

EMMITSBURG CHRONICLE

VOL. LXXXV, NO. 1

EMMITSBURG CHRONICLE, EMMITSBURG, MARYLAND, FRIDAY, OCTOBER 1, 1954

SUBSCRIPTION: \$2.00 PER YEAR

Most Anything At A Glance

BY ABIGAIL

Well, another horse show is history, and a good one it was. The affair drew about the usual 1200 fans who were thoroughly entertained throughout the long show. Perfect weather greeted the spectators and the show was a financial success and filled the bill as usual, in entertainment. I don't know of any other event which affords such pleasure and does more to enhance the prestige of the town than this annual project put on by the local Lions Club. Out-of-towners could be heard remarking what a fine affair it was and what a picturesque little village we have here and I wholeheartedly concur with their views.

Word is passed along that our local kindergarten is about due to founder, due of course to an insufficient number of pupils. To make such a useful project worthwhile, a certain minimum number of pupils must be enrolled. The project is purely an individual one, run by an individual, and receives absolutely no support, other than the use of the Legion basement, so therefore any money derived must come from a small tuition charge for students. The fee is a very nominal one, I have learned. In fact the rate is in reality, lower than you pay a baby-sitter! However the benefits to your child are immeasurable. All the while he is in capable, tender and understanding hands; he is taught and learns the proper things a small child should know. If you have small children at home and want to further their education in preparation for school later on, why not enroll him in the local Tot-a-Long school now?

I never have been in favor of the state's discontinuance of the kindergarten in the school system. To me it is of primary importance and for the little extra money it takes to maintain a kindergarten I think the practice should be restored. There are plenty of other ways to conserve so as to be able to afford a primary department. Uniform architect's plans are just one of the many. Costly plans for new schools have been a bugaboo in the educational system for quite some time. Why couldn't the Emmitsburg High School look the same as Frederick High School? Use of the same plans for all of the county's schools would save us taxpayers a bundle of hard-earned money and maybe the kindergarten could be restored to the system. Think it over folks and let your PTA know about the matter.

My attention has been called to the plight of the local Community Fund. It is badly in need of funds. The amount of good this little group has done with the small amount of revenue it has had available, is inestimable to the welfare of the community. It has never refused any bona fide case aid. It has worked silently and confidentially in the community, easing the burdens of the destitute, indigent and suffering. Members of the group have donated their services and have worked hard to raise funds to maintain this noble community project, but this year the annual benefit baseball game didn't draw too well and as a result the treasury is hearing the depletion point. How's about a little "assist"? If you care to make a private donation, of any sum, just mail same to the Community Fund and it will be greatly appreciated. Several kind citizens in past years have been making annual contributions but they fall far short of the actual amount needed. All officers are salary-less and expenses are kept to a minimum. I can't conceive of a better place where a dollar could do more good.

Phil Sharpe, the firearms researcher is all aflutter this week. Seems as though Phil is once more a papa . . . his dog just gave birth to a litter of nine puppies. Another proud parent these days is Chief Daniel Dan Kaas, working the streets in the town's new police cruiser.

Just a "wish-well" to a fine friend: Mayor Rodgers we wish you a speedy recovery from your present illness and hope to see you among us in the very near future.

Horse Show Winners Announced

Perfect weather drew about 1200 fans to the sixth annual horse show Sunday at the Emmitsburg Civic Assn. grounds, east of town.

The event, sponsored by the Emmitsburg Lions Club, was a pronounced success both financially and in entertainment. Show secretary, Dr. John J. Dillon, announced that 81 entries were received and most classes filled. Darkness forced the cancellation of two of the 26 classes.

Local Ponies: 1st, Skippy, owned by Ray Coyle; 2nd, Bobby, owned by Coldsmith Stables; 3rd, Candy, owned by Margo Emrich, and 4th, Sugar Foot, owned by Coldsmith Stables.

Novice Jumper: 1st, St. Nicholas, owned by Peggy Long; 2nd, Little Spook, owned by C. C. Miles; 3rd, Kris Kingle, owned by Peggy Long; 4th, Exit Only, owned by Linky Smith.

Open Jumper: 1st, Lovely Cottage, owned by Brierwood Farms; 2nd, Hi-Li, owned by Fred Hughes; 3rd, Blue Boy, owned by Dick McCrea; 4th, Circus Star, owned by Brierwood Farms.

Open Western: 1st, Texas Belle, owned by James Hastings; 2nd, Wy-O, owned by Mt. Tammany Farms; 3rd, Shine, owned by Glen H. Dietz; 4th, Darts Flying Boy, owned by Diane Helman.

Lady's Working Hunter: 1st, Sky's Light, owned by Claude Owen; 2nd, Night Wings, owned by F. E. Westenberger; 3rd, Sky's Shadow, owned by Claude Owen; 4th, Our Sister, owned by W. H. O'Dell.

Open Walking Horse: King O' Cotton, owned by John Needy; 2nd, Golden Rocket, owned by Harry Rohrer; 3rd, Sassy Sue, owned by Eve Leonard; 4th, Red Queen, owned by Barton Foth.

Hunter Hack: 1st, Sky's Light, owned by Claude Owen; 2nd, Do Scamp, owned by S. Timmerman; 3rd, Virgil, owned by Carroll Rang; 4th, Coolwood, owned by Jane Richmond.

Open Three - Gaited Class: Queen of Comor, owned by Earl Plummer; 2nd, Conceived in Liberty, owned by Mt. Tammany Farms; 3rd, The Little Man, owned by Jane Bigham; 4th, Playmore's Fancy Boy, owned by Constance Schroll.

Open Roadster: Streamline, owned by H. B. Jacoby; 2nd, Colie, owned by Coldsmith Stables. Lead Line Pony: 1st, Baby Sitter, owned by Helen Kelly; 2nd, Miss K, owned by Bebra Tate; 3rd, Socks, owned by Danny Brock; 4th, Birthday, owned by Fred Hughes.

Pleasure Class: 1st, Virgil, owned by Carroll Rang; 2nd, Little Shine, owned by Allen Bernstein; 3rd, Foxy Barrymore, owned by Earl Rohrer; 4th, Smart Start, owned by Toy Strite.

Handy Hunter: 1st, Sky's Light, owned by Claude Owen; 2nd, Virgil, owned by Carroll Rang; 3rd, Barometer, owned by William Tate; 4th, Sky's Shadow, owned by Claude Owen.

Open Five - Gaited: 1st, Mercer's High Rhythm, owned by Earl Plummer; 2nd, Fairview Streamline, owned by Dr. Bruce Wolf; 3rd, Foxy Barrymore, owned by Earl Rohrer; 4th, The Great McGinty, owned by C. Armstrong.

Open Jumper Stake: 1st, Venus, owned by Linky Smith; 2nd, Tania, owned by Garry Gardner; 3rd, Hi-Li, owned by Fred Hughes; 4th, Virginia Miss, owned by Bud Conrad.

Walking Horse Stake: King O' Cotton, owned by John Needy; 2nd, Golden Rocket, owned by Harry Rohrer; 3rd, Doughboy Personality, owned by Coldsmith Stables; 4th, Red Queen, owned by Barton H. Foth.

Green Hunter: 1st, Coolwood, owned by Mr. Stevens; 2nd, Barometer, owned by William Tate; 3rd, Do Scamp, owned by S. Timmerman; 4th, Exit Only, owned by Linky Smith.

Three-Gaited Stake Class: 1st, Queen of Comor, owned by Earl Plummer; 2nd, Conceived in Liberty, owned by Mt. Tammany Farms; 3rd, The Little Man, owned by Jane Bigham.

Knock-Down-and-Out: 1st, War Party, owned by Bill McCracken; 2nd, Venus, owned by Linky Smith; 3rd, Tonto, owned by George Di Paula; 4th, Hi - Li, owned by Fred Hughes.

Pony Class Under 14-2: 1st, Buddy Bourbon, owned by Mt. Tammany Farms; 2nd, Moonbeam, owned by Bobby Gardner; 3rd, Miss K, owned by Mary Kay Hook; 4th, Birthday, owned by Fred Hughes.

Roadster Stake: 1st Streamline, owned by H. B. Jacoby; 2nd, Dolie, owned by Coldsmith Stables.

(Continued on Page 8)

Ike's Memorial Tree Destroyed By Vandals

A tree, in honor of President Eisenhower, has been vandalized and probably will not survive, Supt. J. Walter Coleman of the Gettysburg National Park said this week.

The tree, which was planted on the Gettysburg Battlefield, was a 22-foot northern pine and had been chopped with an axe or hatchet.

The incident, Mr. Coleman said, was one of several acts of vandalism that occurred over last week-end. The tree was dedicated by tank corps veterans of World War I and II in honor of the President, who was commander of the tankers training grounds at nearby Camp Colt in 1917-18.

Receives Nurse's Cap

Miss Kathleen Wantz, daughter of Mr. and Mrs. Harry Wantz, DePaul St., was one of the members of the graduating class of South Baltimore General Hospital School of Nursing at graduation exercises held last Tuesday evening at the Southern Health Center, Baltimore.

Miss Wantz will continue working at the hospital until she takes an examination in December. She will continue her studies in the field of physical or occupational therapy.

Mr. and Mrs. Wantz, and son, Jack, and Mrs. J. Ward Kerrigan attended the graduation exercises.

Two Auto Wrecks Occur Over Weekend

A Thurmont man was charged with drunken driving and a Mt. St. Mary's student wrecked his car in two accidents in the northern part of Frederick County last week-end.

Charged with drunken and reckless driving last Saturday night was Howard Raymond Toms of Thurmont. He was released from jail on Sunday on \$1000 bond. State Trooper 1/c Donald Tucker preferred the charges following an accident.

Joseph Smith of Mt. St. Mary's College, was the driver of a car which ran off the highway at Catoctin Furnace late last Saturday and struck a tree and a parked car.

State Trooper 1/c H. J. Brown, the investigating officer, said the accident occurred when Smith failed to negotiate a right hand curve at the south limits of Catoctin Furnace. The college student was driving a station wagon and about \$500 damage was done.

Inaugurate New Course At College

With the current term, high-ranking Mt. St. Mary's seniors interested in graduate work can elect the newly-instituted "honors course" under the direction of Dr. John L. Morrison, assistant professor of history, and Professors Charles B. Curtin and Richard C. Leonard, of the biology and sociology departments.

Students will be introduced to research techniques, the use of foreign languages as tools of study and other requirements of graduate study. Active guidance will also be furnished honor students in selecting a graduate school and securing fellowships and other financial aid. Admission to the course is by faculty invitation only.

Signal Corps Graduate

Richard C. Topper of Emmitsburg will graduate this week from the Southeastern Signal School, Camp Gordon, Ga. He is the son of Mr. and Mrs. Curtis D. Topper, Emmitsburg.

Pvt. Topper received training in the operation of military communications equipment, climaxed by a week of field training under simulated combat conditions during his nine-week course.

During his training Pvt. Topper received an education worth thousands of dollars. He will now be reassigned to an active unit of the U. S. Army.

The Southeastern Signal School is a component of the Signal Corps Training Center, a mammoth communications college which supplies trained signal technicians to Army units all over the world.

Announces Engagement

Mr. and Mrs. Clay Green of Emmitsburg, announce the engagement of their daughter, Thelma Louise, to Mr. Joseph C. Freeze of Frederick R. D. 2.

Miss Green is a senior attending Emmitsburg High School. No date has been set for the wedding.

Practice Teachers To Train Locally

Practice teachers from St. Joseph College will again this year train at St. Joseph's High School, Emmitsburg, instead of at Seton High, Baltimore, as in previous years.

Advantages in the change are numerous according to college officials, for education students no longer have to live off campus during this period, missing classes and activities. They teach both boys and girls.

The classes in the local high school are smaller which gives student teachers an opportunity to consider individual differences. The education students will teach one or two hours a day, depending upon the number of credits their state requires. Classes will continue through November.

Sportsmen's Club Buy Pheasants For Stocking

The regular meeting of the Indian Lookout Conservation Club was held Tuesday evening in the Fire Hall with Franklin Wastler, president, presiding.

The members voted to buy a number of pheasants and release them after the hunting season. Volunteers were asked to repair and replace all broken wire around the game refuge and to post more propagation signs along the road area.

Members of the club are planning on building a number of turkey feeders and place them in the game refuge area during the winter months. The club is anxious to know of the number and whereabouts of the turkeys in the mountain area. This information will help to determine how soon the State Game Commission will recommend an open turkey season to hunters in Frederick County.

"Hunting By Permission Only" signs will be placed in the local stores and will be free to land owners in this section. This new approach of bringing about better relationship between the sportsman and farmer has met with much success here.

Homemakers Meet

The regular September meeting of the Homemakers Club of Emmitsburg was held at the home of Mrs. J. Ward Kerrigan last week, 15 members and three guests present.

Miss Fahr introduced Miss Origan, who is the supervising nurse for Frederick County. Miss Fahr gave an interesting talk on "Adult Attitude" toward young people. An invitation was extended to attend a meeting at which a demonstration on frozen foods will be given by Miss Bright, Oct. 15, at 8 p. m. at the home economics room in Emmitsburg High School. The club also was asked to be host to a Christmas party to be held in December. An account was given of the Home Demonstration Council to be held in Washington or November 1-3. The afternoon of Games will be held at the home of Mrs. Robert Fitez on October 14.

The next meeting will be held at the home of Mrs. E. R. Shriver on October 28. Following the meeting refreshments were served.

September Is One Of Driest Months

This could be the driest September since the drought year of 1930, weather records showed another week-end passed without a drop of precipitation being added to the figures at the Frederick airport weather station.

The total stood at .96 of an inch at the station on Monday. The forecaster did not predict any rainfall through this week with the month ending yesterday.

The last time there was less than an inch of rainfall in September was in 1930, when the total was .58 of an inch. The driest September was in 1906, when only .45 of an inch was recorded. In recent years, dry Septembers have occurred in 1941, with 1.08 and 1937, with 1.05.

The dry figures for the month are aggravated by the fact that the whole year has been extremely low on precipitation with the exception of August, which ran ahead of normal. Water supplies which gave evidence of a return to normal in the August rains have slipped back again during the present month.

Benefit Dance Tonight

A special dance will be held this evening in the VFW Amex and will feature the Three Sollys, favorite Baltimore entertainers. The group also will feature Betty Myers, star of the Gary Moore TV show.

The affair is being staged for the benefit of the Memorial Hall Building fund and a large turnout is anticipated. The Three Sollys have appeared here at the local VFW on numerous occasions and have made a wide circle of friends in Emmitsburg. As an added feature, Miss Myers will accommodate most requests for vocal numbers.

The affair is open to the public. Dancing will be from 9 to 12 midnight, and the admission is only \$1.00.

Lions Club Meets

President J. Ralph McDonnell presided at the regular meeting of the Emmitsburg Lions Club Monday evening in the Lutheran Parish Hall.

The main part of the business session was devoted to the results of the horse show held Sunday. George L. Wilhide announced that a meeting of Lion members will be held Tuesday evening, Oct. 5, in the H. O. Toor Shoe factory, Chesapeake Ave. The club will meet with the Chamber of Commerce and other businessmen and leaders in an effort to map out a program to keep local help employed in local factories.

Census Leader Appointed

Appointment of Mr. Gareth B. Lease of Frederick, as a crew leader for the 1954 census of agriculture was announced this week by Field Supervisor R. L. Snodgrass.

Mr. Lease will direct a force of 17 enumerators who will canvass all farms in Frederick County. He reported on Oct. 1 to the census agriculture field office at Baltimore.

The crew leader is one of the key people in the field operations of the census of agriculture. It is his responsibility to train the enumerators and supervise their work; plan and allocate work assignments; review the work of the enumerators and take remedial action where necessary, and to conduct difficult enumerations.

After attending the training conference, Mr. Lease will return to his district where he will spend three weeks recruiting enumerators, checking enumeration district boundaries, and training enumerators in preparation for the start of the census on Nov. 8.

Glee Club Plans Benefit Social Affair

The Mt. St. Mary's College Glee Club has completed plans for an Evening of Games to be held in the Fire Hall, Saturday, Nov. 6. Attractive prizes, including a door prize, will be offered.

Refreshments will be on sale. Mr. and Mrs. Guy A. Baker, Mrs. Marie C. Rosensteel and Miss Agnes Case, head the executive committee. The public is cordially invited to this affair.

PTA Will Sponsor Benefit Carnival

The P-TA Assn. of the Emmitsburg High School held its first fall meeting last Wednesday in the school cafeteria. Clarence Hahn, retiring president, presided. The meeting was opened with the group singing and prayer was led by Mrs. Robert Daugherty.

An item of business held over from the last school term was a proposed carnival to be held by the P-TA. In order to clear up all business that was proposed during Hahn's term, Mrs. Robert Daugherty, general chairman for the carnival, reported on plans made during the summer. The group decided that the carnival, under the theme "Farm Frolics," will be held Nov. 5 and 6.

The following chairmen were named: publicity, Mrs. Kenneth Waganan, Eugene Woods and Mrs. Rita Remavage; food, Mrs. Roy Sanders and Mrs. Charles Valentine; corn game, Guy Krom and Raymond Keilholtz; candy, Mrs. Richard Harner and Mrs. Harold Hoke; cakes, Mrs. Andrew Eyster; games, Mrs. John Richards, Andrew Eyster and Samuel Hays; pony and hay rides, Edgar Emrich; ice cream and soft drinks, Norman Shriver and Clarence Hahn; fancy table, Mrs. Arvin Jones and Miss Betty Ann Hollinger; entertainment, William Baker, Carlos Englar and Mrs. Paul Claypool.

The following new officers were installed by the past president, Glenn Springer: president, Norman Shriver; vice president, Paul Beall; secretary, Mrs. Arvin Jones, and treasurer, Mrs. John Richards. Approximately 75 members attended the meeting.

Mite Society Resumes Meetings

The first meeting of the Mite Society of Trinity Methodist Church since adjournment for the summer months, was held Friday evening at "Stonehurst," the home of Mr. and Mrs. William A. Frailey, west of town.

The invocation was given by the new pastor, Rev. Paul H. McCauley. A business meeting followed, with the society president, Mrs. H. P. Freeman, presiding.

Arrangements were completed for the food sale to be held at the public sale of Grant Long, Rocky Ridge, on Oct. 2. Food to be contributed for this event should be delivered at the home of Mr. and Mrs. Charles R. Fuss by 9:30 a. m., Oct. 2. Preparatory to the annual election of officers to be held at the Oct. 29 meeting, a nominating committee, consisting of Mrs. William A. Frailey, Mrs. Estelle Watkins and Mrs. Lewis Bell, was appointed by the president.

The pastor gave a report of the repairs to be made at the church parsonage at Thurmont. Twenty members and guests were present and delicious refreshments were served.

The next meeting of the society will be held at the home of Colonel and Mrs. Thomas J. Frailey on Oct. 29.

Mrs. Frailey Hosts DAR

The Frederick Chapter of the Daughters of the American Revolution held its first meeting of the fall season at "Stonehurst," the home of Mr. and Mrs. William A. Frailey, on Monday afternoon. Assisting hostesses were Mrs. Arthur Bird, Mrs. Walter P. Feaga, Mrs. Dorothy Laseter, Mrs. Samuel Metcalf, Mrs. Roland Seidel, Mrs. William M. Storm, Miss Emma Thompson and Miss Caroline Winebrenner.

Mrs. J. Ward Kerrigan was the program chairman and after the business session, presided over by the regent, Mrs. Paul Rhoads, Colonel Thomas J. Frailey spoke on "George Washington—the Patriot." Carl Crist rendered several piano selections, after which a social time was enjoyed.

Cashtown Is Pen-Mar Playoff Winner

A three-run rally in the last of the seventh inning gave Cashtown a 5-4 victory over Blue Ridge Summit last Sunday afternoon to make it two straight in the semi-final playoffs in the Pen-Mar Baseball League.

As a result of the triumph, Cashtown enters the title series Sunday at Fairfield at 1:45 p. m. in another best-of-three series to determine the playoff champion. Fairfield gained the final series by eliminating Emmitsburg with two straight wins previously.

Businessmen To Meet; Help Local Industry

Emmitsburg businessmen and civic leaders will turn out in sizeable numbers for a meeting to be held Tuesday evening from 7 to 9 o'clock.

The purpose of the meeting is to determine a method of educating local people to seek local employment. It has been known for some time that a large number of the town's potential labor force has been engaged in out-of-town production of materials and skills. As a result, local industry has been hard hit.

The group will meet at the H. O. Toor Shoe factory for an "open house" period from 7 to 8 p. m. and then sit in on a conference with the owners of the plant in an effort to formulate a plan on keeping help employed in local plants.

It is roughly estimated that between the two local factories a total of 200 is employed the year around. Under normal conditions this would be adequate, but if the town is ever to grow any larger, expansion has to take place. It is the plan of the Toor Shoe Corp. to erect a new and larger factory, thereby doubling its present personnel. The move is contingent, of course, on whether enough local labor can be secured.

It is estimated that if only 200 are presently employed in the town that at least that many more, some skilled, could be obtained to insure the steady employment and growth of the town.

At any rate the Emmitsburg Chamber of Commerce and the Lions Club are working hand in hand in an effort to induce labor to remain here, and the help of all local citizens is sought in this local enterprise. Undoubtedly, a house-to-house survey will be made in the near future to ascertain just what potential employable strength the town and community actually has.

Regardless of whether or not you are a member of either of these two organizations, if you have any ideas that might possibly be beneficial to the plan, you are cordially invited to attend this meeting Tuesday evening, Oct. 5.

Improvements Made To Tom's Creek Cemetery

At a meeting of the official board of Tom's Creek Methodist Church recently, attention was called to the work that has been done on the church cemetery. The cemetery lays to the right of the road leading from Rt. 32 to Four Points.

Burials have been made here since the early 1800's, although there has been no interments there during recent years.

The cemetery had been neglected until 1948, when it was decided to clean out the undergrowth and weeds which had invaded the sacred ground. A cemetery fund was established to finance the improvements and Jones Baker served as chairman of the work.

During the past several years members and friends of the church have met and worked on the plot. The undesirable bushes have been removed and new soil hauled in so that now the graves are covered with a carpet of green grass, which is frequently mowed. Many of the old tombstones had fallen over and these were reset.

Early this year it was decided by the trustees of the cemetery fund to replace the fence around the cemetery. More than \$250 was spent for wire, posts and other necessary items. Metal posts were made by Lloyd Ohler and planted by members of the church in June. A committee from the Emmitsburg Grange stretched the wire one afternoon last month.

The church is now attempting to set up a permanent fund for the maintenance and upkeep of the cemetery.

Community Chorus Rehearsing

The Teen - Age Community Chorus and the minstrel men are rehearsing for a minstrel show to be presented Oct. 10 for patients at Newton D. Baker Veterans' Hospital, Martinsburg, W. Va.

Dusk Is Dangerous!

Late afternoon hours can be a dangerous time on autumn evenings. By the time youngsters are peddling home from a scout meeting or football game after school, it's twilight and time for every driver to be extra cautious. Parents can help by seeing that every bicycle is equipped with an adequate reflector to warn approaching cars. The two children here are using safety reflectors of red "Scotchlite." More than 15 million of these are being distributed this fall in special packages of a leading brand of margarine. The red hexagons light up more than a block away when a car's headlights shine on them.

Personals

Mayor Thornton W. Rodgers remains on the critical list in the Warner Hospital, Gettysburg, where he is suffering from recurrent heart attacks.

Discharged from the Warner Hospital this week were Miss Anna Annan, Mrs. Lucille Deatherage and Mrs. Fred Timmerman.

Mr. and Mrs. William Lower, Biglerville, Pa., announce the birth of a son Tuesday at the Warner Hospital. Mrs. Lower is the former Miss Carolyn Cadle, daughter of Dr. and Mrs. W. R. Cadle of Emmitsburg.

Mr. and Mrs. Francis Adelsberger have sold their new home to Mr. and Mrs. Eugene Rosensteel. Mr. Rosensteel is still in the navy, but he will be discharged in March. He returned to Norfolk last Sunday after spending several weeks with his wife and son and his parents, Mr. and Mrs. George F. Rosensteel.

Miss Mary Shuff, Frederick, spent the week-end with her father, M. F. Shuff Sr. and her sister, Miss Ruth Shuff.

Mrs. Thomas Gebhart, Bonneauville, Pa., spent the week-end with her brother-in-law and sister Mr. and Mrs. J. Alan Gelwicks.

Miss Marie Topper, St. Joseph's Hospital School of Nursing, Baltimore, spent a day last week with her parents, Mr. and Mrs. J. Louis Topper.

Mrs. Kansas Burns, Dayton, O., and Mrs. Esther Webb, Thurmont visited last Thursday with their cousin, Mrs. John Kelly.

Capt. and Mrs. John Baker and son, of Cherry Point, N. C., spent last week visiting her parents, Mr. and Mrs. Tyson Welty.

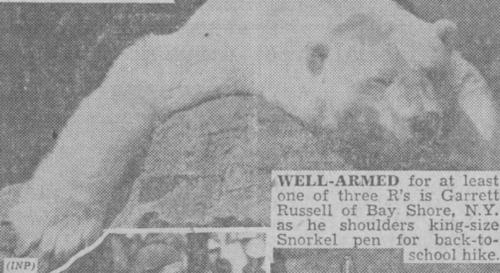

Mr. and Mrs. Leo Eckenrode and children of Hagerstown, visited last Saturday with Lewis Kelly and sister.

Mrs. Richard Topper and daughter have returned home after spending several months with her husband who was stationed at Camp Gordon, Ga. Mrs. Topper expects to join her husband in Massachusetts in the near future.

Mrs. Howard Toms, Lantz, Md., was discharged from the Warner Hospital this week.

People, Spots In The News

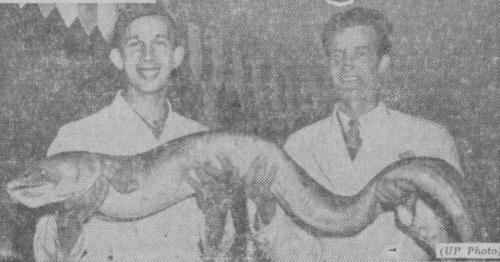

SWITCH—Here's a polar bear that just simply loves sunshine and a spell of warm weather. He's Mischa, of the London Zoo.

WELL-ARMED for at least one of three R's is Garrett Russell of Bay Shore, N.Y. as he shoulders king-size Snorkel pen for back-to-school hike.

DOUBLE action as Little Leaguer Clarence Brumm of Colton, Cal. bubble-gums a big one while peg-ging ball to second!

NO SEA-SERPENT, just a 25-pound eel, makes this armload for Stockholm fish market men. Sometimes eels of this type run to as much as 65 pounds.

LOOKING AHEAD

By Dr. George S. Beach
 SPECIAL - NATIONAL
 EDUCATION PROGRAM
 Henry, Arkansas

From Red Prison-Lands

Good people are slow to believe evils of others. This is a characteristic of Americans who have grown up in an atmosphere of freedom, neighborliness, family devotion and dedication to high Christian ideals. Especially is it difficult for church-going Americans to believe the horrible facts about Communism. The Communists know this and are pleased and aided by it. Herbert Philbrick, the courageous Massachusetts Sunday School teacher who

worked with the Communists leaders nine years before revealing himself to be an FBI counterspy, told me: "The average, healthy American cannot conceive the evil in the unhealthy, twisted mind of a Communist."

In spite of powerful resistance from left wingers and dupes, a number of Congressional committees are continuing to expose to the American people the evils of Communism, how it is engulfing the world, and how it is threatening our own nation through thought-shaping propaganda and its network of spies and saboteurs.

Newest Report

The House Committee on Communist Aggression has sent me its latest report (House Report No. 2650) on a series of interviews it has just concluded with non-Communists

who have escaped from Communists who have escaped from Communist-held nations. The following House members sat in on the interviews, conducted in Europe and America, and signed the report: (Kersten (R. Wis.), Busby (R., Ill.), Bonin (R., Pa.), Hillings (R., Cal.), Madden (D., Ind.), Machrowitz (D., Mich.), Dodd (D., Conn.), and Feighan (D., Ohio.)

"All who testified," the Committee reported, "had one thing in common. They were eye-witnesses. They saw. They experienced. They were there. Most of them suffered the tortures of Communism. They came separately from the different nations enslaved by Communism but with fundamentally the same story: the anti-human nature of life under Communism. The basic conclusions from their cumulative testimony under oath cannot be questioned. It was a tragic parade of witnesses—people from another world, a dreadful world of mass murder, and anonymous graves, of concentration camps, torture prisons, slave labor camps, and ever present secret police; and hatred—hatred beyond the comprehension of us Americans."

Red Brutality

In nation after nation, as they took over, the Communists treated the people brutally. "As soon as the Communist-controlled Red Army infiltrated and dominated as it was by political commissars and elements of the NKVD, entered any area," the report said, "terror, robbery and violations of women and children become the order of the day. The people learned through bitter experience that the Communists would do whatever they wanted to do without regard for any laws, ethics or moral codes. The people also learned that any opposition . . . meant certain imprisonment or death."

Here's another fact about Communism which many Americans find hard to believe: "Mass deportations," our Congressmen report, "are a prime Communist technique of destruction. They serve as a forerunner to a life of misery in a slave or forced labor camp. More than 15 million people are detained in such camps in the USSR itself. Human slavery is an integral part of the economy of the USSR and it is organized on a more absolute, ruthless, and efficient basis than ever before known to mankind. Complete evidence and documentation in the form of maps, charts, and statistics covering this subject have been made a part of the committee's record."

Mass Murder

Another excerpt: "In 1943, after the Communists had been driven out of the Ukraine and that nation was under Nazi occupation, the people of Vinnitsia expressed their concern over the great number of people who previously, under the Communist occupation, had entered the NKVD headquarters. These people were never heard of again . . . this led to an investigation; a total of 38 mass graves were discovered containing of over 10,000 farmers, artisans, workers, and intellectuals . . . This terrible crime of mass murder has become known as the Vinnitsia Massacre. Estimates were given to the effect that more than 200,000 Ukrainians fell victims to this particular phase of Communist mass murder."

What can American citizens do? For years, I have been urging citizens to read reports of all Congressional committees exposing Communism. Read the reports and give your assistance to the loyal, patriotic Americans who are working to develop this information so vi-

tal to our security. Next week, the conclusions of this House Committee, and its recommendations to the President.

RISE WITH POWER UTILITY

Eugene Gordon, Henry H. Startzman, and S. Sydney Bradford were elected vice presidents of the Potomac Edison Co. at the meeting of the board of directors held in Frederick last Friday.

H. H. STARTZMAN

The announcement was made by Potomac Edison Co. President R. Paul Smith and followed the action of the board on the retirement of vice president George S. Humphrey.

G. S. HUMPHREY

S. S. BRADFORD

E. GORDON

Mr. Gordon will serve as vice president in charge of power stations and power generation; Mr. Startzman will be operating vice president, and Mr. Bradford will hold the post of commercial vice president.

WILL DEMONSTRATE FIRE-FIGHTING

A lively demonstration of fire-fighting technique, including a "rescue" of trapped persons at the second floor of Fire Dept. Headquarters, will be staged in War Memorial Plaza, Baltimore, immediately following the parade on Sunday, Oct. 3, which officially opens Fire Prevention Week in Maryland. Deputy Chief Trenner said highlights also include use of "Jumbo," a large fireboat-type nozzle with 250 pounds water pressure. Standing about three feet high, and having a four-inch tip, Jumbo can be attached directly to water lines, eliminating need of hose. Jumbo is operated by one fire-fighter, who controls water pressure with a huge helm-like wheel atop the apparatus.

Other features slated are a drill on an aerial ladder 100 feet in the air, demonstration of use of scaling ladders, known by fire-fighters as "Pompier" ladders, and a rope drill, in which various methods of using rope in fire-fighting and rescue will be shown.

SPORTS FLASHES

from The Sporting News by J. G. Taylor Spink

Now that major league baseball for 1954 is history, club owners look forward to 1955 with one thought in mind—rebuilding. The key word is strength. The Sporting News, through a survey made by their ace writers, gives a picture this week of how the various clubs hope to add that strength.

At least eight major league clubs, headed by the dethroned champion Yankees and Dodgers, are looking for pitching strength. These are the Giants, Cardinals, Cubs, Reds, Athletics and Tigers. Others, like the champion Indians are looking for more hitting power. In this group are the White Sox, Orioles, Phillies and Braves. The Senators and Pirates need infield and outfield replacements, and the Red Sox want to get a shortstop or second baseman.

Most of the clubs that want more hitting power, says The Sporting News, are in a position to give up a pitcher or two to get the men they need. That puts them in a strong position for talking trade.

The Yankees, who will be under Casey Stengel again may make some radical changes next year. There's talk that Mickey Mantle may go to shortstop, to replace the aging Rizzuto, and Yogi Berra going to third. The Yankees have three crack catchers coming up from the minors. The Bombers also need mound reinforcements.

The Dodgers don't seem to be in need of a mass breakup, but they must have a mound stopper. Preacher Roe is aging. Most of the older regulars have had a good season except Roy Campanella, and his hand injury may be thoroughly healed by spring.

The Phillies' big need is for a power hitter to drive in men on base. While several players had fine years at bat, the Phils were about 75 runs behind their production of a year ago.

Manager Lou Boudreau of the Red Sox says the poor showing of his club was a faulty defense. He's looking for a shortstop or second baseman. He may try to lure Billy Hunter away from the Orioles.

The Cardinals had a good hitting club and got fair fielding.

ARE 500,000 MORE HENS EATING

Purina

500,000 more hens here in the East are being fed Purina since we introduced our HIGH EFFICIENCY formula two years ago.

We think the reason for the big shift is very easy to see. Many poultrymen, large and small, have found that Purina HIGH-EFFICIENCY CHOWS made eggs on less feed and less cost per dozen than the lower-efficiency rations they were using.

A test will soon show you the money you may save on Purina's outstanding new formulas. Call us.

HIGH-EFFICIENCY

Martin Bros. Emmitsburg, Md.

THE STORE WITH THE CHECKERBOARD SIGN

But the pitching fell down. There are reports that Red Schoendienst may be offered to the Phillies for Curt Simmons. Or perhaps Jablonski and Hemus may be the bait.

Marty Marion as the new White Sox manager believes he can help his club by building a strong bench. He wants some power to fall back on in the pinch. As for the Chicago Cubs, there are those who feel that a thorough rebuilding is necessary if the club is to be saved from second division.

The Indians, while champions, expect to be stronger next year, because Al Smith will be a regular from the start and they look for better pitching, if that's possible, with the addition of Herb Score from Indianapolis.

The Pittsburgh Pirates, as much as any of them, need strengthening, but prospects are thin because the Pirates have little value on the trading marts. A drastic overhauling seems in order in Washington, which has had nine years in second division. The Senators need two hard hitting outfielders, a second baseman and shortstop. They have fair pitching, and that's not a desperate problem.

Cincinnati needs pitching, and to get it may put a half dozen of its present pitchers on the block. It has a first class infield and outfield, and adequate catching. The Athletics say they'll de-emphasize youth and try to get some oldsters to balance and

give steadiness to the team. They want strength everywhere.

Milwaukee has no desperate situation, but would like a catcher to help out Del Crandall, preferably one who hits left handed. For the Detroit Tigers, the call is for three or four good pitchers, and some long ball hitters. Any one of the clubs would be happy to settle for that.

Your Personal Health

With the first leaves falling from the trees come the first mild attacks of seasonal nostalgia. The attacks seem to increase in frequency and intensity through October and normally come to an end with the first snow.

In children, nostalgia is usually simple homesickness that can come at any season if they are away from home. It is easily cured by returning home. In adults, it is more serious since it takes the form of yearning not

only for the real past but also for what "might have been." The symptom closely resembles those of spring fever. The victim has difficulty giving attention to routine duties. He withdraws, when possible, into solitary brooding. Some cases exhibit severe melancholia.

Attacks often seem to be brought on by close association with dead leaves, as in raking or shuffling the feet through them. Contact with the smoke of burning leaves may seriously aggravate a mild attack of nostalgia.

Too Much Cooking, Too Many Baths Make Roof 'Leak'

Think your roof might be leaking? Maybe it's not. Maybe you take too many baths.

The fact is that often, when a roof appears to be leaking, condensation on the under surface of the roof deck, not holes in the roofing material, is actually the cause.

Asphalt roofing shingles have a long service life and high "weathering" ability. If an inspection of the roofing shows it to be sound, any moisture on the inside of the roof is probably the result of condensation. Moisture from cooking, baths, or air-conditioning, rises with warm air and condenses when it reaches the cold roof sheathing.

Condensation may be minimized by ventilating the under-roof area. Louvers placed high in gables are the customary way of doing this.

A moderate amount of wistful brooding over the past is relatively harmless. It is only when the victim of nostalgia begins to shortchange his own weaknesses—the shortcomings that have prevented him from fulfilling his youthful "dreams of glory"—that his health is really in danger. In this stage nostalgia can become genuinely incapacitating.

To safeguard our mental and emotional health, psychiatrists tell us we need to focus on what is best in ourselves. We must make a conscious effort to recognize and develop the best in our lives and in our personalities. The treatment for a case of seasonal nostalgia will vary with the individual. It may mean a thorough fall house cleaning, an adult education course, a new hobby, or a new hat. In any case it calls for a change of emphasis from the negative to the positive.

changes its shape in response to light and darkness making vision possible.

Except during sleep, your eyes are constantly adjusting to different degrees of light. The switch from bright light to dim, however, calls for an excess of vitamin A.

Fortunately, states the National Dairy Council, there is enough vitamin A in our national food supply so that no one needs to suffer a vitamin A deficiency. But it's important to choose your food wisely, NDC says, if you are to be in tip-top shape.

Rich sources of vitamin A are the dairy foods containing butterfat (milk, cheese, ice cream), egg yolk, liver (especially fish liver oils), and yellow and green leafy vegetables. If your diges-

tion is normal and your diet adequate, there's no other need for vitamin A—in fact, nutritionists say overdosing with highly potent concentrates may be injurious.

The National Safety Council says: "From October through March, more than one-half the day is dark. And in traffic the hours of twilight, darkness and dawn are the most dangerous. In 1953, 55 per cent of all fatal traffic accidents occurred at night."

POWER UTILITY OFFICIAL RESIGNS

Potomac Edison System President R. Paul Smith has announced the resignation of Mr. George S. Humphrey, vice presi-

dent of the Potomac Edison System. The announcement was made following the acceptance of the resignation by the board of directors at their regular meeting on Sept. 24 in Frederick.

Mr. Humphrey will continue to serve as a director of the company and chairman of the West Penn Electric System Engineering and Construction committee pending the completion of a number of large power plant projects throughout the system. Mr. Humphrey had served as

vice president in charge of operations and engineering for the Potomac Edison System since 1928.

HEALTH HORIZONS

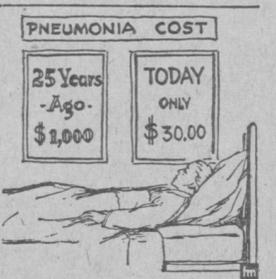

The Cost of Medicine
 The only thing most of us know about medicines is that they seem to cost too much. So you may be surprised as well as enlightened by some facts recently garnered from the magazine, American Professional Pharmacist.

When Pneumonia Cost \$1000.

Do you know, for example, that the price (just in dollars) of having pneumonia twenty-five years ago was about \$1000.—and today it is usually treated successfully with only \$15. to \$30. worth of drugs? In the days before penicillin and other antibiotics, pneumonia meant an average of five weeks in the hospital, plus a long convalescence before you were fit to work. Today the chances are you can be treated at home—no bills for hospital or special nurses—and you will be up and around in a couple of weeks, able to get back on the job.

Penicillin is just one example of the life-saving drugs we wouldn't have today if millions of dollars had not been risked in research. Your pharmacist can fill your prescription of penicillin in a few minutes, but it took several years of research to put that one drug on his shelves. Today every big pharmaceutical manufacturing company supports huge laboratories staffed by many chemists, physiologists, bacteriologists, biochemists, engineers and a dozen other kinds of scientists—and even with all these experts, it may take 1000 false leads to arrive at one useful new drug.

From Test-Tube to You
 When, at last, something that looks promising is found, that's just a beginning. A new drug often goes through a year or two of testing. Only gradually can all the

data required by our drug laws be gathered: information on purity, possible toxicity, correct dosage for various conditions, possible after-effects—and so on, almost ad infinitum. And then there are manufacturing problems, packaging problems (some drugs lose strength rapidly unless properly protected) sometimes requiring newly designed, fabulously expensive equipment.

And yet, unlike almost anything else, the price of some of our most valuable drugs has come down. Ten years ago, penicillin was so rare it cost \$20. a single dose! Now, in some forms, it's a few cents. Spectacular cuts have been made in other drug prices; two famous examples are ACTH and cortisone.

But, for the most impressive reduction of all—just take a look at our death rate for dozens of once-dreaded diseases!

She's In The Chips!

IT WAS INEVITABLE that trick golf artist, Jeanne Carmen, should be honored by the National Potato Chip Institute as "The Girl With the World's Most Beautiful Chip." We are told that while demonstrating her technique with a golden chip iron—given to her by the Institute and shaped like a potato chip of course—Jeanne chipped into 25 chips.

SPORTS AFIELD
 By Ted Kestm

Superstitions, beliefs and legends about dogs are often so closely connected that it is difficult to separate them. But researchers into ancient human behavior have found that some people in every section of the world where man and dog have associated have been superstitious about dogs ever since man adopted some form of worship.

Because the dog was man's first protection against unfriendly people and animals, he became, for many primitive people, a device to drive away fears of real, potential or imaginary evils.

In the superstitions of many peoples the dog figures as both a demon and a protective power or good omen. Many believed that the blood of a dog placed under the threshold was a sure guard against intrusion of evil spirits. And today in sections of the rural South you see many bob-tailed mongrels around the homes of some farmers. The belief still exists among them that if a dog's tail is cropped and the amputated piece buried under the steps of the house, that dog will never run away.

Several of our Indian tribes believed that they could transfer the courage and bravery of the dog to themselves if they ate dog flesh before entering battle. This idea doesn't seem so far-fetched when you consider that Henry P. Davis, sporting dog editor of Sports Afield magazine, has been asked by numerous educated and cultured sportsmen of today if they could cure their dogs of gun-shyness by feeding them gunpowder!

Perhaps the superstition that has the widest range in modern society is the belief that the howling of a dog is a herald of death. There are a number of versions of this persistent belief: Two howls by a dog means a man will die, three howls mean a woman's life; dogs howl when the Angel of Death goes by; dogs see coffins in the air when they howl; a corpse will come from the direction a dog faces when he howls. This is pure superstition of course, yet I have seen brave men shudder at the eerie sound. I don't particularly like it either.

A dog's howl may be caused by a number of things. Canine ears are quite sensitive and high-pitched sounds often bring an immediate baying. Unfortunately for the sportsman, it is often quite difficult to break a dog of the urge to howl.

VITAMIN A SAFETY DRIVING FACTOR

CHICAGO—Plenty of vitamin A is the watchword for safe driving in the fall and winter months ahead, according to the National Dairy Council. If you are even mildly deficient in vitamin A, it could cost you your life!

The mild deficiency, itself, would not kill you—but the impairment of vision which it can cause could make the difference while driving your car, particularly at dusk, or at night. In 1953, 55 per cent of all fatal traffic accidents occurred at night.

How does this vitamin A thing work?

Vitamin A is particularly vital for your eyes to perform "dark adaptation"—the speed with which your eyes adjust when you leave bright light to go into dim light or semi-darkness.

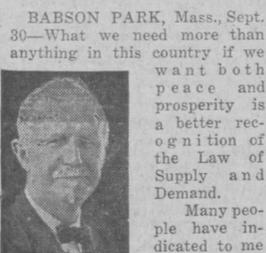

Your ability for this function is put to test every time you pass headlights on an on-coming car. The speed of your sight reaction to a change from light to darkness is related to vitamin A in your diet.

The process of vision is initiated by the vitamin A in your eyes. It is present in the photosensitive pigments in the light receptors of the retina. According to a recent issue of Dairy Council Digests, a technical publication of the National Dairy Council, research has demonstrated that vitamin A actually

BABSON

Writes . . .

By ROGER W. BABSON

BABSON PARK, Mass., Sept. 30—What we need more than anything in this country if we want both peace and prosperity is a better recognition of the Law of Supply and Demand.

Many people have indicated to me in recent months a kind of fatalism about our economic outlook. They seem to feel that prosperity can be maintained only in a war economy.

But a lot of research must be done on consumer attitudes, on finding out what makes people buy, on how to create wants and needs, and how to develop appreciably more effective sell-

ing. This especially applies to all merchants. These are the ones who determine employment and business. I wish I had a \$5 bill for every person I had recently heard say that he would buy a new car if only someone would really try to sell him one.

Lessons From 1929 And World War II

During the peace years from 1929 through 1940, we lost in national output of both goods and services better than \$600 billion when measured by 1953 prices. This was about twice what World War II cost us! Our real trouble during those unhappy years was that the buying power of our people failed to keep pace with our productive know-how. For the Law of Supply and Demand to work freely in peacetime, the benefits of new inventions and new methods must be passed along to the worker in the form of higher wages and to the consumer in the form of lower prices, so that the public will be able to buy the products of our increased capacity.

This surely requires spending more money on advertising. Out of our experiences in two World Wars we have learned that the Law of Supply and Demand, although suspended during wartime, must never be forgotten. We have learned that only by curtailing civilian demand can we meet military needs effectively, and save as many lives as possible.

The trouble comes, however, when we try to return to a peacetime economy without stimulating civilian demand. Your Part In Prosperity

Everybody knows that when the demand for anything becomes great, prices go up until production catches up. Remember what electric refrigerators, radios, and TV sets first cost. Look at the current asking price of color TV! When a smart businessman sees his colleagues making money by the fistful, he gets into the act too.

Then as more goods are produced and more is spent on advertising, prices start to fall, people go out and buy, and more are employed.

Instead of letting business take this course after World War II, government subsidy and regulation tried to keep business good by holding prices high in the face of declining demand. Pretty soon inflation ballooned our whole price structure. The subsequent recession was in part a process of readjustment to this mistaken attempt to keep prices high.

Work For The Consumer

Whether or not we will have another crash depends on the kind of producers and merchants who make up our economy. The way of economic salvation is to work harder, produce better products at lower costs, and then sell harder than ever before. New markets for new products must be developed. When a market is lost, the sales organization had better find another market rather than appeal to the government.

I forecast that research must be encouraged to keep a concern or a city in a competitively strong position—product research, selling research, and consumer research. Salaries must keep pace with the times. The Law of Supply and Demand will require flexibility and adaptability by all of us. But, if we want both peace and prosperity, we will learn how to live under a free working Law of Supply and Demand. This law we can no more change than we can change the weather.

IRELAND'S BEST COMING TO LAUREL

Zarathustra, the best horse in Ireland, will carry the hopes of the Shamrock Isle in the Washington, D. C. International turf race at Laurel Race Course on Nov. 3.

Accepting President John D. Schapiro's invitation, Owner Terrence J. S. Gray this week added his brilliant three-year-old to the field which now includes Queen Elizabeth's Landau and Frank W. Dennis' King of the Tudors. Landau, a three-year-old, and King of the Tudors, a four-year-old, will represent England against opponents from America and other foreign countries in the mile and a half global classic.

There are three classic or Triple Crown events in Ireland for three-year-olds and Zarathustra, named after the founder of an ancient Persian religion, won two of them — the Irish Derby on June 23 and the Irish St. Leger on Sept. 15.

He is a black colt by Persian Gulf-Salvia by Sansovino and is trained at Osborne Lodge on the Curragh by Mike Hurley. As a two-year-old, Zarathustra won three races in five starts. It is expected that another horse from Ireland will be added to the Washington International field shortly.

In all probability, Zarathustra's jockey will be youthful Paddy Powell Jr., who rode him to his two classic victories this summer.

The representatives from France will receive invitations following the running of the world famous Arc d'Triomphe at Longchamp on Sunday, Oct. 3. At present some of the leading candidates from that nation with engagements in the Parisian event are Vamos, Sira Boy, Antares, Tahiti and Sun Cap.

It is probable that the American horses for the Laurel race will be chosen during this week, since the committee of newspapermen which invites the U. S. horses has another meeting scheduled within a few days.

7 COUNTIES HAVE SAFETY RECORDS

During the month of August, there were no traffic fatalities in Caroline, Dorchester, Garrett, Howard, Kent, Somerset or Worcester Counties. There were 48 persons killed in the other 16 counties and Baltimore City.

Four persons were killed in Frederick County and two in Carroll County, the report showed.

The monthly summary of motor vehicle traffic accidents, compiled by the state police statistics division, recorded a total of 2958 traffic accidents investigated by police during the month of August. Two hundred and thirty-four of the accidents involved collision of motor vehicles with pedestrians; 2105 involved collisions of motor vehicles with other motor vehicles; seven involved collisions of motor vehicles with railroad trains; 20 were motor vehicles with street cars; five were motor vehicles with animal drawn vehicle; 76 were motor vehicles with bicycles; 381 involved collisions with motor vehicles with fixed objects; 13 motor vehicles overturned in the roadway; 89 motor vehicles ran off the roadway and 28 accidents were of a miscellaneous nature.

The 48 traffic deaths during August brought the total number of persons killed by motor vehicles in Maryland this year to 331 persons and raised the number of persons injured to 9501. These traffic deaths represent a four per cent decrease in traffic deaths over the corresponding period of 1953.

Col. Elmer F. Munshower, superintendent of the Maryland State Police, releasing the accident statistics for August, stated "It is surely better to take a few minutes longer for a safe drive than to try to cut the time. Seconds saved at the sacrifice of human lives are seconds bought too dearly."

Seeing is Believing

THE EYES OF BEES CANNOT PERCEIVE RED BUT ARE SENSITIVE TO YELLOW, BLUE-GREEN, BLUE AND ULTRAVIOLET.

Can you name him? WHAT ENGLISH SCHOOLMASTER, CHEMIST, AND QUAKER (1766-1844) WROTE THE FIRST PUBLISHED ACCOUNT OF COLOR BLINDNESS, AS A RESULT OF HIS OWN POOR COLOR SENSE?

IF HER EYES SPARKLE MORE THAN HIS, IT DOESN'T NECESSARILY MEAN A ONE-SIDED ROMANCE. WOMEN'S EYES NATURALLY WATER MORE THAN MEN'S.

MANY AMERICAN TEEN-AGERS HAVE VISUAL TROUBLE AS A RESULT OF IMPROPER DIET. EYESIGHT SPECIALISTS CAN GIVE ADVICE ON THIS, SAYS THE BETTER VISION INSTITUTE.

LITTLE THINGS about the Stars

TELEVISION - RADIO - HOLLYWOOD

By GEORGE LILLEY

NEW YORK, N. Y. — "Cavalcade of America," the air's most successful historical dramatic show, returns to television Tuesday nights via ABC-TV. This one, with its brilliantly documented dramas of people famous and little known who have contributed significantly to the growth of America, began as a radio show nearly 20 years ago.

Walcott Mountain Man come prisoner then friend of California's Mexican masters, lead role by Gregory Walcott. "The Great Gamble" — Cyrus Field's attempts, against all odds, to lay the Atlantic cable. "Spindletop" — favored story of the great gusher that brought oil to Texas. "Night Strike" — John Paul Jones' first hostile invasion of England since 1066, lead by Glenn Langan.

Langan "The Jones boy" — favored story of the great gusher that brought oil to Texas. "Night Strike" — John Paul Jones' first hostile invasion of England since 1066, lead by Glenn Langan.

LASSIE COMES TO TV

An old friend of the family, Lassie, has come to television Sunday nights on CBS-TV. Although quite a successful lady now, life hasn't always been easy for her. In fact, like the rags-to-riches story of many another Hollywood star, Lassie was the runt of a litter of five pups and such a disappointment to her first owner that he gave her away to trainer Rudd Wetherwax for her board bill, \$10.

The new "Lassie" show, especially adapted and filmed for TV, is a lively family affair on which she shares a warm and wonderful farm life with 12-year-old Jeff Miller (Tommy Rettig of the movies), his widowed mother and a grandfather, the latter roles by Jan Clayton and George Cleveland. Lassie doesn't try to steal this show, but sparks it into a bright and vigorous half-hour that makes for pretty absorbing family viewing.

GARDENERS MEET

Organic gardeners and farmers met at the home of Mr. and Mrs. Deagon, Barlow, Pa., Sept. 11. The Borage plant, mentioned before, was discussed and some of the plants have been ordered. They are expected to arrive in the near future. Interested non-organic farmers in the vicinity of Gettysburg were given information by the president of the club as to the cost of plant and where it could be purchased. This plant has produced as high as 110 tons per acre per year, green weight.

The next meeting of the club was held at the home of Miss Rueter, near Emmitsburg, last Saturday. Night arrived ahead of club members, so the beauty of the lovely home, and gardens lying at the foot of Carrick's Knob was lost to members. The hostess had the table decorated with garden fresh flowers and a cutting from a large magnolia tree was given each member.

The next meeting of the organization will be held at the home of Mr. Don Richie, Tract Rd., on Oct. 9.

"When the toasts were drunk in Peiping did the Laborites give so much as a thought to the 144,000 U. S. casualties in Korea?"—Philadelphia Inquirer.

Mr. William C. Smith, Pittsburg, Pa., flew here by private plane to spend the weekend.

ARTHRITIS?

I have been wonderfully blessed in being restored to active life after being crippled in nearly every joint in my body and with muscular soreness from head to foot. I had Rheumatoid Arthritis and other forms of Rheumatism, hands deformed and my ankles were set.

Limited space prohibits telling you more here but if you will write me, I will reply at once and tell you how I received this wonderful relief.

Window Units Easy to Use

Buying and installing a wood window is much simpler today than it was just a dozen years ago. The reason is that manufacturers are converting most of their production to complete, factory-assembled window units.

A modern window unit of ponderosa pine consists of the frame, sash, weatherstripping, metal fixtures, and balancing device if the window is of the double-hung type. Screen and storm sash are also available as part of the unit. All parts fit together as if they were made for each other—which they are.

The advantage of a unit over separately installed frame and sash is that the fit is more snug, and operation smoother, thanks to factory precision methods which cannot be duplicated on the job. Ponderosa pine units pass rigid laboratory tests for air infiltration under wind pressures up to 50 miles per hour.

SJHS News

Glee Club officers for '54-'55 were chosen by club members last Friday. Those elected were Virginia Joy, president; Ellen Rocks, vice president; William Greco, secretary - treasurer, and Jean Watkins, librarian.

William Greco, '53-'54 president of the athletic association introduced Prof. Dominic G. Greco, director of the association, who presided at the first SJHS Athletic Assn. meeting Tuesday. Prof. Greco gave a short informal talk to the student body in which he spoke of the athletic association as a functional unit of the school program and stressed that the basketball teams can be maintained only by the spirit and cooperation of the student body.

Election of officers resulted as follows: president, William Greco; vice president, Michael Joy; secretary, Eugene Rosensteel, and treasurer, Jo-an Watkins. John Roddy was chosen student manager.

After elections Prof. Greco introduced Dr. John J. Dillon, athletic director of Mt. St. Mary's College and head coach of SJHS boys' team. Dr. Dillon asked that the students send a large representation to each game thus adding to the moral support of the players. The aim of the association is to have every student a member of the association by purchasing a season ticket which are now on sale. "But, win or lose," said Dr. Dillon, "the test of our education and family training is how we behave when we're away, and we must keep in mind that wherever we go, we represent St. Joseph's High School." Prof. Greco then introduced the '54-'55 coaches of the boys' team. They are Lawrence Horning and John Pantalone, who are both juniors at Mt. St. Mary's College.

Year IV, III, and II students have the privilege of having as religious instructors on Tuesdays and Thursdays three deacons from Mt. St. Joseph's Seminary, Mr. John Keough, Mr. Robert Grace, and Mr. Robert Nestor.

Home Accidents To Be Recorded

The Frederick County Health Dept., in cooperation with the Home Accident Prevention Unit of the Maryland State Dept. of Health, has inaugurated something new in the gathering of home accident facts. Under this program, hospital and public health nurses are giving full support in the county-wide study of home accidents resulting in injuries serious enough to require hospitalization.

Hitherto home accident facts have been restricted to those resulting in death alone, so that the home accident picture hasn't been a complete one.

In outlining this project, Dr. Forbes H. Burgess, county health officer, stated that arrangements have been made with the Frederick Memorial Hospital, where by the County Health Officer will be notified of the admission of patients requiring hospitalization as a result of injury sustained in a home accident. Upon notification, a public health nurse will visit the patient either in the hospital or at home if he has been discharged, in order to gather pertinent facts relative to the accident and its cost. The information sought includes the nature of the injury, what the person was doing at the time the accident occurred, duration of treatment, cost and other pertinent data, also to determine if the accident could have been avoided. Such information will be necessarily treated as confidential, Dr. Burgess emphasized.

On the basis of National Safety Council figures, 29,000 persons met death as a result of accidents in their homes during 1953, and an estimated 4,350,000 suffering non-fatal accidents in the home.

Soroptimist Club Meets

Mrs. Hazel Caldwell, president, presided at the meeting of the Soroptimist Club held in Frederick last Wednesday evening. Miss Louise Sebold introduced the guest speaker, Mrs. A. M. Wasilifsky, a member of the faculty of St. Joseph's High School.

Mrs. Wasilifsky described the trip she and members of her family made to Lavale University, Quebec, Canada, during the summer. She, her husband, a professor at St. Joseph College, and their three children spent six weeks there.

Fairfield Vet Returning Home

Cpl. Stanley E. McIntire, son of Mr. and Mrs. Joseph H. McIntire, Rt. 2, Fairfield, Pa., is returning to the States after serving with the 2nd Transportation Port Command Co. at Yokohama, Japan.

McIntire, who has served as a clerk in the adjutant general division, was last stationed at Camp Breckinridge, Ky. He has been in the Far East for 16 months.

The first car race was from Paris to Rouen in 1294.

To Gain Space, Connect House With Garage

Is your house too small? A type of remodeling it might be suited for is shown in the sketch. It's often possible to gain a new room or two by connecting the house

AFTER

with the garage. With several ponderosa pine windows to admit lots of light and air, this is a good location for a family recreation room or play room for children. Wood sash and frames can be painted to match older construction.

MISS BESSIE A. MARTIN
Miss Bessie A. Martin, 79, former resident of Thurmont, died Wednesday morning at the National Lutheran Home for the Aged, Wash., D. C. She was the daughter of the late Joseph V. and Jennie Staub Martin of Frederick County and lived most of her adult life in the vicinity of Creagerstown and Thurmont. She was a member of the Creagerstown Lutheran Church.
Surviving are a brother, John

J. Martin and a nephew, Joseph Martin of Waynesboro and a niece, Mrs. Helen Schiveiger, New York City.

Funeral services will be held this afternoon at 1:30 p. m. from the Creagerstown Lutheran Church and interment will be made in the church cemetery.

MRS. FRANK TORTORO

Mrs. Anna M. Tortoro, wife of Frank Tortoro, died Wednesday at her home in Thurmont. For-

mer residents of Baltimore, the family had lived in Thurmont about three years. She was a member of Our Lady of Mt. Carmel Catholic Church at Thurmont.
Besides her husband, Mrs. Tortoro is survived by a son, Francis, and two brothers and a sister residing in Massachusetts.
Funeral services and a requiem Mass will be intoned this morning at 10 a. m. in Our Lady of Mt. Carmel Church, by Father Vincent Tomalski. Interment will be made in the Holy Redeemer Cemetery, Baltimore.

Miss Dorothy Fitzgerald, daughter of Mr. and Mrs. Frank Fitzgerald, Emmitsburg, has been elected secretary of the junior class at St. Joseph College. Miss Fitzgerald is majoring in home economics. During her two years at St. Joseph's, she has been active in the Dramatic Club and Home Economics Club and has played on the varsity basketball team.

HERE'S HOW . . .

MAKE A SHOE SHINE BOX

Dad and son should work together in making the shoe shine box. In addition to easing one household problem by providing the boy with his own handy polishing outfit, it gives dad a chance to teach a lot of basic carpentry.
From the drawings below, the box dimensions and assembly are easily understood.
As a training project, the job can utilize saws, screw-driver, hammer, nail set, chisel,

brace and bit, plane, sand paper, and paint brush.
The lumber used is all 1-inch material. All joints should be glued as well as nailed, using 6-penny finishing nails.
The box should be finished by sanding and rounding all sharp edges, then stained or varnished to make it an attractive, as well as a useful, piece of furniture for the boy's bedroom.

National Lumber Manufacturers Association

AT THE MAJESTIC THEATRE, GETTYSBURG

Jane Powell, determined to make gentlemen out of her husband's rowdy and unkempt brothers, gives them an ultimatum—"No cleanliness, no chow!" Howard Keel, her husband, does not appear in the scene with "brothers" Jacques d'Aboise, Jeff Richards, Russ Tamblin and Tommy Rall. It's from MGM's boisterous new musical "Seven Brides for Seven Brothers," filmed in CinemaScope now playing through Saturday, Oct. 2, at Majestic Theatre, Gettysburg, Pa.

Spotlight on HEALTH

New Drugs For High Blood Pressure

Several drugs developed in the past few years give the 16,000,000 high blood pressure (hypertension) victims in the United States a better chance of living with a condition which, if allowed to go unchecked, can lead to severe heart, brain and kidney damage and even to death.

Two of the new drugs have proven particularly valuable in the control of this disease. One is a refinement known as reserpine from a crude root used for centuries in India for a score of ailments.
The second drug is hexamethonium chloride, a compound discovered in Europe which was administered only by injection until an American pharmaceutical firm succeeded in producing it in tablet form.

Reserpine is believed to lower blood pressure by its calming effect upon the central nervous system. It slowly lowers mildly elevated blood pressure. The drug has few side effects and it has been useful in mild cases or as the initial treatment in severe cases—largely because of its tranquilizing effect upon the patient.

Hexamethonium chloride, the single most potent drug available now, operates on the "roadblock" concept by preventing the transmission of pressure-raising im-

pulses across key nerve centers. It lowers blood pressure quickly in most cases and often relieves many of the disturbing symptoms associated with advanced high blood pressure.

Most promising results for the patient are now being reported by physicians using the two drugs together. It appears that the calming effects of reserpine make it possible to obtain the marked reductions in blood pressure brought about by hexamethonium with low doses of the latter drug. Physicians report that this new method minimizes side reactions and permits greater comfort for the patient.

Although the primary cause of high blood pressure is unknown in 90 per cent of cases, when the disease is diagnosed early, the patient can often be helped by a general slowing down of activity and perhaps by diet. In severe cases, surgery, in which certain nerves are cut, has helped some patients.

Drug treatment, however, is the most widely accepted method once the physician considers the condition a serious medical problem. Not only is this method effective, but it is less disruptive to the patient than dieting and considerably less drastic than surgery, which can't be undone even when it doesn't work.

WASHINGTON AND "SMALL BUSINESS"

Many around Washington claim but for the weight of 80 birthdays, another "Bull Moose" movement would emerge headed by Herbert Hoover.

Observers claim recent events have recalled ex-president's GOP Convention speech two years ago. In fact, speech has been printed to meet demand for copies.

Yet, paradoxically the ideals and precepts voiced by Hoover at that time, plus his comments in C.W. Harder Iowa on his 80th birthday bear little, if any resemblance to nation's course during past 22 years.

But many looking at \$70 billion in foreign aid since the war, an amount equal to one-fourth the national debt, are asking what has been gained from the \$70 billion plus billions now being spent.

For example, a delegation of British party barely out of power, recently had high old time in Moscow, filled with pleasant cocktail hours.

This is akin to unthinkable situation that would result if next month Democratic Party leaders toured Moscow bars with Malenkov & Company.

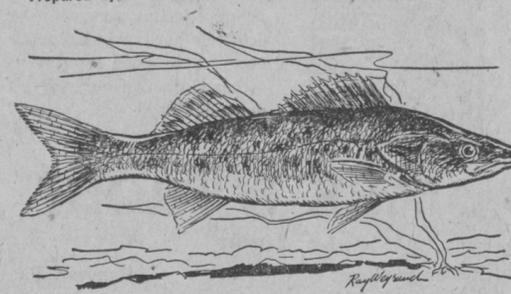

France's new premier torpedoed European Defense Community toward which more American effort and many dollars were expended.

Bright new word is "Co-existence". Actually, trade road

MARYLAND WILDLIFE

Prepared by the MARYLAND GAME & INLAND FISH COMMISSION

WALLEYE (Stizostedion vitreum)
Also called Pike-Perch and Walleyed Pike.

RANGE: Extends well into Canada, and in Mississippi Valley and Great Lakes Basin; its range has been extended by transplanting; the only waters in Maryland inhabited by this species are the Susquehanna River from the Pennsylvania line south to the river's mouth, and in its tributaries occasionally; although it has been stocked in Triadelphia and Loch Raven Reservoirs few if any walleyes are taken from these waters.

DESCRIPTION: Color varies with environment; generally a dark olive green on back, body with a decidedly yellow cast; pink on fins; two clearly separated dorsal fins, which is a characteristic of the perch family to which the walleye belongs; has large, glassy eyes from which it derives its name; strong teeth; average size about 4 pounds; world record 22 pounds 4 ounces.

FEEDING: Does not prepare nest, the eggs being dropped in shallow water where they hatch in about 3 weeks in a water temperature of about 50 degrees F. One female may deposit as many as 60,000 eggs. Spawn in spring.

HABITS: Prefers deep, clear water; inclined to congregate in schools so where one is caught there should be others; feed mostly on fish but will take crawfish, frogs and blood worms; feeds largely at night coming in from deep water to shallow water; will take artificial baits which should be fished deep.

MANAGEMENT: Readily propagated artificially and can be successfully reared and planted in suitable waters.

VALUE: An excellent fresh water food fish and ranks next to lake trout and whitefish commercially in the Great Lakes Region; supplies good sport to some anglers in Maryland although the territory it inhabits is very limited.
