PERSHING NEEDS ALL U. S. STEEL

Huge Munitions Orders Will Withdraw Metal From Other Uses.

ALLIES TO RECEIVE A PART.

Nation May Require Entire Output for Period of War—Situation Serious Not Only for French Army, But American Forces, Too.

Washington.—Huge orders for munitions and steel supplies which have come unexpectedly from General Pershing in the last few days created the prospect that the entire iron and steel output for the rest of the war would be used for direct military and naval purposes. Edwin B. Parker, chairman of the priorities division of the War Industries Board, said that it had become evident that the demand far exceeded not only the present supply, but it was feared the supply that could be made available during the war.

Statements current here were that General Pershing has asked for 2,000,000 tons of projectiles and shells in excess of estimates that were made earlier in the year and also for 1,200,000 tons of railroad rails and other steel products. Compliance with this request, it was said, would result in the withdrawal of steel from every other use in this country and concentrate it on vital needs for winning the war.

It was understood that under the pooling plan discussed at the War Council some of the supplies represented by General Pershing's new orders will go to the British and French armies. The needs of the French have been suddenly augmented by reason of the fact that certain industries as well as iron and coal mines fell into the hands of the Germans in the recent drive.

More than 100,000 shells and projectiles weighing about 3,000,000 tons have been used by each side since the beginning of the German drive on March 21, it was stated here. The new request from General Pershing was for two-thirds of that volume of munitions. Neither officials of the War Industries Board nor other departments held out any assurance that the maximum of General Pershing's needs in this line was to be found in the latest requests that have come from him. In fact, they were regarded as forerunners of other orders of possibly greater proportions.

THREE SLAYERS DIE IN CHAIR.

Largest Number to Be Executed at One Time Since Gunmen.

New York.—Three murderers were executed at Sing Sing late Thursday night—the largest number to die at one time since the four gunmen were punished for the shooting of Herman Rosenthal four years ago.

Alvah Briggs, Stephen Lischuk and Hyman Ostrausky were the men.

Briggs killed four persons at Potsdam, N. Y., a year ago. Infatuated with Harriet Ladue, seventeen, he tried to abduct her. When the girl's aunt interfered he shot her. A brother, Joseph Ladue, entered the house and Briggs killed him. Henry Ladue, a second brother, ran for a physician and both men were killed as they entered the house. Briggs started off with the girl, who finally induced him to let her go and give himself up.

Stephen Lischuk was convicted with John Kushnieruk of robbing and murdering Bladis Comiskey at Mineville, N. Y., in November, 1916. He saw Kushnieruk go to his death three weeks ago.

The crime for which Hyman Ostrausky gave his life was the killing of Dorah Cohen on East Broadway last November. He had been in the death house only six months, which is a much shorter period than usual.

CONTINUALLY ATTACK U-BOATS.

Geddes Says Destruction of Submarines Outruns Builders.

London.—In an interview with the London correspondent of the Petit Parisien Sir Eric Geddes, first lord of the admiralty, had the following to say with regard to submarines:

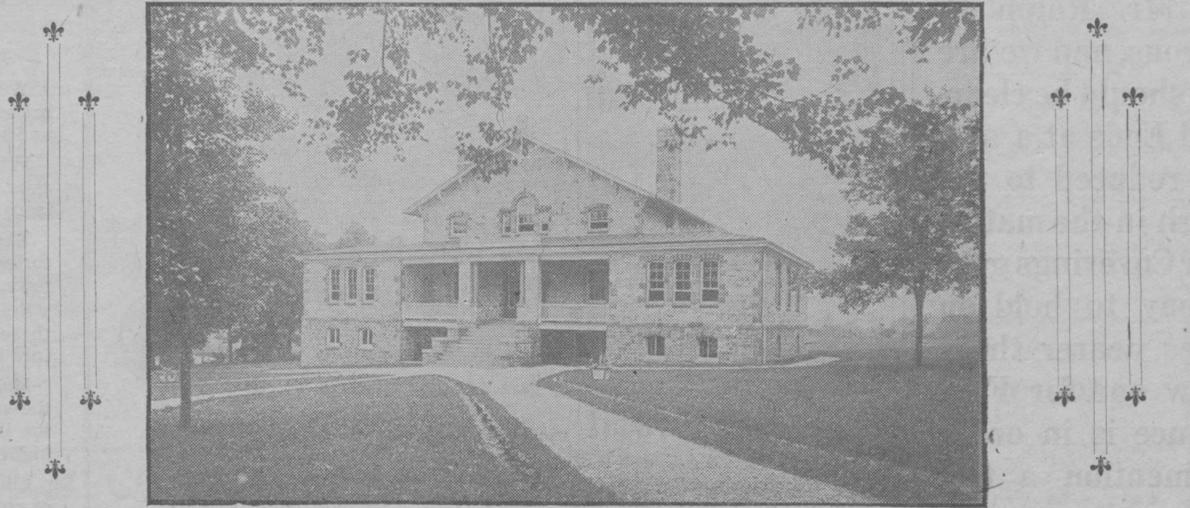

"The allied navies continue to sink more German submarines than the enemy can build. It is certainly a fact that since January we have sunk more submarines than they have built. We attack their submarines seventy times a week on the average.

"We base our returns of submarines destroyed only on those we are sure of having seen wrecks or captured the crews, but most of the other submarines hit are in urgent need of repairs, and it is evident that the results of many of our attacks are unknown."

ONE HUNDRED AND TENTH ANNUAL COMMENCEMENT

Rt. Rev. Edward P. Allen, D. D., '78, Presides at Closing Exercises at Mount St. Mary's College; Rt. Rev. Owen B. Corrigan, Ordains Four

Baccalaureate Sermon by The Rev. William J. McConnell, '93, of Belmar, N. J.—Solemn Requiem Mass in Memoriam Alfred V. D. Watterson Late President National Alumni Association.—Many Men in Khaki, Alumni, of the "Mountain" Present.—Eighteen Graduates.—Honorary Degrees Conferred on Four Clergymen.—Large Number of Former Graduates and Visitors From All Parts of the Country Present.

GYMNASIUM WHERE COMMENCEMENT EXERCISES WERE HELD

A much larger crowd than reasonably could have been anticipated this year attended the commencement exercises at Mount Saint Mary's College. Nor did the visitors wait until the day before the commencement proper, they began arriving on Friday and by train and auto they continued to come, each day seeming to bring a quota greater than the day before. To the onlooker, in fact, the attendance of alumni, parents and friends appeared to exceed that of many a previous year.

Ordination and Baccalaureate

The Chapel at Mount St. Mary's College was the scene of a most impressive ceremony on last Sunday morning when Rt. Rev. Owen B. Corrigan, Bishop of Baltimore, raised four young men to the holy priesthood. Revs. J. F. Cogan, E. T. Shea, J. J. White and M. J. Farley were the young men upon whom Bishop Corrigan conferred the eternal mark of the priesthood. Father Farley will be assigned to the diocese of St. Augustine while the other three will begin their labors in the diocese of Mobile. The Chapel was crowded to its capacity by the student body of the College and friends and relatives of the newly ordained. Immediately after the ordinations to the priesthood the following were made sub-deacons: Messrs. Dougherty, Mahoney, Kilgallen, Moeller, O'Boyle, Cassidy, Brennan, Hanon, Rattenberg and O'Toole. Minor orders were given to Messrs. Topper, Lee, Brady, Hartnett, and McAvoy, and Messrs. Werner, Mattern, Sheridan, Haldi, McElroy, and Washington received the order of tonsure. The young men will celebrate their first solemn mass on Sunday and will then be given a short vacation after which they will journey to the seat of their future labors.

This ceremony was followed Sunday evening at 5 P. M., by the Baccalaureate Sermon which was delivered by the Rev. William J. McConnell, A. M., '93, of Belmar, New Jersey.

Solemn Requiem Masses

On Monday at 8 A. M. following the usual college custom, a Solemn Requiem Mass for the deceased priests and benefactors of the institution was celebrated in the Chapel. Tuesday at the same hour there was a Requiem Mass in memoriam, Alfred V. D. Watterson, late president of the National Alumni Association.

Contest in Elocution.

March—"Liberty Lads," L. O. Smith, Orchestra; 1. The Sign of the Cross,

Barrett, Hubert F. McGranaghan; 2. The Soul of the Violin, Merrill, Charles F. Carroll; 3. The Guillotine, Hugo, John T. Greene; Selection—"Knights or Columbus," Fischer, Orchestra; 4. COLLEGE CHURCH WHERE ORDINATIONS TOOK PLACE.

met and elected John Cogan, of Brooklyn, N. Y., to succeed the late Dr. Watterson, of Pittsburgh as president. The members of the alumni pledged themselves to raise an endowment of \$200,000 for the college.

Commencement Programme.

Grand March—"Festival," Grunwald, Orchestra; Opening Prayer, The Right Reverend Edward P. Allen, D. D., Class of '78; Overture—"Stradella," Flotow, Orchestra; Speech—"College Men and the War," Thomas C. Hannigan; Chorus—"Tender Hour of Part

Banner," Orchestra; Exit March—"High Pride," Heed, Orchestra.

Officers Elected.

At the annual meeting of the corporation, which followed the Commencement exercises, on Wednesday, Monsignor Bradley was re-elected president and treasurer, and the Rev. Edward B. Jordan, vice-president.

Degrees.

By a decree of the Faculty of Mount Saint Mary's College the following degrees were conferred: The Honorary Degree of Doctor of Laws was conferred

BIG VICTORY WON BY ALLIES

Move Carefully Planned by Hindenburg Met and Completely Nullified.

HIS LAST CHANCE PASSING.

Efforts to Weaken Defense to Breaking Point Foiled by American Reinforcements—The German Morale Shaken.

With the French Armies.—The fifth day of the battle marked the definite check of the German operations after gains of little importance and prodigious losses. The credit goes in no small degree to the general commanding the army that held the sector, who more than justified his already brilliant reputation.

It is now known that the big French counterattack on the left which he launched on Tuesday was a veritable stroke of genius, as an essential factor of the enemy plan was an immediate advance in that very region with the object of reaching the Aronde valley so as to turn the French center and undertake a converging movement upon Compiègne.

The complete dislocation of the projected attack and the substantial progress of the French, despite the very heavy forces opposite to them that had been moved up in preparation for it, threw the whole German tactical scheme out of gear. Hindenburg attempted to counter—eight hours after the French advance began—by a powerful diversion between the Aisne and Villers-Cotterets forest. Here, too, the Germans were checked by the troops in line.

In desperation strong forces, estimated at 30,000 to 40,000 men, were flung against the rewon line from Courcelles to Mery. The result was literally disastrous. The French soldiers, keyed to the highest pitch by the successes of the last 48 hours, surpassed their former performances and refused to allow the Germans to gain a yard of ground. After eight hours' vain and costly efforts the attack was abandoned through sheer exhaustion.

As the situation stands today the allies have won a great victory in one of the hardest fought battles of the war, and a carefully planned move in Hindenburg's desperate struggle against time has been met and nullified. The Germans have also learned to their cost that the American troops are already to be counted with. The enemy, whose morale is daily weakening under the strain of nonsuccesses and never ending calls upon his strength, has received a bitter reminder of the American menace, which more than any other factor is responsible for his convulsive striving after a speedy decision.

Large forces are still held in reserve by the German command, and where they will be thrown into the next great effort to end the war is now a subject for speculation.

With the obviously stiffened allied power exhibited in the last offensive, confidence in Foch's ability to stem the new tide when it sweeps forward has markedly increased.

U. S. WILL RUSH TROOPS.

Peace Only by Victory, President Wilson Says.

Washington.—Flag Day was marked by a declaration by President Wilson that United States troops are to be poured into France in ever increasing numbers "until the forces of freedom are made overwhelming." This was his pledge given in a cablegram to President Poincaré of France. The president declared for peace with victory.

ALLIES URGE JAPAN TO ACT.

Tokio Divided on Intervention, but Army Is Preparing.

Tokio.—The Entente governments are bringing increasing influence to bear to induce Japan to intervene in Russia. Among several French officers who have arrived in Tokio to consult with the general staff is Major Pichon, who was head of the French military mission to Russia. Apparently, Japan is divided on the question of intervention, but the army is undergoing severe training.

WILSON FOR WORLD SUFFRAGE.

Woman's Right to Equal Franchise as Principle in Peace.

Washington.—President Wilson took leadership in a movement for worldwide woman suffrage. In response to a memorial from the French union for woman suffrage organizations of Great Britain, Belgium, Italy and Portugal he went on record that equal franchise rights for women shall be definitely established among all nations as a principle achievement in the winning of permanent peace.

VIEW OF BUILDINGS AT MOUNT SAINT MARY'S COLLEGE

Sour Stomach.

This is a mild form of indigestion. It is usually brought on by eating too rapidly or too much, or of food not suited to your digestive organs. If you will eat slowly, masticate your food thoroughly, eat but little meat and none at all for supper, you will more than likely avoid the sour stomach without taking any medicine whatever. When you have sour stomach take one of Chamberlain's Tablets to aid digestion. June 7-1md

**Advertisement.

You have been reading about the U-Boat depredations off our own coast. To keep them away, and to keep the enemy "over there" is the purpose of Thrift and War Savings Stamps. Buy them—at the Post Office. They are little bonds bearing interest. The interest will be paid to you.

CARRIE CHAPMAN CATT

President Through Her Pleads for World-wide Woman Suffrage.

Washington.—The President notified the Suffragists that he hopes Congress will not end the present session until the senate passes the amendment to the Constitution granting women the right to vote. This message, in the form of a letter urging world-wide woman suffrage, was transmitted to Mrs. Carrie Chapman Catt, president of the International Woman Suffrage Alliance, who called at the White House to present to the President a memorial addressed to him from the French Union for Woman Suffrage.

TROOPS FLOW TO FRONT

Baker Tells Cadets U Boats Cannot Alter Government's Plan.

General March Adds That Number of Men Will Constantly Increase Until Victory is Won.

West Point, N. Y.—More than a million American fighting men will be in service in France in the near future, declared Secretary Baker in an address to 137 graduates of the United States Military Academy.

Supplementing his recent announcement in Washington that United States troops "exceeding 700,000 in number" have disembarked on French soil, the secretary told the cadets "it is not unfair to speculate that we will shortly pass the million mark."

Gen. Peyton C. March, chief of staff, who made commencement day the occasion of his first official visit to the academy, said that neither the menace of raiding German submarines off the Atlantic coast nor the territorial gains of the enemy on the western front will affect America's policy of sending men to France as fast as ships can carry them.

The graduation was that of the class of 1919, to the members of which diplomas were awarded a year ahead of time, the first since 1817 to attain that distinction, because of the urgent demand in the army for trained officers.

Secretary Baker, who awarded the diplomas to the graduates, told them they were destined to have a part in leading the armies of the nation to a victorious peace. "After that," he said, "as officers of the regular army you will prepare not for war, but to be ready for another war if anybody wants to make it."

Mr. Baker declared that the United States became a belligerent because "Germany tried to crush individual human happiness and liberty, which we call the theory of democracy."

"We have joined a combination in which France and Britain and Italy and the United States have assembled in France the greatest force for righteousness the world has ever seen," he continued. "We see in that combination a submergency of international discord and of national selfishness."

"COAL FAMINE INEVITABLE"

Mine Workers' Secretary So Tells St. Paul Convention.

St. Paul.—"Nothing can save the United States from a coal famine next winter. It will be of incalculable severity and no way will be found to prevent it." This statement was made in the American Federation of Labor convention. William Green, secretary of the miners, said: "Forty thousand miners have left the anthracite fields. Even with sufficient cars the output will be millions of tons short."

OFFICERS' UNIFORMS AT COST.

May Purchase Them From Quartermaster at Great Saving.

Washington.—An arrangement for officers to purchase uniforms from the quartermaster's department at cost was announced by the war department.

Heretofore officers have had to purchase their clothing outside, and many complaints have been made that dealers have taken advantage of the fact to raise prices beyond a reasonable level.

HENRY FORD

Auto Maker Will Accept Democrat's Nomination for Senate.

Washington.—Henry Ford, at the request of President Wilson, will accept the nomination of the Democrats of Michigan for United States senator, to succeed Senator William Alden Smith, who retires at the end of his present term.

LABOR QUOTAS JULY 15

Nonessentials May Close to Relieve "Perilous Shortage."

Manufacturers Must Help Government, War Labor Board Announces at Conference.

Washington.—War industries of the United States are "perilously short of men."

The shortage must be relieved "at any cost."

Nonessential plants may have to close.

Sacrifice and loss may have to be endured "by man after man."

All manufacturers will be forced to co-operate with the government in its man finding task.

"Pitiless publicity" will be the portion of every employer who fails to do his part.

These were the striking features of the government's war labor program driven home to the heads of the United States employment service system of the department of labor in attendance at the first national war labor conference here. Representatives from all states were present.

The speakers were officials of the department of labor. The policies outlined were declared to be those of the administration.

The federal employment service will begin the exclusive handling of common labor recruiting on July 15. Later, it will take over skilled labor recruiting. Eventually it is planned to prevent any employer from hiring a man unless he has a card issued to him by the employment service.

Between now and July 15, the various war industries are to send to the employment service estimates of their common labor requirements. State quotas then will be determined.

Assistant Secretary of Labor Louis F. Post asserted that "by the time the peace treaty is signed the old division between employers and employees as distinct classes will have passed away."

TAKES PLACE OF REAL EYE

Invention of French Oculist Invaluable to Soldiers Who Have Suffered Disfigurement.

The high velocities and high explosiveness of the present-day projectiles often result in facial wounds of most horrible appearance, in the repair of which the surgeons meet with extreme difficulties. In particular, soldiers return from the line of fire not merely with an eye shot out, but with the entire lid and eye socket destroyed, and the absence of these foundations has often made the insertion of an artificial eye impossible.

Until the present moment there has never existed any means for concealing this disfigurement and restoring to the unfortunate victim the appearance of a normal man possessing two eyes. But quite recently a French oculist, Henri Einus, has made it possible to do this even when the eyelid is entirely missing.

In its essential features the apparatus consists of an artificial eye, equipped with a lid of any convenient plastic material—paraffin or molding paste, colored to match the subject's complexion. This eye is furnished also with lashes, to give to it to the fullest extent the appearance of a natural eye. It derives its support from fine metal wires attached to eyeglass or spectacles, so adjusted that when the latter is placed upon the nose, the artificial eye falls accurately into its cavity. The eye may easily be separated from these attachments for cleaning.

Do your bit by lending a bit to the Government. Buy Thrift and War Saving Stamps—at the Post Office.

War Savings Stamps are a direct loan from you to Uncle Sam. Nothing can lessen their value. They're always at par.

'Usco' Tread

We Set Tire Standards

Why is it that United States Tires are setting new records for mileage and serviceability?

Why is it that the sales of these tires are constantly mounting by leaps and bounds?

The answer is found in the factories where United States Tires are made.

Standards of construction for these tires are higher than ever before known in the tire industry.

Makers of tire fabrics tell us that the standards we have given them for United States Tire fabrics are higher than any previously known.

Likewise through every process of construction from crude rubber to finished tires—we have set new and higher standards everywhere.

These standards work out on your car in the practical economy demanded by war-times.

United States Tires will raise any car to higher efficiency.

There is a type to suit every condition of service.

The nearest United States Sales and Service Depot dealer will cheerfully aid in selecting right tires for your requirements.

United States Tires are Good Tires

We Know United States Tires are Good Tires. That's Why We Sell Them.

Honorable mention for very close competition Albert S. Schmidt, Harrisburg, Pa.
The following students were considered worthy to compete for the medal in oratory: Hubert F. McGranaghan, Charles F. Carroll, John T. Greene, Harold G. Durkin, Albert S. Schmidt, William F. Culhane

Speeches.
Speeches were prepared by Charles Francis Carroll, "Military Training," Owen Michael Gallagher, "Forest Conservation," Thomas Clement Hannigan, "College Men and the War," Harry Augustine Kearns, "The Catholic Church the Mother of Fine Arts," Manuel James Lafferty, "The Law and the Citizen," John Dewey Sadler, "America My Country," Albert Sanier Schmidt, "After the War."

Lend your spare change to the Government, you boys and girls. Begin the practice of Thrift by buying Thrift and War Savings Stamps,—at the Post Office or from your mail carrier.

Cholera Morbus.
This is a very painful and dangerous disease. In almost every neighborhood someone has died from it before medicine could be obtained or a physician summoned. The right way is to have a bottle of Chamberlain's Colic and Diarrhoea Remedy in the house so as to be prepared for it. Mrs. Charles Enyeart, Huntington, Ind., writes: "During the summer of 1911 two of my children were taken sick with cholera morbus. I used Chamberlain's Colic and Diarrhoea Remedy and it gave them immediate relief." —Advertisement

WORLD'S NEWS IN CONDENSED FORM

LONDON.—Sir Arthur Fell announces in London that a tunnel under the English channel will be built after the war.
WASHINGTON.—A total of 744,865 men reaching twenty-one since the draft registration a year ago registered in the June 5 registration.
NEW YORK.—Prisoners on board U boat reach port with story that captain of the U 151 formerly was a gunner's mate in the United States navy. The Keemun, British steamship reported sunk, is safe in port.
PARIS.—Fifty miles of front are held by U. S. troops in France.
NEW YORK.—Complete surrender has been made by the Postal Telegraph Company to the appeal of President Wilson that it prevent a strike on its system during the war.
WASHINGTON.—To enlarge the naval proving grounds at Indian Head, Md., and the auxiliary grounds across the Potomac, in Virginia, President Wilson commandeered some 2,200 acres of land and placed it under the control of the secretary of navy.
BERLIN.—German newspaper declares crushing of Germanism in America is great disaster and counterbalances all German military successes.

PITH OF THE WAR NEWS

While the Germans first underestimated American assistance, now they fear it and are hastening to gain a decision before the Americans can take the front line in full force. All agree that the war is reaching a crisis and that Germany's military ring has its back to the wall.
Both allied and enemy military critics agree that the German armies will strike a new and more powerful blow this year.
The attacks of some of the best German troops, thrown into the struggle between Montdidier and Noyon, have met a sanguinary check.
On the French left wing, southeast of Montdidier, all positions have been strengthened despite a severe German counter attack between Mery and Courcelles.
On the right the Huns have made very little progress toward Compiègne, which is covered by the vast forest, and have suffered very heavy losses. In the center the French have thrown the Germans back across the Matz and recaptured Melicocq, which the Germans took the day before.
Germany soon will declare the entire Atlantic coast from Canada to Mexico in a new danger zone.

Has a Good Opinion of Chamberlain's Tablets.

"Chamberlain's Tablets are a wonder. I never sold anything that beat them," writes F. B. Tressey, Richmond, Ky. When troubled with indigestion or constipation give them a trial.

National and Local Meat Business

The meat business of the country is conducted by various agencies—
By small slaughter-houses in villages—
By local Abattoirs or small Packing Houses in towns—
both
Using only a part of the local live stock supply
and
Furnishing only a part of the local demand for meat.

These slaughtering and distributing agencies fill a well defined but necessarily restricted place in the distribution of the products of live stock.

But only packers like Swift & Company, organized on a national scale, are able to undertake the service that is more vitally important, involving
An Obligation to the Producer
To purchase for spot cash all the live stock the producer may send to market for slaughter.
An Obligation to the Consumer
To make available to every consumer, everywhere, in season and out, the full supply and variety of meat products, of the highest standard that the market affords.

Year Book of interesting and instructive facts sent on request.
Address Swift & Company, Union Stock Yards, Chicago, Illinois

MOUNT ST MARY'S MEETING THE OPPORTUNITY.

"It is no cynical and listless world that welcomes the educator today, but a world of serious thought. You must meet the opportunity fully and give your best possible services," said one, himself an educator, in a recent address. Not merely teaching skill is needed, he asserted, but the ability to bring out what today the world most needs—the highest efficiency of well-rounded, fully developed men.

That Mount Saint Mary's College, whose one hundred and tenth annual commencement was so brilliantly celebrated this week, is meeting this opportunity all who have kept in touch with the life and spirit of this illustrious institution know full well. That Mount Saint Mary's is developing its student body to meet the requirements of sacred trusteeship in the essential concerns that a suddenly altered world has foisted upon civilization is evidenced by its whole-hearted dedication of its every resource to that high purpose.

Mount Saint Mary's is binding together by indissoluble ties Christianity and patriotism, those basic principles that underlie true Americanism. Upon these as a foundation the old "Mountaintain" is building for her sons a superstructure of character, ability, constructive energy, directness of thought, directness in interpretation, clear vision, individuality and desire for service and sacrifice.

The bravery of these sons of hers has been heralded in official citations; their self-dedication to the great cause of humanity in which the whole great world is in conflict is attested by the chevrons and insignia on the shoulders of the returning khaki-clad alumni. In the trenches some of them, in the air over the battle line, others. In camps, in office, in hospitals, upon the sea—all glad of the privilege of being alive and alert and strong and in the midst of things—all supreme-

ly proud of their Americanism, of their faith and of their Alma Mater.

What Mount Saint Mary's has done during her one hundred and ten years of splendid activity needs no mention here; it is summed up in "brilliant achievement." The virile present is her concern, and after her self-assumed responsibility may well be written—Fulfillment.

DELIVERING THE GOODS.

"Wrecks of the world are of two kinds," said Elbert Hubbard; "those who have nothing that society wants, and those who do not know how to get their goods in the front window." The way to succeed in salesmanship is to get your goods into the front window and hustle for all you are worth. Having gotten them there, however, patronage must be depended on for success.

Soon after Henry Ward Beecher went to Plymouth Church a western congregation in search of a new pastor wrote to him. After describing the calibre of the man wanted the letter closed with the following injunction: "Be sure to send us a man who can swim; our last pastor was drowned fording the river." This is the sort of man that is wanted everywhere in every line of activity—the man who can swim; but there must be enough water to support the swimmer.

It has been well said that in salesmanship there are three essentials—taste, talent, training. By proper training, which means the right kind of reading, observation listening and practice, one can develop ability to become a good salesman. The basic requirements are good health, a cheerful disposition, courtesy, tact, resourcefulness, facility of expression, honesty, a firm and unshakable confidence in self and a thorough knowledge of the commodity to be sold.

One's bearing has much to do with good salesmanship. To be well-groomed inspires confidence; it compliments the buyer. A well-ironed collar or a fresh glove has carried many a man through an emergency when a wrinkle or a rip would have defeated him. The argument is that one slovenly in appearance, neglectful of his person, is as a rule neglectful of his mind and his business.

THE HUMAN VOICE.

Voices are an index to character. Tone, inflection, enunciation, modulation—these, almost unerringly, betoken distinctive traits.

So often people have unsuitable inapposite voices. Here is a dignified, portly gentleman with a thin treble squeak; a delicate lady with a chest voice of a tragedian; a mild looking individual with a voice that sets one's teeth on edge and makes one want to scream an uncivil answer to the most trivial question. How incongruous! How great the need of cultivation!

Young girls of the coming generation adopt, by dint of much practice, that dashing, mannish air so prevalent of late. Also, alas, many adopt the voice and speech of the swashbuckler. Look at some sweet-faced bright-eyed girl; she opens her mouth, and such a volley of semi-smartness and slang! The Queen's English dies a dozen deaths at every sentence. Disappointing? Rather.

Listen to the average group of people talking. There are short yelps, purrs, croakings, brayings,

lispings, chatterings—a veritable menagerie. If they could only hear themselves. If they would only realize that a little rational cultivation would change all into harmony.

HE must have been there—the fellow who said "You can never know all about contempt unless you have learned how a Sophomore regards a Freshman."

"A DANISH scientist has invented an electrical insulating material made from fish offal."—First fish story; and ain't it awful, Mabel?

LITTLE TERRIER IN TRENCH

This Canine Warrior Was Not a "Slacker," but Didn't Care to Go Over Top.

In those long lines of trenches in France and Flanders, where Britisher faces German, it is not all discomfort and misery. During quiet hours we play and joke. And we like nothing better than some little pet—a dog or a cat, perhaps—to care for and look after.

Cats are not uncommon in trenchland, many of them having been born and bred there, says Boys' Life, the boy scouts' magazine. Unless a kitten or cat is actually taken from the trenches, it makes that sector its home, and is fed and cared for by the troops which come in to hold the line at that part. But a dog will follow his unit about and soon becomes the friend of all, and quite an important being in the regiment.

Our little smooth-haired fox terrier had taken up his quarters in a strong redoubt near the front. The little dog would quake with fear on hearing a German shell in the air, but after the explosion would run about as before, realizing that the danger was past. Poor little Warrior stayed in the trenches always. He would not follow the men out, but would settle down with the incoming unit. Many were the jokes made at his expense. "Warrior, old boy," a man would say, "if I was you I would get a transfer to some nonfighting mob wot never comes up, and keep out of it well behind." But Warrior wouldn't desert. Every time the battalion came up to hold the line there was the little terrier.

ANNOUNCEMENT

The Weekly Chronicle Will Suspend Publication Friday, June 28, 1918

Owing to the unusual conditions brought about by the War—the thorough depletion of the force and the enormous increase in the cost of production—THE WEEKLY CHRONICLE, which has been issued continuously for 40 years, will suspend publication on Friday, June 28, 1918.

Job Department Will Be Continued for a Limited Time.

To accommodate those who desire to replenish their supply of printed matter—stationery, envelopes and forms which they have been accustomed to use—the Job Department will be continued for a limited time.

Orders for Job Printing will be accepted for CASH ONLY.

Bills Payable and Receivable.

Cash settlements will be made and required. All bills owed by THE CHRONICLE will be paid immediately upon presentation.

Those indebted to THE CHRONICLE are asked to show a similar courtesy.

As to Subscriptions.

A correct rebate will be made to subscribers on all paid-in-advance subscriptions that will not have expired on June 28, 1918.

All unpaid continuing subscriptions will be charged for only up to June 28, 1918.

Advertisements.

All contracts for advertisements will, of necessity, terminate on June 28, 1918. A correct rebate will be made to paid-in-advance advertisers. Continuing non-paid advertisements will be charged for as up to and including June 28, 1918.

ONLY CHANGE IN MACHINERY

Hand Knitting Now Done in Exactly the Same Manner as It Was Many Centuries Ago.

There are a few touches of humor in the countryside revival of knitting, such as the over-large and the envious feminine group about the lady who, with practiced skill, deftly turns the heel of a sock, but behind it all is a fine display of service, says a writer in the Detroit Free Press. When you see a sweater or muffler in process of evolution it may interest you to know that the work is being done just about as it was when the art was in its infancy. There have been great improvements in knitting machinery, however, and the first of them was directly due to a somewhat common malady—unreciprocated love.

The Rev. William Lee of Cambridge university, as the story goes, was deeply smitten with a maiden of his native town, Woodborough, Nottinghamshire, but in spite of his ardent wooing could make no impression. The fair one calmly kept on with her knitting, then the common occupation of English women.

In revenge Reverend William swore he'd invent a machine which would destroy the market for hand work. He kept his word, but Queen Elizabeth refused to grant a patent and to give her financial support because too many of her subjects would be deprived of their means of livelihood. So the inventor took his machine to France. This story may be entirely fanciful, but in 1589 William Lee did revolutionize hosiery making by producing the knitting frame or stocking frame. American names in the list of those who have labored to perfect knitting machinery are W. C. Gist, Almet Reid and Griswold.

Heavy Demand for Rubber.

The world discarded 183,000 tons of automobile tires during 1916. Adding to this the large number of bicycle tires thrown away every year by their owners, it appears that the world spends every year at least \$600,000,000 for pneumatic tires alone. Nearly 5,000,000 automobiles are now in use in the United States. To supply these with tires nearly 88,000 tons of India rubber are needed every year, and the American automobile owners pay every year as much as \$200,000,000 for tires.

Some Financier.

"The fair defendant has been acquitted."
"So I hear."
"Is she thinking of going on the stage?"
"Not yet. She's too smart for that. She's going to marry her lawyer, and save a corking big fee."

GAS MOST VALUABLE AS FUEL

Comparatively Little Is Now Being Used for the Purpose of Giving Direct Illumination.

Although gas is being used more than ever before, its direct employment for lighting is almost a thing of the past. Our modern "gas lights" are chiefly burners where the light is not given out by the gas at all. It is mixed with air to produce a dim blue flame with great heating power. This flame serves to heat a mantle of mineral salts white hot, and it is this incandescent mantle that gives the light. Here the gas is used not for its light, but for its heat; and it is as a fuel that gas is now most valuable, says the Literary Digest.

According to an address delivered recently in England by President Harry Jones of the Institution of Civil Engineers, and reviews by Nature (London), not 5 per cent of the whole gas output is now used for direct illumination, so that the name "gas light company" has become something of a misnomer. The use of gas as fuel, President Jones says, has received special development during the war, and the ready applicability of gas appliances to the rapid making of munitions in emergencies has made them especially valuable. Mr. Jones quoted a high official of the British war office as follows:

"Without the direct aid of the gas industry . . . it would have been perfectly impossible for this country to wage the campaign of the last three years, or even for any but a trifling time resist the overwhelming floods of enemies that were poured upon it. When I first was asked to take charge of the manufacture and production of explosives it took me but a few days to realize my absolute dependence on your great industry."

Siam Studies Philippine Health.

The Philippine model sanitary house which has aroused so much interest not only among Filipinos but also among residents of neighboring countries, has been adopted by Siam, and contractors located at Bangkok, having secured instructions from the Philippine health service, have begun the construction of a number there. The Siamese are keenly alive to the importance of promoting public health, and inasmuch as the health problems of Siam are very similar to those of the Philippines owing to climate and products, delegations of Siamese have arrived from time to time in Manila for the purpose of studying Philippine methods, one of them last year, being headed by his Royal Highness Prince Rangsit, brother of the king of Siam.

FELT THAT HE NEEDED "PEP"

Little Fellow Simply Had to Spend a Nickel of the Dime in His Possession.

Frank Groninger, attorney, has a pink-cheeked, tow-headed youngster, whose name to every one who knows him, is synonymous with effervescent, overflowing spirits. He is a thinker, too, this small Jack.

It was he, who some years ago (he has now attained the mature age of eight years), after gravely meditating on the phenomenon that ensued when things were planted in the ground—I. e., that duplicates of the thing planted accommodatingly took root and grew up out of the ground—was discovered in the yard by his mother, carefully patting and slapping down a pile of wet mud with his small spade.

"What are you doing Jack; planting something?" Jack's evident reluctance to disclose the nature of his agricultural activities aroused his mother's suspicion. Grasping one of the miniature garden tools at Jack's feet she dug vigorously into the wet mud. A glint caught her eye, and in horrified silence she scraped the mud from her jeweled gold watch.

But, if Jack didn't succeed in growing nice little timepieces, that a small boy could hear tick undisturbedly, he has kept right on being active. Hence, his mother's surprise the other day at a reply of his.

Jack's father, before leaving for his office, gave Jack a dime. Afterward Jack's mother seeing the coin in his hand, admonished him to put the dime away and save it.

"O mother," Jack exclaimed indignantly, "I simply got to spend a nickel of it to give me some 'pep.'"—Indianapolis News.

Art.

Here are quotations from some of the examination papers submitted by Indianapolis school children for credit in the art courses at the John Herron Art Institute:

"His way of working was very 'technique.'"

"There was a picture of St. Catherine receiving the crown from an 'angle.'"

"Michael Angelo has many paintings in the Renaissance, which is a building in France."

"The 'sargent' did the 'freeze' in a room in the Boston Library."

"Hoffman painted most of the Prima Donna. The most famous is the Sistine Madonna."

"One of the greatest painters of all times painted beautiful pictures on the ceiling of a church somewhere in the United States, and this great artist's name was Michael Angelo."

NO newspaper can succeed without advertising, therefore we solicit the patronage of our readers for those who by their advertising help to make this paper possible.

IT MAY BE THAT YOU are among the number who intended to settle for your subscription and who overlooked the last notice requesting all those who are in arrears to make a settlement.

ABOUT BOYS IN TRENCHES.

Progress of Hostilities on All Land
Fronts, in the Submarine Zones
and in the Up in the Air
Battlefields.

WAR BULLETINS

The fourth German attempt to crush the allied armies came to a dead halt. Ludenoff has seemingly abandoned the advance southward toward Campligne.

The tremendous losses inflicted on the Germans by the allies have made further progress impossible.

Washington military officers believe Germans are preparing for a new and more violent attack on the Amiens front.

The French held their deep gain in the German right flank in Picardy in the face of a powerful thrust to retrieve the foe's losses. The enemy suffered heavy losses without being able to reach the allied lines west of the Oise.

The Germans have captured more than 15,000 prisoners and 150 guns in their advance along the Oise, Berlin announced. The loss of some German guns during French counter attacks was admitted in the German official statement.

Allies hold the foe firmly on the Oise, but Berlin reports that the French have evacuated Carlepoint Wood, east of the Oise, and been driven as far south as Tracy-le-Val, the Germans occupying the angle of the salient.

Two Norwegian steamships, the Vindeggan and the Henrik Lund, were sunk by a German submarine 200 miles off Cape Charles. Eighty tons of copper were taken from the Vindeggan, and her crew was compelled to transfer the cargo to the raider.

WASHINGTON

Upholding the right of workmen to organize, President Wilson came out in support of the National War Labor Board's decision in the case of the threatened strike of commercial telegraphers when the text of his communication to the presidents of the telegraph companies became known.

Members of the House Military Committee at their weekly war department conference were told that the stream of Americans steadily moving to the front had resulted in a noticeable stiffening of the whole allied line.

The department of agriculture sent out a warning not to shoot pigeons, as they may be army messengers.

The senate, 41 to 34, rejects Underwood resolution to limit debate on legislation.

Secretary McAdoo, suffering from overwork, left Washington for Sulphur Springs.

The Postal Telegraph Company will not discharge union operators, it was announced.

American industries are to be classified by the government and rated for preference in fuel distribution.

The Prohibition rider in the agricultural bill was sidetracked in the senate.

The house rejected the senate amendment to the postoffice appropriation bill authorizing government purchase of pneumatic mail tube systems.

A new bureau, which will give the President accurate information regarding the work of every department, is being organized. It will supply him daily with the status of war work and will enable him to know whether reorganization of a department is necessary.

America is ready to enter Russia with the allies and aid the people in regaining their rights, according to opinion in Washington.

GENERAL

Lieut. Pat O'Brien, Royal British Flying Corps, who is in the United States after escaping from a German war prison, fell 2,000 feet at San Antonio, Tex., and was only slightly injured.

Four women were fined from \$50 to \$100 each for talking in German over the telephone in violation of Governor Harding's proclamation in Davenport, Ia. The money went to the Red Cross.

A weekly review will be published by the war department.

Percy H. Long of Locust Valley, L. I., flying cadet at Kelley Field, Tex., was killed when his airplane, struck by a gust of wind, became unmanageable.

Kansas wheat fields have 80,000 harvesters at work.

Kenosha, Wis., has a strike of women car conductors.

Two hundred and ten slackers were arrested in a raid at Detroit.

Olivet College, Olivet, Mich., will close for the duration of the war.

Recruiting of skilled and unskilled labor for war industries was considered at the second session of the first national war labor conference of the federal employment service.

Chairman Klein of the House Ways and Means Committee announced that incomes between \$5,000 and \$500,000 and profits must bear the burden of increased taxes.

Secretary McAdoo will remain away from Washington all summer transacting government business by wire from Sulphur Springs.

Dr. Harry A. Garfield, the fuel administrator, made official announcement that manufacturers of automobiles will receive only 25 per cent. of the coal used for that purpose in the present year, thus compelling a fuel curtailment of 75 per cent.

While Major General Goethals is inquiring into the status of Private Nelson Morris of the national army that young man is peeling potatoes for the meals of the soldiers stationed at Camp Meigs.

President Wilson ordered the water shut off in the White House lawn fountain. Washington is threatened with a water shortage.

British and French instructors at American training camps will be supplied by American officers invalided home.

German-American War

Air raid sirens are being installed in New York city at intervals of thirty blocks. A twenty minute blast will announce the coming of enemy airplanes.

Herman Jungbluth, a German, was arrested in Atlantic City, N. J., under the espionage act. Drawings of munition plants were said to be in his possession.

Twelve more of General Pershing's men win distinguished service crosses for heroism in action.

President Wilson on anniversary of the landing of our first troops in France tells President Poincare American troops and material will make overwhelming the force against the common enemy.

Secretary Baker announces that General March, chief of staff, will hereafter keep the American public informed on the progress of the war by giving out weekly reviews to the newspapers.

Don Martin, New York Herald's war correspondent, talks with Boche prisoners and sends a warning that the German people and government are one and that the fight of the allies is against both.

Newspapers in Germany now concede that Pershing has 500,000 men in France.

London is preparing a great program of public and private entertainment for American soldiers.

SPORTING

New York raised its National League championship pennant.

Owing to opposition there will be no racing at the Kentucky tracks this autumn.

Tim Hendryx is now being played quite frequently in the St. Louis lineup, and he is hitting the ball much better than he did in the earlier part of the campaign.

It seems strange to see the Detroit club trailing. The pitching is not the best, but with a club so strong in other departments this weakness should not make such a difference.

Clyde Milan is batting in the clean-up position for the Senators. In other seasons Milan usually batted nearer to the top.

Fleider Jones, manager of the St. Louis Americans, resigned, his resignation to take effect immediately. James Austin, third baseman, will succeed him temporarily.

The British government has decided that winter racing will not be permitted owing to the strain on transportation facilities.

R. T. Wilson's Hannibal won the Keene Memorial for two-year-olds at the Belmont Park race track, New York.

The punch of the Cleveland club centers around Chapman and Speaker, batting in second and third positions. With these players out of the way the club does not appear very formidable.

Joe Jackson, who is painting ships at Wilmington, Del., says he will never return to baseball.

FOREIGN

The police raided a workmen's club in York street, Dublin, and arrested 30 for drilling.

Baron Rhondda is highly praised by the British press for his services as food controller.

Canada forbids imports of less essential perishable food from the United States to restore trade balance.

It is reported in Copenhagen that the Russian Bolshevik minister to Sweden is to be sent to the United States as ambassador.

The central Chinese government has taken the opium combination's stock. The stock is 1,700 chests, valued at 6,200 taels a chest, and will be paid for with 6 per cent. bonds, issued at par.

The fourth German offensive of the year appears to be about over.

The Pope in a letter declared he would continue his efforts to bring peace.

In the German air raid on Calais an aerial torpedo caused the water main near a dwelling to burst. The cellar was flooded and a family of eight were drowned.

The Johns Hopkins University BALTIMORE

ENTRANCE EXAMINATIONS

State Scholarships in Engineering Courses

ENTRANCE EXAMINATIONS for the Department of Engineering, as well as for the College of Arts and Sciences, will be held in Gilman Hall, Monday-Thursday, September 16-19, 1918, beginning at 9 A. M. each day.

Examinations will also be conducted by the College Entrance Examination Board, Monday-Saturday, June 17-22, in Gilman Hall, beginning at 9 A. M. These examinations are accepted by the University.

APPLICATIONS FOR SCHOLARSHIPS IN THE DEPARTMENT OF ENGINEERING, established under the provisions of the Laws of Maryland, Chapter 90, 1912, will now be received. If there is more than one applicant for a particular scholarship, a competitive examination must be taken Friday, September 20, 1918, beginning at 9 A. M. Appointments will be made soon after.

Each Legislative District of Baltimore City and Each County of the State with the exception of Howard and Worcester Counties, will be entitled to one or more scholarships for the year 1918-1919, in addition to those who have already been assigned. In the two counties mentioned above, all the available scholarships have been awarded.

Under the provisions of the Act of Assembly, the County and City Scholarships in the department of Engineering are awarded only to deserving students whose financial circumstances are such that they are unable to obtain an education in Engineering unless free tuition be granted to them. The scholarships entitle the holder to free tuition, free use of text-books, and exemption from all regular fees. One of the scholarships in each County and each Legislative District of the City carries also the sum of \$200. The expense of attendance for those who do not receive scholarships is not greater than at other Maryland institutions.

Scholarships may be awarded to graduates of Loyola College, St. John's College, Washington College, Western Maryland College, Maryland Agricultural College, Mt. St. Mary's College, Rock Hill College. Two scholarships will be awarded "At Large."

Applicants should address The Registrar, The Johns Hopkins University, for blank forms of application and for further information as to examinations, award of scholarships, and courses of instruction. May 24 4ts.

PYROX

Kills Insects and Prevents Fungus
Use It On
Fruits, Berries, Vegetables.

Pyrox Increases Yields

It was discovered long ago that fruits and vegetables produced more heavily when sprayed with a material containing a copper fungicide.

Pyrox Is Economical

The fact that PYROX sticks so tenaciously after it is applied adds greatly to its value. Rains do not wash it off and respraying is required only to cover new growth.

PERSONALS.

Misses Carrie, Anna and Eva Rowe and Madeline Frailey spent Monday in Gettysburg.

Mrs. C. R. Combs and Miss Mary Ellen Eyster were in Frederick on Monday.

Corp. Clarence Frailey, of Washington, D. C., was the guest for several days of his parents, Mr. and Mrs. Oscar D. Frailey.

Brother Sigismund Saffer, of Alexian Brothers Hospital, Elizabeth, N. J., is visiting his mother, Mrs. Margaret Saffer.

Mrs. Daniel Gelwicks, Mrs. George Wilhite, Misses Carrie and Corinne Gelwicks, Grace and Adele Bowling, Sylvia Wilhite, Messrs. Eugene Zimmerman and Roy Gelwicks motored to Baltimore on Sunday.

Miss Sylvia Wilhite is spending the week in Baltimore with Mrs. Harry King.

Prof. H. N. Comey, of Danvers, Mass., was the guest last week of Mr. and Mrs. F. Harry Gross.

Miss Anne Felix has returned from a visit to Gettysburg, Pa.

Miss Agnes Finke, of Westminster, Md., is the guest of Miss Mary Clare Boyle.

Miss Helena Hartnett, of Dover, Del., is spending sometime with Miss Marguerite Mitchell.

Mr. and Mrs. J. T. Gillelan and son, George Howard, and Mrs. A. P. T. Waltham, Misses Nan Neville and Rhoda Gillelan of Baltimore, and Mr. and Mrs. Lawrence Gillelan and daughters, Ruth, Elizabeth and Margaret Westminster, spent Sunday with Mrs. Ida S. Gillelan.

Mrs. Isaac Gelwicks son and daughter of Hagerstown, Md., are visiting Mrs. Gelwicks' sisters, Mrs. John Little and Mrs. John Harner.

Miss Mary Ellen Eyster is visiting in Washington, D. C.

Miss Mary Shuff, of Frederick, is spending the summer vacation with her parents, Mr. and Mrs. M. F. Shuff.

Mr. and Mrs. John Baumgardner, of Frederick, were in Emmitsburg, on Monday.

Bryan Byers, of Camp Meade, Md., spent the week end with his uncle and aunt, Mr. and Mrs. J. Lewis Rhodes.

Miss Margaret Vaughn, of Harrisburg, Pa., is the guest of Miss Marguerite Mitchell.

Mr. Albert Krass, of New York City made a business trip to Emmitsburg on Monday.

Arthur Stokes, of Edgewood, Md., spent Tuesday with his parents, Mr. and Mrs. J. Harry Stokes.

Mr. Theodore Burdner spent Saturday and Sunday with Mr. and Mrs. John Nogle, of Frederick.

Mrs. H. M. Thompson, of Pueblo, Cal., Mrs. H. D. Schuure, of Sealions Grove, Pa., Mrs. Angell and Miss Laura Shuff, of Thurmont, Md., are the guests of Mrs. W. P. Nunemaker and Miss Edythe Nunemaker.

Miss Margaret Dill of Frederick, visited her sister, Mrs. E. G. Stansbury on Sunday.

Miss Janet Cowling left Wednesday for her home in Eastville, Va., after an extended visit to Miss Grace Rowe.

Mr. and Mrs. James McGreevy and Mrs. Harry Krise, of Baltimore, are visiting Mr. and Mrs. P. D. Lawrence.

A Surprise Party.

A very enjoyable surprise party was given to Miss Julia Topper on Tuesday evening by her parents, Mr. and Mrs. J. Lewis Topper, at her home near Emmitsburg. The occasion was in honor of her graduation from St. Euphemia's School.

In the early part of the evening Miss Topper motored to Thurmont and was agreeably surprised on her return to find her friends gathered at her home.

The evening was very enjoyably spent in music and various games on the lawn. Miss Topper was the recipient of many beautiful presents. Delicious refreshments were served in the dining room which was beautifully decorated in her class colors, Red, White and Blue.

The following were present: Messrs. William Zurgable, Jacob Baker, Francis Fitzgerald, Ralph Easley, Joseph and William Keepers, Raymond and Roger Topper and Guy Baker. Misses Bessie Topper, Guyda Stine, Margaret Hays, Mariana Roddy, Mary Clare Boyle, Rose Keepers, Carrie and Mary Easley, Frances Kerrigan, Carrie Baker, Dorothy Roddy and Gertrude Topper.

New Bridge Over Monocacy.

At a joint meeting in Westminster of the County Commissioners of Frederick and Carroll Counties, M. D. Porman, of York, Pa., was awarded the contract for a new steel bridge over the Monocacy River at a point on the dividing line of the two counties, about six miles from Emmitsburg. The contract price is \$21,409, and each county will pay half of the amount.

Appointed Notary Public.

Mr. J. Lewis Rhodes, President of the Emmitsburg Savings Bank, has been appointed a Notary Public for Frederick county.

A \$5 bill in your pocket does not increase in value; a War Savings Stamp does.

LOCAL BREVITIES.

Announce Birth of Daughter.

Born—to Mr. and Mrs. Harry Lowe on Wednesday, June 19, a daughter.

Mrs. Boyle Entertains.

Mrs. Harry S. Boyle entertained at cards Wednesday evening in honor of her guest, Miss Agnes Finke, of Westminster, Md.

Company A. Boy Promoted.

Joseph Webb Felix, son of Mr. Pius Felix, of this place, a member of Co. A. 115 Infantry, has been promoted from the rank of first-class private to that of Corporal.

Bishop Corrigan Confirms.

Rt. Rev. Owen B. Corrigan, confirmed a class of more than eighty adults and children in St. Joseph's Catholic Church Sunday evening at 7.30 o'clock. Benediction of the Blessed Sacrament followed the confirmation.

Promoted To Sergeant.

Charles J. Rowe, son of Mr. and Mrs. Edward H. Rowe, of this place has received his promotion from first-class private to that of sergeant. Sergeant Rowe has been at Camp Meade since last November and expects to go "over there" shortly.

Sent to University of Pittsburgh.

Among the young men selected by the Adams County Board to be sent to the University of Pittsburgh, for a course in automobile repair work was Gerald B. Shorb, son of Mr. and Mrs. J. F. Shorb. Mr. Shorb left for Pittsburgh last Friday.

Is Made Second Lieutenant.

John D. Hospelhorn, son of Mr. and Mrs. Bert Hospelhorn, of Hagerstown, formerly of Emmitsburg has recently received his commission as Second Lieutenant in the American Army. Lieutenant Hospelhorn was sent to Camp Meade last fall and was among those selected to the First Officer's Training Camp at that place. He is now stationed at Camp Lee, Petersburg, Va.

Delightful Social Evening.

A number of the young ladies of Emmitsburg entertained at the home of the Misses Rowe on Tuesday evening in honor of the young men from Camp Edgewood who played Mount St. Mary's. The evening was spent in dancing, playing cards and music.

The following morning the same party of young people motored to Gettysburg to view Camp Colt and the Battlefield.

Five More Leave Wednesday

Out of the one hundred and seventy-four men who leave from Frederick county on Wednesday, the following young men were drawn from Emmitsburg: William Roy Gelwicks, Ernest Thomas Seltzer, Sidney Clay Byard, Charles Francis Gelwicks and John Mark Harting. Three alternates were also named from Emmitsburg. They are James Lloyd Bishop, Edmund Philip English and William Lewis McKissick.

Autos From All Points.

In addition to the many fine cars that brought visitors to the two Commencements, an unusual number of autos from far distant points stopped in or passed through Emmitsburg. There was one from Maine, there were several from the extreme west and not a few from Georgia, Alabama and Mississippi. On Monday the car of Chas. M. Schwab, occupied by his secretary, drove through town on the way to Gettysburg.

An Auto, a Buggy, a Soldier and Some Eggs.

Saturday night as the usual week-end crowd was camouflaging the village into the appearance of lil' ole New York, a "flivver"—not a 1920 model at that, and restive at having been required to stand so long in one place—got it's dander up and while being cranked bumped its owner beneath it wheels, yanked a buggy from a horse attached thereto and started for home, "Aha!" cried a stalwart Sammy standing nearby, "a chance to gain the croix de guerre!" With that said soldier leaped into the juggernaut and—landed in a basket containing sixteen dozen eggs.!! — — — ? ? And the unfeeling crowd sang, "Where do we go from here?"

OBITUARY.

ANITA FRANCES LEPORE.

Anita Frances Lepore, daughter of Mr. and Mrs. Alfred Lepore, of Baltimore, died at the home of her grandparents, Mr. and Mrs. James B. Elder, this morning. She was aged 2 years. Funeral arrangements have not yet been made.

The Thrift and War Savings Stamps plan give everybody the chance to stand shoulder to shoulder in this war. Buy these stamps—at the Post Office—or sign a pledge card for future purchase.

No Services Until July.

On account of the absence of the pastor for ten days there will be no service in the Presbyterian church until the first Sabbath of July.

COMMENCEMENT EXERCISES OF ST. EUPHEMIA'S SCHOOL

A Very Interesting Programme Splendidly Rendered.—Large Audience Present. Three Graduates—Religion and Patriotism The Keynote.

The closing exercises of St. Euphemia's School, always a most pleasurable event and one eagerly looked forward to, were held on Tuesday morning at ten o'clock. The spirit of all the numbers on the very interesting programme was that of religion and patriotism. It was made plain that the young boys and girls, besides being taught the ordinary branches of life, were instructed in the deeper things of love of God and love of country.

This was forcefully brought to the attention of the unusually large and most appreciative audience by the Reverend Father J. O. Hayden, C. M., and by the Reverend Father Edward J. Walsh, C. M., of Springfield, Mass. Father Hayden, after highly complimenting the scholars, emphasized the necessity for putting patriotism into action—not giving it expression solely through flag waving and the singing of patriotic songs.

On this occasion the Reverend Pastor deferred to his guest, Father Walsh, who said, in part: "In all parts of the country there are striking manifestations of genuine patriotism, but the children of St. Euphemia's have proved beyond any doubt, that the flame of love for our country burns just as brightly and ardently in the hearts of the people in these hills as it does in the larger and more important towns and cities of the United States. It is inspiring always to see a crowd swayed by the emotion of patriotism, but it is sublime to behold several hundred children professing, from their pure, simple and sincere hearts, the sentiments of love and devotion for their country. By word, by song, by pageant do the little ones of St. Euphemia's in bidding good bye to their books for the summer, preach to their parents and friends the important duties of life, love and service of God, and love and service of country especially in this time of crisis.

"All the numbers of the program have been splendidly carried out, and the work is a wonderful tribute to the noble sisters, who trained the children, and inspired them in their high ideals."

The graduates were: Jacob Eldred Baker, William F. Zurgable, Jr., and Miss Julia Marie Topper.

The gold prize, ten dollars, the gift of Frederick Welty, for spelling, was awarded to Guy Anthony Baker.

The decorations, in which the national colors were blended with red roses—the "red badge of courage"—were in perfect accord with the spirit of the occasion and formed an extremely dignified setting for the charming inspiring entertainment.

KOONTZ—GRIMES.

Mr. Edward Nelson Koontz, of Taneytown, and Miss Roxana Grimes, of Emmitsburg, were married Tuesday evening, June 18, 1918, at the M. E. parsonage, Thurmont. Rev. E. O. Pritchett performed the ceremony.

SPRINKLING NOTICE.

In order to conserve the water supply, notice is hereby given to patrons of the Emmitsburg Water Company not to sprinkle the streets between the hours of 9 A. M. and 5 P. M.

Pledge yourself to buy War Savings Stamps on or before June 28th, National War Savings Day.

CHALLENGE TO THE CHURCHES IS ACTIVITY, POSITIVE RELIGION

The Rev. Mr. Person's of Baltimore, Preaches on Church Revitalization and Christian Fellowship.

Rev. S. E. Persons, of the Baltimore Presbytery, preached last Sunday morning and evening in the Presbyterian church. The substance of Mr. Person's two sermons—both of which were delivered in a strong, virile and convincing manner, evidencing the sincerity of the speaker—was church revitalization, broadmindedness, fellowship, brotherly love and above all, the practical, positive application of religion in the community. Being self-satisfied, complacent and narrow was, according to Mr. Persons, not to be tolerated. The vineyard was to be worked, the byways and hedges explored; persons with no religion were to be visited, made friends with and brought into the folds of christianity. Not the narrow christianity dominated by denominationalism, but the all embracing christianity of the Master.

"When the boys come home," said Mr. Persons referring to our young men in the fighting line, "what are the churches going to offer them?" They will not stand for molly coddling; nor will they tolerate splitting hairs over doctrinal questions. They will demand and have the right to demand whole hearted, positive religion such as they have been accustomed to in the bigger, cosmopolitan, shoulder to shoulder spheres in which their do and die activities have led them.

The challenge to the church is "wake up! throw off narrowness, seek opportunities to do Christ's work—and then do it."

DIVIDEND NOTICE.

At the meeting of the Board of Directors of the Emmitsburg Savings Bank, on June 20, 1918, the regular semi-annual dividend of three and one-half (3 1/2) per cent. was declared, payable on and after July 2nd, 1918. As usual checks will be mailed to stockholders.

Every Stamp Invested In Will Help To Hasten the End of The War

Saving to help our sons is more than duty or sacrifice; it is a privilege. Embrace that privilege by buying War Savings Stamps—at the Post Office.

You may not be able to fight, but you can furnish the ammunition. Buy Thrift or War Savings Stamps—at the Post Office or from your rural carrier.

HOT WATER FRUIT AND VEGETABLE DRYER

This is the cheapest, simplest, most durable and effective dryer for domestic use that has ever been invented. It requires very little space and is used on top of a range or stove when not used for cooking, and when it is removed from the range to make room for cooking it still continues to dry on account of the hot water, which requires some time to cool.

Manufactured by J. T. HAYS & SON Emmitsburg, Md.

Bell Service for Camp

The Bell Telephone System has supplied telephone systems for the National Army cantonments, the National Guard camps, and for a host of camps for other branches of the service. The C. and P. Telephone Company has handled a large share of the work.

The camps have been equipped with complete telephone systems and in many cases furnished with operators. All of this was "emergency work" and was handled with the greatest speed.

M. S. M. Defeats Camp Edgewood In Close Contest.

The Mountaineers added another victory to their already long string on Tuesday when they defeated the strong Edgewood team by the score of 3 to 2. The soldiers presented one of best team seen on Echo Field this season and with Stokes, an Emmitsburg boy, on the mound gave the home team a hard fight to the end. Stokes and Hagerty, the opposing pitchers, were both in rare form and were given brilliant support by their team mates. Captain Sadler, playing his last game in a mountain uniform, closed his career in a blaze of glory, scoring one of his team's runs and sending the deciding tally across in the seventh with a single to center. Cogan and Royer also delivered timely hits and the former saved his team on two occasions with spectacular catches. Immediately after the game Cogan was chosen to captain the team next year. As Captain Sadler is the only member of the team who will be lost by graduation Coach Thompson should have another winning aggregation on hand next year. Summary:

ANIMAL FATS ARE REQUIRED

Both the Feeder and the Nation Will Benefit if Pigs Are Fed to Heavier Weights.

(Prepared by the United States Department of Agriculture.) While the little pig makes a pound for pound gain on less feed than the older hog, there are advantages from both an individual and a national standpoint in feeding hogs to a heavier weight. Animal fats are needed. No way exists of increasing the supply more rapidly than by building up the number of swine in the country. And as every farmer knows, it's the heavy hog that carries the fat. The need for fat also was reflected in the

Good, Heavy Pig Such as Nation Wants—This Animal Weighed 430 Pounds at Age of Eleven Months.

market in December by a wider spread in prices paid for receipts, the fat hogs topping the market.

Market reports for early winter also showed that hogs were being sent to packing centers at a much heavier average weight than has been the custom for some time, thus indicating that farmers were finding it profitable as well as patriotic to put more fat on their hogs. The feeding for more weight has been done by the farmers in direct response to the many requests that hog production be increased. It was impossible to enlarge the number of hogs immediately; that will come with the spring litters, and again in the fall. It was possible, however, to add weight to the hogs on hand. An abundance of feed, although in some localities of poor quality, has greatly favored farmers, and those favorably situated should feed hogs until they weigh 250 to 300 pounds. Not only have they kept hogs on their farms until the animals carried weight, but the demand at packing centers for feeder or light-weight hogs to be shipped back to the country was unprecedented during the early winter.

Those who have to buy feed or find it necessary to economize on feed which they have purchased may find it more to their advantage to market hogs at lighter weight because of the relative slowness and higher cost of putting flesh and fat on heavy hogs. A weight of about 200 pounds may be attained at from ten to eleven months of age.

PROPER BROOD-SOW RATIOS

Feed Has Much to Do With Strength of Litter—Results Obtained at Iowa Station.

The brood sow's ration has much to do with the strength of the litter, according to results obtained at the Iowa experiment station.

In a lot of gilts fed a ration of ear corn plus one-tenth as much tankage by weight, 93 per cent of the pigs were classed as strong at birth. The percentage of strong pigs with corn alone was 68. The percentage with other rations follows:

Shelled corn, chopped clover and molasses, 80 per cent strong; ear corn plus clover in rack, 94 per cent strong; ear corn plus alfalfa in rack, 94 per cent strong.

The cost of new-born pigs with ear corn and clover was 31 cents, with ear corn and alfalfa 32 cents, with ear corn and tankage 19 cents, and with ear corn only 41 cents. These cost figures were based on corn at 50 cents a bushel, and would have to be multiplied by 2 1/2 or three to make them apply to present conditions.

BEEF DESIRED BY CONSUMER

Well-Matured Yearling Produces Quality More Economically Than Any Other Animal.

Well-finished heaves when fattened for market under two years of age offer greater choice in the matter of selecting the date of marketing. The average consumer prefers the size and quality of the cuts which are obtained from the carcass of a well-bred, highly finished yearling. In addition to high quality, thickness in steaks and other cuts of beef is desired by the consumer and these can be produced more economically in the well-matured yearling than in any other class of beef animal.

FEEDING ALFALFA TO HORSES

Crop Should Be Regarded as Concentrate Rather Than Roughage—Has Much Protein.

Feeding alfalfa hay to horses in limited quantities has been proved a desirable practice, but this crop should be looked upon as a concentrate rather than a roughage. One pound of alfalfa hay contains 35 per cent more available protein than does a pound of shelled corn.

Maryland Income Taxes.

In the year 1917 personal incomes were returned by 437,033 persons in the United States, showing net incomes of \$6,298,577,620. More than one-fourth of the total net income was returned by persons with incomes of from \$3,000 to \$10,000. The total net income amounted to \$8,765,908,934.

The following are the Maryland figures of personal co-operate net incomes and income taxes: Total personal net income \$121,009,054; total corporate net income, \$37,234,003; total personal and corporate net income, \$208,293,057. Percentage 1.383. Total personal and corporate tax, \$4,063,559. Percentage, 1.177.

Gasoline Supply Sufficient.

Promise has been given that there will be no gasoline shortage during the period of the war and that the use of pleasure automobiles, industrial motors, motorboats and farm machinery having combustion engines will not be curtailed on account of Government embargoes against gasoline consumption.

This assurance is based upon the fact that the output of gasoline will not only be as large as at present, but that in all likelihood it will be steadily increased as the war proceeds. This does not mean, however, that the price of gasoline will remain stable or will be reduced. The chances are that it will be slightly increased, but this increase will not become prohibitive.

Whooping Cough.

In this disease it is important that the cough be kept loose and expectoration easy, which can be done by giving Chamberlain's Cough Remedy. Mrs. P. H. Martin, Peru, Ind., writes, "My two daughters had whooping cough. I gave them Chamberlain's Cough Remedy and it worked like a charm." June 7 Ino. **Advertisement.

Sammies Must be Beardless.

A beardless American army will fight democracy's battles in France.

On the theory that a fellow fights better when his face is devoid of a three days' growth of beard, General Pershing has supplied every soldier in the American Expeditionary Forces with a razor. The implied injunction is a once over every day.

It has been announced by the War Department that the equipment of American soldiers with razors "is in line with General Pershing's desire to have a clean faced force as an element of morale."

St. Euphemia's Seniors Treated.

On Friday afternoon at four o'clock a treat was given to the Graduates by the Senior Class of St. Euphemia's School.

Rev. J. O. Hayden presented to Julia Topper a gold thimble and to William Zargable and Jacob Baker, fountain pens, gifts from the class. This treat was followed by benediction of the Blessed Sacrament.

A Million in France By July.

More than 800,000 American troops have been sent to France and the Government expects to have a million there by July 1.

This disclosure was made last Sunday by Gen. Peyton C. March chief of staff, at his first weekly conference with newspaper correspondents at an earlier conference of War Department officials with members of the Senate Military Committee.

Henry Ford to Accept Nomination.

Henry Ford has announced that at the request of President Wilson, he had decided to become a candidate for United States Senator from Michigan, if the nomination should be offered him.

ANSWER THE CALL

Emmitsburg People Have Found That This is Necessary.

A cold, a strain, a sudden wrench, A little cause may hurt the kidneys. Spells of backache often follow. Or some irregularity of the urine. A splendid remedy for such attacks. A medicine that has satisfied thousands.

Is Doan's Kidney Pills. Thousands of people rely upon it. Here is one case:

Mrs. R. T. Foster, Second St., Brunswick, Md., says: "A year ago I had such terrible pains through the small of my back I could hardly do my work. I felt more tired mornings than when I went to bed and my feet and ankles swelled terribly. When I read about Doan's Kidney Pills, I got a box and they helped me wonderfully. I am glad to recommend them."

Price 60c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same as Mrs. Foster had. Foster-Milburn Co., Mfgs. Buffalo, N. Y.

We Do Not Issue a Catalogue

of our stocks, for the very good reason that styles change so frequently that it is not practicable to do so.

But, by addressing an inquiry to our Mail Shopping Service, you can get full and accurate descriptions and prices of any merchandise in our store.

For instance, if you are considering the purchase of a new blouse (the approved term for a woman's waist), a postal or letter from you will be answered by us, giving the prices and styles of the blouses of the material you prefer. If there is some hard-to-get shade that you have in mind, it is safe to say that we have it among our stocks.

Perhaps you are wondering of what fabrics the new frocks should be made? We will gladly send samples of the most favored materials, if you state whether you want silk or cotton fabrics.

And so our shoppers by mail find it easy to secure satisfactory service by dealing with Baltimore's Best Store.

May we be of assistance to you in solving your shopping problems?

U. S. CUTS BEEF RATION TO MEET OVERSEAS NEED

Washington.—In urging further restriction in beef consumption and sanctioning a somewhat freer use of fresh pork, bacon, ham and sausage, the Food Administration shows how its conservation orders to Americans at home can no more be unchangeable than can the operation orders of generals at the front. The latest announcement from Herbert Hoover says:

"The public will realize that the changing conditions of production from season to season, the changing situation in shipping and, therefore, of the markets available to the Allies, and the increasing demand for our growing army, with the fluctuating supply of local beef in France, all make it impossible to determine policies for a long period in advance. We have recently asked for economy in all meat consumption; we wish now to emphasize further reduction of beef by the substitution of pork. It is anticipated that this program will hold good until September 15, and the co-operation of the public is most earnestly requested."

The demand for beef for our army and the allies for this summer is beyond our present supplies. Therefore, a more limited beef allowance is imperative until an ample overseas supply is assured.

Householders are requested not "under any circumstances" to buy more than one and one-quarter pounds of clear beef weekly, or one and one-half pounds, including the bone, for each person in the household.

Hotels and restaurants are asked not to serve boiled beef more than two meals weekly, beefsteak more than one meal weekly and roast beef more than one meal weekly.

HOOVER'S NEW REQUEST WILL EAT UP PENCILS.

One request comes from Washington which the hotels of this city are expecting will cause them to buy more than twenty-five thousand lead pencils and throw away their menu cards. The request expected from Washington is that, in the interest of food conservation, persons eating in hotel restaurants and dining rooms be required to write their orders instead of giving them orally, and that bills of fare be not placed before the diners, but that the person ordering the meals be required to ask for each article of food wanted.

The Food Administration has already expressed the belief that if a person is forced to write what he wishes to eat he will order less. The Administration also has suggested that hotels stop serving table d'hote meals.

It also has made known again that no jurisdiction is maintained over the price of foods, but that it will expect all hotels to obey the spirit of the times and charge the lowest prices that it possibly can charge.

WHY NOT.

Why not have a garden all your own and avoid unpleasantness. Enter it in the Maryland \$25,000 Produce Contest.

ESCALLOPED POTATOES WITH PEPPERS.

(Official recipe.)
Four medium sized cold boiled potatoes, one cup cream sauce, one slice of onion (minced), one chopped red pepper, one chopped green pepper, one-half tablespoon parsley (minced). Season with salt and pepper.

Cut the potatoes into one-inch cubes. Put a layer of potatoes in the bottom of an oiled baking dish. Mix minced pepper, parsley, onion and seasoning, and add a layer of this mixture. Continue putting alternate layers of each until the mixture is all used. Pour over this the cream sauce and bake for 25 minutes. Serve hot.

"Overzealous and ill-advised patriotism" is, according to Herbert Hoover, cutting down the use of a very valuable food. Sauerkraut by some other name should figure in your war diet.

The saving of the fruit crop depends on housewives saving enough sugar from daily use on the table.

Picnics and parties for over fifteen people have been placed by the Canada Food Board under the same restrictions as public eating places. Sugar, for instance, must be doled out at under two teaspoons per beverage.

Sugar has only been in common use in London since 1750, when the price dropped to 17½ cents a pound.

Eat less meat,
Eat less wheat,
Eat nothing just for fun,
Save all you can
For the fighting man,
And help to beat the Hun.

THE SQUARE STORE ON THE SQUARE CORNER

OUR BLOUSE VALUES ARE APPRECIATED BY THE WOMAN WHO KNOWS

During the years in which this store has been in business, the dominating thought behind it's merchandising policies has been to give good values—values that are so pronounced in character that you would always think of us first when planning to buy clothes. A most splendid example of our value-giving powers is remarkably well illustrated by the unusual value in blouses we offer at all times. The models now shown are noteworthy in every way. Beautiful examples in GEORGETTE, MESSALINE, CREPE DE CHINE, VOILE, TAFFETA, LINEN, ect. Exceptional values are offered in all of the above mentioned fabrics, ranging in price from 95c to \$9.00

A Group of Distinctive Dresses That Are Marvels For Value

Simple as they are—these dresses of today—they are full of distinction and winsomeness. Many of them feature new skirt effects; others show novelties in sleeves and striking collars and cuffs. The materials are exceptional in quality, colorings are those most in favor for the present season. No woman in need of new additions to her wardrobe can afford to overlook this display. Some of these new models are shown in our Market street window.

Priced Upward From \$5.00

NEW COLORED SILK UMBRELLAS

Suitable alike for rain or sun. Covered with best grades of silk, substantial frames, nobby sticks. Made for-service.

\$3.25 to \$5.00
