VOL. LXXV, NO. 24

EMMITSBURG CHRONICLE, EMMITSBURG, MARYLAND—FRIDAY, APRIL 8, 1955

SUBSCRIPTION: \$2.00 PER YEAR

## Most Anything At A Glance

BY ABIGAIL

This is the time of the year when I take my annual fling at the Internal Revenue Dept. boys and whatever party happens to be in power. This also is the time of the year that I become so frustrated and enraged that if I could get my hands on those bums who make up the income tax forms I really do believe they'd have a homicide charge against me.

The more I look at the form the more belligerent and hostile I become. Each administration promises to make the matter simpler and what happens, the darn thing becomes more complex than ever before. Now don't get me wrong. I'm perfectly willing to pay my tax, and not begrudgingly, but I do think that the form could be made a mite understandable.

You start off in a fairly pleasant mood. I said fairly pleasant because no one actually likes to work on a form and have to pay money for it. Well anyway, the first few lines like, what is your name and how many dependents are you entitled to claim, go by rather easily. In fact you are almost through the whole first page without a hitch until you reach the last few lines which refer you to page so and so, item such and such, etc., until you are lost in a labyrinth of mathematical phraseology from which there appears no escape. I often wonder if the Revenue boys really know who is kidding who? Someday somehow somebody will come along with a really simplified form which the ordinary gal like myself can handle without too much difficulty. I hear that some of the expert filler-outers are experiencing some difficulty in figuring out the forms.

Say, it's almost time for our own little election here. In fact it's less than three weeks from now. Now the main point is to get registered so that you are eligible to vote in the election. A registration day has been set aside for April 19, so all of you who have not registered in the town election will have an opportunity to do so. I'll give you my annual bit of advice, via explanation of the local rules: This election is our own, for the purpose of electing our town officials which include a Mayor and one Commissioner. Now then, if you have never registered on Emmitsburg's books you had better do so at this registration on April 19. The fact that you have registered and voted in county, state and presidential elections has nothing whatever to do with Emmitsburg's election. Is that clear? You must register for the town election, if you haven't already done so.

Now then, to be eligible to register and vote you must be 21 by election day, May 2 and must have lived in the corporation limits during the past 12 months. Is that clear? Many new people have moved into town apartments and houses during the past several years and have never bothered to register. If you know any of these people it is your moral obligation to try and persuade them to take an active part in local town affairs and one of the most important things is to register and vote. Let's see how many we can get on the list this year folks. It's much to our credit to have a large legitimate voting list. Last year, I believe, about 75 new registrants were signed up. I am certain that the number can easily be doubled. If we don't vote we shouldn't gripe when town government doesn't go the way we think it should.

It's Easter folks and the world needs prayer like it never did before. I don't have to urge most of you to attend Easter services in the church of your choice, but to those of you who do not attend regularly, why don't you make it a point to be present at these inspiring services to be held Sunday? I know that you will come away feeling a lot more like living and with more brotherly love for your friends and neighbors. Won't you think it over? And for those of you who are making a trip, drive carefully, for the life you save may be your own! Happy Easter everyone!

### BANK CLOSED

The Farmers State Bank will be closed today in observance of Good Friday. Business as usual will be resumed tomorrow morning.

## Trout Season Opens In State On April 15

Regional Game Warden Benjamin F. Phebus announced this week that 2000 rainbow trout had been released in Middle Creek on Monday and other Frederick County streams would be stocked early next week for the opening of the Maryland season on April 15.

About 3000 trout, none under seven inches in length will be placed in Fishing Creek, with another 3000 slated for Big Hunting Creek. Friends Creek also will be stocked next week with about 1000 trout and Little Hunting Creek will get 500 later in the week, the warden reported.

The fish being released in Big Hunting Creek will be fin-clipped as part of a research program designed to improve fishing conditions statewide.

Anglers catching the fin-clipped trout are requested to cooperate with wardens by reporting their catches at three checking stations on Big Hunting Creek. Wardens will be stationed at the entrance to the stream and at Foxville road and the picnic area road. Fisherman will be asked to voluntarily report their catches and there will be no attempt at enforcement, Phebus explained.

The State Game and Inland Fish Commission fin-clipped the trout in an attempt to determine how many of the fish are caught within 48 hours of being stocked. It also is hoped to determine the percentage of the carry-over fish.

**Will Check Migration**  
A trap will be placed in Big Hunting Creek near the Thurmont dam to check on the migration of the fish. Rainbows have a tendency to work downstream and the trap will afford technicians an opportunity to check on their numbers. They will be released to continue their migration downstream after being counted.

Big Hunting Creek, as in previous years, will be restricted to the use of artificial lures and the legal limit is five fish of seven inches or more. On streams other than Big Hunting Creek, any type of bait is legal.

A total of 30,000 has been allocated to Frederick County streams during the season which runs to September 15.

## Homemakers Attend County Council Session

Twenty-one members of the Emmitsburg Homemakers Club joined some 500 other county club members for the annual county council held at Hood College last Friday. The Emmitsburg group formed the second largest representation at the meeting.

"Women in Pakistan" was the topic chosen by the main speaker, Mrs. Eva Davis Whitfield. Mrs. Whitfield, former Frederick County home demonstration agent, has spent some time in Pakistan as a Ford Foundation representative helping establish a woman's college there. She stressed the importance of cultivating patience and tolerance among American women so that they may better understand the traditional living habits among less progressive peoples.

Prior to Mrs. Whitfield's talk, delegates representing over 1200 club members elected Mrs. Paul L. Willard, Yellow Springs, as president of the Council. The new president will assume duties at a January board meeting.

Emmitsburg delegates were Miss Louise Sebald, director; Mrs. Estelle Watkins and Mrs. Charles B. Curtin. Other club members attending the county council were:

Mrs. Lewis Higbee, Mrs. Geo. Eyster, Mrs. Kenneth Wagaman, Mrs. Charles R. Fuss, Mrs. Ernest Shriner, Mrs. Robert Daugherty, Mrs. O. H. Stinson, Mrs. John Roddy Sr., Mrs. Victor Fiery, Mrs. Guy Baker, Mrs. Ernest Keilholtz, Mrs. John D. White, Miss Ann Codori, Mrs. R. M. Zacharias, Mrs. Robert Fiteze, Mrs. J. W. Houser, Mrs. Charles Harner, and Mrs. J. Ward Kerrigan.

## Two Issued Building Permits

Building permits issued by the office of supervisor of assessments for Frederick County have greatly increased with the coming of spring. The total estimated cost of buildings for which permits were given in March was \$268,700.

Permits were issued in the Emmitsburg District to Richard L. Eyler, Rocky Ridge, dwelling \$4,000, and Alfred G. Neal, Jr., dwelling on S. Seton Ave., \$7,000.

## "CITIZENS OF TOMORROW" ENTRIES

Final photo entries in the national contest are: top, Helen Smith, 12, daughter of Mr. and Mrs. William D. Smith, 12 E. Main St. Lower photo, left to right, shows Jeffrey Lynn Sanders, 9 mos., and Stephen Mark Sanders, 23 mos., son of Mr. and Mrs. Joseph G. Sanders, 525 W. Main St.

Judging of photographs of entrants in the Cute Children Contest of children photographed by the Allen Studios, east of the Mississippi River, during 1954, has now been completed. Two Emmitsburg children were named as honorable mention in the contest. They were James Hays, III, aged 2, son of Mr. and Mrs. James T. Hays, Jr., 514 W. Main St., and Wanda Zurgable, 2½, daughter of Mr. and Mrs. Henry Zurgable. Their pictures appeared in previous issues of the Emmitsburg Chronicle.

## GRANGE MAKES SEVERAL DONATIONS

The regular meeting of the Emmitsburg Grange, No. 407 was held Wednesday night in the Public School, 23 members present and Master Richard Florence presiding.

Applications for membership were received from Mr. and Mrs. Richard Weybright and Mrs. Loy Hess. It was decided not to incorporate at this time. Mrs. George Gartrell, Mrs. Clara Harner and Mrs. Grier Keilholtz were named as a committee in charge of a card party to be held by the Grange.

Richard Florence, chairman of the Red Cross drive, reported \$581.51 turned over to the Frederick County Chapter, and wishes to express his thanks to all who helped make the drive such a big success.

Mrs. Raymond Baumgardner announced the receipt of \$70.11 from the food stand at Mrs. Morris Zentz' sale. Mrs. Baumgardner thanks all who helped make it so successful. Harry Swomley was elected as a delegate to attend the zoning meeting conducted by the County Commissioners in Frederick.

The following donations were voted: \$5.00 to the Vigilant Hose Company; \$5.00 to Muscular Dystrophy; \$15.00 to Library Fund. A thank you note was received from the Nevin Martin family for flowers and a note of sympathy sent them in remembrance of the death of Mr. Nevin Martin.

Norman Shriver, chairman of the auditing committee, reported a balance on hand of \$262.92. A field day and tractor contest was discussed. It was reported that the Grange sponsored 4-H Club held its regular meeting on April 1 with 18 members present.

Carlos Englar, local insurance representative and his wife, were introduced. Mr. Englar announced he is ready to offer services to the people of this community. The broad automobile coverage of the National Grange Insurance Co. was announced and it was stated that the Grange Company is the only one with these broad benefits. The juveniles joined the adults for refreshments.

## Boost Local Baseball Club

J. William Rowe, president of the Emmitsburg Baseball Assn., announced this week that the following had made booster contributions to the club: Bollinger's Meat Market, Roger Liquor Store, Village Liquors, Houcks, B. H. Boyle, Emmitsburg Recreation Center, and Wayne Chrismer.

Manager Norman Flax said that a successful practice was held last Sunday and that more prospective players would show up this week. The field is being improved, the manager said, and new top soil has been added to the diamond. Other improvements are planned.

## PTA CARD PARTY TUESDAY

What usually is the largest card party of the year will take place Tuesday, April 12, at 8 p. m. in St. Joseph's High School auditorium. The affair is being sponsored by the St. Joseph's High School P-TA.

Earle R. Gelwicks, general chairman of the affair, said this week that plans had been completed and that the advance sale of tickets guaranteed a successful party. Over 100 valuable prizes will be awarded the winners in Bridge, "500," and Pinochle.

A valuable door prize will be awarded and refreshments will be available and the public is cordially invited to attend.

## Governor McKeldin Signs Newly-Passed Legislation

Governor McKeldin has signed into law seven bills changing the alcoholic beverage laws pertaining to Frederick County, it has been reported.

Not included in the bills is the one calling for the appointment of an investigator of a party opposite that of the county liquor license commissioner. That bill was passed Tuesday by the House.

Also signed by the Governor was a bill redefining the boundaries of Braddock District. This bill takes in part of Middletown, Ballenger and Jefferson Districts into Braddock District, with the end effect of permitting all residents of Braddock Heights to vote at Braddock.

Provisions of the seven bills pertaining to liquor licenses include: increasing the expense allowance of the county license commissioner from \$1500 to \$2100 annually; requiring that not more than one Class A off-sale beer license be issued for each unit of 1500 population in the county, to be determined by the Federal census.

Providing for a \$300 annual fee for Class C beer, wine and liquor licenses in the county; providing for an annual license fee of \$65 for Class B on-sale beer and wine licenses; increasing the Class A off-sale liquor licenses from \$250 to \$350; and providing for a \$50 annual fee for Class A off-sale beer licenses; and providing for an \$80 annual fee for Class B on-sale beer and wine licenses.

Enacted was a bill by Senator Ramsburg authorizing the county commissioners of Frederick County to appoint a buildings engineer for county properties. Another bill signed by the Governor was one requiring newspaper publishing of sale of goods and chattels under execution by sheriffs and constables.

## Red Cross Quota Is Topped

Red Cross month and the official conclusion of the 1955 campaign for \$16,000 has produced to date an over-quota total of \$17,290.46.

At this time the county districts, with complete returns from 20 and partial returns from six, have collected almost \$1,000 over their \$4,808 quota, taking honors from the city divisions which are now showing \$295 over their \$11,192 quota. Bruce Crum, county chairman reports that the Emmitsburg quota of \$316 has been exceeded and that \$581.51 has been received to date.

## Invitations Out

The wedding of Miss Dorothy G. Orndorff, daughter of Mr. and Mrs. Maurice Orndorff, to Mr. Francis G. Joy, son of Mr. and Mrs. Hubert L. Joy, will take place Saturday, April 23 at 9 a. m. at St. Anthony's Catholic Church, Emmitsburg.

## LAST SATURDAY

John Randolph—\$8.70

## THIS SATURDAY NIGHT

\$94.00

## BILLS PASSED FAVORABLE TO COUNTY

A review of bills submitted by the Frederick County delegation in the State Legislature shows that the county fared well by the recent enactment of many of these measures.

Directly affecting the taxpayer is the bill which provides for the institution of a withholding tax on wages beginning July 1.

Actually, the tax bill is a stop-gap measure and members of the county delegation to the Assembly know that by next year the Legislature will have to face up to raising the income or sales tax, or both.

Another state-wide bill affecting the county is the home rule bill, which gives almost complete autonomy to municipalities. This includes such important items as autonomy in floating bond issues and expanding town limits.

Under the provisions of the home rule bill, municipalities and incorporated towns must pass implementing ordinances whenever the need arises to qualify under the home rule bill.

State Senator Jacob R. Ramsburg said it was because of the home rule bill and its provisions, that Frederick City was exempted from the inventory reduction bill which applies to Frederick County. The State Legislature has no control with home rule of such matters.

### Beer Bottle Bill Dies

Only bill of much interest and which lost in the House, was the county one outlawing throw-away beer bottles. The bill had passed the Senate. Delegate M. H. Derr, who was minority leader of the House, said the bill, which would have applied to Frederick County only, went to the alcoholic beverages committee in the House, where it was given an unfavorable report and held.

Bills which passed the Legislature included the measure to establish scholarships at Hood College in order to train teachers for public schools in the state. There was some resistance to this proposal from Baltimore County delegates.

Also passed were measures calling for redistricting of Braddock District which will permit all residents of the Heights to vote in one area; establishment of a position of county buildings engineer, and authorizing the appointment of a county liquor inspector to work along with the county license commissioner.

No action was taken by the county delegation on various proposals regarding the make-up of the Board of Education calling for an elected school board.

Minor items passed were revisions to the liquor license law as pertaining to Frederick County increasing fees and clarifying provisions, permitting the commissioners more leeway in making an audit, authorizing another warden at the jail, eliminating handbills which were required for Sheriff's sales, authorizing the sheriff or his deputies, to appoint appraisers for damage to livestock by dogs, and legalizing the county's giving of funds to non-profit institutions in the county.

## Leigon Donates

### To Fire Company

The regular monthly meeting of the Francis X. Elder Post, No. 121, American Legion, was held Tuesday evening at 8 o'clock at the Post Home with 57 members present. Cmdr. Charles B. Harner presided.

J. Everett Chrismer reported on the Heart Fund, stating that \$300 was donated by members of the Post and others.

T. Eugene Rodgers gave a report on the drill team activities and urged all new members to join in the near future.

Cmdr. Harner read a letter from Mrs. Charles A. McNair thanking the Post for the beautiful spray of flowers for her husband who died recently. She thanked the following men for their participation in the military funeral: Charles B. Harner, Allen Davis, Leo Topper, Thomas C. Harbaugh, Louis F. Rosensteel, Curtis D. Topper, William Weidner, William Topper, Everett Chrismer, Edward Houck, Andrew T. Shorb, Sterling Goulden, George Ashbaugh, Jr., Carroll Topper, Donald Topper and T. Eugene Rodgers, drillmaster.

Membership committee reported 257 veterans belong to the local Post.

A \$50 donation was voted to the Vigilant Hose Co., now conducting its annual drive.

William L. Topper won the door prize of \$5.00.

After the meeting, movies were shown of the 1954 World Series through the courtesy of a beer company. Refreshments were served by the ladies' auxiliary.

The YMCA was founded in 1844.

## Council Names Date For Annual Registration

A full board was present at the regular monthly meeting of the Mayor and Commissioners of Emmitsburg held Monday evening in the Fire Hall, Chairman of the Board of Commissioners Thomas J. Frailey presiding.

Reports of the tax collector, secretary and treasurer were given by Town Clerk Louise Sebald and were approved as presented.

Parking meter revenue for March was reported as \$266.54. In addition, there were 26 overtime parking violations amounting to \$26 and one traffic violation fine of \$6.45, which aggregated made the "take" \$301.99.

Council announced that a registration of new voters would be held on Apr. 19 from 2 to 7 p. m. in the Fire Hall. To be eligible to vote, one must have attained the age of 21 before the date of election; must have lived in the Corporation limits for at least 12 months and must still reside in the town limits.

The Town Fathers announced that the annual town election will take place on Monday, May 2. Two offices are to be filled this year. The term of Commissioner T. J. Frailey and that of Burgess Thornton W. Rodgers expire in May and must be filled. Council advises that anyone interested in running for these offices must file their declaration of intention at least 10 days prior to the date of election.

Street Commissioner Charles R. Fuss was granted permission to complete the hard surfacing of those alleys in the town limits which remain unimproved at the present time. Commissioner Fuss reported that the work will be done at the first available opportunity, and when finished will give the town all surfaced alleys.

The Solons were in receipt of a letter from the Frederick County Commissioners who are interested in forming a commission to study the existing conditions of building in the county. Inadequate provisions in the building and zoning laws of the county have caused much concern in the past few years with houses being erected too close to major highways, poor drainage facilities, inadequate sewerage, etc. It is the hope of the Commissioners to be able to reach an intelligent decision on the matter by calling a public meeting of town governments, representatives of county farm and civic groups. This meeting has been scheduled to take place in Winchester Hall, Frederick, on Tuesday, Apr. 19, at 8 p. m. At least one member of the Board of Commissioners from here is planning to attend the meeting and representatives of local clubs also are invited to attend. The Board announced that Daylight Saving Time will go into effect in Emmitsburg on the last Sunday of this month, April 24.

A donation of \$1000 was authorized to the Vigilant Hose Co. and a check has been mailed, it was said.

## Drunken Driver Pays \$112.90

Two out-of-town motorists paid fines totaling \$124.35 on charges of violating the state motor vehicle code.

Of the total fines paid, one violator, Robert M. Powell, Biglerville, Pa., paid \$112.90 on three counts, one of which was dismissed. He was fined \$101.45 on a drunken driving charge, \$11.45 for failing to stop for a traffic sign and was exonerated on a reckless driving charge. William A. Brandenburg, Ellicott City, was fined \$11.45 for exceeding the local 25 mile-an-hour limit.

All arrests were made by Police Chief Daniel J. Kaas and the hearings were held before Magistrate Charles D. Gillelan. The Police Dept. issued 20 warning tickets during the past month.

## FOOD SALE

A food sale under the auspices of the Emmitsburg Public School PTA will be held Saturday morning at 10 a. m. in the Fire Hall. On sale will be soup, sandwiches, cake, pies, candy, etc. Public invited.

## INDUCTED

Three Emmitsburg men were inducted into the armed forces this week. They were: Donald Lee Gochenour, Emmitsburg Rt. 2; James Allen Wagerman, S. Seton Ave., and John Dallas Carson.

Dr. Hubert E. Slocum, local optometrist, will be absent from his office during the week of April 10 when he will be vacationing at Pinehurst, N. C.

The first Postal Savings Bank in America was opened in 1911.

## A "New Angle"

You will never see a car in this position, but Chevrolet engineers did recently, when they hung the car by the front axle to make X-frame pictures. The man behind the wheel knows how the Navy's XFV-1 "Pogo Stick" plane pilot feels when he's ready for a vertical takeoff. The chain holding the convertible has been retouched out of the picture.

## SJHS NEWS

The 1955 Liliun met its deadline as it was sent to the Yearbook House for publication Tuesday, Apr. 5. Many hours have been spent by the staff in preparing a yearbook which will distinguish our school and illustrate the high school student's life.

All art work was meticulously done by Maria Kramer and Robert Porter with Donald Hobbs supplementing their work by his skill at the electric typewriter. Jean Keefer, student photographer, snapped many of the pictures used in the '55 edition.

Co-editors Ellen Rocks and Mary Jane Scott were greatly aided by the untiring help rendered by layout managers, Margaret Walter and Dolores Topper.

The winners of the Mother Seton Club Contest were awarded their prizes Tuesday afternoon by Sister Mary, the principal. Winners of monetary awards were Anthony Topper, Norah O'Brien, Mary Keeney, Pamela Miller, Suzanne Felix, Jean Marie Her-ring, Felix Tauscher, Bernardine Myers, Miriam Hess, Joan Topper, Rebecca Chrismer, Laurence Topper, and James Fitzgerald. Twenty honorable mention certificates were awarded to the runners-up in the contest which was composed of art and literature entries.

Work on the Great Wall of China began in 255 B. C.

The first subway opened in Boston in 1897.

May all the happiness of the Easter season surround you and your family. May you rejoice anew in the miracle of spiritual rebirth. May the glory of the Day shine brightly in your heart throughout the year to come.

## 4-H Club Elects Officers

The Emmitsburg 4-H Club held its second meeting since organizing on April 1 with 18 members present. An election of officers was held with the following results: President, Norman Shriver; vice president, Paul Bealle; secretary, John Krom; treasurer, Richard Swomley; reporter, Ray Harner; song leader, Thomas Wilhide.

Howard Stevens of the Lewis-town 4-H Club announced his organization would award a \$5 donation to the member obtaining the most new members.

Joyce Meadows, Morris Zentz and Edward Meadows were in charge of the program which had the topic of "Selecting a Project." Paul Bealle will have charge of the next meeting and his topic will be "Planting Corn."

## Executors' Sale

OF VALUABLE PERSONAL PROPERTY

Near Taneytown, Carroll County, Maryland

On the premises of the late Charles R. Hockensmith, deceased, about 1 1/2 miles north of Taneytown on the road leading toward Harney, Carroll County, Maryland.

By virtue of the power and authority contained in the Last Will and Testament of Charles R. Hockensmith, deceased, of record among the Will Records of Carroll County, and pursuant to an Order of the Orphans' Court of Carroll County, Maryland, passed on December 6, 1954, the undersigned Executors will sell at public sale on the premises on

THURSDAY, MAY 5, 1955

at 12:00 noon, the following farm equipment, household furniture, bank stock and other personal property:

### FARM EQUIPMENT

1948 Ford Pickup Truck, Farmall tractor and furrow plows, tractor cultivators, disc harrow, cultipacker, lime spreader, McCormick-Deering mower, Ontario grain drill, side-delivery rake, McCormick-Deering wheat binder, McCormick-Deering corn plows, Case corn planter, spring wagon, 1 hay carriage, western wagon and carriages, hay loader, New Idea manure spreader, 3 horse drawn plows, wagon and bed; 3-wheel corn cutter, corn sheller, sheep clippers, electric brooder, chicken feeder, barrel spray, spike harrows, springtooth harrow, drag harrow, shovels, picks, tools, feed grinder, hay chopper, harness, also lot of hay and straw.

### NOTICE TO CREDITORS

This is to give notice to the creditors of Charles R. Hockensmith and John B. Hockensmith, deceased, to file their claims, with the vouchers thereof, with the Clerk of the Circuit Court for Carroll County, Maryland, Westminster, Maryland, within two months from the above day of sale.

Ralph G. Hoffman and  
Charles O. Fisher,  
Trustees

## NO COMMENT

By  
WALTER CHAMBLIN, JR.

WASHINGTON — Congressional approval of sale of virtually all of the government-owned synthetic rubber plants mark the third major victory in the last two years in President Eisenhower's effort to reduce government competition with private enterprise.

Under the leadership of the Secretary of Commerce, Mr. Weeks, the Federal government previously disposed of the government-owned barge lines. Further, as a result of directives of the Secretary of Defense, Mr. Wilson, progress has been made in taking defense agencies out of private-type business.

Sale of 24 of the 27 government-owned synthetic rubber plants for \$310 million, including inventory, was made on recommendation of the Rubber Disposal Administration created by Congress. The stamp of approval of Congress was given in rejecting resolutions to veto the sale. The House of Representatives approved sale by a vote of 283 to 132. Senate approval was given by a vote of 56 to 31.

In both branches of Congress the fight to get the government out of the synthetic rubber-pro-

ducing business was made on a bi-partisan basis. In the House, Rep. Carl Vinson (D.-Ga.), and Rep. Dewey Short (R.-Mo.), led the fight, while in the Senate Senator Homer Capehart (R.-Ind.), joined forces with Senator Allen Frear (D.-Del.) Senator Wayne Morse (D.-Ore.) and Rep. Wright Patman (D.-Tex.) were leaders in the fight to disapprove the sale.

Mr. Vinson declared that the government had obtained especially advantageous bids from private industry, the bids far exceeding the book value.

But Bureaucrats are hard to hold down: while Mr. Eisenhower was succeeding in getting the Federal government out of rubber production, the Tennessee Valley Authority was busy putting the Federal government back into competition with private industry in the fertilizer business.

Announcement by TVA of the production of diammonium phosphate (which is a high-analysis fertilizer material) provoked a storm of protest from the fertilizer industry. The TVA contention is that its production constitutes but a small part of the national output of his fertilizer. However, private companies producing the fertilizer hold that TVA production which expand and that it will constitute a serious impediment to the development of private production of the fertilizer.

Diammonium phosphate is now produced in a number of parts of the country and many companies are contemplating either entering the field or expanding present facilities. Senator Henry C. Dworshak (R.-Ida.) and a number of other members of Congress have protested vigorously against VA setting up this competition.

The Kansas State "Right-to-Work" Bill: The Secretary of Labor, Mr. Mitchell who last December told the CIO convention that state "right-to-work" laws "do more harm than good," has now congratulated Gov. Fred Hall of Kansas for vetoing a recently enacted "right-to-work" bill which would have banned compulsory union membership agreements between employers and unions. Mr. Mitchell said that the Governor had "demonstrated commendable courage and devotion to the best principles upon which our country was founded."

Mr. Mitchell's attitude with respect of the state 'Right-to-Work' Act is at variance with the position taken by industry in general.

Taxes and Politics: Present indications are that the main Democratic attack against the Eisenhower Administration in the 1956 Presidential campaign will be centered around tax policy. For example, the Democrats are presently planning to establish a special subcommittee of the House Ways and Means Committee, probably headed by Rep. Mills (D.-Ark.), to investigate the entire Internal Revenue Code of 1954. This investigation is expected to get under way shortly after the Secretary of the Treasury, Mr. Humphrey, sends to the Capitol recommendations proposing the correction of from 70 to 80 items in the 1954 code.

Under present plans, the tax investigation would continue through the present session of Congress and through the session

## Bill Would

### Benefit County

A proposed increase in the State allocation toward the incentive fund for school building, which has passed the Senate, might mean as much as \$120,000 more per year for Frederick County, it was reported.

The effect of the legislation said Supt. of Schools Eugene Pruitt, would be to double the incentive fund money, without requiring the counties to levy any additional sum. Under the present requirement, Frederick County levies 5 cents on the tax rate to receive the equivalent of that amount in State incentive funds.

At the same time, Mr. Pruitt said the adoption of the annual property assessments bill as of July 1 was not expected to cause much shift in the amount of equalization fund money for schools received by Frederick County from the State.

The amount which a county receives from the equalization fund goes down as the assessable basis of that county goes up. An increase in basis can be expected with the end of the assessment now under way but it isn't expected to change the equalization fund money to any great extent.

next winter right up until the eve of the election.

Reports at the Capitol are to the effect that the current CIO-UAW meeting in Cleveland proposes to set up a task force to examine the 1954 code and to make recommendations to the Democratic members of the investigating subcommittee.

All of this indicates that the limited tax gains made in the new code will be under increasing political attack in the months ahead.

Delegate S. Fenton Harris introduced a resolution to request the State Roads Commission to erect signs along highways setting forth the maximum penalty for putting glass or other dangerous substances on highways.

Gov. McKeldin signed bills providing for payments of at least \$8 a day to Frederick County jurors, along with mileage set by the commissioners, starting next January, and raising the maximum permissible property tax rate in Taneytown from 75 to 90 cents.

A bill introduced by Senator Ramsburg requiring newspaper

## INCOME TAX FACTS No. 7

### Medical Expenses and Other Deductions

(This is one of a series of articles on income tax changes. The articles are based on information provided by the American Institute of Accountants and the Maryland Association of Certified Public Accountants.)

Taxpayers with heavy medical expenses in 1954 get a big break under the new tax law.

In the first place, certain sick benefits are not even counted as income. This was true before in the case of insured plans, but now applies to benefits from the uninsured employer as well. Here's what you can receive free of tax from your employer or his insurance company:

1. Payment for medical expenses.
2. Payment for permanent injury (not based on time absent from work).
3. Damages for injury or sickness.
4. Payments under Workmen's Compensation acts.
5. Payment up to \$100 a week for loss of wages while you are absent due to injury or sickness, except that the first week's pay is taxable unless you are absent due to an injury or are hospitalized for at least one day.

### Medical and Dental Deductions

Using the long form and itemizing your deductions you can now deduct more than you could last year. First you add up your expenses for medicine and subtract 1% of your adjusted gross income. Add the remainder to your other medical and dental expenses, including doctor, dentist and hospital bills you have paid, transportation (but not living expenses) for medical treatment away from home, and medical insurance premiums.

From this total you must subtract any benefits received from your medical insurance and, unless you are 65 or over, 3% (instead of the old 5%) of your adjusted gross income. This will give you the amount of your medical and dental deduction. It cannot be any more, however, than the maximum based on your exemptions.

This maximum has been raised to \$2,500 per exemption (except those for old age and blindness) up to \$5,000 for a single person and up to \$10,000 for a head of household or on a joint return.

### Charity Made Easier

There is still the 20% limit on charitable contributions in general, but you can take a deduction for

an additional 10% of your income contributed to religious organizations, schools and hospitals. Within the 20% limit you can now include gifts to non-profit cemeteries, as well as any "religious, charitable, scientific, literary or educational" organization.

### Taxes and Interest Paid

In general you can deduct taxes you have paid for yourself or a member of your household, except to the federal government. You can not deduct "hidden" sales taxes (not separately stated to the customer), or fees for hunting licenses, dog licenses, water supply or auto inspection.

Interest paid by you on mortgages and on loans is deductible. Don't forget FHA loans, car loans, collateral loans, personal loans and loans against your life insurance.

There is a new provision this year that may help you if you purchased anything on the installment plan. Formerly you could deduct interest only if it were separately stated. Now you can deduct the amount of any "carrying charges" up to 6% of the average monthly unpaid balance as interest.

### Fire and Storm Damage

Another type of deduction is the casualty loss. If your home, car, or other property was damaged by fire, storm, flood, lightning, explosion or freezing—or if any of your property was stolen—your loss not covered by insurance is deductible. See the official instructions for the method of calculating your loss.

### Additional Information

Be sure to read the official instructions. You can also get help from the Internal Revenue Service, which urges you to consult only qualified advisers.

# Ford sells more because it's worth more

The new Ford Fairlane Town Sedan is an outstanding example of modern 4-door design.

*In 1954, more Fords were bought by the motoring public than any other make. That's because more and more people are discovering that Ford has more to offer!*

FOR YEARS, Ford has been the trend-setter in all the features that make a car worth more . . . V-8 power . . . Ball-Joint ride . . . modern styling. And today, Ford brings you even *more* good sound reasons to buy.

First, Ford offers the reassuring response of new Trigger-Torque power in your choice of 2 mighty V-8 engines or the industry's most modern Six.

Next, Ford for '55 brings you a new, and smoother, Angle-Poised Ride, made possible by Ford's advanced new Ball-Joint Front Suspension system. It makes even the smooth roads seem smoother.

And finally, in just plain good looks, Ford's farther out front than ever. With brand-new styling inspired by the long, low lines of the fabulous Thunderbird, Ford is America's most beautiful buy!

## Marine Recruiter Visits College

Representatives of the U. S. Marine Corps visited Emmitsburg and St. Joseph College last week for the purpose of arranging a talk to interested students on the advantages and opportunities of Marine officers in the Marine Corps.

In a discussion with Sister Mary Agnes and Sister Mary Ellen it was decided that April 14 would be the best date to speak to the interested students. This would allow them time to go home during the Easter holidays and discuss the matter with their parents. The women's program, as explained to the Chronicle, is most interesting. There are only approximately 120 women officers in the entire Marine Corps, making it possible for almost the entire group to know each other, and being such a small group, each woman is able to take an active part in assisting in plans and policies for themselves. Naturally, this small group also needs very few replacements, making the selection requirements most stringent. The entire area served by the Baltimore procurement office will select only six candidates from the applications submitted this year.

Women Marine officers serve in the United States, Hawaii, and Europe, making possible a considerable number of interesting duty stations.

Normally the women are able to travel throughout the entire area in which they are serving during their off-duty hours and the 30-day leave they have each year.

They also have a variety of interesting duties to perform, including such jobs as personnel, administration, public relations, communications, instructing, and several independent-type duties such as Officer Procurement.

Applicants must be a sophomore, junior, senior or a graduate, and those selected attend either two six-week or one 12-week summer courses at Quantico, Va. and are commissioned as 2nd lieutenants upon graduation.

They then serve for a period of two years on active duty, with an opportunity to apply for a regular commission and permanent duty. Government statistics prove that the pay for a 2nd lieutenant is far greater than the average college graduate can command elsewhere. The present pay for a 2nd lieutenant is approximately \$338 per month, with several increases possible during the two-year tour due to promotions and longevity, in addition to the special tax consideration on approximately one-third of her pay. The new pay bill which is expected to become a law in the very near future could raise the pay even more before she completes her two years.

Numerous other benefits are available to help increase the net worth of this income. These include a \$200 initial uniform allowance, \$10,000 free insurance policy, medical and dental care and excellent recreation facilities at little or no cost.

Many of the women officers find that this two-year tour of active duty provides excellent background and experiences in the fields in which they majored at college, permitting them to enter a civilian occupation at a higher rating and a higher salary than they could have otherwise commanded.

## SENATE CLOAKROOM

By J. GLENN BEALL

Secretary of the Air Force Talbott advised me last week that he was planning the transfer of the Air Research and Development Command from Baltimore to Dayton, O., next year—and we immediately advised him that he had a fight on his hands.

This transfer would be neither practical nor economically feasible. It would work a hardship on employees and personnel of the Command and is in no sense necessary.

Therefore, I have asked a House appropriations subcommittee to give me an opportunity to be heard on the matter before it completes action on the Air Force appropriation bill.

The Command was moved to Baltimore in 1951 and that is where I intend for it to remain.

The Orioles are more in evidence now, but the sportsmen always have an eye on the ducks.

We members of the Maryland Congressional delegation are keeping an eye on them too. In view of the blossoming weather, Secretary of the Interior McKay was probably a bit surprised to receive a letter from me requesting a meeting between himself, officials of the Fish and Wildlife Service, the delegation and sportsmen-hunters to confer on a resolution passed by the State Senate asking for changes in the Federal regulations governing duck hunting.

This is part of our continuing campaign to give the Maryland sportsmen some relief from the present stringent regulations.

## SPORTS AFIELD

By Ted Kesting

Strips of pork rind, sitting in jars on a tackle-store counter, don't look like much. But just try a cast with one, and carefully watch its action as you retrieve. Then you'll begin to see why a fish considers it a highly desirable morsel. Behind a suitable lure, it has an enticing wriggle just like some little creature swimming with plenty of body movement.

And there is no substitute for real rind. Substitutes simply haven't got that lifelike, convincing wriggle. Rind has it because it's about the limpest thing imaginable, and still extremely strong and tough so it keeps its shape and stays on the hook. There are three types of lures with which pork rind is commonly used. Here they are explained by Jason Lucas, angling editor of Sports Afield magazine:

The first is the most deadly thing ever devised for trout and also for crappies. This consists of an off-center sinker, a colored keel (he prefers red), then a small spinner—one dangling freely on a clevis and rotating on the wire stem. Behind this is either a plain hook or a fuzzy fly of the woolly-worm type. Then a small rind, with the barb passed through a hole near its head.

The next type is for bass, pickerel and smaller pike. The only difference between it and the first lure is that this will have, instead of a loose spinner, a single vane revolving in a fixed plane around the wire shaft; and since it's for a larger fish, the full bass strip will at least be tried at first. This single-vane spinner sets up more jiggle in the shanks, and so gives the rind a slightly different action. Bass love it.

The third and largest is for musky and large pike and a good second guess for bass. It consists of a casting spoon that's meant to wobble, not spin, either treble or single hook, and the pork rind.

Lately you can get rinds in several colors, but Lucas prefers white. He also suggests that you glance at your lure each time before casting to be sure the rind is not hung on the hook point.

Buy good quality rind. The lower quality rinds just don't seem to get limp enough to wriggle right. Don't put the used rinds back into the jar with the new ones because it has a bad effect on them. Carry an extra jar with water in it, for the used rinds.

Under the Joint resolution of Congress, March 1, 1845, Texas may subdivide it into four states.

Friday evening, Mar. 11, when Miss Margaret Elizabeth Portner, daughter of Mr. and Mrs. Charles Portner, Thurmont, became the bride of Donald Eugene Dorsett, son of Mr. and Mrs. Albert Ruggles of Champaign, Ill.

The double ring ceremony was performed by Rev. John J. Hart. The bride is a graduate of St. Joseph's High School, Emmitsburg, class of 1954. Her husband was graduated from Champaign High School, class of 1952. He is now serving with the U. S. Navy.

## Priest Is Injured In Auto Mishap

Rev. Fr. Francis Patrick Kearney, 44, Mt. St. Mary's College, was injured and damage amounting to more than \$1,200 was caused when his car struck the center plot in Abbotstown Square last Saturday morning at 3 o'clock and then smashed into a tree and gasoline pump at the George Hollinger garage.

Pennsylvania State police said Fr. Kearney was driving west, and added that he dozed off and the car struck the center plot. He was removed to the Hanover Hospital by the New Oxford ambulance for treatment for lacerations of the face and bruises of the jaw.

Damage was estimated at \$1150 to the car and about \$100 to the pump and trees.

## MARYLAND FARM FRONT

The minimum national price support rate for 1955-crop corn in commercial corn-producing areas is \$1.58 per bushel, according to a recent U. S. Dept. of Agriculture announcement. This price support level is 87 per cent of the Feb. 15 corn parity price.

Corn produced in non-commercial areas will be supported at 75 per cent of the commercial area support rates.

George B. Reeves, chairman of the Maryland Agricultural Stabilization and Conservation Committee, says the 87 per cent of parity support level for the 1955 crop was indicated because of parity support level for the 1955 crop was indicated because the supply of corn for the 1955-56 marketing year has been estimated as of Oct. 1 at a little more than 107 per cent of the normal supply. The law provides for a variable support level on the basis of the estimated supply of corn. Support rates under the 1954 program were based on \$1.62 per bushel which was 90 per cent of parity.

Fourteen Maryland counties are classed as commercial corn areas, nine as non-commercial. Rates by counties for price support loans and purchase agreements will be announced at a later date, according to Chairman Reeves.

He explains that the minimum support rate of \$1.58 per bushel for the 1955-crop corn will not be reduced but may be increased if a combination of the corn parity price as of Oct. 1, 1955 (the beginning of the marketing year) and the supply percentages as of that date indicates a higher minimum level of support.

The price support program for the 1955 crop will be carried out through Commodity Credit Corp. loans and purchase agreements. These will be available from harvest time through Apr. 30, 1956, in most areas, and will mature on May 31, 1956.

## County Is 17th In Bond Sales

The U. S. Treasury Department information released today thru Mr. James McSherry, Savings Bonds chairman for Frederick County, reports the State of Md. as making excellent progress towards reaching its goal of \$71 million for 1955. January and February accounted for 15.9 per cent of the state's goal for 1955, or \$11,356,853, in sales of E and H bonds for this two-month period.

Mr. McSherry urged all Savings Bonds volunteers to continue their unselfish efforts in order to make it possible for Maryland to reach its 1955 quota of \$71 million.

Frederick County now ranks 17th in Maryland in percentage of sales quota made so far this year, having accomplished 15.8 per cent of its sales objective.

Mr. and Mrs. Jack Rosensteel have purchased from Mr. and Mrs. Elmer Reeder a property west of town on the Mountain Road. The Reeders are moving to St. Louis, Mo.

## Hood Scholarships Now Available

State senatorial scholarships to Hood College, Frederick, will be awarded on the basis of special examinations to be given later this spring, according to an announcement by Dr. Andrew G. Truxal, president of the college.

Dr. Truxal explained that examinations for these scholarships to other Maryland colleges had already been given before Gov. McKeldin had signed the bill authorizing such grants for Hood. The college will, therefore, provide a separate test which will be distributed to school boards in the state. Information concerning application for these scholarships can be obtained from the registrar of Hood College.

According to the terms of the measure, each senator in the state would be entitled to choose a recipient of a scholarship covering room, board, and tuition at Hood. Additional scholarships would be open for candidates from each of the election districts in Frederick County.

Holders of the scholarships will be required to guarantee that they will serve as teachers in Maryland for at least two years after graduation.

## State Income Tax Now Due

With the deadline for filing Income Tax returns to the State of Maryland only a week away, J. Millard Tawes, Comptroller of the Treasury, has issued a timely reminder in order that all persons may be aware of the requirements for filing and their responsibilities under the law.

The Maryland return which is due on or before Apr. 15, covers income received by the taxpayer during the calendar year, 1954.

For the benefit of those not familiar with the requirements, Mr. Tawes cited the law which requires every resident of Maryland who during 1954 had a gross income of \$1000 if single, or more than \$2000 if married, to file. The tax is due on the date fixed for filing the return.

Mr. Tawes stated that there is no contemplated legislation affecting preparation of the returns, which are basically the same as in the previous year, the rate of tax being 2 per cent on ordinary income and 5 per cent on investment income.

Personal exemptions allowed in the return are \$1000 for single persons and \$2000 for husband and wife living together; depend-

## DIES IN TRAILER

Mrs. Margaret G. Reabuck, 69, wife of Lewis Reabuck, near Wilkes-Barre, died Tuesday morning in a house trailer located at the Lee-Meade Inn, about seven miles

ent credit is \$600.

Mr. Tawes stated that changes made in the Federal law with respect to medical expenses, child care, and retirement income, do not effect the Maryland return.

north of Emmitsburg. Adams County Coroner Dr. C. G. Crist investigated and said death was due to a heart attack. The Reabucks were en route to their home after wintering in Florida.

Funeral services and interment were held in Wilkes-Barre, Pa.

The first transcontinental air-mail route between New York City and San Francisco was begun in 1920.

## WASHINGTON AND "SMALL BUSINESS"

By C. WILSON HARDER

"What's sauce for the goose is sauce for the gander." This old folk saying is often quoted these days on Capitol Hill.

Legislation is pending to tax cooperatives on same basis as corporations. In nationwide membership poll of National Federation of Independent Business, 95 per cent endorsed H. R. 43, introduced by Rep. Noah Mason, (R., Ill.) to tax cooperatives the same as corporations.

Membership C. W. Harder is now voting on H. R. 1780 introduced by Rep. Clifford Davis, (D., Tenn.) which would require cooperatives to pay taxes on net income before payment of patronage refunds in same way corporations pay tax on net income before dividends.

Thus it might be said Treasury Secretary George Humphrey's appeals for Congress not to cut personal income taxes because government needs money have drawn sympathetic Congressional interest.

For some time it has been recognized a vast volume of business done by cooperatives has been escaping taxes.

Some experts say taxation of cooperatives on same basis as competing companies would yield extra billion dollars.

History of cooperatives is interesting. Many years before farm price supports, farm subsidies, other farm programs were dreamed about, special laws permitting establishment of cooperatives on a tax free basis were enacted to help farmers.

However, law was written on such broad scope door was

opened for practically any type of business to be operated as a cooperative and thus escape taxes. With advent of high taxes, door became popular.

An example is wholesale field. While chain operations are blamed for demise of high percentage of wholesalers, wholesale cooperatives have probably been as responsible, or more so.

If a retailer would prefer to buy through a cooperative rather than his old established wholesaler who extended credit and performed other services, that is his privilege. But during past few years there is reasonable doubt cooperative membership would have been so attractive to many retailers if cooperatives had been required to pay same taxes as private wholesaler.

Even despite tax advantages there are wholesale cooperatives which have not paid members any patronage refunds in cash, issuing stock certificates in lieu of cash not readily negotiable and thus of doubtful value.

At same time, many cooperatives have been pushing to their members their own house brands competing with income tax paying private manufacturers.

Thus once again Congress is faced with an economic injustice spawned by income tax. While outlawing income tax would be quick remedy, it is not to be expected such a drastic cure will ever be entertained.

Therefore, it is felt only just that Congress prescribe all enterprises engaged in production and distribution of merchandise be equally subject to taxation. If such action is not taken, many observers fear in years to come practically all business will be captured by cooperative system which in many nations has supplanted free economy system.

## BABSON

## Writes . . .

By ROGER W. BABSON

BABSON PARK, Mass., Apr. 7.—Although the Fulbright investigation of the stock market is over—probably to the benefit of all concerned—I continue to have questions from readers. Most of these are in regard to the Dow-Jones Industrial Average.

This is what seems to trouble readers most. First, they note that the Dow-Jones Indus-

trial Average has "gone up" or "gone down" four points—for instance—and yet not one of the 30 stocks included in this "Average" has varied this amount! They say: "Wall St. accounting is worse than Truman accounting!"

Another thing bothering stock-minded readers is that from one day to the next this so-called "Average" will move faster and further than what they claim to be the "honest Average." They write me: "No wonder Bernard N. Baruch is reported to have indicated that readers had better forget following the newspaper accounts of Wall Street, because by the time the market makes the front page all the wise guys have left the premises with the money."

## Reasons For Wall St. Arithmetic

The day-to-day changes in the Dow Averages are magnified. In the case of the Industrials, if—on a straight mathematical average—the market prices of the stock were UP 1 point, the net change shown by the Dow Average release would be UP by more than 5 points! The reason for the magnification of changes is that the Dow Averages are no longer arithmetic averages. That is, instead of taking the aggregate value of the 30 stocks in the series and then dividing the sum by 30, they now take the aggregate value and use an adjusted divisor which at the pres-

ent time is 5.76. Thus, the daily change in the average is actually magnified in a ratio of 30 to 5.76, or about 5.2 to 1.

This method of computing the daily Average is to save time, yet preserve the historical continuity of the Average. Under the old method they adjusted each stock in the series for stock splits before computing the daily Average. Under the present method, no such adjustments are made for the individual stocks—the adjustments are made in the divisor. In this way, there is no need to make a great many computations to adjust for the various splits that have taken place over the years.

The present method is satisfactory and simple—the divisor itself is changed from time to time as splits and stock dividends occur. In fact, when this "divisor" idea was first used, the figure was 12.7, whereas the figure now used is 5.76. They first computed the sum of the market prices of the 30 stocks in the series adjusted for splits. The next step was to compute the Average by dividing this adjusted sum of the prices by the number of stocks in the series (i.e., 30). Then the next step was to add to gether the market prices of the 30 stocks (with no adjustments), and divide this figure by the adjusted Average. The net result was the divisor. The divisor now used to determine the Average at the various times of the day has been computed in this fashion.

## Margin Requirements

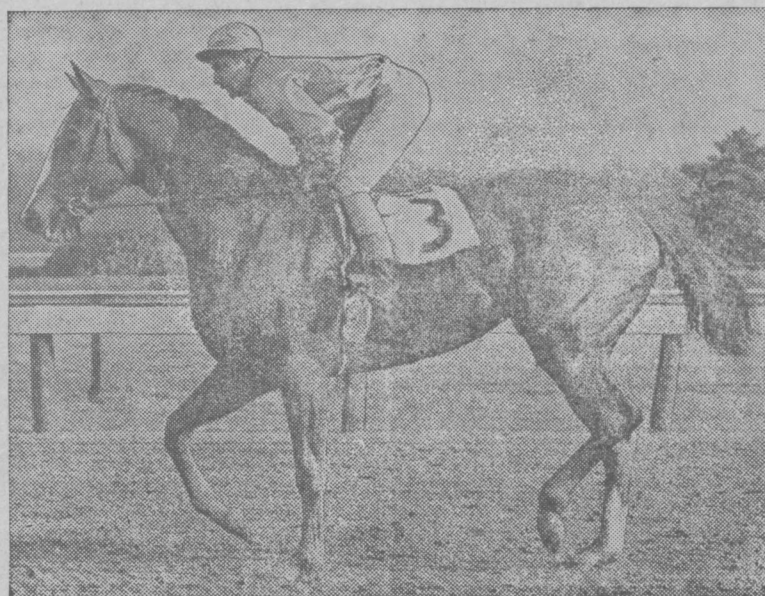

Letters have also come to me asking how and when margin requirements have been changed during the past 20 years. Here are the facts regarding these: Apr. 1, 1936 through Oct. 31, 1937, General rule—55%; Nov. 1, 1937 through Feb. 4, 1945, General Rule—40%; Feb. 5, 1945 through July 4, 1945, General Rule—50%; July 5, 1945 through Jan. 20, 1946, General Rule—75%; Jan. 21, 1946 through Jan. 31, 1947, General Rule—100%; Feb. 1, 1947 through Mar. 20, 1949, General Rule—75%; March 30, 1949 through Jan. 16, 1951, General Rule—50%; Jan. 17, 1951

through Feb. 20, 1953, General Rule—75%; Feb. 20, 1953 to Jan. 4, 1955, General Rule—

50%; Jan. 4, 1955, to date, General Rule—60%. Margin requirements are set

by the Federal Reserve Board, and are therefore an instrument of overall control. Changes are made as part of a broad Federal Reserve Policy.

North America is the third largest continent, with Asia and Africa ranking first and second. Frank Gotch was one of the greatest wrestlers of all time.

#### Teachings For Americans

What would you think about this statement: "Socialism means the use of government to bring about equality of opportunity among citizens." Sounds like a good role for government, doesn't it? Equality of opportunity is one of our American political and economic system. We have come nearer this goal than any other nation in history. But our system is not "Socialism." It is the opposite to Socialism; it is capitalism. To say that "Socialism means the use of government to bring about equality of opportunity among citizens" is at best, a half truth of a slanted statement.

Yet the statement appeared in the 1946 edition of Magruder's "American Government" high school textbook. It was one of many statements in the widely used text which provoked criticism by many parents and a number of teachers. The book's publishers, Allyn and Bacon, Inc., fairly-mindedly considered all criticisms and over a period of 10 years the book has been rewritten. The 1955 edition, while it has a few defects, is a splendid textbook proudly proclaiming the advantages of our American political and economic system.

Identifies Socialism-Communism  
The 1955 Magruder text says this about Socialism: "Socialism is often identified with communism, primarily because followers of Karl Marx often refer to themselves as socialists. But socialism is really much older than Marxism. While the socialists believe and preach many of the things that the Marxists do, most of them today reject revolution. . . . The evolutionary socialists believe they can bring about socialism peacefully. . . . By working within the established framework of the government of their own particular country."

The 1946 Magruder text, discussing the principle of personal liberty vs. economic security, said, "old personal liberty" permitted you to keep all you make for "us four and no more"; but the new civil liberty will free you from unemployment and the pangs of want — through the assessment of higher income, inheritance and luxury taxes. This material does not appear in the 1955 edition.

#### Change In Spirit

The most wholesome change has been wrought in the underlying spirit of the 1955 textbook. The 1946 text, with its orientation toward world government and its failure to adequately emphasize the advantages of the private enterprise economic system, would hardly engender patriotism or inspire enthusiasm for our basic economic principles. On the other hand the 1955 edition breathes a spirit of heart-warming love of country and appreciation of our great economic system.

Here, from the opening chapter of the 1955 Magruder's "American Government," is the kind of textbook writing which most of America's teachers have been searching for, and for which the parents of America can be grateful:  
Proudly We Hail!

"Our's is a nation with the highest standard of living ever known to man. Look about you; it is easy to see the material things that make it so: automobiles, skyscrapers, radios, busy factories, airplanes, mighty dams, electric lights, and fertile farms; the list is endless. But these things are only the material evidences of America's greatness.

"We are a great nation and a great people today because we have carried forward the spirit of Declaration of Independence; we have maintained what is truly 'a government of the people, by the people, of the people' . . . In the United States, we have indirect of representative democracy — a democracy in a republic."

"Liberty conceives that the mind and the spirit of men can be free only if the individual is free to choose his own calling, to develop his talents, to win and to keep a home sacred from intrusion, to rear children in an orderly society. It holds that man must be free to earn, to spend, to save, and to accumulate property that may give protection and security to himself and to his loved ones."

"Patriotism can be aroused by patriotic teachers, editors, radio news interpreters, film producers, and Government propaganda; but patriotism whose roots grow deepest comes from a just government that fosters equal opportunities for all. . . . Such a government is our own. . . . Thus it is our privilege as well as our duty to love our country, support its Constitution, obey its laws, respect its flag, and defend it against all enemies."

### ALONG THE POTOMAC

By Cong. DeWitt S. Hyde

WASHINGTON, Apr. 6—You will all recall the approval by Congress of the transfer of the Federally-owned synthetic rubber plants to private industry. I want to take this opportunity to tell you of just what this transaction has meant to me. In it is a very real expression of two aspects of my philosophy.

The government undertook the manufacture and development of synthetic rubber during the war

when it was best equipped to do the task. Now that the urgency for further government ownership and production has passed, the plants have been sold to private enterprise. Approval by Congress of the sale of these plants is a reassertion of the principle of "getting the government out of business"—a belief in private enterprise.

The sale has been made with adequate protection against the creation of monopolies and to insure the full rights of small business in obtaining the product at a fair price.

One other point in the transfer

of these plants to private industry illustrates another of my firm beliefs. I believe in the law. I do not condone its circumvention by anyone—including Congress. The law authorizing the transfer of these properties provided for bids on each plant separately, it did not provide for multiple sales.

A "package" deal was arranged in the sale of three plants to a single company—the company did not submit separate bids on each plant as required by law. I am not protesting the sale of the plants, but the method. The terms may have been the best that could be obtained, but the law was not followed. And Congress in approving the law failed to follow its own instructions. I want to be on record as one who believes in the law; that it applies equally to all; and must be obeyed by all.

The urgency of a new Veterans' hospital for the Washington area has long been apparent. We tried last week to obtain the necessary funds for plans for a new hospital, but the move was defeated. We have been assured that the money will be forthcoming next year.

#### MEDICAL MEETING

A meeting of the Medical and Chirurgical Faculty of the State of Maryland will be held three days, April 21-23, it has been announced by the group. Scientific sessions will be held at 1211 Cathedral St., Baltimore.

The program includes business, scientific and postgraduate seminars. Two Emmitsburg physicians, Dr. W. R. Cadle and Dr. C. R. Williams, are members of the group.

The YWCA of the USA was founded in 1888.

### New High-Speed Planters Plant 130 Hills Per Minute

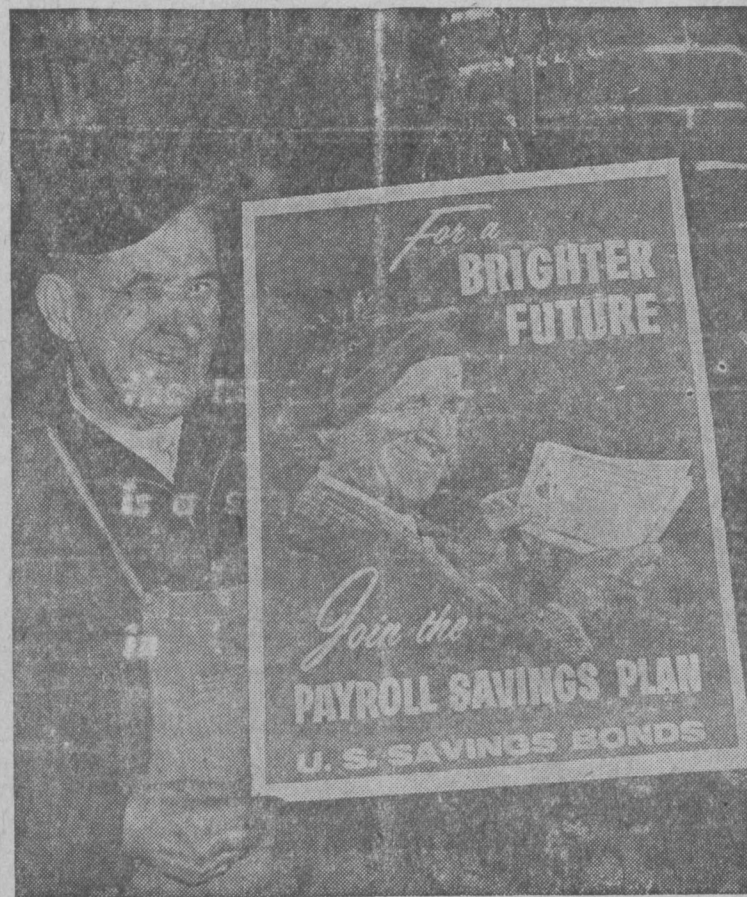

New tractor-mounted and pull-behind planters designed for today's high-speed planting requirements are being introduced this spring by Minneapolis-Moline. Planting speed for the 2-row and 4-row rear-mounted and 4-row pull-behind models is 130 hills per minute.

Important among the features that help make possible the fast planting speeds are the newly designed high-speed valves that are located to insure dependable planting action at modern planting speeds. The new planters feature a simplified planting mechanism that has no seed shaft clutch. The seed plate turns continuously, and the entire planting mechanism is driven directly off the press wheels by a steel-link chain. Elimination of the seed shaft clutch does away with pawls, springs, rollers and timing of the ring gear and pinion.

Seed cans on the new planters have a capacity of 1/4 bushel of corn and are designed for easy removal. A fertilizer attachment for the new planters has a capacity of 80 to 90 pounds and a metering rate of up to 400 lbs. per acre. It features a newly designed fertilizer divider.

Combination checkrow and drill and combination drill and hill-drop planters are available in both the rear-mounted and pull-behind models. The 2-row and 4-row rear-mounted planters are designed to fit standard The 2-row and 4-row rear-mounted planters are also designed to fit standard 3-point hitches.

### "Village Smithy" Is True Scot

If the village blacksmith in Olney, Maryland, resembles the Scotsman on the Savings Bond poster above, it's more than just a coincidence. They're one and the same. When Artist Gil Crockett selected the thrift theme for his Savings Bond poster, he chose as his model 70-year-old Samuel Josiah Finneyfrock, a true Scotsman who piles his trade in the little Maryland town just 18 miles north of the White House. A blacksmith who hasn't shod a horse in 16 years, Mr. Finneyfrock nevertheless keeps busy at his forge making chimney initials and other ornaments for homeowners, repairing machinery, and otherwise serving as handyman for the neighborhood. One of the few old-time "village smithies" left in the United States, he observes: "No, I don't have a spreading chestnut tree to work under. A blight killed them all around here 40 years ago." Mr. Finneyfrock not only has contributed his smiling countenance to the nation-wide promotion of Savings Bonds, but he also is a regular purchaser of what he calls his "good, safe investment." The poster is now being widely displayed all over the country.

## a Quiz that may save your life

Q. What is cancer?

A. An uncontrolled growth of cells. If permitted to spread through the body, it inevitably leads to death.

Q. Can cancer be cured?

A. Many types can be cured, but only if they are discovered and treated early.

Q. How can cancer be discovered in time?

A. By your doctor who has available many diagnostic tests.

Q. What is the American Cancer Society?

A. The only national voluntary agency which fights cancer by research, education and service to cancer's victims.

Q. What has it accomplished?

A. It helped save an American from dying of cancer on an average of every seven minutes last year.

Q. Does that mean it has solved the cancer problem?

A. Unfortunately, no. Despite the advances made, more than 235,000 Americans will die of cancer this year.

Q. Can I help to prevent this tragedy?

A. Yes. By having regular health examinations yourself. And by contributing to The American Cancer Society.

Q. What will my contribution be used for?

A. For research that may some day save your life, for education and for helping cancer's victims.

Strike back at cancer... man's cruellest enemy. Give

American Cancer Society

The "Great Plague of London" in 1665 caused 68,595 deaths.

Sprays  
of Ivy

She's the kind of golfer who has a full set of clubs and a handicap that makes her press like a tailor.

Never borrow trouble. There are always people who are willing to give it to you.

There is food for thought in trouble. When adversity has its way; So when fate hands you a buffet.

Just pronounce it "a buffet."

Many a handsome author is lionized for his good looks—not his good books.

Most college presidents enjoy music in all its forms, from the students' Whiffenpoof Song through Beethoven's Ninth, right up to the most musical of all sounds, the rustle of a big, fat endowment check.

Heard on "THE HALLS OF IVY", CBS-TV, starring Ronald Colman

The "great fire of London" was in 1666.

## HOME OWNERS' QUESTION BOX

Q—How far above the floor should wall sockets be?  
A—Between 12 and 18 inches, except in kitchen, laundry, bathroom, and garage, where they should be 48 inches above the floor.

Q—The home we're building will have an exposed-beam ceiling following the slight pitch of the roof. Since the underside of the roof deck will be the ceiling, how can we make the roof absolutely free from leaks?  
A—The most popular roofing used in today's home construction, asphalt shingles, can be safely applied to roofs with a pitch as low as two inches per horizontal foot. This is made possible by a recently developed "low-slope" method of applying three-tab, square-but, strip shingles. Asphalt shingles come in many solid colors and color blends. Even an almost-flat roof is plainly visible from the ground, so that attractive roofing material enhances the overall appearance of the house.

Q—Is there any way to soften putty that has hardened?  
A—Yes. Add linseed oil and knead the putty until it is soft and pliable.
