BY ABIGAIL

It's beginning to appear that this section of the State is again facing a sustained drought, one that will, if it transpires, cause hard financial pressure on area farmers and dairymen. Considering last summer's long drought many farmers were put to additional expense buying hay and feed during last winter. Another such blow might prove disastrous to quite a number. Let's pray for that rain folks and have it pretty darn quick. With these droughts getting more frequent it might prove prudent if farmers studied installation of irrigation equipment for future years. Water is becoming scarcer and scarcer each year it seems. Irrigation is nothing new as other sections of the country have been forced into it years ago. Modern day farming on the East Coast seems to demand that irrigation be considered locally.

Recent news reports say Maryland is bracing itself for the biggest influx of tourist in the state's history. The Dept. of Economic Development has been advertising certain features about the state which is expected to draw visitors, but to my knowledge nothing has been said about Emmitsburg and what it has to offer. The news releases cite Ocean City, Deep Creek Lake, St. Mary's County Yacht Club, Carroll County's historical past, etc.

This is fine and undoubtedly will attract quite a tourist trade to our fair state but what about Emmitsburg? Where could one find such attractions as Mother Seton's Shrine, the home of possibly America's first native-born Saint, or The Grotto at the Mount, the oldest replica of Lourdes in America, or the Mount itself for that matter, the second oldest Catholic College in America? In addition the nearness of the town to the historical battlefield of Gettysburg should be a drawing card. We have quite a bit around here to attract tourists and I feel that we have been short-changed by the Economic Commission's apparent lack of facts or interest in this area. As a matter of fact Emmitsburg was the Gateway to Western Maryland in the early days of our state and Union soldiers bivouacked here preparatory to journeying to Gettysburg for that historical battle, so my friends, we do have a little history on our side that we can be proud of. Emmitsburg to be sure, should be included in any advertising brochure the State puts out in an effort to draw tourists to Maryland.

State Grant Will Aid College Building

The bill recently introduced in the General Assembly of Maryland by Senator John A. Derr authorized a \$750,000 grant for a new science building at St. Joseph College has been passed. Sister Rosemary, president, said that this grant must be matched by the college.

The new science building which is now in the preliminary planning stage, will be built on the eastern side of the campus. The building is part of a 10-year growth plan for Saint Joseph's. All of the 592 students now in the college will use the laboratories and classrooms of the proposed science hall.

Also included in the 10-year plan is a residence hall for 150 students. It is hoped that this building will be under construction at the same time as the science building.

Other buildings being tentatively considered in this 10-year program include a library, a liberal arts building, an enlarged student union building as well as a second residence hall. The future buildings will provide for a resident population of approximately 600 students.

Arrives In Africa

Mrs. Ronica Tokar arrived safely in Tripoli, North Africa, traveling by B.O.A.C. Monday evening, May 6, to join her husband, A/2c Irvin C. Tokar Jr. Airman Tokar has been stationed at Wheelus Air Force Base there for the past six months. Mrs. Tokar is the former Ronica Smith, daughter of Mrs. Cora Gourley, near Emmitsburg. Mrs. Tokar's trip was arranged by Boyer's Travel Agency.

Paul Dudash "Dealer of Year"

Principals at the recent awards night dinner of the Aero Oil Company are shown above, left to right: M. D. DeTar, chairman of the board of the company; Paul Dudash, operator of Dudash's Phillips 66 Service Center, Emmitsburg, who was named dealer of the year, (he also operates Dudash's Phillips 66 Truck Stop, Gettysburg Rd.); Ray Culp, assistant manager of the Toll Gate Hill station; Eugene Lingg, manager of the truck stop station, and David Lingg, also of the truck stop.

Paul Dudash, operator of two Phillips 66 service stations in the Emmitsburg area, was declared the "Dealer of the Year" by the Aero Oil Company, New Oxford, at the company's annual awards dinner held recently in the Hanover Diner. He operates Dudash's 66 Service Center, Toll Gate Hill, and Dudash's 66 Truck Stop, on the Gettysburg Road.

M. D. DeTar, chairman of the board of Aero Oil Co., presented the award, which is designed to stimulate dealers to "strive for perfection in retail salesmanship,

Softball League

Emmitsburg's recently organized Softball League held its election of officers with the following results: President, Gene Myers; vice president, Arthur Damuth; treasurer, Philip Topper; statistician, P. Allen Stoner. All officers and Frank Gephart will constitute the board of directors for the league.

Rosters have been announced for the four teams making up the league and a schedule has been compiled. An all-star game will be held in Emmitsburg on July 4 at 6 p.m. featuring outstanding players on the teams. East End will engage the all-stars of West End.

The teams will play four nights weekly, Monday through Thursday and all contests will commence at 6 p.m. A number of umpires is needed and anyone interested in aiding the cause is asked to contact Gene Myers.

Members of the various teams are:

Frank's Tavern—F. Gephart, F. Cool, J. Randolph, D. Swomley, K. Swomely, A. Hahn, D. Staley, K. Stoops, K. Joy, C. Bowers, J. Hewitt, C. Glass, K. Slick, H. Gingle and T. Sayler.

Myers TV—A. Damuth, D. Byard, T. Berry, S. Myers, T. Little, B. Sager, E. Wantz, A. Lingg, S. Kemp, S. Wagerman, P. Zimmerman, J. Kemp, M. Kankasky, and G. Myers.

Bill's Snack Bar—B. Boyd, T. Topper, D. Sweeney, P. Topper, B. Brawner, E. Shriver, M. Zentz, J. Topper and R. Seyfert.

The Palms—R. Eyer, A. Stoner, D. Myers, T. Fleagle, T. Stoner, J. Joy, S. Wagerman, B. Walters, T. Topper, G. Eyer, B. Damuth, B. Warthen, C. Keepers, B. Strickhouser and A. Umbel.

Games next week are as follows:

Monday: Myers TV vs. Bill's Snack Bar

Tuesday: Frank's Tavern vs. The Palms

Wednesday: The Palms vs. Bill's Snack Bar

Thursday: Frank's Tavern vs. Myers TV.

Prize Winners

Winners of the various door prizes awarded during B. H. Boyle's 30th Anniversary Sale held last week have been announced by the management as follows:

1. Ralph McDonnell; 2. Kermit Glass; 3. Mrs. Clarence Sanders; 4. James Topper; 5. Mrs. Alice Glacken; 6. Miss Linda Masser; 7. Mrs. Cheryl Bushman, all of Emmitsburg; 8. Mrs. Carroll Phillips, Taneytown R2; 9. Miss Norma J. Hartle, Fairfield R2; 10. Jim McDonnell, Ortanna, Pa.; and 11. Carleton, c/o Beegles, Emmitsburg.

Alumni Banquet

St. Joseph's High School Alumni Association will hold its annual Banquet and Dance on May 25, 1963. Any member not receiving a card and desiring to attend the banquet please make reservations with Mrs. Eugene Rosensteel, secretary, no later than May 18. The banquet will be served by the Sodality of St. Joseph's Church in St. Joseph's High School with the dance following in the FFW Annex at 9:00 p.m.

William Kelz Heads PTA

The PTA of St. Joseph's High School held its final meeting of the school year Tuesday, May 14.

The following were elected officers for the next year: President, William Kelz; vice president, Ray Etheridge; treasurer, Mrs. Margaret Myers; secretary, Mrs. Helen Brown. After a short business meeting a covered dish social was held in the school cafeteria with Father Louis Storms, Father James Delaney and Mr. James Deegan and members of both basketball teams as guests.

Father Delaney presented the senior players with school letters and gave a short talk thanking the faculty, parents and players for their cooperation this past year. Mr. William Kelz introduced Mr. James Deegan, Track and Soccer coach at Mount St. Mary's College, who gave a very interesting address, stressing the importance of college education of competitive sports programs.

A penny bingo will be held in the high school auditorium Saturday, May 18 for the benefit of the PTA. Everyone is cordially invited to attend.

PROCLAMATION

I, Ralph F. Ireland, Burgess of Emmitsburg, herewith proclaim the days of May 25th to 30th, inclusive, as Poppy Days.

These will be sold by the Auxiliary of the Francis X. Elder Post 121 of the American Legion, who will present the poppies to the people of the Community.

I sincerely hope that each and every one will contribute liberally to this worthy cause.

The making of the poppies will give the disabled soldiers at Perry Point Hospital beneficial employment, and the funds realized will be used to help wounded soldiers from the wars.

Please give all you can spare.

Sincerely yours,
Ralph F. Ireland,
Burgess

Homemakers Will Attend Open House

The month of May is Maryland Home Demonstration Month. The Homemakers Clubs of Frederick County are celebrating the occasion by displaying articles made by homemakers, and inviting friends and neighbors to enjoy their efforts. They include rug braiding, refinishing of furniture, lamp shades, sewing, cooking, meal planning, home furnishing, tinware painting, ceramics, home management, health and safety, cultural, gardening, etc.

Groups of clubs are linking together in their community to celebrate. Emmitsburg, Thurmont and Lewistown as a group are representing the northern part of the county. Emmitsburg and Thurmont clubs will have displays in store windows in their respective towns, while the Lewistown club will have "open house" at the home of Mr. and Mrs. Guy B. Stull, near Utica, to display articles made by the Emmitsburg, Thurmont and Lewistown clubs. Live demonstrations will be given in the different arts.

The date is Wednesday, May 22, 2 to 4 p.m. and 7 to 9 p.m. and each club member is asked to bring a guest.

O'TOOLE-HATTER

Miss Helen Loretta Hatter, daughter of Mr. and Mrs. Ralph L. Hatter, Annandale Rd., Emmitsburg, became the bride of Patrick Joseph O'Toole, son of Mr. and Mrs. Joseph Leon O'Toole, Waynesboro, Pa., on Saturday, May 4 at 10 a.m. in St. Anthony's Shrine, Emmitsburg. The nuptial mass, double ring ceremony was performed by Father Vincent J. Tomalski.

The altars were decorated with snapdragons and lilacs of various shades, and palms. Traditional wedding music was played by the church organist.

Given in marriage by her father, the bride wore a floor length gown of silk organza, festooned with garlands of imported alencon lace enchanting the bodiced skirt with a graceful chapel train. The long sleeves came to a point over the hands. She carried a bouquet of Lilies of the Valley which she presented to the Blessed Virgin Mary, while the soloist sang, "On This Day O Beautiful Mother."

Mrs. Mary Jo Wagerman, sister of the bride, was matron of honor and wore a graceful floor length gown of yellow nylon organza, with large puffed bow in the back and a matching headpiece. She carried a basket of mixed hovers, snapdragons, mums, ivy and lilacs.

Bridesmaids were Mrs. Janet Utz, sister of the bride, Sabillasville, Ottolie Hewitt, Emmitsburg, Betty Harbaugh, cousin of the bride, Sabillasville; Marie Kankasky, Emmitsburg, Dorette O'Toole, sister of the groom, of Waynesboro; and Betty Moser, of Emmitsburg. Junior bridesmaids were Joan Hatter, sister of the bride, Margaret O'Toole, sister of the groom, Michele Lipkien, Thurmont, and Sandy Hemler, of Edward.

Edward O'Toole, brother of the groom, Waynesboro, was best man. Ushers were Edgar J. Hatter, Sabillasville, Larry B. Utz, Sabillasville, Dick McCrea, Blue Ridge Summit, Maurice Michaels, Thurmont, Richard O'Toole and Robert O'Toole, Waynesboro. Eddie Hatter, brother of the bride, was ring-bearer. Miss Sharon Wivell, Emmitsburg, was flower girl and wore a white nylon dress with matching floral headpiece and carried a basket of Lilies of the Valley.

Immediately following the ceremony a reception was held in the church social hall. The bride's mother wore a beige chiffon dress with crushed cummerbund and charming lace jacket, matching accessories and an orchid corsage. The groom's mother wore a tweed walking suit with matching accessories and an orchid corsage.

For their wedding trip to an unannounced destination the bride wore a beige suit with white accessories and an orchid corsage. Upon their return they will reside at Hamilton, R. I.

The bride was employed at the Emmitsburg Manufacturing Company until the time of her wedding. The groom is an aviation electronics technician, 2nd class, with the U. S. Navy and is stationed at Quonset Point, R. I., aboard the USS Essex.

Out of town guests were present from Washington, D.C., Georgia, Michigan, New Jersey, Waynesboro, Blue Ridge Summit, Fairfield, Gettysburg, Baltimore, Glen Burnie, Hagerstown, Frederick, Taneytown, Sabillasville, Lantz, Highfield and Smithsburg.

Fire Co. Gains New Members

The regular monthly meeting of the Vigilant Hose Co. was held at 8 p.m. Tuesday evening in the Fire Hall with 29 members in attendance.

Chief Sterling White reported nine fire calls since the last meeting and also that the 1951 pump will be out of service for three or four days beginning Sunday in order that necessary repairs may be made.

Six men were voted into social membership in the company. They are David Wivell, Paul Orndorff, Charles Bushman, Robert Wivell, Thomas Harbaugh and John H. Walter. Charles Cool was accepted as an active member.

President Hollinger reminded the members that the June meeting will be held on the carnival grounds adjacent to the H. O. Toor Shoe Co., weather permitting.

Legion To Elect

The Francis X. Elder Post 121, American Legion, will hold its annual election of officers Tuesday night, May 21 in the Post Home at 8:30 p.m. (DST).

"A free press stands as one of the great interpreters between government and the people. To allow it to be fettered is to fetter ourselves." U. S. Supreme Court, Feb. 10, 1936.

Named Delegate To Convention

Place of residence is a difficult question for Mrs. Robert E. Hampson, District Vice President of the Maryland Congress of Parents and Teachers, because she divides her time between Baltimore and a dairy farm near Emmitsburg.

When elected as one of four Congress delegates to the National PTA Convention in Miami, May 19-22, Mrs. Hampson was commended for her outstanding PTA work in Baltimore City.

During her two year administration as president of the City PTA Council, the group re-affiliated with the Maryland Congress. The Council's 75 units, many of which Mrs. Hampson personally helped reorganize, are an important component of 1963 membership figures just released by the National Congress of Parents and Teachers. Maryland is first in the nation with a membership gain of 40,303, over 20,000 of these in Baltimore City; Virginia second with 23,087 new members. Maryland is also first percentage-wise with 19 per cent; Alaska second with 9.2 per cent.

Dental assistant to her dentist husband since 1936, Mrs. Hampson has also found time for 24 years active interest in school-centered endeavors. Responsible for this interest are son Robert, who is attending the University of Baltimore, and daughter Bernice, a senior at Western High.

Musicians all, the family is also interested in antiques, especially old street cars and steam engines, and very proud of their dual "citizenship" in Baltimore City and Frederick County.

Foundation Grant Extended

The Department of Chemistry, St. Joseph College, Emmitsburg, will enter its fourth year of an Undergraduate Research Participation Program supported with a National Science Foundation grant of \$2,750. The program, under the direction of Sister Denise Eby, offers chemistry majors the opportunity of participation in an experimental investigation of the physico-chemical properties of anti-cancer agents.

Student research participants reported the results of their work in papers which they read before the Baltimore-Washington regional meeting of Student Affiliates of the American Chemical Society, and at the Boston meeting of the Eastern Colleges Science Conference held May 3-5. The paper "Physico-Chemical Effects of X-radiation on Mouse Liver," read by sophomore Barbara Gaver, Baltimore, Md., tied for second place at the A.C.S. regional Affiliates meeting.

One of the objective of research participation has been to encourage qualified students to undertake graduate study. This objective has been realized by three June graduates who have been awarded graduate assistantships. They are: Mary Colombrita, Morris Plains, N. J., who will attend St. John's University, Jamaica, N. Y.; Ann Walsh, Matytale, New York, who will attend the Catholic University, at Washington, D. C., and Angela Bialczak, Baltimore, who will attend the University of Maryland in Baltimore.

Future research will require the use of new chemical instrumentation. To this end the department is seeking a matching grant for scientific instructional equipment which will include an infrared spectrophotometer.

Stuck In The Mud
If you're stuck in the Spring mud, don't forget ropes or even rags tied through your car's wheels will provide an astonishing amount of traction. And evergreen boughs laid across suspicious spots may save a spinning.

The Linotype was first used in 1886 by the New York Tribune.

Town Council Faces Immediate Projects

Emmitsburg's recently organized town government continued on its orderly plan of making improvements this week.

Mayor Ralph F. Ireland reported the cutting of excess timber on the Town's watershed in the vicinity of Rainbow Lake was progressing satisfactorily and that logging roads and bridges were being built to facilitate the removal of the logs. These are permanent roads, the Mayor stated, and will be used for future reforestation plans and fire use if necessary.

Street Commissioner J. Norman Flax announced that work on making the local sewage disposal plant making it flood proof, had begun. The project will cost in the neighborhood of \$1600 but the improvement is expected to pay for itself in electricity bills within a two-year span. During high water times Flat Run has been backing up to the sewer disposal pumping plant necessitating additional pumping and

costs. The remedial work now being done by the Weller Co. of New Windsor, will correct this problem which has plagued the system since its installation a number of years ago.

The Town Council also reported it had on order a new service truck to be used in servicing the water system and other town needs. The return of tax and water bills sent out in recent months, has been progressing very satisfactorily and the Council is presently discussing a general flat rate for patrons of the water system. At the present time there are several water rates prevailing and it is hoped to arrive at a fair and equitable rate for all water consumers of the town.

The recently purchased Water Co. building is currently undergoing repairs and is being repainted preparatory to moving the Town Office from the Ryder property to the new office across the street. It is planned to move the office about the last week of this month.

St. Joseph College Home Economics Dept. Holding Open House

The Home Economics Department of Saint Joseph College, Emmitsburg, will have its annual Open House today (Friday) from 2 to 4 p.m. It will be in the Home Economics building on the southeast side of the College Campus.

The theme this year is "Home Economics Units World Cultures." This developed from the views taken in several courses in the curriculum in which the importance of, and need for, trained home economists in so many parts of the world has been realized.

Rapid travel has destroyed distance and encouraged the union of distant cultures. This will be seen in the refreshments to be served at the International Tea, which will be prepared by the members of the Freshman foods course.

Lions Club Schedules Circus

Vice President Ralph F. Ireland presided, in the absence of President D. L. Beegle, at the regular meeting of the Emmitsburg Lions Club held Monday evening in Mt. Manor Restaurant, 20 members in attendance.

A communication from Charles Joy, a candidate for District 22-W District Governor was read and the club agreed to support Mr. Joy's candidacy. Lion LeGore of the Glade Valley Lions Club was a guest at the meeting. One new member, Eugene Sappington, was admitted to the club.

Several fund raising activities were discussed. Considered was a donkey baseball game or a circus. The latter was agreed on and it is expected to engage the Hoxey Brothers Circus to show here on Community Field on Tuesday, July 2. A matinee and evening performance will be scheduled. Admission tickets will sell at \$1 for adults and 10c for children.

CALVIN L. McGLAUGHLIN

S/Sgt. Calvin L. McGlaughlin, 34, a native of Adams County, died last Tuesday at a hospital in Nashville, Tenn., after suffering a stroke. He had resided in Murfreesboro, Tenn.

A member of the 839th Civil Engineering Sgdn., he was stationed at Sewart Air Force Base, Smyrna, Tenn.

A son of the late James Blaine and Alice (Peters) McGlaughlin, he was born in Fairfield and had served in the Air Force a number of years.

Surviving are his wife, the former Viola Goudas, Murfreesboro; a son, James, and two daughters, Margaret and Elaine, all at home, and three brothers, Guy R. McGlaughlin, Emmitsburg; Wayne McGlaughlin of Fairfield, and James McGlaughlin of Friendsburg, Pa. Also surviving are a number of relatives in the York area.

Funeral services were held last Wednesday morning at the Sewart Air Force Base Protestant Chapel by Chaplain Thomas W. Murphy. Military rites were held Monday in the Soldier's Home National Cemetery, Washington, D. C. Chaplain Walker from the Andrews Air Force Base conducted the services.

In 1962, advertisers spent more money in newspapers than in any other medium, and the newspaper remains overwhelmingly dominant as a local advertising medium.

European, Oriental and Latin American style influences will be seen blending with the North American as the models show their apparel. Fibers, techniques and designers will meet on a united cultural front.

Visitors will have the first tour of the newly decorated bedrooms of the Home management house. Members of the Interior Decoration course will have just refinished the wood furniture. Bedspreads, draperies, pillows and upholstery, accomplishments of the same students, will also be seen.

Senior Home Economics majors will be guides for the afternoon. Joan Zoby of Norfolk, Va., will be general chairman of the fashion shows which will begin promptly at 2:15 and 3:15 p.m. Jane Davis of Washington is chairman of the refreshment committee.

Democratic Dinner Is Well-Attended

Maryland's U. S. Senator, Daniel B. Brewster blasted the Republican Party as "stand patters and againers" and then advocated a farm policy supported by most Republicans at the annual Jefferson-Jackson Day Democratic Dinner attended by 366 persons at the Peter Pan Inn at Urbana this week.

After saying, "The minority party is quick to criticize but slow to suggest remedies," Senator Brewster agreed with Republican Congressman Charles McC. Mathias Jr., without mentioning him by name, by saying, "There should be less government interference with agriculture. The feed grain proposals should be defeated in the referendum on May 21."

On other matters, Senator Brewster came out strongly for Democratic measures such as medicare and civil rights, saying "No senior citizen should be allowed to die in misery without proper medical care."

He pointed out the problems of increased population and automation, saying, "In the next eight years 26 million people will enter the labor market and automation will eliminate millions more jobs so that we must provide 250,000 new jobs per month. These problems must be solved on all levels, city, county, state and national, by the Democratic Party which has the strength to look forward and act for the future."

Attorney General Thomas B. Finan and State Comptroller Louis L. Goldstein also attended the meeting and spoke briefly, emphasizing that Maryland is growing and is now the 11th largest state in the union.

Mount Cindermen Continue Undefeated

Mt. St. Mary's College's powerful unbeaten track team won its 11th straight meet Saturday by outclassing American University, 77-43 here.

John Clarke took both the 440 and 880-yard runs for the Mount. In the 440 he set a new school record of 50.8 seconds, clipping a tenth of a second off the former record.

Coach Jim Deegan's Mountaineers swept all places in the pole vault and high jump.

The annual Mason-Dixon Conference championships will be held today (Friday) and Saturday on the Mountaineers' field at the local college.

College Groups Hold Elections

Tri-State Club

The Tri-State Club of Mount Saint Mary's College, has elected the following officers for the coming academic year: president, Michael J. Monaco, Seaford, Del.; vice president, Andra H. Fouchet, Lancaster, Pa.; secretary, Michael A. Dianna, Reading, Pa.; and treasurer, Charles J. Rudderow, Jr., Drexel Hill, Pa. The organization is composed of students from the Pennsylvania - Jersey - Delaware area.

Metropolitan Club

The Metropolitan Club of Mt. St. Mary's College, has selected the following officers for the coming academic year: president, Richard V. O'Conner, Wantagh, N.Y.; vice president, Louis C. England, Cold Spring Harbor, N.Y.; deputy vice presidents, Robert A. Murphy, Manhasset, N.Y., and Michael J. Healy, Ridgewood, N.Y.; secretary, Richard C. Fitzpatrick, Brooklyn, N.Y.; treasurer, George J. Martin, Brooklyn, N.Y.; parliamentarian, Frank T. Mangan, Hicksville, N.Y.; and historian, James F. Brolley, Queens Village, N.Y. The group is composed of collegians from the New York City metropolitan area.

Nutmeg Club

James H. Lavelle, Brookfield, Conn., junior history major at Mount Saint Mary's College, has been selected as next year's president of the Nutmeg Club at the college which is composed of collegians from Connecticut. Other officers are: vice president, G. Charles Roy, Redding, Conn.; secretary, Thomas A. Niedhart, Danbury, Conn.; treasurer, Daniel J. Dolcetti, Darien, Conn. The moderator is Rt. Rev. William F. Culhane, associate professor of philosophy and former vice president of the college. Monsignor Culhane is a native of Newton, Conn.

Junior Class

David M. Davenport, sophomore history major from Annandale, Va., has been elected as the president of the junior class for the coming academic year. Other officers chosen were: vice president, William R. Doyle, Mineola, N.Y.; secretary, Kevin J. Monahan, Yonkers, N.Y.; treasurer, John O. Clarke, Belle Harbor, N.Y.; Student Council representa-

tives, Thomas J. Hipp, Philadelphia, Pa., Robert S. Stellato, Huntington Station, N.Y.; and James J. Kuliesh, Danbury, Conn.; Athletic Association members, David J. Landis, Short Hills, N.J., John F. McKee, Roslyn Heights, N.Y., and Thomas A. Niedhart, Danbury, Conn.; Social Chairman, James A. Caulfield, Chevy Chase, Md.

Covered Dish

Social For Parents

The annual meeting of the Frederick County Assn. for Retarded Children will be held on Monday evening at 6:30 p.m. at Bussard's Roost located on Route 15 south towards Buckeystown.

This will be a covered dish meal to which may special guests have been invited. Members are asked to bring either meat, vegetable, salad or dessert.

The speaker will be Dr. J. J. Noone, Jr., Ed.D., a consultant in mental retardation of the Research Utilization Branch, National Institute of Mental Health.

WCS MEETS

The Woman's Society of Christian Service of Trinity Methodist Church met on May 14 at the home of Mrs. Charles Waddell on Gettysburg Road with 14 members and several guests present. Mrs. C. C. Combs conducted the business meeting. Mrs. George Willhide gave an interesting report on the Zone Meeting held in Williamsport, Md., recently. The Society will be represented by several members at the annual Spring Meeting of the Hagerstown District to be held on May 17 at the Washington Square Methodist Church, Hagerstown. Mrs. Ted Elliott conducted the installation service for the new officers who will take office at the June meeting to be held at the home of Mrs. Charles Brauer.

Church Women

Make Tour

The Tom's Creek Woman's Bible Class and friends made its annual bus trip on May 4. This year the group went to see the tulip gardens at Hershey which due to the hard winter and dry spring, were not quite so beautiful as usual. The group then proceeded to Harrisburg to visit the capitol which is one of the most beautiful in the United States.

It was completed and dedicated by President Theodore Roosevelt on October 4, 1906. The group also visited the state museum adjacent to the south side of the main capitol building. In this museum are found exhibits pertaining to the history of Pennsylvania. After spending quite a while here the group moved on to the Camp Hill Shopping Center where most everyone enjoyed several hours shopping after which they proceeded homeward, stopping on the way for dinner, and also at Gettysburg, where they visited the Wax Museum, which is very interesting and was enjoyed by all.

Those making the trip were: Mrs. Carrie Fuss Long, Mrs. Elizabeth Fuss, Mrs. Ruth Eyler, Mrs. Edith Ohler, Mrs. Iva Ohler, Mrs. Pauline Seabrooks, Mrs. Lola Baker, Mrs. Polly Watkins, Mrs. Cora Moser, Mrs. Emily Moser, Mrs. Carrie Keilholtz, Mrs. Gladys Keilholtz, Mrs. Mattie Glass, Mrs. Emmer Glass, Mrs. Delta Glass, Mrs. Ora Glass, Mrs. Velma Stambaugh, Mrs. Betty Mumma, Mrs. Anna Grimes, Mrs. Anna Margaret Martin, Mrs. Martin Case, Mrs. Lenora Stonieser, Mrs. Annie Valentine, Mrs. Janice Valentine, Mrs. Lucille Valentine, Mrs. Frances Rosensteel, Mrs. Nancy Toms, Mrs. Maude Baumgardner, Mrs. Lois Baumgardner, Mrs. Ethel Baumgardner, Mrs. Marian Baumgardner, Mrs. Elizabeth Amoss, Mrs. Mae Grushon, Mrs. Evelyn Linn, Mrs. Esther Warren, Mrs. Carolyn Usilton and Mrs. Mary Glass.

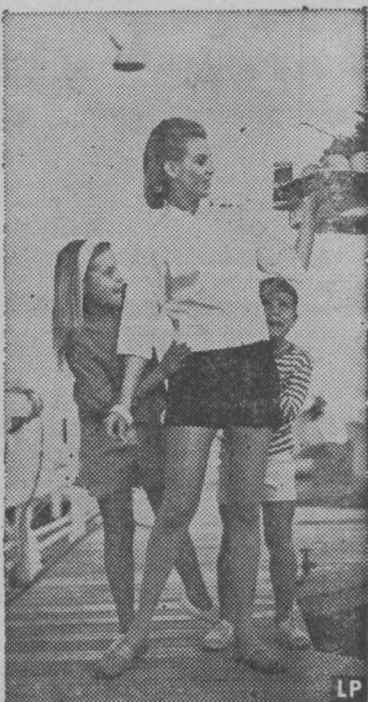

YOUNG DEMS TO MEET

The Frederick County Young Democratic Club will hold a business meeting in the Emmitsburg VFW Annex on Thursday evening, May 23. Louis Goldstein, state comptroller, will be the guest speaker. The public is cordially invited to attend.

Fractures Wrist

Mrs. Raymond Baker, 41, Emmitsburg, received treatment at the Warner Hospital, Gettysburg, Tuesday, for a fracture of the right wrist sustained in a fall on Sunday.

Fifty million participate in amateur art activities—32 million of them play musical instruments, 15 million paint, sketch or sculpt, a million are serious photographers and half-million are amateur actors.

FAMILY SHORT STORY. Mother wears 1963 fashion colors: black and white separates by Paddle and Saddle. Daughter loves Mitey Miss fringed denim shorts. Son is spanking clean in wash-wear knit shirt and shorts by Jantzen.

OUTBOARDS DON'T MUDDY THE WATER
Fishermen who have a habit of getting skunked regularly have lost another alibi.

The old claim that outboards "muddy the waters" to the detriment of fish and fishing has been proved erroneous by scientific investigations in Illinois. This information has been passed on to us by Mercury outboards' fishing experts who are glad that the record has been set straight at last.

Under close scrutiny was Lake Bloomington in the center of the state. Medium-sized, about 550 surface acres, it was subjected to heavy fishing pressure, particularly on weekends.

In checking silt-content records which have been maintained daily since 1931, marine biologists could find no evidence that outboards "stirred up the bottom" as is sometimes charged. They were able to detect no difference in degree of turbidity between days when boating usage was great and when it was light.

Murkiness that reduces light penetration and kills microscopic plants and animals, upon which fish feed, is caused by natural phenomena, the authorities said. Wind storms, silt-laden runoff and seasonal temperature changes which circulate bottom water produce turbidity—not boats and motors. Despite this academic proof, Mercury sagely predicts that this old alibi won't be buried overnight. After all, a guy has to think up some excuse for coming home empty handed.

100 YEARS AGO

CAPITAL OF MISSISSIPPI CAPTURED BY GRANT

By Lon K. Savage

The fast-moving army of Federal Gen. Ulysses S. Grant, on the warpath like never before, raged through central Mississippi 100 years ago this week, causing death and consternation to defending Confederates. Grant defeated the Southerners in four battles in five days, storming into Jackson, the capital of the state, and captured it, then turned on his primary target 50 miles away—Vicksburg, the Confederacy's last important stronghold on the Mississippi River.

The week started with Grant and his rapidly growing army deep in Confederate territory—half way between Vicksburg and Jackson, with Confederate troops on both sides and an angry population everywhere in the state.

There was action every day. It started May 12 when Gen. James B. McPherson, leading one of Grant's corps, ran into 5,000 Confederates near the little town of Raymond. The Federals immediately deployed and attacked, and the heavily-outnumbered Confederates retreated with a loss of more than 800, including 400 prisoners. McPherson lost fewer than 450 men.

Grant Turns

Hearing of McPherson's victory, Grant fired off orders to his corps commanders to move out fast, and headed east for Jackson. Next day, the Federals swarmed across country, burning bridges and skirmishing every mile. At dawn on the 14th, in a heavy rain, Grant's army swarmed in on the state capital.

Gen. Joseph E. Johnston, the Confederate hero who commanded all Confederate troops in the area, had arrived at Jackson the day before—the 13th. With only 6,000 troops to defend the capital from Grant's hordes, he entrenched his men for a delaying action and called for reinforcements. It did no good. Grant's army stormed into town in a heavy downpour of rain on the 14th, and Johnston fell back, abandoning the city. Grant and his 12-year-old son, Frederick Dent, rode triumphantly into Jackson with the army, and the United States flag was raised. Grant's losses in that battle had been fewer than 300; the Confederates had lost more than 800.

Grant Turns Again

But Grant hardly hesitated at Jackson. Spending the night in the hotel room that Johnston had vacated, he fired off more orders to his corps commanders: "Turn all your forces . . . make all dispatch" and head for Vicksburg. In less than 24 hours, the army was on the move again, sweeping westward toward the Mississippi River.

Gen. John S. Pemberton, Confederate commander at Vicksburg, was trying to cut Grant's supply line at the time. On the 16th, Grant's men ran into Pemberton's forces at Champion's Hill, charged, and Pemberton fled back toward Vicksburg. Next day, Pemberton made a stand behind the Big Black River, and Grant's men charged again. Again Pemberton retreated, this time losing more than 1,700 men as prisoners.

There was nothing left for Pemberton but to fall back in the Vicksburg defenses, and this he did. Grant's army swept around the city, digging in, and Pemberton was trapped.

Next week: Grant attacks the city.

SPORTS AFIELD

By Ted Kesting

Arrangements aboard any small motorboat are highly important.

KNOW YOUR AMERICA—When the Constitution was written in 1787 there were only 13 States. The drafters of the Constitution saw that the future might bring a need for changes, so they provided for adding amendments. Over the years 23 amendments have been added. The pattern of government planned so long ago for 13 States today meets the needs of 50 States and over 45 times as many people. (ANF)

OLIN MATHIESON

N-82

ANHYDROUS AMMONIA

ECONOMICAL

Lowest cost per pound of Nitrogen. N-82 is the original Nitrogen material from which others are made.

PRACTICAL

Can be applied anytime you cultivate or till your soil—plowdown, preplant or sidedress.

PROFITABLE

Deficiencies of Nitrogen are major limitations in corn yields in most areas. Adequate applications properly balanced with phosphate and potash get higher yields at lower cost per bushel.

AMMO-PHOS® fertilizers made only by Olin Mathieson, supply Phosphorus and Potash, when needed, in the most available form.

The Upper Room

© THE UPPER ROOM, NASHVILLE, TENNESSEE

Read Acts 5:1-11.

Unto whomsoever much is given, of him shall be much required. (Luke 12:48.)

The above verse speaks to us of our accountability to God. We have been, and always are, recipients of God's love and blessings. Unfortunately, we do not give Him back the best and the most that we have. We tend to become like Ananias and Sapphira; we try to hide from Him what we can give and ought to give to advance His cause.

It is very easy to sing: "Had I a thousand hearts to give, Lord, they should all be Thine." Yet we find it very hard to

Fishermen, traditionally, like an uncluttered interior, lots of open space in which to move easily for quick action. But that's perhaps more reason, not less, all fishermen should be interested in some of the modern arrangements offered by boat manufacturers, particularly in 16-footers and up.

Crafts of different sizes call for different types of arrangements, says Willard Crandall, Boats Editor of Sports Afield Magazine. Inherited from the rowing skiff, the standard cross-seats of the smallest outboard fishing boats form the simplest of boat arrangements. Inexpensive, they brace the hull and provide for the placing of passenger weight just right, from side to side and fore to aft. Ordinarily, these seats are easy to clamber over without your rocking the boat unduly. Other types of seating are not as practical in a boat so small, standing up and walking around is not advisable and the floor often cannot be flat.

Today, larger open outboard boats, ranging from wide 14-footers up to 20-footers or higher, offer a selection of arrangements. Their basic layout is the utility one, with back cockpit completely unfurnished. The front seat is, of course, fixed and is nearly always divided to allow you to step through from the back cockpit.

Varying slightly from the basic arrangement for utility is a cross-seat near the motor, which, while furnishing more comfort, takes up some of the room for action. An interesting variant now coming to the fore and used almost exclusively for fishing in similar, except for a sunken forward deck.

Another popular arrangement is the runabout style. Just about as much decking as is practical is featured; often a twin cockpit type is created. Looks and comfort a faster speeds are the chief points here. Seats are always well upholstered, and your legs, being protected, stay warm.

Rear-facing seats at the forward end of the back cockpit, placed back to back with the front seats, are popular. They often make satisfactory trolling seats, particularly in an inboard, which has no motor to get in the way of a line from up front.

Leading in popularity at present are back-to-back seats so designed that the back of each can come down. Lower the seats on the side opposite the wheel, and a long seat or bunk is formed, on which to stretch out, put rods on or use in 100 ways. Nighttime, or whenever the boat is stopped, the seat backs on the driver's side can also come down to form a similar bunk.

TOTAL PERFORMANCE:

FORD GALAXIE 500/XL SPORTS HARDTOP

IF YOU KNEW WHAT

TINY LUND KNOWS ABOUT FORD DURABILITY...YOU'D BE OUT ENJOYING A '63 FORD

Ask Tiny Lund about Ford durability: He'll tell you how it helped him win America's toughest stock-car competition, the Daytona 500. Lund placed first in a Ford, with four other Fords right behind him for an unprecedented sweep of the first five places. Only the Fords were tough enough to stand the pace.

Greater durability is the reason Ford is able to offer a total-car warranty. Only a true total-performance car could offer as complete a warranty as this—with no strings attached:

"Ford Motor Company warrants to its dealers, and its dealers, in turn, warrant to owners as follows: That for 24 months or for 24,000 miles*, whichever comes first, free replacement, including related labor, will be made by dealers of any part with a defect in workmanship or materials. Tires are not covered by the warranty; appropriate adjustments will be made by the tire companies. Owners will remain responsible for normal maintenance services, routine replacement of parts, such as filters, spark plugs, ignition points, wiper blades, brake or clutch linings, and normal deterioration of soft trim and appearance items."

You can't put a long-term warranty like ours on a short-term car. The '63 Fords have a better warranty because they're built better than any Fords in history. You see evidence of this extra toughness in Ford's outstanding competitive wins this year.

'63 Fords won the grueling Daytona, Riverside, and Atlanta 500's, and the demanding Pure Oil Performance Trials. Only cars with total performance could roll up so many big wins.

Before you buy any new car, test-drive the solid, silent Super Torque Ford. If you haven't driven one lately, you can't really know what a new Ford is like. Remember: If it's built by Ford, it's built for performance... total performance.

*90 days or 4,000 miles, whichever comes first, for the 427 C.I.D. 4V or 8V and 289 C.I.D. 4V engines and related power train components

"OPINIONS FROM THE FIELD"

It may seem a little odd to bring up the subject of hunting at this time but to insure more pleasure and more game in the bag, one must make some plans long in advance of the season. If you hunted locally during the last few years you surely must realize that rabbit hunting is a thing of the past and bird hunting is the only hope for the future. This being the case, let's talk about how you can plan now for a more successful season next Fall and for many more to come.

For consistent success and bag limits in pheasant, quail, and grouse hunting, a good bird dog is a "must". Granted without dogs can flush pheasants during the first few days of the season and they can be killed rather easily. However, many are lost by running away or hiding after they have been knocked from the air. Later in the season they almost refuse to fly and dogless hunters walk past many birds in the course of a day's hunt. With a good bird dog those cripples and reluctant fliers would be caught

or pointed out and this means more enjoyment to the hunter, not to mention the added number of birds bagged. From my own experience I know that over the last ten years dozens of downed birds would have been lost because over 50 per cent of them were alive when retrieved by my bird dog.

Now that I've pointed out the value of a bird dog, let's turn our attention to the dogs themselves. This article was written at this time because more bird dog pups are available now than at any other time of the year. Also, a pup purchased now can be trained well enough this summer and early fall to insure a fair amount of success during the next season. This experience plus the following fall's work, should really put you in the bird hunting "business". What breed of dog should you buy? That's a matter of personal choice but I might mention that the most popular breeds locally would be the English Pointers, English Setters, and Brittany Spaniels. Of the three mentioned, the Brittany Spaniel is rapidly becoming the most popular breed in this area. Although this little dog doesn't have the flash and style of the pointer and setter, his early pointing habits and close range make him desirable, especially to the grouse hunter. Personally, I like a pointer but maybe that's because I wouldn't want to down-

grade my own dog after all the birds she has pointed and retrieved for me.

Available pups can be found by asking local dog owners for their sources and this information should lead you to pups or someone who might know of same. Don't try to buy a cheap pup — buy one from proven gun dog stock with registered blood lines. It will pay in the long run. Thus endeth this epistle . . .

ALL ABOUT BABIES

A Public Service of the
National Baby Care Council

Foot Care

By Dr. Joseph Lelyveld
Chairman, National Foot Health Council

Feet are made to walk on. Babies have a reluctance about walking, but as the old saying goes: "One must crawl before he can walk." So, logically, babies crawl until they can walk. Babies do make sense, at times. Parents have to do most of the thinking for their babies — and that thinking should include concern about the problem of walking.

At first a baby should be encouraged to crawl, but not to try walking too soon. Nature eventually takes her course. When an infant's muscles, balance and confidence grow strong enough, he will stand and walk of his own accord. There never should be an effort to force early walking. If a baby stands or walks too early, it may cause weakening of legs and feet.

When a baby gives you his own green light about his readiness to walk, be prepared with soft-soled shoes, and be sure he is provided with socks. Some pediatricians feel that mercerized cotton socks equalize the temperature of a child's feet and help body circulation.

It is extremely important that booties and first socks be properly fitted. They should be large enough to avoid any pressure on the soft, developing foot structure. One-size stretch socks, supposed to fit children of several foot sizes, can restrict a baby's foot as it grows, and cause the child's toes to curl under.

The proper sock for a child's foot is one that extends a good half-inch beyond the longest toes. Many mothers prefer moisture-absorbing dune mercerized cotton yarn.

First-step shoes, as well as walking shoes, should be at least three-quarters of an inch longer than the toes. That's about the width of your thumb. They should be wide enough so that you can pinch the leather slightly with your fingers over the top of the toes.

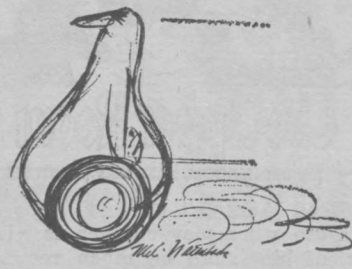

Every foot has its own growing timetable, but most size changes occur every one or two months up to the age of six. Watchfulness on the part of parents should be a kind of rule in regard to shoes.

Foot growth and shoe sizes should be re-checked every few months to allow for expansion.

Both of the child's feet should be measured, and the longest and widest measurements accepted as the correct size.

If you think your child is de-

HANDS THAT HELPED SAVE A LIFE

The operator answered the signal—only to hear the incoherent mumbling of a child.

She and her supervisor listened patiently until they understood that the youngster had burned herself badly. Then, she hung up without giving her name or address.

Holding the line open, the operator called the man on the Test Desk. With another man's help, he traced the number through the Dial Office. An ambulance was quickly sent to the address.

Meanwhile another operator stayed on the line, questioning the child when she came back on. Once she had secured a neighbor's name, the operator called and asked her to go to the child's aid.

Within minutes, help was by the side of the eleven-year-old girl.

That morning, she had missed her school bus and returned to her empty home. Her clothes became ablaze when she backed into the fire she had started in the fireplace.

The Golden Key

What kind of a key is it that is required to unlock the golden era, a period of undiluted prosperity and economic well-being for all? It is obvious that we need more jobs, in order to wipe out the present unemployment and to provide the thousands of new jobs that will be required by our advancing population, particularly the youth who are reaching employment age. It is estimated that we will require from 50,000 to 60,000 new jobs each week to take care of new people entering the labor force and to replace jobs taken over by machines.

But how, in a free nation, do we get the jobs? The fate of the American way is dependent upon the success with which this problem is solved. Private enterprise cannot just wave the hand and make jobs. The men who run business and industry do not have that kind of control over the situation, and neither does the government. The way to more jobs is through more markets. Lots of careful planning and hard work will be required in advertising and selling, and as success is apparent here, another secret will be revealed.

How To Get Lower Prices

The route to greater markets is lower prices. That has been the history of our system of mass production. Henry Ford found that everytime he was able to lower the price of his cars his potential market jumped by the thousands. But today we face keen foreign competition in almost every field. Foreign goods are making inroads in all markets, in America and abroad. We have never before experienced foreign competition to this extent, and we have not yet learned how to compete with it.

How, then, can we turn the key to more markets by building better products at lower prices? Well, we are doing it by automation. These technological advances plus efficient merchandising are right now bringing prices on consumer durable goods to their lowest levels in five years. This price advantage has occurred while the average wage level in U. S. factories was climbing to a record \$2.45 per hour, 15 per cent higher than in 1958.

The Real Key

But there is a way to achieve lower prices that has not been very well explored, and this, we believe, can become the golden key that will unlock a bountiful future. Although they have not been in a position to say much about it, many of the nation's top industrial leaders believe that productivity could be increased by as much as 20 per cent just through understanding, good will, and the cooperation of employees. What a won-

derful challenge they have, together with the unions in their plants, to see whether this can be done.

A production increase of 20 per cent experienced without added costs would make this whole economy zing! In most cases this alone would put American goods back in the markets at home and abroad. Tax revenues would be adequate. There would be more national wealth and jobs for everybody. Americans, already the greatest consumers in the world, would have more and live even better than today. Communist societies would tend to lose their glamor.

How To Win

Why have we not worked harder to see what can be done through mutual understanding? Possibly we have been too busy tooling up for production, as well too busy boosting the wage levels. For fifteen years following the war, the warehouses of the world were empty and production was needed. Now the picture has changed. Foreign markets are more nearly saturated, their own know-how has improved, and they are even seeking and finding markets in America.

We still can enter the Golden Age if: 1. Understanding and good will can be achieved. 2. Wage increases can be kept in line with productivity increases. 3. The fruits of automation and efficiency are fairly divided between stockholders, the buying public, and the employees, and 4. Markets can be regained to make good jobs plentiful with no reduction in wages. Lacking these we can increase unemployment, become entangled in labor-management strife, and finally kill the goose that lays the golden eggs. Then we will be forced into socialism and mediocrity for everybody, with finally nothing left to divide but poverty.

Wheat Referendum Tuesday, May 21

Approval of marketing quotas for the 1964 wheat crop in the May 21 wheat referendum will mean price support at two levels, William L. Dudley, Chairman, Maryland Agricultural Stabilization and Conservation State Committee, pointed out this week. The national average support prices for wheat will be \$2 per bushel for "certificated" wheat and \$1.30 per bushel for "non-certificated" wheat.

According to the Chairman, the certificated wheat on a farm—that eligible for the higher price level—will be the number of bushels in the farm's marketing allocation. This allocation represents the farm's share of the estimated wheat need for domestic use during the marketing year and for a portion of the estimated exports.

Generally, the farm marketing allocation will be 80 per cent of the farm's normal yield times the farm allotment, but it may not be more than the farm's normal yield times the planted acreage. The normal yield will be the adjusted average yield for 1958-62. Mr. Dudley said that, prior to harvesttime, each participating producer will receive from the ASCS county office a marketing card showing the number of bushels of certificated wheat for his farm. Buyers will record their purchases of such wheat on this card. Producers will be able to market certificated wheat at a price reflecting the higher level of support.

If a producer does not have enough market wheat to match the marketing certificates for his farm because of crop failure or use of the wheat on the farm, the certificates may be redeemed at 70 cents per bushel at the ASCS county office. This represents the difference between the higher price support of \$2 and the lower support of 1.30. Unused certifi-

cates cannot be transferred to another producer.

As in the past, wheat price support will be made available through loans on farm- and warehouse-stored wheat and through purchase agreements. Certificated wheat will be eligible for price-support loans at a national average of \$2. Wheat in addition to the certificated wheat which is produced on a "participating" farm will be eligible for a loan at the county support level, reflecting the national average price of \$1.30 per bushel.

Any such "noncertificated" wheat from a participating farm may be sold on the market; fed to livestock, or used for seed. Market prices for this wheat are expected to reflect the lower level of support.

W. S. King, Manager of the Hagerstown Social Security District Office said this week that applying for your social security benefits two or three months before you retire is a good step to take. Retirement from many years of working involves a great many details to be attended to at the last minute. It's best not to leave social security till then. King said that his office can help speed your first check if you apply a little ahead of time.

Applying early means you will get your social security benefit check soon after you retire. Your benefit will arrive when you need income most—after the familiar pay check has stopped.

Several months before you retire, you should call the social security office, REgent 9-3232, to see what proofs to bring with you when you go in to apply for your benefits. You may be asked to bring proof of your age, proof of marriage or your last tax return or a W-2 form showing your wages. The social security office can tell you what you will need. Details peculiar to your particular case can be discussed and decided.

Even if your are not retiring, Mr. King said that his office would like to send you a pamphlet explaining the highlights of social security. If you are at least 62, it is extremely important to know about reduced benefits payable at that age. There

Bonanza BUYS IN

Late Model CARS

Always A Good Selection

ON THE SPOT BANK FINANCING

So. Potomac At 10th
WAYNESBORO, PA.

is a good deal to know about social security options that might apply to your own situation. At age 65, benefits can be paid in full if you earn less than \$1200 a year. And even if you earn considerably more than \$1200 a year, some benefits may be payable. Don't delay. Phone or go into the social security office at 59 North Cannon Avenue before you retire. They'll be able to answer a lot of questions for you. "Am I entitled to benefits?" "How much?" What "about my wife and children?" These are only a few of the matters they can clear up for you. They'll make sure you don't lose any benefits to which you are entitled.

Your Personal Health

Artificial Respiration

There are many physical conditions that can cause breathing to come to an abrupt halt, but the most common of these is drowning. The real tragedy of the many deaths from drowning each summer is that many could have been saved if someone nearby had known how to apply artificial respiration.

The cardinal rules of artificial respiration are simple:

Start immediately. Don't wait for anything. Send someone for help, but don't wait for the ambulance. It will probably be too late.

Keep it up. There are cases on record of breathing starting again after a lapse of many minutes, when the rescuer kept steadily at work forcing air in and out of the lungs.

Special courses in lifesaving, including artificial respiration, are offered by the American Red Cross and other groups each spring. The trained rescuer is better equipped to save a life. But an untrained amateur may save a life.

Most first aid experts today favor the mouth-to-mouth method of artificial respiration.

First clear the air passages by drawing the tongue forward with your fingers. Place the victim half way between a face-up and side position, tilt the head well back to insure a clear air passageway. Take a deep breath, place your mouth over the victim's mouth, and breathe into his lungs until you see his chest rise and feel the lungs expand. In mouth-to-mouth breathing, pinch the victim's nostrils shut while breathing into his lungs. Remove your mouth and let the victim exhale, applying slight hand pressure between the ribs and naval to expel all air. Repeat the cycle 15 times a minute. You may cover the victim's mouth with a single layer of a clean handkerchief.

Remember: Start immediately. Check the mouth for obstructions. Loosen clothes and keep the victim warm, but don't delay artificial respiration to do this. After the victim revives, be ready to resume respiration if breathing halts again. Don't give up unless you're positive the victim is dead.

If you're called on to help in a rescue, keep calm and move rapidly to try to get the victim breathing again as soon as possible.

OUTDOOR SPORTING TIPS

Save Your Life Kit

Here's an idea for a pocket-size kit that might get you out of a jam. Can you think of any other items that ought to be added, Whistle (for signaling both day and night if injured); small steel pocket mirror (can signal to aircraft); dental floss (its toughness gives it all these duties—fish line, thread to sew tear in light cloth, extra shoelace, tourniquet. Shear Pin

Outboard motors run a long

long time these days and it may be you have one of the models that still uses shear pins. If so, NOW is the time to see that extra pins are taped to the handle. If you like adventure, wait until you break your last and only pin one evening far from home. That's the world's worst time to think of a replacement.

Retriever Tip

A good dog keeps a memory map of an area in his mind as he works. But you'll need more help in nailing down a point of known reference while you hunt for a down bird. A good way is to walk to the kill area and leave your hat or coat or scarf high on

a conspicuous branch (or where you can be sure you won't lose it). Then move out your search in ever-widening circles.

Anti-Burr Treatment

Here's one for owners of long-haired dogs as the burr season comes upon us. Try rubbing Fido's fur down with petroleum jelly before he goes afield. Particularly sousé ears, legs, underbody and tail. You'll find the burrs comb out easily at the end of a day in the field. Since oil is odorless, it in no way affects dog's nose.

Drive carefully—think of your children when approaching mine.

ORDER NISI ON SALES
No. 20258 EQUITY
In the Circuit Court for Frederick County sitting in Equity.
May Term, 1963

Amos A. Holter, Assignee of Robert Roland Saylor and Flora Blanche Saylor, his wife, Assignee of Ann G. Roger, Surviving Mortgagee of Charles E. Shorb, widow

On Petition

In the Matter of the Report of Sales filed the 6th day of May, 1963.

Ordered, That on the 1st day of June, 1963, the Court will proceed to act upon the Report of Sales of Real Estate, reported to said Court by Amos A. Holter, Assignee in the above cause, and filed therein as aforesaid to finally ratify and confirm the same, unless cause to the contrary thereof be shown before said day; provided a copy of this order be inserted in some newspaper published in Frederick County for three successive weeks prior to said day.

The report states the amount of sales to be \$3,000.00.

Dated this 1st day of May, 1963.

BABSON

Writes . . .

BY ROGER W. BABSON

Babson Discusses

TV Possibilities

BABSON PARK, Mass., May

16—I remember, when I was

a youth, what

great news it

was when Mar-

coni the Ital-

ian inventor

sent a signal

across the At-

lantic Ocean—

to Newfoundland. This was

followed by

the use of the Morse Code,

and later by the radio voice di-

rect.

Invention Of TV

The radio was then the inven-
tion of the century and its de-
velopment marked the begin-
ning of a great new industry.
No one then imagined that TV
would come along and develop
into such a great business as
it has become. Sometimes when
I watch TV I wonder whether it
is doing more harm than good;
but the American people will
make only good broadcasts pay
in the end. TV will have the
same "ups and downs" as the
movies have had. Both must
greatly improve to be perma-
nently successful.

But today I wish to forecast
that we are on the verge of
great new developments in TV.
Just now we are using these
same radio and television waves
to transmit not only sound but
pictures—all in action of the
most remarkable kind. Further-
more, we do not need even an
outdoor antenna, as these
waves (which give us talking
and action in pictures) will
pass through the walls of our
houses and the walls of every
castle in Europe and Asia for

thousands of years, without be-
ing used.

What's Coming Ahead?
Just stop for a moment and
think what wonderful things ra-
dio waves are and realize our
debt to Marconi for discovering
them for us. In this column I
am now mentioning only one
more TV development; there
are many more to follow. This
one is the prospect of being
able to press buttons and throw
light or heat into our rooms.
For some time I have been tak-
ing pictures of the sun. Some-
day, I believe, great TV cam-
eras—combined with large mag-
nifying glasses—will transmit
heat and/or light directly into
our homes. This will surely re-
quire a new chemical, and per-
haps special new broadcasting
stations for each community.
These heat and light TV broad-
casts will not be interrupted
by advertising. The cost will be
added to our gas or electric
bill. Special eyeglasses may be
needed to use in rooms so heat-
ed or lighted; but I will not dis-
cuss such details now.

Watch For Other Changes
Edison's incandescent light
bulb made obsolete the kero-
sene lamps such as my mother
used to trim and clean every
morning. Think what the du
Ponts did to the silk worms of
Japan and the Orient, manu-
facturing synthetic materials
from a few chemicals. Charles
Hall, a poor chemistry teacher
at Oberlin College in Ohio, dis-
covered a way of making alu-
minum from clay, and sparked
the present billion-dollar alu-
minum industry which now man-
ufactures goods used in every
household. Then along came Dr.
Einstein, unlocking the great
power of the atom, which un-
fortunately is not being used
extensively for peacetime pur-
poses. In order to get this
atomic power we are now using
the mineral uranium which was
considered worthless 50 years
ago.

lishment of these corporations
would result in intense specu-
lation. Many of the new cor-
porations would pass through
bankruptcy, but the stocks of
a few would become very val-
uable. We should remember
that there were once 200 dif-
ferent automobile companies in
the U.S.A., which have finally
been reduced to only about five.
I well remember when Henry
Ford took ten years to raise
his first \$100,000; but when he
got started the built 15,000,000
"Tin Lizzies" and put the hors-
es, buggies, and wagons out of
business.

Watch For Other Changes

Free Power From The
Sun Or Sea Water
Now further developments are
on the way and it may be safe
to say that anything could hap-
pen. The two biggest events
will be securing power direct
from the sun, and getting it
from sea water by breaking
this water up into its compo-
nents, hydrogen and oxygen.
This latter is surely coming
some day. The earth is now
three-fifths surrounded by free
water. What then will happen
to the price of gasoline? But
greater than all is the power
of same religion to change the
hearts of men and women of
all nations, races, and creeds.
Oh, I wish I were a young stu-
dent today!

Airman Reassigned

LACKLAND AFB, Texas—Air-
man Fred L. Hawk, son of Mr.

and Mrs. Earl C. Hawk, R2, Tan-
eytown, is being reassigned to
Amarillo AFB, Texas, for tech-
nical training as a United States
Air Force administrative special-
ist.

Airman Hawk, who enlisted in
the Air Force a short time ago,
has completed his initial basic
military training here.

The airman is a 1961 gradu-
ate of Emmitsburg High School.

Integrity, responsibility, accu-
racy and leadership are what
makes a newspaper a vital com-
munity force, according to a com-
mittee of the Associated Press
Managing Editors which under-
took a long-term study to deter-
mine criteria for a good newspaper.

Facts, Fads and Fancies

FACT The most lavish film ever
made was the 1959 produc-
tion of "Ben Hur." It cost \$15
million, had 425 speaking
roles, a cast of 25,000 and
the largest set ever built—18
acres!

FAD The 3-D movie fad reached its peak in 1953 — then
declined. Audiences grew tired of putting special
glasses on and taking them off, straining their eyes
— and ducking the stones and arrows that seemed
to be flying at them from the screen.

FACT Americans are seeing
more and more movies
on TV. At home, they
can sit back, relax, and
enjoy America's star re-
freshment, Four Roses.
Just a few pennies more
buys this long playing
favorite.

FANCY Greatest film fanciers are the
Irish people. They go to the
cinema more often than any
other people in the world — an
average of 18 times a year per
person.

The Nicest Things
Happen To Our Customers

Did you ever notice how it is with some families?
They always seem to have the money to go off on
the most exciting vacation trips, buy and furnish
the nicest homes, give their children the best edu-
cations. Often the answer is not found in the size
of their income, but what they DO with it! By
systematically saving part of it, they manage to
have "what it takes" to enjoy the best things of
life. When they save at the Farmers and Mechanics
National Bank (as thousands do) their money earns
3½% interest per annum.

AMAZING
DEMONSTRATION!

WITH THE NEW
WINKLER LP*
*LOW PRESSURE
OIL BURNER

A PRODUCT OF STEWART-WARNER

Before you say "It can't be done," see this demonstration of a
Winkler LP Oil Burner—see why it's completely different.
Conventional burners are frequently oversized to prevent noz-
zle-clogging troubles—hence waste excess heat up the chimney.
The Winkler LP can be sized exactly to your heating require-
ments . . . because it operates on low pressure and has a non-
clog nozzle. You'll see it burn crank-case drainings, unrefined
oil, oil and water mixture—all without nozzle clogging. That's
why this burner ends service troubles.

CLOG-PROOF TURBA-NOZZLE
Eliminates costly service
calls. Guaranteed 10 years.

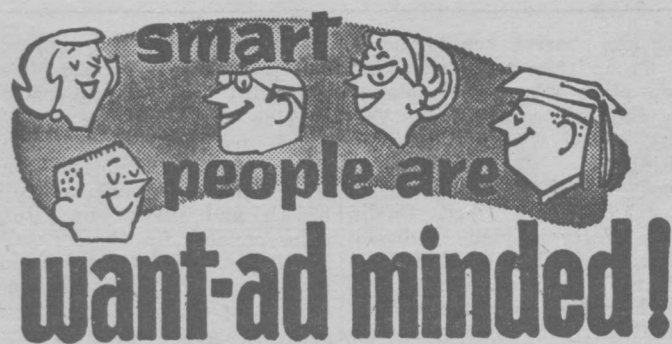

NEW HEAT-KEEPER
Automatically stops draft
through the burner during
"off" cycle . . . holds heat in
furnace or boiler.

NOTICE TO BIDDERS

The Board of Education of Frederick County, 115 East Church Street, Frederick, Maryland, invites bids for Heating and Plumbing work at Liberty Elementary School, Libertytown, Maryland. Specifications and proposal sheets may be obtained at the Board of Education Office. Sealed bids will be received at the Board of Education Office until 2:00 P.M. (DST) May 24, 1963.

The Board of Education reserves the right to reject any or all proposals and to waive informalities.

BY ORDER OF THE BOARD OF EDUCATION OF FREDERICK COUNTY.
JAMES A. SENSENBAUGH
1t Secretary-Treasurer

Laurel Track
Readies For Opening

LAUREL, Md.—Training operations opened officially last week at Laurel Raceway, pioneer harness track in the State of Maryland which this year will be the first of the Free State meet tracks to stage a 32-night meet. Trotting and pacing under the lights gets going here on Monday, June 3, and will continue until Tuesday, July 3. This is Laurel Raceway's sixteenth year of operations.

Hundreds of horses began vanning in last week from points south, north, east and west, responding "wonderfully" to the early training season, according to President Dick Hutchison Jr.

First to be signed in by Stable Area Boss Tom Peverly were the Cohanzyck Stable, the Goodwyn Stable, Pete Dill and his crop, the Whitney Mansfield Stable and a contingent of Gerhard Eisenstaedt's horses.

Eisenstaedt, ruddy-complexioned skipper born in Berlin, Germany, where he drove trotters as an apprentice for a couple of years before coming to the States in 1948, has pacers Herb C., Keen's Dan and Fair Virginia and trotters Patiently and Timaron. He's in from Rockingham Park.

Big Harry Veale has the Cohanzyck Stable horses, all pacers, including Bower Bohemia, Babe Bohemia, Flashy Mite, and a pair of promising two-year-olds, Put Put Putney and Yankee Beau, the latter a well-bred Solicitor colt from the famed Charlie Keller farm.

The brothers Goodwyn, James & Ingram, have among their 15 horses on the grounds Billy Harris, Jimmy Pan Dillon, Jet Jimmy, Jet Maid, Jet Forbes, Jet Lynn, Lady Streak and Mr. Streak.

Pete Dill, in from Freehold, N. J., where he was training his horses, has a stable of eight including Chockyotte Dream, Victory Holmes and Hal Wayne.

The Mansfield Stable of six includes Billy Jim Joe, Camden Star, Boss Man and Esma D., the latter a winner of 12 in 19 last year.

Highlights of the Laurel Raceway meeting will be the time-honored Reading Futurities for two-and-three-year-olds of both gait; two \$7,500 Atlantic Seaboard Championship Series dashes; and a string of specially designed stakes for the "unsung heroes" of trotting and pacing.

Baby Shower

A surprise baby shower was held Tuesday evening in honor of Mrs. Robert Ridenour, given by Mrs. Mark White, Mrs. Laurence Topper and Mrs. Donald W. Creager. Those present were: Mrs. Daniel Topper, Mrs. Thomas Shorb and Linda, Mrs. Michael Boyle, Mrs. Robert Koontz, Mrs. Donald Topper, Miss Lois Hart-dagen, Miss Judy Topper, Miss Arlene Lingg, Miss Agnes Scott, Mrs. Herbert White, Mrs. Maurice Fuss and Bonnie, Mrs. David Long, Mrs. Hilda Hemingway and Johnny, Mrs. Harold Scott and Karen, Mrs. Ray Ridenour, Miss Marian Ridenour, Mrs. Kea Ridenour, Mrs. Thomas Ridenour, Mrs. Henry Hilton, Mrs. James Otto, Mrs. Earl Draper, Mrs. Thomas Wolfe, Mrs. Elmer Bollinger Jr., Mrs. William Wastler, Miss Linda Humerick, Mrs. Willard Weikert and Mary Virginia. Those sending gifts but unable to attend were: Mrs. William Keene, Miss Lois Rice, Miss Carolyn Orr, Miss Patricia Lingg, Miss Marie Kankasky, Mrs. Chester Zentz, Mrs. Charles Ungar and Mrs. Paul Finneyfrock. Many beautiful and useful gifts were received by Mrs. Ridenour and refreshments were served by the hostesses.

League Endorses
Nursing Privileges

The Maryland League for Nursing has endorsed the recommendation of the Heart Association of Maryland that properly trained registered nurses be permitted to start closed-heart and lung resuscitation on patients whose hearts may unexpectedly stop beating, and continue those efforts until the doctor comes.

This endorsement, the first of any Maryland nursing group, was announced by Mrs. Mary S. Price, President of the League, in a letter to James R. Jude, M.D., Chairman of the Heart Association's Cardio-pulmonary Resuscitation Committee.

The technique of restarting the heart beat by specific regular compression of the breast plate was first developed by John Hopkins investigators three years ago. Combined with artificial ventilation of the lungs, the resuscitation method has saved the lives of numerous patients throughout the country.

Training programs for physicians and nurses in hospitals have been offered by the Heart Association of Maryland, and the League's endorsement was taken with the knowledge that each medical institution must decide itself whether to train nurses in the technique or not.

Training of hospital personnel is considered top priority, Dr.

Highway Fatals
Show Increase

Eleven persons were killed on Maryland highways last week according to the weekly survey published by the Maryland State Police.

Six of those killed were drivers; three were passengers; and two were pedestrians.

Alcohol was a contributing factor in four of the deaths; speed in six; and "driver error" was present in all but one of the fatalities.

"This week's fatalities emphasize again," pointed out Colonel Carey Jarman, Superintendent of the Maryland State Police, "that no person should operate a vehicle on the highway unless he has complete control of that vehicle. It is difficult for the average driver to safely maintain an excessive speed on a straight stretch of road and the problem becomes increasingly difficult when the operator is forced to negotiate a sharp curve. It should be obvious, also, how much the element of alcohol adds to this potential hazard."

"Posted speed limits are not arbitrary speed limits," continued Colonel Jarman. "They are determined only after careful and prolonged studies of the nature of the road, the general traffic conditions, and the capabilities of the average safe driver. A driver who exceeds these speed limits always endangers his own life and the lives of others."

Mounts Downed

The Mount St. Mary's College baseball team dropped its 12th and 13th decisions in 14 starts when it lost to Western Maryland 10-5 last Thursday and was edged 8-7 by Towson on Saturday. The games were both played on the local field.

Mother Seton
PTA Elects

Mother Seton School Parent-Teachers Association elected officers at the regular monthly meeting, Thursday evening, May 9. The new president is Mrs. William O'Donnell of Our Lady of Mount Carmel Parish, Thurmont. Mr. William Sanders of St. Anthony's will serve as vice president, Mrs. John S. Hollinger of St. Joseph's Parish was elected secretary and the new treasurer is M/Sgt. Ernest Edwards of St. Rita's Parish, Blue Ridge Summit.

The new officers take over immediately and will meet in executive session on June 13 to organize the Executive Board and appoint standing committees for the coming school year.

Outgoing president, Pierre Fontaine announced that each parish has named a co-chairman for the annual Fall Bazaar. They are Mrs. Edwin Miller, Mrs. James Phelan, Mrs. George Danner and Mrs. Fred Sprinkle.

Mr. Fontaine also reported that a letter of information describing the organization, aims and general activities of the PTA has been prepared by the Historians, Mrs. Gordon Parks and Mrs. Robert Marshall. This letter will be printed and distributed to the membership before the September meeting.

A delightful program honoring Blessed Elizabeth Ann Seton was presented by pupils of the first, fourth and fifth grades.

Refreshments were served by the ladies of St. Anthony's and Our Lady of Mount Carmel Parish.

League Endorses
Nursing Privileges

The Maryland League for Nursing has endorsed the recommendation of the Heart Association of Maryland that properly trained registered nurses be permitted to start closed-heart and lung resuscitation on patients whose hearts may unexpectedly stop beating, and continue those efforts until the doctor comes.

This endorsement, the first of any Maryland nursing group, was announced by Mrs. Mary S. Price, President of the League, in a letter to James R. Jude, M.D., Chairman of the Heart Association's Cardio-pulmonary Resuscitation Committee.

The technique of restarting the heart beat by specific regular compression of the breast plate was first developed by John Hopkins investigators three years ago. Combined with artificial ventilation of the lungs, the resuscitation method has saved the lives of numerous patients throughout the country.

Training programs for physicians and nurses in hospitals have been offered by the Heart Association of Maryland, and the League's endorsement was taken with the knowledge that each medical institution must decide itself whether to train nurses in the technique or not.

Training of hospital personnel is considered top priority, Dr.

Jude explained, because cases of cardiac arrest are more likely to take place in a hospital. The person most likely to be on hand to initiate resuscitation is the nurse.

"Speed is essential," Dr. Jude said, "because the brain cells cannot live without oxygen for more than 4 or 5 minutes. It is therefore critically important to have the cooperation of nursing groups who can help in the training of nurses in this resuscitation technique, so that they can apply it promptly whenever cardiac arrest takes place."

According to the Heart Association recommendations to nurses, once the physician arrives, it's his responsibility either to order continuation of resuscitation or abandonment of the effort. "This is a medical judgment depending on the condition of the patient, and sometimes continued resuscitation is contra-indicated," Dr. Jude said. "But, to put it simply, if resuscitation has been started, there is hope for restoration of life. Without resuscitation, there is no hope."

Seniors Honored

John and Juliet Flowers, seniors at Frederick High School, were given academic recognition, along with other seniors, at the annual Senior Scholarship Achievement Banquet held at the school Tuesday evening. The affair was sponsored by the Frederick Civic Club.

John and Juliet, who formerly lived in Emmitsburg, are the children of Mr. and Mrs. Warren Evans, Frederick, Md.

Christian Science Service

A Bible Lesson on the subject of "Mortals and Immortals" will be read this Sunday at all Christian Science churches and societies.

Golden Text: "This corruptible must put on incorruption, and this mortal must put on immortality." (1 Cor. 5:53).

Relater readings from the Christian Science textbook include these lines: "Either here or hereafter, suffering or Science must destroy all illusions regarding life and mind, and regenerate sense and self. The old man with his deeds must be put off." ("Science and Health with Key to the Scriptures," by Mary Baker Eddy, p. 296).

Attends Styling Show

Dian Small, owner of Dian's Beauty Shop, Emmitsburg, recently attended Bob and Sid's Styling Show, held at the Penn-Harris Hotel, Harrisburg. Among the many artists was Geno Schibelli, internationally known for his styling method and fantasy hair styles.

Clarical, Rox and Caryl Richards, stylists, performed during the day showing new colors. Wigs were also on display. The event ended with a dance and door prize awards.

You don't have to be a human skyscraper to get elected to the White House. Fewer than a third of the 34 U. S. Presidents were six feet or taller.

Personals

Miss Monica Warthen, Towson, is spending four days with her parents, Mr. and Mrs. Eugene Warthen, West Main Street.

Daniel Saffer, Baltimore, spent the weekend with his mother, Mrs. Marie Saffer.

Visitors during the weekend at the home of Mr. and Mrs. Guy Baker Sr., included Mr. and Mrs. Jerome Peters and family, Towson, and Mr. and Mrs. Charles Baker and family, Camp Hill, Pa.

Mr. and Mrs. Clarence Stanback and family, Baltimore, spent the weekend with Mrs. Stanback's parents, Mr. and Mrs. Louis Topper and family.

Mr. and Mrs. William Greco, Myersville, visited over the weekend with Mr. Greco's parents, Prof. and Mrs. D. G. Greco.

Mr. and Mrs. Daniel Hemler, Gettysburg, visited with Mrs. Hemler's parents, Mr. and Mrs. Maurice Fitz, Sunday.

Mr. and Mrs. William Hopkins and daughter, of York, spent the weekend with Mrs. Hopkins' parents, Mr. and Mrs. Clarence Wachter.

Mr. and Mrs. Donald McClell and family, of Frederick, visited with Mrs. McClell's mother, Mrs. Elmer Lingg and family, Sunday.

Mr. and Mrs. William Rosensteel, of Baltimore, visited during the weekend with friends and relatives in town.

Mr. and Mrs. Francis Glass and family, Taneytown, visited with Mrs. Glass' parents, Mr. and Mrs. Bernard Kelly, Sunday. Mr. and Mrs. Francis Goulden, Gettysburg, visited with their son and daughter-in-law, Mr. and Mrs. Sterling Goulden, and daughter,

Sunday.

Mr. and Mrs. Leonard Kessler, Hanover, visited with Mr. Kessler's parents, Mr. and Mrs. James Kessler, Sunday.

J. Ward Kerrigan has returned home from a visit with his son and daughter-in-law, Mr. and Mrs. Joseph Kerrigan and family, Libertyville, Ill.

Mr. and Mrs. Fred Sherman and family, of Baltimore, visited with Mrs. Sherman's parents, Mr. and Mrs. John Orndorff, Sunday.

Mr. and Mrs. James Nickoles and family, Westminster, and Mr. and Mrs. Ralph Long and daughters, Rocky Ridge, visited with Mr. and Mrs. Paul Keepers Sunday.

TO MAKE YOUR SUMMER MORE COMFORTABLE

Here is everything you could possibly need and want

for your porch, summer living room, gardens, patios,

sunrooms and recreation rooms. Much of it can be

used all year 'round. All of these groups and many

more are priced with modest budgets in mind, so that

they're good investments besides.

WENTZ'S

BALTIMORE STREET IN GETTYSBURG

LEGISLATIVE REPORT from Annapolis

By GOODLOE E. BYRON
Frederick County Delegate

One of the fastest growing activities in the United States is outdoor recreation. More people, higher incomes, more leisure and greater mobility are among the factors that have caused this rapid growth. This trend may be traced through many indicators: increased construction in commercial recreation facilities, increased sales of fishing tackle, hunting equipment, and outboard motors, and above all, the increased number of visits to parks.

Much has been written about Maryland's last remaining natural beach area, Assateague Island; but public confusion still exists. A decade ago, a portion of this island which lies just South of Ocean City was sold by developers to the public. However, over the years the anticipated bridge which would have opened this natural area of beaches and dunes to development was never built. Today the long-awaited bridge has been proposed by the Maryland State Roads Commission. Yet, today, those who are concerned about the recreational demands of our growing population

for additional state and national parks urge caution in opening Assateague to the mainland.

What are the alternatives? What can be done to protect the interests of both the individual property owners and the vacationing public of the future? These suggestions have been made:

1. Allow the entire island to develop without planning.
2. Develop a portion of the island and create a State or National Park on the balance.
3. Create an Assateague Island State or National Park.

There appears to be little doubt that whatever the future holds for the island, it will be connected by bridge with the mainland. And when accessible, there will be considerable pressure for residential development by the individual property owners. Although continued delay merely postpones the inevitable decision, it appears that the State Roads Commission has exercised wise discretion in moving on the bridge project. Perhaps there is still time for preservation of the area for the future.

Thurmont Hires Town Planner

The Thurmont Town Planning Commission met recently to authorize an \$11,010 planning program for the town under the supervision of former County Planner Arthur E. Hatton, who is now the Thurmont Town Planner. The Federal government will pay \$7,340 of the amount allotted for the planning program with the town to supply the balance of \$2,470 within the next two months.

The plan, already approved by the Maryland State and Federal governments, calls for \$9,500 for Mr. Hatton as a technical consultant, \$1,200 for state administrative advisors such as Kenneth H. Creveling Jr., a planner from the State Planning Department, \$220 for project inspection fees and \$90 in traveling expenses.

The \$11,010 planning project will be completed within one year, according to former County Planner Hatton.

The planning project will begin with questionnaires which all Thurmont residents will receive

with their next light bills.

Taneytown Election Date Nears

A public meeting for nomination to the office of town councilmen will be held in Taneytown May 20, and three incumbents have signified that they plan to run for reelection.

Town officials seeking another term on the council are Edwin Baumgardner, George Naylor Jr., and Neal Powell. Additional candidates may be named at the May 20th meeting, which is scheduled for 7:30 p.m. in the town hall.

Taneytown's Mayor and Council held their regular meeting Monday night. Included in business discussed at that time was the following:

A meeting with representatives of Taney Annex was set. Representatives will also be present from the Chamber of Commerce to discuss the difficulties in Taneytown's expanding her city limits.

Miss Marshall Contest Winner

Margaret Ellen Marshall, St. Joseph's High School, Emmitsburg, won first prize in the Junior division of the annual sewing contest sponsored by J. C. Penny Co. in Hanover. Margaret competed with girls from eleven area schools to bring back an engraved trophy for her school and a cash award for herself.

Entries were judged several weeks ago when the participants modeled their dresses before a panel of three judges, all Home Economics teachers. Garments were judged on both fit and workmanship. Margaret's entry was a suit of light green linen-like fabric with a harmonizing blouse of dacron-cotton print. All materials used by the contestants were from Penny's yard goods department.

Scouts Sponsor Oxposition; Seek Support

At a meeting in the Frederick YMCA Sunday afternoon, Mr. George A. Zeigler, Oxposition Chairman, heard reports from committee members on the progress of the Oxposition to be held at the Frederick Fair Grounds June 8.

Events will start with a parade of 700 Cub Scouts, Boy Scouts and Explorers of the Francis Scott Key District at 10 a.m. from the National Guard Armory, Bentz and Second Streets, to the Fair Grounds, where a whirlwind of activity will take place in the afternoon. In eight acts, including Indian dances in authentic costumes by the Montgomery Order of the Arrow, contests, games, races, tumbling and an "invasion of Mars by Cub Scout Earthmen," spectators will be able to see a first hand account of what the Scouts have been doing during the past year.

Since the theme of this year's Oxposition is "Physical Fitness", a demonstration by some of this country's outstanding track stars is planned. Invitations have been sent to Debbie Thompson and Tammy Davis, Frederick girl sprint artists, to put on an exhibition race, and to the two Olympic long distance run aspirants from Fort Detrick, Pfc. Larrie H. Sweet and Sp5 Ralph Buschmann, to give an exhibition run.

District Scouts are now canvassing the District in an all-out effort to sell tickets between now and June 8. Tickets entitle holders to a roast ox sandwich and to admission to the grandstand to view the activities. Proceeds of the sale will be for the support of the local and regional Scouting program.

SCHOOL MENU

The school lunch menu at the Emmitsburg Public School for the week beginning May 20, has been announced as follows:

Monday: Chili con carni, cheese wedges, crackers, corn bread and chilled fruit.

Tuesday: Franks on buttered roll, potato salad, glazed carrots, cherry jello and crumb cake.

Wednesday: Fruit juice, submarines, potato chips, iced graham and ice cream.

Thursday: Meat loaf in tomato sauce, green beans, corn relish, apple sauce and raisin squares.

Friday: Tuna salad on lettuce, rolled wheat muffin, parsley potatoes, harvard beets and assorted desserts.

per, Ann Umbel and Linda Wortz, were also celebrating their birthdays in May and presented Mrs. Watkins with a fan made from a handkerchief by one of the group at a previous meeting, and a vase of flowers.

Mrs. Lindsey photographed the girls together with Mrs. Watkins after which the troop enjoyed cookies served by Mrs. George Wilhide.

Brownies are taught to be friendly and share and they so enjoyed their fellowship with Mrs. Watkins and her friends, all there

helping her observe her birthday.

The Troop then returned to its meeting place where they played games and had refreshments. The meeting closed with the Friendship Ring.

Troop 1300 has 21 Brownies. They are: Nancy Carr, Sheila Chatlos, Patty Eyer, Deborah Gillespie, Linda Topper, Ann Umbel, Mary Ann Rice, Vicky Valentine, Margaret Wagerman, Valerie McCleaf, Anna Antolin, Ivanka Antolin, Vida Antolin, Deborah Watkins, June Hardman, Jean Anderson, Debra Rohrbaugh, Linda Wortz, Winifred O'Brien, Nancy O'Brien and Laura O'Brien.

Mental Health Grant Renewed

For the past several years the National Institute of Mental Health has been awarding to schools offering basic collegiate programs in nursing grants to

assist in integrating psychiatric and mental health principles in the total learning experience of nursing students. The purpose of these grants is to prepare the students to work more effectively with the emotional aspects of health and illness and to care more capably for the mentally ill. In 1958 the Saint Joseph College Division of Nursing was the recipient of such a grant for five years from the National Institute of Mental Health. Recently the college president, Sister Rosemary Pfaff, was notified that the Advisory Mental Health Council had recommended continued support of the Saint Joseph College Division of Nursing undergraduate psychiatric-nursing program. This approval is for another five year grant which will be come effective Sept. 1, 1963 and by which \$16,289.00 will be appropriated annually to the Division of Nursing. This grant also provides for a scholarship for one student.
