## Most Anything At A Glance

BY ABIGAIL

After a decade in the planning stage the bypass of the town was thrown open unheralded last Thursday afternoon at approximately four o'clock. An hour later it was dark and many motorists totally unfamiliar with the plans and the road itself, faced the lethal ordeal of travelling the new stretch of highway. Needless to say there was mass confusion prevalent for several days. Open hardly 24 hours, the first fatality was recorded. The contractor had worked on the stretch since last April but at the opening the State Roads Commission wasn't ready (that is in our opinion). Oh there were stop signs and arrows, etc., but missing was a speed zone sign approaching the town from the east. The old 50-mile speed zone sign was still in use, guiding the unwary motorist right into a stop sign. Later this week a 30-mile an hour sign was installed, affording some warning to motorists. To this date there are no signs telling travellers where Emmitsburg was located and reports indicate many seeking the town drove completely past it arriving at Gettysburg, Thurmont or Frederick. State Police and State Roads officials have been busy all week studying the situation. The new road, approximately two miles in length, has two bridges and four interchanges, anyone of which could be the scene of a fatality. Following the death of the first victim, another close shave occurred Monday morning when another accident involving a tractor-trailer and car, almost resulted in a second death. Miraculously the driver of the car escaped serious injury. To the north of town, near the Topper property, the stop sign erected there is hardly visible at night and could have played a major part in the cause of the first fatality. It should be relocated immediately or another placed across the road where motorists headed north to Gettysburg, could more adequately see it. As for the town identification signs there appears no excuse for the negligence of the State Roads Commission in not providing these for the opening. Also there appears no sane reason for opening the dangerous roadway an hour before dark without any radio or newspaper warnings to the unwary motorists. Any number, travelling to work in the morning and returning home at five in the evening, crashed the stop signs unintentionally, thinking the road was still closed to traffic going north and south. All four intersections are dangerously dark and there is no question in our mind that there will be further fatalities unless caution lights are installed at all four of these locations. The State Roads Commission should install these lights without further delay.

Local citizens are amazed at the quietness of the Town now that major traffic is using the new bypass. Where it was almost impossible to cross the main streets just 10 days ago, there seems little difficulty or danger now in crossing almost anywhere in town. It will be interesting to watch the effect on the economic scene here now that the traffic has been relocated. Conversing with a number of local business people most feel that the economic effect will be slight and they report little change in the sales of their establishments. Not so with several others who are worried as to their very existence. In general, I feel that the effect will be slight and will eventually be offset by the continued growth of the Town.

## Church Sponsors Christmas Program

The annual Christmas Program sponsored by Tom's Creek Methodist Church will be held on Sunday evening, Dec. 20 starting at 7 p.m. The general public is cordially invited.

The itch for publicity gets a lot of people sooner or later, but it usually gets them.

## Commissioners Seek Pay Raise; Bond Issue

As was predicted by the Brunswick Blade-Times two weeks ago, the County Commissioners, at a meeting with members of the Frederick County House of Delegates Tuesday, put in a bid for a substantial increase in their annual salary. The increase would cost the county taxpayers a substantial sum of \$2500 for each of the Commissioners. The present salary of the members of the Board of Commissioners is \$5500 for a three-day week. The proposed hike would place salaries at \$8,000 per head.

In addition to the salary boost, the Commissioners threw in a proposed \$7,000,000 bond issue which would undoubtedly send the tax rate spiralling.

Both the bond issue, which totaled \$7,050,000 as outlined by Dr. John L. Carnochan, county school superintendent, and the commissioners' pay boost will be taken under consideration by the delegates when the Legislature convenes in Annapolis next month, they said.

Dr. Carnochan told the delegates that the commissioners are committed to finish Thomas Johnson High School, now under construction, and build a North County High School for the Emmitsburg-Thurmont area and a Middletown Valley Elementary School for the Budkittsville - Jefferson area.

"But the commissioners insist that they must have the money available first," the superintendent said, "which I think is an excellent policy, and they must have the bonding authority from the state legislature to do this." Dr. Carnochan added that a \$5 million bond issue will take care of three years of actual cash outlay by the school system but only two years of appropriations for future school plans, thus the possibility of a \$7 million bond issue to cover six years of school construction.

It was pointed out to the commissioners by members of the delegation that a \$5 million bond would carry the county through 1966 and with the new annual 70-day sessions, established in the last election, the commissioners would be able to go back to the legislature with another bonding request when they need it.

Included in the \$5 million bond, Dr. Carnochan said, are an expansion of Harmony Grove School for the Mentally Retarded, half the cost of a separate Frederick Community College and a renovation of Frederick High School.

With the \$7 million bond two elementary schools, one at Monocacy Village and one at Old Braddock, would be constructed to relieve the crowded conditions in the city grade schools. Also there would be additions to the Woodsboro and Yellow Springs Elementary schools, each getting a library, and an auditorium for Walkersville High School.

The discussion on the commissioners' pay raise—from \$5,500 to \$8,000 a year per commissioner—was short with the delegates warning the commissioners about possible conflict of interests if they voted one way as a member of an advisory board and another way as a commissioner.

The commissioners are asking the salary increase in order to be on the job on a full-time basis instead of the present three days a week. They also want to serve as members of "administrative bodies" in the county to justify being full-time commissioners.

The delegation was non-committal. "This is not a matter for the state legislature to consider," Delegate C. Clifton Virts said. "But, we (the delegation) will investigate the subject," he added.

The possibility of hiring a county manager, as suggested by Delegate Charles E. Collins on Monday and backed by former commissioner, Delbert Null, was not discussed.

## Elected Junior Representative

John J. Moody, Jr., junior education major at Mount St. Mary's College, has been elected as a class representative to the student council governing body. Moody, son of Mr. and Mrs. John J. Moody, 40 Circle Dr., Westbury, N. Y., is also vice president of the Met Club, a member of the Knights of Columbus, the Orientation Committee, and the Fall Weekend Committee. He is a graduate of Chamaine High School, Mineola, N. Y.

## Kiddies' Christmas Party Saturday

This was the scene of the Lions Club Kiddies' Christmas Party held for 35 years by the local Lions Club. The party will be held again Saturday under the same sponsorship. The local club was organized back in 1929 and J. Ward Kerrigan was its first president.

The 35th annual Kiddies' Christmas Party will take place in Emmitsburg Saturday, Dec. 19. The affair is sponsored by the Emmitsburg Lions Club with assistance from the Town Council and businessmen and annually draws more children to town than any other single outdoor event.

Activity will get under way promptly at 11 a.m. when the children will be treated to a free movie at the VFW Annex. Following the show the children will gather at the Fire Hall for hot

chocolate and sandwiches. The lunch will be served between noon and 1:00 p.m. Those attending the second show at the VFW Annex also will be served lunch as soon as possible. At two o'clock the mammoth Christmas Parade will march off in West End and proceed to the Fire Hall where Santa will distribute candy and oranges to all the children.

State and local police will manage the crowd of children during the parade and distribution of candy. The Emmitsburg Municipal Band will furnish the music for the parade and also give a short concert while Santa is passing out the candy. Also in the line of march will be the Legion Color Guard, police cars and fire trucks.

The Lions Club Committee in charge is composed of Charles F. S'outer, chairman; Ralph F. Irellan, Cy Haley, Ralph McDonnell, Clarence G. Frailey and Charles Arthur Elder. All Lions Club members are asked to be present to help with the work Saturday morning and afternoon.

## Glee Club Presents Program Dec. 20

Saint Joseph's High School Glee Club, under direction of Rev. David W. Shaum, Ph.D., will sing "A Christmas Program" Dec. 20 at 8 p. m. in the school auditorium.

The ensemble will begin part one of the program with Copland's "Simple Gifts." The Chorus will then sing "I Ain't Down Yet" and "I'll Never Say No" from the "Unsinkable Molly Brown." The finale of part one will be a piano solo by Ernest Edwards.

The group will sing selections from Leonard Bernstein's Broadway hit musical "West Side Story" in the second part of the program.

Set to progressive rhythms with a sprinkling of Latin America, "West Side Story" is a fast-moving, highly-emotional musical about the love of a boy and girl entangled in the bitter racial tensions of two rival street gangs (the self-styled Jets and the Puerto Rican "Sharks") of the West Side of New York City. The principal roles are: James May as Tony, a member of the Jets; Christine Miller as Maria, sister of the leader of the Sharks; Tony Martin, Diesel; Ted Knox, Arab; Bob Ryan, social worker; Michael Tracey, Snow Boy; Ned Remavag, action; Ray Domingue, judge; Joe Eckenrode, psychiatrist; Jill Abplanalp, Rosalia; Barbara Michaels, Anita; and George Knox as Baby John.

The Glee Club will sing such popular "West Side Story" numbers as "Maria," "I Feel Pretty," "Gee, Officer Krupke," "Tonight," and "Cool."

Following intermission the ensemble will sing the traditional Carols of Christmas, "Silent Night," "Cantique de Noel," "Silver Bells," and "Auld Lang Syne." George Gorman will play an accordion solo.

Tickets may be purchased at the door or from Glee Club members. Admission is \$1. The public is invited to attend this musical production.

Careful driving doesn't always avoid an accident, but it helps.

## M/Sgt. Slemmer Is New Lion

President William Kelz presided at the regular meeting of the Emmitsburg Lions Club held Monday evening in Mt. Manor Restaurant.

The president announced that District Governor Harry Filler would be present at the January 11 meeting and that a film on the Lions Club Eye Bank would be shown. A donation of \$5 was authorized for the Christmas Seal Fund. Lion Arthur Elder gave a progress report on the coming Kiddies' Christmas Party and reported all in readiness for the affair Saturday. M/Sgt. William Slemmer was voted into the group as a new member.

The club went on record as favoring the placing of more safety and identification signs and lights on the new Rt. 15 bypass. The secretary was instructed to contact the State Roads Commission concerning the signs and lights.

## Youngsters Show Bowling Skill

Local youngsters posting creditable scores at the Emmitsburg Recreation Center recently, included the following:

Douglas Adams, 54, 48; Harold Engelstatter, 90, 77; Gerolf Englestatter, 128, 106; Robert Keeney, 61, 98; Gerolf, 89, 75; Harold, 68, 3; Frank, 62, 78; Bob, 63, 69; Doug, 82, 82; Steve, 56, 63; Dave, 95, 75; Jeff, 79, 90; Steve, 76, 74; Horace, 65, 68; Steve, 76, 69, 65; Linda, 59, 43; Mary, 59, 64; Judy, 89, 74; Horace, 73, 61; Hemmingway, 81, 72, 72, 79; Jeff, 60, 71, 61, 68; Scottie, 46, 36; Jim, 38, 64; Dave 86, 77, 85, 97; Steve, 51, 63.

## Check Forger Is Jailed

Ray W. Barriek, alias William Barriek, whose address is given as 368 Main St., McSherrystown, was placed in the Adams County prison Friday after he pleaded guilty to forgery of nine checks totaling \$788.98. Justice of the Peace Robert P. Snyder, Gettysburg, said Barriek was unable to furnish \$500 bond on each count and added, that six other forged checks still are out in McSherrystown, Littlestown and Emmitsburg.

Barriek is accused of using the name of Huber Smith, his former landlord, to cash checks.

## Mounties Meet Randolph-Macon Here Tonight

Mt. St. Mary's College cagers extended their current win streak to seven Tuesday evening by eking out an 82-75 victory over American U at Washington.

Victory No. 6 came to Coach Jim Phelan's men Saturday night when they easily outdistanced Catholic U on the local court, 80-67, in a Mason-Dixon Conference game. Catholic won the M-D Conference tournament last season by defeating the Mounties in a playoff.

The Mountaineers led most of the way, pulling away midway in the opening half to gain a 36-29 lead at half time.

Much the same pattern was followed in the second half as Coach Phelan's cagers continued to maintain an advantage over the Cardinals.

Four of eight Mountaineer players who registered points scored in double figures with Pete Johnson showing the way with 20. John Carrell was right behind with 19 while Bernie Haag and Ed Folk netted 16 and 12, respectively.

Pacing Catholic were Pete St. Onge with 16 and Charley Boydland with 13.

Tuesday evening against American, Bernie Haag scored four straight foul shots with 30 seconds remaining in the game, to put the Mount victory on ice.

The Eagles, who had trailed by as many as 15 points in the first half, inched within a bucket of the Mountaineers on Jim Buefler's jumper with 40 seconds showing.

But Haag, who led the Mount scoring with 19 points, drew a foul and dumped in both halves of a one-and-one to make it 79-75. He repeated the performance ten seconds later and Lou Martine added another charity shot to give the Mountaineers the final margin.

The Mountaineers jumped in front early in the first half and were never headed. American U, however, managed to overcome a 15-point deficit at the 11-minute mark and come with three, 39, 36.

Three Mounties, John Carrell, Ed Folk and Pete Johnson, had 17-point nights to crowd behind Haag for top scoring honors. Haag was the spark in the first half when he dumped in 11. Carrell had nine and Johnston eight.

From the floor, the Mounts hit 46 per cent of their attempts, 32 for 69.

The Eagles' Ben Still was the leading scorer of the game with 27 points.

The Mounties entertain Randolph-Macon tonight (Friday) on the local hardwood. This is their last game before the holiday break.

## Liners Trounce Smithsburg

Emmitsburg survived a late rally by Smithsburg Tuesday afternoon and defeated the Smithies, 40-39 at Smithsburg.

The Liners took a 30-27 lead into the final eight minutes but sloppy ball handling gave Smithsburg numerous opportunities to take the lead.

Emmitsburg held a seven point lead with 5:30 left in the game but Smithsburg cut the margin to one point with about a minute left.

The Liners then froze the ball and won its second straight game. Greg Bushman and Eddie Baker paced the offensive attack with 11 points each while Hesson led the Smithies with 16 markers.

Smithsburg won the JV game, 29-26.

## Mountain Echo Adjudged Excellent

The Associated Collegiate Press has judged the Mountain Echo, the college newspaper at Mount Saint Mary's College, for the period of 1963-64, as first class among collegiate newspapers. This year's score was the highest ever awarded to the Echo.

The paper scored 245 points above the minimum 3,200 needed for this honor, which is comparable to an "excellent." The Echo scored highest in the area of general coverage where it scored a perfect 800.

The rating indicates how a publication ranks relative to all other publications of colleges issuing the same number of papers per semester, working under similar conditions, and having approximately the same number of students.

## Rt. 15 Opens; Scene Of Several Mishaps

U. S. Route 15 bypass of Emmitsburg was opened to the public last Thursday afternoon at approximately 4 p.m. The new section of road, about two miles in length, had been under construction since last April. Starting at the Curtis Topper property north of town, the stretch has four intersections and two bridges. Beginning at the Topper property, the next intersection occurs at the crossing of Rt. 15 and Md. Rt. 97 east of town, followed by the Creamery Road intersection near St. Joseph College and the last one at Toll Gate Hill.

Open hardly more than 24 hours the bypass was the scene of the first fatality Friday evening when a motorist and a trucker collided at the first intersection north of town, at approximately 7:10 o'clock.

Carl S. Eastbridge, 50, Quarryville R1, Pa., died at 10:30 o'clock in the Warner Hospital, Gettysburg, where he was removed in the VFW ambulance following the accident. Dr. C. G. Crist, Adams County coroner, said death was caused by a fractured skull and internal injuries. The body was released to a Quarryville undertaker.

Maryland police who investigated the accident said that Eastbridge, traveling north, failed to stop at the intersection of Rt. 806 and the new bypass and was struck in the left side by a truck operated by Frank L. Peters, 49, Williamsport, Pa.

The Vigilant Hose Co. washed shattered glass and gasoline from the highway at the scene.

The Eastbridge car was totally demolished and towed to a local garage.

On Monday morning at approximately 11:30 a.m., the Rt. 15 and Rt. 97 intersection east of town near the Arthur Eldred property, was the scene of the bypass' second mishap when a 1964 Rambler driven by Lawrence Blain Sanders, McKnightstown, Pa., travelling west, is alleged to have gone through a stop sign and struck the rear wheels of a car carrier driven by Dewey Sewell Lewallen, Gettysburg. Sanders was taken to the Warner Hospital in the VFW ambulance, treated and discharged. He suffered contusions, shock and bruises.

Sanders was charged with failing to obey a traffic signal and posted \$28 collateral for a hearing later on before Magistrate Guy A. Baker, Sr.

Wednesday morning, a truck owned by J. I. Herter, Gettysburg, and driven by Lewis J. Showers, Fairfield, Pa., became ignited by sparks from burning brush along the bypass. The truck, loaded with straw, became quickly ablaze and the straw, valued at \$150 dollars, was destroyed. Damage to the truck was estimated at \$2500. The blaze was extinguished near Toll Gate Hill by the Vigilant Hose Co. Local and State Police investigated the incident.

## Christmas Eve Service Planned

Incarnation United Church of Christ will hold its annual Christmas Eve Service on Thursday, December 24, at 7:30 p.m. The program is sponsored by the Sunday School. There will be recitations by the children of the Children's Department. There will be congregational singing of the familiar carols and the lighting of the Christ Candle. The program will close with a play by the young people entitled "Joy to the Smiths."

Following the service the young people of the church and their guests will go caroling around the town, beginning at the Nativity scene which is in front of the church and ending at the Parsonage for refreshments.

Everyone is invited to share this service with the members of Incarnation Church.

## Files For Divorce

Grace M. Riebling, Hanover R3, has filed suit for divorce in York from Robert E. Riebling, Emmitsburg.

## NOTICE!

Due to Christmas falling on Friday this year, the Chronicle will be printed one day early next week. All copy for news and advertisements must be in this office no later than Tuesday morning to insure publication in next week's Christmas issue.

The real hope of the world lies in men of good will, scattered throughout the world and not confined to any one area.

### Moon Eclipse To Show Tonight

The third total eclipse of the moon within a year, and the last one for the next several years, will occur on Friday evening (tonight), December 18.

In an article published in the December issue of the Maryland Academy of Sciences Newsletter, Paul S. Watson says that the eclipse will begin at 7:01 p.m. this evening, but that it will not be noticeable until almost an hour later.

The moon will be completely in the earth's shadow, according to Mr. Watson, who is curator of astronomy for the Academy, for exactly one hour—from 9:07 p.m. until 10:07 p.m.

During the period of the total eclipse, the astronomer said the moon may be invisible to the unaided eye.

He said that the moon usually shines with a reddish or copper-colored light during an eclipse

due to refraction, or bending, of sunlight into the earth's shadow by the atmosphere. For many years before this explanation was known, this phenomenon was known as "blood on the moon."

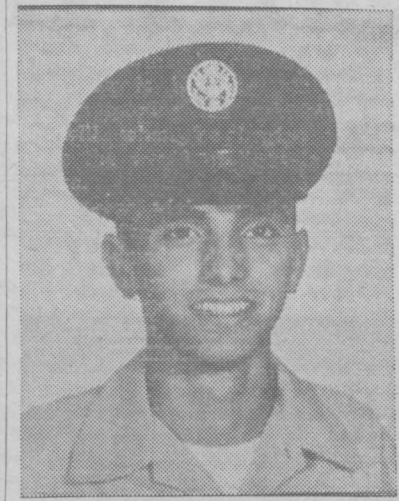

However, Mr. Watson pointed out the moon appears quite dim during a total eclipse, when unusual cloudiness or great quantities of dust in the atmosphere, from the eruption of active volcanoes, cut off the bent sun rays. On rare occasions, in fact, the moon can disappear almost completely to the unaided eye.

This happened during the eclipse of last December 30, Mr. Watson recalled, and the brilliant full moon faded into invisibility. At the eclipse of June 24, local astronomers were unable to determine how dark the moon appeared because the eclipse occurred before the end of evening twilight. Reports from other locations indicated it was a dark eclipse.

Cause of the two unusual eclipses was a volcanic eruption

in the East Indies during 1963, Mr. Watson said. It is not known whether this high altitude dust is still present, he added.

### COMPLETES BASIC

SAN ANTONIO, Texas — Airman Ronald L. Free, son of Mr. and Mrs. Charles E. Free of Thurmont, Md., has completed Air Force basic military training at Lackland AFB, Texas.

Airman Free is being assigned to an Air Defense Command (ADC) unit at Truax Field, Wis., for training and duty as an air policeman. His unit supports the

ADC mission of keeping the nation's intercontinental missiles and jet bombers on constant alert.

The airman is a 1964 graduate of Thurmont High School.

### Seminarians Erect New Altar At Mount

In keeping with the recent liturgical changes coming from the Vatican Council, several seminarians at Mount Saint Mary's Seminary have designed and built a new altar for the college's Chapel of the Immaculate Conception.

The new altar which was designed by Mr. Anthony Di'Lenzo, a member of the First Theology Class and formerly a commercial artist, is primarily of wood construction blending with the chapel's architecture and paneling.

The actual blueprints were drawn by Mr. John Fenzel, also a First Theology student, who was formerly a civil engineer.

The altar is of portable design and allows the priest to offer the Mass facing the people.

The Most Rev. T. Austin Murphy, Auxiliary Bishop of Baltimore, has shown interest in the design for possible use in his own parish church, according to Rev.

Mr. Thomas Stracke, a seminarian of that parish.

### Relocation Set For Historic Jug

Plans have been completed to relocate the Historical Jug on State owned land, according to an announcement by C. Lease Bussard, President of the Francis Scott Key Memorial Foundation, Inc. The project, which will be handled by the Foundation, climaxes many months of preliminary work and negotiations to obtain the use of the land necessary to provide a prominent resting place for one of Frederick County's best known landmarks, and to establish a Memorial Park with roadside picnic facilities.

Commenting on the project, Mr. Bussard said, "As the plans indicate, this is a tremendously large undertaking, and one that will need the help and assistance of many groups and individuals. During the planning stages, it is most gratifying to have had offers of both services and finances from several groups and from individuals. Much more will be needed to bring the project to a successful conclusion, and it is the sincere hope of our Foundation, that the people of Frederick County will join with us to make this Jug Bridge Memorial Park a place of beauty and prominence for our citizenry and visitors as well."

Cooperating closely with the Foundation in the project will be both the Frederick Chapter, Daughters of the American Revolution and the Sgt. Lawrence Everhart Chapter, Sons of the American Revolution, with the latter participating in that portion of the moving operation

which involves the relocation of the large boulder bearing the SAR Plaque that was placed at the former site in 1926. The Frederick Chapter, Daughters of the American Revolution, through their chairman, Mrs. William M. Storm, have worked many years in the relocation efforts of the Jug, and will assist in many phases of the program, including the sale and distribution of the Memorial Souvenir Half - Dollars, which will be used to finance the program and which will bear the Chapter's name.

Use of the land, upon which the Memorial Park will be established, was obtained from the State Roads Commission and is located at the eastern edge of Frederick, and lies between the westbound lane of Route 40 and East Patrick

Street. Approximately two acres is contained in the area that is to be developed and which will contain driveways, parking area, walks, picnic tables, landscaping, and lighting which will illuminate the jug after dark.

The Souvenir Half - Dollars, were placed on sale last week at the Francis Scott Key Memorial Headquarters and Tourist, Ticket Information Center, in the lobby of the Francis Scott Key Hotel. They are also being sold by the Farmers & Mechanics National Bank in all of their locations throughout the county, including The Farmers State Bank Office in Emmitsburg.

Mr. and Mrs. J. J. Moriarity, Mass., visited recently with Mrs. Moriarity's brother, Frank Weant.

**WORLD-WIDE CHRISTMAS MEANINGS DEFINED**

Americans who dream of a white Christmas with Santa Claus popping down the chimney to the tune of "Jingle Bells" can thank assorted writers and poets and the northern climate. Christmas

in the land of Christ's birth, however, is another matter. What is Christmas like in Bethlehem?

There's generally no snow, for one thing, for winters are mild in the Judean Hills around Bethlehem, reports World Book Encyclopedia. No Santa Claus listens to children's pleas, for he's

an American invention based on a European saint. And there's probably no decorated Christmas tree in the village square; that custom originated in Germany.

Instead, the focal point of Christmas in Bethlehem is the Church of St. Mary of the Nativity, supposedly built over the spot where Jesus was born. Here pilgrims from all over the world gather on Christmas Eve. First there is carol-singing in the square facing the church. Then all enter for the solemn midnight mass. After the service, an image of Christ is carried in a procession down into the grotto, and is placed in a manger where it lies until January 6, the Feast of Epiphany.

After this ceremony, some may wander into the fields outside the town, where perhaps shepherds long ago heard the news of the birth of Christ. All this takes place, of course, on the eve of December 25. But that's not the end of Christmas in Bethlehem. For the Eastern Orthodox churches celebrate the holiday on January 6, and the Armenians observe it on January 18, which is January 6 according to the old style, or Julian calendar.

The fellow who drives at excessive speeds on our highways is literally killing time.

Every time you find a fault in a friend match it with one of your own and you'll decide all your friends are perfect.

**TODAY'S Meditation**  
from **The World's Most Widely Used Devotional Guide**

**The Upper Room**  
© THE UPPER ROOM, NASHVILLE, TENNESSEE

Read John 14:1-11. Thomas said to him, "Lord, . . . how can we know the way?" Jesus said to him, "I am the way, and the truth and the life; no one comes to the Father, but by me." (John 14:5-6, RSV.)

A great orchestra has come on the stage. Each player is intent on his own instrument, practicing little runs up and down the scale. At a signal, however, there is a sudden silence broken by the sounding of one clear note.

In all the jarring conflict of sounds, the basis for harmony has come. Each player tunes his instrument to this one note. Thereafter we hear those masterpieces of music that stir the human soul.

How like Christ is that single note! He is that clear, central note of reference for our lives. God, director of the universe, sent His only Son to give mankind one imperishable note of human reference by which to tune our lives.

When we listen to this note, the discords of life disappear. We proceed with assurance under His divine direction to play our part in the world—in harmony with God's great purpose.

**Prayer**

We thank Thee, O Lord, for sending Thy Son to live with us that we might know forever the wonder of Thy love and compassion for us. Help us to walk in His footsteps. In His name and for His sake. Amen. Thought For The Day  
Once in the world's history the perfect note of harmony was struck—in the life of Jesus Christ. Leigh S. Wolfe (Wisconsin)

**BABSON**

*Writes . . .*

BY ROGER W. BABSON

Babson's Point Of View On: China And The Far East

BABSON PARK, Mass., Dec. 17—Bad feeling between Red China and the United States seems to intensify as we become more and more involved in the war in South Vietnam. We are opposed to the aggression of the Viet Cong forces there which are being encouraged and supplied from Peking.

Importance Of China In The World

China has an area of 4 million square miles and a population estimated to be nearing 700 million. This ancient land possesses in abundance strategic raw materials. China has rich deposits of iron, uranium, and coal. Her mighty rivers, when properly harnessed, could provide inexpensive sources of energy more powerful than any yet developed. Her forests are among the most luxuriant known. Some day this still sleeping giant will become a first-class world power.

Yet this vast land, so full of human and material resources, is completely cut off from the United States. No American citizen can gain admission to China under ordinary circumstances. The Communist government simply does not want

visitors from the U. S., especially if it cannot be sure they will react favorably to what they see or hear as they travel in this tightly disciplined country.

Admission To The United Nations

The lack of contact between our two nations is bad for us, bad for China, and bad for the world. China is poisoned in spirit by her intense pride. And she is poisoned in body by certain Western powers whose aggressions and treacheries of the past still irritate and humiliate her. Yet the swiftness with which the Chinese have employed new inventions—even to nuclear power—shows that they cannot long be expected to resist using all the facilities at their disposal.

Red China may now be nearing admission to the United Nations. Next time the vote

comes up in the General Assembly, it will probably run in favor of Peking. And admission of Red China to the UN would hasten the day when American citizens with legitimate reasons for travel and study in China would be permitted to enter that country.

The Question Of Formosa

We do not believe, however, that giving Mao's government a seat in the UN would lead very soon to diplomatic relations between Peking and Washington. As long as Mao continues to rant against the United States and to ignore the rules of international behavior, he will remain in Uncle Sam's doghouse.

Also discouraging to early recognition of Red China by the U. S. is the thorny question of Formosa. This island off the China coast, lying between Japan to the northeast and the Philippines to the south, is ruled by Generalissimo Chiang Kai-shek. Chiang's Chinese Nationalist Government presently holds China's seat in the UN. At this time the U. S. just cannot recognize Red China without going back on our solemn treaty commitments to Chiang and without weakening the American position in Asia. But some day this situation will change.

The Shadow Of China Over The Far East

Red China—even with its new nuclear capability—is no immediate threat to the world. What causes concern is that the destiny of the Chinese masses is in the hands of aggressive, ruthless, totalitarian Communist bosses. In time, perhaps China may expand into those areas of Asia now held by Russia, but that time is not yet and Russia knows it. For the present, the shadow of China looms more threateningly over the lands of her immediate neighbors to the south (including India which is now without the strong leadership of Nehru). Red China's eventual goal is probably the rich islands of Malaya and Indonesia. But Mao's progress toward them is hindered by the resistance in South Vietnam. This resistance, in fact, may well be preventing, or at least postponing World War III.

One day, however—and that day may be nearer than we now dare hope—China may throw off the shackles of Communism just as she has through the years shed some of her out-

**ALL ABOUT BABIES**

A Public Service of the  
 National Baby Care Council

Baby's Eyes  
 By Dr. Bernard Kushner  
 President  
 Vision Conservation Institute  
 The human eye seems to be one

of Mother Nature's favorite and outstanding creations. It has more than 100,000,000 parts and is infinitely more complex than anything made by man.

Because the eye is so complex, its intricate parts become differentiated early in the unborn child. Three months before a baby is born, he is blinking his eyelids and is moving his eyes much as he will when he begins to explore the world of light in a few weeks.

However, vision needs time for growth after birth. A child's eyes must be developed for all the wonderful seeing tasks that two eyes working together with the brain can perform. At birth, the part of the eye on which clearest vision depends is not fully developed. Only time brings about development.

As if these practical functions were not enough, eyes must also be beautiful. Your baby is born with blue eyes. But, the color will

change by the accumulation of pigment in a coating over the iris, if he is destined to be brown-eyed for instance.

There can be endless fascination in watching a baby progress from one stage to another as he learns to see and get meaning out of the information that his eyes gather so avidly. At first, a baby checks everything with his mouth, as if he didn't trust his eyes. What an achievement it is when he develops hand-eye coordination, when his eyes can guide his hand or foot.

You can watch your child build what optometrists call his space world. As you would expect, he is the center of it. At first, he has little awareness of anything beyond arms length. Slowly, the space expands. He learns what and where the objects are that his eyes see. This is a developmental process involving not only his eyes, but his whole being. Eye doctors point out that baby

first explores this expanding world with his right hand, foot and eye. Then, in turn, will come a period of concentration on the left. Soon, this cycle is repeated and growth and development take place.

Optometrists find that for the first few months, one eye may be turned under the nose or "crossed" as it is commonly described. At this time, baby is using the other eye. There is nothing to be concerned about at this time.

act in time. Notify your social security office and your Post Office before you move. The Social Security Office in Hagerstown is located at 59 North Cannon Ave.

Be a positive thinker—let the world end every night and begin anew in the morning.

Planning makes a smooth road for the wheels of progress.

**Social Security News**

The postman always rings twice, so the saying goes. Before he can ring at all when he delivers your social security checks, he has to know where you are. If you are receiving monthly social security checks and you move, it is important for you to act twice.

First, let the Social Security Administration know your new address. Second, notify the Post Office of the change so they can forward your check in case the notice to the social security office is too late to change your address on your check.

How should you let the social security office know? Fill out the post card form they gave you when you filed your claim. Be sure to show your claim number on the card; check the block which says this is a change of address; sign your name; and show your new address. If you don't have this form, you may write the same information on a post card or in a letter and send it to your nearest social security office.

In addition, before you move, let the Post Office know your new address. They have a form that you can fill out—do it before you move. You can get the Post Office form from your mailman. To get your checks on time,

Information Given On Strokes Part 5 When a stroke occurs the hardest thing for the patient to fight is his own feeling of hopelessness and despair. His own determination to get well is the most powerful weapon at his command. He must want to "strike back at stroke."

True Copy - Test: THOMAS M. EICHELBERGER Register of Wills for Frederick County, Md. 12/18/5t

Information Given On Strokes Part 5 When a stroke occurs the hardest thing for the patient to fight is his own feeling of hopelessness and despair. His own determination to get well is the most powerful weapon at his command. He must want to "strike back at stroke."

When ever you drink a glass of milk, you honor the memory of one of the great heroes of science who fought back against stroke - and won. This was Louis Pasteur, the French chemist whose discoveries in his lifetime founded the science of controlling germ-caused

Finishes Training

(AHTNC) - Pvt. Dennis R. Digilarmo, son of Mrs. George V. Lipkien, Hammakers Apts., Thurmont, Md., completed eight weeks of advanced infantry training under the Reserve Enlistment Program at the U. S. Army Training Center, Fort Gordon, Ga., Dec. 11. Digilarmo received specialized instruction in small unit tactics and in firing such weapons as the M-14 rifle and M-60 machine gun. The 20-year-old soldier was graduated from Thurmont High School in 1964.

Important Tax Information Given

Why The Need For Identifying Numbers? The Internal Revenue Service has installed an automatic data processing system which uses modern high speed electronic equipment to improve and strengthen tax administration. One of the principal advantages of the system is that it will give the Service a complete record, at a central location, of all taxpayers filing Federal tax returns. Essential to the successful operation of this system is positive identification of taxpayers one from another despite similarity of names. This is being done through the use of tax account numbers. Why Social Security Numbers For This Purpose? The Congress, in recognition of the need of the Service for some positive means of identifying taxpayers, enacted Public Law 87-397, which added section 6109 to the Internal Revenue Code. This is the section which requires that identifying numbers be shown on income tax returns, statements and other documents required to be filed with the Service. Account numbers are needed in processing tax returns under Internal Revenue's automatic data processing system. This is most important, Irving Machiz, District

Pasteur lived from 1822 to 1895, at a time when science had nothing to offer the stroke patient except to let nature take its course. Pasteur had a "big stroke" at the age of 45. But he lived and worked for 27 more years. Some of his best work was done during this period. Yet it is reported that during this time he suffered 50 more "little strokes."

He refused to throw in the towel. Now this is the man whose name was given to "Pasteurization" and whose memory we honor with every glass of milk we take. In our own time the most famous persons to have survived strokes were Eisenhower and Churchill. Sir Winston Churchill suffered his stroke at the age of 79 during his final term as Prime Minister of England. He will celebrate his 87th birthday on November 30 and is running for Parliament again to succeed himself. President Eisenhower had a stroke in 1957, during his second term as President. The stroke was mild and transitory in its effects. He made an excellent recovery and soon returned for three more years of what is often called the most strenuous job in the world. General Eisenhower is still active and celebrated his 71st birthday October 14. He plays golf nearly every day, and shoots, reportedly in the low nineties. Discouragement is one of the common side-effects of stroke. Especially in a person past middle years it is hard to describe the feeling of hopelessness when you cannot write your name - or speak to be understood. That's why it is important to stress the facts - that nine out of ten stroke patients do recover. Another important fact to remember is that medical science is at work every day, constantly and quietly, to provide new ways and means to help the stroke patient. Stroke can be conquered. It is happening every day. It might be said that couples who marry at high noon are taking a 12 to 1 chance.

of Internal Revenue for the Baltimore District said, to insure proper crediting of each taxpayer's account. All taxpayers are required by law to list their taxpayer account numbers. Individuals must list their social security number and businesses must show their identifying number in the proper block when filing 1964 tax returns. For further information contact your local Internal Revenue Service office.

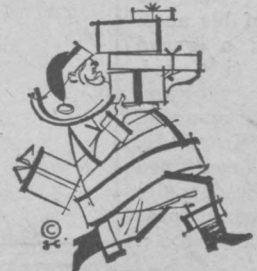

OUTDOOR SPORTING TIPS

Crazy Minnow Surely you know how to clip two thirds off the tail of minnows you use. Makes 'em wobble in a way bass and pike love.

Worm Feed Grapefruit tossed in your worm box will provide meals for a week. Worms will eat out the soft tissue inside rind. Rabbit Recipe Soak quartered rabbit in vinegar for 48 hours. Wrap in bacon strips and roast. The vinegar turns the meat white and gives it a soft entrancing flavor. Try it, and see if you don't like rabbit. Live Cricket Bream fishermen tie a tiny rubber band on their long-shanked hooks and anchor live crickets with the rubber band. Crickets stay alive longer that way. Works with frogs too. Crow Decoys Cut quarter inch plywood in the shape of a crow and paint

black. Staple coat hanger wire to bottom for a stand. For super-duper decoys, staple crow wings to either side. Animal Seat A bottle of household ammonia poured around the place you don't want wild animals will keep them away. Works at home too. Cheap Camouflage Mask Paint a paper bag with kid's paint, cut out nose and eyes and you have a serviceable mask for crow, deer or duck shooting. String Your Callers Don't forget to put your crow or duck calls on a string. You'll forget 'em in the excitement of shooting and they may get lost. Ice Fishing Chum Before you leave your ice fishing hole one day, drop a punctured can of dog or cat food down the hole if you plan to come back to it the next day. Fishing may be considerably livelier.

To Attend Specialist School

SAN ANTONIO, Texas — Airman Harry J. Baltzell, son of Mrs. June E. Baltzell of 20 W. Moser Road, Thurmont, Md., has completed the first phase of his Air Force basic military training at Lackland AFB, Texas.

Airman Baltzell has been selected for technical training as an aircraft maintenance specialist at the Air Training Command (ATC) school at Amarillo AFB, Texas. His new unit is part of the vast ATC system which trains airmen and officers in the diverse skills required by the nation's aerospace force.

He is a 1964 graduate of Thurmont High School.

Mrs. Andrew Eyster has returned home from a visit with her son-in-law and daughter, Mr. and Mrs. Carl Crist, Orlando, Fla.

Importation Of Out-Of-State Booze Prohibited

As the Holiday Season nears, when sales of alcoholic beverages increase, Louis L. Goldstein, Comptroller of Maryland, this week issued a reminder to all Maryland citizens of the State law and penalties for unlawfully bringing alcoholic beverages into this State from the District of Columbia or any state or foreign country.

The revenue laws of Maryland prohibit the importation and possession of any alcoholic beverages upon which the Maryland tax has not been paid. In the case of an individual the law provides for one exception, namely: Any consumer at least twenty-one (21) years of age is permitted to bring into Maryland tax free, for his personal use, one (1) quart of legally manufactured alcoholic beverages at one time, and may not bring into Maryland more than two (2) quarts in any one calendar month, and possession at any time cannot exceed four (4) quarts total of all such alcoholic beverages. Any alcoholic beverages which are unlawfully possessed or imported are subject to confiscation and any person violating the Alcoholic Beverages Law may upon conviction be fined no more than one thousand dollars (\$1,000) or be imprisoned for two (2) years or be both fined and imprisoned.

Comptroller Goldstein stated that he is particularly anxious that the residents of Maryland fully understand the law and that all persons will fully comply therewith so that it will be unnecessary for them to suffer embarrassment and other unpleasant results should they be arrested and prosecuted for importing or possessing alcoholic beverages contrary to Maryland law.

New Truck Damaged in Mishap

The efforts of West J. Matthiessen, 66, St. Paul, Minn., Monday afternoon at 3 o'clock to avoid a collision with a car that was passing him, led to his auto crashing into guard posts on both sides of the highway and a truck in between.

State police said Matthiessen was driving east on the Sunshine Trail, four miles west of Emmitsburg, when he started to pass a car ahead. As he was about to pass he realized there was another vehicle simultaneously seeking to pass him.

To make room for the car coming up behind him, Matthiessen swerved to the right, onto the berm, and lost control of his auto.

His car then struck a guard post off that side of the road, swerved back onto the highway and sideswiped a truck operated by Clarence Edward Hahn, 55, Emmitsburg R3, then continued on across the road to the opposite side, crashing into a guard post there, and coming finally to a stop.

Police said damage to Matthiessen's 1958 car was estimated at \$500, while damage to the truck was set at \$75.

No one was reported injured in the accident, police said.

Hospital Report

Admitted Richard M. Topper, Emmitsburg.

Discharged Mrs. Ernest Rosensteel, Emmitsburg.

Infant daughter of Mr. and Mrs. Joseph R. Harbaugh, Emmitsburg R1.

Miss Dolores Burdner, Emmitsburg.

Robert L. and Joseph D. Wivell, Jr., Emmitsburg R2.

Mrs. John E. Watkins and infant son, Emmitsburg.

Earl H. Plummer, Rocky Ridge.

Births Mr. and Mrs. Guy A. Baker, Jr., Emmitsburg, son, Wednesday.

Mr. and Mrs. John J. Stotsky, Emmitsburg R2, son, Friday.

Mr. and Mrs. Herbert R. Farrell, Jr., Thurmont R2, son, Monday.

Hose Scales Away Plenty of species of fish can be cleaned with a hose. Adjust nozzle to hard stream, hold tail of fish and direct stream against scales. They'll wash right away.

To be successful every man is duty-bound to keep his train of thought in constant repair.

Student-Faculty Dinner Held

As a prelude to the annual Christmas holidays at Mount St. Mary's College, the first Faculty-Student Christmas Dinner was held on Wednesday evening in the Cogan Union.

Under the sponsorship of the Student Council and chaired by senior representative, Wayne M. Mascia, Short Hills, N. J., the program consisted of a family style dinner followed by a short program of comedy and song.

William F. Doyle, senior, Haddonfield, N. J., presented several comedy routines and the Blue Ridge Singers, W. Michael Bridge, junior, Kittanning, Pa., John F. McKee, senior, Syracuse, N. Y., and Thomas E. Smith, Harleigh, Pa., entertained with their folk and nonsense songs.

Finally, Mr. and Mrs. Santa Claus made an appearance with

appropriate gifts for members of the faculty and administration.

The student holiday officially begins on noon Friday and will conclude on Monday, January 4.

The annual Faculty Dinner-Dance will be held on Saturday evening beginning at 6 p.m. with the Joseph Dowling Orchestra of Baltimore furnishing the music.

McDonogh Scholarships Competitive examinations for scholarships to McDonogh School will be held at the school on Saturday, February 13, 1965.

To be eligible for the examinations a boy must be a resident of the State of Maryland. He must presently be in either the sixth or seventh grade. Applications must be submitted prior to the examinations. They may be secured from the Director of Admissions, McDonogh School, McDonogh, Maryland.

Candidates will be ranked in order of their scholastic achievement as established by the tests,

and final selection will be made on the basis of personal qualifications and financial need. Details of the scholarship program are provided with the application forms.

Sometimes a gal stands before a mirror while dressing so she can see what's going on.
