BY ABIGAIL .

If Emmitsburg actually receives all the things it has been promised by parties in the coming election it certainly will be a wonderful town to live in. Actually residents are confused with the promises and tactics used by the candidates. Things which we pleaded for and fought for and were denied under former administrations are now about to come true after all these years. I wonder why the sudden change? You, the voters, have the privilege of deciding which candidate will fufill his promises because next Tuesday is election day and on that day we will choose the men we want to represent us in the general election next November. Things really are happening fast here. Last week Mayor Houck endorsed Mr. Mahoney for Governor and this week Mayor Bouey of the same town endorsed Mr. Tawes for Governor. No, we don't have two mayors because we can't afford two and really don't need two. The way it all came about was like this: Last week Mr. Houck was mayor and his term expired Monday night. That same night Mr. Bouey took office and that is how we had two Mayors the

same day. The local primary has been a blistering one locally and it is the first time that I can recall when each candidate had a local headquarters in a primary election. This is indicative of the interest created here to date and which will continue through Tuesday. I am not going to tell you how to vote. Most of your have met the can-didates, or some of them. The papers have been full of stories, advertisements, pictures, etc. It is up to you, the voters, to decide the winners. Think things over carefully before you ballot and be sure you vote for the candidate, male or female, who you will think will work in the best interests of Emmitsburg, Frederick County and the State of Maryland. The machines are loaded with an abundance of candidates and voting will be slowed down somewhat with the multitude of names to select from. Elsewhere in your paper is a facsimile of the ballot, one which will give you ample time to study long before you enter the polling place. Study it carefully and you'll have no difficulty in knowing how you want to vote before you make the trip to the polls, and please, no hard feelings after the election, regardless of whether your candidate wins or loses.

Local Babe Ruthers Win Two Games

Last Sunday the local Babe Ruth League season started in glory as the two local teams defeated two teams from Smithsburg by 12-7 and 12-1 scores. Charles Bowers' grand slam home run in the first game started the action and he was named the outstanding player of the week.

Troop 72 Meets their leaders Mrs. Ralph Ohler will be on Tuesday, May 22 at 6:30 Friendship Circle.

(Continued from Page Six)

do need good health, a good wife, plenty of sleep, and to say your prayers. (9) The best "gamble" of all

is a bunch of good children. Have enough of them and some are sure to turn out to be "whizzes" — very smart. Keep out of debt. I have never borrowed or loaned one dollar in my life or bought on margin.

(10) Profits must come from forecasting the future. Your bankers will call it "gambling." But every forward-looking man has been a "gambler"-from Columbus to those scientists who, like M.I.T.'s Provost Charles H. Townes, are now working on condensed light rays and masers and lasers! Forget the moon; but capitalize on four big things: (1) The heat of the sun; (2) the coming scarcity of fresh water; (3) the cellulose of wood and cotton, to give us cellophans, plastics and fibers; and (4), science. Stick to these four fundamentals, although you can diversify your holdings over many companies.

We are living in a new age, the age of "television," fuel cells, ion engines, harnessing gravity and good bacteria. Don't spend too much time on present educational courses based only upon memory. Rather, learn to forecast the future by reading scientific magazines. In previous weekly column I discussed stocks in good honest drug companies. Just now they may be selling for all they are worth. But these drug companies are great "gamblers"; if you own their stocks they will do the "gambling" for you.

In closing let me say that the U.S. Navy is supporting a project at Santa Fe Springs, California to make bacteria batteries! The chemists are raising bacteria for new insecti-

THESE MEN ARE INTERESTED IN

The Present Administration Has Bungled These Projects That Affect The People Of Emmitsburg:

- Complete Dualization of U.S. Route 15 North and South, Messed Up the Past 8 Years.
- Discriminatory Treatment of Town By the State Roads Commission.
- Failure of State Department of Economic Development to Aid Town in Obtaining Industry.
- Complete School Bus Transportation For All.
- No Improvements to Streets in Many Years.
- Deliberately Betrayed Our Local Teachers.

EDWIN F. NIKIRK

EDWIN F. NIKIRK

ATTORNEY & COUNSELLOR-AT-LAW
105 West Second Street
Frederick, Maryland

Dear Voters and Taxpayers of Emmitsburg:
Frederick County has never enjoyed the honor and distinction of having the Attorney General of Maryland elected from our midst. The prospects of electing our "favorite son" candidate, Samuel W. Barrick to this high office are very promising, and it is on behalf of the candidacy of Sam and his running mates that I am writing to you on the following issues;

(1) The Unit System of nominating candidates.
(2) Our personal obligation and allegiance to our "favorite son" candidate.

candidate.

1. As you are no doubt aware, candidates for state-wide office are nominated on the Unit System basis, and not by the majority of votes cast in the entire state. Each county and legislative district of Baltimore City is entitled to the same number of unit votes as it has representation in the House of Delegates and Senate of Maryland Therefore, Frederick County has seven (7) Unit Votes, and regardless of the number of votes cast for Sam in Frederick County he can only benefit by seven (7) Unit Votes. A total of seventy-seven (77) unit votes over the entire state are required for nomination. It naturally follows that our "favorite son" candidate must necessarily depend most heavily on the Mahoney-Lee, etc., ticket to carry him and his campaign in the other counties and legislative districts of Baltimore City if he is to have a ghost of a chance for nomination. The Mahoney-Lee, etc. ticket is wholeheartedly carrying Sam over the length and breadth of the Free State, consequently, out of gratitude and appreciation for what this ticket is doing for our "favorite son" over the entire State, the least we can do is to carry this entire ticket for Sam in Frederick County. In effect, a vote for the Mahoney ticket will help Sam throughout the entire State of Maryland.

Maryland.

2. Do we owe a personal obligation and allegiance to Sam Barrick, as our "favoirte son," to support the entire Mahoney ticket? The answer must obviously be in the affirmative. When, and it appears most likely, we will have the honor and distinction of the important office of Attorney General of Maryland being selected from one of the most loyal Democratic families in Frederick County (the S. W. Barrick family of Woodsboro, Md.), we should all put our shoulders to the wheel and gratefully support the Mahoney-Barrick-Lee, etc. ticket—the ticket that will not only bring honor and disstinction to our "favoirte son." but to our entire County!

stinction to our "favoirte son," but to our entire County!

I personally urge you to carefully consider these aspects of the forthcoming primary, and to display that type of loyalty which has been such a great source of pride to the Democratic Party of this County in the past.

Cordially yours, EDWIN F. NIKIRK

Vote For GEORGE P. MAHONEY

For Governor

GEORGE P. MAHONEY

Knickerbocker Building Baltimore, Md.

To The Citizens of Emmitsburg:

During the past decade or so I have had many occasions to visit your town. During these visits I have had numerous conversations with the townsfolk and through these talks I have become cognizant of many of your local problems.

I have made a personal inspection of the roads in your area. I have paid special attention to the stretches from the Mason-Dixon Line south to your town and from Emmitsburg to Taneytown. These highways are in a deplorable condition and are a disgrace to our fair state. There seems to be no excuse for the delay during the past several years of improvements to Route 15. The deadend at Toll Gate Hill and in the Catoctin Furnace area are inexcusable in a modern

Town Commissioner Flax has received a series of letters from the State Roads Commission. These letters were mere double-talk and mean nothing to Emmitsburg. This discriminatory action on the part of the Commission also is inexcusable. Emmitsburg deserves fair treatment the same as any other town in our state. If safety lights are paid for by the state, and other road repair, then why isn't Emmitsburg entitled to the same?

The present admistration has completely overlooked the tremendous potential of the natural resources of Western Maryland and Emmissburg. There are vast stretches of mountain and timberland in your area which could be developed by the State Parks Commission which would bring economic stability to your community, however exactly nothing has been done to develop this potential .

Yes, I am very familiar with the problems of your area and your efforts to cope with the great expansion problems confronting you by the growth of the two colleges there. I can assure you that if elected Governor I will devote time to assist you with your problems so that Emmitsburg can look forward to a brighter future.

Your most valuable assistance at the polls is needed if we are to work together for the betterment of Emmitsburg.

Most sincerely,

George P. Mahoney

ing a remarkable book-"THE PICTORIAL HISTORY OF WALL STREET"* - 368 pages

This history shows clearly that the fundamental facts underlying investing during the past decades apply equally today.

niversary of the New York Stock Exchange founded just 170 years ago.) Let me describe ten facts.

(1) Safety and income come from careful selection and supervision of your investments. Profits come usually from 'gambling"; although your total investment will rise and decline in "value" along with the profits come from buying into new ideas, new discoveries, and

50 Chev. Sedan Delivery

make big money, read scientific journals** rather than ordinary size 12" x 9". financial news. (2) Newton's Law of Equal

and Opposite Reaction can be depended upon when the AREAS involved are properly considered. This was first noticeable when African slaves and gold were the only "commodities" traded on Wall Street 200 years ago. I believe that we will continue to have periods of Decline and Depression during the next few years. Congress can legislate only to temporarily postpone declines; but cannot but cannot change the AREAS involved.

(3) A study of Wall Street history during the past 170 years shows that dips in the stock market have always come unexpectedly, without warning. This was true when slaves, gold, or stocks were selling abnormally high—as at present. Such bear markets have always followed great wars, from Napoleonic Days through World War I. No such bear market has yet occurred following World War II. The D-J Industrial Average was around 100 in 1942 and has since climbed fairly steadily upward, standing around 670 to-

(4) Special groups of stocks have acted differently during the past 150 years. The demand for slaves and land declined from 1860-65 while the demand for gold and railroad stocks was very active. Then, being overpopularized—as the electronics and space stocks are todaythey had a terrible slump with most if the companies going into receivership. Most of the stocks in the same group suf-fer more or less together; but different groups can act very differently.

(5) Bonds-other than governments-were almost nonexistent until 75 years ago when corporation bonds began to be issued. A study of quotations shows that the bond market is usually going down when the stock market is going up. Careful investors will hold both stocks and bonds in a proportion varying according to conditions. For instance, good corporation bonds can now be bought to yield 41/2 % while the stocks of the same corporations will yield today 3% or less. Hence, the switching of stocks into bonds has now begun on Wall Street and it will continue until the stock yield equals the bond yield.

(6) Naturally, everyone who knows Wall Street will advise diversification of all kinds. Don't put all your money in stocks or bonds. Real estate can be bought in the Central West and South West at \$75 per acre. One must pay more to get land in an oil or mineral "terrain." There never will be any more land. If you can get enough rent for pasture rights to pay taxes, buy such land.

Emmitsburg - Thurmont

ELECT

TO THE Republican State Central Committee

When buying land, be willing to pay for adjoining fresh water. Someday fresh water in quantity will almost be "liquid I believe in African gold stocks—also good Mutual Funds

and especially insured savings

to pay 41/2%. I once asked

Thomas A. Edison who was the

greatest inventor. He replied

'The man who invented com-

pound interest". The lower

Manhattan Island — with Wall

Street later its center — was

bought from the Indians for a

few trinklets valued at \$24.00.

If the Indians had taken the

cash and invested it at 6% in-

terest, compounded quarterly,

this \$24.00 would today amount

to around sixteen billion dol-

lars. So don't forget the great

power of compound interest

Pictured above is Governor J. Millard Tawes congratulating J. Allen Bouey on his recent election as Mayor of Emmitsburg. While we have been fully aware of the statewide issues in this election and the outstanding accomplishments of the Tawes administration in the savings and loan regulatory laws, court reform laws, etc., we feel that the people of Emmitsburg are mainly interested in what Tawes has done for Emmitsburg. The matching state grant of \$500,000 o Mount St. Mary's College for a new Science Building will benefit the people of Emmitsburg in many ways but more particularly will benefit those young men who will attend the college in years to come.

In discussing with Mr. Bouey the needs of our community, Mr. Tawes has signified his willingness to assist us in every way possible. Just this week Mr. Bouey received a letter from Mr. Funk of the State Roads Commission advising him that at a meeting of the full Commission it has been decided to resurface, with blacktop, Routes 15 and 97 in Emmitsburg. This work is now awaiting completion and the Mayor has been assured that this work will be performed by the Commission during this present season. Mr. Owens of the Commission visited Emmitsburg this week to tour

the streets with Mr. Bouey to determine what should be included in this project. We, the Citizens for Tawes in the Emmitsburg area, feel that in the interest of good government for our sate and for the benefit of our community, every registered Democrat will perform a service to all by casting his ballot for J. Millard Tawes to return him to the Governorship of Maryland for another term.

In addition to these local developments, we feel that the following provisions for Frederick County are worthy of mention also during the Tawes administration: \$2,884,892 for Frederick County Schools; \$10,790 for Frederick County; \$2,257,445 for 18 highway systems in Frederick County; \$528,444 for Public Health in Frederick County; \$425,620 for our Frederick County Farms in soil conservation, extension education, mosquito control and livestock sanitary services; \$1,947,950 for the development of Cunningham Falls State Park, Gathland State Park, South Mountain and Catoctin Watershed, and Maryland School for the Deaf. This money used in making Frederick County a better place to live and work would have cost the taxpayers of Frederick County an inrrease in tax rate of 13c.

Speed is a killer on American Highways! Regardless of how safe a driver you believe you might be, in case of a mechanical failure, human shortcomings, or some slight misjudgment, the speeding driver can almost certainly become involved in a fatal accident. Cold hard statistics have proven this point many time over the nation. Most all automobile operators think of themselves as careful drivers. But, many time over the nation. Most all automobile operators think of themselves as careful drivers. But, when an accident does occur, it is speed that always kills. Our citizens today are granted an operators license for driving vehicles on our highways. This is a privilege and not a right to endanger the lives of our fellowmen. All persons driving vehicles on highways are urged to drive at a careful and prudent speed. They should not drive greater than nor less than is reasonable and proper, having due regard to the traffic surface, width of the highway and and other restrictions or conditions that may exist.

Nobody should drive any vehicle at such a speed as to endanger the life, limb or property of another person. No motorist should drive at a speed greater than will permit him to bring the vehicle to a stop within the assured clear distance ahead. True, each and every State has specific speed limits for various types of highways. This does not mean that every motorist can and should drive at that maximum speed under all conditions. For each of us the answer lies in having a thorough knowledge of our mum speed under all conditions. For each of us the answer lies in having a thorough knowledge of our traffic and motor regulations. But this is not enough. This knowledge must be coupled with good common sense plus a willingness to realize that our driving privileges must be shared with thousands of additional drivers each year.
