BY ABIGAIL

Welcome to Emmitsburg, Dr. and Mrs. George Morrison and family. On behalf of this newspaper and the people in general, we bid you a hearty welcome and sincerely hope your stay here will be a long and pleasant one. After a lapse of nearly nine months our little community has been successful in obtaining a medical doctor. Holding the "fort" during this period, and on other occasions, was our own beloved Dr. Cadle who has more than manifested his loyalty to the community. The young medico's coming here was just in time too as the reason for respiratory affliction is upon us and it would have been a real imposition on Dr. Cadle to have to handle the burden of administering to the 5000 residents in this district, alone. We feel that a large measure of credit is due Dr. Cadle in helping Dr. Morrison locate here and for that we are very grateful.

The town of Emmitsburg was signally honored last Friday by the Hagerstown Racing Board when it named a feature race the "Emmitsburg Purse". On hand to greet the winning horse and be in on the picture taking was Town Commissioner Norman Flax. The Commissioner, when asked if he had the winners replied, "No comment at this time."

There's no wonder why you take your life in your hands when you take a spin in the family car. It is hard to believe the number of infractions that take place every week in the state. The figure must be astronomical. I haven't the figures on the number of violations per week but I do know that the number of suspensions and revocations runs into the hundreds. The State Police furnish each newspaper with a list of suspensions and revocations each week and the package consists of about 10 type-written sheets, every single week. It is apparent the State Police are making every effort to apprehend the offenders but it is a hopeless task to patrol an entire state with a few hundred men, quite a number of whom must be used for administrative purposes.

It's a bit premature to bring up the Halloween situation but I feel that an early reminder should be given that this year the Town will not tolerate any so-called pranks whereby the Square is decorated and property damaged. I understand there will be no loading of fodder, tires, machinery, etc. this year. The Town feels it has enough expense at the present time without spending money unwisely by having to have the debris cleaned up and hauled away. In previous years it was the custom to let the 'boys' have their fun while a large group of citizens stood watching by. Not so this year. A real crackdown on offenders is planned. It must be remembered that things we did years ago would never be tolerated these days, so don't say you weren't warned.

## Scouts Will Learn Rifle Safety Rules

Members of the Emmitsburg and Thurmont Scout troops will have an excellent opportunity next Saturday to learn safety fundamentals in the handling of guns and rifles when classes under the sponsorship of the Emmitsburg Lions Club will be held on the Sharpe & Hart rifle range, Tract Road.

About 75 Scouts are expected to attend the classes and shells will be furnished by the Lions Club, Edward Fitzgerald, chairman of the committee in charge announced this week. Philip E. Sharpe, owner of the range, has consented to lend its use for the occasion and will assist with the instructions along with experts from the Sporting Arms and Manufacturers Institute of New York. Parents are invited to attend the shooting lessons and refreshments and sandwiches will be on sale. On hand also to lend assistance with the lessons will be a state game warden. Instructions will start in the morning and will continue throughout the day.

The age of ice can be determined by Navy radar. "Young" ice is slick; "old" ice is bumpy after being tossed about by weather.

## Ground-breaking For New Mount Library Saturday

Mt. St. Mary's College will break ground for a new \$500,000 library and formally bless the new Seminary Annex at exercises to be held October 9 through 11, Rev. Fr. Hugh J. Phillips, executive secretary of the National Alumni Association of the school, announced this week in letters to the alumni.

Graduates have been invited to attend the weekend program which will open with registration Friday, Oct. 9. Saturday morning, Oct. 10, at 11 o'clock the ground-breaking ceremony will be held for the proposed library. Saturday afternoon, Oct. 10, the Mount St. Mary's soccer and cross country teams will meet Catholic U., starting at 2:15 o'clock. That evening an alumni dinner will be held at the college at 6 o'clock.

Blessing of the Seminary Annex is scheduled for Sunday morning, October 11.

The new library, designed by F. Edward Torrey Jr. who was architect for the new Seminary Annex and Pangborn Hall at the college, is modeled after Harvard's Lamont Library. It will be a three-story granite building trimmed in Indiana limestone. There will be facilities for its use by 50 per cent of the student body at one time and space for 100,000 books.

The building will be placed along the main driveway from Rt. 15 to the college at the driveway's intersection with the road to Bradley Hall. It will face south and will feature a picture window 90 feet long and 22 feet high on its northern end.

## School Menu

The menu for school lunches at the Emmitsburg High School for next week is as follows:

Monday — Beef and noodles, stewed tomatoes, green beans, cherry crunch, milk, bread and butter.

Tuesday — Baked beans and bacon, scrambled eggs, peas and carrots, jello or custard, milk, bread and butter.

Wednesday — Toasted cheese sandwiches, orange juice, vegetable soup, brownies, milk, bread and butter.

The school will be closed Thursday and Friday for the annual teachers' meeting in Baltimore.

## K. of C. Holds Columbus Day Banquet

Grand Knight Curtis D. Topper presided at the regular meeting of Brute Council 1860, Knights of Columbus, held Monday night in the council home on the Square. Dominic Greco, six-point activity chairman, gave a report on the progress of the program. Guy A. Baker Jr., chairman of the committee in charge of the Columbus Day banquet which was held on Thursday night in the VFW annex, gave a report on the plans and reviewed the program for the evening.

The Grand Knight appointed a committee to study methods of increasing the membership and it was agreed on to send letters to members of the Holy Name Society and a special meeting will be held Sunday morning at 11:00 o'clock in the council home to draft a letter and make plans to entertain the members of the Holy Name Society. The following committee was appointed to study plans for increasing the membership: Merl Sanders, Taneytown; Ray Etheridge and Carl Wetzel, St. Anthony's; Jesse Best and Logan Tschaliffy, Thurmont; Stanley McIntyre and Mark Lannon, Blue Ridge Summit and Robert Seidel and Robert Gelwicks, Emmitsburg.

Plans for the entry of a local bowling team were discarded for the time being. The group went on record and will sponsor a Mass for each departed member in the future. John Potthost, state insurance representative, addressed the membership briefly and the meeting was closed with prayer led by the chaplain, Rev. Fr. James Twomey.

## HOLY NAME MEETING

President Robert Seidel of the Holy Name Society, announces there will be a meeting of that group on Sunday evening following church services.

The meeting will be held in St. Euphemia's Hall and all members are urged to be present. Refreshments will be served following the business meeting.

## Home Economist With Power Utility

Miss Edith V. Eckhart has been named to the post of home service advisor in the Potomac Edison Company's Frederick District, according to an announcement by District Manager John W. Morgan. Miss Eckhart will be associated with Miss Irene Caton and will serve primarily in the Taneytown-Emmitsburg areas.

A native of Eckhart Mines, Md., she attended grade school there and later attended Beall High School in Frostburg. She is a graduate of Bob Jones University, Greenville, S. C., where she majored in Home Economics.

While in college, Miss Eckhart was a member of the Keraman Literary Society. Prior to joining PE, she served as Home Economics instructor in Brent Christian Schools in Pensacola, Florida for two years.

## MRS. MARY E. GILLELAN

Mrs. Mary Elizabeth Gillelan, 226 Homewood Terrace, Baltimore, died at the College Manor Aged Home at Lutherville, Tuesday at 2:15 a. m. She was ill one month and three days.

She was the daughter of the late Samuel and Elizabeth Adams McDonnell. Her husband, the late Joshua Thomas Gillelan died October 27, 1958.

Survivors are one son, George Howard Gillelan, of Baltimore; four grandchildren; one brother, William J. Cleaver, of Baltimore.

Funeral services were held on Thursday afternoon at 1 o'clock in the Wilson Funeral Home, Emmitsburg with her pastor, Rev. Dr. Paul C. Warren, officiating. Interment was in the Lutheran Cemetery, Emmitsburg.

## Drivers Continue Reregistration

Commissioner of Motor Vehicles, John R. Jewell, advises that applications for the re-registration of drivers whose last names begin with "N" and "O" have been mailed out. If your name falls in this group and you have not received your application, please notify the department in writing at once, giving your full name, correct address, and number of your present license, which expires on December 31, 1959.

## Legion Blood Bank Has Busy Month

The monthly meeting of the Francis X. Elder Post 121, American Legion, was held on Tuesday evening at the Post Home. Commander Joseph Rodgers conducted the meeting with 32 members present.

Blood donors from the Legion Blood Bank during the month of September were as follows: Joseph Geiselman, Roger Adams, P. W. Claypool, Paul Sherwin, Theodore Topper, Helen Brown, Joseph Ott, Karl Orndorff, Patrick Boyle, Andrew Shorb, Jack Humerick, Donald Little, Robert Shorb and Joseph Rodgers.

Membership was reported as being 136 members for 1960. It was decided the dues shall be \$2.75 until November 11.

A \$10.00 donation was voted to the United Charities Drive of Frederick County.

The annual Halloween Parade will be held this year on Oct. 31, beginning at 6:00 p. m., and forming at the Doughboy at the West end of town. Harold Hoke and Curtis Topper were named co-chairmen of the affair.

The door prize was won by Clarence Shorb. Refreshments were served by the members of the committee and the auxiliary.

It was announced that the next meeting will be held at 8:00 p. m. (EST).

On Oct. 3, 1821, the USS Olympia sailed from Newport, R. I., for France to return the body of the WWI Unknown Soldier for burial at Arlington, Va.

A bore is one who opens his mouth and puts his feats in it.

## New Doctor Locates Here

Emmitsburg this week welcomes its new medical doctor, George L. Morningstar, M.D., and family who will reside in the Dr. C. R. Williams property on E. Main St. Dr. Morningstar will conduct his practice in his residence which has been equipped for that purpose.

The new physician is a native of McMechen, W. Va., and is a graduate of West Virginia University and the University of Maryland Medical School, class of 1955. He interned at St. Agnes Hospital, Baltimore and had a residency in internal medicine at the hospital. For the past three years Doctor Morningstar has served with the Air Corps and was stationed at Randolph Field, Texas, for a time and completed his military tour of duty at Pope Air Force Base, N. C. At the time of his discharge he held the rank of captain and was a flight surgeon.

Dr. Morningstar is 30 years old and is a member of the American Medical Assn. and St. Joseph's Catholic Church, Emmitsburg, Md. He married the former Jane Kane from Lemoyne, Pa., Mrs. Morningstar is a graduate nurse having received her training at St. Agnes Hospital, Baltimore. The couple has four daughters, Susan, 4, Beth, 3, Joan, 2, and Mary Pat 7 weeks.

Dr. Morningstar is licensed to practice medicine in both Maryland and Pennsylvania and plans to open his office for the general practice of medicine on Monday, October 12.

## Local Man Critically Injured In Wreck

A 28-year-old Emmitsburg man was critically injured when the car he was driving went out of control Tuesday evening at 6:45 o'clock and struck a tree roadside about a half mile north of Emmitsburg on U. S. Route 15, State Police report.

State Trooper William G. Morgan said the injured driver was Wilbur T. Smith of Emmitsburg. Smith, who was taken to the Warner Hospital in the VFW ambulance, was said to be suffering from multiple head injuries, lacerations over the entire body and possible internal injuries. His car, a 1952 Buick, was completely demolished.

Trooper Morgan said charges are pending against Smith who was alone in the vehicle at the time of the accident.

In a second accident near town Tuesday night, a 1958 Chevrolet panel truck, valued at \$300 was completely wrecked at 7:45 p. m., when it left the edge of Rt. 15 at St. Anthony's and overturned, it was reported by State Police. Driving the truck was Paul Sells Jr., a 28-year-old TV repair man living in Taneytown. Sells is reportedly to have told the police he lost control of his vehicle. State Trooper William G. Morgan investigated the mishap. Sells was uninjured in the accident and he was charged with reckless driving and was scheduled for trial on October 17 before Magistrate Richard J. McCullough of Emmitsburg.

## Sunday Accident

Paul C. Bolin, 34, of Littlestown, Pa., was admitted to the Gettysburg Hospital at 12:05 a. m. Sunday morning with broken ribs, a punctured lung and multiple lacerations and contusions, suffered when an automobile was demolished in an accident on the Harney Road about three and a half miles east of Emmitsburg, State Trooper Morgan reported.

Bolin was fined \$50 for reckless driving and \$10 for failing to keep to the right of the center of the highway at a hearing this week before Magistrate Richard J. McCullough, Emmitsburg.

## WIVELL-MERKLE

Miss Betty Louise Merkle, daughter of Mr. and Mrs. George Pittinger, Taneytown, and Bernard R. Wivell, son of Mr. and Mrs. Roy J. Wivell, Emmitsburg, were recently married in a civil ceremony performed in the office of Justice of the Peace Robert P. Snyder in Gettysburg.

## FUND CHAIRMEN

Robert Seidel and Paul W. Claypool have been appointed chairmen of the Community Chest Drive in the Emmitsburg District. The chairmen will announce a list of co-workers and canvassers next week.

1,850 U. S. Marines were ordered to Mail Guard duty on Oct. 20, 1926, by the President to put an end to daring and successful railway mail car robberies.

## Student Killed In Car Crash

Stephen Murray Mullaney, 21, a senior at Mt. St. Mary's College, Emmitsburg, was fatally injured at 11:35 o'clock Friday night when a car in which he was a passenger struck the bridge over the Monocacy River at Bridgeport midway between Taneytown and Emmitsburg.

Brought to the Warner Hospital in the Taneytown ambulance, the student was pronounced dead on arrival by Dr. C. G. Crist, Adams County coroner. He attributed death to a fractured skull and said death occurred 30 minutes after the accident.

Maryland State Police said Mullaney, a resident of Waterbury, Conn., was a passenger in a car operated by Robert A. Flynn, 21, Huntington, N. Y., also a senior at Mt. St. Mary's.

The two young men were driving east on the Emmitsburg-Taneytown Rd. when Flynn lost control of the vehicle and it struck the bridge, hurling Mullaney from the car.

The two young men were reported enroute to Westminster to bring several St. Joseph College students, stranded there without bus connections, back to the St. Joseph campus.

Flynn was removed by the local VFW ambulance to the Frederick Hospital where he was admitted as a patient with a broken right arm and lacerations of the knee. Maryland State Trooper W. F. Davis said he is continuing his investigation of the crash.

School officials said both Mullaney and Flynn are outstanding students, Mullaney being mentioned on the dean's list of top scholars. Both are social science majors.

Mullaney resided, while attending school, with Professor Bernard Kaliss of the college faculty who also is a native of Waterbury. He was a son of Frank and Kathryn (Archandault) Mullaney.

## Mother Seton Beatification Advances

The Vatican's Congregation of Rites met this week to consider the qualities of heroism and virtue of the American nun Elizabeth Ann Seton, known as Mother Seton.

The congregation, meeting under the direction of Clemente Cardinal Midara, took a further step in the cause for Mother Seton's beatification, officially proposed to Pope John XXIII on Dec. 18, 1958, in St. Peter's basilica.

Mother Seton, if eventually beatified, would be the first native-born American to attain this high honor of the Roman Catholic Church.

Elizabeth Ann Seton, a convert to Catholicism, was born in New York on August 28, 1774. She died at Emmitsburg, January 4, 1821.

After the death of her husband on a journey to Italy, she devoted herself to charitable work and the education of youth. She was the founder of the Sisters of Charity of St. Joseph in America, which adopted the rule of the European order of the Daughters of Charity of St. Vincent de Paul.

(The Congregation of Rites' consideration of her heroism and virtue is a preliminary step in the process of beatification.)

## Aids Lay Apostolate Movement

Miss Theresa Rybikowsky, formerly of Emmitsburg, and now a resident of Montgomery, Ala., has entered a year of voluntary service to the lay apostolate movement and is teaching the sixth grade at St. Jude's Educational Institute for Negroes, in that city.

The purpose of the program is to aid mission work in this country. The girls receive very low salaries and work in areas where there is a shortage of teaching Sisters. Miss Rybikowsky joined the "Give-a-Year" plan during her senior year at Saint Joseph College, Emmitsburg. The Blessed Clet Mission Unit on campus assists financially with travel expenses.

Five of Miss Rybikowsky's college classmates are working as volunteers in Alamogordo, N. M. She is sharing a home in Montgomery with four other young women, June graduates of various Catholic colleges who also teach as lay apostles at St. Jude's. Her reports concerning life as a Southerner are most enthusiastic.

More than 45 million of the 51 million U. S. households will receive a newspaper today.

## Graduates From M. P. School

Pvt. Wayne C. Baumgardner graduated from the Provost Marshall General's School at Fort Gordon, Georgia, on Thursday, October 1, as a Military Police. He has been assigned to the 504th M P Battalion at Fort Gordon.

Mr. and Mrs. Carl W. Baumgardner and daughter, Audrey, and Nina Shank, attended the graduation exercises.

## Veteran Of Two Wars Succumbs

Charles W. O'Melveny, 59, an Army Reserve major who saw action in the Mexican border campaign and in both World Wars, died last Friday in Martinsburg, W. Va.

Mr. O'Melveny, a native of Salt Lake City, was orphaned when he was a boy. While in his teens as a Minnesota military school student, he joined the Minnesota National Guard for service at the Mexican border. When World War I broke out, he joined the Army Engineers.

To further his engineering training, Mr. O'Melveny later went to Georgia Tech and George Washington University.

While living in Washington, he was a cartographic engineer with the Coast and Geodetic Survey and the United States Geological Survey groups. In 1930, he became one of the first engineers in commercial aerial mapping.

Before World War II, Mr. O'Melveny was a supervisor of shipbuilding for the Navy Bureau of Yards and Docks in Orange, Tex. When the United States entered the war he volunteered for service and was commissioned as a captain in the Air Force. He was sent to England to serve as chief of the mapping section for topographic information with the Army Intelligence.

In 1944, Mr. O'Melveny commanded a labor division made up of prisoners of war in France. Later in Berlin, he served with the Army group that handled property commandeered by the Allied forces.

At the time of his death, he was a mechanical engineer with the Army biological warfare laboratories at Fort Detrick.

He leaves his wife Frances of the home address at Emmitsburg; two daughters, Katherine and Elizabeth Ann, and a son, Charles Jr., all of Emmitsburg; a brother, James of Walnut Creek, Calif., and a sister, Mrs. Frank J. MacMaugh, of Washington, D. C.

Services were held Wednesday at the Deal Funeral Home, Washington, and interment was in the Arlington National Cemetery.

## Governor Tawes Proclaims PTA Week

Governor J. Millard Tawes has proclaimed the week of October 18-24 as the first Parent-Teacher Association Week in Maryland.

Citing that the Maryland Congress of Parents and Teachers is an integral part of the National Congress, largest volunteer organization in the world, the Governor proclaimed: "I urge my fellow citizens to dedicate themselves to the Objectives of this great organization, as a means of strengthening the Home—Source of Our Nation's Greatness."

Mrs. Cecil E. Ewing, president of the Maryland Congress of Parents and Teachers, stated that this week is being sponsored to encourage membership campaigns during October, National Membership Enrollment Month. The present PTA membership in Maryland is 191,508, Mrs. Ewing said, with this year's goal being 200,000.

The primary objective of the PTA is to promote the welfare of children and youth in home, school, church, and community.

Last year the per capita consumption of newspaper in the United States was 76.2 lbs.

## New Sewer System Now About Ready

A full board was present at the regular monthly meeting of the Burgess and Commissioners held Monday night in the town office. Chairman of the Board of Commissioners J. Allen Bouey, presided during the meeting. The reports of the town clerk and treasurer, Charles D. Gillelan, were read and approved. In the absence of Police Chief W. E. Law, the regular Police Dept. monthly report was read by Chas. D. Gillelan. Current bills totalling \$1,038.63 were ordered paid and parking meter revenue for the previous month was reported at \$266.53.

The Council reported that the town's books had been audited by Robert Seidel, local accounting professor and a new bookkeeping system inaugurated. The State now requires audited books and a double entry system to make the towns eligible for State revenue.

The Town Fathers plan a crackdown on speeders within the town limits and in the future special attention will be devoted to those exceeding the speed limits. Street Commissioner J. Norman Flax reported that paving of Federal Avenue and DePaul Street was well under way and should be completed within a few days. Along with the paving being done the Town Solons also are constructing curb and gutter at a nominal cost to the property-owners. Council has become dissatisfied with the apathy of those home-owners who are boarding college students and who have failed to report to the town office. It is explained that a small additional sewerage charge is being levied on those having boarders and that they must be reported to the tax collector immediately.

The October 1 deadline on cesspools, septic tanks and outside toilets having expired, the Town Fathers will commence a house to house check in the near future to determine just who hasn't complied with the order. A fine of \$300 is liable for those guilty of violating the town ordinance. It was the general feeling among the Burgess and Commissioners that the new sewerage disposal plant will be in operation within the next two weeks. Property-owners will have six months in which to tap into the new sewer line after the announcement has been published that the plant is in operation. Discussed also at the meeting was the Halloween problem and it was the decision of the Council that absolutely no "horse play" or property damage will be tolerated anywhere within the corporate limits. Violators will be prosecuted.

## Janet Springer Earns Mathematics Award

Two Frederick County residents were honored at Convocation exercises last week at Western Maryland College, Westminster.

Miss Janet A. Springer of Emmitsburg, received the Achievement Award for Freshman Mathematics. She and Miss Mary Constance Shankle of Frederick, received honorable mention for academic standing.

Miss Springer's award is presented annually by The Chemical Rubber Company. She is majoring in math and is active in intramural sports and the college choir. Miss Shankle, who lives at 618 Biggs Avenue, Frederick, is majoring in French and plans to teach. She is a member of Sigma Tau sorority and the Student Christian Association.

Convocation officially opened Western Maryland's 92nd academic year. There are 751 students enrolled.

## Receives Naval Discharge

Frederick J. Hoff Jr., Electricians Mate third class, son of Mr. and Mrs. Fred J. Hoff Sr., Hoboken, N. J., and husband of Mrs. Patricia Ann Hoff, R2, Emmitsburg, previously attached to the U. S. Naval Receiving Station, Norfolk, Va., has been honorably discharged from the U. S. Navy.

The Norfolk Naval Receiving Station, Commanded by Captain E. B. Pugsley USN, processes approximately 8,000 men a month on their way to and from Naval activities all over the world.

Last year the fuel industry increased its newspaper advertising by 3.1 per cent over the previous year.

Airman 1st Class William Kaas, Myrtle Beach, S. C., visited with his parents, Mr. and Mrs. John D. Kaas, over the weekend.

### CHURCH WILL DEDICATE NEW BUILDING

The educational building which has recently been erected at St. James United Church of Christ (Evangelical and Reformed) on the Harney Road near Littlestown, Pa., will be dedicated at the 9 a. m. Worship Service on Sunday, Oct. 11. The Rev. James W. Moyer, president of Mercersburg Synod of the E. and R. Church, will preside at the dedication ceremony. He will also be the guest speaker at the 10 a. m. Church School hour.

The Rev. Edward R. Hamme of Union Mills, Md., will be the guest preacher at the 9 a. m. dedication service. Mr. Hamme served as the supply pastor of the Church at various intervals of time before the present pastor, John C. Chatlos, Emmitsburg, became the pastor of the Emmitsburg - St. James parishes this summer. It was largely thru the inspiration and the encouragement of Rev. Mr. Hamme that the building was erected.

The need for adequate educational facilities has been felt by members of the St. James congregation for several years. All eight of the Sunday School classes have been meeting in the church sanctuary. The new build-

ing which measures 28 by 32 feet, and is an addition to the back of the sanctuary, will provide ample space for several of the Sunday School classes. There is a full basement under the main floor of the building. The building may be entered from the chance of the sanctuary or from any three of its outside entrances.

The congregation voted favorably for the erection of the building on Dec. 14, 1958, and the following members were appointed to serve as the planning and building committee: Rodger M. Bair, Fred W. Fissel, Clyde Hildebrand, John M. Jacobs, George E. Sentz and Francis Walker.

Mr. Lavere G. Mummert of Hanover, was the contractor for the building. Construction was begun when the basement was evacuated on April 20 of this year. The contractor installed the rain spouting on the building and did all of the electrical work. He also laid the concrete sidewalks leading to the new building and installed the hot air furnace.

Everyone is cordially invited to the dedication services. St. James Church is located about nine miles east of the Maryland State Rt. 97, on the Harney Road.

### Hospital Report

#### Admitted

Mrs. Wayne Rhodes, Emmitsburg.

Mrs. James Brydon, Emmitsburg.

James Sanders, Emmitsburg.

#### Discharged

Mrs. John Humerick, Emmitsburg.

Mrs. William Barrett and infant daughter, Emmitsburg.

#### Births

Mr. and Mrs. Joseph Topper, Emmitsburg, son, Sunday.

Mr. and Mrs. Arnold Cregger, Emmitsburg, son, Sunday.

Mrs. Mary Boyle Cochran and family, Salisbury, visited with her brother, Mr. Bernard H. Boyle and family, on Sunday. Charles Cochran is attending Mount St. Mary's College.

Mr. and Mrs. Joseph Lubert, Utica, N. Y., are visiting their daughter and son-in-law, Mr. and

### PERSONALS

Mrs. Charles E. Baker.

Mr. and Mrs. William Hilgartner and family visited with relatives after attending the wedding of her cousin, Mr. Gerald Bialecki of this place, to Miss Jeanne Elizabeth Sell in Taneytown.

Mr. and Mrs. Lewis E. Hahn, Lodi, N. J., spent the past weekend here visiting their parents, Mr. and Mrs. Arthur Elder and Mr. and Mrs. Clarence E. Hahn.

Mr. and Mrs. Lewis R. Harper, Baltimore, visited on Sunday with her aunt, Mrs. Marguerite R. Bialecki.

Miss Theodora Rybikowsky returned to Baltimore on Sunday after spending her vacation with her mother, Mrs. Regina Rybikowsky. On Monday, Miss Rybikowsky began her new duties as a clinical instructor at Mercy Hospital.

#### Permits Issued

The Building Permit Office in Frederick has approved a 18-acre lake and recreation area on the former Charles Stouter property at U. S. 15 and Zurgable Road in Emmitsburg, to be constructed by the Indian Lookout Conservation Club headed by James Kemp of Emmitsburg.

Also approved by the Board was a \$4,000 frame home with five rooms, bath and basement on old U. S. 15 near Hemler Road in Emmitsburg District to be completed next year by James Wivell Jr. of Emmitsburg.

#### Correction

In last week's issue of the Chronicle it was erroneously reported that Mrs. Pauline Ridenour had become engaged to Paul Eyer of Thurmont. The information was given to this paper via telephone and it apparently was given in bad faith. We regret any inconvenience caused and point out to the guilty party that it is a Federal offense to contribute misleading or untrue information to a newspaper.

#### Baby Shower Held

A surprise baby shower was held last Saturday evening at the home of Mr. and Mrs. Gene E. Valentine, Fairfield, in honor of Mrs. Gene Valentine. A green and pink color scheme was carried out. Refreshments were

served to the following:

Mr. and Mrs. Gene E. Valentine and children, Timothy and Maryann, Mrs. Mae Weikert, Mrs. Margie Carson, Mrs. Mary T. Weikert and girls, all of Fairfield; Mr. and Mrs. Claire Plank and family, Cashtown; Mr. and Mrs. Walter A. Ohler and Mr. and Mrs. Fred Bare and son, Lansdowne, Md.; Mr. and Mrs. Dale Kepner, Washington, D. C.; Mr. and Mrs. Jake Valentine, Seven Valleys, Pa.; Miss Judy Ann Valentine, Miss Mary O'Brien, Mr. and Mrs. Francis Adelsberger and daughters, Mr. and Mrs. Leo Yingling and son, Mr. and Mrs. Clarence S. Valentine, Mr. and Mrs. Leon Gross, Emmitsburg, and Mr. and Mrs. Ellis Kepner, Emmitsburg; Mrs. Mervin Hankey and daughter and Mrs. Pahl Hull, Littlestown, Pa.

Those who sent gifts but were unable to attend were:

Mr. and Mrs. George Hoffman and family, Mr. and Mrs. Samuel McNair, Gettysburg; Mrs. John Hankey, Mrs. Lloyd Harner, Mrs. Glen Hankey and Mrs. Jerry Breichner, all of Littlestown; Mrs. Mary Florence and Mrs. Mary Rohrbaugh, Emmitsburg; Mrs. Thomas Sanders, Fairfield; Mrs. Robert Rudesille, Tampa, Fla.; Mrs. Margaret Wastler, Emmitsburg and Mr. and Mrs. Howard Stunkell and family, Riverdale, Maryland.

Domestic employees should make sure their earnings are reported correctly. Housewives who employ domestics have done a good job, as a rule, in filling the required quarterly reports, according to Mr. W. S. King, district social security manager. However, the ratio of incorrect and unreported items is still high and could lead to unfortunate results for the domestic employee. Mr. King stressed that unreported or incorrectly reported items such as name, social security account number, or amount of earnings, might bar the individual from the full protection that social security could give him.

All employees, but especially domestics, should keep a record of their wages. At least once every three years, they should check their social security records to assure that all cash wages have been correctly reported. They can do this by contacting their local social security office and asking for the postcard designed for this purpose.

Mr. King also advised the domestics to check with their employers periodically and make sure the items named above are being reported correctly. It was also suggested by the district manager that any household employers who have any questions should

contact the local social security office. He cautioned housewives that they should report the earnings of any of their employees

who earn \$50 or more cash wages in a calendar quarter. As an example, employment for July, August, and September, should be reported no later than Oct. 31.

The heavy cruiser USS Toledo was the first U. S. cruiser to fire eight-inch guns in the Korean conflict.

### NEW SHAPE IN TV

The first change in television picture tube shape in nearly 10 years is incorporated in the 1960 Sylvania television sets just introduced. The sets are equipped with square-cornered, 23-inch picture tubes which give the viewer more of the television picture as the studio camera transmits it.

Containing 26-square inches more viewable area than smaller 21-inch sets, the new models make viewing easier, pictures clearer and bigger, and cabinets slimmer.

Aside from its shape, the new picture tube also brings some other innovations which will make viewing more pleasant. It eliminates the external safety plate that now has to be placed in front of the picture tube. By a new process, Sylvania bonds the safety glass right to the front of the picture tube, making it the safest picture tube ever produced.

Because the faceplate is affixed permanently and directly to the tube, two dust-catching surfaces

are eliminated, minimizing reflections and giving a brighter, easier-to-view picture.

The sets, currently in volume production, include table and console models and are priced comparably with current 21-inch sets.

Robert L. Shaw, President of Sylvania Home Electronics Corp., said most sets sold in America within the next year will be in the 23-inch category.

"The visible value of this new tube needs no explanation," he said. "A 23-second demonstration of this new tube against older versions is all that is necessary to see the distinct difference."

DETROIT, OCT. 5—This four-door hardtop in the Phoenix series is one of the 20 low-price Dodge Dart models offered for 1960. This Dodge Dart, which is styled in classic lines, features its own distinctive exterior and interior design.

## Looking Ahead

...by Dr. George S. Benson  
 DIRECTOR - NATIONAL EDUCATION PROGRAM  
 Searcy, Arkansas

### "The People" And Taxes

In the fiscal year recently ended our Federal government spent \$80.7 billion. The taxes for this cut deeply into the freedom of every American to control the spending of his own money. About one-fourth of everybody's income, on the average had to be paid in Federal taxes, directly and indirectly. If you worked a 44-hour week, one and a half days pay each

week represented your share in the Federal government's expenses. Part was deducted from your pay check, part was extracted in hidden, indirect taxes every time you made a purchase.

With the money he pays in taxes a number of necessary governmental services are performed for the American citizen. Some of these governmental services are performed with outstanding efficiency. Some are utterly inefficient, grossly wasteful. Some governmental services are not needed. Some are beneficial to a comparatively handful of people. And, these are the ones that make the constant, peace-time expense of government so costly and burdensome.

### Service Requires Taxes

Many Congressmen, when approached by constituents waiting about the high cost of government, say, "Well 'The People' demand the services, and naturally we have to tax to get the money to pay for them." This statement has only a germ of truth in it. "The People" didn't demand the services. A few people did. "The People" generally, seldom demand anything of government except protection of their freedom. Many of the governmental services now costing the taxpayers so much have been established through the lobbying efforts of a handful of people—and are serving the direct interest of only a few. "The People" didn't want these services. But, they were unorganized and, in most cases, apathetic and silent. None of the 5,000 lobbyists now living in Washington work for "The People." All work for comparatively small organized groups.

The activity of lobbying is all right. Although not one of the vast millions of ordinary John Doe citizens has a lobbyist in Washington, together these citizens constitute the most powerful political force in the nation. Passage of the Landrum-Griffin bill to curb some of the power of labor leaders proved this. The John Doe citizens wrote their Congressmen, (They lobbied on their own) asking for strong legislation. The avalanche of letters drowned out the voices and the pressures being applied by numerous Washington lobbyists for pressure groups.

**Building Not Wanted**  
 The city is (and the fault is) that the majority of American citizens seldom get up on their hind feet and act politically. In a city not far from where I live, bulldozers are shaping up a block of downtown real estate for the construction of a huge new Federal Government office building. It will cost several million dollars in tax money, although

just across the street stands the biggest building in the city—a relatively new Federal Government office building!

Two years ago the Congressman for that district asked the appropriations committee for the building. A handful of persons from the district, some of whom undoubtedly would directly benefit, appeared and testified in favor of the appropriation. They and the Congressman said, "The People want this, it's needed." Actually, not one person in 10,000 in the district "wanted" the new building. Only the very few who closely follow, and participate, in governmental affairs knew that it was being proposed.

**Going Along Silently**  
 There was a proposal in the first session of the 86th Congress which adjourned last month, providing for many million dollars in financial aid to Tito's Communist government in Yugoslavia. It passed. A few people appeared at the Washington hearings and supported this expenditure. They said the vast majority of "The People" approved. The people didn't write Congress on this one. So, Congress took the word of the lobbyists. Appropriations were approved running into the billions—including salary requests for more than 2½ million civilian Federal employees, and for "aid" programs directly benefitting comparatively small groups of citizens at the expense of the general public.

The people generally were too apathetic to be aware of these allocations of tax money. The only noise many of them make year after year is the long groans when they tote up their income tax bill each Spring or when they try to make each month's income cover the preceding month's expenses. Few realize, day in and day out, that the tax termite is working around the clock. For instance, there are 151 hidden taxes in the purchase price of a loaf of bread! A spendthrift government, unchecked by ac-

### Commissioner

#### In Favor Of 'Merit Rating'

John R. Jewell, Maryland's Commissioner of Motor Vehicles, has issued a statement that he is "100 per cent in favor" of merit rating for automobile insurance. "It is," he said, "a great forward step in traffic safety."

Early last month Jewell indicated to a committee of the Independent Insurance Agents Association of Maryland that his department would be able to handle the requests from automobile underwriters for the traffic records of the state's drivers should a merit plan be introduced in Maryland. These records have been available since 1933, according to the commissioner, and are easily accessible. A certified copy of the record is supplied upon application, showing the complete accident and traffic violation record of the individual.

Forfeiture of collateral, which is evidence of guilt, appears on the record in addition to convictions of traffic violations.

Supplying traffic records is now a self-sustaining activity of the department, and Mr. Jewell indicated that as the requests for copies of drivers records increase, the revenue from the fee charged for this service will enable the motor vehicle department to hire the additional personnel needed to supply the records as quickly and efficiently as they do now. The commissioner stated that requests are presently filled within forty-eight hours.

Commissioner Jewell summed up his attitude of merit rating as follows: "In addition to the savings available under the plan for good drivers, the real 'merit' in merit rating is the promotion of highway safety."

How far you've gone isn't as important as going in the right direction.

### LUCILLE BALL AND DESI ARNAZ WILL GUEST STAR WITH MILTON BERLE in an NBC color special next season in return for Berle's appearance in a

Lucy-Desi special for Desilu Playhouse. Lucy and Vivian Vance, meanwhile, are turning up the old Rodgers and Hart musical, "By Jupiter," as a Playhouse entry. . . Victor Borge may do his one-a-year special next season on NBC, instead of CBS as heretofore. . . Robert Q. Lewis guests on the new Gale Storm Show next fall as a confessions-magazine editor. . . Statistical note: Warner Brothers has to shoot a full hour of film every day, five days a week, in order to fulfill its commitments to ABC for next season's schedule. . . Producer Jack (Bold Journey) Douglas is preparing a new series, Sweet Success, each episode to detail a 30-day segment in the life of a successful personality. First subject—fashion designer Don Loper.

### SID CAESAR'S NEW, EXCLUSIVE CONTRACT WITH CBS

was initiated by that network's top brass, board chairman William S. Paley and TV network president Louis G. Cowan. Sid's to do four to six specials a year, with Audrey Meadows as special guest star in each. . . NBC turning to the movie industry to produce some of its 150-odd specials scheduled for next season. The network is negotiating with United Artists for a series of hour-long movies to be filmed especially for TV, to cost about \$150,000 each. . . Kirk Douglas and Burt Lancaster may do other such specials for NBC. . . Bob Cummings, with no TV series going, will star with Glenn Ford in a remake of the 1931 movie "Cimarron". . . Production costs are up all over the place. Lassie's farmhouse next season will have an electric refrigerator to replace the five-year-old icobox.

### FRANK SINATRA'S FIRST HOUR-LONG SPECIAL FOR ABC NEXT FALL set for October. He'll do another in November, one in December and the final in February. . . John Gunther teaming with Walter Winchell for the fourth episode of his new High Road series for ABC next fall to be titled "Inside New York." The series opens with "Inside Space," to be followed by "Inside Togoland" (about African nationalism) and "Inside DEW Line". . . NBC boosting its color TV schedule by 30 percent next season. As of now colorcast schedule includes 11 NCAA football games, four Bowl games, the Davis Cup tennis matches, the World Series and three NBC operas. . . Edd (Kookie) Byrnes gets his first starring role on 77 Sunset Strip in the new season's premier episode, tentatively scheduled for Sept. 25. . . First G.E. Theater episode next season, "Caught Between the Lines", will star Red Buttons.

### Tidy Closet Sign Of Good Homemaker

The true test of a good homemaker hides behind her closet doors, and it's a wise housewife who fits regular closet-cleaning into her cleaning schedule. Stem-to-stern closet-cleaning is a semi-annual chore, done most conveniently at the change of seasons. Now that summer clothes are being put away, and fall and winter clothes being brought into circulation, a complete closet overhauling is in order. Here are tips to make the job easier, from the Singer Vacuum Cleaner Research Division. First gather together all your equipment: your Golden Glide vacuum cleaner with its attachments, sponges and cleaning cloths, and a bucket of water with detergent. Then remove all clothes stored in garment bags, and vacuum bags thoroughly. Use the dusting brush for all flat surfaces, and the crevice tool for corners. Sponge bag and hang it to dry. Then remove all other items, and dust closet thoroughly. Vacuum floor. Use damp sponge to go lightly over woodwork. Clean shoeboxes and hatbags with vacuum cleaner attachments. Be sure summer clothes are clean before replacing in closet. With occasional straightening-up-and-clearing out sessions between seasons, your closets will show off your homemaking abilities all year round.

# Announcing! A WONDERFUL NEW WORLD OF FORDS FOR 1960

### FINEST FORDS OF A LIFETIME

This new Ford Galaxie, like all the new, beautifully proportioned 1960 Fords, is styled from a new viewpoint. Traditional automotive elegance combines with modern design in the style of a new decade!

In 1960, for the first time in history, your Ford Dealer presents not one, not two, but three new lines of Ford cars . . .

1. The 1960 Fords—The Finest Fords of a Lifetime, beautiful from any Point of View worth more from every Point of Value!
2. The 1960 Falcon—The New-size Ford, the world's most experienced new car and the easiest car in the world to own!
3. The 1960 Thunderbird . . . The World's Most Wanted Car!

### Introducing the New-Size Ford . . . the 1960 Ford Falcon

Meet the New-size Ford—the Falcon! Here's a car with plenty of room for six big adults and all their luggage. It's sized to handle and park like a "small" car . . . powered to pass and climb like a "big" car . . . and built like no other car for savings!

It gives you up to 30 miles per gallon on regular gas. Aluminized mufflers normally last twice as long as ordinary kinds. A Full-Flow oil filter lets you go 4,000 miles between oil changes. Even insurance can cost you less! And this Falcon is the world's most experienced new car. It was driven over every mile of numbered Federal Highway in EXPERIENCE RUN, U.S.A.—a grueling demonstration climaxing Ford's 3 years of development and testing.

The Falcon has the features that American car buyers expect. Its gearshift is on the steering column—not on the floor. Its engine is located up front for greater stability and safety. Best news of all is the Falcon's low, low price. See it at your Ford Dealer's . . . and see the difference!

Now you can see them—the Finest Fords of a Lifetime! Economy-minded Fairlanes. Big-value Fairlane 500's. Elegant Galaxies. A breath-taking new Sunliner convertible and a brand-new hard-top model, the flashing Starliner. Then there's a whole new world of Station Wagon Living, too. It all adds up to 15 glittering variations of the world's newest, most elegant styling theme!

And Ford sets the new trend in power. Ford's Thunderbird 292 V-8 and 352 V-8, like the famous Mileage Maker Six, bring a new world of smoother, hotter performance—on regular gas.

To top it all, the Finest Fords of a Lifetime are priced for savings. Ford is still priced to outvalue all comparable models of its major competitors.

Ford savings, however, only begin with a low price. You save still more with engines that thrive on regular gas and save up to a dollar on every tankful . . . a Full-Flow oil filter that lets you go 4,000 miles between oil changes . . . Diamond Lustre Finish that never needs waxing . . . aluminized mufflers that normally last twice as long as conventional types . . . new, safer, Truck-Size brakes that are the biggest ever in Ford's history . . . and new soft-tread, Tycex cord tires that run quieter, last longer.

In every way these are the Finest Fords of your Lifetime! See them at your Ford Dealer's!

**BABSON**

*Writes . . .*

**BY ROGER W. BABSON**

**Babson Discusses the Trends Of Things To Come**

West Germany, October 8 — I have been in Europe only two weeks; but I am astonished at the trend everywhere toward more social equality.

(1) **CHEAP POWER.** One of the exceptions to the general price rise is the cost of power.

er. Profound changes in power production and distribution are being planned. It is not yet certain whether atomic energy or the sun's rays, or gravity, will be the chief source to make inexpensive power. When the scientists here refer to "sun rays," they have in mind "electric rays" not "heat rays."

(2) **TRADE AND AUTOMATION.** Central Europe is undergoing its biggest industrial transformation in history; it will become an effective mass producer by the mid-1960's, spurred on by Russia, it may be able to market its products all over the world at prices we cannot match. Germans believe our high cost of labor will price us out of competition in many lines.

(3) **INDUSTRIAL GROWTH.** These trends necessarily imply the birth of countless new industries. Firms engaged in

atomic development, electronics, and new synthetic materials, which will do jobs better and cheaper, will be the leaders of the coming era. Some of today's big U. S. corporations already see the handwriting on the wall and are building plants here. Germany convinces me that the degree of change in both products and methods of production will be more radical in the next 20 years than in the entire past century.

(4) **NEW PRODUCTS OF THE FUTURE.** If World War III is avoided, Russian and Central European science will be able to produce synthetically in the next quarter century almost any product that the human mind can now envision. Family autos will be powered either electrically or by a fuel cell which combines free oxygen and hydrogen. Ocean and air travel between all countries

will be very cheap and will be encouraged by the United Nations.

(5) **CHANGES IN THE HOME.** Atomic irradiation will have taken the place of refrigeration. Electronic home and restaurant cooking will be almost instantaneous. Everyday meals will be served on plastic throw-away dinnerware. Washing of clothes, kitchen utensils, and silverware as well as certain industrial cleaning jobs, will be done by "sound waves" in waterless washers. Most homes will be dust and germ-free, and will be heated and air conditioned evenly and inexpensively. Some apparel — socks, underwear, and dress shirts — are now being designed for one-time use.

(6) **NEW TV AND RADIO-PHOTOS.** Favorite T.V. programs are being picked up by using timing devices and stored on video tape for viewing at the individual's leisure. Great Britain is already planning for T.V. broadcasting in color, and which may be three-dimensional. A small pocket radio telephone can be used for ordinary communication. Facsimile will provide householders with top news stories as fast as radio. The photo-telephone will be widely used for shopping from the home and will serve for "synthetic" social calling. Radio telephones in cars will be standard equipment.

(7) **SOCIAL AND ECONOMIC LIFE.** In the next 50 years, most—if not all—of the world's poverty will have been eliminated. Great Britain and most European countries—and perhaps the United States — will have seen the socialization of many industries. These governments will surely exercise strict controls over materials allocation, production, distribution, advertising, profit margins, speculation, and credit. Taxes will be more confiscatory. Capital gains and inheritance are being taxed at a higher rate than ordinary income. Private property and the right to wealth will still be respected, but all governments will have much greater power to supervise its use. This will probably mean a move away from free enterprise toward "cradle-to-grave" security for all, following Russia's example.

The standard work week may be shortened more; but competition between nations may keep labor unions from now going much further in wage or hour demands. Free medical and hospital care will be available to everyone. Also, free college educations will be offered to all who qualify therefor.

(8) **CITY vs SUBURBAN GROWTH.** Closed T.V. inspection of streets, alleys, building and hotel corridors, schools, and other public spaces should reduce crime. Urban areas will be undergoing redevelopment to provide more office space, wholesale trade centers, limited in-town housing, and entertainment. Retailing will mostly have moved to outlying areas with more one-stop shopping centers. City limits will extend 15-30 miles from present metropolitan limits. Probably people will be more regimented, but at all levels of incomes they will enjoy more of the comforts, conveniences, and pleasures of life.

(9) **GERMAN POPULATION AND ECONOMIC GROWTH.** The phenomenal rise of the German economy since World War II, from the rubble of near-obliteration, is proof of the economic power and potential of this country. In the past decade, Germany's output has more than doubled and its Gross National Product almost tripled. This year, however, the great post-war boom appears to be leveling off. Although the major force of the economic explosion brought on by the reconstruction of Europe may now be over, the European economy should continue to grow

**Farm Bureau Group Advocates Marketing Subsidiary**

Establishment of a national farm commodity marketing and bargaining subsidiary of the American Farm Bureau Federation has been approved by the Federation Board of Directors. Entry into this new activity is an outgrowth of requests by members for service in this field, Charles B. Shuman, American Farm Bureau Federation president said recently.

"The purpose of the new subsidiary will be to provide a means for state and area marketing-bargaining associations to coordinate their efforts and to help them find the appropriate price for a commodity, based on supply and demand conditions," Mr. Shuman said. "It will not be the purpose of the new organization to establish a monopoly nor to set prices. This subsidiary will not bargain at the national level since the bargaining will be done by the member state and area associations."

Details regarding the establishment of the new subsidiary have not been worked out. It is expected that the first area of activity will be in the field of processed fruits and vegetables. The program, however, will be broad enough to include other commodities as needed.

Establishment of the subsidiary was approved by the Board on the recommendation of a special committee. American Farm Bureau Federation officers and directors and the Board's national fruit and vegetable advisory committee have been exploring this idea for several years. The special committee, consisting of Farm Bureau leaders and cooperative marketing specialists, was authorized by the Board to develop specific recommendations.

The special committee report noted, in part, that the subsidiary could: provide a means for state

with a greater concentration on world markets. Already in the past decade Germany's value of exports has increased fourfold. I will write more on this subject later.

and area bargaining associations to coordinate their effort and conduct research; analyze contracts and contract terms; and furnish information on supply, demand, contract prices, etc. They may also confer with national associations, processors, and individual canners to get their cooperation in negotiating with bargaining associations and assist State Farm Bureaus in organizing and giving service to marketing and bargaining cooperatives.

Sprains Knee  
Gerald Murphy, 24, Mt. St. Mary's College, was treated on Saturday at the Warner Hospital, Gettysburg, for a sprain of the left knee suffered while playing football.

One thing can be said for back-seat drivers—they never lose control of the car.

Today there are over 900 newspapers with a combined circulation of over 44 million copies daily offering advertisers newspaper run-of-paper color. With Canada added, over 1000 newspapers with a combined circulation of over 47 million daily, offer run-of-paper color.

FREDERICK SHOPPING CENTER

**PUBLIC SALE**

OF **PONIES — SHEEP — CATTLE**  
**MEADOWBROOK FARM**  
Ellicott City, Maryland

I, the undersigned, will have my annual sale on "Meadowbrook Farm" located 1 1/2 miles south of U. S. Route 40 on U. S. Route 29, near Ellicott City in Howard County, Maryland, on

**SATURDAY, OCTOBER 17, 1959**

BEGINNING AT 10 O'CLOCK A. M.  
THE FOLLOWING TO-WIT:

**387—HEAD LIVESTOCK—387**  
**30—PONIES—30**

18 Shetland type male colts 4 to 12 months old, 7 mare colts 4 to 8 months old, 1 mare colt 1 year old, 4 mares bred to my imported Palomino Stallion (Little Gold Mine), from Scotland.

**316—HEAD OF SHEEP—316**

20 registered Suffolk ewes, 280 grade ewes, nothing over 5 yrs. old, will be separated for sale, 16 registered Suffolk rams. We got 2,555 lbs. of wool from this flock this past spring and sold at 48 cents per pound.

**41—Reg. & Grade Hereford Cattle—41**

30 of these animals are registered, 11 are grades, 1 registered polled Hereford bull 4 years old, 10 Hereford cows with calves, 2 Hereford cows, 14 bred and open Hereford heifers, 11 Hereford heifers, 3 Hereford steers weighing from 700 to 800 lbs. each. These cattle are T.B. and Bangs tested. Health sheet given with each animal. Eligible for interstate shipment. Loading chute available.

NOTICE—Any of the above may be inspected at your convenience.

ORDER OF SALE—Sheep will be sold first followed by the cattle, then ponies, about 1 o'clock P. M.

TERMS OF SALE—CASH with the clerks on sale day and no property removed until paid for.

Lunch and refreshments served on premises.

The 1960 Ford Sunliner is one of 15 models in the new Ford line which will be introduced October 8 in Ford dealer showrooms across the nation. Featuring the strikingly modern rear deck and flat-wing motif, the new Fords are five inches longer, five inches wider and have more interior leg, hip, shoulder and head room than before. Ford's new integrated design, harmonizing the interior with a single, flowing exterior styleline, is proof that modern styling need not be radical or eccentric.

for the **Perfect Wedding.**

your invitations and announcements must be flawlessly correct!

Let us show you the "Flower Wedding Line" . . . created by *Rogency!*

NATURALLY, they're important to you! That's why we want you to see these invitations for yourself. And please don't let that costly look mislead you . . . the magic is in the making of these invitations! Feel that fine, sharp raised lettering. It's done by a very special process! Feel the creamy quality of the papers! Check the perfect form of these invitations with people who really know! Come in! We will be happy to show you the "Flower Wedding Line."

We have matching enclosure cards, response cards, and informals!

Priced as low as 50 for \$7.00  
100 for \$10.50 with double envelopes and tissues

Select from 45 distinctive papers and 17 styles of lettering.

Newspapers' combined run-of-paper color linage, in cities measured by Media Records, Inc., has increased from a little over 46 million lines in 1951 to over 122 million lines in 1958.

Several makes of cars introduced gasoline gauges on their instrument panels in 1922. Last year, gasoline advertisers invested over \$28 million in daily newspaper advertising.

### Bigger and Better Savings Bonds

President Eisenhower wants the country to know that United States Savings Bonds now pay 3 3/4 per cent interest. He posed for this photo just after signing into law a Congressional bill permitting the Treasury to increase interest rates on Series E and H Savings Bonds from the old 3 1/4 rate. This enlargement of a \$100 bond is symbolic, of course, but it carries the message that Savings Bonds are "Now bigger and better." The new rate was made retroactive to June 1. In addition, the 40 million persons already holding Savings Bonds benefit by the legislation. The interest rate on outstanding bonds has been increased by at least one-half per cent from now on if held to maturity. "To my mind," the President said, "there is no better way of saving, no more effective way of strengthening our power for peace, than to own United States Savings Bonds. To buy these bonds is to express faith in America. It helps provide the economic strength in both our Government and in individual families on which our freedom depends. I hope that the making of both old and new Savings Bonds even more attractive will serve as a renewed invitation to every citizen to buy and hold these 'Shares in America.'"

### New Interest Rate On Savings Bonds Attracts Purchasers

Never before have United States Savings Bonds been so attractive to investors and small savers alike, James McSherry, Esq., of Frederick, County volunteer Savings Bonds Chairman, said today in commenting on the one-half per cent increase in interest rates on old and new Series E and H Savings Bonds.

"Forty million people automatically benefit from the recent legislation passed by Congress," Mr. McSherry said, "because that many hold outstanding bonds in the amount of \$42.6 billion. For the first time, the hike in rates applies to old Series E and H Savings Bonds, as well as those being bought currently. So, it will be to the advantage of most bond owners to hold onto their old bonds, thus automatically receiving the benefit of the increase."

The new law does two things: (1) it provides that all Savings Bonds bought on and after June 1 draw 3 3/4 per cent interest when held to maturity, and (2) it increases by at least one-half of one per cent the interest return on all outstanding E and H bonds, regardless of their age, for the period from June 1, 1959, to their maturity. In addition, the Treasury has promised a 10-year extension privilege for all E bonds, both old and new.

"I cannot emphasize too strongly the fact that every person who owns an E or H bond benefits from the new rate, without having to do anything about it," Mr. McSherry continued. "I would therefore encourage the public to do two things: keep holding their bonds, and keep on buying the new ones. This is the finest Savings Bonds package ever offered."

Emmitsburg, Maryland

America has announced the completion of an outstanding official production record by a registered Holstein cow owned by J. Wilmer House, Middletown: Printcraft Ossia McDonogh 2915550 produced 15,545 lbs. milk and 591 lbs. butterfat in 365 days on twice daily milking as a 10-year-old.

The University of Maryland, working in close cooperation with the national Holstein organization supervised the weighing and testing of production as a part of the Herd Improvement Registry program.

This official testing program, commonly referred to as HIR, provides continuing lactation and lifetime production records on every cow in participating registered Holstein herds.

Work has begun on a \$70,000 building at College Park to house the University of Maryland's 10 kilowatt "swimming pool" nuclear reactor. This will be the first critical reactor in the State of Maryland.

The new equipment will provide facilities for training graduate and undergraduate students in the applied nuclear field.

Grants from the Atomic Energy Commission, which to date have totaled \$183,785, and funds from the State of Maryland have been used to purchase the reactor and related equipment.

The new building, to be located adjacent to the university's Chemical Engineering Building, will also house a nuclear reactor simulator, and an existing subcritical nuclear reactor which contains about three tons of natural uranium and uses two plutonium beryllium neutron sources all on loan from AEC.

Students will obtain operating experience on the simulator and the subcritical reactor prior to work on the critical facility. The critical reactor and related equipment will be under the nuclear engineering program which was initiated by the department of chemical engineering in 1954.

### Nation's Wheat Crop Is Lower

Total production of U. S. wheat this year is estimated at 1 billion 116 million bushels, 24 per cent less than the record production of 1958, according to the latest USDA crop information received by William L. Dudley, chairman of the Maryland Agricultural Stabilization and Conservation Committee.

Maryland production for this year is estimated at 4,018,000 bushels for a yield of 23.5 bushels per acre as compared with 4,230,000 bushels and a yield of 25.5 bushels per acre in 1958.

Yield of all wheat is estimated at 21 bushels per acre, the third highest of record. It compares with 27.3 bushels in 1958 and a 10-year average of 18 bushels.

The Navy's Military Sea Transportation Service was activated on Oct. 1, 1949, thereby combining the services of both Army and Navy transports ferrying troops and supplies throughout the world.

### All About Dogs

#### The Dog in Legend and Story

A breeder of hunting dogs once mused: "If dogs could write and read, I wonder if they'd devote as much time to stories about people as we do about them?"

To this question, even authorities at the Purina Dog Care Center would not venture an opinion. But library shelves are filled with eloquent testimony to canine prominence on the printed page.

The dog has always played a frequent role in human folklore. An ancient legend tells of the day a great chasm separated the first Man from other animals. In fear of being kept from them forever, Man called upon the beasts to jump across. But only the dog risked the leap—successfully.

Literature is packed with dog portraits—heroic, funny, appealing, unforgettable. The range is wide—from Elizabeth Barrett Browning's tender verses to her Cocker Spaniel, Flush, to the detailed portrait of Buck drawn by Jack London in "Call of the Wild." A modern addition of canine heroines is Old Checkersboard Sally who held world's record—mother of 99 puppies—at Purina kennels.

Besides great authors, philosophers, too, have paid tribute to the virtues of the dog. Perhaps the most compact is Mark Twain's tart comment: "If you pick up a starving dog and make him prosperous, he will not bite you. That is the principal difference between a dog and a man."

### Beautification Of State's Highways Is Started

Landscaping on Maryland's Interstate Highway System has begun with the advent of the fall planting season, the State Roads Commission has announced.

The first trees were planted on the Baltimore-Harrisburg Expressway, which is Interstate Route 83.

The first contract for Interstate planting was awarded to DeKalb Nurseries of Norristown, Pa. in April. The contractor was busy this summer digging holes for the trees and shrubs to be planted this fall.

The plants are being planted with a back fill mixture of top soil, manure, and peat moss, according to Charles R. Anderson, Landscape Superintendent for the State Roads Commission.

This fall's planting program will be completed November 30 of this year. Under the terms of the contract, Mr. Anderson said, the contractor will care for the plants until November 30, 1960. He also will replace any plant material that may die during that period.

A total of 58 different varieties of plants are being used in this contract including shade trees, evergreen trees, small flowering trees, shrubs, and ground-cover.

The planting is part of the Interstate program, with the Federal Government paying 90 per cent of the cost.

Planting on State Roads Commission Interstate projects is functional, meaning that the landscaping must contribute to greater highway safety, reduce maintenance cost, and add to general roadway attractiveness.

Mr. Anderson outlined these features as some of the specific functional purposes of highway landscaping:

1. Reduction of oncoming headlights glare.
2. Delineation of curves and traffic islands.
3. Service as living safety barriers.
4. Stabilization of steep slopes.
5. Screening of construction scars and objectionable views.
6. Reduction of driving monotony.
7. Creation of a living snow fence that does not have to be erected and dismantled each year.

In highly developed areas, planting between the roadway and the right-of-way limit creates a living device for noise abatement and the absorption of dust and fumes, Mr. Anderson added.

Make good habits—because your habits make you.

### Hood Offering Art Classes

Hood College will offer evening art classes again this fall.

Art Workshop, taught by Jack C. Davis, chairman of the college's department of art, will be offered in the first semester. Registration for the course will be from 6:30 to 7:00 p. m. on Monday, October 12. The fee is \$83.

Instruction in the Art Workshop will include drawing, and painting in oil, watercolor and casein, for both beginners and advanced students. Beginners will receive group and individual instruction in drawing, color and composition, and advanced students will work on individual projects under the direction of the instructor.

There will be 15 studio periods held on Mondays from 7 to 10 p. m. beginning on October 12. The course carries no college credit.

Prior to his joining the Hood faculty, Mr. Davis had taught at the California School of Fine Arts in San Francisco and with the Adult Education Authority, San Francisco's adult evening class system.

He has exhibited his work in San Francisco, New York, Paris and other art centers, and last January held a one-man showing of his work in the Nonagon gallery in New York City. Mr. Davis holds the A.B. and A.M. degrees from the University of California and has studied at the Studio Fernand Leger in Paris.

## A PLEDGE TO SLOW DOWN and Live

Walt Disney Productions  
© Copyright 1958

I do hereby pledge to subscribe to the motto "SLOW DOWN AND LIVE" and to dedicate my driving practices to the principles of safe and careful driving.

I do furthermore pledge to at all times conform to the basic tenets of safety on our highways and to take special care to avoid the following traffic violations:

- EXCESSIVE SPEED
- SPEED TOO FAST FOR CONDITIONS
- IMPROPER PASSING
- FOLLOWING TOO CLOSELY
- FAILURE TO YIELD RIGHT OF WAY

This pledge is sponsored by your state safety coordinator in cooperation with the National Conference of State Safety Coordinators.

The "Slow Down And Live" program has the endorsement of your governor and is dedicated to the cause of safety on the highways of the nation.

The sweeping elegance of the newly created silhouette of the Series Sixty-Two six-window Sedan typifies the handsome lines and simplicity of design of the 1960 Cadillac. The popular six-window Sedan features all of the advanced engineering and design characteristics of the new models.

Read Romans 5:1-7.  
Christ died for the ungodly.  
(Romans 5:6.)

Blaspheming God at a street meeting, an atheist turned to the crowd and said, "If there is God, I challenge Him to strike me dead in five minutes."

Breathless silence reigned as the seconds ticked off. After five minutes the scoffer said, sneeringly: "See, there is no God, or He would have killed me. The five minutes are up."

An old lady asked him, "Have you children?"

"Yes, I have a son."

"Well," she said, "if your son gave you a knife and asked you to kill him, would you do it?"

"Why no," he said.

"And why not?"

"Because I love him too much."

Then the old lady said to him, "God loves you too much to accept your foolish challenge. He wants you to be saved—not lost."

We can understand a love which loves those who also love. But "Christ died for the ungodly." We can hardly understand this. How can we fathom the love of God who gave His Son to save us? Oh, the forbearance, the long-suf-

fering, the patience of God!

**Prayer**

Dear Father, may the love of Thy Son so fill our hearts that this day we may be like Him. As He gave, so may we give; as He loved us, so may we love others. We pray in the name of Jesus Christ our Saviour. Amen.

**Thought For The Day**

I cannot understand the love of Christ, but I will accept Him and let His love rule in my heart.

Norma T. Vicente (Philippines)

**SPORTS AFIELD**

By Ted Kestner

How game is the pickeral? That's a matter about which there's some controversy. Here is the opinion of Jason Lucas, Angling Editor of Sports Afield Magazine.

Let's, as a standard of measurement, try to compare the game-ness of a pickeral with that of a bass, since bass and pickeral found in the same district are

likely to average much the same size. When a pickeral of reasonable size takes your lure and heads sou'east by east, he's considerably faster than a bass—one glance at his perfectly streamlined figure and powerful tail shows that he's built for speed.

That speed is in his favor. Against him is the fact that he's not nearly as likely to leap as a bass—but when he does go up his leap is likely to be higher and more spectacular than that of a bass.

Will he give as long and tough a fight as a bass. That varies greatly. In warmish water he's likely to put up only a brief and weak fight, scarcely to be called a fight at all; a bass almost never does so badly. But in cold water he'll probably fight longer than a bass of the same size; and his fight is likely to be tricky, with some periods of little action, when you think you have him licked, interspersed with unexpected, jet-propelled runs at that high speed he's capable of.

So far, things are very roughly equal, but here's a highly important angle: Generally speaking, a pickeral either isn't feeding so you can't catch him, or he's feeding and you can hook him easily. Out of a whole season, there may be only two days when bass are really easy to catch, when every dub is catching some—periods when they might be said to be suffering from epizootic temporary insanity with suicidal tendencies. The rest of the time, unless where you are really about fished-out, you can always catch some bass, and generally a nice number of them—if you've really studied bass fishing, and if you're willing to do approximate-

ly the same amount of mental work required in a hard game of chess.

Boiled down we might class the two species thus: The veteran angler far prefers bass, since catching them in reasonable numbers is strictly a game of skill, high skill. But one who hasn't had opportunity to fish enough to become skilled at the sport (or who just doesn't want to go to the bother of becoming skilled) is likely to prefer the pickeral—to him, he's the better game fish simply because he's easier to catch. It's much like the matter of a great majority of anglers hating brown trout, as too hard to catch, but a few veterans preferring them to other species just because they are so tough.

**OVER THE GARDEN WALLS**

A COLUMN FOR HOMEOWNERS

October's bright blue days!

Can you lean on your rake, look around the place and be content that most of your garden chores are finished up for the year?

Not that we're trying to spoil your fun. But it's clean-up time.

**Clean-Up Time**  
Clean-up helps cut disease and insect troubles next year.

Don't bypass your compost pile while cleaning out the garden or raking leaves. Here's a rule of thumb to follow on whether to put plant residue in compost or burn it: If the plants show signs of disease, better burn them. Put only disease-free plant residue in compost piles to avoid spreading the disease.

You can pick mature green tomatoes before they get nipped by frost. They'll keep 30 days or so if you have a place where you can store them at 50-60 degrees.

Pumpkins, sweet potatoes and squash should be stored where it's warm and humid. On the other hand, onions require a cool, dry storage place. Other root crops need cool, moist conditions.

After the garden is all red up, plant a cover crop. It will loosen packed ground, prevent erosion, absorb plant food that would otherwise be lost by leaching, and add organic matter. Besides, a good green cover crop will make your garden look nice all winter long.

And then, after you're all

through, before the memories of this year's garden fade completely, write down your resolutions for next year. File them with your seed catalogs, University of Maryland Extension Service publications, and other gardening papers.

**More Or Bigger Mums?**

If you've been following this column all year, you may have wondered about our advice on mums.

First we said, "Pinch them back—it'll make more blooms." Now, we come along and say, "Disbud your mums—it'll make bigger blooms."

What's the reason for this incompatible advice.

In the first place, it's not incompatible. Pinching back chrysanthemums in early summer will make them branch, instead of growing tall and scraggly. This results in more buds. And your plants are bushier, more compact. If you leave them this way all summer and fall, they'll produce lots of blooms. But the flowers will be small.

If you want big blooms, pinch off the buds now. Leave the biggest and healthiest buds, leaving one on each stem. Or if you want sprays. Leave the bud on the tip of the stem, and one bud on each side branch.

Try it. You'll see it's worth the extra work.

**Garden Notes**

Dig and repot houseplants that have been outdoors all summer. But rather than bring them indoors right away, let them recover from transplanting shock before bringing them in. You'd best protect them against frost on cold nights.

Hedges should be given their final shearing of the year.

October is bulb planting time! You can dress up the place with spring flowering bulbs like tulip, narcissus, hyacinth, crocus, snow-drop and many others.

Watch "Garden Living," the University of Maryland Extension Service's program on WBAL-TV, Saturdays, 1:30-2:00 p.m.

**CLUB CALENDAR**

## A Word About

**Our Weather Conditions**  
Men have observed the changes of weather since ancient times and have compiled a number of rule-of-thumb observations (usually having to do with the appearance of the sky) for predicting storms or fair weather. This scientific study of the earth's atmosphere and the phenomena of temperature, humidity, air pressure, and air movement is known as meteorology. The study of average weather conditions in different localities over extended periods of time is often regarded as a separate science, known as climatology. Now that the season for hurricanes, typhoons, tornadoes, and the like is upon us, I should like to bring to the readers of this column some interesting facts regarding our weather conditions and what causes them. This week I shall deal with our wind systems and the various types of storms. Next week I shall bring you some interesting facts on how our weather is observed and the instruments used in reporting the ever-changing conditions of the weather.

When air moves across the earth's surface in any direction, the earth acts like two great turntables, one in each hemisphere, north and south of the equator. This causes winds north of the equator to turn to the right of their path, and south of the equator to the left. This turning motion, in conjunction with the great temperature contrast between the equator and the poles, is what determines the wind belts and climates of the earth and accounts for the turning motion of storms.

In storms, whether large or small, there is nearly always an upward rush of air, where light, warm air is being pushed upward and displaced by colder and denser air on its borders. The air flows in at the bottom and is deflected by earth rotation to form a whirl, which increases in violence toward a center of low pressure. It is motion upward like whirling water going downward in a drain.

The most violent of all large storms is the hurricane or typhoon. It forms in heated air of the tropical oceans. The air is pushed upward in a violent whirl which may be several hundred miles in diameter. Heat and water vapor furnish the energy by which the vast whirling storm is maintained. The storm then drifts with the general currents of the atmosphere and travels great distances, being very destructive to ships at sea, small islands and our coastal areas that find themselves in its path.

To help keep the records on such large storms or hurricanes, the weather bureau is now naming each one. Recent storms of this type were Gracie and Hannah, and the typhoon in Japan which to date has taken the lives of over 5,000 citizens, and left many more thousands homeless.

During the summer months there are a number of storms present and these are known as thunderstorms. These are the commonest of all storms and have several varieties, but having the same general features—lightning, thunder, strong gusts of wind, a heavy shower, and sometimes hail.

One variety is caused by local heating of the lower atmosphere on a hot day. The warm air is pushed upward, causing condensation and precipitation. A massive cloud forms, and if the upward rush of air is violent, hail falls. Another variety forms on the boundary between warm air and a mass of cold air coming down from higher altitudes. A third variety is found in the mountains on a hot day when warm, moist air is forced up the side of the mountain. Rain or hail is usually preceded by a squall, which is an outrush of cool air from the thunderstorm cloud. Enormous electrical stresses are set up in the clouds, and between the clouds and the earth. Discharges take place when the resistance of the intervening air is overcome. The lightning heats and ionizes the air in its path, causing the sound of thunder, which it has been estimated may be heard at distances of 10 to even 30 miles.

Last week in Ivy, Virginia, a small community just a short distance from Charlottesville, was hit by a tornado and eleven persons, ten from one family, were killed as a result. This storm, born of the dying hurricane known as Gracie, swooped down out of torrential rain at 4:30 p. m. Nine of the dead persons perished almost instantly, when their bodies were thrown with explosive force upon a wooded hillside.

Tornadoes are the most violent of all small storms. Like hurricanes and typhoons, they are very destructive whirls with a powerful uprush of air, but they form over land and are only a few hundred feet in diameter. Their winds are even more violent than the winds of the hurricane. Waterspouts are like tornadoes, but they form over water. Both have a spout extending to the ground or the sea. The spout is a violent whirl made visible by condensation of moisture.

When cool, dense air settles down and blows upward from a center of high pressure, the motion of the winds is opposite of that in a storm, anticyclones and cyclones result. A system of out-flowing winds with high pressure at the center is called an anticyclone, or "high." Whether mild or violent, large or small, a storm with inflowing winds and low pressure at the center is called a cyclone, or "low." "Highs and lows" are constantly in motion somewhere in the troposphere. They are carried along in the great wind belts of the earth, bringing the day-to-day and the week-to-week changes of wind, clouds, precipitation, temperature, and humidity, known collectively as weather.

In the eighth chapter of Matthew we learn about Christ and how afraid his disciples were when a storm arose at sea. They asked Him to save them for fear they might perish. He turned to them and said: "Why are ye fearful, O ye of little faith?" He then arose and rebuked the winds and the sea, and there was a great calm. Like the disciples, we too must have faith when such storms arise and our Master will save us from all harm.

Instrumental music played an important part in the lives of early American Moravians. In some instances they brought instruments as well as manuscript copies of various chamber and choral works with them to America. Choirs of brass instruments still maintain an important place in the music of the church.

The program includes: "Psalm XIX", Benedetto Marcello; "Water Music Suite, Allegretta, Air, Allegro Maestoso", Handel; Mr. Jack Wantz, organ. "Concerto No. 3 in G Minor for Oboe and Orchestra," Mr. Thomas Silliman, oboe, accompanied by Mr. Wantz at the organ. Vocal solo, "The Voice in the Wilderness," by Scott; Mr. Thomas Silliman. "Concerto for Flute and Harp in C", Mozart; Mrs. Bonnie Caplan, harp. Mr. James Fisher, flute, accompanied by Mr. Wantz. "Abide With Me", harp and organ duo.

Mr. Jack Wantz, of Emmitsburg, will perform at the console of the Conn Classic Organ. Mr. Wantz is well known as an organist in the Frederick area. He received his early keyboard training from Mrs. E. L. Higbee of Emmitsburg and Prof. Richard Shade of Gettysburg. Mr. Wantz has attended the Peabody Conservatory of Music and the Westminster Choir College, Princeton, New Jersey.

Mr. Thomas Silliman, instrumental music teacher at the West Frederick Junior High School will be guest soloist performing on the oboe. He will also be featured as vocal soloist. Mr. Silliman is a graduate of Lebanon Valley College, Annville, Pa., where he received the B.S. degree in Music Education. He has studied oboe with Wayne Draper of the Baltimore Symphony, and is currently first oboist with the Gettysburg Symphony. He has been a teacher in the Frederick

## Jackie Cooper As Navy Medico

In an age of electronic computers and ballistic missiles, the romance and adventure of life in the U.S. Navy stays well above the Plimsoll line. If it's true, as they say, that we'll always need an infantry, the new TV series "Hennessey," starring Jackie Cooper will further demonstrate that we'll always need the guys who keep our battle wagons aloft. The series, sponsored by Jell-O, alternate weeks, premieres Monday, September 28, 10:00 p.m., NYT, over CBS Television.

## Spice Cake Is Ideal For Fall

Like bright leaves and frosty mornings, spice cake belongs to Autumn. Below is the recipe for a spice cake so delicious it is called "Sugarplum". By any name you'll love this cake and make it often.

**Sugarplum Spice Cake**  
2-1/4 cups sifted cake flour 3/4 cup butter or margarine  
1 teaspoon double-acting baking powder 3/4 cup firmly packed brown sugar  
1 teaspoon salt 1 cup granulated sugar  
3/4 teaspoon soda 3 eggs, unbeaten  
3/4 teaspoon cloves 1 cup buttermilk or sour milk  
3/4 teaspoon cinnamon 1 teaspoon vanilla  
Pinch of black pepper

Measure sifted flour, add baking powder, salt, soda, spices, and pepper, and sift again.  
Cream butter thoroughly. Add brown sugar and granulated sugar gradually, creaming until mixture is very fluffy and sugar is blended. Add eggs, one at a time, beating well after each addition. Then add flour mixture in thirds alternately with milk in halves, beginning and ending with the flour. Stir after each addition until smooth. Stir in vanilla.  
Pour batter into two 9-inch layer pans, lined on bottoms with paper. Bake in moderate oven (350° F.) 30 to 35 minutes. Cool.  
Spread Lemon Beat 'n' Eat Frosting\* between layers and over top and sides of cake. Garnish as desired.  
To cut cake in an unusual way, cut a three-inch circle in center of cake; then cut outer ring of cake in wedges.

**\*Lemon Beat 'n' Eat Frosting**  
Combine 2 unbeaten egg whites, 1-1/2 cups sugar, and 1/2 teaspoon cream of tartar in mixing bowl; mix well. Add 1/2 cup boiling water and beat at high speed of electric beater, or with sturdy egg beater, until mixture will stand in stiff peaks—10 to 12 minutes. Add 2 teaspoons lemon juice and 1 teaspoon grated lemon rind, and beat well. Makes 5 cups frosting.

## Music Festival To Be Feature Of Church Anniversary

A music festival will be presented in observance of the 201st Anniversary of the organization of the Moravian Church of Graceham, Sunday, October 11, 1959. The program will begin at 7:30 p. m. and the public is invited to attend.

The program will feature various instrumental music selections played by musicians of the Frederick area. Included on the program will be works of the early masters arranged for organ; oboe and organ; flute and organ; and harp and organ.

Much of the music to be performed was composed prior to the landing of the first Moravians in America. The works of Handel, Bach, and Marcello, which are to be included on the program, were well known to early Moravians.

Instrumental music played an important part in the lives of early American Moravians. In some instances they brought instruments as well as manuscript copies of various chamber and choral works with them to America. Choirs of brass instruments still maintain an important place in the music of the church.

The program includes: "Psalm XIX", Benedetto Marcello; "Water Music Suite, Allegretta, Air, Allegro Maestoso", Handel; Mr. Jack Wantz, organ. County Schools for three years. Included in the program will be several selections on the harp played by Mrs. Bonnie Caplan of Frederick. Mrs. Caplan studied harp with Joseph Vito of the Chicago Symphony, and is a graduate of the University of Nebraska where she received the B.Mus. degree. She is a member of the Gettysburg Symphony and devotes her talents to her family as well as to the Colonial Music Shop located in Frederick.

Mr. James Fisher is music director of the Graceham Moravian Church. He is a graduate of Lebanon Valley College, and the University of Michigan. He has taught instrumental music in the Frederick County Schools and is currently Supervisor of Music in the local school system. He is a member of the Gettysburg Symphony Orchestra.

## Youth Fellowship Meets

The regular meeting of the Toms Creek Methodist Youth Fellowship group was held Sunday evening, Sept. 27. The meeting was opened with the singing of hymns. Using two slides, Bible verses were looked up on the topic of Eternal Life.

Bible work books were given out and questions were answered by reading verses of scripture. A discussion was held.

The meeting was then called to order by the President, Robert Beale. Minutes of the previous meeting were read and approved. Under new business the possibility of having another skating party was discussed. It was decided to make further plans at the next meeting. A collection was taken and the meeting was closed.

ST. MARY'S CATH. CHURCH
Rev. John J. McNulty, Pastor
Masses at 7:00 and 9:00 a. m.

St. Joseph's High School News

Faculty Changes
Changes in the faculty of St. Joseph High School affected several departments in the school. The principal, Sister Mary, was replaced by Sister Antonia, formerly business teacher at St. Joseph High School, Martinsburg, W. Va. The Junior home room teacher is Sister Zoe, of Seton High School, Baltimore. Sister Zoe teaches world history, American history and problems of democracy. Sister Louise, of Seton High School, Endicott, N. Y., has charge of the business department and is Sophomore home room teacher. Sister Mary Ann, from St. Joseph High School, Petersburg, Va., is Freshman home room teacher and teacher of English. The Glee Club is now under the direction of Professor Joseph Laderoute. Rev. Fr. David W. Shaum who trained the club last year, is spending a year at the Catholic University.

Welcome Given Freshmen
The Freshman welcome was held Friday, Oct. 2, immediately after lunch. The Seniors presented a skit satirizing the Freshmen on their first day of school. A few surprised Freshmen were made star performers. In their turn, the Freshmen entertained the entire student body.
Mary Fowler, Katherine Reaver and Jane Keepers sang "Young Love," with John Balmer, a junior, as accompanist. Noro O'Brien, Monica Norris, Mary Keeney, Susan Haley, Patricia Lingg and Linda Myers did an Irish jig. Ronald Stouter, Leo Topper and Edward Orndorff joined this group as they sang "The Battle of New Orleans." In the evening a Welcome Dance was held at which the Freshmen were guests of honor.

Sports News
St. Joe's basketball team started practice Sept. 28. Five lettermen, Ronald Hill, William Henshaw, Laurence Topper, Thomas Sicilia and John Williams, practiced with the Freshmen and upper class recruits. Other lettermen expected to join are Raymond Topper, Philip Topper and John Keepers. Temporary coach is Richard Dutrow, senior from last year who has coached all

sessions to date. The girls' basketball team will begin its practice sessions soon.
—John Williams

Freshmen Sport New Uniforms
On Monday, Oct. 4, St. Joseph's acquired the "new look" when the Freshmen girls appeared in their new uniforms. Sophomores, Juniors and Seniors still wear the older style uniforms, dark green jumpers with a beige blouse and green tie. The new Freshman style is a dark green flared jumper topped by a vest which comes to a V at the waist. Worn with it is a white blouse, V-neck, and no tie. The school emblem, in green and gold, is worn on the left shoulder. This emblem is optional for the rest of the student body. Our Lady's Medal is a required part of the new uniform. A new ruling, affecting the entire enrollment of girls, is the required wearing of saddle oxfords in black or brown.
—Judith Keilholz

Letters To Urge Gov't. Economy

One of the best ways to celebrate National Letter Writing Week (Oct. 4-10) is to write your congressmen reminding them that government spending and inflation are still two of the most serious threats to the nation's economy. This is the advice of the National Association of Manufacturers, advocate for years that sound government fiscal policies are essential to the preservation of the American Free Enterprise system, to curb inflation, and to permit the nation to compete with Russia in the international economic war.
"The second session of the 86th Congress is coming up," the NAM said, "and if the American people are still in opposition to extravagant proposals, it is important that they communicate with their congressmen while the legislators are at home where they are not burdened with the myriad tasks confronting them in their Washington offices.
"This specific week serves as a good reminder that it is the duty of the citizen, if he cannot see his congressman in person, to write and urge them to continue a vigorous battle on the budget and eliminate all unessential spending," the NAM continued.
The trend in spending is upward, and unless checked by public demand this nation cannot reach its proper economic growth. If this spending is checked the taxpayer can look for elimination of the inflation threat, encouragement of proper tax rate reform legislation, and the lowering of the national debt, the NAM concluded.

12,000 Teachers To Convene In Baltimore

Eric Jonnston, president of the Motion Picture Association of America, will address an anticipated audience of more than 12,000 teachers at the opening general session of the 93rd convention of the Maryland State Teachers' Association on Thursday afternoon, October 15, at the Fifth Regiment Armory in Baltimore. His topic will be "We Must Put Our Best Minds Forward."

ERIC JONSTON

Jonnston is the author of two books, America Unlimited and We're All In It, and has been awarded honorary degrees by more than a score of colleges and universities. In 1940 he was elected vice president of the U. S. Chamber of Commerce. He was elected president in 1942, and re-elected in 1943, 1944, and 1945. This four-year tenure is unprecedented in the national chamber.
Three Presidents — Roosevelt, Truman, and Eisenhower—called upon Jonnston to perform services for the federal government. In World War II, under President Roosevelt, he served as a member of a number of federal boards and commissions, including the War Manpower Commission Management-Labor Policy Committee, the State Department's Postwar Economic Foreign Policy Committee, the Inter-American Development Commission, the War Pro-

New Fords Now On Display At Sperry's Garage

The 1960 Ford represents a styling theme originally created for later use but brought forward because of the spontaneous enthusiasm of company management when they first saw the car in advance studios, Sales Manager John S. Hollinger of Sperry's Garage announced this week.
Mr. Hollinger said the 1960 Ford was redesigned from bumper to bumper to increase passenger space and comfort and improve the roadability and handling ease and performance.
"With the new body design, the new frame, redesigned suspension and improved power train, the 1960 Ford rides better, handles better and performs better than any Ford in history," said Mrs. A. H. Sperry, local Ford dealer.
Passenger comfort and convenience have been given particular attention in the design of the new Ford cars now on display at Sperry's Garage. New, swept-back windshield pillars have eliminated the troublesome "dog-leg" found in cars with the full-wrap windshield. Yet, the new model Ford has 17% more windshield area than last year's Ford, provides better visibility out over the hood and has a windshield wiper pattern a third greater than in 1959. Ford's "posture-perfect" seat permits the driver and passengers to sit in comfort on foam padding and at what Ford research has proven to be the most comfortable seating angle.
Adding to the convenience of the new Ford line are such features as a trunk opening that is only 27 inches from the ground, a foot-operated parking brake with the release knob located on the instrument panel, and two-stage door checks.
The 1960 Ford line includes 15 models that offer a total of six different roof lines. Better stability and improved handling have been accomplished partly through a wider tread, but mostly through the widening of the rear spring base. Two full inches have been added to the front tread width and nearly four inches to the rear tread.
Long the leader in the station wagon field, Ford in 1960 is offering five different models with a longer load space, greater passenger comfort and more versatility than ever before. The load space in the 1960 Ford station wagon is nearly a foot longer than last year and the tail gate opens flush with the floor. All standard Ford engines—both six and V-8—are designed to operate on regular grade gasoline which save a dollar a tank full. The full-flow oil filter, standard equipment on all Ford engines, permits Ford to recommend an oil change only every 4,000 miles.

Legion Auxiliary Holds Meeting
The Francis X. Elder Unit 121, American Legion Auxiliary met at the Post Home on Tuesday evening. President, Kathleen Shorb, presided with 21 members present.
The President's message was read in which she urged membership Board Advisory Committee for Civilian Policy, and the War Mobilization and Reconversion Advisory Board.
In 1951, while on leave from the Motion Picture Association, Johnston served as administrator of the Economic Stabilization Agency, which was charged with carrying out the fight on inflation. In January, 1952, Johnston accepted President Truman's appointment as chairman of the International Development Advisory Board. President Eisenhower appointed Johnston as his personal representative with rank of ambassador to advance a program in the Near East for the unified development of the Jordan River Valley.
Thomas Johnson, supervisor of elementary schools, Prince George's County, and president-elect of the Maryland State Teachers' Association, will preside at the Thursday afternoon general session at which Mr. Johnston will speak. Mr. Johnston will be introduced by Frank Bowers, vice-principal of the Baltimore Polytechnic Institute and member of the MSTA executive committee.
Governor J. Millard Tawes and Dr. Thomas G. Pullen Jr., state superintendent of schools, will bring greetings to the assembled teachers.
Under the direction of guest conductor Lee Chrisman, chairman of the department of music education, Boston University, the Maryland State Band, composed of students from secondary schools throughout the State, will present a concert.
Speakers at the other two general sessions will be Dr. Gerald Wendt, prominent scientist, who will make an address on "The Foreseeable World of the Future" on Friday morning, October 16, and John Ciardi, poetry editor of the Saturday Review and well-known writer, who will answer the question, "What Good Is A Poem?" on Saturday morning, October 17.

U.S. Frozen Foods Intrigue Soviets
One of the top attractions to the two-and-a-half million Soviets attending the American National Exhibition in Moscow was the demonstration of U. S. frozen foods and dessert mixes by an international team of nine women... three British, one Pakistani and five Americans.
The aroma, color, freshness and availability of the frozen vegetables and fruits was a constant source of amazement to visitors. For 30 years, the U. S. frozen foods industry started by Clarence Birdseye has enabled Americans to enjoy seasonal crops year-round. Yet, to the Soviet people this bit of Americana represents something very much out of the ordinary.
Most important in the successful conduct of the food exhibit was the ability to understand and answer the unending questions of the spectators. Throughout each day, two Russian-speaking young American women alternately took a microphone to explain the steps in preparing the 58 varieties of frozen foods and various cake and cookie mixes on display. These two American guides are 20-year-old Ellen Propper, a Wesley College senior from Hamden, Conn., and Mrs. Galda Hughes, a Denver school teacher with two degrees from the University of Texas.
Directing the food demonstrations for 11 hours a day, seven days a week were Miss Barbara Sampson of Greenwich, Conn., representing the Birds Eye Division of General Foods Corporation of Minneapolis, Minn., sent by the Betty Crocker kitchens of General Mills, Inc. The U. S. Commerce Department invited these two competing food firms to join forces in bringing such typically American products as frozen foods and dessert mixes to the Soviet.

ship dues be paid as soon as possible. The next District meeting will be held on November 1 at Camp Ritchie Post Home beginning at 1:30 p. m. Anyone wishing to attend the meeting should contact Kathleen Shorb before Oct. 27 so that reservations may be made.

The Unit was invited to participate in a Veterans Day parade in Hagerstown on November 11. Madeleine Harner, membership chairman, announced that 50 members had paid their dues to date. The group decided to sponsor a Girl Scout Troop, soon to be organized.

Pauline Hull's name was called for the door prize, but was not present. The draw prize was won by Mrs. Irene Ohler.

The refreshment committee for November is Charlotte Sanders, Ann Topper and Loretta Har-

Community Show

Friday And Saturday
The Emmitsburg Grange's Annual Community Show has been set for Friday and Saturday, Oct. 9 and 10, at the Emmitsburg High School, it was announced this week by the committee in charge.
The committees have reported the show will be considerably expanded this year with many new features being added.

Rules pertaining to the placing of exhibits in the show have been published and distributed. General Chairman Harry Swomley announced early this week.

They also listed for publication the rules governing the show as follows:

Exhibitors are solicited from all residents of the Emmitsburg Community. All fruits and vegetables should be in clear glass containers. They are striving for uniformity by requesting the use of quart containers, but pints will be accepted. Labels and markings will be handled upon presentation for entry. Only exhibits grown or made by the exhibitor shall be eligible for a prize.

A program of entertainment has been mapped out for the two nights as follows:

Friday Night, October 9
Welcome remarks by the Master of the Emmitsburg Grange, Bernard Welty. Introduction of new officers for 1960; accordion solos by Leroy Valentine; accomplishments of the Grange and, "Did You Know," by Richard Weybright. A one-act comedy play by R. C. Walsh, entitled, "Lady, You're Pinched," will be presented with the following cast: Judge Johnson, Harry Weber; Officer Reardon, Eugene Long; Esther Chandler, Ann Hobbs; Henry Richards, Bernard Welty; Lillian

U.S. Frozen Foods Intrigue Soviets

One of the top attractions to the two-and-a-half million Soviets attending the American National Exhibition in Moscow was the demonstration of U. S. frozen foods and dessert mixes by an international team of nine women... three British, one Pakistani and five Americans.
The aroma, color, freshness and availability of the frozen vegetables and fruits was a constant source of amazement to visitors. For 30 years, the U. be in the church cemetery.

Pet Lost
A small black kitten with some white on it became lost Thursday sometime. The animal was a child's pet and the finder is asked to please notify Thomas C. Harbaugh, Jr., E. Main St.

Permit Issued
A building permit has been

JOIN the MARINES
The deceased was a son of the late Elijah and Mary (Renner) Miller and was employed for a number of years by the Western Maryland Railroad as a carpenter. For 15 years he was associated with the Ringling Bros. Circus as a chef. Friends may view the body at the Creager Funeral Home, Thurmont, from 7 until 9 o'clock tonight.

DRINKING DRIVERS get Jailed, Fined, Suspended, KILLED
The evening's entertainment is in charge of the 4-H Boys' and Girls' Clubs and a play, entitled, "In Behalf of a Calf," will be presented. A demonstration by the 4-H Girls will be given and the 4-H Boys will chance off a pure-bred calf.

Exhibitors from out of the community and also antiques will be welcome and displayed, but will not be judged or be eligible for a prize. No exhibit that has won in a former Emmitsburg Community Show will be eligible for a prize again this year. They may be placed on display, however.

Entries will be received on Friday, Oct. 9, from 8 til 11:30 a. m. Judging will be Friday from 1 to 5 p. m. Exhibits may be removed after 10 p. m. Saturday, Oct. 10 and must be claimed by 3 p. m. Sunday, Oct. 11.
The placings of the judges must be accepted as final. The show committee reserves the right to pass on any decisions not covered by these rules. Plates will be furnished by the committee.

At the beginning of this century, on the average day, 15 million newspapers were purchased. Today, 57 million newspapers are purchased on the average day.
