BY ABIGAIL

The proposed plans for the consolidation of Taneytown High School have been stalemated for the present time it was learned this week. The Carroll County Board of Education, already had announced the date for the removal of high school children from the Taneytown school to the new consolidated school at Union Mills, a number of miles away. Taneytown residents went up in arms and fought the move which has now been postponed awaiting final decision by the Board of Education. It hasn't been too long ago when we experienced a similar situation here in Emmitsburg and I understand that the fire isn't out yet.

Uncle Sam is working hard on the project of auditing every single income tax return and is making considerable progress. At the present time only about 60% of the returns can be audited. Present plans call for the erection of a new building to be equipped with electronic computers at Martinsburg and by 1966 every single tax return can be audited. This means that you will not be able to "trust to luck" any more that your return wouldn't come up for perusal. Within the next three to four years everyone's return will be scrutinized by an electric brain so be certain to file them right folks.

Your writer was shocked when she learned this week that the State Roads Commission plans to do exactly nothing to rectify the hazardous condition existing at the Old Toll Gate Hill intersection. This spot has been the scene of a number of nasty accidents and thousands of dollars of property damage. Barricades are knocked down every week and yet the Roads Commission has no remedial plans. This is hard to visualize when you peruse the accident map at the Frederick State Police barracks. There just isn't any more room for additional pins at that spot. The latest information available is that Emmitsburg won't be bypassed for at least another three or four years and in the meantime that death trap will remain existent the entire time. It is my humble opinion that the boys in the ivory tower of the Roads Board just aren't thinking right and when this is prevalent it's time for some drastic changes in personnel. Just what excuse could there be for such an existing situation? Do we have to wait for a certain number of fatalities to occur before we receive preferential treatment? Just take a look at our sparsely populated Eastern Shore and you will be amazed to see the miles of super highway being constructed there where only several hundred cars a day traverse. Here we are in thickly populated areas where eight to ten thousand cars a day travel the roads and every single one is made to stop because the road ends. Let's get on the project folks... there is always some higher authority to go to to receive satisfaction.

## Child Slightly Injured By Car

A three-year-old girl apparently escaped serious injury before 7 p. m. Friday when she was struck by an automobile while running across East Main St. in Thurmont. The injured child, Betty Ann Kolb, of St. Anthony's, was in Thurmont with her grandparents on a shopping trip at the time of the accident, which occurred near the office of Dr. James K. Gray. She was able to return home after being treated by the physicians for a bruise on the back of the head.

Officer James R. Dubel of Thurmont said the child's grandparents were on opposite sides of the street and she darted out in front of the car while running from one to the other. He identified the motorist as Merritt A. Henning, 48, of Thurmont.

Henning was charged with operating a vehicle without a license in his possession.

When fishing an area new to you, talk to native fishermen. Each area has its own fishing conditions and its own popular baits and lures.—Sports Afield.

## Improvements To Route 15 Are Bared

Plans for the improvement of U. S. Route 15 were revealed by State Roads Commission representatives at a dinner meeting of the Emmitsburg Jaycees held last Thursday night in the Green Parrot Tea Room.

President Allen Stoner presided over the meeting at which were a number of invited guests representing various business segments of the town.

The Roads Commission representatives stated that the Route 97 bypass coming from Taneytown westward to the Pennsylvania line would bypass Emmitsburg to the north and intersect new Route 15 at about the Curtis Topper property about a mile north of town.

In addition the State would advertise on January 16 bids which would call for the construction of a half mile of new highway north from Curtis Topper's property north to the Pennsylvania state line. This work would be done in 1962. No definite date was given for the east-west bypass but it was thought it would be several years yet.

Speaking of other improvements to Route 15, the agents said dates for Frederick County projects are as follows: U. S. 15 from Pennsylvania line, advertising, January 16, 1962; bid opening, February 6 and award date, March 17.

U. S. 15 from Putnam road to Thurmont By - Pass, advertising, April 24, 1962; bid opening, May 22; and awarding, June 30.

The first lane of the eventual dual highway New U. S. Route 15 between Lewistown and Harmony Grove will be advertised for bids in the coming fiscal year at an estimated cost of \$800,000.

In the question and answer period which followed the meeting, Roads Commission officials were queried about the final disposition of the plans for bypassing Emmitsburg proper. Their answer was that this would come no sooner than three years from now. The dead end, scene of numerous traffic accidents, at the top of old Toll Gate Hill, apparently will remain there for at least the next three years the group was told.

## ZURGABLE—OYER

Saint Joseph's Catholic Church was the setting for the wedding of Miss Patricia Ann Oyer and Henry Thomas Zurgable Jr., on Friday evening, Nov. 3, at 7:30 o'clock.

The daughter of Mr. and Mrs. Nickson W. Oyer, 207 Homewood Ave., Waynesboro, and the son of Mr. and Mrs. Henry Thomas Zurgable Sr., Emmitsburg, exchanged vows in a double ring ceremony performed by Rev. Fr. James Twomey, pastor, before an altar decorated with white gladioli, white carnations and greenery.

Thomas Stoner and John Randolph, Emmitsburg, ushered the guests as Mrs. Louis Rosensteel, church organist, presented a recital of traditional wedding tunes.

The bride was escorted to the altar and given in marriage by her father. She was attired in a ballerina gown of chantilly lace over layers of taffeta and starched tulle detailed with a fitted bodice, scalloped neckline and long, petal-pointed sleeves. She wore a chapel-length veil of pure illusion arranged from a tiara of seed pearls and carried a white cymidium orchid surrounded with Stephanotis.

Miss Susanne Ingels, Waynesboro, attended as maid of honor and wore a beige silk chiffon gown created with draped bodice and bouffant skirt. Her circular nose veil was attached to a crown of matching braid. She carried an old-fashioned bouquet of yellow pompons.

Best man was James E. Roy of Gettysburg. Following the ceremony a dinner for 40 guests was served at the Charter Lounge of the Waynesboro Elks Club.

Upon their return from an unannounced wedding trip the couple will be at home to their friends in Reisterstown, Md.

The bride is a graduate of the Waynesboro Area High School, Class of 1961. The bridegroom is a graduate of St. Joseph's High School, Emmitsburg and attended Mount St. Mary's College. He is presently employed by Steward & Company, Baltimore, Md.

The reason you sometimes hear more "news" on the street than you see in the newspaper is because the newspaper has to stand behind what it prints for all men to read.

## Town Negotiates For Purchase Of Water Co.

Emmitsburg's Town Council, meeting Monday night in the Town Office, took the first step towards negotiating with the Emmitsburg Water Company for the purchase of all its assets.

With the full Board present and with the Board Chairman J. Norman Flax presiding, the motions reached the decision to begin negotiations with the utility and offered \$40 per share for the outstanding stock. Under the Town's plans, an existing mortgage of approximately \$25,000 will be absorbed in the purchase price. The offer was sent in writing to the water company. It is understood that the company has offered to sell for approximately \$200,000 but town officials termed this amount as totally too high.

Speakers at a recent meeting of trade and civic leaders urged immediate moves toward purchase of the utility, and the official decision to resume negotiations came Monday night at the November meeting of the mayor and town council.

Included in other discussions at the meeting was a suggestion to increase the town council membership. Town officials also studied ways and means to set up the community's first snow removal plan.

Mayor Houck pointed out that the possibility of adding one or two members to the town council is linked directly with the resumption of negotiations for purchase of the water company. Acquisition of the company, along with the general growth of Emmitsburg in recent years, Mayor Houck pointed out, would be reasons enough to increase the size of the council.

He emphasized: "It's nothing definite yet. We just talked about it. Such a change would, of course, involve the charter and we would need state approval."

"Anyway, the idea rests mainly on whether or not we get the water company."

Proposals for the town to purchase the water company are not new in Emmitsburg, but interest in any such transaction appeared to bog down prior to Mayor Houck's administration.

"Now we hope to get it started rolling again," he said.

At the same time, Mayor Houck made it clear that the town considers \$200,000 an excessive price for the utility. Business and civic spokesmen were told at the meeting last Thursday that the company is asking at least that much for its assets.

Mayor Houck indicated the figure would have to be lowered before discussions could be launched on a serious basis, but he stressed the town's desire to reach a mutually satisfactory arrangement with officials of the firm.

"Both sides very likely will have to give a bit in order to reach agreement," he said. "After all, we really won't know much about what can be done until we sit down with spokesmen for the company. We feel confident that we can all get together and work things out."

In addition to serving the town of Emmitsburg, the company's lines also serve St. Joseph College and provide part of the water supply for Mt. St. Mary's College.

Mayor Houck said the decision to set up a snow removal plan was made in line with the trend for all modern communities.

Playing an important part in the plan will be the town parking lot, located southeast of the main business center. Improvement work on the lot itself is now being completed.

Mayor Houck said one detail of the snow removal plan would provide that vehicles stalled or abandoned in blizzard emergencies can be towed to the parking lot to aid "digging out" operations. The mayor said the talk on the snow removal plan Monday night was only on preliminary phases, and that the planning will be expanded later.

## Picture Proofs Coming

Those parents who recently had pictures taken of their youngsters for publication in the Emmitsburg Chronicle at a later date, will be given an opportunity to see proofs of the photographs Tuesday, Nov. 14, at the VFW Annex between 10 a. m. and 1:00 p. m.

The secret of happy marriage is simple. Just keep on being as polite to each other as you are to your best friends.

## Observes 88th Birthday

Mrs. Carrie Dern of Emmitsburg celebrated her 88th birthday recently with a turkey dinner prepared at the home of Mrs. Raymond Roop.

Those present were: Miss Margaret Baumgardner, Taneytown; Mrs. Carrie Fuss Long, Emmitsburg; Mr. and Mrs. Lloyd Dern, Taneytown; Mr. and Mrs. Raymond Roop, Emmitsburg; Mr. and Mrs. Robert Grimes, Emmitsburg; Mrs. Otto Christensen, Philadelphia; Mrs. Ethel Del Castillo, of New Jersey; Paul Dern, Emmitsburg; George Dern, New Jersey; Mr. and Mrs. Murray Roop, Emmitsburg; Mr. and Mrs. Harry Weber and son, Robert and Scott, Taneytown; Mr. and Mrs. Fredrick Grimes, Emmitsburg; John J. Baumgardner and Mr. and Mrs. Junior Wolf and children, Emmitsburg. A very delightful evening was enjoyed by all.

## Thurmont Pastor Transferred

Rev. John Joseph Hart, who has been pastor of Our Lady of Mt. Carmel Catholic Church in Thurmont for the past seven years, has been reassigned to St. Clement's in Rosedale.

The new pastor in Thurmont will be Rev. Edward V. Echle from St. Elizabeth's in Baltimore. The pastor assignments become effective November 11. They are two of 12 appointments and reassignments of seven assistant priests in the Archdiocese of Baltimore announced this week by Archbishop Francis P. Keough.

Rev. Fr. Hart is a native of Baltimore and a graduate of St. Charles College, Catonsville and St. Mary's Seminary in Baltimore. He served as a chaplain in the Army Air Force from 1942-46, three years of this time in Alaska in the Aleutian theater of operations. He held the rank of major.

## Numerous Local Students At Mount

The Registrar's office of Mount St. Mary's College, reports that there are 125 Maryland youths enrolled for the fall semester. The total enrollment at the four-year Catholic liberal arts college for men is 710 students.

Local students enrolled are: Richard L. Adelsberger, Thomas J. Stoner, Michael A. Topper, Weldon B. Shank Jr., Justin H. Wasilfsky, George James Baumgardner, George D. Paxson, John Philip Randolph, Richard E. Swomley, Philip D. Topper, Leonard P. Zimmerman, John T. Balmer, Terence C. Byard, James D. Deatherage, James E. Fitzgerald, Harry M. Hobbs, Ralph F. Irelan, Jr., Laurence F. Orendorff, James R. Sanders, Wendell L. Shank, and John C. Umbel, all of Emmitsburg.

Also Terrence R. Best, Harold E. Lewis and Guy Thomas Sicilia, all of Thurmont.

## GRADUATES

Paul J. Sutton Jr., aviation machinist's mate second class, USN, son of Mr. and Mrs. Paul J. Sutton, R1, Emmitsburg was graduated from Aviation Machinist's Mate School recently, at the Naval Air Technical Training Center, Memphis, Tenn.

The 24-week course included instruction in fundamentals of organization and administration, reciprocating power plants, ignition systems, fuel metering, propellers, jet power plants and helicopters.

## LAST APPEAL

George A. Zeigler, chairman of the Frederick County United Appeal financial drive this week issued an urgent call to all to make their contribution immediately to the United Appeal. The established goal has not as yet been met and the drive has been extended until Nov. 15, the chairman stated.

Funds given to the drive help support numerous county charities and activities such as the Red Cross, Boy and Girl Scouts, YMCA, Retarded Children, etc. The drive warrants your support so please give early and generously.

## Phelan Team Prospects Are Bright

The early line on Coach Jim Phelan's cage squad at Mount St. Mary's College indicates that the Mason-Dixon champions, in tact from last season, will make a strong fight to hold their crown. Outside the conference, the Mountaineers face the toughest schedule in their history as they knock heads with Providence, St. Joseph's of Philadelphia, New York U., Georgetown, the Phillips Oilers and the New York A. C., all on the road.

With all five starters back from last year's fine 26-5 season, including 17 straight in Mason-Dixon play, the NCAA Eastern regional crown and a fourth place finish at Evansville, Ind., the Mountaineer squad appears to be one of the strongest Phelan has ever floored.

In 6'4" John O'Reilly, an all-tourney at Evansville, as well as All-Maryland and All-Conference, the Mountie mentor has a solid front man. O'Reilly hit for 613 points last year, carried a 19.7 scoring average and picked off 13 rebounds per game. His all-star mate, fiery Eddie Pfeiffer, had a 14-point average, stole 7 rebounds a game despite his 5'9" stature and was a dazzling back-court performer. Pfeiffer also made All-Maryland and All-Conference.

Captain Dick Talley, an All-Maryland and All-Conference choice in 1960 as a sophomore, is Phelan's only senior starter. Careerwise Talley has bombed in 976 points and will team with O'Reilly at a forward post. Last season Talley carried a 14.1 average and was chosen MVP in NCAA play at Albright. Dave Maloney, who saw action only thru the second half of last year's campaign when he wound up with a 13.5 average, will team with Pfeiffer to give the Mountaineers speed, savvy and superlative shooting from outside.

Phelan still has something of a problem at the pivot post where the Mounties will face their toughest going. Dick Saylor, 6'9" starter last season and a much improved player with a year's experience and new confidence, still has to prove he can handle the boards and score consistently. Pushing him are soph Jack Campbell, 6'5", 230 pounds, a pretty good shooter but relatively inexperienced; Bill Neuss, 6'7", 205 pounds, without game time; Zeke Callahan, 6'7", 235 pounds, and Ed Folk, 6'5", 230 pounds. Callahan is back after a year's absence. In the 1960 campaign he scored 211 points in limited action. Neuss and Folk are green as grass but like the heavy work under the basket. If the Mountaineers are to hold on to their Mason-Dixon crown and play head to head with the Friars, Hawks, and Hoyas, Phelan will need sounder pivot play than he's had up to now.

Hungry for jobs are Lou Martine, 6'3", an all-Catholic choice in Philadelphia's tough schoolboy league where he played for Fr. Judge, and Bob Ackerman, a hot 6'6" back court prospect from Towson Catholic. Martine is a rugged operator with good shooting to back up his floor work. Ackerman is a highly touted performer who has lived up to his billing so far and could give Phelan an impressive threesome outside. He is strong, smart and an excellent shooter.

Dave Samuels who has never played up to his potential has proved the Mountaineer handyman in the past. A springy 6'3", Samuels could bolster the attack and rebounding if he ever catches the proper desire. Back also are Dave Spewak, 6'4", and Tom Wahl, 5'10", both sophs. Jim Caulfield, 6'5" from Priory School in Washington, D. C., missed a lot of the early practice and is well behind the rest of the squad. He is agile and a good shooter and if he can make up the lost ground could help.

While Phelan is pleased with squad progress and hopes to repeat in Mason-Dixon circles, he expects real battles from Catholic U., American, Randolph-Macon and some of the unheralded squads in the loop. He points out the Mountaineers had no non-conference season despite the perfect slate. He expects the rough out-of-conference going to sharpen and smarten his club, but is quick to point out that no team in the country could tackle the Friars, Hoyas, Violets and Hawks without a drubbing here and there. "Let's face it," he says, "we're undermanned against the topnotchers, our big boys are shorties in their

(Continued on Page Eight)

## Fire Damages Nearby House

Improper insulation around a furnace in the basement of the home of Mr. and Mrs. Barney C. Hines is believed to have been the cause of a \$1,000 fire which broke out about 12 o'clock Tuesday evening at their Rocky Ridge R.D. residence, about six miles south of Emmitsburg.

Chief John S. Hollinger of the Vigilant Hose, said that Hines was awakened by the children's coughing and smelled smoke in the house. He awakened his family and called the fire department.

The chief said damage was confined to the furnace and the floor above the furnace. Most of the living room furniture had been removed from the home when the firemen arrived.

The firemen remained on the scene until 2 o'clock Wednesday morning. Thirty-five men and 3 trucks responded.

## Diabetes Week To Be Observed

Plans are now being made for a state-wide diabetes detection drive to be held during Diabetes Detection Week, November 12-18.

During this period, more than 50,000 diabetes self-detection kits will be distributed through drug stores under a program developed by the Medical and Chirurgical Faculty and the Maryland Pharmaceutical Association, in cooperation with the Maryland Diabetes Association.

The test kits will be free to anyone requesting them, and the test is simple and painless. The test material will be mailed to the Medical and Chirurgical Faculty for evaluation, and notice will be sent to the individual and his family physician in the event that the test is positive. The individual will receive a brief notice in the event of a negative result.

The purpose of this campaign is to locate persons who have diabetes and aren't aware of it. According to the latest estimates, there are more than 1,000,000 unknown diabetes in the United States and more than 20,000 believed to be in Maryland.

During last year's drive, Dr. Abraham Silver, Chairman of the Faculty's Diabetes Subcommittee and president of the Maryland Diabetes Association, reported that 2800 people had been tested for diabetes and 224 had shown positive indications of the disease. Of this group, 196 denied having previous knowledge of their diabetic condition.

## Two Injured In Car-Truck Crash

Approximately \$1,400 damage was done and two men were slightly injured in an auto accident involving a sedan and a pickup truck one-quarter of a mile north of Emmitsburg on Route 15 Monday afternoon at 4:10 o'clock.

Lester Fremont McGlaughlin, 53, Gettysburg R2, was operating his four-door sedan north when it was struck by the southbound truck driven by Francis H. Wenschhof, 45, Gettysburg R2.

Maryland State Police who investigated reported that Wenschhof pulled out to the left when he was unable to stop behind a line of traffic which had slowed. His truck struck the right front of the McGlaughlin car.

Guy Alvey Ridenour, 28, Emmitsburg R2, a passenger in the McGlaughlin car, and Wenschhof, were treated at the Warner Hospital. Ridenour suffered a deep laceration of the nose and laceration of the left elbow while Wenschhof, received treatment for bruises and shock.

Damage to each machine was estimated at about \$700.

Charges are pending. Tfc. Earl F. Tracey of the Maryland State Police was the investigating officer.

## Bridge Party

Mrs. D. L. Beegle was hostess at a dessert bridge party held at her home in honor of Mrs. Harry Boyle. Those attending were Mrs. H. P. Freeman, Mrs. John White, Mrs. C. G. Frailey, Miss Ann Cordor, Mrs. George Eyster, Mrs. Valerie Overman, Mrs. Thomas J. Frailey, all of town; Mrs. Roy Gifford, Mrs. Richard Bow, and Mrs. B. Rosenthal of Gettysburg, and Mrs. Hazel Heurst of Bethesda.

For sharp-toothed fish a wire leader usually is used. Often, however, a long-shanked hook will serve the same purpose.—Sports Afield.

Every trash can you see is standing on duty to help keep Maryland Beautiful. How about a helping hand—from you?

## St. Joseph's Church BaZaar Saturday

Many former Emmitsburgians and friends are expected to attend the annual supper and baazaar sponsored by St. Joseph's Catholic Church here Saturday, Nov. 11. Father James Twomey, pastor, reports that each year the number of former parishioners and friends who journey here to enjoy the occasion and to renew old friendships becomes increasingly larger.

Featured at the baazaar this year will be a turkey and ham supper along with numerous palatable foods and delicacies. The affair will be held in the auditorium of St. Joseph's High School and servings will commence at 3:30 p. m. and continuing until all are served.

Both young and old will find various games and amusements on hand to make it a complete evening of entertainment and good eating. Tickets to the supper sell at 75c for children and \$1.50 for adults. Carry-out service will be available and individuals are asked to bring along their own containers.

Committees were named as follows: parcel post, Mrs. Blanche Kepner and Mrs. Blanche Bouey; supper table, Mrs. Curtis Topper; diningroom, Mrs. John Randolph; cake, Mrs. Arthur Starnier and Mrs. Robert Myers; candy, Mrs. Donald Byard and Mrs. William Martin; white elephant, Mrs. Helen Brown and Mrs. Mary Sherwin and sandwich, Mrs. Helen Wills.

## MRS GEORGE T. LINGG

Mrs. Anna Sophia Lingg, 71, widow of George T. Lingg, died Sunday at 7 a. m. at the home of her daughter and son-in-law, Mr. and Mrs. George Sanders, Emmitsburg. She was born and lived her entire life at St. Anthony's near Emmitsburg, a daughter of the late Albert and Susan Little Wetzel. She was a member of St. Anthony's Catholic Shrine and the Sodality of the church.

She is survived by the following children: Mrs. George Sanders, Emmitsburg; Mrs. Ruhl Rebert, Fairfield; Mrs. Daniel Lind, St. Anthony's; Michael G. Lingg, St. Anthony's; Mrs. Charles Hobbs, Fairfield R2; Mrs. Robert Bohn, Union Bridge, one sister, Mrs. Ernest Seltzer, St. Anthony's, and 24 grandchildren.

Funeral services were held at St. Anthony's Shrine Wednesday morning at 9:30 a. m. with Requiem Mass celebrated by the Rev. Fr. Vincent J. Tomalski. Interment was in St. Anthony's Cemetery. M. L. Creager and Son, Thurmont, funeral directors.

## HARRY C. GREEN

Harry C. Green, 77, well-known resident of Walkersville, died at his home last Friday at 6 p. m. after a short illness. He was born in Frederick County, a son of the late Zachariah and Amanda Ellen Brown Green. His wife, Mary Catherine VanFossen Green, predeceased him in 1922. In his early life he was a farmer and later an employee of the Glade Valley Milling Co., Walkersville, for 35 years, retiring two years ago. He was a member of St. Paul's Lutheran Church, Walkersville.

He is survived by two sons, Clay Z. Green, Emmitsburg; Norman Green, Walkersville; four daughters, Mrs. Edgar Kiser, of Walkersville; Mrs. Thurman Pearce, Westminster; Mrs. Curtis Handley, Silver Spring; and Mrs. B. E. Sullivan, New Market; two sisters, Mrs. C. Frank Grimes, Walkersville, and Mrs. Jesse Strine, Frederick; ten grandchildren, and nine great-grandchildren.

Funeral services were held from the G. C. Barton Funeral Home, Walkersville, Monday afternoon at 2 p. m. Interment was in the Mt. Hope Cemetery, Woodsboro.

## Lions To Celebrate Charter Night

The Emmitsburg Lions Club will hold its 32nd annual Ladies and Charter Night Thursday, Nov. 16 in the Lutheran Parish Hall, President William G. Morgan announces.

Ralph McDonnell is general chairman of the affair assisted by William Morgan, Clarence E. Hahn, Clarence Frailey, William Strickhouser and Arthur Elder. The dinner will get under way at 7 p. m. and a varied program of entertainment has been arranged.

This message is for you. Whoever you are, wherever you are, we need you to help Keep Maryland Beautiful.

## Items Of Interest From Rocky Ridge

Mr. and Mrs. Clarence Albaugh and daughter, Union Bridge; Mr. and Mrs. Arthur Keeney of Middleburg, visited recently with Mr. and Mrs. Charles Keeney and family and Mrs. Edith Gruber.

Mr. and Mrs. Harvey Stambaugh and son, Luther, were recent visitors of Mr. and Mrs. Clarence Stambaugh, Frederick.

Mr. and Mrs. Warren Motter and family, Menges Mill; Mr. and Mrs. James Motter and son, Jon, Chambersburg, were recent visitors of George Motter.

Mr. and Mrs. John Gruber and daughter, Romaine, Mr. and Mrs. Charles Keeney and family and Mrs. Edith Gruber, visited recently with Mr. and Mrs. Raymond Hiltner, Taneytown.

Ann Barbe spent a night recently with Beekie Keilholtz.

Rev. Guy P. Bready, Frederick,

## Big Cattle

### Sale Scheduled

Dave Canning, President of the Canning Land and Cattle Co., of Staunton, Va., announces that on Monday and Tuesday, November 20 and 21, there will be a huge two-day auction of Angus cattle at the Court Manor Sale Arena, New Market, Va.

On Monday, starting at 12 o'clock, there will be a very select production and draft sale from the great Singing Hills herd of Grayslake, Illinois. These are outstanding cattle—some top bulls, a great group of cows, (Many with calves) and bred and open heifers—something really special.

There will be a get-together of Angus cattle breeders and visitors at Court Manor on Monday night.

On Tuesday morning at 9 o'clock some 300 head of commercial Angus cattle carefully selected will be sold in uniform groups. They will be pregnancy tested, their ages will be checked, and they will be offered in various sized lots.

Starting at 11 o'clock on Tuesday will be the dispersion of 100 head of cattle for Dr. Russell Carrier from his famous Atoka herd. His farm has been sold so the cattle must go. Following this dispersion will be that of the very select Barracks Farm herd from near Charlottesville. They have used some great bulls and have bought outstanding cattle through the years. In recent years they have culled their herd so that these cattle selling are a very select group indeed. There will also be approximately 100 head of fancy weanling heifer calves, providing a real way to get in the Angus business. To wind up the sale, some 25 or 30 very select steer calves will be sold as individual lots. These are suitable for 4-H club work. In addition, there will be some 25 or 30 service age bulls from leading herds up and down the Atlantic Seaboard. So, there will be cattle in this two-day event for everyone.

The public is cordially invited to come on the Sunday preceding the sale to see these cattle. The gates will be open at Court Manor. Canning says that all visitors are welcome, whether they are interested in buying cattle or not. Court Manor is located 3½ miles south of New Market, Va., on Route 11.

has conducted the worship services at Mt. Tabor United Church of Christ for the past month due to the illness of Rev. Samuel A. Moyer.

Mr. and Mrs. Easton Kauffman, Carlisle; Mrs. Minnie Wilhide, Buena Vista, Calif.; Mr. and Mrs. Ted Wilhide and Mr. and Mrs. John Trout and family, visited recently with Mr. and Mrs. Charles Wentz.

Recent visitors of Mr. and Mrs. Harvey Stambaugh were Mr. and Mrs. Luther Powell, Lewistown; Mr. and Mrs. Victor Pryor, Cave-town.

Bobby and Donna Marie Wolfe, Washington, have returned home after a week's visit with their grandparents, Mr. and Mrs. Robert Plummer.

Mr. and Mrs. William Kaas and daughter, Donna Mae and Mrs. John D. Kaas, Emmitsburg, visited recently with Miss Cotta Valentine, National Lutheran Home, Wash., D. C.

Kay and Helen Reid, Waterville, Washington and Mrs. Charity Kaas, were recent visitors of Mr. and Mrs. Robert Dubel.

Mr. and Mrs. Harvey Stambaugh and son, Luther, Mrs. Albert Stambaugh and daughter, Shirley and Mrs. Edna Clem, visited Sugar Loaf Mountain on Sunday.

Recent visitors of Mr. and Mrs. Charles R. Troxell were Mr. and Mrs. Richard Troxell and daughter, Bonnie, Beltsville, Md.; Mr. and Mrs. Vernon Troxell and family, Pikesville; Mr. and Mrs. Carroll Shorb, Thurmont.

Mr. and Mrs. Orlando Cissell and daughter, Vernice, Va.; Mrs. Cora Valentine, Thurmont, visited recently with Mr. and Mrs. Harry Knight.

Mr. and Mrs. David Stonesifer, Mr. and Mrs. Jack McLaughlin and children Dale and Beekie of Taneytown, visited recently with Mr. and Mrs. Edgar Troxell.

Mr. and Mrs. William Reck and son, Webb, Baltimore; Mrs. Herman Prickett, Mrs. Robert Shipley and Mrs. Dorothy Harry of Sykesville; Mr. and Mrs. Richard Stein, Camden, N. J., visited recently with Mr. and Mrs. Ralph Reck.

Mrs. Leroy Dinterman, Mrs. Harvey Stambaugh, Mrs. John D. Kaas, Mrs. Albert Stambaugh, Mrs. Edna Saylor, Mrs. Franklin Stambaugh, Mrs. Charles Jones and Mrs. Leslie Fox attended the meeting of the Regional Women's Guild and Workshop held in Trinity United Church of Christ, Thurmont on Oct. 26.

Mrs. John Eigenbrode and son, Cameron, have returned home after visiting relatives in Laurence, S. C.

Mrs. Daisy Simpkins spent a week recently with Mr. and Mrs. Clarence Dern, Taneytown.

Mr. and Mrs. Lester Slick and sons, Lester Jr. and Clifton, of Damascus; Mrs. Eugene Dell and children, Grant, Bill and Beekie, Mrs. Charles Conoway and Miss Betty Fleagle, Westminster, visited recently with Mr. and Mrs. William Gearhart.

James Sixx had the misfortune to slip on a dirt bank while mowing with a power machine at his home last week. The large toe on his left foot was injured painfully.

A party was given at the home of Mr. and Mrs. Ralph L. Keilholtz on Oct. 28 in honor of the ninth birthday of their daughter, Mary Ann. Games were played on the lawn and refreshments

were served to Carolyn Keilholtz, Sandra Fink, Elizabeth Willard, Phyllis Wivell, Mildred Orndorff, Darlene Nusbaum, Wanda Zurgrable, Mary Beth Eckenrode, Connie Michael, Denise Bouey, Jackie Balmer, Mary Margaret Koontz and Candy Vaughan. Many nice gifts were received.

Mrs. Roy Dinterman spent a day recently with her sister, Mrs. Cora Fisher, Thurmont.

Mr. and Mrs. Robert Saylor spent a recent weekend at the Lutheran Church camp near Jefferson.

Rally Day was observed Oct. 29 in the Mt. Tabor Union Sunday School. The following program was presented: Hymn, "I Love to Tell the Story"; nursery song, "Jesus Loves Me"; beginners' song, "The B-I-B-L-E"; primary songs, "Little Light" and "This Little Light of Mine"; song by primer, junior high and senior classes, "Give of Your Best to the Master"; reading by Mrs. Earl Ambrose; address by Mervin Fuss; hymn, "Blest Be the Tie That Binds." Closing prayer by the superintendent, Charles Mumma.

Mr. and Mrs. Edward Myers, Thurmont; Harry Barrick, Frizelburg; Mr. and Mrs. John Moore, Cascade and Mr. and Mrs. Leslie W. Fox were recent visitors of Mr. and Mrs. Harvey Stambaugh.

Recent visitors in the home of Mr. and Mrs. John Eigenbrode were Mrs. Jesse Fox, Cragers-town and Mr. and Mrs. Edgar Liday.

At the monthly meeting of the Women's Guild of Mt. Tabor United Church of Christ, the following officers were elected: President, Mrs. Leroy Dinterman; vice president, Mrs. John Kaas; secretary, Mrs. Charles Jones; treasurer, Mrs. Richard Dubel.

Roger Clem spent a recent weekend with Mr. and Mrs. Richard Clem, Easton.

At the Mt. Tabor Union Sunday School on Nov. 5 the following officers were elected: Superintendent, Charles Mumma; assistant superintendent, Guy Reed; secretary, Joan Webb; assistant secretary, Beekie Sharrer; treasurer, James Glas; pianist, Linda Saylor; assistant pianist, Linda Saylor; music director, Mrs. Olive Dubel; assistant music director, Guy Krom; treasurer of the Sunday School building fund, Kenneth Sharrer.

The scattergun is a versatile hunting tool, but only when used with the proper shells. Since there are about 78 varieties of shot-shell loads on the market, the hunter must exercise care in choosing his load, cautions Pete Brown, Arms Editor of Sports Afield Magazine.

The best way for the shotgunner to choose the best load for his gun would be to shoot patterns with all the loads having shot sizes applicable to the game he's after. Since this method is rather impractical, the best most sportsmen can do is to study performance data or make a selection based on others' experience.

The most universal shot size is No. 7½, and it works fairly well at moderate ranges for most game birds. For geese and turkey there is No. 2 shot. In a tight choke, BB shot is good for long range. No. 6 shot has been popular for ducks, but 7½ in a modified choke is okay for close range (up to 30 yards) blind shooting. Most pheasant hunters have taken to No. 5 or No. 6 shot where the

range is apt to be stretched. For long range duck shooting No. 5 is ideal.

No. 9 shot is a popular size for doves and quail in some areas when the range is within 20 to 25 yards. At ranges up to 40 yards the modified choke and No. 7½ shot is better. Longer ranges call for the full choke and 7½ shot.

When selecting a shot-shell load, the sportsman must always make sure the pattern is dense enough to get four or five pellets in the bird. If he is using an improved cylinder choke, he may have to use No. 9 shot to get the necessary penetration at 40 yards. He could then go to No. 7½ shot for penetration but would have to change to modified choke to get pattern density.

## Annual Meeting Of Cooperative Held

Mr. and Mrs. James Sanders, Mrs. Charles Valentine, Mrs. Raymond Keilholtz and Mr. and Mrs. Ralph D. Lindsey attended the annual meeting of Southern States Cooperative held in Richmond, Va., at the Mosque, last weekend.

The winners of the talent show held at the meeting were as follows: 1st, Ann Mills and the Rovers, Blackstone, Va.; 2nd, McDaniel Sisters, Westmiford, West Virginia; 3rd, Bobby Davis, Adairville, Ky. The first place winners received \$100 and 3 day trip to New York to appear on the Ted Mack Amateur Hour. Local talent

in this area competed some weeks ago and first place winners of \$150 each group then competed at Baltimore in the semi-finals and from there to Richmond.

## Driver Is Fined Following Crash

Robert Francis Lewis, 18, 286 S. Seton Ave., Emmitsburg, was charged with driving too fast for conditions before Justice of the Peace John Whitman by Pennsylvania State Police Sunday evening following an auto accident three miles north of here on the Gettysburg Rd.

State Police said Lewis was driving north when his car ran off the highway and struck a battlefield marker and a wire

fence. Damage to the car was estimated at \$600. Lewis posted \$15 bail Sunday evening before the justice. The amount was forfeited when he failed to appear for a hearing Monday morning, the justice said.

Recent improvements in nickel-plating processes give a more attractive and durable finish to plated articles.

## "Moshi-Moshi" (Hello) on the Tokaido Line

Passengers on Japan's famed "Tsubame" and "Kodama" Limited Expresses running between Tokyo and Kobe may now telephone while en route to their destinations. The Japanese National Railways scored another "first" by installing these telephones for the convenience of newlyweds and business men as well as those passengers who may have left their valuables behind at earlier stops. In some cases, the lives of seriously ill passengers have been saved by emergency calls to doctors who boarded the train at the next stop. Eight additional trains will shortly be equipped with these phones to meet the increasing demand of passengers.

## SHIP LAUNCHED TWICE

Minus bow, stern and bridge, new hull slides into Greek waters.

Christened **WORLD CHARITY** by 18-year old Princess Irene of Greece, a 22,000-ton ship for carrying bulk cargoes slides down the ways at Skaramanga near Athens. But part of the huge vessel had already been launched when the Princess was only a year old—and half a world away.

In 1943 at Portland, Oregon, the 16,600-ton tanker **OWYHEE** first took to the water. She was one of hundreds built to meet the fantastic fuel needs of World War II. Thus, she helped the Allied liberation of Greece from the Nazis. For 15 post-war years as the **OWYHEE** and later the **WORLD TREATY** of the Niarchos fleet, she served the vital commerce of the free world. With her Greek crew she was part of the little nation's famous "invisible export," seafaring.

Now tankers of this type are obsolete, so the Hellenic Shipyards of shipowner Stavros Niarchos has built a new cargo section to replace the middle two-thirds of the original ship, retaining the valuable machinery, quarters and navigational equipment. The **WORLD CHARITY** will carry 50% more tonnage at the same speed. Her cargoes, however, will be grain, coal and ores which are in great demand. In that trade her size and speed will place her in the forefront of competition.

Already employing 4,000 men, and planning to build four similar ships a year, Greece's first heavy industry of modern times has proved again that the resourcefulness which inspired Europe's first maritime nation 25 centuries ago is still at work.

## SPORTS AFIELD By Ted Kestner

The scattergun is a versatile hunting tool, but only when used with the proper shells. Since there are about 78 varieties of shot-shell loads on the market, the hunter must exercise care in choosing his load, cautions Pete Brown, Arms Editor of Sports Afield Magazine.

The best way for the shotgunner to choose the best load for his gun would be to shoot patterns with all the loads having shot sizes applicable to the game he's after. Since this method is rather impractical, the best most sportsmen can do is to study performance data or make a selection based on others' experience.

## They Call It The Admirable Snow-Van

The temperature was in the low 90's when this mobile snow melter devoured 50 tons of man-made "snow" in less than 40 minutes at the Esso Research Center in Linden, N. J. It will be a lot colder—and the snow will be real—when snow melters patterned after this one help clear winter-paralyzed streets in various northern cities. The unit built by Thermal Research and Engineering Corp., is based on a snow-melting technique developed by Esso. Here, a front-end loader dumps a scoop of shaved ice into the unit, where it melts in a pool of oil-heated water and runs off into a nearby storm drain.

100 YEARS AGO

## Port Royal Captured; Grant's Attack Beaten

By Lon K. Savage

Two big attacks were launched against the Confederacy 100 years ago this week, both on the same day. When the day ended, the two sides could call it a draw. One attack, led by Flag Officer Samuel F. Du Pont at Port Royal, S.C., succeeded, the other, led by Gen. Ulysses S. Grant at Belmont, Mo., failed.

The big day was November 7 (which happened to be one day after Jefferson Davis, running unopposed, was elected to a six-year term as president of the Confederacy. Before that date he had been acting on a provisional basis.)

Du Pont's attack actually had started weeks earlier, when he outfitted an expedition of ships and troops to sail southward toward the Carolina coast, but accidents and bad weather delayed him, and it wasn't until November 7 that he could line up his ships outside Port Royal Bay and move in to attack two forts there.

### In Single File

In single file, the ships moved into the bay directly between the guns of Fort Walker, on their left, and Fort Beauregard, on their right. As they passed into the bay, each ship opened fire on Fort Walker and, in the doing, sent a small Confederate fleet of river boats scurrying into a creek.

Once in the bay, the line of ships swung to the left and came back out again, still firing broadside into Fort Walker. Some of the ships then turned again and made a third swing past the forts. By that time, resistance had ended.

Confederate Brig. Gen. Thomas F. Drayton (whose brother, Percival, was commanding a Union ship firing on Fort Walker at the time) led his men in retreat from the fort.

Seeing Fort Walker fall into the hands of the Yankees, the Confederates at Fort Beauregard abandoned their position, and Port Royal—finest port between Charleston and Savannah—was in Union hands. The battle ended with the loss of less than 20 lives on both sides.

### Grant's Attack

Grant was not so fortunate. Setting out from Cairo, Ill., the night of November 6, Grant moved 3,000 men by transports down the Mississippi. Landing just north of Belmont (and just out of range of Confederate artillery across the river at Columbus, Ky.), the Union Troops set out on foot with enthusiasm. They soon collided with the enemy, and by noon the Confederates had retreated from their camp. It was then Grant's plans blew up.

His men, flushed with victory in their first battle, threw down their arms and rummaged through the tents of the Confederate camp, gathering the spoils. As they did, more Confederates crossed the river from Columbus, and the Southerners counter-attacked in full fury.

This time, Grant's men panicked. Crying that they were surrounded, they fled toward their boats, leaving behind much of their own equipment as well as the spoils they had captured. Grant, himself, was under heavy fire while directing the retreat, and he was the last man to re-board the transports. The boats withdrew up the river amid a hail of Confederate gunfire.

The battle of Belmont accomplished nothing except to harden the troops on the two sides. To gain this experience, 120 Union men and 105 Confederates were killed and more than 1,000 men were wounded, captured or reported missing.

Next week: An international crisis.

The best help that one can get is self-help. Assistance from others is usually expensive. Law enforcement officers should have only one purpose, the enforcement of the law.

## Livestock Show Begins Saturday

**TIMONIUM** — A record 1,567 head of prize cattle, sheep and swine have been entered in the fourteenth annual Eastern National Livestock Show to be held at the Maryland State Fair Grounds here November 11 through 16.

Last year, the Eastern National attracted 1,466 entries and, in 1959 there were 1,422 entries.

Jack I. Matthews, show manager, reported that additional entries are still expected to compete in the tanbark show ring for the more than \$52,000 in prize money and thousands of ribbons and trophies.

He said this year's entries have come from 19 states. The majority of the exhibitors are from Eastern Seaboard states, although there are other entries from as far away as Oregon, Oklahoma, Mississippi, New England, Louisiana, Illinois and other mid-western states.

The breeding cattle classes have attracted 582 entries, sixteen more than last year. The Register of Merit Hereford breeding cattle show has drawn 182 entries from eighteen herds in nine states. The Aberdeen - Angus "four-A" breeding cattle event has drawn 208 entries from 35 herds in ten states.

In other breeding cattle classes, or over who has never applied for

the Shorthorn event has drawn 106 entries while the Devon classes have drawn 86 entries.

Mr. Matthews said 437 hogs have been entered in the market hog classes, 149 more than last year, and 164 lambs have been entered, about 20 less than last year.

Four-H Club and FFA exhibitors is the Junior Show account for 530 of the entries, including 245 steers, 137 hogs and 148 lambs.

In another event, eighty steers have been entered in the second annual Quality Beef Carcass Contest. The steers first will be judged in the show ring, with ribbons being awarded to the top ten, and will again be judged after slaughter at a Baltimore packing plant. Cash premiums totaling \$750, with a first prize of \$200, will be awarded to exhibitors of the top fifteen carcasses.

Are you a working person 65 or over who has never applied for

social security benefits? If so, you will want to ask your social security office for a copy of a new leaflet.

Entitled, "You Don't Have to Retire Completely to Get Social Security Benefits," the leaflet explains changes in the law recently enacted by Congress which raise the amount an older worker can earn and still collect some benefits in addition to his earnings.

Older working people, made eligible to collect some benefits because of these changes, will need to get their applications on file before the end of January 1962, according to W. S. King, District Manager of the Hagerstown Social Security Office. Otherwise, they stand a chance of losing some of the social security payments now due them.

He cited the example of a couple who would be entitled upon application to a monthly check of \$180, about the maximum now payable to a retired worker and dependent wife.

Under the law in effect until the beginning of this year, King said, this couple could not be paid any benefits for the year if the husband's earnings exceeded \$2080. Under the new law, his earnings could go as high as \$3610 before the couple would have to forego all of their social security benefits.

A retired worker with no dependents, entitled to a benefit of \$74 (the average now being paid) could earn about \$2300 in a year and still get some of his benefits.

Many older working people in the area have not yet applied for their social security benefits, King noted. He said that many of them may not realize that their earnings are at a level which will now

permit them to get some payments. Some others may be under the impression that if they earn more than \$1200 in a year, they cannot collect any social security benefits. This is not so, he said.

Another thing many people do not realize is that regardless of their annual earnings, a social security beneficiary can be paid his benefits for any month he does not earn more than \$100 in wages nor work in self-employment.

The social security district manager suggested that working people 65 or over who have not yet applied for their social security benefits write or phone his office to get a free copy of the new leaflet, "You Don't Have to Retire Completely to Get Social Security Benefits." The leaflet describes the provisions of the law in simple words and also contains a table to help the older worker estimate how much of his benefits he can collect if he earns over \$1200 a year.

## State Police Alumni To Meet Saturday

The Maryland State Police Alumni Association, Inc., will hold its regularly scheduled bi-monthly meeting on Saturday, November 11 at 12 noon.

This luncheon meeting will be held at Leonie's Restaurant, 1500 University Blvd. East, Langley Park, Md., approximately 1½ miles west of the University of Maryland.

President Jack Gosnell urges every member to attend this meeting as election of officers for the coming year is one of the main items of business for this session.

The key to your new car happiness is the dealer you deal with

Add it all up and you've got to agree: It pays to deal with your Ford Dealer. • First, you get Ford's low prices—usually the lowest, whether it's a Ford or a Falcon or a Ford Truck. • Second, you get a wide choice. Pick the model and the price that suits you. No compromising, no "second bests." • Third, you get a car that's designed to save more while you drive. Ford is beautifully built to be more service-free. • Fourth, you'll get a better trade-in allowance for your old car, because we are volume dealers in used cars, too. • Fifth, you get service. Prompt service. Expert service. No corner service station can equal our stock of parts, our equipment, or our trained Ford mechanics. • Sixth, you get the best credit terms possible ... including low interest rates. • Seventh, and most important, you're dealing with your friends and neighbors at your Ford Dealer's. We want you as a lifetime customer, so we go to every length to serve you. Now's the time to prove it. So see your Ford Dealer today!

EMMITSBURG, MD.

## WINTERIZING YOUR CAR

**TIME** to winterize your car? Every motorist can have the cooling system quickly but thoroughly prepared for addition of anti-freeze with one of two new flushing methods developed by Du Pont. Which one depends upon the condition of the system.

The two methods are (1) fast flushing, recommended for normal cleaning, and (2) back flushing, for cleaning a rusted system that is overheating or likely to do so. Both methods eliminate removal of drain plugs, saving considerable time and effort, and both prescribe removal of the thermostat, assuring thorough scouring of the entire system.

Many service stations handling the No. "7" Line of car care materials have complete equipment and directions for both methods. No matter which method you order, the purpose is to get rid of rust, grease, and other foreign matter that build up during the summer. This eliminates an insulating layer that slows the flow of coolant, builds up engine temperature, and prevents top engine performance.

The first stage of either flushing method is use of a cleaner. Before fast flushing, a liquid that dissolves grease and loosens rust and dirt adhering to it is circulated through the system. Before back flushing, a heavy-duty acid cleaner is used. This contains one powder for dissolving rust and

dispersing sludge and another—an alkaline neutralizer—to stop action of residual acid.

Using the fast flushing method, the service station operator can clean and flush the cooling system and add a rust inhibitor in 20 minutes or less. Since drain cocks are not removed, no hoist or lubrication bay is needed. With the thermostat out, the entire system, including the engine block, receives a thorough flushing.

If you are one of those millions of car owners who allow cooling systems to become neglected and overworked during several summer months, the back flushing method is recommended. It involves use of a new tool called the hydro-gun, which sends bursts of air mixed with water through the system in the opposite direction of normal flow. This powerful scouring removes rust, scale, and sludge and even flushes away particles of foreign matter resting on the tops of radiator cores.

One final step when anti-freeze is installed is the addition of a chemical sealer to prevent seepage of anti-freeze through gaskets and elsewhere in the cooling system.

Complete conditioning of the cooling system before winter is well worth the little time and expense it takes. It reduces fears of roadside stalling, and it may prevent damage to the most expensive part of any automobile—the engine.

No Danger, Yet, In Atom Testing

Recent Nuclear Tests have increased the world's radiation level, but a survey of scientists made by the American Medical Association emphasizes that the possible effect to date on our health is insignificant. And at no time since the first U. S. device was exploded has the radiation caused by man's bomb testing equalled the earth's natural radiation level, according to Argonne National Laboratory.

Airborne Missile Launcher is being studied by the Department of Defense. The proposed aircraft would stay on patrol for two days or more without refueling and provide a mobile, hard-to-hit launching pad comparable to our Polaris submarines.

Research and Development expenditures by U. S. industry have rocketed from 1.8 billion dollars in 1945 to 13.5 billions this year, and may top 25 billions by the end of this decade. Small "Bazooka" charges, similar to the cone-shaped explosives used in military armor-piercing rockets, are used effectively for perforating oil well casings. They are lowered into narrow well shafts and fired sideways into rock formations to open passages for oil into the shafts. Jet velocities up to 25,000 feet

per second are created, according to PGAC, Houston.

High-Altitude Ballonists may be wearing underwear made from peanuts before long. The Navy is testing "long Johns" woven of a fiber made from peanut shells. The fabric is porous and nonabsorbent, and the ballonists would stay dry despite the heavy outer garments they must wear in the extreme cold. Hard-To-Say drug names were condemned at a recent conference of pharmaceutical, medical, and government representatives in New York. The medical men also sought to put a stop to the overworking of certain common prefixes such as "chlor," "phen," "meth," and "iso."

An Electric Purifier for swimming pools deposits ions in the water to kill germs and algae. It's safe for humans and eliminates need for chemical additives which sometimes irritate swimmers' eyes. Detergent Foods can help clean your teeth, reports the American Medical Association.

Chewing crisp, crunchy celery and carrot strips can do much to counteract the decay-inviting effects of sticky, high-carbohydrate foods. Safety Net for the driver and front seat auto passengers is said to be fired automatically by cart-ridges at the moment of collision or a panic stop. The Australian inventor claims the net pops into place within 10 milliseconds of the instant an automatic device triggers the cartridges.

Campaign Chairmen Appointed

Former Judge Michael Paul Smith, Chairman of the Mahoney-Lee-Barrick campaign committee, has announced two key appointments.

C. Lease Bussard, Frederick businessman, will take over as manager for the City of Frederick, and in Silver Spring, Attorney Howard J. Thomas has been appointed Montgomery County campaign manager.

Mr. Bussard, a past president of Optometrists International, is currently president of the Alumni Association of his Alma Mater, Western Maryland College. He has been active in Frederick civic and service organizations for over 25 years. He is a member of the Maryland Civil War Commission and president of the Frederick County Civil War-Centennial, Inc.

Mr. Thomas has actively practiced law in Montgomery County since 1954. He was Chairman of the Montgomery County Citizens For Kennedy and Johnson Committee in 1960, and Chairman of the 1961 Dollars for Democrats Drive in Montgomery County. He is a past national vice president of the United States Junior Chamber of Commerce and has served as President of both the Montgomery County and Silver Spring Jaycees.

In accepting the appointment, Mr. Thomas stated: "I am very impressed by the warmth and vigor of Mr. Mahoney's personality and the far-sighted positions that he is taking on the issues which confront our State."

STROKE: THE HOPEFUL SIDE

A Case Of Power Failure

Americans depend so much on electrical current that when a power failure occurs, cities, towns and individual houses are literally crippled. If a fuse blows at home, part of the house is suddenly plunged into darkness, the TV set won't work, or the refrigerator starts to defrost when it shouldn't. If a storm blows down the heavy-duty cables that supply electricity to a whole neighborhood, the resulting power failure is more widespread. Street lights, traffic blinkers and flashing neon signs black out, elevators come to a halt mid-floor, and electrical appliances of all types become useless, cut off from their source of power.

About one million Americans each year are struck by another, far more serious, type of power failure, known as a stroke. When the blood current to the brain is interrupted, parts of the brain are cut off from their source of power and cannot perform their duties.

Specific areas of the brain control body, arms, hands, legs, face, speech, reading and sight. The effects of a stroke depend on which control center is deprived of blood by the stroke. For example if the speech control center is affected, the patient may have difficulty in speaking or may not be able to speak at all.

There are wide variations in the pattern and severity of a stroke. If the power failure affects a large area of the brain, several control

centers may be impaired. The size of the blocked vessels and the span of time the affected part of the brain is without blood also influence the severity of a stroke.

It is difficult to predict the outcome of a stroke because so many factors are involved. Massive strokes which paralyze an entire side of the body may clear up remarkably within a few days, weeks or months. On the other hand, effects may be more permanent or cause death within a few hours or days.

As the body's own amazing built-in repair services swing into action, neighboring blood vessels may enlarge to carry blood to blocked areas. Or brain cells not affected by the stroke may take over the duties of blood-deprived cells.

By far the most frequent type of stroke is what has been called the "little stroke," comprising very minor symptoms which may last only a few seconds or minutes or up to a few days. The symptoms vary widely and may include numbness or weakening of one side of the face, an arm or a leg, temporary loss of vision or difficulty in speech.

The symptoms of little strokes should never be disregarded. Instead, they should be reported to the doctor. They may be a warning that a more serious stroke is in the making, which prompt medical action may forestall.

When a person has a severe stroke, the doctor should of course be called at once. Prompt and proper treatment can lessen the amount of permanent damage caused by the stroke. The doctor may want to start a program of exercise almost immediately to improve circulation, prevent muscles from deteriorating and joints from stiffening. At first this may be massage or "passive" exercise in which someone moves the patient's limbs according to the doctor's instructions. Later the patient may undertake active exercise himself. Prevention of deterioration through prompt action makes later recovery much easier to achieve.

Even when a stroke has caused considerable damage, many abilities can be recovered through retraining. The stroke patient who loses the ability to speak or develops difficulty in speaking can be trained to talk again, especially if a speech therapist's guidance

is obtained as soon as the acute illness is over. A physical therapist may be called upon to demonstrate methods of helping stroke patients to walk, reach, carry, and become self-sufficient again. Illegible hand-writing, a common result of strokes, can be improved by persistent efforts to get the muscles involved functioning again. Although many retraining exercises can be done at home, it is vitally important that the patient and those responsible for his care

follow the doctor's instructions precisely.

In the past ten years, medical research has provided effective methods for treating many types of strokes and restoring many stroke patients to self-sufficiency. The more widely these methods are applied, the more hopeful becomes the outlook for the stroke sufferer.

Maryland is your world—keep it clean and you keep it beautiful.

Where Are You Going, Friend?

Whether you're driving south for the sun, north for winter sports or home for the holidays, this handy check list will help you get there safely—and keep your home safe while you're gone.

Family Fallout Shelters Urged

WASHINGTON, D.C.—The nation's 150,000-member Bricklayers Union is giving its full support to President Kennedy's call to the nation to build family fallout shelters. John J. Murphy (left), President of the Bricklayers, Masons & Plasterers' International Union, indicates the fallout protection of an eight-inch thick brick wall to Malcolm A. Burrows, Director of Operations for the National Housing Center. They are inspecting a full-size brick basement fallout shelter recently put on display at the headquarters of the National Association of Home Builders. The Bricklayers Union, through its 1,000 locals, is urging the wide spread building of shelters for protection against deadly fallout radiation in case of a nuclear attack. This basement shelter, one of

five brick and tile designs which meet Office of Civil and Defense Mobilization standards for effective shelter, is designed to protect a family of six against fallout during the two weeks it may be necessary to remain under cover. Plans and instructions for the shelters are contained in a free brochure which may be obtained by writing to: Fallout Shelters, Dept. B, Structural Clay Products Institute, 1520 18th Street, N.W., Washington 6, D.C.

Cologne Of Her Own!

Created for the younger miss just learning the joys of being a girl is a new line of sweet-smelling beauty aids called "Buttons 'n' Bows".

The intriguing spray-on cologne shown here, an airy floral scent with just a hint of future sophistication, comes in an appealing petal pink and rouge red container that has a garland of molded-in bows circling the base. Practical as well as pretty, the container is made of Du Pont's versatile new plastic, "Delrin" acetal resin. Among the other items on Avon's "Buttons 'n' Bows" line are cream sachet, dusting powder and regular cologne—all of which should help eliminate raids on mother's dressing table!

for the Perfect Wedding...

your invitations and announcements must be flawlessly correct!

Let us show you the

"Flower Wedding Line"...

created by Regency!

NATURALLY, they're important to you! That's why we want you to see these invitations for yourself. And please don't let that costly look mislead you... the magic is in the making of these invitations! Feel that fine, sharp raised lettering. It's done by a very special process! Feel the creamy quality of the paper! Check the perfect form of these invitations with people who really know! Come in! We will be happy to show you the "Flower Wedding Line."

Priced as low as 50 for \$7.00  
100 for \$10.50 with double envelopes and tissues

Select from 45 distinctive papers, and 17 styles of lettering.

We have matching enclosure cards, response cards, and informals!

KITCHEN TIPS

Greaseless cooking has increased in many a kitchen lately because of a special type of utensil—the non-stick frying pan—fast becoming popular throughout the nation.

This boon to the family worried about fat, calories, and cholesterol is made possible by an unusual Du Pont material called "Teflon" TFE-fluorocarbon resin. Coatings based on "Teflon" make the surface of a pan so slick not even chewing gum would stick to it. Hence, no grease is needed in cooking.

The first time you fry an egg or short-order a cheeseburger without greasing the pan, you'll be amazed. Like a toboggan on ice, your meal will slide into the plate without a trace of burnt food or other sticky stuff in the pan. Next thing you know, you're planning a whole new fat-free diet with almost endless variety.

Easy clean-up after cooking is another major advantage of a non-stick pan. Simply holding it under a running faucet is often enough. At most, it's a matter of running in some warm water, adding a bit of detergent, and making a couple of quick swipes with a sponge or dishcloth.

Be our guest... SAMPLE A NEW '62 CHEVROLET

Come in and drive any (or all three) of these new cars for '62

Impala Sport Coupe... goes as smooth as it looks

1 '62 CHEVROLET If you've a yen for room, refinement and riding comfort (at a price that takes the high cost out of feeling luxurious), take a guest drive in this one. You'll see why this is all the car any-

one could reasonably want. That head-in-the-clouds Jet-smooth ride. The power choices up to a pulse-racing 409 h.p.\* The whopping deep-well trunk. Fact is, the more you get to know this built-for-keeps beauty, the more you'll find to like.

### ALL ABOUT BABIES...

A Public Service of the  
National Baby Care Council

By Arline B. Auerbach  
Director, Parent Group Education  
Child Study Association of America  
When Babies Cry

Parents were sometimes advised  
not to pick up their babies when  
they cried. To let them "cry it  
out" was supposed to be "good

discipline" and to keep them from  
being spoiled. But it didn't work  
out that way.

We know that when babies cry  
for any length of time, there is  
a good reason. They may be cold  
or wet or hungry, or their diapers  
may be too tight. They may want  
to be shifted to a new position.  
Or they may have air in their  
tummies for which they have to  
be "bubbled."

Sometimes, as they get older,  
they may cry just because they  
are lonesome or uneasy. If you  
remember that the main thing is  
to make them comfortable, the  
crying will usually take care of  
itself.

If your baby isn't sick and is  
generally contented most of the  
time, you can let him cry for a  
few minutes after you have put  
him back in his crib again, in the  
hope that he will go to sleep. If  
he cries harder and harder, it is  
far better to pick him up than to  
let him work himself into a state  
or vomit his supper.

The old argument that babies  
need to cry to exercise their bodies  
and their lungs just isn't sound.  
They also try out their lungs by  
gurgling and making funny noises,  
and they can get plenty of exercise  
waving their arms and legs  
and wriggling their bodies. Give  
them some time each day on a  
big bed or on the floor for this  
kind of fun and exercise.

Healthy, happy babies don't  
have to cry for any length of  
time.

If your child cries during the  
night, see if he needs anything.  
If he seems to need only the com-  
fort of having you near, stay with  
him until he is quiet.

Don't take him into your bed so  
that you can get some peace. It  
won't really help you, and is not  
good for your child. He will prob-  
ably like being with you so much  
that it will be very hard to get  
him to give this up later on. It  
is far better to help him to learn  
to sleep alone. If possible, have  
him sleep in a separate room. It  
will be better for all of you.

(For a fuller discussion of this

subject and of other problems that  
face mothers of young children,  
see Mrs. Auerbach's booklet, "How  
to Give Your Child a Good Start,"  
40 cents from the Child Study  
Association of America, 9 East  
89th Street, New York 28, N.Y.)

### Limestone Neutralizes Soil Condition

Agricultural limestone is added  
to the soil in order to neutralize  
acidity, sweeten the soil, provide  
calcium and magnesium for plant  
growth, prevent harmful quantities  
of iron as well as aluminum and  
manganese, increase the availabil-  
ity of phosphorus, stimulate the  
activity of beneficial organisms  
(bacteria, etc.) and improve the  
physical condition of the soil ac-  
cording to the National Limestone  
Institute, Inc., an organization  
which promotes conservation of the  
soil.

The soil reaction (pH) should be  
checked at regular intervals; for  
example, every two years for sandy  
soils and every 3 or 4 years for  
the heavier loams, or whenever  
a crop requiring a comparative-  
ly high lime level is to be planted.

The Institute further states that  
farmers planning to seed a field  
that has not been limed recently  
to a legume such as clover or al-  
falfa owe it to themselves to get  
the soil tested. If the pH is less  
than 6.5 the chances are that the  
result will be a very poor stand  
if not a complete failure. Ap-  
plying agricultural limestone and  
increasing the pH to 7.0 will prac-  
tically insure a good stand; will  
without question increase the avail-  
ability of both the applied fertil-  
izer materials and those native  
to the soil, will stimulate bacteri-  
al activity and reduce the harm-  
ful effects caused by excessive  
amounts of iron, manganese, etc.  
So, to insure maximum returns  
for labor and equipment expended  
in preparing the soil, the cost of  
the seed and doing the seeding  
plus a return for all the fixed  
costs, make sure that your soil  
is adequately limed.

ard free enterprise. Recalling  
the parade of planners and bur-  
eaucrats sent there from Wash-  
ington in years past, one won-  
ders. An Arkansas enterpriser  
is reported to have pulled out of  
a meat-packing project there re-  
cently because of government  
interference. They were wreck-  
ing the business, he said.

In other words, it is doubtful  
whether United States Steel  
would find a future there any  
brighter than on the mainland,  
where the President has told  
them: "My economic advisers in-  
form me that it would be pos-  
sible for the steel companies to  
absorb the increase in wages  
without increasing prices and  
still insure to the steel compa-  
nies and their owners a good  
profit." Even in the U. S. the  
status of enterprise today is  
somewhat precarious, to say the  
least. Who knows what a "good  
profit" is, and who is to deter-  
mine it? Can enterprise thrive  
under such conditions of con-  
trol?

Unlawful Controls  
Enterprise under conditions of  
extreme control is hardly free  
enterprise. The system that  
made America the most power-  
ful nation in the world is thus  
still under attack and suspicion.  
Even when no laws permit the  
government to meddle with con-  
trol of prices and of wages, at-  
tempts are made to enter into  
this delicate area by arbitrarily  
setting profit margins. Are all  
steel companies to be allowed  
the same margin? Will those  
suffering losses from the 1959  
strike be allowed to recover their  
losses if better times come?  
Will unions be given the green  
light again and again?

It may be questioned whether  
government tinkering with eco-  
nomic balance may prevent rather  
than encourage recovery from  
recession. But if control is to  
be practiced in one area, it is  
bound to spread into other. In  
the long run it is going to be  
impossible for government to  
tell industry what it may do  
with its prices, while applying

no limit to the costs that labor  
unions may place on production  
of goods. The American system  
cannot function as it should if  
the theorists are allowed to in-  
terfere at will. Let's keep the  
profit motive functioning, to  
move the nation ahead.

### A Job For Industry

President Kennedy made a  
wise decision some time ago  
when he said that building sat-  
ellite systems for communica-  
tions would be left to private  
industry. But now the pres-  
sures are developing in Wash-  
ington. The socialist planners  
say that the job is too big for  
free enterprise, that govern-  
ment ought to do it. Some want  
to avoid the danger of monop-  
oly if private industry does it,  
but there is no fear of govern-  
ment monopoly. As in other  
arguments favoring public en-  
terprise, most of the points ad-  
vanced are irrelevant.

We ought to remember the  
spectacular achievements of our  
free enterprise system in com-  
munications, as well as in other  
fields. If the President sticks  
by his decision we shall undoubt-  
edly have a satellite system that  
will be efficiently operated with-  
out government funds. We can-  
not restrict it in its efforts to  
satisfy its customers, who after  
all, are the bosses of free en-  
terprise. But we shall have to  
keep the impractical thinkers  
as far away from wages, prices,

and profits as is consistent with  
our free system of enterprise.

### One-Car Businesses Are Eligible Now For Two-Way Radio

The butcher, the baker, the  
candle-stick maker all can get  
licenses for two-way radio sys-  
tems under liberalized rules of  
the Federal Communications  
Commission. Broadened eligibil-  
ities permit real estate compa-  
nies, plumbers, fuel dealers,  
farm equipment firms and  
numerous other local businesses  
to qualify for office base sta-  
tions and radio units in their  
vehicles.

Designed to meet require-  
ments of the Business Radio  
Service is a new compact two-  
way radio marketed by General  
Electric Company. It fits under  
the dashboard of cars and  
trucks without taking leg room  
required by passengers.

The new equipment, the G-E  
Pacer, may be used by any  
business, regardless of size,  
after FCC licensing. It may  
also be installed by city and  
town governmental agencies.

A new G-E public service  
booklet (ECR 568-Q) describes  
two-way radio regulations and  
how small businesses, such as  
florists, funeral services and  
other community businesses can  
use radio dispatching systems.  
It is available from P. O. Box  
4197, Lynchburg, Va.

### Looking Ahead

...by Dr. George S. Benson  
DIRECTOR - NATIONAL  
EDUCATION PROGRAM  
Secaucus, Arkansas

#### What Future For Enterprise?

A recent advertisement spon-  
sored by the Commonwealth of  
Puerto Rico in the Wall Street  
Journal must have startled those  
American manufacturers it was  
attempting to look toward that  
island. The ad said that return  
on investment there averages 28  
per cent annually. (This must  
be tempting indeed to U. S. in-  
dustries, whose income in most  
instances would be quite satis-  
factory if it were one-fourth  
that amount.) Tax emptions up  
to 13 years. No U. S. corporate  
income taxes. Thousands of dex-  
terous and eager workers.

The ad explains a lot more  
the government will do. It will  
build plants, train workers, sup-  
ply electricity. It promises also  
to supply a stable political cli-  
mate. (All this despite Castro's  
threats and some increased Com-  
munist activity.) It certainly is  
to be hoped that the island, be-  
ing a frontier outpost in the  
Caribbean, can become a West-  
ern Hemisphere showcase for  
freedom of enterprise right un-  
der Castro's nose, as West Ber-  
lin has been under Khrushchev's.  
Government Doing It?

But on the face of it, this 28  
per cent idea seems too much  
like fancy bait. Considering all  
that the government is offering  
to do, it is a bit difficult to de-  
termine whether the environ-  
ment trend is socialistic or tow-

## BABSON

## Writes . . .

BY ROGER W. BABSON

## Babson Bullish On Retail Trade

BABSON PARK, Mass., Nov. 9.—At the present time most Americans seem to believe that

there will be a nuclear war and that Russian missiles may fall on some United States city and absolutely destroy it. To the contrary, I am for the first time sure there will be no such war. I suppose one reason why the people are now taking this so seriously is because their brothers and neighbors are being called into the service and are being transported to Berlin. Every magazine has pictures of our soldiers in Berlin. Naturally, those with relatives over there study these pictures. Well, here are two main reasons why we should not now expect such a World War III.

## Need Of Anti-Missile Missiles

We have already made great progress on "Nike Zeus" missiles to intercept and destroy airplanes coming toward us. The fastest bombers go only from 1,000 to 2,000 miles an hour, hence it is fairly easy to

prepare a missile that will catch and destroy them. Moreover, our country is surrounded by a bank of radar installations. These are supposed to find any Russian planes flying through the radar banks and give our country at least twenty minutes notice of what to expect. The principle is that a "Nike-Zeus" would throw a beam into the air, and when it intercepts an incoming enemy plane it would explode it. The "Nike-Zeus" would not need to hit the incoming enemy airplane, the explosion would be enough to make its bomb useless. It would all happen within a few minutes.

The above "Nike-Zeus" may be able to protect us from Russia's fastest bombers, but success has not yet been achieved by any nation to intercept and destroy intercontinental ballistic missiles (ICBMs). They go too rapidly. Russia will not fire these ICBM missiles until she has a stock of practical sure-hit anti-missile missiles. Nations may talk about going to the moon or orbiting the earth, but they are working day and night to make an anti-missile missile.

## Soviet Tests In Siberia And The Arctic

The purpose of the present testing by Russia is to make an anti-missile missile. It would be impossible to make these tests underground. The big atomic and hydrogen bombs Khrushchev talks about are only a bluff to take our minds off of what he is really doing.

Of course, these anti-missile missiles are very expensive. We are supposed to be carrying on our tests in the Pacific Ocean, under the Nike-Hercules defense

system. The best offense and defense which the Russians would now have would be to send up a number of decoys, since we would be unable thus far to tell one from the real missile, which could be launched from Poland.

## Russia's Geographical Location

Russia does not want the United States in ruins; she wishes to capture us as a "going concern." This is to get the benefit not only of our factories but also of our climate and geography. Although Russia is double the area of the United States, yet she has much less land suitable for crops. A very large portion of Russia is too cold, too dry, and too salty for agriculture. Almost all of the Soviet Union is farther north than the Canadian-U. S. border. Russia has no "Florida." Even Yalta is as far north as Minnesota. All this means that Russia has shorter growing seasons.

## Russia Becoming Capitalistic

Whether the forced organization into big cooperatives has more than offset the lack of incentive of the independent farmer I do not know. When I was in Russia I was told that in addition to being a part of a big cooperative each farmer is given a little patch for a personal garden. This is another reason why I do not now fear that the Russians will drop any nuclear bomb on the United States.

I am an optimist. I even believe that the present war scare will increase consumer buying on the theory: "What's the use of saving money now?" This is a special reason why I believe business will remain good. When

retail trade is good, it boosts production and every other phase of business. I explain this in detail in my Outlook for 1962 which will appear in this paper the last of December.

## SPORTING TIPS

## Hunting

Going hunting? Carry a large plastic bag in the pocket or game bag in the back of your hunting coat. It takes up very little room and affords an excellent carrier for field dressed game. Also on big game trips it makes a good dry seat while on stand and a good place in which to carry the heart, liver, etc., of larger animals.

If planning on going goose shooting in a stubble field and you're not permitted to build a blind or dig a pit, then take a piece of canvas of a size to suit and paint it a straw color. While the straw is still wet spread straw on the canvas. The straw will stick to the paint and when dry you can cover yourself in the field.

## Fishing

"Chumming" is an accepted practice in salt water but it has yet to be exploited to the fullest extent in fresh water. Here's a tip—buy a can of cheap sardines or all-fish cat food and jab holes through the can with a knife blade. Then drop the can in the water, weighting it with a large sinker or a stone. Fish are attracted by the aroma from the leakage (or "chum") from the can and if your baited hook is close by you're in business.

It's easy to gather plenty of worms for your next fishing trip without blood, sweat or tears. Fill up a big pot with water and plenty of liquid detergent. Then pour it on a nice grassy spot on your lawn. Then wait a minute. Next thing you know, the worms will fairly jump from the ground and all you have to do is gather 'em up and put them in your bait can. This doesn't harm the grass or the worms and saves you the labor of digging.

All out of sinkers? Just gather up some old discarded spark plugs. They make fine sinkers for surf fishing or for "bottom scratching" in fresh water lakes. Just bend the electrodes together and tie onto a wire leader. Should the spark plug sinker become lodged between rocks the soft electrode acts as a safety opening to free the leader and line.

And while we are talking about sinkers, here's another tip. To keep a sinker from rolling in swift water take two or three small finishing nails and hammer them into the lead at different angles with most of the nail showing. The nails will keep your sinker from rolling in any direction. (Try for a \$50 prize. Send your

## Soft Wheat

## Producers Cautioned

Producers of soft red winter wheat in Maryland are urged by William L. Dudley, Chairman of the Maryland Agricultural Stabilization and Conservation Committee, to explore thoroughly the 1962 wheat stabilization program.

Officials of the U. S. Department of Agriculture say that the carry-over of soft red winter wheat next July will be about one and one-half times larger than that of July 1961, even though exports are expected to be large in 1961-62.

However, ASC Chairman Dudley points out, that while there is not a surplus of soft red winter wheat now, producers should be careful not to put themselves into a position which might result in a fast buildup of excess supplies of this type of wheat.

He cites the many concrete advantages to Maryland wheat farmers if they take part in the '62 wheat program . . . payments for diverted acreage . . . qualification for wheat price support . . . no marketing quota penalties, and protection of the farm wheat acreage history for the future

## How's Your Line?

THIS charming two piece dress with its off-side diagonal jacket fastening and stand away collar is deliberately planned to enhance your line. The skirt, with soft pleats partially covered by the jacket, is held in place with Talon's Magic-Zip 7-in. skirt zipper and creates the illusion of a smaller waistline and slimmer hip lines as you move gracefully through the season. It's Modes Royale, pattern No. 1755, shown here in a brand new glamour tapestry jacquard

## Let's Panel A Wall

Whether a dwelling is generations-old, middle-aged or young modern, ideas for distinctive interiors are constantly being sought by home decorators—both amateur and professional. Low budget and light maintenance, however, often dictate the choice of materials.

Many homemakers are not aware that hardwood paneling, once considered a luxury, has moved into the economy range, thanks to the development of factory methods for applying furniture-like finishes to 1/4" hardwood plywood, with vertical grooves every few inches to represent planks of different pieces of wood. Weldwood paneling is grooved in an exclusive pattern, so that grooves fall on 16" centers for application to studs.

This random plank arrangement has established a strong style trend in recent years and offers the homeowner an almost infinite variety of decorating possibilities depending on tone, species of wood chosen and whether panels are used horizontally or vertically.

Betty Jennings, staff designer for United States Plywood Corporation, suggests that if you've never paneled a room before, try just one wall.

"Select an area without windows or doors," she says, "and create an accent wall. For as little as \$64, the family handyman can bring into being over the weekend a striking, one-wall mural of real wood with all of the intricate and never-repeating patterns that only nature's artistry can create."

For the newcomer to hardwood plywood interiors, Miss Jennings has answers to a number of questions that have come her way:

Can you use paneling in a small room?

"Yes. In fact, you can make the room appear larger by using a light-toned wood. If you want the room to look longer, run the panels horizontally. If the ceiling is low, run the panels vertically."

Can paneling be used in period rooms?

"Definitely yes. Real wood pan-

'INFINITE' is the word for decorating latitude set by the glow of real hardwood plywood. Even one wall of paneling, easily installed over a weekend, can bring a room alive. Light-blond Palomino Samara (above) is one of ten color-styled Weldwood offerings designed to brighten home decor.

eling adapts to all decorating styles regardless of architecture or design. It is the room's furnishings and accessories which really determine the period style."

## Should the walls match the furniture?

"Not necessarily. This is a matter of personal choice. Select your paneling as a background for furniture. The lighter woods today offer a desired contrast to dark furniture, and vice-versa."

## Does paneling limit the use of color in furnishings?

"No. On the contrary, it tends to give other colors greater richness and depth."

## Suppose I want to change color schemes, will the paneling conflict?

"No. Select a neutral-toned wood species and you'll find it 'goes' with just about everything. You will have a permanent background for practically any color you choose to use in furnishings."

## How is paneling cared for?

"Maintenance of prefinished paneling is extremely simple. Pan-

els will remain beautiful indefinitely under normal conditions, requiring only an occasional 'dusting' with a damp cloth. Occasional waxing will help to retain the new-yet-mellow look inherent in all woods properly finished at the factory." Weldwood panels are guaranteed for the life of the building in which they are installed.

## Can paneling be used for bathroom walls?

"Yes except for the shower and tub area. Interior paneling is moisture-resistant but not waterproof and installation should be as directed by the manufacturer."

## What about ceilings?

"They can match, contrast or harmonize with your wall panels for an entire room or use the same wood species with one-wall paneling as an accent area."

Instructions for paneling one wall in 12 easy steps may be obtained by writing United States Plywood, Dept. PR, 55 W. 44th Street, N. Y. 36, N. Y. FNS

## Safety Meeting Set For Monday

On Monday, November 13, at 12:15 p. m., at the Sheraton Belvedere Hotel the Maryland Traffic Safety Commission will conduct a meeting to plan an all-out campaign against the horrible highway traffic accidents which result in serious injuries and deaths for many of our citizens in Maryland. Special emphasis will be placed on the forthcoming Christmas and New Year holiday safety programs, as holidays seem to encourage an increase in traffic accidents.

There will be several groups participating with the Maryland Traffic Safety Commission in this onslaught against the wanton waste of human life on our highways. The armed forces from throughout the State will conduct a workshop for their personnel in order to insure the safe arrival of all

members of the armed forces while travelling to and from their homes on leave over the Christmas and New Year holidays.

The Governor's moral aspects committee will hold a meeting in order to plan the details of its Christmas and New Year safety

## OFF AND RUNNING by John I. Day

## Success Story

Back in 1934 a couple of cowhands who had "flooded" some with quarter horses and dreamed of Thoroughbreds rolled into Lexington, Kentucky in a battered truck and asked directions to the Lexington Fall Sales. Prices for everything, including Thoroughbreds may have been low in those depression years but dollars were hard to come by and the pair, brothers Rex and Heber Ellsworth, had a stake of some \$1,000 saved from wages on their father's Arizona ranch. A week later they headed home with six elderly broodmares and two weanlings on the groaning truck. One of the mares carried a foal which turned out to be Arigato and the winner of \$19,000 for Rex G. Ellsworth. Rex Ellsworth who continued in the racing business went on another buying expedition 12 years later.

He returned to California, this time from Europe, with a group of horses which included a 3-year-old named Khaled which was to sire Swaps and more than 200 other winners of some 1,300 races and over \$7,000,000. Today the 440-acre Ellsworth Ranch at Chino, California, houses 100 broodmares and, as a California breeder, every time an Ellsworth-bred wins at a California track, no matter who owns the horse, it means cash in the Ellsworth coffers. Ellsworth Ranch's breeders' awards at the Santa Anita meeting last winter came to \$25,717 while the second leading breeder, E. B. Johnston, collected \$5,140. As for the racing stock, at mid-year Ellsworth was the top money-winning Stable in the country.

## SPEAKING &amp; CARDS

## BRIDGE: WORLD'S NO. 1 GAME

Contact Bridge is the most popular card game played throughout the world according to a 27 nation poll just completed by the Association of American Playing Card Manufacturers. Poker is the runner-up and Canasta is in third place.

By comparison, the most recent nationwide survey of card playing in the United States showed Canasta in the top spot with Contract Bridge as runnerup and Pinochle in third place. Poker ranked fourth.

Although Bridge has for years been the favorite card game in English-speaking countries, it is surprising to note its rise in popularity in other world areas. In Italy, however, despite the fact that the Italian team holds the world Bridge title, Bridge is the third most popular international game, behind Poker and Canasta. The three most popular Italian card games, all played with the short pack (8's, 9's, and 10's removed) are Scopa, Tresette and Briscola.

games in Durban and Capetown, South Africa; Montreal and Toronto, Canada; and New Delhi and Calcutta, India.

In Latin America, as in Italy, the short pack is widely used. Short pack games having the most fans in Puerto Rico include Tute, Brisca, and Barajas. Monte and Blackjack also are popular in the Spanish quarters there.

In Brazil where Canasta was first developed it is still the favorite card game followed by Poker and Twenty-one; in Chile, the three international favorites of Bridge, Poker and Canasta are the most popular followed by Hearts which the Chileans call Chiffo.

In Mexico, Poker is the most widely played card game followed by Canasta, a favorite of women, Gin Rummy and Bridge. And in the Philippines Gin Rummy and betting games like Black Jack, Panguingue, Red Dog, Monkey, and Monte (played with the short pack) are the rage.

In Europe, the old fashioned games are holding their own. Skat, which many experts say is the most scientific of all games, is the most popular card game in West Germany. Whist is ranked first in Belgium, and Bridge, Belotte, and Tarot, a game that traces back to the Middle Ages, are favorites with sophisticated Parisians.

One new card game popped up in the survey with a title that is perhaps indicative of present day tensions: "Spite and Malice." It may bear watching.

## Student Receives

## Alumni Award

Professor Bernard S. Kaliss, chairman of the scholarship committee of the Connecticut Chapter of the National Alumni Association of Mount St. Mary's College, announced that Mr. John P. Flaherty of Waterbury, Conn., has been selected as this year's recipient of the Chapter scholarship award.

The annual award is given each year to a senior student from the state of Connecticut and is awarded on the basis of scholarship, student leadership, and extra-curricular activities, as well as need. The award is for one hundred dollars. Mr. Donald P. Quinn Sr., of Norwalk, Conn., is president of the chapter and expressed the wish that the award will be increased and the list of those eligible be extended to other seniors.

Mr. Flaherty, this year's recipient, is the son of Mrs. Mary Flaherty, Waterbury, Conn., and the late John P. Flaherty. He is a graduate of Crosby High School, class of 1958. While attending the Mount, he has served as vice president of the Nutmeg Club; circulation manager of the college newspaper, The Mountain Echo; and holds membership in the Metropolitan Club and the Sons of Erin. Academically, he is enrolled in the education course working

## St. Joseph's High School News

**Library News**  
Sister Odile is the new librarian and library instructor at St. Joseph's High School. The library has added approximately 260 books this fall and subscriptions to seven new magazines. Of these, 23

books and two magazine subscriptions were given by the Class of 1961.

Sister Odile reports the preferred reading of the students is biography and fiction. Currently two popular books are "Tuffy Taylor" and books by Dr. Tom Dooley.

A major improvement in the library this year was the conversion of the old stationary shelving into adjustable shelves and shelves for magazine storage. This work was done by two PTA members, Clyde Eyer and John F. Chrismier.

**Vocation Lecture Given**  
Rev. Joseph S. Lizer spoke to the students of St. Joseph's about the choice of vocations and reacquainted the students with the Legion of the Sacred Heart.

Father Lizer discussed the inner desires of a religious life with a person and the number of stumbling blocks that first must be overcome. Fear of sacrifice, lack of consultation and the anxiety of sin were mentioned.

**Assembly Held**

A special assembly was held in

## ORDER NISI ON SALES

In the Matter of the Sale of the Real Estate of Patrick H. Lawson in the Orphans' Court of Frederick County, Maryland.

October Term, 1961

In the Matter of the Report of Sales, Filed the 25th day of October, 1961.

Ordered, by the Orphan's Court of Frederick County, this 25th day of October, 1961, that the sale of Real Estate of Patrick H. Lawson, late of Frederick County, deceased, this day reported to this Court by his Trustee be ratified and confirmed, unless cause to the contrary be shown on or before the 25th day of November, 1961, provided a copy of this Order be published in some newspaper published in Frederick County for three successive weeks prior to the 25th day of November, 1961.

The Trustee's Report states the Amount of Sales to be—Five Hundred Dollars—(\$500.00).

## THE ROSE ANN SHOPPE

Open Friday & Saturday Evenings The Year Round  
38 YORK STREET GETTYSBURG, PA.

St. Joseph's High School Wednesday. Among the matters discussed were the collecting of bingo prizes to be brought to the school for the PTA penny bingo scheduled for December 2. The students also were reminded to return their PTA tickets promptly. The yearbook staff gave several talks to boost the 1962 book. Pupils were urged to solicit patrons and aids to defray the yearbook expenses.

**PTA Meeting Planned**  
PTA members are reminded the monthly meeting will be held on Tuesday, Nov. 14. Teachers will be in their respective rooms at 7:00 p. m. for interviews with interested parents.

**Vocational Guidance Meeting**  
Last weekend Sister Louise, business teacher, attended a vocational guidance conference for business education sponsored by Strayer Junior College of Finance and the National Office Management Assn. The meetings were held at the Marriott-Key Bridge Hotel in Arlington, Va.

## Pimlico Gears For Monday Opening

When Pimlico opens its 28-day fall meeting on November 13, patrons and horsemen will find that an improvement program costing \$100,000 has been completed since last Preakness Day.

This is in addition to major building projects of the last few seasons which saw a new grandstand rise, followed last year by a new four-story clubhouse, with both structures completely glass-enclosed and heated.

This year's improvements include:

1. Exterior renovation of the 91-year-old members clubhouse, including painting the structure, erection of a 3,600 square foot porte-cochere at the main entrance which has been enlarged. Replacement through special millwork of the needed replacements to maintain the Victorian character.

2. Rearrangement and remodeling of the grandstand cafeteria to provide faster and better service for diners.

3. Construction of an ornamental steel picket fence set in brick piers every 24 feet, around the clubhouse parking lot.

4. A new winner's circle, located next to the finish line more strategically between the clubhouse and grandstand. Wrought iron fence sets this off with a special stairway direct from the circle to the jockeys quarters in the clubhouse.

5. Embellishment of the main clubhouse entrance, by adorning the four-story grand stairwell with gold rails and 4,500 square feet of walnut paneling. Additional decor is provided by simulated tropical trees and bushes in the ten-foot square planters.

6. Conversion of the grandstand hot lunch counter into a coffee shop with a change in variety of menus.

Also since last spring, the main clubhouse dining room has had alterations to eliminate drafts and new wall paper to further beautify it. The fourth floor of the clubhouse has a new color scheme.

In the barn area, another 1,500 square yards of black top aids horsemen in parking.

## Plan Thanksgiving Dance At School

Plans are underway for a Thanksgiving Eve Dance to be sponsored by the Junior Class of St. Joseph's High School on Wed., Nov. 22, in the school auditorium. Admission to the "Golden Harvest Jubilee" will be 40c for one and 75c for a couple. Parents of students are invited to visit any time during the evening.

A special feature at the dance will be the drawing for a transistor radio. Tickets for this drawing may be obtained from any member of the Junior Class either now or at the dance.

Ronald Stouter is general chairman of the dance, assisted by James Sanders. The following committees have been formed: Chaperones: Susan Parks; Clean-Up: Eddie Orndorff, chairman, Gilbert Elker, John Gelwicks and Edward Marzola; Decorations: Irene Meunier, chairman, Sam Cool, Mary Fowler, Mary Keeney, Mary Knox, Gene Ling, Patricia Ling, Barbara McGraw, David Messner, Linda Myers, Kathryn Reaver, Mary Ridenour, Jim Topper and Lucille Topper; Publicity: Norah O'Brien, chairman; Susan Haley, Monica Norris and Cecilianne Sicilia; Refreshments: Jane Keepers, chairman, John Little, Jack Topper and Mary Troxell; Tickets: Dianne Pryor, chairman, Stephanie Baker, Suzanne Hubbard and Betty Jean Topper. Ronald Stouter and James Sanders will act as disc jockeys.

## ENGAGED

Mr. and Mrs. Charles V. Gearhart, Rocky Ridge, announce the engagement of their daughter, Janice Arlene, to Clarence J. Snyder, son of Mr. and Mrs. Jerry Snyder, Emmitsburg. Miss Gearhart, a 1960 graduate of Thurmont High School, is employed as a secretary for the Thurmont Cooperative, Inc. Mr. Snyder attended Emmitsburg High School and is employed at the Cambridge Rubber Co., Taneytown.

## Personals

George L. Wilhide attended the meeting of the Maryland Bankers Association held at the Lord Baltimore Hotel, Baltimore, on Wednesday. The all-day conference was held especially for managers, operators and personnel.

Mrs. George Eyster was hostess at a luncheon held Friday at the Green Parrot Tea Room in honor of Mrs. Harry Boyle who was visiting with friends in town.

Mr. and Mrs. Thomas C. Harbaugh, East Main St., quietly observed their sixteenth wedding anniversary at their home Tuesday.

Mr. and Mrs. Glenn Pounds and family, of Daughessville, Pa., spent Sunday afternoon with Mrs. Charles Fuss. Mr. Pounds taught school here in 1947.

Mrs. Luther Beegle, Miss Ann Codori and Mrs. C. G. Frailey attended the card party held by the Women's Club in Gettysburg on Wednesday.

Paul A. Harner attended the Homecoming at the University of Maryland on Saturday.

Dennis and Keith Kelly, Hagerstown, spent the weekend with their grandparents, Mr. and Mrs. John Orndorff.

James E. Long observed his birthday on Monday.

Mr. and Mrs. Andrew Eyster and daughter, Nancy, attended the Homecoming held at the University of Maryland on Saturday.

Plans are progressing for the annual Christmas Dance to be sponsored by the Alumni Association of St. Joseph's High School.

The affair will be held in the VFW Rowe Annex on December 30. Music will be furnished by the Debonaires.

Mr. and Mrs. Francis Topper, Taneytown, are receiving congratulations of the birth of their second child and first daughter. Mrs. Topper is the former Miss Nancy Andrews.

William Hird and son, Colin, Croton-on-Hudson, N. Y., visited on Saturday with Mr. and Mrs. George Wilhide and family.

Mrs. Edgar Nickoles, Mr. and Mrs. James Nickoles and children, all of Westminster, visited on Sunday with Mr. and Mrs. Paul A. Keepers.

Mrs. Harry Boyle who has been visiting with Mrs. C. G. Frailey and Mrs. Valerie Overman and other friends in town, will visit with Mrs. Clara Sappington in Liberty before returning to her home in Baltimore. Mrs. Boyle is a former resident of Emmitsburg.

## WETZEL—REED

Mrs. Daisy Reed, Thurmont, announces the recent marriage of her granddaughter, Georgetta Lee, to Edward Allen Wetzel, son of Mr. and Mrs. Charles R. Wetzel, Emmitsburg. The double ring ceremony was performed by Rev. John C. Chatlos, Emmitsburg, on October 20.

## To Play In Musical

Miss Cynthia Shafer, daughter of Mr. and Mrs. Paul Shafer of Frederick, has been chosen for the third consecutive year to play for the Monday Musicales on Nov. 13 at the United Brethren Church. A piano student of Miss Eleanor Eichelberger, she will play the "Scarf Dance" by Chaminade.

Miss Shafer is the granddaughter of Mr. and Mrs. Robert Grimes of near Emmitsburg.

## Gives Dinner

Mrs. Vincent P. Clarke, Thurmont, gave a dinner on Sunday to the following: Mr. and Mrs. Wilbur Umbel, Beatrice, Ann, Carolyn, Clarence and Austin Umbel; Mr. and Mrs. John C. Umbel; Mrs. Edna A. Tressler, all of Emmitsburg; Mr. and Mrs. William H. Umbel and children, Bobby, Tommy, Mikie, Bret, Sandra and Cynthia, Waynesboro, Pa. Mrs. Robert E. Hess and daughter, Barbara, visited at the Clarke residence during the day.

## PHELAN

(Continued From Page One)

league. But we do hope to make things interesting and maybe we can sneak by one of the powers if we get lucky."

Phelan's seven-year coaching record at Mount St. Mary's is 144 wins and 48 losses. In conference play his teams have won 88 and dropped 16. They have won four M-D crowns. Against major opponents he is 8-11.

## Bridge Supper

Mrs. C. G. Frailey was hostess at a bridge supper held at her home Thursday evening. Out-of-town guests present were Mrs. Dorothy Lasseter, Frederick, Mrs. McGil, Thurmont, Mrs. George F. Eberhart, Gettysburg and Mrs. Harry Boyle, Baltimore.
