AMERICANS WIN

umph, Are Surprised by Resistance and Take Flight.

ASSAULT

West Point Hero Slain-Ten Teutons Taken Prisoners, Two Wounded.

With the American Army in France. country. -American troops repulsed a strong Point in 1917.

The raid was a complete failure, given comfort to the enemy. three German prisoners remaining in with German dead.

A driving wet snow was falling when likely to reply. the Germans opened fire on the Amershells and gas shells fell in a perfect powers for the President. whirlwind on our trenches for half an thrift stamps from December 1 to Febhour. At the same time other enemy ruary 25 amounted to \$70,798,886. shells in great numbers were dropping on the American battery positions.

had one taste of gas a few days ago, make every sacrifice" to win the war. would fear it now, let loose great quantities of poisonous gas, but the men put on their masks, and only a few were affected by it. So intense was the fire that the woods back of the salient were shot to pieces.

At six o'clock the barrage fire lifted on the trenches to the right of the salient, and Germans, numbering 240, came sweeping forward under the protection of their fire. They came forward, apparently intending to make a big haul, and jumped into what was left of the trenches, but there, instead of the easy time anticipated, found the Americans all ready for battle. Fierce hand to hand fighting began.

Americans Killed and Wounded. severely wounded and four slightly in air raids. wounded in the German raid against the American trenches to the north of Toul on March 1, the war department announced. The list follows:

Plumbago Mines.

Plumbago, Ceylon's most important mineral product, is known all over the world for its luster, lubricating, polishing and binding qualities. In appearance it is a strong black crystalline. There are now about 1,000 plumbago mines in Ceylon, including all the shallow pits, open works and deep mines. The depth varies from a few yards to as much as 700 feet. Most of the mines are worked by natives, the only Important one controlled by Europeans being the Medapola. At the majority of the mines the only machinery used is the dabare. This consists of a long wooden barrel with handles at each end. Round this a rope is given two or three turns, and a bucket is fastened to each end. It is worked by seven or eight men turning the han-

The German-American Alliance was termed the "greatest internal menace witness before the senate.

NEW TYPE AIR BULLETS.

Successful Tests Made of Special American Cartridges.

Washington.-The ordnance department has developed special types of bullets for use in airplane work in France, and tests of these missiles indicate that they surpass those in use abroad. These special types of bullets are intended to pierce the armor of military airplanes. Some of them are of the tracer type and others are incendiary bullets, intended to explode the gasoline tanks.

APRIL 6 RAILROAD BILL PASSES

Ford Co. Building Submarine Killers. Ford Motor Company of Detroit is Ford Motor Company of Detroit is building a plant at River Rouge, a sub urb of the automobile city, to cover five acres, for the manufacture of sub marine killers. The big plant is to be ready for the employment of 15,000 men in May, and that means action. The ships are to be launched into a canal at the plant and hurried along the Deat the plant and hurried along the Detriot River and through the Great Lakes and the Erie Canal to the sea There will be some submarine sinkers in action from that place with the poet-

Heinz Would Hang 10,000.

"We will not be a strictly free people until 10,000 German propagandists in this State have been hanged to tele-graph poles and shot full of holes," said Howard Heinz, Federal Food Administrator for Pennsylvania at a lunch-

eon of food officials on Monday. Mr. Heinz, just returned from a State wide speaking tour, reports that the activities of German agents have been spreading stories that the Allies are eating white bread, and that there is a surplus of wheat in Argentina, he said. He added that the United States is sending large quantities of corn abroad, despite stories to the contrary.

A Bilious Attack.

When you have a bilious attack your liver fails to perform its functions. You become constipated. The food you eat ferments in your stomach instead of digesting. This inflames the stomach and causes nausea, vomiting and a terrible headache. Take Chamberlain's Tablets. They will tone up your liver, clean out your stomach and you will soon be as well as ever. They only cost a quarter.

WHAT DO YOUR DELEGATES STAND FOR?

Major General Joseph E. Kuhn, Commander at Camp Meade, says that soldiers are sold whiskey in Baltimore and appeals to Governor Harrington and Mayor Preston to assist in correcting the evils which he states "affect the health and morals of the soldiers."

Can these officials stop such practices with the saloons wide open?

State-wide prohibition will solve the problem and the Legislature can stop the whole traffic.

Do your members of the House of Delegates stand for booze or for the "health and morals" of our soldiers?

Do your members of the House of Delegates stand for booze or for grain and fuel when the Government is in need of both?

PATRIOTISM DEMANDS STATE-WIDE PROHIBITION.

Are You Buying THRIFT STAMPS **EVERY DAY?**

If you buy 25c Thrift Stamps at the rate of only one a day, and exchanged each book of 16 (with a few cents added) for a certificate worth \$5.00 in 1923, you are saving money at the rate of \$10.00 a month.

Good investment, isn't it? And a patriotic habit besides—for every single Thrift Stamp is a little added momentum behind the one great common desire — to shorten this war.

Thrift Stamps are for sale at the postoffice, by all mail carriers and at most stores.

FREDERICK COUNTY.

Frederick is next to the largest of the counties of Maryland. In population and wealth it ranks next to Baltimore county. In the fertility and productiveness of its lands it ranks among the first in the Union, and especially in the production of wheat. The area of this great county is 633 square miles. The great body of the people are of German, English and Scotch-Irish descent, the progeny mostly of the descent, the progeny mostly of the of fine limestone quality, and the greater part of the county is a valley of rolling lands lying between the Linganore Hills and the Catoc-tin Mountain. This splendid valley is drained by the Monocacy river, and is one of the best farmed and most highly improved and productive areas of the Union. The great crops are wheat and corn.-Mary-land Manual issued by Board of

EMMITSBURG.

In all Western Maryland-the beauty spot and the garden spot of the State-there is no town more attractive than Emmitsburg.

No people are more wide-awake, more knowable, more courteous to strangers than Emmitsburgians.

The location of Emmitsburg is ideal: the surrounding scenery is unmatchable; the climate is notedly healthful; its water-pure mountain spring water-cannot be surpassed. It is within easy access of Baltimore, Hagerstown, Frederick; eight miles from the National Battlefield at Gettysburg, near to the Mountain Resorts, and is surrounded by fertile farms and productive orchards.

Mount Saint Mary's College and Ecclesiastical Seminary-with an enviable reputation extending over 108 years-is located here; St. Joseph's College and Academy for young ladies-equally as noted during its 107 years of splendid acheivement-is also here.

There are excellent Schools-Publie and Parochial-in Emmitsburg; two sound Banks, five Churches, a live Newspaper, modern Hotel accommodations, adequate Fire Department, progressive merchants, spierdid physicians, good liveries, auto gatages, many fraternal organizations, good railroad accommodations. There are four or five mails a day, telegraph, express and telephone service connecting all points; electric light and power, oiled streets.

There is business to be had in Emmitsburg; there are Factory Sites availabe. If you contemplate changing, your place of residence-come to Emmitsing, Frederick County,

A BLOT UPON THE ESCUTCHEON OF MARYLAND'S LEGISLATURE.

The spontaneous and stinging rebuke administered by the press and people of Maryland to one Waldron, "an outside, irresponsible interloper," and his conferes, and the merited and widespread denunciation of those Delegates who were unmanly enough to listen without a protest to the abusive, venemous, disgraceful harangues against the Catholic Church that took place at Annapolis last week, brought into the spotlight of public indignation a stigma upon the Maryland Legislature that will cling

It is doubtful if such a display of blatent bigotry, such a spectacle of almost unthinkable intolerance could have been staged in which thrifty people are showing the Legislature of any other State in the Union. That it should have been permitted in Maryland truck patches by scholars of the is inconceivable-Maryland whose proper age. There is no hysteria Catholic proprietary made religious toleration a basic principle need to conserve in every posof government-Maryland where sible way and it behooves all who religious freedom on this conti- can, to cultivate every available nent was born.

By a bigoted blatherskite, the head of a secret anti-Catholic order (secret and sinister-what need of a more discrediting passport?) charitable institutions were lied about and condemned, a noble religion was attacked, a prelate respected and beloved by all was slandered, the Catholic clergy insulted, Catholic patriotism impugned and the very precepts of Christ himself aspersed.

Is it any wonder that representhis State-Protestants of all denominations—as well as Jews, talk about high prices, the scarwere quick and vehement in their city of this and that, the sensedenunciation of Waldron and his lessness of food and fuel restrictribe and of the supposedly rep- tion and all the rest of it, comes resentative body of men who from those who are doing nothlistened to the whole proceeding? ing to aid the government. If all No decent non-Catholic, can count these hardships are "on account tenance an act such as this odious, of the war" it behooves everyand ranting anti-religious fan- body to aid in winning the war atic is guilty of, and Maryland's as quickly as possible. Whining populace, irrespective of creed or won't do it. party, deeply deplores this outrageous manifestation of intolerance and openly, outwardly and unconditionally resents the insult as they leave the office, loaded to the State.

MR. WINCHESTER'S LETTERS.

The weekly letters from the State House at Annapolis, over the signature of Mr. Paul Winchester, have been widely read and much appreciated by readers of THE CHRONICLE. It is one thing to read a skeleton schedule there a lot of waste to these? of Bills introduced in both Houses—quite uninteresting and unsatisfactory; it is another thing to be given "inside" information on all that is going on. Mr. Win- many's terms about using her ocean chester familiarizes one with the aims of the leaders, with the purport of the various measures under consideration and puts one in intimate touch with the history and tradition surrounding the say it differently." old House on the hill.

Being a former Legislator and either to eat or drink." one of the best known newspaper men in Maryland, Mr. Winchester writes with an authority gained from vast experience. This makes his commentary, his criti- kers Statesman. cisms and his predictions sought for and depended upon by a large and discriminating clientele.

Petrograd Summer Gardens Were Once Scene of Yearly Pairing Off of All Eligibles.

Business often plays an important part in the matrimonial market, especially in some parts of Europe, and an old-time custom in Petrograd was once responsible for the yearly pairing off of all eligibles.

On Whitsunday afternoon the famous summer gardens were thrown open for the marriage mart. Girls and their mothers, bachelors and their fathersthe entire population, in fact—thronged the gardens for the purpose of finding suitable partners.

The girls put on their prettiest clothes, and wore their prettiest smiles. and as they promenaded to and fro, they and their parents kept a wary eye for a suitable husband. The girl frequently held some object of value in her right hand as a symbol of what the aspirant might be led to expect in the shape of a dowry.

Sometimes it would be silver spoons or a silver dish, or, in the case of one of humble means, a homely looking jar. When a favorable impression had been made, the suitor would address addition to home gardens, in the girl's companion-probably the marriage broker or saleswoman whose business it was to act as medium in these transactions—and particulars of his name, address, age and prospects would follow in due course.

The question of "her" dowry would then receive consideration, and if the union was a suitable one from all about the food situation. We points of view, the marriage saleswoman received a fee for her services

NATURE FIXES NO AGE LIMIT

Man Who Lives Carefully Can Retain Vitality and Endurance Indefinitely, It Is Claimed.

"Three score years and ten," tradition says, is the span of a human life. This must be divided into three periods to include preparation, efficiency and decay, each period lasting nearly 25 years. With the athlete, it is still more severe. Few men at thirty-five, it is said, have the reserve vitality and endurance that they had at twentyfive. Therefore the edict has gone forth that at thirty-five the athlete must let up in violent competitive work and gradually back out of the front ranks.

But there is no scientific evidence to show that this is necessary, says Popular Science Monthly. The human body is simply an assemblage of cells, which must be kept active, without being overstrained and nourished without being overfed, in order that they may be able to resist the attacks of microscopic enemies which cause disease and decay. Under favorable conditions these cells will live indefinitely without showing signs of age of loss of vitality. Therefore the conclusion s reached that the "three score years and ten" are not fixed by any natural law, but rather by the conditions unler which men live and by their personal habits. The athletic champion, then, who lives under the best hygienic conditions and observes the law of temperance in all things and at all times, should be able to "sit tight" on his pedestal so long as he desires.

National Waste.

Five years of drumming into the public the tremendous wastes of fire arelessness has apparently had little effect. It probably will take a war such as the one into which the country is now plunged, with its measures of national economy, to correct wastefulness which has cost millions in money and countless lives. The extent of this waste is presented graphically by the ing up a lot of interned German actuarial bureau of the National Board of Fire Underwriters, which has just completed an investigation of 500,000 fires in the United States. The report lays 21.4 per cent of the blazes to strictly preventable causes, 37.9 per cent to partially preventable causes and 40.7 per cent to unknown causes, largely preventable. It is another illustration of the notorious fact that America saves at the spigot and wastes at the bung. Fire prevention and food economy in these days of national saving should go hand in hand. -Exchange.

> Unselfish Johnny. Johnnie's mother had a headache

THIS NEWSPAPER?

INVENTORS FINANCIAL DIFFICULTIES

How They Have Struggled to Obtain Money; Your Thrift Helps Progress of World

By S. W. STRAUS (Prominent New York and Chicago Banker)

It has been said that there is room for just so much in the human brain and if one's ability is as highly spe cialized as an inventor's, there is no chance of being capable in business affairs. Certainly, this has been borns out in the case of most inventors, Those servants of civilization have almost without exception, faced financial difficulties of the most dishearty ening character. Only a few were for tunate in connecting up with men of business ability who relieved them of financial responsibilities.

Watt, the inventor of the steam en; gine, was so situated. When he start, ed his experiments he was the possessor of a prosperous instrumentmaking business, employing sixteen men. He soon became greatly in debt and formed a partnership with a Doc tor Roebuck, who agreed to pay \$5, 000 of his debts, provide money for further experiments and secure a patent. In return for these advances he became a two-thirds owner. After the two had achieved partial success Doctor Roebuck suffered financial reverses. He was forced to transfer his interest to Matthew Boulton, a famous merchant of Birmingham, to whom he was in debt. Boulton was just the sort of business genius Watt required. He built a factory for the manufacture of steam engines and financial difficulties hampered Watt no more.

Edison, on the other hand, early in his career refused an offer for a part-POINTS OF OUR ner. Although he has built up a large fortune he has frequently lost practically everything he possessed and been forced to start all over again. His "business methods" were sometimes impractical in the extreme. Once Edison was offered \$100,000 for an invention. He voluntarily offered to receive payment in annual install-ments of \$6,000 without interest! plays. Again, he once received an offer by cable for "30,000." He accepted. When he received his remittance he was greatly surprised to learn that it was £30,000. He had expected \$30,000.

Eli Whitney, inventor of the cotton gin, never really freed himself of financial worries. He went in partnership with a Mr. Miller, and the two were forced to fight almost continually for their rights. While Whitney was experimenting and producing his first machine, people heard of the wonderful invention and broke into his house. They carried away the model and soon a dozen similar machines were in use. This was before Whitney could obtain a patent. He worked night and day to produce another model so that he could go to Washington and patent it, but he was handicapped for lack of funds. At length the patent was secured and then two years of struggle elapsed before Whitney succeeded in proving the superiority of his machine over the imita-

In 1795 he returned from the South to New Haven, where his factory was located, only to find that it had burned down. All his machines and papers were destroyed. In answer to his letthe latter replied, "I will devote all my time, all my thoughts, all my exerborrow to encompass and complete the business we have undertaken."

Whitney set to work to replace his 15 cents. factory. He had great difficulty in add to his difficulties, a certain manuproduct of the machine was unsatis- toward securing a bond; that is to say, "The extreme embarrassments which ing upon me have now become so great struggle against them many days longer."

courts because of infringements. Law and his coupons, which would be taken suits went against him.

ing rights of his machine to the state | ment on a partial payment plan. of South Carolina for \$50,000. He renessee. But then when success lina attempted to recind its action and 000 and tried to have the money already advanced to Whitney returned.

Affairs were at the darkest point in Whitney's long struggle. Just as he was about to give up, South Carolina thought better of its decision and paid the inventor in full. But a better day seems to have ar-

rived for inventors. Modern industrial progress has made so many demands for better methods that inventors are now eagerly sought after and usually treated fairly. Financial aid is easier to secure. The individual investor, when he purchases his bond, may be assisting the development of an invention every bit as revolutionary as the cotton gin. Without the Garden in New York. aid of his thrift the world's progress could hardly proceed.

"OVER THERE"

Maryland's Great Liberty Loan Cantonment Opens March 30.

Fifth Regiment Armory Baltimore.

For the Third Liberty Loan, Mary land's Liberty Loan Committee is make ing ambitious plans to the end that this patriotic movement may meet with unqualified success.

It is announced that the big drive will start on Saturday, April 6, but the committee, taking time by the forelock, will commence operations on March

In order to arouse general interest and enthusiasm, it has been arranged to present certain features of the war very graphically to everyone who visits Baltimore during the first weeks of the campaign. As the result of some months of careful planning and with the co-operation of the Government of the Dominion of Canada, and of various Allied War Agencies in the United States, arrangements have been made for a Liberty Loan Cantonment which will open in the Fifth Regiment Armory in Baltimore on Saturday, March 30.

CANADIAN WAR TROPHIES.

The Canadian exhibit has been collected as a nucleus for a permanent war museum for the Dominion. It includes many trophies which Canadian valor captured at Ypres, Courcellette and Vimp Ridge. Among these are German cannon, machine guns, bomb throwers, small arms, grenades, signal rockets, aeroplanes, parachutes, body armor, intrenching tools, periscopes and countless other appliances for attack and defense.

ARMY AND NAVY.

Our own Army and Navy will be well represented by interesting exhibits. There will be demonstrations of the war work of the American Red Cross, Y. M. C. A., Y. W. C A, Knights of Columbus, Food and Fuel Administrations, etc., and other instructive dis-

FAMOUS BANDS.

There will be daily concerts by some of the most noted bands in the Union, including the Marine Band of Washing, and Lieut. Sousa's famous organization, the band of the Great Lakes Naval Training Station.

REMARKABLE NEW MOVING PIC-

There will also be exhibitions of thrilling moving pictures. It will be the aim of the Committee to make every day one of the special features. NOTED SPEAKERS.

For example, there will be Canadian Day, on which occasion the Dominion's most prominent statesmen will be present and discuss Canada's activities

On other days, distinguished members of the Diplomatic Corps representing our Allies in this country and on still other occasions leading American statesmen, both those who are in office and those who already have served their country, will be heard.

25c. LIBERTY LOAN COUPON WITH EACH TICKET.

Admission to the Armory can only be had by ticket. These tickets will ter apprising Miller what had occurred be sold at 40c. each, but 25c. of this will be represented by a coupon which is to be retained by the purchaser and tions and all the money I can earn or | can be applied as a payment for that amount on a Liberty Loan. This makes the actual price of admission

Of course the majority of people will securing the necessary capital. To buy more than one ticket, but no matter what the amount of their purchase facturer in England stated that the each coupon will stand for 25 cents factory. Whitney wrote to Miller, one hundred tickets would represent \$25.00 and they may be cashed in for have been for a long time accumulat- that amount as against the total purchase money on a Liberty Bond. Lesser that it will be impossible for me to amounts will be computed in the same way. For instance, a man holding two coupons and wishing to purchase a \$50 He was still forced to fight in the bond would bring to his bank \$49.50 at their face value, or two coupons and At last Whitney succeeded in sell- 50 cents would be taken as first pay-

The Committee appreciates the fact peated this in North Carolina and Ten- that as a usual thing most Marylanders visit Baltimore in the spring; and seemed within his grasp, South Caro- it feels that those in the more distant portion of the state should time their announced it would not pay the \$50,- spring shopping or business so that the date of their visit would occur during the progress of the Exhibition. It will well repay the journey from every con ceivable standpoint.

WHAT IS GOING ON IN THE LEGISLATURE.

March 8th, 1918.

State House, Annapolis, Maryland. The one thing which contrasts the present General Assembly with all its predecessors since the civil war, is the entire absence of leadership either among the members, or on the outside. Not one of the old time leaders of either party (most of them are dead) are here to direct or influence action among the Senators and Delegates. The lobbyists of days gone by are all absent, and what little attempts are made by the new generation at lobbying are Wednesday Prayer Meeting 7:30 p.m. attempts at direction and leadership have been made by Chairman Tate and Mr. O. E. Weller, of the republican party, and their work has been too amateurish to be worthy of mention. Mr. Senior " 6:45 p. m. Tate, however, has been here the entire Wednesday, Prayer Meeting 7:30 p. m. session, and all the credit for the pas-Saturday, Catechetical instruction 2 sage of the City Annexation Bill in the House should be given to him. Day and night he has worked among the members of his party in the House-he has plead and argued with them, and if credit is to be given to anyone for the passage of that measure through the Spring sale, write to or call on House, Mr. Tate certainly is entitled to it all. It is true Mayor Preston and City Solicitor Field have been here, accompanied by a contingent of prominent citizens (irreverently called the honorary pall-bearers) from time to time, but their efforts have retarded fice in Emmitsburg in the near future, rather than helped the passage of their I wish to notify my friends and the pet measure. There is no use in at- public that I will be prepared to do all tempting to deny the fact that Messrs. kinds of dental surgery and prosthetic Preston and Field have been, and still dentistry by the best and latest methof the annexation scheme. Back These Boys With Your Dollars

A War Savings Stamp Is as Secure as a National Bank Note

Both are backed by the United States Government. About the only difference is that the stamps pay you 4 per cent interest compounded quarterly on January 1st, 1923.

If you are pressed for money at any time, you can cash a War Savings Stamp for its current value at any money order postoffice on ten day's notice.

War Savings Stamps are convenient and easy investments, no "red tape" and are backed by the entire resources of the people of the United States.

Every Stamp you buy helps to keep the Germans out of your own home. Every Stamp you buy brings you nearer to financial freedom.

Schedule Of Reassessment Published.

Tax Supervisor Alfred W. Gaver has completed a schedule of the recent real Mrs. John Seiss, Mrs. Joseph Fry ty, which shows a new realty basis of \$22,077,471, a general increase of about 29 per cent. The total number of acres SIXTY THOUSAND TREES AT COST taxed under the old basis was 419,039; new, 422,264. The taxable basis and value by districts follow:

Buckeystown - Acres, 26,076; valuation, \$1,543,918; increase, \$223,333. Frederick-Acres, 14,103; valuation, \$6,662,002; increase, \$1,866,639.

Middletown-Acres, 20,050; valuation \$1,920,438; increase, \$403,701. Creagerstown-Acres, 13,693; valua-

tion, \$487,159; increase, \$99,086. Emmitsburg-Acres, 28,070; valuation, \$1,252,375; increase, \$241.182. Catoctin-Acres, 14,770; valuation,

\$431,955; increase, \$95,524. Urbana-Acres, 31,322; \$953,257; increase, \$100,071. Liberty-Acres, 23,072; valuation.

\$659,401; increase, \$100,156 New Market-Acres, 31,361; valuation, \$1,301,284; increase, \$209,778. Hauvers-Acres, 18,120; valuation,

\$468,251; increase, \$118,072. Woodsboro-Acres, 17,126; valuation,

Petersville-Acres, 10,896; valuation, 832,789; increase, \$214,985.

Mt. Pleasant-Acres, 12,416; valua-Jefferson-Acres, 13,641; valuation, \$875.558; increase, \$220,673.

Mechanicstown-Acres, 29,757; valuation, \$944,681; increase, \$157,590.

Johnsville-Acres, 15,850; valuation, \$771,854; increase, \$112,621.
Woodville-Acres, 16,383; valuation, \$765,306; increase, \$199,402.

\$850,383; increase, \$166,787 Ballinger—Acres, 8,100; valuation, \$466,586; increase, \$64,471.

you relish your food about as much as a calf does a butcher knife. And your disposition—you're meaner than a bear skin rug with the bear still in it.

You'll know it when you get it Flossy,—and, confidentially, I think I've got it now—from that Child's restaurget in the county approximately \$40,000,000, a gain of slightly more than \$10,000,000.

TRIAL write of Findle \$1,121,068; increase, \$249,625.

A new re-assessment of personal property is now being made. It is estimated that the entire new re assessment will make the taxible basis of the county approximately \$40,000,000, a gain of slightly more than \$10,000,000.

LIBERTY FOODS.

Buy with thought, cook with care, serve with judgment, save what will

Cream of Peanut Soup.—Cook together until tender in a little water the chopped onion and a bunch of celery; when tender rub through a sieve and

add water and all to a quart of milk. Rub two tablespoonfuls of flour with half a cupful of fresh peanut butter, add this to the milk with a bay leaf, cook slowly until all is well blended, then season and strain into individual bowls. Serve with graham bread.

Liberty Fruit Cake .- Take a half cupful of sour cream and milk, add a teaspoonful of soda, a cupful of brown Register of Wills-Albert M. Patter- sugar, a half cupful of molasses, cinnamon, allspice and cloves to taste, two thirds of a teaspoonful of salt, a cupful of white flour, a cupful and a half of rye flour, citron, figs and raisins, a cupful and a half all well chopped and blended with some of the flour. If a cupful of sour milk is used a fourth of a cupful of shortening may be substi-Deputy County Treasurer-DeWitt tuted in place of the cream. An egg or two will not harm the cake, but it will be good without them. A fine cake to be sent to a soldier boy.

Caramel Bananas .- Peel ripe bananas, cut into halves lengthwise. Put three tablespoonfuls of any sweet fat with the same amount of moiasses Heat slowly-there should be enough of the fat and molasses to cover the bottom of the pan, lay in the bananas and cook slowly until brown on one side; turn and brown on the other side Serve warm with poultry as a vege table or with cream as a dessert Brown sugar may be used instead of molasses if preferred.

Liberty Fruit Rolls .- Rub four tablespoonfuls of peanut butter into a cupful of any sweet fat, four teaspoonfuls of baking powder and three-fourths of a cupful of milk or enough to make a mixture to roll. Roll out and spread lightly with peanut butter, sprinkle with chopped dates, figs or raisins and a few crushed peanuts if desired, roll and cut in half-inch slices. Place in a dripping pan and bake in a quick

Neceie Maxwell

White-Breasted Nuthatch

Length, six inches. White below, above gray, with a black head. Range: Resident in the United

States, southern Canada, and Mexico. Habits and economic status: This bird might readily be mistaken by a careless observer for a small woodpecker, but its note, an oft-repeated yank, is very unwoodpeckerlike, and, unlike either woodpeckers or creepers, it climbs downward as easily as upward and seems to set the laws of gravity at defiance. The name was suggested by the habit of wedging nuts, especially beechnuts, in the crevices of bark so as to break them open by blows from the sharp, strong bill. The nuthatch gets its living from the trunks and branches of trees, over which it creeps from daylight to dark. Insects and spiders constitute a little more than 50 per cent of its food. The largest items of these are beetles, moths, and caterpillars, with ants and wasps. The animal food is all in the bird's favor except a few ladybird beetles. More than half of the vegetable food consists of mast, i. e., acorns and other nuts or large seeds. One-tenth of the food is grain, mostly waste corn. The nuthatch does no injury, so far as known, and much
