# EMMITSBURG CHRONICLE

“READ BY MOST EMMITSBURGIANS”

Emmitsburg's  
Bi-centennial  
1757 - 1957

VOL. LXXVII, NO. 47 EMMITSBURG CHRONICLE, EMMITSBURG, MARYLAND, FRIDAY, SEPT. 14, 1956 SUBSCRIPTION: \$2.00 PER YEAR

### Most Anything At A Glance

BY ABIGAIL

There'll be a little bit of Emmitsburg in the Smithsonian Institute hereafter, it was revealed this week in a letter to the boss, the Editor, who in turn relegated it to my basket for treatment. How it happened is described in the letter which I will take only the essentials for the public's information.

An Emmitsburg lady, Mrs. William Frailey, has kindly donated three pieces of old time horse-drawn riding equipment. The pre-automobile day vehicles were quite valuable as is attested to by the quickness of the Institute in accepting these antiques of over half a century ago.

The idea was born with the suggestion by Mrs. Frailey's son that the items be preserved for posterity's sake, so she got busy and contacted the museum and in no time flat Mr. Robert Multhauf, curator of the museum and Mr. Donald Berkshire, an authority on horse-drawn equipment, were in Emmitsburg, carefully scrutinizing the articles, attesting to their authenticity and finally agreeing that they would be more than welcome in the Institute's priceless collection in Washington.

By way of explanation, the three pieces of equipment were a trap, a basket phaeton with parasol and a surrey. On Aug. 21 the Institute sent its truck here and transported the articles to Washington. Several years ago the Fraileys had exhibited the equipment in a Gettysburg celebration. On Sunday last, Mrs. Frailey drove to Silver Spring where she enrolled her son in the Bullis School. Having a little time on her hands she decided to visit the Smithsonian Institute and there right in the main building of National Arts and Industries in the Hall of Land Transportation were the vehicles, with a plaque over each. The buggies are situated to the left of the Statue of Freedom in the rotunda of the hall.

Now then, anyone from this area who visits the Smithsonian, can feel as they view the buggies, that a little bit of Emmitsburg is there, because most of us have seen these very same vehicles driven through the streets of Emmitsburg by both Mr. and Mrs. Frailey, and only recently.

I simply must congratulate Mrs. Frailey on her decision to make this noble gesture and donating these vehicles to posterity. They will remain for the public to view for a long, long time and anyone from here seeing the exhibits, can point with pride that they came from Emmitsburg, thru the courtesy of a very generous benefactor. On behalf of Emmitsburg I again say thanks, Mrs. Frailey.

### ACCEPTS POSITION

Sperry's Garage announced this week the appointment of Robert Jordan as salesman for the concern. Mr. Jordan is a graduate of St. Joseph's High School and was recently discharged from the Army after two years' service, part of which was spent overseas.

### TEEN-AGE DANCE HIGHLY SUCCESSFUL

The attendance at the first teen age dance last week was most gratifying to those parents who arranged the affair and were on the scene to assist and chaperone. The boys and girls were reported most pleased with the event and when asked if they desired another they responded vigorously in the affirmative.

Another dance is being planned and will be held on Oct. 5 in the VFW annex. Admission for this dance will be 35 cents. There were 148 boys and girls registered for the first affair and even more are expected to patronize the October dance.

### BASS STOCKED

Approximately 1400 small-mouth black bass fingerlings were released in the Potomac River in the vicinity of Point of Rocks Wednesday by representatives of the State Game and Inland Fish Commission. The fish, raised at the Lewistown hatchery, averaged about two and a half to three inches in length. Another consignment was turned loose in Carroll County streams this week.

### State Will Revert To Standard Time

Emmitsburg undoubtedly will go back to Standard Time with the most of the State on Sept. 30. The only exception will be the area close to Washington because that city is holding off until the end of October. Prince Georges and Montgomery Counties will go along with the national capital.

Maryland actually will be an exception along the entire East Coast which is following the lead of New York City and holding to Daylight Time until the end of October.

Baltimore cannot move the date back because the city charter specifies that Daylight Time must end on the last Sunday in September. A referendum is on the ballot in November which, if carried, would empower the Baltimore City Council to move the advanced time up one month in the spring and back one month in the fall.

Most of the state is expected to follow Baltimore back to Standard Time on Sept. 30. While all railroads run on Standard Time the year around they will retain their schedules geared to Daylight Time to the end of Oct. Network television shows also will abide by Daylight Time until the end of October.

### Two Drunken Drivers Are Fined

The Emmitsburg Police Dept. announced this week the arrest of two drunken drivers.

Police Chief Daniel J. Kaas made the arrests on Saturday and trials were held on Monday evening. Convicted by Magistrate Charles D. Gillelan were Arthur LeRoy Wilson, York, Pa., for operating under the influence of intoxicating beverages and reckless driving, \$176.50, and Lawrence Carbaugh, Waynesboro, operating while under the influence of intoxicating liquors and reckless driving, \$176.50. Wilson is serving 85 days in the Frederick County Jail in lieu of paying his fine. Carbaugh paid the fine and costs.

### Legion Auxiliary Announces Standing Committees

The regular meeting of the Francis X. Elder Post, American Legion Auxiliary, was held last Tuesday with 22 members present.

The secretary's report was given and approved and the treasurer's report showed a balance of \$199.45.

Invitations were received from the Francis Scott Key Post No. 11 installation of officers on Sept. 18 and from the Sykesville Post initiation on Sept. 19.

Virginia Sanders and Charlotte Sanders attended the Civil Defense meeting at the Emmitsburg High School held on Sept. 5. They will report to the auxiliary at its next meeting.

President of the auxiliary, Charlotte Sanders, gave a report on the Legion convention and explained how the flags were to be displayed and a revision of the by-laws.

Two of the deceased members were included in the Memorial Services. They were Olga Houser and Martha Ellen Rosensteel.

Ann Shorb, Ann Topper and Ethel Baumgardner attended the past president's luncheon.

The following committees were appointed for the ensuing year: Rehabilitation, Madeleine Harner; legislative, Ruth Gillelan; Americanism, Ann Topper; child welfare, Mrs. Irvin Brown; music, Rita Felix; membership, Madeleine Harner; Gold Star mothers, Virginia Sanders; poppy chairman, Mary T. Hollinger; community service, Dian Shuff; cradell roll, Ann Shorb.

Past Commander Charles Harner thanked all the members of the auxiliary for helping him during his tenure of two years in office.

Faine Rodgers will replace Madeleine Harner as the Blue Cross representative.

Membership pins were awarded Charlotte Sanders and Madeleine Harner for securing more than six members during the past year.

A bingo game is scheduled for the middle of October, the date to be announced.

The refreshment committee for October will be Ruth Martins, Mary T. Miller, and Faine Rodgers.

Rose Shorb's name was drawn for the door prize, but was not present.

### LIONS READY FOR ANNUAL HORSE SHOW

Twenty members were present for the regular meeting of the Emmitsburg Lions Club held Monday evening in Bucher's Restaurant, President Charles R. Fuss presiding.

Secretary Robert E. Daugherty requested that all Horse Show committees complete their work in the near future. A committee to erect the snow fence around the field was appointed and the bleacher seats will be installed Sunday afternoon. The show will take place Sunday, Sept. 23 and will be held at the Emmitsburg Civic Assn. grounds just east of town. Membership chairman, Arthur Elder announced two new members had been admitted to the club. They were Mr. Rhodes, production manager of the Toor Shoe Corp., and Cloyd W. Seiss, local lumber dealer.

Clarence E. Hahn gave a report on the recent Manchester parade which a group of local Lions participated in. Herbert W. Rogers, chairman of the advertising for the Horse Show catalogue, reported all advertising had been sold and was now being printed.

### Health Department Gives Safety Tips During Hurricane

The hurricane season lasts from the middle of June to the middle of November, but the period of greatest activity is early September. Although these violent windstorms arise in the tropical regions of the Atlantic or Caribbean their effects sometimes have been felt far inland. Marylanders need not be told that this State is within the area of these destructive forces.

Dr. Forbes Burgess, Frederick County Health Officer, recommends precautions for the protection of life and property.

**Advance Preparations**

Dead branches or any near enough to the house that they may hit windows or roof should be removed. Loose objects such as outdoor furniture, awnings or garbage cans should be securely fastened or put some place where they cannot be blown against the house. In areas which are most seriously threatened the windows should be boarded up with good lumber - firmly attached to the building or shutters securely fastened several hours before the storm is expected. Ladders, shutters and boards are difficult to handle in the wind. Doors to garages, barns and other buildings also should be well-fastened.

A good flashlight should be available and a battery-powered radio will be convenient in case of power failure. This possibility also makes it advisable to keep on hand some candles or lamps and food that requires little or no cooking or refrigeration. Failure of water supply may necessitate the use of fresh water from sterilized jugs or bottles. Emergency equipment should also include a bucket of sand, fire extinguisher in good condition and a first aid kit.

**As The Storm Approaches**

1. Keep your radio or television tuned to the latest information from the weather bureau.
2. Stay away from low water-fronts as these may be swept by high waves and tides.
3. If you must travel leave early so that it will not be necessary during the storm.
4. A substantial house secure on its foundation and with a tight roof may be your safest refuge. On the opposite side from which the wind is coming one or more windows can be kept open for ventilation and to prevent wind damage.
5. If you must travel drive carefully and watch for fallen wires, branches and wash-outs.
6. Stay away from disaster areas unless you are qualified to be of assistance.
7. Avoid dangling power lines and other wires and fences.
8. Be especially careful of fire as fire-fighting may be particularly difficult at this time.
9. Boil or sterilize drinking water unless regarded as unnecessary by your local health department.

### CONSTRUCTION FUND HARD HIT SAYS BOARD

The County Roads Board may be pinched for construction dollars before the year's program is completed County Engineer Roger Willard told the board and the County Commissioners this week.

The engineer said about \$651,000 of the \$1,150,000 budget has been spent and about \$445,500 is earmarked for projects now in various stages of construction.

### Miss Wachter Is Graduate Of Nursing School

Miss Nancy Wachter, daughter of Mr. and Mrs. Clarence Wachter, N. Seton Ave., was graduated from the St. Joseph's Hospital School of Nursing, Baltimore, on Wednesday.

She is a graduate of St. Joseph's High School, Emmitsburg, with the class of 1953. Miss Wachter will join the nursing staff of the Chambersburg Hospital.

### OBITUARIES

**REV. FRANCIS BRADY**  
The Rev. Fr. Thomas Francis Brady, 66, pastor and founder of St. Timothy's Church, Levick and Hawthorne Sts., Philadelphia, Pa., died Monday at Fitzgerald Mercy Hospital.

Fr. Brady, born in Philadelphia, was a graduate of Mt. St. Mary's College, Emmitsburg, and St. Charles Borromeo Seminary, Overbrook. He was ordained in 1920.

He founded St. Timothy's parish in Mayfair on Oct. 16, 1928, and was pastor there until his death.

Solemn pontifical requiem mass will be sung at 10:30 a. m. today (Friday) at St. Timothy's Church. Burial in the church yard.

**GEORGE F. WANTZ**  
George Francis Wantz, 64, a resident of Orlando, Fla., for 15 years died at his home there on Thursday, Aug. 30, of a heart attack.

The deceased was a son of the late John R. and Sallie (Caldwell) Wantz and was a native of Emmitsburg. He was a member of the Lutheran Church.

Mr. Wantz is survived by his widow, Mrs. Hattie M. Wantz; a daughter, Mrs. Margaret Marshall, Orlando, Fla.; two brothers, Charles and Russell Wantz, both of Emmitsburg; a sister, Mrs. Albert Flenner, Fairfield Rt. 2, and four grandchildren.

Funeral services were held Tuesday, Sept. 4, at 10:30 a. m. from the Hawthorn Funeral Home, Orlando. Rev. Krider officiated.

Those who attended the funeral from Emmitsburg were Mrs. Alice Dick, J. Russell and Charles W. Wantz.

**MRS. JOHN E. KOLB**  
Mrs. Fannie Estelle Kolb, wife of John E. Kolb, died at the home of her son-in-law and daughter, Mr. and Mrs. James A. Cutsail, Frederick, Wednesday at 11:45 a. m., after an immediate illness of two weeks, aged 78 years.

The deceased was a daughter of the late Gideon and Alice Shellman Remsburg and a member of the Buckeystown Methodist Church.

Surviving are her husband and six children: Earl E. Kolb, of Jiamsville; Walter D. Kolb, Berkeley, Calif.; John W. Kolb, Frederick; Paul R. Kolb, New Market; Mrs. Robert Swain, Wayne, Mich., and Mrs. Cutsail; one brother, Walter D. Remsburg of Adamstown; a half-sister and a half-brother, Mrs. Harry Swomley, Sr., Emmitsburg, and J. LeRoy Remsburg, of Shookstown. Twenty-five grandchildren, 36 great-grandchildren and a number of nieces and nephews also survive.

The body rests at the funeral home, 106 E. Church St., Frederick from where funeral services will be held Saturday afternoon at 2 o'clock. Interment in Frederick Memorial Park.

### Vice President Will Speak

Representative DeWitt S. Hyde, (R. Md.), announced this week that Vice President Nixon will be the guest of honor at a meeting on Saturday morning, Sept. 29 at Hagerstown and that Senator Knowland will make a major address in Cumberland on Wednesday evening, Oct. 3. Further details will be announced by Congressman Hyde just as soon as the necessary arrangements have been completed.

### STATE PAYS LARGE SUM FOR BUILDING ON NEW ROAD

Frederick County Circuit Court has authorized the payment of \$60,110 to the S & R Poultry Co., Harmony Grove, and the Farmers and Mechanics-Citizens National Bank, mortgagee, for property belonging to the company which the State Roads Commission is acquiring for the Frederick by-pass, docket entries showed this week.

The amount was the sum fixed by the commission as its estimate of the fair value of the land taken for the Motter Ave.-Tuscarora Creek section north of Frederick. It deposited a check for \$60,110 with Clerk of the Circuit Court Ellis C. Wachter and this check has now been issued to the poultry firm and its mortgagee.

It is the first of 20 land acquisition actions brought recently by the Commission against property owners for the Frederick and Thurmont by-passes which has been settled without further legal proceedings. The other 19 still are pending.

It is understood the by-pass will take the main poultry building with its salesroom and other rooms of the S & R Company, along with about an acre of ground. It does not take the warehouse. The property is just north of the Pennsylvania Railroad crossing at Harmony Grove on the east side of Route 15, apparently a short distance from where the by-pass will tie in with U. S. 15 at the Tuscarora Creek relocation.

### Baseball Playoff Here Sunday

A two-hit pitching performance by Guy Weikert, who was supported by a 16-hit attack, gave Fairfield its smashing decision over the defending champions, Blue Ridge Summit, on the Fairfield diamond.

Weikert, who whiffed six, yielded an infield hit to A. Harbaugh and a triple to Smedley.

Fairfield blasted out solid hits in every inning to win with ease, 13-0.

Cashtown made it two-in-a-row over Union Bridge last Sunday afternoon by a 6-5 score to become a finalist in the Pen-Mar Baseball League playoffs. It will meet the winner of the Fairfield-Blue Ridge Summit game to decide the winner in the Shaughnessy playoff.

Fairfield and Blue Ridge will tangle in the deciding game of their three-game series on the neutral Emmitsburg field.

In winning at Union Bridge, Cashtown was forced to withstand a five run rally in the eighth inning by the Maryland outfit after having built up a 6-0 lead.

### Rep. DeWitt Hyde Advocates Tax Reduction

Representative DeWitt S. Hyde, Republican candidate for re-election from the Sixth Congressional District of Maryland, in speaking before the Frostburg Rotary Club Monday evening advocated a reduction in taxes for small business. Hyde said that the "ability to pay" principle should be applied to small concerns, such savings in the tax burden would strengthen its competitive position.

"Our very way of life is being threatened by bigness in government, bigness in business and bigness in labor unions. Struggling for survival in the sea of bigness is not just the small operator," continued Hyde, "but the whole concept of free competitive enterprise and a form of government dedicated to serving, not destroying, the independence of the people."

Hyde went on to say that monopoly in any form is an attempt to wrest power from the people and place it in the hands of a few and that big governments cease to be responsive to the will of the people. Those who advocate greater concentration of power in Washington must be checked. The fight to strengthen small business is the fight to preserve power in the people and clearly rests with the Republican Party which is dedicated to preserving this power in the people.

M/Sgt. and Mrs. Russell J. Liller are guests of Miss Emma B. Ohler. They are enjoying a short leave before embarking upon a journey to Izmir, Turkey, where he will be stationed. Mrs. Liller is the former Miss Hazel Valentine. They expect to visit many of the Near East countries and return to the States some time in the fall of 1958.

### Miss Zurgable Is Graduate Of Weaver Air School

Miss Dolores Zurgable, daughter of Mr. and Mrs. Henry Zurgable, was recently graduated from the Weaver Air Service Personnel School of Kansas City, Mo. Miss Zurgable has been assigned to the communications department of American Air Lines at the National Airport, Wash., D. C. She was graduated from St. Joseph's High School several years ago.

### FIRST FROST HITS COUNTY

What might possibly be the earliest frost on record in Frederick County was reported in sections of the county Monday as temperatures dipped into the 30s during an unusually cold September weekend.

The mercury was registered at 34 degrees early Monday at Unionville where there was frost. It was 38 at the State Police Barracks in Frederick.

Scattered frost was reported in other sections and in Emmitsburg. The frost was at least a week early of the time when, according to weather records, the earliest light frost can be expected. The earliest date of a killing frost in Frederick County is Sept. 23. The average date of the first killing frost in the county is about October 18.

The temperatures were the coldest since spring and they were the coldest for September since 1953. Last year the temperature never got below 42 thru out the month.

The early morning readings topped off the chilliest weather in many months. Farmers were fearful that the cold weather is a sign of an early end to the growing season and that a killing frost will come before long.

### Work Begun On New Hospital X-ray Room

Groundbreaking ceremonies for the new X-ray wing of the Annie M. Warner Hospital will be held today (Friday) at 10 a. m. with Richard W. Livingston, New Oxford, Pa., president of the board of directors in charge of the ceremonies. John A. Hauser, chairman of the building committee, will turn over the first shovelfull of ground.

Dr. Joseph L. Boyer will represent the medical staff of the hospital at the ceremonies. The invocation will be given by Rev. Fr. Alexis Arnoldin, assistant pastor of St. Francis Xavier Catholic Church. The Rev. Clyde R. Brown, pastor of the Gettysburg Presbyterian Church, will give the benediction. The ceremony is open to the public.

The new building will be a 40 by 26 foot wing to the northwest corner of the original hospital building and will cost approximately \$63,000. New X-ray equipment will cost an additional \$23,000. The contract also calls for remodeling of the first floor of the original building to provide another dispensary, additional bath facilities, a waiting room, and additional office area.

Work on the new project will be done by Hill and Ivins, a Chambersburg, Pa., construction firm. The building is expected to be finished in 60 days.

### HAD PRIZE ANIMALS AT TIMONIUM FAIR

A Detour woman, Mary Nicholson, and a Rocky Ridge man, Randolph Valentine, exhibited prize winning animals at the Maryland State Fair last week at Timonium.

The grand champion milking Shorthorn was shown by Mary Nicholson, while Mr. Valentine had the junior champion Ayrshire cow.

### Mount Begins 149th Year With 600 Students

Mt. St. Mary's College, Emmitsburg, second oldest Catholic college in the United States, began its 149th academic year Thursday morning with a capacity enrollment of approximately 600 students.

The formal opening got under way with a solemn mass of the Holy Ghost in the College Chapel celebrated by Rt. Rev. Msgr. John L. Sheridan, president of the college. Classes began after the services.

Freshman orientation began at the Mount for 215 incoming students Monday morning.

Enrollment figures top last year's figure by only 10 students since the college is operating at capacity. Refusals were the largest in history, Guy A. Baker, Jr., registrar, announced. Most of the gains were in the freshman class. In addition to the freshmen, approximate class figures show 190 sophomores, 103 juniors, and 97 seniors.

Heaviest freshman enrollment is in the social science course with 57 incoming students electing that course. Science, pre-medicine, and pre-dentistry had 56 freshmen; business administration, 46; liberal arts, 30, and education, 21.

The new Mt. St. Mary's freshman roster represents 14 states, the District of Columbia, and Germany. Geographic distribution is as follows: Pennsylvania, 69; New Jersey, 45; New York, 41; Maryland, 32; Delaware, 11; District of Columbia, 7; Virginia, 7; Massachusetts, 4; Connecticut, 4; Florida, 3; Ohio, Rhode Island, Michigan, W. Virginia, Maine, and Germany, 1 each.

Included in the freshman class are 20 veterans.

The freshman figures are slightly under last year's record enrollment of 247 students.

Classes in the Mt. St. Mary's Seminary will begin on Sept. 17 with approximately 115 students enrolled, about the same as last year. The seminarians returned to the campus on Sept. 7 and began their annual retreat on Sept. 8. Ordinations to minor orders and the deaconate will take place on Sept. 14 and 15.

Seminary enrollment represents approximately 27 different dioceses in 17 different states.

### School Enrollment Up In County

Frederick County public school attendance showed an increase of over 700 this year as compared with the same time in 1955, records of the Frederick County Office of Pupil Personnel disclosed this week.

It was the largest increase in attendance in several years boosting the enrollment to 12,861 and indicating the figure is approaching the 13,000 mark before the school year is ended.

The total enrollees on the first day of 1955 was 12,122.

Increases were noted in both the elementary and junior-senior high schools of the county. The elementary rolls jumped from 7,007 in September, 1955, to 7,426, an increase of 419, and the junior-senior figures moved up from 5,115 to 5,435, an increase of 320. The total increase was 739.

Enrollment figures at the local school show 275 in elementary school and 138 in the high school.

### Hospital Report

**ADMITTED**  
Mrs. Raymond Baker, Emmitsburg.  
Mrs. Earl Wilhide, Emmitsburg. James Boyle, Fairfield Rt. 2.

**DISCHARGED**  
Mrs. Clyde Topper and infant daughter, Emmitsburg.  
Mrs. George Rosensteel and infant daughter, Emmitsburg.  
Mrs. Clyde Knipple, Emmitsburg.  
Mrs. Ruth Shoemaker, Emmitsburg.  
Mrs. Curtis Bucher, Emmitsburg.

**BIRTHS**  
Mr. and Mrs. George Rosensteel, a daughter, last Friday.  
Mr. and Mrs. Gilbert Oddo, a son, last Saturday.

Mrs. O. H. Stinson is visiting in Baltimore with relatives.  
Mr. and Mrs. Edward G. Stull spent the week-end in Pittsburgh, Pa., visiting at the homes of Mr. and Mrs. J. Carroll Elder, Mr. and Mrs. J. Earl Elder, and Mr. and Mrs. William Smith.

## Rocky Ridge

## ENGAGEMENT ANNOUNCED

The Rev. and Mrs. Amos W. Geigley, Fairfield, Pa., announce the engagement of their daughter, Shirley Anne, to Stewart F. Miller, Jr., son of Mr. and Mrs. Stewart F. Miller, Harrisburg.

Miss Geigley, who was graduated from Gettysburg High School in 1953, attended Bridgewater College, Bridgewater, Va. She is employed in the Harrisburg office of the Bell Telephone Co.

Mr. Miller, a graduate of the German Twp. High School, McClellantown, Pa., attended the California State Teachers College in California, Pa. He is a student at Thompson College, Harrisburg, and is employed by Remington-Rand in that city.

No date has been set for the wedding.

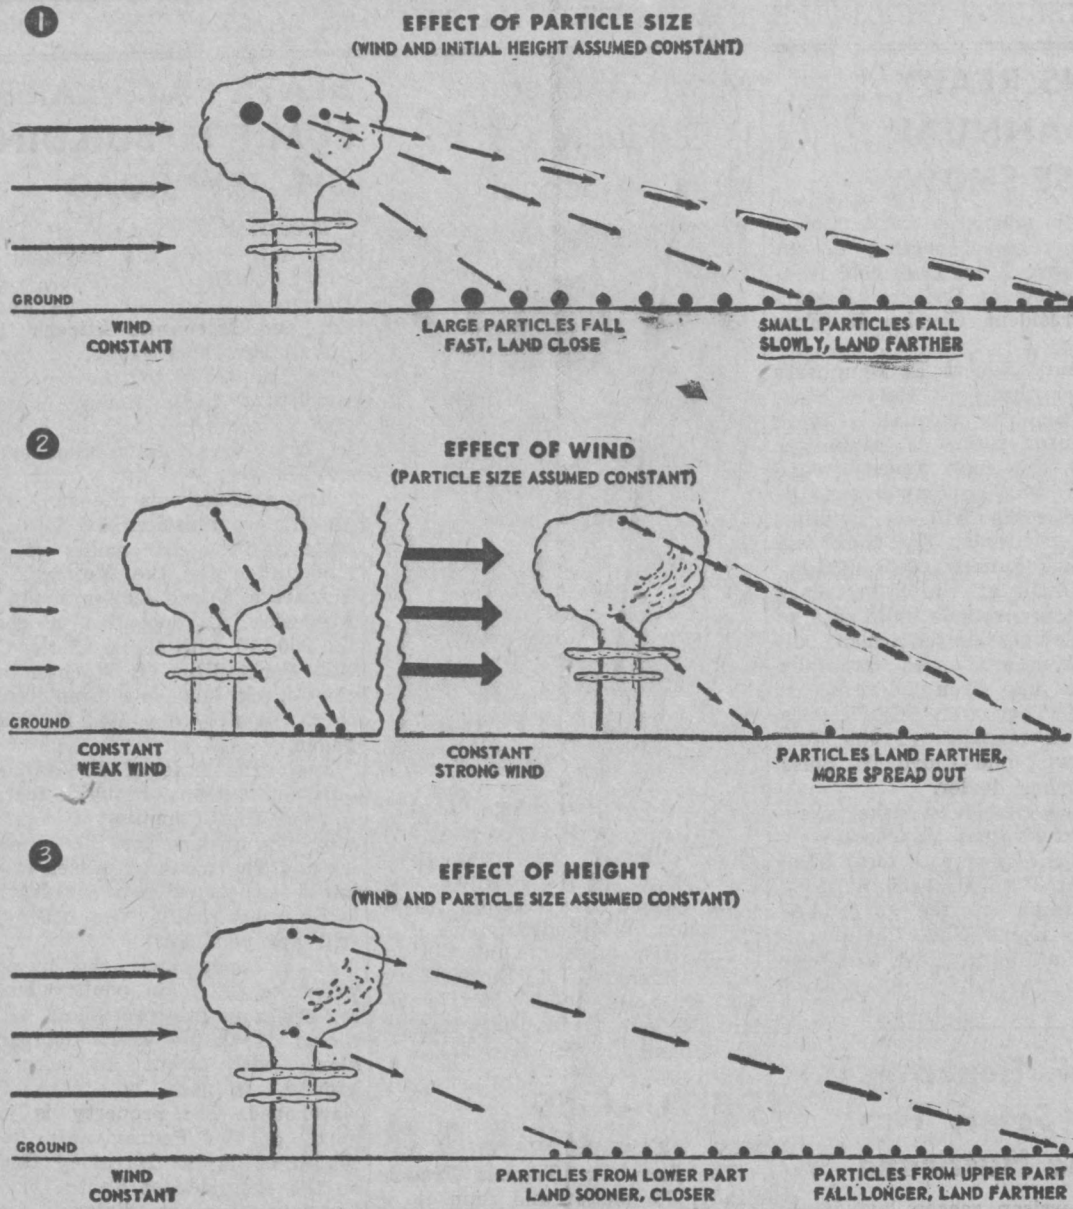

nice gifts were received.

Mr. and Mrs. Wade Harner and daughter, Beverly, Taneytown, and Mr. and Mrs. Charles Stouter and children, Maureen, Ronnie, David and Gary, and Mrs. Maude Simpkins, Emmitsburg, visited on Sunday with Mr. and Mrs. Leslie Fox.

Mr. and Mrs. Charles Keeney and children, Charles Jr., and Carl, Woodsboro and Mr. and Mrs. Arthur Keeney, Middleburg, were recent visitors of Mr. and Mrs. Charles Gruber.

Mr. Vernon Barbe, local concrete contractor, is doing the cement work on the new Mother Seton Elementary School, Emmitsburg.

## What Is Fallout?

**FACTORS AFFECTING FALLOUT** distribution over countryside downwind from a nuclear blast are the size of the earth particles carrying the radioactivity, their altitude and the speed and direction of the wind. Generally, in the United States, the winds which would dominate the direction of fallout would be the strong, usually west-to-east winds at about 40,000 feet. For this reason, the Federal Civil Defense Administration warns that only weather experts, with their methods of tracking high-altitude winds, can predict with reasonable accuracy the area to be affected by fallout. Men with radiation monitoring instruments are also required to determine whether an area is "safe" from radio active fallout after a nuclear attack. (FCDA Photos)

**THE WORLD'S MOST WIDELY USED DEVOTIONAL GUIDE**

Wherefore let him that thinketh he stetheth take heed lest he fall. (1 Corinthians 10:12)

Long, long ago, a friend asked an old man why he complained so much.

"Oh," said he, "I have every day so much to do. I have two falcons to tame, two hares to keep from running away, two hawks to manage, a serpent to control, a lion to chain, and a sick man to tend and wait upon."

Then said the friend, "But no man has all these to do at once."

"Ah," corrected the old man. "But it is with me as I have said. The two falcons are my two eyes, the two hares are my feet, the two hawks are my hands, the serpent is my tongue, the lion is my heart, and the sick man is my own body."

How true this complaining attitude is of too many of us today! Life is meant to be a to-day where we weave the texture of our characters, a forge where we temper our wills, and a mart where we ourselves are best able to sell what we have made of ourselves.

Prayer

O Father, we have no greater guide than Thee, Thou art the Creator of all life, of all law, of all love. Guide and bless us this day as we go forth to live. Help us to do as to the honor and glory of Thy name; through Christ. Amen.

Thought For The Day

"Watch and pray, that ye enter not into temptation."

Henry H. Schooley, Rhode Island

### Farm Bureau Urges Farmers To File

#### For Gas Tax Refund Before October 1

Farm Bureau reminds all farmers that October 1 is the deadline for filing form 2240 to secure the 2c per gallon refund of the Federal tax paid on non-highway gas for the first six months of the current year. Form 2240 on which the application must be made may be secured from banks, County Farm Bureau secretaries and County Agricultural Agents.

The tax was increased to 3c on July 1 over the opposition of Farm Bureau. This additional tax also will be subject to refund when application is made next year for the period July 1, 1956 through June 30, 1957.

The two-cent per gallon Federal gas tax first was imposed as a war revenue measure and paid by all users of highway and non-highway gas. When Congress considered the new road program it used the gas tax with

other motor taxes as the revenue measure to finance it. Farm Bureau then insisted that the tax on non-highway gas be refunded and cited the practice in Maryland and many other states.

Provision for the refund of the then two-cent tax and any additional tax was included in the act as passed. Farmers will save some \$90,000,000 in the cost of tractor fuel each year. The same law exempts non-highway diesel fuel from the Federal tax. The fuel dealer is not supposed to collect this tax when the fuel is delivered. If a farmer does pay a Federal tax on farm used diesel fuel Form 843 should be secured for a refund of this tax.

Future refunds of this Federal gas tax will be made on a yearly basis—July 1 through June 30 of each year, which is the Federal Government's fiscal year.

### Destructive Plan In U. N.

Anyone who takes the trouble to read the documented materials available knows that the Communists are using the United Nations organization to strengthen their international conspiracy and to carry out important steps in their blueprint for world conquest. The facts on this are openly available. Communism since its inception has taught that for Communism to win its world goal, in fact even to survive, it must destroy Capitalism.

Capitalism predominates today in only one major nation—the U. S. A. Therefore, the Reds' constant target is the U. S. A. Dr. Fred Schwarz, of Australia, one of the world's keenest students of the inner workings of the Communist world conspiracy, says the Communist blueprint calls for the final capitulation of the U. S. between now and 1970. A Communist plan toward paving the way for world conquest is to destroy U. S. financial strength. Another paving-the-way step, reaffirmed to Communists throughout the world at the recent 20th World Congress in Moscow, is to work with Socialists everywhere to establish Socialism.

### Facts On Scheme

Here is a report from the reliable publication—U. S. A. "Is there a Socialist U. N. plan to disarm and bankrupt the United States? Yes.

"What is this plan? Its current name is SUNFED (Special United Nations Fund for Economic Development).

"What is SUNFED? It is a proposal sponsored by the U. N. Economic and Social Council.

"How much money do the Socialists want for SUNFED? Approximately \$55 billion to be spent over a period of 10 years.

"How much money would American taxpayers be called on to put up for a 10 year SUNFED scheme? \$35 billion or about 70% of the total, (\$35 billion wouldn't bankrupt the U. S. A., but as a starter in a world-wide give-away controlled by U. N. Socialists it would be very harmful.

"Who is the key figure on SUNFED at the United Nations? Dr. Hans W. Singer, special advisor to the U. N. Secretary - General on SUNFED."

### Key U. N. People

Of course most of the people in the U. N. are Socialists of one hue or another. Again this is merely a statement of fact. Most of the nations are openly Socialist nations. Therefore, the facts on Dr. Singer and the man working with him in the U. N., Assistant Secretary General David Owen, are not surprising at all to people familiar with the facts about the U. N.

Dr. Singer, German born, went to England in the 1930's and helped the Fabian Socialists gain control. A partner with him in England's Fabian Socialism was David Owen. In 1940 David Owen became General Secretary of the Political and Economic Planning Society in England. Reuters News Agency (British equivalent to the AP) described Owen's outfit as "the nuclear brain trust for the socialization and/or communization of England." These are the type people now staffing many key positions in the U. N.

### For Russian System

In a lecture by Dr. Singer, published in the U. N. document "Formulation and Economic Appraisal of Development Projects," his viewpoints are stated: "In economics, you have no cause and effect. . . . In Russia you have an example of what is clearly very successful planning for economic development. . . . Supposing you borrow a hundred million dollars from the United States now, to undertake a certain project, and you repay the money over the next thirty years. Well it is possible that the U. S. will only buy half of what it buys now. But that is not your worry, that is the risk of the people who have lent you the money. . . ."

These revelations in the publication U. S. A. (Box 134 Lenox Hill Station, New York 21) were spotlighted by my good friend Herbert Philbrick, in his New York Herald-Tribune column, "The Red Underground." Herbert, who worked nine years as a key underground "Communist" for the FBI feels as I do: that the U. N., while controlled by Socialist-Communist powers, constitutes a great danger to American freedom, especially with so many Americans unaware of what's going on. We all should know what's going on, and we should keep our Congressmen informed on our viewpoint. This is a small price to pay for our American prosperity and freedom.

Atlantic salmon have been in gon and apparently are doing produced in the waters of Ore—well there.—Sports Afeld

## WANTED

**ALIVE**

Dear Driver:

You don't know my impetuous young daughter Carol who is just six years old and is starting her first year of school this term. You haven't been privileged to see how she can turn suddenly from eager enthusiasm to solemn unconcern to youthful wisdom. No, you couldn't know her or love her as I do—that's why it seems strange that I will soon have to trust her very life to you.

Yes, to you—because in a short while she will march off to school regularly. She'll be crossing streets, playing along the way and around the school. I hoped I was preparing her when I threw in some free advice about the safe way to do these things—in answering her questions about all the wonders of the first grade. But this is pretty new to her and she may make mistakes. Carol isn't irresponsible, yet she is not responsible. For her, the crushing dangers of traffic are not real. I can tell her, but it would be like describing the Giant in the story of Jack and the Beanstalk.

But you know, and you can watch out for her. You can watch for her as she plays on the way home from school and you could

use caution when you see her ready to cross the street. You can be ready to stop if she should dash out from behind a parked car or follow a rolling ball into your path. If you remember how dear she is to me, you will drive slowly through every school zone.

Since you have been granted the privilege to drive, I have to assume that you will do these things. But will you? Will you drive carefully wherever there are children, not only because it is your legal responsibility, but because you care as much as I do that the frightening roar of traffic death—of the Giant—never becomes real for a little girl who has so much ahead of her to learn?

Sincerely yours,

FATHER

P.S. Yes, this is my daughter—but it could be yours. And if you are a driver, Carol could be any child you meet, boy or girl. Whatever you and your family choose to imagine further, remember these facts: It's "back-to-school" time, and if you drive, it's time to start permanent use of the utmost caution wherever there are children.

PAUL E. BURKE,  
Executive Director, Maryland  
Traffic Safety Commission

### Home Builders To View Latest Innovations

Thousands of dollars worth of valuable gifts will be given away by the Home Builders Assn. of Maryland during the 1956 National Home Week which is being observed by builders, suppliers, and associated business concerns, during the week of Sept. 16 thru Sept. 23.

William B. Watkins, chairman of the 1956 National Home Week Committee stated that the gifts include a 21-inch color television set, a portable TV, Savings Bond and home appliances and other valuable prizes. These will be awarded to a number of fortunate visitors to the National Home Week Exhibition Homes which will be open for public inspection in every neighborhood in Baltimore City and throughout the entire state.

"National Home Week is the building industry's annual report to the nation" said Mr. Watkins. "It is an event designed strictly for the public. It brings to millions of families throughout the nation a chance to see for themselves the progress that has been achieved by the home building industry. Visitors to the Exhibition Homes will be amazed at the many new ideas, improvements and conveniences that are available today in homes in every price range."

During National Home Week, the Home Builders Assn. of Md., also is sponsoring a special Home Show Exposition at the Fifth Regiment Armory in Baltimore in which almost 200 exhibits will reveal the latest building techniques and home equipment.

Children in the second grade of the Thomas Johnson School in Baltimore set up a model telephone system as part of their telephone training. Teacher is Mrs. Mary Rusinko.

## Thousands of Maryland school children travel to Telezonia

You never heard of Telezonia? Chances are that your children have. Each year many thousands of Maryland school children see the color film, "Adventure in Telezonia," which is part of the telephone training kit used by most of our schools.

After seeing the film, children make calls over actual telephones and use directories

right in the classroom. They learn how the telephone works, how to look up numbers, the correct way to dial and good telephone manners. And they love it.

The telephone is such a useful and valuable tool in modern living that we're always glad to help our schools and teachers give children this important training.

Protect Maryland's school children from accidents—drive carefully.  
Remember, they're looking to you to look out for them!

**The Working Girl**  
Heaven will protect her, according to the old song, but many a mother lies awake nights worrying about her little girl who's just starting out in the business world. Is she getting enough sleep? Is she eating right? Is she wearing her rubbers?  
Probably she isn't. Mother has reason to worry. Many a young girl away from home for the first time begins her new career by breaking the rules of health she's been taught at home. She doesn't order spinach at the drug store lunch corner.  
Recently a metropolitan firm which employs large coveys for young girls as clerks and stenographers decided to set up a company blood bank. The girls responded bravely, but were turned away by the dozen. Anemia, mild in most cases. Easily corrected. But a strong symptom of poor eating habits.  
Most girls have enough sense to get back on the beam when poor nutrition begins to show in loss of energy, in dull hair and skin. They like to be pretty. And after all, early habits and training do have an influence in the long run. For those who don't get back to sensible eating fast, there's trouble ahead.  
Poor health habits—particularly poor eating habits—are an invitation to tuberculosis. It's especially important for girls who go to the city from small towns or country homes where they have built up little or no immunity to TB to be on their guard against this tragic disease.

Whether they are looking forward to successful careers, or looking for husbands, young women need glowing health to make the grade. Today, because of better living and working conditions TB does not take the terrible toll of young working girls that it did in the sweatshops of a generation ago. With modern treatment, most cases can be cured. But even today, TB, a preventable disease, wrecks many happy plans for the future. It's just plain silly for a girl to jeopardize health, beauty, and future happiness for the "fun" of breaking the rules.

**Littering Defaces  
New Highways**

The modernization of our highways, which is progressing so favorably under the 12-year program, has attracted national recognition and plaudits. Second in importance to construction and maintenance is the necessity for "keeping our highways beautiful and clean and their surroundings attractive and green."  
With the tremendous increase in traffic, there has been a corresponding increase in the litter scattered along our highways by

**ALTERNATIVE  
COMPENSATION**

New Coverage Introduced by Nationwide Ins. Co. March, 1956!

This Coverage is Optional and is not the only Medical Payment coverage offered. \$500, \$1,000 and \$2,000 Medical Payments are offered to Policyholders if they do not want Alternative Compensation.

**Why should an Auto Owner have Alternative Compensation?**

- It gives each member of the Family Protection against loss by any type of Automobile Accident.
- 1—\$4,000 Accidental Life Insurance.
- 2—\$2,000 Medical Payments.
- 3—\$5.00 per day for 180 days, if disabled as a result of auto accident.

(Note: Children under age 18, Life and Disability are one-half of the above limits and Medical Expense remains the same).

This is written with regular Auto Liability Policy and all Nationwide Policyholders who desire to have more information concerning this coverage, call your local Nationwide Insurance Agent listed below.

If you now have Medical Payments, deduct that cost from the cost of Alternative Compensation and you will have the additional cost of this coverage that will cover you and your family, any passengers in your automobile, pedestrians or occupants of another car you might be involved with—up to \$6,000 per person!

Fire—Auto—Life—Liability  
Accident & Health  
(Family Hospitalization)  
NOTARY PUBLIC  
S. Seton Ave., Emmitsburg, Md.

unthinking users. Maryland taxpayers must carry the cost of collecting and disposing of the trash, the cost of which is more than \$120,000 a year.

But this is only part of the cost. It does not reflect the sums involved in repairing the damage to equipment and tires of state and user-owner vehicles nor in eliminating the scars left on the highway and adjoining properties. No highway dollar has more useless, wasteful and futile pennies than that spent for the collection and disposal of trash cast upon our highways and streets. How much better it would be for the users of our highways if these totally wasted dollars could be devoted to new construction, reconstruction, more effective maintenance, and more and better scenic and roadside park areas.

As a starter, let's put our own house in order. Let each one of us firmly resolve to properly dispose of trash in our daily activities, including those in connection with our assignments. Let's make sure that we are not contributing to this unsightly and unnecessary condition. Let's be sure to prevent the accumulation of trash and other debris in our offices, in the shops, at storage places, at scenic areas, roadside parking places, picnic tables, and on the roadway itself by not contributing to this nuisance. This may well encourage others to follow our example.

One of the best ways to get the idea across to the public is by practicing it ourselves. It appears that in a few instances, some of us, when eating along the highways, discard paper cups and other litter on the roadway or on properties adjacent to the roadway. This encourages others to do the same.

Let our motto be: Keep Maryland Beautiful and Clean—Her Roadside Attractive and Green.

**AIR ROCKET WONDER**  
The 1956 Yearbook of the American Peoples Encyclopedia tells of a new guided air rocket with electronic "eyes" and a "brain" that enables it to track down and destroy maneuvering targets. Small enough to be carried by fighters, it is only six feet long and weighs 100 pounds. The rocket, named Hughes GAR-1 Falcon was tested by the Air Force last year, according to the Yearbook.

"My faith arises from the genius of the people, their devotion to personal liberty and their sustaining religious beliefs. If the American people are guided right, there will be no decline and fall in American civilization."—Herbert Hoover.

drop of mercury will not only help you find fish, it will indicate what methods you should use. This does not mean you can stick a thermometer in the water, look at it, and immediately start catching fish. Each time you go out, you have to experiment to find just where they are and what they want—but base your first efforts on water temperature.

Here are depth - temperature preferences of fish, as compiled by Jason Lucas, angling editor of Sports Afield magazine:

**LARGEMOUTH BASS:** Under 55 degrees. — A sound general rule, with few exceptions, is that you won't get many at such a low temperature. Nor is catching them much sport in such cold water — they're semitorpid and fight weakly.

60 degrees F. — Largemouths will be in shallower water. Fishing for them is often excellent, especially during the middle of a warmer day. Underwater lures usually best, but sometimes they

will take surface lures more readily.

70 degrees F. — In shallower water mornings and evenings, but likely to go deeper as the water warms. This is usually the best temperature for bass fishing by any method.

80 degrees F. — Getting pretty warm for bass to feed well, but you may make fine catches by fishing the shore line of a deep lake at the crack of dawn and at dusk.

For smallmouth bass, merely lower all the temperatures given by about eight to 10 degrees.

**TROUT:** Below 40 degrees F. — In this low range, trout seek the deepest holes, and they're feeding little. Flies are not productive; most use live bait or spinning lures.

45 degrees F. — Still deep, but feeding more. As temperature rises, they'll take wet flies better.

55 degrees F. — Gradually coming into shallower spots and beginning to take dry flies.

65 degrees F. — The best temperature for dry flies, especially if the water is clear and placid. All methods work well in this range, though.

Above 70 degrees F. — Too warm for trout to feed much.

**BLUEGILLS:** Can be caught readily through a wide temperature range. In fall, when surface temperature drops below about

Calumet Stables  
Star At Pimlico

The famed Calumet Farm, apparently on its way to its 9th national championship among the nation's racing stables, will finish out the 1956 season at Pimlico Race Course.

Trainer H. A. (Jimmy) Jones, who has saddled more than 50 winners of over \$500,000 in purses so far this year, confirmed that the big Calumet string will run at Pimlico from Nov. 13 through Dec. 15, the latest race meeting in Maryland history.

Jockey Bill Hartack, who is waging a nip-and-tuck duel with Willie Shoemaker for the national riding crown, will accompany the Calumet horses to Pimlico.

Calumet took over the national lead at Pimlico's spring meeting

in May when the stable owned by Mrs. Eugene Markey accounted for \$104,750 in purses, highlighted by Fabius' victory in the 80th running of the Preakness.

The stable is making a strong comeback this year after winning the national crown in 1941, 1943, 1944, 1946-49, and 1952.

Pimlico will feature seven stakes races this autumn, headed by the \$50,000 Pimlico Special and the \$80,000 Pimlico Futurity.

If any one race in America can be called a true championship test it is probably the \$50,000 Pimlico Special which will have its 20th running here on Thanksgiving Day, Nov. 22.

Ten of the 18 different winners were selected Horse of the Year immediately following their victories in the Special. This includes Challedon who won in 1939 and 1940 and got the title both seasons. The others were War Admiral, Seabiscuit, Whirlaway, Twilight Tear, Assault, Citation, Capot, and Tom Fool.

In addition, Armed, the 1945 Special winner, was rated best handicap horse of the following season and won Horse of the Year honors in 1947.

Citation and Tom Fool also won laurels as best two-year olds of their juvenile seasons, and Market Wise, who won the 1941 Special, was best handicap horse in 1943.

State To Increase  
Police Force

The State Commissioner of Personnel has scheduled an examination to fill openings for Troopers with the Maryland State Police Force.

The requirements for the position include completion of four years of high school, or completion of three years of high school and one year of Armed Forces service, possession of Maryland driver's license, American citizenship, and residence in Maryland since Apr. 6, 1956. Applicants must be 5' 10" or over in height and must be between the ages of 20-31 years by the examination date. Candidates who pass the examination will not be eligible for appointment until they are 21 years of age.

Appointees will be given six months' training at the State Police Training Academy. Troopers are supplied with uniforms and are given a food and clothing allowance, in addition to a salary of \$2950 per year. There is an excellent pension system.

Applications for the merit system examinations to be held in Baltimore, Cambridge and Hagerstown are being received by the Commissioner of Personnel, 31 Light St., Baltimore, until Sept. 22.

## NEW U. S. PARKS

New national parks are being established according to the 1956 Yearbook of the American Peoples Encyclopedia. The largest one is the 20,100 acre Cumberland Gap National Historical Park in Kentucky, Tennessee and Virginia. In addition, three new national wildlife refuges totaling 27,150 acres are being set up.

## My Neighbors

**WESTERN MARYLAND BEAUTY REIGNS OVER CUMBERLAND RACES**—Seventeen-year-old Helen Paxton, of Union Grove, Allegany County, Maryland, chosen to reign over the 12-day racing meet at Cumberland, Maryland, poses in front of a poster announcing the event. She was selected for the honor in a popularity beauty contest conducted at the Cumberland Fair held last month. She is a senior at Port Hill High School, Cumberland.

Though her hobby is making baby moccasins, she is shown wearing boots and a jockey's cap as a reminder that she is a queen of the sport of kings.

The racing meet at the Western Maryland half-mile oval runs through September 25.

**Mahoney Waging Active Campaign**

The George P. Mahoney-for U. S. Senator Campaign swung into high gear last week with sharp attacks on Republican Senator John M. Butler because of his close association with southwest oilmen and his large percentage of absences from Senate sessions.

In speaking to Montgomery County leaders on Senator Butler's previous campaign, Mr. Mahoney said: "I need not remind you that, in 1950, there were large expenditures and contributions sent in by special interests beyond the borders of Maryland—which were not disclosed until a U. S. Senate Committee began investigating that election.

"That committee, you will remember, called the tactics used in 1950 by my opponent 'destructive of fundamental American principles.'"

Mr. Mahoney said that the Senator's record in voting for the Tidelands' oil giveaways and against the Natural Gas Bill "... must be viewed in the light of the large campaign contributions he received from gas and oil millionaires in the Southwest."

Mahoney took the Senator to task also for his large percentage of absences from session of the U. S. Senate. His first criticism was against Senator Butler's 1952 record when, official U. S. Senate figures show he was absent from 27 percent of Senate rollcalls.

Senator Butler sought to explain his absences by saying that on many of these occasions he

Governor McKeldin shows the way to Maryland motorists as he deposits a litterbag from his auto in a service station travel trash container. Sponsored by the Governor's Committee to Keep Maryland Beautiful, the campaign to free Maryland roads of litter has moved into high gear as more and more service stations and other roadside business places add travel trash containers to their equipment.

**RAYMOND L. KELLY, Clerk**

was busy on "official Senate business."

"What could be more important to a U. S. Senator," Mr. Mahoney answered, "than to be present to vote for or against the bills under which you and I are to be governed?"

Mr. Mahoney also asked his opponent to explain his 28 absences in the very first year he was in the Senate, 1951. He said Butler's absenteeism is "particularly stange" because of his party's claim of being a "good business" party.

"If this is the way the Republican are running the nation's business, we certainly should make a change," Mahoney said. "I wonder how many of you Md. business people would tolerate an employee who was absent from work for over 25 per cent of the time? Not a single one, I warrant."

The week also marked harmony meeting and announcements from several parts of the State.

In Baltimore political leaders got together and pledged support for all Democratic nominees.

Similar movements were made in Montgomery and Prince Georges Counties—an area long in Mahoney's opponents' camps.

This week statewide Democratic headquarters were opened in Baltimore's Emerson Hotel. Also, Mahoney opened his own state wide headquarters in the hotel with a center for mailing and distribution of literature in the Court Square building, Lexington and Calvert Streets.

**BABSON**

**Writes . . .**

By **ROGER W. BABSON**

Babson Discusses Suez Scare

Babson Park, Mass., Sept. 13 —The Egyptian trouble will not result in any war. Sir Anthony Eden and Guy Mollet, Premier of France, who have been criticized as being "soft," may feel that this is a good opportunity to show their real strength.

The Legal Status vs. Suez

At President Eisenhower's last press conference he stated clearly that all nations should respect "the sovereignty of Egypt as it applies to the Suez Canal." This insures that the United States will not get into the squabble. Since that is apparently all Nasser demanded, there is nothing to fight over except regulations and toll charges. President Eisenhower made clear that the International Treaty of 1888 gives many nations rights in and to the Canal in perpetuity; but that this does not mean that Egypt internationalized her sovereignty.

From a legal standpoint it is much like a city which gives a street railway or bus company a permanent franchise, but without relinquishing sovereignty or ownership of its streets. The city may make regulations and fares as it desires, so long as it does not "take property without due process of law."

The Five Nation Committee

The Committee of Five Neutral Nations is in Cairo conferring with President Nasser. The chairman of this committee is the Australian Prime Minister Menzies. I forecast that the final agreement will recognize the sovereignty of Egypt, but that something will be done to seriously harm the Suez Canal Company, which has the franchise to operate the canal. Like all dictators, "President Nasser must do something radical to show his power and keep his job. However, the one thing Egypt needs most—other than better characters—is more money."

Europe and reorganizing our fighting strength to conform to the new nuclear policy.

**Public Is Urged To Assist Absentee Voters**

If you have a friend or relative in the armed service of the United States or who is a member of the Merchant Marine, the War Shipping Administration, the American Red Cross, the Society of Friends, the Women's Auxiliary Service Pilots or the United Service Organizations, attached to and serving the armed forces outside of the U. S., who is eligible to vote in Maryland, you should procure a form for application for a ballot to be cast by an absentee voter and forward it to that person in the service. The request for a ballot can be made only by the person wishing to vote, but you, as a friend or relative, may procure from the Office of the Secretary of State, Annapolis, Md., or from the Board of Election Supervisors in Baltimore City or in any county the "request forms" to be used by service personnel and other eligible persons. You can help your friends who are absent in the service to exercise their right of franchise by procuring and sending to them the form upon which they may request a ballot. Ballots are now ready for mailing for the General Election to be held on November 6, 1956.

Within a year new pipelines could be built to carry oil direct to the Mediterranean. This pipeline would be from Haifa on the Mediterranean to the Gulf of Aqaba. Furthermore, with an increase in tanker capacity, England and France could temporarily return to the old route around the Cape of Good Hope. The Suez scare will awaken nations to the need of more tanker capacity so that they will not again risk being cut off.

Doubtless Nasser remembers what the airlift did in bringing oil, food and other necessities into Berlin several years ago when Stalin tried a stunt similar to Nasser's. In fact, it is a fair question whether the Suez Canal would be built today, with the possible competition of air transport, electrical transmission, and big tankers.

**Suez And The Stock Market**

Although there may be several good reasons for taking profits today on stocks, certainly the Suez scare is no reason for selling stocks at the present time. What will ultimately create a crash in the stock market will be some totally unexpected event which no one can now forecast. Therefore, I repeat my forecast that England and France and Egypt will arrive at a peaceful settlement; but whatever happens, the United States will keep out of any fighting. Furthermore, we will continue our present policy of withdrawing troops from

Europe and reorganizing our fighting strength to conform to the new nuclear policy.

**Public Is Urged To Assist Absentee Voters**

If you have a friend or relative in the armed service of the United States or who is a member of the Merchant Marine, the War Shipping Administration, the American Red Cross, the Society of Friends, the Women's Auxiliary Service Pilots or the United Service Organizations, attached to and serving the armed forces outside of the U. # FAIRFIELD NEWS

## Lions Will Hold Light Bulb Sale

To replenish its charity fund that is called upon for a wide variety of community activities, the Fairfield Lions Club has announced that it will conduct a light bulb sale on Tuesday evening, Sept. 18.

The "bag of bulbs" campaign will be conducted in a door-to-door sale through Fairfield, Ortanna, Cashtown, Mummaburg, Greenstone, Fountaindale, and surrounding areas. Bulbs in assorted wattages will be offered in bags of 10 for \$2.05, including tax.

All the members will meet at the Community Hall at 6 o'clock to receive territory assignments.

All of the proceeds will go to the charity fund upon which the club's sight conservation work has first call. The club provides glasses for a number of persons and arranges for examinations for a number of school children with faulty vision.

The same charity fund provides for the distribution of Christmas baskets, Christmas decorations for Fairfield, sponsors a day of swimming each week at Benner's pool with a life guard, the annual all-sports night for Fairfield

High School teams, a Little League baseball team, players' equipment and insurance, and assists the Boy and Girl Scout Troops. This year the Lions bought six tents for the Boy Scouts from this fund.

William Newman is chairman of the bulb sale committee.

## AMVETS Post Increases Roster

The regular meeting of the Fairfield AMVETS was held Tuesday night at the Post Home. The best possible ways of heating the home were discussed with further action to be taken later. The members voted on the "general house rules" which will be posted at the Post.

The following won prizes at the pig roast held recently: Joe Scott, first prize; Rosie Dick, second prize; George Myers, third prize; John Reindollar, fourth prize; and Doris Winebrenner, fifth prize.

The following veterans were voted in as members: Jack Nelson, Blue Ridge Summit; Roy K. Baker, Fairfield; Emmert L. McClellan, Fairfield; Theodore T. Eversole, Emmitsburg; Howard L. Weikert, Jr., Fairfield; Dorothy E. Mitchell, Fort Ritchie; Bernard L. Ditzler, Aspers; Cyrus B. Stalaker, Mill Creek Park; James L. Grushon, Thurmont; George H. Dehart, Mount Alto; Glenn D. Martin, Hagerstown; Roy McGlaughlin, Fairfield; Samuel D. Brewer, Emmitsburg; James E. Baker, Ortanna; Sterling Chamberlin, Waynesboro; William J. Murphy, Hanover; John E. Crismer, Gettysburg; George S. Ott, Emmitsburg; Harry R. Sease, Fairfield; and Leo A. Gossert, Waynesboro.

The next regular meeting will be held Tuesday evening, Oct. 9.

## Miss Henderson Home From Abroad

Miss Barbara Henderson is spending a vacation with her parents, Dr. and Mrs. I. M. Henderson, Fairfield. Miss Henderson recently returned from a tour of two months in Europe. She sailed from New York on June 23 aboard the French liner "Flandre" arriving in LeHavre, France on June 30. Miss Henderson and Miss Louise Koory, dean of students at Colby Junior College, New London, N. H., drove through the countries of France, Italy, Switzerland, and England.

In France they visited sections of Normandy, Brittany, the Chateau Country, the French Riviera and Paris. Eighteen days were spent in Italy visiting the cities of Genoa, Florence, Rome, Naples, and Venice. Also the little hill towns of Siena, Arezzo, Perugia and Assisi, the ancient ruins of Pompeii and the beauty of Capri, Ravenna and Padova were greatly enjoyed. After the intense heat in Italy, the drive through southern Switzerland with its beautiful lakes and snow-capped mountains was a sudden contrast in temperature but was a welcome relief. Here Miss Henderson visited in Andermatt, Interlaken, Montreux, Lousanne and Geneva.

The 10 days spent in England were centered around London and nearby sections. After seeing many interesting places in London, Miss Henderson toured Windsor, Eton and Hampton Court Palace. They drove through the Shakespeare country in Stratford-on-Avon, Oxford, Warwick, Tewkesbury, and Banbury.

The return trip was made by BOAC Airlines from London to Boston.

## Fairfield Woman Injured In Crash

Mrs. Elsie S. McGlaughlin, 65, Fairfield, suffered lacerations of the face and contusions of the left shoulder and body when two cars collided two miles west of Fairfield on the Zora Rd. Monday afternoon at 4:45 o'clock.

Mrs. McGlaughlin was treated at the Warner Hospital. She was a passenger in a west bound car operated by Harry W. McGlaughlin, Fairfield.

Pennsylvania state police said John Schlarb, 43, Pottsville, Pa., was headed east when a car ahead of him had a blowout, slowed and started to pull off the road. Schlarb, seeking to avoid striking the auto ahead, pulled into the other lane and collided with the west-bound McGlaughlin vehicle.

Damage was estimated at \$300 to the Schlarb car and \$100 to the McGlaughlin sedan.

## Firemen's Carnival Nets \$3,200

The Fairfield Fire Co. met last Wednesday evening at the fire hall with 40 members in attendance. Robert Fitez, a delegate to the Cumberland Firemen's convention which was held in Martinsburg, brought an account of its proceedings to the members.

James Weikert, company treasurer, reported that the net profit realized from the carnival held in June amounted to \$3200.

At the conclusion of the business meeting, a social hour was held.

The Homemaker

## BUY CORN WITH CARE

Whether you raise your own sweet corn, or whether you purchase it at the road market or super market—it's a wise shopper who knows the product on the table is only as good as the quality selected.

Select fresh, mature corn if you want it sweet and tender, reminds Mrs. Judith A. Pheil, extension food nutritionist, University of Maryland. She offers these quality guides when selecting the sweet corn for your table:

- (1) Kernels—plus, full of milky juice, firm but not hard, light to medium yellow color.
- (2) Cob—full of plump kernels, free from bruises or insect injury.
- (3) Husks—dark green color, fresh appearing, tightly wound around the cob.
- (4) Silks — dark brown color, shiny, not dry.
- (5) Stem—the break should be green indicating freshness.

Once corn is picked, it must be kept cool to maintain its quality. Mrs. Pheil says that the housewife should remember that sweet corn is cool corn. Refrigerate until ready to use. Then, follow your favorite recipe, and add a nutritive vegetable to the family menu.

MINIMUM-CARE MATERIALS  
HELP HOMEMAKER

Drip-dry finish, one of the most popular of the many fabric finishes now offered by textile manufacturers, is probably one of the most widely appreciated by the homemaker.

Such finishes add to the appearance and wearability of clothing fabrics, helps the fabrics resist wrinkles and shed soil—and above all, save the homemaker on the hot job of ironing.

Dripping is essential for smooth drying of minimum-care materials, say clothing specialists of the U. S. Dept. of Agriculture. After laundering, the clothes should be lifted from the rinse water and hung smoothly on hangers with no wringing, twisting, or squeezing to remove water. As the water drips off, it smooths out creases or wrinkles left from the laundering. A final touch-up with the iron may be needed to make hems, seams, and edges as smooth as new.

Some of the synthetic fibers, such as dacron, also have this drip-dry quality. Clothes made of these synthetics will be wrinkle-free when dry, only if lifted from the rinse water and hung to dry with the least possible handling. The more they drip, the smoother they dry. These fabrics dry rapidly because they are non-absorbent, and much of the water runs off the surface.

## SAFETY TIPS . . .

Courtesy Emmitsburg Police Dept.

If the body design of any vehicle is changed from that set forth in the original title and registration, such fact shall be immediately communicated to the Dept. of Motor Vehicles and the owner of any such vehicle shall apply for a new title and registration applicable to the changed description of such vehicle.

## AMVETS Auxiliary Will Meet

The Ladies' Auxiliary of the Fairfield AMVETS will hold its regular meeting Tuesday evening, Sept. 18, at the Post Home.

"Both party platforms fail to appeal to the broadest mass of people who could possibly be reached decisively. These are the taxpayers. Neither party is making enough of the clear chart toward the savings of billions afforded by the Hoover Commission reports. Here is a golden issue—a winning issue." —Albany (N. Y.) Times Union

"The legitimate object of government is to do for a community of people whatever they have to have done, but cannot do at all, or cannot so well do, for themselves in their separate and individual capacities. But in all that the people can individually do as well for themselves, government ought not to interfere." —Abraham Lincoln.

## Seeing Is Believing

WATCH THE BIRDIE—Assuming an air of nonchalance, Julius, a chimpanzee from the Detroit zoo, gets mugged by Tarzan, a brother chimp. With the help of a Detroit News' photographer, Thel Burget, the chimps have become quite adept with the camera act.

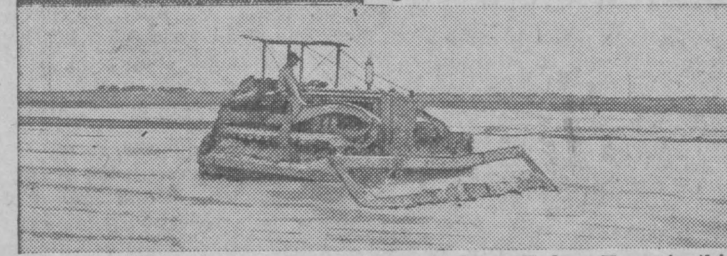

SCOOP! BEAR TREES MAN—

Tourists driving near Cliff-dell, Wash., take a quick second-look when they see this scene. It looks like the real thing, but actually it's the skin of a long-dead bear, nipping at a straw-filled trousers and shirt.

MIDGET MALES DOUBLE-UP FOR BIG MAIL—Since the "Big-Top" of Ringling Bros. and Barnum and Bailey circus recently folded, these two midgets are probably looking for work. Could be that Prince Paul and Lauro Marales are making sure their employment applications get in the mail box.

SEA OF MUD—An unusual sight near Agua Dulce, Tex., is this International TD-14A crawler tractor, spreading a "sea of mud," which results from salt water pits. After the tractor, equipped with the special mud-spreader, has done its leveling job, the mud dries and the earth is returned to its original condition.
