Most Anything At A Glance

BY ABIGAIL

It is becoming apparent that some of our countians are becoming economy conscious and are taking steps to wield the axe wherever possible. Economy is all right but it was to be exercised in the right direction. Steps are being taken, we have been informed, to try and eliminate the County Board of Education's out-door school at Camp Greentop, near Thurmont. For several years now the sixth grade children of the public schools have been utilizing the facilities at the camp, for their broadening knowledge of outdoor life. The program, we are informed, costs the county in the neighborhood of \$10,000 per annum. This insignificant sum, as compared to other major financing projects, does not seem to us such an extravagant waste of money, if any, for the value received. Book-learning is the paramount concern of the student but when he has a chance to enhance his knowledge and put it to practical use, I believe the meager sum spent to accomplish this is well justified. As I said before, economy is okay but it should be applied in the right place.

Winter certainly threatened us for a while last week, and so early in the season too. I hope this sample isn't a forerunner of an early winter but the chilly weather to date seems to bear out this fact. Anyway the season's first snow descended upon us. It didn't linger long, in fact not at all, but it sure came down plenty fast and had plenty of wind to do the damage had the downfall been a bit heavier. Oh well, there'll be more later on I suppose.

Exit Daylight Time... enter Standard Time. That'll be the order of the day Saturday as we commence the winter season. Saturday night is when you get back that hour you lost last April so don't forget to set your clocks back one hour Saturday night.

Just as we are working to get Christ back into Christmas we are working to get sanity and some religion into Halloween. The Town Council assures the populace that this year peace and tranquility will prevail here in Dear Ole Emmitsburg. I remember last year things were pretty well under control as far as vandalism was concerned and it is expected that the same will be effected this year. Things did sort of get out of hand here for a number of years but then Emmitsburg has to accept the modern trend just as the rest of the Nation. The old Halloween symbolic of vandalism and destruction must go the way of the Klu Klux Klan. More religion and light frolic should be injected into the theme of the occasion. Religion... I'm almost afraid to mention the word these days for fear of being misquoted or misjudged. However, it'll soon be over and we can forget our differences and settle down to the normal way of living, providing the Cubans and Russians don't upset that.

Hospital Report

Licenses Reissued
The State Dept. of Motor Vehicles this week announces that it had reissued driver's licenses to Ronald Claude Nusbaum, R1, Taneytown, and George Michael Fisher, Rocky Ridge Md.

One gathers the impression, from what one reads, that the presidential campaign of 1960 is shaping up in Washington.

Sportsmen Plan Shooting Match Nov. 20

Approximately 25 members were present at the regular meeting Tuesday night of the Indian Lookout Conservation Club held in the Fire Hall, President James Kemp presiding.

The group announced its plans for the promotion of a shooting match to be held on Sunday, Nov. 20 at the Civic Grounds east of Emmitsburg starting at 1:00 p.m. The baby doll award was presented to Mr. McAfee of Highfield, Md.

President Kemp expressed his appreciation for the splendid turnout for the recent work party held at the club's private grounds on Upper Flat Run northwest of town. The club's rifle range is now in operation and is for use by club members only.

The club will operate the hunters' rest shack at Rainbow Lake during the coming deer season. Maurice Michaels and Harold Davis will be in charge of the shack. Joseph May has generously consented, on behalf of the sportsmen, to mount the first deer head taken during the open season, free of charge. The only stipulation made is that the lucky hunter must be a member of the local sportsmen's club.

Nursing Students Are Honored At Local College

The Sigma Chapter of Sigma Theta Tau, national nursing honor society at Saint Joseph College announced the initiation of seven new members in recent campus ceremonies.

Chosen for the appointment to the chapter were Violet Barkauskas, Waterbury, Conn.; Kathleen Carroll, of Pittsburgh; Kathleen Driscoll, Bethesda; Carol Johnson, Laurel; Maureen Sempile, Morristown, N. J.; Kathryn White of Silver Spring; and Mathilde Zambaka, of Garden City, N. Y.

The initiation rituals were presided over by M. Weidner, 61, of Rye, N. Y., president of the Sigma Chapter, and Elizabeth Strezeski, '61, from Clifton, N. J., vice president. The faculty moderators for the nursing group at Saint Joseph College are Sister Bernadette, M.S.N.E., Assistant Professor of Nursing, and Gertrude, M.P.H., Assistant Professor of Public Health Nursing. Miss Margaret Wohlgenuth, formerly the Supervisor of Anne Arundel County Health Department, attended the program, and gave an illustrated lecture on "Public Health Nursing—A Thirty-five Year Retrospect."

The honor society, Sigma Theta Tau, is dedicated to the task of promoting high professional standards in nursing. Members in the society are selected on the basis of academic achievement, professional promise, and personal character.

The Sigma Chapter of Sigma Theta Tau was established at Saint Joseph College in January, 1960.

Celebrate Birthday Of Founder

Brownie Troop 92 met at the home of Kristine and Cathleen Oddo on Tuesday, Oct. 25, to celebrate the birthday of Juliette Low, the founder of Girl Scouting in the United States. The troop committee was invited to the Founder's Day party. After a brief business meeting, the committees for the party took charge. The girls prepared and served the refreshments, and cleaned up. Hostesses greeted the guests. The entertainment committee provided songs and acted out two little skits. Every phase of the party was handled most efficiently by the Brownies who had spent the two previous meetings planning the event.

Mr. Guy A. Baker Jr., registrar, Mt. St. Mary's College, attended a student procurement session in New York City Tuesday.

Mr. and Mrs. Eugene Kraemer, Mrs. Ann Roger and Mrs. Mamie Kreitz, visited Sunday with Sister Vestina, Mrs. Kreitz's and Mrs. Roger's sister, who is a member of the Sisters of Christian Charity at Mountain Top, Pa.

Mr. and Mrs. I. V. Diffenderfer, New Holland, Pa., were weekend visitors of Mr. and Mrs. Arthur Elder.

Overweight is a health hazard because it adds to the work of the heart, according to your Heart Association.

Jaycees Analyzing Recent Survey

Editor, Emmitsburg Chronicle:

The Emmitsburg Jaycees have completed the preliminary surveys of their Community Betterment Program. The Committee is now grouping the thoughts to find out what the citizens of our town want. This step will take a week or two to complete and line up the projects which the Jaycees will work on.

At present a booklet is being formed to state what Emmitsburg has to offer the home buyer who might want to buy or build here, the tourist who wants to see what our town is like and most of all it will be given to any industry which might be interested in locating here. The industry portion of the booklet will have all facts and figures available that they will want to know.

In the Industrial Development Program, the committee wishes that everyone could read the article in the Saturday Evening Post of Oct. 22, 1960, called "The Great Factory Sweepstakes." The writup states that every small town is eligible to have industry settle there, but the community must prepare itself for it. The mental attitude of the community is a very important factor to prospective industry. When industry comes to look us over we must have the facilities and also the psychological climate. We must have a proud feeling of our town and a favorable attitude toward industry. The appearance of the town's buildings, stores, streets, etc.; the caliber of the programs for our youth and adults; the schools and town government are all given serious consideration. We in Emmitsburg cannot sit by and let the rest of the country grow without putting forth some effort to join in the progress.

Jaycees Development Committee

Teen-Ager Laments Lock Of Recreational Facilities Here

Teenagers of Emmitsburg:

We have all heard what the Jaycees are trying to do for the teenagers of Emmitsburg, but how many of us are actually doing something about it? You may say "what can we do?" Well to begin with we can do what the Jaycees are asking us to do and that is to fill out the forms requesting suggestions on what we the teenagers and the townspeople want. In this way we can back the Jaycees by showing them that we are interested in what they are trying to do for us. As time advances there may be more we can do.

I'm a high school student the same as many of you who knows what it is not to have anything to do at home. If we want entertainment we have to go to a nearby town to get it. Oh yes, occasionally we have a few dances, but they generally come all at once and then the schedule is blank for six months.

We go to other towns for recreation so why not have something here to attract them to us. We all like to meet new faces unless we're some kind of an idealist or individualist. But they won't come here and I believe everyone knows the reason why. The teenagers of other towns consider Emmitsburg a DEAD TOWN and say "there's nothing to do in Emmitsburg so why go there?"

Do we want to sit around and watch the morale of the teenagers in our town deteriorate because we're too lazy to back the people who finally got up enough gumption to do something about it? The Jaycees will feel awful down-hearted if we fail them after all we've complained about nothing to do in Emmitsburg. Emmitsburg is your town as much as it is my town. Let's make it look that way. Come on teenagers and back the Jaycees.

A Local Teenager

Democratic Jubilee Planned Here

A gigantic Democratic jubilee is being planned for the Emmitsburg Election District, Lumen F. Norris, chairman of the Emmitsburg Democratic Central Committee announced this week. The affair will be held on Nov. 5 in the VFW Annex and the general public is invited to attend.

A varied program of entertainment is being planned and food and refreshments will be served. During the evening it is planned to have orchestra music. Complete details of the affair will be published in next week's paper.

Man Assaulted Near Here

Two men are in the Adams County jail charged with beating and robbing a Hagerstown man. State police brought charges of robbery with accomplice and aggravated assault and battery against Paul M. Scott, 21, Fairfield, and Keith Neil, 25, Greenstone, before Justice of the Peace Robert P. Snyder and placed the two in jail Friday evening at 5:30 o'clock to await a hearing before the justice.

The information against the two alleges that the robbery of \$46 from the person of William F. Socks, Hagerstown, and the aggravated assault and battery occurred at 9:30 o'clock Thursday night in Liberty Twp., Pa.

Police said Socks, aged 51, told them he was picked up by two young men near Emmitsburg, expecting to be taken to Frederick. Instead the two turned toward Gettysburg, then turned off the highway, stopped, beat Socks over the head with a jack handle and robbed him of \$46. The two, according to Socks, left him lying in the weeds and drove off.

Socks made his way to Emmitsburg and secured treatment from Dr. G. L. Morningstar. He reported the robbery and assault to Maryland State Police. The Maryland officers informed Pennsylvania State Police who picked up Scott and Neil.

Thurmont Boy Accidentally Shot

A 15-year-old Thurmont boy was accidentally shot in the lower right leg while squirrel hunting with a friend in a woods near Rocky Ridge on Saturday at 4 p. m.

Michael Wayne Shook was treated in Frederick Memorial Hospital for buckshot wounds and was released after treatment.

Trooper R. E. Alderton of the State Police reported that Frank Farano, another teen-ager from Thurmont, accidentally shot Shook when his gun went off as he lowered it while Shook was bending down to pick up a squirrel he had shot.

Republican Rally Scheduled

The Emmitsburg Republican Central Committee announces a political rally to be held Tuesday, Nov. 1 at 8 p. m. in the Fire Hall.

Out-of-town guests and speakers will be S. V. Sanner, representing the GOP Club; J. Harold Hooper, chairman of the Frederick County Republican Council; Emmert R. Bowls, State Central Committee; Reburn Brown, representing the Young Republican Clubs.

In charge of the refreshments for the rally will be Mrs. Guy R. McGlaughlin, Mrs. Robert Fite, Mrs. Edward Meadows, Mrs. Claude Deberry and Mrs. Earl Rice; hostess committee, Mrs. Ada H. Sperry, Mary Fiery, Mrs. William Carr, the Misses Margaret and Agnes Reuter and Mamie Kelly; property committee: Robert Glass, Raymond Keilholtz, Daniel J. Naill, Roy Glass, Austin Umbel and George L. Danner.

The committee will serve refreshments to all attending and a cordial invitation is extended to the general public to attend the rally.

Jaycees Will Transport Voters

Voters will be offered free transportation to the polls on election day, Tuesday, Nov. 8, the Greater Emmitsburg Junior Chamber of Commerce announced this week.

The Americanism Committee of the local Jaycees is making plans to provide this transportation and the committee chairman, Jack Blake, is making provisions to handle all those desiring transportation to the polls.

Interested individuals are asked to telephone Robert Simpson, HI 7-2181 for conveyance to and from the polls. The general membership of the Jaycees will meet at 6:45 on November 3 for dinner at Fitzgerald's Mason-Dixon Inn. The dinner will be followed by a business meeting promptly at 7:30 o'clock. Present at the meeting will be a guest speaker.

Prompt treatment of strep infections such as 'strep sore throat' can prevent recurring attacks of rheumatic fever and lessen the possibility of rheumatic heart disease, according to your Heart Association.

Route 15 Bids To Be Let

The Pennsylvania Department of Highways is proceeding with preliminary design work on the relocation of Route 15 north and south of Gettysburg and under the present time-table bids will be asked for construction of the bypass early next year, a department spokesman has said.

Approval by the U.S. Bureau of Public Roads has been given for the beginning of preliminary designs for the roads, the department spokesman said. The Bureau of Public Roads reviewed testimony taken at a public hearing held in Gettysburg Aug. 3 by the State Highway Department.

That approval was taken to indicate that the proposed route east of Gettysburg from the Md. line north 22.5 miles to tie in with other recently-built sections of Route 15 will not be altered. "Satisfactory progress" is being made on the bypass project in the opinion of the state officials.

PTA Hears Report On Outdoor School

The Emmitsburg Public School PTA met at the school Wednesday evening at 8 p. m. The meeting was opened with a prayer by the Rev. John Chatlos.

One portion of the program was presented by the 6th graders who had attended the Outdoor School. Mrs. Mary Scott, their teacher, gave the following introduction:

By now we have come to realize that outdoor school is very definitely not synonymous with the usual outdoor camping programs. This is our county's program which enables a child to see nature in its natural environment, which cannot be experienced in a regular classroom situation. While it is expected that children will naturally derive enjoyment from living together in the out-of-doors, and will develop interests which will help them in pursuing worthy leisure activities. The program under the direction of the school is then primarily concerned with the resulting educational values.

Outdoor Education is an extension of the school curriculum and provides opportunities for pupils to study, observe, learn and apply their knowledge in the natural environment under the direction of their classroom teacher and others trained in outdoor life.

The Outdoor School serves as a laboratory for direct learnings in the areas of: 1. The natural sciences; 2. Conservation of our natural resources; 3. The social sciences, including history; 4. Democratic living and citizenship; 5. Worthy use of leisure time; 6. Health and physical fitness.

It is difficult to measure the full extent of learnings of one short week, and the far reaching effects upon the children participating in the program.

The following children gave a review of their week at Camp Green Top: Betty Tokar, Terry Hartle, Carolyn Weirman, Joyce Kline, Mike Manning, Richard Andrew, Linda Keilholtz, Rachel Watkins, Arthur Bankard, Joan Glass, John Maddox Jimmy Seiss, Sharon Cornett, Philip Valentine, Diane Reaver, Stanley Andrew, Robert Sharrer, Edna Misner, Ronald Sheeley, Larry Smith, Darlyn Valentine, Edith Martin and Douglas Seiss.

The business meeting was presided over by the president, Harry Hahn. The minutes of the last meeting were read and approved as was the treasurer's report.

Mrs. Arvin Jones, chairman of the Legislative Committee, presented the proposed legislation for 1960-1961.

It was announced that the next meeting would be on Tuesday, Nov. 22. Mrs. Scott's room received the attendance banner. Refreshments were served by the hospitality committee.

COUNCIL PROMISES CRACKDOWN ON VANDALS

Vandalism will not be tolerated in Emmitsburg this year Mayor C. G. Frailey announced this week. Violators will be prosecuted to the fullest extent of the law. The Town Solons are planning to add extra policemen to the Police Dept. during the occasion to keep property destruction at a minimum. Residents are urged to store in a safe place such things as lawn and porch furniture, farm equipment, etc.

National Catholic Youth Week To Be Observed

The Emmitsburg Chapter of the CYO will participate in the observance of National Catholic Youth Week, Oct. 30 thru Nov. 6, it has been announced. Many of the members of the group will attend the communion breakfast Sunday morning in St. Joseph High School, following the 8:30 a. m. Mass in St. Joseph's Catholic Church. The affair is being sponsored by the Brute Council 1860, Knights of Columbus.

It has been announced by the local CYO Chapter that nominations for officerships of the group will be made at the next regular meeting on Nov. 4. In observing the National Catholic Youth Week all CYO members are asked to attend Mass and receive communion regularly.

In forming plans of the tenth annual observance of the National Catholic Youth Week, the Hon. William A. Barrett, Pa., House of Representatives, Washington, D. C., had this to say:

The National Youth Council of Catholic Youth, sponsor of the week, is to be congratulated for so correctly assessing the value of our young people, and for calling so strongly on them during this trying epoch.

The United States of America rightly concerns itself with the marshalling of its moral and material resources. The importance of youth in this process is awesome. Their impact not only upon the realization of our national dreams but also upon the extension of freedom and justice in all the nations is critical.

The use of our tremendous national wealth, our moral presence in the world, our whole society and its institutions; soon these will be the everyday businesses of our present-day youth.

Two chief considerations suggest themselves. The first is that we as a Nation are blessed with young people the vast majority of whom reflect already the very responsibility on which we must rely. To these young people we owe commendation and generous encouragement of their efforts.

The second consideration is that at the risk of repetition we must impress more and more forcefully on our youth a deep understanding of their present and their future responsibilities as an integral part of our Nation. Further, we as adults must not only expect but also exemplify the integrity, the energy, the idealism asked of our young people.

National Catholic Youth Week specifically involves the 7 million young people—teenagers, university students, young adults—represented in the National Council of Catholic Youth. They, and their counterparts in all American society, deserve our congratulations, as do the competent and unselfish adults working with them. I ask the attention of the entire public to this great week, and the support of the public for all those private programs devoted to the development of an able, spiritually strong and resourceful youth.

Students Conducting Audio-Visual Exhibits At College

Members of Mt. St. Mary's College faculty have been invited by the College Audio-Visual Aids Group to attend a series of audio visual aid exhibits being held at the local college until Friday, November 4.

The exhibits are held in the freshman lounge and are sponsored by the senior education students. Four points are highlighted by the exhibits as follows: 1) Their importance, use, and effectiveness of audio-visual aids; 2) the availability of audio-visual aids at Mt. St. Mary's; 3) explanations and demonstrations of how to use various audio-visual aid equipment (slide projectors, movie projectors, phonographs, etc.); 4) the effectiveness and value of vibrant displays including pictures and mock-ups in the classroom. The efforts and presentations are more concerned with preparation for effective high school teaching and it is felt by the students that the greater portion of the exhibits will be a valuable import on the college level also.

Zoom, or varifocal, lenses have been known since 1930, but were seldom used until after World War II when they were generally applied to television cameras.

Some folks don't put their best foot forward until they get the other one in hot water.

Spook Parade Scheduled For Monday Night

Weather permitting an estimated 500 children from the Emmitsburg District will march down Main Street Monday night in the mammoth annual Halloween Parade being sponsored by the Francis X. Elder Post, American Legion.

Harold M. Hoke and Thomas Gingell, chairmen of the parade, announced that six prize categories have been established. The event has been growing in size during the past decade since its origination and this year's affair is expected to draw even more of the local kiddies and parents.

March-off time has been set for 7 p. m. Monday evening. The parade will form in front of the Doughboy monument in West End at 6 p. m. and will proceed down West Main Street, pass the Square and continue down East Main Street to Federal Avenue where it will turn and continue to DePaul Street terminating at the rectory grounds of St. Joseph's Rectory. Following disbandment the participants will be served refreshments including cider and cookies.

Leading the line of march will be the color guard of the American Legion Post, followed by a number of other units, including the Emmitsburg Municipal Band, the Fire Trucks, a number of vehicles and the costumed marchers. The reviewing stand will be located at St. Euphemia's Hall. The general public is cordially invited to participate in the parade and to view the spectacle.

Prizes will be awarded to first, second and third places respectively, as follows: Funniest costumes, \$5, \$2, \$1; best looking costume, \$5, \$2, \$1; most original costume, \$5, \$2, \$1; funniest costume with pet, \$5, \$2, \$1; best looking costume with decorated bicycle, tricycle, or wagon, \$5, \$2, and \$1. In addition, two mystery prizes of \$5 each will be awarded.

Local Scouts To Assist In Getting Out Local Voters

Cub Scouts, Boy Scouts and Explorers of the Francis Scott Key District, Boy Scouts of America are prepared to take part in a nationwide campaign urging our citizens to vote on Election Day, November 8.

This national "Get Out the Vote" project will take place on Saturday, Oct. 29. It will involve leaving a doorknob hanger at each home of the areas in Frederick County where Scout units are located.

Each Scout unit has been assigned an area in which the hangers will be distributed. The units in the County will cover their election districts. The city units have been assigned certain areas, the size being determined by the number of Scouts enrolled in the unit.

The purposes of the "Get Out the Vote" project is to urge all eligible persons to vote on election day, Nov. 8. The Scouts will play an important part in reminding our citizens to fulfill their nearly sacred privilege of voting.

Scouts will attempt to personally indicate to some adult in each home that the hanger has been placed on the door, and will urge the members of the family to vote.

In past national election years, this nationwide participation of the Boy Scouts of America in the "Get Out the Vote" campaign, has created a highly favorable impression throughout the nation. The doorknob hanger is in the shape of a Liberty Bell, the front of which is printed, "Heed Scouting's Call—Ring the Bell for Liberty. Vote as you think, but VOTE, November 8, 1960. On the reverse side are printed the Scout Oath and Scout Law, with space for the name of the Scout and his Scout unit."

The hangers for the "Get Out the Vote" distribution are furnished by Freedoms Foundation at Valley Forge.

Mr. and Mrs. Walter F. Crouse made a business trip to Washington, D. C., Tuesday.

Ralph F. Irelan and Dr. Charles Williams have returned home from a big game hunting trip to Montana.

Educators Study State School System

Both sides of one of the most controversial issues in the history of public education in Maryland will be given a thorough hearing at 10 a. m. on Oct. 29 when

the Maryland Council on Education presents "A Symposium on Higher Education and Teacher Training in Maryland" at Enoch Pratt Library.

Two of the central figures in the battle that is raging the length and breadth of the State will be the figures. They are Je-

rome Frampton, Jr., President of the State Board of Education, and Edwin Warfield III, Chairman of the Commission to Study the Problem of Expansion of the University of Maryland.

Mrs. William H. Maltbie, Chairman of the Council, announced the meeting as the first of four the Council has scheduled for the 1960-61 year to bring together civic and educational organizations for the purpose of coordinating their interests and efforts for the general improvement of public education throughout the State.

Labelled a "Facts Forum" in a communication sent to member organizations, the meeting will revolve around the pros and cons of the so-called "Warfield Report" which has recommended expansion of the University of Md. by having it absorb the State Teachers Colleges at Towson, Frostburg, and Salisbury; and establishing three new branches in the Washington County-Fredrick County area, the northern Eastern Shore, and Southern Maryland.

Because of the interest generated by the controversy among statewide, regional, county and city organizations having a continuing interest in education, Mrs. Maltbie reported, the meeting will be held at the Enoch Pratt Library to accommodate the anticipated increased attendance. Member organizations customarily send a delegate and an alternate representative to Council meetings, but on this occasion have been invited to send as many people as desire to come. The public also is invited.

The council does not itself endorse, promote or propose any legislative measures. However, member organizations may take any action they deem wise or necessary, Mrs. Maltbie explained.

Mrs. Maltbie said the Council program committee, headed by Mrs. Gerson Meyer arranged the program in accordance with Council's objectives of study, problems and issues involved in Maryland's progress of education and of promoting greater understanding of the education program in the State.

graduate physical therapists, and will have an opportunity to ask questions.

Refreshments and informal discussion will follow at the new Baltimore Union.

Mr. and Mrs. Andrew Shorb and sons, Jimmy and David, Mrs. Charles E. Shorb and Mrs. Charles Wagaman visited in Harpers Ferry, W. Va., on Sunday.

OUR STATE UNIVERSITY

If all the disabled people in Maryland who need physical therapy were to be given it, fifty new physical therapists would have to be recruited.

This deficit of trained physical therapists is underscored by recent news of an upsurge in paralytic polio—Maryland cases reported thus far for 1960 top any year since 1955.

The University of Maryland, which conducts the only School of Physical Therapy in the State, will hold open house on Saturday, November 12, 1960, to recruit new students and to acquaint the public with career possibilities in physical therapy.

High school students and their parents, vocational guidance directors, and social agency workers are invited to attend the open house, which will be held at 1:00 p. m. in the university's new Health Sciences Library at the corner of Lombard and Greene Streets in Baltimore.

Greetings will be extended by Dr. William S. Stone, dean of the School of Medicine. The need for physical therapy and the career opportunities it offers will be explained by Dr. Gladys E. Wadsworth, educational administrator of the Physical Therapy Department, and Dr. Paul F. Richardson, the department's medical director.

A prize-winning film, "The Return," will be shown, explaining how physical therapy has helped return disabled young men to activity.

Miss Carolyn Weston, sophomore student in physical therapy, will describe the first two years of the physical therapy collegiate program, which are conducted at College Park, and a senior student, Donald Hiltz, will outline the curriculum of the last two years, in Baltimore.

After the introductory session guests will visit outpatient clinics, where they will observe various physical therapy treatments performed by students and by

THE WORLD'S MOST WIDELY USED DEVOTIONAL GUIDE

Read Hebrews 11:1-6.
Faith is the substance of things hoped for, the evidence of things not seen. (Hebrews 11:1.)

My husband and I were invited to visit a new church in a barrio. The church had been built at great sacrifice and despite poverty, by a handful of new converts. There had been a drought. Food had been insufficient. The men, without enough nourishment to do hard work, had gone to the forest to cut logs and bamboo to build the church.

Those who built the church feel it is a symbol of their new faith. It is a beautiful house of worship—not built with substantial materials, but with substantial faith. We visited another church. It was old. I said to a layman,

"This church needs repairs." He replied, "This is our best." I firmly said, "Brother, I am sure this is not your best. Look at the roof. It leaks. A church that leaks shows a weak faith." He bowed down his head and said humbly, "Pray for me. I should have a solid faith. Then this church would have a solid roof."

If our faith is solid and unshakable, we use our abilities in various ways for the sake of Christ and His kingdom.
Prayer
Our Father, we thank Thee for our faith in our Lord Jesus Christ. In Him we live, move, and have our being. Deepen our faith. Help us to serve Thee to the end. In Jesus' name. Amen.
Thought For The Day

Deep faith demands dynamic action.

Looking Ahead

...by Dr. George S. Benson
DIRECTOR—NATIONAL
EDUCATION PROGRAM
Searcy, Arkansas

What Makes America Tick?

When Nikita Khrushchev walked into a super-market in Los Angeles on his first sight-seeing trip to America he tried to hide his amazement, but he couldn't. He had never seen such a massive display of food-stuff in his life. He was astounded—and probably shocked. He was similarly amazed as he went about America seeing on all sides the massive productive might of our nation. He doesn't understand really why our system produces in such great volume. He doesn't know—and he doesn't want to know—what makes the American system tick.

But Americans should know, and all the people of the world should know. Then our system would be safer from the onslaughts of international Communism and less likely to be destroyed by our own people through errors of judgment and short-sighted actions in government. There are five freedoms which provide the dynamics in our American system—freedom to work at the occupation of one's choice, freedom to dream, freedom to compete, freedom to advance, freedom to invest. Let's examine each freedom:

The Five Freedoms

FREEDOM TO WORK. Americans have this free choice of occupations. People living in total Socialism or Communism do not have it. It gives us the opportunity to do what we want to do, and thus we can be happy and more productive in our work. We don't want a bureaucrat or a commissar telling us to be a lumberjack—if we happen to like the profession of teaching, or if we like the city life and an office job. A great incentive to production is the satisfaction and pride that an individual worker gets from doing the things he wants to do.

FREEDOM TO DREAM. Only in an atmosphere of freedom can the total brain capacity of an entire population be har-

nessed for progress. Some of the most valuable contributions to our progress have come from average Americans who put their brains to work in a country where everybody is free to try out any idea or contraption. Millions of products have come to the American market—and behind every new product there has been a free mind dreaming, inquiring, probing, and creating.

Spur Of Competition
FREEDOM TO COMPETE. Under the American system the dreamer doesn't have a monopoly on producing things. Anybody can go into business and compete with the dreamer. Since the first automobile was produced in America, more than 1,500 companies have produced cars. Most of them failed. The best competitors, the best producers succeeded. Competition has kept each auto manufacturer busy trying to outdo the other—and attract more car buyers. Millions of dollars have gone into research and new manufacturing techniques. This is true in most industries. Competition has spurred production in all products.

FREEDOM TO ADVANCE. This is the freedom of each person to improve his position not on the basis of political maneuvering, but on the basis of worth in America's great

productive system. Many of the present-day industrial leaders came up through the ranks of employees. They were ambitious, industrious, enterprising—and free to work for advancement. This screening upward of the best has developed the finest industrial and business management in the world. Our technical know-how is sought after in every nation on earth.

Better Tools
FREEDOM TO INVEST. Not only does every American have the privilege of investing his savings as he sees fit, the incentive to do so is very strong. This is indicated by the fact that millions of Americans own corporation stocks. The money they invest in industry goes for working capital, for building and expanding plants, and for the constantly expanding development of industrial tools. The average job in American industry requires an investment of more than \$12,000—before the job can be created. Better tools are being produced constantly, resulting in higher productivity per worker, better wages and improving products for the consuming public.

These are facts every American, young and old, should understand. The Socialist International and the Communist In-

ternational are expecting the American people themselves to aid in the destruction of our great, productive system. If we

understand how it works, and its great advantages, we can resist the undermining work of these two destructive forces.

"I can't tell you how much the telephone meant to me for the last six weeks," writes Mrs. Long

MRS. CARROLL G. LONG,
of Salisbury, arranging rides for Joanne and Mike while she was convalescing.

"My foot and leg have been in a cast for the past six weeks. As a result, the telephone has been all-important to me—chatting with friends to relieve the boredom of having to stay home; getting rides for the kids; calling my twin sister and friends to do errands and take me shopping."

Mrs. Long went on to say, "A telephone seems to be the No. 1 necessity to kids. (She

has two, Mike 16 and Joanne 11½.) The time and peace of mind which the telephone saved us are worth much more than the money involved."

The comforting knowledge that your telephone is always ready to keep you in touch with all the world outside your home, can't be measured in money alone. And yet if you were to keep a telephone diary, you too would probably find your phone

more than pays for itself in money saved, as well as in time and travel.

Mrs. Long's telephone diary shows the money her phone saved her in just two weeks—and the time and mileage it saved her, and those who phoned to chat or lend a hand.

SPORTS AFIELD

By Ted Kesting

Failure to retrieve a fallen quail, grouse, pheasant, duck or any other game species simply amounts to plain, unadulterated waste that should be considered

unforgivable unless a determined and conscientious effort is made to save it comments Henry P. Davis, Sporting Dogs Editor of Sports Afield Magazine.

Each season thousands of hunters, either careless or too lazy to make an honest retrieving effort, cause a loss of several million dead or wounded ducks which would have made a substantial contribution to the family larder

if a little well-directed energy was expended. A similar situation exists in the ranks of upland game hunters, probably to a lesser extent.

An excellent way, perhaps the only way, to cope with this wasteful situation is to use a retriever. His ability to find game will not only enhance your game bag, but will double your pleasure afield.

Many pheasant hunters do not use dogs, and thereby miss a large portion of the fun that goes with hunting. They argue that the wily ringneck will ruin any pointing dog in time, owing to his running proclivities. Admittedly, the pheasant is a hard bird to handle, but many seasoned or experienced bird dogs learn to solve that running problem by circling the bird and heading him off before he takes to the air, often frightening him so badly that the bird will almost have to be booted out of the cover.

Quail are becoming increasingly wary with the passing of each season. Seldom do we find the easy single shooting or bygone days when a flushed covey would fan out in an open sedge-field to become individual and easy marks for crack gunners. Here the re-

trieving dog comes into his own and thousands of bobwhite are brought to hand which would never grace a hunter's table were it not for the ability of his dog to scent out and find the dead or wounded game.

It is duck hunting, however, that the worth of the retriever is best exemplified. Whether it be shooting over open water or marsh lands from blinds, jump shooting from boats, pass shooting, or sky-busting highfliers in the heavy pin oak flats of the Southland, a retriever such as the Chesapeake, Labrador or Golden, or an Irish or American water spaniel will prove his true worth as an important factor in successful waterfowling.

Many of these dogs display an almost uncanny ability to mark birds down, whether it be in woods, water or fields. Quail and pheasant hunters are rapidly recognizing the value of retrievers in upland game shooting, and many of them take these dogs afield, keeping them at heel to relieve their pointing dogs of the retrieving job, thus adding a spectacular touch to this exciting sport. Spaniels have long been noted as upland hunting dogs and the work of retrievers in heavy

cover has caused them no longer to be considered as novelties in this phase of field sport.

So use a retrieving dog this season and derive the full measure of fun from your hunting season. Not only will you have the satisfaction of knowing you have not left any dead birds or cripples in the field to die a lingering death but you will have conserved your ammunition, enhanced your gamebag at the least expense to game resources, and gained a large dividend of extra and unexpected fun in the bargain.

Tax Reduction To Help Federal Roads Program

The scheduled one cent reduction in the federal gasoline tax next June 30 will bring an increase of more than \$225 million a year in funds available for the nation's interstate highway construction program, the Maryland Petroleum Association noted today.

"Highway construction will benefit, not suffer, with expiration of the temporary gasoline levy," C. A. Newland, Chairman of the Association pointed out.

"Congress has provided that when the federal tax drops back

to three cents, some \$802 million a year in automotive excise taxes that now go into the General Fund of the U. S. Treasury will be earmarked for roadbuilding. This is well over \$225 million more than now comes from the temporary one cent gasoline levy, according to House Report 1120 presented in the last session of Congress," he noted.

He pointed out that no new legislation is needed to effect this increase since the law passed by Congress and signed by the Pres-

ident made provisions for the interstate system's financing after the expiration of the added gasoline tax.

Under terms of that legislation, Mr. Newland said, \$690 million from the excise tax on new cars and \$112 million from taxes on automobile parts will go to the highway fund instead of the General Fund as of July 1.

This money, he said, represents part of the \$1.7 billion a year in automobile taxes which is currently diverted from highways.

CLASSIC RACE

AT PIMLICO

Probably no race in America was conceived under more unusual conditions than the storied Dixie Handicap which is to be renewed for the 56th time at Pimlico this fall on Thanksgiving Day.

In 1868, two years before racing was conducted over the present site at Pimlico, a group of sportsmen were at dinner during the Saratoga meeting. They fell into discussion of their horses and decided they needed a new race for three-year olds.

Oden Bowie, governor of Maryland, was among those present. He must have been a persuasive talker for he convinced the group that the best place to run the race would be at Pimlico—which hadn't been built.

Bowie guaranteed his listeners that a course would be ready in 1870 for the first running of the race. He returned to Baltimore, got a group of public-spirited citizens together and work was begun. The track opened on Oct. 25, 1870 and the next day the first Dixie was run. It is now the nation's ninth oldest stakes.

Because of its origin, it was called the Dinner Party Stakes and was run again under that name in 1871. From 1872 thru 1888 it was an annual fixture under the title of the Reunion

Stakes.

About that time, opposition from other stakes, outlaw sport and other conditions brought about a cessation of racing at Pimlico and the race disappeared from view until 1902. For three years, it was run at the old Benning's Course in Washington, D. C., as the Dixie Handicap.

It was returned to Pimlico in 1924 and has been a regular feature since. In 1925, to meet the demand for important events on the turf, the Dixie was made a grass contest and it will be offered this season as a test on Pimlico turf at one mile-and-one-half.

The Dixie has always drawn top horses. Its first winner was Preakness, after whom the nation's richest added money race is named. Harry Bassett, Tom Ochiltree, Vigil, Grenada, The Bard and Hanover were among the victors during the early portion of the race's history.

In more modern times, and on the dirt, the roster of winners has included such notables as Sarazen twice, Equipoise, Whirlaway, Riverland, Armed, Assault, Alert and Royal Vale.

Since being transferred to the turf, the Dixie has had five winners and three of them, St. Vincent, Pop Corn and One-Eyed King have been rated among the leading grass runners in the nation.

Experts Give Data
On Purchasing Home

If you own a home, or are contemplating buying either house or lot, the Pennsylvania State University has a brand new correspondence course designed especially for you.

Written by Glenn E. Steyers, assistant professor of landscape architecture, the course is primarily for those interested in planning home grounds and to guide them in over-coming mistakes or omissions created by failing to plan properly from the start.

Profusely illustrated, the lessons in the course include directions for moving soil to create living areas, best placement of buildings, decisions involving walks, drives, walls, and steps, as well as other essentials to a well-planned property. Included, too, is a list of recommended trees and shrubs.

The complete course, including lessons, illustrative materials, and expert correction and grading of lesson papers, will be sent to anyone for \$3.50. Send to Correspondence Courses, 202 Agricultural Education Building, University Park, Pa., and request Course No. 131. Make checks or money orders payable to The Pennsylvania State University.

About 35% of all cardiovascular deaths, says your Heart Association, are in the age groups under 65.

Imported Xmas Trees
Must Be Inspected

A marked buildup and spread of gypsy moth population in many areas of north-eastern United States this season greatly increases the hazard of spreading this destructive pest through the shipment of Christmas trees and holiday greens, the U. S. Department of Agriculture warned today.

The public, and dealers in Christmas trees and holiday greens, are reminded that such products must be inspected and certified before they can be shipped or carried from any area regulated under the quarantine.

Areas under regulation include all of Connecticut, Rhode Island, and Massachusetts, most of New Hampshire and Vermont and parts of Maine and New York. Buff-colored egg masses of the moth deposited on evergreens intended for movement out of these areas could start new destructive colonies of the pest. Caterpillars of the gypsy moth feed on the leaves of many common forest and shade trees.

Surveys conducted this summer and fall indicate a substantial increase in infestations of the moth in sections of Maine, New Hampshire, Vermont, Connecticut and New York. For this reason, the number of shipments of Xmas trees and greenery requiring piece-by-piece inspection is apt to be greater than in previous seasons. Shippers are urged to obtain certification at loading points where inspections can be made with a minimum of delay. Detailed information on quarantine regulations and scheduled certification at loading sites can be obtained from State and Federal plant inspectors in the quarantined areas. These inspectors may be located through post offices agents of common carrier county foresters, county agents, or telephone directories.

Litterbugs Cost
State \$178,000

The Governor's Committee to Keep Maryland Beautiful announces that over a three-year span, fiscal periods 1957 to 1960, cost of cleaning litter from the State highways has been reduced from \$178,000 to \$92,470, or almost 50%.

The State Roads Commission report for litter cleanup costs showed a \$178,000 cost for the first fiscal year, \$108,800 for the second (a decrease of \$69,199), and \$92,470 for the third (a de-

crease of \$16,331 in the third as compared to the second, or a decrease of \$85,520 when compared to the first) over the three-year period in question.

However even though litter cleanup cost figures decreased, it was still necessary for the State Roads Commission to remove 4,007 truckloads of trash from State highways during the past year. It is up to Marylanders to cut down that figure, by each citizen realizing his individual responsibility not to throw trash on the highways and to help keep our State beautiful by keeping it clean.

SCHOOL MENU

The school lunch menu for the week beginning Oct. 31 at the Emmitsburg Public School has been announced as follows:

Monday: Oven fried chicken, mashed potatoes, gravy, cole slaw, cranberry sauce, peaches.

Tuesday: Spaghetti with beef,

peanut butter cracker, green beans, lettuce wedges, cherry crunch.

Wednesday: Franks on buttered roll, steamed cabbage, buttered rice with pineapple, chocolate pudding.

Thursday: Roast pork and gravy, mashed potatoes, sauer kraut, carrot strips, pumpkin pie.

Friday: Orange juice, salmon loaf, buttered parsley potatoes, stewed tomatoes, assorted desserts. Bread, butter and milk served with each meal.

Buying for cash is a good way to keep your debts paid.

Motorists Cautioned On Halloween Road Hazards

Hallowe'en will present special dangers to motorists, Paul E. Burke, Executive Director of the Maryland Traffic Safety Commission warned today.

"Countless youngsters will be out for several hours on the evening they have looked forward to for a long time, and they'll be garbed in white goblin sheets, black witches' cloaks and costumes of all sorts—many of them with masks which prevent seeing clearly," Burke advised.

"These youngsters will be so absorbed in the fun of 'trick or treat' that they may forget to exercise the caution they ordinarily use when going to or from school,"

Lamp Post Tea Room

In a recent article we failed to mention that the Lamp Post Tea Room, 301 Carlisle St., Gettysburg, is managed by Marshall Tuckey, whose helpful wife, Edna, supervises the kitchen and food preparation.

ADMINISTRATOR'S C.T.A. NOTICE

This is to give notice that the subscriber has obtained from the Orphans' Court of Frederick County, in Maryland, letters of Administration c.t.a. on the estate of

CLEON ELLIOT

late of Frederick County, Maryland, Deceased. All persons having claims against the deceased are warned to exhibit the same, with the vouchers thereof, legally authenticated, to the subscriber, on or before the 1st day of May, 1961 next; they may otherwise by law be excluded from all benefit of said estate. Those indebted to the deceased are desired to make immediate payment.

Given under my hand this 19th day of October, 1960.

Joseph H. Elliott

Administrator c.t.a.

he added.

"Motorists therefore must adopt a more solicitous attitude toward these juvenile fun-makers, remembering they themselves once were kids," he added.

"What disturbs State officials even more is the inclination of a comparatively small percentage of older youths to make Hallowe'en the excuse for pranks which can prove dangerous to drivers," the executive director pointed out.

He urged that would-be vandals resist the temptation to deface highway warning signs, to twist stop signs or remove them, or to place obstructions of any sort in a roadway.

"Such interference with regulatory aids for the efficient movement of traffic cannot be countenanced with any mercy," he added. "When lives are at stake, those who gamble with the safety of the driving public are setting the stage for tragedy. These occurrences are rare, but even just a few—even one—could have tragic consequences."

Burke urged motorists to place themselves on the "Treat Team" rather than the "Trick Team" of drivers.

Tricksters of the road, he said, are those who merely slow down for stop signs, run traffic lights, follow others too closely, refuse to dim for approaching cars at night, weave from lane to lane, or dare others to race them on the road. "Every driver should treat fellow motorists with respect, treat his passengers to comfortable rides, and treat his own God-given life as a gift worth protecting," he declared.

CREGGER—THOMAS

Miss Joan Thomas, daughter of Mrs. Bernie Thomas and the late Frank Thomas, Gettysburg R3, became the bride of Leslie Cregger, Emmitsburg, at the home of Mr. and Mrs. Luther Cregger, Emmitt Gardens, Emmitsburg, recently with the Rev. H. L. Myers, Gettysburg, performing the ceremony. Lloyd Fuss, accompanied by Mrs. Gwenda Fuss, sang "I Love You Truly," and "Because" followed by the wedding march. The matron of honor was Mrs. Robert McKee, sister of the bride. The best man was Marvin Cregger, brother of the bridegroom. The flower girl was Cindy Fuss, niece of the bridegroom, and the ring bearer was Kenneth Thomas, brother of the bride. Out-of-town guests were from Washington and Alexandria, Va.

The bride is a graduate of Biglerville High School and is employed as a secretary at the H. and H. Pontiac Garage, Gettysburg, and the bridegroom is a senior at the University of Maryland. He is engaged in student teaching in Walkersville.

Will Probated

A will, neatly written on the back of a used envelope was probated Wednesday morning by the Judges of the Orphans Court.

The will was written by Cleon E. Elliott, former Emmitsburg resident. It said: "Upon my death I leave all of my real and personal property to my wife Mildred. She is to serve as executrix without bond." The will was dated March 5, 1957. Elliott died November 20, 1959.

Joseph Elliott, a son of the deceased, attested to the handwriting of his father.

4-H Club Meets

The Rocky Ridge Progressive 4-H Club met recently at the home of Dale and Phile Valentine. Twenty-five members answered the roll call by telling of something each had learned since joining the club.

A report was made on the placing of the booth at the State Fair. Those members with projects at the fair told how they placed in competition there.

Plans were made to put a booth at the local community show. The club is selling candy, in decorative canisters, to help boost the treasury.

The next meeting will be held at the home of Jerry Orndorff.

Attending Meeting

Harry Swomley, Emmitsburg, is representing Southern States Cooperative members in this area as delegate to the Cooperative's 37th annual stockholders meeting at Richard, Va. Thursday and Friday. Also attending is Ralph D. Lindsey, manager of the Southern States Cooperative agency in Emmitsburg.

Mrs. Frances Stinson, Mrs. George Paxton and son, visited last weekend with Mr. and Mrs. Charles Lake and family, Norris-town, Pa.

Miss Octavia Troxell, Westminster, spent the weekend with her parents, Mr. and Mrs. Henry Troxell.

Mr. and Mrs. Charles B. Shorb and family and Mr. and Mrs. Robert Topper visited in Berkeley

Springs, W. Va., on Sunday.

Mr. and Mrs. Rodgers Topper, Mt. Airy, visited with Mr. and Mrs. Donald Stoner on Sunday.

Miss Margaret Walters, York, spent the weekend with her mother, Mrs. Bernard Walters and family.

FAIRFIELD HOTEL

The Fairfield Hotel, Fairfield, is a landmark, which in its time has been host to many famous historical personalities and which today serves some of the most delicious food to be obtained anywhere.

Actually, the establishment is no longer a hotel. All but two rooms have been converted into apartments. The hotel's dining room offers foods which are known throughout this area for their delicious taste and excellent quality. Among the best known dishes served here, and they really are gaining a wide reputation, are the crab cake and super ham sandwiches. Every customer who has tasted them insists that these two special items on the

menu are the most delicious they have ever eaten.

The hotel is operated by Mr. Maynard Stucky, who is the proprietor for the eighth year. The hotel was built in the 1700s. Patrick Henry, one of the most prominent figures in American history lodged here. Thaddeus Stevens was located at Iron Springs and married the daughter of one of the former owners of the hotel.

Mr. Stucky also has a fine trailer park here. Two trailers, equipped with light, water and septic tank are now staying there. And there is room for about 20 more trailers. You park your own trailer. The Hotel's hours are 8 to 12 P. M., six days a week. Phone Fairfield 9005.
