Activity on the new Postoffice building began to stir a wee bit this week when the building contractor contacted Town Officials pertinent to obtaining a deed to the ground. Actually the Town has had the deed and other necessary papers ready for some time and it was not until this week that the contractor called for the papers so action should be started any day now on the new building on South Seton Avenue. While on the subject of the Postoffice we feel that the time has come to ask for mail delivery service. We have been talking about it for several years now but no one has started the ball rolling. Nothing has been done about numbering the houses as no one wanted to bother with the project... so it seems. That has been solved though and now we have a volunteer in the person of our retired Postmaster, Louis Stoner. Who could be more qualified to do the job than our former Postmaster? Naturally he will have to be commissioned by the Town Council to do the job so we do hope that the situation will be resolved in the very near future. With 1966, next year, an election year, it isn't too soon for our local Central Committees to get to work on the project.

While we are in the midst of a scorching heat wave, cold records are being established in the Northwest and already Wyoming has reported 15 inches of snow. It is almost unbelievable that there could be such a vast difference in temperatures and conditions in the short distance across the nation. I really don't care for snow too much but I'm almost ready to trade a few inches to get rid of this infernal heat wave. Almost daily now for the past week new heat records are being set here as the mercury rams to the 90 mark almost every day. Why in other years we had our furnaces in action by the middle of September. It can't last though, you can bet your bottom dollar, and it won't be too long, in fact any day now that the fuel men will be wearing a big smile.

Water conservation is still pretty important here folks. For weeks we have been stressing the necessity of saving our water reserves. You are all aware of the lack of rainfall these many weeks. Again Sunday a lot of nearby communities got some rain, but not Emmitsburg. A quick look at Rainbow Lake, our main supply reservoir, will show you and convince you of what I have been telling you. Let's keep on saving as much as possible for we have no assurance it will ever rain again.

Pope Paul VI will visit this country for the first time in the history of Christianity some 2,000 years old. The Pontiff will make a major address before the United Nations on October 4. His plans have not been explained very elaborately other than speaking at the aforementioned. President Johnson will visit the Pope in New York during his short stay there and I am curious to know if the visit will be returned while His Holiness is in our midst. If he should go to Washington, Emmitsburg very easily could have a surprise visitor.

It has been noted that a surprisingly high number of teenage children still are seen on the streets after 10 o'clock in the evening. One of these nights there will be a surprise roundup and a lot of people, parents especially, will become embarrassed and may feel the wrath of the law. There is a curfew in effect in this Town and from what I hear it will be enforced, let the chips fall where they may.

Breaks Wrist
Norman D. Adams, 60, Emmitsburg, was treated Monday at the Warner Hospital, Gettysburg, for a fracture of his left wrist suffered when a stepladder collapsed while he was painting a ceiling.

The Coast Guard installed or maintained 42,000 aids-to-navigation (lighthouses, buoys, etc.) in 1964.

College Offers Adult Education Classes Here

Three non-credit courses will be offered by the Adult Education Department at St. Joseph College during the 1965-66 school year. Starting Sept. 28, they are Management in the Home, Clothing Construction II, and Interior Decoration. Consisting of eight lectures each all classes are scheduled weekly from 7-9 p. m. and will run consecutively until June, 1966.

The first course, Management in the Home, opens Tuesday, September 28. The lectures on succeeding Tuesdays include "Stretching the Family Income," "Budget Mechanics," "Wise Buying," "Time and Energy Thieves and Tips," "Managing Manpower," "Your Child's Potential and Power" and "Poise and Personality." Switching to Wednesday night, the second course, Clothing Construction II will start on Dec. 1, and will run through March, '66. Clothing Construction I, offered in the summer sessions, is the basis for this series, though is not required of adults wishing to enroll in the second course. A basic knowledge and some experience in home sewing, however, is necessary for registration. Enrollment will be limited to allow each student full access to the necessary equipment. Early registration is urged to assure a reservation.

Interior Decoration, the third series offered, will include demonstrations, a directed home project and study of color, furniture selection and room management. The Wednesday evening classes will start April 6.

The Management and Interior Decoration course fees are \$2.00 each. Because of the laboratory equipment used, the Clothing Construction II fee is \$5.00. Registration for the first course will be held Sept. 28 at the opening of the course in the home economics building. Adults interested in the other courses should send a self-addressed stamped envelope to the Director of Admissions, Saint Joseph College, and request an application blank for the Adult Education Courses.

Girl Scout Leaders Are Named

Miss Mary Marshall, Mrs. Anna Bushman, Mrs. John Cunningham and Mrs. Glen Gillespie, recently attended a basic leadership course conducted by Miss Clark of the Central Maryland Council out of the Frederick County Office, Frederick. This training was given in the Emmitsburg Public Library, and qualifies each to lead a Troop on her own. Miss Marshall and Anna Bushman will be leaders for a new Brownie Troop in Emmitsburg. Plans are being made to begin meetings in early October. Froms are being sent to schools now and should be returned to the schools by Monday if you have a second or third grade child interested in being a Brownie Scout. The Emmitsburg area now has room and leadership for approximately sixteen Brownies in the Existing Brownie Troop led by Mrs. Ralph Lindsay, and 24 Brownies in the new Troop now being formed.

Plans for a new Junior Troop under the leadership of Mrs. Anita Merkle and assisted by Mrs. John Cunningham will get under way in October. Plans for the fly up ceremony and rededication were made this week at the home of Mrs. John Warthen. Those attending were Mrs. Ralph Lindsay, Mrs. John Chatlos, Mrs. Robert Myers, Mrs. John Cunningham, and Mrs. Michael Merkel.

Basic Adult Courses Offered

The Frederick County Board of Education, under the Economic Opportunity Act, is currently offering courses in Basic Adult Education. These courses are designed to improve reading and writing skills of interested students.

Classes will be starting in areas all over the county, about the first of October. Class sizes may range from four students to twenty depending upon the need of individuals.

Anyone interested in attending such classes should contact: Mr. Harold E. Reiley, Adult Agricultural Education, Frederick County Board of Education, phone 662-4191, extension 19.

Revise School Construction

The Board of Education has prepared a revised school construction program for the next five years.

The \$7,190,000 program is changed in costs and dates of completion but the projects are essentially the same as those outlined in a \$5 million bond issue which was sold recently.

Listed as nearly completed with "\$900,000 in additional funds needed already allocated" is the \$7,000,000 Governor Thomas Johnson High School in Frederick, scheduled to be opened next September with a 2,000 enrollment in its high school, two junior high schools and vocational school.

Also listed is the \$2,500,000 Catoctin High School, still involved in a court dispute on the site location, which is scheduled to open on Jan. 1, 1968 with 800 high school students from Thurmont and Emmitsburg.

An \$80,000 addition to the Urbana Elementary School, financed from the sale of old school buildings and grounds except for \$17,000 of the cost, is scheduled to be completed this year, increasing the capacity of this school by 120 students.

The Valley elementary school for which site funds have just been provided by the county commissioners listed at a total cost of \$650,000 for a 360 student capacity, and scheduled to be opened on Jan. 1, 1967.

Frederick High School renovations costing \$250,000 scheduled to be completed by Sept. 1, 1966 are next on the school list, followed by \$50,000 worth of renovations to the Elm Street School, scheduled for completion on the same date.

A Board of Education warehouse is scheduled for completion on July 1, 1966 at a cost of \$100,000.

An addition to the Yellow Springs Elementary School for which architects were just assigned by the Frederick County Commissioners, is scheduled for completion on Sept. 1, 1967 for \$95,000.

An addition to the Lewistown Elementary School containing six classrooms is set for completion on Sept. 1, 1968 at a cost of \$121,000.

A new elementary school in the Old Braddock area with a 480 student capacity costing \$750,000 is scheduled for completion on Sept. 1, 1968.

Another new elementary school in the northeast Frederick City area costing \$750,000 is scheduled for Sept. 1, 1970, possibly to be located on the 20-acre remainder of the Thomas Estate opposite the home of the Frederick Community College on O'Possumtown Pike.

This 480 student capacity school is the first indication of what is to be done with this land, already purchased by the school board and approved by the commissioners for an "undesignated purpose."

This school was originally supposed to be located in or near Monocacy Village on East Street. The Community College is next on the school list, with the site already purchased at a cost of \$65,000 and the buildings scheduled to be completed by Sept. 1, 1970 at a cost of \$500,000.

A new auditorium for the Walk-on the revised schools construction list, scheduled for completion on Sept. 1, 1968 at a cost of \$200,000.

A new building for the Harmony Grove School for the Retarded is to be built at a cost of \$245,000.

Listed as completed is the \$626,000 Carroll Manor Elementary replacing the old Adamstown, Doubs and Point of Rocks elementary schools.

This eleven classroom school with two additional rooms for teaching the emotionally disturbed and for art and music instruction has a total capacity of 390 children, the report says.

The Sabillasville Elementary School, opened this month, is also listed as completed, at a cost of \$600,000 with "all purchases (for this school) not yet posted" and with a total capacity of 241 students in its eight classrooms.

Also listed as completed is the new \$2,700,000 Brunswick High School, opened this year "while not quite completed" to provide relief for the Middletown and West Frederick high schools, and the West Frederick junior high, with a present enrollment of 720 and a 1,200 capacity.

The veteran population estimated at 22.4 million in 1960, nationwide, will decline to 17.8 million by 1980, the VA estimates.

Pastor To Conduct Revival Services

The public is cordially invited to hear Rev. Jack Williams, pastor of First Methodist Church, Sharpsville, Pennsylvania, during Revival Services at the Tom's Creek Methodist Church, Sept. 26-30. The services will begin at 7:30 each evening, Sunday through Thursday. A children's sing-spiration will be conducted at 7:10 each evening.

Rev. Williams has had wide experience in evangelistic work. He is presently serving as District Secretary of Evangelism in his own area, and he has preached revivals in many sections of the nation.

Special music will be provided by the Choir under the direction of Miss Martha Baumgardner and Mrs. Donald Wantz. Visiting soloists will also sing. The pastor is Martin A. Case.

EMMITT HOUSE REMODELED; NOW OPEN

The completely renovated Emmitt House opened its doors to the general public Thursday. Mr. Eugene Gottschall, general manager announced that the restaurant now has a liquor license and that mixed drinks are being served along with palatable meals.

The old building, site of various types of businesses in its time, has been completely remodeled including a new kitchen and equipment, re-arranged diningroom and many other changes. The business will feature a new dining-room patterned after Williamsburg colonial style. There will be private diningrooms for special parties, etc. Last year 12 units were added to the motel section, making a total of 22 units available to the public. The Emmitt House will cater to private parties, weddings, etc.

On October 12 the management will promote a free Pepsi night while offering 10c ice cream. In the near future the Emmitt House will rearrange and remodel the old diningroom.

Seminary Names Vice Rector

Rev. William J. Bartley, S.T.L., a priest of the Diocese of Brooklyn, N. Y., has been named Vice-Rector of Mount Saint Mary's Seminary. Father Bartley was assigned to the faculty by Bishop McEntegart. In addition to his administrative duties, he will also teach moral theology, the history of philosophy, and Greek.

Father Bartley, a native of Brooklyn, received his bachelor's degree in philosophy and his licentiate in sacred theology from the Gregorian University in Rome, Italy. He also studied at the Cathedral College and the North American College there.

At the time of his present assignment, he was serving as assistant pastor at St. Raphael's Parish, Long Island City, N. Y., and as a visiting professor of theology at St. Francis College, Brooklyn.

Troop 1316 Meets

The weekly meeting of Troop 1316 was held on Monday at the Methodist Church. The meeting was opened with the flag ceremony and salute to the flag. An election of officers was held. Maurice Remavege was selected as Troop treasurer; Denise Bouey, Troop scribe; Diane Dutrow, reporter; Pam Topper, Mary K. Sherwin and Shirley Sheeley were selected as patrol leaders.

The girls planned a Halloween party and bake sale for the end of October. The meeting was then adjourned with the friendship circle and taps.

The average man has three colds a year, and these cost industry approximately 90 million working days annually.

Msgr. Phillips Feted By College

The President and Council of Mount Saint Mary's College and Seminary entertained the administration and faculty, their wives and special guests at a reception and dinner honoring Rt. Rev. Hugh J. Phillips, college chaplain and librarian, who was invested in the robes of the monsignori during the summer vacation.

Monsignor Phillips, who was elevated to the rank of Domestic Prelate with the title of Right Reverend by His Holiness Pope Paul last April, was invested at a special ceremony at the Cathedral in Baltimore early in the summer.

The new Monsignor has been associated with Mount St. Mary's since 1922 when he entered as a seventh grade student. He continued his student days through the high school, college, and seminary and was ordained in 1935.

During his career at the institution he has held many posts including that of secretary to the College Council, executive secretary of the National Alumni Association, and most recently director of the National Shrine Grotto of Lourdes.

Rt. Rev. Robert R. Kline, Ph.D., president of the college, introduced the new monsignor to the assembled guests.

Forestry Board Meets In County

Five Forest Conservancy District Board members from Frederick County are participating in the Md. Association of Forest Conservancy District Boards and Departments of Forest and Parks annual meeting, yesterday and today.

The Frederick delegation includes Charles F. Bowers, Frederick, chairman; Jack F. McGolerick, Mt. Airy; Cloyd W. Seiss, Emmitsburg; James V. Shaff, Frederick; and David Young, Middletown.

According to Kenneth Shifflet, extension agent in Frederick County and Nick Pope, extension agent in Washington County, co-chairmen of the state information committee, the program got under way Thursday evening with a dinner and entertainment. Registration began at 3 p.m. at Camp Airy on Catoctin Mountain at about 800 feet elevation and 1 1/2 miles from Thurmont.

Today's program will include a tour of a sawmill where low grade timber is used in making pallets. A trip to the woods will show the visitors road construction and harvesting methods. Luncheon will be at Cunningham Falls State Park. An afternoon tour of a cabinet works and an organ works, where timber products are used, will complete the program.

Gettysburg College To Dedicate New Stadium

Gettysburg College will dedicate its new \$250,000 Musselman Stadium at 1:00 p.m. on Saturday, Sept. 25, in a gala ceremony preceding the opening home football game against Bucknell University. General Dwight D. Eisenhower, Trustee and Honorary Chairman of the Board of Associates of the College, will throw out the game ball. Construction of the stadium was made possible by a quarter-million dollar grant given last year to the College by the Emma G. Musselman Foundation, Biglerville, Pa.

The dedication program will be opened by a motorecade which will take dignitaries and guests onto the field. Included will be members of the Advisory Committee of the Musselman Foundation, representatives of the College, Lt. Gov. Raymond P. Shafer, representing Governor Scranton for the Commonwealth of Pennsylvania, and General Eisenhower.

They will witness, along with an expected capacity crowd, the flag raising by members of the College Army and Air Force ROTC detachments followed by the presentation of the key to the stadium to President C. A. Hanson by a member of the Advisory Board of the Foundation.

Mrs. Charles Linn, Mrs. Guy Warren, Mrs. Carroll Frock, Sr., and Mrs. Raynor Stambaugh, visited Saturday and Sunday at the New York World's Fair.

From 1700 to 1798, eight Coast Guard Cutters, ranging in size from 40 feet in length down, were the nation's sole naval force.

DR. CADLE DESIGNS MEDICAL MACHINE

The Annie M. Warner Hospital, Gettysburg, has taken a long step forward in its service by creating a centralized intensive care unit.

In a report to the board of directors last week at the regular monthly meeting, the building and grounds committee and the medical staff described the new three-bed unit and its value as a patient care factor.

Dr. H. F. Marbach, president of the medical staff, and Dr. C. H. Johnson, hospital pathologist, told the board that while the project of creating the intensive care unit was directed by a staff committee, the major credit belongs to Dr. W. R. Cadle, who served as a "one-man research committee" for the staff and was largely responsible for the fine result.

"Dr. Cadle visited hospitals in central Pennsylvania, Maryland and the Eastern Shore with the result that the Warner Hospital has an excellent unit that completely fulfills its needs and is so equipped that everything necessary for intensive care can be brought to the patients almost instantaneously," they said.

Charles Ritter, chairman of the building and grounds committee, presented recommendations of his committee, which were unanimously adopted, to provide funds for the final outfitting of the portable vehicle, designed by Dr. Cadle, making the intensive care unit virtually a hospital in itself.

K of C Officer Installation Held

The annual installation of officers of Brute Council 1860, Knights of Columbus, was held Monday evening at the regular meeting of the Council, Grand Knight Arthur Hilder presiding.

The installation was made by District Deputy Paul A. Keepers and District Warden Carl A. Wetzel. During the business meeting it was announced that Robert A. Seidel and Ray Lauer would head the committee for the Knight of the Year Banquet to be held in early November. Nominations for the Knight of the Year Award were made at the meeting and the results will be made known at the annual banquet.

VFW AMBULANCE

Mrs. Violet Wastler, E. Main St. and Miss Edith Martin, R2, were transported this week to the Warner Hospital, Gettysburg, in the VFW ambulance. Leo M. Boyle was the driver.

Harvest Home Service Sunday

The annual Harvest Home Service at Incarnation United Church of Christ will be observed at the 10:45 a. m. Worship Service this Sunday, Sept. 26.

The chancel of the sanctuary will be decorated with corn stalks and a variety of fresh, canned and packaged produce brought by members of the congregation. All of the produce will be given to the Homewood Church Home, Inc. of the United Church of Christ. It will be taken to the Pearson Unit of the home located at Williamsport, Md.

Homewood Church Home, Inc. now has 250 residents within its three units at Williamsport, Md., Hanover and Carlisle, Pa. A new wing at a cost in excess of \$500,000 was recently added to the Pearson Home which will more than double its present capacity. This addition provides for 54 more single rooms and eight double apartments, increasing the capacity of the Pearson Home to 130 residents.

Dr. Ben M. Herbst of New York City, president of the denomination, spoke at the dedication of this new wing on Sunday afternoon, Sept. 12.

The various classes of the Sunday School of Incarnation Church have been requested to bring specific items which can be used to advantage by the aging guests of Homewood. These items will be brought to the chancel of the church by members of each class as part of the Harvest Home Dedication. Incarnation Church will be open all Saturday afternoon and evening for those members who desire to bring their produce the day before the Harvest Home Service.

The theme of the pastor's sermon at the service will be "Full Harvest, But Few Workers." Everyone is cordially invited to attend.

Expects Charnita To Boom Economy Here

The president and developer of Charnita, Inc., Charles G. Rist, was the guest speaker before the Gettysburg Kiwanis Club this week.

Edward Grout, public relations director for the fabulous resort located about three miles from Emmitsburg, introduced Rist who stated he already has committed more than a million dollars in the development.

The first major project, the 18-hole PGA-approved golf course, will be finished this week said Mr. Rist, and the ski facilities will be ready by December. Rist referred to the proposed ski facilities as "the finest within 150 miles of the Baltimore and Washington area." He said he has committed \$675,000 to the development of this project and the machinery installed for making snow will be the most elaborate in capacity in the world.

"Three to four thousand guests and patrons are anticipated per day during the skiing weekends this coming season. This project alone is expected to bring over one million dollars into this area's economy per year," he said. With the hiring of a permanent staff of 200 by the end of next summer, the entire development at Charnita will provide a \$2,500,000 increase to local economy, he estimated.

The owner invited all to attend ski instructions by Cliff Taylor from 3 to 9 p. m. Saturday. Taylor has the reputation of being able to teach anyone to ski in one day, Rist said.

Library Board Names Directors

At a recent meeting of the Board of Trustees of the Emmitsburg Public Library, the resignation of William Ryder as a member of the Board and as its Chairman, was accepted with regret by the members. Mr. Ryder has served as the Chairman since 1962 and has been on the Board since its reorganization in 1961. Under his leadership the library has grown in the number of books on the shelves and in the size of the room itself. He was untiring in his efforts on behalf of the library and gave much of his time to its development. The Board members, in expressing their regret at his leaving, had highest praise for his leadership during the past years, and wished him well in his new home and work.

At the same meeting two new members were added to the Board. Mrs. John Richards and Professor Patrick McGucken were welcomed by the other board members. They will each serve for a period of two years. They were chosen to replace Mrs. William Carr and John Wagerman, whose terms of office expired and who did not wish to be on the Board for the present because of the press of other duties. Mrs. Carr is president of the Emmitsburg Public High School PTA for the coming year and John Wagerman is a student at Mt. St. Mary's College.

Mrs. John Warthen was employed for another year as the librarian and Mrs. Vernon Keilholtz as the assistant librarian.

Yearbook Work Continues

Work on the '66 Liner of Emmitsburg High School is progressing at an increasing rate.

To wind up this year's advertisement section the yearbook staff wishes to remind the townspeople of the door-to-door patron rally scheduled for tonight, Friday, Sept. 24, at 7 o'clock.

As recognition of their generosity all donors will have their names printed in the yearbook.

Back the Seniors with your support! They are doing their best to present a well-rounded picture of their school's activities.

BOY SCOUT MEETING

There will be a meeting of the Parents of Boy Scout Troop 234 Sunday evening at 8 p.m. in the VFW Annex. Parents who are interested in the Scouts or who are perhaps thinking of leaving their sons join the Troop, are also cordially invited to attend this meeting.

Within one year following World War II the U. S. Marines demobilized from 500,000 to 100,000 men.

Rocky Ridge Items Of Interest

Mr. and Mrs. David Stonesifer, Mr. and Mrs. Jack McLaughlin, Dale and Beckie, Taneytown, were recent guests of Mr. and Mrs. Edgar Troxell.

Mr. and Mrs. Easton Kauffman, Carlisle; Mrs. Birdie Fox and Mrs. Daisy Simpkins, Emmitsburg, were recent guests of Mr. and Mrs. Charles Wanz.

Mr. and Mrs. Percy McKay attended recently the wedding of their granddaughter, Carol Ann McKay, Taylorsville, and Richard Austin Ambrose, Gaithersburg, held in the Methodist Church, Taylorsville. A reception was held at the home of the bride.

Recent guests in the home of Mr. and Mrs. John Hahn were: Mr. and Mrs. Charles Yeager and

son, Newton, New Market; Mr. and Mrs. Edgar Welty, Diane and Barry, and Mrs. Hilda Snook, Diane and Pamela, Adamstown; Mrs. Cora Weant, Taneytown; Mr. and Mrs. Leon Stine and daughter, Linda, Mr. and Mrs. Howard Welty, Larry, Ronnie and Harold, Frederick; Mr. and Mrs. James Welty and daughter, Lennis, and Robert Delphy, Keymar.

John D. Kaas attended the quarterly meeting of the Central Section of the Holy Name Society held recently at St. Mary's School, Hagerstown.

Mr. and Mrs. Earl Plummer visited on Sunday with Mr. Cecil Barksdale, who is a patient in the Alexandria Hospital, Va.

Recent guests of Mr. and Mrs. Howard T. Miller were: Mr. and Mrs. Waldon Miller and family, Lansing, Mich.; Mr. and Mrs. Howard I. Miller, Rockville, and Miss Edna Miller, Washington.

James R. Motter and son, Jon, Mercersburg; Mr. and Mrs. G. Edwin Motter, Gardners, were recent guests of George Motter.

Mr. William Groff spent two days at the York Fair.

A party was held recently at the home of Mr. and Mrs. Sterling Burrier in honor of the third birthday of their daughter, Brenda Jean. Those attending were: Mr. and Mrs. William Grabill, Mr. Clarence Burrier, Paul Burrier, Bobbie, Joan and Bonnie; Mrs. Norman Burrier, Connie and Barry; Mr. and Mrs. Harry Boyer and Carol Ann; Mr. and Mrs. John Renner and Beverly; Mr. and Mrs. Eldred Boyer, Mr. Donald Hoff, Donnie and Douglas; Sharon Sharer; Mr. and Mrs. Sterling Burrier, Terry and Brenda.

The loan maturity date will be July 31, 1966.

Dean J. Sprague, Director of Student Procurement, Mount St. Mary's College attended a special college and university day for the Diocese of Johnstown - Altoona which was held at St. Francis College, Loretto, Pa. Over 60 colleges and universities were represented at the one day affair which was sponsored by the Department of Catholic Education under the direction of Rt. Rev. Frank A. McNelis, director.

Mr. Sprague also visited high schools in the Pittsburgh area before returning to the college. Applications for the freshman class of 1966 are already being received by the college.

1966. The loan maturity date will be July 31, 1966.

Dean J. Sprague, Director of Student Procurement, Mount St. Mary's College attended a special college and university day for the Diocese of Johnstown - Altoona which was held at St. Francis College, Loretto, Pa. Over 60 colleges and universities were represented at the one day affair which was sponsored by the Department of Catholic Education under the direction of Rt. Rev. Frank A. McNelis, director.

Mr. Sprague also visited high schools in the Pittsburgh area before returning to the college. Applications for the freshman class of 1966 are already being received by the college.

Graveside services were held Tuesday afternoon at 5:30 o'clock for Bonnie Marie Bushman, infant daughter of Charles W. and Sylvia Springer Bushman, Emmitsburg, who died Tuesday morning at 5:30 o'clock at the Warner Hospital, Gettysburg. The child was born on Sunday.

In addition to the parents, these grandparents survive: Mrs. Minerva Springer, Thurmont R2, and Mrs. Charles Bushman, Emmitsburg R3.

The services were conducted in

Mountainview Cemetery, Emmitsburg, by the Rev. W. Ronald Fearer, Lutheran pastor of Emmitsburg. The Wilson Funeral Home, Emmitsburg, was in charge of arrangements.

Receives Diploma
Mrs. Patricia Penn, the former Patsy Ban Brakle, daughter of Mr. and Mrs. Clarence Van Brakle, Emmitsburg, has received her diploma from the National School of Los Angeles, Calif., through McCall's Magazine.

OFF AND RUNNING by John I. Day

Best Sellers?

William S. Evans, General Manager of the Sales Division of the Keeneland Association, may have made the understatement of the year when he said that the yearlings by the imported stallion Ribot "will command considerable interest" when they enter the sales ring at Keeneland this week. The 3-year-old performance of Ribot's sons, Tom Rolfe and Dapper Dan, would be enough to attract attention to his get, but the likelihood that these may be among the last of his yearlings offered at auction here will sharpen the bidding.

Ribot was brought to this country on a 5-year lease, at a cost of \$1,350,000, by John W. Galbreath, owner of Darby Dan Farm. The lease was up this month, but, as this was written,

efforts were under way to extend it. Twice the winner of France's Prix de l'Arc de Triomphe, and unbeaten in fourteen other races in France, Italy and England, Ribot was the leading sire in England in 1963 on the strength of one crop of foals.

The Ribot yearlings scheduled to go under the hammer at Keeneland are: two colts, one consigned by Tom Gentry, the other to be sold by Robert Lehman, and a filly from Leslie Combs' Spendthrift Farm. The famed Saratoga Sales, August 10 through 13, will offer another Ribot colt consigned by Mark Leach. Four Ribot yearlings sold last year brought an average of \$16,250 each, which may prove to be bargain prices.

Local Scholarships

Three college scholarships worth up to \$2,000 each will be made available again this year to area high school seniors through the Potomac Edison System Scholarship Program. The opening of the 1965-1966 competition was announced yesterday by F. T. Dunham, Taneytown, local manager of the Potomac Edison Company, a subsidiary of the Potomac Edison System.

Dunham pointed out that previous winners of Potomac Edison System Scholarships include John W. Kaufmann, Jr., a 1965 graduate of Francis Scott Key High School, who is now a freshman at Massachusetts Institute of Technology, Cambridge, Mass.

Two of the scholarships will go to students whose parents or guardians are customers of one of the PE System companies, and one scholarship will be awarded to a student whose parent or guardian is a company employee. The competition is open to students of all high schools throughout the area served by the Potomac Edison System.

Soybean Prices Announced

Prices for 1965-crop soybeans in all Maryland counties will be supported at \$2.24 per bushel for soybeans grading No. 2 containing 13.8 to 14 per cent moisture, James M. Voss, Chairman, Maryland Agricultural Stabilization and Conservation State Committee, has announced. This compares with the rate of \$2.23 per bushel for 1964-crop soybeans. Terminal rates are not established for soybeans.

The higher rates for the 1965 crop are the result of higher market prices in recent years in relation to the U. S. average. Greater crushing capacity and larger export demand have brought about the changed market price relationships.

Premiums and discounts are unchanged from those prevailing for the 1964 crop.

Eligible producers may receive price support on their 1965-crop soybeans through farm-stored loans and purchases. Applications for support may be made at the ASCS County Office. Loans will be available through June 30,

Garden Club

To Donate Flowers

The Silver Fancy Garden Club met on September 16 at the home of Mrs. Margaret Alexander in Taneytown with 10 members present.

Miss Liza Carpenter, president, conducted the business meeting. The Club voted to furnish plants for the various schools as has been done in the past.

Miss Carpenter and Mrs. Robert Clingan were in charge of the program entitled "Garden Gimmicks" which involved care and preparation of house plants for the winter. Mrs. Andrew Eyster reported on the Blue Ridge Garden Club Flower Show which was enjoyed by many of the Silver Fancy Garden Club members.

Tea was served by the hostess and cohostesses, Miss Carpenter and Mrs. Robert Clingan.

The next meeting will be held on October 21 at the home of Mrs. Edward Richardson in Littlestown, Pa., with Mrs. Allen Feeser and Mrs. Hewitt MacPherson assisting.

EMMITSBURG — MARYLAND

Futuristic innovations in the 1966 Thunderbird include an overhead console, top; fingertip operated Highway Pilot Control, center; and Stereosonic tape player, bottom. The overhead console — standard in Town Landau and Town Hardtop models — includes warning lights for low fuel, door ajar and fasten seatbelts, as well as an emergency flasher switch. The Highway Pilot speed control permits the driver to set, reduce and resume cruising speed simply by touching buttons located on the steering wheel. Each Stereosonic tape player cartridge provides up to 80 minutes of stereo music ranging from Broadway to the concert hall. Four speakers are located strategically to bring the full stereo richness to driver and passengers.

And the Word became flesh, and dwelt among us—(John 1:14)

Lord Christ, here is our mind. We open wide our minds to you. Think through our mind your holy thoughts. Lord Christ, fill our minds with light. Lord here are our eyes, ears, voice, heart, hands and flesh. Shine in all Thy glory through them, that all may see Thy presence in us. Lord Christ, take complete possession of all our being.

New-Style Cab Leads
'66 Chevrolet Truck Line Features

New in Chevrolet's 1966 truck line is this short cab for many heavy-duty models. Aerodynamically styled for low air-resistance, its short length gives improved load-weight distribution, yet retains adequate driver room and comfort. Many panels are easily removable for access to the chassis or for damage replacement. Other features of the 1966 line include a new three-ton series with payloads up to 17 tons, six new engines, a three-speed automatic transmission, and several safety items as standard equipment. The line has been expanded to 366 models.

YOUR FEDERAL INCOME TAX

The Emmitsburg Chronicle, in cooperation with the Internal Revenue Service, Baltimore District, will publish each week in this column, tax information that will enable taxpayers to become more familiar with the Federal income tax laws. Clip and save for future reference.

Questions And Answers

Q. For the past few years, my income, expenses and deductions have been fairly constant. However, each year I invariably get a call from your office and have to bring down my records to substantiate the amounts I have listed as deductions. If you accept my figures one year, why can't you accept them the next year when there has been little change?

A. If your return is audited every year it is probably because you either are in the upper income brackets or claim substantial deductions. The government cannot assume that because you had large medical expenses three years in a row or gave generously to charity for the same period, that you also had these expenses last year.

Q. I made a profit on the sale of some rental property I own. Do I have to pay tax on the gain this year? Actually, I don't have the profit now since the buyer is paying me over a ten-year period.

A. If you qualify, you may report the gain on the installment plan. Under this method, the gross profit on a sale is prorated over the period which payments are received. This method can be used only if the seller received no payments, or payment of 30 percent or less of the selling price, during the year of the sale. Make careful note of payments you receive from the buyer so that at the end of your tax year you will have the information necessary to report the sale on your return. For further information consult your district director's office.

Q. The deductions that were disallowed when my return was audited were put in by the fellow I paid to do my return. Actually, I wasn't aware of them until your agent pointed them out to me. Is there anything I can do to get back at the fly-by-night who prepared my return?

A. The taxpayer is legally responsible for all the information on his return no matter who helped him prepare it. Your experience indicates the value of using only reputable and trustworthy advisors when looking for help on a tax return. Further, when help is used, the taxpayer should carefully check every item before signing his return since he is responsible for its accuracy.

Q. I lost my refund check. What can I do?

A. Report your loss to your local Internal Revenue Service office. They will tell you how to go about making a claim for a duplicate check.

Q. We've been using a gardner this summer and my neighbor tells me that we should be paying Social Security tax for him. Is that right?

A. If you pay the gardner \$50 or more during a three-month period you are required to report wages and pay Social Security taxes on them. This will be the case for any person you hire to perform services for you about your home.

Details on your responsibilities as an employer are described in Circular H, "Household Employer's Social Security Tax Guide." It is free and may be obtained from any local Internal Revenue office.

Q. I just got married. Do I have to make any changes in the amount being withheld from salary for income tax?

A. No. Whether you decide to decrease your withholding by taking an exemption for your wife is up to you.

Many persons take fewer exemptions than they are entitled to for withholding purposes. This will either entitle them to a refund or reduce the amount of tax they have to pay at the end of the year.

When you do not take an exemption for withholding purposes, it does not mean that you will not be entitled to claim the exemption when you file your return.

For further information contact your local Internal Revenue Service office.

Thirty-five of the 50 states will have net migration losses of war veterans between 1960 and 1980, the VA estimates.

LEGAL

EXECUTORS' NOTICE

This is to give notice that the subscribers have obtained from the Orphans' Court of Frederick County in Maryland, letters testamentary on the estate of RUTH B. GILLELAN late of Frederick County, Maryland, deceased. All persons having claims against the deceased are warned to exhibit the same, with the vouchers thereof, legally authenticated, to the subscribers, on or before the 6th day of March, 1966, next; they may otherwise by law be excluded from all benefit of said estate. Those indebted to the deceased are desired to make immediate payment.

Given under our hands this 30th day of August, 1965.

BABSON

Writes . . .

BY ROGER W. BABSON

Babson's Point Of View On: Mississippi River's Unknown Discoveries

BABSON PARK, Mass., Sept. 23 — Every place and every thing has its advantages and its disadvantages. Many times we have been asked where are the best places to live in the United States. Among favored spots we have mentioned is Baton Rouge, Louisiana. Yet it was only a few days ago that the latest hurricane wreaked tremendous losses on the people of New Orleans. New Orleans is only a few miles from Baton Rouge. Certainly this must look peculiar to the many people to whom we have mentioned favorably the city of Baton Rouge. However, we still firmly believe in that city.

Do Not Overlook The Value Of The Mississippi River

The greatest drainage area in the United States is along the Mississippi River. Three quarters of the rain which falls on the U. S. brings something of value to the states of Louisiana and Mississippi and adjoining territory. The Mississippi brings down to the Gulf of Mexico the best loam in the United States. This loam has made a most valuable soil, which is now being developed by thousands of citizens whose ancestors settled on this peninsula. First they cut down the woodland and then they retrained certain lands that were suitable for farming. And the richest land in the United States is between Baton Rouge and New Orleans. Yet in reading about the latest hurricane "Betsy," a person might think that this section of the United States would be a dangerous place to invest money. We believe this would be a distorted point of view.

Most people invest only in what they see. Although this is a trait that all of us have to a certain extent, it unfortunately means that too many will discover only what hits the headlines. This is especially true today concerning what is coming down the Mississippi River every day and every night. The most valuable soils in the whole nation—being washed down the Mississippi River—contains certain minerals and chemicals which have still undiscovered powers for nourishing and revitalizing the human body. Millions of people may one day be strengthened by this now untapped wealth. Greatest Discoveries Yet To Come

We have recently been reading a book entitled "Scientists Behind The Inventors," by Roger Burlingame. The first chapter traces the remarkable story of Madame and Pierre Curie and tells what they accomplished in their "woodshed". They were the discoverers (not inventors) of radium. The book also describes the work of William C. Roentgen, who discovered the X ray. This ray was emitted by a Crooke's Tube. The tube was covered with opaque paper, and Roentgen observed fluorescences on a screen some distance from the tube. This radiation he called X ray.

Today, other unknown chemicals may be coming down the Mississippi River and going into the Gulf of Mexico which have unknown powers for helping millions of people in poor health. When this is mentioned to certain professors and holders of "doctors' degrees", they frequently respond by claiming that if many more valuable unknown substances were likely to be available from America's greatest river, they would have described them in scientific and other magazines.

What We Learned At College
We learned many things when in college . . . but the principal thing was that there are more valuable resources unknown today than there are known. This could well apply to what is being washed down the Mississippi River and going to waste in the Gulf of Mexico.

We still feel that great discoveries lie ahead for the drug companies. Even though the stocks of such concerns are very high, they surely have appeal for "the long pull". Who knows what opportunities will be found by the drug companies that examine the components now going to waste in the Gulf of Mexico. Baton Rouge will overcome the losses given by "Betsy". It may well grow to be one of the richest and most useful cities in these United States. We advise owners of land in this part of Louisiana not to be discouraged. Think of the way Florida has suffered in the past

from successive tropical storms . . . and of how she has risen each time to new heights of prosperity.

YOUR PERSONAL HEALTH

Polio Vaccine

Have you kept up your immunity against polio?

Today's Health, the magazine of the American Medical Association, cautions: Do not be lulled into a false sense of security in controlling this paralyzing disease because of the overwhelming success of Salk and Sabin vaccine. These vaccines have not eradicated the viruses which cause polio. Rather, like all vaccines, they trigger the body's defenses to build up antibodies which can combat the viruses if they should gain entry into the body.

All persons who have not been properly immunized against polio are still vulnerable to attack. This includes two-thirds of pre-school age youngsters, who have not received full protection.

Three viruses which cause polio have been identified. Both Salk and Sabin vaccines protect against all three.

The Salk vaccine is administered in a series of injections, three about six weeks apart and a fourth six months or more after the third. The Sabin vaccine, taken by mouth, is given in three doses, six weeks apart. Either vaccine may be given to infants at a very early age. All expectant mothers should be vaccinated, as they are particularly susceptible to polio.

Although polio is primarily a childhood disease, it also can strike adults.

Even persons who have had polio from one type of virus remain susceptible to additional attacks from the other two viruses. There are very few polio cases recorded in the United States in the past year or two, so few that many individuals have become negligent in obtaining proper immunization.

Don't let the small number of cases lull you into a false sense of security. If polio should strike your family, it would be a tragedy no matter how few others were stricken. Don't take a chance, even a slim one. Check with your doctor regarding immunization against polio for you and your family.

Social Security News

Sometime during the last two weeks of September, residents who get monthly social security benefits will receive an extra special envelope in the mail, according to W. S. King, Social Security District Manager in Hagerstown. This envelope will contain a special social security benefit check, representing a 7 per cent increase in cash benefits for the month of January 1965 through August. The monthly benefit increase is part of the 1965 amendments to the Social Security Act, which recently became law.

Early in October, beneficiaries will receive their first regular

check at the increased rate. This will be the social security benefit for September. Each month thereafter, the check will be in the new amount.

Mr. King stressed that there is no need for a beneficiary to get in touch with the district office when the special check arrives. The amount of the check will be for the difference between the old and the new benefit rate for the period January through August, and will not be in the same amount as their regular monthly check.

The Coast Guard's first cutter, the "Massachusetts", was launched in 1791.

COLD STATISTICS . . . SPEED KILLS!!!

Speed is a killer on American Highways! Regardless of how safe a driver you believe you might be, in case of a mechanical failure, human shortcomings, or some slight misjudgment, the speeding driver can almost certainly become involved in a fatal accident. Cold hard statistics have proven this point many times over the nation. Most all automobile operators think of themselves as careful drivers. But, when an accident does occur, it is speed that always kills. Our citizens today are granted an operators license for driving vehicles on our highways. This is a privilege and not a right to endanger the lives of our fellowmen. All persons driving vehicles on highways are urged to drive at a careful and prudent speed. They should not drive greater than nor less than is reasonable and proper, having due regard to the traffic surface, width of the highway and other restrictions or conditions that may exist.

Nobody should drive any vehicle at such a speed as to endanger the life, limb or property of another person. No motorist should drive at a speed greater than will permit him to bring the vehicle to a stop within the assured clear distance ahead. True, each and every State has specific speed limits for various types of highways. This does not mean that every motorist can and should drive at that maximum speed under all conditions. For each of us the answer lies in having a thorough knowledge of our traffic and motor regulations. But this is not enough. This knowledge must be coupled with good common sense plus a willingness to realize that our driving privileges must be shared with thousands of additional drivers each year.

SPORTS AFIELD

By Ted Kosting

The two-man camp is highly mobile. It can be set up and struck easily and rapidly. The equipment and gear are lightweight, workable and feasible. The total equipment aggregate is ideally adaptable for routine transportation methods such as automobile/pickup and four-by-four; canoe and other small-water surface craft (even inflatable rafts); light aircraft; trail cycles and conventional motorcycles; horsesback without the need of an added packhorse; and, finally, it can be carried on the camper's own back by means of a pack frame or packboard.

The maximum weight of the versatile two-man package should never exceed 50 pounds for two, exclusive of food, which would figure to 25 pounds of outside weight for one person's share of the gear, including pack frame or saddlebags.

The two-man shelter should be fabric, and a good all-around choice is one of the new two-man

mountain tents. These are widely available, but make sure the one you buy is tough, long-lasting, extremely lightweight and of a size to accommodate two adults and their gear. The front should open for campfire enjoyment, and the tent should have a small canopy, be bug-proof and have a waterproof floor.

Cooking and eating equipment should be nested kits of light alloy. Grub will be mainly the new freeze-dry meals, freeze-dry entrees and dehydrated foods—amplified with items like the excellent latest dry milk, fruit drink, instant coffee or tea, candy and so forth.

The old notion of going out with a handful of beans, rice, cornmeal, oatmeal and a slab of sowsbelly is romantic and nostalgic. It sounds like fun, and it is fun. But, nutritionwise, the new foods have it all over the old to such a degree that it's ludicrous to compare the two. "Never seriously consider augmenting the menu with game, fish, fowl, berries, mushrooms or other plants," stresses John Jobson, Camping Editor of Sports Afield Magazine. Garner and harvest what comes your way, of course—but plan to subsist on what you bring with you, and you can't go wrong!"

Entirely new styling of the 1966 Fairlane is dramatically displayed in the photo of the Fairlane 500/XL 2-door hardtop, above, and the Fairlane GT convertible, below. Indicative of the broadened family and sports appeal of the 1966 Fairlane is the new model selection — four series instead of two and 13 models instead of eight. The two new Fairlane series — the Fairlane 500/XL and the Fairlane GT — are available in convertible and 2-door hardtop models designed for sports- and luxury-oriented customers. Simulated hood louvers and the famed Ford GT racing stripes above the rocker panel are among distinguishing features of the Fairlane GT. All 1966 Fairlanes will be in Ford dealer showrooms beginning October 1.

TODAY'S Meditation

from
The World's Most Widely Used
Devotional Guide

The Upper Room

© THE UPPER ROOM, NASHVILLE, TENNESSEE

Read Psalm 84.
Blessed is the man whose strength is in thee; in whose heart are the ways of them. (Psalm 84:5).

Once I visited a sick man whom the doctors had told that his days on earth were soon to end. I thought it would be difficult to

comfort and encourage him under those circumstances. But my experience in the hospital room turned out to be quite different.

Without any trace of sentimentality or self-pity, the man said: "I have not long to live, but I am content and trustful. I have laid everything in God's hands. He will guide me home." He had no fear of death, just a radiant expression on his face. I left the room with a stronger faith and with evidence of the truth spoken by the psalmist, "Blessed is the man whose strength is in thee."

Soon after we attended his funeral, but to me it was like a triumphant journey into eternity.

Blessed are those who know the fullness of life with Christ. Their lives are meaningful and happy. Their evenings are filled with light, and their entrance into eter-

nity is a journey of triumph. They go from strength to strength, from joy to joy.

Prayer
Our heavenly Father, we bring Thee thanks for peace of heart and inward assurance that we are children of Thine. We are grateful for the joy of life in Thy Son. Lead us into a deeper fellowship with Him. In His name. Amen.

RALPH F. IRELAN, Mayor

New Johnson & Evinrude

The lide is off the new outboard motors now. The rumored horsepower race is fully established. The big three of the outboard business have all expanded their larger motors by a few horses. The top models in the Johnson and Evinrude lines are now 100 hp, a bump up of 10 hp from the top-of-the-line models in the 1965 lines.

Increased horsepower may be of interest to the cruiser and high speed runabout fans, but there's even better news for the fishermen. Evinrude's three 3 hp models, the Lightwin, Yachtwin, and Duckwin, are now available in folding models. That's what it said—folding. The lower units on these little kickers are hinged to fold up into a locked recess on the motor cowl, making them 15 inches shorter in the folded position. To top it off, they come with carrying cases for compact storage and easy portability. A spring loaded retainer holds the lower unit folded against the motor cover. When this is unlocked, the lower unit swings into position. It is then secured to the gear case by two swivel fasteners that can be tightened by hand. There's a spring loaded coupling at the drive shaft joint so the two parts will always mate without trouble.

For those who use this size motor as an auxiliary on their sailboat, the long shaft versions of these motors will be "take apart" motors. Instead of a hinge pin to let them fold, there is only the two fasteners. When these are loosened, the gear case simply slips off and the two parts can be stored aboard wherever there is space.

Johnson, in addition to the 100 hp V-block engine, has boosted the output of its 75. This engine now produces 80 hp as a result of carburetion and exhaust system changes as well as stepped up compression.

The third, and last of the new horsepower classes from Johnson this year is a 20 hp motor that should give a little more performance than last year's 18. From the Evinrude camp, the word is that the new 100 hp Starflite-S is the first outboard to mate a power plant with completely tuned exhaust to a new system of lower unit efficiency. Evinrude engineers have taken the principles of tuned exhausts used in racing engines, but have kept the stacks inside the shroud. The tuning is achieved by applying the proper diameter and length to the inner exhaust tube

in the lower units. The new lower unit with a 16:28 gear ratio has a low profile for minimal drag at speeds over 50 mph (below, too).

If you've been worried about noisy gears frightening fish, the 5 hp Angler should solve your problems. It's got a pinion gear that sits on a nylon pad which rests on the prop shaft to keep things quiet down below.

Maybe you've never had anything stolen off your boat. You're lucky. There are increasing reports each year of gear being lifted off of moored boats, and if you think about it, what better target for a thief than a boat, loaded with equipment, bobbing on its mooring in a quiet cove with no one around to keep an

eye on it. Boat thieves are getting pretty sophisticated, too. Some have found they can don scuba gear and quietly swim up to a boat without a soul seeing them. They then proceed to strip the boat and dump their loot into a net bag or canvas sack, disappearing under the surface of the water to quietly make good their escape.

You can park your car, roll up the windows, and lock the doors and be fairly sure that everything will be there when you return. But there's hardly a boat around today that you can do the same with. If your boat doesn't have a really secure, lockable storage compartment, it might be wise to remove any expensive equipment when you leave the boat for the night, or for the week. This is particularly true if you moor it in a cove or in front of your summer cottage. You get a little more protection if you leave your rig in a marina, but even the best, well guarded marinas are not burglar proof.

Just because your outboard motor is big and heavy, don't be fooled into thinking it's theft-proof. If you can't take off the transom easily when you tie up for the week, insure that it will still be there next Saturday by getting a stout, long shank lock that slips through the handles on the transom clamps. This lock will also help prevent the clamps from vibrating loose.

Even if the thief doesn't or can't take the expensive items off your boat, it's still a danged nuisance to arrive Saturday morning and find you've got to go shopping for a ski tow line, or an anchor, or cushions, or a pair of skis before you can set out on your trip for the day.

So secure your gear well before leaving your boat. It makes good sense.

The word "scuttlebutt" is a Navy word with two meanings: (a) water fountain, (b) gossip.

Finishes Basic

Pvt. Dorothy G. Brown, daughter of Mr. and Mrs. Hubert R. Brown, R1, Thurmont, completed eight weeks of basic military training at the Women's Army Corps Center, Fort McClellan, Ala., Sept. 17. During the training Private Brown received instruction in Army history and traditions, administrative procedures and military justice. She is a 1965 graduate of Walkersville High School.

Emmitsburg High School Activities

By George Richardson
With the first soccer game of the season coming up Sept. 28 the Liners at Emmitsburg High are practicing hard and steady every afternoon. The boys on the team seem confident that despite some new changes in the rules of play they will be ready to fight for the Frederick County soccer championship.

Some of the more promising sophomores who are joining the squad are Ronnie Bell and George Baker at fullback, Steve Wivell at halfback and Richard Masser at forward. Also working hard are Jimmy Seiss and Stanley Andrews; both are Juniors who are out for the first time.

"We probably will be playing with a 4-3-3 defense all year" says Coach George Kuhn. This year's schedule is as follows:

- Tuesday, Sept. 28 — Smithstown, 2:15 p. m.*
- Thursday, Sept. 30 — Middletown, 2:15 p. m.*
- Monday, Oct. 4 — Linganore, 2:30 p. m.
- Thursday, Oct. 7 — Middletown, 2:30 p. m.
- Monday, Oct. 11 — Thurmont, 2:15 p. m.*
- Wednesday, Oct. 20 — Brunswick, 2:30 p. m.
- Saturday, Oct. 23 — Mercersburg, 2:00 p. m.
- Monday, Oct. 25 — Walkersville, 2:15 p. m.*
- Thursday, Oct. 28 — M. S. S. D., 2:30 p. m.
- Wednesday, Nov. 3 — F. Scott Key, 2:15 p. m.

*Home games
Coach Kuhn has said there is "a lot to do before our first game." With the first two games at our school this year, we would like to invite the general public to come out and see and cheer our team on.

Meanwhile over in our Girls' Athletic Department, Field Hockey reigns supreme. The girls are preparing to go to scrimmage at Taneytown High on Sept. 24 and at Francis Scott Key High. These scrimmages will, as Coach Helen Reid says, "help prepare the girls for their big "Sports Day" on November 4 at Linganore High. Next week we'll have the team and schedule listed for the girls' hockey at "Sports Day."

Thurmont P. O. Broken Into

Nothing was apparently disturbed late Friday night or early Saturday when the Thurmont Post Office was broken into.

Chief Clarence Hagelin of the Thurmont police said a small section of glass had been broken out at the front of the building and nothing of value was discovered inside. Postal inspectors said that mail behind a counter had not been touched.

Police said it was several hours before the break was reported, because postal workers thought that the glass was broken by children.

An investigation is continuing by Chief Hagelin, Officer Joseph Kuhn, of the Thurmont police and postal authorities.

Ford PP&K Contest Coming

Scores of the Emmitsburg and Thurmont winners will be compared with other winners to determine the six best scores in each of 362 Ford Zones, or 2,172 zone winners in the annual Past, Punt and Kick Contest sponsored by Sperry Ford Sales to be held in October.

The next stop for these zone winners will be competitions in each of the 37 Ford Districts where 222 District champions will receive trophies. All 222 district champions will attend an NFL game (with their fathers) to compete for area champions. All area champions will travel to division events at two NFL cities to compete for 12 division championships.

The finalists, six from the NFL eastern division and six from the NFL western division, will get to go (with both of their parents) on a "Tour of Champions" to Wash., D. C. Following that the 12 finalists and their parents will travel to the annual NFL Play-off Bowl game at which they will compete for national PP&K championships.

The Punt, Pass & Kick competition is sponsored nationally by Ford Dealers and the National Football League.

Let's Ask The Price
"Price-tag" legislation, something fairly new in state government financing but simple and effective in its watch-dog results, was described and recommended in an article in the Reader's Digest (October, 1964) for the various states. It was first used by Wisconsin in 1957 and has since been enacted with variations in a dozen states. It well could be employed in the others. In fact, one wonders whether proposed federal laws might get more careful examination by the people if their price tags were made out in larger type with red ink and displayed prominently by every committee reporting out a bill.

More properly called "fiscal-note," this new concept requires an official, responsible forecast of what each bill is going to cost the public in the future instead of leaving it to guesswork or ignoring it. Some bills—especially unwise or exploitive legislation—are written up so as to hide their fiscal details. With proper "fiscal - note" required, however, taxpayer groups and other information media are able to alert the public. With increased pressure for new spending projects in every state, this procedure is being increasingly useful.

Growing Yet Bigger
The Digest article summarized the enormous size of present governmental machinery in the 50 state governments, with their 91,000 counties having thousands of cities and towns with all kinds of districts for schools, police, fire, and so on. The article notes that, leaving out defense and foreign affairs, these operations make the federal government look puny. Local and state governments spent \$62 billions in 1962, plus \$8 billions more in federal aid. It was noted that California and New York together have 60 per cent as many employees as the federal government!

State and local governments face greatly increased costs because of migrations to the cities, increased services of public schools and colleges, enlarged health care programs, stepped-up highway construction, and other growing needs. State and local debt has boomed 470 per cent from 1947 to 1963, a rate of increase 28 times that of federal debt. More than ever, the states are in a strain to find money for governmental functions. Economy is a necessity, and the practice of sound fiscal policy is just as essential to state governments as it is in the federal business.

Local Action Best
When legislatures, civil servants, and taxpayers associations are able to watch the price tags, our states will more likely maintain sound fiscal operations. Surely, we shall have to accept the growth of state activities as normal, but even though accelerated it should be orderly and justifiable. Instead of a rush by our states toward the federal treasury, careful state and local patrolling can keep the government down where it ought to be: where the people live. With state and local responsibility, it will remain there for the most part, and we shall have no need of a turn-back of federal tax to the states.

We must urge the states to do for themselves what they must and should do, for this is one escape from the stultifying centralization that creates an America more dependent, less free, and farther from realizing its potential. The spending of taxpayers' money, and just how an accounting should be

achieved, makes a continuous story in each of the 50 states. It is a process every citizen should be concerned about. A great deal of money is going to be spent in every state, but it will not always be spent well unless the citizens assume a watchful attitude.

Vigilance Required

At the federal level, President Johnson and his staff have made some effort to scrape the barnacles from the bureaucracy, as one of the cabinet members puts it, but Congress has had little mood to economize. The President has encouraged the executive branch to look for "outmoded programs which once may have essential but which time and events have overtaken." The Budget Bureau has locked horns with Congress a few times, but economy threats are unable to reach entrenched programs. State or national, old bureau neither die nor fade away.

If the Veteran's Administration needs to close 11 hospitals or the Department of Agriculture lop off some 43 research projects, as the Budget Bureau maintains, it ought to be done without having to move heaven and earth. Mr. Johnson and his staff deserve public support in keeping up the economy pressure.

Assateague Now Public Park

The long fight to save Assateague Island for public recreation ended in victory last week on a Senate vote which gave final approval to Senator Daniel B. Brewster's (D-Md.) Bill and sent it to the President for signature.

The final congressional approval came on a voice vote a little more than two years after the original introduction of the Bill by its chief sponsor, Senator Brewster.

In his statement to the Senate, Maryland's senior Senator said, "We can now begin the development of one of our untapped but unequalled recreational resources. From this day forward, each resident of Worcester County and every citizen of Maryland and the District of Columbia will be free to enjoy Assateague's beauties or profit from its proximity."

"Today this Island is the largest undeveloped seashore between Cape Cod and Cape Hatteras. To-

morrow it will rival both in attracting visitors from every state. Our children and our children's children—this generation and the next—will be grateful for our timely action."

The final vote came on the Brewster Bill (S. 20) which recently passed the House after a series of clarifying and technical amendments. The new language, which made no major change in the substance of the legislation, was entirely acceptable to the Bill's sponsors.

Deer blinds are most effective and necessary for good shooting in open areas where deer come out to feed early and late. — Sports Afield.

America's oldest living mammal, the possum has forebears that date back unchanged to the age of the brontosaur, mastodon and saber-toothed tiger.—Sports Afield.

County School

Repair Bill Low

Broken windows in county schools cost about \$3,600 this year to repair, according to Tolbert F. Lawyer, school maintenance supervisor.

About half of the damage, he said, is due to vandalism, the other half to accidental window breakage.

"We have not had much damage here, comparatively," he said. "It cost \$118,000 to repair broken windows in schools in Washington, D. C. last year."

Lawyer said glass to repair broken windows cost about \$1,800, and installation costs run about the same.

He said most of the damage this year was at the old Brunswick High School, which "everyone knew all summer would be closed this fall."

Damage at that school alone cost more than \$700 to repair, he said, but the vandals responsible have been apprehended by Brunswick policemen and will be made to pay for the damage.

Other schools in the county did not suffer much damage this summer, he said. A few broken windows was the extent of the vandalism in Frederick City schools.

Civil Service

Sets Exams

The following list of new examinations was released this week by the U. S. Civil Service Commission through its boards of Examiners:

Motor Vehicle Operator (Chauffeur and Truck Driver) for positions at Fort Detrick and Fort Ritchie, Md. Closes Oct. 19, 1965.

Clerk, GS-2 and 3 at Letterkenny Army Depot, Chambersburg, Pa. Closes Sept. 27, 1965.

Card Punch Operator, GS-2 at Aberdeen Proving Ground, Md. Closes Oct. 15, 1965.

Electronic Equipment Maker, Installer and Repairer, for positions at Fort Ritchie and La Plata, Md., Berryville and Woodbridge, Va., and Washington, D. C.

U. S. Game Management Agent in locations from Maryland to Florida. Closes Sept. 30, 1965.

Landscape - Gardner for positions in Maryland, Virginia and Washington, D. C.

Office Assistant in Clerical and Office Machine Operator fields in Washington Metropolitan Area, GS-1 thru 4. Closes Sept. 27, 1965.

Full information and application forms may be obtained by contacting Mr. William F. Krepp, Examiner in Charge, Room 204, Post Office Bldg., Hagerstown, Maryland 21740. Phone 731-1000, Ext. 1244.

OUR LIBRARY

With fall coming up there will be plenty of need for the "First Aid Manual," by the American National Red Cross. Just to list a few topics of the contents will give you an idea of the value of this book. The Why and How of First Aid, Wounds, Shock, Artificial Respiration, Poisoning by Mouth, Injuries to Bones, Joints and Muscles. Burns and Ill Effects of Heat and Cold. Common Emergencies. First Aid Skills for Standard Course. Section Two. Advanced First Aid Course Theory and Skills. The Human Body, Special Wounds, Common Emergencies, Advanced First Aid

Skills and First Aid Kits and Supplies.

Added to our reference is the new World Almanac and book of facts for 1965. Complete National Election Returns and full coverage of Olympic Games, to mention only a few items to be found in the famous almanac.

"Life in Lincoln's America," by Helen Reeder Cross. The wonderful story of how America worked and played, traded and traveled from 1800-1865. Those years — almost the exact span of Lincoln's life—were a time of great changes. A child might be born in a frontier log cabin and yet spend his later days in a big, bustling city. The author has drawn on old diaries, letters, and eyewitness accounts to give the reader the feeling that he is living in those days himself.

Another book on Abraham Lincoln is from the "American Heritage Junior Library," by Earl Schenck Miers.

"The New Meaning of Treason," by Rebecca West. Rebecca West continues into the 1960's her brilliant account—long a classic—of traitors in World War II and after, adding the atomic spy cases (the Canadian spy ring, Fuchs, the Rosenbergs, etc.), the later paid spies and defectors (such as Lonsdale, Vassall, Pontecorvo), and the Word-Profumo—Christine Keeler scandal.

"The Continent We Live On," by Ivan T. Sanderson. Adapted for young readers by Anne Terry White. A famous naturalist acts as your guide on this fascinating journey throughout the length and breadth of North America.

"Designs for a Family Christmas," by Ernestine Coffey and Dorothy Minton. This book is for you if you feel that Christmas has become too commercial—if the children have taken the joy out of the holidays with their frenzied "I want"—if you would like to lead your family back to the real spirit of Christmas you'll enjoy this book for it is designed to help you create a more meaningful, joyous, heartwarming, celebration of this beloved holiday.

"Personal Recollections of Joan of Arc," by Mark Twain. Freely translated out of the ancient French into modern English from the original unpublished manuscript in the National Archives of France by Jean Francois Alden. A peculiarity of Joan of Arc's History. The details of the life of Joan of Arc form a biography which is unique among the world's biographies in one respect: It is the only story of a human life

which comes to us under oath, the only one which comes to us from the witness-stand. The official records of the Great Trial of 1431, and of the Process of Rehabilitation of a quarter of a century later, are still preserved in the National Archives of France and they furnish with remarkable fullness the facts of her life. The history of no other life of that remote time is known with either the certainty or the comprehensiveness that attaches to hers.

"Bodies and Spirits," edited by Dan Herr and Joel Wells. Here are thirteen stories of suspense and superstition, with Catholic backgrounds. This book has a collection of frightening tales of murder and the mystic, will delight devotees of the fantastic.

PE Plans

Atomic Research

The Potomac Edison System announces plans to join with 13 other investor-owned electric utilities in a new study program dealing with an advanced type of nuclear reactor for generating electric power.

The nine-month study will be a joint undertaking of the East Central Nuclear Group (ECNG), of which PE is a member company, and the General Atomic Division, the nuclear-oriented branch of General Dynamics Corp.

"This study is part of a continuing program to keep ourselves up to date on new developments which may improve the economy and reliability of electric service," said Charles D. Lyon, president of the PE System.

The new program is directed at the evaluation, preliminary design and cost estimation for a large-sized nuclear power plant which would have the capability of "breeding" or creating large amounts of new nuclear fuel. This factor is unique, Mr. Lyon said, in that most reactors in nuclear stations now in operation consume the nuclear materials they use as fuel.

The new concept to be studied—a 1,000 megawatt gas-cooled fast breeder reactor—has the potential for creating up to 60% more fissionable fuel than is consumed in its own operations. The value of this surplus fuel would greatly offset costs of the reactor's fuel cycle.

"Our service area is close enough to large coal deposits to insure an ample supply of this fuel for some time to come," Mr. Lyon said. "However, we must

keep alert to any new promising development in the industry to maintain our technical competence and thereby continue to supply low-cost power in abundance."

Mr. Lyon said the study program will be directed toward a nuclear power station that might be constructed sometime in the late 1970's.

Confers Religious Orders At Seminary

The Most Rev. T. Austin Murphy, D.D., conferred religious orders at Mount Saint Mary's Seminary, at the opening of the institution's academic year.

The First Clerical Tonsure was conferred on the following area seminarians: Joseph F. O'Brien, St. Thomas Aquinas Parish, Baltimore; Rowland L. Savage, St. Lawrence Parish, Baltimore; Joseph R. Scheerer, St. Augustine Parish, Williamsport; and Frederick D. Tindler, Immaculate Conception Parish, Towson.

The major order of Diaconate and the minor orders of Exorcist and Acolyte were also conferred. Among the candidates were: Kenneth Muller, Diaconate, Shrine of the Little Flower, Baltimore; James O. McGovern, St. Agnes Parish, Catonsville, and Stuart T. Wilson, Immaculate Conception Parish, Towson; the latter two for minor orders.

SPORTING TIPS

Catfish! Catfish!

Want to live up your catfishing? Around slaughter time, get to know a farmer and put the entrails of sheep, hog or cow in a burlap bag. Weight with rocks and sink in your favorite catfishing hole. Catfish will come from three states away to get in on the free meal.

Flea House
A good way to rid your cabin of fleas is to sprinkle table salt on the floor. One pound to 200 square feet should do it. Works in your dog house, too.

Plastic Tubing
Plastic tubing such as is sold in electronic parts stores shrinks to half its size when heated with a match. Good to slip on the end of ropes to prevent fraying. Smaller sizes make good bodies for streamer flies and popping bugs. Can you think of any other uses?

Curtain Rod Case
Long tubes curtain rods come in make good rod cases. Give them a couple of coats of varnish to make 'em stand wet weather.

No Fish Smell
Carry a tube of toothpaste on fishing trips if fish smell on your hands bothers you. Wash with toothpaste after handling fish. Breath cleansers take away odor and flavoring agents in toothpaste leave a nice smell on your hands.

Hook Removal
If a stubborn hook won't come out, tie a loop in a fishing line about 18 inches long. Insert the loop over hook, cutting line if necessary to get it on. Then jerk hook free using the increased pulling power of the loop.

Wild Turkey
A wild turkey can spot you through a knothole 50 yards away. Or so they say. Don't ever wear red and black clothes turkey hunting. Too easily spotted. Green, brown or camouflaged clothing is the stuff.

Flare Fire Starter
Regular road flare like truckers use are sold widely and do double duty as a good fire starter on wet wood.

Plan New Road For Thurmont Area

The Frederick County Planning Commission has released basic changes in the Master Highway Plan which it presented publicly at an open hearing this week in Frederick.

A change in the classification system was made to bring the Master Roads Plan designations

in line with existing state and county roads systems.

In accordance with plans of the new Thurmont Town Planning Commission and State Roads Commission plans for the Thurmont area, an expressway has been located south of this county town and Md. 81 has been swung north of the town, turning southward to tie in with Md. 550 where it

intersects with the expressway.

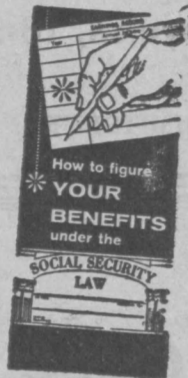

The Old Timer
"Knowledge comes from taking things apart, wisdom from putting them together."

intersects with the expressway.

Mr. and Mrs. Guy Ridenour and Mr. and Mrs. Lester McLaughlin visited Thursday and Sunday with the Ridenour's baby daughter, Lori, who underwent surgery for the second time recently at Johns Hopkins Hospital, Baltimore.

An all-new sporty Ranchero (above) paces Ford Division's 1966 parade of light trucks. Longer, wider and lower, the Ranchero also has additional brawn with a pickup box that has been enlarged to a full 39.1 cubic feet. A new Custom model blends luxury car features with pickup truck utility. Ford's N-600, medium-duty truck (below) with stake-body has a bigger, roomier cab for 1966, with an inch of new headroom and more than two inches of additional legroom. A flatter and larger steering wheel and new molded fiberglass headlining are other new features.

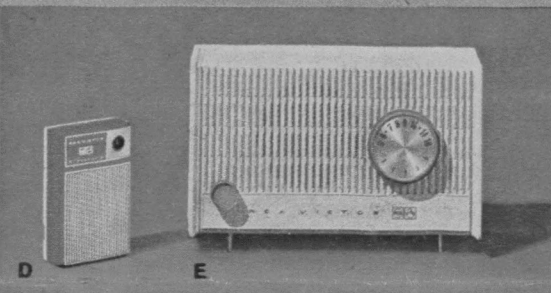

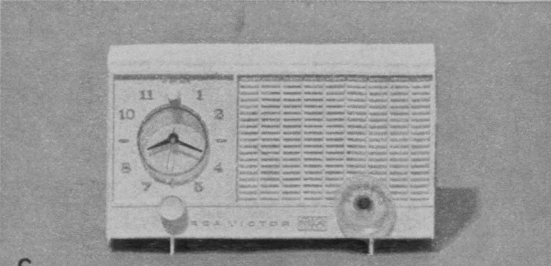

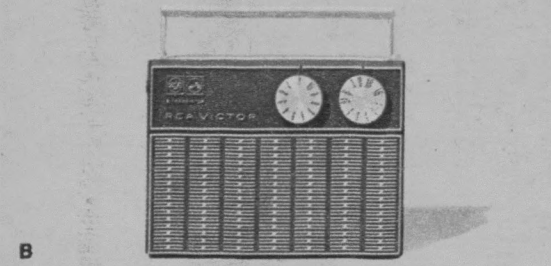

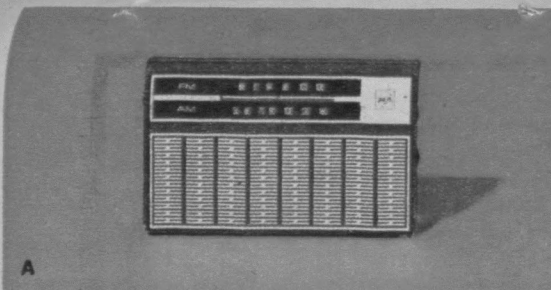

A distinctive roof line is featured on two new Thunderbird models for 1966, the Town Landau, top, and the Town Hardtop. Both cars offer an elegant "town car" look as contrasted with convertibles and the traditional and more sporty Thunderbird roof line continued on 1966 Thunderbird hardtops. New sportiness is reflected in the styling of all 1966 Thunderbirds and in availability of an optional 428-cubic-inch performance engine. Other new options include a Stereosonic tape player integrated into the radio in the center console, and fingertip automatic Highway Pilot speed control integrated into the steering wheel. An overhead console containing door-ajar warning light, wheel, an overhead console containing door-ajar warning light, fasten-seat-belt warning light, emergency flashers and low-fuel warning light is standard on all "Town" models. All 1966 Thunderbirds will be in Ford dealer showrooms October 1.
