

Most Anything At A Glance

BY ABIGAIL

Complaints have come to this desk about the way the Saturday night drawing has been conducted on several occasions. It seems as though the most strenuous complaint comes from interpretation of the rules. It is my firm belief that the rules and regulations governing this project should be published so that the public could have full knowledge of the operation, thus ending these disputes and ill feelings once and forever. Last Saturday there appeared to be even more confusion during the drawing when tickets signed by another person were drawn and a handwriting test was taken. The party whose name was written on the ticket was denied the award. It seems that the party involved had tickets given in his name by his grandfather. After a bit of research I have discovered that this is quite a common practice and many are doing this very same thing, believing that it was all right and in good faith. Parents sometime place their children's names on tickets so that they don't have to bother attending the drawing. Now is this contrary to the rules or not? Another instance which happened last week was when another name was drawn and when the winner did not immediately respond it was claimed another name was drawn after the first winner belatedly filed his claim which was denied. Just what is the actual waiting time, if any, that those present for the drawing have to register their claim?

I am not saying anything derogatory concerning the operation of the drawing. In fact I admire the upright way in which it has been conducted, but I feel the public is entitled to know just what is expected of it so that this discussion can be eliminated. Arguments at events like this can be expected but by all means they should be kept to a minimum and if we all understand the rules I am sure future misunderstandings can be avoided. Hope I haven't offended anyone.

I want to thank Mrs. Earl Boozie for the lovely handkerchief she sent me last week. You remember the article I did about her several weeks ago? Well Mrs. Boozie is a former resident of Emmitsburg and is now living in Iowa. She was the recipient of a lovely letter from Mrs. Eisenhower who mentioned nice things about this town in a letter to her. Well anyway, many thanks. Incidentally, Mrs. Boozie mentions she has received several letters from old friends here as the result of the article in the Chronicle.

From the Mail Bag: Comes a postcard from William R. Sullivan, Los Angeles, Calif. The card advises: "Until a solution is found for the traffic congestion problem, let us keep some of the cars off the streets by having a stricter driving license code." Imagine, and I don't even know the guy! Let's put it this way Mr. Sullivan, if you will stop driving, so will I.

Local baseball officials asked me to convey their thanks and appreciation to all those who supported the recent benefit dance. It was a success despite severe thundershowers.

Was talking to Louie Rosensteel a few days ago and he tells me he's the proud recipient of a letter from General Douglas MacArthur, thanking him for a birthday card he received from Louie over a month ago. Louie seemed to be real proud of it and he has had it framed. Louie recalls seeing the General when he joined his outfit in the Philippines during World War II, but never had the opportunity to meet him personally.

Autographs seem to be Louie's hobby and he gets a big kick out of collecting them. Among his choicest gems collected are those autographs of President Eisenhower, Vice President Nixon, Mary Pickford, Buddy Rodgers, Guy Lombardo, Sammy Kaye, ex-Governor Herbert R. O'Connor, Bing Crosby, Governor McKeldin, and Irving Berlin whom he met overseas while he was appearing in "This Is The Army" show.

Firemen Will Sponsor Another Shooting Match

Thirty-seven members of the Vigilant Hose Co. were present at the regular monthly meeting of the group held Tuesday night in the Fire Hall, President Herbert W. Roger presiding.

Plans for a dinner honoring the recently graduated class of firemen trained by the University of Maryland Fire Extension School are now being made with date being announced later. It is planned to have the instructors and members of the Town Council present at the affair as honored guests.

Chief John J. Hollinger reported that five chimney fires had occurred during the past month with little damage resulting.

The honor roll, with the names of members who served in the armed forces inscribed on it, has been completed and was presented to the members Tuesday night.

Three new members were taken into the organization. They were Charles D. Gillean, Ernest Rosensteel and Vincent Topper. Applications for membership were received from Donald Byard, Francis Cool, and Eugene Rosensteel.

A house rules committee, consisting of Leo Keepers, J. W. Rowe, Guy R. McLaughlin, Eugene Kraemer and Oldrich Tokar, was appointed to draw up rules and regulations governing activities in the recreation room at the fire house.

A communication was read from the Maryland Fire Chiefs' Assn. inviting members of the local fire company to attend the benefit "Show of Shows" to be held Mar. 20 at 2 p. m. in Memorial Stadium, Baltimore. The proceeds of the show will go to the benefit fund of the surviving families of the eight Baltimore firemen who met death recently in one of Baltimore's worst disasters.

John Hollinger and Guy R. McLaughlin were appointed as a committee to promote a benefit shooting match to be held at the Civic Assn. grounds soon, and will start at 1 p. m. Easter hams will be offered as prizes.

Local Airman Receives Award For Achievement

Air Force Captain Charles E. Rowe of Emmitsburg, has been presented with a Third Army Certificate of Achievement at its headquarters at Ft. McPherson, Ga.

Capt. Rowe was honored for his performance as pilot of special missions aircraft transporting the commanding general of the Third Army, Lt. Gen. A. R. Bolling, and key staff officers of Third Army Headquarters. He was also cited for his role as officer-in-charge of the instrument training and instructor pilot of the 22315th squadron at Dobbins Air Force Base, Marietta, Ga.

Making the presentation was Brig. Gen. Louis W. Truman, Chief of Staff of the Third Army. The Army area covers the seven southeastern states of Alabama, Florida, Georgia, Mississippi, North and South Carolina, Tennessee, as well as Fort Campbell, Ky.

The citation accompanying the certificate of achievement lauded Capt. Rowe for his "remarkable skill, judgment and knowledge in carrying out his assigned missions, particularly during adverse weather conditions, and contributed materially to the excellent safety record of his squadron."

Motorists Pay Fines For Violations

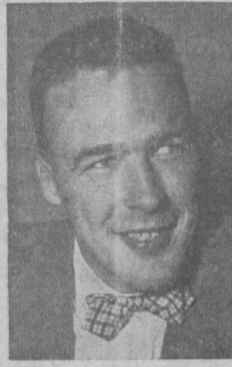

Four out-of-town and one local motorist paid fines before Magistrate Charles D. Gillean of \$67.25 for various infractions of the motor vehicle code during February. All arrests were made by Police Chief Daniel J. Kaas.

Those fined included Donald E. Hobbs, Fairfield, operating with inadequate muffler, \$11.45; Eugene C. Shmshock, Beaver Meadows, Pa., failing to obey traffic light, \$6.45; Floyd Bowman, Cascade, Md., exceeding 50 m.p.h., \$26.45; Richard D. Bricker, Waynesboro, failing to yield the right-of-way to approaching traffic, \$11.45, and Paul E. Shockey, Emmitsburg, operating without a driver's license, \$11.45. The Police Dept. issued 15 warning tickets during the month. Parking meter and other parking violations for the month totaled \$45.45.

Play Major Role In Winning State Basketball Championship For Mt. St. Mary's

Sal Angelo

Coach Phelan

Jack Sullivan

Statistics support the fact that the 1954-55 Mount St. Mary's basketball team was the greatest in Mountaineer history. The Mountaineers posted the greatest number of wins in their history with a 23-4 over-all record, put Mason-Dixon Conference championships back to back and cracked every school mark except one.

In addition, three Mountaineers, Jack Sullivan, Sal Angelo and Eddie Bals, were named to both the All-Conference and All-Tourney teams. Sullivan led the state scorers with 688 points for a 25.5 game average.

In scoring 2,552 points in their 27-game schedule, the Blue and White averaged 94.5 points per game to 72 points per game for the opposition.

Records Cracked

The following Mount St. Mary's records were smashed by the current Mountie squad: Gym scoring record 202 points, Mount St. Mary's 141 vs. Washington College 61, replaced the old record of 187 points set against Baltimore University in 1954; new team high 141 points vs. Washington College replaced old record of 111 set against Baltimore University in 1954; individual high 44 points, Jack Sullivan vs. Baltimore University 1954, was tied twice by Sullivan against St. Peter's and Baltimore U.; the high season total of 2,122 set in the 1950-51 campaign was broken by this year's 2,552 total; the individual career total of 1,230 set by Pete Clark was broken by Sal Angelo's 1,236; the one-year high of 596 set by Cosgrove in 1950-51, was broken by Sullivan's 688; two-year high of 840 set by Sal Angelo was broken by Sullivan's 1,119.

Conference Records Topped

Mountaineers also smashed five

individual Mason-Dixon Conference records and one team record. Individual tournament marks set by sophomore Jack Sullivan are: Most points per game, 44; most field goals one game, 16; most points one half, 25; most points, tournament, 94; most free throws, tournament, 30; most team points, tournament, 297.

Jack Sullivan, star scorer for the locals for the second year in a row was named to both the Mason-Dixon All-Conference and All-Tourney teams. In addition, Sullivan was named to the Jersey City Armory All-Star team and voted player of the year in the Jersey City area for his 44-point effort against St. Peter's College. Sal Angelo, senior center, for the third time running, was named to both All-Conference and All-Tourney teams. Ed Bals, making his first appearance on All-Tourney and All-Conference teams, was named to the second Jersey City Armory All-Star team. Sullivan also received honorable mention on the All-America team picked by the Brooklyn "Tablet."

Phelan Given Much Credit

Much of the credit for the success of the Mountaineer outfit goes to Coach Jim Phelan, former LaSalle star, who in his first year as head man of the Mounties, turned in the championship job. Things also are bright for next season since Phelan loses only one regular and one reserve from this year's 13-man squad.

In posting 23 wins the Mountaineers knocked off St. Francis of Loretto, holding All-American Maurice Stokes to seven points, Georgetown, St. Peter's and St. Francis of Brooklyn. Only the Quantico Marines beat the Mountaineers in convincing fashion.

"CITIZENS OF TOMORROW" ENTRIES

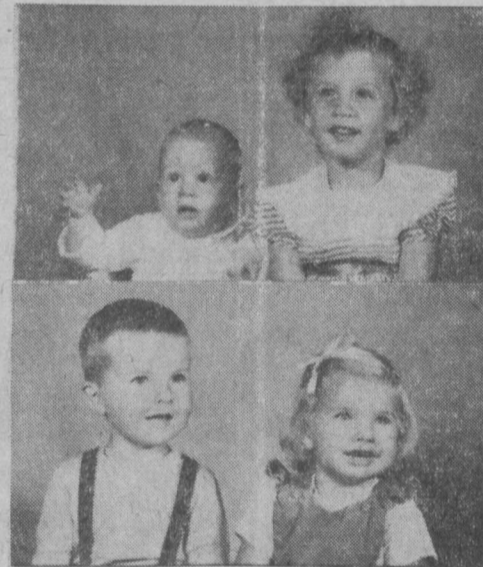

Photo at top, left to right, shows Jack Besash, 5 months, and Donna Besash, 3 children of Mr. and Mrs. Jack Besash of Emmitsburg. At bottom, left to right, are the son and daughter of Mr. and Mrs. Joseph W. Kerrigan. They are John Ward, 2, and Patricia Louise, 3½ years old.

Glee Club To Open Spring Concert

The Mount St. Mary's College Glee Club, the Rev. David W. Shaum, director, opens its spring concert season Wednesday, March 16 in Frederick, with a benefit performance for the Saint John's Athletic Assn. The Rev. Richard Mitchell, a Mount alumnus, and assistant at the Frederick parish, has arranged the St. Patrick's Eve program.

This is the Glee Club's second appearance under the sponsorship of the Athletic Assn. James Coyne, baritone, will be heard in "Bells of the Sea," a familiar chantey, and Alicia Scott's plaintive, "Think On Me." William Beal, tenor, will make his initial appearance as soloist in the popular ballad, "Tell Me That You Love Me." Prior to the concert the gleemen will visit the cloistered Visitation Convent and sing for the religious and students.

Sunday afternoon, March 20, the choraleers will journey to Martinsburg, West Virginia, to sing for St. Joseph's School. The Rev. Charles Ferry, Mount alumnus, and assistant at St. Joseph's, is chairman of the committee in charge of the concert. Charlotte Ridgely, lyric soprano, will be guest soloist with the Mount Glee Club in the Martinsburg program. Patricia Hammersly will serve as the soloist's accompanist. Both

young musicians are majors in public school music in the department of music of Western Maryland College, Westminster.

Miss Ridgely will be heard in the "Waltz Song" from Gounod's Romeo and Juliet and Rodgers and Hammerstein's brilliant Many A New Day. As the finale, the Glee Club and guest soprano will join voices in "Serenade" from "The Student Prince" and "Shall We Dance" from the Broadway hit, "The King and I"

Saturday, March 26, will bring the Glee Club of the Georgetown Hospital School of Nursing to the Mount campus. This 30-voice group is under the direction of David Ferland, a music major at the Catholic University. The nurses will present several selections, as will the Mount singers. Then both groups will harmonize in a medley of popular tunes. This program will be presented in the Purcell Lounge. A nominal fee of admission is asked. Free refreshments will be served.

Sunday afternoon, March 27, the Mount Glee Club returns to Martinsburg to sing a charity concert for the veteran patients at the Newton D. Baker Hospital. This program has been arranged by Mrs. Robert Daugherty, Emmitsburg, as a special service entertainment.

OBITUARIES

John Gloninger Dies Suddenly

Funeral services for John R. Gloninger, co-owner of a Pittsburgh brick firm, were held this week, after the arrival of his body from the West Coast.

The 64-year-old brick official, who retired from active business five years ago, choked to death while eating lobster on a visit with his daughter, Mrs. George J. Fleury at Balboa, Calif.

He died last Saturday despite the efforts of four physicians—including his son-in-law—to save him. He had been dining with his wife and their daughter and son-in-law.

Dr. Fleury indicated that Mr. Gloninger was subject to choking spells because of poor muscular co-ordination.

Surviving are his widow Mrs. Catherine Gloninger, and another daughter, Mrs. Denis McAuley, of Pittsburgh, in addition to Mrs. Fleury. Thirteen grandchildren also survive.

Also surviving are three sons, J. Ledlie, David and Hugh Gloninger, all of Pittsburgh; four sisters, Mrs. Marie Rial, of Emmitsburg, Mrs. Bartholomew Hogan and Mrs. Simon Kosky, both of Washington, and Mrs. Allen O'Donoghue of Baltimore; a brother, J. Ledlie Gloninger, also of Emmitsburg.

The victim is a graduate of Mt. St. Mary's College, Emmitsburg.

Tracey Services Are Held

Funeral services for Mrs. Catherine Tracey, Blue Ridge Summit, were held Tuesday afternoon at the Allison Funeral Home, Fairfield, with Rev. Harry S. Ecker pastor of the Lower Marsh Creek Presbyterian Church officiating.

The pallbearers were: Charles Lott, Howard Knouse, Andrew Kugler, Robert Willis, Robert Neely and Robert Scott. Interment was in Fairfield Union Cemetery.

Mrs. Tracey died last Sunday evening in a Baltimore hospital after shooting herself in the head Sunday afternoon.

The shooting took place in the garage at her home. Her husband, Stanley E. Tracey, is retired, and not the proprietor of the garage where previously the shooting happened. Mr. and Mrs. Omar Tracey are owners of Tracey Corners' Garage and are vacationing in Florida.

MRS. JOHN W. ROYER

Mrs. Mary Elizabeth Royer, 77, died Thursday, March 3 at 7:45 a. m. at her home in Johnsville, Md., after an extended illness. Born in Frederick County, she was a daughter of the late Amos and Laura Bruchey Graham and was a life-long member of the Old Order German Baptist Church of Beaver Dam.

Surviving are seven children, Mrs. Ruth Peterson and Paul H. Royer, Dover, Pa.; William A. and Joseph M. Royer, Baltimore; Mrs. Margaret Springer, Emmitsburg; Franklin E. Boyer, Frederick, and Mrs. Catherine Stigley, Johnsville; six stepchildren, Jacob N. Royer, Baltimore; David A. and James A. Royer, Harrisburg; John E. Royer, San Francisco, Calif.; George A. Royer, Hanover, and Mrs. Anna Weybright, Thurmont; 12 grandchildren, two great-grandchildren and a brother, Norman H. Graham of Johnsville; two sisters, Mrs. Margaret Eyer, Union Bridge and Mrs. Edna Morrison, Hanover.

Funeral services were held on Saturday at 9:30 a. m. at the Royer home in Johnsville, followed by further rites in the Beaver Dam Church at 10 a. m. Elders David Benedict and Geo. Stansbury officiated. Interment in Beaver Dam Cemetery.

Mount Has "Alma Mater"

Mount St. Mary's College now has an official and original "Alma Mater." Title of the new melody, written by Rev. Fr. David W. Shaum, a native of Taneytown, and Rev. Fr. William D. McGonigle, is "Hail, White and Blue."

License To Wed

John K. Stoner, Emmitsburg, and Viola M. Bowser, Frederick, have secured a marriage license in Frederick.

Announce Engagement

Mr. and Mrs. Ray Wachter, Keymar, have announced the engagement of their daughter, Doline Grace, to Donald E. Eyer, son of Mr. and Mrs. Bruce Eyer, Rocky Ridge. The wedding will take place in the near future.

A daughter was born this week to Mr. and Mrs. Floyd Manning, at the Warner Hospital, Gettysburg, Pa.

THURMONT SEEKS PUBLIC LIBRARY

A delegation of representative citizens of Thurmont appeared before the Board of County Commissioners on Tuesday seeking some county financial support toward the library in that town.

Members of the delegation explained that considerable interest had been aroused in Thurmont in the proposed library and that the town commissioners and several organizations had lent their support to the movement.

They asked the commissioners for financial support on the same basis that funds are appropriated for the C. Burr Artz library in Frederick.

The commissioners explained that there are no funds in the budget which could be used for such a purpose at this time, but that the matter would be taken under consideration when the 1956 budget is prepared.

The delegation was headed by Ross V. Smith and included Miss Mary Waesche, Mrs. Ernest Hamaker, D. Sayler Weibright and Harry Zentz. The only library in Thurmont at the present time, it was said, is in the public school, and it is hoped to secure quarters where a library can be established.

Emmitsburg has had a public library since 1906.

State Legion Head Visits Here

The quarterly district meeting of the Western Maryland District, Department of Maryland American Legion was held Sunday at the Francis X. Elder Post No. 121 with Burns Heltebride, department vice-commander presiding.

Special guests present were Benjamin B. Buckner, state department commander; dept. adjutant Daniel H. Burkhardt and Charles Michael, dept. assistant sergeant-at-arms. There were approximately 75 delegates present and following the meeting refreshments were served.

Personals

Mr. David Ohler, Route 2, is vacationing in Florida.

Mrs. Mary C. Fuss, E. Main St., celebrated her 90th birthday anniversary last Tuesday.

Mrs. Rose Lansinger is visiting her son-in-law and daughter, Mr. and Mrs. Richard R. Hyde, Towson. Mrs. Hyde is the former Mae Lansinger.

A turkey dinner was served on Sunday at the home of Mr. and Mrs. Roy Sanders in honor of the 27th wedding anniversary of Mr. and Mrs. Maurice Moser, the anniversary occurring Feb. 22. Present were Mr. and Mrs. Moser, Mr. and Mrs. Samuel Krom and family, York; Mr. and Mrs. Clifford Blair and family, Thurmont; Mr. and Mrs. Charles Valentine and family and Bobbie Troxell.

Louis Callahan, Jr., Baltimore, and Mrs. Alma Wetzel visited over the weekend at the home of Mrs. Eugene Warthen, near St. Anthony's.

Weekend guests of Mr. and Mrs. Frank Fitzgerald were Mr. and Mrs. William Garner, Arlington, Va.; Mr. and Mrs. Thomas Arcidiacono and children of Hagerstown and Miss Patricia Fitzgerald, Annapolis.

John Beegle, University of Maryland, spent the weekend at the home of his parents, Dr. and Mrs. D. L. Beegle.

Miss Ruth Umbel, Towson State Teachers College, visited her parents, Mr. and Mrs. Wilbur Umbel, over the weekend.

Warning Issued On Kite Flying

Local schools have received posters warning children to exercise caution while flying kites and model airplanes. Distributed by the Potomac Edison Co. here, the posters point out the dangers of kites and planes coming in contact with electric wires.

Potomac Edison Co. Safety Supervisor Raymond Beard stated there are still many tragic accidents reported each year resulting from careless kite and model plane flying. Fatalities are numerous and severe burns often are suffered when the necessary precautions are not heeded.

According to Beard and the school posters, persons flying kites and planes should make sure they keep away from electric wires; only dry cotton string should be used; metal should never be used on kites and under no conditions should anyone climb a "company pole" to release kites stuck on them.

"Communities, hospitals, and factories that depend on continuous electric service often are inconvenienced by careless kite and model airplane flyers," Mr. Beard said. "Metal wires from kites and planes becoming entangled in electric wires may cause costly damage through the elimination of power to all types of establishments and homes."

Sewer Estimate Near Completion Council Hears

Final plans for the complete sewerage of the town were discussed at the regular monthly meeting of the Mayor and Commissioners of Emmitsburg held Monday night in the Fire Hall, Mayor Thornton W. Rodgers presiding in the absence of the chairman of the Board of Commissioners Thomas J. Frailey.

The Town Fathers announced that two special meetings had been held concerning the sewer project. Council met on February 14 with members of the surveying company, the R. Brooke Maxwell Co. of Baltimore and again on February 28 with members of the State Health Dept. Under the proposed plan it is believed that the present disposal plant on Creamery Road would either have to be enlarged or moved farther away from the town to a new location. A final decision is due in the near future.

Town Clerk Louise Sebald presented the reports of the secretary, treasurer and tax collector. In addition, the clerk presented the Board with the annual financial statement, for which she was highly commended. Parking meter revenue and fines for the month of February was announced as \$303.89.

The Council approved a donation of \$1,000 to the Vigilant Hose Co. which opens its annual financial drive early next month. Other appropriations okayed were the Public Library, \$100; Municipal Band, \$100 and the Baseball Club, \$100. The Solons were in receipt of a letter from the State Comptroller's office stating that due to the failure of the State Legislature to pass a bill raising the automobile license tag fee, that the town would receive a decrease in its annual appropriation of about \$300. A thank you letter was received from the Emmitsburg Mfg. Co., expressing appreciation for the improvement of the town alley adjacent to the local sewing factory.

Police Chief Daniel J. Kaas filed his regular monthly report to the Board and recommended that pedestrian crosswalk lines be painted at various intersections in town, extending the entire width of the roadway instead of just "indicating." He also recommended that all curbing and parking meter stall lines be repainted. Council was informed that several requests for double white lines at the four approaches to the Square be painted on the roadway as motorists have recently been passing at this dangerous intersection. The secretary was instructed to contact the State Roads Commission on the matter. It was announced the county dog-catcher had been in town this week and that several stray animals had been rounded up and taken to Frederick to be destroyed.

As is the usual custom, the Town Fathers adopted Daylight Saving Time when it goes into effect the last week in April, to continue through September.

Social Security and withholding tax for town employees was discussed and it was decided that in the future these employees would be subject to participation in these two services.

MUNICIPAL LEAGUE OPPOSES BILL

The Legislative Committee of the Maryland Municipal League unanimously went on record this week as opposing Senate Bill 323 and urged all local officials to voice their opposition to their State Senators and Delegates to the General Assembly.

At a special meeting members discussed the consequences of the bill which would affect the distribution of state-collected but locally-shared taxes. Members of the League agreed that the bill would result in serious revenue losses which would have to be made up at the local level by additional taxes.

The Maryland League will request that it be permitted to express its views to the Senate Finance Committee.

"To a higher degree than ever before, America needs scientists, skilled technicians and research experts to lead the way to greater progress and accomplishment."

—Charles R. Sligh, Jr., chairman, executive committee NAM.

SJHS NEWS

Students were entertained Tuesday afternoon, Mar. 1, by the Mt. St. Mary's College Glee Club under the direction of Rev. David W. Shaum. The choristers rendered among their selections such favorites as "You'll Never Walk Alone," "Dona Nobis Pacem," a medley of nursery rhymes and a spiritual "Rock of My Soul." The glee club's next performance will be the colorful opera "Carmen" and will be staged in the Mount's Memorial Gym.

Mary Jane Scott won first prize for her essay on the subject,

"What My Vote Will Mean to Me." The contest was sponsored by the American Legion Auxiliary, Francis X. Elder Post.

Michael Topper and David Wenschhof have entered safety posters in the Maryland Automobile Assn. contest under the auspices of the AAA. The deadline for this poster contest is Mar. 25.

There is one infallible rule for identifying a puffball mushroom: if it's white all the way through and there's no distinct stem running through the meat, eat it. —Sports Afield

You Can't Tell A Lemon From A Peach in Spring

Who among new major league players are going to be the peaches of the 1955 crop? Or the lemons? No one, says The Sporting News, can say with any certainty at this stage of the year. But, even so, some major club front offices and their farm officials put out bold statements about this young man or that.

Sometimes, says The Sporting News, the magnates don't even know what they've got. Take last year, for example. The prize rookies of 1954 were Wally Moon in the National League and Bob Grim in the American. Yet, while other young players were getting big buildups a year ago, Moon and Grim weren't being mentioned—were't, in fact, even on big league rosters. The Cardinals didn't buy Moon from Rochester until April 12, and that was on a second guess. Grim, from Binghamton, didn't win his Yankee varsity uniform until April.

This season, says The Sporting News, the Cardinals are saying that their new outfielder, Bill Virdon, just can't miss. But will he be another Moon? The Yankees are sold on Elston Howard. But is he as sure a shot this year as the unknown Grim was a year ago?

Figuring rookies, says The Sporting News, is a risky business. All of us remember the young men who had one blazing year, then faded away. They looked like Cobbs, Fellers, Ruths, bound surely for their eventual niche in the Hall of Fame. But their stars fell almost as fast as they shot up. Right now, Willie Mays looks like one of the finest players in the business, with his sensational catches, his home runs, his average of .345. But suppose he hits only .300 this year. He'll probably be considered a bust.

Look back after some of the up-and-coming sensations. A few years ago the Yankee thought they had another Joe DiMaggio in a young man named Mickey Mantle. He gave big and spectacular promise the first season, but hasn't lived up to that promise since. In 1941, Pete Reiser was a sensation, but not after that. Gene Bearden and Johnny Beazley seemed certain 20-game winners for years to come, but they had it for only one season.

Two others who were among the heaviest ballyhooed prospects were Johnny Rucker and Clint Hartung of the Giants. Bill Terry thought he saw a second Ty Cobb in Rucker, but the young man

hit .296, couldn't steal bases like Cobb, and soon faded. Hartung was fabulous—in advance. He didn't hold up. Lou Novikoff of the Cubs was another who came to the majors amid widespread ballyhoo after he had been hitting sensation in the minors. But he failed to hit big-time pitching with any consistency. Then there was Pitcher Johnny Gee, for whom the Pirates paid \$75,000 in 1939. But after coming up from Syracuse, Gee hurt his arm. When he finally wound up his major league career, he had won seven games, but lost 12.

For everyone of the highly ballyhooed, says The Sporting News, there's a kid like Jerry Coleman, who walks in without notice and becomes a candidate for rookie of the year. Nobody saw much in Phil Rizzuto, either, at the beginning.

Right now, before the new seasons gets under way, who can say which of the highly-touted rookies will come through, if any? And who can pick from the others another Moon or Grim? It might be much more profitable, says The Sporting News, trying to pick a three-horse parlay.

As George Gobel might put it, they don't make catchers like that no more. He would be talking about Ray Schalk of the White Sox, recently elected to the Hall of Fame. According to The Sporting News, Schalk in one year stole more bases than all of the major league catchers did last year. He stole 30 in 1916. Last year the entire crop of 56 catchers in the majors stole a combined total of only 19.

A final 1954-55 count of whooping cranes at their winter refuge in Texas shows that the sole surviving flock of America's rarest migratory birds has declined to 21, three less than last year. —Sports Afield

Facts You Should Know

Did you ever pause while scanning the front page of your newspaper to check on how many of the articles were reporting on economic facts directly or indirectly affecting your standard of living? Try it today or tomorrow. Chances are that many of the news articles on Page 1 concern something in which you have an economic interest. This is especially true at a time when Congress and most of the state legislatures are in session fixing budgets and debating new taxes.

The Tax Foundation, a private non-profit organization doing research in governmental finance, has just published a valuable statistical book to help people understand what's going on in our economic world. It is entitled "Facts and Figures on Government Finance," 1954-1955. It sells for \$2 per copy at The Tax Foundation, 30 Rockefeller Plaza, New York City. Every one of its 229 pages contains a table or graph of information of importance to your pocketbook.

Why Pay Taxes?

For instance, Chart No. 1 shows that since 1940 America's industrial production has increased 125 per cent and the national income by 319 per cent while the cost of government was soaring more than 500 per cent! Another yardstick on the cost of government is provided in Table 35 which shows

that in 1940 governmental expenditures were 18.4 per cent of the gross national product (roughly, the total of all financial transactions), while in 1953 they were 28.1 per cent.

Government is getting too big when it controls nearly 30 per cent of the volume of all the financial transactions in the nation. The lower-bracket and middle-bracket taxpayers actually have a greater stake in this high cost of government than the upper-bracket taxpayers do, in spite of the fact that the upper brackets pay a bigger percentage of their incomes in taxes. U. S. Treasury figures show that in a recent year, 42.6 million Americans paid a Federal income tax. Of this number, 42.3 million were in the middle and lower brackets (under \$25,000) and only 330,000 were in the over-\$25,000 bracket. And the people in the lower and middle income-bracket accounted for more than 90 per cent of the national income. That's where the big lump of taxes must come from.

Encouraging Facts

Good news for taxpayers is found in Table 37 which shows that over-all governmental expenses decreased in the fiscal year 1954 by nearly \$4.5 billion. This was the first such decline since 1948. It was due largely to an approximately \$7 billion cut in Federal government expenditures. State government expenditures were up only \$600 million; while local government expenditures went up more than \$2 billion.

Local, state and Federal governments in the fiscal year 1954 cost tax paying citizens \$103.2 billion. The Federal government spent \$71 billion; state governments \$14.7 billion; and local governments \$17 billion. Altogether the per capita expenditure for government in the USA was \$652.20 on a per capita income of \$1709. We citizens don't realize such a heavy percentage of government cost is being assessed because much of the tax take is in indirect taxes which are added into the production cost of goods and services.

Our Advantages

Table 24 in the Tax Foundation's new book should be studied by every citizen, especially our youngsters in high schools and colleges. It shows the minutes of working time required by industrial workers to buy selected foods in 11 countries of the world. The food items listed are bread, beef, fish, butter, cheese, milk, potatoes, coffee, tea, lard, sugar and eggs. Here are samples of the comparative advantages which our American economic system gives American industrial workers (U. S. Labor Dept. figures for the period 1951-52):

American industrial employees work 31 minutes to buy a pound of beef; French workers, 126 minutes; Italians, 128 minutes; Russians, 132 minutes. Americans work 18 minutes to buy a pound of fish; French workers, 3 minutes; Italians, 65 minutes; Russians, 135 minutes. Americans work 2 minutes to buy a pound of potatoes; French workers, 3 minutes; Italian, five minutes; Russians, 9 minutes. Americans work 32 minutes for a dozen eggs; French workers, 118 minutes; Italians, 126, and Russians, 187.

Who's system is best?

MARYLAND FARM FRONT

Farmers of Maryland were urged this week to sign up in the 1955 Agricultural Conservation Program by Mr. George B. Reeves, chairman of the Maryland Agricultural Stabilization and Conservation Committee.

Mr. Reeves said that conservation measures available to farmers signing into the program include renovation and seeding of pastures, installation of tile drainage, construction of open ditch drainage, construction of farm ponds for livestock water or irrigation, contour stripcropping and others.

My Neighbors
By BILL PAULSON

"Well, thank heavens for the 'right-to-work'!"

Under the program, farmers are reimbursed by the government for about half the cost of the practice.

"Producers who over-harvest any of their basic crop allotments will not be eligible for government reimbursement" Mr. Reeves pointed out. "But this should not discourage the farmers from signing up, since at this early date farmers have no cer-

tainty of the amount of any crop which they will be able to harvest." The ASC chairman also called attention to the fact that bills are now pending in both Houses of Congress which, if passed, would remove this restriction.

GM's Robert L. Wivell, of the U. S. Navy, stationed at Charleston, S. C., spent the weekend here with his parents and friends. He recently returned from an eight-week cruise to Puerto Rico.

State Sale Of Ford Cars Exceeds That Of All Others

Retail sale of Ford cars to Maryland residents in 1954 exceeded those of any other automobile make by 308 units, according to net auto registration figures made available recently by R. L. Polk and Co.

The net registration totals for Maryland showed Ford with 22,741 units, as compared to 22,433 passenger cars for the second-place make.

The raw registration figures, as compiled by Polk, also showed a Ford lead of 284 units. The figures were 22,959 units for Ford and 22,675 units for Ford's nearest competitor.

Ford is the leader in ride

Ford was first in its field to introduce Ball-Joint Front Suspension—the greatest advance in chassis design in 20 years. And, for '55, it's even better. Springs are set at an angle to smooth out even the tiniest bumps. It's the new Ford Angle-Poised Ride.

FORD IS THE LEADER IN ALL THE FEATURES THAT MAKE YOUR CAR WORTH MORE WHEN YOU BUY IT - WORTH MORE WHEN YOU SELL IT

AND IT'S EASY TO SEE WHY!

Ford is the leader in styling

Motorists know that Ford has set the style trend in the industry for years. And now, with styling inspired by the fabulous Thunderbird, Ford is farther out front than ever!

Ford is the leader in V-8 power

Ford was first in its field (by 23 years) to provide the advantages of V-8 power. Since that time, Ford has built over 14,000,000 V-8 engines—more than all other makers combined! For 1955, Ford offers two new and mighty V-8's, as well as a most modern Six—all with the split-second response of Trigger-Torque power!

SPORTS AFIELD

By Ted Kesting

Last November in Caracas, Venezuela, the chosen riflemen, pistol shots, and shotguns of many countries competed in a great sporting event. The Americans were swelled in skeet competitions; we also made a good showing in the pistol matches. The rifle matches—we might as well face it—were pretty much dominated by Russia.

Why? Pete Brown, arms expert for Sports Afield magazine, explains it this way. Competitive shooting in the U. S. has been predominately prone. Our shooters are selected in time-limited trouts; they have little chance to practice as a team or in the international type of shooting. The funds are not available for selecting and properly training a team.

Russia has been preparing for this match for the last couple of years. It has encouraged local target shooting and training. Reportedly it selected 500 of the best shots and they received extensive training. Those chosen for the team were given the best of everything in time and equipment. We can't blame them for

going all out to win. Neither can we help but wonder why our government is not doing more to see that Americans, and particularly our youngsters, are not better trained in the use of firearms.

Now some argue that modern weapons eliminate the need for skilled riflemen. In spite of many theories in this direction, they never have and there is no present evidence or proof that they will.

Congressional appropriations for training civilian shooters and for the national rifle matches for service and civilian competitors used to be more than \$300,000 annually. During recent years appropriations have been cut to \$130,000 or less.

Dewey Short, former chairman of the House Armed Forces Committee, recently said "There is no reason why every young man when reporting for active duty for service should not have previously been trained in the use of the rifle. Their forefathers were and these boys are no different type of breed." But few other members of Congress agreed with him and the appropriation was almost cut out altogether!

General Michaelis, discussing the training of his troops, said "We put too much stress on information and education and not enough on rifle marksmanship... these kids have all the guts in the world and I can count on them to fight. But when they started out they couldn't shoot. They didn't know their weapons. They had not had enough training in plain old-fashioned musketry."

The question is: Are we going to permit a government policy that actually discourages civilian rifle practice, while the Communist governments are promoting it to the hilt?

length of the season. Without the use of bait, it was contended, the ducks just won't come. Although some states have natural bait, most Maryland hunting areas are bare.

The recovery of wounded ducks, or cripples, is exceedingly difficult under the present regulations and, even from a conservation standpoint, many ducks are lost unnecessarily. One sportsman pointed out that he had shot as many as nine ducks to pick up the bag limit of four.

The bag limit, too, is regarded by some as discriminatory. The limit in Delaware for instance, is eight. A suggestion was made that setting the limit per blind rather than per person would be helpful.

Finally, suggestions were made that the hunting season be divided in two—one for the upper

Bay region where the ducks first appear, and another for southern Maryland.

The meeting was a hurried one because of the necessity of presenting our views to Mr. Ernest Vaughn, Director of the Maryland Dept. of Game and Inland Fish, who will take them to the meeting of wild life officials in Montreal on Mar. 15, during which regulations for next season will be discussed.

However, I think much progress was made. County spokesmen for the hunters have been appointed and will correlate their groups and report to Mr. Vaughn.

If another meeting—or a dozen meetings—are necessary, we will hold them. As I said before, we're out for results this time.

Japan produced a record 10,633,000 tons of cement in 1954.

New Registrar

Bernard S. Kaliss, an instructor in English at Mt. St. Mary's College, has been named registrar of the college, succeeding John M. Roddy Jr., who resigned after 19 years as registrar to accept a post at Cumberland as an insurance district manager.

Originally from Waterbury, Conn., Mr. Kaliss graduated from the Mount in 1951 and received his master of arts degree in 1953 from Fordham University.

Your Personal Health

COLOR IN YOUR LIFE

We all boast of being red-blooded Americans. But why do we say "Red?" All blood is red, even that of blue-blooded aristocrats.

Color affects us all strongly, both emotionally and physically. Red makes us feel strong and our muscles react quickly to it. Blue relaxes and calms us. Advertisers use color to affect our feelings toward their products. We can use it in our daily lives to make ourselves healthier and happier.

March is a good month to experiment. The outside world is drab and dreary. March is mud. In this depressing atmosphere a cold in the nose can make anyone wish he were dead. But simply to blame the mournful dress of Nature will not solve the problem. Let's see what color can do to make our surroundings more stimulating.

A manufacturer redecorated his cafeteria in what he thought was a lovely feminine blue to please his women employes. Soon they complained of feeling cold and wore their coats to lunch. A color engineer advised slip - covering the chairs in orange and the complaints ended. The red side of the color spectrum is warm, and the blue-green opposites are cool. Dark colored objects seem heavier than light colored ones. Yellow can feel like sunlight, but the wrong shade can make you sick at your stomach.

It isn't necessary to buy a new wardrobe or redecorate the house from top to bottom. If you give thought to planning clothes, rooms, even meals, you will find you can use color for more health and happiness without extra expense. You can wear a bright scarf with an old dress. A small piece of material in a warm color will cover a sofa pillow. You can find stimulating pictures for your walls in magazines. You can cut branches of flowering trees and bring them to bloom in water. You can have spring in your house.

When the season changes, you can emphasize cool and restful colors that will give your family a more comfortable summer.

SENATE CLOAKROOM

By J. GLENN BEALL

On Thursday, Mar. 3, at the request of duck hunters, we called a meeting of our Congressional delegation and representatives of sportsmen - duck hunting groups throughout the State of Maryland—and the feathers flew.

The purpose of the meeting was to launch a campaign to afford us some relief from the stringent Federal regulations governing duck hunting.

As I told the group "We're out for results this time. We're not going to have Marylanders chased around next year as they were last fall."

Four major complaints were brought out in the meeting—the ban on baiting, the recovery of "cripples," the bag limit, and the

THE POTOMAC EDISON CO.

ALONG THE POTOMAC

By Cong. DeWitt S. Hyde

Congressman DeWitt S. Hyde Monday introduced a bill to provide for a jury trial upon demand by any party in condemnation cases in the U. S. District Courts.

Rep. Hyde said: "It is my firm belief that the right of a jury trial should be given to the property owner when the government is seizing his property."

This bill is the result of a ruling of the Supreme Court which provides for a jury trial upon demand by any party "unless the court in its discretion orders that because of the character, location, or quantity of the property to be condemned, or for other reasons in the interest of justice, the issue of compensation shall be determined by a commission of three persons appointed by it."

The effect of this bill, of course, would be to remove the discretionary power of the court to have the condemnation cases heard by a three-man commission.

Rep. Hyde announced also the Defense Dept. has made available funds for the construction of an Army Reserve Training Center in Frederick. The grant is one among 19 new centers to be built in 15 states.

The project selected for Frederick, according to the information received by Rep. Hyde, provides for a 200-man school type building for home-station training. The sum made available for the Frederick Army Reserve Training Center is \$154,000. Selection of the site was made by the regional army commander and construction is to begin within three to six months.

Rep. Hyde said that the active interest of the people of Frederick County and particularly the interest of the young men in the Army's reserve program made possible the Defense Dept.'s decision to locate one of the training centers for reservists in Frederick.

INCOME TAX FACTS No. 3 Not All Your Income Goes In Your Tax Form

(This is one of a series of articles on income tax changes. The articles are based on information provided by the American Institute of Accountants and the Maryland Association of Certified Public Accountants.)

Taxpayers make more mistakes in listing their income than any other type of error, according to a survey made by the Internal Revenue Service. It is important to know what to include and what NOT to include. Look at this list and see if you can tell which should be listed as income on your federal income tax return:

- Dividends from an insurance policy.
- Pay of armed forces enlisted men while in combat or while hospitalized from combat service. Social Security benefits.
- Gifts.
- Payments received under Workmen's Compensation laws.
- The answer is that none of the above should be listed as taxable income! There are other forms of exempt income, too, which you will find listed in the official tax instructions. Some of them are:
- Other Exempt Income**
- Inheritances and bequests (the estate may be taxed but not the recipient).
- First \$200 of monthly pay of armed forces officers while serving or hospitalized from active service in a combat zone.
- Railroad Retirement Act benefits.
- Certain health and accident benefits.
- Damages awarded by a court or paid out of court for personal injuries.
- Government payments and benefits to veterans and their families, except nondisability retirement pay and interest on terminal leave bonds.
- Interest on state and municipal bonds.
- Parsons and Prizes**
- The rental value of a parsonage furnished to a minister of the gospel is not taxable income; the law now adds that a rental allowance paid to him for this purpose is also exempt.
- If you won a prize, watch this fine distinction: the prize is taxable if you were required to exert even the slightest effort to earn it; on the other hand, if it was made in recognition of scientific, literary or other achievement and you were selected without any action on your part the prize is considered a gift and you are not taxed on it.
- Most scholarships and fellowships are exempt, unless they are paid as compensation for services, such as teaching and research.
- Additional Information**
- Be sure to read the official instructions. You can also get help from the Internal Revenue Service, which urges you to consult only qualified advisers.
- Next article: *Get All the Exemptions for Yourself and Dependents.*

From where I sit... by Joe Marsh

Uses His Head Saves His Feet

Nobody around here can remember when Pop Turner wasn't our town's postman. He must have been toting that big, heavy mail-sack since Pony Express days.

That's why it's sometimes a shock to see him these days pulling his mail bag around in a "caddy cart," a sort of light wagon that golfers use so they don't have to carry their clubs.

"Folks sometimes holler 'fore' at me and ask me how my game is," Pop reports, "but I'm not ashamed to learn something new. Just wish I'd thought about these golf gadgets years ago!"

From where I sit, it's good to see someone come up with a new wrinkle—keeps us from feeling too regimented. For instance, perhaps you've always felt that hot milk is the only thing to drink at bedtime. Then someday you meet a fellow who prefers a cold glass of beer. Well, that's his choice — and certainly he's entitled to it. We can't expect everyone to follow our old habits to the "letter."

Joe Marsh

NO COMMENT

By **WALTER CHAMBLIN, Jr.**

WASHINGTON — The House vote to give a \$20 reduction to all taxpayers emphasized a development of major significance to business—namely, that the old conservative Southern Democrat—Republican coalition is no more.

This coalition defeated most of the socialistic proposals concocted by the New Deal planners in the latter part of the Roosevelt regime, as well as during the Truman administration.

In days gone by the Southern Democrats probably would have registered from 60 to 70 votes in opposition to the \$20 proposal. As it was, only 16 Democrats lined up with the Republicans.

Even so, if the Republicans had been able to hold the five of their party who voted with the Democrats, the result of the vote would have been exactly the opposite of the 210-205 by which the \$20 cut was approved.

(Incidentally, the \$20 reduction would amount to approximately 5½ cents a day—or just a little more than a pack of chewing gum.)

The demise of the Democratic faction of the coalition can be attributed directly to Speaker Sam Rayburn, who has used plain understandable Texas cowboy language to the Democratic membership about the need for party loyalty.

Mr. Rayburn has been helped by having a Republican in the White House. In the latter part of his tenure of office, Mr. Roosevelt lost most of his popularity in the South... and Mr. Truman never did endear himself to the Southern voter, principally because of many of his advisors. Consequently, many Southern Democrats could win votes rather than lose them by opposing New Deal recommendations.

But now, with a Republican President, the Democratic leadership is able (to use political phraseology) "to whip the boys in line"—as they can now be accused of voting to carry out Republican policy if they vote with the administration. This could have serious repercussions in their next Democratic primaries.

Now, the importance of this to business is that only a thin line of Republicans and a thinner line of Southern Democrats can be mustered to oppose programs of the Old Planners who are still about Washington in profuse numbers.

Leon Keyserling, who was chairman of the Council of Economic Advisors under President Truman, currently has a new program. It is based on the rather novel theory that the way to balance the budget is for the Federal government to go further into debt.

He would cut income taxes by \$4.5 billion a year and up Federal spending by \$3.5 billion annually. The argument for this is that it would provide more jobs. The Keyserling report estimates that by thus tossing money around there would be a \$30 billion expansion in production and this would suffice to bring enough revenue into the treasury to balance the budget in a few years.

Now, with this Keyserling report in mind, let's take a look at corporate profits and what spending schemes, like this have done to them.

The Economic Report of President Eisenhower indicates that corporate profits after taxes have remained within a narrow range of \$1 billion within the last seven years—while corporate sales increased more than 30 per cent. Thus, corporations have been compelled to produce and sell about one-third more goods and services with no increase whatever in profits. It is as though an employe had to work harder and harder to keep up with the

Mite Group Meet

The mite Society of Trinity Methodist Church met at the home of Mr. and Mrs. Charles R. Fuss on Friday evening. The invocation was given by Rev. Paul McCauley. The devotional service was presented by Mrs. Lewis Bell. Mrs. Charles R. Fuss, society president, was in charge of the business session. Prizes were awarded to Rev. and Mrs. Paul H. McCauley and Mrs. Wm. A. Frailey as winners in the games and contests which featured the entertainment program. Twenty members and guests were present. Refreshments were served by the hostess.

The next meeting of the group will be held at the home of Dr. and Mrs. H. P. Freeman on Friday, March 25.

The season for morels, those blossoms and are at their peak very tasty mushrooms, is brief: when the warblers are passing through.—Sports Afield

BABSON

Writes . . .

By ROGER W. BABSON

BABSON PARK, Fla., Mar. 10—This story may be valueless; or it may be most important. It will not cause anyone to eat less canned or frozen fruit and vegetables, but it may develop a new industry.

There is in this village the Florida Research and Water Co. It owns the local water company and is interested in the study of LIVE seeds small enough to eat alive. It also believes in "raw" water and "raw" milk—that is, PURE spring water which has not had the living matter killed by chlorine, and PURE milk which has not been pasteurized. It recommends the eating of more "whole cereals," more "raw" vegetables, and "raw" fruits, especially those consisting largely of LIVE seeds, like okra—but they should be ripe seeds; also live "sprouts and buds." It believes in juicing machines, but not for live seeds.

Let me illustrate: It is impossible to eat a peach seed, and probably unwise to swallow live orange, acerola, or apple seeds, unless they are ground; but ripe tomatoes, strawberries, blackberries, blueberries, bananas, figs, and pomegranates should be eaten, seeds and all, uncooked. Of course, all raw fruit and vegetables should be carefully washed. The acerola berry of Puerto Rico is reported to have 50 times the Vitamin C—ascorbic acid—contained in an orange. The second paragraph on page 59 of the Reader's Digest for January, 1955, is thought-provoking.

Should Peas Be Swallowed As Pills?

All agree that string beans may be cut up and cooked for a few minutes. Some people, however, believe that sunflower seeds, peas, small beans, nuts and psyllium, onion, and celery seeds should only be softened in warm water and swallowed like pills! The thought is that all vegetables have three functions: (1) supplying vitamins, minerals, etc., (2) supplying much-needed bulk, and (3) through their LIVING SEEDS supplying that unknown and intangible "something" known as LIFE.

That people lived, before the days of cooking to 120 or even 400 years of age MAY have been due to their feeding upon LIFE. Sufficient experiments have not been completed to prove whether live seeds should or should not be eaten uncrushed, before they are "killed" by juicing machines or boiling. They, however, are part of my diet.

Should We Eat Cooked Eggs? Boiling anything long enough kills LIFE. It is believed that some canning, dehydrating, or freezing also destroys this LIFE—though not the vitamins and minerals. However, the age of peas, beans, and corn does not affect their life-giving powers. Corn kernels over 3000 years old, taken from Egyptian tombs, will sprout the same as if gathered yesterday. It is debatable whether we should eat raw or cooked eggs. When I had TB my doctor insisted that I eat only uncooked, raw, fertile eggs containing LIFE. He also recommended the uncooked coral of lobsters and the live roe of fish.

All beautiful birds live only on live seeds, live worms, and live spring water. Their food must be ALIVE. The only birds which will eat dead meat are the horrible crows and buzzards; dangerous insects and bacteria will also eat dead things. The same principle applies to animals of the forest. Certain moldy cheeses and yeasts contain LIFE. Live seeds in 15-cent envelopes can be purchased at any hardware store.

How To Keep Beautiful Those who have seen any fish (from mackerel to sharks) pulled alive out of the ocean have been impressed by their natural beauty and proportions. When analyzing the diet of these fish, we learn that the smallest fish live on minute animal and plant life known as plankton and algae; that the larger fish live on the smaller live fish; and so on up to the whale. But, all insist their food be ALIVE.

I am not vouching for any theory of LIFE, but it does seem as if the above evidence should be considered when selecting our diet. Once, no doctor had recommended B12 pills

or brewer's yeast; but today they recommend them. Perhaps we will live to see doctors recommend the addition of non-fattening live seeds or phosphatides to our diets.

Mr. and Mrs. Charles Wivell of Hagerstown, are receiving congratulations on the birth of a son, Charles Edward, Jr., on Saturday, March 5.

Miss Ellen Norris, Frederick, spent the weekend with her parents, Prof. and Mrs. Thomas J. Norris, St. Anthony's.

Mr. and Mrs. Frederick Miller have returned from their wedding trip to Florida and are now residing at the home of the bride's step-mother, Mrs. Euphemia Roter, E. Main St. Mrs. Miller is the former Miss Anna Roter.

ON DEAN'S LIST

John M. Fuss, Jr., a junior at Gettysburg College, has been named to the Dean's Honor List for scholastic excellence for the semester ending in February.

Personals

Mr. and Mrs. Walter Topper and daughter, Susan, Ferndale, visited Saturday with Mrs. Ray Topper.

Miss Mary J. Shuff, daughter of M. F. Shuff, Sr., who recently retired from the Frederick High School faculty, was guest of hon-

or at a dinner party given her recently in Frederick. Miss Shuff was presented with a set of matched luggage.

Mr. and Mrs. Francis Sanders visited recently with friends and relatives in Pittsburgh, Pa.

A2/c David Adams has returned to Donnellson Air Force Base, S. C., after spending the

past month here with his parents, Mr. and Mrs. Norman Adams.

Mrs. Mae Campbell, Baltimore, spent the weekend here with her sister and brother-in-law, Dr. and Mrs. O. H. Stinson.

Mr. and Mrs. Charles E. Wivell, Hagerstown, announce the birth of an 8-pound, 15-ounce son, Charles Edward Jr., last Saturday at the Washington County Hospital. Mrs. Wivell is the former Miss Mary Orndorff, Emmitsburg, and Mr. Wivell is also a former resident of Emmitsburg.

Mrs. Ronald Rosenwald was discharged this week from the Warner Hospital, Gettysburg.

Mr. Charles A. Harner has returned home from a trip to Los Angeles, Calif., where he accompanied his son, Paul, who has accepted a position in the engineering department of Douglas Aircraft Corp.

Robert Jordan, U. S. Army, who spent the past 18 months in Japan, returned to the home of his parents, Mr. and Mrs. Andrew Jordan last Friday.

A son was born at the Warner Hospital to Mr. and Mrs. Norman Burrier, Rocky Ridge.

Visitors at the home of Mrs. Claudia Rosensteel over the weekend were Mr. and Mrs. William Rosensteel and son, Jerry, Mrs. Herbert Sprinkle and children, Betty Ann and Kenny, all of Baltimore, Mr. and Mrs. Glen Polly and family, Fairfield, Pa., Mrs. Walter Kugler and daughter, Nancy, Mr. and Mrs. George Callan and son, Frederick, Mr. and Mrs. Louis Rosensteel, Mr. Richard Rosensteel, Mr. and Mrs. Richard Leonard, Mr. and Mrs. Edward Houck and family.

Recent visitors at the home of Mr. and Mrs. Louis Rosensteel were Mr. and Mrs. William Rosensteel and son, Jerry, of Baltimore.

Local 4-H Club Is Formed

The Emmitsburg 4-H Club held its organizational meeting at the Emmitsburg Public School last Friday evening. Twenty boys and girls were present despite the inclement weather.

A nominating committee was selected and will place nominations for officers of the club. It was decided to hold meetings the first Friday night of each month. The next meeting will be held in the Public School on Friday, April 1. Anyone, boy or girl, interested, is invited to attend.

PASTOR'S CLASS GROWS

Seven new members were added to the pastor's instruction class of the Lutheran Church this week. They were Clyde and Lee Knipple, Charles E. Sanders, Barry and Robert Rosensteel, Peggy Lou Lawrence and Thomas Giggell. There are now 42 members in the group which meets at the parish hall every Tuesday evening at 7:30 o'clock. The class will attend the 10:30 a. m. church service this Sunday in a group.

Mrs. John D. White, Mrs. R. M. Zacharias and Mrs. George S. Eyster spent Tuesday in Frederick.

St. Anthony's Holy Name Elects

The Holy Name Society of St. Anthony's Shrine recently held a reception for eight new members. Following the investiture, the election of officers was held with the following results: William Sanders, president; Roy Etheridge, vice president; Roy Wivell, secretary-treasurer and James Wivell, marshal. Delegates named were Maurice Orndorff, Carl Wetzel, Cecil Kreitz and Clarence Wivell.

CHURCH GROUP MEETINGS

The choir of the Ev. Lutheran Church will meet for rehearsal Tuesday, March 15. The Catechism Class will meet the same evening at 7:30 o'clock. The Union Lenten Service will be held in the Methodist Church Wednesday evening at 7:30 o'clock. The LOYAL group and the Youth League will meet Thursday night at 7:30 o'clock.

BAPTIZED

Rocklyn Ann Koontz, infant daughter of Mr. and Mrs. Lloyd D. Koontz, was baptized in the Lutheran Church Sunday. Sponsors were the mother and Mrs. Robert Stahley, a sister of the father.

Attorneys' and Executors' Sale

OF VALUABLE

Farm and Personal Property at Taneytown, Carroll County, Maryland

By virtue of the authority contained in a power-of-attorney from Charles Edgar Hockensmith, et al to Ralph G. Hoffman and Charles O. Fisher, Attorneys-in-fact, dated March 7, 1955, the undersigned Attorneys-in-fact will offer at public sale on the premises, about 1 1/2 miles north of Taneytown on the Gettysburg-Harney Road in Taneytown Election District of Carroll County, Maryland on

Thursday, April 7, 1955 at 12:00 Noon the following real estate:

135 Acres, 2 rods, 5 square perches Farm improved with a 2 1/2-story brick dwelling, 9 rooms (4 down and 5 up); large center hall; metal roof; electricity; attic; excavated and partitioned cellar; three fire-places on first floor. Large bank barn approximately 38 x 75 with metal roof; large machine shed with slate roof. New double concrete block garage with metal roof. Two-story frame washhouse with metal roof. Smoke house with metal roof; grain shed with metal roof; large chicken house with metal roof.

Good spring of water. Piney Creek runs along edge of farm. Good road into buildings. 133 Acres tillable land and 2 Acres of woodland. About 28 Acres wheat and 9 Acres barley now planted will go with the farm. Some hay and straw will go with farm. For title reference see deed from Mary E. Hockensmith, et al to Charles R. Hockensmith dated August 22, 1910 and recorded among the Land Records of Carroll County in Liber O.D.G. No. 115, folio 177.

At the same time and place the undersigned Attorneys will also sell a 6-Acre woodlot located along the Eyer's Valley Road near the reservoir in Eyer's Valley near Emmitsburg in Frederick County, Maryland. For title reference see deed from Matilda Mehring to Charles R. Hockensmith dated October 30, 1913 and recorded among the Land Records of Frederick County in Liber H.W.B. No. 306, folio 465.

Also at the same time and place Charles Edgar Hockensmith and Clara M. Roop, surviving Executors of Charles R. Hockensmith, deceased, by virtue of the power of sale contained in the last will and testament of Charles R. Hockensmith, deceased, and pursuant to an order of the Orphans' Court of Carroll County passed on December 6, 1954, will sell at public auction the following personal property:

Farm Equipment

TIRES

TO ALL PROSPECTIVE USED CAR BUYERS

It would take too much space to describe the quality of each individual car listed in this ad. Most of them have had only one owner, with exceptionally low mileage. Many still have the original tires, spotless upholstery, and perfect original paint. They speak for themselves as to the care they have had.

I will not buy a used car in average condition. It must be like new. Competition is too keen to have anything other than the best to sell.

No doubt you are wondering how we can get used cars like these. Here is the answer! For quite a long time I have had a connection with an out-of-town Cadillac dealer on his used car trade-ins. The previous owners of our late model used cars are now driving new Cadillacs. I can think of no better recommendation.

MEL ALLEN'S new sports quiz television show, "CALL THE PLAY," is giving "armchair managers" all over the country a chance to realize their dreams of making the decisions in important sports events.

On the program, Allen presents a situation, the reward for the correct solution being one or more \$100 U. S. Savings Bonds.

Here's a sampling of some of the typical situations coming up on "Call The Play":

1) You're the manager of the Chicago White Sox. It's the sixth inning and you lead 3-2. Your team has the bases loaded with two out and Virgil Trucks, who has pitched a three-hitter is coming to bat. Do you let him bat or go for a heavier hitter?
2) The Eagles are playing the Browns and trail 6-0. Bobby Thomason tosses a pass into the end-zone that is apparently incomplete. However, the officials rule interference — interference in the end-zone. Is it a touchdown for the Eagles? What would you do if you were the official?

3) Here's another rule situation. Only this time you're up in the pressbox as the official scorer in a game between the New York Giants and the Milwaukee Braves, in August 1953. Sid Gordon is on third for the Braves and Jack Dittmer is at bat. Dittmer hits one of Dave Koslo's pitches high in the air down the right field line and Don Mueller catches the ball just in fair territory. Gordon tags up and scores.

Now, does Dittmer get credit for a run-batted-in and does it count as an official time at bat?

4) A football game between the Washington Redskins-Philadelphia Eagles. It's the waning moments of the ball game and the Eagles lead 20-17. The Redskins are in possession, fourth down and six to go, deep in their own territory. You're Redskin quarter Charley Justice and it's up to you to make a decision. What play would you call?

5) You're the referee in a wrestling match and the question is simple. How many seconds must a wrestler be pinned in order for the man doing the pinning to be awarded a fall?

6) This is a boxing question and you're the referee in a Golden Gloves match between Leo McCullen and Charlie Little. McCullen lands a hard right to Little's jaw and Little goes down — but not out. He shakes off the punch in an instant and is ready to go. You're the referee. Do you let him come up swinging or must he take a count?

Do you think you called them right? Well here's the answers to these interesting sports questions and you'll get even more of a kick calling the plays with Mel Allen on his sports quiz show.

THE ANSWERS

- 1—You let Trucks bat for himself. In this instance, Trucks showed his appreciation of your confidence by banging in a run.
- 2—Interference in the end-zone is not a touchdown. The ball is placed on the one yard line — first and goal to go for the Eagles.
- 3—Dittmer gets credit for an R.B.I. and it counts as an official "at bat." (The sacrifice fly rule did not go into effect until 1954.)
- 4—Justice went into punt formation, faked a kick, then ran like a scored rabbit for the winning touchdown.
- 5—Three seconds. If a shoulder leaves the mat the referee stops counting and the match continues.
- 6—The boxer must take an eight count while the "slugger" goes to a neutral corner. The eight count is mandatory in all amateur and professional bouts, except professional championship bouts.

My Neighbors

By BILL PAULSON

"Here—maybe you can find my driver's license. I can't see a thing without my glasses!"

Why art thou cast down, O my soul, and why art thou disquieted in me? Hope thou in God.—(Psalms 42,5.)

All of us have our moments of despondency when it seems easier to sink deeper than to make the effort to pull ourselves up. But God's good and His love are ever present to help and strengthen us, if we will but seek Him in prayer.

JOAN'S JUDGE-KNOTS

By Joan Davis

We're taking a trip to the deep South for some amusing statutes this month. Dick Hyman, whose "It's the Law" feature appears in the American Magazine, tells us that in Tulsa, Okla., domestic fowls are forbidden to crow, cackle or squawk. How's that for a farmyard edict?

In Montgomery, Ala., there's a honey of a law that prohibits anyone from sitting on garbage cans.

We go down to Arkansas for this one. In that state there's a law which provides that school teachers who bob their hair will not get a raise.

Bobbing up North, we hit a beaut from Milwaukee, Wis. In that city it is unlawful to play a fife and drum on the streets in order to attract attention.

Let's close this one out with a dandy from Denver, Colo. In that mountain metropolis it's unlawful to shoot jack rabbits from the rear window of a streetcar.

JOAN DAVIS STARS WEEKLY IN "I MARRIED JOAN" ON NBC-TV.

NOW PLAYING AT THE MAJESTIC THEATER

"We can have no confidence in what the Soviets say, and neither is there any doubt as to what they do—and intend to do to all the free world."—Baltimore News Post.

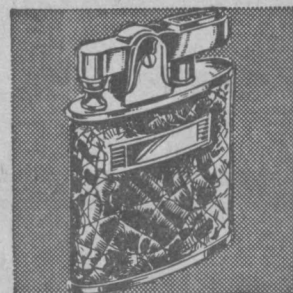

They that wait upon the Lord shall renew their strength; they shall mount up with wings as eagles; they shall run and not be weary, and they shall walk and not faint.—(Isaiah 40, 13.)

To wait upon God is to seek, through prayer and righteous living, to be one with Him in all things at all times all our days, in the sure knowledge that without His love within us, we can achieve little that is truly good and lasting.
