BY ABIGAIL

Important meetings are being scheduled in the last ditch stand to have a new consolidated public high school built half-way between Emmitsburg and Thurmont. The nature of these meetings must for the time being, remain undisclosed. However those of you who are interested in the project should keep in touch with Town Officials or the Jaycees. There are any number of influential citizens here who to date haven't lifted a finger in behalf of their community in the fight. We are at a loss to fathom their apathy but for some reason or another they have remained aloof from the activities. One of the most important aspects of the struggle is the financial end. Contributions have been trickling in but much more is needed to climax the lengthy struggle to retain our public school, in this section of the County. Won't you please send in your contribution today? After all, it's your school and your community.

As I wrote some weeks ago, efforts are being made to provide recreational facilities for the youth of Emmitsburg, regardless of race, color or creed. Good progress is reported and several meetings between the laymen and clergymen of all churches have been held. I am hoping that in the not too distant future I will be able to report to you that the joint venture will be in operation very soon . . . in fact in time for this summer.

With our own local election just two short weeks away the scene is relatively quiet. There are no candidates for the two jobs and there is some doubt whether or not the two present officials care about seeking office again. Apparently the fast pace and the work load created by all these new improvements going on in Town at the present, has deterred our citizenry from wanting the positions. In just eight days from today we'll have the answer. Candidates for office must file by April 18. If there are no candidates, under law, present incumbent officials must serve until a successor is appointed. Never in my recollection, has a situation of this type developed where there were no candidates and officials had to be appointed and not elected. Perhaps the story will change in the next 10 days . . . we certainly hope so.

New Mount Catalogue Published

Guy A. Baker, Jr., Mount Saint Mary's College Registrar and Director of Student Procurement, announces that beginning this month the college catalogue will make its debut in a bright new format and as a two-year model.

The newly-styled copy will feature the Mount's blue and white colors on its unornamented cover. In style its 130 odd pages will be designed not as a piece especially for the enjoyment or interest of the professional educator, but rather for the appeal and taste of the prospective student and his parents.

The new format will be essentially a selling piece and only secondarily a reference source for the present students and faculty. All phases of college life at Mount Saint Mary's have been covered, not only in an easily readable text but also graphically in a picture story.

In collaboration with outside specialists in the field, the Dean of Studies, Rev. Carl J. Fives; the College Treasurer, Rt. Rev. Cillian F. Culhane; the Director of Public Relations, Dean J. Sprague; and Professors John J. Dillon, Jr., and Bernard S. Kaliss of the English Department, worked to produce this new catalogue. Copies may be obtained by writing to the Registrar's Office at the college.

Sunday Bowling Tourney Set

C. A. Harner, proprietor of the Recreation Center, announces a bowling tournament will be held Sunday starting at 1 p.m.

An entry fee of \$6.50 has been announced and prize money will be distributed 100% the management advises.

The Tournament is open to all men and women bowlers and the winners will be chosen according to their total pinfall. The handicapped will be 80% of 135 scratch.

Local Cancer Drive Now Under Way

All preparations are complete for the 1964 Crusade of the American Cancer Society, held annually during the month of April. Locally, the Crusade is carried out by the Frederick County Chapter, Maryland Division of the American Cancer Society.

At an evening meeting recently, captains of the County teams of workers were briefed and provided with collection kits for the several hundred workers along with printed instructions for carrying out the Crusade.

The team captains and others in charge were briefed at length by Randolph B. Rosencrantz, the 1964 Crusade general chairman. His remarks were amplified by those of Miss Hilda A. Haller, and Grayson H. Bowers, county chairmen.

Particular emphasis was placed on the fact that this year's Crusade is to be carried out on strictly a house-to-house basis. Business and industrial organizations will be asked to contribute as a whole but there will be no employee solicitation.

An innovation being employed during this year's Crusade will be the mailing of letters to all registered voters in the county, briefly acquainting them with the facts of cancer and the utilization of funds received.

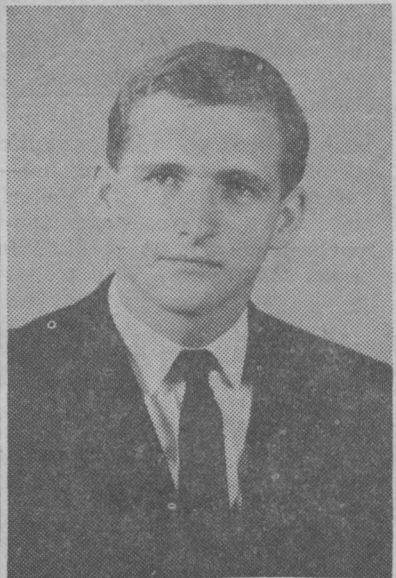

It was particularly pointed out that this was not to be construed as constituting double solicitation. Rather, it is intended only to give an opportunity for persons to contribute in instances where a worker has not been able to contact them at their homes. An envelope is enclosed with the letter which may be used to mail their contribution to the local cancer headquarters if they so desire.

It was also pointed out that Crusade workers may turn in their collections to the Farmers and Merchants National Bank or any of its numerous branches. The bank's officials have kindly agreed to contribute this service and to tabulate the results.

Emmitsburg chairman is Arthur Elder who will be assisted by the following solicitors:

Mrs. Joseph Haley, Mrs. Rita Byard, Mrs. Fred Wolfe, Mrs. Paul Beale, Mrs. Ernest Rosensteel, Miss Ruth Shuff, Miss Elizabeth Rowe, Miss Betty Tokar, Mrs. J. Harry Scott, Mrs. John S. Hollinger and Clyde W. Eyley.

Florida Graduate

Paul L. Beale, Jr., son of Mr. and Mrs. Paul L. Beale, R2, will receive the degree of Bachelor of Science in electrical engineering, April 18, from the University of Florida. During Beale's matriculation at the university he had attained the Dean's List six semesters.

For two summers young Beale held the position as junior engineer at Cape Kennedy. Beale is a graduate of Thurmont High School, class of 1959 and upon graduation will accept a position with the International Business Machine Corporation in Oswego, N. Y..

Senior Class Selects Play

The Senior Class of Emmitsburg High School has chosen the motion picture comedy, "Pillow Talk," as its theatrical presentation of the year. In the roles made famous by Doris Day and Rock Hudson are Carolyn Umbel and Craig Stoops. The remainder of the cast is made up of approximately 20 Seniors, and as of this date most of the roles have been cast. Mr. Robert Holmes is serving as director of the play, which is to be presented on Friday, May 8. It is hoped that the community will respond favorably to this lively sophisticated comedy.

Many local residents will remember this scene which dates back to approximately 1925. The picture was taken a few years after the dirt streets had been concreted and the Old Fountain was in full glow and flow. Back about 1930 the Old Fountain was removed and replaced by a modern traffic blinker light. The Fountain was installed on N. Market St., Frederick, in front of the WFMD Radio Station, where it still rests. The building to the left which now houses the American Store was then operated by the late Isaac Annan, over 40 years ago. Note tree-lined W. Main St.

Annual French Day Scheduled At Local College

French will be the order of the day at St. Joseph College as part of the college's annual French Day program on Sunday and Monday, April 12 and 13. The program theme will center on Le Treteau de Paris, and students will pause in their round of extra-curricular activities to honor the troupe on its visit to the Emmitsburg campus during its 1964 tour of American universities.

The cast will be received by the French Ambassador at a luncheon at the French Embassy in Washington on Sunday, following which they will be guests of Saint Joseph's in Emmitsburg. The Omega chapter of Pi Delta Phi, the French National Honor Society, will host the troupe at dinner in Dubois Hall, and will hold a reception in their honor Sunday evening in the Student Center. French students have been appointed hostesses to dine with and entertain each member of the cast. Members of the press have been invited to meet and interview the troupe at the Sunday reception, to which the public is also invited.

Scheduled for Monday morning is a tour of the campus and a visit to Mother Seton's shrine.

The French dramatization of Jean Anouilh's trial of Joan of Arc, "L'Alouette," will be presented by Le Treteau de Paris on Monday evening at 7:45 p.m. in dePaul Auditorium. Luce Vincent, Parisian actress, will portray Joan. Other major roles include Claude Richard as Beaudricourt, Richard Clark as Warwick, Monique Derrier as Agnes Sorel, Monique Sainet as the Queen, Pierre le Remeur as the Inquisitor, Jean-Claude Barbier as La Hire, and Francois Marie as Brother Landvenue.

Faculty and students of area college and schools have been invited to attend the performance.

Sister Margaret Flinton, chairman of the Modern Language Department and moderator of Omega chapter of Pi Delta Phi, is coordinator of the French Day program, and senior Catherine Kochanski of Baltimore, is chairman. Assisting are Barbara Welsh, '64, of Baltimore, chairman of the dinner committee, and Mary Jo Roos, '64, also of Baltimore, chairman of the Sunday evening reception.

The public is invited to attend the Monday evening presentation. Reservations may be made through the Modern Language Department of St. Joseph College.

Food Sale

The Cub Scout Mothers of Pack 1060 will sponsor a Bake Sale Saturday, April 18, in the Fire Hall, starting at 10 a.m.

On sale will be the usual delectable foods and the public is cordially invited to attend. Net proceeds will be used for Troop activities.

Post Good Scores

Among the local youngsters posting respectable bowling scores recently at the Emmitsburg Recreation Center are: Dave Harbaugh, aged 8, 80-95-108; Bobby Burrier, 8, 67-65-76; Wayne Long, 9, 71; and Debbie Joy, 11, 73.

Nickel forms the base of cathodes in practically all small and moderate size radio and TV tubes.

St. Joseph College Faculty Grants Are Announced

Several faculty members at Saint Joseph College, have been awarded National Science Foundation and Department of Health, Education and Welfare grants for summer research programs.

Joseph Solomon, Ph.D., sponsored by a National Science Foundation grant, will research in microwave spectra under the Summer Research Participation Program at Tufts University in Medford, Mass. Dr. Solomon, professor of chemistry at St. Joseph's, is also consultant chemist with the Coal Research Bureau, School of Mines at West Virginia University.

John W. Richards, Ph.D., professor of physics, has received a renewal of a grant awarded by the College Teachers' Research Participation Program affiliated with the National Science Foundation to conduct research in nuclear chemistry at the University of Maryland. This is the third summer that Dr. Richards has received an NSF grant for his work.

Sister Denise Eby, associate professor of chemistry, will carry on full-time research during the summer recess at Providence Hospital in Washington, D. C. and at the Catholic University of America in conjunction with Dr. Leopold May, associate professor of chemistry. The project, supported by a grant from the U. S. Dept. of Health, Education and Welfare, will explore the effects of anti-cancer agents on cell membranes. Maryann Fogarty, '65, will serve as full-time assistant to Sister Denise on the project.

John Clark, mathematics instructor, has received an NSF grant for work in numerical analysis at the University of California (Los Angeles). Under study will be matrix computation, numerical solutions for differential equations and linear programming. Mr. Clark, graduate of Mt. St. Mary's College, is a candidate for master's degree from Lehigh University and is in course at Catholic University for his doctoral degree.

Thomas M. Leonard, instructor in history, will attend the American University School of International Service for course work for his doctoral degree in American Foreign Policy.

Mr. and Mrs. Louis Bean, Thurmont, were dinner guests of Mr. and Mrs. William Topper and family, on Sunday.

Mount Evaluation Completed During Week

On Sunday, April 5th, a team of educators arrived on the Mount Saint Mary's College campus to conduct a ten-year evaluation review for the Middle States Association of Colleges and Secondary Schools.

The team is headed by Dr. Edward J. Mortola, president of Pace College, New York. Other members of the team include: Robert J. Alexander, acting chairman of the History Department, King's College, Wilkes-Barre, Pa.; Howard E. Bosley, Dept. of Certification and Accreditation, State Department of Education, Baltimore; Victor Cromwell, chairman of the Science Department, Trenton State College, Trenton, N. J.; Rev. Philip E. Dobson, S.J., Dean of the School of Business, Fordham University, New York; David M. Graybeal, Associate Professor of Church and Society, Drew Theological Seminary, Madison, N. J.; Very Rev. Msgr. John H. Harrington, Professor of Library Science, St. Joseph's Seminary and College, Dunwoody, Yonkers, N. Y.; Rev. James B. Horigan, S.J., Dean of the Graduate School, Georgetown University, Washington; Richard L. Lohr, Business Administration, Music, St. Bernard College, St. Bernard, Ala.; and Brother Casimir Stephen, Academic Vice President, Manhattan College, New York, N. Y.

In addition to their personal on-the-scene observation of the institution and its internal workings, the team will be aided in its deliberations by the Self-Study Report recently completed by the members of the Mount's Administration and Faculty.

The team will make a study of all aspects of the Mount: Academic, financial, physical plant, faculty, student personnel, library, research, etc.

This visit will culminate in a formal report by the Middle States Association on the strengths and weaknesses of the Mount in meeting its stated objectives as a four-year Catholic liberal arts college for men. From these findings the Administration will be able to plan for the greater future of Mount St. Mary's College and Seminary.

The American juryman's idea of a proper verdict in a personal injury suit is governed by the defendant's ability to pay—he doesn't deal out justice, he merely levies an assessment.

Church To Show Movie Sunday

"Question 7," a timely and tension-packed motion picture of conscience under test in East Germany, will be seen here in a special showing on Sunday, April 19, 7:30 p.m. at the Parish House of the Lutheran Church.

The title "Question 7" refers to a questionnaire that children in East German public schools are forced to answer before they can continue with advanced studies. Only those whose answers are politically reliable are chosen. Thus the questionnaire becomes a supreme test for a boy who is forced to choose between what is easy and expedient and what is right and honorable.

The incidents depicted in "Question 7" are true. They are based on interviews with thousands of refugees who have fled to West Germany and hundreds more still remaining behind in East Germany. It is a motion picture which has won 22 major awards and has been selected "best film of the year" by the National Board of Review. The National Legion of Decency has strongly recommended it to every moviegoer.

Prominent European actors play roles in "Question 7", directed by Emmy award winner Stuart Rosenberg, who directs many of the nighttime television dramas. The film was produced by Lothar Wolff of Louis de Rochemont Associates. It was shot on location in West Germany within sight of the East Zone guard towers and in Berlin before the Brandenburg Gate.

Wins Scholarship

Miss Susan Martin, daughter of Mrs. George Martin, R2, Emmitsburg, and a senior at Emmitsburg High School, has been awarded a teaching scholarship from the Maryland State Department of Education. This scholarship is awarded on a competitive basis and the recipient is selected according to scores received on the teaching scholarship examination given in November.

Miss Martin is also the recipient of the Frank C. Marion scholarship and another special scholarship from Western Maryland College, where she has matriculated. Miss Martin plans to prepare for a teaching career in history.

Miss Martin has not only been an honor student at Emmitsburg High School, but has also been active in many extracurricular activities. She has been editor of the school newspaper, Yearbook editor, class secretary, member of the All-State Chorus. She is also active in church work, serving as a Sunday School teacher, member of the church choir, and past-president of the Youth Fellowship.

School Registration

Registration for new students entering St. Joseph's High School in September will be held Sunday, April 12, from 9 a.m. to noon and from 3 to 5 p.m. Students must be accompanied by their parents and present their baptismal certificates.

Sodality Schedules Trip To Capital

A bus trip to be sponsored by the Sodality of St. Joseph's Church has been scheduled for May 24, it has been announced.

The trip will be made to Washington where the group will visit the late President Kennedy's grave in Arlington National Cemetery and also visit the St. Francis Monastery and catacombs. All members of the parish are cordially invited to make the trip which will be made by Rosensteel Bus Service on May 24, leaving here at 8:45 in the morning. Tickets for the trip are selling for \$2.10, and reservations should be made immediately.

Town Election Near; No Candidates File

Many Town problems were aired at the regular monthly meeting of the Mayor and Commissioners held Monday night in the Town Office. Chairman of the Board of Commissioners John S. Hollinger, presided over the meeting with a full board present.

Discussed at length was the proposed rate increase in local water service but no definite action was taken. A suggested rate of \$12.50 per quarter has been discussed but not passed yet. It is the general consensus of the Board that water rates will have to be elevated sometime this year but the exact figure has not yet been decided.

With the completion of the natural gas line from Greenmount to St. Joseph College the Emmitsburg Gas Co. is preparing to install the feeder lines throughout the Town and work is expected to be completed sometime this summer. Despite unfavorable weather the company installing the new water system has made excellent progress and in a few weeks will have completed the mountain section of the project and then will commence the job of installing mains through the streets in Town.

Mrs. Yonnie Baker, Town Clerk, reported late this week that to date no applicants for Town Offices had applied and that the deadline for filing was 10 days prior to the election which will be held April 28. The clerk also advised that approximately 500 voters are registered and eligible to cast ballots for this election.

To be elected this year will be the Mayor, for a two-year term, and one Commissioner for a three-year term. To date both incumbent officials, Mayor Ralph F. Ireland and Commissioner John S. Hollinger, are non-committal as to whether or not they will seek reelection.

To qualify for a Town Office one must be a resident of the town for the past 12 months and must be a propertyowner. To be eligible to vote one must be 21 years of age or over at the time of the election, April 28, and must have resided within the corporate limits of the Town for at least 12 months prior to April 28. The registration of local voters will continue in the Town Office until April 18.

Will Strive To Return Bible To School

On Saturday, April 11, 1964, citizens of Emmitsburg will join with thousands of American across the Nation to make known their desire to return the Bible and prayer to the schools.

They will be participating in "Project America," a nationally organized plan to coordinate hundreds of simultaneous local, one-day petition drives. Youth and students in hundreds of cities coast-to-coast will go into shopping and business centers nearest them to obtain support in favor of a Constitutional amendment.

"Project Emmitsburg," the local section of "Project America," will be conducted in the United Church of Christ, from 10 a.m. to 2 p.m. on Saturday, April 11. At that time, youth signatures will be sought on a national petition to Congress, and adult signatures on individual postcards to Congressmen.

"Project America" has been seen as the most comprehensive project to date to secure the right to maintain the United States "under God." It is being sponsored by International Christian Youth-U S A, a national organization of Christian youth, which has already gathered a quarter of a million youth signatures on the petition to Congress.

The confusion created by the Supreme Court's decisions which ruled against the Bible and prayer in the schools, makes a Constitutional amendment necessary to clarify and settle the issue at stake.

Rep. Frank J. Becker, of New York, who is leading the fight in Congress, has introduced H. J. Resolution 693 which would guarantee the right of voluntary prayer in any public institution or place. Altogether 170 proposals have been made in Congress.

The separation of church and state does not in any way mean the separation of God from the state.

Mrs. and Mrs. Noonan and family, Philadelphia, spent a recent weekend with Mrs. Noonan's aunt, Miss Naomi Harbaugh.

Important Meeting

A meeting of all parents of this community has been scheduled for Sunday afternoon at 3 p. m. in St. Euphemia's Hall.

At this meeting future plans for the town's Youth Recreation Program will be mapped out! Parents and other interested individuals are cordially invited and urged to attend. The Youth Program involves children of all faiths and pastors will make a special announcement from pulpits Sunday morning. Operational committees from all local churches were formed at a meeting last Sunday and now is the time for the parents to do their part. Poor attendance at Sunday's meeting could well harm and perhaps do permanent injury to the future of this program.

Homemakers Meet Here

The Emmitsburg Homemakers Club met at the home of Miss Ann Codori on March 19. There were 13 members and two guests, Mrs. Clarence Frailley and Mrs. Pauline Seabrook, present. The meeting was opened with the reading of the Homemakers Creed. Mrs. Robert Fite, vice president, conducted the meeting.

Mrs. Luther Cregger gave the directors report and read a clipping on the annual meeting. Mrs. Cregger was a delegate to the meeting. Mrs. B. P. Ogle and Mrs. Paul Beale served as hostesses, and Mrs. Floyd Lewis, Mrs. C. A. Harner and Mrs. Cregger made a patriotic motif for a table decoration at the annual spring meeting held at Hood College.

Mrs. Charles Harner modeled her 1923 outfit she wore at the spring meeting. Mrs. Victor Fiery gave a report on the 150th anniversary of the Star-Spangled Banner.

Mrs. Luther Cregger gave a demonstration on "Know Thyself—Line and You." She stated you buy and choose patterns to hide your faults. Figures have five types and you should choose clothing for your type.

An afternoon of games was held April 9 at the home of Mrs.

John Humerick.

The next club meeting will be at the home of Mrs. Luther Cregger on April 23. The meeting closed with Mrs. Lewis Higbee, cultural leader, reading a poem, "Home."

Following the meeting refreshments were served by the hostess. A St. Patrick's Day scheme was used.

National Library Week Observed

In observance of National Library Week the Emmitsburg Library would like to extend a cordial welcome to any person who is not a patron of the Emmitsburg Library. It costs nothing to belong to the long line of readers at the local library.

The deadline on the art contest is here and the judging will take place on Saturday, April 11, at 10 a.m. in the library.

Pictures will be displayed in the library. This week passed has been designated by Governor J. Millard Tawes as Maryland Art Week. Governor Tawes has urged all schools throughout the state to exhibit and enjoy creative art. The theme of the week is Creative Art—Imperative in a Democratic Society.

Circulation for the month of

March shows a definite increase in the reading populace. More than thirty books were borrowed through county services, headquarters in C. Burr Artz Library, Frederick. Anyone desiring special services is asked to drop in on Wednesday afternoon from 2:30-5:00 when the county co-ordinator is on duty with the librarian. Total children's books circulated 332, total adult and young adult books, 208. This brings the total circulation to 540 books for the month of March.

Members of the Library Board, the Librarian and Assistant Librarian will attend the Book and Author Luncheon in Frederick on April 14 at the Francis Scott Key Hotel. The speaker will be Ralph Reppert, a writer for the Baltimore Sunpapers.

MOUNT ENROLLMENT FIGURES ANNOUNCED

As of April 1st, the enrollment at Mount St. Mary's College for

the academic year, 1964-65, has been projected as approximately 775 students, according to Rev. Carl J. Fives, Dean of Studies.

Of this number nearly 240 prospective freshmen have been accepted to fill the ranks of the Class of 1968. This number is in ratio of 1-to-4 of the applications received from high school seniors.

The present senior class will graduate 180 students. These, counting losses through graduation and other dropouts, the college must provide space and facilities for an enrollment that is larger than that of last year.

In the projection of these enrollment figures the college is forced to consider not only the acceptance of qualified applicants for academic reasons, but also must consider these acceptances in view of the rising costs of private education.

Each year the number of qualified high school seniors applying

for admission to the Mount increases. As in most institutions the number of qualified applicants is no longer a problem. According to Father Fives, the problem now is the cost of educating these students and maintaining the small school environment as set forth in the Mount's objectives. Such matters as the initial cost and the maintenance of facilities, the ratio of student to faculty member, the number of faculty members, etc., all must be considered in detail.

The problem is further complicated by the high school senior who applies to and is accepted by several colleges and who fails to notify the colleges ruled out of his consideration. He then becomes a meaningful number to all institutions concerned.

Nickel is used to produce the amethyst, gray and green colors in glass for fine crystal tableware.

WILL REPRESENT LOCAL COLLEGE

Thomas M. Leonard, M.A., instructor in history at St. Joseph College, is representing the college at a conference sponsored by the American Academy of Political and Social Science in Philadelphia today and Saturday. The

conference theme, "Africa in Motion," will bear on contemporary Africa, her place in the present day world.

To protect modern radar receivers from electronic interference, a fine wire fence of a nickel and copper alloy is placed around the radar antenna.

100 YEARS AGO

BEATEN FEDERALS END RED RIVER CAMPAIGN

By Lon K. Savage

Nathaniel Banks, the former Massachusetts governor who now was a general in the Federal army, was deep in Confederate-held Louisiana 100 years ago this week. He slowly was beginning to realize that he also was deep in trouble.

Banks, against his own judgment but following orders from Washington, had led 25,000 Federal soldiers and a fleet of steamships up the Red River a month earlier in an effort to wipe out Confederate resistance in the Southwest. So far, he had done reasonably well; the expedition had moved about 100 miles up the river, had defeated a Confederate force and had captured the town of Alexandria. But now, things were beginning to look bad.

His army was strung out for 20 miles along a little road through pine woods, heading toward Shreveport. Then, quite suddenly, about 2 p.m. on April 8, the head of his column ran headlong into a line of Confederate troops near the town of Mansfield.

First Battle

It proved disastrous for Banks. For along that line waited more than 10,000 Confederate soldiers, assembled in a V-shaped formation that faced a 1,000-foot clearing and a deep ravine.

Although the Confederates were outnumbered more than two to one, they could pour heavy fire into the Federals as they emerged in the clearing. The Federals could do little but move forward in column onto the battlefield. Thousands of Federal troops, stretching for miles to the rear, could not come forward to help those in front simply because of the traffic jam.

Nevertheless, Banks surveyed the situation and accepted battle.

The two armies skirmished for about two hours, and then the Confederates, under Gen. Richard Taylor, charged. With twice the number of men on the field, the Confederates made havoc of the Federals, and the Union line caved in. By nightfall, Banks' army was in full retreat, minus about 2,000 men who had become casualties. Such was the Battle of Mansfield or Sabine Cross Roads.

Second Battle

Next day, Taylor pursued Banks and ran into a little trouble, himself. Late in the afternoon, he attacked a line of Federals at Pleasant Hill and momentarily broke the Union line. But the Federals, bent upon revenge, counter-attacked, and this time it was the Confederate line that collapsed. Taylor fell back. Such was the Battle of Pleasant Hill.

Taylor's setback at Pleasant Hill allowed Banks to make good his escape. Banks arrived at Alexandria with most of his army, abandoned the campaign and then turned his efforts to the rescue of his navy fleet, now trapped in the river by suddenly falling water. It was only through the efforts and engineering skill of Lt. Col. Joseph Bailey, who built dams to raise the river's water level, that the fleet was able to make its way downstream to safety in the following weeks.

And the campaign came to an inglorious end, with the

Federals having suffered 5,000 casualties to accomplish nothing. Banks—even though he had opposed the campaign from the start—was forced to take the blame and eventually was removed from command because of it.

Next week: Two Confederate victories.

BABSON

Writes

BY ROGER W. BABSON

Babson Discusses

Bull Or Bear Market?

BABSON PARK, Mass., April 9—Many readers are wondering whether the stock market will advance much further beyond the 800 mark which the Dow-Jones Industrial Average has recently succeeded in penetrating. It may be that an extraordinary condition exists, in which we may be seeing two types of markets going on at the same time. That is, a bull market may be co-existing with a bear market. Two Trends At The Same Time

Normally, a bull market is associated with a condition of rising stock prices. During these periods, many stocks participate in the market advance to varying degrees. The current bull market, however, is somewhat of a paradox. Only a handful of stocks have been rising in price. The vast majority are either standing still or losing some ground. This has left many investors disappointed as they watch the Dow-Jones Industrial Average march resolutely to new highs while their own investments have done little or nothing. The reason for this is that the bull market has been largely in high-grade stocks being bought by the institutional-type investors, such as insurance companies, pension funds, and trust funds.

The bear market which exists simultaneously is largely in secondary stocks, and in the so-called glamour stocks which took a terrific trouncing in the last market collapse. For example, the bear market may still exist for electronics stocks and other speculative issues which pay little or nothing in the way of dividends. In the absence of unbridled speculative fervor, demand for these stocks has dried up.

The Same In Real Estate

The existence of divergent trends is not limited to the stock market; it is also apparent in the real estate market. Demand for office buildings, apartments, and good residential developments is holding up well, especially in large cities. Activity is still high and prices firm in these segments of the building industry.

In contrast, hotels and motels

are still sliding in price in many areas. The same applies to farm lands. Those near large cities, and those situated on the side of such cities where the bulk of growth is taking place, still enjoy brisk demand and high valuations. This is especially true of property for shopping centers, industrial and office centers, and good-quality residential developments. However, farm lands too far out remain a drug on the real estate market.

Two Markets For Savings

Many savings and loan associations, particularly in California, are paying 4.85%—a rate well above those permitted commercial banks. These are advertised in newspapers and magazines by the savings and loan associations which seek additional savings money to meet the demand for mortgage money.

In staid old New England, rates for savers run about 1% less than the California savings and loan associations pay. Lowest rates are paid by the savings departments of commercial banks and on commercial bank certificates of deposit; highest rates by the Massachusetts mutual savings banks—varying from 3% to 4 1/4%—and by savings and loan associations and so-called co-operative banks, which average a little higher.

Pay Attention To The Fundamentals

I conclude by emphasizing what I said in the early portion of this column; namely, that two distinct markets are operating at the present time. Hence, it is unwise to argue whether we are in a bull market or in a bear market. These two different types of markets appear to be running along at the same time. Even the "blue chip" label is not a guarantee of sure-fire profits, as the 30 stocks which comprise the Dow-Jones Industrial Average have not all participated in the advance.

Therefore, I urge readers to be very selective in making their investments. Forget about whether this is a bull market or a bear market. Concentrate, instead, on the fundamental factors of quality, growth, and a healthy profits picture. A look at the earnings and dividend records for the past year shows that the stocks which

have enjoyed a bull market have been those of companies that have fared best in a keenly competitive climate and successfully surmounted the grueling host squeeze. These companies have increased their profits and paid out larger dividends. This is no time for careless speculation.

Your Personal Health

Goiter

Goiter is an enlargement of the thyroid gland in the neck. It is usually caused by lack of iodine in the diet.

In the United States in recent years goiter has been greatly reduced by the simple expedient of adding a small amount of iodine to common table salt. In some areas of the country, such as the Great Lakes region, there is very little natural iodine in plants and water. In these areas people are likely to develop goiter unless they add iodine to the diet. The body needs very little iodine, but without a sufficient amount, the thyroid gland cannot produce a necessary substance called thyroxine. The gland thus enlarges in an effort to make up the deficit. As the enlargement continues the neck increases in size, and some times becomes quite large and disfiguring, as well as sometimes causing protruding eyes, increased sweating or nervousness.

Although lack of iodine is the cause of simple goiter, there are other things that can cause goiter growth, such as improper functioning of the thyroid gland or inflammation. Also, there's always the chance that the enlargement signals cancer of the thyroid.

Because of the possibility that something other than iodine deficiency is at fault, self-diagnosis

and treatment of goiter can be dangerous. Your doctor will find out the true cause and will carry out the proper treatment.

If goiter is treated early, it will sometimes shrink or disappear, through proper medications. In some cases, surgical removal may be recommended, or some form of radiation may be used.

Despite iodine's importance as a preventive, it usually won't make a goiter go away once it has started.

Any swelling in the neck that might be goiter should have prompt medical attention.

Spring Clean-Up Time Here

Five times an hour, 120 times a day, an American home is destroyed or damaged by fire starting in and feeding on rubbish.

These figures, from National Fire Protection Association studies, add a compelling reason for making Spring Clean-Up a time for vigorous action.

Maybe you don't have anything you would call 'rubbish' or 'trash'.

around your place. But go up into the attic and take a good, calculating look at any old mattresses, stacks of papers and magazines, discarded draperies and lampshades, and broken-down furniture. Check closets for old clothing. Go over the basement for near-empty paint cans, workbench scraps and oily rags. Don't miss the garage either.

Whatever you call it — rubbish, trash, or clutter—it's all fuel for fire.

Get rid of it, and stay rid of such accumulations.

Then you and the house will likely be around much longer to enjoy that new paint job and spruced-up yard you worked so hard to finish this Spring.

The U. S. Fish and Wildlife Service is investigating a program of planned parenthood for coyotes. Using penned animals, it's been found that estrogen, a female hormone, interferes with normal reproduction.—Sports Afield

More than 60 million pounds of nickel are used each year to improve the properties of cast iron and cast steel.

FORECAST: Hot sales at Ford Dealers

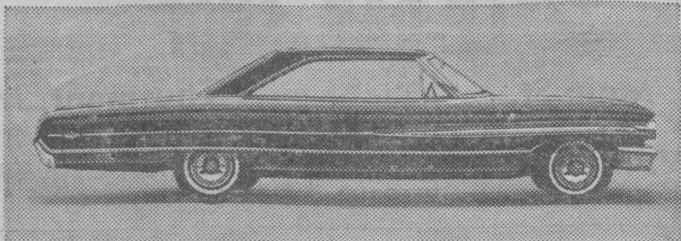

Ford Dealer Total Performance News

Vol. 1

April 1964

GMA

MARYLAND FORD DEALERS SET ALL-TIME SALES RECORD!

Solid, Silent '64 Super Torque Ford. Strongest, smoothest, steadiest car in its class—and by hundreds of pounds!

Total Performance in action!

Ford holds NASCAR's "Stock Car of the Year" title and Motor Trend magazine's "Car of the Year" trophy. Basis for both awards: Ford's Total Performance!

Ford '64 NASCAR leader

With its latest win at Bristol, Ford has taken a big lead in 1964 NASCAR scoring... and in races 500 miles or over, Ford has won an impressive 10 out of its last 11!

Fairlane's hot V-8 Cobra is dominating production sports car racing in the U.S. with the same basic 289-cu. in.

V-8 that is available in all Fairlane models for '64!

Falcon wins two classes in Monte Carlo Rallye

Eight new Falcons were among the 299 cars entered in the tortuous Monte Carlo Rallye. Only 163 of the starters finished—but all 8 Falcons were among 'em! And Falcon won both classes it entered!

Total Performance helps make everyday driving easier, safer and more enjoyable. See for yourself. Test-drive a new Falcon, Fairlane, or Super Torque Ford.

Sales up 23%

"Wow!" is the word here for Ford's popularity. And record sales mean that local Ford Dealers are now offering record savings!

The reasons why What's behind the big surge to Ford? Total Performance! People are hot for the ride, ruggedness and response perfected by Ford in open competition.

Ford has changed Take weight. Ford has 63 more pounds of steel in the suspension, 69 pounds more steel in the frame, greater road-hugging feet overall.

Fairlane offers more Fairlane's the only middle-sized car proved in over 5-billion owner-driven miles. The new, low-priced Fairlane combines 6-passenger comfort with sports-car feel.

Falcon offers more The '64 Falcon is all new—except for its economy. A wider rear tread, new suspension and added insulation give Falcon the plush-est compact ride ever!

ACCIDENT DANGERS RISE IN SPRING

This is a dangerous time of the year accident-wise. Children and adults alike have been more or less "cooped up" all winter and now that spring is here, more and more of them are getting outdoors.

This means that children will be running, walking and playing at unlikely places. Often, they will be playing along our highways. To add to the danger, thousands of persons are now traveling to and from weekend resorts. This increases traffic on the highways and the dangers to our citizens.

During this time of the year, therefore, and actually during all seasons of the year, every motorist must use every precaution to protect lives. A driver cannot be too careful. At this season, too, every motorist should make sure that his car is in good condition from a safety standpoint. A vital part of your car is the windshield wiper. Ineffective windshield wipers multiply the hazards drivers encounter in bad weather. Surveys show a majority of cars a year or more old have ineffective wiping equipment that merely smears or streaks the windshield, or often fails to wipe due to wind-shift. This adds to reduced visibility problems. Sometimes, new blades are needed; in other cases new arms may be required. There are also occasions when it may be necessary to do nothing more than adjust your wipers. All authorities agree that you must see danger in time to avoid it. Can you see clearly to maneuver or stop in time? How long has it been since you checked your eyeglasses or windshield wipers?

The Historical Role Of Markets

The American success story can be characterized as the triumph of expanding markets in a climate of freedom. That is what has happened in America. And it can keep on happening. The full story was told in a thorough and scholarly address by Dr. Ernest L. Wilkinson, recently president of Brigham Young University and presently a candidate for U. S. Senator in Utah. The address was given at Freedom Forum XXV recently, and it struck the keynote for the study of "Markets in America's Future" during the three-day seminar.

Beginning with Adam Smith's Wealth of Nations (that other declaration of 1776—an economic one) and coming on down to the present, Dr. Wilkinson outlined the impressive growth and development of the American economy. That big story, in Adam Smith's words, is characterized by the extent of the labor being determined by the "extent of the market." This truth, Dr. Wilkinson pointed out, is by now almost as self-evident as the truth that politically all men were created equal and endowed with the unalienable rights of life, liberty and pursuit of happiness.

Dr. Wilkinson said: "Our past eloquently testifies of the crucial importance of expanding markets. Our present provides evidence of the fruits of expanding markets. Our future, as well as that of perhaps the entire

free world, hinges in no small degree upon how successful we are in encouraging the expansion of tomorrow's markets." That is why he believes we must be as diligent in protecting the forces identified with expanding markets as we are in securing the rights that are considered unalienable by the Declaration of Independence. Both sets of rights, he said, are but two sides—economic and political—of the same coin.

As growth and changes expanded our internal and external trade, the entrepreneur came forth along with accelerating capital formation. Our Rockefeller and Fords have been free to use their genius and serve the new market requirements, combining men, management, and capital. Willingness to adopt new ideas and to experiment was amply rewarded. This expansion, he explained, "has placed great emphasis on individualism and personal achievement, has inculcated a belief in progress and expansion, and has encouraged a spirit of functionalism that has led to a reduction in the cost of getting things done."

A willingness to take risks is the distinguishing difference that Dr. Wilkinson sees in our American Way and the traditional society. "Little wonder that the societies whose markets are the same today as they were yesterday, whose institutions assure that society's work would be done each day very much as was done in the past, whose mores discourage entrepreneurial activity, whose stagnant markets spawn little opportunity for capital formation, provide decade after decade and century after century only a bare existence for the mass of their populations."

He is able to draw some re-

markable contrasts. He lists 23 nations, among them Egypt, Greece, Turkey, and the Philippines, in which the value of all goods produced in each does not come up to the \$16.5 billion of General Motors sales last year. In fact, the GM figure is larger than the 1960 GNP of many

highly developed nations, including Belgium, Denmark, or Sweden.

Soviet Competition

Danger from Russia? Not if we recapture the spirit of adventure and free enterprise and keep on the charted course, rather than degenerate into socialism. The average Russian farmer, he reminded us, produces only enough to feed six persons compared with the American farmer's 27 persons. "With this comparison we should remember the year 1963 as the year when the free farmers of America rejected an authoritarian governmental scheme for the control of the production of wheat, whereas Soviet Russia came to America pleading for wheat exports to feed its population," he said.

"If we are successful in our task of preserving these rights we will blunt both the economic and political challenge of communism. We will provide our burgeoning populations with a rising standard of living, and we will exemplify to those struggling nations now seeking to provide their people with a hope for a better tomorrow, a system which both can secure economic affluence, as well as the dignity and blessing of freedom."

ALL ABOUT BABIES...

A Public Service of the
National Baby Care Council

Losing Interest In Milk

By Phillips L. Boyd
Institute of Food Technologists
Mothers who have put their babies on solid-food diets for the first time may face a common problem: Baby is so fascinated with this new world of eating that he ignores milk. And just a short time ago, it seemed the child would never accept anything but milk.

The answer is simple, say pediatricians. Baby can get his full ration of milk by eating solid foods prepared with milk, such as the popular rennet-custards.

Many pediatricians recommend rennet-custards for just this reason, according to a recent survey. The physicians questioned said they also found the food to be a general nutrition aid.

LEGAL

NO. 3576 LAW IN THE CIRCUIT COURT FOR FREDERICK COUNTY MARYLAND

STATE OF MARYLAND, for the use of DEPARTMENT OF FORESTS AND PARKS, State Office Building, Annapolis, Maryland
PLAINTIFFS

VS.
ROSA P. McAFEE, widow
Foxville, Maryland;
R. HUNTER McAFEE and
NORA McAFEE, his wife,
Foxville, Maryland;
CHARLES C. McAFEE and
HATTIE McAFEE, his wife,
Foxville, Maryland;
THE UNKNOWN HEIRS and
THE SPOUSES OF THE UNKNOWN HEIRS OF REUBEN McAFEE, late of Frederick County, Maryland, deceased.
DEFENDANTS

ORDER OF PUBLICATION

The subject of this suit is to condemn, under the provisions of Article 33A and Article 66C of the Public General Laws of Maryland, certain property belonging to Rosa P. McAfee, widow, R. Hunter McAfee and Nora McAfee, his wife, Charles C. McAfee and Hattie McAfee, his wife, the Unknown Heirs and the Spouses of the Unknown Heirs of Reuben McAfee, for the use of the Cunningham Falls State Park.

The Petition recites that the Plaintiffs constitutes the Department of Forest and Parks; that as such, they are charged, among other things, with the construction and maintenance of forests and parks of the State of Maryland; that they have determined there is a public necessity, and there is, in fact, a public necessity to acquire for the purpose of advancing the aims of forestry, parks and recreation, all that certain property, situate, lying and being about three three-fourths (3 3/4) miles west of Thurmont, along Maryland Route No. 77, in Frederick County, Maryland, for the purposes of the Cunningham Falls State Park, containing 280.91 acres, more or less, said property being more particularly described in said Petition belonging to the said Rosa P. McAfee, widow, R. Hunter McAfee and Nora McAfee, his wife, Charles C. McAfee and Hattie McAfee, his wife, the Unknown Heirs and the Spouses of the Unknown Heirs of Reuben McAfee, late of Frederick County, Maryland, deceased; together, with the buildings and improvements thereon and the rights, alleys, ways, waters, roads, privileges, appurtenances and advantages to the same belonging or in anywise appertaining; and that the Plaintiffs were unable to reach an agreement with the said Rosa P. McAfee, widow, R. Hunter McAfee and Nora McAfee, his wife, Charles C. McAfee and Hattie McAfee, his wife, the Unknown Heirs and the Spouses of the Unknown Heirs of Reuben McAfee, deceased, to purchase the above property and that it is therefore necessary that said property be condemned; that under the provision of Section 372 of Article 66C of the Public General Laws of Maryland, the Plaintiffs are empowered to condemn land in the name of the State for the purpose of advancing the aims of forestry, parks and recreation.

It is thereupon this 23rd day of March, 1964, by the Circuit Court for Frederick County, Maryland, ORDERED, that the Plaintiffs, by having a copy of this Order to be inserted in some newspaper published in Frederick County, Maryland, once a week for four (4) successive weeks before the 25th day of April, 1964, giving notice to the said absent Defendants, the Unknown Heirs and the Spouses of the Unknown Heirs of Reuben McAfee, of the object and substance of said Petition, warning them to be and appear in this Court either in person or by Solicitor, on or before the 26th day of May, 1964, to show cause, if any they have, why a Decree should not be passed as prayed.

3/27/64

Because rennet - custards are made by mother adding fresh, warm but unboiled milk, they are higher in protein and vitamin content than many prepared custard puddings. The survey also found that many doctors recommend them to the mother when the infant anywhere from a few weeks to more than 10 months old—or at an average of 5.3 months of age.

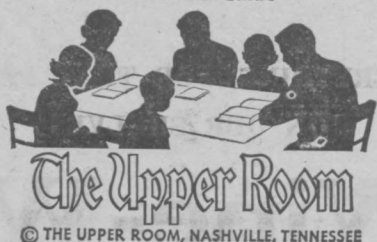

Dr. Henry K. Silver, Professor of Pediatrics at the University of Colorado School of Medicine recommends they should be added to the diet by the time baby is seven months old. He points out that babies "like the pleasant bland flavor of these desserts" and that "they are a useful way of getting the baby to take milk, especially when he loses his desire to drink milk in the ordinary way."

Another feature of this easy-to-prepare food, will be discovered by mother when baby is teething. Baby will find the rennet-custards cool, refreshing and easy to handle in a mouth that is sensitive and often sore.

The baby will appreciate the variety of flavors available: vanilla, chocolate, lemon, orange, raspberry, maple, strawberry and banana. He probably will be tempted too by the pleasant drink that can be made just by stirring a tablespoon into a glass of milk.

TODAY'S Meditation

from
The World's Most Widely Used
Devotional Guide

Read Matthew 28:10-20.
Because I live, ye shall live also. (John 14:19.)

In the midst of a storm, a little bird was clinging to the limb of a tree, seemingly calm and unafraid. As the wind tore at the

NO. 20,588 EQUITY IN THE CIRCUIT COURT FOR FREDERICK COUNTY, MARYLAND

JOHN J. BALTZLEY
Box 186
Frederick, Maryland
VS.
MARY KATHERINE BALTZLEY
4 East Middle Street
Gettysburg, Penna.

ORDER OF PUBLICATION

The Bill of Complaint is a suit to procure a divorce A VINCULO MATRIMONII from the Defendant, Mary Katherine Baltzley.

The Bill recites that the Complainant is a resident of Frederick County, State of Maryland, where he has resided for more than one year last past; that the Defendant is a non-resident of the State of Maryland, whose last known address was 4 East Middle Street, Gettysburg, Pennsylvania; that the parties to this cause were married on the 14th day of April, 1938, at Gettysburg, Pennsylvania, by Rev. Davies, a regularly ordained minister of the Gospel; that as a result of the said marriage three children were born, namely, Terrence Eugene Baltzley, 24 years of age, Donald Lee Baltzley, 22 years of age, and Phyllis Jean Baltzley, 19 years of age; and that the parties to this cause have voluntarily lived separate and apart without any cohabitation for more than eighteen months prior to the filing of this Bill of Complaint, and that the separation between the parties is beyond any reasonable hope or expectation of reconciliation.

The Bill then prays that the Complainant, John J. Baltzley, may be divorced A VINCULO MATRIMONII from the Defendant, Mary Katherine Baltzley, and that he may have such other and further relief as the nature of his case may require.

COURT ORDER

It is thereupon this 12th day of March, 1964, by the Circuit Court for Frederick County, Maryland, sitting as a Court of Equity, ORDERED that the Complainant give notice to the Defendant of the object and substance of this Bill, by causing a copy of this Order to be inserted in some newspaper published in the County of Frederick, once each week for four successive weeks prior to the 18th day of April, 1964, commanding her to be and appear in this Court, in person, or by solicitor, on or before the 19th day of May, 1964, and show cause, if any she has, why a Decree should not be passed as prayed.

ELLIS C. WACHTER,
Clerk of the Circuit Court
for Frederick County, Maryland.
EDWIN F. NIKIRK
Solicitor for Complainant

limbs of the tree, the bird continued to look the storm in the face, as if to say, "Shake me off; I still have wings."

Because of Christ's resurrection, each Christian can look the experience of death in the face and confidently say, "Shake me off; I still have wings. I'll live anyway."

Death can do the Christian no injury. Like birth, it is an incident in life. As birth opens up for a baby the opportunities of life in this world, so death opens up for a Christian a much larger and finer type of life than that which he experiences here in the flesh.

To be able to face the experience of death unafraid, with the assurance of life beyond that experience, is the high privilege of a Christian. It gives new meaning to mortal life.

Prayer

Our Father, while we have the privilege of living here, may we fill each day with things most worthwhile. Help us to make this world a better world because of our living in it. In the name of Christ, our living Redeemer and Master, who taught us to pray, "Our Father who art in heaven... Amen."

Thought For The Day

Is the life I am living worthy of being perpetuated throughout eternity?

Wayne A. Lamb (Kentucky)

Senatorial Stakes At Laurel Saturday

Stakes winners Bupers, Repeating and Ikeya head the nominations to Saturday's Senatorial Stakes at Laurel Race Course. The Senatorial, a mile on the grass, is for three-year-olds and will be worth \$25,000 added.

Nominations for this important three-year-old race total 57, including 20 horses eligible for one or more of the Triple Crown events. Nine of the Senatorial nominees have been named to all three classics, the Kentucky Derby, Preakness and Belmont.

This is the third running of the Senatorial. Viny Ridge won the first, and Hot Dust captured last year's running.

M. R. Frankel's Bupers, dark bay colt by Double Jay out of Bussanda, won the Hibiscus Stakes early this year and has earned more than \$175,000 during his career. Last year he placed in the Pimlico Futurity, Champagne and Cowdin Stakes.

Mrs. Lucien Laurin's Repeating has already won a stakes race at the current Laurel meeting. His victory in the Maryland Derby followed winning performances in

WILLIAM GLENN BREAM
326 East Patrick Street
Frederick, Maryland

vs.
HELEN M. BREAM
248 Chambersburg Street
Gettysburg, Pennsylvania

NO. 20,592 EQUITY
In the Circuit Court for Frederick County, Maryland

ORDER OF PUBLICATION
The Bill of Complaint is a suit to procure a divorce A VINCULO MATRIMONII from the Defendant, Helen M. Bream.

The Bill recites that the Complainant is a resident of Frederick County, State of Maryland, where he has resided for more than one year last past; that the Defendant is a non-resident of the State of Maryland, residing at 248 Chambersburg Street, Gettysburg, Pennsylvania; that the parties to this cause were married on the 25th day of October, 1952, at Uniontown, Maryland, by Rev. Warrenfeltz, a regularly ordained minister of the Gospel; that as a result of the said marriage three children were born, namely, Robert William Bream, 10 years of age, Barbara Helen Bream, 5 years of age, and Mary Ann Bream, 3 years of age; that the parties to this cause have voluntarily lived separate and apart without any cohabitation for more than eighteen months prior to the filing of this Bill of Complaint, and that the separation between the parties is beyond any reasonable hope or expectation of reconciliation.

The Bill then prays that the Complainant, William Glenn Bream be divorced A VINCULO MATRIMONII from the Defendant, Helen M. Bream, and for such other and further relief as the nature of his case may require.

COURT ORDER

It is thereupon this 16th day of March, 1964, by the Circuit Court for Frederick County, Maryland, sitting as a Court of Equity, ORDERED that the Complainant give notice to the Defendant of the object and substance of this Bill, by causing a copy of this Order to be inserted in some newspaper published in the County of Frederick, once each week for four successive weeks before the 18th day of April, 1964, commanding her to be and appear in this Court, in person, or by solicitor, on or before the 19th day of May, 1964, and show cause, if any she has, why a Decree should not be passed as prayed.

the Prince George's and Annapolis Stakes earlier this year.

Ikeya, owned by Joseph R. Helsey, won the George Washington and Francis Scott Key Stakes this year.

Bupers and Repeating have been made eligible to all Triple Crown classics, but Ikeya has not been named to these races.

Stakes-placed Ark-Ark, second to Ikeya in the George Washington, and Big H, a \$20,000 purchase who has already won at the Laurel meeting, also have been made eligible for the Senatorial.

Post time daily for the first of nine races is 1:30 p.m.

OUTDOOR SPORTING TIPS

Live Bait Tank

Keep minnows alive on long auto runs the way professional bait dealers do: They take their tank and make a tight cover. Through this they run a copper tube down into the water of tank nearly to bottom. Another short copper tube goes through top but does not go below the surface of water. The vacuum tube from windshield wiper attaches to this short tube. Air sucking into wiper creates a vacuum between the surface of the water and the top. This sucks air through the long tube. Bubbles aerate water. Minnows

thrive.

Rainy Hunt

Certain cold, rainy conditions can cause guns to rust almost while you watch them. Anticipate these times and carry an oily rag to wipe gun with from time to time.

Lively Worms

On a hot day you can help keep worms alive by wetting a sponge and laying it on top of the can.

Hot Feet

Young bucks won't need this tip but canny old timers who appreciate comfort know enough at night to fill their canteen with boiling water and slip it down at the bottom of their sleeping bag. Real luxury.

Lazy Ice Fishing

Lazy ice fishermen chop a small hole near each of their tip ups and bore through ice so it floods. Then they stock each hole with bait to avoid repeated long trips to bait box.

File Away Jam

A fingertip file is the perfect tool to free shells that jam in automatic shotguns.

Freezer Tip

This tip will keep your game longer and in better condition in your freezer. Freeze game the regular way. Then take the frozen game out and dip in water. Refreeze immediately. Glaze ice covering provides an additional seal to help keep oxygen out.

Although at extremely low temperatures most metals will become very brittle, a special 9% nickel steel has been developed to remain unaffected by temperatures as low as -320°F. It is used in the cryogenic industry for transporting and storing supercold liquid gases.

When big-game hunting, a pair of binoculars will allow you to study a vast area without ever setting foot in it. And a spotting scope separates the good heads from the poor ones without making long, difficult stalks. — Sports Afield.

NOTICE TO BIDDERS
The Board of Education of Frederick County, 115 East Church Street, Frederick, Maryland, invites bids on supplying and delivering audio visual equipment for various schools in Frederick County. Specifications and proposal sheets may be obtained at the Board of Education Office. Sealed bids will be received at the Board of Education Office until 10:00 A.M. (EST), April 24, 1964. The Board of Education reserves the right to reject any or all proposals and to waive informalities. BY ORDER OF THE BOARD OF EDUCATION OF FREDERICK COUNTY. JAMES A. SENSENBAUGH Secretary-Treasurer

High School Registration

Wednesday afternoon, April 15, 1964 at 1:30 p.m., has been designated as the time for parents to register pre-school children who will be six years of age on or before January 1, 1965 and who plan to attend the Emmitsburg Elementary School.

At that time registration papers will be given to the parents and explanations will be made of the regulations necessary before the children enter school in September.

Parents are requested to bring the birth certificate for their child so that the date of birth can be officially recorded by the teacher.

Future Teachers Hold Meeting

The Future Teachers of Emmitsburg High School held their regular meeting on Tuesday, March 31. The guest speaker was Mr. John D. Hinkle, the Speech Teacher at the high school. Mr. Hinkle gave a most interesting talk about special teachers, such as Speech Therapists, who are greatly needed to educate handicapped children. The group was pleased to learn that there are dedicated persons who devote their lives to help children with speech difficulties and other handicaps.

The Future Teachers also began plans for something to honor the teachers during Teaching Career Month which is April. The group made plans to attend the county F.T.A. Convention at Frederick on April 23 and are also looking forward to a trip to the Maryland State School for the Deaf, which they hope to take in the near future.

Observes 90th

John M. Roddy, St. Anthony's, observed his 90th birthday anniversary recently. A party was given in his honor at the home of his daughter, Mrs. Marianna Wetzel.

K-C Meets

Thirty members were in attendance at the regular meeting of Brute Council 1860, Knights of Columbus, held in the council home Monday evening, Grand Knight Lumen F. Norris, presiding.

Visiting delegations were present from Mt. St. Mary's Council, Hagerstown and Westminster. Dr. Gilligan, State Deputy, made an official visit and spoke briefly.

Carl A. Wetzel, retreat chairman, announced the annual Manner Retreat will be held near Annapolis this year on June 12-14. Those interested in making the retreat please contact the chairman.

District Deputy Paul A. Keepers was named chairman of the an-

nual bull roast to be held at Westminster this year on May 9. The affair is sponsored by the Mt. St. Mary's College Council. The meeting adjourned with prayer led by the chaplain, Rev. Robert S. Grace.

Mount Captures Invitational Meet

Mt. St. Mary's opened its track season auspiciously Saturday afternoon by capturing the annual Catholic University invitation meet at Washington, D. C., for the fourth straight time.

The Mountaineers piled up a total of 73 points. C. U. finished second with 40, Gallaudet was third with 33, Bridgewater fourth with 21 and Washington College fifth with eight.

Coach Jim Deegan had four double winners in Bill Dalsh, Dave Ladis, Ken Swomley, and Tom Neidhart.

Walsh was the big gun in winning the pole vault and the hop, step and jump. He also finished third in the high jump and broad jump.

The Mountaineers, unbeaten in Mason-Dixon Conference competition last year and winners of their last 16 dual meets, opened their conference campaign at Towson State College Tuesday.

TO SHOW FILM

The color film, "God of Creation," will be shown at the Emmitsburg Presbyterian Church, Thursday, April 16, at 7 p.m. The public is invited to attend.

This Moody science film covers a wide range of subjects — explores the immensity of space with the telescope, with a microscope peers into the teeming world of tiny creatures in a drop of water, and a variety of blossoms that normally take weeks to mature open on the screen in a matter of seconds.

This is the third in a series of fellowship programs sponsored by the church.

Autopsy Shows Monoxide Gas Cause Of Death

Maryland State Police said this week that the death of an 18-year-old Pennsylvania girl March 29 was attributed to carbon monoxide poisoning according to the autopsy report from Baltimore.

Tfc. William L. Newcomer said that the autopsy report on Edna Irene Harlow, Aspers R1, showed 70 per cent carbon monoxide in the girl's blood and no alcoholic content.

A 22-year-old Thurmont area man, Andrew R. Mitchell, had been questioned at the Frederick Barracks concerning the girl's

death, after the man's father-in-law called police about the girl's body being found in his son-in-law's car in Emmitsburg.

Mitchell told police he had spent considerable time with the girl over the weekend in the Gettysburg area. There will be no charges preferred, Tfc. Newcomer said.

Grove Company Announces New Personnel

FREDERICK, Md. — James H. of Grove, vice president of opera-

tions, M. J. Grove Lime Co., Division of The Flintkote Co., announces the appointment of Lt. Col. Warren Talmadge Lenhart, USAF Retired, as assistant production service manager.

Mr. Lenhart has a wide background of experience in public relations, executive management, administration and sales and advertising and will serve under E. Robert Bowlus, production service manager, in handling and servicing customer accounts.

A native of Frederick and a graduate of Frederick High School Mr. Lenhart lives here with his wife and two children. He enlisted in the Army in 1940 as a radio operator and in the years 1943-46 served as combat Air Force pilot in the European theater. Subsequent duties included public relations officer, television section, War Dept., bureau of public relations; commander Army and Air Force recruiting and induction; public relations officer, aviation cadet and officer procurement officer; JOC senior duty officer and operations officer, 5th Air Force, Korea and executive officer and combat pilot, 18th Bomber Group, Korea; USAF liaison officer and ground observer corps and finally chief, radio-TV Div., Hdqs. USAF Recruiting Service from which he retired after 21 years of active military service.

"The addition of Mr. Lenhart to our Production Service Dept.," said Mr. Grove in announcing the appointment, "will enable our company to more adequately render the type of specialized service that will assist our customers in meeting their production and quality control requirements."

Wear of engine valves is believed to be reduced by addition of small amounts of nickel chemicals to engine oil. As the chemicals decompose, a layer of nickel is believed to be plated at points of wear on the rubbing surfaces of the engine.

Weather Delays Farm Work

Cold, wet weather continues to delay spring plowing and planting, according to the Maryland-Delaware Crop Reporting Service. The planting of green peas and potatoes, the major early crops in both states, is behind schedule.

Generous winter precipitation replenished drought-depleted moisture reserves. Soil moisture supplies are adequate to surplus thru out Maryland and Delaware, and streams, ponds and wells have returned to normal levels.

Small grain stands are in generally good condition; winter damage was generally light.

Fruit orchards came through the winter in good shape. Low temperatures this past week caused little or no damage. Full bloom of peaches is expected about mid-April in Sussex and Wicomico Counties, about the 15th-20th in

the Hancock area and a week to 10 days later in other north central and Western Maryland areas.

Strawberry beds are in good condition. In the important producing areas of the lower Delmar Peninsula, earliest blooms are expected about the 15th.

Tobacco bed seedings are nearly complete. Tobacco farmers are busy finishing "stripping" of the 1963 crop and preparing tobacco for market.

Preparation of sweet potato beds is about 50% complete in Wicomico County compared with 75% at this time last year.

March weather damaged spinach on the Eastern Shore but the crop is in relatively good condition in the Baltimore area. Weather permitting, cutting of spinach may get under way in the Baltimore area on the 10th. Asparagus cutting is expected to get under way April 15-20. Seeding of green peas is about 50% complete on the Peninsula.

Very little spring field work has been accomplished in North Central and Western Maryland. Some farmers have been spreading manure, other fertilizers and lime, but plowing for corn and seeding oats have been limited to a few well drained fields. Pastures are slowly recovering from drought and overgrazing the past two years but wet, cool weather has limited growth and pasturing so far.

Generally, livestock are in good condition and most farmers have enough hay or silage to carry cattle until pastures are ready.

Mount Golfers Open Season

Mt. St. Mary's College golfers opened their nine-match season this week.

The Mountaineers, who were un-

defeated last year, have five returning lettermen. Heading the group is Dick Crist, Gettysburg, a Sophomore, and the number one man. He lost his opening match last season and then went unbeaten the remainder of the campaign.

Kevin Costello, New York City, a Junior, will team with Crist to provide a strong one-two punch. Senior and Captain Lynn Engler, Williamsport, Pa., unbeaten last year, will hold down the number three spot while Paul Jaber, Philadelphia, Junior, and John Jermack, New York, Sophomore, will be the number four and five men, respectively. A Freshman, Melvin McGlaughlin, has shown much promise as the number six player.

The Mountaineers will use the South Hills golf course, near Hanover, for the first time as its home course. They will also meet Gettysburg College for the first

time. The remaining schedule: April 15, Loyola, home; 20, Gettysburg, away; 23, Baltimore, home; 30, American, home; May 5, Baltimore, away; 7, Shippensburg, away; 12, American, away; 11, Mason-Dixon championships at Staunton, Va.; 14, Shippensburg, home.

Serving In Korea
Army Pfc Charles M. Ellenberger, whose mother lives at 124 W. Main St., Thurmont, and other members of the 7th Infantry Division participated in Exercise Spring Thaw, a six-day field training exercise in Korea ending Mar. 21.

The exercise stressed day and night maneuvers with opposing units from the division clashing in mock battles for 48-hour periods.

Ellenberger, assigned to Company C, 2d Battalion in the division's 32d Infantry in Korea, entered the Army in November of 1962. He completed basic training at Fort Gordon, Ga., and arrived overseas in May 1963.

The 18-year-old soldier attend Thurmont High School.

VFW Ambulance

Mrs. Marie Little was transported to the Warner Hospital Wednesday in the VFW ambulance. Drivers were Leo M. Boyle and attack. Drivers were Leo M. Boyle and Pat Zimmerman.

Softball Meeting

A meeting of the Emmitsburg Softball League has been called for Sunday afternoon at 2 o'clock in the Fire Hall. All managers and players and any other interested persons are urged to be present at the meeting.

Correct Ambulance Phone No. Given

Clyde J. Eyer, VFW ambulance chairman, advises that the new phone number printed on recently distributed phone book covers is incorrect. Residents are advised that the number to call for ambulance service is 7-4111 (day), and 7-2219 (night).

Mr. and Mrs. Larry Topper, of Frederick, visited with Mr. Topper's parents, Mr. and Mrs. Daniel Topper, on Saturday.

On The Lawn

With Larry Lawrence

Have you ever noticed that it takes longer to get ready to do something than it does to do it? It's the same whether you're going to paint the cellar stairs, make out your income tax or feed the lawn.

Come the first nice Spring day and you decide to give the grass its first meal since last year. You've got the fertilizer. You've got the spreader. You're all set. Then you suddenly realize that the whole lawn is full of old leaves and twigs and junk of all kinds. So you go back and get a hard rake and set to work.

At least, you do if you're wise. And you bear down. You won't hurt the good grass, but you'll yank out a lot of debris. Pretty soon you've got a pile of debris big enough to make a bonfire.

Putting on fertilizer is a cinch compared to currying. There are plenty of brands on the market but Turf Builder is probably the most popular. It's the only one that's Trionized, which is Scotts patented process that enables it to feed out nutrients slowly and as needed.

I figure that you can feed a 5000 sq ft lawn with Turf Builder in thirty minutes. That's pretty good when you consider what a satisfaction it is to have the greenest, sturdiest lawn in the neighborhood.
