Williams Grove Raceway Readies

Officials for the 1950 AAA big car auto racing season at the Williams Grove Speedway, with the inaugural race set for April 16, were announced today by the owner, Roy Richwine.

The race will mark one of the few in this section prior to the running of the Indianapolis classic on Memorial Day, and Richwine hopes to bring in at least five or six stars of the "500," including last year's winner, Bill Holland, of Miami, Fla. for the opening race at Williams Grove.

The following officials were named by Richwine for the season:

Official AAA Contest Board, L. Holland, president of the American Automobile Association; Art Herrington, Indianapolis, chairman, and J. H. Lamb, Wash., D. C., secretary of the AAA Contest Board.

Race officials—M. C. "Shorty" Pritzbur, Philadelphia, AAA Zone Representative; Austin Shay, Lebanon, starter; George Deitrich, Lancaster, timer; Firman Lawshe, Trenton, N. J., track steward and Winton Davidson, Phila., technical chairman.

Operative staff—J. L. Passmore, Harrisburg, judge; James Lytle, Harrisburg, referee; Pat Brooke, Dallas, Tex., chief announcer; Carl Sweigart, Lebanon, announcer; Reuben Hoover, Harrisburg, sound; Frank Smith, Paterson, N. J., official photographer; Dr. H. S. Berberian, Lancaster, physician in charge; Arthur Deckman, Carlisle, chief of ambulance, nurses and first aid and Clay Hall, Mechanicsburg, fire chief.

KITCHEN MEMO BY JEAN CLARKE

For the families who like their pie with cheese, this recipe puts the cheese right into the filling to cook with apples in a pastry shell. To make Chateau Apple Pie, scald 1 cup evaporated milk in a double boiler. Add ½ lb. shredded processed cheese and ½ tsp. salt. Keep over heat until cheese is melted, stirring frequently. Gradually stir the mixture into 2 eggs, slightly beaten. Combine about ½ cup sugar, ½ tsp. cinnamon, ¼ tsp. nutmeg. Sprinkle over 2 cups apples, thinly sliced. Put apples into unbaked 9" pastry shell. Bake in hot gas oven (425°F.) 15 mins. Then turn down gas to reduce oven heat to 325°F. Pour custard mixture over apples in pie shell. Continue baking until a sharp knife inserted near the center of pie comes out clean—about 35 mins. Cool and serve.

All automatic gas ranges built to "CP" standards are equipped with lifetime guarantees for top, oven and broiler burners.

As soon as cooking pressure is reached turn down the flame under your pressure cooker. Then begin to count time for cooking period.

When cooking fudge, don't beat it as soon as it's taken off the burner. Rather, pour fudge into chilled bowl, then beat with egg beater to get it creamy.

Don't be too startled at the amount of lint you get in the lint trap of your gas dryer. It's no more than when clothes are hung outside. Only difference is that outside the wind blows the lint away and you can't actually see it.

Sharpen the flavor of baked apples with a peppermint stick slipped into the core just before you slide them into the oven.

80,000 Trout Stocked For State Fishermen

More than 80,000 adult rainbow, brook and brown trout are now being stocked in the trout streams of Maryland in preparation for one of the most anticipated spring fishing seasons according to Ernest A. Vaughn, director of the Maryland Game and Inland Fish Commission.

The trout are in exceptionally fine condition and run well above nine inches. Forty per cent of the stocking will take place in Region 1, Allegany, Garrett and Washington Counties. Thirty-five per cent in Frederick and Montgomery Counties and twenty-five per cent of the total will be allocated to Baltimore, Cecil, Harford and Anne Arundel Counties.

Approximately half of the speckled beauties will be stocked before the opening day of the

trout season, Saturday, April 15, at 5:30 a. m., EST. The remainder of the fish will be stocked during the trout season with the majority being placed in the favorite fishing holes during the month of April to provide satisfactory angling for the great numbers of fishermen who crowd the streams during April.

The popular and natural trout streams of Frederick County which come in for consideration this season are Little Hunting Creek, Big Hunting Creek, Fishing Creek, Middle Creek and Friends Creek. The upper reaches of beautiful Rock Creek so popular with Washington residents, will receive brown and rainbow trout.

George Greco, South America, spent several days last week visiting his brother and sister-in-law, Prof. and Mrs. Dominic Greco and family.

Fascinating Fashions

By Judy Seaton

With the coming of springtime and fresh new fashions, it's time to think about new Easter outfits. Dearest of all to the feminine heart at Easter is the all-important Easter bonnet. This year, perhaps

Mary Jane Higby

lingerie collars and cuffs so fashionable this season. Mary Jane is modeling a charming hat made entirely of massed clusters of white flowers. Set prominently over her eye, it's just right with her heart-shaped face. A tiny bow of narrow green velvet ribbon holds this confection together and sets off the white flowers. "Secret of making this hat," says Mary Jane, "is to be lavish with the flowers. Don't skimp; if you have any flowers left over, pin a cluster on your lapel or bag."

You can find the foundations for making these bonnets in any good millinery supply store—pick out the shape that is most becoming to your face shape. There you can also find artificial flowers and veiling. Try a combination of massed violets, interspersed with green velvet bows, the whole veiled in a cloud of pale violet maline. Or multi-colored field flowers accented with a drift of soft moss green veiling—nothing could be more fresh and spring-like!

Or make a daisy bonnet—cover a buckram foundation completely with field daisies. Make a flat bow of wide black velvet ribbon with long streamers; scatter a few daisy flowers on the long ends and attach the whole bow to the back of the hat.

There are innumerable possibilities—all you need is imagination and taste. Tack the flowers lightly to the buckram foundation and anchor the veiling lightly—millinery takes the light touch.

Your Broiler Is a Good Cook

Food that's broiled has a particularly fine flavor. The meat and vegetables in this menu broil in 30 minutes. Both take the same cooking time and same temperature to save gas and constant watching.

Barbecued Lamb Grille includes Broiled Tomatoes and Mushrooms. Broiled Potatoes cook at the same time with the same heat. For Broiled Potatoes form 1 lb. ground lamb into 4 cakes 1 1/2" thick. To make marinade combine 1/2 cup salad oil, 1/4 cup vinegar, 1 tsp. dry mustard, 1/2 tsp. thyme, 1/2 tsp. salt, 1/2 tsp. pepper, 1 med. onion, finely chopped. Pour over lamb. Put in gas refrigerator overnight. Drain. Reserve marinade for broiling. Place meat on broiler rack 4" from flame. Broil 15 mins. Turn. Top with 2 med. tomatoes, halved and 4 mushrooms which have been brushed with salad oil. Continue broiling 10 mins. Baste frequently with marinade. For Broiled Potatoes wash, pare, cut crosswise 1/4" thick 4 med. potatoes. Soak in salted cold water 20 mins. to crisp. Drain. Dry with paper towel. Brush with salad oil. Put on broiler grill with lamb to broil 10-12 mins. Turn. broil again with salad oil. Broil about 5 mins. longer or until tender and golden brown. Hot Salad Bread is easy to prepare. Put 1/2 cup salad oil in small bowl with 1/4 tsp. salt, 2 cloves garlic, thinly sliced. Let stand 30 mins. Remove garlic. Slice 1 loaf bread, Vienna or French, into thick roll-size portions cutting to within 1/4" of bottom crust. Pull apart slightly, brush cut surfaces with salad oil. Sprinkle with 1/2 tsp. celery seed. Place on baking sheet in hot gas oven (450°F.) for 10 mins. Serve immediately. A Cole Slaw for the salad course and Bananas in Butterscotch Sauce rounds out this nourishing meal.

How Maryland's \$200,000,000 highway improvement program is taking the kinks out of many of the State's most heavily-traveled highways is demonstrated in this photograph of construction work on the Liberty Road-Maryland Route 26—near Unionville, in Frederick County. The existing highway is shown swinging away to the left for the start of a long reverse curve, indicated by

the directional sign (arrow) in the left foreground. The line the relocated highway will follow in this area can be seen stretching directly away from the camera. This project, now about 35 per cent complete, is being done by the T. Edgic Russell contracting firm, covers 3.8 miles of Route 26 between Unionville and Libertytown and carries a cost authorization of \$914,390. Work is sched-

uled to start soon on another section of Route 26 between Mt. Pleasant and Libertytown. The latter project, to be done by the American Asphalt Products Co., calls for widening and resurfacing of four miles of this highway and carries a cost authorization of \$259,775, bringing the total expenditure for the two project to more than a million dollars.

HEALTH COLUMN
CANCER

There are people who brood about the possibility of having cancer and, at the same time, refuse to see a doctor because of fear. They feel that a diagnosis of cancer is a sentence of death and "it's better not to know."

But most types of cancer can be cured if they are detected in time and treatment is begun promptly.

Cancer, a wild or uncontrolled growth of cells in some region of the body, is a serious disease which killed nearly 200,000 Americans in 1948. But doctors believe the number of cancer deaths could be cut by at least one-third if the disease is discovered and treated early and before it has had time to spread.

Some years ago it was extremely difficult to detect cancer until the disease was advanced, but today, with progress in medical science and greater knowledge about the disease, the doctor can detect cancer while the malignant growth is still localized in one area of the body.

Cancer, for the most part, is a disease of middle or old age, although it can develop in children and young adults. We cannot tell in every case what causes this lawless growth of cells in the body, but we do know that constant irritation and repeated injury can result in cancer. Meanwhile, research continues in the hope of finding the cause of various types of cancer, as well as how best to cure the disease.

When cancerous cells first begin to grow, there is no pain. The victim suffers pain usually only after the cancer has progressed or reached an advanced stage. But there are danger signals, other than pain, which might be symptoms of cancer and which demand a check with the doctor without delay. These include:

- 1—A painless lump or thickening especially in the breast, lip, or tongue.
- 2—A sore that does not heal, especially about the mouth, tongue, or lips.
- 3—A progressive change in the color or size of a mole, wart, or birthmark.
- 4—An irregular bleeding or discharge from any body opening.
- 5—Any persistent change in normal bowel habits; or signs of blood in the urine or stools.
- 6—Persistent hoarseness, unexplained cough or difficulty in swallowing.
- 7—Persistent and unexplained indigestion.

Everyone should have regular physical checkups with his doctor, including chest X-rays, whether he has symptoms of illness or not. If between these regular visits, any symptoms appear which might suggest cancer, no time should be lost in seeing the doctor. Probably there will be no cancer, and it's a great relief to know that. But if cancer does show up, it is better to have it discovered early so that prompt treatment can be begun.

Community Spring Clean-Up Is Urged

Community Spring Clean-Up campaigns have become an American tradition. More than 10,000 communities observe co-operative clean-up in the interest of safety and health, reports the National Board of Fire Underwriters.

Beyond the obvious benefits of a more attractive neighborhood and healthier place for children to grow, there are many added benefits that a clean-up brings. Fewer fires, reduced juvenile delinquency and lower disease rates are some advantages of a clean community.

In Emmitsburg you can join in a community clean-up by contacting the Vigilant Hose Co., Lions Club, Burgess and Commissioners to see what plans have been made and how you can fit in with them.

Even with all the concerted efforts of local civic groups, get together with your neighbor and look over your own street. You may find eyesores or vacant lots with collected rubbish and other fire hazards. Refuse-filled lots are often breeding places for flies, mosquitoes, rats, and other disease bearers. Clean them up. The lots will then provide more play space for children. You can probably make a neighborhood project of equipping these vacant lots as play areas for children.

After your neighborhood project is under way, keep it that way.

18-Year-Old Youth Subject to Draft

Col. Henry C. Stanwood, State Director of Selective Service for Maryland, said the obligation to register is a continuing one and must be fulfilled under the requirements of the Selective Service Act of 1948.

The young man who becomes 18 is required to register at a local board office within five days after his 18th birthday. If he happens to be away from his home he need not return as he has jurisdiction over his home residence, if he wishes, even though it is in another state. It is mandatory that a registrant keep his local board informed of any change in address or change in status. This requirement applies to all registrants including those who have reached age 26.

The Frederick draft board is located at 115 E. Church St. and is open Monday and Tuesday from 8:15 a. m. to 5:15 p. m.

Hanover Fire Ruins 15 Families

Fire of undetermined origin, last Saturday caused damage estimated at about \$750,000. The blaze started around the Square in Hanover, Pa.

The fire swept through two three-story brick businesses and apartment buildings and damaged a third adjoining building in the Pennsylvania city of 15,000.

Miles R. Fasnacht, manager of J. C. Penny retail store, which occupied part of one of the buildings gutted, estimated the damage at \$500,000 to \$750,000. Thirty-five persons, comprising 15 families, fled in their night clothes from apartments in the

Co-operation Urged By Grange Sp.aker

The Emmitsburg Grange held its fifth charter nite recently in the Emmitsburg High School. Master William Wivell presided. The opening song was "I'm a Granger."

The lecturer's program was as follows: Song, "Go to the Grange"; rol call, "What the Grange Means to Me." Each one present responded with their own idea of what it meant to them.

The Grange and the community was the theme of the talk given by State Grange Lecturer Arthur B. Hamilton. The speaker brought

out what the Grange and the community could do if they would combine their thoughts and efforts together.

Many out-of-town guests and some nationally known, were introduced.

The Thurmont Grange was a specially-invited unit at the affair.

The Emmitsburg Grange had 19 charter members present when it was organized five years ago. There were 38 charter members, of which 20 still hold affiliation. A silent tribute was made by the entire group to the memory of State Master L. Ray Brooks who was the State Master at the time of the organizing of the Emmitsburg Grange and who has since

died.

Cites Benefits Of Social Security

The ninth article of "Our County and Social Security" series describes how Social Security contributes in promoting and maintaining high ideals in family life.

Employment, to most of us, means work in a store, mill, garage, beauty parlor, office, or other places of business where the worker receives his or her pay in cash or check weekly or monthly. I have in mind another job for which no cash is received, hours are not limited to eight a day but is a 24-hour job in most cases.

Recently a minister talking to a group, said that the housewife holds the job which yields the greatest amount of influence in modern life. Comparing the variety of work which women are doing away from home with the job of a housewife, this speaker pointed out that "the home is where the man and woman take hold of the social situation of the world. It is the handle, so to speak, of our social structure. In the home we have a better chance than any other place to put into operation the ideals of the Kingdom of God."

After reading this profound statement, I asked myself, "How does our Social Security program help in promoting high ideals and in keeping a family together?"

1-It contributes by paying monthly benefits to the wife, if she is 65 and her husband is receiving monthly payments, and to their children if under 18.

2-It contributes by paying monthly payments to widows left with young children in their care, whatever the age of the widow, and to the young children. These monthly payments will continue until each child is 18 unless the child marries before 18. This protection alone has kept many young widows from having to work outside of the home, put their children in orphanages, home of relatives, foster homes, or actually giving them up through adoption by another financially able to care for them.

3-It contributes by paying a monthly payment to a widow who is 65 as long as she lives and does not remarry if her husband had worked a sufficient length of time. If the widow is not 65 upon her husband's death and there are no young children, she gets one payment at that time and is told that she will get monthly payments when she is 65 and the amount she will get. She has something definite to count on in her old age and does not approach that time of life with the fear she will be entirely dependent on others.

I will be in Emmitsburg again on Monday, April 24, at 11:30 a. m. at the postoffice.

Nancy Holmes SUGGESTS

If it's your turn to entertain the bridge or Canasta club and you're searching for something different to serve the "girls," consider this wonderful tasting Shrimp Loaf. Nancy Holmes made it up in the Best Foods Kitchens with the idea that it be served with tomato slices, potato chips and hot toasted rolls. A dessert of Strawberry Tarts and coffee would have your guests happy whether they were high scorers or not.

- Shrimp Loaf
1 package lemon gelatin
2 cups of hot water
1/4 cup vinegar
1 teaspoon salt
1/2 cup real mayonnaise
1 cup cooked, diced shrimp
1 cup diced celery
1 green pepper, finely diced
2 tablespoons minced onion
2 tablespoons chopped pimiento
Escarole or lettuce
Lemon wedges
Whole shrimp

Dissolve lemon gelatin in hot water, add vinegar and salt. Chill until it begins to set. Fold in real mayonnaise, diced shrimp, celery, pepper, onion and pimiento. Mix well. Turn into a 9x5-inch loaf pan which has been rinsed in cold water. Chill until firm. Unmold on a bed of escarole or lettuce. Garnish with pimiento strips, lemon wedges and whole shrimp. Serves 8 to 10.

FOR MEN ONLY!

Continuing with our men's society column we find these events transpired this week: Willie Dolittle is gittin reddy for his annual visit to church on Easter Sunday. Willis missed out last year when he discovered at the last minnit that the moths had bin havi a big party in his Sunday pants. The missus patched 'em up and Willie can make this year if he remembers to take out the moth balls not latern Friday. Willie aint got much use fer moth balls but the missus insisted. He sez he used two bags of 'em and never hit a single moth.

Jack Holstein is agin those Emmitsburg parkin meters. He sez that old crate of hisn parkin enplace and he dont have nothin to say about it. No parking meter can help it. When that 1921 crate wants to park, it parks, and no meter blossomin a violation sign makes eny impreshun on it.

Lem Beesleys hens laid ten extra eggs this week.

Bill White who was in the doghouse last week on acct of gettin in the second shot in a fight with a skunk got hisself decontaminated with some of this army stuff they use fur poison gas. He dont have to sleep in the barn no mor but he sez his missus still aint none too frendly.

Justis of the Pecee Jones is lookin fur the two younguns he married two weeks ago. Seems he sined and giv them a suppeeny to appear afor the grand jury instid of their marriage licenst. Jedge Jones sez he will riv them the marriag licenst and throw in a free inulment if they will return the suppeeny. The jedge cant remember who the grand jury went sine it was writ on those papers.

Deekun Hammerstein is receiving condulins x x x condou x x x is receiving simpathy from his friends. The deekuns missus fell down stares and broke her leg Wenesday and he had to

shoot her. The deekun feels rite smart bad about it cause he never cood make a good pot of coffee. He sez telegrams are aful fast. This came from his son Harry outen Minnesoty and arrived so fast that the gum on the envelop warnt even dry.

Buck Whitewater aint settin lately. Him and his goat had an argyment. Buck thot he was winnin but the goat got him in the end.

Zeke Toofus has writ Warshington that they kin stop spendin money makin that H-bum. He sez they can have his missus cause she cood easily be dropped anywhere and bust up everythin. He sez they better hurry or he will be forced to withdraw the offer.

Luke Winterhoffen, our loked bow brummil, took his annual bath last Sattidy, a week early this year.

Did It The Hard Way. Either the burglars couldn't read or they prefer to pull a job the hard way. They broke into a safe of a Cumberland plant the other day, after hacking at the handle and finally removing the pins from the safe's door hinges. The loot was a razor and 20 cents. On the side of the battered safe was this sign: "No money inside." And beneath that—the combination. The population of Scotland is about 5,000,000.

SHORT STORY

Narrow Escape

By Richard Hill Wilkinson

JUD'S ONLY going to be here a couple of weeks," Connie said. "And after all, he's my brother Tom's guest and it's up to me to help entertain him." You understand, don't you, Marc?" "Sure," said Marc, not looking at her, "sure, I understand. You go ahead and be nice to him, Connie. I understand all right."

Which was true, bitterly true. Marc had begun to understand two days after Jud Morrison had landed at the Norberts' for a fortnight's visit. Jud was big and handsome and had a way with him. In college he had been quite a raze. Tom Norbert, his roommate, had raved about him before he arrived, but even Connie hadn't expected such a splendid specimen of manhood as Jud proved to be. A roadster stopped before the house and Jud came bounding up the walk. "Hi, Connie," he grinned. "All set for our round of golf?" Then he saw Marc standing on the porch beside Connie. "Hello there, Marc. How about joining us?" Marc smiled and shook his head. "Thanks," he said. "I've got a tennis date. See you two tonight."

If, he reflected, he could only get Jud out of his element perhaps the college hero wouldn't show up so well.

Several nights later at the country club dance Marc got Connie alone and suggested a fishing trip for the next day. "We can take Jud along," he explained. "It'll be something new in his experience and probably he'll get a bang out of it."

Connie, who liked fishing herself, thought it was a grand idea.

And so the three of them drove up to Beaver Lake the next day. In the afternoon they put on their waders and fished.

Connie elected to show Jud how to rig his line and cast, and watching them Marc knew a feeling of frustration. He had planned to somehow get Jud to follow him into the rapids where the going was treacherous and where only one experienced in such things could navigate without losing his foothold. He had a vague idea of rescuing Jud from the swirling torrents, thereby establishing Jud's weakness in Connie's mind and his own prowess.

SUDDENLY HE KNEW that he was helpless. There was nothing he could do about the thing that was happening between Jud and Connie. The feeling that he had toward Jud was not one of condemnation, but envy. If Jud were trying to steal Connie away, he was doing so unwittingly. Any one but a fool could tell he wasn't aware of any understanding existing between the girl and Marc. And so Marc abandoned his scheme for revenge.

"And, besides, I'm satisfied with the man I have—a man who's big enough to be kind to a man like Jud Morrison."

They returned home the next day, and the day after that Marc made a business trip to Belknap. When he got back, Judson Morrison was gone. Marc didn't call Connie. Tomorrow or the day after he was leaving on a month's journey upstate. He didn't want to see Connie before he left. It would hurt too much.

But he did see her. Connie came over that night and found him sitting alone on the porch. "Hello," she said. "where in the world have you been?" "Away on business. Unexpected."

"Well, I should think so." She came close to him and sat down. "Jud left this morning. He asked me to say goodbye to you."

"Jud's a good egg," Marc said. "Too good," said Connie. "Goodness, I'd hate to be married to a man like that."

"You would?" said Marc, astonished. "Why?" "Why? Why, because—I would. He's too self-sufficient." She laughed. "And besides, I'm satisfied with the man I have—a man who's big enough to be kind to a man like Jud Morrison."

Lawrence Gladhill, North Carolina, visited over the week-end with his brother-in-law and sister, Mr. and Mrs. Richard Yeomans.

Poultry Pointers

By FREDERICK BLOCK

Brooder Temperature and Flushing.

Some poultry raisers make the mistake of turning off the brooder stove when weather is nice and warm. It is their intention to turn the heat on again at night. This procedure does not result in any saving to the owner.

Chicks, started even in summer, should have access to brooder heat at any and all times. It happens quite often that weather changes occur faster than the caretaker can manage to control the heat in his brooder house. Moreover, when brooders are turned on suddenly there is not enough time to regulate the heat thoroughly, and over-heating as well as chilling birds, under seven or eight weeks of age, is more costly than the saving on fuel. When weather gets warm, electric brooders are much less costly to operate than kerosene ones, and it is very difficult to regulate the heat in small brooder houses when the weather is warm. However, it can be done by opening the windows, according to the prevailing temperature. When the weather is fine the stronger birds may need no brooder heat, but do not forget that the weaker birds need to seek refuge under the artificial mother brooder, unless they are to become runts. Just when the strong ones move out during the milder weather, the weak ones will have a better chance to thrive and catch up.

Flushing

Flushing means a laxative stimulation and the increased water intake of birds is frequently recommended. It must be realized that flushing is not curing, and one should not flush birds unnecessarily. Salts for this purpose should be avoided, except in rare cases such as bluecomb. In the case of coccidiosis, but only after a successful curing by one of the sulfa drugs mentioned in the last Poultry Pointer, flushing with molasses helps birds. It should be used five days after the last day of sulfa treatment, and not longer than for half a day.

One pint of molasses for every four gallons of water gives a good flush.

MARYLAND HOME FRONT

Only 130 hundredweight of table quality potatoes produced during 1949 in Maryland moved into government hands and these moved immediately to Allegheny County charities. "We have never dumped potatoes," declares Joseph H. Blandford, chairman of the Maryland Production and Marketing Administration State Committee, "and nearly all of our last year's crop which was of table quality moved through commercial trade channels."

Mr. Blandford's statement came as year-end figures for 1949 were being analyzed and as solutions to the "potato problem" were being sought on a national basis. Maryland figures for 1949 show that the government took 42,185 hundredweight of U. S. No. 2 and U. S. No. 1 size B potatoes and only 130 hundredweight of table quality during the purchase program on 1949 crop potatoes. Mr. Blandford also revealed that considerable interest has been shown in the export of potatoes to France. No contracts have been made as yet, and final outcome is extremely doubtful. The principle obstacle is concerned with a decision on the part of the British Government not to purchase French potatoes from the early crop if France imports American potatoes. The basis of the argument is the fear of the importation via France of American diseases and insects claimed not now to exist in England.

Pasture Contest

Maryland farmers are to again have the opportunity to enroll in a Greener Pastures Contest. The Production and Marketing Administration is sponsoring community, county, area and State-wide contests to focus attention of farmers on the possibilities of pasture improvement.

The enrollment deadline of May 31 was announced this week by Mr. Blandford. He states that judging of the community contests will begin on June 1 and all judging is to be completed that month.

The first and second place community winners will compete for the county championships and the county winners and runners-up will seek the area championships in the three sections of the State established as: Eastern Shore, Southern Maryland, and Western Maryland. The pastures placing first and second in the three areas will be judged to pick the State champion.

Any farmer with 15 or more acres of pasture is eligible to enter the contest. Applications may be secured from the County PMA offices.

Local Soldier In Philippines

Pfc. Irvin T. Miller, son of Mrs. Sara E. Miller of S. Seton Ave., has been recently assigned with the 18th Motor Vehicle Squadron at Clark Air Force Base in Central Luzon upon his arrival in the Philippines for an overseas tour of duty with the U. S. Air Force.

Historic Clark AFB, the largest American installation in the Far East, is located 60 miles north of the famous but still war-torn Manila, the capital city. Recreational facilities such as enlisted men's clubs, theaters, swimming pools, bowling alleys, snack bars, and a good golf course are provided inside the base. During his stay in the Islands, Pfc. Miller will come in contact with the primitive Negroites who inhabit the mountains nearby.

In military service since 1943, Pfc. Miller previously served an overseas duty at the European African Middle East theatre of operations during the war. He also participated in the Berlin
