BY ABIGAIL

Well here I am back again after an absence of one week, the first in seven years I have been writing this column for you. However there's always a first time for everything and I guess it was my week. I had the column all prepared, but you know sometimes things go berserk in a printshop. Stories come in late and advertisers sometime wait until the last minute to pass in their copy and this, in addition to a sundry of other things, led to the final deletion of Abigail last week. I argued adamantly with the Editor, but it was in vain. Several ads had to be left out and when that happens most anything can break loose, so I lost the argument, and the space. At least there were no complaints from the public.

I often wondered about ambulances crashing red lights and it wasn't until this week that I learned how the set-up operated. Now I don't have anyone in mind at this time and I am not making innuendoes, but an incident happened recently that clarified the matter for me. I understand that special permission for such a vehicle to proceed through a red light must be received from the mayor or the Town Board or the Police Dept. Just jumping behind the wheel of an ambulance and cutting her loose h-- bent for election, isn't enough. A certain fellow in Frederick learned this fact a bit late last week when he sped through a red light on an ambulance call and crashed into a truck. The patient had to be transferred to a Fire Company ambulance and the driver was embarrassed when he was arrested and fined for reckless driving. . . . He had been doing this little trick for years—without any written permission. So that is how it works, and even if you have been granted such permission you are supposed to proceed with extreme caution when "crashing" the light!

Well our Easter egg hunt went off without a hitch and officials in charge say they are quite satisfied about the whole thing. Over 300 small fry turned out for the occasion, many of them accompanied by their parents, and when the din of battle had subsided and the smoke diminished, 100 dozen of hard-boiled eggs had hit the dust and I bet many a mother or father walked the floor that night tending to little tummys. Laying all joking aside, the affair was unquestionably a grand success and the VFW is to be congratulated for its excellent community service spirit and it is sincerely hoped the project can be repeated next year. The kiddies are a bright lot though, and will try to trick you. Several came up to the paymasters belatedly and tried to "cash in" money eggs. A quick check over the amount paid out showed that all legitimate claims had been paid and the kiddies were shuffled along their ways, admonished for their bit of trickery for they had written the money values on the eggs themselves!

Well it's that time of the year again folks when we must elect our town government representatives. As is the usual case, the mayor must be elected every year and also one commissioner. The same applies this year. Undoubtedly there will be a bit of confusion concerning the election, more so this year than on previous occasions. You see we have a state primary on the same day, May 7, and the town election also is on that date. And to top it off the two elections will take place in the same building at the same time. Now do you see what I mean? Many will be able to vote in both elections but some will be refused ballots in one of the elections due to the fact they live out of the Corporation limits and they are not eligible to vote in town affairs. You just have to know what you are doing and that's all. Now then, if you live in Emmitsburg proper you are entitled to vote in both elections, providing of course, you have registered for both elections. If you don't live in town you can only vote in the state primary. Is that clear?

BIOGRAPHICAL SKETCH

OF

GUY A. BAKER, JR.

For conscientious cooperation with activities at Mount Saint Mary's College, as registrar, and leadership in various civic affairs, we find much credit due Guy A. Baker, Jr., and therefore confer upon him the Chronicle Award of Merit for outstanding service to his community.

The popular young registrar was born in Emmitsburg in 1931 and attended grammar school at St. Euphemia's School; one year at Emmitsburg High School and was graduated from high school at St. Joseph's High. His higher education came at Mt. St. Mary's College where he was graduated in 1953.

Guy's parents are Mr. Guy A. Baker, Sr., father, and Ruth Sanders Baker, mother. He has three sisters, namely, Mrs. Catherine Peters, Mrs. Ralph Lee Keilholz and Mrs. Jane Orndorff. His only brother, Charles, is now serving in the Marine Corps.

Mountaineers Card 20 Ball Games

Mount St. Mary's College will open a 20-game baseball season today against the Hampden-Sydney Tigers in Virginia. The Blue and White will play 16 league games plus contests against Georgetown and Shippensburg. The unseasonable spring weather has hampered the Mountaineers to the extent that Coach Jim Phelan spent the first week of the season shaking down his crew. Phelan has a veteran staff returning, headed by George Proffers, an effective lefthander who last year was the club's best hurler.

Also back are veterans Jim O'Haren, another leftie, Joe Moroney, Joe Smith and Dick McCarron. Charlie Costenbader, number two receiver last season, will have first call behind the bat. He hit .333 last year, but saw only limited action. At the moment Phelan has no other catching prospects and may be forced to draft Capt. Frank Smith, regular second-sacker into relief duty for Costenbader. Smitty wound up last season with a .297 batting average and is a polished performer at the keystone sack. Denny Shuck who played brilliantly at shortstop last year as a freshman, seems to have the job nailed down again. Shuck hit a respectable .283 and despite his size has real good power at the plate. Tom Galvin, who divided his time between third and first, and clubbed the ball at a .317 pace, has not decided whether to play this season. The loss of Galvin would be a big blow to Mountaineer prospects.

Outfield veterans returning are Chub Walsh, a .385 hitter, Bill Ross at .310, as well as Jack Sullivan, George Quade is back to bolster the infield and Phelan expects him to hit better this season.

The Blue and White's initial home game will be played here on Monday, when they tangle with American University.

Carolina. At Charleston, S. C., they plan on viewing the Easter Flower Gardens which are noted for their beauty at Easter time. While there, they will be guests of Frances Marion.

Mr. and Mrs. E. L. Annan, III, and family, Philadelphia, spent Easter with Mr. and Mrs. Edgar L. Annan, Jr.

Among those who attended the annual Jefferson - Jackson Day dinner at the Francis Scott Key Hotel, Frederick on Wednesday evening, were Mr. Frank S. Topper, Mrs. Mary E. Famous, Mrs. O. Scott Randolph, Mr. and Mrs. O. E. Woods and Mr. Floyd Woods.

Charles E. Baker, USMC, stationed at Camp Lejeune, N. C., visited his parents, Mr. and Mrs. Guy A. Baker, Sr., over Easter.

Mr. and Mrs. Rodgers Topper, Mt. Airy, visited Sunday with Mr. and Mrs. Robert Topper and Mr. and Mrs. Donald Stoner.

Mr. and Mrs. Albert Kelly and family, Dundalk, were weekend visitors of her parents, Mr. and Mrs. Charles D. Gillelan.

Shorb, Vincent L. Topper, Paul A. Keepers, James T. Hays, Jr., William D. Rodgers, Charles Damuth, Robert Shorb, Gerald Ryder, Jr., Kenneth Jones, Dannie Shindlecker, Allen Davis and Carroll Eyer.

New members voted into the post were Jack Wagaman, Emmitsburg; Kenneth Tawney, Emmitsburg; Franklin Fisher, Gettysburg and Albert Hoffman of Greenmount.

The post agreed to have a shrimp party on April 27 for all Legionnaires, auxiliary members and social members. Those appointed to the committee by the commander were Clarence Shorb, chairman, Andrew T. Shorb, Louis F. Rosensteel, Clarence Orndorff, Robert Shorb, William Sanders, Eddie Wastler and Charles B. Harner.

The Town Council announced April 17 as the official registration day in Emmitsburg. On that date those who are eligible and wish to vote in the Corporation election must register, providing they haven't already been registered.

The announcement was made at the regular monthly meeting of the Burgess and Commissioners held Monday night in the Fire Hall, Chairman of the Board Wales Rightnour presiding over a full board present.

To be eligible to vote, the Council explained, a registrant must be a citizen, be 21 years of age or over and must have resided within the corporate limits of the town during the past 12 months. The registration will take place from 2 to 7 p. m. in the Fire Hall and Charles D. Gillelan has been appointed registrar.

Parking meter revenue for March totaled \$316.62. In addition there was \$15 in overtime parking fines and other traffic violations amounting to \$30.90, making an over-all total of \$362.52. The clerk was highly commended for the efficient annual report given.

Street Commissioner Charles R. Fuss announced the town's alleys will be patched and otherwise repaired in the near future. The Board took action to have four houses on Federal Avenue make plans for connecting with the town sewerage system in the near future.

It was announced the Commissioners had contacted the Emmitsburg Water Co. relative to the installation of an additional fire hydrant near the Gem Theater and that action on the matter was promised shortly. The additional hydrant was requested by the Vigilant Hose Co., and when installed, will be located in the rear of the theater. The Commissioners received an invitation from the Vigilant Hose Co. to attend a banquet on April 24 in honor of those members of the Fire Company who just recently completed an advanced fire-fighting course.

A request for financial assistance was received from the Community Fund and Council voted to grant a \$100 donation to the organization.

The Town Fathers took action at the meeting to have a roadway made past the Seiss Lumber Yard heading north and connecting with N. Seton Ave. at the north end of town. Work on this project will be started just as soon as it is feasible. The Council discussed the erection of a town office building and it was revealed that several sets of plans are now under consideration. Burgess Thornton W. Rodgers announced the annual town election will take place on Monday, May 7 from 2 to 7 p. m. in the Fire Hall. The terms of the Burgess and Commissioner Rightnour expire next month and must be filled at the forthcoming election.

Mr. and Mrs. J. Earl Elder and family, Pittsburgh, Pa., spent the Easter holidays here visiting Mrs. Genevieve R. Elder and Mrs. Myrtle Fiscel, Greenmount.

When a group of weanling

pigs contracted virus pneumonia, veterinarians reported that their growth rate to market weight of 200 pounds was reduced by 16 per cent and the efficiency with which they converted feed to pork was cut 22%.

Compromising With Evil

American newspapers and news magazines gave prominent position to reports of the antics in London last week of Georgy Maximilianovich Malenkov, henchman of the late Communist dictator Joseph Stalin and a key man in the Communist international conspiracy to gain control of the world. News photographs showed a pudgy, smiling Malenkov mingling with women and children on London streets, being wine and entertained by high British government officials, speaking to applauding Socialist - Labor Party groups.

Malenkov was serving as Premier, immediately after Stalin's death, when the last big power struggle within the dictatorship resulted in the liquidation of hundreds of Reds once held in high favor. He was in London last week to inspect electric power installations. It was apparent, however, that his prime mission was as "advance man" for the other Communist bosses—Khrushchev and Bulganin—who are to follow him to London this spring.

People Taken In

An important commentary on Malenkov's London visit was the evidence it gave of people's susceptibility to the handshake and smile of a demagogue—even though the demagogue's smile may be a fraud on the basis of clear facts. TIME Magazine's London correspondent reported: "Scores of female garment works hung out of the windows across the street to catch a glimpse. When Malenkov raised his hand and grinned his broadest, the walls echoed with a welcoming cheer. 'He was so clean-cut,' one sewing machine operator told a reporter later, 'he looked like an American.'"

Lord Citrine, British government official who entertained Malenkov, said of him: "A very friendly man, with a deep grasp of English cultural life." And yet, Lord Citrine surely knew that Malenkov had come to London straight from the Communist Party 20th Congress at which all the top bosses had rededicated themselves to the Marx - Lenin - Stalin - Bulganin goal of a Communist world—by whatever means are necessary. And, the people of Britain surely knew that Malenkov was a conspicuous member of the Stalin dictatorship which, in 20 horrible years, ordered the execution of tens of millions of innocent citizens in the nations overcome by Communism.

Blind To Facts

Most of the people of Britain knew these facts, no doubt; but they evidently felt that the Malenkov smile, handshake and charming manner somehow changed the whole character of this high ranking Communist. The instructions for behavior given out to his people by one leading British clergyman are interesting: "The people were advised to 'act with restraint and dignity' during

the Russian's visit but to 'set aside a day of prayer for Christians persecuted behind the Iron Curtain.'

The photographs of Malenkov being accepted, greeted and entertained by the British government and the people of London will be widely distributed throughout the nations of the world—especially in the non-Communist countries where the Reds are working to capture the dominant political power, such as France and Italy and India. To hundreds of millions of the people enslaved by the brutal Communist dictatorship in 24 nations of the world, the bowing acceptance accorded to the Red leaders in London and elsewhere is shocking. It undermines the will of these people to resist the tyranny.

Deeds Unchanged

Communist smiles, promises and handshakes do not give evidence that the true nature of Communism is changing. Where are the deeds to back up the friendly smiles? This is the question that Britains and the other people of the non-Communist world ought to be asking. There are no genuine friendly deeds from the Reds. The Iron Curtain still is the labor camps still hold their millions of miserable human beings. Red dictatorship tramples the free will of the people in 24 nations. The mass executions continue.

And yet in Britain, say the news reports from London, a royal welcome is being made ready for Khrushchev and Bulganin, and the U. S. State Department announces blandly that the cocktail is the most important "tool" in international affairs. Are the free nations compromising with evil? Deceit cannot win out in this way. Our own stake is everything we hold dear.

A case of rabies occurring in chickens in Europe has been reported in the Journal of the American Veterinary Medical Association. Previously rabies has been found in ducks, geese, crows, sparrows and several other types of wild birds. Diseased birds exhibit nervous symptoms and may attack men or animals.

Pigs vaccinated with crystal violet hog cholera vaccine developed a better immunity when veterinarians vaccinated them after weaning.

Have mercy upon me, O Lord, for I am weak; O Lord, heal me...—(Psalm 6, 2.)

The great Abraham Lincoln spoke often of the many times he had fallen to his knees because he had no place else to go. The realization of our human weakness and insufficiency is the first step toward God's mercy and help—so freely granted to heal us and save us, through devout prayer and faith.

Sulphur and Molasses

In Grandmother's day, this was the season for sulphur and molasses. The whole family would line up to swallow spoonfuls of the horrid medicine from the big brown bottle.

Maybe a stiff dose of sulphur and molasses could temporarily jolt an adolescent out of the day dreaming that goes with the season. Probably it had no other useful effect.

This is the season of spring colds, brought on by man's eternal optimism. We all know that

beautiful April skies can turn gray and pour down drenching rain within an hour. We know that temperatures can go up and down like a see-saw. But who prepares for such weather? We expect and dress for nothing but the best.

Mother can't spend all her time chasing after these delinquents. She might as well take it for granted that they will be foolish, and try to build up their natural resistance to colds. She can see to it that every member of the family is getting a proper diet, replete with the "protective" foods: milk, eggs, meat, green vegetables.

Too soon spring will pass. We owe it to ourselves to be in con-

Out-of-State Merchants Get Awards

The Chronicle proudly features the Award of Merit winners for out of State merchants in this issue. These are Approved Merchants.

Colonel Galen Gough, writer and analyst, has made a survey of this district and after interviewing the various merchants selected for outstanding qualifications, he has written a review of each merchant respectively. The many fine points in their qualifications prove their fair dealing, ethical advertising and good neighbor policies.

Recently a national controversy was started over false advertisers making claims for their merchandise and offering various products at prices which they could not fulfill. In consequence, the government has started an investigation and a step is being

dition to enjoy every minute of it.

made to stop such practices.

The merchants listed herein are bona fide and have not, nor will they stoop to advertising false claims about their merchandise, or will these merchants offer merchandise at prices which are ridiculously low and impossible to meet.

The following merchants have proved their standards as being of the highest and they will sell the quality products as advertised and at the price advertised. They are: G. C. Murphy's and Co., Weishaar store, Jack and Jill Shop, C. W. Epley, Coffman and Fisher's Department Store, Nicholas Maligake's Book Mart and Plaza Restaurant, Martin's Shoe Store, Gettysburg News and Sports Store and the Redding's Supply Store. These merchants are all in Gettysburg and are recommended most highly for their unexcelled business policies.

X-Disease In Cattle Eliminated

The mysterious X-disease of cattle that just a few years ago was causing a yearly loss of

close to a million dollars has been stripped of its mystery, the American Veterinary Medical Association reports.

"This condition has been almost completely eliminated as a factor in the cattle business, thanks to a cooperative effort on the part of veterinary medical scientists, feed and industrial companies, and the cattlemen themselves," association officials

My voice shalt Thou hear in the morning, O Lord; in the morning I will direct my prayer unto Thee.—(Psalm 5, 3.)

Each morning that God grants us is a new opportunity, new beginning, new life, if we choose to make it so. It should begin with prayer, thanking Him, seeking His presence, His love, His will—and then we will enter into the new day strong, confident, and blessed

said today.

"Research indicated that certain chemicals used in some petroleum products were causing X-disease or hyperkeratosis. Petroleum manufacturers and feed companies who used these on manufacturing equipment cooperated by using other types of pe-

troleum products. Cattlemen intensified their alertness in preventing their stock from access to greases and oils and veterinarians conducted a campaign to educate owners to the real cause of the problem. The result has been the virtual elimination of the condition."

Where Quality Counts And Service Is King

COFFMAN and FISHER'S holds the top award when it comes to top values in department store merchandise. Top name brands and best quality merchandise are sold only. "We handle the very best at a reasonable price which affords the top values in merchandise to the average family and goods are the best and sold to the finest people in the country." We were assured by Mr. L. L. Dietrich, the manager.

A complete line of women's apparel, dresses, suits and longerie are available with hosiery, and every possible incidental for the fair ladies use. On our interview it was disclosed that children wearing apparel, baby buggies, tricycles, and many useful articles for children were also available. It was easy to find many interesting and fascinating articles and sundries which the average school child could use and other articles that would fit the average family's needs. Luggage and various items for the ladies and men, as well as many nice things to wear including suits for women that sells for \$25.00 up and beautiful dresses fit for a queen which sells at the remarkable low prices of \$12.50 up.

Their men's boy's suits are tops! Mr. Dietrich, the manager, personified the consideration shown customers when he was interviewed for this article. Courteous, kind and polite, always amiable and affable, no more consideration was ever shown anyone than by this highly efficient manager of Coffman and Fisher's Department store. His salespeople were very alert to the customers needs and always anxious to be of help to anyone wanting to learn about their merchandise. No department store could be better equipped, or amply supplied than Coffman and Fisher's. Their variety of "everything" assures any customer of their adequate needs for personal or family use. There is no need to look elsewhere when in Gettysburg. Coffman and Fisher's is truly the place and the last word in wearing apparel. Don't pass up the opportunity to visit this store. You will like their service and better yet, the values they offer.

For best name brands and trade values, it is a must. In Gettysburg it is Coffman and Fisher's Department Store. For out of state customers it is the place to get guaranteed merchandise.

Martin's Shoe Store For True Values

"There is no store like it! There is no better shoe store anywhere! This is the reputation of George R. Martin, Sr., owner of the Martin Shoe Stores. Starting many years ago with a small store with less than \$4,000, Mr. Martin has developed two of the finest establishments in Gettysburg and York, Pa. On interviewing Mr. Martin, it was disclosed that he sold nothing but the best merchandise obtained from the International Shoe Stores and which deals in the very best quality shoes, all leather and composition soles, or best leather grain shoes. He handles Rand shoes for men, Trim Tread for women and Poll Parrot for boys and girls. No better quality products can be obtained.

Mr. Martin proudly refers to his two stores as businesses built on being "family stores." He feels that every customer is a friend and he does not regard them as customers, but as friends. He is renowned for his courteous services and friendly relationship. His sons aid him in the business. They, likewise, feel the same. It is from first hand information that this writer has enjoyed the friendliness of this store, since the family has enjoyed being a customer. We will go back again and

again. That is in itself sufficient to prove the substantiality of the store.

"We find greater interest in people than we do a customer just for the sake of selling merchandise," said Mr. Martin. And this is an example of his sincerity. Mr. Martin's hobby is hunting and dogs. His Beagles have earned him many ribbons in shows and he proudly displays these. His collection of antiques also shows his interest in world events. Among his articles is that of an old Arab gun, possibly hundreds of years old. He also has many scenes in which he can show the pictures of Italy and pictures of his grandchildren. This fine man is an example of true friendly relationship and he is surely a merchant unexcelled in cordiality. To trade with him a customer finds more than a store, he finds friendship and that "make yourself at home" feeling. There is nothing like it. To trade with him assures value in merchandise and quality goods. He is not one who would advertise anything he can't sell at a low price. He believes in fair dealing . . . that is the affable George A. Martin, Sr. and also his son, manager in the York store.

G. C. Murphy & Co. Review

"The Store That Has Everything!" Says Colonel Gough

"There is no store like it!" There is no better qualified management of any store for courteous service and dependability. To trade at G. C. Murphy's a customer finds enjoyment as well as unexcelled merchandise. Mr. Paul Wakefield, the manager treats his customers as personal friends and this policy is also followed by Mr. Ferguson, his assistant manager. "Once a customer — always a customer" is applicable as a factual statement made by those who know their customers!

"If there is anything you need go to Murphy's!" And they live up to this reputation. Quality merchandise with unbelievable

low prices can always be obtained. As an example, the writer of this review purchased some picture frames at Murphy's and the total cost of the frames and pictures was less than what a carpenter wanted for his services to cut other frames using material already purchased. Can you imagine purchasing a \$2.00 picture frame for 77c? Greater values than this are possible.

G. C. Murphy and Company truly has everything. No where can anyone obtain so many things in one store. The best thing about it is that the merchandise is of the very best quality and priced so low that anyone can buy it.

A visit to the store is a treat. Anyone is welcome to browse around and to do so they will find many enjoyable articles worth seeing whether they purchase anything or not, and everyone is welcome.

It could be said that the G. C. Murphy Store is actually a hundred and one different stores all organized into one great establishment. It is truly a veritable showplace of merchandise.

For excellent values, quality merchandise, unexcelled services and a variety of merchandise, there is no better store than G. C. Murphy and Company.

Weishaar Brothers Stand For Strength and Quality

The name is synonymous with strength of quality, character and good values. Weishaar means just that! The foundation of the establishment is backed by good character to start with; Glenn and Eugene Weishaar were associated many years with H. T. Maring and have been for 18 years experienced in merchandising . . . they are unexcelled in supplying the customers with their needs for home and farm, or any variety of needs. They proudly point out that "Once a customer — always a customer" is their record, and from this writer's interview he could understand why. First, a customer, or a visitor is treated as a friend and whether he has something to sell, or wants to buy anything he is treated the same, courteously and congenially, and always with consideration. They are reliable, with any old refrigerator trade in. Imagine this margin you get, a and dependable. As an Approved Merchant they are on the top of the list. Established for ten years at their present address, they have a modern store. For products they offer such wonderful name brands as Kelvinator Refrigerators and the Maytag washing machine, automatic from the start to the finish. In fact, their

line consists of the best modernized merchandise. One visit would convince anyone.

The Magic Chef gas range is a marvel. Their Admiral T. V. set is terrific and the writer knows, for he has one! It can't be beat! But back to this Kelvinator Refrigerator . . . someone might truly be very much concerned in the fact that right now a \$399.00 price is marked down \$100.00 12 feet food chest, and automatic defrost for \$300.00. An unheard of price for Kelvinator! This supply is limited so rush for this one, now! Electrical supplies are the best. Sheet metal work unexcelled.

All plumbing supplies are available and the very best supplies obtainable. Take no substitutes for quality! See Weishaar Brothers for your plumbing needs. They also offer counsel-ship in the basic needs for building and plumbing. See them on this today!

Youngstown Kitchens are available and no emergency can be overlooked. This selected kitchen is the week's best find. See these also. And don't forget to see Weishaar Brothers for the good neighbor relationship. They have it.

"Nicholas A. Meligakes" A Name For Achievement!

Starting with the thought of achievement we find a basic reason for mentioning the name of "Nicholas Meligakes." Several wonderful things could be said about this merchant who is unexcelled in providing quality merchandise in his store, the BOOK-MART, and also in his restaurant — the PLAZA.

Nice things are his hobby. He loves people and enjoys giving them the best in everything he sells. The Bookmart means more than books, for it is a mart for many useful things including ART MATERIALS of the very best quality. The finest brushes and permanent pigment paints are available for artists. No better art supplies could be obtained anywhere and at a saving also.

The writer being an artist knows! Canvas of the best quality, canvas boards and everything an artist needs. In the same store office supplies are available and no better merchandise can be obtained. Desks and filing cabinets — the material is made by the ART MET-AL CONSTRUCTION COMPANY and the make stands for durability.

Gifts of all descriptions. Records of the most modern music, classic or select numbers can be obtained, or ordered. A supply is always on hand. Built on confidence, this wonderful establishment provides the best stationery, personalized or stock, with greeting cards and all necessary varieties in the paper line; and, too, their stock of books are un-

excelled in Gettysburg. From a Shakespeare classic to the most popular novel, or educational series as may be needed. No greater recommendation is needed than their record of satisfying every customer.

Then there comes the PLAZA RESTAURANT. This is Mr. Meligakes' greatest enjoyment. He loves to see people enjoy themselves. So, he provides the very best food at the lowest possible profit. The writer has read statements by the most important of people who unconditionally agree that there is no better food obtainable anywhere.

For Quality Products, service and dependability it the BOOK-MART or the PLAZA.

Where The Supply Is In Demand!

The REDDING SUPPLY COMPANY hasn't adopted their name just for a company title. The name means exactly what it says. The REDDING SUPPLY CO. Actually it could almost be interpreted to read the READY SUPPLY store, since they are ready to supply anyone with their every need.

On interviewing Martin and Charles Redding, they revealed not only courteous services, but true interest in their neighbors. Established now for 11 years, they have proved that sincerity of purpose with conscientious fair dealing have earned them the reputation of being unexcelled as the leading supply store in Gettysburg. Production and results are foremost in their sales efforts.

First, they guarantee their merchandise is the very best.

Their supplies include Pittsburgh Paints, also Gleen, and supply most every need in the paint line, brushes, etc. Building supplies with every need available and counsel-ship which provides the customer with first hand knowledge of essential budget building in buying household furnishings, hardware and garden tools, seeds, which include Burpees, and Scott's lawn supplies, and just about everything else. They also offer the best deal in town on these products.

For household goods they offer the well-known make of Speed Queen in the washing machine, and automatic ranger type. Kitch-

en supplies are in abundance and no housewife need worry about necessary utensils. Redding's have it all!

And when it comes to fishing tackle, well, boys, they have it! No finer fishing rods can be obtained anywhere. All fishing and sports supplies which include hunting, guns and numerous sports and athletic supplies. Baseball goods, and lots of various children's things. Speaking of supplies, they even carry the best baby buggies sold, and modernized, too! The Redding Supply Company is the father's friend. They are the mother's stand-by. The boy's pal. The family headquarters for supplies. Patronize this marvelous store!

C. W. Epley Example Of Reliability As a Dealer!

The record of C. W. Epley stands for itself. Starting with the Studebaker dealership in 1921, Mr. Epley has built and developed nine establishments. His record for fair dealing is unsurpassed. As a personality he represents true Americanism, having served overseas with the Navy during World War I. He is presently a member of the American Legion and V. F. W. His civic interests and congeniality has made him a man among men. Most of all, he likes people. He enjoys giving them a good deal. He operates on the lowest possible margin of profit giving terrific values for the least money. True Advertising is his policy of merchandising and also his products are guaranteed unconditionally. His establishments are equipped for service including the sales of Studebaker parts.

Just as expected, Mr. Epley gives the best values in town and he lives up to the prices he offers on specials. Believing only in fair advertising, Mr. Epley believes that it is best to show the cars and demonstrate them to the prospective buyer and then state the lowest price it can be sold for. There is one thing for sure, you can obtain a good deal at the right price when you trade with C. W. Epley.

Bargains . . . Bargains . . . Bargains! So many good things could be said about C. W. Epley that space can not possibly say more, but pages could be written. For a good deal, a fair trade and an excellent car unexcelled performance, the STUDEBAKER is Mr. Epley's choice and after 35 years he should know! BABSON

Writes . . .

By ROGER W. BABSON

BABSON PARK, Mass., Apr. 5—We see much in the news today regarding "automation," which is the scientific name for automatic factories. I want all investors to know how I feel regarding such developments. Change Will Come Slowly

The automatic factory is coming, but will come slowly, for several reasons: (1) it awaits more consolidations. (2) It requires large capital expenditure. (3) It applies only to standard goods which can be used in great quantities, and cannot now be used for a product which has various styles and sizes. The oil industry uses automation successfully; but the baking, candy, textile, and many other industries could also do so if they could raise the capital and secure the volume necessary for a profitable change-over.

Investors should realize that it is foolish to invest in obsolete concerns. Many corporations listed on the N. Y. Stock Exchange are now earning good money, but have obsolete plants. They could not stand up, in competition, with this new automatic development. The sooner these stocks are sold, the better. Please, however, do not write me for the names of these companies. Your investment advisor or local bank should be able to give you this information. I believe that investors have much more to fear from automation than has labor.

essary if we are to continue to raise the American standard of living. It is also necessary for our national security. A recent article in LIFE magazine, March 5, shows how the Russians are educating their youth for automation. Most important of all, the automatic factory is in the best interest of all groups — customers, suppliers, share owners, the public and employees.

Although labor leaders have not openly opposed automation, they are using it in an appeal for shorter hours and higher wages. Temporarily, when a factory changes over to automatic operation, it will throw some people out of employment, but the most intelligent workers will still be needed to watch the machines and keep them

in order. In other words, the automatic factory will upgrade labor and encourage efficiency and quality.

Automation Encourages New Industries

Many present women workers should return to their homes and devote their time to bringing up their families. Many of the young men workers should go back to school and become more efficient. More of the older workers should be retired under proper pensions. These and other changes should take up any slack in the labor market. Automation as a part of our national security program may result in increasing "piece-work wages" and killing any idea of the CIO that all employees in a department should have the same wage.

There is a little company in Washington known as INVENTION, INC. It studies new inventions by keeping three full-time experts in the Patent Office reading new patents. This company keeps manufacturers informed as to new machines which may compete with their present machinery. I am astonished at the new developments now on drawing boards and in test tubes. Looking back over the past 50 years, we have seen great new industries—such as automobiles, electrical appliances, radio and television—being born and prospering. These Patent Office studies indicate that the next 50 years will see even greater changes and more new industries. These should bring a greater opportunity for labor in the years ahead.

The Cost Of Food

Efficient employees have nothing to fear from automation. The inefficient, as my friend H. L. Pratt teaches, should go back to school and learn how to become efficient. This especially applies to those in the food industry. During the past few years, the cost of our food has increased unnecessarily, notwithstanding the good work done by the supermarkets.

In 1949, the average reader paid about \$950 a year to his favorite supermarket. Since then, these same purchases have

increased in price about 11 per cent. The farmer has constantly been getting less during this period and the supermarkets have been benefitting from "self-service." The increased cost must be due to certain services rendered between the time the farmer sells the food and the time you buy it at the supermarket. It looks to me as if the food business is in immediate serious need of automation.

Happy Ending With A "Familiar Ring"

Buck Howell says he and his Missus had quite a time at the Stockman's Convention in Chicago. But for a while they had a "breakdown in communications."

The phone bell in their hotel room was pitched so low they often didn't answer their calls. "Never knew if it was for us or not," Buck said, "always sounded far off—like it was ringing in someone else's room."

Finally, Buck hit on the obvious solution. He just made a deal with the hotel switchboard operator that whenever she called them she'd use two

long rings and a short—their party-line signal back home.

From where I sit, our own familiar routines tend to make other ways of doing things seem strange. That's natural. For instance, if you've always had ice water with your meals, you might think it's odd that lots of us prefer a bottle of beer at dinner-time. I say you've a right to your own customs . . . but don't call mine wrong.

interested in becoming candidates in the town election must declare their intention 10 days before the election date of May 7. The burgess position has to be filled and that of one commissioner. The commissioner can come from either of the two precincts this year and the burgess, as usual, can be elected from either of the two precincts. Incidentally, the same election rules will prevail as to the filing of candidates. There will be no nominating committee appointed, unless a special meeting of Council is called. It was hoped by many that such a committee would be appointed this year to generate interest in the election but Council decided to continue the old way and no action was taken. So, if there are no candidates listed on your ballot, write in the name of anyone you care to see elected.

Congressional Viewpoint

By U. S. Sen. John M. Butler

WASHINGTON, Mar. 26—Like the poor soul who tries to ride down on an up escalator, certain persons of equal misdirection seek with growing desperation a national issue with which to attract public fancy. The political overtones are all too apparent. These chronic critics now spon-

sor propaganda that the Eisenhower administration favors "big business" as against "small business." To the contrary, the record plainly indicates that small business men have found in the past three years a much greater appreciation and understanding of their problems during the Roosevelt-Truman era of "big government."

For example, in the declining years of the New-Fair Deal (1947-1952) earnings before taxes for small business decreased 26.7 per cent, while big business earnings increased 57.9 per cent. In that same period, small business' earnings after taxes dropped 40.1 per cent, but big business' earnings after taxes gained by 17 per cent. Curious indeed is this latter-day concern for the well-being of the small business man by the same New - Deal group which only a few years earlier cared less if not at all.

Never before have our anti-trust laws to restrain the potential for monopoly in bigness been so vigorously enforced as by the Eisenhower administration. The Federal Trade Commission has accelerated the pace in uncovering unfair trade practices. During the first year of the new administration, the FTC filed 120 complaints, 161 in the second year, and at the present rate 170 complaints will be issued this

year. By contrast, the 1944-52 average was 111 per year. Further, in 1952, the last year of the Truman administration, only 30 new anti-trust cases were filed by the government. Yet, in 1955, 54 cases were instituted, primarily as a result of the vigilance of the Eisenhower administration.

Where small business under the bureaucracy of the New-Fair Deal was strangled with red tape, harrassed with needless regulations, and by "big government" competition, it is today free of most of these evils. Is it any wonder that we are in a period of "small" and "big" business prosperity, the likes of which no New Dealer or Fair Dealer ever dreamed? And, as you know, those b'hoys were real dreamers!
