A well-deserved tribute was paid a local man last week for his untiring efforts in behalf of Emmitsburg and Mt. St. Mary's College. At a special academic convocation held at Mount St. Mary's, Msgr. John L. Sheridan was eulogized by members of the college faculty, church dignitaries and personal friends both from far and near. The Monsignor has devoted almost his entire life to the college and the town. First as a youth he attended prep school here, completing his seminary days and ordination he joined the Mount faculty and has held every administrative job there eventually rising to the presidency in which capacity he served 25 years, a quarter of a century. For over a half century he has labored in the proverbial vineyard in behalf of the college and subsequently dear old Emmitsburg.

Always shunning the limelight he proceeded along quietly with his duties of running the institution, making a host of warm, local friends, and constantly expanding the facilities of the college. So concentrated were his efforts that the college has actually doubled its size under Msgr. Sheridan's outstanding tenure of office. At least six of the most modern and pretentious buildings are the result of his untiring labors. He has worked quietly just about all his life within the shadows of Emmitsburg and the Mountain and yet he is entirely unknown to a great many Emmitsburgians. Oh his name is familiar I grant you, but as I said before, he is almost a stranger to many who have never even taken the opportunity to visit or inspect the local college which has been here in our midst for 153 years. Certainly the college is an integral part of our community, and one of which we might term one of our largest assets, along with the sister college, Saint Joseph. All of us, regardless of religious beliefs, should make it a point to acquaint ourselves with these two institutions. Emmitsburg needs these two institutions and they need Emmitsburg. We are "blood brothers" so to speak.

Msgr. Sheridan has been honored while he still is alive which in my opinion is very befitting. The new ultra-modern dormitory which is now under construction on the college campus has been named after him . . . Sheridan Hall. Where else could you apply such a deserving name? The Monsignor himself was given the opportunity of laying the cornerstone last Saturday. A fitting tribute to one of the college's greatest presidents and a man loved by all Emmitsburgians.

One of the finest Halloween parades we've ever had here was held Tuesday night. The turnout of children and adults was exceptionally well and no doubt the pleasant weather we were experiencing at that time had a lot to do with it. Halloween deprecations were kept to a minimum and few arrests had to be made, although a few individuals had to be admonished. It really was one of the quietest observances I have ever experienced. No doubt with the law cracking down harder each year and the kiddies being satisfied with the parade and tricking or treating, the occasion has lost a lot of its viciousness.

Msgr. Sheridan Honored At Convocation

High tribute was paid Monsignor John L. Sheridan, P.A., president emeritus at the annual Homecoming observance of Mount St. Mary's College held last weekend. The Friday afternoon academic convocation was entirely devoted to honoring Msgr. Sheridan.

Monsignor Sheridan, who retired in June after 25 years as president of Mount St. Mary's, is celebrating a number of anniversaries throughout the year. The present semester marks the 50th anniversary of his arrival on campus as a prep student in 1911; June will mark the 45th anniversary of his graduation from the college in 1917. This year will also mark the 40th anniversary of his ordination to the priesthood.

Before he stepped down as president, Msgr. Sheridan had held all the administrative offices on the campus. During his 25 years as president the new library, Pangborn Hall, Memorial Gymnasium and the Seminary Annex had been constructed and the erection of the Student Union and a new dormitory were begun. The new dormitory will be called Sheridan Hall in his honor.

The DuBois Medal, named after the founder of Mount St. Mary's, Rev. John DuBois, later the bishop of New York City, was awarded for the first time "for distinguished public service." It will be an annual award by the National Alumni Association of the Mount to an outstanding public figure. The year's medal was awarded to James J. Rowley, head of the Secret Service.

Rowley, a native of the Bronx, was recently named by President Kennedy to succeed Urbanus E. Baughman as head of the Secret Service. Educated at St. John's University, Brooklyn, where he received his law degree and a master's degree in law, he served for a time as a Wall Street investigator and with the FBI. In 1938 he joined the Secret Service and in 1939 was appointed to the White House detail responsible for the safety of the President. In 1946 he became chief of the White House detail and responsible for the safety of Presidents Truman, Eisenhower and Kennedy. After 21 years of concentrating on presidential safety, he now must give his attention to the wider aspects of the Secret Service, the Treasury Department's police arm against counterfeiters, forgers, embezzlement and fraud in the various federal lending and banking programs.

Rowley is married and the father of three daughters, one of whom, Claudia, attends St. Joseph College.

Mount Cage Captain Named

Richard P. Talley, Gloucester, N. J., a senior in Social Science, will captain Coach Jim Phelan's Mount St. Mary's College cage during the current campaign. The range forward, an all-conference and all-tourney selection in 1960, and winner of the most valuable player award in the NCSA Eastern Regional finals at Albright College, is the only senior of Phelan's starting five. In three campaigns, two as a starter, he has scored 976 points and picked off 572 rebounds. A deadly corner shooter, Talley will make the Mountaineers strong contenders for their second straight Mason-Dixon crown. Scrimmage watchers are predicting that Talley will lead one of the finest Mountaineer squads in history, better than last year's 26-5 club.

THE RAISING OF THE QUEEN — Jerry Korn. In the spring of 1959 a huge, beautifully equipped supertanker named the "African Queen" lay split in two on a sand bar ten miles off the coast of Maryland. The owners had abandoned her; a world-famous salvaging company had made an unsuccessful attempt to raise her; even the scavengers who had come in boatloads to strip her of her gear had disappeared—frightened off by increasingly dangerous seas. A battered ship worth millions lay half submerged, surrendered to the sea.

Two men armed with little more than their audacity decided to attempt the impossible. This is the story of how they went about it.

Gettysburgian Injured In Wreck

An automobile and a small truck collided head on Friday afternoon at the northern intersection of U. S. 15 and Old Frederick Road, resulting in a traffic charge against a Gettysburg motorist and causing injuries to a man who was riding with him.

The accident, which occurred about 2:50 p. m., was investigated for State Police by Trooper First Class William F. Davis. The intersection is located about one mile south of here.

Tfc. Davis charged the driver of the car, Dr. Harry F. Baughman, 69, of the Lutheran Seminary Campus, Gettysburg, with failing to stop at a stop sign. A passenger in Dr. Baughman's car, Rev. Dr. Herbert H. Schmidt, 53, the seminary librarian at Gettysburg, suffered lacerations of the left ear and broken ribs on the left side.

Dr. Baughman, who was not injured, is president of the seminary at Gettysburg. His sister, Mrs. Mary Fogle, is house mother at the Frederick Memorial Hospital Nurses' Home.

Dr. Schmidt was taken to the Warner Hospital in Gettysburg in the Emmitsburg VFW ambulance. In addition to his other injuries, he was found to have a large swelling on his back, apparently as result of the collision. He was admitted as a patient.

State Police reported that a 1960 Ford truck, loaded with pigs, was being driven south on Route 15 by James Richard Millhimes, 23, Gettysburg R1, when the Baughman car failed to stop at a stop sign and collided head on with the truck.

Millhimes escaped serious injury but damage to the truck was estimated at \$300. Damage to the Baughman car, a 1956 Lincoln, was estimated at \$250.

Water Company Purchase Urged By Businessmen

At a meeting of local businessmen, women and civic leaders held last Thursday night in the VFW it was the unanimous decision of the group that negotiations for the purchase of the Emmitsburg Water Company by the Town of Emmitsburg, should proceed at once.

About 25 were present at the meeting and read charts and listened to explanations of the charts by Mayor Edward Houck and Commissioners J. Norman Flax and John S. Hollinger. Present also was the Town's engineer, E. St. Clair Maxwell, of Pikesville.

Those present were told that the utility was asking in excess of \$200,000 for the purchase of most of its assets. Engineer Maxwell described to the group how the system, if purchased, could be improved and gave an estimate as to how much it would cost. The Water Company, while having no representative present, left with the group the findings of its own engineering firm and noted several general improvements planned in the future, to be taken step by step.

Present day demands were explained by the officials and the steadily increasing needs of the two local colleges were discussed. In addition adequate pressure for fighting fires was discussed and a plan to remedy the condition submitted to the group. The discussion lasted three hours and it was unanimously agreed by those present that the Town of Emmitsburg should purchase, as soon as possible, all the holdings of the corporation, at a price to be decided upon between the two bargaining parties.

The meeting was called by the Town Council, to sound out sentiment, if any exists, as to whether or not the Town would be better off with a municipally-owned water system. It was felt that since municipally-owned utilities are tax exempt, that Federal and State grants are available and that municipalities can borrow money at considerably lower interest rates, that it would mutually benefit the Town and its citizens if ownership of the company were made municipal. Town officials hold to the theory that with these breaks in its favor that rates could very possibly remain the same, at the same time contending that any future improvements by the privately-owned utility would bring on rate increases.

Homemakers Hear Report On Chile
Mrs. Victor Fiery, International Relations Chairman of the Emmitsburg Homemakers' Club, gave a very interesting and informative talk on the home life and other conditions in Chile, one of our South American neighbors, at the regular monthly meeting of the Emmitsburg Homemakers' Club held Thursday, Oct. 26 at the home of Mrs. Paul Beale.

With the use of charts, pictures, maps and slides, Mrs. Fiery gave a graphic picture of the life in Chile. Some of the things she told were: The water supply is so impure that no one can drink it—they drink wine; there are only the very rich and the very poor people; the farmers have very little equipment, and most of the implements they import from England and Germany—not the U. S. because equipment is so much higher in cost; many people from the U. S. and other countries have exploited the country for their rich ore in the northern part especially, and feelings in this country are not overly friendly to the U. S. The U. S. has not done all it could for this needy neighbor. The farms are very large and owned by the wealthy. They may support as many as 50 or 60 families of the poorer class who do the labor work.

The homes of the poor class are very shoddy. They burn peat moss and brush because they have no other fuel. They have to butcher and cook their meat and eat it all the same day because there is no refrigeration.

The eleven members of the club that were present learned a lot from this lesson.

After the International Lesson, the business meeting was held. After the usual run of business, the meeting was adjourned, and refreshments were served.

Speaking without thinking is like shooting without aiming.
