars will be required of the purchaser at the time of sale to insure compliance with its terms.

GEORGE R. DENNIS, JR.  
Assignee of Mortgage.

STATE CONDENSED.

(Continued from page 1.)

salaries paid them, has resulted in the Board of County Commissioners granting a substantial increase to its 120 elementary public-school teachers. Five thousand dollars was appropriated, and beginning with the next scholastic year the teachers' salaries will be increased from \$800 to \$850.

While crossing the street on Monday William W. Boward, aged 73 years, and for the last 18 years bailiff in the Circuit Court, of Hagerstown, was struck by the tongue of an ice wagon and later died from his injuries.

J. L. McKewen, 18 years, a private in Company F. First Maryland Regiment, was badly injured Monday while on guard duty at Green Ridge. He was struck by a Western Maryland freight train which he was unable to see on account of a dense fog.

Lester M. Bang and Foster S. Armstrong members of the Hagerstown (Blue Ridge League) Baseball Club have enlisted in the Headquarters Company, M. N. G., of Hagerstown.

Miss Sue W. Frick, of Hagerstown, a graduate of Pratt Institute, has been appointed assistant to Miss Alice S. Jones, Washington county home demonstration agent.

Farmers have suffered severe losses from heavy rainfall, when some eight inches of rain fell. At a meeting of tomato growers held in Cambridge it was said that the damage to tomatoes would average half of the crops.

The Kelly-Springfield Tire Company has contributed \$2,500 towards the fund for building the new Salvation Army home in Cumberland.

Edward McVickers, aged 26 of Hyndman, was killed and three others were injured Monday afternoon when a B. and O. locomotive and car loaded with cinders went over a 30 foot embankment. Mr. McVicker was scalded and mangled beneath the locomotive.

Corey Winans, 15 years old, son of Mrs. Clara Gessner Winans, of Toledo Ohio, was drowned in the Potomac River, a few miles below Cumberland late Tuesday afternoon.

Taking Big Chances.

It is a great risk to travel without a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy, as this preparation cannot be obtained on the train or steamships. Attacks of bowel complaint are often sudden and very severe and everyone should go prepared for them. Obtainable everywhere. \*Advertisement. July 6-1 mo.

FROM THE COUNTY.

(Continued from page 1.)

drive will be made to complete the campaign. The fund now stands in the neighborhood of \$40,000.

Miss Blanche W. Gittenger, of Frederick, has been appointed food conservation agent for the United States Department of Agriculture, for Lake county, Tennessee.

Thomas Franklin Bittle, farmer and merchant, of Ellerton, died Tuesday aged 78 years. He was a lifelong resident of Frederick county and had been engaged in business for 50 years.

Announcement has been made that the Frederick County Fair will be held October 16-19 inclusive, P. M. Hiteshew, Dr. Charles H. Conley, and P. L. Hargett have been named as the Executive Committee.

United States Senator J. H. Lewis, of Illinois, made a stirring address in Frederick, Wednesday on the occasion of the laying of the cornerstone of the new post office. The exercises were postponed several hours on account of a downpour of rain. The Lynch Lodge of Masons had charge of the ceremonies. The exercises were preceded by a parade, in which were Company A, M. N. G.; the Mayor and county officials, fire companies, and nearly all the fraternal organizations in Frederick, participated.

St. Paul's Lutheran church, Walkersville, celebrated the silver jubilee of its founding this week. At the same time it observed the 400th year of the Reformation.

WHEN HER BACK ACHES.

A Woman Finds All Her Energy and Ambition Slipping Away.

Emmitsburg women know how the aches and pains that often come when the kidneys fail make life a burden. Backache, hip pains, headaches, dizzy spells, distressing urinary troubles, are frequent indications of weak kidneys and should be checked in time. Doan's Kidney Pills are for the kidneys only. They attack kidney diseases by striking at the cause.

Can Emmitsburg sufferers desire stronger proof than this Hagerstown woman's word?

Mrs. Raymond Kline, 322 N. Locust St., Hagerstown, Md., says: "My back began to ache and that was the first I knew that my kidneys were disordered. The kidney secretions became unnatural and mornings I felt all tired out. Doan's Kidney Pills made me feel like a different woman."

Price 60c., at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mrs. Kline had. Foster-Milburn Co., Props., Buffalo, N. Y. Advertisement.

THE WAR FROM DAY TO DAY.

(Continued from page 1.)

nine ordered sent to repair French railroads. These engineers will be men who have had forestry service experience and they will all be trained at Fort Leavenworth, Kan.

America's "Sammies" and France's poilus were training side by side in France Tuesday. American officers are quartered with French officers. The greatest spirit of co-operation and mutual admiration prevails.

Formal application to recruit a "legion of love" from Uncle Sam's 50,000,000 women and girls was under consideration by the War Department, Tuesday. Thousands of college and society girls belonging to the Young Women's Christian Association all over the country hold themselves ready to answer the call to the battle front.

President Wilson, in a short speech to a delegation of Marylanders Wednesday

ridiculed the claim of pacifists that "we do not know why America is at war" with Germany. He said he does not believe that the American people, as a whole, are unaware of the purposes behind the struggle with Germany, as is claimed by some people, but thinks they fully realize that the United States had entered into the war for the freedom of the world.

The State Department in Washington made it known Thursday that the United States will not be represented at the coming Allied conference in Paris. It was stated that this conference had been called to discuss the Balkan situation and that the United States was not directly concerned in that problem, not being at war with Bulgaria, Austria-Hungary or Turkey.

There are twenty-five girls in Washington who are earning their living as elevator operators.

Pale Faced Women Take Phosphates to Make Rosy Cheeks and Beautiful Forms.

Men need Phosphates to Make Strong, Healthy, Vigorous Bodies.

Athletes increase their strength, energy and endurance 200% or more by simply taking a few weeks treatment of Argo-Phosphate.

Atlanta, Ga. Dr. F. A. Jacobson says that Phosphates are just as essential to any man or woman who tires easily, is nervous, or irritable, worn out, or looks haggard and pale to make a strong, robust, vigorous healthy body, as they are to cotton to make it grow. The lack of Phosphate is the cause of all endemic conditions and the administration of 5-grain Argo-Phosphate tablets will increase the strength and endurance of weak, nervous, care worn men and women 300 per cent. in two or three weeks time in many instances, and their continued use will build up the whole nervous system, and give new life, vim, vigor and vitality to the whole body. I always prescribe Argo-Phosphate to patients who are pale and colorless, and it is surprising to see how quickly a few weeks treatment will transform a pale face to a rosy cheeked beauty. There can be no rosy cheeked, healthy, beautiful women, without their system is sufficiently supplied with Phosphates. In recent interviews with physicians on the grave and serious consequences of a deficiency of Phosphates in the blood of American men and women, I have strongly emphasized the fact that doctors should prescribe more phosphates in the form of Argo-Phosphate for weak, worn out, haggard-looking men and women. When the skin is pale, and flesh flabby, it is a sign of anemia. When the phosphates go from the blood, the pink cheeks go too. The muscles

lack tone. They become nervous, irritable, despondent, melancholy, the brain fags, and the memory fails. Therefore if you wish to preserve your youthful vim, vigor and vitality, to a ripe old age, you must supply the deficiency of phosphates lacking in your food by using Argo-Phosphate, the form of Phosphates most easily assimilated.

NOTICE: Argo-Phosphate which is recommended and prescribed by physicians in all endemic cases is not a secret or patent medicine, but one that is sold and recommended by well known druggists everywhere, and physicians are daily subscribing the constituents contained in it. Being entirely unlike many other phosphates, it is easily assimilated and will be found effective in the treatment of indigestion and stomach troubles, as well as for care worn, nervous conditions. The manufacturers of Argo-Phosphate will forfeit to any charitable institution \$200.00 if they cannot treat any man or woman under 65 who lacks Phosphates, and increase their strength and endurance from 100 per cent. to 300 per cent. or more in one month's time, if they are free from organic trouble. It is dispensed by all reliable druggists.

If your druggist will not supply you, send \$1.00 to the Argo Laboratories, 10 Forsyth St., Atlanta, Ga., and they will send you a two weeks treatment by return mail.

#### TOADS GIVE PARTY.

"Mr. Tree Toad," said Daddy, "was sitting by his favorite tree in the Woods when along crawled Mr. Lizard. 'Good-morning, Mr. Lizard,' gurgled Mr. Toad cheerfully. 'I'm pretty well, I thank you,' said Mr. Lizard. 'And how are you, may I ask?' 'You may ask—and I will tell you,' said Mr. Tree Toad. 'I'm feeling powerfully well.' 'And what, pray tell, does powerfully well mean, Mr. Tree Toad? Does it mean quite well, or not very well, or what?' 'None of those things,' said Mr. Tree Toad. 'It means that I feel so well that I am very powerful—strong you know—ready for anything!' 'Then,' said Mr. Lizard, wiggling around into a more comfortable resting place between some tall blades of grass, 'then,' he repeated, 'you are strong enough to give me a Party!' 'And what sort of a Party shall it be?' asked Mr. Tree Toad. 'Oh, you'll really give it?' said Mr. Lizard as he grinned. 'Of course,' said Mr. Tree Toad. 'That's just it—I said I was powerfully well. But what kind of a Party do you want, Liz?' 'Mr. Tree Toad was very friendly with this special Lizard Family and he always called Mr. Lizard 'Liz' when he

"Oh, You'll Really Give It?" was feeling cheerful, and Mrs. Lizard he called 'Lizzie.' 'I want a Birthday Party,' said Mr. Lizard. 'I don't just know how old I am—but I'm old enough to have a Birthday Party.' 'To be sure you are,' said Mr. Tree Toad. 'When will it be?' asked Mr. Lizard, for he wanted it all decided upon before Mr. Tree Toad changed his mind. 'It will be this afternoon. Can your Birthday wait until then?' 'Yes, dear old Toad,' said Mr. Lizard. 'Mr. Tree Toad didn't have many Creatures or Folks call him a dear old Toad and that put him in still better spirits. 'Mr. Tree Toad called for Mrs. Toad and she soon came hopping along. 'My dear,' he said, 'I am giving a Party for Mr. Lizard this afternoon in honor of his Birthday. He doesn't know how old he is but he very much wants a Birthday Party.' 'Mrs. Tree Toad's bulging eyes looked still more 'bulgy'—but it was her way of giving Mr. Tree Toad an affectionate look. 'What a kind old Toad you are, my love,' she said. 'We must hurry about the Party, mustn't we?' asked Mr. Tree Toad. 'Yes, I'll get ready at once.' Mrs. Tree Toad put on an enormous Apron made out of Oak Leaves and at once she set to work. 'Mr. Tree Toad,' she said to her husband. 'Yes, my dear,' he answered. 'Won't you hop over and ask your Cousins the Garden Toads to come?' 'I most certainly will,' said Mr. Tree Toad as he hopped along. 'The Toads are very gentle and kind and they wouldn't hurt a Creature for anything. But they do eat the bad Insects which destroy the Trees—and the Toads that are seen in the Gardens are eating up the bad Garden Insects too.' 'Then they are very useful,' said Nancy. 'And the Gardeners must like them,' said Nick. 'They are so quiet,' said Daddy, 'that a great many People do not realize all the good they do—and they never do any harm. So after all, though Toads are not beautiful they are a great help in saving Trees, Shrubs and Gardens. The Garden Toads were eating some horrid little Bugs that had been trying to kill some pretty Flowers when Mr. Tree Toad arrived. 'We'll come,' they said, 'for we've just finished work. And we'll bring some of the naughty Insects along to eat!' 'So Mr. Lizard's Birthday Party proved to be a big success!'

#### Marie's Supper Store.

Marie, age three, was sight-seeing in the park and became very hungry. She informed her Aunt Genevieve of the fact and was told that they would have supper when they got home. While riding on the homeward bound car they passed a restaurant and Marie turned around and cried: "Oh, aunty, there's a supper store!"

Miracles are good, but to relieve a brother, to draw a friend from the depths of misery, to pardon the virtues of an enemy, these are greater miracles.

#### A FEW THIRST QUENCHERS FOR HOT DAYS.

There is nothing that more appeals to the palate than a well-blended drink, cool and refreshing, on a hot day.

**Mint Punch.**—From 12 stalks of mint strip off all the leaves and chop them very fine, rub to a paste, adding a pint of cold water; add a pound of sugar, boil five minutes, and strain through a cheesecloth. When cold add the juice of six lemons. At serving time place this mixture in a punch bowl over a block of ice, throw in a bunch of fresh mint leaves and add sufficient apollinaris water to give it sparkle, and serve at once.

**Currant Punch.**—Whip to a froth a tumblerful of currant jelly, adding one pint of boiling water; add a half-cupful of sugar and the juice of a lemon; then put aside to cool. At serving time add a quart of plain cold water and a bottle of sparkling water.

**Ginger Punch.**—Boil for five minutes a pint of water and a pound of sugar with the grated yellow rind of a lemon; strain, and while hot stir into it two sliced bananas and a quarter of a pound of candied cherries; stand aside to cool. At serving time put a good sized block of ice into the punch bowl, add the juice of six lemons to the banana mixture, turn it into the punch bowl, add two bottles of ginger ale and one quart of sparkling water. Serve at once.

**Iced Cocoa.**—Put two heaping teaspoonfuls of cocoa into a double boiler, add a half-pint of boiling water, and cook five minutes, add a half-pint of milk, beat thoroughly, take from the fire, and stand aside to cool. At serving time fill the glasses one-third full of chipped ice, add a teaspoonful of powdered sugar, fill the glass two-thirds full of cocoa, and fill with whipped cream.

Ice tea, if made fresh, then cooled and served in the same way the cocoa is served, with the exchange of a slice of lemon for the cream, allowing each to add sugar to taste, makes a most refreshing drink.

#### IT'S AN ILL WIND.

When it Comes Out of the East it Bears an Evil Reputation.

No one has a good word for the east wind. In whatever part of the world it blows it is of ill repute, and this evil name began in old times.

At least one of the plagues of Egypt came on the wings of the east wind. "The Lord brought an east wind upon the land \* \* \* and when it was morning the east wind brought the locusts." "Thou, Lord, breakest the ships off Tarshish with an east wind," cries the psalmist. "I will scatter them as with an east wind before the enemy" was the word concerning Judah that came to Jeremiah from the Lord. "Thus saith the Lord God" of Jerusalem, according to Ezekiel: "Shall it not utterly wither when the east wind toucheth it?" "And the east wind dried up her fruit," says the same authority, speaking again of Jerusalem.

Thus the stigma has come down the centuries. "Wind of the clinging mists and gray, harsh rains," a modern poet calls it.

Good old Isaac Walton knew its malefic influence when he wished, for the honest angler, that the east wind might never blow when he went fishing.—Indianapolis News.

## FREDERICK COUNTY.

Frederick is next to the largest of the counties of Maryland. In population and wealth it ranks next to Baltimore county. In the fertility and productiveness of its lands it ranks among the first in the Union, and especially in the production of wheat. The area of this great county is 633 square miles. The great body of the people are of German, English and Scotch-Irish descent, the progeny mostly of the early settlers. The land is mostly of fine limestone quality, and the greater part of the county is a valley of rolling hills lying between the Lingular Hills and the Catoctin Mountain. This splendid valley is drained by the Monocacy river, and is one of the best farmed and most highly improved and productive areas of the Union. The great crops are wheat and corn.—*Maryland Manual issued by Board of Public Works.*

## EMMITSBURG.

In all Western Maryland—the beauty spot and the garden spot of the State—there is no town more attractive than Emmitsburg.

No people are more wide-awake, more knowable, more courteous to strangers than Emmitsburgians.

The location of Emmitsburg is ideal; the surrounding scenery is unmatched; the climate is notably healthful; its water—pure mountain spring water—cannot be surpassed. It is within easy access of Baltimore, Hagerstown, Frederick; eight miles from the National Battlefield at Gettysburg, near to the Mountain Resorts, and is surrounded by fertile farms and productive orchards.

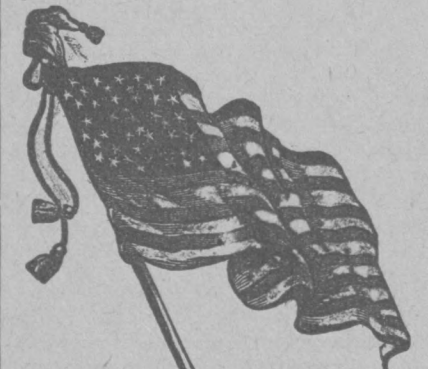

Mount Saint Mary's College and Ecclesiastical Seminary—with an enviable reputation extending over 108 years—is located here; St. Joseph's College and Academy for young ladies—equally as noted during its 107 years of splendid achievement—is also here.

There are excellent Schools—Public and Parochial—in Emmitsburg; two sound Banks, five Churches, a live Newspaper, modern Hotel accommodations, adequate Fire Department, progressive merchants, splendid physicians, good liverys, auto garages, many fraternal organizations, good railroad accommodations. There are four or five mails a day, telegraph, express and telephone service connecting all points; electric light and power, oiled streets.

There is business to be had in Emmitsburg; there are Factory Sites available. If you contemplate changing your place of residence—come to Emmitsburg, Frederick County, Md

## HERE'S TO OLD GLORY, GOD BLESS HER!

If anyone attempts to haul down the American flag, shoot him on the spot.—John A. Dix.

O folds of white and scarlet! O blue field with your silver stars! May fond eyes welcome you, willing feet follow you, strong hands defend you, warm hearts cherish you, and dying lips give you their blessing! Ours by inheritance, ours by allegiance, ours by affection—long may you float on the free winds of heaven, the emblem of liberty, the hope of the world!—Anon.

## UNPAID-FOR PUBLICITY.

"The Regular Army of the United States must depend upon publicity in order that its needs may be known to the general public.

The above is an extract from a letter sent out to all Maryland newspapers from a recruiting station in Baltimore. It is a fair sample of the admission made in many another appeal to the press of the country by various other branches and sub-branches of the government service. In one sense it is a high tribute to newspaper efficiency—this acknowledgement of dependence upon publicity; in another sense it is a reflection on the government's way of doing business, and a showing up of a manifest injustice to publishers. Why? Because the government wants publicity—and a tremendous amount of it, Free.

Just here let it be stated that, if charged for, the bill for space given the government by publishers for one cause alone—the Liberty Loan—would aggregate \$500,000.

When the government needs munitions, ships, food supplies, equipment—any of a thousand and one things—it goes into the open market and contracts for them, and then pays the bill. When, however, it would raise the money wherewith to settle the account, this same government says, for instance, "we are going to issue bonds—under the patriotic symbol, 'Liberty Loan'—and the only way we can quickly dispose of the issue is by means of printed publicity. But this publicity we want for Nothing," and we appeal to you newspaper men, on the score of patriotism, to give it to us.

Now the only commodity a newspaper deals in is space. This is practically its only stock in trade, and this space is dollars and cents. So when the proposition is analyzed and put into plain English it is this: the government wants the publisher to give it outright, a very considerable amount of the cash necessary for the purchase of what it needs for this war so that the government may increase the profits of the "other fellow."

Nothing is said, mark you, about the patriotism of the maker of munitions, or about the patriotism of all the folks who furnish government supplies; nor are they appealed to on this ground to give anything. They are not asked to furnish bullets and shells and uniforms and groceries and all the rest of it for nothing. They are paid in full, and a full price at that. Isn't this policy a bit inconsistent?

By the same token why should not manufacturers and contractors and supply houses be asked, appealed to, by the government

to give their wares? If they were to do their part in the same proportion as do the newspapers the situation would be equalized; the whole result would be ideal.

Coming down to "brass tacks," there is no set of men more public-spirited, more loyal and more liberal than publishers. They give fully, freely, consistently and continuously; but for their efficient service to the government—avowedly efficient service—the government invariably hands them the short end of the stick or the hot end of the poker.

The government censors the news; it would muzzle editorial opinion; it attempts to browbeat the publisher on all occasions; it is a competitor of the printer. To cap the climax it seeks to raise the price of postage for carrying newspapers, and if it could, would, tax all advertisements and will tax a certain percentage of the profits.

Having specially legislated against the newspaper, or having endeavored to do so or being about to do so, or at least being in the temper to do so, the government begs the newspaper for unpaid publicity—showing about as much consistency as a man who having knocked another down, would ask a particular favor of the aggrieved.

Will the newspapers continue this policy? Of course they will; but if it is asked whether the government is not guilty of unjust discrimination in the matter they will be forced to admit the truth—as will any fair-minded man, business or professional—that, by this discrimination the government is administering a "raw deal" to a very important factor on which it is most dependent, and is at the same time using very poor judgment.

## KEEP UP EDUCATION.

The constant call is for trained men. The country needs them now and it will need them later on. The uneducated, the untrained, the undisciplined are liabilities, not assets. Therefore schools, colleges, and universities should be overruled with applications before the next term opens. Thousands have left for enlistment or will leave under the draft, and their places must be filled by those who have not yet reached the age limit for military duty. These, if they would best serve their country and their own interests, will be obliged to gain the knowledge and discipline adequate for the new and important and responsible duties that will inevitably devolve upon them, by the only means—the class room. Instead of a diminution in the desire for systematized education, there ought to be a new and intensified stimulation for learning. This is the conclusion reached by farseeing men of affairs, by civil and military leaders as well as the foremost educators of the country. Their unanimous judgment is that "every college, university or technical school should keep its faculty and student body intact and all should redouble their energies and concentrate them on those things that will be of most service during the progress of the war and which will prepare their students for the most effective service of the country and of the world when the war is over."

Not a very commendable trait in human nature is that of speaking ill of those who are unfortun-

nate—those who, perhaps, bearing heavy burdens that others know not of, tread for even a short while the path that openly is not countenanced by the world. All make mistakes; "to err is human;" but how rare, after all, is the practice of that divine quality of forgiveness. One does not have to condone an overt act, but it is the manly, Christian privilege of all to exercise charity of thought; more manly still to hearten and encourage those who need only friendliness and sympathy and kindly counsel to help them over the stony places.

WHAT'S the difference between the I. W. W. and a band of organized arson and murder fiends? A man who sets fire to a house or barn receives a heavy penalty in the east. When a western organization plots wholesale destruction of growing crops, by means of fire, a different construction is put upon the crime. Every member of the I. W. W. is guilty of treason, at least, and should be dealt with accordingly.

"OFFERS Baltimore a Mum-my."—In postoffice parlance, "wrong address; try Philadelphia."

KORNILOFF.—Sounds like a breakfast food, doesn't it? But ain't that Russian some korn?

ST. SWITHIN and J. Pluvius, incorporated, have been right on the job.

LET'S go fishing!

OOLA!

## Catholics Serving at the Front.

The Catholic hierarchy expresses itself satisfied with the division of chaplains as just made by the Government. This division is forty-eight Catholics out of a total of 144 in the regular army, and 116 out of a total of 350 to be appointed for the new Army. It is claimed by Catholics that their proportion might be larger by population proportion, but they admit the fairness of the figuring by which the Government arrives at its numbers.

The hierarchy, or those speaking for it, apparently by authority, are taking immediate steps to compile records of actual Catholic data relating to war services—number of Catholics in the 687,000 men now to be drawn, number in the National Guard and in the Navy, number of officers, and especially Catholics who distinguish themselves in the service. These records are to be made and kept for use after the war, when, as Catholics charge, they are accused of un-Americanism, and opposition to republicanism. Catholics say they propose to be ready to meet these stock criticisms.

## New Rules for Japanese Movies.

Men and women are required to sit in separate sections in the motion picture theatres of Tokyo, according to new regulations at the Japanese capital. The official rules say:

"In each moving picture place there shall be separate seats for men and women. Not even a married couple shall be permitted to sit together. In case guardians accompany children on children's days, the guardians will be permitted to sit in the children's seats. On children's days there shall be separate seats for men, women and children.

"The line of separation between men and women shall be movable so that in case either men or women are in the majority in a moving picture place the section for the majority may be made larger and the other section made smaller. There shall be a space of four feet between the men's and women's sections.

"There shall be unextinguished lights in the moving picture places."

## One Automobile for Every 29 People.

There is one automobile for every 29 inhabitants in the United States, according to figures for the last year made public by the Federal Public Roads Bureau.

Iowa, with one car for every 11 persons, led the country in the number of machines registered in proportion to population.

California, Nebraska and South Dakota ranked next in order. Arkansas, with one automobile for every 116, is at the foot of the list. The New England States were more uniformly supplied with motorcars than any other section, it was stated.

The first lucifer match was made in 1819.

## Friday.

Forty-three giant bombs, containing enough explosives to blow East St. Louis off the map, were discovered by Secret Service men in Chicago.

Arrangements have been completed for the organization of a branch of the San Francisco Federal Reserve Bank at Spokane, Wash.

John S. Irby, of Washington was nominated by President Wilson to be surveyor of the port at San Francisco.

Several persons were killed and many were injured in a tornado which swept over Danville, Ill., tonight. An interurban car was blown from the tracks near Homer and every one except the motorman was injured, some perhaps fatally. The car was demolished.

Charles W. Drysdale of Ottawa, chief of a Government geological survey party, and Wm J. Gray, a university student of Vancouver, his assistant, were drowned when a raft on which they were attempting to cross the Kootenay river capsized.

Senator Ashurst, Arizona, was painfully injured when on his way to the Capitol he was struck by a falling awning.

Railroad embargoes on all commodities placed on the export embargo list by President Wilson were ordered today.

## Saturday.

America joined with France today in celebrating the one hundred and twenty-eighth anniversary of the fall of the Bastille. French flags flew from the homes and buildings of Washington.

Dr. Von Bethmann-Hollweg, the German Imperial Chancellor, has resigned.

An additional appropriation of \$4,000,000 for the Alaskan railroad construction, to close a 30-mile gap on the main line from Tidewater at Anchorage to Seward and open up the Matanuska coal fields, was asked of Congress today by Secretary Lane, with President Wilson's approval.

Three persons were burned to death in a fire that destroyed a four-story house in New York early today.

Dr. George Michaelis, Prussian Under Secretary of Finance and Food Commissioner, has been appointed to succeed Dr. von Bethmann-Hollweg.

## Sunday.

Henry P. Davison, chairman of the War Council of the American Red Cross announced the appointment of Harvey D. Gibson, president of the Liberty National Bank of New York city, as general manager of the Red Cross.

It was announced today that postal employees throughout the country have contributed \$55,994.31 for Red Cross work.

Chairman Daniel Willard announced that the big railroad systems of the country have now been practically nationalized.

Edward Humphries, a prominent coal operator and mine superintendent, formerly of Philadelphia, his wife and son, were shot to death on a country road near Johnstown, Pa.

Oscar Bittman, a German, 50 years old, was taken into custody today on suspicion of conspiracy to damage the Ford Motor Company's plant, at Detroit, Mich. When his rooms were searched, it is claimed that dozens of blueprints and maps of various departments of the Ford plant were found. The arrest, it is said, was the result of an investigation by government agents.

## Monday.

About 3000 employees who have been on strike at the plant of the National Conduit and Cable Company, Hastings, N. Y., returned to work today under a compromise wage agreement which grants them an increase of two cents an hour.

Sister Angela Augustine, the last

## Increases Not Peculiar to U. S.

The advance in prices, so keenly realized by all the people of the United States, is by no means peculiar to this country, or even to the countries in which war conditions are looked upon as the immediate cause of the higher prices. From the tea fields of Java and India, the tin mines of the Malayan Peninsula, the silk areas of China and Japan, the sugar fields of Java, Hawaii and Cuba, the sisal plantations of Mexico, the copper mines of South America and Japan, the indigo farms of India, the hemp fields of the Philippines, the logwood forests of the West Indies, the currant orchards of Greece, the rubber plantations of the Orient, the champagne producing area of France, the cotton fields of Egypt and even the diamond mines of South Africa, come statistical proof of advance in prices of their respective products.

A metal hat rack or clothes tree recently patented is so shaped that it can be used as a fire escape by reversing it and hanging it from a window sill.

surviving member of a group of French nuns who 50 years ago founded the home and order of the Little Sisters of the Poor in New Orleans, died in New Orleans aged 75 years. She was a native of Brittany, France.

Secretary Baker announced today that plants for the production of nitrate from atmospheric nitrogen would be constructed immediately at a cost of about \$4,000,000 and that water power would not be used.

Mrs. Esther Birdsall Darlin of Nome, Alaska, who sold many racing dogs to the French Government received the Cross of War won by Alaska dogs for service at the front in transporting 90 tons of shells to an isolated post under fire through a blizzard that raged four days and nights.

King George today conferred the military medal for bravery in the field on three members of the American Legion of the Canadian forces. The men are Lance Corporal T. B. Dick of Boston and Sergeant H. Harlan and Private C. Porter, both from New England.

Geo. C. Tompkins, of Philadelphia, was today formally charged with the triple murder Edmund I. Humphries, president of the Newborn Coal Company; Humphries' wife and their son.

## Tuesday.

Former Governor Tener, of Pennsylvania, became a voluntary assistant to Food Director Hoover.

King George dropped his German family name today for himself and all the royal family. He announced to the Privy Council at a special meeting that hereafter the royal house would be known by the name of Windsor instead of the Germanic Saxe-Coburg and Gotha.

W. S. Moore, of a firm dealing in poultry, said today that there are 30,000,000 pounds of poultry in storage in Chicago.

The torpedo boat destroyer Stockton, the latest addition to the United States Navy, was launched from the ways of the Cramp Ship Yard, on the Delaware River, Philadelphia today. The craft was named in honor of Commodore Stockton, of Civil War fame.

Baseball material for 150 teams in General Pershing's army went down to "Davy Jones' locker" when the American steamer Kansas was submerged. The bats and balls were the gift of 38,098 American fans.

## Wednesday.

The Pennsylvania Railroad Company today announced that it has sold all its anthracite mining properties and collieries to M. A. Hanna & Co., of Cleveland. The terms of the sale were not made public.

Albert Schonover of Los Angeles was nominated today by President Wilson as United States Attorney for the Southern district of California, and Charles W. Lapp of Ohio was nominated United States Marshal for the Northern district of Ohio.

The cornerstone of the International headquarters building of the United Society of Christian Endeavor, on Beacon Hill, was laid today.

Roland S. Morris of Philadelphia has been chosen for appointment as Ambassador to Japan to succeed the late Ambassador Guthrie.

Award of contracts for a half million cases of canned peas, the entire supply needed for the Army and Navy, was announced.

Archibald McLellan, Christian Science editor and officer of the First Church of Christ, died in Brookline, Mass.

Dr. E. B. Bangasser and Dr. Edward Inda, both of Buffalo, were killed in an automobile accident near South Dayton.

(Continued on page 7.)

## How To Increase Meat Supply.

Rabbits, which have proved a valuable source of food in Europe during the present war, may well be raised more extensively in America by way of reducing the drain on the ordinary meat supply. The business of growing rabbits can be carried on by youths and adults not engaged in military or other national service, or in regular industrial employment.

The Belgium and Flemish giant rabbits are recommended for meat production, as the ordinary tame rabbit is smaller and develops more slowly. Rabbits are easily kept. They eat hay, grass, lawn cuttings and green vegetation of many kinds. Females should yearly raise four litters of about six young each. Well fed, the young reach marketable size when 3 to 4 month old, and average from five to six pounds live weight.

There is more money in the Sub-Treasury at San Francisco than there is in the United States Treasury at Washington.

### CANDIDATE'S CARDS.

#### FOR COUNTY COMMISSIONER.

Our Republican County Commis-  
sioner, the only representative of Middle-  
town Valley on the entire Board, hav-  
ing been called by death from our  
midst, and the Democratic State Cen-  
tral Committee having seen fit to fill  
the vacancy with a Democrat from  
New Market district, thus leaving our  
valley, from Pen-Mar to the Potomac  
River, without representation, at the  
earnest solicitation of my many friends,  
I hereby announce myself as a candi-  
date for County Commissioner from  
Middletown District, No. 3, subject to  
the Republican Primaries in September,  
1917. I kindly ask your support.

m18tp

ALBERT S. REMSBERG.

#### FOR COUNTY COMMISSIONER.

At the request of many of my friends  
in Frederick county, I have decided to  
submit my name to the Republican Pri-  
mary for the office of County Commis-  
sioner. I would appreciate the support  
of all Republicans.

DAVID OLAND,

J-8-tp. Buckeystown District, No. 1.

#### FOR COUNTY COMMISSIONER.

At the solicitation of friends through-  
out the county I hereby announce my-  
self as a candidate for the nomination  
of County Commissioner, subject to the  
Republican primary election in Sep-  
tember. I will greatly appreciate your  
vote and support.

WILLIAM J. MARTIN,

Jne 15 tp. Mechanicstown District.

#### For County Commissioner.

At the earnest solicitation of innumera-  
ble friends I announce my candidacy as  
nominee for the office of County Com-  
missioner, subject to the Democratic  
Primary.

ROBERT L. TROXELL,

Emmitsburg District.

#### For County Commissioner.

I hereby formally announce that I am  
a candidate for nomination for the office  
of County Commissioner, subject to the  
Republican primary.

VERNON T. SMITH,

mar 30-1f. Lewistown District.

## HOME DRYING FRUITS AND VEGETABLES

TRAYS FOR DRYING FRUITS AND VEGETABLES.

(From FARMERS' BULLETIN 841, United States Department of Agriculture.)

One of the most prominent features  
of the food conservation program of  
European countries has been the uni-  
versal drying of fruits and vegetables.  
The surplus vegetables in the city mar-  
kets were forced by the governments  
into large municipal drying plants.  
Community dryers were established  
in the trucking regions and even itin-  
erant drying machines were sent from  
farm to farm drying the vegetables  
which otherwise would have gone to  
waste. In addition, large quantities of  
dried vegetables from Canada and this  
country were shipped to France dur-  
ing the last two years, and there is a  
possibility that dried fruits and vege-  
tables may continue to be shipped  
abroad in considerable quantities to  
supplement the concentrated food diet  
of the men in the trenches.

The drying of vegetables may seem  
strange to the present generation, but  
to our grandmothers it was no nov-  
elty. Many housewives even today pre-  
fer dried sweet corn to the product  
canned by the old method, and say  
that dried pumpkin and squash are ex-  
cellent for pie making. Snap beans  
often are strung on threads and dried  
above the stove. Cherries and rasp-  
berries still are dried on bits of bark  
for use instead of raisins. In fact,  
many of the everyday foodstuffs al-  
ready are dried at some stage of their  
preparation for market. The common  
dried fruits, such as prunes, raisins,  
figs, dates and apples, are staples in  
the world's markets, while beans and  
other legumes, tea, coffee, cocoa, and  
various manufactured foods, like  
starch, tapioca, macaroni, etc., are  
dried either in the sun and wind or in  
specially constructed driers.

Even though the drying of fruits and  
vegetables as practiced a few decades  
ago on many farms has become prac-  
tically a "lost art," the present food  
situation doubtless will cause a marked  
stimulation of drying as a means of  
conserving the food supply. This coun-  
try is producing large quantities of per-  
ishable foods this year, which should  
be saved for storage, canned, or prop-  
erly dried. Drying is not a panacea  
for the entire waste evil, nor should it  
take the place of storing or canning to  
any considerable extent where prop-  
er storage facilities are available or tin  
cans or glass jars can be obtained  
readily and at a low cost.

#### Advantages of Drying.

The advantages of drying vegetables  
are not so apparent for the farm home  
as they are for the town or city house-  
hold, which has no root cellar or other  
place in which to store fresh vege-  
tables. For the farmer's wife the new  
methods of canning probably will be  
better than sun drying, which require a  
somewhat longer time. But shorter  
methods of drying are available, and  
the dried product holds an advantage  
in that usually it requires fewer jars,  
cans, or other containers than do  
canned fruits or vegetables; also dried  
material can be stored in receptacles  
which cannot be used for canning.  
Then, too, canned fruit and vegetables  
freeze and cannot be shipped as con-  
veniently in winter. Dried vegetables  
can be compacted and shipped with a  
minimum risk.

#### Special Advantages.

To the housewife in the town the  
drying of vegetables and fruits pre-  
sents special advantages. During the  
season when the market is oversup-  
plied locally and prices are low she  
can lay in a stock, dry it, and put it  
away for a winter's emergency without  
its taking up much of the needed small  
storage space in her home. If she is  
accustomed to canning her fruit and  
vegetables and finds she cannot se-  
cure jars or tin cans, she can easily re-  
sort to drying.

With simple and inexpensive facili-  
ties, all housewives can save quanti-  
ties of food which are too small con-  
veniently to can. A few sweet pota-  
toes or apples or peas or even a single  
turnip can be dried and saved. Even  
when very small quantities are dried  
at a time, a quantity sufficient for a  
meal will soon be secured. Small lots  
of several dried vegetables, such as  
cabbage, carrots, turnips, potatoes, and  
onions, can be combined to advantage  
for soups and stews.

#### Cleanliness Is Big Factor.

Cleanliness is as necessary in the  
preparation of vegetables and fruits  
for drying as in their preparation for  
canning, perhaps even more so. To  
secure a fine quality of dried products  
much depends upon having the vege-  
tables absolutely fresh, young, tender,  
and perfectly clean. If steel knives  
are used in paring and cutting have  
them clean and bright so as not to dis-  
color the vegetable. The earthy smell  
and flavor will cling to root crops if  
they are not washed thoroughly before  
slicing, and one decayed root may fla-  
vor several kettles of soup if the slices  
from it are scattered through a whole  
batch of dried material. High-grade  
dried "root" vegetables can only be  
made from peeled roots.

In the preparation of large quanti-  
ties of potatoes a peeler may be uti-  
lized. The potatoes are thrown by cen-  
trifugal force against a rough surface  
which, under streams of water provid-  
ed by the perforated tin container  
above, nicks off the outer skin and  
leaves only the eyes to be dug out.

Blanching of vegetables is consid-  
ered desirable by some housekeepers,  
although it is not strictly essential to  
successful drying. It is claimed that  
the blanch gives a more thorough  
cleaning, removes the strong odor and  
flavor from certain kinds of vege-  
tables, and softens and loosens the fiber.  
This allows the moisture in the vege-  
table to evaporate more quickly and  
uniformly. It also quickly coagulates  
the albuminous matter in the vege-  
tables, which helps to hold in the natural  
flavors. Blanching consists of plung-  
ing the vegetable into boiling water for  
a short time. Use a wire basket or  
cheesecloth bag for this. After blanch-  
ing the required number of minutes,  
drain well and remove surface mois-  
ture from vegetables by placing be-  
tween two towels or by exposing to  
the sun and air for a short time.

#### Preparing Food for Drier.

In large factories the vegetables are  
put through special shredders and  
slicers not adapted for home use,  
but convenient and inexpensive ma-  
chines which can be used to great ad-  
vantage are on the market. The meat  
grinder with its special disks can be  
used in certain cases; the common  
kraut slicer will cut large vegetables  
into thin slices, such as potatoes and  
cabbage; and the rotary hand slicer is  
adapted for use on a very wide range  
of material. A large sharp kitchen  
knife may be used when a handier  
cutting device is not available. Care  
should be taken that the material is  
sliced thin enough but not too thin.  
From an eighth to a quarter of an  
inch is a fair thickness for most of  
the common vegetables to be sliced  
and dried. Very small slices or strips  
dry more quickly because they expose  
a greater surface to the air than do  
larger cut pieces. But if cut too fine  
they are more difficult to handle in  
drying, appear to lose somewhat in  
flavor, and cannot be used so advan-  
tageously to make dishes like those  
prepared from the fresh foods.

The slicing machines are not suit-  
able for children's use, for they will  
cut fingers as mercilessly as they do  
vegetables and fruits, and even adults  
should exercise great caution in their  
use in the home.

#### Good Packing and Storing.

Although not necessary, tin cans or  
glass jars make good receptacles for  
storage of dried fruits or vegetables.  
Pasteboard boxes with tight covers,  
stout paper bags, and patented paraffin  
paper cartons also afford ample pro-  
tection for dried products when pro-  
tected from insects and rodents. The  
dried fruit or vegetables must be pro-  
tected from the outside moisture and  
will keep best in a cool, dry, well-ven-  
tilated place. These conditions, how-  
ever, are difficult to obtain in the more  
humid regions, and there moisture-  
tight containers should be used.

If a small amount of dried product  
is put in each receptacle, just enough  
for one or two meals, it will not be  
necessary to open a container the con-  
tents of which cannot be consumed in  
a short time. The use of the small  
container also makes it more difficult  
for insects to spoil large quantities of  
dried fruits or vegetables. If a paper  
bag is used, the upper part should be  
twisted into a neck, bent over, and tied  
tightly with a string. If a further  
precaution against spoilage is neces-  
sary the bag can be coated with par-  
affin by painting it with a brush which  
has been dipped into melted paraffin.  
Another precaution may be taken by  
placing the small bags in a tin con-  
tainer with a tightly fitting cover, such  
as an ordinary lard can or pail. All  
bags should bear a label indicating  
what they contain.

If fruits or vegetables are packed in  
tight containers immediately upon be-  
ing dried thoroughly, they will remain  
just as brittle as they were when tak-  
en from the drier. If, however, they  
are not dried thoroughly, they will  
"sweat" and soon mold. To prevent  
this the material should be examined  
within 24 hours after packing, and if  
it appears moist it must be dried  
further.

#### To Dry Cauliflower.

Clean, divide in small bunches,  
blanch six minutes, and dry two to  
three hours at 110 degrees to 145 de-  
grees Fahrenheit. Cauliflower will  
turn very dark when drying, but will  
regain part of the color in soaking and  
cooking. Dried cauliflower is especial-  
ly good in soups and omelets.

Brussels sprouts may be handled in  
a similar way, but add a pinch of soda  
to the blanching water.

## WESTERN MARYLAND COLLEGE WESTMINSTER, MD.

## PERSONALS.

Misses Elizabeth Whyatt, and Naomi Kidd, of Baltimore are the guests of Miss Eloise Gross.

Mr. and Mrs. Michael Hoke, Mr. and Mrs. Cleveland Hoke and two daughters, Catherine and Marion Hoke, and Miss Fannie Hoke, spent Sunday in Carlisle, Pa.

Mr. and Mrs. Frank Pennell, Miss Helen McKee and Messrs. Carroll Pennell and Earl Hoppe, of Philadelphia visited friends in Emmitsburg this week.

Mrs. Frederick Welty, of Philadelphia, who has been spending some time with relatives here has returned home.

Reverends L. Aug. Reudter, P. J. Enright, of McSherrystown, Pa. and William Finke, of New York, motored to Emmitsburg on Wednesday.

Mr. and Mrs. William Roddy and daughter Evelyn, of Baltimore, are visiting Mrs. James McGrath.

Miss Elizabeth Bates, of Baltimore, is visiting Miss Mildred Biggs.

Mr. and Mrs. C. F. Rotering left Tuesday for Baltimore and New York where they will visit friends and relatives.

Mrs. Charles Staley and little Miss Mary Kessler, spent two weeks with relatives in Gettysburg.

Miss Lillian Gelwicks is visiting friends in Baltimore.

Miss Lillian Long left Tuesday for Baltimore where she has secured a position.

Mrs. Walter Ziegler and sons, Walter, Jr., and George, of Frederick, visited Mr. and Mrs. Harry Harner.

Rev. James Neck, of Baltimore, spent several days in Emmitsburg this week.

Mr. Harry Kreis, of Baltimore, spent Sunday with Mr. and Mrs. Philip Lawrence.

Miss Helen Norris, of Union Bridge, is visiting Miss Margaret Boyle.

Mr. Sheridan Biggs spent last week with relatives at Blue Ridge Summit.

Miss Grace O'Connor, of Frederick, spent Tuesday with friends in Emmitsburg.

Mr. Charles Jackson, and son, and Miss Marie Jackson, of Baltimore, spent Sunday with Mr. and Mrs. John Jackson.

Miss Marguerite Bell, and Mr. Robert Bell, of York, Pa., are visiting their sister Mrs. Lawrence Mondorff.

Mr. Robert Horner, spent the week-end with his brother, Mr. A. A. Horner.

Mrs. G. Meade Patterson is spending some time at Craig Springs, Va.

Misses Dollie and Pauline Steig, of York, Pa., spent several days last week with relatives in Emmitsburg.

Miss Adele Minnick, of Carlisle, is visiting her grandparents, Mr. and Mrs. Michael Hoke.

The Misses Angela and Mildred Neser, of Baltimore, returned after a week's visit to friends in Emmitsburg.

Messrs. Herbert Lee and Joseph Collieran, of Baltimore, spent Sunday with Mr. and Mrs. Joseph Neck.

Mr. Edward J. Eckenrode spent a few days in Baltimore.

Mr. and Mrs. J. Harry Finke, of Baltimore, spent Sunday with Mrs. Mary A. Dukehart.

Miss Rhoda Gillelan, of Baltimore, is visiting her mother, Mrs. Ida Gillelan.

Mrs. Mary Pampel, of Norfolk, Va., is visiting relatives in Emmitsburg.

Miss Dorothy Biggs, of Baltimore, spent Sunday with Mr. and Mrs. Robert L. Annan.

Master Thomas Nelson, is spending some time with his aunt, Mrs. Robert L. Annan.

Miss Anna Nelson, of Baltimore, is visiting Mr. and Mrs. Joseph Topper, of near Emmitsburg.

Misses Ruth G. Ashbaugh and Vergie Valentine and Messrs. Lloyd Ohler, Raymond and George Baumgardner and Elias Welty spent Sunday at Atlantic City.

Mrs. Carson P. Frailey and son, Carson Grey, of Washington, D. C., are spending the summer with Mr. and Mrs. Oscar D. Frailey.

Miss Belle Rowe is visiting in Chambersburg, Pa.

Rev. Mr. Schaffer, of Hanover, Pa., was in Emmitsburg on Friday.

Dr. Carson P. Frailey, of Washington, D. C., spent the week-end with his parents, Mr. and Mrs. Oscar D. Frailey.

Mrs. T. E. Zimmerman and son, Joseph, are spending a week at Atlantic City.

Mr. Walter B. Peppler, of Baltimore, spent the week-end in Emmitsburg.

Miss Carrie Easley is visiting relatives in Milton, Pa.

Ford cars that have been used—both roadsters and touring cars—may be bought at a price from the Peoples Garage.

## CARD PARTY POSTPONED.

The card party at "Hidside" the home of the Misses Corry, for the benefit of St. Anthony's Church, which was postponed on account of the rain will be held next Tuesday evening. In case of rain, the next clear evening.

## LOCAL BREVITIES.

The artesian well on the property of Mr. J. Thomas Gelwicks on Federal Hill, has been completed.

The Emmitt Cornet Band serenaded Mr. and Mrs. Roy W. Gelwicks, on Tuesday evening at their home on Frederick street.

Among the property transfers this week is the following: James A. Helman to Mary E. Helman, et al, real estate in Emmitsburg, love and affection.

The following was received from a subscriber in Washington: "Please change my address to—I do not wish to miss one copy of your most interesting paper."

The maximum temperature for this week was eighty-six degrees on Monday and the minimum temperature was seventy two degrees on Wednesday.

Word was received in Emmitsburg that Mr. Charles Dix Eichelberger, son of Mrs. J. W. Eichelberger, has successfully passed the examination of the Delaware State Board of Pharmacy.

Master Harold Glass while fishing in Flat Run on Thursday afternoon had the misfortune to run a fish hook in his left thumb. The injury was dressed by a local physician.

The Red Cross Service is not a service of Charity, it is a service of Mercy, and in this service knows no limitations.

## WOMAN'S AUXILIARY.

At a special meeting of the Emmitsburg branch of the Woman's Auxiliary of the Defense League of Frederick County, held in the School Auditorium on Wednesday, July 18, the following Resolution was unanimously adopted:

Inasmuch as the Woman's Auxiliary of Emmitsburg was organized for the purpose of rendering every possible assistance in the practical work incident to Red Cross endeavor; and as in the pursuance of this work its large membership has labored faithfully, loyally and continuously, and to such good purpose as to be officially commended for its splendid spirit and service and for the magnitude of its output; and inasmuch as each member of the organization as now constituted joined and paid the required dues upon the distinct understanding that it would remain an auxiliary for a full year, at least; and inasmuch as the present membership feels that this auxiliary is contributing to the full extent of its ability and further feels that it knows and fully understands local conditions; and inasmuch as this auxiliary is convinced that any sudden and complete departure from its original plan would at this time seriously militate against the accomplishment of the laudable purpose which it has in view.

Therefore Be It Resolved—That for the present, at least, the Woman's Auxiliary of Emmitsburg decline to sink its identity by joining the National Red Cross.

The next meeting will be on Thursday, July 26.

At all times the Peoples' Garage has for sale second-hand Ford cars—roadsters and touring cars.

## Brute Council Among First.

Brute Council, No. 1860, Knights of Columbus (Emmitsburg Council), has effected plans whereby to aid the great and important work of caring for the moral and social welfare of Catholics who have enlisted in the Army and Navy. The War Department has officially designated the Knights of Columbus to engage in this undertaking and this organization will be on the same basis in serving Catholics as is the Y. M. C. A. in aiding non-Catholics. Brute Council was among the very first to furnish its quota of the \$1,000,000 fund to be raised for this purpose.

## SPECIAL MEETING.

There will be a very important meeting of the Civic League held in the School Auditorium on Tuesday evening July 24, 8 o'clock. All members are requested to be present.

## Not All "Slackers," These.

According to a Frederick newspaper there were two hundred and twenty men in Frederick County who failed to register on June 5, last.

Since this publication it has been found that quite a number had registered in other places, that is in their homes. It is a mistake therefore and quite an injustice to assume that these men were "slackers."

A few were reported "failed to register" in a list supposed to represent Emmitsburg. Inquiry has brought to light the fact that some of these, at least have registered in other places.

## New Cannery Nearing Completion.

Work at the Taneytown cannery is progressing, the main unfinished large operation being the well which is now at a depth of about 150 feet, and may be continued to 400, in order to secure an abundant supply of pure water, a very necessary adjunct to the canning business. About 325 acres of corn have been planted which ought to produce an average of 3 tons per acre, and will mean a big lot of work, and the need for many hands for husking and other processes.

## CHURCH NEWS

Regular services in the Emmitsburg Churches are as follows:

## CATHOLIC

Mass, Sunday 6, 7:30 and 9 a. m.  
Vespers, Sunday 7:30 p. m.  
Mass, week day, 6 and 7 A. M.

## ST. ANTHONY'S

Mass, Sunday at 7 and 10 a. m.  
Week day Masses 6 and 7 a. m.

## OBITUARY.

## HENRY BOYLE.

Henry Boyle, a life-long and highly respected resident of Libertytown, Md., died Monday evening, July 23, from an attack of cerebral congestion, aged 76 years, 11 months and 16 days.

Mr. Boyle had been a staunch Democrat all his life; and a few years ago held an office under the Collector of Port of Baltimore.

Six years ago Mrs. Boyle died and he has been making his home with his daughter, Mrs. Edgar Hammond. He is survived by eight children, two daughters, Mrs. Edgar Hammond and Mrs. Sidney S. Sappington, of Libertytown; and six sons, Harry S. and J. Brooke, of Emmitsburg; and Frank J., Joseph B., James D. and Albert J., all of Baltimore.

Funeral was held Thursday morning at 10 o'clock in St. Peter's Catholic Church, Requiem High Mass, Rev. S. J. Kavanaugh, officiating. The six sons of the deceased acted as pallbearers. Interment was made in the Catholic cemetery adjoining the church.

## LUELLA MAY McCLAIN.

Luella May McClain, infant daughter of Mr. and Mrs. Walter McClain died at her home, near Fountaineale Sunday July 15, aged 11 months. Funeral services were held Tuesday at Fountaineale, with interment in Fountaineale cemetery.

## Transferred to Aviation Corps

The following letter, under date of July 18, was received by Samuel McNair Annan, of Emmitsburg:

U. S. Navy Recruiting Station, Baltimore, Md.

Mr. Samuel McNair Annan, Emmitsburg, Md.

Dear Sir:

With further reference to your application for enlistment in the Navy as a landsman for Quartermaster (Aviation), this is to advise you that permission has been received from the Navy Department to waive your under-age and I will be glad to enlist you in the rating above named anytime you call at this office.

Yours very truly,

M. A. LEAHY,  
Lieutenant U. S. Navy,  
Officer in Charge.

Mr. Annan was formerly a member of Company A, M. N., G., Frederick, Md.

## Company A Called Next Wednesday.

Captain Elmer F. Munshower yesterday afternoon issued orders to members of Company A, First Maryland Regiment, instructing them to report at the State Armory, Frederick, next Wednesday morning at 9 o'clock where they will be held until full equipment has been issued and the Maryland troops are ordered to Anniston, Ala., for training.

## SPECIAL NOTICE.

¶ All communications for this paper and all letters of a business nature should be addressed to THE WEEKLY CHRONICLE and not to individuals in the office.

¶ Strict observance of this rule will obviate mistakes, delays and misunderstandings. July 13-14.

## U. S. Navy Needs Musicians.

Competent musicians are needed very badly in the Navy. Those ranking as first-class will receive \$43.20 per month and second-class men will get \$41. But even though a young man between the ages of 18 and 25 is not an expert, if he is able to prove that he has some knowledge of music he will be accepted and sent for further training to a government school where he will be prepared for service in one of the many naval bands.

## ROBERT WANTZ INJURED WHILE ATTEMPTING TO STOP RUNAWAY

Dragged By Frightened Animal Receives Deep Cuts And Badly Lacerated Eye.

Robert Wantz, a farmer, residing about a quarter of a mile north of Emmitsburg met with a serious accident on Friday afternoon, July 13. Mr. Wantz was hitching two horses to a wagon at the time of the accident. He had hitched one of the horses and while adjusting the harness on the other it became frightened and started to run away. Wantz held on to the bridle and after being dragged a considerable distance fell. He was huried in an automobile to the office of Dr. D. E. Stone, where he was given medical attention.

An examination showed that he had sustained several deep cuts over his right eye. The flesh was torn from the side of the face leaving the eye ball, upper and lower teeth exposed. The upper eye lid was torn off with the skin and muscles of the face. Fine gravel and dirt were ground into the flesh. It is to be hoped that he will retain the sight of the eye, but his face will be badly disfigured. His back was raw, the result of being dragged.

According to reports today, Mr. Wantz is improving slowly, and every hope is being entertained for a speedy recovery.

Second hand Ford cars—roadsters and touring cars—for sale at the Peoples' Garage.

## SOLDIERS AT THE FRONT

HAVE MANY PECULIAR FEARS

One Has Horror of Shoestrings Coming Untied.—Many Fear Losing Their Identity Discs.

"It is extraordinary what curious fears some soldiers have," says a Toronto paper. "One fighter always dreads that his charcoal fire will be destroyed by a shell. He always places the burner in the most protected part of the trench, but remains quite indifferent in regard to his own personal safety."

"Another extraordinary fear of a soldier at the front is that of having his bootlaces untied. Nothing else has terrors for him, from bayonet fighting to apophyxiating gases. But he is quite certain that if his bootlaces are loose he will trip over them and break his neck. He always examines his laces to see if they are properly fastened. Another soldier who has been through the thick of the fighting is terribly frightened of going through a wood, and would rather walk miles round it than half a mile through it. He has the fear that some day a tree will suddenly fall and crush him."

"Many soldiers have a horror of losing their identity discs, or of being unidentified if they are killed, and buried in a nameless grave. One man is known to carry little scraps of paper in every pocket, giving his name and regiment, so that his body may be recognized if he is killed."

## Prosperity For Producers.

The prospect of a shortage in the production of almost everything that people really like to eat or drink has occupied public attention for many months, but until a little more than a week ago it does not seem to have occurred to anybody that a shortage in the tobacco supply of the world was not only possible but probable. The rush to acquire possession of the wrapper tobacco of the Connecticut valley that has resulted is unexampled in the history of the industry. Within another week, in all probability, practically every pound of Havana seed and broadleaf tobacco that can be grown in this region during the present season will have been sold by the growers at prices from twenty-five to fifty per cent above what they have received for many years past. Agents of the big tobacco concerns of the country suddenly descended upon the growers in droves and contracted for everything in sight that looks like a possible crop of wrapper tobacco. All the big tobacco merchants of Hartford have been out in their automobiles from early morning until late each afternoon on similar errands during past week.

## War Board of Railways to Help.

Herbert Hoover received resolutions adopted by the American Railway Association's War Board, pledging the board and its individual members to put into effect the rules for the conservation of food on dining-cars, as worked out between Mr. Hoover and representatives of the commissary departments of the railroads.

The regulations approved provide, among other things, that extra charges shall be made for all portions of wheat bread and butter; that meat orders shall be cut in half, with a charge for additional portions; that no wheat bread shall be served for breakfast or lunch; that beef, pork or mutton shall be served only once a day; that no veal, lamb, squab-chickens or quab-turkeys shall be served and that use of sea foods, vegetables and fruits shall be liberal.

The month of February 1866, was the most remarkable in the world's history. It had no full moon. January had two full moons and so did March, but February had none. It has not occurred since the creation of the world and it will not occur again, according to astronomers, for 2,500,000 years.

## Gas Masks For Sammies.

Army orders disclose the fact that the government and civilian experts are hard at work on the production of an effective gas mask for American troops.

Major L. P. Williamson of the medical corps, has been ordered to Pittsburgh, Baltimore and New Haven to inspect laboratory work done there.

Every American destroyer or other naval vessel which sails for the war zone carries a full equipment of gas masks.

Gas shells have been used by the German naval gunners and it was deemed necessary to equip American boats against such devices when the first were despatched.

## DESIRABLE PROPERTY FOR SALE.

The property on south Frederick St., containing 38,400 sq. feet, and known as the Emmitsburg Generator Company's lot is for sale on private terms, for cash.

This lot, having a street frontage of 160 feet and extending back 240 feet, is particularly suitable for factory, warehouse or business purposes.

apply to J. C. ROSENSTEEL, apr 20-11. Emmitsburg, Md.

## HOT WATER FRUIT AND VEGETABLE DRYER

This is the cheapest, simplest, most durable and effective dryer for domestic use that has ever been invented. It requires very little space and is used on top of a range or stove when not used for cooking, and when it is removed from the range to make room for cooking it still continues to dry on account of the hot water, which requires some time to cool. This dryer is especially adapted to drying sweet corn and with very little attention can be dried off twice in one day. There is absolutely no burning or scorching which is one of the essential features of a dryer. It has a dry surface of 18 by 26 in. and weighs six pounds. PRICE \$2.50.

Manufactured by J. T. HAYS & SON Emmitsburg, Md.

Clarence G. Frailey & Co.

## SOIL FOR LIMA BEANS

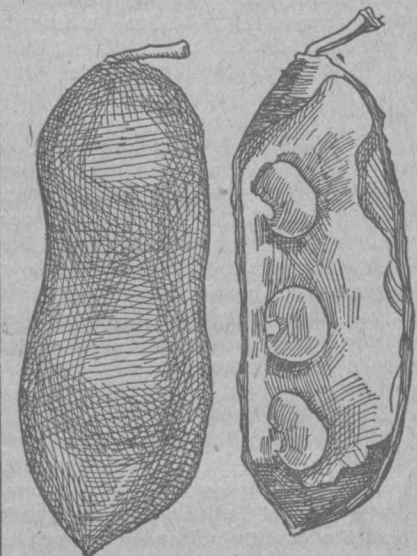

One of Most Desirable Products of Any Family Garden.

General Rules for Care of Garden Crops Should Be Adhered to in Cultivation—Plant Thrives When Land Is Rich.

Beans thrive best in a rather warm sandy loam, but may be grown on almost any kind of soil. For the best results the soil should not be too rich in nitrogenous matter, or the plants will run to foliage and stems at the expense of the crop of pods. Heavy clay soils are not well adapted to bean culture, owing to the tendency of the soil to bake and prevent the seedlings from coming up evenly. The bean does not draw heavily upon the soil and is suitable for rotation with other garden crops.

In the cultivation of beans, the general rules for the care of garden crops should be adhered to, and frequent shallow stirring of the soil practiced. For a constant supply of bunch or snap beans successive plantings should be made, the final planting being made about eight weeks before time for frost in the autumn. In the South, plantings should be made as soon as the ground begins to warm, and continue until hot weather sets in. Toward the end of summer one or two plantings should be made for a fall crop.

The lima bean, both pole and bush, forms one of the most desirable products of the garden. This crop thrives best when the soil is quite rich; in

Late Lima Beans.

fact, good lima beans cannot be grown in poor soil. Place the seed in hills, 8 or 10 to the hill, and after the plants become established thin to 4 or 5. The hills should be 4 or 5 feet apart for the pole varieties and 2 or 3 feet apart for the dwarf or bunch varieties. It is a good plan to make up the hill with a little additional manure well mixed with the soil. Cover the beans about 1 1/2 inches, placing them with the eye downward.

When planting beans of any kind, the seed should not be covered to a greater depth than 2 inches when the soil is moderately dry, and if the soil is wet, the covering should be very slight.

## TEST GERMINATION OF SEED

Varieties Best Adapted to Local Conditions Should Be Used—Plant for Full Stand.

No one should run the risk of crop failure for using poor seed. This is especially true at this time when all possible agricultural produce is needed. Seed of the varieties best adapted to local conditions should be used as far as available. Particular care should be taken that all seed is planted at such a rate as to insure a full stand in the field under normal weather conditions. Wherever possible, sow only seed which germinates well. It often happens, however, that the available supplies do not germinate well. All seed, therefore, should be tested for germination before sowing and the rate of sowing of any that does not germinate well should be increased sufficiently to insure the use of a proper amount of live seed.

## HANDY LOW-WHEELED WAGON

Handy for Use in Harvesting of Corn for Silage—Large Saving of Manual Labor.

A wagon with low wheels for use in the harvesting of corn for silage is recommended by H. C. Ramsower of the college of agriculture, Ohio State university. Although the draft is approximately one-third greater than that of a higher-wheeled wagon, the saving of man labor is of greater importance. Aside from its use in the handling of silage, it can be of great advantage for many other farm operations.

## CORN HEAVY FOOD PRODUCER

Will Yield More Per Acre Than Any Other Crop, With the Possible Exception of Alfalfa.

Corn will produce more food per acre than any other crop except possibly alfalfa. It produces both grain and forage that is both nutritious and well relished by all kinds of stock. Corn fodder has about the same feeding value as timothy hay and shelled corn has about the same feeding value as oats.—North Dakota Experiment Station.

## Notes and Remarks Personal And Pertinent By Country Contributor.

Mr. Ernest Walter of Waynesboro, Pa., spent Sunday with his parents, Mr. and Mrs. William Walter, "Villa Rest."

Mrs. David O'Donoghue and Messrs. John and Allan O'Donoghue, of "Bella Vista," spent Sunday and Monday visiting Mr. Sydney O'Donoghue who is a member of the Hopkins Ambulance Corps in camp at Allentown, Pa.

Miss Mary Gannon, of Baltimore, is the guest of Miss Margaret Reudter, at "Crystal Iron Springs."

Mrs. Margaret Manley, accompanied by her granddaughter, Miss Margaret Jennings, motored to Baltimore, where they spent some time visiting relatives.

Mr. and Mrs. George Lingg and Master Maurice Lingg, of "Locust Cottage," motored to Gettysburg and Hanover, Pa., and Thurmont, Md. this week.

Mrs. John Lawson, Master Willie Lawson, of Philadelphia, Pa. and Mrs. Joseph Rider, of near Emmitsburg, are visiting Mr. and Mrs. Clarence Sanders and family, of "Hill Top Cottage."

Mr. and Mrs. George Lingg, entertained the following guests during the week at their home "Locust Cottage": Mrs. Nicholas Lingg, Misses Elizabeth and Catherine Lingg, of New Oxford, Pa., Mrs. Myers, of Reading, Pa., Mr. and Mrs. Archie Lingg, and Mr. Guy Lingg, of Hanover, Pa.

Mrs. M. C. Coyle, Miss Emma C. Coyle, Messrs. James and Joseph A. Coyle, of Pittsburgh, Pa., have returned home after spending several weeks at "Idlewild."

Mr. and Mrs. Charles McNulty and child, of Philadelphia, Pa., have returned home after spending several weeks visiting relatives and friends in this vicinity.

Mrs. James Seltzer spent Tuesday with the family of Mr. and Mrs. John Peddicord.

Miss Ruth Cool is visiting her grandparents, Mr. and Mrs. Lewis Krug, near town.

Mr. John O'Donoghue is attending the Summer School at Johns Hopkins University.

## FROM ALL POINTS OF COMPASS.

(Continued from page 4.)

### Thursday.

President Wilson at noon today pardoned the 16 suffragists sentenced to 60 days in the workhouse, after trial for picketing with banners in front of the White House. They were released as soon as word of the pardon could be sent to Superintendent Whitaker, at the Oceanac Workhouse.

A mob of 250 Lynchburg, Va. farmers today captured Albert Barrett, colored, and his 14-year-old son, alleged slayers of R. T. Roch, a white farmer, after a three-day hunt. Barret is said to have confessed.

Paid Out \$758,500,000.

In 1916 the life insurance distributions in the United States and Canada amounted to \$758,500,000 is computed by The Insurance Press. The payments for death claims, matured endowments and other benefits amounted \$476,900,000. For premium savings (dividends paid to policyholders,) for the cash values of policies surrendered, for annuities, and to beneficiaries under policies issued in foreign countries, the regular companies in the United States and Canada paid amounts estimated in part, that aggregated \$281,600,000.

### Constipation and Indigestion.

"I have used Chamberlain's Tablets and must say they are the best I have ever used for constipation and indigestion. My wife also used them for indigestion and they did her good," writes Eugene S. Knight, Wilmington, N. C. Chamberlain's Tablets are mild and gentle in their action. Give them a trial. You are certain to be pleased with the agreeable laxative effect which they produce. Obtainable everywhere. \*\*Advertisement. July 6-1-1mo.

### Money a Great Responsibility.

Mrs. Vanderbilt says: "Every dollar that is spent by American women in American shops remains in this country, takes its place in the army of trade and helps to keep normal the life and business of the country."

"There is no reason why anybody should get hysteria and take a hand in paralyzing the business of merchants who sell non-combatant wares."

"Wise spending starts an endless chain."

"The greatest place in war for the American woman to work is in her home."

The largest hanging bell in the world is in a Buddhist monastery, near Canton, China. It is eighteen feet high and forty-five feet in circumference, and is of solid bronze.

The greatest monument ever built by human hands is the great walls of China which still stands though built by Shih Hwang-ti who resigned B. C. 216-221.

### IT MAY BE THAT YOU

are among the number who intending to settle for your subscription and who overlooked the last notice requesting all those who are in arrears to make a settlement.

## ACROSS THE LINE

Reports from Pennsylvania headquarters of the American Red Cross show that this state contributed \$9,805,462.70 to the \$100,000,000 war fund. Pittsburgh was the heaviest contributor and Philadelphia was a close second. Gettysburg's total which includes all of Adams county is listed in the report of the Red Cross as \$5,500.

Harry McElroy, 54 years old, a former burgess and present councilman of Wrightsville, Pa., died Tuesday night.

Fire Friday afternoon destroyed the handsome home of Ambrose Cessna, a wealthy farmer, of Cumberland Valley. Nothing could be done to save the residence which was a total wreck.

John King, 75 years old, and his son, Lloyd King, aged 27, both of West York, were struck by lightning and instantly killed Sunday night while fishing along the Big Conewago near Cresager's Mill, 10 miles from Hanover.

A fire in the factory of the Emerson-Brantingham Co., at Waynesboro, Friday morning, caused a loss of about \$75,000. The flames destroyed a factory storage shed in which were 50 separators and four engines, three traction and one portable. It is not known how the fire originated, except that it might have been started by a jitney setting fire to some waste.

A year ago about 22,000 farmers were using motorcars for business and pleasure in Pennsylvania. Now the number has increased about 50 per cent. Fourteen per cent. of them are using cars this year. About 976 trucks are in use on farms.

Johnstown business men have underwritten a \$500 fund to provide camp luxuries for ninety young men of Johnstown in service with the United States ambulance corps, in training at Allentown. A separate fund is being raised to buy leather puttees for each of the Johnstown men.

James M. Hunter, of Pottsville, the first inspector in the department of labor and industry to qualify as a result of an examination, was appointed Friday, aged 63 years.

Rabbi Bernard Sadler, of the Covenant of Peace Temple, Easton, died Friday, aged 63 years.

First "war clerks" were employed by the Pennsylvania Railroad Northumberland, Friday when Miss Ruth Russell, Northumberland, was put on duty in one of the classification yard offices. More than 100 have applied for work.

George L. Schaale, of York, a former Councilman from the Seventh ward, was found dead in bed Sunday morning.

Lancaster turnpike, part of the Lincoln Highway, for more than a century the main highway into Philadelphia from the west was freed of tolls on Monday.

## Chamberlain's Colic, Cholera and Diarrhoea Remedy.

Every family without exception should keep this preparation at hand during the hot weather of the summer months. Chamberlain's Colic, Cholera and Diarrhoea Remedy is worth many times its cost when needed and is almost certain to be needed before the summer is over. It has no superior for the purposes for which it is intended. Buy it now. Obtainable everywhere. \*\*Advertisement. July 6-1-mo.

## FRANKLINVILLE NEWS.

Miss Louise Gall returned home on Sunday after spending a week with friends in Frederick.

Miss Julia Roelkey and friend Mr. Myers, of Frederick, spent Sunday with Mr. and Mrs. Carl Gall.

Miss Ruth Blackentief, is visiting her grandparents, Mr. and Mrs. Pryor, of Foxville.

Mr. and Mrs. Glenn Gall and children, and Miss Marie Dewees spent Wednesday evening with Mr. and Mrs. David Zentz.

Misses Marie and Edith Dewees spent Sunday with Misses Mable and Maude Fry.

Mrs. Robert Fry and children spent Saturday and Sunday with her parents, Mr. and Mrs. Walter Wastler.

Mrs. Rose Baker and children spent Saturday evening with Ed. Dewees.

Mrs. John Siess visited friends in Thurmont one day last week.

Mr. Luther Pryor, spent a few days last week with his daughter, Mrs. Harvey Stambaugh, of Graceham.

## LOYS AND VICINITY.

Mr. John S. Hoffman, of Thurmont visited his son, Mr. J. B. Hoffman, of near Loys.

Mr. and Mrs. William Weddle, of Creagerstown spent one evening last week with Mr. Jessie Fox and family.

Mr. and Mrs. Jessie Fox spent Thursday in Thurmont.

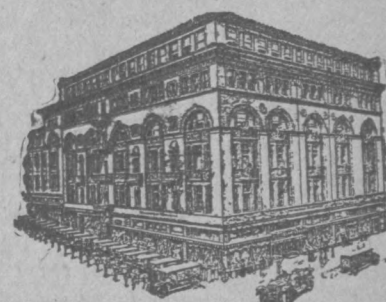

Miss Beulah Martin, visited Miss Beulah Tressler of Loys on Monday.

Mr. Harvey M. Pittenger made a business trip to Thurmont, on Monday.

Mr. and Mrs. Elmer J. Pittenger visited Mr. and Mrs. Washington Pittenger, on Sunday.

Billiousness and Stomach Trouble.

"Two years ago I suffered from frequent attacks of stomach trouble and biliousness," writes Miss Emma Verbyke, Lima, Ohio. "I could eat very little food that agreed with me and I became so dizzy and sick at my stomach at times that I had to take hold of something to keep from falling. Seeing Chamberlain's Tablets advertised I decided to try them. I improved rapidly." Obtainable everywhere. \*\*Advertisement. July 6-1-mo.

**Hochschild Kohn & Company**  
Howard & Lexington Sts. Baltimore

Why This Is Baltimore's Best Store...

"Baltimore's Best Store" is not a title which we arbitrarily adopted. It was conferred upon us years ago by the shopping public.

From the beginning of this store, nearly twenty years ago, we have striven to do these things:

To serve as well as to sell;

To give the store a homelike and hospitable atmosphere;

To make courtesy, liberality and friendliness everyday virtues among our people;

To sell dependable merchandise at fair prices, permitting no misrepresentation of quality or value, either in the public prints or behind our counters;

To make good, cheerfully and willingly, any shortcomings in any article we sell.

It is these principles that have been woven into the success of Baltimore's Best Store. And we are not even content with the store as it is, but are ever trying to make it still better.

Whenever you visit Baltimore, make this store your shopping headquarters. Whether you purchase or not, you will find the same cordial welcome.

Hochschild, Kohn & Co.

Baltimore, Md.

## DR. FAHRNEY

HAGERSTOWN, MD.

DIAGNOSTICIAN

Only chronic diseases. Send me your name and address and I will send you a mailing case and question blank. Don't use dope for chronic troubles, get cured. It is a satisfaction to know what the cause is. CONSULTATION FREE.

## PRINTERS' INK

Has been responsible for thousands of business successes throughout the country. Everybody in town may know you but they don't know what you have to sell.

"HOME AGENTS WILL GLADLY QUOTE YOU RATES AND TALK YOUR FIRE INSURANCE PROBLEMS OVER WITH YOU, WITHOUT CHARGE OR OBLIGATION.

THE "HOME" is represented in Emmitsburg District by

THE EMMITSBURG INSURANCE AGENCY

Office: Emmitsburg Savings Bank.

### CHICKEN CHATTER.

About the quietest way of creating a generation of weaklings is to breed from parents that at some time in their lives suffered from a contagious disease. A bit of powdered charcoal beats most of the so called bowel remedies that are on the market. Lice, heat and too much food make the June chick's life a short and painful experience. When you "don't understand" what is the matter" with the chicks just try changing their runs. Many times the very earth where they are is foul and full of disease germs. Don't forget to give the poultry an extra allowance of water this warm weather. They may be able to pick up a good share of their living now, but they cannot pump water.

### MAKING POULTRY PAY.

Freedom From Insects and Proper Feed Will Bring Success.

When anything is found wrong with poultry or other domesticated birds the maxim should be "look for lice," writes a poultry expert in the Philadelphia Press. Every year I believe more thoroughly in this maxim. There are two reasons why this must be true. They lie in the fact that lice breed in infinite numbers at the very season when other work is most insistently claiming every thought and every ounce of strength which the workers have to spare and in the additional encouraging fact that chicks from thrifty progeny on range can fight off all other ills if they are kept free from lice.

To give the chicks a fair chance for their fight dust the hens at the end of each week or sitting, as it is said to take a brood of lice about a week to hatch. Then put a very little plain oil on the head of each chick, use a little kerosene on the hens and trust to the favorable conditions prepared to give the results desired. Tobacco dust, simple and cheap, is used for dusting the hens. I do not like to use any dust on small chicks, as it seems to me there is danger of overdoing the matter.

The question of feed is disposed of in the same way. We plan to give as much time to feeding soft mash as we

White Leghorn hens, as a general rule, lead other breeds as layers, and this is one of the reasons why 90 per cent of all egg farms are stocked with this variety. They are small, active hens, producing equally well in confinement and on range. The hen shown is a Rose Comb White Leghorn.

can afford or believe to be desirable. Hopper feeding fills out all deficiencies and saves the time of the owners, while insuring that no chick shall get less than he needs. With chicks on full range, this is not as necessary, of course, as with chicks raised in confinement. But in all conditions I believe a little box of dry feed free to all the chicks is a first rate thing to provide.

The best ration for breeding fowls is plenty of good corn, a small amount of oats and all the dried meat scrap and wheat bran the fowls want to eat. A box of ground bran, a box of charcoal and a box of crushed oyster shells where the fowls can help themselves and a good supply of green grass will give more vitality to the eggs than any other feed.

The meat scrap and bran can be kept before the fowls where they can help themselves. They will not overeat after they have become accustomed to the food. Some persons have an idea that corn is not good for breeding hens, but my experience is that hens which eat large amounts of corn transmit more vitality to the chicks than those receiving other grains.

### Banish the Rooster.

The rooster does not increase the egg production of hens in the same flock, and he may decrease it. Kill him, pen him up or sell him when the breeding season is over and produce infertile eggs. Blood rings are the cause of one-third of the annual egg loss, and the rooster is directly responsible. Blood rings are simply an early stage of chick development.

### Proper Way to Carry a Hen.

The proper way to carry a fowl is to place it under the arm, the head pointing to the rear and the feet held firmly by the hand. In this way the bird can be carried for miles without the least discomfort to it or the person carrying it.

## ARE MAKING USE OF LAND BANK

Maryland Farmers Organizing Loan Associations.

### STEPS TO TAKE

Aid Of County Demonstration Agents Can Be Secured In Organization.

College Park, July 5.—In co-operation with the Federal Land Bank of Baltimore, the Extension Service of the Maryland State College of Agriculture, through its county demonstration agents, has begun a campaign of education, with a view of making the farmers of Maryland better acquainted with the Federal Farm Loan Act and its uses.

It has been recognized from the beginning that the farmer would be slow to take hold of the idea of a new kind of banking institution; and that special efforts would have to be made to arouse popular interest in the organization of the Farm Loan Associations in the various counties. In order to accomplish these ends, the Extension Service has just published Bulletin No. 4, entitled, "The Federal Farm Loan Act and The Farmer," by F. B. Bomberger, Assistant Director.

This bulletin is designed to present in simple language such directions and explanations as will enable any group of farmers, who desire to borrow money upon the security of their farm lands, to proceed step by step in the organization of a National Farm Loan Association, and actually to do the things necessary to be done in order to receive from the Federal Land Bank of Baltimore, the loans which they may desire in order to finance their farming operations.

The bulletin explains the purposes of the law and furnishes the general outlines of the "Farm Loan System." Then follow the successive steps necessary to be followed in the formation of the organization. Blank forms of organization, provided by the Federal Land Bank of Baltimore, are printed in the bulletin in order to make very explicit exactly how the association is to be formed and how it is to proceed after it has been organized.

In discussing the scope of territory to be included in any one association, it is pointed out that the Federal Land Bank of Baltimore, recommends that the county be made the unit of organization, and that the Secretary-Treasurer be located at the county seat where the records of the county will be readily available.

Any ten farmers who desire to borrow an aggregate amount of \$10,000 may form an association, although it is desirable to have more than ten in the initial organization. A farm may borrow any sum from \$100 to \$10,000. After a charter has been granted to the original association, any farmer of the county must borrow through the county association.

An interesting feature of the System is that each borrower must become a member of the County Association by investing five per cent. of the proceeds of his loan in the stock of the Association. This stock will participate in the earnings of the Association and the amount invested in the stock will be returned to the borrower when his loan is paid off.

All loans run for the period of thirty-six years, but the borrower may pay off the loan at any time after five years. An interesting feature of the system is the fact that the borrower is required to pay an annual installment of one per cent. on the principal in addition to the interest. Thus, at present the loans bear interest at five per cent. and by adding one per cent., making a total of six per cent. per year, the loan is fully paid off in thirty-six years.

The advantages inherent in this system of long term loans, with low rate of interest and the privilege of paying off the principal of the loan in annual installments of only one per cent., should make it very attractive to farmers who want to borrow money upon their farm land. These features remove the dangers that have heretofore attended the borrowing of money upon short term mortgages and do away with the expense of making new mortgages and securing new loans.

### THE HOME GARDEN.

College Park, July 5.—Maryland farmers are taking especial pains with their home gardens this year. They are aiming to keep up a constant and sufficient supply of vegetables for their own use and for their local markets. They are accomplishing this purpose by adopting a rotation of garden crops that will keep every foot of garden soil busy during the growing season. In a bulletin recently issued by the Maryland Agricultural Extension Service, S. B. Shaw, specialist in Horticulture, says: "The systematic rotation of farm crops has been advocated for a number of years, the principal end in view being an improvement of soil fertility. A well planned rotation of garden crops brings about this same result and, in addition, accomplishes two other purposes. It affords a greater amount of food supplies for a longer period of time, and, to a certain extent, it aids in the control of certain insects and diseases."

## Got Something You Want to Sell?

Most people have a piece of furniture, a farm implement, or something else which they have discarded and which they no longer want.

These things are put in the attic, or stored away in the barn, or left lying about, getting of less and less value each year.

## WHY NOT SELL THEM?

Somebody wants those very things which have become of no use to you. Why not try to find that somebody by putting a want advertisement in THIS NEWSPAPER?
