### EMMITSBURG CHRONICLE, EMMITSBURG, MARYLAND, FRIDAY, NOV. 4, 1960

VOLUME LXXXI, NO. 3

## Most Anything At A Glance BY ABIGAIL -

As the heat of the present election battle becomes more intense it is prudent to sit back and analyze just what is transpiring before we become too involved in the campaignn and its personalities concerned. These are the international policy, the home front economical situation and what lies in the future for this decade of the 1960s. These require good clear thinking and should be a separate piece of business aside from the personalities backing them. There are many who are satisfied with the present leadership and there are equally as many, if not more, that are incensed at the accounting of the present administration. The day has come for a decision and that will come next Tuesday when we vote for the candidate of our choice. There's one good thing to be said of this election and that is that it is bringing both Catholic and Protestant closer and closer together in a spirit of good fellowship. Almost over the entire nation the religious issue has been debated and scrutinized and there is some intelligent thinking being done. As a whole most all churches have stayed out of the boiling issue and bigotry, through these discussions, has been exposed for what it is, a handdown from previous generations. Oh yes, there has been much literature of the hate nature circulated and in some instances mentioned from the altar, a place where God's word is supposed to be spread but sometimes this intention or purpose has been misused. We are grateful though that this sort of action has been Local Voters kept at a minimum and is confined to a very few states in the Nation. There always wili be isolated cases of bigotry, on both sides, but each year sees less and less of this distasteful trend of thought. We cannot teach religious tolerance and not practice it. This issue was inserted into the Constitution by our forefathers and this is one of the reasons this country was founded. It really is a haven for those who were religiously

# Democratic Jubilee **Saturday Night**

A mammoth Democrat Jubilee has been scheduled for Saturday night, Nov. 5, the Emmitsburg Democratic Central Committee announces.

The affair will be held in the VFW Annex and all those interested voters who wish to learn more about the candidates and the issues are cordially invited to attend. Lumen F. Norris, local Central Committee Chairman, has lined up a complete evening of entertainment and good fellowship. It is hoped to have men in the higher echelon of Democratic politics on hand to speak to the gathering and to answer any questions that may be asked. During the jubilee rally, refreshments will be served and perhaps some film regarding Candidate Jack Kennedy. Orchestra music will be played during the evening. The committees suggests friends and enjoy a really friendly and social evening. It is the hope of the committee that with the almost three - to - one Democratic registration in Emmitsburg, that

a crowd of several hundred will be on hand Saturday night. Admission is free and all are invited. During the evening instructions will be given on how to operate a voting machine, candidates and issues discussed and other preparations to both the new and old

voters on how to vote intelligent-The rally will get under way promptly at 8:30 o'clock.

### EMMITSBURG CHRONICLE, EMMITSBURG, MARYLAND, FRIDAY, NOV. 4, 1960

### "Watch Electronics"

BABSON PARK, Mass., Nov. 3-When the electronics stocks were becoming popular, I was slow to discuss them in this column. Now, however, I have concluded that electronics will be the next big industry. Automobile Investments

Forty-five years ago, nearly

there was much speculation. Mr. Ford's "Tin Lizzie" was the most popular, selling around \$500, while the most expensive car was the Packard. Another popular car was the Studebaker, whose manufacturer was once the largest maker of wagons and carriages. Both the Packard and the Studebaker since declined in production, resulting in severe reorganization which effected a combination of the two com-

panies.

peace. This must come about some day, or else we will all go broke from armament expenditures or World War III. Electronics automation is inevitable; but it must come slowly. It is very expensive for private manufacturers to change their plants over to electronic automation.

the Providence, Rhode Island Post Office may hold the answer. The Government, to prevent unemployment, could greatly help the industry by operating all their important post offices electronically. This would take some time and, in the meantime, prevent any serious period of unemployment. Futhermore, with the Government's getting behind this proposition, \* congress could pass legislation requiring the standardization of all mail as to size of envelopes, location

#### What Is The Miracle?

Some post offices are now usme explain one reason for this armaments gives the electronics people the jitters; they wonder what they will do when, as, or umn.

the most publicity on this scanner is Farrington Manufactur-ing Company of Needham, Mass. Its main competitors in postal equipment include International Telephone & Telegraph (which built the Providence, R. I. Post Office), International Business Machines, Chance Vought, Pitney-Bowes, Food Machinery & Chemical (now building the Oakland plant), Emerson Radio, Sperry Rand, and Western Union. Many others will enter the field. In some cases the stocks will triple in price, but in many cases the companies will go into bankruptcy. How-ever, I now say: "Watch Electronics."

Where Our Money Goes

When Karl Marx, the Socialist, proclaimed the doctrine of Communism a century ago, he contended that Capitalism "makes the rich richer and the poor poorer." He said it exploited the workers. He said only a few people could enjoy living under Capitalism. Marx, who could never hold a job and who dallied away his days in the London library while his children were starving to death, was a colossal fraud. His writings, glorified by dupes thruout the world, were classics of stupidity. American Capitalism has

proved this fact. Nowhere on earth in all history have so many people enjoyed such a high degree of economic wellbeing as have Americans under our private enterprise system. Every Saturday this fall 10 million Americans in stadiums throughout the nation are paying \$4 to watch less than an hour of college football. Each spectator is spending about \$1 to get to his game and about \$1 for program and knickknacks during the melee. This is wonderful entertainment, and we can afford it! But the \$6 is about half a week's salary for the Communists living under the Karl Marx socialistic economic sys-

tem. He couldn't afford it. He couldn't afford a 25c football game. **Reds Spread Falsehoods** Most of the people of the world do not know these facts about American Capitalism and Communism. The very first

timore Public Schools, and served as consultant in guidance for Dr. James Conant's recent study on "The American High School Today."

American Capitalism our national income — everybody's income totaled up-was \$5,206,-780.000.000 - about five and a tion is fragmented into thousands quarter trillion! Of this the of locally controlled school systhe professional men and women (lawyers, doctors, teachers, 5.5%; landlords (of rental housing), 3.2%; stockholders in corporations, 3.4%; bond holders (investing money to build tions, 5.7% (gross income). can industry today is \$2.20 per income is more than \$6,000 a groups contain 84% of the population. That leaves only 16% fit from with incomes under \$3,000 and grams. most of these are farm families, whose cash income does not truly reflect their good living standard; and the millions of people on retirement incomes and pensions.

Upper Bracket Three per cent of American families are in the \$15,000 and above bracket. It is from this bracket that comes much of the adventure capital and investment money to build new manufacturing plants and start new businesses - creating new jobs and new products. If all the income in the \$15,000 and

### Selection Of College, system does not work as well as it should.

-About half of the top 10 per cent of high school graduates do **To Student's Welfare** not go on to higher education.

-About one-fifth of the academically talented students (the upper quarter in intellectual capacity) do not even finish high school

-Of those admitted to college only about 50 per cent graduate. This is a deplorable waste of human talent. Not only is the nation deprived the best contribution of many of its most cap able citizens, but these citizens, as individuals, are deprived the useful and meaningful life they deserve.

Why does the education system of the richest and most dem ocratic nation fall so far short of perfection? One of the most obvious answers is suggested by the question itself. In a democracy, the ultimate decision be-
