

Weekend  
Weather Forecast  
Moderate today, becoming warmer Saturday and cooler again on Monday. Scattered showers over the weekend.

# EMMITSBURG CHRONICLE

Emmitsburg's  
Bi-centennial  
1757 - 1957

VOL. LXXVII, NO. 41      EMMITSBURG CHRONICLE, EMMITSBURG, MARYLAND, FRIDAY, AUG. 3, 1956      SUBSCRIPTION: \$2.00 PER YEAR

## Most Anything At A Glance

BY ABIGAIL

The Bicentennial grows closer and closer folks. It's now only 10 months away! I think it would be a boon to the appearance of the town if as many of us who can afford it, to have their houses and other properties cleaned up and painted. Many signs erected on the outskirts of town are in a bad state of disrepair and need repainting and re-lettering. These little things make a great deal of difference to the hundreds of former town folks who will be returning for the big occasion. Two clubs already are making preparations to have their welcome signs refurbished. There are numerous sheds that need painting badly and also some houses. Well anyway, I just thought I'd pass the idea along to you, just in case you are interested in the appearance of our town.

You can be assured of one item that won't be raised this year and that is the cost of mailing a letter. A proposed plan to hike postal rates this year died in the pigeon hole compartment of Congress just a short time before the annual adjournment and it won't be acted on until the new Congress reconvenes in January. Just about every concern in the country has, or is about to, jack up the cost of their products. This was all precipitated of course, by the recent steel strike.

A local organization that is making great strides is the Indian Lookout Conservation Club. The club has gained over 50 new members already this year and interest is running high. The group has done a lot to create better fishing and hunting in this area and a lot more is planned with the help of the membership funds. A new slate of officers has taken the initiative and the club is progressing by leaps and bounds. I believe the roster now is better than 200 and a great many more have expressed a willingness to join the group.

Have you ever stopped and realized that between the two colleges and the new Mother Seton Elementary School that nearly a million dollars in new building has taken place here in the past year and a half? The figure is a staggering one when you compare it with the normal rate of building here! It would be rather interesting to know just roughly, what has been spent here in building homes during the past decade. I wonder if anyone has relative figures? A rough estimate would be in the neighborhood of a quarter of a million dollars, I believe. In Emmitt Gardens there are a dozen homes alone, which if they averaged \$10,000 would be in the neighborhood of \$120,000. I know there are almost double that number of homes scattered around town and the suburban area. The town does show progress but many of us are too busy making remarks that crepes should be hung at the entrances to town, to notice this progress. This is a defeatist's attitude and should go in one year and out the other. A town that can show a million dollars in building in less than a decade can't be as dead as some people purport it to be.

**BOYD-MYERS**  
Miss Yvonne Estell Myers, daughter of Mrs. Ruth A. Myers, Emmitsburg, and the late Clyde W. Myers, and Robert Lewis Boyd, son of Mrs. Margie W. Boyd, Gettysburg, and Steward W. Boyd, Rockville, were married June 9 in the rectory of St. Joseph's Catholic Church, Emmitsburg. The Rev. John Sullivan performed the double-ring ceremony. They were attended by Mr. and Mrs. Thornton Rodgers.  
Following the ceremony a reception was held for the immediate family at the home of the bride. Following the reception the couple left for Niagara Falls.  
Mr. Boyd attended Gettysburg High School and served four years in the Navy. He is employed by Gettysburg Motors Co., Inc.

**RETURN FROM EUROPE**  
Mr. and Mrs. William Bensel returned to their E. Main St. home Sunday after a two and one-half month's visit to Bleichenbach, Germany, where they visited with Mr. Bensel's parents.

## Scout Troop Aids County Civil Defense

Boy Scouts and Explorer Scouts in Frederick County have co-operated with the Civil Defense Agency of Frederick County in distributing packets of Civil Defense material to homes in the towns of Frederick County. Scout units working on this project in the various towns of the county are: Emmitsburg, Troop 284, Scoutmaster Franklin Wastler; Thurmont, Troop 270, Scoutmaster Eugene F. Wood, Jr.; Woodsboro, Troop 263, Scoutmaster William Farr; Myersville, Troop 273, Scoutmaster Everett R. Johnson; Middletown, Troop 476, Scoutmaster Harry Keller; Brunswick, Troop 277, Scoutmaster Howard Foreback; Point of Rocks, Troop 279, Scoutmaster James Webb; Jefferson, Troop 797, Scoutmaster Richard E. Cox; New Market, Troop 268, Scoutmaster Edward Hemby; Frederick, Troop 280, Scoutmaster James Reid; Troop 266, Scoutmaster Norman Dietz; Troop 799, Scoutmaster Dr. Harold Neufeld; Troop 274, Scoutmaster Robert Kaiser, and Troop 261, Scoutmaster Dr. William Roessler.

Mr. Alvey Renn, chairman of the Civic Service Committee of the Francis Scott Key District of the Boy Scouts of America, coordinated the project with Civil Defense and supervised the recruiting of Scouts and distributing the packets.

In fulfilling the purpose of the Boy Scout organization, the officials of the Francis Scott Key District feel that boys can be taught good citizenship by having them assist in civic projects such as the distribution of this Civil Defense material.

Scout officials are working with Mr. L. H. Crickenberger, director of Civil Defense for Frederick County, to set up an emergency mobilization plan whereby Scouts can be mobilized for service in event of a civil disaster.

Another big project that Boy Scouts will soon begin work on will be the distribution of posters and door-knob hangers urging all citizens to register and vote in the coming election.

The cooperation of the Boy Scouts with the Office of Civil Defense in Frederick County is typical of the cooperation needed by the County Director of Civil Defense in order to adequately organize the county for Civil Defense and formulate operational plans, which will be workable in case of an emergency.

The Director appeals to families to which this distribution was made to make use of the information contained therein and file it away for future reference.

From time to time additional information will be made available.

Sometime during the month of August a similar distribution will be made to rural homes and to homes in towns in the county in which there are no Scout Troops, by boys and girls of the 4-H Club.

## Restaurant Under New Management

Johnny's Restaurant, W. Main St., operated the past year by Mr. W. E. Law, has been sold to Mr. and Mrs. Charles W. Farley, of New Midway. The new owners took over operation of the business last Saturday and will feature full-course meals, along with other customary menu dishes usually served in a delicatessen.

## Greenmount Fire Co. Carnival Set For Friday And Saturday

The Greenmount Fire Co. will hold its annual carnival and bazaar Friday and Saturday, Aug. 3 and 4.  
Radio hillbilly recording artists will head the entertainment bill for both evenings of the carnival. On Aug. 3 Wilma Lee, Stony Cooper and the Clinch Mountain Clan will perform, and on Aug. 4 Arnold Wagman and the Town and Country Boys will be the featured attraction.

Other entertaining features of the carnival include an old-fashioned pig barbecue, under the supervision of Mr. Walter Simpson; home-cooked dinners; chicken corn soup; bingo; penny pitch; grocery wheel; dart games; duck Willie, and many other games.  
Proceeds from the carnival will go toward the company fire truck fund.

## Community Fund Assists Needy

The regular monthly meeting of the Community Fund of Emmitsburg was held Monday evening in the Fire Hall, Col. Thomas J. Frailey presiding in the absence of the president, Guy A. Baker Jr. Eight members of the board of directors were present. The case concerning the purchase of an artificial limb for a local youth was marked closed.

The minutes of the previous minutes were read, by Mrs. Leonard J. Sanders, and Cloyd W. Seiss gave the treasurer's report. The group reported that an emergency loan of \$50 had been granted a local indigent family when an unforeseen hardship came up unexpectedly. It is understood the loan is to be repaid.

## Army Will Sell Buildings

The Army is clearing its two communication centers near Tighmanton and near Greencastle of all farm buildings. The centers—one a receiving, the other a sending—are part of the Fort Ritchie emergency Pentagon installation.  
The Letterkenny Ordnance Depot, near Chambersburg, announced that it will dispose of 51 buildings, ranging from small sheds to two and one-half story homes on the two centers.

## Social Security Statistics

How long must I work under social security to qualify for monthly benefits is a question many people are asking these days according to W. S. King, manager of the Hagerstown District Social Security office.

The answer is between one and one-half years (6 calendar quarters) and 10 years (40 calendar quarters), depending on your age. However, by a special rule, you are insured if you are 65 before October 1958, and have social security credits for every quarter of each year beginning with 1955 and ending with the quarter you are 65 years old. If the special rule does not apply to you because you were not under social security in every quarter after 1955, the following table shows how much work you need to qualify for benefits at 65. If you reach 65 in the first six months of the year, the number of quarters of coverage you will need at 65 to be fully insured is in the second column opposite the year of your birth. If you reach 65 in the last half of the year, the number of quarters of coverage you will need at 65 is in the last column.

Year of Birth	Jan.-June	July-Dec.
Before 1889	6	6
1889	6	7
1890	8	9
1891	10	11
1892	12	13
1893	14	15
1894	16	17
1895	18	19
1896	20	21
1897	22	23
1898	24	25
1899	26	27
1900	28	29
1901	30	31
1902	32	33
1903	34	35
1904	36	37
1905	38	39
Later than 1905	40	40

In conclusion, Mr. King stated that all work covered by social security may be counted toward meeting the requirements regardless of when the work was performed or the age of the worker.

## Musical Contest At Cumberland

The Cumberland Junior Assn. of Commerce is looking for the outstanding country-style musicians in the Tri-State area to compete in its Country Music Contest to be conducted at 7:30 p. m. (DST) Friday, Aug. 17, at the Fort Hill High School Stadium.

The contest will be divided into five categories. They are fiddle, banjo, band, vocalist, and miscellaneous, which includes square dancers. Members of bands may also compete in other categories as individuals. Auditions for the contest will be staged the morning and afternoon of Aug. 17.

Entry blanks may be secured by writing to the Jaycee Office, Room 514 Liberty Trust Bldg., Cumberland.

Winners in each category will receive an expense paid trip to compete in the National Country Music Contest Sept. 1 at Warrentown, Va.

Twisting of the muscles, commonly linked with canine distemper, also occurs frequently in dogs during or following an attack of tonsillitis.

## Locals Conquer Union Bridge

Emmitsburg pulled into a tie for fifth place with Taneytown last Sunday by downing Union Bridge at Emmitsburg, 13-10. Clark homered for Emmitsburg with two on in the second.

The win also put the locals a half game out of the first division.

Blue Ridge Summit and Cashtown, one-two in the Pen-Mar Baseball League, pulled a bit further away in the league race with victories last Sunday.

The Summiteers topped invading New Oxford 6-3, while Cashtown took a 2-1 decision from Taneytown at Cashtown.

A grand slam home run by Lambert in the third inning was too much for Fairfield to overcome as New Windsor took a 6-4 decision on its home field.

## League Standing

	W.	L.	Pct.
Blue Ridge	14	1	.933
Cashtown	11	6	.647
Union Bridge	9	7	.563
Fairfield	8	8	.500
Emmitsburg	8	9	.471
Taneytown	8	9	.471
New Oxford	4	13	.235
New Windsor	4	13	.235

**Sunday's Scores**  
Emmitsburg 13, Union Bridge 10  
Cashtown 2, Taneytown 1  
Blue Ridge 6, New Oxford 3  
New Windsor 6, Fairfield 4

## Teen-Agers Would Like Activity

Letter to the Editor:  
Dear Sir:

I and quite a few other teen-agers were talking about what should be done in this town. We all agreed that the Community Hall was a wonderful idea, and thought it should be built. I'm very sure that many teen-agers in this locality would do anything to have it built.

Right at the present time there is no place in town for us to have wholesome fun. We all know that there are enough places for adults to spend their time and money.

I and a few friends attended a Fourth of July parade at a neighboring town and heard a certain lady talking about our Bi-centennial. She said we were going to give away \$2000 in prizes. I would like to know where they expect to get this money and why they are giving it away when this town can't build a community hall or a swimming pool? Would someone please explain?

I think it would be swell if maybe once or twice a month the VFW or the Legion Post would have a dance strictly for teen-agers. The Hall probably never will be built, but a dance would do for quite a while.

A TYPICAL TEEN-AGER

## Children Hold Benefit For Library

A benefit for the Children's Library of Emmitsburg was held at the home of Prof. and Mrs. Charles Shaughnessy Monday afternoon at 2 o'clock.

The benefit was organized by the Misses Harriette Ann, Trudy, and Gretchen Kratzer, of Chestertown, who are visitors at the Shaughnessy home. They were assisted in promoting the worthy cause by Miss Yvonne Henke, Miss Katherine Richards, and Miss Marjory Richards.

The program was both entertaining and diversified. During intermission, bingo was played, refreshments were on sale, and the door prizes awarded. The net proceeds amounted to \$9.00.

The whole affair was most enjoyable, reflecting much credit upon the young participants.

At the close of the program the young ladies expressed appreciation to Prof. and Mrs. Shaughnessy, Prof. and Mrs. Richards, and Mr. and Mrs. William Kelz for helping them make the affair possible.

## CHANGE RESIDENCE

Mr. and Mrs. N. O. Sharrer moved Wednesday from Rocky Ridge into the home formerly occupied by their son-in-law and daughter, Mr. and Mrs. Luther W. Ritter and family at 405 E. King St., Littlestown, Pa. The Ritter family moved into their newly built home on Glenwyn Dr.

A number of flocks of sheep in West Germany have suffered losses from a cattle disease called Johne's disease.

## Death Claims Two Citizens

**HARVEY J. WARNER**  
Harvey J. Warner, a resident of this area for the past 18 years, died Thursday morning at his home on E. Main St., aged 73 years.

The deceased was born in Carroll County, Md., and was a plumber by trade. He was a member of the Loyal Order of Moose of York, Pa.

Mr. Warner was the son of Mrs. Emma Eyer Warner, Emmitsburg, and the late Benjamin Franklin Warner.

Funeral services will be held Sunday afternoon at 1 o'clock at the Allison Funeral Home, W. Main St., with Rev. Paul McCauley officiating. Interment will be made in Keysville Cemetery, Keysville, Md.

Friends may view the body at the funeral home Saturday evening after 7 o'clock.

## JOHN SAFFER

John Saffer, 89, one of the oldest residents of the Emmitsburg vicinity where he had spent all his life, died last Friday evening at 5:10 o'clock at his home at 225 N. Seton Ave.

A son of the late Mr. and Mrs. Conrad Saffer, he had worked as a gardener for many years. He was a member of St. Joseph's Catholic Church, Emmitsburg, and of the Holy Name Society of the church.

Surviving are his widow, Marie Stouter Saffer; a son, John Daniel Saffer, Baltimore; a daughter, Sister Mary Angela of the Visitation Monastery, Frederick, and two brothers, Brother Sigismund of New Jersey, and William, Emmitsburg. Several nieces and nephews also survive.

Funeral services were held Monday morning from the Allison Funeral Home, Emmitsburg, at 8:30 o'clock with a requiem mass at 9 o'clock in St. Joseph's Catholic Church with the Rev. Fr. John Sullivan officiating. Interment was in the church cemetery. Pallbearers were Robert Orner, Charles B. Shorb, Paul A. Keepers, Carroll C. Topper, Charles Keepers and Guy A. Baker, Jr.

## Frick Co. Disposes Of Farm Machinery Franchises

Frick Company, Waynesboro, Pa., one of America's earliest builders of farm machinery, announces the sale of its M - M farm machinery franchise, covering nine states, to the Minneapolis-Moline Company, Minneapolis, Minnesota, effective Oct. 31, 1956. The states affected are Maine, New Hampshire, Vermont, New York, Pennsylvania, New Jersey, Maryland and West Virginia. The transaction, among other things, includes the sale of Frick Company's M-M farm machinery inventories in the area and the leasing of certain of its warehouse properties to the Minneapolis-Moline Company.

By their terms, all current Dealer contracts made by Frick Company automatically expire October 31, 1956. Contracts now held by these dealers for the M-M line will be continued by Minneapolis-Moline Company at the transfer date so that customers may have continuous service. Renewals of Frick contracts naturally will not include the sale of M-M products but will include other appropriate items of the Frick line.

Otherwise, operations of the Farm Machinery Division of Frick Co. in this and other territories are not affected by the deal. Sales by the Division will continue to include a broad line of portable sawmills, Diesel engines and accessories, forage harvesters, manure spreaders, land rollers, feed mills, seed-bed makers, packer-mulchers, grain and rice threshers, peanut pickers and combines, and farm specialties.

The Company's principal product is air conditioning and refrigerating machinery, specializing in engineered projects. It controls valuable patents in the air conditioning, food preservation, chemical processing, synthetic rubber, brewing and ice making industries both in this country and abroad. It has been an important producer of cooling systems since 1883 and has worldwide connections. Its 100th anniversary was celebrated three years ago. About 1100 employees staff its factory and 28 branches.

It is understood the new division offices of the Minneapolis-Moline Co. will be established at Harrisburg, Pa., with a branch warehouse and stock point at Canandiaigua, N. Y. Large stocks of both parts and complete machines will be carried at each location.

## Caveats To Will Filed In Court

Two caveats filed to alleged codicils to the will of William G. Gwynn, of Emmitsburg, have been ordered dismissed in Orphans' Court recently and the codicils have been probated.

Gwynn, formerly of Baltimore, reputedly left an estate worth several hundred thousand dollars.

Louis P. Bolgiano, of Baltimore, Intire, and C. Littleton Upshur, of Norfolk, Va., a cousin, has filed the caveats to two codicils.

Under one of these codicils, Gwynn left to Margaret T. Dickerson, Emmitsburg, his housekeeper, all the ground rents that he owned and by another, he left her all his stocks.

Court attaches said they understood a compromise agreement would be reached shortly between all parties in Orphans' Court.

Bolgiano said that under the Gwynn will, the McIntire woman was left \$1000 if she survived the testator. She lived about two months after his death. He said the codicils would eliminate the bequest. But Albert White, Baltimore, executor of the Gwynn estate, said the codicils had not been probated when the caveat was filed.

Six other relatives in addition to Upshur filed the other caveat, claiming the codicils were invalid.

## Discontinue Cut-Rate Sale Of Government Surplus Wheat

The U. S. Dept. of Agriculture recently announced that as of Sept. 4 it will discontinue sales of surplus wheat at cut-rate prices for export. Exporters will, after Sept. 4, have to draw upon privately-owned grain to supply foreign demands.

In order to permit exporters to compete in the world market, the USDA will continue to offer export subsidies. These will be paid in grain from government-owned surplus wheat instead of cash. This grain will be available for export and will be delivered only at ports.

Former deliveries of government wheat at interior elevators have apparently not always been exported. Thus the new plan calls for delivery at a port to prevent local sales.

This plan attempts to minimize the effect of the government stocks and to place wheat on more of a supply and demand basis. Only a thorough test will tell what this move to strengthen the wheat market will accomplish in the home market price and the volume of wheat sold abroad.

## BOY SCOUT ACTIVITIES

A hundred parents and friends attended the Boy Scout camp at Weishaar Farm near Fairfield last Thursday evening, for campfire ceremonies and to inspect the camp site.

Mr. Lyman Carr, Frederick County Scout executive for the Francis Scott Key District, also was present and gave a few remarks to the parents and boys. He then presented new Scout membership cards to the 29 boys present, for the next year.

The boys entered camp on Sunday, July 22 and returned last Saturday before noon.

Quite a number of tests were passed and supervised swimming and games were played. Also a trip to Mr. Eiker's for a look at his Indian relic collection. Highlight of the week was Thursday evening when the Scouts challenged their fathers at a volleyball game. Well . . . the Scouts took the second but lost the first to the fathers. The contest will become an annual feature of the camp.

During the encampment the troop leaders advanced Lee Kniple to junior assistant Scoutmaster. Lee has been scouting since he was 11 and has now become old enough to take higher leadership within the troop.

Scout meetings still will be held on Thursday evenings at 7 p. m. Any parents who have boys 11 or older and would like to have them become Scouts, send them to the meeting or get in contact with any of the leaders.

Next week the Scouts will announce the winner of the merit contest which was followed a camp, along with the rest of the boys being named and the amount of points each got.

## POISONED BY DRUG

Steven Wantz, two-year-old son of Mr. and Mrs. David Wantz, Emmitsburg, was discharged this week from the Warner Hospital following his admission last Thursday evening at 9 o'clock. The youngster suffered from drug poisoning after eating a quantity of nerve pills.

## Chest X-ray Unit Here Friday

The Frederick County Tuberculosis and Public Health Assn. will conduct the annual mass X-ray survey in Emmitsburg and vicinity Friday, Aug. 10, beginning at the H. O. Toor Shoe Co. from 9 to 10 a. m. The unit will go to the Emmitsburg Manufacturing Co. from 10:30 to 11:30 a. m. and will be located near the Fire Hall from 1 to 5 p. m.

Mrs. Robert G. Fitez is chairman of the Emmitsburg Community. All persons 15 years of age or older are urged to have a chest X-ray.

Last year 10,171 persons were X-rayed in Frederick County. Of this number 803 had a chest X-ray for the first time. Twenty-five new cases were reported in the county. Twenty-two persons from this county are undergoing treatment at tuberculosis hospitals. There is, no doubt, an even greater number in the county who have active tuberculosis who do not know they are sick.

It is these "unknowns," the people who have never been discovered, who represent the danger to the health of the community. Tuberculosis can strike anyone, anywhere, anytime. A chest X-ray and find TB before you feel sick. A chest X-ray can show if TB germs have done any damage to the lungs. Tuberculosis is more easily cured when discovered in the early stages. TB is a contagious disease. You "catch it" from someone who has active tuberculosis. A chest X-ray takes only a few minutes; you need not undress; there is NO CHARGE.

In the years since 1904, the year the National Tuberculosis Assn. was founded, the death rate from this disease has been cut by more than 90 per cent. With this drop in the death rate has emerged a changing picture in the field of tuberculosis control. The development of new and better techniques in treatment, the use of new and better drugs, and better living conditions have enabled many to stay alive, who only a few years ago, would have died of TB. Today the emphasis is being placed on the problems of the living, for the fact is that NEW cases of TB continue to be reported in only slightly decreasing numbers.

Finding the people who have tuberculosis, treating them, helping them through the sometimes arduous periods of treatment, helping them to reassess their rightful places in the community and seeing that continuing medical supervision is made available to them are the problems which the entire community faces today in the control of this age-old enemy of mankind, not only because it is the community's humane obligation but also because it protects all of us—the general public. One way every individual can share in this campaign is to have an annual chest X-ray.

## Road To Reopen

Closed for nearly a year because of rebuilding a section a little more than three miles in length, the Hanover-Littlestown Rd. is expected to be reopened for traffic sometime next month.

Since work started last Aug. 2 a detour has been in effect, sending traffic via McSherrystown and White Hall over a route which is extremely narrow and well supplied with curves.

## Grange Meeting Held At Keymar

The regular meeting of the Emmitsburg Grange was held at the Greer Keilholtz farm, Keymar, Master Richard Florence presiding with 45 members and juveniles present.

Mrs. George Gartrell reported on the fair committee. Emmitsburg has voted in favor of an open theme for the fair booth backdrop.

The Pomona meeting will be held on Saturday, Aug. 4 at Braddock. Sewing contest winners will enter their winning entries in the county contest.

The degree team will hold practice Friday evening, August 10 at the local high school at 8:30. Mr. F. N. Stanger of the Brooklyn Products Co., Brooklyn, Mich., demonstrated the Chem-o-Cel sponge.

The next regular meeting will be a watermelon party at the home of Mr. and Mrs. Edward Meadows.

## Rocky Ridge News Items

Mrs. Earl Owens, Gaithersburg, spent a few days last week with her son-in-law and daughter, Mr. and Mrs. Marvin Stambaugh.  
Mr. and Mrs. Roscoe Pryor, Cascade, were guests Friday of Mr. and Mrs. Harvey Stambaugh.  
Mr. and Mrs. Albert Stambaugh and children, Larry and Shirley, visited Gwynn Oak Park, Baltimore, on Sunday.  
Mrs. Frank Valentine and daughter, Pamela, Mrs. Katie Valentine and daughter, Laura Ann, visited a few days last week

with Miss Cotta Valentine.  
Postmistress Mrs. Howard Miller recently presented Mr. N. O. Sharrer with a pin and certificate for 25 years of safe driving as a rural mail carrier. Mr. Sharrer was postmaster for four years and a rural mail carrier for 37 years. He retired last November and he and Mrs. Sharrer now reside in Littlestown.

Louise Jacobs, Thurmont, and Joseph Miller, Keymar, visited Sunday with Mr. and Mrs. John Hahn.  
Mr. and Mrs. Harvey Stambaugh and son, Luther, and Mrs. Mae Kaas visited Cold Spring Park, Waynesboro, Sunday.

Mr. and Mrs. Charles Cluts, Keysville, and grandson, Galen Heaps, Street, Md., were recent visitors of Mr. and Mrs. Guy Boller.

Mr. and Mrs. Richard Troxell, Washington, spent the weekend with his parents, Mr. and Mrs. Charles R. Troxell.

Mr. and Mrs. Wade Harner and daughter, Beverly, Taneytown; Mr. and Mrs. Charles Stouter and family; Freddie Garner, Westminster; Mrs. Wiley and Mr. and Mrs. Charles E. Troxell were recent visitors of Mr. and Mrs. Leslie W. Fox.

Mr. and Mrs. Ralph Keilholtz and children, Rebecca, Ralph Lee, Jr., Mary Ann, and Tommy, are spending a week at Ocean City, Md.

Mr. and Mrs. E. F. Keilholtz visited Mr. and Mrs. Carl Long, Finksburg, on Sunday.

Miss Doris Reck, who is attending summer school at Western Maryland College, spent the weekend with her parents, Mr. and

## Congressional Viewpoint

By Senator John M. Butler

WASHINGTON, July 30—Even in times of unprecedented prosperity such as these, there are a number of isolated areas in which peak employment has been impeded by a variety of economic circumstances. These areas have the nomenclature of "depressed areas," and they compose a problem to which the Eisenhower Administration and many members of the Congress, have devoted careful attention. While the situation in Maryland has been less severe than in certain other states, conditions in some parts of Maryland warrant a program of economic rehabilitation.

Paramount in solving the problem of "depressed areas" is the over-riding requirement that no program to aid in the rehabilitation or economic stability of one area should cause unemployment or instability in another locality. Therefore, any approach must contain safeguards against "run-away shops"—the latter-day practice of relocating industrial plants to take advantage of lower wage scales. It seemed to me that Senate Bill 2663, as reported by the Senate Labor and Public Welfare Committee, embodied this important requisite. It likewise seemed

Mrs. Ralph Reck.  
Mr. and Mrs. William Reck and son, Webb, and Mr. and Mrs. Richard Stem, Mt. Airy, spent Sunday with Mr. and Mrs. Ralph Reck.

to comply with most of the President's depressed area labor program.

However, last week, in the twilight of the 84th Congress, Sen. Fulbright of Arkansas proposed sweeping amendments which had the effect of "tearing the guts" from Senate Bill 2663. The "run-away shop" protection was removed, thereby encouraging the creation of even more depressed areas. Also eliminated were the vital provisions which gave depressed areas advantages in obtaining government contracts. Whereas Cumberland, for example, could have received Federal contracts in spite of Arkansas' lower labor cost, under the Fulbright amendments, Arkansas' competitive advantage would prevail. So crippled, this important bill, if enacted, would have destroyed many of the high standards and working conditions for which Maryland workmen and women have sought so long to achieve.

The contentions that this was a pro-labor bill served only to preserve the shell of an otherwise constructive measure intended to assist all depressed areas uniformly. With "the guts" thus removed, I voted against Senate Bill 2663, for in my judgment, as approved by the Senate, it fell woefully short of correcting a serious problem. Often, in the rush for adjournment, quality of legislation is sacrificed or mere quantity. However, this bill failed to pass in the House of Representatives, giving the Congress an opportunity next January to enact a realistic, equitable depressed area program.

ELIAS LUTHERAN CHURCH  
Rev. Philip Bower, pastor

Church and Sunday School combined, 9:15 a. m. Address by Attorney Eugene Hartman, Gettysburg.

The following services have been announced for August.  
Aug. 12, Sunday School, 9:15 a. m.; the Service, 10:30 a. m., Rev. Walter Weybright, vacation supply minister in charge.  
Aug. 19, Church Service and School combined, 9:15 a. m.  
Aug. 26, Sunday School, 9:15

a. m.; the Service, 10:30 a. m., Rev. Verle Schumacher, vacation supply minister in charge.

and PENNSYLVANIA NEWSPAPER PUBLISHERS ASSN.

### Civil Defense Moves County Headquarters

The offices of the Frederick County Civil Defense have been moved from the first floor, East Wing of Winchester Hall to the rear of the West Wing of Winchester Hall, basement level.

The reason for the change was in order to obtain facilities in connection with the office for a communications control center which is a necessity for Civil Defense service operations.

As the Chesapeake and Potomac Telephone Co. building is only a few feet from the new location, telephone communications for use of the various CD services will be available at a minimum of cost to the county.

Emergency communications through the cooperation of a

group of licensed short wave radio (Ham) operators will also be facilitated by the move.

These "Ham" operators are well scattered over the rural area of the county.

The Communication Service has submitted an application and tentative plan of operations, which when approved through channels and finally by the Federal Communications Commission will be licensed as Radio Amateur Civil Emergency Service, generally referred to as "RACES."

This service will assure Civil Defense of emergency communications both locally and with the State Civil Defense Control Center at Pikesville, should regular communication channels fail in an emergency.

## PUBLIC SALE

OF  
PERSONAL PROPERTY  
CONDUCTED BY  
NULL & NULL  
AUCTIONEERS

Having sold "Spring Brook Farm" and discontinuing farming, we, the undersigned, will sell on said farm located on state highway (Route 124) leading from Laytonsville to Gaithersburg, about 3 miles south of Laytonsville, and 4 miles east of Gaithersburg in Montgomery County, Md., on:

SATURDAY, AUGUST 11, 1956

BEGINNING AT 10 O'CLOCK A. M. (DST)

THE FOLLOWING TO-WIT:

56—HEAD REGISTERED & GRADE GUERNSEY CATTLE—56

37 head registered Guernsey cows, 9 head grade Guernsey cows. Some will be fresh by sale day, some close springers, balance in full flow of milk; 15 registered Guernsey heifers, some are bred, 1 registered Guernsey bull 3 yrs. old; 1 registered Guernsey bull 8 months old; 1 Angus cow and calf. This herd is TB (No. 546107) and Bangs (No. 5414) accredited. All calfhood vaccinated. Last blood test was taken on July 13, 1956. This is a high-producing and testing herd. Milk goes on Washington market.

NOTICE—Several of these animals have been shown at Fairs and Field Days and have won numerous ribbons. DHIA records and breeding data furnished on sale day.

### MACHINERY

S. C. model J. L. Case Tractor, Ford Tractor complete with 2 bottom 12-inch plows, cultivators, mower, disc harrow, scoop, Ford power post-hole digger, New Holland pick-up hay baler, D. B. tractor manure spreader on rubber, D. B. side-delivery rake on rubber, low-down wagon on rubber, 30-ft. J. L. Case grain and hay elevator, large trailer farm cart on rubber, D. B. power chain saw, 52-gal. tractor sprayer, electric battery charger. All above machinery in excellent condition, some recently purchased.

### DAIRY EQUIPMENT

2-unit Surge milking machines and extra pail, 4-unit Surge pump, circulating pump, 30-inch milk cooler, 12-can electric milk box, 8-can sterilizer, double wash-up tank, 32 W. T. milk cans, lot of small equipment and show halters.

### HOUSEHOLD FURNITURE

NOTICE—Any of the above property may be inspected at your convenience. Plan to attend this sale.

TERMS OF SALE—CASH with clerk on sale day and no property removed until paid for.

Lunch and Refreshments Served on Premises.

### Vodka Or Morality

The miserable life being enforced upon the people behind the Iron Curtain by the present Communist leaders, and the true nature of those leaders, are clearly spotlighted by three events of the past few weeks: (1) the workers' revolt in Poland against unbearable circumstances, (2) the dramatic air-liner escape to Western Germany of seven Hungarian citizens, and (3) the escape of Ion Opris, Romanian Olympic track star, while participating in a track meet in London.

Dramatic escapes from behind the Iron Curtain have been constantly occurring and there have been untold instances of spontaneous revolts, but these recent events are significant because they come at a time when Khrushchev, Bulganin and their cohorts are trying to convince the world that they are clean-cut, decent, peace-loving, humanitarian political office holders spreading freedom, good cheer and plenty throughout the Communist empire.

### Vodka Party Broadcast

Even more significant is the fact that these incidents of terror under brutal dictatorship have occurred while the press of the world was filled with pictures of American Air Force General Nathan Twining drinking toasts and smiling comradesly with the Red leaders at parties in Moscow. Thoughtful citizens of the United States are moved to inquire of our governmental leaders: What code of morality permits vodka drinking with and the lending of prestige to Communist leaders Khrushchev, Bulganin and the rest?

Hanson W. Baldwin, military journalist of the New York TIMES, was in Moscow to cover the Twining-Communist visit. Baldwin cabled to his paper: "The voice of the United States Air Force Chief of Staff, recorded on tape, has been broadcast repeatedly over the Moscow radio and it is evident that this Communist capital of the world is doing all it can to foster the impression of a 'tete-a-tete' between United States and Soviet leaders."

### Blow To Resistance

In other words, by giving public social acceptance to Khrushchev, Bulganin and other Russian police state bosses—drinking toasts with them, beaming smiles at them while the cameras click—the United States, whether she means to or not, is giving prestige and additional international power to the Communist conspiracy. Resistance among the vast hordes of people behind the Iron Curtain diminishes to some extent, at least; momentous decisions by nations outside the Curtain are swayed toward acceptance of the Soviets.

Reporting on "Vodka diplomacy," the U. S. News and World Report said: "Soviet photographers were always eager to snap the General (Twining) drinking with a Red leader." When such photographs reach the Communist-run newspapers in Poland what will be the reaction of workers of Poznan who rebelled against their Communist bosses? What will be the reaction of the widows and other relatives of the workers shot down in the streets by Red tanks? Is this good international relations? Is it an expression of morality—to compromise with evil? Of course not.

### Terror Is Real

If we are to believe our own eyes, Khrushchev, Bulganin and their Communist apparatus are operating a police state, with police terror as their club over enslaved millions. Ion Opris, the Romanian hurdler, is real. He took his life in his hands and escaped in London from his police state "chaperones." The seven Hungarians who overpowered the Communist crew of a Budapest airliner and flew it into West Germany and freedom on July 13 are real people. The police state enslavement from which they fled is real. They gambled their lives to escape from the men with whom U. S. leaders are being photographed, beaming and drinking vodka.

Two years ago I was in Washington when President Eisenhower made a great speech, thrilling to the whole world (except the Communist Party membership). In effect he said the U. S. A. was a friend and ally of all freedom-loving people on earth, and that she would never compromise with evil. Every American citizen should insist that this great pronouncement be re-established, undergirding our national morality and giving inspiration to the millions of miserable people under the yoke of Red tyranny.

### Majority Of Farmers Favor Wheat Quota

Preliminary returns from the wheat referendum held July 20 show that 79 per cent of the Maryland wheat farmers voting favored quotas on the 1957 wheat crop, Chester S. Bradley, chairman of the Maryland Agricultural Stabilization and Conservation Committee announced.

Some 666 votes were counted in Maryland. This represents only about 13 per cent of the eligible voters. In 1955 the total voting was 19 per cent of those eligible to vote. Although quotas were voted in nationally last year, Maryland wheat growers voted 57 per cent in favor of quotas.

Nationally, preliminary returns shows a total of 261,495 votes counted, about 25 per cent less than last year. Of these, 87.5

per cent favored marketing quota on 1957 crop wheat and 12.5 per cent opposed them. Although this is a preliminary tabulation, the final total is not expected to show any significant change.

Because wheat marketing quotas proclaimed by Agriculture Secretary Benson last May 15 are effective on approval by two-thirds or more of the voting farmers in the referendum, marketing quotas will be in effect for the 1957 crop.

The referendum marked the sixth time farmers have voted on marketing quotas for wheat. They approved quotas for the 1941 crop by 81 per cent, the 1942 crop by 82.4 per cent, the 1954 crop by 87.2 per cent, the 1955 crop by 73.3 per cent, and the 1956 crop by 77.3 per cent.

"The truly wonder finish for walls and woodwork." "Matching colors in Flat, Semi-Gloss and Interior Gloss Enamel." "America's Preferred Colors — 50 Beauties."

The '56 Ford is the car that was built to make driving fun!

## Translates miles into pleasant memories

With performance that makes Ford the world's largest-selling V-8! Ford's Thunderbird V-8's—ranging up to a blazing 225 h.p.—carry you over the hills in an effortless glide. Want to pass? A hint is enough for these babies. You'll meet every driving situation with the easy confidence of power to spare.

With styling that only the Thunderbird could have inspired! There's a special kind of pride that goes with owning the Thunderbird "look." You'll know it every time you take to the road and catch the admiring glance in your neighbor's eyes. You'll know it every time you compare your Ford with other cars, too.

With built-in stamina! Underneath Ford's Thunderbird beauty you find real brawn. From its husky 5-cross-member frame

right through its quiet, all-steel body, Ford has extra quality built in . . . quality that means more motoring pleasure for you—longer life for your Ford.

In Performance . . .  
Economy . . . Safety

**BABSON**

Writes . . .

By ROGER W. BABSON

Babson Discusses  
City Problems And Taxes

Babson Park, Mass., Aug. 2.  
The Conference of Governors,  
meeting at Atlantic City recently, received a special report on the plight of American cities, which are now facing some peculiar and very difficult problems.

Of course, the most pressing problems of cities, and especially of our larger metropolitan centers, is traffic. For a good many years now, I have been telling my friends and readers that heavy traffic and insufficient parking spaces are choking our cities to economic death.

Traffic congestion is hastening the exodus of business enterprise from our large cities. But even more important, heavy traffic is slowing down our whole economy and limiting our gross national product. Millions of productive hours are lost because of traffic snarls. In Chicago, to cite but one ex-

ample which could be multiplied by thousands, busses were stationary a few years ago only 10% of their trip time. Today, owing to more frequent and longer traffic delays, these busses are stationary 40% of their trip time. This is one important reason for the need of higher fares. Five cents of every bus far which you pay is necessary because of unregulated automobile congestion.

**Downtown Area Blights**

A second urgent problem of our cities is the tendency for in-city public and private property to deteriorate too rapidly. The great cities of our country are centers of power and commerce which testify to the fulfillment of the American dream. Yet, as I travel around the country, I am often appalled at the shabbiness of so many of our urban communities. In too many cities, entire streets have been permitted to fall into a shocking state of disrepair. This condition is often dangerous to life and limb, and also creates fire hazards.

Some of our proudest municipalities are limping along with obsolete residential and business street lighting. Run-down parks and athletic fields are all-too-common sights. Even city halls, which should be the focal point of community pride as well as of community activity, are often inadequate as to capacity and down-at-the-heel in appearance.

**The Increase Of Taxes**

When taxes on real estate and personal property were first broached in the United

**TODAY'S Meditation**

**The Upper Room**  
© THE UPPER ROOM, NASHVILLE, TENNESSEE  
**THE WORLD'S MOST WIDELY USED DEVOTIONAL GUIDE**

Be ye therefore perfect, even as your Father which is in heaven is perfect. (Matthew 5:48.)

To be perfect is so sublime a goal that instead of kindling our enthusiasm it sometimes slows down vigilance, deadens the spirit, unnerves the will. The goal appears so inaccessible we think the best thing to do is to turn our eyes from such heights.

It is no easy task for us to fulfill our Master's word, "Be ye . . . perfect, even as your Father which is in heaven is perfect." We can accomplish it, however, if we strive to be perfect on the plane of sonship as God is perfect on the plane of fatherhood. Our doubts disappear and hope returns in the light of a truth which is not impossible for us to attain.

It is not enough for us to consider the majesty and power and greatness of God. We are to seek the Lord with all diligence and lay claim to sonship with the Father through Christ Jesus. Our

States as the basis of municipal revenue, tax dollars were spent chiefly on streets, street lighting, parks, athletic fields, and buildings for the proper transaction of public business. In more recent years demand for public-welfare projects financed by city government is becoming more insistent. Funds for their maintenance are now being voted at the expense of older and sometimes more basic services. In some cities, protective services are being cut. Even fire alarm systems are not being adequately maintained or extended.

I do not blame the cities entirely for the evils which have befallen them. I well realize that local governments today do not receive nearly so large a share of our total tax dollars as before World War II. Cities are feeling keenly the adverse effects of our sharply graduated federal income tax. The more it costs to run the national government, the harder it is for local governments to raise needed funds. So the cities look increasingly to federal and state grants-in-aid to pull them through. I forecast that such a policy will prove to be very shortsighted.

Increased central municipal control or inspection encourages waste and results in a heavier over-all city tax load. Economy alone can put our cities back on the path which will lead to true progress; but what are the chances for such economies? For politicians to bribe and to buy votes with dollar bills is now illegal; but these same politicians are free to "bribe" voters by promising more aid to the unemployed, to the aged, to mothers and others. Much of the legislation to "protect" plumbers, carpenters, painters, and even barbers is merely bribery to get the votes of these groups. It is supposed to be enacted to protect the public; but the public should be made to pay directly for such "protection." No portion of such increased costs for inspectors and others should be added to taxes. If this welfare work continues to increase, city sales taxes are inevitable.

Increased central municipal control or inspection encourages waste and results in a heavier over-all city tax load. Economy alone can put our cities back on the path which will lead to true progress; but what are the chances for such economies? For politicians to bribe and to buy votes with dollar bills is now illegal; but these same politicians are free to "bribe" voters by promising more aid to the unemployed, to the aged, to mothers and others. Much of the legislation to "protect" plumbers, carpenters, painters, and even barbers is merely bribery to get the votes of these groups. It is supposed to be enacted to protect the public; but the public should be made to pay directly for such "protection." No portion of such increased costs for inspectors and others should be added to taxes. If this welfare work continues to increase, city sales taxes are inevitable.

**Redeemer.****Prayer**

O Lord, our goal is to be perfect in Thee. In our own strength we can never achieve this blessed hope. We come to Thee. Guard and guide our thoughts that Thy strength may be made perfect in weakness. In the name of Christ, in whom we have hope of achieving perfection. Amen.

**Thought For The Day**

Christ equips us with everything good in order that we may do His will.

**AFIELD**  
By Ted Kestmg

For the first time in 10 years, the American Kennel Club has added a new breed to its stud book. Last November it admitted the Rhodesian ridgeback, the 112th breed to be so honored.

In general appearance the ridgeback, or lion dog as he is sometimes called, is 75 pounds of muscle, symmetrical in shape, capable of great endurance, with good speed. He stands 25 to 28 inches at the shoulder, with bitches an inch or two shorter and 10 pounds lighter.

At first glance, the ridgeback looks like a Weimaraner in the general shape of its head, particularly if the dog is a light wheat-en color, because the color of the eye will be so light. The colors of the breed darken to a red wheat, and so does the eye.

As your eye travels the dog's back, you will note the largest cowlick in the canine world. It is clearly defined, tapering and even; it starts behind the shoulders and continues to a point between the hips. F. E. Westlake, an ardent booster of the breed, explains that this ridge is formed by hair growing in the opposite direction, and it is regarded as the "trade mark" of the breed.

Those acquainted with the ridgeback say he has a good nose and an excellent eye. Easy to train, with an abundance of intelligence, he makes a fine guard dog and a protective pet for children.

Sportsmen living in the South will be interested in the ridgeback's adaptability to a warm climate. Like the cattle of India and his native Africa, the breed

seems immune to semi-tropical and tropical diseases.

Its back ground is obscure. One theory is that it was brought by the Hottentots from Asia, and that it thrived in the section of Africa we call Rhodesia. In 1875 a missionary, returning from the Cape to Rhodesia, brought some of the dogs with him and lent them to a well-known big game hunter, who discovered their wonderful instinctive hunting qualities. The breed was recognized by the South African Kennel Union in 1924.

Col. and Mrs. Thomas J. Frailey have returned from a four-day visit at the home of Dr. and Mrs. Ralph D. Smith of Washington, D. C.

## Health Column

The adolescent peers into the mirror anxiously. Is it too dreadful? Will people notice? Does he dare ask a girl to the dance? Does she dare wear that pretty-off-the-shoulder dress?

This is "carefree youth" suffering from acne. At the very time of life when the desire for popularity is greatest, the adolescent finds himself disfigured with skin blemishes. The situation can be magnified into real tragedy. Feeling like a sort of leper from whom others shrink, the youngster may draw back from the world he really fears to be a part of.

Parents can help or harm in this situation. It does no good to blame the youngster for with-

near Wash., D. C., and Tucson, Ariz., spent a day recently with her mother, Mrs. Roy Bollinger.

M/Sgt. Fred B. Bower, who has spent the past 17 months in Japan, has returned with his family from Santa Ana, Calif., and are visiting with Mrs. Bower's mother, Mrs. Roy Bollinger, E. Main St. M/Sgt. Bower will be stationed at Quantico, Va., where the family expects to reside in the near future.

drawing, to urge him into social and school activities, to assure him that "he'll grow out of it." Action must be taken. Acne and the scars which may result can seriously disturb a boy's or girl's mental health.

Something can be done about acne. With patience and persistence, the average case can be cleared up in about three months. Even those who have pitted scars can now be assured that in most cases these blemishes can be removed.

The doctor's help is needed. He will probably lay down rules for general hygiene: outdoor exercise, rest, sleep, avoidance of certain foods. He may prescribe a lotion or salve. Severe cases of scarring have been cleared up by new methods of skin abrasion.

When something can be done about acne, it is pitiful to see so many adolescents suffer from their pimples. Parents should not shrug off acne as a minor ailment that time will heal. Serious personality disturbances can develop. Parents can help their adolescents with encouragement and affection, and by seeing to it that they get medical attention.

## Safety Tip

Keep your vehicle in safe condition. Have good tires, brakes and steering at all times. A bad tire may cost you your life, or your family's. Smooth tires on a wet road are like trying to stop on ice. Slow down if your car is not in A-1 condition. You are liable for a ticket if your car is unsafe.

—Emmitsburg Police Dept.

Mr. and Mrs. James Wivell and family and Mr. and Mrs. Ray Etheridge visited Monday with Mr. and Mrs. Roy Wivell and family.

Prof. and Mrs. George Thompson are vacationing in Ocean City, N. J.

Nearly half the farm family's yearly food supply, figured at retail value, still is produced on the farm, according to a U. S. Dept. of Agriculture survey of 528 farm households in 12 north central states.

## ALONG THE POTOMAC

By U. S. Congressman

DeWitt S. Hyde

\*WASHINGTON, Aug. 1.—Flood insurance is now the practically ally of flood prevention and control in the battle to minimize the devastating impact of floods. I believe that the Congress, in enacting on a federal flood insurance program, has taken a laudable step forward in the difficult field of disaster insurance.

Congress has defined the term "flood" to permit insurance coverage for both coastal and inland areas. For us in Western Maryland the important definition is that "flood" means "deluge", or the water component of any hurricane or other severe storm, (or) surface landslide due to excess moisture.

The Act provides for a Federal insurance administration within the Housing and Home Finance Agency. It authorizes the new agency to reinsure policies written by private companies and to issue direct flood insurance. The insured would pay at least 60 per cent of the estimated full premium on commercial property and the Federal government would pay the balance. On policies covering private homes, if the Administrator so determines, the government could pay more than 40 per cent of the premium.

Insurance available for one person is limited to \$250,000 and the maximum coverage on a home is \$10,000. Total risk to the government is set at \$3 billion, but this might be raised to \$5 billion with the approval of the President.

The Act also provides for loans to assist in the repair of flood-damage. These would be available to those who signed special flood-loan contracts in advance with the government. Loans would be limited to \$250,000 per person.

A feature of the insurance program is the application of the loss deductible principle we know so well in automobile insurance. The deductible loss clause in insurance policies applies to the first \$100 of a claim plus five per cent of the remainder; in loan contracts it is in the amount of \$500.

The Administrator is required to make a continuing study of the feasibility of having private in-

urance companies take over the insurance program, either with or without Federal financial support.

There is no lack of game for hunting in this country. Except for the herd animals like buffalo and certain birds, there is more game available now than ever before.—Sports Afield

Navy WAVES composed 75 per cent of the total allowance in "Radio Washington," the nerve center of the entire Navy communication system during World War II.
