The cranberry hassle gets better daily as parties concerned hurl charges and countercharges that the berries are not fit for human consumption while the growers contend there is absolutely nothing at all the matter with their crop. The whole thing was set off with a blast from the Agriculture Department this week when it charged that cranberry producers were using a poisonous spray to protect the berries from ravages by fungus. Seems as though the agriculture boys claim the chemical induces thyroid cancer and that's not good at all. Immediately there came denials and explanations that the poison used was done so in such minute quantities that it was impossible to cause any harm in human beings if they lived to be 1000 years old. The public, however, deprecates the mention of the word cancer and of course that's not too hard to understand. The producers really stand to lose their entire year's crop over the scare. Any number of stores have removed the cranberries from their store shelves in a protective measure, just in case. There have been reported cases where people have recently eaten some of the berries and after reading the latest news on the situation became ill . . . purely a mental condition though.

Just what the solution to the dilemma will be and how soon it comes is a matter of conjecture, but Thanksgiving is just a short distance away and someone had better come up with the right answers . . . and soon. Actually the problem isn't as serious as one as was first imagined. It is known that some states prohibit the use of this particular poison as a spray and the berries coming from those states are a perfectly healthy fruit and can be consumed without any fear of illness or detriment to your health. If you want to take a chance and use the berries from those states using the spray you do so at your own risk, until they are condemned by the U. S. Health Dept. and subordinate state health departments. The problem is though, just how can the public be made aware just where the cranberries came from. There's nothing new about this sort of thing you know. You can get any number of doctors who will swear that smoking will cause cancer while an equal number deny it has any effect as far as cancer is concerned. Alcoholic beverages can also be relegated to this category of thinking. In the meantime though I can guarantee you that the sale and consumption of cranberries for the holidays ahead will take a decided downward trend.

The television quiz shows have come in for their share of publicity recently and the publicity isn't good by any means. Just as any other industry, sporting associations, etc. have to be purged occasionally, the TV circuits have come in for their share of cleaning up also. The public has been duped, of that there's no doubt, and it will be mighty dubious of a number of such type shows in the future. Most television networks are doing their best to right things and have cancelled anything that would contaminate the morals and good sportsmanship of the American public. Rightfully so, but if they want to keep things on the up and up I wonder why they continue to televise those silly wrestling matches which in my opinion are just as rigged as the quiz shows were. Little entertainment, if any, would be lost to the public if the televising of these farces would be discontinued. Therefore, if the fake quiz shows must go why keep on deluding the public by televising any fake "wrestling" matches?

The small game hunting season opens Monday folks and there's no better time to practice the rules of safety. Let's take every precaution this year and reduce the number of gun fatalities as much as possible. Hunting is a beneficial and healthy sport but it can turn into tragedy so be ever mindful of the few simple safety rules.

Mr. and Mrs. George Tong, St. Louis, Mo., were guests on Tuesday and Wednesday of Dr. and Mrs. D. L. Beagle.

Tax Assessment Easement Is Denied

An appeal for lowering the tax assessment on an Emmitsburg District property was turned down by the Frederick County Commissioners at a hearing in their office in Frederick Tuesday afternoon. The appeal was made to the Commissioners after Lumen F. Norris, tax assessment superintendent, had denied any easement of the assessment.

The request was made by two maiden retired school teachers, who reside in Baltimore, where they have engaged in considerable real estate dealings, who complained to the County Commissioners that a new assessment on property they own in the Emmitsburg area is too high.

In the appeals hearing, attended also by Norris, and W. G. Burgee, an assessor, the women contended that they were assessed three times as much as previously.

The land involved is an 84 acre tract with improvements located on the Hampton Valley Road, west of here. It is near Camp Pioneer. Under reassessment of the Emmitsburg district, the property value was raised from \$1,320 to \$3,570.

Complaining about their assessment were the Misses Annie E. and Millie A. Dewling. They contended they receive no income from the property, that they cannot rent a stone house to neighbors they consider desirable and that they receive no services such as police and fire protection. They also pointed out they are not on an improved road.

They told the Commissioners, rather than pay the new assessment they would "throw buildings" (tear down) located on the property. The Misses Dewling spent the summer months on an adjoining property. They pointed out they bought the land in question only as a protection as to who their neighbors might be.

Burgie explained to the women that the county can not be bothered about old assessments. He said an effort is being made now to assessing properties at "what it's worth now." He told the women that some properties have been assessed at ten times their former assessments.

The women contended that assessments were cheaper in Baltimore than here. It was pointed out to them that Baltimore City is assessed at 60 per cent of value, where Frederick County, third lowest in the state is assessed at only 41 per cent of value. It was also pointed out to the women that the county is now in the process of making an equitable assessment on all properties.

It was also explained to the women that before the new assessment was levied, some of their property had escaped previous assessment.

County Commissioner Mehrl Ramsburg also pointed out to the women that their property lies on a road that is on the 1960 roads program.

County Farmland Diminishing, Survey Shows

There will be 7,000 new homes in Frederick County by 1975, occupying 2,218 acres of urban and suburban land and increasing the population by 30 per cent, the Soil Conservation Service office in Winchester Hall, Frederick, announced this week.

This will leave 27,376 acres less of land in the county to feed 21,600 more people by 1975, according to the official Planning Commission estimate of 72,000 persons residing in the county today, it was pointed out.

The figures from which this picture of decreasing farm land and increasing urban and suburban population were obtained are contained in the official report of the Conservation Needs Committee of Frederick County to the Maryland State Conservation Needs Committee.

The report, prepared by a number of agricultural leaders from all of the farm agencies located in Winchester Hall, started by stating that there are now 404,337 acres out of 424,960 total acreage in Frederick County still capable of agricultural production, and ends by saying that in 15 years this total acreage in productive land will be reduced to 395,689 acres.

The county also contains today 6,803 acres of land owned by the Federal government including Fort Detrick, 11,316 acres of urban and suburban areas and 2,504 acres devoted to farm ponds and reservoirs.

Firemen Meet; To Show Film Next Tuesday

President John J. Hollinger presided over the regular monthly meeting of the Vigilant Hose Co. held Tuesday evening in the Fire Hall, thirty-one members in attendance.

Paul A. Keepers, chairman of the bowling team committee, reported that due to present difficulties that there would be no bowling team entered in a league this year. Guy A. Baker Jr., chairman of the bylaws revision committee announced that the proposed revisions were not ready for presentation at this time but that printed copies of the changes would be distributed at the next regular meeting. The fire chief reported that a two-way radio, meeting FCC requirements, had been installed in the panel service truck. It was announced that the Explorer Troop 286, which is sponsored by the Fire Co., held its first meeting recently and that a slate of officers was elected.

A thank-you card was received from the George A. Ashbaugh family and a communication from the Civil Defense Office was read. The letter notified the firemen that meetings and practice sessions were being held in Hagerstown and will conclude Sunday. It was announced during the meeting that the annual banquet of the Frederick County Volunteer Firemen's Assn., will be held on Dec. 12 at Brunswick. The purchase of nine new coats was approved.

A movie, demonstrating the proper method of handling and extinguishing propane gas fires will be shown in the hall Tues., Nov. 17 at 7:30 p. m. The film is sponsored by the Frederick Gas Co. and all firemen and interested individuals are invited to see the showing.

Council Of PTAs To Meet

A meeting of the Frederick County Council of Parents and Teachers will be held in the Elm Street School, Frederick, on Monday, Nov. 23, starting at 8:00 p. m. It has been announced.

The topic to be discussed at the meeting will be the School Budget.

EHS Soccerites Battle Strong Blair Team To Tie Score

Emmitsburg held giant Montgomery Blair scoreless in two five-minute overtime periods and came up with a 4-4 soccer tie at Emmitsburg Tuesday.

The Liners tallied all their points in the last two quarters while the Blazers got their four markers in the second period.

Bob Valentine kept the Liners in the contest when he booted home a field goal in the third stanza to pull Emmitsburg within two points of the mighty Blair. Valentine came to the force in the final period by ripping one past Blazer goalie Bill Hazgood to knot the count and send the game into overtime.

The two field goals by Valentine were the first scored against the undefeated Blair team this season.

Bill Ponce scored twice for the Blazers in the second quarter to rack up all their points. Blair almost booted into another tally but Emmitsburg fullback Jim Hewitt stopped the shot which had slipped by the goalie.

The capacity crowd watched and waited in the two overtime periods. But the spunky Emmitsburg line held the Blazers at bay for the ten minutes.

HUNTING SEASON OPENS MONDAY

The hunting season will hit its full stride next week in Maryland.

Maryland's seasons on rabbit, quail, pheasant and grouse officially open Sunday, but since hunting is illegal on the Sabbath, they will open Monday morning.

The Maryland seasons on rabbit, quail, grouse and pheasant close January 5. It allows four rabbits per day with eight in possession; six quail per day with 12 in possession; two grouse a day with four in possession, and two male pheasants a day with four in possession.

Maryland listed two fatalities among 10 accidents during the 1958 season. One of these involved a boy 15 years old and the other a boy, 16.

Polio Clinic Scheduled

The regular monthly Polio Clinic will be held on Thursday, Nov. 19 from 9:30 to 10:30 a. m. in the basement of the American Legion Home.

Stars In Play

Lauren Bacall will star in the title role of "Goodbye Charlie," a new comedy by George Axelrod, which opens at Ford's Theatre, Baltimore, on November 23. The play is directed by Mr. Axelrod and produced by Leland Hayward. Sydney Chaplin plays the leading role opposite Miss Bacall, and the setting is by Oliver Smith.

Two Are Injured In Truck-Car Mishap Saturday

A young girl and her mother were injured when the truck in which they were riding became involved in a crash with a car about 8:15 Saturday night on U. S. 15 near St. Anthony's.

Seven-year-old Nancy Cool of Thurmont received multiple lacerations of the knees and possible internal injuries in the truck and car collision. Her mother, 30-year-old Doris Cool, of Thurmont, received contusions and lacerations of the head, knees and elbows.

TFC William G. Morgan reported that the accident occurred when a 1948 Plymouth truck driven by Francis Cool of Thurmont, in which the Cool family were riding southbound on U. S. 15, swung wide at a sharp curve in the road and struck a 1954 Ford driven north on U. S. 15 by John Cavanaugh of Alexandria, Va.

The truck, owned by James Dubel of Thurmont, was completely wrecked in the accident. The auto had \$100 worth of damages, police reported.

Cool was charged with failure to drive to the center of the road and was scheduled for trial in the Emmitsburg Magistrate's Court on November 14.

Jesse Best Heads Thurmont Holy Name Society

The annual banquet and election of the Thurmont Holy Name Society was held at a communion breakfast served at Fitzgerald's Mason-Dixon Inn last Sunday morning. Prior to the breakfast the group attended Holy Communion in a body at Our Lady of Mt. Carmel Catholic Church, of Thurmont. Thirty-eight members were present for the affair.

Elected to head the group as president for the ensuing year was Jesse Best. Other officers selected were: Vice president, R. Baltzell; secretary, C. Ridenour; treasurer, Carlton Davis; delegates, Satoru Abbiba. The retiring slate of officers comprised the following: President, John D. Kaas; vice president, Jessie Best; secretary, Shaeffer Bailey; treasurer, Logan Tschiffely; delegates, J. Kelly and Edward Myers.

During the breakfast Rev. Fr. John Hart, pastor, gave a report of the recent Holy Name convention in New Orleans, La. Past president pins were presented to John D. Kaas, Ray Domingue, Michael Fitzgerald and Peter Sicilia.

Social Security Law Clarified

Many people believe that workers under age 21 and over 65 are not covered by social security and do not need social security cards. "If your work is covered by law, your wages or self-employment income must be reported for social security purposes," says W. S. King, Manager of the Hagerstown District Office of the Social Security Administration.

"Your social security number must be shown on this report. And, regardless of your age, you are never too young or too old to be covered by social security or to have a social security number," King says.

Hold Training Course

Twenty-three ladies attended the second session of the Girl Scout Training Course held on Tuesday evening in the basement of the American Legion Home. The third class will be held on Thursday, November 19 at 6:30 p. m.

Trailer Tax Assessment Same

Trailer owners, objecting to the method of arriving at assessments on their trailers, were given an appeals hearing before the County Commissioners Monday morning.

The trailer owners, represented by the law firm of Weinberg and Weinberg, during the hearing said they would be willing to pay taxes on an equitable basis with other taxable property in the county. However they objected to being assessed at 100 per cent, less 10 per cent depreciation of their property.

Manuel M. Weinberg of the Weinberg and Weinberg law firm told the commissioners the trailer owners thought their property cannot be considered as real estate—would be "perfectly satisfied to pay at the rate of homeowners." It was pointed out that real estate "loosely termed" is now assessed at 50 per cent of its value.

Lumen F. Norris, supervisor of assessments, had submitted to—and it was approved—by the County Commissioners the following method of assessment for house trailers:

That they be assessed annually and that a schedule be sent to the trailer owner annually requesting all pertinent information in regards to assessment and that they be assessed according to age and purchase price.

The supervisor recommended that a 10 per cent depreciation per year be allowed until a minimum of 25 per cent of the purchase price.

Mr. Weinberg pointed out that in real estate assessment considered in assessing was the value of the property, not the purchase price.

He said personal property is taxed in two ways. For manufacturing and merchants where property is for resale or classed as inventory, 40 per cent exemption is given on the book value.

Farmers he said have a blanket \$1,500 exemption on personal property used to produce income.

He said he doubts if anyone knows the basis used on assessing household. He said most renters never pay any personal property tax in the county. Still he pointed out they receive the same services—police protection, schools and health facilities—as do the trailer owners.

He said that trailers cannot be affixed as realty (unless they are set on permanent foundations, then they are taxed as real estate) and therefore they must be considered items of personal property.

It was pointed out that the commissioners lost their power to set tax rates as of July 1 of this year. They can suggest changes in assessing, however the supervisor of assessments must be agreeable to all changes.

In addition to the three County Commissioners those at the hearing Monday were Goodloe Byron, county attorney; C. Burton Cannon, clerk; Lumen F. Norris, Manuel M. Weinberg and David S. Weinberg; also three trailer owners.

Nurses' Workshop Scheduled

A Civil Defense Nurses' Workshop will be held on November 18 starting at 9:30 a. m. in the Lutheran Church Sunday School room, E. Church St., Frederick. The program will continue until 3 p. m. and will contain important material relative to the treatment of radiation casualties. A number of the highlights of the program will be a demonstration of medical training aids conducted by personnel of the Walter Reed Hospital; nursing in the care of mass casualties, conducted by Major Dolores L. Gunuskey, Army Nurse Corps, Walter Reed Hospital.

Any registered nurse who is not employed on a full-time basis by an institution, is urged to attend this workshop. Confirmation may be made by contacting the Frederick County Office of Civil Defense, Winchester Hall, Frederick, Md.

Bingo Game

A bingo party will be sponsored by St. Joseph's High School PTA in the high school on December 12, it has been announced. Play will commence at 8 o'clock and a splendid array of prizes will be on hand for the affair. During the evening refreshments will be on sale and a portable stereophonic hi-fi set will be awarded.

Any financial expert can tell somebody else how to manage his money.

MRS. MARGUERITE BIALECKI
Mrs. Marguerite Caroline Boyle Bialecki, 49, wife of Antoni Bialecki, Fairfeld R2, died at the home of her sister, Miss Sarah Boyle, Emmitsburg, Saturday evening at 8:05 o'clock following an illness of eight months.

She was born in Adams County, a daughter of Mrs. Agnes (Pecher) Boyle, Fairfeld R2, and the late James H. Boyle. The deceased was a member of St. Joseph's Catholic Church, Emmitsburg, and was a graduate of St. Joseph's High School, Emmitsburg. She was a nurse by profession.

In addition to her husband and mother, she is survived by one son, Airman A. Gerard Bialecki, Bolling AFB, Washington, D. C.; five brothers and sisters, Bernard and Joseph Boyle, Emmitsburg; Miss Sarah Boyle, Fairfeld R2; Mrs. Mary Agnes Cochran, Salisbury, Md., and Miss Joan Boyle, Hagerstown. Another brother, James Boyle of Baltimore, died 20 years ago.

Funeral services were held on Wednesday morning at St. Joseph's Church with a Requiem Mass at 10 a. m. conducted by the Rev. Fr. James T. Twomey. Interment was in St. Joseph's Cemetery.

March Of Dimes Drive Assistant Named

From former United States Senator George L. Radcliffe has come the announcement of the appointment of Richard J. deGroot as the newly assigned assistant to the State Representative of the National Foundation, Paul J. Hughes Jr. Mr. Radcliffe is state chairman of the March of Dimes.

Mr. deGroot assumed his duties in October, working from his Foundation offices at 714 Park Avenue in Baltimore. He will represent the March of Dimes through the State of Maryland and in the District of Columbia.

The National Foundation, through the March of Dimes campaign in January, finances research and patient aid in polio, arthritis and birth defects.

The new assistant, Mr. deGroot, is a graduate of Palisades High School in Revere, Pa., and of Fordham University, class of '56, where he majored in Russian. He completed a two-year tour of duty with the U. S. Navy in June, serving with Naval Intelligence and public relations in service in the Far East, Europe and this country. He completed his service with a commission as lieutenant, junior grade. He is unmarried and is 25 years old.

License Revoked

The State Department of Motor Vehicles this week announced the revocation of the driver's license of Howard William Liller, Emmitsburg R2. At the same time the Department announced it has reassigned a license to Lee Goldsborough Layman of Thurmont R1. Recent suspension of licenses and the period of time suspended were reported as follows: Larry F. Hively, Taneytown R1, 15 days; Charles Wade Poole Jr., Taneytown R1, 30 days; Gustav Schott, Taneytown R1, 15 days, and John W. Welty, Taneytown, 30 days.

Local Lions Hold Regular Meeting

Twenty members were present at the regular meeting of the Emmitsburg Lions Club held Monday night at Fitzgerald's Mason-Dixon Inn, President Ralph D. Lindsey presiding.

A complete report of the recent Charter Night which was held in conjunction with the 30th anniversary of both Emmitsburg and Thurmont Lions Club was given and adjudged a social and financial success. A number of guests was present from Fairfield and Taneytown clubs. The group was instructed to make its annual interest payment to the Civic Association for the use of the field.

Thurmont Man Killed By Train

A 66-year-old Thurmont man was instantly killed and a 17-year-old girl escaped almost unhurt Saturday night when the automobile in which they were traveling was hit by a Western Maryland Railroad freight engine at Apples Church Road crossing in Thurmont Saturday night about 8 o'clock.

Pronounced dead by Frederick County Medical Examiner Dr. B. O. Thomas Sr. was Samuel Otis Thomas, well-known 66-year-old traveling salesman, originally from Centerville, Queen Anne's County, who had resided in Thurmont for some time.

Thomas was driving his 1953 Willys across the Western Maryland railroad tracks in Thurmont when his auto was struck on the left side by a diesel freight train operated by engineer Donald Hartman Rhodes of Hagerstown, police said.

Sitting beside Thomas in the right front seat of the auto was Mary Ellen Zentz of Thurmont, who escaped with only bruises and lacerations in the accident and was released from Frederick Memorial Hospital on Sunday.

State Police said the Zentz girl escaped serious injury in the accident because she was not on the side of the car hit by the train. The freight train knocked the car from 50 to 75 feet off the tracks.

The engineer told police the automobile did not stop at the railroad crossing, which is marked by signs but not signals, and added that his train, which was carrying 70 freight cars, partially loaded, could not stop in time to avoid the accident.

State Police said the train finally stopped 175 yards beyond the point at which it struck the car. They said the engineer told them the train had blown its whistle just before the crash.

Miss Zentz told State Police Sunday that both she and Thomas were looking backward at a truck owned by the traveling salesman, which was parked in front of his home—100 feet away from the railroad crossing—as the auto crossed the tracks. Neither saw the train approaching, she said.

FARM CENSUS UNDER WAY

The 1959 Census of Agriculture, now under way in Frederick County, will bring up to date farm statistics last collected in 1954, when the farm census revealed the following facts:

The value of products sold in 1954 by farm operators was \$18,873,395.

The value of all crops sold was \$2,455,640 and included \$1,695,181 for field crops, \$249,213 for vegetables, \$299,948 for fruits and nuts, and \$211,298 for horticultural specialties.

The value of all livestock and livestock products sold was \$16,389,551 and included \$13,092,420 for dairy products, \$19,771 for poultry and poultry products, and \$2,377,360 for livestock and livestock products.

The value of forest products sold from the county's farms was \$28,204.

CARD PARTY

A card party will be sponsored by St. Joseph's High School Alumni Assn., in the VFW Annex on Dec. 1, it has been announced.

Admission to the affair will be 50 cents and the door prize to be awarded will be a Singer vacuum cleaner. Play will commence at 8 p. m.

SCHOOL MENU

The school lunch menu for the week beginning November 19 at the Emmitsburg Public School is as follows:

Monday—Meat loaf, creamed potatoes, peas, carrot strips, orange sections, jello, cookie, milk, bread and butter.

Tuesday—Hot beef and gravy, mashed potatoes, mixed vegetable, cranberry apple salad, custard, milk, bread and butter.

Wednesday—Pork pattie, green beans, sweet potatoes, apple salad, chocolate pudding, milk, bread and butter.

Thursday—Franks on roll, spaghetti, cole slaw, carrots, pumpkin pie, milk, bread and butter.

Friday—Fish sticks, buttered potatoes, celery and carrot strips, Harvard Beets, Orange juice, raisin squares, milk, bread and butter.

World Peace Institute Formed; Talks Planned

Addresses by Dr. Darrell D. Randall and Dr. Willard Johnson, group discussions, a forum, and "know-how" exhibits for carrying forward the churches' nationwide program of education and action for peace will combine to make the interdenominational institute on "Christian Concern in the Nuclear Age" an unusually stimulating event next Monday, Nov. 16, at the Frederick Church of the Brethren.

The institute is for all persons—men, women or young people—interested in giving more than lip service to the cause of world peace. It comes as a fitting follow-up to World Community Day and Veterans Day, which have occurred in the past week. Dr. Randall, who will give the keynote address at 10:30 a. m., is the associate executive director of the Department of International Affairs of the National Council of the Churches of Christ

in the U. S. A.

The nationwide program for peace is an outgrowth of the Fifth World Order Conference of the World Council of Churches held last year and was explained to President Eisenhower and his staff by representatives of the National Council at the White House in September.

The program is an effort to encourage study for informed opinions about issues of vital concern so that Christians can more effectively act as responsible citizens.

Dr. Johnson, president of the Committee for International Economic Growth, will be the speaker following 6:30 p. m. dinner. He has had wide experience in the United Nations and various organizations concerned with brotherhood.

The United Church Women of Maryland are cooperating with the National Council of Churches in sponsoring this institute, which will be the only one of its kind in Maryland. Chairman is Mrs. H. Wilson Wheeler, of Baltimore, who is chairman of Christian World Relations of the Maryland UCW and also a member of the advisory committee for Christian World Relations of the UCW department of the National Council. Leaders who will speak briefly on a morning panel and hold four simultaneous discussions from 1:30 to 3:30 p. m. will be Dr. Johnson; Mrs. Milton Lang, former missionary to India who is now active in the work of UCW; Edward F. Snyder, legislative secretary of the American Friends Committee of National Legislation, and Mrs. Dorothy Hutchinson, chairman, National Policy Committee, Women's International League for Peace and Freedom.

From four until six p. m. there will be an informal session on program helps during which guests may go from room to room to gain information on audio-visual aids, literature, pageants, choric readings, a globe project and related displays.

Persons desiring to attend are asked to call the Frederick Church of the Brethren for reservations.

There are a number of ways to make money quickly; unfortunately, most of them are not honorable.

Non-Profit Group To Check State Hospital Costs

A plan to establish a non-profit independent hospital cost auditing service to audit and certify hospital costs related to the payment for State-aided patients was announced today by F. Douglas Sears, State Insurance Commissioner, and Dr. Edward Davens, Acting Director, Maryland Department of Health.

If the plan is accepted by Blue Cross and the Hospital Council, it would be financed by them and the State Department of Health. The new organization would audit hospital costs reports and supply certified patient day costs to the sponsoring organizations and to the State Insurance Commissioner.

The plan was developed in response to the Governor's directive that adequate procedures be established to assure effective use of State funds when the legislature increased the rate of payments to hospitals to 80 per cent of the cost of care for patients certified by the Department of Public Welfare as unable to pay. The higher rate of payment goes into effect January 1, 1960.

The State Board of Health authorized the exploration and development of the plan upon recommendation of its Council on Medical Care. This Council is a broadly representative group that was established by law in 1945 to advise the Board of Health on the State's various medical care and hospital programs.

MOTHER SETON SCHOOL NEWS

The Leaders of Tomorrow Civics Club of Mother Seton School this week received its official charter from the Commission on American Citizenship in Washington, D. C.

The charter formally recognizes affiliation of the local unit with the national organization headquartered at The Catholic University of America. Pupils of grade eight comprise the local club membership.

The officers of the newly organized club are: Rebecca Norris, president; Jack Dillon, vice president; Theresa Kelly, recording secretary; Jeanne Chrimer, treasurer; and Van Dupuis, sergeant-at-arms.

The Leaders of Tomorrow Civics Club is one of the thousands of Catholic Civics Clubs chartered in the United States for the express purpose of "fostering training for good citizenship."

Through monthly projects and study of articles featured in The Young Catholic Messenger — the national Catholic weekly for students of the upper elementary grades—these young citizens learn in a practical way the meaning of Christian social living based on principles of justice and charity.

This year the program of study and action will develop the practical theme, "Be A Good Citizen—Serve Your School."

Those who overtalk — about themselves—rarely fool the public long. Life would be made simple if more people were willing to be themselves.

Check Your Oil, Sir?

Refueling naval ships at sea requires skill and seamanship. The crew of the aircraft carrier, U.S.S. Wasp (CVS-18), has added a third ingredient — humor. The Wasp refuels from tankers, then fuels its accompanying destroyers from its own oil supply. During a recent fueling operation, the deck crew of the Wasp rigged a bosun's chair and highlined Seaman William Tracy (right) across to the deck of the destroyer, U.S.S. Blandy (top right). Aboard the destroyer, Tracy played the role of a service station attendant by cleaning the windows of the destroyer's bridge. The skipper of the Blandy showed his appreciation by tipping Seaman Tracy a quarter for his friendly Esso service.

Looking Ahead

...by Dr. George S. Benson
DIRECTOR - NATIONAL
EDUCATION PROGRAM
Searcy, ArkansasReaching The
"Forgotten People"
Hundreds of thousands of
Arabs who were pushed out of

their homes in Palestine when the United Nations created Israel, and who have lived in miserable refugee camps and communities along the western border of Jordan for more than 10 years, have finally come within the reach of CARE, the organization through which Americans can share their great material blessings with the less fortunate people of the world. The shocking plight of these

Arab refugees has not been adequately reported in America. In fact, it required an extraordinary personal effort on the part of a retired Texas business man to make the services of CARE, at long last, available to them.

The Texan is A. K. Barakat, Amarillo merchant. Born in Jerusalem, he came to Texas more than 50 years ago. He worked hard and saved, and in time established his own business. For some time I have known of his personal crusade to get CARE to extend its helping hand to the 600,000 Arab refugees from Palestine who for 10 years have been the "forgotten people" of the Middle East. I have just received a letter from Mr. Barakat reporting that CARE headquarters in New York had advised him that negotiations had been completed with Jordan for the extension of service to the Arab refugees.

Shipments Soon

A letter also has been received from Fred W. Divine, deputy executive director of CARE, and another from Mrs.

Raymond Clapper, director of the CARE Washington office, both reporting that a task force now is in Jordan studying the specific needs and that actual shipment of packages will begin soon. As of this date, CARE is accepting contributions earmarked for this service. A United Nations food program gives them a meager ration, less food for a full day than the average American has for one meal.

When Mr. Barakat began his crusade to get recognition for the plight of these dispossessed people, it quickly began to look like an almost hopeless cause. His first reply from CARE was discouraging, although the officials seemed sympathetic. Technicalities, political turmoil and other problems stood in the way, he was told. But he was determined.

Determined Good Will

Mr. Barakat felt that very few people knew of the plight of these people. He felt that with Americans giving, through CARE and other agencies, to other needy people all over the world, while apparently ignoring the desperate plight of the Arab refugees from Palestine, our nation was losing a great reservoir of good will in the Arab world where America has been universally respected and admired. He wrote to an organization called, "American Friends of the Middle East." The discouraging reply said: "You are beating your head against a wall." That made him all the more determined.

He was certain there was no legitimate reason for CARE not extending the service to these people. He wrote his Congressman and Senator Lyndon Johnson. He wrote Vice President Richard Nixon, and President Eisenhower, and the Jordan Ambassador. Mostly they replied: "CARE is a private, voluntary organization. We can't do anything officially. But, we'll try to help get something done." Mr. Barakat kept after them. He began to attract some attention at the White House and in Congress. He began to get action. Finally the last "technicality" was overcome. The task force now is in Jordan. Packages soon will be going to the Arab refugees — as Americans respond.

A Good Idea
Mrs. Clapper, who gave her

personal support from the beginning, sends me this good news: "CARE is right now accepting contributions earmarked for Jordan in any amount the donor wishes to give. CARE will distribute both surplus food and self-help tools." The minimum gift is \$1. With your gift of \$1 a food package containing about \$10 worth of nourishing food will be sent. With a \$10 gift your benevolence will reach nearly 100 hungry children and adults. Or it will supplement the present, scarcely above starvation diet of a single Arab refugee family for perhaps a month.

"On top of this," CARE's Fred Divine says, "we hope to provide additional material for the refugees to make their own clothing and hopefully to arrange for self-help projects which will make the Arab refugees more self-supporting and less dependent upon aid from abroad." This is of vital importance. Much of CARE aid throughout the world is in tools and raw materials — stimulating self-reliance which is the basis of the only genuine economic security that mankind can achieve.

Mr. Barakat's success, overcoming formidable obstacles, is inspiring. It gives us a dramatic answer to the question: "But what can an ordinary citizen do?"

Pimlico Ready For Opening Today

BALTIMORE—One of the special features of the opening of Pimlico on Friday, November 13 will be the first public display of the portraits of the three newest members of the National Jockeys Hall of Fame.

Oil paintings of Willie Shoemaker, Mack Garner and Carroll Shilling will be hung in the permanent Hall of Fame gallery which previously included twelve of the nation's greatest riding stars. The new portraits, like those which preceded, are by Henry Cooper of Pikesville, Maryland, one of the country's outstanding portrait artists.

Cooper's work in the past has drawn high praise, not only from those who knew the subjects because of their racing activity but from members of the families of those jockeys who are deceased.

Shoemaker, only living member of the trio voted into the Hall of Fame this season, recently posed in New York for Cooper while the portraits of Shilling and Garner will have been done from photographs and information furnished by the friends and families of the former jockeys.

Of the others in the Hall of Fame, Cooper painted from life the portraits of Eddie Arcaro, Earl Sande, Ted Atkinson, John Longden and Raymond (Sonny) Workman. In the earlier group, he painted from photos and descriptions the portraits of Laverne Fator, Snapper Garrison, James McLaughlin, Walter Miller, Isaac Murphy, Ted Sloan and George Woolf.

The Maryland Jockey Club keeps the historic shrine open thirty minutes after the last race

each afternoon so that fans from all sections of the stands may visit the famous display.

Shoemaker is expected to be in action during the Pimlico meeting and thus get plenty of opportunities to view Cooper's portrait of the youngest rider ever voted into the Hall of Fame.

Fiscal Year Shows Sales Tax Increase

Louis L. Goldstein, State Comptroller, today released a detailed report covering final statistics on Retail Sales and Use Tax collections for the fiscal year ending June 30, 1959.

Mr. Goldstein points out, however, although there is an increase for the fiscal year of \$11,602,528.23, this increase is due principally to the increased rate on sales tax from 2% to 3% which became effective January 1, 1959.

There were 491,967 tax returns filed during fiscal year 1959 compared to 489,801 returns filed in 1958, an increase of 2,166 returns.

As in previous years, Baltimore City, which is the buying and shopping center of the entire State, continues to be the largest

source of sales tax revenue with collections of \$22,567,341 or 40.34 per cent of the total.

Among the counties, the top five produced revenues as follows: Baltimore County, \$6,313,982; Montgomery, \$5,118,227; Prince George's, \$3,921,127; Anne Arundel, \$2,288,996; and Washington County, \$1,596,246.

Sales Tax collections from the District of Columbia were \$2,171,207 and from other out-of-state vendors, \$2,235,332.

Analysis of the sales tax collections by major categories of business indicate that Durable Goods items, covered under categories of Furniture and Appliances; Building and Industrial Supplies; as well as, Utilities and Transportation group, produced the largest per cent of increase.

Emmitsburg, Md.

Reminding motorists that zero temperatures are on the way is blue-eyed Penny Peterson, "Miss Anti-Freeze of 1959."

The 20-year-old brunette won out over three other finalists in nation-wide balloting by members of the press and dealers of the Du Pont Company's "Zerex" anti-freeze. This is the eighth consecutive year for the contest sponsored as part of a public service program to encourage car owners to winterize early. The finalists had been selected from scores of models interviewed in cities throughout the United States. The candidates were judged on the basis of beauty, poise and personality.

One of the first jobs of the new "Miss Anti-Freeze" will be appearances on television and radio in major U. S. cities to encourage car owners to winterize early. She will stress that having your car winterized before the first freeze not only saves possible repair bills later, but gives you peace of mind when freezing weather comes.

plies to both students already enrolled in the university and Maryland high school students who plan to enter for the spring semester.
Under provisions of the Act, students must meet qualifications to be eligible for assistance: (1) Be a citizen or a permanent resident of the United States, (2) Have made at least a 2.0 average during the past year (For entering freshmen, a 2.5 average for the last two years of high school), (3) Be a full-time graduate or undergraduate student, and (4) show evidence of financial need.
Dr. Poffenberger pointed out that special consideration will be given to students who plan to teach, and students whose academic background indicates a superior capacity or preparation in science, mathematics, engineering, or a foreign language.
Students may obtain application forms from the Loan Office, Room 290, North Administration Annex, University of Maryland at College Park.

Driver Registration Continues
Commissioner of Motor Vehicles, John R. Jewell, is issuing a warning to drivers whose last names begin with 'L', 'M', 'N', or 'O', and who have not re-registered their driving licenses. Their present license expires on December 31, 1959, and they should apply for renewal without delay.
If an application has not been received by anyone in the above

group, or the one sent has been lost or destroyed, notify the department in writing at once giving your full name, correct address and number of your present driving license. Applications should be returned to the department immediately in order to receive your new license before the old one expires on December 31.

BABSON
Writes . . .

BY ROGER W. BABSON
Babson Discusses Denmark
Copenhagen, Denmark, Nov. 12—Let me first make an apology about Norway, Sweden, and Denmark:—
Babson Apologizes

Prior to this trip, I had assumed from my reading that the Scandinavian countries followed a system of government and an economic way of life halfway between Communism and Capitalism. After three weeks of travel through Scandinavia, I have come to the conclusion that this representation is misleading.

These three Scandinavian countries can be called "Welfare States" owing to the fact that great consideration is given to free hospital and dental service, care of young mothers and their babies, and old-age pensions. These things are in addition to government operation of the railways, bus companies, telephones, municipal apartments, etc., and in addition to the great co-operative stores. But private ownership is encouraged and these countries are democratic in their conduct of all political elections. Nothing here resembles Communism in any way.

Copenhagen A Free City
Of the leading European countries, Denmark is the only one where the baggage of American tourists is not examined. Most goods are not taxed on entry; these nontaxable items include liquor, cigarettes, cameras, etc. Copenhagen (in which city is concentrated nearly one-third of the population of Denmark) is a "Free Port." Consequently, it is a great "Shopping Center" for all women of the world! The women tell me that its goods are both the most beautiful and the lowest priced, while goods are the highest priced in Paris.

Denmark has not natural resources except its fertile soil, industrious people, and a reputation for excellent character. All food products are raised here, living costs are low, most people live in apartments, and everyone rides a bicycle! The

HOW FALLOUT shelters would protect occupants after nuclear attack is shown in this drawing of a modern American home. Fallout—mostly tiny particles of matter charged with radioactivity—is carried downwind from a nuclear blast, and settles on the roof and grounds. From these fallout particles, radiation rays (arrow-like figures) shoot out which can penetrate most substances. Enough rays can cause radiation sickness to people without their realizing it, since radiation cannot be detected by the senses. But the materials of a fallout shelter are dense enough to absorb most radiation and prevent it from reaching the occupants. The Office of Civil and Defense Mobilization has declared December 7 as National Civil Defense Day to remind Americans that millions might be saved after a nuclear attack by such relatively simple precautions. A booklet on building fallout shelters is available through civil defense offices, or from Box Shelter, OCDM, Battle Creek, Michigan.

Ten Tips Tell How To Remodel Your Kitchen

Kitchen experts agree on one sure way of determining whether today's homemaker has an up-to-date kitchen in her home. If she complains about lack of work area, needs storage space and finds it difficult keeping the kitchen area clean, remodeling is a definite must.
Reducing kitchen work is not the only encouragement for kitchen remodeling, however, as prospective home buyers head directly for the kitchen to inspect these facilities. Chase Brass and Copper Co. research planners in Waterbury, Conn. study these problems and strongly advise modernizing the kitchen as one of the best methods of keeping up resale values. Redoing a kitchen is not inexpensive, they say, but the increase in home value often exceeds the expenditure, plus the added easing of duties and kitchen comfort. Chase lists the ten following suggestions to help you get the most from your money and effort.
• Start your plans with placement of three basic items, the refrigerator, stove and sink. They should form a triangle, the total perimeter of which should be no less than 12 feet to prevent crowding and no larger than 22 feet to eliminate unnecessary walking.
• Counters and cabinets should be placed around these items where they will be most handy. Size will depend on amount of service to be handled. Six feet of counters and six feet of three-shelf cabinets are the minimum with service for four.
• Replace inefficient plumbing with corrosion-resistant copper tube—it lasts much longer than ferrous materials and assures a full flow of water without rust. Besides, long coils of copper water tube can be snaked through a small opening, without tearing out walls and floors, and with the old pipe left in place.
• Plan to put in modern electrical wiring, too. A modern kitchen should have ample outlets for appliances and should be able to provide all the current you need without blowing fuses. Wall receptacles should be placed above counters so that they will be as handy as possible.
• Consider the easy-care plastic laminates for counters and splash panels behind counters and stove which range in colors to match walls and floor.
• Vinyl flooring is about the longest wearing and best looking flooring this side of ceramic tile and will stand all the abuse that a kitchen has to take.
• Wall ovens and counter top ranges are glamorous and save on bending; but they require custom-built cabinets for the most part. If you are going to have the cabinets built anyway, then by all means consider a wall oven.
• Color schemes range from copper and wood finish to gay pastels. Your appliances can be made to match. But be sure that appliances from different manufacturers can be obtained in identical shades.
• Install an exhaust fan or air filter hood over your stove.
It will take out unpleasant kitchen odors and cut down on cleaning in the kitchen.
• Consult a kitchen remodeling contractor. His advice and assistance with plans is a valuable part of his services and the best way of estimating what kitchen remodeling will cost.
No standards have ever been set for a modern kitchen. Differences in space available in each home, difference in the size of families and the difference in family living habits will keep your ideal kitchen from being identical to the ideal kitchen of your neighbor. That is why planning and analysis are so important in successful kitchen remodeling.

majority of the population are of Caucasian origin; the girls are beautiful with golden hair. I can appreciate Governor Rockefeller's son choosing to marry a Scandinavian girl!
The World's "Shopping Center"
All who read this column know and patronize some new "Shopping Center" which has recently been built near their towns. Well, my wife considers Copenhagen the leading "Shopping Center of the World." Moreover, it is easy to reach, since the beautiful and steady ocean liners of the Swedish-American line go directly from New York to Copenhagen as their first stop.

Eliminating Economic Causes Of War
Following World War I a group of prominent Philadelphia businessmen — under the leadership of Mayor Vandegriff and of George Horace Lorimer, famous editor of the Saturday Evening Post—formed a society which interested me greatly. This society believed that war could be eliminated henceforth only by gradually eliminating tariffs and giving equal economic opportunities to all nations. Unfortunately, World War II broke up this society.

The Society is now being revived, and I am pleased to say that Copenhagen is being considered as its World Center. One reason for my being over here is to help with the rebirth of this Society. And I am interested in knowing how Germany, Poland, and Russia feel about the idea of low tariffs being considered as a part of any plan of general disarmament. Certainly the United States cannot safely reduce its tariff without assurance of some satisfactory world wage stabilization. Disarmament is a very complicated problem and Mr. K knows it to be so.

Power Utility Invites Contractors To See Display

Electrical contractors, building contractors, architects and their employees have been invited to attend the second annual "Watts Now" residential wiring equipment display, Tuesday, November 17 at Trinity Evangelical and Reformed Church, 30 West North

Street, Waynesboro.
Sponsored by manufacturers' and local distributor representatives of electric wiring equipment and the local power company, this exhibit will feature the latest and newest in electrical wiring equipment and will be on display from 4 p. m. to 9 p. m.
Included in this year's show will be a demonstration of aluminum cable and connectors, raceway demonstrations, new ideas in wall switches using decorator ideas, a display of the latest wiring tools and other equipment demonstrations and displays.

Also included on the program will be information on the new changes in the national wiring code which affect contracting and building operations.
Representatives of wiring equipment manufacturers and distributors will be on hand throughout the evening to demonstrate the equipment and answer questions of visitors.

Through these presentations, contractors, builders and architects will be presented with new materials and methods that could help reduce labor and material

costs, while providing a better service to customers.
Light refreshments will be served and the sponsors remind that "dress is informal."
Everybody would like to have a government that can operate without taxes and yet give the people the benefits of modern times.

THE WORLD'S MOST WIDELY USED DEVOTIONAL GUIDE

Read Ephesians 3:14-21.

Who shall separate us from the love of Christ? (Romans 8:35). Having loved his own which were in the world, he loved them unto the end. (John 13:1).

Christ's love never varies. No matter how cold our love to Him, how selfish or self-centered, disobedient or neglectful we may become, He does not alter in any way His love to us. His love neither diminishes nor cools. It is unquenchable.

Sometimes we become disillusioned with those we love. So we restrain our love. Often a coolness springs up between us. But our Lord is never disillusioned with us. He knows us. He understands us. He forgives us, and keeps on loving us with the same intensity.

His love is unlike all other loves. It is divine. So is the love which He imparts to us, and which may be implanted in our hearts, if we will it. This is the love that draws humanity to Christ, woos and wins men and women and melts hardened hearts.

Prayer

Our Father, we thank Thee for that unchangeable and eternal love of Christ. May our knowledge of that love grow more and more. Grant that we may experience Thy love in our lives. May we make it known to others, that they may be warmed and comforted, even as we are. Through Christ our Lord. Amen.

Thought For The Day

We who accept Christ's love are to convey it to others.

Mary Bryson (British Columbia)

Lutheran Women Hold Meeting

"What does the Lord require of you, but to do justice and to love kindness and to walk humbly with your God," was the theme of the Middle Conference of Maryland Synod, United Lutheran Church Women, which met Thursday, November 5 at St. Matthew's Church, Pleasant Valley, Md., the Rev. Lloyd Seiler, pastor.

Mrs. Luther Horine conducted

both the morning and afternoon devotions.

Mrs. Lloyd Seiler, wife of the pastor of the host church, extended greetings. Mrs. Martha Shaw, past president, gave the response.

Mrs. P. S. Yingling and Mr. Levine Myers favored the group with a duet during the morning session and Mrs. Charles Black and Mrs. Robert Danner with a duet during the afternoon session.

Highlights of the convention which was held in Baltimore were given by Mrs. Bartgis Storm.

The four functional committees headed by Mrs. Robert Daugherty, Mrs. Richard Shanbrook, Mrs. Garland Feaga and Mrs. G. Thomas James, gave helpful suggestions for each ULCW.

"Opportunities Unlimited" was the topic used by the guest speaker, Mrs. Charles Hauser, to hold her group of 211 United Lutheran Church Women spellbound.

In the afternoon Mrs. Hauser gave many suggestions and helpful information about the two themes for mission study—Africa and Town and Country Churches.

Mrs. Charles Trunk, synodical president, brought helpful suggestions for each ULCW.

Mrs. Carl Schaeffer, president of Middle Conference, presided at both sessions.

In seven previous runnings of the Gallopette Stakes for fillies and mares at Pimlico, three-year-olds have won the four occasions against older rivals. LaCorredora, Sabette, Searching and Little Pache were that age.

CLUB CALENDAR

Amalgamated Clothing Workers Union meets the 4th Thursday of the month at 7:30 p. m. in the VFW Annex.

American Legion, 1st. Tuesday. American Legion Auxiliary, 1st. Tuesday.

Boy Scouts, every Tuesday. Blessed Virgin Sodality, third Monday.

Burgess and Commissioners, 1st Monday.

Community Fund, last Monday. Chamber of Commerce, third Tuesday.

Emmitsburg Municipal Band, rehearsal every Monday evening at 8 o'clock, VFW annex.

Girl Scouts, every Friday at 4:00 p. m.

Grange, 1st and 3rd Wednesday at 7:30 p. m.

Holy Name Society, 3rd Tuesday at 7:30 p. m.

Homemakers Club, 4th Thursday.

Indian Lookout Conservation Club, 4th Tuesday, 7:30 p. m.

Knights of Columbus, 1st and 3rd Mondays at 8:00 p. m.

Lions Club, 2nd and 4th Monday at 6:15 p. m.

Luther League, 1st and 3rd Sunday.

Lutheran Church Council, last Tuesday.

Masonic Lodge, 2nd and 4th Thursday at 8:00 p. m.

PTA, Emmitsburg Public School, 4th Wednesday.

PTA, St. Joseph's High School, 2nd Tuesday, 8 p. m.

PTA, Mother Seton School, 2nd Thursday.

United Lutheran Church Women 1st Thursday.

Vigilant Hose Co., 2nd Tuesday at 7:30 p. m.

Veterans of Foreign Wars, 1st Wednesday.

VFW Auxiliary, 1st Thursday.

Roland Long, Oldest Member Of Maryland Jockey Club

There have been 1,485 days of racing at Pimlico since 1906 and Roland M. Long estimates that he has been present for no fewer than 1,460 of them.

At 71, Long, a retired Baltimore businessman, is the oldest active member of the Maryland Jockey Club and probably the nation's champion race-going fan. When he began visiting Pimlico admission to the clubhouse was \$1, programs cost 10 cents and a hot dog or glass of beer could be had for a nickel.

Long, who has never deviated from his formula of making one \$2 bet on every race, thrilled to the races at Pimlico for nearly a half century without seeing any major change in the nation's second oldest track.

Then, in 1953, a new management team took over, composed of Baltimoreans Herman and Ben Cohen and their cousin, Louis Pondfield. Since then, Long has noted a capital improvement and change nearly every season.

It began in 1954 when the new owners invested \$2,000,000 in a new grandstand-clubhouse building complete with such do-dads as escalators and elevators. The same season one of the nation's finest grass tracks was built inside the main oval.

In 1955, the Maryland Jockey Club undertook the founding and establishment of a permanent gallery for the National Jockeys Hall of Fame, now one of racing's best known shrines.

In 1956, the old members club-house, from which Long watched his first Pimlico racing as it was on opening day on October 25, 1870.

In 1957, with Pimlico racing now extending into late autumn,

a closed circuit television network was installed to bring a view of the races to all of the heated indoor areas of the track buildings.

In 1958, ten acres of additional parking space were paved.

In 1959, prior to the spring meeting, the main track was completely re-modeled to increase the stretch run to one of the ten longest in the nation and make it possible to start six and ten-furlong races on the main track.

For the opening of Pimlico's 141st race meet Friday, November 13, another \$750,000 improvement will be unveiled in the form of an extension to the grandstand-clubhouse building opened in 1954.

The huge stand is now 360 feet in length, 150 feet deep and 70 feet (six stories) tall. It is serviced by five escalators and an elevator and has been glass enclosed in front. The most powerful heating system in racing has been installed.

About the only thing that remains unchanged is the faithful Mr. Long. He will doubtless take note of the latest Pimlico improvement and then go back to the happy occupation of picking winners.

Gov. Program

For Wool Producers

A new 3-year agreement between government and industry for a program to promote increased use of lamb and wool has been announced by the U. S. Department of Agriculture, according to word received by Wil-

liam L. Dudley, Chairman of the Maryland Agricultural and Conservation Committee.

The agreement is between the Secretary of Agriculture and the American Sheep Producers Council. It is being continued on the basis of a referendum of sheep growers, in which 69 per cent of the growers voting, producing 81 per cent of the sheep represented, favored continuing the agreement.

The program will be financed by deductions from incentive payments earned by producers in the national wool program. Under terms of the agreement, deductions will be made from payments next summer for the 1956 marketing year (April 1, 1959 through March 31, 1960) at the rate of one cent per pound of shorn wool marketed and five cents per hundred pounds of live weight of unshorn lambs marketed. Deductions for the 1960 and 1961 marketing years will be made at such dates as are agreed upon but not more than the 1959 rate.

WANTED

VOLUNTEER RESEARCHERS TO HELP PREVENT CANCER

This community has been selected to participate in the largest medical statistical study ever undertaken. Your help is needed right now for a "Cancer Prevention Study" which will record the family backgrounds, personal habits, medical histories, occupations and other factors in 500,000 families throughout the nation.

Responses to questionnaires (which are completely confidential) will be analyzed for clues as to why some people may be more likely to get cancer than others. It is expected that from these records will emerge some common factors which cause cancer. When these are known, it will be possible to evolve ways of preventing the disease which now strikes 500,000 Americans every year.

Put your spare time to work for the sake of your family, your friends, yourself. Volunteer to help enroll families in this vital study. Write or phone the Unit of the American Cancer Society nearest you. Help prevent cancer in your community.

AMERICAN CANCER SOCIETY

How You Can Make A Soldier Towel Holder

HERE'S AN easy-to-build towel holder that can be made in a few hours. All you need are: a 16" x 48" sheet of half-inch or three-quarter-inch plywood, corrugated nails, glue, and paint—red, white, black, gray and yellow.

Cannon Homemaking Institute suggests these simple directions: Cut soldier towel holder from plywood using pattern at right (each square is 2" x 3"). Use corrugated nails and glue to attach extended arm to body. The small triangle of plywood is attached with glue to the back of the soldier, forming a brace as shown in the small drawing.

Figures on 4-H enrollment for 1959 again show an upward trend. If the increase is reflected in all 50 states and Puerto Rico, this year's final score could well be within touching distance of the two-and-one half million mark, predicts the National Committee on Boys and Girls Club Work.

While the number of 4-H'ers is steadily increasing, the annual crop of winners remains about the same, the National Committee points out, because the number of award programs is limited. Thus individual qualifications become higher and competition keener. At the present time the ratio for state and national winners is one member out of 2,000.

The national award programs in which 4-H'ers participate include clothing, frozen foods, entomology, safety, public speaking, and tractor. There are nearly 50 others, according to the National Committee.

All 4-H projects and activities endeavor to show how to improve the individual, the family, the home, farm and community.

Every 4-H member pledges "... my head to

clearer thinking ... my heart to greater loyalty ... my hands to larger service ... my health to better living, for my club, my community, and my country."

Besides the personal satisfaction of "learning by doing," 4-H'ers take great pride in their accomplishments, and outstanding records are rewarded, the National Committee reports.

Awards are provided annually by individuals and business firms among which are: Mrs. Charles R. Walgreen, Standard Brands, Coats & Clark, Carnation Co., Simplicity Pattern Co., Hercules Powder Co., Betty Crocker of General Mills, Whirlpool Corp., Montgomery Ward, General Motors, Firestone Tire & Rubber Co.

Also John Deere, Singer Sewing Machine Co., Colgate-Palmolive, Homelite, Armour & Co., the Burlington, Milwaukee, and Illinois Central railways, Wilson & Co., and American Oil Co.

All 4-H programs are directed by the Cooperative Extension Service, USDA. Arrangements for the national award programs are made by the National Committee.

"Thanks for calling"

How often people use those words at the end of a telephone call!

Perhaps they mean "thanks for the good news." Or "thanks for this useful information." Or "thanks for the order."

Sometimes they mean "thanks for thinking of me. Thanks for cheering me up."

Whatever the meaning may be, people do appreciate your calls and you appreciate theirs.

"Thanks for calling" is a constant reminder of how much usefulness and value and friendship your telephone gives you. It's one of life's biggest bargains.

and
THE UNKNOWN HEIRS OF
MARIE CELESTE WELTY,
DECEASED, and THE UNKNOWN HEIRS AND DE-
VISEES OF J. BERNARD
WELTY, DECEASED.

ORDER OF PUBLICATION

The purpose of this proceeding is to procure a decree to remove cloud upon the title of the Orators to the properties described, and declaring ownership of the properties.

The Bill of Complaint states that the Orators are some of the heirs at law (and their respective spouses as indicated in the title to the proceeding) of Marie Celeste Wely who died intestate, a resident of Frederick County, Maryland, on or about the 3rd day of August, 1935, leaving no children her surviving but leaving her husband, J. Bernard Wely, her surviving.

That the respondents, Tyson J. Wely and Ethel Wely Gelwicks are devisees of certain real estate hereinafter more particular-

ly described under the will of J. Bernard Wely, also more particularly hereinafter described, who died a resident of Frederick County, Maryland, on or about December 25, 1957; that the respondents, William Sanders and Ida Sanders, his wife, are the tenants of said real estate devised by the will of J. Bernard Wely to Tyson J. Wely, and the remaining respondents are the remaining heirs of the said Marie Celeste Wely, deceased, (and their respective spouses as indicated in the title to this proceeding).

That prior to her death, the said Marie Celeste Wely was the owner in fee simple of two parcels of real estate situate, lying and being in Emmitsburg District, Frederick County, Maryland, consisting of a house and lot in the Town of Emmitsburg, known and designated as Nos. 19 and 21 West Main Street, and of a farm on the Keysville Road containing 180 acres of land, more or less, both parcels having been conveyed to the said Marie Celeste Wely by James E. Elder and wife by deed dated the 7th day of October, 1905, and recorded in Liber D.H.H. No. 11, folio 302, one of the land records of Frederick County, certified copy of said deed being filed herewith, prayed to be taken as a part hereof and marked "Complainants' Exhibit No. 1".

That on or about the 7th day of October, 1905, the said Marie Celeste Wely did execute a paper writing purporting to convey to the said J. Bernard Wely, her husband, an undivided one-half interest in the two parcels above described, "to have and to hold said undivided half interest with myself as joint tenants and not as tenants in common", such deed being recorded in Liber 271, folio 299, one of the land records of Frederick County, certified copy of said deed being filed herewith, prayed to be taken as a part hereof and marked "Complainants' Exhibit No. 2".

That your Orators had no knowledge of their interest in the aforesaid real estate until after the death of the said J. Bernard Wely, on or about December 25, 1957, when a check of the land records of Frederick County, for the purpose of obtaining an adequate description of the aforesaid properties for inventory and tax purposes in the estate of the said J. Bernard Wely, disclosed the aforesaid deed and the interests of the heirs of Marie Celeste Wely in the above described two properties.

That, as previously stated, the said J. Bernard Wely by his will dated February 2, 1955, purported to devise the aforesaid farm property to the respondent, Tyson J. Wely, and the aforesaid town property to the respondent, Ethel Wely Gelwicks, said will being probated December 30, 1957, and recorded in Liber D.H.R. #3, folio 381, one of the will records of Frederick County, certified copy of said will being filed herewith, prayed to be taken as a part hereof, and marked "Complainants' Exhibit No. 3" but such will is void and of no effect as to the interests of the heirs of Marie Celeste Wely in such properties because said purported conveyance is either (a) a nullity for the reason that there is a void attempt to create a joint ownership, in which case the said J. Bernard Wely would have been entitled only to the sum of \$2,000.00 plus one-half of the estate of Marie Celeste Wely under Article 93, Section 127 of the Annotated Code of Maryland, as enacted by Chapter 387 of the Acts of 1933, or (b) such purported conveyance conveyed only an undivided one-half interest in such properties to said J. Bernard Wely.

That despite the above, your Orators are advised and allege that the respondents, Tyson J. Wely and Ethel Wely Gelwicks are in possession of and claim the full and undivided fee simple title to such properties; that an actual controversy exists between the parties hereto.

To the End Therefore:

1. That this Court may take jurisdiction in the premises and enter a decree removing the cloud upon the title of your Orators in and to the properties described in the Bill of Complaint.

2. That this Court shall declare the rights and interest of the parties hereto in and to the properties described in the Bill of Complaint.

3. That your Orators may have such other and further relief as the nature of their case may require.

Upon the foregoing Petition, it is ORDERED this 15th day of October, 1959, by the Circuit Court for Frederick County, that a subpoena be issued for the resident defendants as recited in the titling hereof, returnable to the 30th day of October, 1959, commanding them to show cause, if any they have, within 15 days thereafter why a decree ought not to be passed as prayed therein.

And further that notice be given the non-resident defendants as recited in the titling hereof, as well as the unknown heirs of Marie Celeste Wely, deceased, by order of publication, of the object and substance of the foregoing Bill of Complaint in a newspaper published in Frederick County, Maryland, once a week for four weeks before the 21st day

OVER THE GARDEN
WALLSA COLUMN FOR
HOMEOWNERS

November is the best time to transplant roses.

New plants from the nursery are usually pruned. But if tops are large, prune them back. This will keep the top in balance with the roots.

Roses do best in beds that are thoroughly spaded and well worked. If your soil is not well drained naturally, you'll need to replace some of the clay with either good topsoil or organic matter. A light touch of fertilizer is advisable on infertile soils, but hold off heavier fertilization until spring when new growth starts.

You can get complete directions for growing roses from your county agent. Ask him for Bulletin 164, "Rose Culture."

Lime Will Help

Lawns and vegetable gardens require adequate quantities of lime for best performance. Lime not only neutralizes soil acidity, but supplies calcium and magnesium, which are essential to plant growth. Lime also increases the efficiency of the fertilizer applied and thus results in better appearing lawns and gardens.

Ground limestone, burnt or hydrated lime may be used. If you use pulverized limestone, ask for material all of which will pass a 20-mesh screen and most of

which will pass a 60-mesh screen.

Often sandy soils are low in magnesium and should receive a high magnesium lime.

How do you know how much to apply? The best way to determine the kind and amount of lime needed is to have a soil test made. See your county agent to find how you can get a free soil test.

On lawns and gardens, a maintenance application of lime is needed about once in every three to five years.

Garden Notes

You and the neighbors will be looking at your garden spot on and off all winter, so tidy it up a bit. Pull up and make compost of old plants. It'll not only make good organic matter for next year, but will reduce disease, insect and weed carry-over.

If you'd like to try overwintering cabbage, set plants around Thanksgiving time (for the middle part of the state). Set large plants of Wakefield, Early Round Dutch, or Greenback types, since they will stand overwintering best.

Don't burn your leaves. Make them into compost.

Watch Garden Living on WBAL-TV, 1:30-2:00 on November 14 to learn how to prepare your lawn-mower for winter storage.

SPORTS
AFIELD

By Ted Kestm

Considering the great amount of monofilament now used in fishing, it's not an exaggeration to say that the first and most important thing most anglers should learn is the correct knots for this material, and how to tie them exactly right, states Jason Lucas, Angling Editor of Sports Afield Magazine.

Remember that, regardless of number of turns, this knot will never be safe unless you draw it up very slowly and steadily to what you judge to be a high proportion of its breaking strain.

A fly rod bass leader is usually level, and considerably stronger than necessary to land the bass because a very light leader would not turn over properly to drop your bass bug as it should. Therefore a three-turn clinch is best for it, simply because it can be flicked loose so easily in changing bugs or streamers.

In conclusion, anglers should be warned against that simplest possible little knot, the overhand, which sometimes occurs accidentally in the middle of a strand—fly fishermen call it a wind knot, since they get it frequently when casting a long line in a wind. Occasionally, too, it somehow sneaks into a spinning line. Nothing could look more harmless; in fact, you're not likely to notice it unless you're looking for it.

Senator Butler Says
Aeronautics Board
Has Complex

Senator John Marshall Butler (R.Md.) today suggested that the Civil Aeronautics Board overcome its "Sphinx complex" in connection with the Washington-Baltimore Adequacy of Service case.

In a statement released from his Capital office, Senator Butler said: "November 7 marked one year since the completion of formal hearings before the Civil Aeronautics Board of the Washington-Baltimore Adequacy of Service case. There has been no decision. This date was not an anniversary to provoke spirited celebration nor encourage an anniversary waltz although some uncharitable souls might suggest that the case in question is receiving a 'run around'."

"Judging by the latest passenger and freight figures, Friendship International Airport is doing very well and promises to continue to fulfill its promise as an outstanding international terminal. However, its reputation would be considerably enhanced

The NSC At Work

Last week this column featured some interesting facts on the National Safety Council (NSC) and how it was organized some 47 years ago for the promotion of safety in all phases of our American life. This week I should like to give you some interesting facts on the work that is carried out each year by the National Safety Council and what it plans to do in the future regarding accident prevention.

Highlights of the National Safety Council's 1959 Report to the Nation is most interesting and shows that this organization and its safety program is doing ev-

Looking Forward To Thanksgiving?

everything possible to insure a fuller, richer life for all Americans. Let us take a look at the highlights of their 1959 report and in doing so we can visualize the tremendous problems they are confronted with each year and what must be done to solve them.

Despite the rising employment as our nation emerged from the recession, the work accident death rate is holding steady at one of the lowest points in the last 20 years.

Through the cooperation of the National Safety Council, labor unions spearheaded an attempt to cut Labor Day holiday accidents with a massive educational campaign.

After a two-year decline in traffic deaths, the curve turned upward this year as post-recession travel boomed. A pattern apparent from previous economic cycles sounded an ominous note for 1959.

A flurry of publicity from child deaths due to suffocation in plastic bags launched an intensive National Safety Council-industry educational campaign against this new product threat.

Ninety-five deaths in a tragic Chicago school fire brought public clamor for a closer examination of school plants and stimulated interest in other areas of school safety.

State organization for farm safety is nearing completion with the organization of the 44th state farm safety committee.

Two new departments, one covering public safety and the other serving youth, were organized by the Council during the year.

The "Stop Accidents" public service advertising campaign led all the 17 major Advertising Council campaigns in radio-TV and outdoor posters.

There are a number of people who will wonder why I have taken the time to write about the National Safety Council and its work and in reading the highlights of the 1959 report as outlined above, will say, "So what?"

It is the honest belief of this writer that one can not learn too much about safety and there is no better way to learn about it than through the National Safety Council. The more we understand this organization and put into practice the many safety programs it has to offer, the safer we will be in our homes, churches, schools, factories or wherever our many activities may take us.

Howard Pyle, President of the National Safety Council has this to say about the future: "As I think in terms of what the organized safety movement must accomplish in the next ten years—

the 60's—I am convinced that our success will depend very largely on how close we can get to the people."

It is an established fact that wherever labor and management are working together on a person-to-person basis in behalf of safety, new records are being set in lives saved and injuries avoided.

Have you ever thought that the pain and suffering, heartache and tragedy resulting from accidents are experienced by PEOPLE. The limbs that are broken and the automobiles that are smashed belong to PEOPLE. The dollars lost are lost by PEOPLE. So in order to carry on their work the Council must get their ideas thru to the PEOPLE. In turn, the PEOPLE must take to heart the organized safety movement. The homes in which they live must be made a safe place. The factories where they work must be made safe as well as the working conditions. Our schools must be inspected regularly and all public buildings must not be overlooked either.

The National Safety Council published a number of books and magazines and these are distributed nationally with a total circulation of approximately 1,210,000. These include:

National Safety News, a general safety magazine devoted large-

ly to industrial safety and health. Traffic Safety, addressed to organizations and leaders of organized traffic safety.

The Industrial Supervisor, addressed to plant foremen.

Safety Education, for schools.

Safe Worker, for industrial workers.

Safe Driver, for drivers of industrial and commercial fleets.

Safe Railroader, for railway workers.

Safe Builder, for construction workers.

Home Safety Review, for leaders of organizations cooperating in the national home safety program.

Farm Safety Review, for organizations working with the National Safety Council in the nationwide farm safety program.

There are other publications put out by the Council, and these include monthly news letters to industries, safety posters, safety calendars, dash cards for the commercial vehicles, school lesson units, safety films, accident facts, which is an annual publication giving statistical review of all accidents, and every four years the Council produces an Accident Prevention Manual for Industrial Operations.

All of the publications, pamphlets and bulletins are produced by the Council's staff of writers, edi-

tors, artists, engineers and other safety specialists, with the advice and help of member committeemen and recognized authorities on the subjects covered.

The work of the National Safety Council is financed by the dues and sales publications, and this organization is strictly a non-profit organization. Every cent of its income is turned back into services.

Recently the question was asked: "Does all this work and activity by the National Safety Council really make things safer for people in the United States?"

The answer to this question might be summed up in this manner. The Council was organized in 1913. Except for 1917 and 1936, the accidental death rate has been lower every year since 1913 than it was that year. These reductions represent 700,000 lives saved. Throughout the entire country one company after another has reduced frequency and severity of accidents through intelligent use of the material, advice and services offered by the Council. Equally striking reductions in traffic deaths and in child deaths have been made by the states and cities which have followed the standard program which is recommended by the Council. The effectiveness of its program has been recognized both in peace and in war, and the United States Government repeatedly has called upon the Council to marshal the safety forces of the nation to check the waste of material and human resources due to accidents.

As for the Council's plans for the future, it pledges itself to mobilize and energize the ever-growing forces of safety and to give them national support and leadership.

And now comes the most important question of all. How can you and I, as individuals, aid in the national safety movement?

We, as individuals, can help tremendously in the safety movement by recognizing the large human and economic losses resulting from accidents and the importance of safety as a great welfare movement. We, as individuals can help by adhering to the principles of safety in personal conduct, whether at work, at home, or driving our car. We can help by enlisting in the nationwide campaign to "Back the Attack on Accidents."

In order to insure a fuller, richer life for all Americans, we can offer our talents and our contributions, all in the interest of safety. Above all, we must remember that SAFETY should be FIRST, LAST, and ALWAYS, in our daily pattern of living.

The Editor of this newspaper joins with me in urging you to be SAFE in every way. The Life You Save, May Be Your Very Own!

Fuel Tax Receipts Reflect Increase

State Comptroller, Louis L. Goldstein today announced that Motor Vehicle Fuel Tax receipts for the month of October, 1959, totaled \$5,029,206.98 and that a total of \$244,003.24 was refunded to taxpayers during the month. The net receipts of \$4,785,203.74 exceeded the net receipts of \$4,204,315.98 in October, 1959, by \$580,887.76 or 13.82%.

The combined gross receipts for the months of July through Oc-

tober, 1959, the first four months of the current Fiscal Year ending June 30, 1960, totaled \$19,759,319.34 and refunds to taxpayers for the same period totaled \$1,062,494.00. The net receipts of \$18,696,825.34 exceeded the net receipts of \$17,346,379.42 in the four months ended October 31, 1958, by \$1,350,445.92 or 7.79%.

Meteoric iron containing from 5 to 26 per cent nickel was used for knives, axes and other implements as early as 4000 B.C.

Adolphe Pons' Swivel was the last filly to win the Pimlico Futurity—in 1932—and she also defeated the largest field ever to run in the race, a group of 18.

Executor's Sale

Of Valuable Real Estate and Personal Property

Pursuant to the power of sale contained in the Last Will and Testament of Daisy G. Smith, and also pursuant to the power of sale contained in the Last Will and Testament of Howard B. Smith, and further pursuant to Orders of the Orphans' Court for Frederick County, Maryland, I, Calvin S. Lohr, executor of each of the above estates, do hereby offer for sale on

SATURDAY, NOVEMBER 21, 1959
AT 10:00 A. M.

on the premises hereinafter described, located at the corner of East Main Street and Walnut Street, in the Town of Thurmont, all of the following valuable real estate and personal property, to-wit:

PERSONAL PROPERTY OF DAISY GRIMES SMITH
TO BE SOLD AT 10:00 A. M.

Corner cupboard with glass doors, victrola and records, 6 decorated cane-seat chairs, decorated cane-seat rocker to match, lot of odd rockers, straight chairs, hard-bottom chairs, oil heater, marble top stand, oak extension table, mahogany finish gate-leg table, morris chair, studio couch, lot of stands, table base, electric sweeper, Prosperity oil range, lot of beds, bureaus, wash stands, Leonard electric refrigerator, metal utility cupboard, metal-top stand, kitchen stool, two safes, chest of drawers, iron bed, chunk stove, toilet sets, pictures, Gone-With-Wind lamp, miniature red satin glass lamp, other oil lamps, coffee grinder, cherry seeder, scales, iron kettles, tea kettles, mantle clock, lot of bed clothing, blankets, quilts, lot of china, dishes (some antique), 3 fine pieces of majolica, iron stone china, glassware, lot of tin ware and kitchen utensils, electric iron, bench, washing machine, electric plate, albums, postcards, porch swing, lot of old crocks, jugs, jarred fruit and a lot of miscellaneous items too numerous to mention.

REAL ESTATE OF DAISY GRIMES SMITH
TO BE SOLD AT 1:30 P. M.

All that parcel of land situate, lying and being at the northwesterly corner of the intersection of East Main Street and Walnut Street, in the Town and District of Thurmont, Frederick County, Maryland, having a frontage on East Main Street of 164 feet and a frontage on Walnut Street of 70 feet, being improved with a two-story frame, metal roof, dwelling, containing five rooms. This property is connected with the town water, sewer and electricity.

For a more particular description of real estate, see deed dated the 12th day of November, 1921, from Charles E. Null, unmarried, unto Alice V. Eyer and Daisy V. Grimes, as joint tenants, recorded in Liber 338, Folio 88, one of the Land Records of Frederick County, Maryland.

PERSONAL PROPERTY OF HOWARD B. SMITH
TO BE SOLD AT 2:00 P. M.

Including Valuable Rifles, Shotguns and a New Automobile

1959 Goliath Sport Coupe with less than 500 miles. Philco table model television set (Diamond Model), Winchester 20-gauge pump gun, full choke, Winchester .22 caliber rifle with telescope, .22 caliber Mossberg automatic rifle with telescope, double-barrelled hammerless shotgun, one revolver .32 cal., electric drill, lot of carpenter tools, garden tools, one clay pigeon target trap, one Illinois railroad watch with 19 jewels.

TERMS OF SALE—Personal Property—CASH. No articles to be removed until paid for.

REAL ESTATE—Sale price to be paid in full upon ratification of sale by the Orphans' Court for Frederick County, Maryland. A deposit of 10% of the sale price shall be required from the purchaser on the day of sale. Possession upon ratification of the sale by the Orphans' Court for Frederick County. All costs of conveyancing, including Federal and State revenue stamps to be paid by the purchaser. Taxes and other public assessments to be pro-rated as of the date of final settlement.

The Magic of Molecules in the Age of Science

Through chemistry scientists have discovered the magic of molecules. They've found the basic difference between a valuable diamond and a piece of common pencil lead is molecular. A Uranium molecule can be a mighty explosive or a peaceful power source. Even 'look alikes' may have a molecular difference. Crude oil from the Pennsylvania region has a molecular structure distinctly different and superior in lubricating qualities to that found anywhere else in the world. ...yet all crude oil looks the same.

People, Spots In The News

'GIT OUTA HERE,' the policeman seems to be saying to 30-foot whale, one of four that were washed ashore, dead, off New Jersey.

PROPELLANT-PROOF suit at textile chemicals show typifies broadening use of fabric coatings like B. F. Goodrich's Geon vinyl, used here to protect missile testers.

TWIN ALL-AMERICAS? Marlin (left) and Mike McKeever, end and guard on Southern Cal's Trojans, threaten to be first identical twins ever nominated for all-America honors. They weigh 436 (218 apiece, that is).

Tax Inequality Controversy Being Aired

The present tax inequality that forces consumers of investor-owned electric companies to pay on the average of 13 cents out of every dollar of their electric bills in federal taxes was assailed this week in a statement submitted to the House Ways and Means Committee by E. Roy Gilpin, an attorney for the electric industry.

Mr. Gilpin said the dollar measurement of the special tax exemption "can be determined by ascertaining the amount of taxes which investor-owned tax-paying companies would have paid had they conducted the electric power business of the non-taxed agencies."

He said such a study showed that "for the seventeen year period from 1942 through 1958 this tax-free power if sold by tax-paying companies would have yielded \$2,711,197,000 to the Federal Treasury."

"Projection of a similar tax yield for the next 17 years, again assuming the tax-paying companies were to carry on the electric power business for that period estimated in respect of the presently non-taxed agencies," he said, "shows \$11,500,000,000 would flow to the Federal Treasury which under the tax exemption situation as now constituted it will not receive."

The House Ways and Means Committee is engaged in a study or reform of the federal tax system. Mr. Gilpin was invited to testify at the suggestion of D. S. Kennedy, chairman of the Special Tax Policy Committee of the Edison Electric Institute. Mr.

Gilpin asserted that rendering electric utility service is not a government function but a proprietary one and should therefore be made to perform in competition with taxpaying enterprises.

Pointing out that the electric utility industry's federal income taxes amounted to over \$1,000,000,000 for 1958, Mr. Gilpin said that broadening the tax income base is the sound method that will meet "with the enthusiastic endorsement of the tax-weary American taxpayer."

Detailing the operations of the four untaxed utility operations in this country: federal, state and municipal government agencies, and electric co-operative corporations, Mr. Gilpin warned that the tax inequities existing in each were unwarranted. He said that if continued they would only serve to increase the already heavy burden of the customer of investor-owned electric companies.

UNICEF Drive Results Announced

The "trick or treat for UNICEF" collection for the local area amounted to \$151.39 according to John Gearhart, local chairman. The area included Thurmont with a total of \$61.10; Emmitsburg, \$58.75; Rocky Ridge, \$16.27, and Graceham, \$15.27.

This money was collected for the United Nations Children's Fund. The Frederick County Christian Youth Council sponsored the drive in this county.

The following people helped in the drive in this area:

Mrs. Clarence Hahn, Mrs. Carrie Boyd, Miss Ruth Shuff, Mrs. Janet Tokar, Clyde Hahn, Gregory Bushman, Connie Baker, Billie Smith, Harry Hahn, Carolyn Umble, Harriet Harner, Linda Bucher, Gene Eyer, Tommie Harbaugh, Eddie Meadows Jr., Phyllis, Calvin, Rhudy and Sheila Chatlos, Susan, James, Edith and John Martin, Curtis Bucher, John Eckenrode, Leroy Sheely, Ellen Tokar, Betty Tokar, Gus Rice, Susie Crouse, Dennis Hess, Judy Hardman, Connie Sancreze and Larry Gigeous.

Youth For Christ Rally Planned

Frederick County Youth for Christ has received a provisional charter from the international headquarters in Wheaton, Ill., Mr. Frank Hatcher, the director of Frederick County Youth for Christ announces.

To be a chartered rally, the local group must have an interdenominational board of at least nine men. They must also have a YFC club program and subscribe to the Youth for Christ policy

and statement of faith.

A provisional charter, according to Hatcher, is issued to a new group working towards a regular chartered rally.

Frederick County Youth for Christ will hold its first rally on Saturday night, November 21 in Frederick. Thereafter rallies will be conducted every Saturday evening.

Safety Seminar Well-Attended

Over 60 representatives of municipalities and counties throughout Maryland attended a one-day pedestrian safety seminar Tuesday at the Maryland State Police Academy, Pikesville. The state-wide conference was co-sponsored by the Automobile Club of Maryland and the D. C. Division of the American Automobile Association in cooperation with the Maryland State Police.

In making the announcement, Fred R. Ullrich, president, Automobile Club of Maryland said the purpose of the seminar was to promote better pedestrian safety programs throughout Maryland by giving police and other officials an opportunity for the fruitful exchange of ideas. "By participating in group discussions, listening to lectures and meeting with fellow officers," he said, "these officials will return to their communities better equipped to handle pedestrian problems."

The morning session was opened with a welcoming address by Col. Carey Jarman, superintendent, Maryland State Police. Glenn T. Lashley, manager, National Pedestrian Program, American Automobile Association, addressed the group shortly thereafter.

Other items on the agenda included panel discussions by William Anthony, supervisor of teacher recruitment, State Department of Education; Lt. Col. Weber, executive officer, Maryland State Police; and George N. Lewis, State Roads Commission. Mrs. Helen Tullis, noted pedestrian authority, spoke on "The Adult's Responsibility in Pedestrian Safety."

Mr. Ullrich said that group discussions were held on the topics: "Pedestrian Safety Beyond Corporate Limits" and "Pedestrian Safety—A Community Effort," as well as a panel discussion on "School Child Pedestrian Safety."

Following the all-day seminar was a dinner held at the Officer's Club of the Pikesville Armory. Governor J. Millard Tawes was the principal speaker and awarded certificates to participants of the seminar.

Sewer Tap-In Deadline May 1

The Burgess and Commissioners this week announced that the deadline for propertyowners to tap into the new sewer line has been set for May 1, 1960. It was pointed out that it is mandatory, under state law, that all houses must be adjoined to a sewer line within the corporate limits of a town, providing such a facility exists. A town ordinance permits a fine of \$300 per day for violators.

The Town Council also announced this week that an ordinance is now being drafted whereby it would be illegal for any propertyowner to live in or rent any house inside the corporate limits of Emmitsburg, which is not equipped with a toilet and lavatory. This ordinance has the approval of the State Health Department.

Visitors at the home of Mr. and Mrs. Louis Rosensteel, Elder Apartments, Sunday, were Mrs. Earl Fox, Union Bridge, and Mrs. William M. Lansinger and daughter, Joan, Baltimore.

Light Bulb 80 Years Old This Year

Charles Edison, son of Thomas Alva Edison and chairman of the board of McGraw-Edison Company, shows Max McGraw, president, how the famed inventor developed the first successful incandescent light bulb 80 years ago this year (Oct. 21, 1879). Arrow points to replica of the first bulb mounted on the mercury pump used to exhaust air around the carbonized cotton-thread filament. Scene is the original Menlo Park Laboratory which Henry Ford moved to Greenfield Village, Dearborn, Mich., in 1929.

An artist's cutaway-conception of the University of Maryland's critical nuclear reactor, the first in the State of Maryland. The new facility has been purchased by the university's department of chemical engineering for training graduate and undergraduate students under an Atomic Energy Commission grant.

WHO? YOU WHAT? CAN HELP PREVENT CANCER WHEN? RIGHT NOW WHERE? IN YOUR COMMUNITY HOW? BY ENROLLING FAMILIES IN SCIENTIFIC STUDY

The American Cancer Society is now launching a "Cancer Prevention Study" throughout the nation. It will record the family backgrounds, personal habits, medical histories, occupations and other factors in 500,000 families. This confidential information will be analyzed for clues as to why some people may be more likely to get cancer than others. It is expected that these responses will point to some common factors which cause cancer. And when these factors are known, ways of preventing the disease may be found.

You can be a vital part of this cancer-fighting undertaking as a volunteer researcher. Your spare time can be put to constructive use to protect your loved ones, your friends, your neighbors, yourself. Do get in touch with the American Cancer Society Unit nearest you and help speed cancer prevention.

AMERICAN CANCER SOCIETY

Chiropractors Elect

Dr. William H. Adolph, of Rockdale, Baltimore County, has been named president of the Maryland Chiropractic Association.

Dr. Harold F. Carbaugh of Hagerstown, is secretary-treasurer; Dr. Julian Brice, of Glen Burnie, recording secretary, and Dr. Tyrell Dennison, Baltimore, parliamentarian.

Dr. Jack L. Murrey, Cumberland, and Dr. Donald R. Watson, Baltimore, are new members of the board of directors.

Mrs. Robert E. Lee, Westminster, was named president of the Ladies' Auxiliary, succeeding Mrs. E. A. Semall, Reisterstown; Mrs. Harold Collins, Elkton, was named vice president; Mrs. Robert Schelle, Hyattsville, secretary, and Mrs. Ernest Ecsery, of Towson, treasurer.

Chiropractors from all over the state attended the annual two-day convention at Hagerstown, in the Hotel Alexander.

Present from Frederick County were: Dr. D. L. Beegle, Emmitsburg; Dr. F. T. Dugan, of Cullen; Dr. F. A. Edmonds, Brunswick; Dr. P. B. Kallaway, of Frederick, and others.

Serving on the nominating committees of both the associations were Dr. and Mrs. D. L. Beegle, Emmitsburg.

Governor Claflon of Maine, was the principal speaker.
