BY ABIGAIL
NEW LOOK

Our fair town is really taking on a new look what with the shiny new parking meters lining the Square and East and West Main Streets and the number of new route signs just installed all over town. . . . The route signs were badly needed here—tourists coming to town from any direction were utterly at a loss as to which road to take. Then last week the shiny white signs were set up at the important intersections throughout the village and now transients can follow their itinerary without the slightest bit of trouble.

Now, if we could just get our street signs—But I won't say too much about that because I'm so thrilled and happy over the recent decision of the Town Board to give our residents regular garbage collection that the matter of street signs is almost trivial in comparison. . . . For years we have been trying to get this garbage bill into effect but for some unexplainable reason our cries fell on deaf ears. . . . Now at last it's happened. Praise be to the Mayor and Commissioners. . . . Needless to say how insanitary and unsightly those garbage heaps behind local residences were. All civilized towns should have garbage elimination. Three cheers for our side. Only one suggestion shall I make: That the garbage containers be situated in the rear of all houses where access to the rear of the property can be had, so as to eliminate the unsightly cans and heaps in front of the homes on collection day. . . . A bouquet also to John Hollinger, newly-elected commissioner. . . . This is John's first time in the "hot seat." Don't look now, John but you've got a lot of "fun" (???) coming your way. . . . Anyway, we're glad to see you on the board.

ERRORS, ERRORS, ETC.

Guess you know we lost Saturday's game to York Springs by a rather large number of runs. . . . Errors in the infield were largely responsible for the defeat. . . . Plus the fact that there was only one relief pitcher available. A few suggestions: . . . baseball, that you teamsters can either follow or ignore: "Bambino" Saylor would make an excellent pinch-hitter. . . . In Saturday's contest as a pinch-hitter he got a beautiful double and a triple. . . .

More concern for teamwork and winning the games should be evinced by a certain number of fellows on the local ball team a lot less concerning their batting average. A couple of good hits (flashes in the pan) doesn't make a ball player—consistency and co-operation do.

When suggestions for improving the ball players are offered, accept them in the sense in which they are intended. . . . Be a sport. . . . Not a hothead who thinks he knows it all. Remember it takes years of playing the game to know what to do, when and why. Couldn't help but notice the improvement in young Johnny Hollinger's playing in the past two games. . . . His stance at bat is better, his hitting is better, a lot of his temerity is gone, and he seems more self-assured. Keep it up, Johnny, we're pulling for you. . . . As an outfielder you're doing a beautiful job with a peg that's a wow!

SERVICE RECORD

FRANCIS S. ARNOLD
"Hotty" Arnold was inducted into the Army Engineers in 1943, and after training at Camp Cook, Cal., Ft. Belvoir, Va., Camp Ellis, Ill., Camp Claiborne, La., and Fort Lewis, Wash., embarked from the States in Dec., 1944. He served in the European, African, Middle Eastern Theater — was in the Rhineland Engagement and

CANCER DRIVE IN EMMITSBURG IS SUCCESSFUL

Dr. D. L. Beegle,
Campaign Chairman,
Says Quota Is Met

The Emmitsburg District's month-long drive for the "Fight Cancer Campaign" came to a successful conclusion this week when Dr. D. L. Beegle, local chairman, announced that the district's quota had not only been achieved, but that it was oversubscribed.

Dr. Beegle gave the following breakdown figures of the sources from which the revenue was derived:

The coin deposit boxes netted \$35.49 and door-to-door canvassing brought in \$221.82.

The little children of St. Euphemia's Parochial School contributed \$9.23 and St. Joseph's High School \$4.29 for a combined total for the schools, \$13.52. The over-all total of the drive was \$257.31.

While Emmitsburg has more than met its quota, it was announced this week that in some parts of the county the drive has been extended for another week in order to meet the county quota.

Dr. Beegle wishes to express his sincere appreciation to all those good people, some so tirelessly and unselfishly, gave their time and efforts to making the drive successful, and also those who gave so generously or in any other way assisted the campaign.

Those aiding in the soliciting of funds were Mrs. Donald Stoner, Mrs. Vernon Keilholtz, Mrs. Anna Bentz, Mrs. Meryl F. Keilholtz, Mrs. Andrew Eyster, Mrs. B. P. Ogle, Miss Mary Theresa Houck, Mrs. Norman Plax, Mrs. Herbert Roger, Mrs. B. F. Eckenrode, Mrs. Robert Fite, Mrs. Thornton Rodgers, Mrs. Richard Rosensteel, Mrs. Guy A. Baker, Mrs. Roy Sanders, Mrs. Clarence Hahn, Mrs. Harry S. Boyle, Mr. John Roddy Jr., and C. A. Elder.

GETTYSBURG THIEVES CAUGHT HERE

ARE SENTENCED

Three Youthful Robbers
Nabbed Here Recently
Get From 4 to 8 Years

Floyd Miller, Jr., Carlisle St., Raymond Crouse, Gettysburg Rt. 1, and Robert D. Painter, Gettysburg Rt. 5, all of Pennsylvania, were each sentenced to from four to eight years in the Eastern Penitentiary in Adams County Court Saturday morning of last week for robberies of the Hankey and Plank Garage, York St., Gettysburg, Pa.; Swope's Atlantic Service Station, Carlisle St., Gettysburg, Pa.; the Hill Tavern, near Littlestown, Pa., and the theft of an automobile owned by Thomas J. Collingsworth, W. Middle St., Pa., Mar. 13.

The three defendants were sentenced on the three burglary charges to four to eight-year sentences to run concurrently. They received sentences of 2½ to five years, also to run concurrently, for the automobile theft. In addition, the court fined the three defendants \$100 and costs on each of two of the charges, burglary of the Hill Tavern, and the auto theft.

Had No Counsel

Miller, Crouse and Painter were brought into the court room handcuffed, but these were removed by direction of the court during the sentencing. None of the three was represented by legal counsel, and told the court they desired none, and had nothing to say before sentence was pronounced.

earned for himself a whole slew of medals. Good conduct, American, European, African and Middle Eastern Theater Ribbons and the Victory Medal. "Hotty" returned to the States in '45, receiving his discharge from Fort Meade in March, '46, as a corporal. "Hotty" is the son of Mr. and Mrs. James A. Arnold and at present is employed here at a local factory.

Next Week: Edward G. Ashbaugh

What's Your Name?

By JULES CHRISTIAN

As promised last week, today's column is given in answer to a question concerning the name of Wilson. This is one among the most popular names in America. Short, terse and musical in sound, it ranks ninth in the most popular names of today. Williams, from which Wilson is derived, ranks fourth in popularity of names in our country. This therefore places Wilson in the front ranks of American names.

WOODROW WILSON

This name leaped into great popularity through the famed President during World War I, whose dream of a World Organization for Peace, is only being brought into realization now, a generation later. During the peak of his popularity as leader of the nations during World War I, Wilson, for a time, became the most popular name throughout the world.

WILLIAMS

This most popular name came originally from Germany. From hence it was spread throughout the world by saints, kings, and princes. William the Conqueror brought it to England in 1066 and made it one of the most popular names among the royalty and nobility. From that time forward it became one of the choicest names in the English speaking world. And the illustrious poet, William Shakespeare, and other men of renown, have clothed the name with glory.

WILSON

Numerous names, among many peoples and nations, have come from William. One is the late Wendell Willkie. However, today this column concerns itself in particular with the name of Wilson. The American poet, Eugene Fields, explains the name in this fashion—

Father calls me William,
Sister calls me Will,
Mother calls me Willie,
But feller calls me Bill.
What sister called him explains, in particular, why he was called Wilson. It means the son of Will. Of course, the name could be a contraction of the longer form of Williamson.

MRS. AMANDA C. OTTO
Mrs. Amanda C. Otto, widow of William H. Otto, died Monday at 12:45 a. m. at the home of her son-in-law and daughter, Mr. and Mrs. William C. Abra, Keymar, where she had been making her home since the death of her husband 24 years ago. A daughter of the late John and Louise Birley she was aged 79 years.

In addition to Mrs. Abra, she is survived by seven other children: Mrs. William Stitley, Bruceville; Frank W. Otto, Westminster; Mrs. Charles Spielman, Walkersville; Charles E. Otto, Keymar; Mrs. Clifford Flohr, Union Bridge; Mrs. John Hoffman, Woodsboro; and Roland H. Otto, Baltimore. Thirty-one grandchildren, 40 great grandchildren and a brother and sister, William H. Birley, Union Bridge, and Mrs. John Cox, Baltimore, also survive. Mrs. Otto was a lifelong member of the Haugh's Lutheran Church.

Funeral services were held yesterday at the Abra home at two o'clock with further services at Haugh's Mt. Zion Lutheran Church. Rev. R. C. Myers officiated, assisted by Rev. Paul Freeman. Interment in the church cemetery.

Mr. and Mrs. Russell Ohler were guests Sunday evening at the home of Mr. and Mrs. Raymond Baumgardner.

The name of Wilson probably came about in this way: A few generations ago, before the family had chosen a surname, there was a man named William and called Will for short. He had a son named, let us say, John. John saw that many people were now choosing family names. He, too, wanted to be up-to-date. Perhaps, he might have wanted to emigrate to America. For these or some other reason John decided to select a surname for himself. Holding his father in very high regard, he decided to call himself after his father. Therefore, he became John Will's son, later, and for greater brevity and harmony of sound, he shortened the name further into the simple form of Wilson. Thereby, he became known ever after as John Wilson.

MEANING OF WILSON

The German form of the name, which is the original form, discloses its meaning much better than the English form. In Germany it is Wil helm. To us that is a much more awkward sound than we like. Therefore, the English speaking world changed the "helm" into "liam." Thus Wil helm, from which Wilson was originally derived, is made up of two old words. (1) The first is will, originally in the German it was vilja. It means the resolute, persistent determination, (2) and the second part is "helma." This means helmet, an emblem of protection and defense. This part of the original word was seen dramatized in both World Wars by the manner in which the German nobility paraded in their famous helmets.

But the English speaking world left out the helmet for the more beautiful sounding name of: William, often shortened into Will or the son of Will called Wilson. Still the name means the strong and resolute protector.

A request has been received concerning the name of Weaver. This will be considered next week.

EDWARD V. WEDDLE
Edward Vernon Weddle, died at his home, 114 W. Sixth St., Frederick, last Saturday night at 10:30 after an illness of six months. He would have been seventy years of age on May 3.

He was a son of the late James E. and Rebecca Connors Weddle. Surviving are these daughters, and sons, Mrs. Frank Six, Mountaineale; Mrs. John Hoffman, Charles Weddle, Frederick; Henry Weddle, Baltimore; Raymond Weddle, Frederick; Vernon C. Weddle, Athens, O.; Mrs. Sherman Hewitt, Rocky Ridge; John Weddle, Frederick; Corp. James Weddle, Tokyo, Japan; Miss Ruth Weddle, Frederick; Mrs. Hollie Hudnell, Athens, O. Five brothers, Frank Weddle, Mountaineale; Cos Weddle, Ira Weddle, Jesse Weddle, Frederick; Earl Weddle, Brunswick; Mrs. Gertrude Albert, Brunswick; Mrs. Daniel Brunner, Frederick; eighteen grandchildren and nine great grandchildren also survive.

Funeral services were held Wednesday at two o'clock. Interment in the Methodist Cemetery.

Mrs. Bruce Smith, Emmitsburg, and Mrs. George Lynch, Baltimore, spent several days this week at the home of their sister, Mrs. O. Ruth Eyler, Thurmont.

EMMITSBURG WATER COMPANY TO HIKE RATES

President S. C. Hays
Announces Filing Of
Proposed New Rates

The Emmitsburg Water Co. this week, through its president, Samuel C. Hays, announced a series of new rates to its patrons. Several different items are to be hiked considerably higher, but to most residents, their regular water service will be the same.

A spokesman for the company said that all meter users will retain their present rate of pay and that those using the flat rate will remain the same except for these exceptions:

A first opening will go from \$7 to \$10, outside faucets from \$8 to \$10, fire hydrants from \$12 to \$15, and new tapping charges from \$7.50 to \$20.

The company has already filed its prayer for the additional increase with the Public Service Commission in Baltimore and a hearing on the request will be held in the near future.

In its petition to the commission, the company stated that increased overhead and operating expenses necessitated the raise in rates.

Mr. Hays pointed out that the water company has been operating on the 1927 rate of income and that it was absolutely imperative that additional revenue be secured in order for the company to maintain its security.

The president, in his appeal for the increase, stated that tremendous expense has been incurred in enlarging the local reservoir. He pointed out that in 1935 the capacity of the water system was 3,000,000 gallons and that the new capacity will be stepped up to 23,000,000 gallons.

Continuing his statement to the commission, Mr. Hays said that the 1935 improvement to the reservoir was paid for by the company and that no expense to the public was involved at that time.

COUNTY DOCTORS OPPOSE FEDERAL HEALTH PROGRAM

Protest Sent President
Truman On Passage
Of Medical Bill

The Frederick County Medical Society adopted a resolution opposing any form of compulsory health insurance or any system of political medicine designed for national bureaucratic control at its regular meeting in Frederick this week and sent copies of the resolution to each senator and representative from Maryland and also to President Truman.

The letter also requested that senators and representatives use every effort at their command to prevent the enactment of such legislation. Dated Saturday, the resolution was signed by Dr. M. Franklin Birley of Thurmont, the president of the society, and Dr. James B. Thomas, Frederick, its secretary.

Whereas, under a system of free enterprise, the American medical profession has established the world's highest standard of scientific performance, treatment, and research, thereby helping the United States to become the healthiest major nation in the world; and,

Whereas, the benefits of American medicine are available to the people of this country through budget-basis voluntary health insurance, the best health insurance which exists in the world; and

Whereas, the experience of all countries where government has assumed control of medical services has shown that there has been a gradual erosion of free enterprise and a progressive deterioration of medical standards and medical care to the detriment of the health of the people, now, therefore,

Be it resolved, that the Frederick County Medical Society does hereby go on record against any form of compulsory health insurance or any system of political medicine designed for national bureaucratic control.

ROADS COMMISSION TO CORRECT SETON AVE. CURVE

Bend In Front Of
Catholic Church
To Be Widened Soon

After many months of negotiating by both the State Roads Commission and St. Joseph's Catholic Church, correction of the dangerous curve in front of the church on N. Seton Ave. is about to be accomplished. Recently the church donated a strip of its land 9 feet wide and 182 feet long to the State for the purpose of diminishing that traffic impediment.

A major factor in accomplishing this project was the work of Mayor Thornton Rodgers and a committee of church members who have been dicker with the Commission for a lengthy time.

Success of the project was assured this week when Mr. Robert M. Reindollar, chairman of the commission, in a letter to Chief Engineer W. F. Childs, also of the commission, recommended the easement of the curve to the north of the town street beyond the northend of the cemetery wall.

The chief engineer indicated the approximate cost of the job to be \$2,700.

Mr. Childs, in a letter addressed to Mr. Reindollar recommended that the Commission accept the proposal of St. Joseph's Church and authorized District Engineer Bates Chaires to proceed with the work.

The improvement will be the installation of a wire fence, to supplant the present stone wall and replacement of the sidewalk.

Thus, it seems assured that the hazard which has been harassing motorists and endangering the lives of pedestrians for these many years will, in the near future, be entirely eliminated and will ease the heavy flow of traffic through the Town.

Up to now, no word has been received from the Commission regarding the removal of the blinker on the Square. Many months of negotiating have failed to accomplish the removal of the out-moded blinker and it still remains a silent, unlighted traffic and pedestrian hazard standing in the middle of the most-travelled thoroughfare in the city.

Legion Auxiliary

Holds Regular

Monthly Meeting

American Legion Auxiliary of Francis X. Elder Post held their regular meeting Tuesday evening at eight o'clock in the Post Home, president Laura Rosensteel presiding. Twenty-three members attended.

Committees in charge reported \$10. given Ways and Means, collected in the pockets made by Carmen Topper and Laura Rosensteel.

Child welfare declared \$16.15 cost of food baskets given needy families during Easter holidays. Cards are being sent Gold Star Mothers for Mother's Day.

Three members attended the district meeting in Brunswick, next meeting will be held on May 15 at Williamsport.

Cards of thanks were read from Mr. and Mrs. Shriner, the Opekum family, and Mrs. Kathleen Shorb. Capsule name called was Mrs. Margaret Shorb, who being present, received the \$2 prize.

It was decided to change the meeting hour to 8:30 during the summer months, new time to begin at June meeting. The Auxiliary will join the men of the Legion on May 29 in St. Joseph's Church at one of the morning masses, time to be announced later.

Mrs. Madeline Harner was accepted as a new member, raising the membership to 72. Treasurer reported \$171.08 on hand.

Meeting adjourned and the Auxiliary and Legionnaires enjoyed a delicious platter of roast beef and French fries.

Miss Nancy Beegle quietly celebrated her 17th birthday at a dinner Wednesday evening at her home.

T. W. RODGERS, J. J. HOLLINGER ELECTED TO OFFICE

Both Candidates
Receive Large Number
Of Votes In Election

The citizenry of Emmitsburg gave Mayor Thornton W. Rodgers a rousing vote of confidence last Monday in the Town Election when they returned him to office with a sweeping popular vote.

Mr. Rodgers was unopposed for the office, and the heavy turnout emphasized the fact that he and the present administration are doing a fine job of managing the Town's business. Both Rodgers and Hollinger received 116 votes.

One commissioner was elected to office Monday. John J. Hollinger was voted to office by the same total as Mr. Rodgers. Mr. Hollinger was also unopposed for the office and will replace Mr. Luther Kugler, who declined to run.

Two ballots were invalidated and one write-in vote was cast for former Mayor Joseph R. Hoke.

119 Votes Were Cast

Hold-over commissioners are James T. Hays, chairman of the Board, and Lloyd G. Ohler. Both of these officials' terms expire next May.

The newly-elected officers will be sworn in at a special meeting, to be announced later. They will take up their regular duties at the next regular meeting of the Town Board, the second Tuesday of May.

The election of Mr. Rodgers assures the success of many new improvements which have been contemplated for some time. The addition of Mr. Hollinger gives "new blood" to the council and helps solidify their efforts to complete these new projects for the Town.

Maryland Chiropractors

Meet In Cumberland

The Maryland State Chiropractors' Association held its semi-annual meeting in Cumberland last Saturday and Sunday.

Principal speaker at the session was Dr. Joseph Janfe, president of the National College of Chiropractic, located in Chicago, Ill.

During his discourse, Dr. Janfe stressed the importance of good posture, and the attitude:

"More than half of all adults suffer from poor posture, with resulting bad effect on health and efficiency. Poor posture is the result of poor habit and lack of understanding of the proper care of the spine. Incorrect posture exacts a staggering annual toll in sickness, reduced income and lost industrial production.

"Good posture means good health, while poor posture means poor health and reduced efficiency," he declared.

Many Maryland and out-of-state chiropractors and guests were present at the two-day session.

Mt. St. Mary's

Glee Club to Present

Concert May 19

The newly-organized Freshman Glee Club of Mt. St. Mary's College will present a Spring Musical on the evening of May 19 at 8:30 in the college gymnasium.

The Rev. Peter A. Coad, of the Mount faculty, is moderator of the organization. The Rev. David W. Shaum, instructor in Sacred Music at the Mount Seminary and assistant pastor of St. Vincent de Paul Church, Baltimore, is director of the glee club. Thomas M. Schaefer is associate director.

Mrs. Mae O'Keeffe, mezzo-soprano, of Baltimore, will appear as guest soloist with the Glee Club. A widely known singer in Baltimore, Mrs. O'Keeffe has appeared on numerous occasions in operettas, minstrels and on the concert stage.

Twenty-nine men comprise the glee club. William McCann is accompanist. The program will be announced next week.

Ensign and Mrs. James Baumgardner have left for Newport, R. I., where he will be stationed for the present.

Emmitsburg Water Co.

Rules And Regulations

AMENDMENT TO RULES AND RATES AND INFORMATION ON COMPANY'S PRACTICE NOW ON FILE WITH THE PUBLIC SERVICE COMMISSION
These rules and regulations, which are on file with the Public Service Commission of Maryland as a part of the rate schedules, are a part of the contract with every customer who takes water from the company.

1. DEFINITIONS

a. The word "Company," wherever it appears, shall be construed to mean Emmitsburg Water Company in Frederick County or its duly authorized officers or agents.
b. The word "customer" shall mean any person or persons operating as a family unit any partnership or corporation receiving water service from the company.
c. The word "premises" shall be restricted to the following:
(1) A building under one roof owned or leased by one customer and occupied as one residence or one place of business.
(2) A combination of Buildings owned or leased by one customer, in one common enclosure, or occupied by one family, or one corporation or firm, as a residence or place of business.

(3) Each unit of the multiple house building separated by a solid vertical partition wall, occupied by one household, or one firm, as a residence or place of business.
(4) A building owned or leased by one customer having a number of apartments, offices, or lots which are rented to tenants and having a common hall and one or more means of entrance.

d. The word "main" shall be construed to mean the piping and appurtenant fixtures owned by the company and attached to the Company's mains.
e. The term "private line extension" shall be construed to mean the piping and appurtenant fixtures owned by the customer and attached to the Company's mains.

2. APPLICATION FOR SERVICE
a. All applications for water service must be made in writing on forms by the Company. The original application for service must be made by the property owner. Subsequent applications may be made either by the owner or by the tenant.

b. No contract for service will be entered into by the Company with any applicant until all arrears and charges due by the applicant at any premises now or heretofore by him shall have been paid, or satisfactory arrangements made in regard thereto.

c. The accepted application by the Company shall constitute a contract between the Company and the applicant, obligating the applicant to pay to the Company its rates as established from time to time and to comply with its Rules and Regulations.

d. Applications for service installations will be accepted subject to there being an existing main in a street or right-of-way adjoining the premises to be served. The contract in no way obligates the Company to extend its mains to service the premises under consideration, except as hereinafter set forth in the Regulations governing extensions.

e. When a prospective Customer has made application for a new service or has applied for the reinstatement of an existing service it is assumed that the piping and fixtures, which the service will supply, are in order to receive same, and the Company will not be liable in any case for any accident, breaks, or freezing of water pipes or fixtures of the customer, nor for any damage to the property which may result from the use of or non-use of water supplied to the premises.

3. CUSTOMER DEPOSITS
a. As security for payment of bills, the Company may require any applicant or any customer, whose credit has not been established with the Company, to make a deposit to one equal to one third (1/3) times the estimated average bill for the billing period or the jobbing

service. In case the billing period is changed and/or the estimate of the size of the bill is found to be incorrect, an adjustment shall be made in this deposit to suit the conditions. Deposits of applicants shall be payable at the time the application or jobbing order is made and shall be paid by the prospective customer upon demand.

b. When service is discontinued and final bills paid, or job completed, or when the customer has established satisfactory credit with the Company, Company will notify Depositor the deposit will be refunded upon presentation at the office of the company of the deposit receipt or of evidence satisfactory to the Company that such deposit receipt has been lost or destroyed.

4. SERVICE CONNECTIONS
a. The service connection from the main to the property line, including curb cock and box, will be installed by the Company. Title to all services from main to property line, meters, and meter installations, are vested in, and the same shall at all times remain the sole property of the Company, and shall not be trespassed upon or interfered with in any respect. This property shall be maintained by the Company and may be removed or changed by it at any time.

b. The service connection from the main to the property line, including curb cock and box, will be installed by the Company. Title to all services from main to property line, meters, and meter installations, are vested in, and the same shall at all times remain the sole property of the Company, and shall not be trespassed upon or interfered with in any respect. This property shall be maintained by the Company and may be removed or changed by it at any time.

c. The service connection from the main to the property line, including curb cock and box, will be installed by the Company. Title to all services from main to property line, meters, and meter installations, are vested in, and the same shall at all times remain the sole property of the Company, and shall not be trespassed upon or interfered with in any respect. This property shall be maintained by the Company and may be removed or changed by it at any time.

d. The service connection from the main to the property line, including curb cock and box, will be installed by the Company. Title to all services from main to property line, meters, and meter installations, are vested in, and the same shall at all times remain the sole property of the Company, and shall not be trespassed upon or interfered with in any respect. This property shall be maintained by the Company and may be removed or changed by it at any time.

e. The service connection from the main to the property line, including curb cock and box, will be installed by the Company. Title to all services from main to property line, meters, and meter installations, are vested in, and the same shall at all times remain the sole property of the Company, and shall not be trespassed upon or interfered with in any respect. This property shall be maintained by the Company and may be removed or changed by it at any time.

f. The service connection from the main to the property line, including curb cock and box, will be installed by the Company. Title to all services from main to property line, meters, and meter installations, are vested in, and the same shall at all times remain the sole property of the Company, and shall not be trespassed upon or interfered with in any respect. This property shall be maintained by the Company and may be removed or changed by it at any time.

g. The service connection from the main to the property line, including curb cock and box, will be installed by the Company. Title to all services from main to property line, meters, and meter installations, are vested in, and the same shall at all times remain the sole property of the Company, and shall not be trespassed upon or interfered with in any respect. This property shall be maintained by the Company and may be removed or changed by it at any time.

h. The service connection from the main to the property line, including curb cock and box, will be installed by the Company. Title to all services from main to property line, meters, and meter installations, are vested in, and the same shall at all times remain the sole property of the Company, and shall not be trespassed upon or interfered with in any respect. This property shall be maintained by the Company and may be removed or changed by it at any time.

i. The service connection from the main to the property line, including curb cock and box, will be installed by the Company. Title to all services from main to property line, meters, and meter installations, are vested in, and the same shall at all times remain the sole property of the Company, and shall not be trespassed upon or interfered with in any respect. This property shall be maintained by the Company and may be removed or changed by it at any time.

j. The service connection from the main to the property line, including curb cock and box, will be installed by the Company. Title to all services from main to property line, meters, and meter installations, are vested in, and the same shall at all times remain the sole property of the Company, and shall not be trespassed upon or interfered with in any respect. This property shall be maintained by the Company and may be removed or changed by it at any time.

k. The service connection from the main to the property line, including curb cock and box, will be installed by the Company. Title to all services from main to property line, meters, and meter installations, are vested in, and the same shall at all times remain the sole property of the Company, and shall not be trespassed upon or interfered with in any respect. This property shall be maintained by the Company and may be removed or changed by it at any time.

l. The service connection from the main to the property line, including curb cock and box, will be installed by the Company. Title to all services from main to property line, meters, and meter installations, are vested in, and the same shall at all times remain the sole property of the Company, and shall not be trespassed upon or interfered with in any respect. This property shall be maintained by the Company and may be removed or changed by it at any time.

m. The service connection from the main to the property line, including curb cock and box, will be installed by the Company. Title to all services from main to property line, meters, and meter installations, are vested in, and the same shall at all times remain the sole property of the Company, and shall not be trespassed upon or interfered with in any respect. This property shall be maintained by the Company and may be removed or changed by it at any time.

n. The service connection from the main to the property line, including curb cock and box, will be installed by the Company. Title to all services from main to property line, meters, and meter installations, are vested in, and the same shall at all times remain the sole property of the Company, and shall not be trespassed upon or interfered with in any respect. This property shall be maintained by the Company and may be removed or changed by it at any time.

o. The service connection from the main to the property line, including curb cock and box, will be installed by the Company. Title to all services from main to property line, meters, and meter installations, are vested in, and the same shall at all times remain the sole property of the Company, and shall not be trespassed upon or interfered with in any respect. This property shall be maintained by the Company and may be removed or changed by it at any time.

p. The service connection from the main to the property line, including curb cock and box, will be installed by the Company. Title to all services from main to property line, meters, and meter installations, are vested in, and the same shall at all times remain the sole property of the Company, and shall not be trespassed upon or interfered with in any respect. This property shall be maintained by the Company and may be removed or changed by it at any time.

q. The service connection from the main to the property line, including curb cock and box, will be installed by the Company. Title to all services from main to property line, meters, and meter installations, are vested in, and the same shall at all times remain the sole property of the Company, and shall not be trespassed upon or interfered with in any respect. This property shall be maintained by the Company and may be removed or changed by it at any time.

r. The service connection from the main to the property line, including curb cock and box, will be installed by the Company. Title to all services from main to property line, meters, and meter installations, are vested in, and the same shall at all times remain the sole property of the Company, and shall not be trespassed upon or interfered with in any respect. This property shall be maintained by the Company and may be removed or changed by it at any time.

s. The service connection from the main to the property line, including curb cock and box, will be installed by the Company. This property shall be maintained by the Company and may be removed or changed by it at any time.

w. The service connection from the main to the property line, including curb cock and box, will be installed by the Company. Title to all services from main to property line, meters, and meter installations, are vested in, and the same shall at all times remain the sole property of the Company, and shall not be trespassed upon or interfered with in any respect. This property shall be maintained by the Company and may be removed or changed by it at any time.

x. The service connection from the main to the property line, including curb cock and box, will be installed by the Company. Title to all services from main to property line, meters, and meter installations, are vested in, and the same shall at all times remain the sole property of the Company, and shall not be trespassed upon or interfered with in any respect. This property shall be maintained by the Company and may be removed or changed by it at any time.

of any open excavation or vault.

1. Hereafter, in all future installations or re-installations of service lines, only one premise will be supplied through one service pipe. When more than one premise is now supplied through one service pipe, and under the control of one curb cock, any violation of the Rules of the Company by either or any of the customers so supplied shall be deemed a violation to all and the Company may take such action as it may deem proper against a single customer, except that such action shall not be taken until the innocent customer, who is not in violation of the Company's Rules, has been given a reasonable opportunity to attach his pipe to a separately controlled service connection.

2. The Company shall in no event be responsible for maintenance of or for damage done by water escaping from the service pipe or any other pipe and fixtures on the outlet side of the curb cock; and the Customer shall at all times comply with State and Municipal regulations in reference thereto and shall make any changes therein required on account of change of grade, relocation of mains or otherwise.

3. METER SERVICE
a. All meters will be furnished by and remain the property of the Company, which reserve the right to stipulate the size, type and make of meter to be used, as well as the location of the setting.

b. When possible, the meter will be set in the basement in a convenient place to control the entire supply, the meter shall be provided and installed by the customer. Where it is impossible or impracticable to set it in the basement, it shall be set at the property line or some other location designated by the Company on the delivery side of the curb cock. In the event the customer desires any change in the location or position of the meter, meter box or vault, such change in location shall be made by the Company at the expense of the customer.

c. The quantity recorded by the meter shall be taken to be the amount of water passing through the meter, which amount will be refunded upon presentation at the office of the company upon presentation of the meter.

d. In such cases, the quantity may be determined by the average registration of the meter in question during past period when in order, or by the average registration of the new meter, whichever method is representative in the opinion of the Company of the conditions existing during the period in question.

e. The Company reserves the right to remove and to test any meter at any time, and the customer shall be responsible for the cost of the same.

f. In the case of a disputed account involving the question of accuracy of the meter, the meter will be tested by the Company upon the written request of the applicant, provided the meter in question has not been tested either by the Company or the Public Service Commission within two years of the date of the test.

g. The applicant will agree to accept the result of the test made by the Company, and shall pay the cost of settling the difference claimed. No charge will be made for such tests. For tests within two years of the last test made by the Company or the Public Service Commission, the fee for testing such

meter will be Two Dollars (\$2.00) for meters 1" and smaller, and Five Dollars (\$5.00) for larger ones, payable in advance of test. In the event that the meter so tested is found to have an error in registration of less than four per cent, as based upon an arithmetical average of one quarter load and full load of the meter, to the prejudice of the customer, the fee advanced for testing will be refunded and the current bill rendered, based upon the last reading of such meter, shall be corrected accordingly. This correction shall apply to both over and under registration.

h. The customer shall permit no one, not an agent of the Company or otherwise lawfully authorized to do so, to remove, inspect or tamper with the meter or other property of the Company on its premises. The Customer shall notify the Company, as soon as it comes to his knowledge, of any injury to, or any cessation in registration of the meter.

i. The authorized agents of the Company shall have the right of access at all reasonable hours, to the premises supplied with water for the purpose of reading meters, examining fixtures and pipes, observing the manner of using water, and for any other purpose which is proper and necessary in the conduct of the Water Company's business.

j. No water will be furnished to any premises where any possibility exists of the mingling of the water furnished by the Company with water from any other source. Nor will the Company permit its mains or service pipes to be connected with the mains or service pipes of any other apparatus containing liquids, chemicals, or any other matter which may be injurious to the Company's service pipes or mains, and consequently endanger the water supply. An exception may be made to this rule at the option of the Company, providing proper safeguards are installed which shall be inspected and have the approval of the Water Company, the Insurance Underwriters and the State Board of Health.

4. PAYMENT OF BILLS
a. Bills for service will be rendered periodically in accordance with "Terms of Payment" noted on each specific Rate Schedule, and are due and payable at the office of the company upon presentation.

b. A charge of five per cent (5%) will be added to all accounts not paid when due. If payment in full of account is not received within thirty (30) days after bill is rendered, the Company reserves the privilege, after five (5) days' notice, to discontinue rendering service.

c. Whenever the customer desires to have his service discontinued, he shall so notify the Company in writing. Until such notice is received by the Company, the customer shall be responsible for the payment for all service rendered by the Company during the time that the meter repairs caused by damage by hot water or freezing. A reasonable time will be allowed the Company to make a final reading of the meter or meters and to discontinue service.

d. The presentation or non-presentation of a bill shall not be held to be a waiver of any of the above rules.

e. Service may be discontinued for any of the following reasons:
(1) Use of water for purposes other than described in the application.
(2) Misrepresentation in application.

5. CHANGES IN U. S. INFANTRYMEN'S UNIFORMS AND WEAPONS

Maryland Citizens to Gather in Annapolis May 22-27 for Fete

300th Anniversary of State's capital city to be marked by week of pageants, exhibits and balls

Marylanders everywhere, together with friends and neighbors from other states, will be heading toward Annapolis for the week beginning Friday, May 20—for Maryland's capital city will be staging the year's most important celebration, the Three-Hundredth Anniversary of its settlement.

The week's events are under the professional direction of the Domar Celebration Service, which builds up the program with the idea of making every feature—street decorations, window displays, Anniversary Exhibition, the great historical pageant, the parades, water carnival and marine parade, and the colonial ball—all of equal interest and beauty.

Outdoor Sunday Program

The Official Opening, a program of pageantry, music by combined choirs of Anne Arundel County and midshipmen of the Naval Academy, and distinguished speakers, takes place in the stadium of the United States Naval Academy on Sunday afternoon, May 23 at 4:30. This program is open to all without tickets.

To accommodate those who find the week-end their best time for travel, the Anniversary Exhibition in the State Armory to depict life in Anne Arundel County, past and present, will open on Friday afternoon, May 20 at one o'clock. Rare and unusual articles will be exhibited. For the lovers of Indian lore, a remarkable old Indian axe and celt, whose blue quartz marks it as of the Susquehanna; to delight the children, an old-fashioned playroom and nursery with an early hand-made rocking horse and old dolls galore; for the feminine eye, a century and a half of authentic costumes and accessories; for the sportsman, wild life and water resources; and for the serious minded, old maps, charts, paintings, and an opportunity to see for the first time anywhere a map of Broad Neck Hundred with the complete land grants of the first settlers at the mouth of the Severn, 1649.

Great Pageant To Be Staged

"Song of the Severn," a great historical, dramatic and musical spectacle, telling the story of Annapolis' three hundred years, will be presented five nights, Saturday, May 21 through Wednesday, May 25. Old coaches, sedan chairs, a score or more of horses for Pulaski's cavalry, the burning of the Peggy Stewart, a little old locomotive to launch the coming of a new era—all these with a cast of hundreds and with the most modern methods of technical lighting and staging, will add realism to a pageant likely to rank with the best of out-of-door productions.

Monday, May 23, Maryland State Day, will start the week with a large number of visitors from distant cities because on the portico of the State House at eleven o'clock will be the ceremonies in connection with the first day of issue of the Annapolis Tercentenary three-cent stamp. Governor Lane, Admiral Holloway, Senators Tydings and O'Connor, and Representative Sasser will be present. The Postmaster General, Jesse M. Donaldson, and other high officials of the Post Office Department are expected to attend.

Committees for Card Party ARE NAMED

Committees for the PTA of Emmitsburg High School card party which will be held May 19 in the school auditorium have been announced.

General chairmen, Mrs. Mary Hoke and Mrs. Mary Scott; advertising and posters, Miss Jane Fitzgerald, Mrs. Andrew Eyster and Mrs. Elmer Fuss.

Raffle, Mrs. Helen Daugherty, Mrs. Morris Zentz, Mrs. Roy Sanders, Mrs. Lois B. Heller and Mrs. Carroll Frock; tickets, Mrs. John Baumgardner, Miss Helen Martin and Mrs. Daniel Nail.

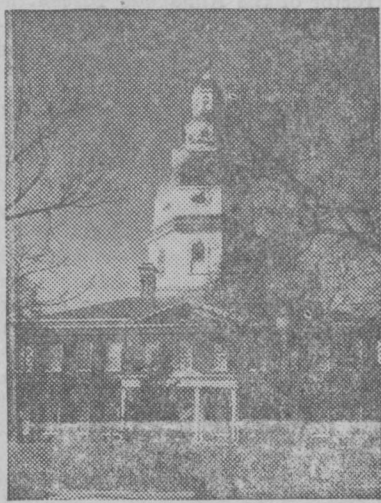

Properties, Harry Troxell, Carter Linger, Harry Wantz, Carroll Frock, Arvin P. Jones, Ralph McDonnell, Mrs. Robert Fite and Mrs. Roy Bollinger; decorating auditorium, Mrs. D. L. Beegle, Mrs. Hazel Caldwell, Miss Eleanor Miller and Mrs. George Wilhide.

Refreshments, Mrs. Boyle, Miss Edna Stull, Mrs. George Eyster, Mrs. Merle Keilholtz, Mrs. Harry Wantz and Mrs. Harry McNair; prizes, Mrs. Samuel Hays, Mrs. F. L. Glass, Mrs. A. L. Leary, Mrs. Jones, Mrs. Ralph McDonnell, Mrs. John White, Mrs. L. H. Cregger, Mrs. Weldon Shank.

Cards and tallies, Mrs. Helen Walters, Mrs. Glenn Springer and Mrs. John Fuss; distribution of prizes, John Hollinger and Mrs. O. H. Stinson.

A small table mounted on casters is convenient to have for moving materials and equipment around the kitchen.

Leaves of house plants should be kept free from dust. Wipe them gently with a soft, slightly dampened cloth.

Maryland's beautiful State Capitol one of the oldest in America.

Fascinating old equipment, from a fire engine of 1774 to a 1903 Cadillac complete with linen dusters and Merry Widow hats, will add color to the County parade on Tuesday, May 24, which will picture Anne Arundel County agricultural, industrial, and commercial life. On Wednesday, May 25, Organizations Day, civic, fraternal, veterans groups, and military organizations will parade with floats and historical equipment.

Naval Academy Participation

The evolution of travel on Chesapeake Bay, the nautical training of midshipmen at the United States Naval Academy, and the advantages of Annapolis' harbor as a yachting center, will be stressed throughout Severn and Chesapeake Day on Thursday, May 26. The closing feature of this day will be a great marine parade at night, to be climaxed by a 300-round salute of fire works, now being made up with special anniversary features.

To keep the visitors busy between pageants and parades, there will be fascinating documents, books, and ship models exhibited at Maryland's Hall of Records, St. John's College, the Naval Academy Museum, the Naval Academy Library, and elsewhere. And for those who enjoy a short ride on the water, the aircraft carrier Leyte, anchored in the Bay, will receive visitors during a part of the celebration. For those who love Maryland history—in the newly decorated Old House of Delegates Chamber in the State House will be displayed articles of lasting interest that have belonged to governors of Maryland and former mayors of Annapolis.

Colonial Ball Highlight

A night of festivity is planned for Friday, May 27, the closing day of this great birthday party. A colonial ball, street pageantry, wandering minstrels, and a grand salute of fire works will end the celebration and start Annapolis on its next three hundred years.

Killed By Steam Shovel

Abraham Watkins, 35-year-old Baltimorean, was killed recently when the scoop of a steam shovel felled him while he was working in a pit on a school construction project. The impact crushed his chest.

May Reminders

AS SOON as possible, separate cockerels and use Thurmont Meat-Gro Broiler Mash to finish cockerels for early market.

CAPONIZING CAN be quickly and efficiently done by our Technician 4 to 6 weeks before marketing, which will greatly increase your returns by increased quality.

AS YOUR chicks mature, provide increased feeding and watering space. At 4 to 5 weeks, have adequate and convenient roosts available for their use. Provide ventilation to control moisture.

A 10-PIG litter will weigh 25 pounds at birth and 250 pounds at 6 weeks. By the use of our Pig and Hog Meal, you can be assured of profitable returns when hog and grain prices are compared.

INCLUDE BEET Fulp in your dairy ration to help absorb excessive moisture in new grass.

CLEAN AND prepare equipment to receive your Turkey Poult, which should be started on our high energy Turkey Mash for satisfactory results.

GET YOUR supply of MARLATE (Methoxychlor) for Fly Control.

Seven Deer Slain By Dogs In Frederick County

Frederick County game wardens headed by Regional Game Warden Benjamin F. Phebus, Sr., this week declared open war on canines running at large and also their owners.

The warden reported finding 7 deer slain by dogs in the past 5 weeks and declared that he and other wardens will make every effort to locate and prosecute the owners of dogs seen running at large.

Mr. Phebus said the seventh deer found slain was located along Route 15 near Lewistown early this week. He said there was no doubt that dogs killed the buck deer.

Victims Mostly Bucks

He said five of the seven deer recently slain by dogs were bucks and two were adult does. One of the does would have given birth shortly to twins and the other would have produced a single birth. All of the slain bucks would have been legal deer next December, he pointed out.

It is unlawful for dogs to run loose between March 1 and September 1, the warden explained. He said the weakness in the law is that the dogs can't be destroyed or the owners prosecuted unless they are seen running the game during the 6-month period.

Says Law Is Weak

"If we see a dog running game during that time," he said, "we can take care of the dog, all right. Unfortunately, we can't do much under the law unless we see the dog in actual pursuit of the game."

Probably More Victims

He also pointed out that if 7 deer have been found, the victims of dogs, it is difficult to say just how many deer have been killed in recent months by canines. Unless the slaying of deer by dogs can be halted, he added, there won't be many left in this area.

He made an appeal to dog owners throughout Frederick County to keep their dogs tied, especially in the mountainous sections where there are deer.

The warden said that all of the animals found slain were from the Frederick City watershed section and added that that district from now on will be heavily patrolled.

When you buy a new piece of clothing, it's a good idea to ask the retailer whether the article may be dry cleaned without injury.

HOMEMAKERS' CORNER

The informed leadership developed among rural women is one of the outstanding contributions of Maryland's home demonstration program.

Through active membership in Homemakers' Clubs, these women can explore their full potentialities. As the length of their service grows, they think in terms of what is best for the welfare of the community, rather than of the club. Then they carry on by themselves in church, school and welfare programs, using the skills and knowledge they learned in clubwork.

Another comparatively recent trend is that women are seeking homemaking in a new light. Realizing that it is a profession in its own right, they are beginning to appreciate the science of successful home management and family life.

The modern homemaker is extremely anxious to have at her disposal all the latest research findings in home economics that will help her perform her housekeeping most efficiently. With this in mind, the 1949 home demonstration program has been designed to put as much information as possible into her hands. Home economics and agricultural specialists, home demonstration agents and local volunteer specialists will cooperate to the fullest degree to make this material available to all.

The slogan "Today's Home Builds Tomorrow's World," which has been selected for National Home Demonstration Week (May 1-7) is truly significant. And it is reassuring to know that the Home of Today is being built with foresight, skilled labor, and superior materials.

Maryland Dairymen Using Milk Substitutes

Most Maryland dairymen are using milk substitutes or calf starter in their calf-feeding program.

This was shown recently by a survey of free state dairymen completed by specialists at the University of Maryland.

J. W. Pou, Extension, dairyman, reports that the study revealed the following facts: (1) 65 per cent of the dairymen had their calves completely off milk before the calves were eight weeks old, (2) 80 per cent of the dairymen were using either a milk substitute or a calf starter, or both, (3) 18 per cent of the dairymen were using whole milk alone, and (4) only two per cent were using skim milk to raise calves.

He recommended that all dairymen consider the use of milk substitutes or calf starters. "This is a more economical method of raising calves and experience has shown that it is an easy way to grow good calves," he states. "Raising of needed herd replacements is the surest way of improving the herd—both in production capacity and in herd health."

Junk Dealer Indicted

Louis Elsnor Barker, 35-year-old Baltimore junk dealer, has been indicted by a Baltimore grand jury on a charge of murdering 4-year-old Lawrence Darrell, whose body was found in a furniture van several weeks ago. Barker is also accused of making an immoral assault on the young boy.

The pig was used as a scavenger before it was used as food.

Teacher Colleges To Be Expanded

The State Board of Education will seek options on land for expansion of the Salisbury and Frostburg State Teachers' Colleges. The Board made that decision when it authorized expenditure of \$2,396,000 for construction at Maryland's four teachers' colleges. The sum had been allotted by the Legislature.

Glade Valley's the bread for you
It's "freshurized"—it's new!
It's enriched, it's nutritious—
And it's oh, so delicious

Send as many entries as you wish . . .

It's easy to win!

FOLLOW THESE SIMPLE RULES:

1. Finish the last line of the Glade Valley Jingle and mail your entries to: GLADE VALLEY JINGLE CONTEST, GLADE VALLEY BAKERY, Walkersville, Md.
2. Send as many entries as you wish (on entry blanks or plain paper). Each entry, however, must be accompanied by three new GLADE VALLEY BREAD wrappers. Use adequate postage.
3. The more entries you mail in, the more chances you have to win! You don't have to be a poet. You don't have to be a "braintrust." The 67 winners will be selected on the basis of sincerity and originality, by Leon S. Golnick and Associates, Baltimore, Md.
4. The judges' decisions are final; and all entries will become the property of the GLADE VALLEY BAKERY. Duplicate prizes will be awarded in case of ties.
5. Everyone in the GLADE VALLEY territory may enter the contest, except the employees of GLADE VALLEY BAKERY and their families.
6. All entries must be postmarked no later than May 28th, 1949.
7. All winners will be notified by mail, and announced in your local papers on Monday, June 27th, 1949.

Just finish the last line of this jingle . . .

Glade Valley's the bread for you
It's "freshurized"—it's new!
It's enriched, it's nutritious—

GLADE VALLEY BAKERY — WALKERSVILLE, MARYLAND

SHORT STORY Turkey In The Hay

By Dorothy Roseborough

CLETA BROWN was furious. For the third time Seth Jones had caught her turkeys in his alfalfa. Now he was acting as if she had driven them in.

Angrily, Seth ran across the field to head the turkeys from the newly flooded alfalfa. "Can't you keep those dang birds off my place?"

Cleta slapped her sunbonnet at the flustered turkeys. "Do you think I want 'em over here?" She snapped. "Get 'em off my place and dying from it, maybe! They're under the fence and in your place before I know it."

"Under the fence!" growled Seth. "They rise up and sail right over, the flyin' fools! Why don't you keep their wings clipped? Reckon you figger the more green feed your tom gets the better his chance to grab off first prize at the Fair."

Cleta flushed with anger. "That's a low-down remark!"

"Another thing," broke in Seth. "I don't want your tom with my flock. Keep your birds on your own place." He strode off to the irrigation ditch.

Cleta was proving up on her desert claim with a crop of milo-maize. The scattering grain made wonderful forage. But the field was some distance from her homestead and the turkeys had to be driven there every day.

Before they started fussing about the turkeys Seth looked at her a lot. Maybe she could make him look at her again with that warm eagerness in his eyes.

THE smell of autumn was in the air the morning Cleta rode into town to enter her tom for the show. Coming home she checked her horse to a walk as she passed Seth's place.

Then she saw the turkeys were in the alfalfa again, and she turned in at Seth's gate. No one answered her shout as she galloped by the house to the field.

Jumping off her horse, Cleta snatched at her sunbonnet and beat frantically at the fighting gobblers. "Get away, you devils!" Cleta panted. She drove them off and dropped on her knees beside the birds which had dropped bleeding. She watched the victorious gobbler strutting and drumming his wings as he rounded up the hens; the bronze hens, the new members of his harem. She knew for sure then, her bird had killed Seth's tom.

Cleta stood up. She saw Seth turning in at the gate, and as he hurried toward the field a hot triumph flooded through her. With Seth's gobbler out of the running her turkey would surely win.

But this would end everything, she told herself. Cleta knew she could not bear to keep on fighting with Seth.

"So you let 'em get in again," he stormed. "Anyone with a brain might know this would happen."

By heck! he exclaimed, "Blamed if I know which one it is!" He knelt and turned the gobbler over.

"Well, I know my own bird, even if you don't" Cleta retorted. "So now you can go ahead and win that prize money you're so het up about."

"Dunno as I was any more het up than you," Seth jeered, his hands still busy with the bird.

Seth looked from the dead bird to the swelling gobbling tom with the hens. He grinned. "Say, Cleta," he drawled in the old friendly teasing voice. "Why don't you take that bird of yours home? He's cutting up something scandalous round them windows."

Cleta reddened. "I tell you he's your bird," she insisted, moving toward her horse.

Seth caught her by the wrist. "Hey! Wait a minute! You know darn well that's your tom with my hens. But if you are honin' for proof—" He spread the dead turkey's wing. Clipped in the thin membrane Cleta saw a narrow registration band.

He was smiling, but Cleta saw that his eyes were intent and eager. "It doesn't matter now," she murmured. "It's just that I felt so terrible lonesome."

The percentage of insanity is greater among the unmarried than among the married, according to the Encyclopaedia Britannica.

Cleta slapped her sunbonnet at the flustered turkeys. "Do you think I want 'em over here?" she snapped.

By heck! he exclaimed, "Blamed if I know which one it is!" He knelt and turned the gobbler over.

HEIDELBERG WILL RACE BIG CARS UNDER AAA SUPERVISION

Back in Pennsylvania after presenting auto race programs in Virginia and New Jersey, Sam Nunis, president and general manager of Sam Nunis Speedways, said this week he will stage AAA big car auto racing events in both the eastern and western sections of the Keystone State during the month of May.

Nunis said he has big car speed presentations scheduled at the Reading Fairgrounds, Sunday, May 15, and at the new Heidelberg Raceway, near Pittsburgh, Sunday, May 22. Both race meets will feature many of the East's top drivers as well as several Indianapolis Speedway stars, Nunis said.

The races at Reading will be the second of the year, but the events at Heidelberg will officially open the banked half mile raceway for the current season. Moreover, the Heidelberg races will mark the first time in history that AAA-sanctioned speed events have been presented within 20 miles of Pittsburgh.

Because of the fact that all of the nation's top speed events, including the 500-mile race at Indianapolis, are presented under AAA sanction, the management at Heidelberg voted to install the AAA type of competition this year. Formerly, the events at Heidelberg were directed by a sanctioning body in the Midwest.

The Nunis organization is the largest single producer of AAA sanctioned auto races in the United States. More than 60 race meets are presented each season under the Nunis banner.

Nunis has announced that identical speed programs will be offered at Reading and Heidelberg. They will consist of time trials, four 10-lap heat races, a match race, and a 30-lap sweepstakes final. Under existing AAA rules, a field of 10 cars will be eligible to start the sweepstakes event.

SHUFF-TALTON Miss Margaret F. Talton, daughter of Mr. and Mrs. Ashley Talton, of Feagville, was married to James R. Shuff, son of Mr. and Mrs. James Shuff, of Thurmont, on Saturday, April 30, at 8 p. m. in the parsonage of the Thurmont Evangelical United Brethren Church. Rev. Ivan G. Naugle, pastor, officiated at the single ring ceremony.

The bride wore a navy blue suit with white accessories and a corsage of red roses and white snapdragons.

Miss Elsie Hurley, Thurmont, was maid of honor. She was attired in a pink suit with black accessories and a corsage of white snapdragons and yellow daisies. The bridegroom's mother was in a grey suit with black accessories and a corsage of red and white carnations.

Elmer Hurley, of Lantz, was best man.

The couple will make their residence temporarily with the bridegroom's parents. The bride attended school at New Midway and was formerly employed at the Frederick Tailoring Company. The bridegroom attended school at Catoctin Furnace and is now employed at the Late Meat Market, Thurmont.

New equipment, kitchen improvement and work simplification were the most popular home management subjects studied by homemakers in Maryland's home demonstration program in 1949.

EXPERTS GIVE VALUABLE INFORMATION ON CARE OF THE FEET

Isn't it true that most of us pay very little attention to our feet—until they begin to hurt?

Then suddenly we realize that our feet are very important to the enjoyment of work, play, and life generally.

As common as they are, most foot disabilities could be prevented with a little care and the observance of a few simple rules.

Proper care of the feet should begin in babyhood, especially when a child starts to walk.

His very first pair of shoes should fit comfortably and give him the support he needs.

The practice of getting good shoes that fit right and support the feet properly should be continued throughout life.

It isn't economy to buy ill-fitting shoes, because it can mean great expense, as well as pain, before "getting the feet back in shape" and often the damage can never be undone.

Feet should be bathed daily and hose changed often.

Changing shoes frequently also helps relieve fatigue and excessive perspiration of the feet.

Neglecting care of shoes and hose can cause trouble.

Run-over heels can throw the wearer off balance, place unnecessary strain on the feet and eventually cause faulty posture.

Wrinkles in hose or shoe linings can cause friction or pressure that creates painful blisters.

Immediate attention should be given to cuts, blisters, or skin eruptions of the feet.

Corns and callouses should be removed, but "home surgery" with a razor blade is dangerous.

The chiropodist is better qualified to remove them safely and thoroughly.

Toe nails should be cut straight across, not too short.

Rounding the nails invites "ingrown toenail," the growth of the nail into the flesh.

Painful feet may mean "fallen arches," the serious misplacement of bones and muscles that serve as main supports of the foot and therefore of the body.

You should go to your doctor at the first sign of painful arches.

He can give you sound advice on your foot trouble or will refer you to a specialist for the treatment of such condition.

While swollen feet can come from continuous standing or from walking in tight shoes, the condition can also be sign of serious illness, such as heart disease or kidney trouble.

When feet swell painfully for no apparent reason, it is best to see a doctor at once.

FIELD DAY PLANNED

A project similar to the Conservation Field Day transformation at the Thrasher Farm, near Jefferson, last August 18, will be held on the Richard Eyler Farm, near Chambersburg, Pa., on May 16-17. It will be known as "operation facelift." The farm is located along Route 333 near Chambersburg. A church and cemetery are located across the road from the farmhouse.

LOOKING AT RELIGION

By DON MOORE

Radio Merry-go-round

By JOSEPH MARTIN

SINCE the tremendous popularization of FM, which means frequency modulation, the taste of the American public for fine music has become and is still becoming more widespread than ever was dreamed.

The association of FM with fine music, is not at all limited to the initials F and M. The real reason why thousands are new converts to serious music is the FM, an independently operated station in Baltimore, dedicated to fine music, revealed that the audience potential in the metropolitan area of Baltimore is in excess of 70,000. These set owners are freed of interference caused by trolley line switches, spark-plug put-putting, of passing trucks, the buzzing of physicians' x-ray and diathermy machines, electric razor hums, sewing machine switches, and all the other bugaboos of standard radio.

Since July 1947 a prodigious increase in public demands for fine music have all but overwhelmed radio—with the consequence that away broadcasts, these are available to receivers with the FM, has increased at an astonishing pace, despite the dramatic appeal of television. In Maryland alone, mission, or are planning to install there are perhaps three hundred it soon. The next to use it will be thousand listeners who own WCBM. While WBAL, the outlet radios with FM, or FM tuners at- for NBC does not have FM. Its pro- tached to their regular receiving grams are audible from WRC-FM sets. A great many of these are from Washington. In addition farmers, who, in the remote areas WMAR, WFBR, WCAO and WITH ar, bothered by natural static and all have FM All the managements storms and whose reception is realize that FM is the ultimate, spotty and unsatisfactory unless, a d are thus prepared.

Also included in the program is an address by former Department Commander James J. McGuirk, of Baltimore. All members are invited to attend at 2:00 p. m.

MT. ST. MARY'S FRESHMAN GLEE CLUB TO CONCERT

On May 19, at 8:30 p. m. a concert will be given by the Freshman Glee Club of Mount St. Mary's College in the Mount gymnasium. A special feature of the evening will be a contralto singer, Mrs. Mae O'Keefe, of Baltimore.

The Rev. Peter A. Coad is moderator for the group and Rev. David W. Shaum, of St. Vincent's, Baltimore, is music director of the Glee Club.

The public is cordially invited to the affair.

VFW to Celebrate V-E Day in Frederick

BALTIMORE, May 13—State-wide representatives of the Veterans of Foreign Wars, overseas veterans organization, will celebrate the fourth anniversary of V-E (Victory in Europe) Day in regular monthly Council of Administration meeting of the VFW to be held in Frederick, on Sunday, May 8.

Maryland Department Commander George E. Ridenour, of Hagerstown, will preside over the session, held in Frederick at the invitation of John R. Webb Post No. 3285.

The V-E ceremonies will be a part of a national observance of the day, as requested by Lyall T. Beggs, of Madison, Wis., National Commander.

Gay Parades Will Mark Annapolis Celebration

Agriculture, Water Resources, Military and Naval Life to be featured

Annapolis, Md.—Gay colors and merry airs will brighten historic Annapolis in colonial-style parades during Tercentenary week.

"There's nothing like a parade to bring out the crowds," says Mrs. Henry M. Robert, Jr., executive director of the Annapolis Tercentenary Commission. "We have arranged three—two by land and one by water."

The parades have been set for successive days in Tercentenary Week, which runs from May 20 to May 27. A County Day Parade on Tuesday, May 24, will pay tribute to Anne Arundel County, itself less than a year younger than the city which is marking the start of its fourth century on the shores of Chesapeake Bay. Mrs. Roberts says, "Oldsters and youngsters have caught the spirit of the occasion and have their hearts set on making Anne Arundel a by-word of the day."

Members of school safety patrols will make up a special unit in the county parade. Some lucky pupils will hop aboard a decorated school bus that, for once, won't be headed for school. These passengers will help the Anne Arundel School Bus Association demonstrate the old and the new way of getting to class. Other boys and girls will march on foot by way of contrast.

Volunteer county fire departments have entered an ancient engine which dates back to 1774, when water was pumped by muscle-power instead of machinery. The old pump saw a useful career in a local firehouse, eventually was retired to the University of Maryland and now is being brought out of storage to take part in the parade. Caparisoned trick horses, comedy teams, and other "surprises" have been promised by professionals for the parade honoring Anne Arundel County.

Organizations Day follows on Wednesday, May 25, when civic and fraternal groups will stage the second Tercentenary parade. Drums in an Army band from Fort Meade will sound the martial rhythm for members of leading Annapolis clubs and institutions. Some of the city's most prominent citizens are among those who have promised to appear in powdered wigs, knee breeches and buckled shoes of their forebears.

National Guardsmen will enhance the martial atmosphere of the Or-

One of the Princess Anne's pages tries an old high wheeler to be featured in the County Day Parade.

organization Day Parade, and the Naval Academy has promised a contingent of Bluejackets and Marines. An armored unit from Fort Meade will bring a dozen armored cars. The trim blue uniforms of midshipmen, who by chance are due to finish the last of their 1949 examinations just before the parade begins at four, are expected to mingle with the crowd.

Water parades round out the processional program on Thursday, May 26.

Yacht clubs up and down Chesapeake Bay have been invited to enter their proudest craft in the Tercentenary competition for water parade prizes: For the most unique vessel, the best decorated boat and the entry that adds most to the entertainment value of the boat parade. After small craft races on the Severn in the afternoon, the marine parade will skirt the city's water-front by night from the Severn River bridge on the west to the Annapolis Yacht Club on the east.

A fireworks display in the harbor will climax the festivities of "Severn and Chesapeake Day."

LOCAL SOLDIER STATIONED IN THE RYUKYUS

Private Joseph A. Knott, son of Mr. and Mrs. Austin J. Knott, of Thurmont, is stationed in Okinawa with the Army of Occupation and is assigned to the Sixty-Fifth Harbor Craft Co. His wife, Dora, resides in Emmitsburg.

Private Knott arrived in Okinawa for a tour of overseas duty in December.

A former student at Emmitsburg High School, Private Knott enlisted in the Army last September for a period of three years.

MARYLAND FEED & GRAIN MARKETS

GRAIN
Summary For Maryland

In Baltimore, wheat took a sharp drop to as much as 6 cents per bushel on April 29. Offerings were still light. Corn offerings were liberal and declined about 2 cents on the same day and soybeans were also down.

Hay market declined up to \$3 per ton in view of liberal offerings and a light demand brought about by good early pastures.

National Summary

Grain markets turned weaker during the week ended April 28, and prices made moderate to sharp declines. Remaining large supplies of most grains, smaller commodity credit corporation purchases, continued favorable prospects for the new crop were weakening influences in the wheat market. Winter wheat declined 2 to 3 cents and spring wheat about 5 cents per bushel in the cash markets. Rye was down 4 cents per bushel, following the decline in the Canadian markets. Increased offerings of feed grains with some slackening demand resulted in declines of as much as 6 cents a bushel in corn prices at some markets. Oats were 2 to 4 cents per bushel lower and barley was down 10 cents per bushel at Kansas City. Grain sorghums dropped 5 to 10 cents per hundred pounds. The soybean market was quiet, and prices were about 3 cents per bushel lower than a week earlier. No. 2 yellow soybeans were quoted at Chicago on April 28 at \$2.25, and bids for No. 2 yellow, truck County Points, Ill., and Indiana were \$2.14 per bushel.

FEED MARKET

Summary for Maryland

Following the national pattern, sharp drop in wheat millfeeds prices at both the wholesale level and the retail level was the outstanding feature in the feed market in Baltimore for the week ending April 29. At the retail level standard bran was off \$4.80 and standard middlings were down \$5.40 compared with a week ago. At retail 50% meat scrap reflected an increase of \$7.15 which was higher than the increase at the wholesale level but

previous wholesale increases have been slow to be reflected at retail. Distillers' dried grains at retail were up \$2.30 per ton for the only other significant increase or decrease.

National Summary

A sharp drop in wheat millfeed prices to a more nearly normal relationship with other feeds was the outstanding feature in the feed market during the week ended April 26. Lower grain prices, improved pasturage and a material slackening in demand following the sharp price gains of recent weeks were principally responsible for a decline in millfeeds. While the lower prices of bran and middlings had a weakening influence on the market for other feeds, declines were relatively small. Corn feeds were unchanged to about \$1 per ton more. Oilseed meals were steady to 50 cents per ton under a week ago. The principal feedgrains declined about \$1.00-2.50 per ton. The index of feedstuff prices dropped nearly 8 points, to 227.3, reflecting principally the decline of \$5.00-6.00 per ton on the wheat millfeeds. The feed grain index was down about 3½ points, to 194.7. The greatest decline was in oats, which were about \$2.50 per ton lower than a week earlier.

Plentiful supplies of feed grains at prices relatively lower than feedstuffs have tended to shift demand to feed grains. Supplies of feed grains at the first of April were estimated at nearly 65½ million tons compared with 34½ million tons at the first of April a year ago. The disappearance of corn, oats, and barley January through March this season was a little over 29½ million tons compared with a little over 26 million tons during the corresponding months last season. Corn and grain sorghums are relatively lower priced than other feed grains, being 192 and 199 per cent, respectively, of the 1935-39 average. Barley prices are about 200 per cent of the prewar average, while oats at an average of \$47 per ton at central-western markets are about 211 per cent of the 1935-39 average.

ARMY, QUARTERMASTER BUYS
\$31,000,000 PER MONTH
FROM FARMERS' MARKET

When Uncle Sam goes to market to supply the Armed Forces with fresh foods he is the American farmer's best customer. During the past year his purchases averaged \$31,000,000 a month.

Known as the Market Center System and operated by the Army Quartermaster Corps, this organization purchases, ships, stores, and supplies virtually all the perishable subsistence required by the Army, Air Force, Navy, and Marine Corps. In addition to the regular Armed Forces, the Market Center System supplies perishable foods for National Guard organizations while they are in camp, as well as for certain civilians who are entitled to buy from Army commissaries, and for use in the Greek aid program.

The Army defines perishable foods as those requiring refrigeration in shipment and storage. They include fresh meats, vegetables, fruits, fish and other water foods, dairy products, and frozen fruits and vegetables. Nearly 100 different kinds of food items aggregating about 150,000,000 pounds a month are regularly supplied.

The purchases from all over the United States are made on the spot for specified amounts and at quoted prices. Payments are made promptly. And although savings to the taxpayers run high into the millions of dollars per year through this unification of purchases as compared with the local buying by all of the military services in competition with each other and without uniform standards, such as prevailed before the recent war, supplies are benefited by knowing the quantities and qualities desired, by greatly reduced rejections, and by the opportunity offered all who are interested to offer their products.

There are now ten Market Centers. They are situated at Columbia, South Carolina; Denver, Colorado; Fort Worth, Texas; San Francisco and Los Angeles, California; New Orleans, Louisiana; New York, New York; Richmond and Williamsburg, Virginia; and Seattle, Washington. Williamsburg is also the port for European shipments.

Direct contact with companies and individuals who have products for sale is maintained by a crew of field buyers who operate all over the country working out of their field offices. These are the experts who know fresh foods, who have specialized in certain lines, and who work face to face with the producers and those who have them for sale. The field offices are in Boston, Massachusetts; Washington, D. C.; Jacksonville and Miami, Florida; Kansas City, Kansas; Idaho Falls, Idaho; San Diego and El Centro, California, and Mobile, Alabama.

DEEDS RECORDED

Mr. and Mrs. Marshall E. Fishpaw have sold to Mr. and Mrs. John B. Joy a parcel of land with buildings and improvements in Rocky Ridge, which is part of the tract called "Schroyer's Blessing." Consideration as indicated by revenue stamps on the deed filed in the office of the Clerk of the Court, is about \$17,000.

Two properties on the north side of E. Main St., Thurmont, are conveyed from Charles M. and Lottie M. Mackley and Lloyd C. Mackley and Ruth H. Mackley to Guy T. Frushour. Revenue stamps show the price to be approximately \$12,000.

ANNOUNCE RURAL WOMEN'S
ANNUAL SHORT COURSE

Announcement of the twenty-sixth annual Rural Women's Short Course has been made by Miss Venia M. Kellar, assistant director of the Maryland Extension Service. The 1949 "college week for women," highlighting the year for hundreds of homemakers in the state, will be held June 13-18 at the University of Maryland.

The Vandals conquered Spain in an invasion starting in 409.

DRAFT STILL IN EFFECT
DIRECTOR WARNS

Colonel Henry C. Stanwood, Selective Service Director for Maryland, said today that:

"The Selective Service Act of 1948, which is still in effect, requires men becoming 18 years of age to register within five days of the 18th anniversary of the day of their birth. Failure to register can bring a \$10,000 fine and five years' imprisonment, or both."

Baltimore City men reaching 18 years of age will be registered at the office of the Baltimore City Local Board Group located on the second floor of 400 E. Lombard Street.

Other county men reaching 18 years of age will be registered at the local board in their respective counties.

Colonel Stanwood stated further that:

"It is a requirement of the Selective Service Act of 1948 that every registrant shall keep his local board informed as to change of status, including change of address. This applies to registrants who have reached the age of 26 as well as all others."

Lou Boudreau, shortstop-manager of the Cleveland Indians, enters the '49 diamond season with a lifetime batting mark of .299 over 10 seasons.

ROCKY RIDGE NEWS

By MRS. JOHN KAAS
(Rocky Ridge Correspondent)

Mrs. Guy Boller spent Sunday in Hagerstown with her sister-in-law and brother, Mr. and Mrs. Frank Welty.

Mrs. Marvin Stambaugh and Mrs. John Kaas attended the regional conference of the Women's Guild of the Evangelical and Reformed Church held in Middletown last Wednesday.

Mrs. Elwood Riffle and infant daughter, Susan Elaine, were discharged from Frederick Memorial Hospital on Saturday.

Miss Cotta Valentine spent Monday in Hagerstown with Mr. and Mrs. Clyde Kale and family.

Mrs. Oscar Saylor visited on Sunday at the home of Mrs. Minnie Renner and Mr. and Mrs. John Kaas.

A large crowd of local people and those from a distance great-

ly enjoyed the concert presented by the Bridgewater College Glee Club on Sunday at the Church of the Brethren.

Mr. and Mrs. John Kaas made a business trip to Gettysburg on Friday.

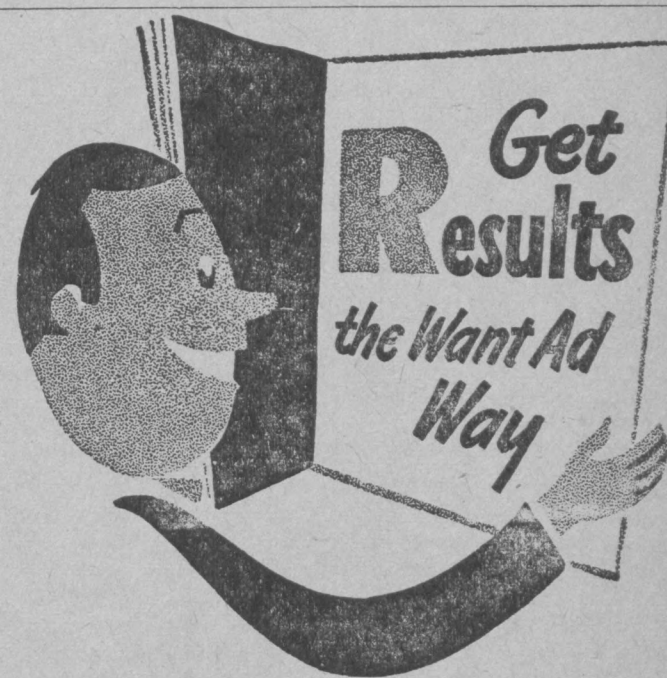

Mr. and Mrs. Marshall Fishpaw have sold their residence and store building combined, to Mr. and Mrs. John B. Joy, of near Woodsboro.

Mr. and Mrs. James Welty, Mrs. John Shorb and daughter, Virginia, visited at the home of Mr. and Mrs. William Welty and Mr. and Mrs. John Hahn on Sunday.

A pond, having the capacity of a million gallons of water, has been constructed along the DeTour road. It will be used mainly for fire protection and will also be utilized for fishing and swimming by the local people.

Your home demonstration agent can give you many helpful suggestions for making children's clothes.

Moslem troops from North Africa landed at Gibraltar in 711, and established power in Spain which lasted until 1492.

ABNER E. FOGLE

Abner Eugene Fogle, a farmer of near Woodsboro, died suddenly early Friday morning of a heart attack at his home. He was aged 81 years.

He was a son of the late Thomas and Lydia Ann Fox Fogle, of Woodsboro.

Survivors include his wife, Mrs. Emma C. Fox Fogle and these children: Mrs. Ray Daugherty, Thurmont; Calvin Fogle, at home; Austin Fogle, Woodsboro; Chester Fogle, Thurmont; Mrs. Evelyn Curry, at home; Mrs. Wilbur Cecil, Mariottsville; Mrs. William Fisher, LeGore; Max Fogle, Woodsboro; Glenn H. Fogle, Parkersville. Thirty-four grandchildren and two great grandchildren also survive.

Services were held Monday morning at 10:30 o'clock in charge of Rev. Raymond C. Myers. Interment in Mt. Hope Cemetery, Woodsboro. M. L. Creager and Son, funeral directors.

Now is a good time to take an inventory of spring and summer clothes for the whole family. The needed alterations can be made and plans drawn for adding to present wardrobes.

LITTLE REGGIE

By Margarita

MUTT AND JEFF

By Bud Fisher

MARYLAND HOME FRONT

Activities of the Production and Marketing Administration program were described this week by Joseph H. Blandford, chairman of the Maryland PMA State Committee, in terms of three steps—(1) the stock-piling of food and fiber for the occasional years of reduced production and to meet emergencies, (2) increased use of "curative" type of conservation practices to check soil and water erosion, and (3) the shift of land from unneeded production to the production of needed crops.

"We accomplish the stock-piling by the loan and purchase agreement programs," he explained. "Maryland farmers have put 526,552 bushels of wheat and 133,862 bushels of corn in these programs this year. This has the effect of keeping surpluses of these crops off the market at a time when they are not needed and saving them for a time they can be put to use."

In listing the practices which the Triple-A program encourages farmers to adopt through the use of assistance payments, he mentioned the application of lime, superphosphate, and potash; construction of diversion terraces; pasture improvement; strip cropping; woodland management; tree planting; drainage, and similar conservation measures. He urged all farmers to get in touch with their local Triple-A office to get full information about the 1949 program rates of payment, and deadline dates.

"Overproduction of some crops has forced the PMA into programs designed to shift production from one crop to another," he states. "For instance, if production of crops such as wheat becomes so great that too-ample supplies are on the market, the Secretary of Agriculture may be forced to call for a referendum of growers on a program of control acreage."

"These three features are the most important phases of the Agricultural Conservation Program," he concluded. "It provides for budgeting the use of land so that it is most effective in meeting current and future needs and for conserving our soil and water resources through conservation practices geared to balanced production."

Brannan Invited to Meeting

Charles F. Brannan, Secretary of Agriculture, has been invited to attend a State-wide meeting of community committeemen, county committeemen, chief clerks, field staff, and State officials of the Maryland Production and Marketing Administration. This was announced by Mr. Blandford.

The meeting, which is called by Mr. Blandford, will be held in Baltimore during the latter part of May—the exact dates to be announced in the near future.

"A two-day session is planned with a banquet at which Secretary Brannan would speak if he accepts the invitation," Mr. Blandford said. "We are also inviting other U. S. Department of Agriculture officials and representatives of other agencies in Maryland."

Tentative arrangements for the two-day session include plans to discuss the new farm plan suggested by the Secretary of Agriculture, Maryland's Greener Pastures Contest, the Agricultural Outlook for Maryland, and similar topics of interest to the farmers serving in the State-wide program. Specialists at the University of Maryland will be asked to discuss various topics in their respective fields.

County Exceeds Red Cross Quota

Frederick City and County exceeded by over \$6,000 its quota in the annual American Red Cross drive fund, Charles U. Price, general chairman, announced recently at the quarterly meeting of the Frederick County Chapter.

Collections totaled \$16,626.22 and the goal was \$10,000. In over subscribing its 1949 goal Frederick carries out the tradition of past years which has brought generous contributions above quota to the Red Cross.

The peel of an orange, like the pulp and juice, contains vitamin C. Add slivers or gratings of peel to sauces, spreads, and desserts to give orange flavor and some extra Vitamin C. Candied orange peel is not-to-be-forgotten old-time favorite confection.

Substitutes For DDT Found Useful During Summer Months

Recent changes in recommendations on use of DDT should not prevent Maryland farmers from controlling flies this summer. It was announced this week that other chemicals are available and are equal to DDT in their fly-killing ability.

This announcement was brought about by the ruling of the Bureau of Entomology and Plant Quarantine, U. S. Department of Agriculture, with the concurrence of the Food and Drugs Administration, that no tolerance of DDT or similar chemicals would be allowable in milk or meat. Because of this, Dr. Cory, head of the entomology department at the University of Maryland, stated "any Maryland farmer using DDT, chlordane, toxaphene, benzenehexachloride, or any other chlorinated hydrocarbon insecticide except methoxychlor must do so at his own risk. The University is not recommending the listed insecticides except on plants not to be used as forage."

Methoxychlor Recommended

The chemical now being recommended is methoxychlor, also known as "Marlate 50" and "Methoxychlor 50." It is available for spraying dairy barns, dairy cattle, and animals soon to be slaughtered. The 50 per cent wettable powder is used at the rate of 16 pounds to 100 gallons of water to make a one per cent spray.

Other materials are suitable for space spraying which is that type of spraying that creates a fog or mist of such fine particles that they remain suspended in the air for considerable periods. Insects get a killing dose as they fly through the mist. For this purpose there are several pyrethrum sprays on the market that are remarkably effective. They also may be directly applied to domestic animals and buildings. Two of these sprays, known as "Pyrene" and "Pyrexcel 20" have materials added which increase the killing and residual effects.

Pyrene should be used one gallon to nine gallons of water. This dilute spray will cover approximately 750 sq. ft. of surface per gallon and should be effective against flies for 14 weeks. For horn flies on stock it should be diluted one gallon to 39 gallons of water and will be effective 8-14 days. For stable flies (biting flies or dog flies) on animals it should be diluted one to nine as for barn spraying and will be effective for three to eight days.

The county agent in each county has been furnished with complete information by Dr. Cory and can advise farmers on fly control programs.

Oyster Census Undertaken

An intensive survey of a Chesapeake Bay oyster bar—a "pinpoint" study of bivalves on a cradle-to-grave basis—has been undertaken by the State Tidewater Fisheries Commission. An oyster census will show distribution by acre and by age groups. Results will be compared with a 1950 census to show how many oysters were born, how many were caught, how many the state would have to plant to maintain a stable population.

Mother Of The Year

Mrs. H. Ross Coppage, of Baltimore, 63-year-old grandmother and veteran crusader for better schools, has been named Maryland's "mother of the year" for 1949. Mrs. Coppage is a former president of the Maryland Parent-Teachers' Assn. and is a member of the Maryland State School Survey Commission.

HEALTH COLUMN

"This week marks the 75th anniversary of the Maryland State Board of Health," according to an announcement just made by Dr. R. H. Riley, director of health and ex-officio chairman of the board. "On May 6, 1874, a state board of health, appointed by the General Assembly during the Legislative Session of that year held its first official meeting in the Baltimore office of Dr. Nathan R. Smith, the member who was then elected president."

"Maryland was the 6th state to organize a board of health. In 1869 Massachusetts had been the first to take such action—followed by California in 1870, Minnesota and Virginia in 1872 and Michigan in 1873."

"Epidemics of yellow fever, cholera, malaria and typhoid fever had contributed to a growing awareness of the need for preventive measures. Increased speed of communication during the nineteenth century had facilitated the spread of diseases and had also made it possible for newspapers in places remote from the actual scene of an epidemic to print current accounts that kept their readers informed of its progress. Physicians of this period prior to the discovery of disease-causing organisms attempted, often quite successfully, to explain the nature of these diseases and their manner of transmission."

"When Maryland took the forward-looking step of organizing its state board of health, the principal purposes were prevention and control of epidemics of malaria and typhoid fever, the improvement of poor sanitary conditions and the reporting of deaths. Bacteriological discoveries, notably those of Pasteur and Koch, and chemical advances later resulted in the application of newer scientific knowledge to public health. In 1922 the State Department of Health entered the field of personal hygiene with the provision of educational and preventive services for expectant mothers. The dental program, school health work and concern for industrial health problems followed. Curative services were included in the public health program in 1945, when the medical care program was inaugurated, and have been expanded to include the admin-

Research Work Shows Good Nutrition Adds Zest and Vitality

CHICAGO, May 5—How to look young and feel younger received a few significant glances from science today.

It came about through research supported by the National Dairy Council and the American Dairy Assn., Chicago, on nutritional requirements of persons growing older.

It puts its finger on good nutrition as one of the most important factors in adding more zest and vitality as well as years to life, and recommended to the 50 million adults, 45 years and older in the United States, that they regularly consume liberal amounts of milk and its products. This is essential, because, according to study, persons growing old need proteins for body tissue building as much as younger persons.

Science also spoke wisely for the calcium needs of persons growing older. It said milk and its products are the only foods that can supply enough calcium in daily meals. A glass of milk at each meal with frequent servings of cheese and ice cream will do the trick. An inadequate calcium diet shows up around the age of 50 and may lead to broken bones and the familiar stooped shoulders.

The study showed up that persons in good health, despite age, consumed more milk and its products, ate more fruit and vegetables, whole grain cereals and eggs than those in poor health.

The study is being carried on at Michigan State College under the direction of Dr. Margaret Ohlson, head of the department of foods and nutrition in the School of Home Economics.

Some of the new fabrics and trimmings are damaged by dry cleaning processes and it's heart-breaking to have a pretty dress or coat spoiled the first time it's cleaned. So, be careful.

When eggs are to be cooked in the shell it is best to take them out of the refrigerator ahead of time to keep them from cracking when heated.

istration of chronic disease hospitals and state tuberculosis sanatoria. The state's public health program has grown and developed in accordance with general progress in the field, and in some instances we have set the pace."

GUY BAKER DIRECTS BLUE RIDGE CONFERENCE

The regular monthly meeting of the Blue Ridge Conference of the Catholic Students Mission Crusade was held at St. John's High School in Frederick. Vice President Guy Baker directed the meeting in the absence of the president, Father Dausch, moderator of the unit, opened the meeting with a prayer.

Patricia Dunham, secretary, read the minutes of the previous meeting and called the roll, with the following units present: St. John's of Westminster; St. Joseph's High of Emmitsburg; St. Mary's, Hagerstown and St. John's, Frederick. The treasurer, Pat Jasper, reported the balance on hand. Various spiritual and financial reports were given by the individual units.

The vice president read a letter from the secretary of the Veterans' Unit. It cordially invited all Juniors and Seniors of each school to attend a picnic to be held on Sunday, June 5. The site is Gambrill State Park.

Each unit presented a speaker to discuss Father Keller's book, "You Can Change the World." They thoroughly covered the work of the Christopher movement in government, education, labor and communication. The speakers were Richard Topper, St. Joseph's; Ann Grove, St. John's, Frederick; Raymond McCain, St. Mary's and William Lyons, St. John's, Westminster. Father Dausch spoke briefly on the purpose of the Christophers in general, and assigned a topic for discussion at the next meeting. Different units were given separate views on the "Boston College Incident."

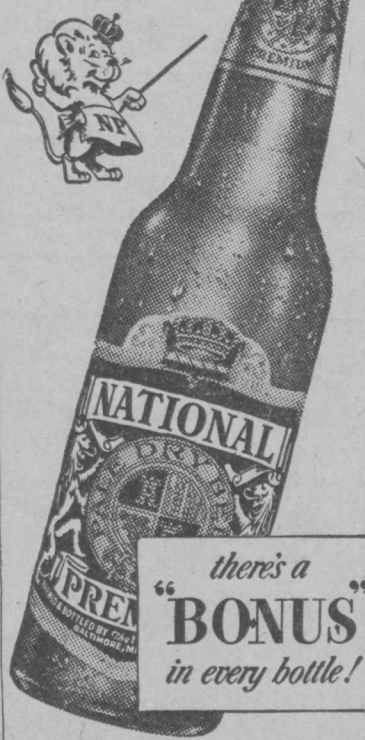

The site for next month's meeting was not definitely determined, but the probable place is Mt. St. Mary's College Seminary. The meeting is set for the third Thursday of May.

Benediction was given in St. John's Church and refreshments were served by members of St. John's student body.

A sponge was carried by Roman soldiers as a drinking vessel.

Officer Candidate School Designed for College Students

One of the newest co-educational schools in the United States pays young men and women to attend and provides them meals, clothing, living quarters, and athletic and recreational facilities. When the students are graduated in six months their salary is doubled and they immediately are placed in junior executive positions leading to rewarding careers in aviation.

This is the program of the Officer Candidate School of the United States Air Force at Lackland Air Base, near San Antonio, Texas. An Air Force officer team will interview prospective candidates at the Hagerstown Recruiting Office.

Air Force officer candidate training is designed for college students when they finish their academic schooling.

To be eligible, men and women must be between the ages of 20½ and 26½, with high physical and moral qualifications, and must have a minimum of two years in college or the ability to pass an equivalent examination. A college degree, the recruiting department

says, is highly desirable for those looking forward to top positions. The six months of officer training combines administrative and leadership instruction. Classes vary from lectures on atomic energy to practice in public speaking. Physical training is an important part of the program, with excellent athletic and recreational facilities provided.

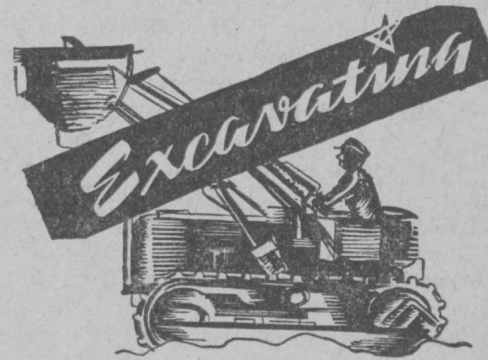

Candidates are not required to have prior military service. They go indirectly to officer training. If for any reason they fail to complete the course they return to civilian life.

Graduates receive reserve commissions as second lieutenants in the U. S. Air Force; they then are assigned to junior executive positions in the Air Force in such fields as communications, personnel, management, research, supply, intelligence and air transport.

During their three years of active duty, the young lieutenants have good opportunity to earn regular commissions. They also are eligible to attend advanced specialist schools open to officers

ADAMSTOWN WOMAN

SPEAKS AT CLUB MEETING

The Emmitsburg Homemakers' Club held its regular meeting last Thursday afternoon in the Firemen's Hall. Thirteen members were present. In the absence of the president, Mrs. Morris Zentz, Mrs. Edwin Chrismer presided.

An interesting talk was given by Mrs. Jean Thomas of Adamstown. She chose as her subject "Sugar Loaf Mountain."

Demonstration of ironing was presented by Miss Miriam Leiter, County Home Demonstration Agent.

It was announced that the next afternoon of games will be held at the home of Mrs. Morris Zentz on Thursday, May 12.

HARBAUGH—SPEAK

Miss Georgia Irene Speak, daughter of Mr. and Mrs. Roy W. Speak, Rt. 1, Thurmont, became the bride of John Elmer Harbaugh, New Midway, last Saturday evening at eight o'clock in St. Paul's Lutheran Church, Walkersville. The ceremony was performed by the bride's pastor, Rev. E. Koontz Helwig.

The couple were attended by Roy W. Speak Jr., brother of the bride, and Miss Esther Albaugh, Taneytown. The bride wore a light blue dress with navy accessories and a corsage of red rose buds. Miss Albaugh wore a gray suit with gray accessories and a corsage of white rose buds.

Mr. and Mrs. Harbaugh will reside in New Midway.

Seemed That Way

A MAN got off the train after a cross-country trip, went to a hotel and virtually fell into bed. The hotel was situated near a railroad yard, and all night long the freight engines shunted freight cars around — crashing and banging. Whistles and bells sounded nearly all night. The man fought the noise until about 6 a. m., then reached for the phone and yelled for the clerk. "For goodness sake," he inquired wearily, "what time does this hotel get to Chicago?"

NO PLACE TO START

The Newlyweds were giving their first turkey dinner. Since her husband was a novice at carving Mrs. Newlywed insisted on his learning to carve from her new cook book, lest he display his ignorance before the guests.

The turkey later was placed before the inexperienced host, who was plainly at a loss to know how to begin.

"Go on, dear, carve it. You know exactly how to do it," whispered the loyal young wife.

"Of course I do, but I can't find any of the dotted lines," came back the troubled answer.

Tell-Tale Evidence

A young man at college sent his laundry home, and when his mother opened it she nearly wept — his handkerchiefs were all tinged with lipstick.

"Oh, Mother, be sensible," her daughter commiserated; "you couldn't expect him to go forever without having a girl."

"I know," fretted the mother; "but look, there's a different color on every handkerchief."

R. and C. Liquors Appeal For License; Hearing May 27

The application of Richard H. Rosensteel and Louis Cooper, trading as R. and C. Liquors, Emmitsburg, for a Class A off-sale license to sell beer, wine and liquor in Emmitsburg District was reopened Wednesday when augmented counsel for the applicants filed a petition for further hearing with License Commissioner G. Cleveland Trout.

Acting promptly on the application filed by Benjamin B. Rosenstock, William M. Storm and Alton Y. Bennett, Mr. Trout set a hearing at 10:30 at the Court House on May 27 to take additional testimony on behalf of the applicants.

Last week the Commissioner ruled that there was no need for the additional Class A license in Emmitsburg to meet the needs of the public. He also held that the population of the District was not great enough to grant a third Class A license in this District.

Residents of Emmitsburg, represented by E. Austin James, protested the granting of the license. Mr. Rosenstock represented the applicants. He was joined Wednesday by Messrs. Storm and Bennett in the petition for an additional hearing.

Attorneys for the applicants said additional evidence can be adduced to show that another license is needed in the District for the accommodation of the public. Mr. Trout had held that no evidence was submitted at the earlier hearing to show that another license was needed to accommodate the public.

T. West Claggett Jr., counsel to the Commissioner, said yesterday that additional testimony will be confined largely to showing whether another Class A license is needed to accommodate the public here.

Considerable interest was aroused in Emmitsburg by the filing of the original application and about fifteen residents joined in protesting the granting of the license.

Local Youth Signs Guilty Plea To Filling Station Robbery

A Maryland youth sought for nearly a year in connection with the burglary of the Hunt Avenue Service Station on the Baltimore pike, Gettysburg, was arrested recently by State Policeman James Walsh of the Gettysburg, Pa., substation, signed a plea of guilty before Justice of the Peace John H. Basehore and was held for court. He was committed to jail.

Squire Basehore gave his name as Elmer Cregger, Emmitsburg Rd. In addition to a charge of burglary and larceny in connection with the Cumberland Twp. burglary, Cregger was also wanted by borough police on a burglary charge for breaking into the Reel Tire Service Station on Buford Ave., Gettysburg. He pleaded guilty before Squire Basehore on this charge and was held for court.

The Hunt Ave. Service Station was burglarized on June 16, 1948, according to the records. Cregger admitted, authorities said, to taking nine used batteries, a radiator core, \$4 in nickels and a .38 caliber revolver, with a total value of \$60.

The tire shop on Buford Ave. was entered on Aug. 10. A 16-year-old Maryland boy was caught and turned over to juvenile court. Cregger escaped.

COLLEGE ALUMNAE WILL HOLD CARD PARTY

The recently organized Emmitsburg Chapter of the St. Joseph's Alumnae will hold a benefit card party May 10 in the auditorium of St. Joseph's High School, DePaul St.

The affair begins at 8:00 p. m. Prizes will be awarded the winners and refreshments will be served.

A special feature of the affair will be a \$5 door prize. This is the first activity of the recently reorganized group.

The officers elected at the April 7th meeting in the Green Room of the College were Mrs. John A. Trezieski, Regent; Mrs. Bernard J. Eckenrode, Vice Regent; Miss Adele Topper, treasurer, and Miss Mary Louise Calahan, secretary.

RACING SCENE SHIFTS TO PIMLICO TODAY

The last lap of Maryland's mile-track racing swings into the final turn this week.

Pimlico will begin its eight-day session today. Post-time has been set at 2:15 p. m. for the first race.

Heading today's card will be the running of the Jervis Steeplechase Handicap. In addition to this jumping event, the Belvedere Avenue Course will offer a stake-a-day at its eight-day spring meet.

On Saturday the Maryland Jockey Club will present the \$25,000 Dixie Handicap which has drawn 19 nominees, including the Calumet Comet, Coaltown.

The Preakness, of course, will be run next Saturday, May 14.
