

## Most Anything At A Glance

BY ABIGAIL

The Emmitsburg Grange's move to have the sale of alcoholic beverages banned on Sunday appears to be gaining momentum as it was learned this week that the Pomona Grange also has adopted the resolution and is about to bring pressure to bear on state legislators to stop the flow of booze on Sundays. You can get a lot of arguments either for or against this matter and as I am not an imbibing lady I am not getting tangled up in the situation. It doesn't make a bit of difference to me whether they drink the suds Sunday or let 'em go flat until Monday. You can expect a lot of debate on this subject in the near future.

Just a word of caution to those of you who will enter the fields and woods in search of game Monday when the annual small game season gets under way. Take extra precaution the first several days as the woods are full of all kinds of people. We haven't had too much trouble with indiscreet shotguns in this vicinity in the past decade or so, but you never can tell. Keep your eyes open and dress in the proper fashion so that you are easily identified and observe the safety rules and you'll be here to enjoy Thanksgiving and Christmas.

Since the hot summer weather has departed most of us are prone to forget about about the water scarcity. Just think back a ways and you'll remember that that drought still is plaguing us. A trip to Rainbow Lake will help you to understand the seriousness of the subject. Let's not kid ourselves that it can't happen here. It can and it is. While the present quantity on hand is better than at the same period last year, we have no assurances that any forthcoming rains will alleviate the conditions now present. It is imperative now that we practice as much conservation on the use of water as possible before we are faced with dire consequences. No fooling folks, supplies are dwindling and a dry winter could be disastrous.

A bit of advice to those residents who once more are burning leaves on the new macadamized road in town. The heat from the fire can and has damaged certain spots about the town. Warnings were issued last year about this custom and the practice was pretty well discontinued, but it appears that some have forgotten the advice. You can be held liable for any damage to the highway that might occur. Let's stop it before somebody is sorry.

Interest is keen in the appearance of the new cars this time of the year and dealers report that good turnouts are being recorded. New Chevrolets are on display at Sanders Bros. Garage and the new Ford makes its debut today at Sperry's. They're right nice vehicles, ladies and gents, better drop in and see 'em.

Prospects for a brilliant season seem likely, reports Doc Dillon on the Mount St. Mary's College 1954 basketball squad. You know the boys are state champs and must defend the title this winter. Practically unharmed by last summer's graduation, the new coach, Jim Phelan, reports he has a formidable lineup of veterans backed up by an unusually good crop of newcomers, mostly freshmen. One thing is certain, and that is unless I am wrong, you'll be treated to some darn good games this winter at the Mount gym. Here's hoping for another crown, boys.

## Show New Fords Today

The premiere showing of the new 1955 Ford cars and trucks in the Emmitsburg district will take place all day today at Sperry's Garage, here. Ford dealers since 1927, Sperry's plans an "open house" all day and invites the public to view the new models. Trained salesmen will be on hand to explain the new features of the vehicles.

## Speedster Is Caught After Wild Chase

A local young man was apprehended and arrested after a wild chase through mountainous terrain last Saturday afternoon, when the car he was driving crashed and was completely demolished.

Police Chief Daniel J. Kaas spotted the youth, Leonard M. Trent, 19, in the Rainbow Lake reservoir section and knowing that he was operating on a revoked driver's license, decided to arrest him. Aware that the police car was a short distance behind, Trent made an effort to evade arrest and began traveling at high speed over the rough dirt road. Chief Kaas began pursuit and at one time both cars were approaching 70 miles per hour over the rough road. The chase continued over a distance of about a mile and a half when Trent's car struck a jetting rock which caused the car to veer across the road, run up the opposite bank and return nose-down to the roadway, rolling over twice, and completely demolishing the vehicle.

Trent was knocked unconscious by the overturn but was not injured. He was extricated from the wrecked car by Chief Kaas and was brought to town under arrest and appeared before Magistrate Charles D. Gillelan, who set a hearing date for Saturday morning.

Trent is charged with operating on a revoked license and attempting to avoid arrest by fleeing and reckless driving.

## Drill Team Is Money Winner

The Francis X. Elder Post, No. 121, American Legion, drill team and color guard participated in the Veterans Day parade held in Brunswick last Sunday. The unit won first prize of \$30 for appearing as the best marching veterans organization. The affair is an annual one and was very largely attended.

Drill team members who participated were Everett Chrismer, George Danner, Sterling Goulden, Charles B. Harner, Maurice Koontz, Robert Myers, T. Eugene Rodgers (drillmaster), Joseph Rodgers, Jack Rosensteel, Louis F. Rosensteel (secretary), Andrew T. Shorb, Vincent Tomper, Leo Tomper, Donald Tomper, Carol Tomper, Curtis D. Tomper, Edgar Wastler, Eugene Sprankle, William Weidner, John Hollinger Jr. and Clifford Eyer.

## To Participate In Marian Event

The Rev. David W. Shaum, director of music at Mount Saint Mary's College and Seminary, will participate in the Marian Convocation to be held at the Catholic University of America, Nov. 15 and 16.

Father Shaum, a student at the university, will appear on the Marian music panel to discuss the Antiphons of the Blessed Virgin as found in the Divine Office. Members of the Mt. St. Mary's Seminary and Schola will accompany Father Shaum and sing the various hymns.

## Auxiliary Card Party Tuesday

Twenty-seven members of the local VFW Auxiliary were present for the regular monthly meeting of that group held last Thursday evening at the post home, Mrs. Robert E. Daugherty, president, presiding.

Guest speaker for the evening was Mrs. Viola Warner, president of District No. 7 VFW Auxiliary of Maryland, who spoke briefly outlining the splendid work being done by the Department of Maryland. The speaker was accompanied here by Mrs. Garnet of Westminster, Md.

Final plans for the benefit card party to be held Tuesday night at the post home were discussed. The affair is open to the public and lovely prizes will be awarded the winners and delicious refreshments will be on sale. Play starts at 8 p. m.

The auxiliary will serve the meal for the Lions Club's 25th charter anniversary on Nov. 22. The chairman of the kitchen committee is Mrs. Helen Sanders and Mrs. Anne Stoner is chairman of the diningroom committee.

The door prize for the evening was won by Corrine Grindler.

## Lions Club Will Observe 25th Anniversary Soon

Plans for the observance of the 25th anniversary of the Emmitsburg Lions Club were thoroughly discussed last Monday evening at the regular meeting of the organization held in the Lutheran Parish Hall, President J. Ralph McDonnell presiding. J. Ward Kerrigan and Philip B. Sharpe, committeemen in charge of the silver anniversary which will be held Monday, Nov. 22, in the VFW Annex, disclosed that a Lions International speaker had been obtained and that an orchestra had been engaged. It is the aim of the committee to have at least 125 members and guests present at the affair.

Secretary Robert E. Daugherty read a letter from the Ford Motor Co. publicity department which offered the use of films which depicted what's new in farming and machinery. The club agreed to make use of the film at a future date.

One new member, Paul W. Claypool, co-partner in the Emmitsburg Tire Center concern, was admitted.

The Mount St. Mary's Glee Club has been invited to sing at the Dec. 13 meeting of the Lions Club. President McDonnell appointed the following committee in charge of the annual Kiddies' Christmas Party to be held the 24th of December: Herbert W. Roger, chairman, Clarence E. Hahn, Charles F. Troxell, and Philip B. Sharpe.

## Accounting Is Asked Of Partnership

A bill of complaint for receivership and accounting in the operation of a \$20,000 Emmitsburg district farm has been filed in Equity Court, Frederick, by Mr. and Mrs. David Tilson against Harry Prongas, Emmitsburg.

The plaintiffs, through their attorney, Robert E. Clapp Jr., say that in 1950 Tilson and Prongas formed a partnership for the purchase and operation on the farm on the Old Frederick Rd. about four miles south of Emmitsburg, with each to share equally in the profits. They were close personal friends, it was stated, and there was no written agreement executed.

At the time, the bill of complaint said, Prongas was expecting a foreign assignment in connection with his occupation and agreed that the farm would be conveyed to the Tilsons and supervision taken over by Tilson during his (Prongas) absence. The purchase price was \$20,000.

Pursuant to the agreement, the Tilsons say, he began supervising operations. The farm operated at a loss each year and was kept in operation only by loans executed by the Tilsons. These mortgages loans and accounts now are about \$30,000, he said.

Upon the return of Prongas to this country, he quarreled with Tilson about the partnership affairs, accused him of "mismanagement and worse," the bill states, and in the spring of 1954 moved into the dwelling house on the premises and took over the operations, which he since has carried on as if his own, the complaint says. Tilson said he has been denied information about the partnership affairs.

He said Prongas has failed to pay the debts of the partnership, although he has received partnership funds, has appropriated these funds to his own use and threatens to sell machinery and farm equipment. Tilson said he had an audit of operations made by a certified public accountant for the time he supervised the farm.

The Tilsons ask that a receiver be appointed, an accounting made and an injunction issued to prevent Prongas from appropriating to his own use the funds and property of the partnership or selling or disposing of the same. An order was signed by Associate Judge Patrick M. Schnauffer directing Prongas to show cause by Nov. 25 why relief should not be granted.

## ANNOUNCE ENGAGEMENT

Mr. and Mrs. Irwin W. Miller announce the engagement of their daughter, Charlotte Dolores, to Raymond J. Lingg, son of Mr. and Mrs. John Lingg, both of Saint Anthony's. No date for the wedding has been set.

The New York Daily Graphic was the first illustrated daily newspaper.

## Mount, Champs, Open Court Season Sat.

Coach Jim Phelan's Mount St. Mary's College basketball team which opened drills on Oct. 25, gets down to rough work on Nov. 13 and 14 when the Mountaineers face the Aberdeen Ordinance team boasting the two ex-Seattle stars, Johnny and Eddie O'Brien in the season's first scrimmage sessions.

The Sunday scrimmage will be a preview for the press in which the new Mountaineer outfit will display its wares for area sports writers and broadcasters attending Press Day on the Mount St. Mary's campus.

On Nov. 19 Phelan will take his team into familiar surroundings when the cagers tap off against the Quantico Marines at Quantico in an exhibition game. It was at Quantico that Phelan gained new laurels after stardom at LaSalle. As a member of the Marines, Phelan led the Devil Dogs to the Marine finals and was named most valuable player in the tourney. On Nov. 23, the cagers close their pre-season work with a scrimmage against Lebanon Valley College.

While Phelan is making his debut as head man of Mount St. Mary's basketball, nine lettermen including five starters and the top four reserves from last year's Mason-Dixon championship team have another season of play. Topping the list is big Sal Angelo, 6'4" pivot man twice an All-Conference and All-Tourney center; Jack Sullivan, who won All-Conference and All-Tourney honors last year as a freshman; Bill Stanley, an All-Tourney choice as guard, and Frank Smith, second team All-Tourney. Forward Charley O'Donnell who missed last year's Tourney because of an injury is back as a reserves. Frank Swaine, Ed Bals, George Donohue, and Jack McGrath.

## Firemen Buy 2-Way Radio For No. 2 Engine

Thirty-two members were present for the regular monthly meeting of the Vigilant Hose Co. held Tuesday evening in the Fire Hall, President Herbert W. Roger presiding.

Chief John J. Hollinger reported that Engine No. 1 had two-way radio system and that another for Engine No. 2 has been ordered and will be installed in the near future.

Four new members were admitted to membership. They were Ronald Kelly, Dale Deatherage, Brown McNair, and Arthur Dammuth. The applications for membership of Dr. Joseph Baldacchino Jr. and Cloyd W. Seiss were received and will be acted upon at the next meeting.

It was announced that another shooting match will be held at the Emmitsburg Civic Assn. grounds on Sunday, Nov. 21.

President Roger appointed the following committee to be in charge of Christmas decorations: Franklin Wastler, Carroll Willis, and Sterling White.

Fire Chief John J. Hollinger announced that 18 members are enrolled in the 20-week basic fire-fighting school and 19 more enrolled this week. Classes are held in the Fire Hall every Thursday evening at 7:30 o'clock, under the supervision of trained personnel from the University of Maryland Extension School.

## MRS. SHRIVER HOSTESS TO HOMEMAKERS CLUB

Mrs. Ernest R. Shriver entertained members of the Emmitsburg Homemakers Club last Thursday with Mrs. Estelle Watkins co-hostess. Mrs. George Eyster told of the United Nations trip and the club voted to pay half the expenses of a delegate. It was decided to send wrapped Christmas gifts to the Victor Cullen Hospital at Sabillasville.

A nominating committee composed of Mrs. J. Ward Kerrigan, Mrs. Lewis Beall and Mrs. Charles Harner was named. Miss Smith and Miss Bussard from state and county health departments discussed maintaining family health. Members taking part were Mrs. Marshall, Mrs. Eyster, Mrs. Bell and Mrs. Kerrigan. They were four new members. Mrs. John Roddy, Mrs. Gerald Oroz, Mrs. Don Waters and Mrs. Carlos Englar.

Games were played and refreshments served.

## New Telephone Directories Out

The new 1954-55 telephone directory for Frederick County is being delivered this week, according to an announcement by R. P. Heck, local manager for the Chesapeake and Potomac Telephone Co.

According to Mr. Heck 22,000 copies of the directory were printed. The familiar cover showing the spirit of communication, has been replaced with a new design showing long distance rates. There have been about 7,000 changes in the listings since the previous issue, he said, and an increase of four pages or 600 additions.

Referring to the continued expansion in the county's telephone system, Heck said: "Telephones in Maryland have now exceeded 834,000 and growth is still going ahead at a rapid pace with continuing demand for new installations. The number of telephones served by the new Frederick County directory has increased over 300 in the past year, it was said.

Mr. Heck emphasized as there have been so many changes in telephone listings since the last issue of the directory, it would be wise for customers to verify all numbers before calling and recommended that personal telephone number booklets, the Blue Book, are available at the company's business office without any charge.

## Emergency Hospital Will Close

No more patients will be admitted to the county-operated Emergency Hospital after Nov. 30, pending action of the new board of County Commissioners, concerning possible continuation of the institution as a county chronic disease hospital.

The statement was made on Tuesday following a meeting of members of the old commissioner board with representatives of the State Health Dept.

U. Grant Hooper, president of the old board said the county is only "following out the edict of the State Board of Health requiring the county to close the hospital." The state board took action early last summer in ordering the hospital closed, and later extended the time from October to November 30.

No admissions of any kind will be permitted after that date, although patients in the hospital at that time will be cared for. Certain structural changes must be made by the county if the building is to be operated after that date as a county chronic disease hospital, or infirmary.

Regardless of any action by the new board of county commissioners, the Emergency Hospital after Nov. 30, will not qualify as a state-aided hospital and the appropriation will be transferred from the county institution to Frederick Memorial Hospital. An appropriation based on the need for patients held in the hospital until Dec. 31 will be made by the state.

After Nov. 30 all maternity patients will be taken care of at Frederick Memorial or other hospitals serving the county area, according to representatives of the State Dept. of Health. No more maternity patients will be handled at the county hospital.

Mr. Hooper said the old board will apprise the new commissioners of the visit on Tuesday and will make tentative arrangements for a visit to the county hospital to consider the necessary improvements for the building to meet state minimums.

## Thanks

The president and officers of the Mt. St. Mary's College Glee Club wish to express their sincere thanks to Mr. and Mrs. Guy Baker, Sr., Mrs. Marie C. Rosensteel, Miss Agnes Case, the Emmitsburg Chronicle, the Veterans of Foreign Wars, the Vigilant Hose Co., the merchants of Emmitsburg and adjacent communities—in a word, to all, who gave, and who braved the elements to make our Evening of Games the success it was.

Mr. and Mrs. J. Ralph McDonnell have sold to Mr. and Mrs. Grant J. Long a property on W. Main St., with improvements. Consideration was around \$4500.

The ghost of Anne Boleyn, one of Henry VIII's wives, is said to walk around the Bloody Tower of London.

## OBITUARIES Roads Board Filled By Democrats

LLOYD E. HOLLINGER

Lloyd E. Hollinger, 56, formerly of Waynesboro, Pa., died at the Franklin Farms, Chambersburg, Pa., at 11:55 a. m. Sunday. He was born in Clearspring, Md., a son of the late Samuel C. and Lillie M. Trumpower Hollinger and was a mechanic for the G. C. Midower Co., and a member of the Hagerstown Lutheran Church.

The deceased is survived by three sisters and a brother: Mrs. Frances Kellar and Mrs. Dorothy Brandt, both of Baltimore; Mrs. Leola Cuff, Philadelphia and John J. Hollinger, Emmitsburg, Md.

Funeral services were held on Wednesday afternoon at 2 p. m., conducted by Rev. Philip Bower. Interment was made in Mountainview Cemetery, Emmitsburg. S. L. Allison, funeral director.

## MRS. AMY FOX LONG

Mrs. Amy Fox Long, widow of Charles H. Long, died last Sunday morning at the home of her daughter in Rocky Ridge, aged 88 years.

She was a daughter of the late Ephraim and Lana Ridge Fox. She was the last of her immediate family. Since she was 12, she was a devoted member of the Evangelical and Reformed Church.

Surviving are six sons and daughters, Edgar H. Long, Reisterstown; Ms. Beulah Wagner, Dundalk; Mrs. Lucy W. Wetzel, Rocky Ridge; Mrs. Minnie C. Rhodes and Mrs. Thelma A. Stone, Frederick, and Theodore R. Long, Keomar; 12 grandchildren and 16 great-grandchildren.

Funeral services were held Wednesday afternoon at 2 o'clock with Rev. Edouard Taylor officiating. Interment in Mt. Tabor Cemetery, Rocky Ridge.

## MISS MARY E. MOTTER

Miss Mary Elizabeth Motter, formerly of the Taneytown section, but for the past 13 years a resident of 1905 East 31st St., Baltimore, died Tuesday at St. Joseph's Hospital, Baltimore, following a week's illness, aged 77 years.

Miss Motter was a daughter of the late William and Mary Humbert Motter and for 65 years was a member of Elias Lutheran Church, Emmitsburg.

Surviving are three brothers, Elwood Motter, Taneytown; Harry Motter, Illinois, and Charles Motter, Emmitsburg.

Funeral services will be conducted this afternoon (Friday) at 2 o'clock, Rev. Philip Bower, officiating. Interment in Mountain View Cemetery. C. O. Fuss and Son, funeral directors.

## Police Department Issues Tips On Safe Driving

Chief of Police Daniel K. Kaas who dislikes gambling on general principles, warned this week that probably hundreds of persons in the Emmitsburg District are big time gamblers without realizing it.

"They're the motorists who gamble their lives on a guess that maybe it won't snow or freeze until next week," Chief Kaas said.

"They put off getting their cars ready for winter until after the snow is on the ground. That can be a fatal mistake—just once."

November snowstorms, the chief added, can be more hazardous to motorists than January blizzards, because they come unexpectedly and find many motorists unprepared, both mechanically and psychologically.

"If you want to gamble that it won't snow," the chief says, "there's no law against it. But it snowed last winter and the winter before that, and it looks to me like a poor bet."

He urges every motorist in Emmitsburg to observe the following safety rules—now!

- 1) Don't blame accidents on the weather; be ready for bad weather.
- 2) When snow comes, get the "feel" of the road before starting out.
- 3) Keep the windshield clear of fog and frost, and be sure headlights, windshield wiper and blades and defrosters are working.
- 4) On snow and ice, use tire chains. They cut stopping distance in half and give 4 to 7 times greater traction.

## Roads Board Filled By Democrats

The political complexion of the Frederick County Roads Board will change from Republican to Democrat when the three newly-elected County Commissioners take office December 1.

Members of Boards of County Commissioners automatically become members of the Roads Board by virtue of their office. The present Roads Board alignment is six Republicans and two Democrats.

After December 1 the Board will be composed of five Democrats and three Republicans. The commissioners are Austin Renn and Clyde Smith will be the Democrats and Republicans will be Charles R. Fuss, Clark O. Rutzahn and Harvey H. Werkling.

There can be no further change as far as the division of the parties is concerned during the next four years since the law provides that at least two of the five appointive members of the board must be of the minority party and that is the present setup.

The new members of the county board will receive higher salaries than the members of the old board when they take office. A legislative act passed some time ago increased the salary of the members of the board from \$1,500 to \$2,700 a year. But it couldn't take effect during the term of the commissioners then in office. So the salary boost will become effective December 1.

Each commissioner also receives \$600 a year for his duties in connection with the county roads system which will increase the salary to about \$3300.

## Grange's Anti-Beer Bill Gains Momentum

Acting on a recommendation of the Emmitsburg Grange, Frederick County Pomona on Saturday passed a resolution opposing the further sale of alcoholic beverages on Sunday in this county.

The action highlighted the quarterly meeting of the parent Grange held at New Market.

The resolution as adopted urged that Sunday sales be prohibited by law because the present practice increases traffic hazards, spurs rowdiness and general lawlessness within the county.

Copies of the resolution were ordered sent to the newly-elected State Senator and members of the House of Delegates for consideration in the approaching session of the General Assembly.

**Master Elected**  
Earl E. Remsburg, Buckeystown, long prominently identified with Pomona and Carroll Manor, was elected Master to succeed Bruce E. Crum, who completed his four-year tenure. Other officers elected are: William Burall, New Market, overseer; Catherine Roderick, Mt. Pleasant, lecturer; Jack Lakin, Jefferson, steward; Lester Moser, Thurmont, assistant steward; Frances Danner of Middletown, assistant lady steward; Harry Kanode Carroll Manor, chaplain; Edgar G. Emrich, Emmitsburg, treasurer; Cathryn Eaves, Glade Valley, secretary; Charles King, Ballenger, gatekeeper; Ethel Franklin, Linganore, Ceres; Charlotte Roberts, Braddock, Pomona; Myrtle Bell, Lewistown, Flora.

## Taneytown Boy Placed In Corrective School

A 14-year-old Taneytown boy is serving a one-year sentence at the Maryland Training School for Boys, near Baltimore. The youth was picked up by Taneytown Chief of Police Robert L. Koontz on Oct. 25.

The boy admitted a number of petty robberies and said he broke into five homes in Taneytown. He also took \$40 from a dairy in Taneytown and \$50 from a woman's handbag in one of the local stores. He also admitted setting fire to the Francis Shaum barn last August and again in October.

He was tried before Judge Roland Westminster, Carroll County juvenile judge, and sentenced to the training school.

## How About That!

We've come a long way since early American women made their own dyes and spent back-breaking hours of dipping and wringing over steaming kettles.

Today, home-dyeing is easy, quick and inexpensive. All-fabric dyes in over 50 colors work on every fabric, including nylon and acetate. Bulky things go into the washing machines, which do the job for you. Now even plastic printed shower curtains, as well as plastic eyeglass frames, pearls and slipcovers, can be dyed with all-fabric dye, says Tintex Home Economics Bureau.

## How To Help Your "Man" Buy a Suit

Since nine out of ten women influence the suit-buying decisions of their husbands, here are authoritative tips by the American Society of Designers on the fine points of proper fit every woman should know, to help a man select his suit and insure good appearance and long-wearing values.

This is your objective—a suit that combines correct, made-to-his-individual-measure fit, with comfort, casual elegance and good looking appearance.

Select the type desired from large assortment of made-to-measure fabrics.

Make sure fabric is becoming by draping it over one shoulder.

(Left) Exact, individual measurements should be taken by a skilled, made-to-measure craftsman. (Center) Trousers leg cuff should barely touch top of shoes. (Right) Coat sleeves should show only one-fourth to one-half inch of shirt cuffs. Details such as these help achieve proper fit.

Check fit and ease of coat as wearer raises and bends arms naturally.

Suggest knee bends to test trouser leg width and seat fullness comfort for him.

## FOREIGN ADDRESSES ARE CHANGED

The Dept. of Defense has requested that hereafter the phrase "c/o Postmaster" not be used on mail addressed for delivery through overseas APOs.

The address on mail intended for members of the Armed Forces or civilians receiving their mail through overseas APOs should be

confined to three lines, if possible, the last line to show the APO number followed by the name of the postoffice as, for example,

Pvt. Willard J. Roe, RA 12356789 Company F, 167th Infantry APO 801, New York, N. Y.

Zachary Taylor, 12th President of the United States, was a second cousin of the fourth President, James Madison.

**BABSON**

Writes . . .

By ROGER W. BABSON

BABSON PARK, Mass., Nov. 11—Last week the Babson Organization celebrated its 50th Anniversary. Famous speakers and about 2000 clients, friends, and guests were present. Readers have seen references to these addresses in the press, but I

Excuse me, but this pesky cold keeps hanging on. The Boss can't seem to figure out that Ar-Sulfa is what I need. Within 2 days Ar-Sulfa controls infectious coryza (known to us chickens as a cold). Nasal discharge disappears, death losses go down when birds get Ar-Sulfa in the water. These colds are no fun . . . Ahhhhh Choo! You can buy Ar-Sulfa where you see . . .

have saved my remarks exclusively for this column of my 418 newspaper clients. Here is the story:

**Turned Down At Monte Carlo**

When I last visited Monte Carlo, Monaco, to look on as a spectator, I was required to give my business card before entering. The only card I had referred to me as a statistician. As a result, I did not get into the gambling casino. I tried a second third time, but with no better results. I then went to the general offices of the company to find out the reason why I was not admitted. This is what I found:

The French government had learned that the German Chiefs of Staff, just before the German armies collapsed in 1945, had made marked studies in what is known as Psychological Strategy. It is said that this is what enabled the Germans to nearly break through at the time of the famous "Battle of the Bulge," which was stopped by Montgomery and Patton. The super-super mathematicians of Germany had figured out in advance that it would be possible to break through at that time, in view of what the American generals were thinking and counting upon.

**What the French and Russians Are Doing Today**

The French are now making great progress in such studies. It was because of these known studies that the "Bank" at Monte Carlo was becoming frightened of statisticians and mathematicians. I now learn that the U. S. Navy and Air Force have taken up these studies, with the help of the Princeton Institute for Advanced Study. In fact, from this Institute, President Eisenhower has just taken the super-duper mathematician John von Neuman and appointed him to the Atomic Energy Commission.

While these super-super mathematicians have been studying how to ascertain what the Chiefs of Staff of enemy armies are thinking and planning to do, a group of younger mathematicians led by J. C. C. McKinsey have been studying games — from poker to chess. McKinsey has even written a book on the subject entitled "Introduction to the Theory of Games." Next to the possibilities of uranium, this ability to figure out in advance what your enemy is going to do is the hottest subject in Washington today.

**Forecasting Business And the Stock Market**

The past 50 years I have given to the study of charts, tables, earnings, and other tangible records of past events. From now on my able associates, who now know more about such things than I do, will carry on this orthodox work. I will devote the next 50 years to the study of the fundamentals.

While the super-super mathematicians are learning how to tell what enemy Admirals, Generals, and Strategic Boards are thinking and going to do, I want to learn what consumers, investors, and labor leaders are thinking and what they are going to do. This will enable me and my successors to forecast correctly what business, commodity prices, and the stock market will do. It will also enable the forecasting of style changes, political events, and even crime waves.

What the Result Will Be  
Most present forecasting will be scrapped. The stock market will then fluctuate only a little more than the bond market does today. Individual corporations, separate industries, and even some localities will continue to suffer from the Law of Cycles. These will have their big "ups and downs" but, with this advanced knowledge, the National Business Cycle will be flattened out.

Remember: Newton's Law of Equal and Opposite Reaction does not state when the reactions will come or how big they will be. His law simply says that to the extent that we go above normal—mechanically, chemically, socially, politically, and economically—we must rest a corresponding amount in area. This will continue to be true.

Recent visitors at the home of Mr. and Mrs. Louis Rosensteel, E. Main St., were Mr. William Rosensteel, Baltimore; Mr. and Mrs. George C. Constantine and family, Silver Spring, Md.; Mr. and Mrs. T. Eugene Rodgers and children, Fairfield; Mr. William Rodgers and Richard Rosensteel.

Mrs. Lottie Ruby, Baltimore, spent the weekend at the home of her son and daughter-in-law, Mr. and Mrs. Robert Myers.

In 1692 Judge Samuel Sewall sentenced 10 women to death in witch trials in Salem, Mass.

**Liquid Fertilizer Producing Higher Yields**

More than 300 farmers, county agents, future farmers and other interested parties recently inspected results of fertilizer test plots on field corn conducted on four Ohio farms. The tests were supervised by Dr. V. A. Tiedjens, research director for the "Na-Churs" Plant Food Co. of Marion, O., which sponsored the field day event.

Purpose of the test plots was to determine the value of liquid fertilizer applications both as foliage sprays and ground application as compared against check plots with no fertilizer.

Liquid fertilizer yielded 157 bushels per acre where one and one-half gallons of liquid 10-20-10 was used in the row, and the check plot 110 bushels on one of the test farms. The liquid application cost about \$4.25 per acre.

In another test, foliage spray of liquid fertilizer was responsible for yields of 146 bushels and 151 bushels per acre as compared with a yield of 116 bushels on the check plot.

Mr. B. Peterson, founder of the "Na-Churs" Plant Food Co., declared the results of these tests to be one more definite reason why farmers should investigate the possibilities of using liquid fertilizers to grow field crops. Mr. Peterson pointed out that the company has seen tremendous strides in the use of liquid fertilizer since beginning operation in 1946. "We have pioneered the use of liquid fertilizers on farm crops," he stated, "and today we are the only company issuing a written guarantee of crop profits on an agricultural fertilizer."

**Pensioners Will Be Able To Earn More**

Beginning next year, a person drawing social security benefits can work and earn as much as \$1200 during the year and still receive a social security check for every month in the year. Before the law was changed the self-employed person was allowed \$900 earnings in a year without loss of benefits, while the person working for wages was limited to \$75 a month. If he earned even one cent over the \$75, no benefit was payable for that month. In fact, these two limitations, \$900 for the self-employed and \$75 for the wage earner, are still in effect through the rest of 1954.

After 1954, if you are under age 72, the \$1200 limit applies. Earnings from all kinds of work must be counted whether or not

the work is covered by the social security law. Once you reach the age of 72 the benefits are payable regardless of how much you earn.

If you should work next year and earn over \$1200, you will lose one month's payment for each \$80 your total earnings exceed the \$1200. For example: If you should earn \$1500, you would lose four months' benefits but you could be paid for the other eight months. No deduction is made for any month in which you neither render substantial services nor earn as much as \$80 regardless of your total income for the year. Thus you could earn \$2400 by working 10 months of the year and still be paid benefits for the two months that you had no earnings.

A representative of the Hagerstown Social Security Office is in Emmitsburg the last Monday of every month at 1:30 p. m. at

**Rocky Ridge Items Of Interest**

Mrs. Carrie M. Pittenger spent last Thursday evening with Mrs. Alice Stout, of Woodsboro.

A number of residents attended the Halloween parade at Hanover, Emmitsburg and Frederick last week.

Mrs. Hilda M. Wilson and children, Taneytown; Mrs. Dorothy V. Cavell and son, Dennis, of Frederick, and Mrs. Cora Setherley and sons, Gary and Carl, Rocky Ridge, spent Sunday with Mrs. H. M. Pittinger.

Mr. and Mrs. Ray Wachter and children, Detour, spent Sunday with Mr. and Mrs. H. A. Smith.

Mrs. Harvey M. Pittinger spent Sunday with her daughter, Mrs.

John N. Cavell, Frederick. Mr. and Mrs. Charles Eyer and Mrs. John Hahn spent Thursday evening with Mr. and Mrs. Charles F. Eyer and family.

The 4-H Girls of Rocky Ridge will hold a fair on Nov. 27 at the Fire Hall at 7:30 p. m.

Jane E. Reck, daughter of Mr. and Mrs. Ralph R. Reck, was recently inducted as an associate member of the Argonaut Society at Western Maryland College, a honorary scholastic fraternity, for having maintained a better than B average in her studies.

Iceland has no railway.

**Announcing new FORD TRUCKS for '55... the Money Makers!**

Money-making **POWER!** Important longer-life engine advancements! The **only** full line of **proved**, modern short-stroke engines in **any** trucks! New work-saving, money-saving **CONVENIENCE!** New money-making **CAPACITIES!** New reasons why Ford Trucks are gaining new buyers faster than any other trucks!

**POWER STEERING** is standard at no extra cost in this new Ford T-800 tandem-axle BIG JOB. Modern, short-stroke, 170-h.p. Cargo King V-8, GVW 40,000 lbs., GCW 60,000 lbs.

**NEW savings in all three areas! TRIPLE ECONOMY!**

① **Money-Making power saves gas!**

**ONLY FORD** gives you the gas-saving efficiency of **proved**, modern short-stroke design for every engine! Ford's ultra-modern, overhead-valve engines—four V-8's and one Six—cut piston travel, cut internal friction, **save gas**. And new engineering in valves, heads, crankshafts, electrical systems and cooling, results in still greater durability!

② **Money-Making convenience saves work!**

**FORD'S Driverized Cab** sets new comfort standards for '55! New full foam-rubber seat and seat back in the **Custom Cab\***. Work-savers . . . like smoother **Fordomatic\*** with new faster starting, low-gear "step-down" for all light duty series . . . Power Brakes\* even for half-tonners . . . Power Steering\* for most **BIG JOBS**—make driving easier.

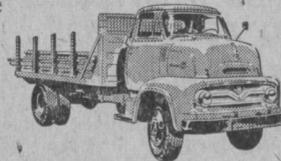

\*Modest extra cost

③ **Money-Making capacity saves trips!**

**NEW** axle capacities and new springs, coupled with Ford's high-payload construction, make Ford Trucks better load carriers than ever. Ford's new 1/2-ton Pickup, for example, has one of the biggest payload capacities of **any** Pickup: 1,718 lbs. Ford gives you top payload capacities in over 190 models, ranging up to 60,000-lb. GCW tandem-axle giants.

**NEW Payload Champ of the Pick-ups!** New Ford F-100 6 1/2-ft. Pickup, GVW 5,000 lbs., now takes payloads up to 1,718 lbs. 132-h.p. V-8 or 118-h.p. Six engine.

**NEW higher power and compression** in all light and heavy duty series Ford Trucks! Show us: C-600 Cab Forward, GVW 16,000 lbs. Choice of two proven V-8's.

**See the 1955 Money Makers Today!**

Camera Topics

With Babies, a Yawn's Often Good for a Smile

"BABY" by J. H. Troup of Harrisburg, Perm. This prize-winning picture was made with a Ciroflex twin-lens reflex camera and multiple flash.

BABIES—even blase babies who yawn in your face—make wonderful photo fare. But don't always try to catch baby in a smile. He has his moods, like all of us. Some of the best baby pictures show junior in a far from cheerful mood. Don't forget that babies are cute even when they scowl.

The bored youngster above, who's probably just about decided on an afternoon siesta, illustrates this point. Highly competent photography has aided in recording his unabashed yawn for posterity. The setting was arranged, but arranged naturally. The wooley blanket made a perfect prop, and the black backdrop prevented background distraction from creeping in, at the same time providing a vivid contrast with the baby's head. Delicately balanced lighting made the baby's soft, chubby body "come alive."

In photographing baby with flash, supplementary sidelighting units are very valuable, according to T. T. Holden, photo director for Graflex, Inc., Rochester,

N. Y. Especially with dark backgrounds, sidelighting or back-lighting will give sharp delineation of the subject and a realistic "third dimension" to your photograph.

Floodlights may be used with excellent results but, Holden points out, care should be taken not to keep them trained on the baby for too long a period. Diffusers should be used on the reflectors for two reasons: the softer light will flatter the baby's tender skin, and the reduction in glare will protect his eyes. Even so, the baby should be placed in position and focusing should be done under ordinary incandescent light. Have someone snap on the floods just long enough for you to take the picture.

Finally, don't keep your young subject posing too long. In professional work, posing time limits for babies are strictly enforced. Follow this practice at home. At first, it's a game to him, but he quickly tires of it. Then he begins to yawn and fidget. That's your signal to snap that one last photo and be gone.

Give Yourself a "Brake:"

Bad Brakes Found to Cause 3 of 10 Auto Deaths

HIGHWAY safety statistics show that the most important fluid in your automobile is the most tragically misunderstood by the majority of motorists. Three out of 10 deaths on the highways, say safety authorities—and nearly half of all non-fatal accidents—are caused by bad brakes.

The life-line of your brake system is the hydraulic fluid in it. About one-third of the brands of brake

"Few car owners realize that most auto manufacturers recommend an annual change of brake fluid. This is particularly essential during the winter period, when uneven brakes applied while driving on icy roads can cause serious accidents."

J. W. Alexander, General Service Mgr., Willys Motors, Inc.

fluid used for replacement on the market today are inferior and dangerous, according to a recent study by a leading car manufacturer. Poor fluids may boil, freeze or corrode the mechanism of the brake system. Best advice is to insist that your service man when replacing brake fluid uses one from a package bearing the inscription: "Meets or Exceeds SAE Specification 70R1" (or "70R2"—"R1" designating heavy duty fluid, "R2" medium duty fluid in specifications of the Society of Automotive Engineers).

Here is what the experts say:

"I am sorry to report that the SAE Specifications have not been used as expected. We still find dozens of brands of so-called brake fluids on the market made by using cheap alcohols (ethyl, methyl and isopropyl) with boiling points of less than 180° F."

F. J. Markey—Chairman, Brake Fluid Committee of Society of Automotive Engineers

John I. Wheeler, Automotive Engineer Du Pont Company

America is confronted today with a Communist-Socialist force which has as one of its primary tactical goals the undermining of young America's respect for our basic principles and institutions. For years, as this force has expanded its strength and effectiveness in nation after nation have been urging that American citizenship education be made a part of the educational program in every school and college in the nation, as the best defense against the Communist-Socialist plan to capture the minds of our youth.

During the preceding several weeks this column has discussed a number of splendid and encouraging developments in American citizenship education. Since the column series began two top officials of one of the major textbook companies have visited with me and some of the faculty members of Harding College in Searcy, seeking suggestions for a series of school readers being prepared for grades four through eight. The readers will help to teach reading, and at the same time they will get across to the children some of the important facts about the great advantages of the American system and how the system works to provide these advantages.

Positive Teachings Needed
It is heartening to see these present activities in a number of textbook companies. Teachers throughout the country long ago noted the absence of adequate textbook materials with which to teach the favorable facts about America and the responsibilities of American citizenship. They will welcome the new materials—if interested citizens will see to it that they are brought to the attention of the teachers and school board members.

This is positive education in Americanism—through textbooks featuring the positive advantages of citizenship under the American system. It is the kind of education we've desperately needed. A generation of youth armed with the true facts about our nation's freedom and its unmatched living standard will not be vulnerable to the subtle persuasions of the Communist-Socialist propagandists and their conscious or unwitting dupes. Reds Use Neutrals.

For 10 years the people of California have been conducting studies and investigations of various aspects of education in their state, including infiltration by the Communist-Socialist forces. A committee of the State Senate recently issued its eleventh report on education in California. The committee, composed of members of both political parties, pub-

Trucker Forced To Hit Parked Car

Maurice E. Koontz, Emmitsburg, told Gettysburg borough police that at about 3 o'clock last Tuesday morning, as he was driving an empty truck west on York St., a car drove out Fifth St. forcing him to veer sharply to the right and strike a parked

car. The parked car is owned by Paul W. Helwig, 503 York St. and was parked in front of his home. Damage was estimated at \$200 to the left front fender, door, and side, of Helwig's car, and \$175 to the bumper and fenders of Koontz' truck. Koontz could give no description of the third car, which continued without stopping.

standards of countries in which totalitarian rulers hold sway. We should give a plain, understandable and emphatic testimony to our youth on the merits of American institutions, and it is the proper function of the instructors employed by the State to do that clearly and positively."

# SPORTS AFIELD

By Ted Kesting

Lots of people, particularly women, do not like meat from any of the deer tribe. They complain that its gamey taste is too strong and they try to make it more edible by horribly over-cooking it.

When people react this way to venison, you can bet the animal

was not butchered properly at the right time or the meat was not cared for in the right way afterward.

Sometimes a buck or bull shot at the height of the rutting season is not fit to eat. Also a gut-shot animal that has run a long distance before falling will not make good venison. But otherwise, given proper and timely butchering and care, all venison should taste good to even the most critical.

Usually venison does not taste like our domestic meats. Moose venison, you can bet the animal

Mountain sheep always tastes somewhat like mutton. But deer and caribou have a delicious taste of their own; there is nothing strong or gamey about it.

When you shoot a large animal, it is useless to rush in and "cut its throat" or stick it in the chest to "bleed" it. Col. Townsend Whelen explains that a modern bullet so disrupts the chest or abdominal cavities that they fill with blood almost immediately, and little or none of this blood will come out if the throat is cut. However, the blood should be drained out as soon as possible. If the animal has been gut-shot, it is important to remove all trace of intestinal juices.

The best meat is always from an animal that has been killed by a chest shot, and if you want the best venison, practice marksmanship. Putting your bullet well into the chest cavity is no more difficult than hitting a bucket, and with modern high-velocity expanding bullets, it always means a quick kill with the animal dropping within 100 yards.

For venison as venison should be, tell your chef to cook it just as he or she would domestic meat, but preferably on the rare side. The tougher portions, neck, and lower hams, can be used for stews. The ribs are best broiled very quickly over charcoal or a wood fire so you almost burn the outside, but leave the inside almost raw. Do not use salt until the very end.

## Pimlico Spotlights Two-Year-Olds Saturday

Two-year-old fillies will hold the spotlight at Pimlico this week-end, with the Marguerite Stakes scheduled on Saturday. All indications point to a share amounting to more than \$35,000 if a dozen start.

Among the leading contenders in this important event for the young fillies are Star Mount Stable's Vestment, Main Chance Farm's Myrtle's Jet, Hasty House Farm's Alspal, Tom M.

## Children To Offer Blood Samples In Polio Fight

"Thousands of children whose blood contains the secret to the effectiveness of the Salk polio vaccine will begin trooping to clinics throughout the country this month to give blood samples needed in evaluating the vaccine," former U. S. Senator George L. Radcliffe, state chairman of the March of Dimes, announced this week.

It is expected that approximately 40,000 children in 217 areas in 44 states will line up once more as the nation-wide field trial of the vaccine moves into its final phase. Two previous samples were taken earlier this year.

In his statement Mr. Radcliffe said, "Polio-fighting volunteers from the National Foundation for Infantile Paralysis will join forces with local and state health officials in the blood sampling project. Specimens will be taken from children inoculated with the trial vaccine as well as from those who received a placebo or 'dummy' shot."

The children's blood samples will aid scientists in measuring the "persistence" of disease-fighting antibodies induced by the trial vaccine. Antibodies are microscopic entities in the blood which help to protect an individual from disease.

The report on the vaccine field trials is scheduled to be finished next spring.

The Cape to Cairo Railroad was completed in 1918.

Girdler's Gambetta, Darby Dan Farm's Errasina, Charlton Clay's Lea Lane, Claiborne Farm's Delta and Brookmeade Stable's Gandharva.

Next week will find older fillies and mares staging the Gallorette Stakes on Wednesday while on Saturday, Nov. 20, final program of the meeting will be highlighted by the 18th running of the Pimlico Special.

## Navy Offering New Training Course

High school seniors and graduates have only until Nov. 20 to apply for the Navy's college training program, it was announced this week. Candidates who apply for the NROTC will take the qualifying mental examination on Dec. 11 as the first step in the competitive cycle leading to an appointment as midshipman.

Successful candidates will start their Naval careers in colleges and universities across the country in 1955, with substantial financial assistance from the government. After a normal college education, graduates will be commissioned in the Regular Navy or Marine Corps, for active duty with the Fleet throughout the world.

Male citizens of the U. S., between the ages of 17 and 21 are eligible to apply for the NROTC aptitude test. Persons who attain a qualifying score will be given the Navy's rigid midshipman examination next February. From the pool of qualified candidates remaining in competition, approximately 1800 young men will be selected for appointment to the NROTC, and the college of their choice.

Students enrolled in the Regular NROTC program will spend their summers on training cruises with the Fleet and will receive \$600 annual retainer pay until commissioned. In addition to the normal college curriculum, the midshipmen will study a planned course in Naval science. All tuition, fees, and books will be furnished by the Navy.

Applicants in this area can obtain necessary forms from the nearest high school or Navy recruiting station, or by writing direct to the Chief of Naval Personnel, Washington 25, D. C.

## Babson Comments On Election

BABSON PARK, Mass.—Naturally, the Republicans are much disappointed by last Tuesday's election results. It, however, shows that the Eisenhower "Millionaire Cabinet" does not understand politics. Frankly, there is no reason why these able businessmen should be experts on political matters any more than Congressmen should be able to successfully run steel, coal, or automobile companies. During the two years when I was Assistant Secretary of Labor, I learned that politics is a profession. Big businessmen, big lawyers, big bankers, and big generals have not been trained for getting votes. I forecast that President

Eisenhower will soon recognize this and make changes in his Cabinet and his advisors.

As to the effect of the election on business, I am not disturbed. This is too big a country to be upset by these election results. The election means only a delay in remedying some of the New Deal errors. In the meantime, less money will be spent by large companies for expansion, but more money will be spent by wageworkers in the dime stores. Both Democrats and Republicans will work for less unemployment

Thomas Sanders, son of Mr. and Mrs. Robert Sanders, left on Monday to make his home in Phoenix, Arizona.

**BAZAAR SCHEDULED**  
The Elias Lutheran Church annual pre-Christmas bazaar will be held on Saturday, Dec. 11.

between now and 1956. There will be no World War III during 1955. All in all, I forecast no great changes—certainly neither a "boom" nor a "bust."

### THANK YOU VOTERS!

I am deeply grateful for the confidence you have again placed in me in electing me your State Senator. I will strive conscientiously and diligently to merit it. My earnest desire at all times will be to serve the best interests of all our citizens.

JACOB R. RAMSBURG

**Your Personal Health**

**THE RIGHT TO CHOOSE**

You look out the window and watch your teenager hurry off to school with his books under his arm. What will he choose to be when he grows up "Doctor, lawyer, merchant, chief, tinker,

tailor, soldier, sailor—" On the surface he seems to be thinking only about football and girls, but underneath he's probably giving serious thought to his future.

In our country, a boy doesn't have to follow in his father's footsteps unless he wants to. There are thousands of different kinds of work to choose from, and he has a right to choose the kind that will give him the most satisfaction. But it takes more than just choosing. It takes ambition, education, and experience. And it takes good health to be able to get that education and

experience and to follow a career successfully. This is one part of his preparation for the future where you can really help.

One of the enemies that could prevent him from making a free choice of a career is tuberculosis. TB no longer kills young people at the terrifying rate it did in the past, but it attacks thousands every year. And when it attacks it may mean not only a long period of treatment. It may also mean a new way of life to prevent a recurrence of the disease. If TB strikes, your boy may no longer be able to

follow the calling of his choice, if it requires too much physical

strain. TB is caused by a germ. A

healthy body can usually fight the invading germs to a standstill. You can help your boy keep well by seeing that he eats properly and gets enough sleep, rest, and exercise in the fresh air.

Despite precautions, a heavy invasion of TB germs may defeat the body's defenses, and tuberculosis may begin its slow and silent development. Since TB has no warning symptoms in its early stages, it is harder to find before it has done serious damage than some other diseases. Doctors advise young people over 15 to have a chest X-ray once a year to make sure that TB does not get a head start. Your boy may think it's "sissy stuff" to go for a medical check-up when he feels perfectly well. You can

**SPECIAL SERVICES**

Special services at the Elias Ev. Lutheran Church for Nov., will include the opening of the Preaching Mission Sunday, with the pastor preaching at the 10:30 a. m. service and Rev. Dr. Harvey D. Hoover, mission preacher, speaking in the evening at 7:00 o'clock. The mission continues through Friday, Nov. 26 at 7:30 o'clock nightly.

The annual Every Member Financial Canvass will take place Sunday, Nov. 28 at the 10:30 service.

The Community Thanksgiving Service will be held Thanksgiving Day at 10 a. m.

persuade him that a few minutes in a doctor's office now isn't much to pay to help his dreams for the future come true.

**WASHINGTON AND "SMALL BUSINESS"**

By C. WILSON HARDER

It becomes apparent drive to destroy U. S. protective tariffs is spearheaded by same old crowd of internationalists who moved into Washington after Herbert Hoover.

It is a coalition composed of those who seek huge profits and fronted by self-anointed messiahs who feel their life's mission is solving world's problems even at cost of last American dollar. An organization called Committee for a National Trade Policy is very active in Washington. Its president, Charles Taft of Ohio politico clan, appears before Tariff Commission sessions rebuking manufacturers who seek relief from ruinous cutthroat foreign import competition. On the side many call Taft's group The Amalgamated Golden Goose Slayers.

The U. S. is the golden goose. Containing less than 7% of world's population, it consumes goods than rest of the world.

But significantly, U. S. richness as a consuming market is not due to any corner on world's resources, nor from pillaging of colonies.

The market was built by natural workings of protected free enterprise. With less than 7% of world population, but with 4,000,000 independent enterprises, U. S. has more business firms than rest of world combined.

U. S. State Department is said to be strongly behind tariff-wrecking move as it is panicked by European industrialists

claims that unless they can dump goods in U. S. they will have to sell Russia. That's why many feel a "no nonsense" leader such as Douglas MacArthur should take over State Dept.

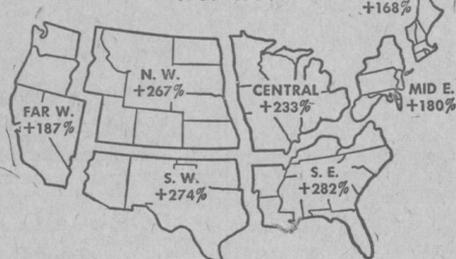

The facts are, as publicly stated by many leaders, Marshall Plan, other give-away programs costing U. S. taxpayers billions were so successful, European production capacity is far above pre-war level.

Yet, as always, European production is controlled by cartels with independent enterprise eliminated. And while U. S. dollars were poured into these monopolies to increase their production the cartels took no move to develop new consuming markets.

Yet if some disaster wiped out populations of United States, the U. S. S. R. and all Red China, there would still remain 62% of world's population that now comprises a market so undeveloped it is incapable of consuming but a fraction of U. S. consumption with less than 7% of world's population. British empire alone contains four times more people than in U. S. yet British Industrial cartels don't know where to sell their goods unless permitted to dump them into U. S.

The richness of the American market is based on the grounds that everybody is both a producer and a consumer. The only contribution government has ever made to this richness is enforcing fair play at the market place through anti-trust laws, and to protect American labor and business from imports of slave labor produced goods. All any European nation faced with the need for expanded markets needs to do to solve the problem is to send a few cents to U. S. Printing Office for copies of U. S. anti-trust laws.

Carlisle Street - Gettysburg, Pa.

PHONE 242-Z

The handsome, new, multi-million dollar clubhouse at Pimlico which will be seen by turf fans for the first time when the Baltimore racetrack opens its 15 day Autumn meeting on Thursday, November 4.

Mrs. William H. Yox of Reisterstown, is spending some time visiting her sister, Mrs. Charles Hemler, St. Anthony's.

Sunday visitors at the home of Mr. and Mrs. Roy Wivell were Mr. and Mrs. Charles Wivell of Hagerstown, Mr. and Mrs. Joseph Wivell and sons, and Henry Wivell of York, Pa.

Airman Third Class Donald E. Wivell has completed a 24-week study of aircraft and engine mechanic training at the Sheppard Air Force Base, Texas. He is now spending a 15-day leave of absence at the home of his parents, Mr. and Mrs. Roy Wivell.

After his furlough he will report to McConnell Air Force Base, Kansas.

A daughter was born Wednesday to Mr. and Mrs. Shriner, Emmitsburg, at the Warner Hospital, Gettysburg, Pa.

Michael Boyle and Gene Pecher have returned home from Pittsburgh, Pa., after spending several days with Mr. and Mrs. Fred Boyle and family.

Kathleen Wantz returned to Baltimore Wednesday after spending several days with her parents, Mr. and Mrs. Harry F. Wantz.

Mrs. Landon Edwards and chil-

dren, Lanny, Mary Jo, and Thomas Joseph, Richmond, Va., are spending several weeks with her mother, Mrs. Valerie Overmann.

Charles E. Baker, U. S. Marine Corps, Parris Island, is spending a furlough with his parents, Mr. and Mrs. Guy Baker.

Mrs. Minnie Hays was admitted as a patient this week to the Warner Hospital, Gettysburg.

Mr. William Hays, Waltham, Mass., visited friends and relatives here this week.

Mr. James Shields, Harrisburg, Pa., was a recent visitor here with friends and relatives.

**FARM CENSUS**

**GETS UNDER WAY**

Field work in the 1954 Census of Agriculture got under way locally on Nov. 8 when a force of enumerators started visiting every farm in the area, according to Field Supervisor R. L. Snodgrass of Baltimore.

Farm census questionnaires have been mailed to all farm operators. The enumerators will visit all local farms to collect the questionnaires and, if necessary, assist the farmer in filling out the report form.

The 1954 Census of Agriculture is the 16th in a series of nation-wide farm enumerations, the first of which was conducted in 1840. The Census of Agriculture is taken at five-year intervals to provide up-to-date statistical information about more than five million farms which supply food and raw materials for manufacture of goods used by the people of the U. S., now numbering about 162.5 million. The current census will yield information on the number and size of farms, acreage and harvest of crops, livestock production and inventories, selected farm facilities and equipment, and selected farm expenditures.

Field Supervisor Snodgrass emphasized that all information about individuals and their farm operations furnished to the Census Bureau is held in absolute confidence under Federal law. It is used only to provide summary figures such as totals, averages, and percentages. The information on an individual report cannot be furnished to any one other than sworn Census employees and thus cannot be used for investigation, taxation or regulation.

**FUNERAL SERVICE**

Funeral mass for Mrs. Pauline E. Rosensteel, who died last Wednesday at her home in Emmitsburg, was held at St. Joseph's Catholic Church Saturday morning at 9 o'clock with Rev. John D. Sullivan, celebrant. Pallbearers were Andrew Kugler, Clarence Eyer, Andrew Shorb, Fred, William, and Junior McCleaf. Interment in church cemetery. S. L. Allison, funeral director.

**MARYLAND FARM FRONT**

Many of the questions Maryland farmers ask about new farm legislation deal with price supports, according to George J. Martin, chairman of the Maryland Agricultural Stabilization and Conservation Committee.

One of the most common questions is, "Will crop loans and purchase agreements still be available for 1955 production, even under the new price support plan?"

Chairman Martin answers this with a brief "Yes."

Another common question is: "Do all basic crop price supports drop to 82 1/2 per cent of parity for 1955?"

In answer to that, Martin quotes U. S. Dept. of Agriculture spokesmen who say that "there is no basis in fact to the charge that price supports would drop out from under basic agricultural commodities" in 1955.

"Department spokesmen have said that necessary moderate adjustments will be made gradually, and in line with realities of the supply situation," Mr. Martin states. (Under existing law, supports on basic commodities can be set at or anywhere between 82 1/2 and 90 per cent of parity.) Supports will depend on supplies of the commodities involved, but as of now (mid-November) the picture for 1955 with regard to the basic crops wheat and corn looks like this: Wheat—supports have been at 82 1/2 per cent of parity, or a national average of \$2.06 per bushel. Corn—supports are expected to be at about 88 per cent.

Another recurring question has to do with price supports for 1955 small feed grains such as oats, barley and grain sorghums.

In reply to this, Mr. Martin points out that Secretary of Agriculture Benson in a recent press conference in Washington said no decision had yet been made in connection with small grain supports. Such a decision, he said, would be made only after final crop reports are in, and after further study of the current drought situation.

**SJHS News**

A record is made to be broken and Mike Miller, star player on the boys' varsity basketball team, broke his own record when he missed his first basketball practice in his four years with the SJHS team on Monday afternoon. Besides Mike, other outstanding and familiar faces will be seen on the floor as the boys play the National Guard from Frederick on Tuesday, Nov. 23, in the school auditorium. This is the first home game and the varsity lineup will be as follows: William Greco, captain, Robert Gelwicks, Floyd Miller, Michael Toy and Thomas Stoner. See you all at the game?

A play which will feature Maria Kramer as a young boy who wishes to become a missionary doctor in Africa. He depends upon sums of money from a rich aunt to see him through medical school as his mother cannot afford to do so. While the play is humorous, the mission idea is still carried across. Leading roles are held by Marie Sanders, John Roddy, James Wetzel, Lois Sanders and Mary Jane Scott. Many of these students have participated in other dramatic presentations at CSMC meetings.

The history and different methods of making cheese as shown by famous Hollywood stars were depicted in the movie, "The Cheese Family Album," Tuesday. Beautiful costumes and the historical background supported much to the Freshman's class appreciation of the film.

Juniors received their SJHS class rings Tuesday morning and the green gleam of the stone can be detected on every student's finger.

The first-year art class are decorating all bulletin boards and cork strips in the school. This will be a huge undertaking, but the boards are well on the way to completion.

Third-year Biology class viewed the Technicolor film: "Realms of the Wild," Wednesday. The film, produced by the U. S. Dept. of Agriculture, clearly depicted the necessity for balance of natural food and animal wild life members in the country's national state forests.

About 25 members attended the monthly P-TA meeting of SJHS on Tuesday. After a short business meeting at which committee members were appointed, refreshments in the form of a box luncheon were served in the school cafeteria.

**50,000 FEET OF LUMBER**  
At 12 o'clock noon on  
**Saturday, Nov. 20**

Located on premises midway between Thurmont and Emmitsburg, near Zentz' Old Mill.

50,000 feet of all lengths and sizes in Oak, Poplar and Pine Lumber; 5,000 ft. of dressed fence boards; 400 sawed and tapered Locust posts.

Anyone intending to build a house or any other large building should be sure to attend this sale. This is a fine lot of clear Lumber.

**CHARLES SMITH**  
Harry Trout, Auctioneer  
Ralph P. Weybright, Clerk

**Special Worship Service Planned**

A worship service emphasizing emergency needs in Korea will be held in the four Methodist Churches of the Thurmont Charge on Sunday, Nov. 14.

According to the Rev. Paul H. McCauley pastor, Methodist congregations all over America will be conducting similar services on the same day.

A novel feature of the service will be the presentation of the offering in miniature "rice bags," symbolic of the sacrificial offerings of rice which the Koreans themselves have given to rebuild their war-ravaged sanctuaries.

Known as the "Bishops' Appeal for Korea," the special offering has been approved by the Methodist Council of Bishops and the Council on World Service and Finance. This offers an excellent opportunity for missionary giving.

Seventy per cent of the receipts from the offering will be administered through the denomination's Division of World Missions and 30 per cent through the Methodist Committee for Overseas Relief.

**JOAN'S JUDGE-KNOTS**

By Joan Davis

(Unusual laws quoted are from "It's The Law" feature in the American Magazine.)

We've heard of some zany traffic laws—but here's one that ought to raise a lather. In Tylertown, Miss., it's illegal to shave in the center of Main Street. That might prevent close scrapes with pedestrians anyway.

Almost anyplace you can call somebody a snake in the grass. Even in Toledo, Ohio. But wait—in that city it's against the law to throw reptiles at another person.

If you see a youngster anywhere in North Dakota creeping furtively out of a candy store, you'll know why. In that state it's illegal to sell candy cigarettes.

Ever play one o' cat? Well, in Springfield, Ill., it's okay to play it, but don't throw the cat out. The law clearly states that it's illegal to abandon a cat for any reason in that city.

Bet you often wanted to get even with your dentist. So... go ahead, unless you happen to live in Yukon, Okla., because in that town a patient is forbidden to turn the tables by pulling his dentist's tooth.

Wonder if there are any bathtubs in Topeka, Kan! Because in that city it's against the law to install 'em.

**JOAN DAVIS STARS WEEKLY IN "MARRIED JOAN" ON NBC-TV.**

The River Nile is approximately 4000 miles long.

**Long Goodnight**

About 2 a. m. Monday morning a local man telephoned the Gettysburg police (from a Gettysburg restaurant) and said that his car had been stolen and that the driver was probably heading toward Gettysburg.

Police soon spotted the car but the driver vehemently denied having stolen the car. The owner loaned it to him, he explained, to take a girl home. To prove it he led the officer to the restaurant where the owner was. The owner admitted he had loaned him the car but he didn't think it would take him so long and so that was why he had reported his car stolen. No charges were filed.

**NEW FAIRFIELD BURGESS TAKES OFFICE**

Kenneth W. Sanders, former president of the Fairfield Lions Club, was sworn in as the new burgess of Fairfield at a special meeting of the borough council Monday evening.

Sanders will serve out the unexpired term of John W. Beach,

who resigned as burgess when he became Fairfield's new postmaster. The term to which Sanders was named ends Dec. 31, 1957.

**THE TOTALLY NEW '55 FORD!**

**ON DISPLAY TODAY!**

*with styling inspired by the Ford THUNDERBIRD*

New FAIRLANE Series... The new Club Sedan, like all six models in Ford's new Fairlane Series, features the new wrap-around windshield, new luxurious interiors and wide choice of stunningly new, single and two-tone exterior colors.

**Longest, Lowest, Roomiest...most Powerful ever built!**

New CUSTOMLINE Series... The Tudor Sedan (above) and Fordor offer a wide selection of new color and upholstery combinations. Like all '55 Fords, they have a new wider grille, new visored headlights and sturdier, extra-narrow pillar-posts for better visibility.

New STATION WAGON Series... The new 6-passenger, 4-door Country Sedan (above) is one of five new do-it-all beauties. There's also an 8-passenger Country Sedan, an 8-passenger Country Squire and a 2-door, 6-passenger Ranch Wagon and Custom Ranch Wagon.

We invite you to see for yourself. And we tell you in advance you'll be amazed. For this new Ford is totally new—outside, inside, and in thrillingly different performance.

The long, low lines of the Thunderbird were its styling inspiration. Inside, you'll be greeted by rich, roomy luxury... by fabrics never before offered in a motorcar.

Mighty engines, mightier than in any Ford before—supply its exciting power. And each of Ford's three new engines offers the safe, split-second response of Trigger-Torque Power.

Your ride will be up to 15% smoother. Best of all, you'll find your kind of car, for there are 16 body styles in four fresh new lines.

When you come in, don't be surprised if you tell yourself: *why look farther—why delay—you just can't buy better than Ford.*

New MAINLINE Series... Each of the three Mainline beauties offers the same engineering advancements, the same graceful contours and clean lines that distinguish all '55 Fords. Fordor Sedan is illustrated above.

**EXCLUSIVE TRIGGER-TORQUE POWER IN 3 MIGHTY ENGINES**

1. 162-h.p. Y-block V-8
2. 182-h.p. Y-block Special V-8
3. 120-h.p. I-block Six

(1) The new 162-h.p. Y-block V-8 has a higher (7.6 to 1) compression ratio, greater displacement. And, like all '55 Ford engines, it has Ford's famous deep-block build... short-stroke design.

(2) The new 182-h.p. Y-block Special V-8 (offered in combination with Speed-Trigger Fordomatic on Fairlane and Station Wagon models) features 4-barrel carburetion, dual exhausts and extra-high (8.5 to 1) compression ratio.

(3) The new 120-h.p. I-block Six has a new higher (7.5 to 1) compression ratio. It's the most advanced six-cylinder power plant in the industry.

**ALL WITH TRADITIONAL FORD ECONOMY**

**PLUS ALL THESE OTHER BRAND-NEW WORTH-MORE FEATURES**

- ★ New Speed-Trigger Fordomatic Drive
- ★ New Turbo-Action Spark Plugs
- ★ New 10% Larger Brakes
- ★ New Tubeless Tires
- ★ New Angle-Poised Ball-Joint Suspension (Fordomatic Drive optional.)
