Saint Joseph's High School News

Students attending St. Joseph's High School who received 95 or more in their examinations are: Social Studies II, Wilford French, Saranna Miller, Lois Hartdagen; Social Studies I, Angela Rocks, Grace Sanders, Agnes Wormley; Foods, Nancy Bowers; Angela Rocks, Grace Sanders, Dolores Topper, Agnes Wormley; General Math, Josephine Sell, Agnes Wormley; Agriculture, George B. Arnold, Marie Keepers, Margaret Portner, Angela Rocks, Dolores Topper, Rosemary Welty, and Agnes Wormley; Stenography II, Mary Miller, Helen Orndorff; General Math, Helen Orndorff; William Sterbinsky, David White; Latin II, Joan Eckert, June Pastorett; American History, June Pastorett, Donald Rodgers, William Sterbinsky; Religion IV, Joan Eckert, Mary Miller, Helen Orndorff, June Pastorett, Donald Rodgers, William Sterbinsky, Richard Topper and Rita Topper.

On Wednesday morning the February meeting of the DePaul Unit of the Catholic Students Mission Crusade was held in the high school auditorium. President John Walter presided. It was stated in the secretary's report that March would be Mission Month. A letter of gratitude from Msgr. Louis Vaeth, moderator of the Mission Conference, was read. The Msgr. thanked the principal for sending the balance of the Mission dues. A letter from Fr. Silvertus was also read in which the Crusaders were thanked for their generosity in sending him Christmas gifts for the Indian children. The treasurer's report was given. The meeting was then turned over to the "Catholic Press Month Program" chairman, Donald Rodgers. The speakers, chosen from the senior class, were Joan Eckert, William Sterbinsky, and Robert Jordan. The main purpose of the meeting was to crown the King and Queen of Hearts. The junior's nomination, Paul Sanders, was king, while Saranna Miller, a sophomore, was crowned by the king. The ladies-in-waiting were Dolores Topper, Anna Mae Welty, Frances Firor, Suz-

anna Law; the knights of the court were Richard Sanders, Richard Sprankle, John Walter, and Charles Baker. Each class was represented in the court and the proceeds, \$5.36, went to the missions. The meeting closed with the singing of "Star Crowned Virgin." It was announced at the close of the meeting that the next mission unit meeting would be held at St. Joseph's College on Mar. 8, and the Mission Fair at the high school would be Mar. 15.

A picture of the king and queen and their court was taken by Hugh Rocks for the Mission Crusade.

Pictures of the students, which will be kept on file for future references, were taken Monday afternoon.

On Thursday Hugh Rocks snapped a few pictures of the girls' basketball team, which will be on sale in the near future.

Due to an early Lenten season, there was no Valentine Dance. A movie entitled, "Nautical Astronomy," was shown to the World Geography Class Tuesday afternoon. In the morning, the Science Classes I and II were shown slides on the works of Jenner and Walter Reed.

The Maryland Academy of Sciences has requested the student interested in science to compose an essay on "Why Science Appeals to Me." One essay will be submitted to the Academy. Last year Patricia Joy, now a senior, was one of the winners. Miss Joy is still attending performances at the Lyric Theater.

The boys' basketball team chalked up its 12th straight victory when they defeated Paradise Protectors, Abbotstown, on Monday evening on the home floor. The score, 44-39. A double victory was won on Friday evening here when the girls, by a 36-23 score, and the boys, by a 52-30 score, defeated St. John's of Westminster. This was the fourth win out of seven games for the girls. Tonight a double-header, both boys' teams, will be played at Union Bridge. At their last meeting, St. Joseph's won both games.

Help Yourself—To the Cinders

Before you back down or leave your car stalled on an icy hill take a look around—help may be at hand. The State Road's Commission has placed emergency supplies of cinders on many of the worst hills.

Look for a metal drum part way up the hill. The container should be located at about the point where your wheels refuse to push you further. Hop out and help yourself.

Unless you have a shovel in the trunk you'll have to dip the stuff

up with your hands. But a few well-placed handfuls will help.

This "help yourself" distribution of cinders and sand supplements the regular road service maintenance by the Commission forces during winter, in which cinders, sand, salt and calcium chloride are spread on icy sections of road whenever the weather warrants. The cinders and sand are used to provide traction. Salt is used to melt the ice on bituminous-surfaced roads and the calcium chloride is used for the same purpose on concrete roads.

Miss Loretta Boyle, student nurse at Frederick Memorial Hospital, spent the week-end with

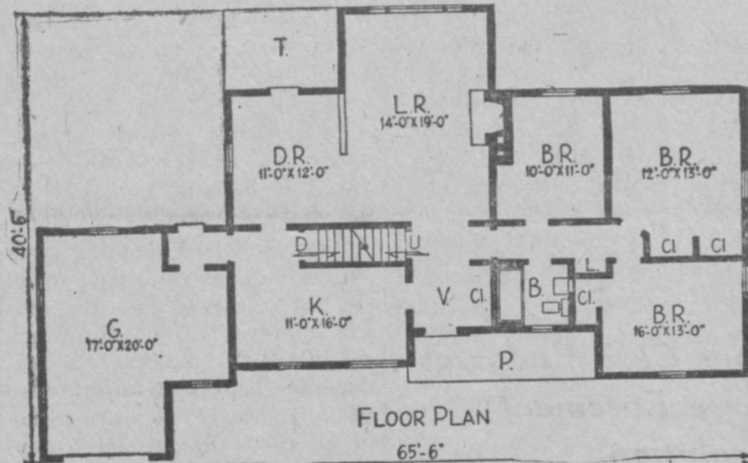

her parents, Mr. and Mrs. Bernard H. Boyle.

THE AMERICAN WAY

Planned for Corner Lot

Containing six rooms with an attached garage, this house is well-adapted to a corner lot site. The plan features excellent circulation with all rooms accessible from the front entrance hall. It has been selected as Plan No. 205 by American Builder magazine, 30 Church St., New York.

Service rooms, such as the kitchen and garage, face the street front with the living room and dining room toward the rear. Storage area is provided in the attic, and a full basement contains space for all utilities and recreation.

Separating the living room and dining space is a free-standing bookcase and china cabinet four feet high. If desired, this unit can be placed against the wall, making one large "L" shaped area of the two rooms.

Overall dimensions of the house are 56 feet six inches by 40 feet six inches, including the garage. The roof of fire-resistant asphalt shingles is the key to a pleasing color scheme, in a blend harmonizing with the white clapboard siding and with fixed blinds on each side of the windows in a suitable accent color.

(Detailed building plans for this house are available from American Builder, 30 Church St., New York 7, N. Y. Refer to Plan No. 205.)

MRS. SARAH F. MYERS

Mrs. Sarah Frances Myers, widow of James E. Myers, died suddenly Wednesday night about 11 o'clock at her home in Thurmont after a brief illness, aged 78. She was a member of Mt. Carmel Catholic Church.

The following children survive: Mrs. Morrie Wetzel, Deerfield; Clarence Myers, Mrs. John Rouzer, Mrs. Carrie Rodgers, Thurmont; Mrs. Harold Merrifield, Mrs. Melvin Donaldson, Baltimore; one niece, Mrs. Emma Samms, Philadelphia; 21 grandchildren and 14 great-grandchildren. Funeral services were held Saturday morning at 9 a. m. in Our Lady of Mt. Carmel Church, Thurmont, in charge of Rev. Vincent Tomalski.

Eugene Engel, Salisbury, spent the week-end at the home of Mr. and Mrs. Owen Adelsberger.

Here's A Devil's Food Mix That Makes Light And Downy Chocolate Cakes

Photograph by Swans Down

WHEN the last morsel and crumb of your next devil's food cake has been eaten, the family will want another one right away if you've made it with a wonderful devil's food mix that always gives you a light and downy triumph.

But you won't mind, for it's as easy as 1, 2, 3 to turn this mix into a perfect cake. Just add milk, beat and bake, and you will have devil's food with beautiful texture, a delicious flavor assured by a special blending of chocolate, and a fine keeping quality.

The mix is put out by the makers of a famous cake flour and a white cake mix that is already well-known. Like its sister white cake mix, this devil's food is versatile. It can be baked as cookies, cup cakes, layers, a big square, and chocolate snaps. To get best results, follow package directions, timing beating if you use a mixer, counting strokes if you beat by hand.

Mountain cake bakers, too, can get perfect results with this devil's food mix, for there is a package specially prepared for high altitudes which should be used above 3,500 feet.

Seven-Minute Frosting: Combine 2 egg whites, 1 1/2 cups sugar, dash of salt, 1/2 cup water, and 2 teaspoons light corn syrup in double boiler. Beat with rotary egg beater 1 minute, or until thoroughly mixed. Cook over rapidly boiling water, beating constantly, 7 minutes, or until frosting will stand up in stiff peaks. Remove from water, add 1/2 teaspoon vanilla, and beat 1 minute, or until thick enough to spread.

Lenten Services Announced

The Rev. Philip Bower, pastor of Elias Lutheran Church, has announced a program of services for Lent, Holy Week and Easter.

Services will be held every Sunday with Sunday School at 9:30 a. m., The Service at 10:30 a. m., and Vespers, 7:30 p. m. Every Wednesday evening Lenten Vespers will be held at 7:30 o'clock.

Wednesday, Feb. 21 — "The Cross, Something to Think About"; Feb. 25, "Christ, The Accused" and "Walking In The Spirit"; Feb. 28, "The Cross, Something to Tell About"; Mar. 4, "Christ, Food For A Hungry World" and "Why I Believe In God"; Mar. 7, "The Cross, Despised"; Mar. 11, "Christ, Our Priest" and "A Living Soul"; Mar. 14, "The Cross, Its Drawing Power." Palm Sunday, 10:30 a. m., Confirmation, Holy Week—Wednesday, Mar. 21, preparatory to the Holy Communion, public confession; Mar. 22, 7:30 p. m., Holy Communion; Fri., Mar. 23, 1:30 p. m., Good Friday Service. Easter Sunday—Sunday School Easter program and lesson at 9:30 a. m. Easter Service, music and Holy Communion at 10:15 a. m. Festival of Easter Music at 7:30 p. m.

Guarding His Health

Never one to be lax in matters of health, Joseph Wojcik Sr., of Stevens Point, Wis., recently had his chest X-rayed at the State Health Dept.'s mobile unit. Wojcik is 105 years old, with another birthday coming up Feb. 26.

Fairchild Strike Near Settlement

The union negotiating committee this week agreed to a new company offer for settlement of a five-week strike at Fairchild Aviation Division, Hagerstown.

A mass meeting of the 4700 union workers was called to vote on the proposal. Glenn R. Brayton, international representative of the CIO-United Automobile Workers, said the committee recommended acceptance.

The workers went on strike Jan. 8, tying up completely the production of C-119 Fairchild Packets, familiarly known as "Flying Boxcars" and used extensively by the air force for troop transport and supply missions in Korea.

The company broke the long deadlock by announcing it would abandon its system of merit wage increases, at least for the duration of the national emergency. The workers' demand for substitution of simple length-of-service increases had been the main point of dispute. Under the merit system, shop foremen could recommend that workers get a higher hourly rate regardless of their seniority.

The company also agreed to a 15-cent hourly wage increase, subject to approval of the Wage Stabilization Board in Washington.

MARYLAND FEED & GRAIN MARKETS

Baltimore grain markets were firm to strong last week. Wheat averaged three cents per bushel higher than the previous week. Corn remained about unchanged while both yellow and green soybeans advanced about nine cents per bushel.

The PMA has released 1951 acreage guides for Maryland crops. The guide suggests 500,000 acres for corn, 5.7% greater than 1950; oats, 60,000 acres, an increase of 9.1%; barley 90,000 acres, a 1% increase and soybeans for beans, 40,000 acres, a 2.4% reduction. According to Bureau of Agricultural Economics releases the wheat acreage seeded for 1951 is about 3% under a year ago and rye seedings are up 5%.

National Grain Market
Grain markets continued unsettled during the first week in February, according to reports from the Dept. of Agriculture. Shortages of box cars and other transportation difficulties together with uncertainties concerning the price regulations effecting grain products were the principal disturbing influences. Markets dropped materially but current offerings were generally adequate for trade needs. Wheat prices were at about the previous week's level despite a good foreign demand and relatively large sales for exports. Corn and oats prices advanced a cent or two per bushel reflecting a good federal and industrial demand. Rye and barley were practically unchanged. Oil seeds and other holdings advanced 10 to 12 cents per bushel as results of an increased export business and active inquiries from processors.

Maryland Feed Market
The Baltimore feed market was steady last week. Coarse cracked corn and 50% meat scrap advanced a little over 2%. Slight declines were registered in the oil seed meals and the other feeds quoted were relatively unchanged.

During last week, Maryland producers had to pay an average of \$104.66 per ton for 20% broiler mash on the Lower Eastern Shore. They received an average of 28.8 cents per pound for broilers. On this basis, one pound of live weight broilers would buy 5.5 pounds of feed.

National Feed Market
Feed markets continued unsettled last week and prices dropped below the previous week's level, reports to the Dept. of Agriculture indicated. Railroad labor difficulties and severe weather in some areas restricted the movement of feed from mills and processing plants while uncertainty as to effective price ceilings caused some hesitancy on the part of distributors to make important commitments. The index of wholesale feedstuff prices dropped about one point to 238.1 while the feed grain index advanced more than five points to 245.8, widening the spread to 7.7 points. A year ago the feedstuff index was 196.5 and the feed grain index 182.7, making a spread of 13.8 points in the opposite direction from the current season. Wheat millfeeds and soybean oil meals showed the greatest declines but most other feeds, with the exception of alfalfa and peanut meals, sold slightly below the previous week's average.

Woodsboro Livestock Quotations

The following quotations are those paid Tuesday at the weekly auction of the Woodsboro Livestock Sales, Inc.:

Butcher heifers, medium to good, up to 27.25; butcher cows, medium to good, \$22.50-26.00; butcher cows, canners and cutters, \$18.00-21.00; butcher bulls, \$26.50-29.10; stock heifers, \$110-231; stock bulls, per head, \$105-185; dairy cows, per head, \$134-350; good choice calves, 160 to 190 lbs., \$36.75-42.00; good choice calves, 140 to 160 lbs., \$34.25-46.00; good choice calves, 125 to 140 lbs., \$33.75-39.50; light and green calves, \$24.25-30.75; good choice butcher hogs, 210 to 250 lbs., up to \$23.50; good butcher sows, up to \$22.25; heavy boars, \$10.80; feeding shoats, per head, \$13.25-17.00; pigs, per head, \$5.60-11.15; old chickens, 33c; lard, \$17.50.

The annual need for corn in the U. S. is about 3.5 billion bushels.

DIAL TALK

Horace Heidt has signed Jesse Owens, Sari Barabas, Rudy and Lee, and Arthur Olsen—Grand Finalists on his 1950 CBS "Youth Opportunity Program"—as permanent stars of his touring radio-tv show. **Unique situation** on "Big Town" radio (NBC) and video (CBS) shows with two ex-newspapermen starring as Steve Wilson of the "Illustrated Press." **Walter Graza**, Steve on radio, worked on old St. Paul Daily News, while Pat McVey on tv did his reportorial chores on Los Angeles Times. **Walter Kiernan** gives his "One Man's Opinion" (ABC) that spring underwear prices will be unchanged. "You may lose your shirt and still be dressed in a fashion."

Arthur Godfrey told his morning Rinsco listeners that the new Johns Hopkins program diagnosing X-rays on tv could lead to a whole new series of shows like "Aunt Jenny's Operation." "Break the Back," and "Ma Perkins' Workin's."

Johnny Olsen on his "Luncheon Club" show (ABC) says a chip on the shoulder is a sign of wood higher up. Penny adds that the kind of powder that makes the biggest explosion is usually found on a man's coat lapel.

As a result of thousands of letters received from secretaries all over the country, Marie Wilson, "My Friend Irma" (CBS) will soon start a national campaign in behalf of the office gals.

In just one year Ralph Edwards has flown 300 people more than 500,000 miles from every point on the map for his "Truth or Consequences" stunts on CBS radio-tv.

Hedda Hopper's (NBC) manager gives her \$25 a week spending money. Her office pays all her bills.

KITCHEN MEMO BY JEAN CLARKE

SIX for supper and what to serve? Easy on the budget is *Macaroni Meal-In-One*. To 3 qts. actively boiling water, add 1 tsp. salt. Gradually add 6 ozs. elbow macaroni. Cook until tender (about 12 mins.). Drain and rinse. While macaroni is cooking, melt 3 tbsps. butter or margarine in top of double boiler. Stir in 3 tbsps. enriched flour. Gradually add 1 1/2 cups milk, stirring until thickened. Add 1/2 tsp. dry mustard, 1 tsp. Worcestershire Sauce, 1/2 tsp. salt, 1 cup grated cheese. Stir until cheese is melted. Add macaroni and blend well. Pour half of macaroni mixture into bottom of well-greased 2 qt. casserole. Cover with 2 1/2 cups cooked drained green beans (1 No. 2 can). Top with remaining macaroni. Arrange 6 strips Bacon over top. Cover and bake in moderate gas oven (350°F.) 15 mins. Remove cover and bake 15 mins. more.

No matter how clean your home, there's bound to be some dust in the air. An air filter, easily installed, on your forced warm air gas furnace screens out dust, keeps it from going through the house.

Emergency plumbing: A handful of soda and a half glass of vinegar poured down a stopped-up drain usually clears it.

A new control for automatic gas water heaters is marked Warm, Lukewarm, Hot and Very Hot to guide the householder to correct temperature hot water.

The equivalent of a 2 1/2-ton truck is lifted every year when women hang laundry on the line. An automatic gas dryer, controlled to any drying temperature, eliminates such laundry drudgery.

Quicker than a knife, and safer too, are kitchen shears for cutting up chicken, ham, salad trimmings and such.

Aid Handicapped Poster Winners Awarded Prizes

Winners of the Statewide Poster Contest on the theme of "Hire the Handicapped—It's Good Business" sponsored by the Governor's Committee to Promote Employment of the Handicapped, were announced today by D. L. B. Fringier and R. C. Thompson, co-chairmen of the committee.

Winners are: First prize, Cora Crosby of Morgan State College; second prize, Rosa Johnson, also of Morgan State College; third prize, Eli Rosenthal of Maryland Institute, and fourth, Katherine Anna Boyce, Maryland Institute.

HOMEMAKERS' CORNER

Color Can Conceal

Did you know that the colors you wear can do quite a lot to disguise your figure problems? Miss Helen Shelby, clothing specialist at the University of Maryland Extension Service, recommends these color prescriptions for your different types of figure problems.

If you have a rather broad-hipped figure you'll find it helps to match your hat and blouse colors, or your hat and handbag. A dark skirt worn with a jacket of a lighter color will draw critical attention away from your hips.

For the broad-shouldered lass, Miss Shelby has this advice. Match your handbag with that

of your shoes. Then, too, you may wear a dark jacket to disguise the width of your shoulders, and combine it with a skirt of bold colors or a skirt with colorful stripes.

If you're slender you'll want to match your hat and handbag or your hat and blouse—and remember that warm bright colors circling your face will help you a great deal. For short people, Miss Shelby recommends a garment of solid dark shades with warm accent colors at the top of the hat and in the footwear.

But suppose your complexion color dictates one color and your figure requires another? In this case, says Miss Shelby, the general rule is to select the color most suited to the figure. Or you may use deft touches of the color that compliments your complexion by wearing that color in your blouse, scarf or accessories.

Sweeter Grapefruit
Here's a tip that will take

High Schools Enter Press Contest

Thirteen Maryland Junior and Senior High Schools have submitted editorials from their school newspapers as entries in the 14th Annual School Press Project, jointly sponsored each year by the National Tuberculosis Association and the Columbia Scholastic Press Association. This was announced today by Dr. G. Canby Robinson, executive secretary of the Maryland Tuberculosis Assn. The Scholastic Press Project is conducted annually in schools throughout the country with the primary purpose of arousing interest of school children in tuberculosis so they will find out what their community is doing to solve its tuberculosis problem and what needs still exist.

Student papers participating in the project carry student-written news stories, feature stories and editorials on the following subjects: "What Facilities Does My Community Need to Fight Tuberculosis?" "How the Christmas Seal Fights Tuberculosis."

much of the sourness right out of your breakfast grapefruit. Cut out the white grapefruit center and fill the hole with strained honey. Then let it set in the refrigerator for a few hours or overnight. You'll find the grapefruit much sweeter in the morning.

Dies At 675

Bill Wetzel of Clayton, N. M., died the other day without reaching his one-time ambition—to weigh more than 700 pounds. Wetzel, who claimed to be the world's fattest man, succumbed to an extended illness. He was 57 years old. He tipped the scales at 675 pounds.

Good News

The dentist's drill, that most feared of torture machines, may be on the way out, according to the American Dental Assn. The new machine would substitute abrasive blasts of air or gas for the tiny spinning wheel that grinds on the nerves. Its inventor is Dr. Robert B. Black of Corpus Christi, Tex.

Mounties Rest In First Slot In Conference Standing

Pete Caruso's Blue and White of Mt. St. Mary's College came from behind in the second half Saturday evening to defeat Baltimore University 58-43 in Baltimore.

The Mountaineers now have a 7-1 record in the Mason-Dixon Conference race and are in first place at the heels of American University.

At half time Baltimore led 24-19 and in the third frame the Mounties pulled up to a 32-32 deadlock. Paced by Les Cosgrove, who rimmed 21 points, Mt. St.

Mary's pulled away in the final round to win handily.

The triumph marked the tenth in eighteen games for the local outfit. Last night the Blue and White hosted the Gettysburg College quintet.

Free... Telephone Almanac for 1951

You can get your copy of the Telephone Almanac for 1951 from the nearest telephone business office. Write for it, or if you like, drop in and pick it up. The Telephone Almanac contains valuable information for farmers, business men, housewives, and other telephone users. It gives many interesting facts about the important developments and inventions that combine to make possible your telephone service, as well as radio and television. Get your free copy of the Telephone Almanac now.

The French had a word for it

"Chauffeur" is French for "stoker." It was applied to operators of early coal-burning road wagons, who literally were stokers as well as drivers. Operators of the Telephone Company's motor vehicles—in common with other drivers today—have no stoking to distract them. They concentrate on safe driving and consideration for other motorists. Last year, most telephone drivers in Maryland covered thousands of miles—in all kinds of weather—without a single accident.

From one good neighbor about another

Not long ago, we received a letter from a rural telephone user complimenting the others on her line. She said: "In the years that we have been on the same line, there hasn't been one single incident of discourtesy. We want to thank the others on our line who do so much to make possible such good telephone service." Yes, party-line service is better when each person on the line is considerate of the others. And it isn't hard to be a good party-line neighbor. It simply means treating the other person as you would like him to treat you.

The Chesapeake & Potomac Telephone Company of Baltimore City.

BABSON

Writes . . .

By ROGER BABSON
WASHINGTON, D. C., Feb. 16—During the past year, Uncle Sam spent large sums of money for many things of doubtful value. Yet, there was one particular Government project, undertaken in 1950, which will prove its worth—namely, the Federal census.

Make The Most Of Census Figures

Complete breakdowns of last year's decennial census are not yet available. However, figures for the States and for most of the country's larger cities have already been released. They are very significant. Those who own their own business, interests in other businesses, or make their living by selling can save time and money by studying these census figures. They give you, free of cost, elaborate surveys on quotas, routes, territories and other sales problems.

When all 1950 census figures are released, they will tell much on local merchandising conditions and opportunities throughout the nation. However, compiling census figures is a big job and it will probably be many months before all details are published. Meanwhile, readers should watch for the preliminary summaries as they are released each month.

Population Increases

On April 1, 1950, our population was 152,340,000. Since then there have been 3,804,000 births and 1,461,000 deaths and a net emigration of 10,000. This gives us about double the annual gain of 10 years ago. Those States possessing the advantage of a mild climate show the greatest population increases. California is up 51.6 per cent from the 1940 level and is followed closely by Texas, Arizona, and Florida. This increase of population is not coming from "playboys," but from good substantial Northern people who are retiring from work on pensions. They make excellent citizens for any community.

Undoubtedly, the national trend is toward greater increases in leisure time. Firms engaged in the production of recreation equipment will more than hold their own in the years to come. Not only in the above States but elsewhere throughout the nation.

States That Have Stopped Growing

Nearly half of the States—22 to be exact—show population increases below the national average in the 10-year period from 1940 to 1950. Five States register actual population losses for the period. Many of these 27 states were sparsely populated anyway and their poor showing in this census is due in part to the fact that proportionately the number of men they sent into the armed forces during the second World War was high.

The gains in population shown by the Far Western States reflect clearly the wartime migration to the West Coast to fill jobs in the huge defense establishments out there. California has the double advantage of mild climate and plenty of jobs for everyone.

The Rural States

Many cannot understand why I continue to call attention to the "Magic Circle," comprising the states of Iowa, Missouri, Arkansas, Nebraska, Kansas and Oklahoma, as being the richest in time of peace and the safest in time of war. They point out that three of these states—Arkansas, Nebraska and Oklahoma—actually lost population during the past 10 years, while the other three enjoyed only nominal increases, which in each case were far below the national average. The reason for this apparent contradiction is that these six States have few large cities. Too many people foolishly continue to want to live in a large city.

Numbers do not necessarily represent true progress. The first consideration should be economic opportunity. I main-

Bank of Uniontown Purchased by The Birnie Trust Co.

With the approval last week of the State Bank Commissioner and the Federal Deposit Insurance Corporation the Birnie Trust Company, Taneytown, purchased the assets of the Carroll County Savings Bank of Uniontown.

Plans are completed for the Taneytown bank to continue the operation of the Uniontown bank.

Both banks have enjoyed a long period of years of banking business in Carroll County.

Combining the assets of these two concerns gives the Birnie Trust Co. assets in excess of two and three quarter million dollars. The trust company has recently increased its capital from \$50,000 to \$75,000, and its surplus from \$60,000 to \$85,000 by the sale of new capital stock.

Lard is now worth nearly as much as live hogs.

Paul Hoffman Rejoins Time Inc. Board

NEW YORK—Henry R. Luce (left), editor-in-chief of TIME, LIFE and FORTUNE, talks to Paul G. Hoffman, president of the Ford Foundation, at a meeting of the board of directors of TIME Inc., publishers of TIME, LIFE, FORTUNE and THE MAGAZINE OF BUILDING, and producers of THE MARCH OF TIME, at which Mr. Hoffman was re-elected a board member. Mr. Hoffman was elected a director of TIME Inc. in January, 1948, but resigned when he was appointed administrator of the Economic Cooperation Administration.

Fascinating Fashions

By Judy Seaton

Whether you live in skirts and sweaters, suits or dressy dresses—pearls are the most important fashion accessory a gal can own. A new note this year is elasticized pearls . . . any number of strands strung on elastic to form a comfortable choker collar that expands to fit any size neck. Of lustrous creamy fake pearls, they can

Florence Freeman

be matched with a variety of unusual earrings and even rings. Florence Freeman, who portrays "Wendy" on the CBS daytime serial, "Wendy Warren and the News," is shown here with a matched set of simulated elasticized pearls in the popular third-dimensional pattern with medium-sized hoop earrings to add the finishing touch to a simple black dress.

"The other night I interwove these same pearls with a single mink, fastening the fur in a bow effect on my shoulder," Florence remarked. "I wore them with a plain black, strapless evening gown and never received so many compliments. It seemed to dress up the frock, and yet keep the simple, uncluttered look I try to achieve."

Another trick Florence let us in on is the use of pearls with the scarves which are so much a part of everyone's accessory wardrobe these days. In addition to inter-twining a pearl necklace with a scarf for a soft, flattering neckline, Florence has found the newest pearl touch—a huge stickpin—an especially dramatic and attention-getting note. A single large fake pearl, mounted on a straight pin, this is wonderful with an ascot-knotted scarf or plunged through a soft, cloth evening bag.

Quite A Record

Chicago police in January reported a new record in its recent crime annals: 12 successive days without a murder. The previous record for no murders was a seven-day period in October, 1950.

Child Has Dentures At Three

Jean Scott of Durham, England, gave a big smile to show the nicest present she received for her third birthday—a full set of false teeth. Joan began losing her baby teeth a year ago, and permanent teeth don't start coming in until a child is about six.

Health Column

Pneumonia

Despite the fact that we have cut down the deaths from pneumonia in the past few years, principally with the new life-saving drugs, the disease takes 60,000 lives in this country each year. It ranks fifth among the causes of death from disease in the United States.

The different types of germs which cause pneumonia are as virulent today as they were decades ago when we were forced to stand by helplessly at the bedside of the pneumonia victim awaiting "the crisis" and hoping against hope that by some miracle the patient might live. Today we have penicillin and the sulfa drugs which generally are effective in treating most types of pneumonia. Recently the new drug aureomycin, has also shown great promise in halting the progress of certain kinds of pneumonia germs. But drugs, to be effective in pneumonia treatment, must be given early in the course of the disease to give the patient his best chance of recovery.

Pneumonia can strike at any time of the year, but winter months, particularly late February and early March, bring the greatest number of cases. And while pneumonia can attack at any age, infants and elderly people seem most susceptible to it and the disease is most frequently fatal among the very young and very old.

There are several types of pneumonia. All are spread from person to person and every type attacks the lungs. With the lungs inflamed and congested, the patient has a difficult time breathing. At the same time, the germs manufacture toxins, or poisons, which quickly spread throughout the body.

The symptoms of pneumonia include a sharp pain in the side or chest, chills or fever, and sometimes a heavy cough which may bring up blood-tinged sputum. A severe "cold," especially one accompanied by fever, is always suspect; most cases of pneumonia are preceded by what seems to be a "common cold."

If there is any suspicion of pneumonia, the person should be put to bed and the doctor called immediately. The patient should have plenty of fresh air, but he must be kept comfortably warm and out of drafts. It must be remembered that all forms of pneumonia are dangerous and any delay in calling the doctor might mean the difference between life and death.

Research on vaccines and special preparations to prevent pneumonia is still in the experimental stage. Meanwhile, the fundamental rules of maintaining good health—balanced meals, sufficient rest, proper exercise in the fresh air, and the avoidance of chill and exposure—constitute our best preventive against pneumonia infection.

Divorced Wife Now Able To Get Benefits

By ED. R. YOUNG
Hagerstown Social Security Office

Under the new Social Security law, the title "Widow's Current Insurance Benefits" is changed to "Mothers' Insurance Benefits."

This means more than a change of title. While, as before, insurance benefit payments will be made to a widow with a child in her care, provision is now made for payments of such benefits to a divorced wife of a deceased insured worker. It is now possible for a widow, and one or more divorced wives of a deceased insured worker to be entitled at the same time to insurance benefit payments based on his Social Security wage record.

In order to qualify as a former wife, as far as Social Security is concerned, the divorcee must be the natural mother of his son or daughter, or have legally adopted the insured worker's son or daughter while she was married to him, or have been married to him at the time both of them adopted a child. In either case, the child must have been under 18 at the time of adoption.

In the case of a divorced wife, the old requirement of "living with" him at the time of his death, is changed to "receiving at least half of her support" from him at the time of his death.

Children's benefits under Social Security will be the topic of my next article.

Now is the time to repair those tractor plows.

Belt dressing will help keep power belts soft and pliable and in good running order.

Laurel To Open Spring Racing In Maryland

Laurel will open Maryland's spring racing season with a 20-day meet starting March 23, according to a decision by the State Racing Commission.

The schedule after April 14 was left up in the air. This is because Bowie is in the midst of a row among its management and principal stockholders and Havre de Grace is in the process of closing down.

However, the racing commission set the dates for 10-day meetings of the State's five half-mile tracks.

Cumberland will operate July 17 to 28; Hagerstown, July 31-Aug. 11; Bel Air, Aug. 15-25, Timonium, Aug. 29-Sept. 8, and Marlboro, Sept. 12-22.

The four harness racing tracks were assigned these dates for their 20-day meetings:

Rosecraft, May 18-June 13; Laurel, June 14-July 10; Baltimore, July 11-Aug. 6, and Ocean Downs, Aug. 7-Sept. 1.

Three extra days is provided for each of the harness tracks for postponements in cases of bad weather.

When the National League was Club, then known as the Mutuals, organized in 1876, the New York played its games in Brooklyn.

Your Personal Health

By J. H. ALLISON, M. D. Perhaps because it is Lent, or perhaps because of the world situation, or perhaps because the author has some memories of the present Korean battle-ground, but in counting up the many blessings we enjoy, did you ever think of those medical? Did you ever realize that there are places where penicillin, which we here rather take for granted and use unlimited, is still the magic unattainable; where one dose has been worth the equivalent to \$80; where a mother would walk seven miles in sub-zero weather with her infant strapped on her back half dead of pneumonia in the hope that she might get some of it; where a man dying of a ruptured appendix was given one dose because that was all that could be made available.

Did you ever realize that there are places where doctors never attend a birth and even if complications should develop, there are none available to help out, and it means just one thing—the death of a mother and baby.

Did you ever realize that there are places where there are no dentists; where an abscessed tooth may mean but one thing—an osteomyelitis or decaying of the whole jaw bone?

Did you ever realize that there are places where if a mother cannot nurse her baby, there is no alternative and the baby dies; where the fruit "strained" folds the infant receives are foods taken from the mouth of the mother?

Did you ever realize that there are places where even hospitals had only aspirin as their only pain-relieving drug; where even if a patient had to undergo a major operation, he was given only enough ether so that he could be held down to the table "relatively easily," because the ether was so scarce?

These are only a few of many things which come to mind from personal experience. But they clearly illustrate how many of the ordinary things which we never give a second thought and rather take for granted, can be done so only because we live in these United States.

Song Service At Rocky Ridge

The Men's Chorus of Mt. Tabor Lutheran and Reformed Churches of Rocky Ridge, will hold a Men's Song Service Sunday night, Feb. 18, beginning at 7:45 o'clock.

The service will be held in the church and will feature choruses, quartets, solos, duets, and congregational singing.

Twelve churches will participate in the service, being represented by men from their choirs and organizations. In addition to the Mt. Tabor Reformed and Lutheran Churches, the following will be represented: Creagers-town Lutheran, Meadowbranch Brethren, Utica Reformed, Emmitsburg Lutheran, Keysville Reformed, Tom's Creek Methodist, Graceham Moravian, Utica Lutheran, and the Reifsnider Bros.

The Mt. Tabor Men's Chorus, which is sponsoring the service Sunday night, is a comparatively young organization and this is a new venture for them. The men are putting forth a real effort and they hope for a wide interest and a good attendance Sunday night.

The membership of the Chorus consists of Russell Troxell, James Welty, and Charles Troxell, first tenors; Donald Dinterman, Harry Knight, Charles Mumma, Roy Sharrer, Charles Albaugh, and Ray Valentine, second tenors; Guy Krom, Rev. Edward Taylor, John Dubel, and William Troxell, first bass; James Sixx, Lesly Fox, and Rev. R. S. Poffenberger, second bass. Mrs. Charlotte Thompson is the accompanist.

Opening devotions will be conducted by Rev. R. S. Poffenberger and will be followed by the musical part of the program which will include selections by the various churches. The service will close with the benediction by Rev. Edward F. Taylor.

The SNAPSHOT GUILD

Use your equipment and supplies as they should be to make snapshots as good as this one.

"I Thought I'd Try It Anyway"

THE statement which serves as a title for today's column is one that is heard altogether too often from the lips of amateur photographers. And it accounts for a large number of the poor snapshots which are made.

Bill Would Ban Selling of Sunday Beer and Wine

A bill to ban the sale of beer and light wines in Frederick County on Sundays will be introduced shortly in the House of Delegates, it was learned this week.

The Frederick County delegation has been asked to introduce a measure to make the showing of movies on Sundays legal from two to 11 p. m.

Legislation is being drafted, it was learned, to give the County Commissioners control of the Roads Board and the money derived from the State gasoline tax, which is dedicated to road construction and maintenance.

The latter measure will provide \$1200 a year more income for each of the County Commissioners.

The latter increase in pay, it was said, is intended to compensate the Commissioners for the added time and responsibility to fall upon them by virtue of taking over the principal duties of the Roads Board as now constituted. The increase would bring the annual income of the Commissioners to \$2700. They now receive \$1500 a year and \$5 for each meeting of the Roads Board they attend.

The principal changes in the Roads Board law will follow the recommendations of Frederick County farm organizations, which recommended that members of the Roads Board be named by the Commissioners and the latter have control of roads funds.

The Roads Board would be reduced to an advisory group to the Commissioners.

Unanimous endorsement of the bill to prevent sale of beer in Frederick County on Sunday, which Delegate S. Fenton Harris is presenting in the State Legislature, was voted by the executive committee of the Frederick County Council of Religious Education, meeting in regular session Monday night at the Frederick YMCA.

Though it was felt that this is only symptomatic treatment and does not get at the basic issue involved, it was nevertheless agreed that the bill should have the group's support. Rev. Paul L. Althouse, president, was in charge of the meeting, during which a number of routine matters were discussed, among them plans for the 1951 School of Christian Living sponsored by the council.

It was not learned whether the Frederick County delegation has endorsed the bill.

According to reports from Annapolis, Delegate S. Fenton Harris has announced his intention to introduce the bill to abolish the sale of beer and light wines in Frederick County on Sundays. It was understood that the proposed measure has been drafted and may be submitted at any time.

Army Re-Roofs for Defense

One of the important jobs in the rehabilitation of army camps has been the re-roofing of many of the buildings.

This scene at Camp Roberts, near Paso Robles, Calif., is typical of what has been going on at various training camps which have been reactivated since the nation began to expand its military services several months ago, after the outbreak of hostilities in Korea. The workmen are applying asphalt strip shingles, the same material used to protect the majority of American homes.

Either in reconditioning old barracks or constructing new ones, asphalt shingles offer advantages which the armed services consider important. First of all, speed is essential in prepar-

Camp Detrick Trying to Ease Housing Shortage

Camp Detrick officials took two steps last week to ease the housing shortage for Post personnel and nearby Frederick County communities.

Lt. Col. Robert F. Barrick, post engineer, announced that Camp Detrick has applied to the Federal Housing Administration for 225 family units under the Wherry Housing Act.

Col. Alan J. McCutchen, chief of the district office of the Army Corps of Engineers in Washington, D. C., awarded a contract for construction of 16 additional family units at Camp Detrick.

Col. Barrick said a survey among Camp Detrick personnel established a definite need for the 255 Wherry Act units requested. He said the application is subject to FHA approval.

The contract for construction of 16 new frame units at the Post was awarded to the Industrial Engineering and Contracting Co. of Newark, N. J., on a bid of \$175,152.

Colonel Barrick said contractors hope to start work on the project as soon as weather permits. He said the units should be ready for occupancy about six months after construction gets under way.

Colonel Barrick said the new units will be located near the recently-opened brick family quarters at Camp Detrick.

CHURCH FOOD SALE

Trinity Methodist Church will have its annual food sale at Matthews Store on Saturday, Feb. 24. There will also be a surprise package or grab-bag table. The sale will begin at 11 a. m.

Crime Must Go

A move to ban crime topics from comic books and magazines was under way this week in the General Assembly meeting in Harrisburg.

A House bill was introduced and would make it illegal to sell or furnish crime comics to children under fifteen.

The crime ban would include portrayals of everything ranging from assault with deadly weapons to burglary and kidnapping.

Violators would be subject to a fine up to \$500 or up to one year in prison, or both.

Local Men to Sing On Program

George McDonnell and Richard Frock have been selected to represent the Emmitsburg Lutheran Church at the Service of Music to be held at the Mt. Tabor Church, Rocky Ridge, Sunday night.

Mr. McDonnell will sing "The Lord's Prayer," and Mr. Frock will sing "My Task."

Auto Tags Soon

Applications for new 1951-52 license plates for passenger cars and motor cycles will not be mailed out until Feb. 23, it was announced this week by the Dept. of Motor Vehicles. Tags for these two classes will go on sale on Monday, Feb. 26, and may be displayed on and after Mar. 15.

Venerable Retired Banker Observes 88th Birthday

J. Elmer Zimmerman, one of Emmitsburg's oldest residents, celebrated his 88th birthday last Wednesday, Feb. 7. Mr. Zimmerman, who resides on W. Main St., a retired farmer and for many years the president of the Fairfield National Bank, was born in Liberty Twp., Adams County in 1863, a few months before the battle of Gettysburg. He is the only living member of his family. Mr. Zimmerman taught school in his early life and was the justice of the peace in his home township for many years before his retirement in 1925, when he moved with his brother, George, and sister, Ida, to Emmitsburg from the Zimmerman homestead near the school house on the Lower Tract Rd. Mr. Zimmerman was never married. One brother, Thaddeus, married and a number of his grandchildren and great grandchildren reside in Emmitsburg. Mr. Zimmerman is in good health for his age and helped remove snow from the sidewalk on his birthday.

State VFW Officials Present High Awards to Local VFW Post

VFW State Dept. Cmdr. Ward W. Caddington had the highest praise for the Emmitsburg Memorial Post, No. 6658, Wednesday night as he and other high VFW officials attended a special meeting of the local Post. The department commander, in presenting a certificate of merit praised the post particularly for the excellent rescue work performed during the recent fires. In stating that of the 102 posts in the State, Emmitsburg has by far and large done community work which makes it an outstanding Post. Its community service and Americanism is of the highest caliber. Other high VFW state officials attending the presentation were Dept. Senior Vice Cmdr. Styles and Dept. Quartermaster-Adjutant Ray C. Gamber. Following the presentation, the members, ladies' auxiliary and guests saw the mortgage burning ceremonies. Taking part in this, along with Cmdr. Caddington and Cmdr. Styles, were Mr. and Mrs. E. F. Keilholtz, Em-

mitsburg Post. Cmdr. W. Rightnour, past Auxiliary President Mary M. Hoke, present Auxiliary President Mrs. Lewis H. Stoner, former State Senator Edward Storm and Adjutant Lumen F. Norris. The mortgage was presented by Mr. and Mrs. Keilholtz to Cmdr. Rightnour after which the symbolic burning of the mortgage in the Post home took place. The local VFW bought the present property located on Center square Jan. 29, 1947, for a reported \$18,000 from Mrs. Leona McNair. The Emmitsburg Post has before distinguished itself in outstanding community service as warranted by other citations. Prior to the presentation Wednesday evening, two service plaques were received from the VFW National Headquarters for its fine community work. Following the ceremony, members, guests and auxiliary, numbering more than 200, enjoyed an oyster feed.

Richard Randolph, Baltimore, Samuel Hays has returned to visited over the week-end with his home here after spending his parents, Mr. and Mrs. Scott several days with relatives in Randolph. Boston.

BASEBALL MEETING A meeting of the Pen-Mar Baseball League will be held Tuesday night at 8 o'clock in the Littletown VFW Home. All clubs are requested to be present and post the required forfeit fee. By-law changes are anticipated. Mr. and Mrs. Paul Keepers and Mr. and Mrs. Paul Humerick observed their 17th wedding anniversary last Saturday. Mrs. Keepers and Mr. Humerick are sister and brother.

PURCHASE PROPERTY The Troxell property on S. Seton Ave., rented by Mr. and Mrs. Paul Eyley and Mr. and Mrs. Eugene Kraemer, has been purchased by Mr. and Mrs. Allen Bouey and Mr. and Mrs. Kraemer. The double house is undergoing extensive remodeling. Mrs. Marshall Sanders and her sister-in-law, Mary Sanders, have moved into the second floor apartment of the Louis Cooper house, Gettysburg Rd.

THE AMERICAN WAY

Wood Veneer Lends Beauty To Modern Stores, Offices

The streamlined beauty and efficiency of the modern store and office reflect both the genius of the wood fixture industry and improved methods of hardwood plywood fabrication. Without the wide diversity of woods and their availability in large plywood panels, points out a U. S. Department of Commerce report, it would be impossible to produce many of the fixtures which make today's stores and other business places so attractive. Paralleling advances in the manufacture of handsomely-figured hardwood veneer furniture and wall paneling for the home, the development of new furnishings for the store and office has resulted in large-scale modernization among the nation's business establishments. The heavy, baroque style of a past generation has given way to streamlining," the Department of Commerce says with reference to store modernization. "The flexibility of design which the hardwood plywood panel offers makes the transition not only possible but easy. Plywood has a definite place in every step. Wall cases, counters, floor tables, fitting rooms, lounges and restaurant and cafeteria tables made of hardwood plywood are better looking and far more durable than their massive predecessors. Hardwood plywood plays an important role both in new work and in modernization and remodeling. The application of curved panels to store-fixture work produces greater stability, beauty and space economy. Plywood's strength in all directions, together with its unusual ability to hold fastenings, make it possible to build fixtures in sections which can be assembled or taken down with minimum effort. Store layouts can be changed or displays rearranged at little cost.

Truck Owners Plan Crackdown On Overloading

The Maryland Motor Truck Assn. Monday night took the position that illegal loading of trucks on Maryland highways should be stopped through the levying of severe penalties on violators. Following a meeting of a special committee, J. Marshall Stewart, executive vice president of the association, said, "Although the overwhelming majority of the operators have always complied with the weight laws of Maryland, a small number of violators have created an unfavorable impression of this essential industry." "The meeting was called," Mr. Stewart continued, "for the purpose of finding a means of more effectively policing the industry in order to preclude the possibility of certain elements from attempting to operate trucks in violation of the law. The committee resolved to advocate and support the amending of the present weight law to include a higher level of fines, which would make it economically unsound to load illegally. As a result of our own self-policing policy, plus the present enforcement program, weight violators have been substantially reduced." "We have consistently offered our assistance and cooperation to all State agencies and will continue to do so in every possible way."
