BY ABIGAIL

HOW ABOUT A RAISE?

Have you ever stopped to think what a really tough job the mayor of a town has? It's a worrisome, troublesome, and thankless job that gets you in hot water every day with one person or another. Certainly it's impossible to please everyone. When the Smith's are happy over something you've done, the Jones aren't and they make no secret that they're out for your scalp . . . So you turn around and give the Jones what they want and then the Smiths aren't speaking to you any longer. I'm telling you, it's really tough trying to be town father in a town this size . . . For all the time and worry you put in it the annual stipend you get isn't enough to keep you in postage stamps during the year . . . As of this date the mayor averages a little over 6 cents per day salary . . . Often you wonder why you ever let yourself in for such a deal and you swear you're gonna resign . . . But then you remember that the town needs you, really needs you, you just can't let the people down . . .

Hizzoner, the mayor, has to discuss everything in his daily schedule, ranging from a complaint that "so and so's rooster disturbs me at the crack of dawn every morning," up to negotiating with the State Roads Commission, and floating loans and bond issues, etc. . . .

But, it's nice to hear someone whisper as you go by, "See that man? He's our mayor." But let me tell you you pay plenty for that nice-sounding official title of His Honor, the Mayor. Verily, our Mayor deserves a sincere vote of thanks from every citizen in Emmitsburg because he's really "working up a sweat" trying to do the things he deems best for the welfare of the town—all for 6 cents a day.

NEW COMMANDER

Congratulations to Wales Rightnour on his recent appointment as commander of the local VFW Post . . . Considering the fact that Wales isn't even a native Emmitsburgian, I think he deserves a lot of credit for assuming himself and establishing himself in the hearts of his fellow post members to such an extent that they felt he'd be a good leader of their club . . . For the information and enlightenment of those out-of-town readers who may not recall who Wales Rightnour is, perhaps we can tell you a thing or three about him. Wales hails from Gettysburg originally, and married Gerald Ryder's daughter, Madeline, "Sis" to many of you, quite a few years ago. The couple have one child and reside on N. Seton Ave., in the Wachter Bungalow. After serving in the army, (paratroopers, incidentally), the Rightnours settled down in Emmitsburg, even though they had lived in Baltimore a few years prior to his army career. Wales is employed by the Gettysburg Times and well, I guess that just about wraps it up . . . Anyway, good luck and every success in your new position of Commander, Wales old boy.

READY-SET-GO—(Almost)

Get out the old fishing tackle, the rods and reels and hook up your creels, 'cause spring is bustin' out all over and the trout season will open April 15 and I'm ararin' to angle those babies . . . They're sly little, wily critters, but I think I can still wield a mean rod and troll 'em just the way they like 'em, before they come a nibbling . . .

Frederick County's streams have been enlivened with 18,000 of the speckled bee-u-ties—Wow, what a fisherman's dream . . . Turn me loose among fish . . . What' air ma hip boots, son? April 15, yuh say, man I kin hardly contain myself . . .

(Continued on Page Eight)

ST. JOSEPH'S COL. IS HOST TO CATHOLIC STUDENTS

100 Students From
11 Colleges Attend
Annual Conference

Students at Saint Joseph's College played hostess to the annual Congress of the National Federation of Catholic College Students Sunday, April 3. Over 100 collegians representing 11 colleges of the Baltimore-Washington region attended.

At the first general session held in the auditorium, Rev. Aloysius Ziegler, of the Catholic University of America, regional chaplain, led the opening prayer.

In the absence of Very Rev. Francis J. Dodd, C.M., president of the college, Sister Mary Louise, vice president and dean of students, extended the welcoming address. Mr. John Bannon, C.U. regional president, introduced the speaker of the day, Rev. Michael J. McKeough, O. Praem, of the history department of the Catholic University. Father McKeough, in speaking on the "Church, Federal Government and Education," urged all present to learn the relationship of these three organs and to pray for a guided solution to present problems.

After a short discussion period, SJCIennes and their guests adjourned for dinner in the college dining hall. Following the dinner, the commissions established in this region conducted their panels. Georgetown University and Georgetown Visitation College conducted a joint panel on the Apparitions of Our Lady at Lipa, while the Forensic Commission of Georgetown U managed the topic, "State Aid for Parochial Schools." Trinity College's panel asked the question, "Are You a Student of the World?" and St. Joseph's stimulated "Speaking of Radio."

The second set of panels included "Advice on Voting for Student Relief," by the Catholic University and the Interracial Commission of the same school discussed "Civil Rights and the Catholic Student. Mount St. Agnes College reported on "New Translations of the Psalms" and the group from Dunbarton College explained the Confraternity of Christian Doctrine.

Resolutions passed at the panels were amended and accepted by the whole congress in the second plenary session. The regional council meeting followed supper and it was at this meeting that elections for the coming scholastic year were conducted.

The new officers include Paul Edmund, Georgetown U, president; Mary Anne Kelly, St. Joseph's, vice president; Sue Crosby, Georgetown Visitation, recording secretary; Agnes Hauser, Dunbarton College, corresponding secretary; Shelia Byrne, Trinity College, treasurer.

VFW INSTALLS OFFICERS TO POST

At a special meeting of the Veterans of Foreign Wars held at the Post Home Wednesday evening, the officers newly elected on March 23 were installed with proper ceremonies, conducted by District Cmdr. Roy C. Gamber, accompanied by Deputy Inspector Nagley.

Following the installation procedure the following business was discussed and decided upon. In honor of the Golden Jubilee of the National Organization and its being the third birthday of Emmitsburg Memorial Post, a celebration will be held in the form of a buffet luncheon for Post members and its Auxiliary on Thursday evening, April 21, at 7:30 o'clock. Committee for this affair will be appointed later by the newly-elected commander, Wales Rightnour.

Officers installed were: Commander, Wales Rightnour; Senior Vice Commander, Raymond Baker; Junior Vice Commander, Roger Zurgable; Quartermaster, Lumen Norris; Post Advocate, Fred Bower; Chaplain, Joseph B. Boyle; Surgeon, William Garner; Trustees (three years) Gerald Ryder Jr.

Fight CANCER

Dr. D. L. Beegle Is Local Chairman Of Cancer Drive

Charles F. Kettering, noted industrialist and scientist, is spearheading the American Cancer Society's 1949 fund-raising drive for \$14,500,000.

Kettering, as national chairman, will direct the campaign to be held during April which, by Act of Congress and presidential proclamation, is National Cancer Control Month.

In announcing the appointment, Tric Johnston, chairman of the board of the society, termed Kettering, "an ideal choice" to lead the nation-wide drive.

Heading the Frederick County drive is Attorney James McSherry, Frederick.

Dr. James Doll is chairman of the Thurmont, Hauvers, Lewis-town, Sabillasville and Catoctin Districts.

In Emmitsburg, Dr. D. L. Beegle is spearheading the drive and has appointed various sub-committees to further the drive to lick the dreaded disease. Door-to-door canvassers have been appointed and civic organizations have been implored to aid the money-raising campaign.

Dr. Beegle, in his appeal to all Emmitsburgians, said:

"We must all unite in this great humanitarian action to stamp out the horrible disease which is the

Number Two killer of millions of American citizens annually. This killer has no special class on which it wreaks its malicious vengeance, but attacks both young and old, rich or poor alike."

Coin deposit cans have been placed in the following business establishments and schools: Myers Liquor Store, Crouses Houck's Clothing Store, American Store, Palm Lunch, Houser's Drug Store, Hoke's Hardware Store, Roger Liquor Store, St. Joseph's High School, Emmitsburg High School, St. Euphemia's Parochial School and Dr. Cadle's Office.

It was announced this week that three new clinical centers were formulated this week in Maryland.

Dr. Beegle, in his appeal for contributions, lists the following symptoms of cancer:

A painless lump or thickening, especially in the breast, lip or tongue. Persistent indigestion. Persistent hoarseness, unexplained cough, or difficulty in swallowing. Any change in the normal bowel habits. Any sore that does not heal, particularly about the tongue, mouth or lips. Progressive change in the color or size of a wart, mole or birthmark. Bloody discharge from the nipple or irregular bleeding from any of the natural body openings.

What's Your Name?

By JULES CHRISTIAN

Next week this column will take up the questions that have been piling up at the Chronicle Office.

PLACE NAMES (Continued)

Last week it was indicated that more family names come from places where people live, eventually become the family name of those who lived there.

HILL NAMES

For illustration, take a hill. That has always been a choice place to live. Therefore John, who lives on the hill, eventually became known as John Hill. John, by the church on the hill became John Churchill (with apologies to Winston). John at the foot of the hill, became John Underhill. And John on top of the hill would become John Knox.

VALLEY NAMES

The valley also has always been a choice place to live. So John in the valley might become John Vale or John Dalton. John in the narrow valley became John Glenn. John in the broad valley might become John Bradley, sometimes shortened to Brady. John in the winding, grassy valley might become John Bentley. John in the meadow might become John Lee, as pointed out before, or John Meadows, sometimes shortened to John Meade.

In this connection it is interesting to observe that in the Battle of Gettysburg, General Lee and General Meade, on opposing sides, had names that meant the same in origin and meaning. While foes in outward circumstances, they were brothers in the origin of their names—Robert and George from the meadow.

John on the birch meadow probably became John Berkeley. John on the stony meadow became John Stanley. And John from the king's meadow became John Kingsley. John at the west end of the meadow became John Westley.

HOME NAMES

When people came to choose a family name, it was quite natural to name themselves after

the place where they lived. For where a person was born and lived his life, is, to him, the most loved spot on earth. Deeply treasured in memory, it forever becomes the very hub of the universe. The sentiments of home have been hallowed in many a melody. "How dear to my heart are the scenes of my childhood," sings Samuel Woodworth. And all the world sings with him. "Be it ever so humble, there's no place like home," sings John Howard Payne, who never had a home. And his melody catches in every human heart. "My Old Kentucky Home," and "Old Folks at Home," sings Stephen Foster. And he touches a responsive sentiment in every soul.

Therefore, when people had to choose a family name, how natural it was to choose the most cherished spot on earth and name themselves after the place called home.

RIDGE NAMES

Suppose that one lived on a ridge? That has always been a choice place for a home. John on the ridge became John Ridge. John on the black ridge became John Coleridge. John on the sharp ridge became John Coombs. John on the cool ridge became John Coolidge (with apologies to the former Yankee President). John on the fern-covered ridge became John Breckenridge.

RURAL NAMES

Some have preferred homes in the country, away from where others live. So John in the country would become John Payne. John on the mountain, became John Mountain, or John Peake or John Pike, or John by the mountain cliff became John Craig. John in the deer reserve would become John Hartley. John in the oak forest became John Ogden or John Ackley. John in the heatherland became John Heath. John in the enclosed part of the waste land became John Morelock, etc.

Watch for next week's column. It will be given to special requests received concerning particular names.

BASEBALL ASSN. IS IMPROVING LOCAL BALL FIELD

Boxseats Are Completed;
Season Tickets Go On
Sale Tomorrow

The Emmitsburg Baseball Assn. this week began the first in a series of improvements to the Community Field. Construction was started on a new concession stand. The structure will be eight feet wide and sixteen feet long. The lower portion of the stand is concrete block and the superstructure is of wood. The entire proceeds derived from the stand will go to furnishing the club with the necessary equipment to maintain a team.

Work on the new bleacher stands will commence this coming week and will be completed before the opening of the season on April 23. At the same time the proposed box seats are to be constructed upon the local dug-out and tickets are to go on sale next week. It is understood that about half of these seats are already sold and those wishing to procure one or two season passes for the box seats are advised to see any one of the directors or Business Manager Norman Flax.

The grounds committee, under the chairmanship of George Roensteel, announced this week that the organization has bought a large powered lawn mower. The apparatus has two 25-inch blades in the front and one 30-inch blade in the rear and is powered by a 4 cylinder gasoline motor.

Sunday was the first day of practice for the team and a total of 25 young prospects turned out and had a practice session under the directorship of Manager Jack Bubbick and Coach Leonard Zimmerman. All players are reminded that practice is held every Tuesday and Friday evenings at six o'clock on the Community Field.

LUTHERAN CHURCH PLANNING SPECIAL EASTER PROGRAM

The Elias Evangelical Lutheran Church will observe Palm Sunday with special services at 10:30 in the morning and at 7:00 o'clock in the evening.

At a congregational rally service at 10:30 o'clock on Sunday morning, the Lutheran Church will receive a large group of new members into the church by the Sacrament of Holy Baptism and the Rite of Confirmation and by letters of transfer of membership from other churches.

According to announcements by the pastor, Rev. Philip Bower, arrangements have been made for the admission of 35 new members on Palm Sunday and Holy Wednesday night. Anthems will be sung by the Junior and Youth Choirs.

The Sunday night service will be a Musical Service by the combined Youth and Junior Choirs under the direction of Mrs. Thomas Bollinger. The choir will sing: "In Joseph's Lovely Garden," by Dickinson; "Beyond the Dawn"; "I Heard the Voice of Jesus Say," by Dykes; "Thee We Adore," by DuBois; "In the Cross I Glory"; "The Strife Is O'er," by Scholin; "The Palms," by Faure; "The Lord Is My Shepherd"; "The Lord's Prayer," by Malotte and "The Berdiction," by Lutkin.

Rev. Verle Clifton Schumacher will assist the pastor at the Palm Sunday and Easter services. The entire public is most cordially invited and welcomed to these services.

PROPERTY SOLD

The property of Mr. and Mrs. Maurice Fitz was sold at a Sheriff's Sale in front of the Court House in Frederick recently. The property was bought by the National Bank of Arendtsville, Pa., the judgment creditor for \$1,200. George W. Wilhide was the auctioneer.

ON FURLOUGH

John Glass, U. S. Army, stationed in Texas, is spending a ten-day furlough with his parents, Mr. and Mrs. Paul Glass.

MOTOR TRUCK LICENSES OKAYED BY STATE SENATE

Fees Will Range From
\$4.00 to \$250.00;
Cards Being Mailed

On Monday the House overwhelmingly approved flat license fees for trucks, buses and other big vehicles.

Senate agreement to one change delegates made to ease the charge on farm trucks was a formality.

The action meant the Department of Motor Vehicles can start issuing registration cards and tags to truck owners at charges ranging from \$4 to \$250.

Here are the new rates in the pneumatic tire classes:

Taxis—\$45.
Funeral coaches and the like—\$30.

Motorcycles and scooters—\$5.
Single-unit trucks, other than farm—chassis weight maximum gross:

| | | |
|--------------|--------|-------|
| Up to 2,500 | 10,000 | \$ 20 |
| 2,501-4,000 | 17,000 | 33 |
| 4,001-5,000 | 20,000 | 50 |
| 5,001-6,000 | 25,000 | 95 |
| 6,001-7,500 | 32,000 | 135 |
| 7,501-9,000 | 35,000 | 175 |
| 9,001-10,000 | 55,000 | 250 |

Trucks up to ¾-ton manufacturer's rating capacity—\$17.
Farm trucks, ¾-ton—\$15.

Farm trucks over two tons—\$22.

Truck-tractors, tractors, etc.—\$65.
Farm tractors—\$4.

Trailers, semi-trailers—chassis weight maximum gross:

| | | |
|-------------|--------|------|
| Up to 300 | 3,000 | \$ 7 |
| 301-500 | 5,000 | 12 |
| 1,010-2,500 | 34,000 | 115 |
| 2,501-3,500 | 38,000 | 200 |
| Over 3,500 | 55,000 | 230 |

School buses—\$25.

School buses for other purposes \$30 (additional).

Charter or hire buses:

| | |
|----------|-------|
| Up to 29 | \$110 |
| 20-37 | 140 |
| 38-45 | 175 |
| Over 45 | 210 |

Owners of solid-tire commercial vehicles will be charged twice the fee in each pneumatic tire class, plus an additional \$25 for the city or county in which he lives.

Domestic corporations will pay at the same rate, minus the tax share required to be returned to Baltimore city or a county.

Farm tractors are tax free when driven no more than five miles from the farm.

Liquor License Hearing Set for Wednesday

Liquor License Commissioner G. Cleveland Trout this week set a hearing for Wednesday, April 13, at 11 a. m. in the Circuit Court Room to take testimony in the protest of a group of Emmitsburg District residents against granting a Class A off-sale beer wine and liquor license to Richard N. Rosensteel and Louis Cooper of town.

Through Attorney E. Austin James, the objectors contend the license is not needed for public convenience and is in violation of the commissioner's rule that limits such licenses one to each 1,500 residents. The objectors contend that students at colleges in Emmitsburg District are not bona fide residents.

STORK
NEWS

Mr. and Mrs. Roger F. Wiley, Graceham, announce the birth of a son, Clyde Matthew, at the Frederick Memorial Hospital, April 2. Mother and son are getting along nicely. Mrs. Wiley before marriage was Miss Jeannette Young.

Mr. and Mrs. Ralph Keilholtz, near Emmitsburg, are receiving congratulations on the birth of a daughter at the Annie M. Warner Hospital last Wednesday afternoon.

PARKING METERS ARE INSTALLED ON MAIN STREETS

Ordinance Is Being
Drawn Up; Flood Lights
To Be Placed on Lot

The streets of Emmitsburg took on a strange appearance this week as the new parking was begun. A crew of workmen under the foremanship of Leonard Zimmerman, working for the Waesche Contracting firm of Thurmont, began work Monday and by Wednesday all of the bearers were placed in their designated spot. Approximately 152 of these meters bedeck the streets.

It is expected that the heads will be placed on the meters in about two weeks and then they will be placed in operation. The installation began at Frailey's Store and terminated at Boyle's Store on W. and E. Main Sts., respectively.

At present it is contemplated that only one-hour parking will be permitted on the Square and no limit on the other meters on E. and W. Main Sts. There will be absolutely no parking on either side of North and South Seton Aves.

In order that the parking situation be iron-clad, the Town Fathers are at present drawing up a parking ordinance and when it is completed it will be published in the Chronicle, notifying the public that it is in effect—and that it can and will be enforced.

The Mayor and Commissioners also announced this week that four applications for the police force have been received and they will be acted upon in the near future.

Flood lights are to be erected on the Town parking lot for the convenience of those wishing to use this free space, and police protection will be granted those patrons using the lot, adjoining the Hanover Shoe factory.

WILL OF LOCAL WOMAN REPORTED IN EXCESS OF \$20,000

The estate of Miss Caroline B. McNulty, late of Emmitsburg, is left to her sisters by the terms of her will, admitted to probate in Frederick Tuesday by the Orphans' Court.

Assets are estimated in excess of \$20,000.

Dated December 12, 1928, and witnessed by Josephine M. Murray and John Wintersteen, of Philadelphia, the will bequeaths a diamond ring and diamond pin to a sister, Adeline Gertrude McNulty.

The remainder is to be divided among three sisters, Sarah Genevieve McNulty, Louisa Geiselman and Adeline Gertrude McNulty, provided that the share of Mrs. Geiselman be held in trust for her and at her death to be distributed to her children and the children of George Dennis McNulty, a deceased brother.

Trust Company Qualifies
The testatrix named Philip Price and the Girard Trust Company of Philadelphia as executors. The former renounced the appointment and the trust company qualified. Richard E. Zimmerman of Frederick, was appointed agent for the executor.

The court also admitted to probate the will of Michael F. Wilhide, late of Thurmont, by which he bequeaths his entire estate to a son, Lloyd Ross Wilhide with the provision that Grace C. Wilhide, wife of Lloyd, can have any article of furniture she chooses. The son qualified as executor and reported personal property valued at \$2,872.33.

PTA IS POSTPONED

Dr. D. L. Beegle, president of the Emmitsburg High School Parent-Teachers' Association, this week announced the postponement of the regular meeting which was to be held Tuesday night. However, the May 10 meeting will be held as scheduled.

OCCUPY NEW HOME

Mr. and Mrs. Sterling Hemler have moved from the apartment of Mrs. Grace Saffer to their newly-constructed home along Rt. 15, near Mt. St. Mary's College.

PERSONALS

Mr. and Mrs. Herman Dorsch of Baltimore, spent the week-end with Mr. and Mrs. Arch Eyer.

Mr. and Mrs. Clarence Hahn and daughters, Shirley and Carrie, of near Emmitsburg, spent last Saturday in Baltimore.

Mrs. Parks Jennings returned home Monday from Johns Hopkins Hospital, Baltimore, after being a patient for a week under observation. She was accompanied home by her sister, Mrs. Kate M. Reuter, and daughter and son-in-law, Mr. and Mrs. Alfred Dickerson.

Mr. and Mrs. Jerry Hoskins and daughter, Sharyn, of Essex, spent last weekend at the home of Mr. and Mrs. Raymond Baumgardner.

Mr. and Mrs. Richard Bollinger of Baltimore, spent the week-end visiting Mr. Theodore Bollinger.

Mrs. Edgar Grimes and son, Clyde, were Sunday dinner guests at the home of Mr. and Mrs. Raymond Baumgardner.

Miss Hannah McNulty, Philadelphia, Pa., spent several days with her father, Albert McNulty.

Mr. George Combs, Washington, spent the week-end in town visiting friends and relatives.

Mr. and Mrs. Thomas Bosley and sons, Tommy and Willie, of Essex, spent Saturday at the home of Mr. and Mrs. Raymond Baumgardner. They were accom-

LEGION AUXILIARY HOLDS MEETING

The regular meeting of the Francis X. Elder Auxiliary was held at the Post Home Tuesday evening with the president, Laura Rosensteel, presiding.

The roll call found 23 members present. Following decisions were approved: Donations, \$2.50 to the Heart Fund, \$2.50 to Red Cross, \$5 to the Harriet Lane Hospital Fund, and \$5 to the District Vice President for radios for the veterans at Sabillasville. \$20 was donated to the Crippled Children's Fund. The latter are state and district projects.

The president's message was read urging special activity for child welfare. The Auxiliary was

urged to get as many members as possible. This district desires very much to be a quota district. First district to reach its quota merits a prize. Being Child Welfare month, it was decided to help several needy families now and at Easter. One family who has several sick members will be sent a basket this week.

A card of sympathy is to be sent to Mrs. Walter Opekum due to the death of her mother, Mrs. Ellen Loughney. Two mass cards and a grave marker were sent.

Two baby gifts were given mothers with new babies. Nine new members boosted the Auxiliary enrollment to a total of 71.

President Rosensteel reported on the birthday party held March 25 in honor of the Legion's 30th anniversary.

Bargains Mark Want Ad Week

Jean McKendrick has used car bargains on the hood of a Chevrolet truck especially decorated to commemorate National Want Ad Week. The event is being observed this month for the first time since the war.

FREDERICK MAN GETS COUNTY ASSESSOR POST

Robert L. Shipley, well-known retired Frederick businessman was named by the County Commissioners last week as county assessor, succeeding the late T. R. Saylor of Walkersville. Decision to appoint Mr. Shipley was reached by the commissioners at business establishment of Commissioner President U. Grant a private meeting held at the Hooper, and was unanimous.

Mr. Saylor, a Democrat, had previously submitted his resignation to the commissioners to become effective April 1. Mr. Shipley was given a temporary appointment to assist Ernest C. Speaks, Republican. In the meantime, Mr. Saylor died.

As required by law, the new appointee must be a Democrat, and the commissioners sent to the State Tax Commission for approval the names of Mr. Shipley, M. F. Shuff, Jr., Emmitsburg, now a clerk in the office of the County Roads Board, and Glenn C. Stull, Hansonville poultry raiser. All were returned qualified.

In announcing the selection of Mr. Shipley, Mr. Hooper said the final decision of the commissioners was unanimous. "Mr. Shipley has been in the field" for several weeks, Mr. Hooper stated, and is therefore familiar with the work.

Commissioners Hooper, Robert R. Rhoderick and Samuel Young said no formal statement in connection with the appointment was necessary.

CHARLES TOWN HAS 67-DAY MEET

Racing fans who go to West Virginia will be in for a "real treat" this year as the Charles Town Jockey Club has been allotted 67 days for "sport of kings."

Unlike other years, the approved dates for Charles Town have been changed, however. The spring and summer meeting will be broken down into three dates: April 11 through May 5, May 16 through June 11, and June 27 through July 16, inc.

Many of the thoroughbreds who campaigned there last year will be seen in action when the meet opens Monday, April 11. Post time for the first race has been set at 1:30.

Secretary Leeds K. Riely stated that visitors during the twenty-two days' racing will be pleased at the many improvements made to the three-quarter mile plant since last December. The padoga, housing the stewards, placing judges, timer and camera, has been torn down, thus giving fans an unobstructed view of the entire race. Fans motoring to the Charles Town track will find all parking space paved since last December.

WOMAN SENTENCED

A 70-year-old Hagerstown woman, Alda Scott, was sentenced to 30 days in the Washington County jail the other day by Magistrate Harry E. Snyder. She was charged with being drunk and disorderly.

More than three fourths of the ties men buy are of the bold variety despite the howls of pain over gifts frequently heard from men.

MARYLAND HOME FRONT

More details of the "Greener Pastures" contest, being sponsored in Maryland by the State Committee of the Production and Marketing Administration, were announced this week by Joseph H. Blandford, chairman of the committee. He said that other agencies such as the Soil Conservation Service, the Maryland Extension Service and the State Department of Education are being invited to cooperate.

Mr. Blandford explains that for several years, Maryland farmers have been given assistance through incentive payments for the seeding of permanent pastures; for use of lime, superphosphate, and potash, and for other pasture improving practices. The purpose of the contest, to be operated for the first time this year, is to call attention to the results achieved and to enable all farmers to see the outstanding gains made on many farms.

For the purpose of the contest, the State will be divided into four areas—Area I includes the counties on the upper Eastern Shore, Area II includes the counties on the lower Eastern Shore, Area III includes the five counties of Southern Maryland, and Area IV includes the other counties in the western part of the State.

A state committee has been named to take charge of the contest. This is headed by L. C. Burns, State PMA Committeeman from Olney, Md. Other members include PMA State Committee members, and representatives of the Soil Conservation Service; Dairy, Livestock and Agronomy Departments at the University of Maryland; the State Extension Service, and the supervisor of Vocational Agriculture. A planning committee is to be organized along similar lines in each county under the direction of the County Committee of the Agricultural Adjustment Agency. The county group will plan and administer the program, arrange for judging of pastures, present awards, and organize tours.

The state committee has ruled that any Maryland farmer who has at least 15 acres of pasture may enter the contest. Annual pastures will not qualify, but all permanent pastures on the farm must be included. Entries must be in by June 1.

Each county will be divided into districts along the lines now followed in the AAA program. Judging is to be completed during the month of July starting with the local districts. Winners in each district will be compared to determine the county winners, and these will be in competition for area awards. State winners will be named from among the area winners.

Judging is to be based upon three factors (1) quantity of production, (2) quality of production, and (3) pasture management. Winners in each class of competition are to be given appropriate certificates or other awards.

Wheat Agreement Aid To Maryland

The International Wheat Agreement, if it is put into effect, will be of considerable value to Maryland farmers. Mr. Blandford said this week that there are three reasons why the agreement is of great benefit to farmers. In the first place, it is expected to stabilize our foreign market for wheat; it will complement our domestic wheat program, and, thirdly, if put into operation it will set a pattern of international cooperation in solving agricultural problems which can be carried over to other commodities.

Mr. Blandford explained that under the proposed program the United States will have a guaranteed market for 167.5 million bushels of wheat each year. This is important in view of recent price drops which have brought wheat to price support levels. The ceiling price in the agreement is

only 20 cents a bushel lower than the agreement drawn last year, while the floor price is ten cents higher for the next four years than was provided by the 1948 agreement. If a world wheat surplus develops, the increase in the floor will be extremely beneficial to Maryland farmers, in the opinion of Mr. Blandford.

Moth Infestation In Corn

Farmers who plan to take advantage of the government loan on 1948 crop corn should act at once, Mr. Blandford advised this week. He pointed out that recent warm weather has increased the danger of early moth infestation so that consideration is being given to moving the date for securing this method of price support from June 30 to some date in April or early May. Moth infestation normally develops in Maryland corn in late May and June as the weather becomes warmer. Reports indicate that moths have been found already in some farm stored corn. Unseasonably warm weather is blamed for this early appearance.

At the same time, Mr. Blandford pointed out that County Committeemen are being instructed to make careful examination of all corn planted under loan to determine if moths are present. Loans will be denied on all corn where moths are found.

Q. What is the name of this cut of meat?

A. This is a French style Leg of Lamb.

Q. Where does this cut come from and how is it identified?

A. It comes from the hind quarter of the lamb carcass. It corresponds to round, rump and hind shank of beef. It is a tender cut of meat. Has a large proportion of lean meat. A French style leg has the meat removed from the end of the bone.

Q. How should this cut be prepared?

A. It is cooked by roasting. Season with salt and pepper, if desired. Place fat side up on a rack in an open roasting pan. Insert a meat thermometer so that the bulb reaches the center of the thick part of the leg. Roast in a slow oven (300°F.) until the meat thermometer registers 175°F. allowing about 30 minutes per pound. Add no water. Do not cover. Do not baste.

ARTHUR GODFREY ASSISTS BRUNSWICK FIRE CO.

Contributions to the building fund of the Brunswick Volunteer Fire Company jumped over the \$2,000 mark with a contribution of \$100 from Arthur Godfrey, well-known radio personality. Godfrey, who owns a large dairy farm in that district, sent an encouraging letter with his contribution to Fire President Eugene Smith.

New Plymouth on Display

Plymouth's new special deluxe is featured above. Brilliant new styling is combined with outstanding riding comfort, increased roominess, and sweeping mechanical improvements in the new line of Plymouth automobiles.

Completely redesigned, the new Plymouth has a longer wheelbase for a better ride and more road stability, but less front and rear overhang for easier parking and garaging. While the silhouette has been lowered and the width decreased, there is more head and leg room and seats are wider. Typical of Plymouth's many refinements is the ignition-starter combination, with which a turn of the key starts the engine.

The new Plymouths are sleek in appearance. New rear-end styling provides a graceful balance with the horizontal grille lines which emphasize the broadness of the front. Fenders which blend perfectly into body lines are nevertheless separate and detachable, thus avoiding sheet metal panels so costly to repair or replace.

The new Plymouth line includes nine distinct automobiles. Special deluxe and deluxe types are on a 118-inch wheelbase, one inch longer

than last year's. Special deluxe models are: four-door sedan, club coupe, convertible club coupe and station wagon. In the deluxe group are the four-door sedan and the club coupe. In addition, Plymouth will build three deluxe models on a brand new 111-inch wheelbase, a two-door sedan, a three-passenger coupe, and a new body type, the Suburban.

The 97-horsepower engine has improved performance and efficiency with a new design cylinder head which increases compression ratio to 7 to 1. A new chrome plated compression piston ring reduces cylinder wear and provides greater protection during the break-in period. There are improved oil rings for greater oil economy, while a newly-designed intake manifold induces quicker, smoother engine warm-up and produces faster throttle response.

Body styling which produces greater passenger room without excessive bulk also increases visibility. V-type windshields have 37 percent more area and provide excellent vision without distortion. Windshield wipers clear 61.5 percent greater area and the rear window is 35.4 percent larger.

91,000,000 REGISTERED FOR SOCIAL SECURITY PROGRAM SINCE ITS INAUGURATION IN 1937

"Over 91,000,000 original social security account numbers have been issued since the Federal Old Age and Survivors insurance program began in 1937," William J. Lanahan, manager of the Hagerstown Field Office of the Social Security Administration said this week. He added that new account numbers continue to be issued at a high rate due to the large number of teen-agers starting to work especially in part-time and vacation employment.

Mr. Lanahan explained that when an individual starts out to get his first job in covered employment, he should apply for a social security account number at the nearest office of the Social

Security Administration. The account number is used to identify the wage record of each person working on jobs covered by the law and is needed when the worker or his family file claim for benefits under the program.

Only one account number may be assigned to a worker. If the original card is lost, a duplicate account number card can be obtained from any Social Security field office.

Application blanks for original or duplicate account cards can be gotten from any postoffice. The complete forms should be mailed to the Hagerstown Field Office, 74 W. Washington St., Hagerstown.

MARYLAND GRAIN AND FEED REPORT

Summary For Maryland

Feed prices in Baltimore for the last week of March averaged about 1.1% lower than a week ago. Significant price declines were registered for five of the 16 feeds. Three showed significant price increases—distillers' dried grains and 50% meat scrap gained as much again as they did a week previous, up 1.80 and 5.15 per ton respectively; soybean oil meal was up 2.85 per ton. The remaining eight feeds showed little price change. 17% alfalfa meal averaged \$2.75 per ton less; 32% dairy feed was down \$2.84 per ton and standard middlings off \$2.12 per ton. Greatest declines were registered by 16% dairy feed and linseed oil meal down \$6.00 and \$7.04 per ton respectively.

The broiler feed ratio for Maryland producers was up slightly for the week March 25-March 31. Broiler prices averaged 30.2 (30.4 last week). The price of 20% broiler mash on the Eastern Shore on March 29 averaged \$90.22 per ton (\$91.52 last week). On this basis one pound live weight of broilers would buy 6.7 pounds of feed (6.6 pounds last week).

Grain Market

In Baltimore, during the last week of March, offerings were light in wheat and barley; corn moderate. Following the national pattern, wheat advanced 4 cents. Others were steady with little change in prices.

SANDERS-WEIKERT

Miss Clara Mae Weikert, daughter of Mr. and Mrs. Howard Weikert, Fairfield, and Thomas Sanders, son of Mr. and Mrs. Luther Sanders, Fairfield, R. D., were united in marriage on Saturday afternoon at 2 o'clock in the Fairfield Reformed Church by the Rev. Thomas Burns. The bride wore a navy blue dress with red accessories. Her corsage was of red accessories. The couple will reside in Fairfield.

Homemakers' Corner

Now that people are living longer, many households include elderly members. Special attention should be given to planning and furnishing homes for their safety and comfort, home economists believe. Because old folks often don't see as well and are not at strong and steady as younger people, safety throughout the house is particularly important.

Floors should not be slippery; rugs should lie flat and have non-skid pads underneath. Steps, stairways and halls need good lighting. Avoid tripping hazards, such as small footstools and long chair rockers.

A bedroom and bath on the first floor are recommended to save the effort of climbing stairs and the danger of falls. If possible, locate these rooms away from the main entrance and living room to give the quiet and seclusion

elderly people need for rest and daytime naps.

Be sure this bedroom is arranged to allow a clear passage-way to doors. See that electric fixtures give plenty of light throughout the room, with three-way switches at doors and within easy reach of the bed. And for comfort's sake, have at least one easy chair and a good light for sewing and reading beside it.

In the bathroom, specialists suggest a flat-bottomed tub with low sides easy to step over, and a strong, easily-grasped handle on the wall beside the tub. This room needs good lighting too. Medicine cabinets should be placed so that they are easy to see into as well as to reach. As insurance against night accidents, invest in a tiny "night bulb" which uses so little electricity that it can be plugged into a bathroom outlet and kept burning all night.

Over 89% of the male enlisted personnel of the Marine Corps served overseas during World War II.

Over 96% of the male officer personnel of the Marine Corps served overseas during World War II.

Horse mounted patrols were employed by Marines in Santo Domingo and Nicaragua in the 1930's.

Marines were in Nicaragua continuously from May, 1926 until January, 1933.

CANCER

Cancer ranks second among the leading causes of death in this country. But the disease probably ranks first among ills feared by mankind.

This fear, much of it based on misinformation, is mainly responsible for many deaths from cancer which could have been prevented. Afraid to face the truth, and believing cancer incurable, some people foolishly stay away from doctors when a prompt medical checkup at the first sign that something was wrong might have resulted in a cure and the saving of their lives.

Cancer often can be cured if it is diagnosed and treated in time. It is believed that of the estimated 170,000 who die of it annually, at least one-third, or 55,000, could be saved if their disease was detected in the early stages.

Cancer is a wild or disorderly growth of living cells in some part of the body which serves no useful purpose but which, on the contrary, destroys normal cells surrounding it and if unchecked eventually impairs vital functions of the body. In addition to the destruction in the area where the cancer starts, cancerous cells may break off from the original growth and be carried by the blood stream to other parts of the body where they lodge and start new cancers.

But it must be remembered that a cancer begins to grow in only one spot and when discovered in this early local stage, it can be removed or destroyed and the person cured. It is when the cancer is allowed to grow to a more advanced stage that it is dangerous and difficult to cure.

In other words, those who go regularly to their doctors for physical examinations have less to fear from cancer than those who neglect periodic checkups. By regular visits to the doctor, there is a better chance of detecting a possible cancer in an early stage, when the doctor can take measures to check it before it endangers life.

When cancer first attacks, there may be no pain. Often it is only when the cancer grows larger that it causes physical suffering. So we must watch out for symptoms that might mean early cancer. These include:

- 1—A sore on any part of the body, especially about the tongue, mouth or lips, which doesn't seem to heal.
- 2—A lump, or hard spot anywhere on the body but particularly in the breast.
- 3—A sudden change in the color or size of a wart, mole or mark.
- 4—Bleeding or other abnormal discharge from any natural body opening.
- 5—Persistent hoarseness or difficulty in swallowing, for any unexplained reason.
- 6—Loss of appetite and persistent attacks of indigestion.

None of these symptoms may be due to cancer, yet any one of them points to the fact that a medical checkup is in order. If it is not cancer, the person is reassured and relieved of worry. But if cancer is discovered, there is the satisfaction of knowing that it has been detected in an earlier stage when there is the best chance of cure with the proper medical treatment.

John Adams, second President of the United States, once fought with the Marines.

Star-Lites

MOVIES, MIKES and MISCELLANEOUS

By LYN WILSON

FROM AMHERST TO AIRPLANES was the direct course of Dan Seymour, capable young Master-of-Ceremonies of CBS' Tuesday "We The People." In one grand swoop, in 1935, Danny got himself

a wife (Lucille), a college degree and his first radio announcer's job in Boston (at \$22.50 per week). The "power behind the throne," his wife, convinced him to try his luck in New York. Again, she prodded him to audition for announcer on the Major Bowes Show and he made the grade. Since then, he has been on some of the biggest shows in radio. Lucille now busies herself with their 3 children in their charming Dutch Colonial home while Danny is heard on a number of programs in addition to "We The People" on which he was recently made emcee, after being the show's announcer for six years.

"DOODLES" WEAVER, whose "Professor Feetlebaum" routine is a weekly feature of the Spike Jones Show on CBS each Saturday night, spends his spare time inventing new and unusual instruments for Spike's City Slickers to fool around with.

His latest is a "Trombonaparte" which hasn't been used yet because no one in the band is named Napoleon. "Doodles" also invented a "Snacksaphone" for musicians who get hungry while they're playing. Still in the development stage, the "Snacksaphone" will have roasting ears as an important element because, "Doodles" explains, "Corn is our stock and trade, we gotta stay in character."

18-Year-Olds Must Register For Draft Five Days Before Anniversary

Col. Henry C. Stanwood, Selective Service Director for Maryland, said this week that:

"The Selective Service Act of 1948, which is still in effect, requires men becoming 18 years of age to register within five days of the 18th anniversary of the day of their birth."

County men reaching 18 years of age will be registered at their local board in their respective counties.

Col. Stanwood stated further that:

"It is a requirement of the Selective Service Act of 1948 that every registrant shall keep his local board informed as to change of status, including change of address. This applies to registrants who have reached the age of 26 as well as all others."

Nineteen officers have acted as commandant of the Marine Corps since 1775.

A number of Marine Aviation Squadrons served on board naval aircraft carriers during the last war.

Toleration Literature Now Available for Adult And Youth Groups

Six sets of materials giving information on the Maryland Act of Religious Toleration have been prepared to assist both adult and young peoples' groups in observing the 300th Anniversary of the Act.

For adults, a pamphlet written by Gerald W. Johnson, well-known Baltimore author, and a guide outline for study groups have been prepared. In an informal, concise manner, the brochure narrates the story of religious toleration in Maryland from the founding of the colony until 1649, when the Toleration Act was passed. It sketches a brief background of the times, outlines in broad strokes the characters of George and Cecil Calvert, planner and proprietor, respectively, of the colony, and links the Toleration Act to the present day. An annotated reading list of books for both adults and children is also available.

The needs of young people have been met by a simple, factual account of the passage of the Toleration Act, and a short, easy-to-produce play suitable for school or Sunday School presentation.

In limited quantities, these materials may be obtained by responsible groups at the office of the Committee for the 300th Anniversary of Maryland's Act of

Religious Toleration, 620 Park Ave., Baltimore 1. Teachers in public schools are requested to order the materials through their superintendents.

BLUE RIDGE SUMMIT POSTMASTER RESIGNS

After 15 years as postmaster at Blue Ridge Summit, Marvin F. Birely has resigned. The vacancy has been temporarily filled by Robert S. Davis, son of J. M. Davis, salvage dealer at Blue Ridge Summit.

The retiring postmaster announced he was "going to take it easy for awhile." Birely observed his 67th birthday last Saturday. Mr. Birely, in failing health, resigned upon the advice of his physician.

PFC. JOHN GLASS FINISHES ARMY TRAINING PERIOD

Pfc. John P. Glass of Route 2, who enlisted recently in the U. S. Air Force, has been graduated from an intensified basic training course of 13 weeks' duration at Sheppard Air Force Base, Wichita Falls, Texas.

Private Glass is 18 years old and a graduate of Emmitsburg High School. He is the son of Mr. and Mrs. Paul Glass of Route 2, Emmitsburg.

Seventy-nine Marines received the Medal of Honor for acts of valor performed in World War II. Marines were stationed aboard more than 500 ships of the U. S. Navy during World War II.

The First Marine Brigade occupied Iceland jointly with the British in 1941.

Lower and shorter hoods on the 1949 Chevrolet add 11 feet of highway to the driver's forward vision. Also important to driving safety is improved visibility at the rear. An area 24 feet closer to the car can be seen through the rear vision mirror.

April Reminders

- 1—As of March 1, we have employed a Poultry Technician and Dairy Technician for the benefit of your community, to assist in more efficiently producing eggs and milk, maintaining the health of your flock and herd through use of a correctly balanced nutritional program. These experts are available at your request WITHOUT COST!
- 2—Check on feed and water space, damp litter and drafts in brooder house. Keep a supply of Thurmont Co-Operative Feed available to have a profitable poultry operation. Our Poultry Technician can offer suggestions that will be quite helpful.
- 3—U. S. 13 Field Corn and Indiana 816 Ensilage Corn assure production equal to the BEST and costs you LESS. Certified Clinton Seed Oats can be planted as late as May 15 and still produce a good crop. Get your requirements NOW.
- 4—Our Calf and Heifer Developer will provide the important vitamin, minerals and minor elements needed until Calves and Heifers have the benefits of good pasture and sunshine. Use this feed for superior stock at lower cost.
- 5—Profit by other dairymen's experience. Have our Dairy Technician check your herd, offer suggestions and balance your ration to return more profit while maintaining the health of your herd. Rations and roughage should be checked each 60 days to insure best results.
- 6—Top dress pastures April and May for good growth during Summer and Fall. We can supply proper material, either in sacks or spread on fields, according to your wishes.

Governor Lane Pays High Tribute To Md. Assembly

Governor Preston W. Lane this week paid high tribute to the General Assembly of Maryland upon their finishing the present session. Governor Lane's remarks were as follows:

"On this, the closing day of the regular session of the General Assembly of 1949, I deem it appropriate, as governor, to convey to the members of the Senate and the members of the House of Delegates an expression of appreciation for the spirit of co-operation which has been the foundation on which your relations with the Executive Department have rested in the consideration of our joint obligations to the people of Maryland.

Through your efforts, the state has underwritten a guarantee of a school construction program that will reach into every political sub-division of Maryland and assure the building of necessary classroom space to meet an ever-growing pupil population.

The legislation you have enacted provides a \$20,000,000 fund to be distributed on a pupil basis for immediate school construction, and through the \$50,000,000 state credit pool you have established, additional funds now are available at low financing costs to Baltimore City and the counties to carry forward this building program to furnish adequate classroom facilities for every child in the public schools of Maryland.

This, coupled with the far-reaching school program you enacted in the General Assembly of 1947, with increased pay for teachers, keeps Maryland to the forefront in the field of public education.

We have met this problem, I am happy to say, without impairing other essential services, and without draining the resources which underlie the financial structure of our program for rebuilding the state's highway system.

Jointly, we have made what I believe is the most constructive single year's advancement in mental hygiene since the state first assumed the responsibility for the care and treatment of the mentally ill.

Fortunately, because of the strong financial position in which the state was placed through the fiscal program adopted by you in 1947, we were able to take this great step ahead in the reorganization and rehabilitation of our mental hospitals with a capital outlay of \$20,000,000 from cash in the treasury.

I am certain that when you return to your homes and businesses it will be with a deep sense of satisfaction at having brought to a successful conclusion the effort begun in the General Assembly of 1947 to improve the mental hospitals of this state with the virtual doubling, in the budget adopted in that year, of the appropriations for the care and treatment of the mentally ill.

The reorganization of the administration of these hospitals which is directed in the legislation

which you have adopted will, I am sure, prove an effective complement to the physical improvements for which you have provided at each of these institutions.

I feel that we have taken a new grip on the problem of providing facilities with which we may continue our fight against tuberculosis.

The new 300-bed hospital for tuberculosis patients which you have made possible at Mt. Wilson, and the improvements and building authorized at Sabillasville and Henryton, will give the State Health Department the facilities with which to intensify its campaign for the detection, treatment and cure of the tubercular.

Here, I might also point out, we were able to pay for a substantial portion of the cost of this new \$4,000,000 hospital at Mt. Wilson from cash in the treasury.

I have mentioned these items in the program you have enacted because they are representative of overall objectives toward which we started in the General Assembly of 1947.

As in the past, both in the regular session of 1947, and the special sessions which followed, it has been a pleasure for me to work with you. My chief difficulty has been that, with your time and my time so fully occupied by the business of the session, it has not been possible to spend as much time with the individual members of the General Assembly as I had hoped.

Until we meet here again in 1950 for the initial short session for budget purposes, I pledge you that my administration will endeavor, within the limit of human capability, to administer wisely and efficiently the program you have outlined for it."

For Best Frozen Meats...

THE meat you take from your home freezer will be as good as it was when you put it in if it has been properly wrapped. Mrs. Walter Pikey, of Montgomery Road, Howard County, proves this by showing a pound of frozen bacon to home demonstration agent Mrs. Helen Gordon (right). To package meat correctly, use wrapping material designed especially for freezing, take care to exclude all air from the package, and fasten it tightly to prevent air re-entering or moisture leaving.

Army Accepting Applications For Jobs at Fort Meade

FORT MEADE, Md., April 1—A number of Civil Service vacancies exist at Fort George Meade, it was announced today by the Operations Branch, Civilian Personnel Division.

Positions listed include: Two statistical draftsmen, a structural engineer, maintenance engineer, highway and railroad engineer, entomologist, clerk-stenographers, steamfitters, carpenters, electrician linemen, plumbers, painters and sheetmetal workers.

The structural engineer, maintenance engineer and highway and railroad engineer positions pay \$3,727.20 annually. All three positions require travelling throughout the 7-state Second Army Area.

Applicants for these positions must have successfully completed a standard professional engineering curriculum leading to a bachelor degree in a college or university of recognized standing. In addition, the applicant must have at least one year of professional engineering experience. Experience may be substituted for the educational qualifications providing the experience is in the line of work required for the position. No written examination will be required.

Applicants for the position of entomologist must have successfully completed a full four-year course in an accredited college or university leading to a bachelor's degree, with a major in either entomology or zoology combined with courses in entomology. Applicants also must have one year of experience which has demonstrated the ability to perform work of a research nature. The pay for this position is \$3,727.20 a year and no written examination will be required.

Applicants for the statistical

draftsman positions are required to have three years' experience in drafting, however education may be substituted for experience. The salary for these positions is \$2724 a year. No written examination is required.

Applicants for the clerk-stenographer openings must be able to pass a stenographic test of not less than 80 words per minute. In addition, applicants applying for CAF-3 vacancies must have at least six months' experience as a stenographer. No written examination is required.

The salary range for these positions is \$2,284 to \$2,498.28 and all appointments in these positions will be temporary unless the applicant holds a civil service status.

Steamfitters, carpenters, electrician linemen, plumbers, paint-

ers and sheetmetal workers are needed for temporary openings in the post engineer's office for a period of 90 days. Steamfitters and sheetmetal workers will be paid at the rate of \$1.40 per hour, while carpenters and plumbers will receive \$1.33 an hour. The hourly wage for electrician linemen is \$1.42 and for painters it is \$1.30.

SPEAKS AT MEETING

OF TANEYTOWN KIWANIS

Mr. Philip Sharpe, Emmitsburg, small arms and ammunition expert, spoke at the meeting of the Taneytown Kiwanis Club Wednesday evening. A number of the members went to Mt. Airy, Monday evening to assist in the organization plans of a new club in that vicinity.

College Seniors Successfully Produce "The Bond Between"

Seniors of St. Joseph's College scored a success recently, when they presented "The Bond Between", and won top honors in the one-act play competition held in De Paul Auditorium.

Each of the four classes participated in the contest. The presentations were wholly class projects being enacted, staged, and directed by Melpothalians from the respective classes.

In the winning drama "The Bond Between", roles were played by Regina Bienlein, Marie McWilliams, Louise Nolan, and Betsy Shlesinger. The characterizations, requiring a great deal of versatility, were handled splendidly by the actresses. Directors for the play were Jean Barry and Mary Jean Koeck.

The Juniors presented "Everyman", an allegorical drama. Its cast was composed of Audrey Buzby, Mary Anne Kelly, Gloria Kelbaug, Mary Jane McAuliffe, Peggy McKenna, Peggy Patton, Lois Smith, Pat Smith and Mary Tenny. An outstanding feature of the Junior play was the unique staging. Peggy McKenna was especially effective in her portrayal of Everyman.

A pleasant diversion for the audience was "Lady Rosa", a comedy drama, chosen by the Sophomores. Bernice Heisey, director, selected Joyce McIver, Carolyn Eckenrode, Monica Kalbach, Kathy Williams and Peggy McGowan to work with her.

Directing the Freshmen play, "The Summons of Sarel", was Kathleen Clifford. Roles enacted by Beverly Barker, Joan Bourne, Mary Jane Beurket, Evelyn Callahan, Elizabeth Flannagan, Terry Koenig, Dolores Liske, Margaret Paulus, and Peppie Smith. Despite their limited dramatic experience, the Freshmen offered real competition to upperclassmen. Judges for the contest included Reverend Anthony W. Kieffer, O. M., John J. Dillon, Ph. D., Joan Marie, M. A., and M. Wasilifsky, Ph. D. The winning play was chosen on the basis of direction, production, acting and selection of drama. As all plays were well produced and presented, the judges were confronted with a real difficulty in selecting the winner.

OUR LADY OF DRAMA TROPHY was awarded to the Senior class and will be held by them until a new winner is selected in the contest next year.

Woodsboro Youth Loses Hand In Machine

William Runkles, 16-year-old son of Mrs. Orva Runkles, Woodsboro, had his left hand so badly crushed in a rubber shredding machine at a Taneytown rubber company plant last Saturday morning, that it had to be amputated above the wrist at Annie Warner Hospital, Gettysburg, Pa.

The accident happened about 1:15 o'clock Saturday morning when young Runkles' glove caught in the equipment and drew his hand into the shredder, according to his mother. Hearing the victim's screams for help, fellow workmen succeeded in stopping the machine.

A physician and ambulance were summoned and Runkles was rushed to Gettysburg where it was found necessary to remove the badly mangled hand. His condition was described as fair from last reports.

Taste-Teasers

"The way to a man's heart —"

By NANCY COOK

Do you know Jack Berch, the whistlin' bari-tone on NBC's daily "Jack Berch Show"? Well, he's no mean cook — especially when it comes to Chuck Wagon Stew, a favorite dish of his family. Jack first tasted it when a small boy in Sigel, Ill. . . later learned to make it. Though he's taught his pretty wife, Margo, how to cook it, this particular dish is Jack's specialty when he's let loose in the kitchen. It's so delicious, I'm passing on the recipe to you.

CHUCK WAGON STEW

Brown in hot fat 2 lbs. of beef chuck cut in 1½-inch cubes; add 3 cups of boiling water, 1 teaspoon lemon juice, 1 teaspoon worcestershire sauce, 1 clove garlic, 1 medium-sized onion (sliced), 1 can tomatoes, 2 bay leaves, some chopped parsley, salt, pepper, 1 teaspoon of sugar, and a dash of allspice. Cook over low flame for about 2 hours; stir occasionally to keep from sticking. Add 6 carrots (cut in lengths), and 1 lb. (18 to 24) small white onions. Continue cooking 20 to 30 min. (5 cubed potatoes may be added if you wish).

a whole spaghetti dinner for 3 or 4, put up in one package complete with concentrated sauce and cheese.

These time-savers are also dime-savers, so don't wait until company comes to try them. More about shelf items later . . .

On-The-Shelf Department...

Folks keep asking how I manage to whip together such seemingly prepared-in-advance meals when unexpected guests arrive. It's really not difficult . . . the secret lies on your emergency shelf. Here are some suggestions:

There are two real he-man canned sauces — one, a beef-rich tomato sauce, the other rich with mushrooms — which work magic when poured over or combined with meat, fish or spaghetti. You'll find they add a chef-like touch to even the most ordinary dishes!

Then there's canned ravioli. Now there's a dish men really go for. Serve with a fresh green salad, a tart dressing and a light dessert and see what that does for your enjoyment and reputation.

Another last-minute inspiration — especially for a novice cook — is

Vintage Flavors in Wine Vinegars Spark Up Meals

Meats and fowl are "tenderized" when marinated with vinegar . . . an old culinary art practiced by chefs for years.

I suggest you try it next time with herb-flavored wine vinegar. There are many varieties . . . some flavored with sweet basil, dill, tarragon and other herb blends. The sourness is lost in cooking, but the delicate hidden flavor of the herbs remains.

Exciting way to fix lamb chops: Moisten each chop lightly with herb vinegar. Let stand 1 hour. Brush with olive oil and broil.

Household Hint: To polish your kitchen stove easily and quickly, use a piece of crumpled up waxed paper. You'll find it not only cleans and polishes it to a satiny gloss, but also prevents the formation of rust.

MARYLAND RACING SHIFTS TO HAVRE DE GRACE

As a successful racing meet at Bowie closes tomorrow with the running of the Southern Maryland Handicap, the spring racing season in Maryland will shift to Havre de Grace.

Headlining the opening-day program on Monday, April 11, will be the \$10,000 added Chesapeake Trial, six-furlong dash for three-year-olds. As usual, the Trial will give contestants an opportunity to compete in the Chesapeake Stakes.

Other stake races to be run at Havre de Grace include: Harford and Philadelphia Handicaps, Edward Burke, and Havre de Grace Handicap.

Jockeys Benny Civitello, leading apprentice jockey at Bowie, along with Logan Batcheller, riding sensation in Florida this winter, will be in action.

Post time for the first race has been set at two o'clock for the 21-day meet.

OBITUARIES

ELMER R. WETZEL

Elmer Robert Wetzels, 60, of near Highfield, died at 3:30 p. m. Monday at his home. He had been in failing health for the last two years and unable to work for the last eight months.

Monday morning he had gone to the mountain near his home for a load of wood. When he failed to return after sometime, his family became alarmed. At noon he was found ill by his granddaughter. He was carried home by several neighbors and died shortly afterwards, due to a heart condition.

Mr. Wetzels was born at Emmitsburg, the son of Robert A. and Jennie (Kipe) Wetzels. For the last 16 years he had lived at Highfield.

His last place of employment was at the Greenstone grit mill. He had also been employed in Waynesboro shops. He was a member of the Otterbein U. B. Church.

Surviving are his wife, Emma J. (Brown) Wetzels; one daughter, Mrs. Harry Wetzels, at home; one foster son, Thomas Wetzels, at home; nine grandchildren; three sisters and two brothers, Mrs. Alice Eyer, Pen Mar; Mrs. Dora Hardman, Pen Mar; Mrs. Annie Baker, Emmitsburg Rt. 1; John Wetzels, Waynesboro, Pa., and Joseph Wetzels, Emmitsburg Rt. 2.

Funeral services were held yesterday at 2 p. m. from the Otterbein U. B. Church in charge of the Revs. A. E. Martin and N. W. Brechbiel. Burial in Green Hill Cemetery.

TILGHMAN L. BLESSING

Tilghman L. Blessing, former blacksmith and farmer, died Monday at 12:30 a. m. at his home in Johnsville. Death was attributed to complications following an illness of two weeks.

A son of the late Benjamin L. and Sarah Jane Blessing, he was born Feb. 14, 1856, in Frederick County and was aged 93 years. His wife, Mrs. Julia Alice Fogle Blessing, predeceased him by 15 years.

He is survived by the following children: Mrs. Margaret S. Shipley, York, Pa.; Mrs. Martha Jane Grabill, Miss Sarah L. Blessing, both of Johnsville; Mrs. Mary Houck, Detour; Benjamin and Frank L. Blessing, both of Keymar. Fifteen grandchildren and 17 great-grandchildren also survive.

Funeral services were held at the late home Wednesday afternoon at one o'clock. Rev. Ernest Colwell, assisted by Elder George Stansbury officiated. Interment in Beaver Dam Cemetery.

MRS. NORA B. FROCK

Mrs. Nora B. Frock died Sunday at 12:30 at her home in Taneytown, a few hours after she had suffered a cerebral hemorrhage.

She was aged 64 years and was a daughter of the late Curtis and Louise Wertz Baker. Her husband, Howard Frock, predeceased her by some years.

Survivors include one daughter, Mrs. William G. McNair, Taneytown; two grandsons and the following brothers and sisters: Miss S. Larena Baker and William J. Baker, with whom she resided; Mrs. Harry J. Myers, Pleasant Valley; Mrs. Anna V. Young, Hagerstown; Ray H. Baker, Taneytown; Roland M. Baker, Hagerstown, and Howard S. Baker, Taneytown RD.

Mrs. Frock was a life-long member of the Taneytown Grace Reformed Church and a member of the Sunday School. She was a charter member of the Daughters of America and also belonged to the Pythian Sisters and the Past Chiefs Assn.

Funeral services were held Wednesday meeting at the late home at two p. m. with further services in Grace Reformed Church, with Dr. Edwin H. Spontseller officiating. Interment in the church cemetery.

AAA Reports Record Number of Breakdowns During Year 1948

Old Man Winter, absent-mindedness and housing developments were factors in a record-breaking number of automobile breakdowns in 1948 when a total of 40,566,000 trouble calls were handled by the nation's garages, the AAA Automobile Club of Maryland reported this week. This was an increase of approximately 9 per cent over the 37,260,000 breakdowns estimated for 1947.

"In addition to the fact that there are a large number of ancient vehicles on the road," the Club said, "unusually severe weather conditions in some parts of the country during the early months of last year resulted in a number of calls for help. On 1-349,000 occasions last year, forgetful motorists ran out of gasoline before they could get to the filling station. One of the most startling increases last year was the jump of 47 per cent in the number of motorists getting stuck in the snow, mud or sand. Of the 2,257,000 motorists who got stuck, quite a substantial proportion were those who had moved into new homes in localities with streets as yet unpaved and got mired in after the first big rainfall."

The Club's annual estimates of motorists' mechanical woes are based on reports from 16,000 service stations, in the U. S. and Canada, under contract to render emergency aid to motor club members. Last year, said the report, these clubs spent \$5,225,456 in extricating their members from one difficulty or another.

Flat tires continued to be the major cause of breakdown during the year, with a total of 8,660,000, the Club's report said. However, batteries were almost as important a source of annoyance, accounting for 8,012,000 trouble calls, up 13 per cent from the year before. Other highlights from the report were:

- 1—Traffic smashups were reflected in the fact that tow trucks and wrecker equipment were dispatched 7,222,000 times to the rescue of cars with serious trouble that could not be repaired on the roadside.
- 2—There were 4,389,000 cases of ignition trouble, up 7 per cent from 1947, and 3,323,000 complaints of carburetor trouble, up 32 per cent.

EASTER TOYS and BASKETS

HOUCK'S
On The Square
Emmitsburg, Md.

Most Anything at a Glance (Continued from Page One)

Maybe I kin catch one big enough to shut my mouth—for this week.

WHAT EVER BECAME OF EMILY ADELSBERGER?

Well, Emily joined the Naval Reserve Nursing Corps in Nov. 1943, and after training at Portsmouth, Va. and Bethesda, she embarked for the Pacific Theatre on the Hospital Ship Benevolence, May 13, '45. Emily returned to the States in Dec. of that same year and the following October received her discharge as a Lt. (jg) at Bethesda, after a service which was of 34 months' duration.

Emily has lived across the street from the Chronicle Office as far back as we can remember. I remember when she graduated from nurses' training school at Frederick City Hospital, oh, a long time ago. At present she is nursing at a hospital in Washington, D. C., and every couple of weeks you'll find her visiting her mother, Mrs. Albert Adelsberger, and her sister Alice and Janet Tokar at their home on S. Seton Ave.

Next Week—William Sellers (Bill Annan)

3—The most significant decline in breakdown causes was starter trouble which dropped 23 per cent to 640,000 calls; increased availability of replacement starters may have accounted in part for this decrease.

4—Lock and key service, with 677,000 calls, was up by 43 per cent over the year before; while frozen locks may have accounted for some of the increase, Club experts point out that push-button locking on many of the later models make it easier for wool-gathering motorists to lock the keys in the car.

5—The average motorist called for help 1.2 times during the year; thus the chances that a motorist will get through twelve months without a breakdown are a little less than even.

Intra Mural Swimming Contests Are Held

At St. Joseph's College

The annual swimming meet of Saint Joseph's College was held Wednesday night, April 5, in the campus pool. The evening's activities were opened with competitive form swimming and were climaxed by individual class pageants.

Competitive form swimming included the front and back crawl, and the side and breast stroke in advanced and intermediate classes. Speed swimming was highlighted by the 40-yard free style dash and class relays. Here the seniors took honors.

The first part of the meet closed with exhibitional diving by Barbara Ann Duffy and Alice McLaughlin. Final score for this swimming showed seniors on top.

The meet continued with class pageants of original theme and skill. "Hawaii," as presented by the sophomore class, took first place for precision and graceful ballet. The juniors came second with their "Waltz of the Flowers."

Evening's activities, both swimming and pageant competition were judged by the Misses Betty Adams and Ruth Mundis, of Gettysburg, and Miss Virginia Kimball of Garrison Forest, Md.

PTA to Present Amateur Show Friday, April 29

The Emmitsburg Parent-Teachers' Assn. will present an "Amateur Show" at the Emmitsburg High School on Friday, April 29, at 8 p. m. Cash prizes will be awarded to winners in various types of entertainment — these prizes are well worth participating in the show to win. Entries, who may come from any of nearby counties and states, must apply to the Emmitsburg High School by Monday, April 25.

Many years have passed since the days of the amateur shows sponsored by the Emmitsburg High School and the community has missed one of its best sources of entertainment.

The PTA hopes, through a large participation and attendance, to provide a pleasurable evening for all.

County Unemployment Seen Diminishing

The Frederick County employment picture, as developed from claims filed at the Frederick office of the State Department of Employment Security in Winchester Hall, has brightened perceptibly during the past month, it was learned this week.

Approximately 1,155 claimants are now receiving unemployment compensation at the Frederick office as compared to around 1,800 in February, and it is believed the peak of unemployment has been passed for the current season, at least.

The reduction of 600 to 700 in the unemployment compensation rolls during the past six to eight weeks serves to bear out statements of officials at the Frederick office, who predicted there would be a sizable reduction in the figures once the weather "opened up."

It is understood that a major cause for the reduction has been the return of out-of-door construction workers to projects which were interrupted during the winter months.

It was also reported that two Carroll County plants, where employment had dropped to a low ebb during the winter, were now operating at more normal levels, sending back to work men and women who had been furloughed.

The number of unemployed is still above the levels that have been prevalent during and following the war at this time of the year, but it is felt there will be reductions in the list of those drawing checks as spring progresses.

CHANGES RESIDENCE

Mr. and Mrs. John Weatherly moved recently from an apartment at the former Mary C. Her-ring property to the house owned by Mrs. George Stouter, formerly occupied by Mr. and Mrs. Albert Kelly who moved to Baltimore.

Mr. and Mrs. William Weidner moved recently from Keymar to the property of Arthur Hardman, the former David Guise farm.

OH, BOY, THAT TURKEY

Maryland turkey growers have indicated that they expect to produce in 1949 the second largest turkey crop in the history of the State. The present forecast is for 475,200 birds this year, which is only slightly under the 1945 record of 490,000 birds. For the U. S. as a whole, producers are estimating a 25 per cent increase.
